REFUGEES SOON TO BE RETURNED TO THEIR HOMES

Fort Wingate Will Be Abandoned After This Week; General Bliss Makes Visit of Preparation Unannounced.

Gallup, N. M., Sept. 22.—Fort Wingate will be abandoned after this week.

General Bliss was at the Fort for a short period this week, coming up from Fort Bliss, Tex., alone and unannounced. Ordinarily, when a general comes to a post for a visit of any kind he is met at the station by one or two companies of infantry, or a couple of troops of cavalry. This time, however, the general dropped into the post in the early morning, made a brief inspection and dropped out again on the next train back. He left important orders, however, to be carried out by the men in charge of the post.

General Bliss evidently had orders from the war department at Washington to remove the refugees from Fort Wingate to Eagle Pass, port of entry in Texas, but first to interview Governor McDonald as to whether or not the state of New Mexico had any use for the refugees as laboring men. If the state wished to employ them, they were to be released from the fort. The state officials did not take kindly to the matter of turning them loose in New Mexico, it seems, and immediately the general proceeded to Fort Wingate and left orders that preparations be made to remove the refugees to Eagle Pass, Texas, as soon as transportation facilities would arrive at the station.

The greater portion of the wire, posts and lumber used in constructing the stockade at Fort Wingate will be torn up and taken to Eagle Pass. Sixty flat cars have been ordered from the Santa Fe Railroad company for the purpose of hauling this material away.

The sidetrack capacity at Wingate station is not very extensive and it is difficult to handle more than one train there at a time. For that reason the material and the refugees will be taken away in sections. A certain number of the tents will be removed, and a portion of the fence. This will be loaded on the cars and shipped on ahead of the refugees, who will be under guard of the infantry and cavalry until trains arrive to take them out of the post also.

About three thousand of the refugees will be taken away. The balance which constitutes the commissioned officers of the interned Mexicans and their families, over 1,000 in number, will remain here in a small stockade under guard of a company or two of infantry.

It is more than probable that none of the officers of the interned will ever return to Old Mexico. They all fear for their lives. It is understood that all of the refugee enlisted men have been pardoned by the president of Mexico and they will be allowed to enter the national guard.

Mr. John Becker took a party of Belen people to Albuquerque in his Hudson Wednesday. Among them were Mr. and Mrs. L. C. Becker, M. Enderstein and Lucie Becker. They returned Wednesday.

363 Refugees Back in United States

New York, Sept. 23.—The Red Star liner Zealand came in today from Liverpool with 363 passengers from the war zone of Europe. All had stories to tell. Dr. H. H. McCarthy, of Spokane, Wash., was in Berlin when a train containing several hundred wounded British prisoners passed through. A crowd of hoodlums attacked the train, crying: "Kill the English!"

As the prisoners were shackled at the ankles and wrists they were helpless. A squad of German cavalry charged the mob and beat it off with the broad sides of their sabers. Henry De Sibour, American, living in London, who was marooned at Belfort when the war broke out, on one field saw squares of dead German soldiers. Those on the outside had fallen, but the bodies toward the center of the square were standing upright, leaning against each other. Officers told him machine guns were responsible for this wholesale killing.

Mrs. De Sibour declared a near relative of hers who is an officer of an English railroad had told her his line had transported 250,000 Russian troops across England. The steamship Aquitania, she was told, was used to transport the troops to a remote point of the French coast.

Market Quotations.

From Kansas City Stock Yards: September 21, 1914.

The following quotations of today's market are furnished by C. J. Mustion Wool Commission Co., 1739-1743 Genesee St., Kansas City, Mo.:

Hides and pelts in good demand. Green salt natives, No. 1 country hides, 17c per pound. Green salt side branded, over 40 lb. flat, 15c per pound. Green salt calfskins, No. 1, 19c per pound. Deacons, 65c to \$1.00 each. Slunks, 25c to 50c each. Dry salt hides, 21c per pound. Dry flint hides, 28c per pound. Green horse hides, large \$5.00 each. Dry full wool sheep pelts, 15c per pound. Green salt sheep pelts, 50c to \$1.50 each. Green salt shearings, 20c to 40c each.

New Mexico Farm Statistics.

[From the last Federal Census Reports.]

There are 35,676 farms in New Mexico.

The approximate land area of this state is 78,401,900 acres; 11,270,000 acres are in farms and 1,467,000 acres of the land in farms are improved.

The average size of a New Mexico farm is 316 acres.

The farms of this state represent a capital investment of \$159,447,000.

The farmers of this state own \$4,122,000 worth of implements and other farm machinery.

The value of domestic animals, poultry and bees on the farms of this state is \$43,494,000.

The average value of a New Mexico farm is \$4,469.

New Mexico State Indebtedness.

New Mexico State Debt, \$1,237,000.

National Debt, \$1,028,000,000.

World's Debt, \$42,000,000,000.

Washington, D. C., Sept. 23.—The United States Department

VILLA IS IN OPEN REVOLT ANEW IN MEXICO

CARRANZA SENDS STATEMENT OF SITUATION TO REPRESENTATIVES IN CAPITAL OF UNITED STATES

Neither Conqueror of Chihuahua Nor His Military Officers Will Participate in National Convention Called for October 1 in Mexico City.

El Paso, Texas, Sept. 23.—Gen. Francisco Villa, dominant leader in northern Mexico, tonight denounced the central government headed by Venustiano Carranza and announced his independence in a statement sent to the Associated Press.

This placed the state of Chihuahua in open revolt against the party in power at Mexico City as well as Sonora, the next border state to the west, where Governor Maytorena previously had proclaimed his independence of the constitutional party as represented by Carranza.

General Villa's statement in which he asserted that besides Chihuahua and Sonora, Zacatecas and a part of Coahuila, Carranza's native state, had joined the uprising and was received here as follows:

"In view of the attitude of Venustiano Carranza, which has been the cause of great injuries to our country, and since he could never govern a republic nor make happy a country which aspires to a real democracy, a country which wants to have a government emanating from the people subject to interpretation of the national feelings, we have been obliged to renounce him as commander in chief of the constitutional army in charge of executive power, and we have declared hostilities, being disposed to fight until the last, until he is forced to abandon his power and place the same in the hands of the real representatives of the people, who are disposed to remedy all evils of the republic and to direct it through the proper road of progress and well being.

