NEGROES LYNCHED!

Hangings by Wholesale at Quincy, Mississippi.

Cleveland Will Make No Nominations till the Senate Acts.

For Worshippers at the Great Religious Parliament.

PROCEEDINGS OF CONGRESS.

Atterden, Miss., Sept. 15.—A quadruple lynching occurred at Quincy, two weeks ago. A man named Woodruff and five children were taken violently ill and two died and the others are dying. A number of the neighbors are also ill. An examination revealed a package of Roush on Rats, and Ben Johnson, a negro, was suspected and lynched by unmasked men. The next day Malinda Jackson, Ben's wife, and Lu Carter, his mother-in-law, were examined by a jury and testified to a knowledge of Ben's crime. They were also lynched by the mob. Malinda also testified that Russ Broyles, a well known negro, furnished the poison. He hid out, but was found yesterday and hanged to a tree. There are no arrests. At the recent trial Woodruff testified against Jackson, and this is believed to be the reason for the poisoning.

Cracking His Whip.
Washington, Sept. 15.—President Cleveland, it is announced, will make no nominations for internal revenue collectors until the report of the silver law is settled. There are twenty-six collectors ready to be filled.

The senate committee on Indian affairs has voted to reject all nominations where appointees are sent from one state to another, unless satisfactory representations are made that he is endorsed in the state to which he is sent. This ruling would dispose of several of Cleveland's appointments.

The excess of government expenditures over receipts during July and August averaged \$5,000,000 for each month. Thus far this month the excess of expenditures is \$500,000.

Fire Worshippers.
Chicago, Sept. 15.—The religious parliament was opened this morning by a noted exponent of Zoroastrianism, Eved Sheraji Dababnia Barucha, of Bombay, who defended the tenets of the fire worshippers. Hawra Yatsubich and Prince Chandibrat, of Siam, advocated Buddhism.

CONGRESS.

SENATE.
Washington, Sept. 15.—After routine business, the repeal bill was taken up and Lindsay, of Kentucky, made his first speech in the senate.

Denouncing the President.
San Francisco, Sept. 15.—At a meeting of the Chinese law and order league last night speeches were made denouncing Cleveland. A resolution was passed demanding the impeachment of the president. A memorial was sent to congress asking appropriation sufficient to enforce the treaty law, and protesting against extending the time for Chinese to register.

BOLD ROBBERY.

Track Men Near Williams Held up by Highwaymen.

Special to Citizen.
Williams, Sept. 15.—Yesterday afternoon two highwaymen held up the track walker near this place, and took his watch and money. The watchman at the tunnel was knocked senseless, and the clothing, money and watches of the section gang were taken. The track was obstructed, showing that a train wreck was planned, but it was discovered in time to prevent a disaster. A posse is in pursuit of the bold highwaymen.

Terrible Fire.
Benton, Tenn., Sept. 15.—Near Millersville, the residence of Milton Myers, a wealthy farmer, was burned, and three little children were burned to death. Mrs. Myers jumped from a second story window with an infant child in her arms, and is in a precarious condition.

Stock Market.
New York, Sept. 15.—Stocks weak and lower. At 11 o'clock this morning weak.

Confederate Reunion.
Birmingham, Ala., Sept. 15.—This is the day originally fixed for the Confederate reunion at this place, but owing to the fact that most of the old soldiers are engaged in agricultural pursuits it was

decided to postpone the event until October, a few days prior to the dedication of the only confederate monument on northern soil, that in Oakwood Cemetery, Chicago. It was also thought that better rates could be obtained from the railroads later in the season and a larger attendance thereby secured. Hon. W. C. P. Breckinridge, of Kentucky, will be the orator of the day on the occasion of the dedication of the monument.

Keely Day.
Chicago, Sept. 15.—Keely graduates from all over the world gathered at the World's Fair grounds to celebrate "Keely Day." This is the first instance in which an individual has been singled out by the fair authorities for so high an honor, all the other special days at the fair having commemorated some great event or been devoted to the citizens of some particular state or city. Formal exercises were held in Festival Hall at which addresses were delivered by Dr. Leslie E. Keely and others prominent in the movement and by representatives of the World's Fair management. The remainder of the day was devoted to sight-seeing. A feature of the fire-works this evening will be a monster fire portrait of Dr. Keely.

Forest Fires.
Marshall, Wis., Sept. 15.—This city is in a panic on account of the terrible forest fires in the vicinity. People are coming in for refuge by the wagon load. Several surrounding towns are laid waste, and smoke fills the air. The Wisconsin Central trains are abandoned north of here, and are running over the Omaha road. At Powell fifteen families are burned out. No deaths are reported.

Officials Shot.
Hot Springs, Ark., Sept. 15.—Suits were filed this morning against ex-Mayor John Loughran, ex-clerk, Wm. Shaughan, and ex-treasurer, B. D. Rupley, and their securities, for recovery of alleged shortages in their account to the city in the sum of twenty-two thousand dollars. Criminal proceedings may follow.

GRADY SHOT!

Fatal Shooting Affray Near Flagstaff.

Special to The Citizen.
Flagstaff, Sept. 15.—Tom Grady was shot and killed by Jose Bernardino Marquez yesterday, at Mesqui station, on the Grand Canyon stage road, sixty miles northwest of this place. The sheriff and deputy and other parties are in pursuit. Grady's remains were brought here.

Delivering Eulogies.
Washington, D. C., Sept. 15.—The regular order of business was set aside in the house of representatives today. The entire session was devoted to the delivery of eulogies on the late Congressman Chapman, of Michigan. The large attendance of members and visitors attested the popularity of the deceased congressman.

Steamer Munk.
London, Sept. 15.—A large passenger steamer struck and sank the Danish steamer Nifa, off the Sovereign light ship last night. The crew had time to take to the boats and were saved. The unknown vessel disappeared without offering assistance.

Heavy Hauling.
Hancock, Mich., Sept. 15.—On the mineral range trail this morning three masked men held up the Calumet and Hecla mine treasurer of \$70,000. Everything is in turmoil, but no bloodshed.

Heavy Storm.
Madrid, Sept. 15.—The province of Toledo was swept by a violent storm last night. Forty corpses have been recovered. A relief train was dispatched from Alcazar.

Chicago Markets.
Chicago, Sept. 15.—Wheat dull and steady; December, 72; corn, slow and firmer; Sept. 41; provisions, slow; October pork, \$8.45; lard, \$8.45; ribs, \$8.45.

Has the Cup.
Fresh Water, Isle of Wight, Sept. 15.—The Ivanho and Britannia left this port this morning for the great yacht race at Cape May for the champion cup.

Fatal Explosion.
Cleveland, Ohio, Sept. 15.—A boiler of a threshing machine exploded this morning at Logans, killing the engineer, named Jones and three other men.

Yellow Fever.
Atlanta, Ga., Sept. 15.—George Menefield and wife are quarantined on account of being exposed to yellow fever. There are two hundred refugees here.

Will Not Attend.
Washington, Sept. 15.—The president has announced that neither he nor his wife will attend the World's Fair.

Consent to Miss.
Washington, Sept. 15.—The president has nominated Dr. Chas. S. Hazeltine, of Michigan, consul to Milan, Italy.

ARIZONA.

News from All Portions of the Neighboring Territory.

Mining in Big Bug district is having quite a boom.

Governor Hughes will make a trip to Washington shortly.

Arizona contributed nearly \$25,000 to the United States internal revenue tax last year.

Residence lots can be purchased in Prescott from \$25 up to \$500, according to location.

A human skeleton is reported to have been found by a cowboy in the vicinity of Seligman recently.

Snack thieves around Phoenix are making things mighty interesting for some of the suburban residents.

The Courier says that there are no mosquitos in Prescott. Neither are there in Albuquerque—in mid-winter.

It was an Arizona man named Pierce Ford, of Tucson, who was shot a few days ago in Chicago by John C. O'Connor.

The body of a Mexican was found lying in a Phoenix street Monday. No clue as to his identity or as to how he met his death.

Miners and prospectors are coming into the Harqua Hala district at the rate of twenty or thirty a day, and the camp is booming.

Arizona during the past seventeen years produced seventeen million dollars from her mines. Does not such a showing justify statehood?

There is nothing in the Arizona game law passed by the last legislature which prevents the killing of wild ducks at any season of the year.

The crop of alfalfa produced in Arizona this season has been so enormous that the farmers are at a loss to know how to dispose of it to advantage.

Reports from the San Pedro valley are that the grain crop is larger than ever before. All the threshing machines there are running every day.

Brown & Winsor have ten men at work taking rock from Alex. Harris' quarries, in South Prescott, with which they propose to partition the reservoir.

The prisoners of the penitentiary are being worked diligently in repairing the buildings and grounds under the superintendency of superintendent Gates.

Governor Hughes has his report completed and ready to send on. It is complete in every respect, and covers all the important questions of the territory.

George Bollinger, of Phoenix, will ship a carload of raisins to Chicago next week. These raisins are neatly packed and are as fine a lot as ever went from the valley.

The Indian school at Tucson has more children than can be accommodated. The commissioner of Indian affairs refuses to grant Mr. Billman's request for an additional allowance.

John Smithline, says the Mohave Miner, has just shipped seven tons of rich ore from the Lucky Baldwin mine to the Philadelphia smelter. The ore will probably average 350 ounces.

Judge J. R. Hawley, one of the pioneers of Phoenix, is dead. He was 74 years old. His sister wrote "Josiah Allen's Wife," and she resides on the old homestead near Watertown, N. Y.

The "pig weed" which grows so plentifully on the hills of different portions of Arizona is said to be one of the best fattening forage plants known; and that hogs and cattle fatten on it rapidly.

McKeen & Baker, of Los Angeles, have received the contract for constructing the levee at Yuma, which is to be constructed at the expense of the government. The price bid was \$6,625, or \$3,375 within the \$10,000 appropriation by congress.

About forty miles of new irrigating canals were opened up in Arizona during the last year, and the system of irrigation has, one might say, only commenced. This year the new enterprises will be vastly beyond those of any previous year.

At Mammoth, the Mohawk Co. is preparing to put in a Baber amalgamator to save its ore. The Baber process saves eighty per cent of the assay value of the ore, while heretofore the process used at the Mammoth mill has saved only sixty-five per cent.

A shocking accident happened at the Old Dominion Copper company's mine at Globe on Thursday last, which resulted in the supposed instant death of John Cadman and John A. McDonald. There were not four others killed is providential and seems almost a miracle.

Captain Buchanan, who arrived at Whipple recently, with his wife, is by no means a stranger to that section, but on the contrary may be considered a pioneer of Arizona. The captain was stationed at old Camp Date creek from 1866 to 1869, a period when troops on the frontier had duties other than regular routine duties of military life at a post.

The Prescott Journal says: The preliminary examination of Judge French closed Saturday evening about 6 o'clock. The testimony in brief in regard to the charge of embezzlement was to the effect that he had cashed a warrant drawn to the order of Miss Emma A. Cook, teacher in school district 34. The warrant was dated April 28, 1893, and the money had never been received by her. Two of the school trustees of Tip Top school district, as well as

the teacher, testified that only eight months school had been taught in the district and the former testified that the voucher for the ninth month was a forgery, so far as their signatures were concerned. The warrant issued for the ninth month was also cashed by defendant. The examination lasted all day and Justice Andrews held the defendant to appear before the grand jury on charges of forgery, embezzlement and presenting a fraudulent warrant for payment, fixing his bond on each charge at \$500 or \$1500 in all.

Alfred Trippel, of Mesa, has gone with a full crew to begin work surveying the thirty-six townships, contract for which work was awarded to Trippel & Sons some time ago. The territory to be surveyed lies in Graham and Cochise counties and is said to contain some as fertile land as there is in the territory.

A letter was received at the executive department at Phoenix from Olney Newell, secretary of the Chamber of Commerce at Denver asking that Governor Hughes appoint twenty delegates to the bi-monthly convention to be held at St. Louis on October 3rd.

Governor Hughes Monday appointed A. G. Williams of Casa Grande, member of the board of prison commissioners vice I. Farnsworth, resigned.

GIFTS TO LADY TEACHERS.
Two Costly and Beautiful Gold Watches and Chains to be

Given to The Citizen to Two of the Most Popular Lady Teachers

IN NEW MEXICO AND ARIZONA.

The Citizens offer two beautiful Gold Watches and Chains to the two most popular lady teachers in New Mexico and Arizona.

First—A Gold Watch and Chain, beautifully encrusted with diamonds, costing The Citizens \$125. This Watch and Chain is on exhibition at M. C. Nettleton's, this city, where the teachers and their friends are invited to call and see it.

Second—A Gold Watch and Chain, one of the prettiest in the city, costing \$75. This may be seen on exhibition at Arthur Everett's jewelry store.

At 6 o'clock in the evening on that day the contest will close, and the announcement of the winners' names will be made in The Citizen the next afternoon.

