BELEN, NEW MEXICO, OCTOBER 29, 1914

NUMBER 46

## Odd Bits of News

Bloomington, Ia.—Directors of McLean Co. Better Farming Ass'n, 300 members, are looking for a man to act as farm advisor. He must be a college graduate and have had at least five years farm experience, but the salary will be \$4,000 per year.

Marion, O.—Robt. Gatewood, 2-years old, slipped from the house during a severe rain storm and in attempting to cross the street, fell into a gutter, was swept into a storm sewer, rescued from the other end of the sewer by a woman who had witnessed the accident, revived and seems no worse off for his experience.

Lima, O.—Detectives watched H. K. Cooney, a farmer, drain three gallons of grain juice from his silo and suspecting that he was distilling the juice into whiskey, arrested him. He declares that he has drawn off the juice from his silo for ten years and will contest the case.

LuVerne, Ia.—A horse, hitched to a carriage in which were seated the wife and little daughter of a neighbor, took fright in front of the home of Geo. Henderson, a farmer near here, and ran away. Henderson dashed into his barn, cranked up his automobile and gave chase. He overtook and passed the horse, then slowed up and as the mad animal tried to pass, Henderson grasped the bridle with one hand and, steering with the other, soon stopped horse and auto.

Romney, W. Va.—The postmaster at Highview, W. Va., recently accepted for shipment, via parcel post, George Lerick, a six year old boy. The lad was labeled and shipped from Highview to a small town in Virginia. The postage was 50 cents in addition to a special delivery stamp that was used to insure prompt delivery. The boy arrived at his destination in good shape. There is a postal regulation forbidding the mailing of human bodies, but the postmaster at Highview pleaded ignorance of this rule.

Lancaster, Ky.—A woman of this town has adopted the custom of donating the proceeds of all Sunday-laid eggs to the church she attends. These offerings reach a substantial sum.

Hawesville, Ky.—Alfred Holmes has succeeded in ripening several trees of figs in his yard near here. The trees are a great curiosity to the townsfolk.

Wichita, Kas.—Bert Hollenbeck and family and several guests sat down to dinner recently at their home near here. One of the ladies stepped on

something soft. It moved. So did the guest when she found out the soft object was a bull snake three feet long.

Mountain Lake, Minn.—E. J. Wade bought a cow from George Wall and two hours after leaving her old master the cow committed suicide by hanging herself in Wade's stable. In some manner she twisted the halter rope around her neck and lay down to die.

## \$5,000 Damage Suit

Suit was filed in the federal court in Santa Fe yesterday by Joseph Ponzio, a native of Switzerland, against the Stag Canyon Fuel Co., of Dawson, for \$5,000 for alleged injuries to his right hand and arm while working in the company's coal mine. Elmer E. Studley appears for the plaintiff.

U. S. District Judge William H. Pope today awarded \$500 damages to Okie June Zimmermann, who had sued the A. T. & S. F. for damages, alleging that Della Carley, wife of the station agent at Ricardo, had shot her in 1912. The suit was brought originally for \$20,000 damages.

Judge Pope awarded \$500 damages to Abran Cordova, administrator of the estate of Juan Cordova, who sued the Chicago, Rock Island & Pacific for the death of his son.

In the case of Teodoro Papas vs. the Stag Canyon Fuel company, the judge handed down an opinion on the demurrer, sustaining it on certain grounds and overruling it on others, giving the plaintiff 20 days to file an amended complaint.

The judge overruled the demurrer in the case of Edward H. Hanssen vs. the Western Union Telegraph company and set the case for trial at Albuquerque December 2.

## The Boy Who Can Dream

It is a good thing for the farmer boy to have an imagination. It is a good thing for him to "dream dreams and see visions." It takes a dreamer to see the transformation that intelligent effort will bring to pass on the old place. It takes a dreamer to see how much more desirable that place will be in ten years than a job in a dry goods store.

It is the boy who dreams who sees a field of thrifty alfalfa where that stunted yellow corn is growing on the timber forty. It is the boy who dreams who sees those hungry looking cows with burrs in their tails replaced by a herd of dairy matrons that tax the capacity of the milk cans at every milking. It is the boy who dreams who sees a waving corn field where the cat-tails are growing; who sees a woven wire fence in place of the old hedge, and a new barn where the cow shed is now falling to pieces.