"We are not in favor of personalism, but we are defenders of principles, consequently we will not fight against any of the other chiefs who have contributed to the downfall of the usurper, Huerta, our difficulties being against the person of Venustiano Carranza. The states of Sonora, Zacatecas and a part of Coahuila have seconded up to the present our attitude, and shortly we will be joined by adherents from other localities. General Obregon will leave tonight for El Paso, Texas.

"FRANCISCO VILLA."

of Commerce and Labor has just completed a report giving the indebtedness of the different states of the Union, the nation and world. The data contained in compilation relate to the year 1912. The state debt of New Mexico is shown to be \$1,237,000 that year, compared with \$870,000 twenty years previous, which is an increase of \$367,000. The per capita state debt of this state in 1912 was \$3.41 and \$5.42 in 1890. At the present time about four-tenths of one per cent of the population of the United States is in New Mexico and four-tenths of one per cent of the total debt is credited to this state.

The National debt of the United States is \$1,028,000,000 and the indebtedness of all countries of the world is \$42,000,000,000. European countries owe about two-thirds of the World debt and their proportion is rapidly increasing, as the present war, according to experts, is costing on an average of \$50,000,000 a day.

Child Ill; Woman Who Wielded Knife May Be Released

Because her eldest daughter is sick and two young children are dependent upon her Mrs. Matilda Muniz, who lives in the northern part of Albuquerque and who was sent to jail for chasing a girl with a butcher knife, may be released soon.

Under Sheriff Dick Lewis, learning of the conditions at the Muniz home, conferred with District Attorney M. U. Vigil as to the most expeditious method of securing her release. The attorney advised her taking an appeal with a view to asking Judge H. F. Reynolds, of the district court, to suspend sentence when she appears before him. The appeal was prepared and the woman will be haled in the district court within a few days.

Mrs. Leffering spent Wednesday in Belen.

Mrs. John Becker, Jr. spent Sunday in Albuquerque.

Fred Faulkner was an Albuquerque passenger Tuesday evening.

George Harper, who went east several weeks ago, returned last night.

Mr. and Mrs. Frank Fischer and daughter left Friday for an extended trip to California.

Mr. John Kroehne arrived last night from El Paso for a visit with Mr. and Mrs. John Becker.

Miss M. Enderstein left Wednesday night for Plainview, Texas, on a visit to Mr. and Mrs. Reinken.

Mrs. S. K. Cotton entertained a number of her friends Wednesday evening in honor of Mrs. O'Connor, who is visiting Mrs. Jefferson.

Belen's New Postmaster

Mr. George Hoffmann, who several days ago was appointed postmaster, in place of Mr. John Becker, resigned, assumed his office Monday morning. The selection of Mr. Hoffmann for this position is about the best that could have been made, for, although a Democrat, he is fully qualified for the place, being competent, honest and a good citizen, under whose administration, we are sure, the affairs of the postoffice will be conducted in a business-like manner. Mr. Hoffmann has been a resident of Belen for the past twelve years and has always been identified with every movement for the progress and welfare of this, his adopted home. Success to him.

Peace in Sonora Up to Governor Maytorena.

Nogales, Sonora, Sept. 22.—Reports to the contrary notwithstanding, General Juan Cabral said today that General Benjamin Hill, whom he was sent here to succeed, would turn over the office of military commander of the state of Sonora to him. Cabral's principal difficulty now seems to be with Governor Jose Maytorena, who was ordered to relinquish military affairs and retire to Hermosillo to devote himself to civil functions.

General Cabral conferred with the governor here today, seeking to induce Maytorena to surrender command of his troops.

Cabral, in an interview, said if the governor would do this, Hill would turn over his command also, and affairs in Sonora, now on the verge of open rebellion, would be promptly settled.

General Cabral said he was not inclined to correct the governor, but desired to give him time to consider the effects and results of continued rebellion.

Basket Ball

The present outlook of the Girls' Basket Ball team is very encouraging.

The material for two strong teams has been secured and the girls intend playing very hard. Some interscholastic games are promised and possibly we can secure games with out-of-town teams. The girls all have their uniforms and by the first of next week they will be seen on the field. Everyone come out and watch them practice and show the girls their work in the athletic field is appreciated by the people of the community.

Divorce Statute a Good One to Make Over, Declares a Santa Fe Attorney.

That the state legislature, which meets again in January, may be asked to change the divorce law in New Mexico on the ground that the abandonment clause is what lawyers term "un-guarded" is the view held by several Santa Feans who have had occasion to study the law.

It has been said that divorces are easy in New Mexico because the law has the abandonment clause, but does not set a limit. Therefore, should a man or woman leave tomorrow, the next day a complaint charging abandonment could be filed and divorce asked, and unless the defendant appeared to make a denial it is up to the court, under the law, to grant the request for a divorce.

Commenting on this statement, a Santa Fe attorney said: "With a convenient judge, it is true, that a hardship might be worked on a married man or woman, especially in a case where notice is not served in person, but is published, the notice perhaps escaping the attention of the person who is traveling. Ordinarily, however, it seems safe to say that a judge uses discretion in granting a divorce. Taking a little joy ride to Lamy or going out to see the cliff dwellings would not be considered abandonment. The law should be safeguarded, however, and it does appear that there is room for improving the wording of our divorce statute."

HUERTA DEBT IS GIVING CONCERN IN WASHINGTON

It Is Believed That Carranza Expects to Repudiate Obligations for Which Predecessor Pledged Customs:

Washington, Sept. 22.—Officials here expressed the opinion today that any problems arising over the pledge of Mexican customs by General Huerta to guarantee a foreign loan probably would have to be dealt with by the future Mexican government. This is one of the questions being considered in the negotiations now in progress for the transfer of authority at Vera Cruz to the Carranza government.

The question looms large upon the horizon as General Carranza was reported at the time of the consummation of the loan as saying he would not recognize the integrity of any loans advanced to the Huerta regime. The United States is interested in this question because part of the bonds are held by a group of American bankers. The loans amounted to \$78,000,000 and were made last autumn.