The decision to be made by the votes of the people. All you have to do is to cut out the coupon, which will appear in each issue of The Daily Citizen from this date until Thanksgiving Day, 1893, inclusive, write the name and address of the person you wish to vote for and forward it to The Citizens, Albuquerque, N. M.

Those who prefer not to be troubled with sending in coupons may record their wishes in the following manner: For each subscriber to The Daily Citizen six votes will be recorded for each week of subscription, and for each subscription at \$2 per year to The Weekly Citizen fifty-two votes will be recorded. For each daily subscription by mail twenty-five votes will be recorded for each month of subscription paid. Thus, if a person wishes to cast 52 votes, he will forward \$2 and indicate to whom he wishes the votes recorded, which will appear in each issue of the paper delivered by carrier, can have their votes recorded in the same manner by paying 60 cents per month in advance.

Here is the coupon. Cut it out, write thereon the full name and postoffice address of the person you wish to vote for, being careful to write plainly, and send or bring it to The Citizens, No. 113 Gold avenue, Albuquerque, N. M.

Before his death, Nestor Gonzales, of Lemitar, Socorro county, secured a new day book, and in it made disposition of his earthly effects to his wife and daughter.

Seven members of one Las Vegas family are either at the World's Fair now, or have already been there. What family or town can beat this record?

The postoffice at Las Vegas Hot Springs has been discontinued by order of the postmaster general, dated September 10th, 1893; mail to Las Vegas, N. M.

Before his death, Nestor Gonzales, of Lemitar, Socorro county, secured a new day book, and in it made disposition of his earthly effects to his wife and daughter.

W. J. Little and Mr. Fadlis have started a kiln near Old San Marcial where they will burn 100,000 bricks, a part of which will be used in building the new Episcopal church.

Although the board requested E. V. Chavez, of Socorro, to go to Chicago for New Mexico clay, he has declined, for the reason that it will be an unnecessary expense to the territory.

Wolves in many parts of New Mexico are very bad and unusually bold and destructive, killing calves and yearlings, while even two-year-old colts have been unable to escape their attacks.

A telegram was sent from the democratic members of the Las Vegas bar, protesting to the senate against the confirmation of J. B. M. Hemmingsway, as United States district attorney.

Ed. Andrews, Frank Hudson, A. J. Fischer, and Fred Studley, have entered as Santa Fe contestants for the bicycle meet at the Territorial fair, on Tuesday, Wednesday, Thursday and Friday of next week.

One of the finest ranches and pasture resorts in the southwest is the Davie's ranch in the Organ mountains, twenty-two miles from Las Cruces. The fine buildings and improvements alone cost more than \$15,000.

A strong earthquake shock was felt at La Jota, eighteen miles north of Socorro, at midnight, another shock, much stronger than the first, caused the inhabitants of the town to rush out into the night to escape the supposed danger of falling houses.

The territorial adjutant general's office has received from the United States war department a part of the quartermaster's stores so long due for the use of the territorial militia. There are 250 uniforms, shoes, shirts, overcoats, etc., in this consignment.

In compliance with instructions from the Indian bureau Supt. Carl has distributed the children now at the U. S. Indian school at Santa Fe as follows: Thirty-seven to the U. S. Indian school at Albuquerque; thirty-five to San Carlos Ap-

NEW MEXICO NEWS.

Interesting Items from all Parts of the Territory.

Tennis has regained its old-time popularity, at Deming.

The C. H. Dane cases are coming up at the present term of court at Las Cruces.

Rev. Father John B. Bruen, parish priest of Socorro, left on a trip east, the first in years.

Three large freight teams are now engaged in hauling coke to the Kingston smelter.

The new Clayton school house bonds are being printed preparatory to their negotiation.

An effort is being made to get up a week's races in Clayton, to come off sometime in October.

Hank Zargas is out again, after two months confinement in St. Vincent hospital at Santa Fe.

All the roads are now in shape between Hillsboro and Kingston. The rough makes its regular daily trips.

J. H. Knight fell from the coal chute at the smelter in Socorro and sustained serious injuries in his right arm.

The police force at Santa Fe did a good thing and "tied down" the plaza settlers by burying the feet in the earth.

W. B. Banker, of Las Vegas, contradicts the published allegation that he is an applicant for the court clerkship.

Robert Eaton has returned to Socorro from Mexico, where he has been holding an important position for some months.

Adolfo Hill has been appointed private secretary to Gov. Thornton, and J. P. Victory goes in as chief clerk to Secretary Miller.

A special agent of the postoffice department has gone to Mesquero and Amargosa to investigate the Vorhies anonymous letter affair.

The work of raising funds for the new gymnasium, at Deming, will soon be commenced by the ladies interested in the movement.

B. N. Allen, of Hilton, in the Sacramento mountains, has sent to the immigration office at Elddy a thirty-five pound nest of eagles.

Mrs. Weidman and Mrs. Goldhill are on their way to Corralles from Ohio to see their father, F. W. Estes, and will permanently reside there.

Mrs. E. A. Fiske and children, of Santa Fe, have safely reached St. Louis, where they are visiting Mrs. Fiske's parents, Mr. and Mrs. E. D. Franz.

Miss Mamie Martin, who occupies a government position in Washington, has returned to her duties, after a brief visit to her parents, in Socorro.

Seven members of one Las Vegas family are either at the World's Fair now, or have already been there. What family or town can beat this record?

The postoffice at Las Vegas Hot Springs has been discontinued by order of the postmaster general, dated September 10th, 1893; mail to Las Vegas, N. M.

ches to the U. S. school at Phoenix, A. T., and twenty-five Jicarilla Apaches to the U. S. school at Fort Lewis, Colo. These pupils that go south will be turned over to agents from those schools in a few days.

Taxes will be due on the first of January next. It is somewhat early to remind tax payers of this fact, but, as taxes must be paid, the sooner tax payers get ready to pay such on the date due the better for all concerned.

E. F. Hobart, ex-surveyor general, writes from Chicago that there is no pond of wool from New Mexico on exhibition at the World's Fair. It is barely possible that somebody who has not attended to it was entrusted to look after this part of the territorial exhibit.

ON THE ATLANTIC & PACIFIC.
Notes En Route from our Traveling Correspondent.

Rev. Jas. McNeill is expected to preach on Sunday.

There is an opening for a private bank, once pay days are assured, to be on time at Winslow.

Sheriff Campbell went to St. Johns and his ranch further on, last week, to be absent some time.

Winslow has a paper at Albuquerque to go in the free-for-all. Woods and Price enter the animal.

Judge Wilson lays down the law to evil doers, but still the title of judge has no great attraction for Holbrook's former postmaster.

Albuquerque caterer will wonder who the individual was that proposed to Manager Kunkel the idea of opening a dining room in the metropolis.

Master Mechanic John Pullar, is visiting his old home, Freeland, Michigan, and presumably the big fair. Clarence Aubright's leave depends on Mr. Pullar's presence, due Oct. 1.

Riding on freights is a privilege denied even to railroad men. The photograph of T. R. Gabel on a posse, and they are rare, will work the desired result with those wishing to ride in a caboose.

Mrs. Bessie Frank starts out with a good vote, and being popular among the people, besides having numerous friends, will find plenty of supporters in her favor for The Citizens' best prize.

T. T. Hines, of the brickmaking firm, will go to Needles for a time, after closing the work on Conductor Murray's house. The brick will be made here till spring, the stock in hand being sufficient for the balance of the year.

Several conductors and others denied themselves to the World's Fair upon hearing of a determination to hold a Mid-winter fair in San Francisco, and will take their leave, the former, later on, to enjoy a Pacific coast outing.

Melons in plenty are brought from St. Joe, 20 miles east. Julius Krenz gave an order for a lot, without specification, and some days ago the farmer brought in 175, which nearly prostrated the jolly and popular butcher.

Railroad men say that their pay is due from June 25, though the last pay day fell on July 25; always one month behind, allowing that pay checks arrive regularly. The delay is more keenly felt on the road than in Albuquerque.

When financial matters get into a more satisfactory condition, the railroad company will carry out a plan, long since devised, to erect a two story depot of flag-staff stone. The neglected appearance of the site would go to confirm this proposition.

Parties are getting out a fine grade of gypsum, ledge two feet thick, from a field three miles from town. It is pure white and is considered the finest to be had. A specimen car load was shipped to California recently. The article ought to command \$4 per ton.

A child of W. A. Parr is quite sick. With the loss of one at Mitchell and the unfortunate outcome at that place, the life of the Parr family in New Mexico and Arizona has not been a happy one. In his vacation, Winslow has offered Mr. Parr the best opportunities, and he has been busy since coming here.

The completion of an iron bridge, six miles east, over Clear creek, by the King Bridge company, was the occasion of a party of ladies and gentlemen going to the bridge on Monday to celebrate. The air was so bracing that the scheme was abandoned, and returning, they concluded to celebrate with a dance at La Prade's hall.

E. C. Henley returned to the San Juan yesterday, where he is managing the tiled interest. Machinery from California was shipped out last month. Eleven men from Winslow are on the claims and will continue work until bad weather comes. Mr. Henley says the Navajos are raising prize pumpkins, plenty of melons, and corn that goes 75 bushels to the acre.

MRS. ELMINA HATCH.

HEART DISEASE 20 YEARS.

Dr. Miles Medical Co., Elkhart, Ind.

Dear Sir: For 20 years I was troubled with heart disease. Would frequently have fainting spells and sometimes at night. Had so much of get out of bed to breathe. Had pain in my left side and back most of the time. At last I became despondent. I was very nervous and nearly worn out. The last excitement would come me to faint. I was also much troubled with indigestion. For the last three years I could not sleep on my left side or back until I began taking your New Blood Cure. I had not taken it very long until I felt much better, and I can now sleep on either side or back without the least discomfort. I have no pain, no indigestion, no wind on stomach or other disagreeable symptoms. I was able to do all my own housework without any trouble and consider myself cured.

Fishert, Ind. 1901. Mrs. ELMINA HATCH.

It is now four years since I have taken any medicine. Am in better health than I have been in 40 years. I honestly believe that Dr. Miles' CURED ME.

Dr. Miles' Pills, 50 Doses 25 Cts.

THE RAILROADS.

Brief Facts Concerning Track and Train.

The employees in the railroad shops at Elddy are laid off thirty-six in the week.

Peru has only thirty-six telegraph offices in the entire country and but 1,600 miles of wire.

The New York Central earned in August, \$4,086,712, an increase over August, 1892, of \$2470.

John Johnson has gone to Deming, from San Marcial, to take the place of round-house foreman.

The approximated gross earnings of the Santa Fe for August, all lines, were \$4,621,108, a decrease of \$765,884.

That is an unjust order, if such an order has been issued, that no Italian can secure work on the Santa Fe road.

The debt of the Erie railway is now figured at \$152,000 per mile, which is more than its cost by many thousands. How is that for a bubble?

The Santa Fe, Prescott & Phoenix railway has secured the contract for carrying the mail between Prescott and Ash Fork.

Passenger business to Chicago is increasing at a rapid rate. The roads both east and west and south are rapidly approaching the limits of their equipment.

"Hot" Clark, one of the most popular engineers on the Union Pacific, is reported to have accumulated \$50,000 worth of property as savings and earnings of investments.

The D. & R. G. salary cut is under

Weekly Citizen

ALBUQUERQUE, SEPT. 16, 1908

Are there any more Missourians wanting a federal office in this territory?

President Cleveland is making poor selections for judges in this territory.

Beats the world! New Mexico has taken first prize on wheat at the World's Fair.

The Deming Headlight deserves special credit for its earnest work in helping the Territorial Fair.

New Mexico took first premium on wheat at the World's fair, and second premium on oats.

There are very few fraudulent pension cases in this territory. So the Cleveland committee reports.

All New Mexico and Northern Arizona will be well represented at the Territorial Fair in this city next week.

Prospectors are looking a little better for silver than they were. The purchasing law is not yet repealed.

New Mexico can protect her silver and wool industries by helping to wipe out of existence the democratic party.

The banks in New York are now reported to be looking for customers, instead of showing all callers the door.

This paper is receiving many kind notices from the newspapers of New Mexico and Arizona, and hopes to reciprocate in each case.

With 10,000 men starving in Yonkers, N. Y., a city of only 35,000 souls, it would seem that the mining states are well off by contrast.

The Citizens added 100 new subscribers to its list last week, and hopes to do equally well this week.

Extraordinary interest is manifest in the Ohio campaign by the people of that state. Evidently they are fully awake to the danger of tariff destruction.

This woman suffrage leaders are making a vigorous fight in Kansas for the adoption of the constitutional amendment giving women the right to vote.

Under Sam is in the position of several of his subjects. His income just now is less than expenses, and as a consequence the government debt is increasing.