We need more dreamers on the farm.—Prairie Farmer.

B. C. Hernandez

Hugh H. Williams

## THE ELECTION OF A MEMBER TO CONGRESS IS NOW AT HAND

The Republican Ticket Contains Men Who Will Do Their Duty and Stand by the People.

The election of a member to the House of Representatives of the United States, of a Corporation Commissioner and two members of the house of representatives of the State of New Mexico, is now up to the people for Tuesday, the 3rd of next month.

It is now up to the people of the state to choose from amongst those men who have been nominated in the conventions of the different political parties as their candidates for the above mentioned positions, and we believe that the people would make no mistake in their choice if they will only vote the entire Republican ticket. The Republicans have selected as their standard bearer a man who has all the qualities that a man for Representative in Congress must have and on the other hand he is equipped with a knowledge of the needs of the people of this state, being himself a man of the people and for the people, wherefore he can to better advantage represent and advocate the wants of the people and state for which he will occupy the seat in the house of Congress.

Several charges which have no foundation whatever have been made against him for the sole reason of injuring his reputation and forestalling his election, and some newspapers have even gone so far as trying to bring the race issue into the political question, they have said that Mr. Hernandez has appealed to the people to vote for him because he is a Spanish-American, which is in itself a black lie; it is they who have appealed to the people not to vote for him for that reason. We don't see where the defect lies in being of such an origin, so long as he is competent enough to carry out the pledges which he has made to the people and do his duty in an honorary manner.

The candidate which the Republicans have chosen to run for corporation commissioner is Mr. Hugh H. Williams, who has performed his duty so well in the office during the period he has been in office, and in his capacity

as commissioner has made a record for himself. Mr. Williams is a man whose ability and efficiency for the office to which he was elected have been tried and have stood the test. He is a man of the highest qualities and has shown that he is able to cope with the problems which that office has daily in store.

As far as this county is concerned it has two of the ablest and best men to represent it in the legislature in its Republican ticket, men who work for a living and understand the needs of wholesome legislation. Mr. Narciso Francis and Mr. Teofilo Chaves y Luna are men who will represent this county as it should be represented.

Mr. Harry P. Owen is our candidate for District Attorney and we have full confidence that if he is elected he will fulfill his duty and enforce the laws of this State with impartiality. He is a man fully equipped with knowledge of the law, in which profession he has been for a number of years.

## Shut Mines Says Mother Jones

Washington, D. C., Oct. 28.—President Wilson was asked today by "Mother" Jones, the mine strike leader, and James Lord, of the mining department of the American Federation of Labor, to close down the Colorado coal mines, if the operators continue to refuse the federal plan of mediation already accepted by the miners.

They also asked the president not to withdraw the federal troops until some solution of the labor trouble had been found.

The president listened attentively and said he was earnestly looking for a solution. He is said to be doubtful of his authority to close the mines, but was told that in the opinion of the labor leaders he has the authority to do so. Lord told the president that

the employes of the operators were being mustered into the state militia, and that fighting would follow if federal troops were taken out.

"Mother" Jones described conditions in the coal fields and told the president that women and children have been brutally treated and that the state officials were unable to cope with the situation.

President Gompers, of the federation, was at the White House when "Mother" Jones and Lord called. He did not see Mr. Wilson.

## Grand Masque Ball

There will be a grand masquerade ball given at Goebel's New Opera House tomorrow night, Halloween, by the Belen Citizens' Band. There will be the best of music; the floor is in excellent condition and all those who have heretofore attended any of the enjoyable dances given by this worthy aggregation can vouch for what kind of order is kept and how things in general are properly conducted, so do not fail to attend and have a good time.

## Supreme Court Opinion in Curry County Case.

The following opinion was handed down by the supreme court yesterday:

In the supreme court of the state of New Mexico, January term, A. D. 1914. Kid Speakman, appellee, vs. John S. Hayden, et al., appellants. Appeal from the district court, No. 1665, Curry county.

Opinion by District Judge E. C. Abbott, Chief Justice Roberts and Justice Hanna concurring.

This is an action brought by the appellee, Kid Speakman, to quiet the title and to remove a cloud from the title of block 22, Lincoln Park Addition to the City of Clovis, in the state of New Mexico. Judgment was entered in favor of plaintiff, Speakman and the defendant appealed. Judgment of the lower court affirmed.