A French group of bankers holds 45 per cent of the bonds, German and English groups 19 per cent each, while 11 per cent of the bonds were disposed of in the United States. The remaining fraction is held by Mexican bankers. To guarantee this loan, 38 per cent of Mexican import and export duties were pledged.

More than a million dollars collected in customs dues at Vera Cruz during the American occupation is impounded to be turned over to the Mexicans when the United States retires from the port.

Burns' Resignation Not to Be Accepted.

Unless his health should fail, State Senator Thomas D. Burns, of Tierra Amarilla, Rio Arriba county, will likely serve out his term in the state senate. Although the senator has been at a mineral spring resort, he is said to be in good health. The rumors that have been spread that the governor will issue a proclamation calling for an election of state senator from Rio Arriba county on November 3, has been definitely knocked in the head.

In conversation with friends and officials the governor has made it quite plain that he is not thinking of accepting the resignation, or of calling an election or of providing for any senatorial vacancy from Rio Arriba county or any other county.

Miss Lucie Becker gave a miscellaneous shower Friday in honor of Miss Villa O'Brien, who will soon be married. Quite a number of young people were there and the bride-to-be received many useful as well as pretty gifts. Delightful refreshments were served.

Beneficial Effects of Secrecy

While the average newspaper
reader feels disposed to throw
down the newspaper he is read-
ing with an expression of dis-
satisfaction with the paucity of the
real war news it contains, sober
reflection soon convinces him
that there is a splendid method
behind that system of censorship
that has so completely veiled the
stage of war operation in Eu-
rope.

When war was declared in
the present European emergency
one of the first steps taken by
each of the belligerents was to
effectually cut out the custom of
having all the great battles
fought by the newspaper cor-
respondents of the world, who
were accustomed to plan and ex-
ecute great battles with utter
disregard of the proprieties of the
occasion. The various war of-
fices of the belligerent countries
concluded they were going to
run this thing to suit them-
selves, and so far they have suc-
ceeded in the undertaking most
admirably. The newspaper cor-
respondents have been com-
pelled to wait for details and ac-
cept these details just exactly
what was handed out to them.

This is a new policy in the
art of making war, and while it
has served to keep the world
very largely in a state of sus-
pense, it has demonstrated its
wisdom in more respects than
one since its inauguration. About
all the world knows is the fact
that the great nations of Europe
are engaged in the greatest war
in the history of the world and
right at that point authentic in-
formation abruptly ceases. The
movements of that war only come
to light after they have been
successfully executed.

As an illustration of the thor-
ough manner in which the war
movements are veiled, it may be
mentioned that Great Britain
succeeded in bringing 60,000
Indian troops across the Pacific
to Vancouver in more than 20
transports, rushed them across
Canada to the Atlantic, loaded
them on additional transports
and landed them in France

without more than a hint of the
procedure appearing in the news-
papers. Not one line in the
Canadian papers of the 70 rail-
road trains bearing these men
over 3,000 miles across Cana-
dian territory, and not one line
of the fleet required to carry
them to France!

Truly, the new secret military
methods are effective in more
ways than one!

Waterloo, Old and New

New York Times.

So different are the conditions
and methods of modern warfare
from those of a hundred years
ago that no duplication at all
exact of the battle that made
Waterloo perhaps the most fa-
mous of villages is to be expect-
ed. Indeed, that great plain,
even more bare now than it was
when the Napoleonic adventure
ended there, is not likely to be
the scene of serious fighting, but
the operations of other days will
none the less have their effect on
those on a vastly greater scale
which seem to be impending, for
everything connected with the
Waterloo campaign has been
studied with minutest care by the
officers of every army, and it is
a "terrain" with which the mili-
tary experts are more familiar
than with any other in the world.

Books enough on the subject
have been written to fill a big
library, and maps enough to fill
another are available. This in-
sures both sides against what
may be called topographical sur-
prises and mistakes of the king
that had so much influence on
the result of the former conflict.
The uncertainties of war, how-
ever, are innumerable, and it is
not to be assumed that the next
battle of Waterloo will be a more
scientific execution of pre-arran-
ged plans. The personal equa-
tion and the laws of chance will
come into play now as then.

It is some what discouraging
that the same nations, though
differently grouped, meet in dead-
ly conflict after the lapse of a
full century, and meet, too, just
when preparations were making
to celebrate a century of peace
between ourselves and one of
them. Yet the people who have
been indulging in cynical com-
ment on the present setback to
the peace movement forget that
this cataclysmic eruption may
be a final clearing away of the
remaining conditions that pro-
duce war, the beginning of a
more sincere and more lasting
amity among nations the world
over. The horrors of war have
always been realized, but never
as now have its unreason and
absurdity been appreciated.

And nothing can long survive
that.

Thirty-fourth Annual New Mexico State Fair Biggest State Fair in the State's Biggest Year

RALPH C. ELY
President of the State Fair Commission.

Roy Francis, the greatest aviator in America, will give two exhibitions each day during the Fair. Among other stunts, Lieutenant Francis will demonstrate the use of bombs now being made by aerial warfare in Europe.

SIMON STERN
Treasurer of the State Fair Commission.

AN INVITATION TO THE PEOPLE BY THE STATE FAIR COMMISSION

BUILDING a state fair is not to be accomplished in a single year. In 1913 this Commission, then newly appointed, had its first experience in fair management. It was a helpful experience, since it enabled us to see more clearly the way to improvement, to extend the interest in the institution and to broaden its usefulness. We have no apologies to make for the State Fair which will be presented to the people of New Mexico during the six days from October 5 to 10. It is not as big as the state fairs of the old states of the east; but it has made a substantial growth, and we are confident that you will recognize that growth in increased volume of exhibits in their improved character and in the general spirit of statewide co-operation and statewide progress which will characterize the exposition.

The effort of this Commission has been directed mainly to carrying out the terms of the act creating the State Fair; to make it "for the development of the resources and the encouragement of the industries of New Mexico." The exhibits this year will be the most varied and most extensive ever made at a state fair. They will be of a character which cannot but prove of material educational value and an inspiration to progress. The amusement feature has not been overlooked. Realizing that one special purpose of the State Fair is to provide healthy amusement and recreation, an amusement program of clean, interesting sports and features has been provided. We extend a cordial invitation to the people of New Mexico to visit the State Fair. Attendance means co-operation and your co-operation means success for the Fair in all its aims.