Pleasant paragraph from the New Mexican: "Give the Territorial fair at Albuquerque a lift! Albuquerque is a plucky town and deserves support."

Why not have one good democratic lawyer on the bench of New Mexico? W. B. Childers is the ablest man on the democratic side of the house, and the people would like to see him on the bench.

One will give a rousing majority against free trade as represented by Lawrence T. Neal and in favor of the American policy of protection, of which Governor McKinley is the leading champion.

Frederick Schurz, Gettysburg, Cold Harbor and Andersonville are four tremendous words which tell the whole story of the career of Jack Adams, the new commander-in-chief of the Grand Army of the Republic.

There are three daily papers, two weeklies, and five job offices in this town. There are three printing office outfits boxed up in old town, which no doubt can be purchased cheap. The field is somewhat crowded, and the next year will witness the survival of the fittest.

The Democrat wants to know who is Hemingway. He is a young lawyer who was imported into this territory last fall to fill a federal office, and is supposed to reside in Colfax county. He is a relative of Senator George of Mississippi, and received his position because of his "pull" with the solid south.

The men who saved the American Union from disruption and consequent collapse are going fast just now. The death roll in the U. S. A. R. was 7,000 during the past year, and it is estimated that about the same number of ex-soldiers outside the ranks of the Grand Army died during the same time.

The Missourians are in favor with the president. New Mexico has already seven sound Missouri democrats appointed by President Cleveland. The three democratic members of the supreme court of Arizona and the collector of internal revenue are Missourians by birth and Missourians by choice.

Have the school boys tried this? The shortest line that can be drawn upon the earth's surface one end being at the mouth of the Mississippi river and the other at Pekin, China, will cross the Bering straits. If you doubt this assertion, take a large globe and a piece of thread or string and make the measurements to suit yourself.

The Optic says: "The early appointment of Col. Tom, Smith to be chief justice of New Mexico, probably next week, is overshadowed by private letters received in the territory." The distinguished Virginia gentleman is not a resident of New Mexico. He is a carpet bagger, and a professional office seeker, and certainly does not deserve the office of chief justice of this territory. A first class lawyer should be put in the position.

The return of sameness—which at present is but another name for confidence—in the business world is showing itself more plainly every day. Banks are lending more freely. Men who wanted, a short time ago, to sacrifice their property at any price are now holding on to it as if they expected a boom. Those timid ones who put money away where it was of little use to themselves and of no use to anyone else, are bringing it out now and seeking to put it where it will serve the legitimate purpose of capital. The people are buying more freely of everything.

To assert that the prospector stands a good chance of striking it rich by digging on the mesa east of Albuquerque, may cause many old miners to smile, but with due deference to their years of experience

(but too often futile effort) in searching for the treasures which lie hid in nature's gifts, it may be said that the same amount of labor and money required to trace up "leads" and develop "prospects" expended in digging or boring for water on the mesa would meet with surer and more profitable results. A flow of artesian water or even a good supply of water, whether it flows above the surface or not, out of the arid lands adjacent to this city would prove of more value to the owner than an ordinary gold mine. Try prospecting for water. Its value in New Mexico is equal to gold.

Governor Markham of California has issued a proclamation calling the attention of the people of the trans-Mississippi states and territories to the international irrigation congress which is called to convene at Los Angeles, Oct. 10, 1908. The citizens of the arid region are invited and urged to send full delegations to the congress, which promises to be the most notable gathering of its kind ever held in this country.

If the tariff on wool is changed as the democrats would change it, it would result in a shrinkage of values of \$10,000,000 in one county alone in Pennsylvania. The war against silver has caused a much larger shrinkage than that in the mining states, as large that there is no comparison. And yet everyone of the Pennsylvania congressmen voted for the unconditional repeal of the Sherman law.

The San Juan Times says: "Every effort is being made by the Territorial Fair managers to make it a success. Nothing in the way of advertising, premiums or calls is being spared to awaken an interest. Some of the featured men of the west are at the bottom of the business, and if it is not an overwhelming success it will be no fault of theirs."

By the death of Hamilton Fish, which occurred last week, one of the most prominent figures connected with the two administrations of President Grant was removed from life. He was secretary of state throughout both of President Grant's terms, and, although his career was not a brilliant one, it was highly creditable both to himself and to the country.

The following complimentary words are from the Flagstaff Democrat: "The Albuquerque Daily Citizen shows a marked improvement in its make-up since the first of this month. It has been the best local paper in Albuquerque for a long time, and since it has added the dispatches it is the leading daily of New Mexico."

The Eddy Argus hits the nail on the head when it says: "To help hard times on to harder times, talk hard times, look hard times, act hard times. Don't pay bills, don't advertise your business, just shiver up in your shell and help along hard times to still harder times."

The resumption of operations by mills, factories and furnaces, has been one of the pleasant developments of the past week in industrial circles, while suspensions have been few in number and comparatively unimportant.

That young fellow, Hemingway, who has been appointed district attorney for New Mexico, is not even a member of the bar of New Mexico; and most any scrub of a law student can be a member of the New Mexico bar.

Colorado may be financially depressed, but this does not deter Denver publishers from issuing the best papers printed in the Rocky mountain region. No other city of its size sustains such excellent papers as Denver.

The silver senators keep on talking and show no signs of growing tired. The repealers are powerless, and nothing can be done to hasten the decision before the silver men are exhausted.

The paid admissions to the World's Fair are now not less than 200,000 a day when the weather is good. This surpasses the expectations of the directory.

HORRIBLE MURDER!

A Woman's Throat Cut From Ear to Ear.

CHRONICLE JURY INVESTIGATION.

One of the most bloody murders which has ever stained the annals of this city of Albuquerque was brought to light last evening, and occurred, it is presumed, early Sunday morning. The victim was Alicia Baca y Aragon, a woman of ill repute who had been occupying an apartment in the low abode on Copper avenue generally known as French row.

The last seen of the murdered woman alive by the denizens of the quarters was Saturday night about 9:30 o'clock. Her door remained closed and window blind drawn down all day Sunday, and the women in adjacent apartments who noticed the fact supposed that the occupant had gone out for the day. Finally, however, at 7:30 last evening, curiosity prompted a character, who is known as Miss Melie, to lift the curtain of the unfortunate woman's room, the window being raised, and was horrified to find the inmate lying dead on the floor in a pool of her own blood.

She spread the alarm and policemen accompanied by Dr. Hope soon appeared. An examination of the body disclosed the fact that she had first been struck on the head with a stone weighing about three pounds, the blow crushing her skull, and then her throat was cut from ear to ear. The instrument used for this was a very dull and rusted butcher knife. Both the knife and rock were found near the murdered woman.

The awful crime was evidently committed for the purpose of robbery, as the trunk and bureau in the room and been broken open and rifled of any paltry valuables they might have contained, and even a ring of insignificant value had been taken from the finger and a pair of earrings torn from the ears of the butchered woman by the blood-thirsty, avenging brute.

The body of the murdered woman was taken to the undertaking rooms of O. W. Strong, and this morning at 10 o'clock a coroner's investigation was commenced.

Nellie Clifford was examined and testified that she occupied a room next door to that in which the murder occurred, and that she was awakened Sunday morning about 3 o'clock by the fire alarm and that a few minutes later she heard a muffled scream in the adjoining room.

Blanche Wilson, who lives in the "Row," also testified to hearing a scream emanate from the murdered woman's room at the same hour.

Both of these witnesses testified as to Pasquini, an Italian who is conducting a lodging house on First street, being a daily visitor to Alicia, the murdered woman, and that he was seen at her place Saturday night. This man was called on the witness stand and admitted having been a particular friend of Alicia, and that he had been in the habit of visiting her frequently. She had also been a daily visitor to his house on First street.

The last time he had seen her alive he stated was about 9:30 o'clock Saturday night, when he called on her, but remained but a few minutes. He went home and to bed about 12 o'clock Saturday night, but being awakened by the fire bell about 3 o'clock Sunday morning, arose, dressed and visited the fire.

The examination was continued at 12 o'clock to 2 this afternoon, when some additional testimony was produced, but nothing which would lead to the apprehension of the murderer. The coroner's jury repaired to the room where the murder was committed and made an examination. On returning to their seats they returned the verdict of "murdered by an unknown person."

The examination was continued at 12 o'clock to 2 this afternoon, when some additional testimony was produced, but nothing which would lead to the apprehension of the murderer. NEW MEXICO NEWS.

Interesting Items from All Parts of the Territory.

Clayton wants a city prison and a local fire company.

John Mayler, a stone mason, dropped dead at San Marcial.

Clayton W. Lane is a new member of the House of Commons at Eddy.

Blindness is suffering severely in fatal sickness among children.

Business is looking up in the different towns throughout the territory.

Scooter has a young lady composer of verse who employs a secretary.

Sierra lodge, K. of P. of Hillsboro has hung out an elegant \$30 street lantern.

Dr. R. H. Longwell and three sons are in Chicago on a visit to the World's Fair.

More than \$600 were paid for poll tax alone last year in the Las Cruces district.

The open season, in which game can be legally killed, began on Friday the 1st inst.

The "Graphic" Mining company received a car of new machinery at Magdalena.

C. M. Nolan, of Silver City, has packed up his goods and will remove to the Indian territory.

Mrs. L. Galles will open a boarding house at Hillsboro for the Standard smelter and mill men.

Mrs. C. S. Madden and child, Raton, have returned home from their protracted visit to Missouri.

J. J. Leeson has been appointed superintendent of the work on the Socorro dam, by Mayor Baca.

The turning out of the Cottage temperature station at Eddy was doubtless the work of an incendiary.

Mr. and Mrs. J. B. Schroeder, of Raton, are rejoicing over the arrival at their home of two daughters.

Robert Rivington, of Santa Fe, sold his twelve acre Tesque valley orchard to Robert Decker for \$1,200 cash.

The average attendance at the public school in Las Cruces for eight months of last year, was 109 pupils.

Frank Fitch will leave Silver City in a few days, for Delaware, Ohio, where he will attend college this year.

Chas. Sperling, of Socorro, has purchased a number of the Poland-China and Berkshire hogs from W. J. Sickles.

Pelix Griego was arrested and jailed at Santa Fe, charged with assault upon a little ten-year-old girl, Manuela Baker.

During July and August, the gold product of New Mexico increased \$100,000 over any other two months in its history.

Miss Alice Jelfs will have charge of Mrs. E. T. Oiler's millinery store, Raton, during the absence of the latter in the east.

Santa Fe is always preparing to prevent any attempt to remove the capital at the next session of the Territorial legislature.

Rev. J. W. Shinnick started from Raton for Illinois to recuperate his health, feeling that a lower altitude was necessary for that purpose.

Dona Ana officers have arrested every man with two exceptions, for whom warrants have been issued, since Sheriff Lehman has been in office.

F. D. Wright of Trinidad is now engaged in shipping from 175,000 to 200,000 pounds of 1803 wool from Folsom, New Mexico, to Boston for storage.

Passengers and express are increasing on the Hillsboro and Kingston stage line, and the company will soon be obliged to run its four-horse stage coach again.

San Geronimo, the great Indian festival of the Two pueblos, is approaching. This celebration is witnessed by thousands of spectators every year. The date is September 30.

George Knight has made a gold find, out fifteen miles south of Santa Fe, that several business men are looking into. The vein is small, but carries fine gold and some copper.

Two valley this year boasts of 250,000 bushels of wheat to grind and gold mills to flour it; plenty of oats and fast stock, gramma grass, alfalfa, timothy, red and blue grass lay in abundance.

H. Lutz is engaged this season in making heavy shipments of feeding sheep from Santa Fe to New Mexico. He sent the other day with 7,100 head which were sent to the confines of Nebraska.

Chas. Banks, a young man subject to epileptic fits, in attempting to cross the tracks in the railway yards, Raton, had his left foot caught under the wheels of moving cars. The toes had to be amputated.

Geo. W. Bryant, a farmer located about six miles north of Socorro, has experimented with the irrigating method in agriculture, and has come to the conclusion that too much water is used on the crops in this country.

The city marshal at Santa Fe gives notice that all corals, stables and door yards must be thoroughly cleaned up by their owners on or before the 15th inst. or the other way with 7,100 head which were sent to the confines of Nebraska.

The total valuation of property in Raton subject to city tax is \$27,930, which at 6 mills to the dollar, will yield a revenue of \$1,679.58, and the special levy of 2 mills for school purposes will yield \$1,635.

Bishop E. G. Andrews will preside at the ninth annual convention of the New Mexico English mission, to be held at the First Methodist Episcopal church in Raton, on the 12th, 13th, 14th, 15th and 16th days of October, next.

An important gold discovery has been made in Colfax county, on the summit of the Two mountains, a couple of miles west of the western boundary line of the Maxwell land grant. The vein is over two feet in width.