## Syllabus.

1. An assignment of a mortgage from the mortgagee, named in the mortgage, to a third party, must be placed on record in the county where the land covered by the mortgage is situate, in order to protect the rights of said third party against purchasers in good faith dealing with the mortgagee who fails to disclose the fact of the assignment, such purchaser being without notice of such unrecorded assignment.

## Late European War News

London, Oct. 28.—The limit of human endurance has been reached in the battle of West Flanders and the fighting, which slackened yesterday, came to an almost complete stop today. There may have been some infantry attacks and these may continue but dispatches from points along the Dutch frontier

## Luke McLuke Says:

When the husband thinks he could have done better and the wife thinks she couldn't have done worse, some divorce lawyer gets the price of a new runabout.

Mother's idea of a calamity is when the pastor is ill and there are no services on Sunday. But Father's idea of a calamity is when the beer man is ill and doesn't show up on Saturday and Father has to go dry on Sunday.

A lot of men wonder why girls close their eyes when they are being kissed. But if the men would look into a mirror they would see the reason.

There are 3,064 languages in the world and Friend Wife can use every one of them when she finds a dainty, perfumed, lace-bordered handkerchief in your pocket.

The war in Europe seems to have upset a whole lot of men in this country. But Mother's idea of a world-disturbance is to have the wash day postponed until Tuesday.

When Mother has three or four daughters Father always finds enough store hair around the house to stuff a sofa pillow.

This would be a better world if Mother got more help and sympathy when she is alive and less bawling and flappedoodle when she is dead.

The original September A. M.'s are all married now and have children of their own. They were the girl babies who had their pictures taken while they were sitting in an old fashioned wash bowl.

Along about this time of the year the June bride wonders what she was drinking when she promised to obey a mutt that she could lick with one hand.

state that the artillery fire has ceased and passengers crossing the channel tonight bring the same news.

It was this doubtless that led to the report coming from northern France that the Germans had retired, having given up their attempt to reach the channel ports.

## Fight Themselves Out.

The fact is that the two armies have fought themselves out temporarily and that the Germans, first effort to break through the allies' lines has failed. Neither side could continue longer, the men having been without sleep or rest for the ten days that the battle has been in progress over ground which at present is a morass.

## Why Silos Fall Down

It is about time for some one to start an investigation to learn the reason why so many silos are falling down. Anyone who has occasion to read the various country weekly newspapers is astonished at the number of wood and concrete silos that are reported as falling over. It would be found perhaps that the reason in most cases embraced the old causes, cheap labor and cheap materials. The farmer should know that he can not get good work and good goods unless he pays for them. If he intends to invest in a silo let him get the best that money can buy and let it be erected by the most responsible man in the business. In such a case the farmer will never be sorry. The best is the cheapest, in the long run.

## The Clouds Rolling By.

Business is improving. Men are being hired. It isn't so hard as it was to borrow money—on good security.

Ever see an ice jam in the spring? At first it looks as if it couldn't possible be budged. Even dynamite doesn't faze it. But by and by the warm sun gets in its work; and then folks worry lest the jam should move too quickly and do as much damage by going as by staying. We don't say that the business problem is like an ice jam in every particular, but there are resemblances. What saves the country from being flooded by the spring thaw is that the melt by day is checked a little by the freeze by night. The derangement of the world's credit machinery, the conservativeness of bankers and the war uncertainties now guarantee us against a flood of speculation.

But to keep things moving in the right direction and at a proper pace, we need more sunshine. It is a time for courage, confidence and optimism. Not splashes, not splurges, not yet pinch-penny caution, but manly gumption, grit and go-ahead. Still superior to war news as a topic of interest in the American home is where good values can be found in buying for home

necessities at fair prices.

We can't let eating and living lag until Europe moves for peace. The ordinary processes must go on—they are going on but slightly affected, save as we have allowed ourselves to be scared before we are hurt.

Now that this nation is regaining its wind and its poise, turn on more sunshine—give hope a shove.

## Compulsory Education Law

To the Teachers and School Directors of Valencia county:

Your attention is hereby respectfully called to the compulsory attendance law.