We can assure you a helpful, interesting week, filled with healthy amusement.

Cordially yours,

THE NEW MEXICO STATE FAIR COMMISSION.

By RALPH C. ELY, President

CHARLES A. SCHEURICH
Of the State Fair Commission.

Cowboys, 200 Navajo Indians and United States cavalrymen will join in the picturesque celebration of the first annual Albuquerque Rodeo from October 5 to 10. Six full days of exciting frontier sports.

THOS. F. BINKERT
Secretary of the State Fair Commission.

THE PEOPLE OF ALBUQUERQUE JOIN WITH THE STATE FAIR COMMISSION IN EXTENDING A CORDIAL INVITATION TO THE PEOPLE OF NEW MEXICO TO ATTEND THE STATE FAIR. ALBUQUERQUE AS THE HOSTESS CITY, IS CO-OPERATING ACTIVELY WITH THE STATE FAIR COMMISSION IN EVERY POSSIBLE WAY FOR THE BEST RESULTS FROM THE INSTITUTION.
THE FAIR COMMISSION THIS YEAR HAS PROVIDED A REAL, SURE ENOUGH PROGRAM OF WIDE AWAKE AMUSEMENTS. THERE WILL BE SOMETHING DOING EVERY MINUTE FROM EARLY MONDAY MORNING, OCTOBER 5TH, UNTIL QUITE LATE SATURDAY NIGHT, OCTOBER 10TH.
ALBUQUERQUE PEOPLE PROPOSE TO SUSPEND THEIR ORDINARY OCCUPATIONS DURING FAIR WEEK THIS YEAR FOR THE PURPOSE OF HAVING A GOOD TIME AND ASSISTING IN THE ENTERTAINMENT OF THE REST OF THE STATE. AN INDIVIDUAL SET OF KEYS TO THE CITY IS PROVIDED FOR EACH AND EVERY VISITOR.
IF YOU DON'T SEE WHAT YOU WANT, ASK FOR IT.

LAST STATE FAIR IN HISTORIC FAIR GROUNDS

This year's State Fair, in all probability, will be the last to be held in the historic old fair ground in the old town of Albuquerque, which has served for the annual exposition for so many years. The State Fair was formally created as a state institution by the last session of the legislature, the conditions of its creation and permanent location at Albuquerque being that the city of Albuquerque should provide a suitable site for the State Fair grounds, where permanent buildings and other improvements might be erected, and that a sum equal to that appropriated for maintenance and operation by the state, should be contributed by the citizens of Albuquerque.

Albuquerque, through its Commercial Club, has donated to the state a tract of land consisting of 160 acres of level ground lying just east of the University of New Mexico, on the mesa east of the city. The position of the ground is ideal. On the west it overlooks the city and the Rio Grande valley, while on the east, north and south the broad mesa is walled in by towering mountain ranges.

It has been demonstrated by the University of New Mexico's plant and

ROY FRANCIS
Premier American Aviator
Who will be seen in two flights daily during the State Fair.

well, that abundant water can be developed on this tract for stock and for irrigation. The University authorities recently purchased land which brought their boundaries right alongside those of the State Fair grounds. The Albuquerque Golf club has built a handsome club house nearby and it is now probable that arrangements will be made for a joint pumping plant which will provide irrigation and domestic water for the three institutions. Drilling of wells on the fair grounds will begin immediately after the close of this year's fair and an irrigation plant will be in operation for the coming spring and irrigation season.

The State Fair Commission fortunately was enabled to secure the services of a famous landscape gardener last year who made an elaborate design for the laying out of the fair grounds tract. As planned the grounds will center around a huge oval mile

track and will be parked throughout. Shaded roadways and walks will lead from stands and pavilions to exhibit buildings, paddocks and pens and the plant when carried out as planned will be one of the ideal fair ground plants of the country. This will require several years; but it is now expected that the first of the buildings, the track, stands, stables, etc., can be built during 1915 and that the grounds will be ready for the State Fair in the fall of next year.

The Fair Commission has expressed gratification at the co-operation which has been extended throughout the state in its work for a broad gauged state exhibit. This has been manifested not only by increased exhibit space demands for this year, but by a general spirit of support for the Fair as a state institution which it has become in every way. The Fair as an institution has gained materially in standing outside of the state since it passed from an Albuquerque into a New Mexico owned and maintained institution. This has been shown in a large increase in demand for exhibit space from foreign manufacturers, stock growers, etc.

As soon as the active construction begins on the state fair grounds the trolley system of Albuquerque will be extended to the grounds and to the University of New Mexico.

Of the twenty-seven important county, community and district fairs held in New Mexico this year, all were arranged so as not to conflict with the State Fair; while a majority were held immediately before the State Fair in order to permit the fullest co-operation with the central institution.

The old fair grounds which will be used this year for the last time, have been cared for more than twenty annual expositions. However, there will be little regret at their abandonment since it is clear that with the establishment of the institution on its own grounds, it will rapidly take its place among the great state institutions of the kind. The designs for the buildings and grounds give an attractive picture of a little village of fair structures, long lines of modern stalls, pens and stables; a splendid track banked for fast motor racing as well as for horse racing; a baseball field as level as a polished floor, and exhibit halls which will house the rapidly increasing volume of fair exhibits which this year have overwhelmed the old buildings. The state already has come to look upon the annual fair as a state institution, meriting the support of the whole state, as shown by the active co-operation given this year. With its own grounds and buildings the annual New Mexico State Fair is destined to become an active agency in the upbuilding of New Mexico.

AMUSEMENTS FOR THE PEOPLE AT 34TH ANNUAL STATE FAIR

IN PLANNING the 34th Annual State Fair the commissioners, with a view of experience behind them and with a closer acquaintance with the wishes and tastes of the people of New Mexico, have arranged an entertainment program, covering the six days from October 5 to 10, inclusive, which is not only far superior to that offered a year ago but which in its cost, in variety, in its clean-cut character, is beyond question the finest amusement program ever offered in New Mexico. It represents a money outlay of \$20,000, spent with discriminating care by men thoroughly experienced in the business; who have known where to look for the very best attractions and who have been contented with none but the best.

A Great Race Meeting.