There are some 800 children of school age in Santa Fe and the assignment of teachers among the four wards has been made with a view to providing the most good for the greater number with full regard to the whole.

Arthur Biddle is at Raton from the Elizabethtown mining district. He reports quite an influx of miners from Colorado and neighboring states, being made on an extensive scale to increase the output of the Aste mine.

There will not be much work done in the Silver mines in Grant county during the rest of this year. There is no prospect of a materially higher price for silver, and the mines cannot be worked with silver at the present figures.

On Saturday, September 30th, there will be a master's sale, W. E. Gortner, master, of certain described property belonging to the Las Vegas Gas and Coke company, to realize the sum of \$49,396.45, in favor of Edward D. Bullard, trustee.

For the New Mexico historical society, at Santa Fe, Samuel Hardwick, of Liberty, Mo., an old frontiers' man, has sent Gov. W. T. Thornton a fine, large photograph of Josiah Gregg, a pioneer trader who graphed the Santa Fe trail, and the author of "Commerce on the Prairies," a book that first made famous Santa Fe and the southwest's commercial interests.

AYER'S Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1.00 per bottle. Cures others, will cure you.

LET US TALK.

The financial equilibrium has been fully restored in Wall street, during the past three weeks, have regained a considerable portion of their losses during the preceding three months. The bankers have recovered from their fright and are again lending money not only of negotiable collateral, but on business paper also.

Savings bank depositors are no longer panic-stricken, but are depositing rather than withdrawing their money. Money is coming forth from its hiding places and seeking the channels of trade.

The premium on currency has disappeared. Millions of new national bank notes, millions of gold from abroad and millions of clearing house certificates at New York and Boston have been added to the circulation.

Interior banks at the south and west are unusually well fortified with funds, while Savings banks all over the land have strengthened their cash reserves beyond all precedent. All signs indicate that before the first of January money will be a drug in the market, piled up in millions at all the financial centers and loaning at starvation rates with but little demand for it, by reason of a reduced volume of business.

THE REAL D

Weekly Citizen

(From the Daily, Sept. 9.)
Rev. Christy is as big a man as a President. A fine boy was born to him this afternoon.
Jesus Garcia, deputy sheriff, is summing the jurors for the approaching term of the district court.
Col. P. H. Motherwell, general manager of the big cattle company at Engle, passed up the road last night on his way to the World's fair.
Eugenio Yrizarri, a popular young Spanish citizen of Santa Fe, is here on business and has his name on the register at the European.
Mrs. Lund, wife of Dr. Lund, N. T. T. engineer building, expects to leave this evening for Los Angeles, on a visit of a few weeks with friends.
Ernest Kriegerleiner returned last night from Denver, and after an experience of four months is glad to be in Albuquerque again.
H. B. Hamilton, attorney of Socorro, who would like to have a judgeship in the territory, came up from Socorro last night and is at the San Felipe.
B. Priester, father of Henry Priester who died a few weeks ago, is confined to his home on north Arno street with a cold and heart trouble. Dr. Rasterday is attending him.
Major Bainbridge, the new Navajo agent, will leave with his family for Fort Wingate tomorrow morning, and take an ambulance at the fort for the headquarters of the agency.
E. E. Stoffel and Rudolph Baer have constructed a boat and will sail down the Rio Grande as far as Los Lunas tomorrow, for the purpose of catching ducks and geese.
Major A. S. Towar, paymaster, and A. J. Butler, his clerk, were passengers on Santa Fe last night, registered at the European, and left this morning to go to the soldiers at Fort Wingate.
Judge Adams now occupies his office, having recovered sufficiently to attend to business. The judge has been quite ill in the past week with malaria fever, and has reduced in flesh some twenty pounds.
Mrs. M. J. Borden, the temperance orator, has gone to San Marcial, where she will deliver an address upon the subject tomorrow. She is a forcible talker on temperance, and is doing good work in the territory.
Dr. Himes writes from Kansas City that he called on W. G. McCormick at the German hospital, and found him getting along nicely, the operation proving successful. If Mac continues to improve he will return to the city in about two weeks.
L. A. Hughes, a territorial internal revenue collector, spent yesterday and last night in the territorial metropolis, and left this morning for El Paso on very important business. He expects to return to this city by Wednesday of next week.
Attorney Dobson left last night to join his family at Fort Madison, Iowa. After taking in the World's Fair, extending over a period of several weeks, they will return home. Mr. Dobson expects to be back in time for the opening of district court.
The Citizens was informed last evening by Mrs. W. W. Pope that her husband was slightly improving, but must be taken to a lower altitude at the very earliest opportunity. They expect to be able to leave the city about the middle of next week, and will permanently reside in the future in Chicago.
Leroy and Derringer, the trotters of Chas. Zeigler's, are now in charge of A. G. Washburn as trainer. The former is in the form for the track and with a competent driver behind him could be made to turn the mile as fast as the fastest horse that ever trotted over the local course. Derringer will probably not appear this season, owing to an old trouble in one of his hind legs.
The next meeting of the New Mexico board of pharmacy, will be held at Albuquerque, September 20th, the day previous to the organization of the New Mexico pharmaceutical association, enabling applicants for registration to attend both meetings. It is the desire of the board that all reputable druggists co-operate with the board in its organization. All communications should be addressed to J. L. Zimmerman or E. G. Murphy, Las Vegas, New Mexico.
J. B. Sebelie, of Big Springs, Texas, who made large purchases of property in the county and city several years ago at tax sales, is trying mightily hard to get some of the certificates redeemed. Since making the purchases he has made several trips to the city, and finds that the expenses occasioned by the trips are considerable, in face of the fact that he is having more trouble than he bargained for in getting certain settlements with the county and a few individuals. Mr. Sebelie is a particular friend of Dave Rudolph.
Station Delegates.
The following delegates were appointed by the town trustees of Raton to the statehood convention in this city:
M. D. Buell, F. Bruggemann, J. Leahy, A. G. Stalaker, Wm. Tindall, G. W. Cook, W. C. Wrigley, J. B. Schneider, H. B. Butler, J. K. Vigil, A. J. Mitchell, H. B. Avellano, T. W. Callier, Geo. B. Berger, J. W. Dwyer, D. W. Stevens, D. E. Young, C. T. Allie, E. C. Chapman, J. J. Shuler, J. J. C. C. Wray, C. D. Stevens, Pedro Padilla, C. B. Kohlhausen, Geo. McCormick and F. S. Crosson.
A Satisfactory Notice.
The Albuquerque Citizens now has a telegraphic service, a new dress, and is as pretty and as sassy as a speckled pup.—Eddy Argus.
Earthquake in Valencia.
At Los Lunas last Thursday five earthquakes shook down scores of old adobe buildings which were already shaky from previous earthquakes. The center of the disturbance seems to be at

Sabinal where a spring has appeared in a place which has always been dry and barren. The theory of the natives concerning the shakes is that a large body of hot water lies underground and as the vapor accumulates and wants expansion the earth's crust is raised, and it may keep on until an outlet is found allowing the water and steam to flow freely. An extinct volcano situated within 20 miles south of Sabinal may have something to do with the disturbance.

Notes En Route from Our Traveling Correspondent.
GALLUP, Sept. 11, 1893.
Pay day, so long delayed, is the subject that most interests Gallupites just now, and that of the miners is due to the 25th. Delays in pay days is decidedly inconvenient, if too long deferred.
Coal cars are coming in sufficient numbers to meet the growing demand of the coal companies, whose orders are being filled daily for commercial and railroad. To points on the Pacific touched by ocean vessels, a cut of one dollar per ton was made Sept. 1. This is done to offset the low rate on ballast lots from Australia and other points in competition.
The Crescent Coal company is building bunkers at San Diego to accommodate increased shipments.
A cut in rates on coal to Albuquerque should be appreciated, as lower prices will be in order this winter.
The machinery at the Catalpa and the fan at Crown Point have been transferred to the Sunshine, where 150 men will be worked hereafter.
There is a better outlook on coal shipping and facilities for getting coal out of this district are good. An increase of 100 cars weekly is expected for some time. Four hundred men are at work on the Crescent company's mine at present, and the California the usual force. Four days was last week's run and five this week, increasing to six in October.
Superintendent C. W. Kennedy will remain here all week.
Miss Mulholland, ex-postmaster, and Mike Danesman are operating their own mines on a more primitive scale than the big fellows to the north.
Jeff Lane is in Albuquerque looking after the grey sent from here, and base ball matters. Jeff thinks Gallup will send her quota to Albuquerque next week.
The school district has a roll of 125 and Gibson 40, the latter being part of this district. W. H. Williams, the teacher at the Gibson school, is in his third term. E. M. Richards, late of Ottawa, Kansas, is principal at the local school, and is assisted by Miss Annie Bowen in the second primary and Mrs. C. B. Smith in the first.
D. Mayer is at Fort Defiance doing some tin work, returning on the 20th.
Mrs. B. Zaczynski, wife of the jeweler, and two daughters left on No. 2 today for Albuquerque. The girls enter the university.
Postmaster Reis is at home in the new field of labor, thanks to Grover.
Richard English, master mechanic, had important business here to-day.
The Gallup foot ball team is in correspondence with the Las Vegas team, with favorable prospect of going to the fair. This will be a treat, but the boys think each member of winning team should have a medal, if only of despised silver.
A subscription was taken up to-day to assist Jack Dunn, a popular sporting man, to needles for repairs. Jack is a sick man.
The funeral on Sunday was the largest seen here for years.
Mrs. Joe White, wife of the engineer, is preparing to move to Winslow.
Since my June visit, Hon. W. F. Kuchenecker has built a stone warehouse facing on Coal, between First and Second. The Crescent Coal company lease the building as a warehouse.
Nine cars of coal from the Crescent company's mines were condemned by the railroad, because it was composed of too small lumps for use.
Jake Mahler brought in several ducks from Grants—a Sunday tramp.
Miss Annie Bowie, daughter of Alex. Bowie, the well-known citizen, who is teaching a second term in the local school, was voted for largely to-day in the Citizens' watch contest.
Harry Condon's saloon is closed, but may re-open soon.
W. C. Skeels, late of Mitchell, is fitting up a restaurant opposite the depot. Gates, a colored cook from Albuquerque, is engaged.
Notwithstanding dull times Gregory Page, T. N. Hinch and Maxwell & Mallette have had some attractive, artistic and expensive interior work done to their business places. None better in Albuquerque.
Jerome Mallette is managing the drug store alone, Mr. Maxwell being absent at the World's fair.
Better crossings to the depot, and, above all things, electric lights, are very much needed, as is good water.
Ed Hart has moved back to his old stand, Railroad and Fourth.
One or two, perhaps three, well-known business men are disposed to "kick" at Albuquerque merchants for holding on to high prices, consequently a loss to Albuquerque's trade with outside towns. Well to look into this, cut, and hold the trade.
Sol. Boller has taken a partner and they recently started a blacksmith shop.
A Seat Paper.
The Albuquerque Citizens has the finest typographical appearance of any paper in the territory. It lately donned a new dress of a neat face and receives enough telegraph to bust any ordinary paper in one day. The Citizens is a good paper, but it's a nasty republican.—Eddy Argus.
STILL AT LARGE.
No Special Efforts Being Made to Capture Escaped.
Conrado Gonzalez, of this city, who killed Estanislado Sanloval of Casa Salazar, last Tuesday, an account of the crime being published in THE CITIZEN yesterday, is still a free man, and likely to remain so until his father and influential relatives conclude to allow his arrest. No one from the sheriff's office is making an attempt to capture the murderer, and Deputy Sheriff Garcia stated this morning that he had not been officially informed of the killing, knowing nothing about the affair except what had been told him in a secondary manner, and what he had read in THE CITIZEN.
When Constable Mariano Arriaga, of Casa Salazar, and N. Sanloval, brother of the dead man, left the city on the evening of the 7th, after they had made a visit to the house of Gonzalez on north Seventh street, they rode over to the mountain road, and then to the old town, where they made an ineffectual effort to find the whereabouts of the murderer. Leaving the old town they went up the river road, and were at Los Corrales yesterday, where the father of young Gonzalez resides and where it is supposed he is in hiding.
THE CITIZEN is informed this afternoon that Gonzalez was not found at Los Corrales, whereupon the constable and Mr. Sanloval went on to Casa Salazar.
It is learned at 3 o'clock this afternoon that the murder of Sanloval by Gonzalez was not as cold-blooded as just reported. It seems now that four Mexicans, one of whom was Sanloval, at a dance threatened to "do up" Gonzalez, and after the dance Gonzalez noticed them coming toward him. He ordered them to stop, but instead of doing so they continued toward him, when he fired, killing Sanloval. It is also learned that an open knife was picked up beside the dead body of the man murdered.
From the Daily, Sept. 11.
C. L. Ross has gone to the Cherokee Strip to seek his fortune.
Present your claim against the Albuquerque National bank to J. W. Schofield, the receiver.
W. H. McDonald, yardmaster of the Atlantic & Pacific at Peach Springs, Arizona, is in the city.
Yesterday in his sermon Rev. Christy stated that the county jail was a disgrace to the people, and not fit for a pig pen.
Marie Abetia, Lorenzo Chavez and Marie Jova were each given ten days in the police court this morning for having been drunk and disorderly.
Dr. A. G. De Lama went to Show Low, Arizona, yesterday morning, to attend Mrs. Henry Hunning, who is seriously ill. He will be away several days.
G. W. Pittcock is making another trip along the Atlantic & Pacific for THE CITIZEN, and expects to largely increase the list of subscribers along the line.
Mrs. Thos. Ainsworth left last night for Raton, where she goes to visit her daughters, Mrs. Schroeder and Mrs. Hobbs. She will be gone a month.
A merry crowd pined at Coyote Springs yesterday, composed of Dr. Hope and wife, E. C. Foster and wife, Dr. Smith and wife and Fred Lewis and wife.
Chas. Yonkeff has returned from the Rocky Ford, Col., fair, and says there will be between thirty and forty running and trotting horses at the Territorial Fair from Colorado.
Elias S. Long and wife have returned from Santa Fe, where they have been passing the heated season. Mr. Long regards Albuquerque as the best fall and winter resort in the world and is back here to stay.
This is the dullest month in the history of Albuquerque, but it is believed that the bed rock has been reached and that matters will improve. The delay of payments by the railroads is the principal cause of the temporary depression.
M. C. Nettleton has engraved a beautiful gold badge which he will offer as a prize to the winner of the one mile bicycle race at the tournament during the fair. The badge is one of the prettiest ever given in such a contest, and will help make the tournament interesting. The badge cost about \$50, and it may be seen on exhibition at Nettleton's jewelry store.
Police Court.
George West and George Martin, two vagrants who have been endeavoring to keep fat on the generosity of the public, were arrested this morning and given ten days on the chain gang.
John Amado, for fighting, was fined \$5.00 and costs, failing to pay which, he will have to spend ten days in the city jail.
Robt Ray was picked up in an alley last night sleeping off the effects of liquor. He will be given ten days in the jail in which to sober up.
Charged With Embecitate ment.
O. P. Bills, who is establishing an ice factory here, has been arrested by Sheriff Kemp, on complaint of two parties in Tecumseh, Michigan, his old home. They charged him with embezzlement in disposing of \$1,500 worth of bonds, which he claims they authorized him to sell. Judge Freeman has allowed the defendant to give a \$2,000 bond, pending the arrival of an officer from Michigan to take the prisoner to Tecumseh to straighten out the matter.—Eddy Argus.
Territorial Fair.
The Territorial Fair, which opens at Albuquerque on the 19th, promises to be largely attended and very successful. Considering the hard times and the greater attractions of the World's Fair the interest in our territorial exhibition, has been well maintained by the managers. While our well-fixed neighbors are seeing the sights of the world at the Columbian Exposition let us poor folks attend the Territorial Fair and help to make it a success. The agricultural, horticultural, mineral, and stock exhibits will be worth seeing. The speed-racing and sport programs are quite elaborate and will be