Gentlemen:  
This is to call your attention to the compulsory educational law found in section 1555, C. L. 1897, as amended by chapter 39 laws of 1908 and chapter 121 of the laws of 1909. This law requires the boards of school directors to compel parents, guardians, and other persons having the control and care of children between the ages of seven and fourteen years to send such children to school during the entire time that the school is in session in their respective school districts. Attendance upon denominational schools is accepted under the law in lieu of attendance upon the public schools and children of physical or mental disability such as to unfit them for school attendance as well as children who live more than three miles from the public school are not required to attend. Parents or guardians failing to comply with this law "shall be punished upon conviction by a fine of not less than five dollars nor more than twenty-five dollars or by imprisonment in the county jail not more than ten days." The following steps of procedure under this law are suggested:

First: Clerks of boards of school directors should post or publish notices at once as provided in the act. See section 1555, C. L. 1907. The following form of notice is suggested:  
NOTICE TO PARENTS OR GUARDIANS OF CHILDREN OF COMPULSORY SCHOOL AGE.  
Section 1,555, C. L. 1897, as amended:  
The school directors or board of any school district, town or city in this territory, are hereby empowered and required to compel parents, guardians or other persons having the control, care or direction of children, when such do not attend some private or denominational school, to send such children under their control to the public school during the entire time such school is in session in each scholastic year in their respective school communities, except that children referred to in this act shall be not less than seven nor more than fourteen years of age, or of such physical disability as to unfit them for school duties, which disability shall be certified to by some regular practicing physician: Providing, That the private or denominational school shall be equal in its teaching to the public school of the district, and provided further, That this section shall not apply to children who live more than three miles from a public school.

Any parent, guardian or other persons having the control of children and who shall fail or refuse to send such children to school as required by this act, after the clerk of the school district or the clerk of any town or city school board shall have given public notice containing the substance of this act, written or printed in both English and Spanish, by posting same in some conspicuous place at three separate points within the district, or publishing the same in some newspaper within the district, shall be punished upon conviction thereof by a fine of not less than \$5 nor more than \$25, or by imprisonment for not more than ten days in any county jail.

County superintendents are hereby vested with general supervisory powers in this matter and shall require directors to comply with the provisions of the preceding section; and it shall be the duty of the presiding judge of the district court to give, at each session of the court, the substance of this law as a special charge to their respective grand juries, and it is made the duty of the district attorneys to give particular heed to the prosecution of causes growing out of violations of this act; and all fines so collected for violation of this act shall be paid into the county treasury and placed to the credit of the school district in which the offense occurs.

Section 12, Chapter 122, Laws of 1909.—Any member of the board of education, county school superintendent, or other school officer who may violate the provisions of this act or other acts concerning their powers and duties in connection with school matters or who shall not faithfully perform all such duties imposed under and by virtue of the law shall, on conviction thereof, be fined in a sum not less than twenty-five dollars (\$25.00) nor exceeding five hundred dollars (\$500.00).

Second—All children over seven years of age and under fourteen years of age must attend school for the entire term in the district. If the district holds school for five months, the children must attend school for five months. If the district holds school for seven months, the children must attend school seven months.

Third—In the event that any child of compulsory school age shall fail to attend school regularly, as required by this act, it becomes the duty of the clerk of the district board of school directors to notify the district attorney of such violation of the law and "It is made the duty of the district attorney to give particular heed to the prosecution." (Either justice or district court.)

Fourth—County superintendents are vested with general supervisory powers and shall compel compliance with the law.

Fifth—Section 12, Chapter 21, Laws of 1909, imposes a fine upon the county superintendents or any other school officer for failure to perform his duty.

We believe that the compulsory education law as it now stands on our statutes can easily be enforced. In behalf of those children who have not been sufficiently interested in school or whose parents have not looked carefully after the children's schooling, we urge that the school directors, the teachers, the county superin-

tendents, the district attorneys, and all patrons of every public school lend all possible aid in the enforcement of our compulsory education law.

SATURNINO BACA,  
County School Superintendent  
Valencia County.

## MEANS OUTLAY OF MILLIONS

What It Would Cost the Country's Railroads to Replace Wooden Cars With Steel Ones.

That it will cost the railroads \$614,619,100 to comply with the proposed federal law requiring them to replace their present wooden passenger equipment with steel cars is the statement contained in a bulletin issued by a special committee on relations of railway operation to legislation which represents all of the leading rail lines in the country.

The annual interest charge on this amount at 5 per cent. would total \$30,730,955. According to the committee, the construction of wooden passenger equipment practically has ceased, and rapid strides are being made toward fully equipping railways with either steel or steel underframe cars.