An original appropriation of \$8,000 was made for horse racing at this year's fair, and this, by stake races and special purses, has been increased to a total of \$10,000, the largest purse offered by any fair in the Rocky Mountain region, exclusively for horses. By becoming a member of the Santa Fe racing circuit, to which Denver and Pueblo now belong, the commission has been able to make sure of the best harness and running horses now on western tracks. Not only will there be more horses but they will be of a better grade than have ever raced in New Mexico before. Two harness races of three heats each or more, will be run each day, for purses of from \$500 to \$1000 each. From two to four running races will start every day, the purses ranging from \$100 to \$250 for each. To those who care for good horse racing this feature of the amusement program undoubtedly will prove satisfactory.

Other Racing Events.

In addition to the horse races a vast variety of racing is offered, including motorcycle and automobile speed tests and competitions, races between automobile and aeroplanes, bicycle races, cowboy and Indian relay racing, cavalry racing, and something sensational in the way of special races.

Roy Francis, Air Master.

Two years ago Roy Francis, of the Lincoln Beachy Aviation Company, appeared in Albuquerque in the most sensational flight ever seen in the state. Since that time Francis has become one of the foremost birdmen of the world, rivaling Beachy himself in skill and daring. Francis is under contract to fly twice daily on each day of the fair, and he will carry out his contracts. Not only will he make his flights, but he will add all of the aerial dips, and daring glides and tumbles and on top of all will give an exhibition of bomb throwing, just as it is being practiced in the great war in Europe. This is a special feature which Francis is adding for the New Mexico Fair only. Francis will race an automobile, flying only a few feet above the motor car. He considers this the most daring of all aviation stunts.

The Great Greggs.

Each day also before the grandstand will appear the Great Greggs. These two men, in automobiles, play leap-frog in mid-air, performing what are said to be the most remarkable feats of the kind ever attempted. The Greggs alone, according to those who have seen them, are a day's stirring entertainment.

A Clean-Cut Carnival.

The Fair Commission this year went personally into every detail of the shows presented by the Carnival Company which will provide the street shows. They have found a company with sixteen separate and distinct shows, all new, and interesting, and every one perfectly clean. The commission has reserved the right instantly to close any show not up to the highest code of good taste. With this carnival come several exciting free acts, which will be seen daily on the down-town streets of Albuquerque. The carnival is made up throughout of an unusually satisfactory class of people. It is free from any form of petty graft, and is one of the finest entertainment features ever brought into the state.

The Albuquerque Rodeo.

The first annual celebration of the Albuquerque Rodeo, combining a lot of old favorite features with some startling new ones, is a new feature of this year's entertainment program. Starting with an original purse of \$500 for roping and rough riding the Fair Commission has raised this from time to time until a total of \$1500 are offered for these amusements in the form of an all-week wild west celebration, terminating Saturday in Frontier Day. Each day during the Fair Week preliminary contests in roping and rough riding will take place before the grandstand. On Saturday those who have won in the elimination contests will take part in the finals for the big purses. Bures and goats will be used in the roping trials and a bunch of outlaw horses, guaranteed to furnish the roughest kind of riding have been secured. The best riders in the whole west have entered this contest and the Rodeo promises to give thrilling amusement every day.

Navajos and U. S. Cavalry.

As a part of the Rodeo 200 Navajo Indians, straight from the reservation are on their way to Albuquerque. The Indians will take part in the roping and riding contests, relay races and frontier sports and at night will give their wonderful tribal dances on the down-town streets.

Troop K of the 12th United States Cavalry, one of the crack troops of the service, is making a practice march from Fort Wingate and will

LOTS \$5 LOTS \$5 LOTS \$5 LOTS \$5 LOTS \$5
Now is the Time to Buy a Piece of Real Estate in Albuquerque, Before the Values Advance. The eyes of all the people of New Mexico are turned towards the Metropolis of the State. Here is an opportunity within the reach of the salaried man or woman, young or old, to get on the ground floor and secure a valuable real estate holding, to have as a home or when you come to live in the big city, or to hold and reap a big profit upon.

Cut out the coupon at once,—don't wait till tomorrow,—do it now, sign your name and address and mail it. The first applications received will get the choicest locations.

These lots are in the heart of the built-up WEST-END residence and bungalow section of the City, where the leading professional and business men have already built their homes.

We guarantee this proposition and our firm is the biggest real estate company in Albuquerque today. We will agree to represent lot purchasers and re-sell their lots at advanced prices. All you have to do is to sign up a contract, pay \$5 down and \$5 per month on a lot. The prices of these beautifully situated lots range from \$100 to \$250 per lot. Two car lines to the property, ten minutes walk to Post Office, sewer, water and other city conveniences to each lot.

Why Not Own a Lot in Albuquerque?

AGRICULTURAL AND LIVE STOCK EXHIBITS AT THE STATE FAIR

AGRICULTURE and Live Stock. New Mexico's foremost industries, are the vitally important features upon which greatest emphasis has been laid by the State Fair Commission, and to the encouragement of which the most persistent effort has been put forth. From the reservations of space made up to and including September 15th, as reported by the Secretary of the Fair Commission, this year's exhibits will be the largest in volume, the most varied and the finest in the history of the state. It will be, in a word, a real state fair; brilliantly illustrative of the resources and the wonderful possibilities of New Mexico.

The agricultural and live stock sections of the State Fair have been divided into eleven separate and distinct departments, each under direction of a superintendent who is an expert in his special line. These departments and their superintendents are as follows:

Department Superintendents.
(A)—Horses and mules: A. L. Martin, Superintendent. (B)—Dairy cattle and dairy products: R. O. Campbell, Superintendent. (C)—Range cattle: H. Newman, Superintendent. (D)—Sheep, wool and goats: George Arnot, Superintendent. (E)—Flocks and swine: O. B. Clark, Superintendent. (F)—Poultry: John Reub, Superintendent. (G)—Agriculture: E. P. Humbert, Professor of Agronomy at State College, Superintendent. (H)—Horticulture: Fabian Garcia, Professor of Horticulture, State College, Superintendent. (I)—Apiary: Edgar Goebel, Superintendent. (K)—Industrial clubs for boys: W. T. Conway, Extension Department, State College, Superintendent. (N)—Farm machinery and pumping plants: Fred W. Fisher, Superintendent.