very entertaining. The silver and statehood conventions will bring the best men of New Mexico together. Altogether, Albuquerque will be a very entertaining place to be in during the week beginning the 18th. The railroad rate for the occasion is lowered to 14 cents per mile. With cheap rates and an inviting program there are few of us that cannot afford a visit to our Territorial Fair and who would not be greatly benefited thereby.—Santa Fe Sun.
SEVERAL MORNING FIRES.
Weller & Anderson and F. B. Booth sustained considerable loss.
Yesterday morning about 3:30 o'clock fire was discovered in Weller & Anderson's grocery and general store on Gold avenue. The alarm was sounded and the fire department responded speedily and did efficient work but before the flames could be extinguished considerable damage was done by the fire, smoke and water. The fire originated either in the rear of the store room of Weller & Anderson, which was stocked with clothing, hats, shoes and gent's furnishings goods, or else in the tailor shop of E. B. Booth which was separated by a thin partition from the former store. The flames played havoc with the inflammable goods in the tailor shop and those stacked on the shelves in the back part of Messrs. Weller & Anderson's store, and the smoke and water did great damage to the entire stock of the latter firm. The damage to the building which was insured for several thousand dollars estimated at from \$1200 to \$1500.
Mr. Booth estimates his loss at about \$200 and his goods were insured for that amount in the California company.
A proper estimate cannot now be placed on the loss of Messrs. Weller & Anderson, but it will probably amount to \$2,500. Their stock was insured for \$7,000, but the furniture and fixtures of the store were uninsured.
Railroad Notes.
John Lawrence, of the Atlantic & Pacific machine shops, has gone to St. Joseph, Mo., where he will make his home.
The good news is received in this city that the employees on both the Santa Fe and Atlantic & Pacific roads will be paid this week.
Western lines have refused to issue tickets in connection with the Texas lines to conform with the requirements of the new anti-scalper law.
The Illinois Central lines carried in May 2,047,855 passengers in June, 2,127,213; in July, 2,690,586; in August 2,289,412, a total for four months of 10,556,266.
The Texas Valley passenger conductor, Moore, by name, who assaulted an editor down at Eddy, has been dismissed from the employ of the company.
The Atlantic & Pacific Railroad has given the coal companies of Gallup a reduction of \$1 per ton on coal to California points. The rate as it now stands is \$5 per ton.
Freight business on the Santa Fe and Atlantic & Pacific railroads is picking up, which is a good indication that the financial stringency throughout the country is easing up somewhat.
The Kingston Miner says: The Atlantic & Pacific railroad company has done the right thing by presenting Paul Maguire with an annual pass over its road. It will be remembered that Mr. Maguire flagged a train below town in time to save it from crashing into a washout.
President Reinhardt, of the Santa Fe system, is but forty-one years of age. The responsibility thus placed upon this young man may be in a measure realized when it is known that the Santa Fe has a capital of \$1,000,000 and usually employs 25,000 men.
After much correspondence, Supt. T. J. Helm has finally convinced the Denver & Rio Grande officials that it was a mistake to cut the train service from Santa Fe, and he received word, direct from President Jeffery, that the daily service would be restored on the 1st of the coming month.
To-day another harvest excursion will be run by the Santa Fe company. Tickets will be sold at low rates, good for two days, to all points in Colorado in a direction northwest, west, southwest and south from Pueblo—but no tickets sold at less than \$7—to all points in New Mexico, except on the Southern Pacific and Atlantic & Pacific railroads, to all points in Utah, Oklahoma, Indian Territory and Texas.
There are but three railroads out of Kansas City that are handling passengers and freight for stations along the Cherokee Strip. The Santa Fe has a direct line to Arkansas City, Kansas, which is on the Kansas border near the east boundary of the strip, 279 miles from Kansas City, and the Santa Fe also has a branch line from Winfield Junction, a few miles north of Arkansas City, to Kiowa, Kan., which is on the southern Kansas border near the middle of the strip.
Results of Statehood.
The statehood convention which will be held at Albuquerque during the week of the Territorial Fair, will do much toward determining the wish of the people in this important matter, and the subject should be given exhaustive discussion by men whose prominence and information is a guarantee of intelligent and effective work. Statehood would bring to New Mexico many changes. It would give to capital that feeling of security necessary to obtain the benefit of its investment. It would people our valleys with prosperous eastern farmers. It would make us a self-governing commonwealth and not set apart like a band of Indians. It would build railroads, establish irrigation enterprises and open our mines. There are difficulties, of course; but we won't speak of them. Get statehood and its blessings first, and wrestle with trouble afterwards.—San Marcial Bee.
A Good Thing to Keep at Hand.
From the Troy (Kansas) Chief: Some years ago we were very much subject to severe spells of cholera morbus, and now when we feel any symptoms that usually precede that ailment, such as sickness of the stomach, diarrhoea, etc., we become scared. We have found Chamberlain's colic, cholera and diarrhoea remedy the very thing to straighten one out in such cases, and always keep it about. We are not saying this for a pay test, but to let our readers know what is a good thing to keep handy in the house. For sale by T. H. Burgess & Son, druggists.

THE FAIR CONVENTIONS.
Indications Very Promising for Large Attendance.
THE DOCTORS.
The Bernalillo County Medical society have made arrangements to royally entertain the New Mexico Medical association, which will convene in this city on the first day of the fair, and continue over one day. The local society held a meeting the other evening, and it was unanimously agreed to "double themselves" this time in the entertaining of the Territorial society. It is learned that a large number of physicians throughout the territory will put in an appearance.
THE SILVERMEN.
Chairman Ferguson and others are working up the silver convention in good style, and there is no doubt that a big number of enthusiasts on this important question will be here and howling for free coinage at the convention to be held on the 19th. The chairman informs THE CITIZEN that this convention is general—everybody who is a silverite is expected to be present.
FOR STATEHOOD.
There is every assurance that the statehood convention, called to meet in this city on Sept. 20, will be largely attended. Nearly every city, town and hamlet within the confines of the territory have appointed delegates, and the cry for statehood will resound with increasing vigor to such an extent that the lawmakers at Washington can not overlook our appeals for admission.
THE FIREMEN.
When the chief of the local fire department appointed his committee on a firemen's convention and that committee named P. J. McCanna its chairman, there was no mistake. The committee is made up of pushers in the fire department, and the chairman, with the committee, has so far executed good work. The convention will be held Thursday, Sept. 21, and delegates have been appointed from the two companies of Las Vegas, the Santa Fe company, the Socorro company, and others. Silver City, through its chief, L. A. Skelly, writes to the chairman that they will hold a meeting, but he does not give any assurance that they would appoint delegates. The local committee will hold an important meeting at the Ferguson company's quarters next Tuesday evening, when final arrangements for entertaining the delegates will be made.
From the Daily, Sept. 11.
Tony Neis, merchant of Cerrillos, is in town to-day.
Julius Eusemann returned last night from the World's Fair.
Post Trader W. F. Laughlin, of Fort Wingate, is in the city.
The High Sign Club will be heard from during the Territorial Fair.
Secretary Miller expects to take charge of his office at Santa Fe to-morrow.
Fred Alarid and bride of Santa Fe are in the city, stopping at the San Felipe.
L. E. Cash, of Kansas City, and Leon Hartog, of Los Lunas, were the latest visitors to the Commercial club.
Mrs. Thos. A. Fair leaves New York to-day for the World's fair, and after a stop at the great exhibition will come home.
The Ladies' Benevolent association is doing good work, and deserves the aid and co-operation of the liberal and charitable of the city.
Mrs. M. C. Nettleton, who but a short time ago left for a trip to California, arrived home last night, her speedy return being caused by illness.
There are only two newspapers in this city. This is the verdict of the press and the people. It is not necessary to remark that the Democrat is not counted.
Miss Hattie Knickerbocker, the well-known singer of Las Vegas, will take part in the concert to be given during the Fair by the Orpheus club.
Mrs. A. H. Duncombe, mother of Mrs. W. W. McElligan, left last night after a several weeks' visit with the latter for her home in Mt. Vernon, N. Y.
The Fair officials have engaged May Howard to give three of her celebrated spiritualistic and clairvoyant performances at the opera house during the fair.
C. D. Anderson is reported by the Democrat as having gone to the Cherokee Strip. Mr. Anderson is right here, attending strictly to his large business.
The crowded condition of the primary department in the Fourth ward has made necessary a trial of the half-day system for all pupils but those of the A grade in that room.
G. W. Mayrle has returned from his trip to Colorado, and will be on hand to greet the hosts of guests who will be entertained at the San Felipe hotel next week during the fair.
The police has secured no clew as to the identity of the murderer of Alvaria Baca. Time enough has elapsed for him to have left for parts unknown or else to have covered up his tracks pretty effectually.
The democrats of this city are worked up over the appointment of Hemingway as district attorney. They will be forced to take their medicine, and THE CITIZEN is not much sorry to see them squirm while they do it.
The United States agricultural crop report, issued at Washington, August 1, reports the condition of the grape crop in New Mexico at 100—that is, perfect. Idaho, South Dakota and Delaware are the only states that equal this showing.
There will be a regular ladies' night at the Commercial club during fair week, at which dancing and music will be prominent features. A large number of ladies and gentlemen from different parts of New Mexico and Arizona will enjoy the social pleasures of this occasion as guests of the club.
Because of the character of the woman who was murdered in such a horrible manner Sunday morning in "The Row", the crime may fall to create a degree of interest in bringing the murderer