Reports received by the committee from 247 companies operating 227,784 miles of track, disclose that between January 1 and July 1 of the present year orders were placed for 1,140 passenger equipment vehicles, including postal, mail, baggage, passenger, express, parlor, sleeping, dining and business cars, says the Railway Reporter and Traveler's News. Specifications for 1,064, or 93.3 per cent., of these cars provide for all steel construction, while the remaining cars have steel underframes.

A table prepared by the committee shows that of 1,880 passenger equipment vehicles acquired in 1909 by the rail lines, 26 per cent. were built of steel, 22.6 per cent. had steel underframes and 51.4 per cent. were constructed of wood.

In 1912 the railroads purchased 2,660 cars for passenger service, and of the total 68.7 per cent. were of steel and only 10.4 per cent. of wood. A comparison of the number of steel passenger equipment cars in use January 1, 1910, and January 1, 1913, shows that there was an increase during that period of 1.055 per cent.

**BIG FACTOR IN RAILROADING**  
Effective Work That Has Been Done by the Master Car Builders' Association.

That every railroad does not live unto itself alone is due in a large measure to the work of the Master Car Builders' association. One could hardly imagine the chaotic condition in which we would find railroading had there been no association to do what has been done by the master car builders.

We all recognize the value of the work of this association. Even the United States government through its proper department and officials, has shown that it appreciates the far-reaching effect of what has been accomplished.

The letters "M. C. B." if they stand for anything, stand for just that which is opposed to chaos, and are synonymous with system, economy and operation.

Without the M. C. B. rules of interchange, freight traffic would become a tangle impossible of unraveling; without M. C. B. standards, the expense of car maintenance would be doubled; without M. C. B. recommended practices, not only would we be making no progress, but as railroads we would be going backward.

To Make Travel Safer.  
A new device for greater safety of railroad travel has been tested by an eastern line and the test is declared to have been entirely successful. It is an airbrake system that can be operated with either pneumatic or electric control, and it can stop a train of 12 steel passenger cars and locomotive, all weighing nearly 1,000 tons, running with a speed of 60 miles an hour, within 1,000 feet, or the length of the train. Emergency application of high speed brakes now in general use would bring the same train to a stop in 1,600 to 1,800 feet. It is claimed for the new device that it can stop the same train going at 36 miles an hour in 200 feet.

"Yieldable Extension" Cars.  
A western car manufacturer is building "yieldable extension" railroad cars, which, it is asserted, will greatly lessen the danger to life and limb in railroad accidents. The cars are especially constructed, with a framework which is designed to yield and to a certain extent telescope under a severe shock, instead of going to pieces, while remaining rigid under ordinary bumps, such as would be received in every-day use by the coupling of cars or the sudden application of the emergency brakes.

## Election Proclamation.

The Board of County Commissioners of Valencia County, New Mexico, in pursuance of the requirements of Section 1 of Chapter 105 of the laws of 1909, hereby gives public notice that an election will be held in said county on the Tuesday next after the first Monday in November, nineteen hundred and fourteen, the same being the third day of said November; that the object of said election is the selection by the people of one representative of the State of New Mexico in the Congress of the United States; of one member of the State Corporation commission; of Two Members of the State House of Representatives to be elected from said County for the second State legislature, and one District Attorney for the seventh judicial district composed of Valencia, Socorro and Sierra counties; and to vote for or against the adoption of three amendments to the State Constitution which have been by the legislature submitted to the People, each amendment to be voted upon separately, those amendments being, respectively, to amend Section two of Article ten of the Constitution; to amend Article eight of the Constitution, and to amend Section one of Article five of the Constitution, and having been, by the Secretary of State, caused to be published in full in newspapers throughout the State as required by the Constitution.

Ballots shall have printed thereon the proposed amendments in both English and Spanish languages. There shall be placed in said ballots two blank squares with dimensions of one-half inch by one-half inch, and opposite one of these squares shall be printed in English and Spanish the words: "For Constitutional Amendment," and opposite the other blank square shall be printed in both the English and Spanish languages the word: "Against Constitutional Amendment." Any elector desiring to vote for said amendments shall mark his ballot with a cross in the blank square opposite the words for constitutional amendment, and any elector desiring to vote against said amendments shall mark his ballot with a cross in the blank square opposite the words, against constitutional amendment. The Poll books shall be sent to the Secretary of State, and shall be filed in the ballot box by the election judges with the poll books, and the said ballot box shall be sent by the election judges to the Secretary of State.