The other five Fair exhibit departments include those in Education, Domestic Science, Art, Minerals, and Better Babies, all of them of importance in this year's comprehensive showing of the resources of the state.

A Great Exhibition Insured.
With almost every available foot of exhibit space contracted for and with the necessity of several extensions to buildings to meet the space demand, the exhibit department of this year's State Fair will surpass even the great exposition held at Albuquerque during the National Irrigation Congress in 1908. Every county in the state is represented in the agricultural and live stock departments, by county, community or district exhibits which are very extensive. In the greatest crop and range year New Mexico has ever had it is not surprising that the Fair Commission, after six months of unremitting work, should be rewarded with a response from every nook and corner of the state.

Agriculture and Horticulture.
For field crop, truck crops and fruit crops the Fair Commission this year offered purses aggregating \$4000 in cash to the winning exhibitors. This is the largest purse ever offered for these divisions and will make the exhibits very profitable to the winners. Because of the season of bountiful rainfall the dry-farming sections are expected to make unusually good showings of grain while the fruit growing districts are known to have what experts say is generally considered the most successful crop year on the state's records. There will be huge exhibits from every fruit district from the Pecos to the San Juan.

The Live Stock Section.
It is in the live stock section, however, where the big surprise in this year's Fair will come to the visitor who has attended previous fairs. This year will show the enormous strides in the range cattle and sheep industry in this state; the miraculous growing up of the dairy industry; the development of a hog growing industry; and the appearance of a blooded stock-breeding industry. The few straggling cattle and sheep of former years are a thing of the past in New Mexico. This year will see long strings of pens filled with high grade sheep of many breeds; sheep for exhibit purposes only and sheep for sale, offering the sheep grower an opportunity to size up and compare the stuff he wants for his improved flocks. The National Mohair Growers' Association's meeting will bring an extensive exhibit of Angora goats from New Mexico and other states. There will be a creditable horse show and the blooded horses will not all be imported stuff. Sixty stalls of dairy cattle were filled in a single week when the entries were opened in this department. The dairy industry will be shown at the fair from the cow on the hoof to the butter in the mould. There will be an especially fine and complete showing of dairy equipment, machinery, etc.

The growth of the New Mexico stockmen in importance is illustrated by the demand for space from exhibitors of live stock from outside the state. The breeders of high grade stock have discovered the fact that New Mexico stockmen are in the market for better live stock; better bulls and better bucks, and that the State Fair is the place to show good stuff. While these imported animals are not permitted to compete for purses their display is quite as valuable to the stockman as from a practical standpoint as is any feature of the fair. Stock breeders from all parts of the west; stock buyers from the feeding sections; in a word the live stock industry of the southwest will center at the Fair as a rendezvous for the stockmen of the state, and this year is one to encourage the development, the improvement and the more scientific management of the live stock industry in this great stock growing state. In addition to the cash prizes offered by the fair commission there are many special prizes and trophies which make competition worth more than glory to the winners in the live stock sections.

Farm Machinery and Equipment.
Lacking buildings again this year the fair commission will house the machinery exhibits in tents, or place such as will not be injured by open air, in the open; but this section will be the largest on record. There are several causes for the increased exhibit of farm machinery. The year is prosperous; the industry is rapidly growing and the farmers of the state are better aware of the value of up-to-date farm machinery and equipment than ever before. This year the exhibits will include everything from a plow to a motor truck; in fact the motor truck exhibits will be very extensive including all of the most satisfactory makes for farm and road use. Silos, now being built in every corner of the state, will be shown, as will irrigation pumping machinery in elaborate variety. This machine exhibit will be a liberal education in modern farm equipment and efficiency.

The Poultry Show.

Every foot of space where a pen can be placed has been reserved in the poultry and pet stock division. The New Mexico poultry show for several years past has been a marvel to visitors from other states; but this year will surpass them all both in number of birds exhibited and in their class. The poultry industry has been especially favored. Valuable cups have been offered by poultry breeders' associations, by merchants, by poultry specialists and poultry journals, by New Mexico officials, by newspapers and by individuals interested in the growth of the industry. For weeks two of the largest retail houses in Albuquerque have had their windows filled with poultry cups. According to John Reub, superintendent of the poultry division, every large town and almost every village in the state will be represented in the show; and on September 15th it was feared that exhibits might have to be refused because of lack of exhibit space. Arrangements were necessary for additional floor space for the exhibits contracted for on that date.

The development of poultry growing as a money making business is second only to the miraculous springing up of the dairy industry; as will be shown at the State Fair.

Educational Lectures.

A feature of the exhibit department this year will be a comprehensive series of lectures on practical farm and live stock topics by experts in the various sections. Some of these lectures will be illustrated and all will be of absorbing interest to the practical farmer and stock grower. They are part of the program of the Fair Commission to make the State Fair not only an amusement week for the people, but a week of practical instruction and opportunity for growth and improvement to the people of the whole state. All these lectures will, of course, be free within the fair grounds.

THE "BETTER BABIES" CONTEST A NOVEL FEATURE OF THE FAIR

THIS is distinctly not an old-fashioned baby show. It is not designed as an exhibition of frills and ribbons and pretty clothes. It is planned as a contest for points in the physique of little boys and girls, from one to three years of age, to determine which are the healthiest specimens of infant humanity, and with the object of encouraging better babies, and more intelligent care of the little people of this state.

This briefly is the "better babies" contest, which promises to be a star feature of this year's State Fair. Organized under direction of the Albuquerque Woman's club the contest has taken hold of the interest of parents and especially of mothers all over New Mexico. Babies have been entered from every nook and corner of the state and the showing of infants promises to be a marvelous exposition of New Mexico's chief product.

The prizes which are offered, while a secondary consideration in the eyes of the women in charge of the contest, are many and very valuable, and the little people who win them will have acquired some very attractive possessions.

Any child between the ages of 1 and 3 years may enter the Better Babies contest. Entries may be made

until 12 o'clock noon of October 3d and should be addressed to Mrs. John W. Wilson or Mrs. George S. Klock, Albuquerque, N. M. The following entry blank is included for the benefit of mothers who may not have received one of the entry cards, and will be accepted on or before noon of October 3d when mailed to either of the ladies named above:

Entry No.
Name of Child
Age Months Days
(Figure Age to October 5th, 1914)
Sex
Parent's Name
Address
Street and No.