to justice that would have pervaded public sentiment had the victim been less depraved. But the officers of the law should not relax effort until the red handed villain is captured. Such a human butcher should not be allowed to remain at large. In too many instances in New Mexico are murderers permitted to go unpunished, and it is time that we should begin to assert ourselves as a law abiding and justice loving people.
W. T. McCright closed his connection with this paper yesterday morning. The following from the Times gives the reason for the change: "Mr. W. T. McCright is no longer connected with THE CITIZEN. The proprietor of that paper has decided, it is said, to do a large part of the local work himself, and thus curtail expenses. Mac is one of the best newspaper men who ever set foot in New Mexico, and will not have to look for a position if he cares to continue in the newspaper business."
Fourteen years ago Edward M. Kelly killed a man named Neal in a brawl at Cerrillos. He was tried and convicted and sentenced to be hanged. He was finally reprieved and sentenced for life. For good conduct in the prison Gov. Prince further commuted the sentence to twenty-five years, and with all the allowance of time for good service, this sentence expired last Sunday, and Kelly is once more a free man.
The old town public schools are reported to be in a flourishing condition, there being over 300 pupils enrolled. There at present four departments, the teachers being Sisters Bernabo, Pauline, Claire and Jernania. The first of next month another department will be added in which all the higher branches will be taught.
United States Attorney E. A. Fiske has received instructions from the attorney general to bring suit against W. B. Bunker, who was clerk of the 4th judicial district court under ex-Chief Justice E. V. Long, for amounts due the United States for fees in United States cases collected by him while such clerk.
Anly Horne has found his team, which was hired by a man named Hightower one day last week and was not returned. Hightower took the team to Los Lunas, where he sold the buggy. He then turned the horse loose and skipped out. Mr. Horne went to Los Lunas this morning to recover his property.
CINCINNATI.
A Valuable Medical Plant Found in This Territory.
Editor Citizen.
We have many plants indigenous to our territory which would, if we knew more about them, not only add interest in observing them and our investigations might prove some of them to be of much commercial value. One or more members of the cinchona tree is found quite abundantly here and in Arizona, usually at quite high altitudes. Its trunk is light yellowish, usually with quite long filaments of the outer bark hanging partly detached, and gives the tree a decidedly ragged appearance. Its foliage is green and very fine and short, clinging dense along the branches. The flowers are delicate and very small, also clinging along the branches and possessing quite a prominent and somewhat sickening odor, plainly perceptible when several steps distant from the plant. The tree a short distance from the observer has something of the appearance of certain species of cedar. It is sometimes seen 12 or even 15 feet in height, but more commonly of the order of shrub. It seems to flourish in the most arid localities. Deer are exceedingly fond of its bitter brush and hunters term it for this reason "buck brush."
The writer is unable to say how many varieties of the tree is found here, and it may be possible the Peruvian variety is here also. An investigation by a botanist would show. The shrub could be sent to some of our colleges and the species determined; an analysis of the bark could be made and the percentage of quinine it contains could be found. Even if it does not contain so great a percentage of quinine as the Peruvian tree it might still be valuable. The Peruvian tree is becoming depleted to a serious extent. In some portions of the world, notably Java, large plantations of the tree are being planted. Why could not the arid hills or highlands here where location makes them of but little value be planted to the best variety of this tree? It is said the bark from the smaller branches or brush are gathered as well as other portions of the tree. Specimens of Peruvian bark, that is, cinchona, can be seen in any drug store.
Quinine was discovered about the year 1638 by a lady by the name of Cinchon, but the name has been distorted to cinchona. It is the most important and valuable drug in a medical sense ever discovered. It has prolonged the average of human life from 35 to fully 40 years. So with all the abuse we heap upon it, it is still the best friend man ever had.
The Territorial board of education of New Mexico, has prescribed that refractory pupils shall be whipped by teachers only on twenty-four hours' notice to the parents, or guardians, and one trustee.

BALD HEADS!

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

Skookum Root Hair Grower

Is what you need. The production is not an accident, but the result of scientific research. A knowledge of the diseases of the hair and scalp led to the discovery of how to treat them. "Skookum" cures itching, dandruff, and restores the hair to its natural condition. It stops falling hair, cures dandruff, and grows hair on bald heads.

Keep the scalp clean, healthy, and free from irritating eruptions, by the use of Skookum Root Hair Grower. It is guaranteed to give perfect satisfaction, on receipt of price. Skookum Root Hair Grower Co., 87 South Fifth Avenue, New York, N. Y.

THE SKOOKUM ROOT HAIR GROWER CO.

TERRITORIAL FAIR ENTRIES.

A Fine Field of Trotters and Pacers on Hand.

The trotting and pacing races for the Territorial Fair have filled, and this has been done with less trouble than in any previous year in the history of the association. The running races are sure to fill also. It is safe to say that the best races ever held here will be those at the coming Fair, beginning next Tuesday. A glance at the following entries will convince any one of this:

PURSE NO. 1, \$200—3:00 CLASS.
Dick Montgomery, Stevenson & Dye, Rocky Ford, Colo.
Gump, P. F. Sharp, Pueblo, Colo.
Mantou Bill, Wm. Butler, Colorado Springs, Colo.
Johnny Wilks, E. Andrews, Santa Fe, N. M.
Electromont, Wm. Billups, Phoenix, Ariz.

PURSE NO. 2, \$200—2:35 CLASS.
Apostate, J. A. Adams, Alamosa, Colo.
Morgan, P. F. Sharp, Pueblo, Colo.
May Queen, F. E. Sturges, Albuquerque, N. M.
Iowa Chief, M. A. Porter, Phoenix, Ariz.

PURSE NO. 3, \$200—2:40 CLASS.
Dick Montgomery, Stevenson & Dye, Rocky Ford, Colo.
May Queen, F. E. Sturges, Albuquerque, N. M.
Billy, J. J. Phelan, Albuquerque, N. M.
Gump, B. F. Sharp, Pueblo, Colo.
Mollie Mcarty, B. C. Vanderberg, Larned, Kan.

PURSE NO. 4, \$300—2:25 CLASS.
Leisy, C. Zeigler, Albuquerque, N. M.
E. W. L. Lowry & Hinkley, South Denver, Colo.

PURSE NO. 5, \$200—NEW MEXICO AND ARIZONA COLTS.
Glenn, Cassels & Keaggy, Albuquerque, N. M.
Nigrita, R. H. Greenleaf, Albuquerque, N. M.
Johnny Wilks, E. Andrews, Santa Fe, N. M.
Properly, W. L. Trimble, Albuquerque, N. M.

PURSE NO. 6, \$200—2:45 CLASS.
Dick Montgomery, Stevenson & Dye, Rocky Ford, Colo.
Gump, B. F. Sharp, Pueblo, Colo.
Mantou Bill, Wm. Butler, Colorado Springs, Colo.
Johnny Wilks, E. Andrews, Santa Fe, N. M.
Billy, J. J. Phelan, Albuquerque, N. M.

PURSE NO. 7, \$200, FREE FOR ALL—PACING.
Sleepy Jack Dye, Rocky Ford, Colo.
Jeff Denmark, Wood & Smith, Winslow, Arizona.
Gray Frank, W. L. Trimble, Albuquerque, N. M.
Frank P. M. H. Porter, Phoenix, Ariz.
May B. William Billups, Phoenix, Ariz.

PURSE NO. 12, \$200—FOALS OF 1901.
Sweet Briar Maid, Condon & Mackenzie, Trinidad, Colo.
Nigrita, R. H. Greenleaf, Albuquerque, Ariz.
Electromont, William Billups, Phoenix, Ariz.
May Belle, F. E. Sturges, Albuquerque, Ariz.

PURSE NO. 13, \$500—FREE FOR ALL, TROTTING.
May Queen, F. E. Sturges, Albuquerque, Ariz.
Billy, J. J. Phelan, Albuquerque, Ariz.
Leisy, C. Zeigler, Albuquerque, Ariz.
Lizzie S., Francis Stuart, South Denver, Colo.

It should be in Every Home.
J. B. Wilson, 317 Clay St., Sharpsburg, Pa., says he will not be without Dr. King's New Discovery for Consumption, Coughs and Colds, that it cured his wife who was threatened with pneumonia after an attack of "La Grippe," when various other remedies and several physicians had done her no good. Robert Barber, of Cooksfort, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for Lung Trouble. Nothing like it. Try it. Free Trial Bottles at T. H. Burgess & Son's drugstore. Large bottles, 50 cents and \$1.00.

One of the Best.
The Albuquerque Citizens has greatly improved its appearance within the last few days and has added an excellent telegraph service to its many accomplishments. THE CITIZEN always was one of the best newspapers in New Mexico and is rapidly becoming one of the best in the United States.—Deming Headlight.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was Chamberlain's cough remedy cured her of croup, and in turn administered it to her own offspring and always with the best results. For sale by T. H. Burgess & Son, druggists.

In Jail.
J. Edward Priest is in the county jail, serving a sentence for assault. The case was taken to the supreme court and the decision of the lower court affirmed, wherein Priest was adjudged a fine of \$500, and to stand committed until the fine is paid.

Buckley's Arnica Salve.
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, letter, chapped hands, chilblains, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dr. Thos. H. Burgess & Son, druggists.

The citizens of Farmington, assisted by Actos, have raised a purse of \$500 which will be given as a reward for the arrest and conviction of the two parties who robbed Bowman Bros' store the night of August 5th. One-half the amount will be paid for the capture of one of them.

Weekly Citizen

OFFICIAL PAPER OF THE COUNTY.
Entered as Second Class Matter at the Albuquerque Post Office.
PUBLISHED DAILY AND WEEKLY.

Terms of Subscription:
Daily by mail, one year, \$10.00
Daily by mail, six months, \$6.00
Daily by mail, three months, \$3.50
Daily by mail, one month, \$1.00
Delivered in City by Carrier, per week, 15 Cts.
Weekly, by mail, per year, \$2.00
Advertising rates made known on application at this office.

Office—No. 113 West Gold Avenue.
Address, THOM. HUGHES, Proprietor.

ALBUQUERQUE, SEPT. 16, 1905.

(From the Daily, Sept. 15.)

The funds of the city treasury were overdrawn \$172.79 on Sept. 1.

Miss Ada Phillips expects to be in Albuquerque next week to open her kindergarten.

Governor Thornton arrived from the south last night and took this morning's train for Santa Fe.

The privileges at the fair this year sold at reduced rates, and the fortunate buyers will reap a harvest next week.

Territorial Secretary Lorion Miller left this morning for Santa Fe, where he will shortly assume the duties of his office.

The Goss Military Institute is in the line of progression—having telephone communication with all parts of the city.

The Democrat says Tom Catron is down on the plant, as he has on the Democrat.

The Tennessee Jubilee singers will remain in the city next week, and help out in the amusement line. They are engaged by the fair association.

Chatham Steele and Mr. Simpson, late of the Fruitvale colony on the Rio Puerco in this county, have gone to San Juan county, where they have secured ranches.

O. S. Pillsbury and wife will leave tomorrow morning for an extended eastern trip, taking in the World's Fair, New York and other cities. They will be gone six weeks.

The name of the man who shipped out with Andy Horn's team is learned to be Sol Apple. He came to this territory from Alamosa, Col. His whereabouts are not known.

The Optic says the E. Romero, whose company appointed as its delegates to the Albuquerque fairmen's convention, John Shank, A. T. Rogers, W. A. Givens, H. E. Blake and C. W. Allen.

The Optic says "Red" Anderson, the former hack driver and bartender, is lying in a pitiable condition out at the insane asylum. He was unconscious most of the time yesterday.

Passenger train No. 1, from the east, due here at 3 this morning, did not arrive until 8 a. m. The cause of the delay was a serious wreck not far from Chicago, where there was a collision between a passenger and freight train.

The firemen's convention will be held on Sept. 21. The convention will be held in the rooms of the Hook and Ladder company, and will be called to order at 9:30 o'clock. A meeting to complete arrangements will be held tomorrow evening.

The people will sustain Mayor Field if he will make a vigorous war on the thieves and murderers who are congregating in this city. An ex-policeman, and a man who is in a position to know what he is talking about, says there are more tough characters in the city at present than for years.

It is a favorable indication of better times that the empty houses in this city which were vacated during the summer are rapidly being taken by occupants, and it will be but a few weeks until every house that is now offered for rent or is vacant on account of the absence of the owner, will be occupied.

President Saint has appointed Wm. Harris, mining engineer, to assist Superintendent Storer in the mineral department of the fair. The appointment is an excellent one, as Mr. Harris is a competent mining engineer, metallurgist, and a practical miner, so parties exhibiting ores can rely upon fair treatment.

There was a fire at Las Vegas yesterday morning in a building known as the "Iron-Clad," at the corner of Center street and Grand avenue, which was occupied by Orner's tailor shop. The stock was a total loss, about \$800. The building was old and dilapidated and was insured for \$500, about all it was worth.

W. Johnson, a tourist on his way to the World's fair, was arrested last night for sleeping in a box car. He explained that he did not have sufficient money to travel in a Pullman palace, but regardless of this, he will be detained in the city for the next ten days, the guest of Jailer Tyler. The road through this portion of New Mexico is truly a rocky one for the hobo.