The Board of County Commissioners of Valencia County, New Mexico, in pursuance of the requirements of Section 1 of Chapter 105 of the laws of 1909, hereby gives public notice that an election will be held in said county on the Tuesday next after the first Monday in November, nineteen hundred and fourteen, the same being the third day of said November; that the object of said election is the selection by the people of one representative of the State of New Mexico in the Congress of the United States; of one member of the State Corporation commission; of Two Members of the State House of Representatives to be elected from said County for the second State legislature, and one District Attorney for the seventh judicial district composed of Valencia, Socorro and Sierra counties; and to vote for or against the adoption of three amendments to the State Constitution which have been by the legislature submitted to the People, each amendment to be voted upon separately, those amendments being, respectively, to amend Section two of Article ten of the Constitution; to amend Article eight of the Constitution, and to amend Section one of Article five of the Constitution, and having been, by the Secretary of State, caused to be published in full in newspapers throughout the State as required by the Constitution.

## New Indian Animal Stories Why the 'Possum's Tail Is Bare

By JOHN M. OSKISON

Get Out Your Paint Boxes and Color the Animals.

(Copyright, 1914, by the McClure Newspaper Syndicate.)  
Long time ago, the 'possum had a beautiful bushy tail. He was so proud of it that he combed it out every morning and made up some songs about it. The rabbit, who had only a stump of a tail after the bear pulled most of it off, got very jealous of the 'possum on account of his tail, and decided to play a trick on him.  
There was to be a great council and dance of the animals, and the rabbit said that he would invite every one to come. He went to tell the 'possum, and the 'possum said:  
"I will come if you will be sure to have a special seat for me. I have such a fine tail that I ought to sit where every one can have a good look at me."  
"Very well," said the rabbit, "I will have the best seat for you; also, I will send you some one to comb and dress your tail for you." The 'possum was pleased, and thanked the rabbit.  
Then the rabbit went to the cricket, who was such a good hair cutter that he was called the barber. "You go and dress the 'possum's tail for the dance," the rabbit said to him; and the rabbit told the cricket just what to do.  
Next morning, the cricket went to the 'possum's house and said that he had come to fix him up for the dance. "You just stretch out and take it easy," said the cricket. So the 'possum stretched himself out, shut his eyes, and let the cricket do his work.  
Now the cricket combed out the 'possum's tail and wrapped a red ribbon around it to keep it smooth until that night at the dance. But as he combed, the cricket clipped off all the hair close to the roots, and he wrapped the red ribbon around a bare tail.  
When night came, the 'possum went to the council house where the dance was to be, and he found the best seat ready for him. "So, my friend Rabbit keeps his word," said the 'possum.  
His turn came in the dance, and the 'possum loosened the red ribbon from his tail and stepped into the middle of the floor. The drummers began to beat, and the 'possum began to dance and sing, "Oh, see my beautiful tail!"  
Every one shouted when they heard what the 'possum sang, so he danced around the circle again, singing "See What a Fine Color My Tail Has." Again, all of the animals shouted, and the 'possum danced around a third time, and he sang, "See How My Tail Sweeps the Ground!"  
This time the animals shouted louder than ever, and once more the 'possum danced and sang, "See How Fine the Fur of My Tail Is!" Then every one laughed so long that the 'possum wondered what they were laughing at. Some one said, "Look at your beautiful tail!" and the 'possum, for the first time, looked down at his tail.  
Not a single hair was left on it—it was as bare as a lizard! The 'possum was so surprised and ashamed that he could not say a word; he just rolled over on the ground and grinned! And that is what he does to this day when he is taken by surprise.

bon around it to keep it smooth until that night at the dance. But as he combed, the cricket clipped off all the hair close to the roots, and he wrapped the red ribbon around a bare tail.  
When night came, the 'possum went to the council house where the dance was to be, and he found the best seat ready for him. "So, my friend Rabbit keeps his word," said the 'possum.  
His turn came in the dance, and the 'possum loosened the red ribbon from his tail and stepped into the middle of the floor. The drummers began to beat, and the 'possum began to dance and sing, "Oh, see my beautiful tail!"  
Every one shouted when they heard what the 'possum sang, so he danced around the circle again, singing "See What a Fine Color My Tail Has." Again, all of the animals shouted, and the 'possum danced around a third time, and he sang, "See How My Tail Sweeps the Ground!"