Each child entered will be given the benefit of a careful physical examination by a commission of expert physicians who have specialized in the study of child life. The decision of the judges will be made strictly upon the findings of this commission, and will be a question of physical points. Examinations will be conducted on October 5, 6 and 7 from 1 p. m. to 3 p. m. and notice of time of judging appointment will be mailed to all whose entries are received on or before October 1st.

WOMAN'S WORK TO HAVE IMPORTANT PART IN THIS YEARS EXHIBITS

The exhibit sections of this year's state fair devoted especially to the work of women will be well worth careful attention. For the first time statewide interest and competition have been aroused in the departments of Art, Domestic Science, Needle Work, Weaving, etc., and the entries are many and of exceptional high character. Applications for permission to enter needlework have been received from New Jersey in the east to California in the west and many exhibits of work from other states will be made, although these do not enter into competition for the cash and special prizes offered.

Mrs. J. H. Toulouse of Albuquerque, the superintendent of the department of needlework and domestic science (Fair exhibit Dept. K), succeeded this year in securing cash prizes for county contests for almost every county in the state. These cash prizes, chiefly offered by bankers and banking houses, are limited to the county of residence of the donor, and the result has been to bring work from almost every county in New Mexico, all of which, as a matter of course, enter the competition for the general prizes and prizes offered by the Fair Commission.

Work in the needlework section and domestic science department may be entered up to noon of Monday, October 5th, when all exhibits must be in place in the exhibit halls.

HOW THE PACIFIC MUTUAL IS HELPING TO BUILD UP A STATE

The policy of the Pacific Mutual Life Insurance Company of California, in lending its surplus funds on New Mexico real estate has had a far-reaching influence upon the development of the state. The Pacific Mutual was the pioneer in this form of investment, being the first of the great life insurance companies to make such loans in New Mexico. Other strong companies, satisfied that where the Pacific Mutual invested they also could invest, have now followed suit and the result has been a vast impetus to development throughout the whole state.

F. B. Schwentker, state agent for the Pacific Mutual, from the first had absolute faith in New Mexico and its ultimate future. That faith, combined with painstaking attention to the interests of the policy holders and the high character of Pacific Mutual life, health and accident insurance have made the New Mexico agency of this company the largest, strongest and busiest in the state. The largest single policy ever written in New Mexico, \$50,000, on the life of C. J. Laughren of Deming, was issued by the Pacific Mutual. In fact, a majority of the large policies issued in this State in recent years have been written by the Pacific Mutual.

Hon. Saturnino Baca

20th Century Spirit

Hon. Saturnino Baca, who returned last week from a tour throughout the county, reports that never have conditions been more favorable for the educational uplift than at present, and the people throughout the rural precincts manifest great enthusiasm in the betterment of their schools. Mr. Baca is one of the most efficient county school superintendents in the state and is doing all in his power to fulfill his duty in the most effective manner. Mr. Baca has made this trip over roads which he says are anything but transitable for the only purpose of personally inspecting the school houses and seeing that everything was ship shape for the beginning of the present term, he has ordered the building of several new school houses in the different precincts and the necessary repairs in others. There is plenty of money in the funds, he says and most of the rural precincts will have nine months of school this year.

As little as we may think about it, we are living in an era of enlightenment and great opportunities. Never in the history of the world has there been such a spirit of interest in education. Even the rural communities are falling over each other to get a good school in reach of every little tot. In the present age a knocker on education is considered a demon in the sight of all decent people. Folks may disagree on divers things, but when it comes to boosting the common schools and lending their moral help to the cause we all meet on the same level and work to the same end. In the same degree that education increases—crime and all the misery and woe connected with same decreases. Education is

responsible for the good roads movement that is sweeping our country at present. Education causes one to look upon our churches and Sunday schools with reverence and respect. Educating our youths means that we are preparing them to grapple with the everyday problems of life and fitting them for any responsible position that offers itself.

An exchange says that a good many editors are said not to know much. The trouble is, they know a lot of stuff that they dare not tell. They know who drinks and they know the ladies who deviate from the straight and narrow path of rectitude, and the boys who smoke in alleys and dark places, and the girls who are out auto riding till the roosters crow for daylight. They know the fellows that are good to pay and they know the fellow who can't get trusted for a tobacco sack full of salt. They could guess at once why some fellows are as they are, and they can guess closely what they do to make themselves so. They know enough to make one of the red-hottest, rip-snorting, high-gear, triple action, chain-lightning editions you ever read, but they also know it is best for the community and themselves to let the law take care of humanity's development and publish only such news as will do to read in the house. Editors generally pursue this policy and thereby live longer and get more enjoyment out of life.—Ex.

Notice of Sale.

In the District Court of the County of Valencia, State of New Mexico.
Ruperto Jaramillo, as Acting Sheriff of the County of Valencia, New Mexico, and as Trustee under a deed of trust executed by J. W. Beardsley and Mabel M. Beardsley, his wife, July 24th, 1909, and W. F. Witt, No. 1893 wer, Plaintiffs,

against)
J. W. Beardsley, Mabel)
M. Beardsley, Andrew)
H. Beardsley, Richard)
Pohl, Johanna Pohl,)
James P. Chase, John)
Becker and Anthony)
C. Pederson, Defendants.

Under and by virtue of a judgment and decree made and entered on the 10th day of August, A. D. 1914, in the above entitled cause, made by the District Court in and for the said County of Valencia, State of New Mexico, wherein the above named plaintiffs did obtain judgment against the above named defendants, J. W. Beardsley and Mabel M. Beardsley, in the sum of One Thousand, Six Hundred and Forty-One and 81.100 Dollars (\$1,641.81) with interest thereon at the rate of Six (6) per centum per annum from the 25th day of July, A. D. 1914, until paid, together with the sum of One Hundred and Fifty (\$150.00) Dollars as attorney's fees for the plaintiff's attorney, together with all of the costs of the said cause accrued and to accrue and the expense of the sale of the property herein after described and ordered to be sold.