So many robberies have been committed of late throughout the country that it might be wise for our banks to distribute a few Winchester among the business men adjacent to them, especially to those who are around in the early morning and during the noon hour. Some expert marksman might bag a criminal like McCarthy, who had a \$10,000 reward on him, and was killed a few days ago by a hardware merchant at Delta, Colorado, after a bank robbery.

The Silver Convention.
The railroad rate of three cents per mile for the round trip offered those who attend the silver convention in Albuquerque next week will be taken advantage of by a large number of people throughout New Mexico and Arizona. The silver question is of vital interest to the silver producing southwest, and even if the meeting of the people of this section to discuss the situation and adopt resolu-

tions may prove of no effect in influencing immediate legislation, yet it cannot fail to result beneficially to the cause of silver. Our silver industry must be maintained, and the people of the southwest in convention assembled no doubt would favor an expedient, in case the gold bugs win the fight in congress, the adoption of the "capture dollar"—a silver truck—as a circulating medium.

Liberal Views.
In his sermon at the cathedral yesterday morning, Rev. Anthony Fourche, the pastor in charge, spoke on the subject of schools. He announced to Catholics that there would be no parochial schools this year, and that they should send their children to the public schools, looking well after their spiritual training in their homes. In this connection, Rev. Fourche took occasion to refer to the status of the church as regards public schools, and in eloquent tones he declared that the Catholics do not oppose such schools. He said they were good, as far as they went, but that in the minds of Catholics they did not go far enough, and look to the training of the child as well as of the head. Accordingly, he said, it was not only the duty of Catholics to support the public schools, but to take such interest in their success as to make them even better, and bring them up to the highest and advanced position demanded for them by the church.—New Mexico.

Retired from the World.
Billy Burton, an old-time restaurateur of Las Vegas and Santa Fe, who has become an inmate of the National Military Home, Santa Monica, California, which he calls "retiring from the world and its vanities," writes this paper that the home is a perfectly lovely place, with a climate almost as perfect as that of New Mexico. They are in sight of the ocean, and when fortunate enough to have fifteen cents, can get a round trip ticket to the beach.

The institution is supplied with a library, theater and bath rooms. There is a Grand Army post, and the band plays every day. There is a post office of their own. "You feel everything that a lot of old veterans like to have, and more, too."

Billy is not a pensioner, and so has no revenue at all. He will be glad to hear from any of his old friends. Optic.

Diamonds Lost.
Last Saturday, General Cutting of San Francisco, was going west on the Atlantic & Pacific road, and near Flagstaff he claimed that his wife had lost \$2,000 worth of diamonds. The jewels were pinned to her waist. Officials of the road are investigating the case. There is \$250 reward offered for the recovery of the diamonds. A detective came in this morning from making a search along the road, but could find nothing of the missing property.

Chicago Fall Club.
A. G. Spaulding, of Chicago, who is at the head of the company that purchased Hudson's hot springs, near Deming, and who is at the head of the team ball league and a liberal patron of the national game, will bring the celebrated Chicago team and the Pittsburgh league team to his New Mexico resort to spend the winter. Here these clubs can play ball in the pleasant sunshine every day during the winter months, and get in excellent trim for next base ball season.

Astonishing Fact.
Suggested by Comparatively Few.
Things that embody the most truth are frequently among the last to be realized. Incredible as it may seem, one of our four has a weak or diseased heart, the early symptoms of which are, short breath, fluttering, pain in left side, smooth, swollen ankles, dropsy, and in stomach, etc. Levi Legan, Buchanan, Mich., suffered from these symptoms thirty years. Two bottles of Dr. Miles' Heart Cure cured him. "The effect of your New Heart Cure is wonderful," Mrs. Eva Dresser, McGregor, Iowa. This fact is firmly established by T. H. Burgess & Son, a guarantee. Get the Doctor's book, "New and Startling Facts," free.

Off to Cherokee Strip.
J. W. Palmer, the big, good-natured expressman, together with a few other Albuquerqueans, departed yesterday for the Cherokee strip. They will join the boomers on the Kansas border and will be "in it" in the run for claims in that long coveted country next Saturday. The race for the choice locations on that day will be worth watching.

Complimentary Comment.
The Albuquerque Daily Citizen is one of the best territorial exchanges that comes to the Citizen's table. Despite the hard times it has recently done a new dress and lowered the price of subscription. Its editor and proprietor is to be commended for his enterprise and push. We wish him a world of success.—Tucson, Arizona, Citizen.

Miles' Nerve & Liver Pills.
Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills specify cure biliousness, and taste, torpid liver, piles, constipation. Unquestioned for men, women, children. Small and mild, sure! 25 doses 25 cents. Samples free at T. H. Burgess & Son.

The Court-Reporters.
In the case of the United States against six counterfeiter, three men and three women, the jury rendered a verdict of guilty as to the men and innocence as to the women. The men were sentenced to one year each, this morning on one indictment; three other indictments being carried over.—Las Cruces Democrat.

Heiter Than Ever.
The Albuquerque Citizen, the afternoon paper of the New Mexican metropolis, has been issued with a new dress of type and a telegraphic report. This Citizen has already been one of the leading papers of the territory. It is much more handsome and interesting than ever.—Lordsburg Liberal.

No person should travel without a box of Ayer's Pills. As a safe and speedy remedy for constipation and all irregularities of the stomach and bowels, they have no equal, and, being skillfully sugar-coated, are pleasant to take, and long retain their virtue.

That Medal.
It is found in the stomach of a cow at Chicago.
The Chicago Tribune's Journal of recent date says: Mr. T. J. Dolan, foreman of the killing beds at Armer's packing house, has at last succeeded in locating the owner of the gold medal found in the stomach of a cow which was slaughtered there two weeks ago. The former Miss Ida Work, whose name the medal bore, is now Mrs. W. K. Rollins, the wife of a telegraph operator at Albuquerque, N. M. Another gold medal belonging to her was found by a man named Tyson, of McKinney, Texas, while cleaning out an old well at that place in 1882.

On Monday, August 23, the day after the find, Mr. Dolan wrote to Mr. J. S. Wilwer, postmaster at Dallas, asking if such a person as Miss Ida Work lived there. The letter was turned over to T. A. Work, brother of the lady, who is a practicing attorney at that place, and answered by him. Mr. Work informed Mr. Dolan that his sister had been married to the W. K. Rollins before mentioned, who was at the time a telegraph operator in Dallas, in the year 1885.

Shortly afterwards she and her husband removed to Chicago and took up their residence at 1001 South Hyatt avenue, where they lived until sixty days ago, when they went to Albuquerque. Mr. Dolan has written to her at that place and hopes to deliver the medal to her shortly.

A few days after announcement was made of the find in the San Diego edition of Dallas inserted the details in their papers, and the next day the man named Tyson, before referred to, arrived from McKinney, telling the story about his find of the second medal in the well. He said that he had discovered it in 1882. At that time the brother of Mr. Work was practicing law at that place, and the medal was turned over to him. He now has it in his possession.

The medal, which was found in the cow's stomach, was presented in testimony of a great scholarship when Miss Work graduated from Ursuline Convent school at Dallas. Judging from appearance it had been in the stomach two or three years.

(From the Daily, Sept. 14.)

Mrs. Dr. Easterday returned last night from a visit to San Francisco.

Rev. I. T. Whitmore, of Florence, Arizona, is a visitor to the city.

J. H. McCutchen, the energetic publisher of the Socorro Advertiser, is in the city.

Superintendent T. R. Gabel returned last night from a trip of inspection over the Atlantic & Pacific.

On the 15th the Fiesta of San Jose will occur at Laguna. Throughout the day Indian dances will be a feature.

The adjutant general's office has been informed that Denning citizens will at once proceed to organize a militia company.

Not a pound of wool has been shipped out of Chama this season, although there are three train loads of the fleecy article stored there.

G. W. Meyler left this morning for Santa Fe on business connected with the territorial university of which institution he is treasurer.

The El Paso base ball club is making a victorious tour through Texas, and the past week won three straight games from the Waco club.

H. T. Pelham, a horseman from Colorado Springs, arrived last night. Four new trotting horses were assigned stalls this morning.

Mrs. Putnam, daughter of Postmaster Whitcomb, is at the World's Fair, and writes an entertaining letter of the sights she is seeing.

Miss Lou Lew withdraws from the watch contest, and wishes to thank her many little friends for their evident desire to vote for her.

The territorial supreme court meets again on the 25th to hand down opinions. Some changes in the district assignments may also take place.

Denning people have realized the importance of the situation and have raised \$1,250 towards defraying the expenses of the irrigation convention.

Judge Fall has rendered his decision in the case of Sheriff Laird vs. the county commissioners. The court refused to grant the writ of mandamus.

About October 1 it is expected that both the broad and narrow gauge systems will materially improve their train service in and out of Santa Fe.

The San Marcial Bee is authority for the statement that Fred Harvey's dining station contract with the A. T. & S. F. has been extended for a period of ten years.

District Clerk Garner estimates that Socorro county will have funds sufficient for a fair term of court in December. This is the only county in the district that is in shape to hold court.

Santa Fe enrolled 160 pupils in her public schools, the first week. East Las Vegas enrolled 320, the first week. Santa Fe is talking of enforcing the compulsory clause of the school law.

Precious stone experts made an examination of the opal find of Jack Clark & Co., about three miles north of Wm. Braden's ranch, in the vicinity of Lambright canon, Grand county.

May Howard, the medium who will mystify the public at the opera house next week with her wonderful powers, is 31 years of age to-day. She has been before the public for sixteen years.

Prof. R. Y. Anderson, of Denver, well known in Colorado as a mining expert, arrived in the city last night and is a guest at the San Felipe. He is a sufferer from rheumatism and will remain here in the hope of recovering himself.

Carl von Heugenberg, the son of a German baron, is in the city. He prides himself on being a chef and an artist at preparing dishes which would tickle the palate of a royal epicurean. He has a brother, it is said, who occupies a high official military position in the old country and his father has great landed possessions.

One of the young men of this city was almost seized to death a night or two ago. His mischievous friends put a dummy in his room at the court house, and when

he went to retire, he caught a glimpse of the figure, gave a yell and fled. He is ready to fight any man who mentions the subject. The above is the way the boys tell the story, but Henning says the joke is on the boys, who ran a mile when they caught sight of his horse pistol.

The Monte Largo Creamery at Las Vegas will be represented at the Territorial Fair by a fine display of A. J. C. Jersey cows. They are the best in the territory, and those wishing to purchase good milk cows will do well to see this fine herd.

Sheriff Cunningham has been notified by U. S. Marshal Hall that the United States will henceforth allow but 75 cents per day for the care of U. S. prisoners confined in New Mexico county jails. Sheriffs have hitherto received \$1 per day per capita for such service.

BOY STABBED.

A School Boy stabs a Companion this Morning.

A fight between two boys on the Fourth ward school ground came near resulting fatally to one of the participants.

Lafayette Gibson, aged sixteen, and Leo Armijo, aged fourteen years, both pupils of Mrs. Ludlum in the Fourth ward school, during recess this morning got into a quarrel over a game of marbles.

Leo struck Lafayette twice with his fist, when the latter took from his pocket a large bladed knife and made a thrust at his antagonist, cutting a deep gash fully seven inches in length on the neck and shoulder, and barely missing the jugular vein. Leo ran toward the school house and was followed by Lafayette, who endeavored to get another thrust at him, but failing in this he turned and fled.

The bleeding boy ran into his school room holding his hand over his wound. He immediately became very pale and weak from the copious loss of blood, and the lady teachers did all in their power for him while a messenger was despatched for a physician.

Dr. Pearce arrived in about ten minutes and soon afterwards Dr. Wirth was present. The wound was examined and dressed and the injured boy taken in a cab to his home on Tijeras road, between Third and Fourth streets. His mother is a widow, and he is her only support, having worked all summer in the Southwestern Ironworks. His teacher says that he is a habitually kind and tractable in school and has never given her trouble.

The Gibson boy is a fully developed man in physical appearance and has frequently demonstrated a very ugly temper on the school grounds although in school he is said to have been obedient to the rules. Up to 4 p. m. this afternoon he had not been arrested.

The wounded boy is in great pain, though the doctors have no doubt of his recovery.

Will March to this City.
Yesterday it was announced that 250 new uniforms for the territorial militia had come to hand from the United States war department. Imagine the disappointment of the local members of the national guard and their friends, when, upon opening the seven cases, it was discovered that they contained only hats and shoes for the young soldiers. This was particularly unfortunate, for the Santa Fe militiamen had planned to leave here on foot on Saturday morning next and march to Albuquerque via La Bajada and Wallace, to put in the week at the Albuquerque fair. Adjutant General Knebel thinks the uniforms must certainly be on the road somewhere between here and the San Francisco quartermaster's department, and he has wired to have a tracer sent out to locate and hurry forward the shipment. If it arrives before Friday night, the Santa Fe militiamen, forty-three strong, will take the road for Albuquerque early Saturday morning.—New Mexican.