## SHORT CURVE ON HIMALAYAN RAILROAD

A SHARP LOOP ON AN INDIAN RAILWAY.

The railroad from Calcutta to Darjeeling, the summer capital of the province of Bengal, is an interesting engineering feat from one end to the other. Three standard gauges are maintained in three separate sections; one of five feet six and one-half inches, one of three feet three inches, and on the 51 miles from Siliguri to Darjeeling, one of but two feet. It is on this latter section that the extremely sharp loop shown in the photograph is made, the curve having a radius of but 58 feet.—Popular Mechanics.

## PREMIER Non-Puncture Auto Tire Guaranteed 7,500 Miles Service

These tires bear the greatest known mileage guarantee, yet are sold at a price even less than tires of ordinary guarantee. This guarantee covers punctures, blow-outs and general wear. Stephens, Emilia

These letters will be sent to the dead letter office if not delivered by November 12, 1914.

Persons calling for this unclaimed matter will please say "Advertised."

A charge of one cent will be made for each piece of advertised matter delivered, as required by Section 668 Postal Laws and Regulation, 1902

George Hoffmann, P. M.

## Why do Tenant Farmers Move

The past two months, as is usually the case in fall, has marked the sale of much farm property in the rural communities of the state and the moving of farmers from one farm to another. This frequency of moving, or instability of occupancy, very likely is one of the chief causes for the decline of rural property, or is a hindrance to greater progress. Frequency of removal of farmers is one of the greater causes why the roads and bridges are generally in a poor condition because the farmers, moving at frequent periods are not particularly interested in their upkeep. Farm buildings of such farms are not usually kept in good repair, as the man who is about to move will leave the repairs for the next tenant to make. The same reasons will apply for lack of interest by the unstable farmer in the schools, churches, and general welfare of the community.

The U. S. Census Bureau is gathering statistics on this unsatisfactory phase of country life, but so far, apparently, has not made exhaustive inquiry as to the reason, WHY these farmers move. In our own community such an inquiry might throw light upon conditions that could be changed for the better. This section of the country is noted for its open-handed hospitality, but are we really as hospitable

and neighborly as we believe ourselves to be? Let us be honest with ourselves. Do we welcome the incoming tenant and try to make him and his family feel that we would like to help them and make them permanent members of the community? If not, let us begin with the next new tenants, starting out with the idea that we will accept them at their own valuation and treat them as we would like to be treated under like circumstances. Are our ways, our habits, our local laws and regulations the sort that would naturally attract and what is more important, hold good settlers-fill them with the desire to buy a farm in this neighborhood? Let us stand aside and look at ourselves. Let us try to get the viewpoint of the stranger, and if we are wrong, let us about-face. If we are hide-bound and stand-offish, let us put the Golden Rule in operation. If our ways and habits are not what they ought to be, let us modify them. If our local laws and regulations are either too lax or too puritanical, we have the remedy at hand. Let us find out why farm tenants move from this locality and having learned the cause, remove it.

## HAS DONE GOOD WORK

### RECORD OF THE "SAFETY FIRST" MOVEMENT.

Not Alone on Railroad Lines, but Wherever Hazardous Work is Performed, Employees Have Been Quick to See Its Value.

When the "safety first" movement, adopted a little more than two years ago by one of our great railroad corporations, has reduced by nearly 22 per cent the number of fatalities on its line, is it any wonder that nearly all the railroads in the United States and Canada have kept it up and made it a watchword among their employees? Not only on railroads but in factories and iron mills, and, in fact, wherever there is hazardous work to be performed, no matter what the nature of it may be, the movement is spreading.

The business of transportation requires that more than ordinary precaution should be taken to safeguard operation from accidents, and while in all railroad operation the safety of passengers is the first consideration, the problems presented in protecting employees in many respects are identical, and in safeguarding the latter the safety of the public is also largely secured. It is really not a question of safeguard, but more of intelligent caution constantly exercised.

The aim of the "safety first" movement is to teach each employee a sense of personal responsibility not altogether for his own safety but also for the safety of his fellow employees. It teaches every man in the service so to safeguard the operation of the railroad that he works for that accidents of every kind shall be as few as human foresight can make them.