I, the undersigned, appointed

as Special Master by the said court to make a sale of the property hereinafter described to satisfy the judgment and costs and expenses, do hereby give notice that I will, in pursuance of and in obedience to the said decree and order of sale, on the 12th day of November, A. D. 1914, at the front door of the County Court House, in the Precinct of Los Lunas, County of Valencia, State of New Mexico, at the hour of Ten o'clock in the forenoon of said day, sell to the highest and best bidder for cash, to satisfy the plaintiff's judgment and other sums above mentioned, including the interest to accrue thereon, the following described property, to-wit:

"Beginning at the southwest corner of section thirty, township 6, north of range two east, thence running north eight hundred and sixty-two (862) feet, thence east to the east line of lot four, thence south along the east line of lot four to the west line thereof, thence west to the place of beginning. Containing about twenty-six and one-half acres, (26 1-2). Also the south half of the southeast quarter of the southwest quarter of section thirty, township 6, north of range 2 east, containing twenty acres, [20]."

PHILIP JAGELS,
Special Master.

JOHN BECKER, P. M.

Proposing an Amendment of (to) Section One of Article Five of the Constitution of the State of New Mexico.

S. J. R. No. 19; Filed March 17, 1913.

Be it Resolved by the Legislature of the State of New Mexico:

That Section One of Article Five of the Constitution of the State of New Mexico be amended so as to read as follows:

Article V.

Section 1. The executive department shall consist of a governor, lieutenant-governor, secretary of state, state auditor, state treasurer, attorney general, superintendent of public instruction and commissioner or (of) public lands, who shall be elected for the term of two years beginning on the first day of January next after their election.

Such officers shall, after having served two consecutive terms, be ineligible to hold any state office for two years thereafter.

The officers of the executive department except the lieutenant-governor, shall, during their terms of office, reside and keep the public records, books, papers and seals in office at the seat of government.

Proposing an Amendment of (to) Section Two of Article Ten of the Constitution of the State of New Mexico.

S. Sub. S. J. R. No. 10; Filed March 15, 1913.

Be it Resolved by the Legislature of the State of New Mexico:

That Section Two of Article Ten of the Constitution of the State of New Mexico, be amended so as to read as follows:

Article X.

Section 2. All County officers shall be elected for a term of two years, and after having served two consecutive terms, shall be ineligible to hold any county office for two years thereafter.

Joint Resolution No. 12. Joint Resolution Providing for the Amendment of Article VIII of the Constitution of the State of New Mexico, entitled, "Taxation and Revenue," S. Sub. S. J. R. No. 12; Filed March 15, 1913.

Be it Resolved by the Legislature of the State of New Mexico:

That Article VIII of the Constitution of the State of New Mexico, entitled "Taxation and Revenue," be and the same hereby is amended so as to read as follows:

Article VIII.

Taxation and Revenue.

Section 1. Taxes levied upon tangible property shall be in proportion to the value thereof, and taxes shall be equal and uniform upon subjects of taxation of the same class.

Sec. 2. Taxes levied upon real

or personal property for state revenue shall not exceed four mills annually on each dollar of the assessed valuation thereof except for the support of the educational, penal and charitable institutions of the state, payment of the same debt and interest thereon; and the total annual tax levy upon such property for all state purposes exclusive of necessary levies for the state debt shall not exceed ten mills.

Sec. 3. The property of the United States, the State and all Counties, Towns, Cities and School Districts, and other municipal corporations, public libraries, community ditches and all laterals thereof, all church property, all property used for educational or charitable purposes, all cemeteries not used or held for private or corporate profit, and all bonds of the State of New Mexico, and of the counties, municipalities, and districts thereof shall be exempt from taxation.

Sec. 4. Any public officer making profit out of public monies or using the same for any purpose not authorized by law, shall be deemed guilty of a felony and shall be punished as provided by law, and shall be disqualified to hold public office. All public monies not invested in interest bearing securities shall be deposited in National Banks in the State or in Banks or trust companies incorporated under the laws of the State, and the interest derived therefrom shall be applied in the manner prescribed by law.

Sec. 5. The Legislature may exempt from taxation property of each head of a family to the amount of two hundred.

Sec. 6. Lands held in large tracts shall not be assessed for taxation at any lower value per acre than (than) lands of the same character or quality and similarly situated, held in smaller tracts. The plowing of land shall not be considered as adding value thereto for the purpose of taxation.

Sec. 7. No execution shall issue upon any judgment rendered against the board of county commissioners of any county, or against any incorporated city, town or village, school district or board of education; or against any officer of any county, incorporated city, town or village, school district or board of education, upon any judgment recovered against him in his official capacity and for which the county, incorporated city, town or village, school district or board of education, is liable, but the same shall be paid out of the proceeds of a tax levy as other liabilities of counties, incorporated cities, towns or villages, school districts or boards of education, and when so called shall be paid by the county treasurer to the judgment creditor. 9-24 10-1-8-15

STATE OF NEW MEXICO. State Corporation Commission of New Mexico.

Certificate of Filing. United States of America, ss

States of New Mexico)

It is Hereby Certified, that there was filed for record in the office of the State Corporation Commis-

sion of the State of New Mexico on the 27th day of June, A. D. 1914, at 9 o'clock a. m.

A duly authenticated record of the proceedings for the voluntary dissolution of Bibb Brothers, Incorporated, a corporation of this state, whose principal office is at Grants, New Mexico, and Simon Bibb is the agent in charge thereof, upon whom process may be served, has complied with the requirements of Chapter 79 of the Acts of the 36th Legislative Assembly of the Territory of New Mexico, entitled "An Act to regulate the formation and government of corporations for mining, manufacturing, industrial and other pursuits."

Now, Therefore, It is further certified that the said corporation did on the 27th day of June, A. D. 1914, file in this office a duly executed and attested consent in writing to the dissolution of said corporation, executed by more than two-thirds of the stockholders thereof.

Wherefore, by reason of the premises, it is considered that the said Bibb Brothers, Incorporated, should be dissolved, and that this its certificate of dissolution should forthwith issue for publication. In Testimony Whereof, the Chairman and Clerk of said Commission have hereunto set their hands and affixed the seal of said Commission, at the City of Santa, on this twenty-seventh day of June, A. D. 1914.

(Seal) M. S. Groves, Chairman. Attest: Edwin F. Coard, Clerk.