Road Improvement Wanted.
H. R. Whiting, county superintendent of schools, has caused petitions to be circulated, asking the board of county commissioners to make changes and repairs in the road leading from near the mouth of Tijeras canon, or the ranch of Hon. L. S. Trimble, to the plaza of Tijeras, and thence dividing into two roads; the one leading to the plaza of San Antonio and La Madera, and the other to the plaza of Chilli. The petition says:

"More travel passes over the road between the canon and the forks at La Tijera than over any other road in the country; and its two main branches referred to should be put and kept in first class condition. In many places the distance between points should be lessened; in others heavy grades avoided, and in still others the road widened and made more secure for those obliged to pass over it."

Seventy-five Conversions.
A Thrilling Experience.
There is no one but at some period in life has an experience that stands out prominently beyond all others. Such is the case of John B. Collins, of Rome, Mich., who says: "From September to January, before using Nervine, I had at least seventy-five conversions. After three months' use I have no more attacks." Dr. Miles' Restorative Nervine also cures nervous prostration, neurasthenia, poor memory, dizziness, sleeplessness, neuralgia, etc., and builds up the body. Mrs. J. R. Miller, of Valparaiso, Ind., and J. R. Taylor, of Logansport, Ind., each gained 20 pounds of flesh by taking Nervine. Sold by T. H. Burgess & Son on a guarantee. Get the Doctor's book, free.

Santa Fe at the Fair.
The Territorial fair opens one week from today. The round trip rate from Santa Fe is \$2.55. A crowd will be attracted from the capital city and the exhibits this year will be larger than usual in all departments from this point. It is hoped by the way, that the fruit growers will do their full duty and show up Santa Fe afterwards as they should.—New Mexican.

Yes, cannot be too particular about the medicines you use. When you need a blood purifier, be sure you get Ayer's Sarsaparilla, and no other. It will purify, purify, and vitalize every drop of blood in your body. It makes the blood strong.

Notes of the Fair.
Large Attendance Expected—List of Privileges Sold.
The officials of the fair association say that the indications are the attendance next week will be large and that the fair in point of interest and merit will be fully equal to previous years. The railroads are offering very liberal rates to those who desire to visit the fair or to attend the different conventions held here during the progress of the same, and it is thought that such inducements will be largely taken advantage of.

The agricultural and fruit exhibit promises to be extensive, perhaps the largest if not the most excellent coming from the San Juan and Dona Ana counties.

The mineral exhibit will be fair. Among the latest additions secured for this are exhibits of lead carbonates and galena from the Anacona mine at San Pedro, and a fine cabinet of ores by Mr. Jenks of Albuquerque from different mining districts of the territory. The San Pedro exhibit will be sent to the World's Fair at the conclusion of the Territorial Fair.

The ladies are interesting themselves more than ever before in the art display, and there will be a large exhibit of art productions, which will occupy a room arranged for it in the main building.

The poultry show will be the finest ever seen in the southwest. Fowls from all portions of the two territories as well as from Colorado and the east will be on exhibition.

The bicycle race will be an interesting feature. Local riders are practicing for the contest, and word comes from Santa Fe that the riders of the wheel in that place are also training, and that the first prize is expected to go to that town.

The main exhibition hall is being trimmed with green corn stalks instead of cedar as heretofore. The effect is most pleasing and artistic.

A letter has been received by the secretary of the fair association from a man at Sherman, Texas, who has an apiary of 200 stands at that place, asking for information in regard to the Rio Grande valley as a bee country. He intends to visit Albuquerque during the fair if he receives a favorable answer, and if he finds this a good place in which to engage in the bee industry he will remove his apiary here.

Prof. Leroy writes that he will be on hand during the fair with his balloon and parachute and give daily exhibitions on the grounds.

The running mare Artless, which won several races and caused a large number of local sports to feel rather sick last fall, will be here next week.

PRIVILEGES SOLD.
Lemonade and soda—B. C. Wandell.
Restaurant—W. H. Chalk.
Ice cream and candy—F. B. Dunlap.
Fruit, nuts, popcorn and melons—B. C. Wandell.
Official pool room in the city—St. Elmo saloon.
Selling privileges—Mozio, Welch & Co.
Shooting gallery—John Keine.
Cane rack—B. C. Wandell.
Official score card—C. McDonald.

(From the Daily, Sept. 13.)
The Santa Fe company is constructing 100 new ovens, at Starkville, Colo.

Dr. Williams, of Silver City, will attend the medical convention in this city next week.

Wm. Lowe will go to Trinidad, Colorado, in a day or two, where he has been called as a witness in a case in court.

Henry Downman, a well-known railroad fireman, and his brother, Sidney Downman, of Tucson, have fallen here to \$17,000 each in England.

Chas. O'Connor Roberts, city editor of the Democrat, together with others, have located the Indian Treasure gold-copper mine in San Isidor district.

The county commissioners at their last session passed on many bills against the county, and this was the bulk of the business transacted by them.

John Player, superintendent of machinery for the Santa Fe company at Topka, has just secured a patent for a refrigerator car of his own invention.

Memoirs Saville and Lowe, of Albuquerque, and J. M. McCarthy, of Deming, are witnesses for the Santa Fe company in the railroad cases up at Trinidad.

A young man with a very crudely constructed bicycle has been trespassing about the city to-day. He says that he intends to enter the contest for the champion cyclist at the fair next week.

The reason for the animosity of the Democrat against Mr. McLaughlin of the school board, is because it was not given the printing of the school report, when the law forces the board to let it by bids.

J. A. Woods, a stockman of Socorro, is in the city to-day. He is on his way to San Diego, Cal., where he will meet his wife who has been passing the summer there, and they will return home together.

E. L. Watkins, engineer at the city water works, has returned from a seven weeks' vacation, during which time he visited his old home at Columbia, Mo., and took in the sights at the World's Fair.

The following delegates were appointed by the Las Vegas hook and ladder company, to attend the firemen's convention to be held at Albuquerque, on Sept. 21st: P. J. Murphy, A. R. Quinly, Chas. Schlott, J. K. Martin and Joe Haefer.

THE CITIZEN is receiving letters almost daily from people in eastern and northern states who contemplate passing the winter in Albuquerque and who ask for information concerning this place as a health resort. Physicians, business men and others are also receiving large numbers of similar letters, and the indications are that there will be double the number of health-seekers in the city during the next winter than ever passed the season here before.

Synodal Notes.
The Synod of New Mexico is holding its annual meeting to-day in the Presbyterian church of this city. This evening the

sermon will be preached by the retiring moderator at 7:30 o'clock. The sessions will continue to-morrow. All are cordially invited.

Mrs. C. A. Walker, of Colorado Springs, addressed the Synod this afternoon. This lady will preach in the Presbyterian church next Sunday evening.

Rev. I. T. Whitmore, of Florence, Arizona, was elected moderator this morning by the Presbyterian Synod, vice Rev. Jas. A. Menaul, of this city, and Rev. H. M. Shields, of Las Cruces, was elected temporary clerk.

Rev. S. W. Carter, of Las Vegas, and Rev. Boveritz, of Laguna, met on the floor of the synod this morning, for the first time since they parted in Chilli a number of years ago, where they were working together under the Presbyterian board of foreign missions. There about twenty members of the synod present. Forty-three churches are embraced in this synodical territory.

Real Estate Sales.
The following real estate transfers have taken place recently and deeds filed for record during the past few days:

Albuquerque Real Estate and Investment company to D. S. Patterson, a piece of land in northeast portion of the Kornel Brown tract.

J. M. Wheelock, trustee, to R. W. Barry, lot 4, block 16, Huning's Highland addition.

P. F. Swartz to Conrad Swayne, lots 6 & 11, inclusive, block A, Homestead Garden Sub.

Wallace Burke to W. S. Burke, piece of land three miles south of Albuquerque. Plutarco Lucero to Blanchard Mont and Supply company, a piece of land south of Albuquerque for \$300.

Broadway Land and Improvement company to H. W. Guelker, part of lot 7, block 17, Eastern addition.

Location papers for the El Cajeta mill site in San Isidor mining district, have been filed by C. O'Connor Roberts and others. P. A. Simpson has also located a mill site in the same district. A mill site consists of five acres.

Pay Day Arrives.
The railroad employees along the entire system of the Atlantic & Pacific road are being made happy to-day by payment of last month's salaries. Owing to the financial depression this company failed to pay its employees last month and particularly in Albuquerque where several hundred men are employed in the shops, offices and yards, the inconvenience and aggravated closeness of "the times" were generally felt alike by the employees and business men who had been extending their credit.

The Santa Fe company also failed to pay this month, and it is understood that the pay car of this road will be here either tomorrow or Monday. There will be an appreciable change for the better in this city and country from this date, and an confidence is being restored and the grip on surplus cash is relaxing throughout the union, a prosperous winter in Albuquerque may be confidently anticipated.

Habeas Corpus Case.
A habeas corpus case came up before Judge Lee in chambers yesterday afternoon. A young man who was arrested a few months ago for breaking the seal and entering a box car loaded with merchandise, for the purpose of either stealing a ride or of stealing goods—which point has not been determined—has been languishing in jail ever since. Judge Adams was employed as his attorney and came for his detention was demanded. The testimony of men who were employed in the railroad yards at the time of the arrest, was to the effect that boxes in the car had been broken open. The young man disclaimed under oath having disturbed the goods. He was remanded to jail by the judge.

Silver City Delegates.
Mayor Fleming, of Silver City, has appointed the following delegates to attend the Statehood convention, which will assemble in this city next Wednesday:

Thos. S. Hedin, J. E. Sheridan, James Fielder, R. P. Barnes, G. W. Miles, A. B. Laird, E. M. Young, W. C. Porterfield, Thomas F. Conway, G. N. Wood, L. A. Schell, Harry W. Lucas, Max Schütz, J. B. Wright, C. G. Bell, Steve Uhle, Wm. Brahm, H. D. Gilbert, Aaron Schütz, William Walker, George Bell, Fred Shelton, M. W. Porterfield, C. C. Shoemaker, Chas. M. Foraker, Robert Evans, Thomas Foster, Henry Rosenberger, J. B. Warren, G. W. Vera, Gus Mainer, M. V. Cox, W. C. Jackson, C. P. Rowencranz, C. P. Crawford, T. W. Williams, G. A. Hughes, A. H. Harrie, H. L. Pickett.

Firemen Delegates.
The following named have been chosen delegates to represent the capital city fire department at the firemen's convention to be held at Albuquerque, the Territorial Fair: W. G. Ashdown, W. M. Berger, Chas. B. Blachot, Tom Doffmeyer, J. T. Sandoval, J. B. Sandoval, Patricio Sandoval, Fritz Muller, A. P. Hill, John Rouse.

Handsome badges for the occasion have been furnished by Chief Ashdown. The delegates meet on Tuesday evening next to organize, and will leave for Albuquerque on Wednesday evening.—New Mexican.

Escaped on a Horse.
Lafayette Gibson, the boy who stabbed Leo Armijo, a school mate, in the Fourth ward school grounds yesterday, immediately after his vicious act ran home, saddled a horse and sped away. In what direction he went is not known, and no clew to his whereabouts has yet been received. He no doubt believes himself a murderer, and one may imagine the terror and remorse which ferment in his young mind as he urges his horse on and on—no telling where. And all over a game of marbles!

Democrat Was Taken In.
James J. Wert, years ago agent down at Eagle and San Antonio, leaving a bad record behind him, was let out of the freight department in Las Vegas some weeks ago. Going to Albuquerque without the letter of recommendation he solicited from the Optic to THE CITIZEN, he easily obtained employment on the Democrat and now the paper revokes his commission of authority, in bold, black-faced type.—Las Vegas Optic.

The use of Hall's Hair Renewer promotes the growth of the hair, and restores its natural color and beauty, and the scalp of dandruff, tetter and all impurities.

WOODS' PHOSPHORUS
The Great Kidney Remedy.
Promptly and permanently cures all forms of Acute and Chronic Kidney Disease, including Catarrh, Gravel, and all other ailments of the Urinary System. It is the only reliable and safe remedy for these diseases. It is sold by all druggists.

Notice of Suit.
In the District Court of the Second Judicial District of the Territory of New Mexico, within and for the County of Bernalillo.
Horace G. Whitcomb, Complainant, vs. Elton C. Whitcomb, Defendant.
No. 302.
Chancery for Divorce.
The said defendant, Elton C. Whitcomb, is hereby notified that a bill of divorce has been filed in the District Court of the Territory of New Mexico, within and for the County of B