Workmen themselves are in a large part to blame for the many accidents when they do not exercise the care and caution required to prevent accidents. They should be taught to avoid carelessness at all hazards.

Too many men in railroad service care nothing for the public's interest or their employer's; all they seem to think of is the least work, no matter how it is done. It is in this class of men who are responsible for the awful statistics which show that one railroad employee out of every thirteen and one trainman out of every eight are killed in the United States every year.

The problem of personal injury is complicated by the multiplication of safety devices, for this average holds good even when perfect equipment is in use. Safety devices undoubtedly help, but it must always be remembered that the most important part of the train service is the man behind the steam power. It is the human element that counts most in railroad work.

It is the object of the "safety first" movement to reduce the number of personal injuries among railroad men by encouraging the spirit of co-operation between the men and officials of the railroad companies. When rules are drafted by railroad officials for the safety of its employees, it is in the long run to the advantage of the employee to obey them, although it may seem at the time to oppose.

## What's the Use?

Weep and you're called a baby;  
Laugh and you're called a fool;  
Yield and you're called a coward;  
Stand and you're called an amule;  
Smile and they call you silly;  
Frown and they'll call you gruff;  
Put on a front like a millionaire  
And some guy calls you bluff.

## The Fool Hunter's Prayer.

These are the golden autumn days; the rich, full, six-cylinder, 40-horse power October days. These are the days when every man with red blood in his veins yearns to get out into the glorious woods and shoot a hunter or a guide. Let the indolent sedentary loll in his office chair. Let the devotee of indoor sports push the balls around the pool tables, but as for us, give us a gun and a beltfull of buckshot shells and turn us loose. Turn us loose where the underbrush is good and thick and let us pepper the festive hunter in his hunting pants. Or, if the fates be so kind, let us shoot a guide on the wing, or on the left clavicle, or even on the run. What cares a good sportsman where he shoots a guide as long as he shoots him? He cares naught. He little reck. So hail, mighty nimrod! Hail Diana, hail! Also snow. And if the fates and the gods and goddesses of the hunt, prove unkind, then lead us to the cheerful and romantic rail fence and inspire us to climb over and drag our gun behind us. And then, Oh spirit of the chase! sic the coroner on us quickly, that we may not remain remains too long and thus muss up the thrice glorious golden October landscape

## NOTICE OF PUBLICATION.

Department of the Interior.  
U. S. Land Office at Santa Fe, N. M., Oct. 24, 1914.

Notice is hereby given that Clemente G. Sarrazino, heir of Jesusita Jaramillo, dec'd., of Cubero, N. M., who, on Oct. 18, 1909, made Homestead entry, No. 011958, for E. 1-2 SE. 1-4, Section 30, Township 7 North, Range 10 West, N. M. P. Meridian, has filed notice of intention to make five year proof, to establish claim to the land above described, before Charles Neustadt, U. S. Commissioner, at San Rafael, N. M., on the 10th day of December, 1914.

Claimant names as witnesses: Francisco Pino, Teodocio H. Garcia, Antonio Armijo and Demetrio Jaramillo, all of Cubero, N. M.

FRANCISCO DELGADO,  
10-29 11-26 Register.

## SEXUAL KNOWLEDGE

ILLUSTRATED 320 PAGES

Tells all about sex matters; what young men and women, young wives and husbands and all others need to know about the sacred laws that govern the sex forces. Plain truths of sex life in relation to happiness in marriage. "Secrets" of manhood and womanhood; sexual abuses, social evil, diseases, etc.

The latest, most advanced and comprehensive work that has ever been issued on sexual hygiene. Priceless instruction for those who are ready for the true inner teaching.

This book tells nurses, teachers, doctors, lawyers, preachers, social workers, Sunday School teachers and all others, young and old, what all need to know about sex matters. By Winfield Scott Hall, Ph. D., M. D. (Leipzig).

## Newspaper Comments:

"Scientifically correct."—Chicago Tribune. "Accurate and up-to-date."—Philadelphia Press. "Standard book of knowledge."—Philadelphia Ledger. The New York World says: "Plain truths for those who need or ought to know them for the prevention of evils."

Under plain wrapper for only \$1.00. Coin or Money Order, postage ten cents extra.
