According to the state-run oil company, Petroleos Mexicanos (PEMEX), in 1989 Mexico imported 45.6 million cubic feet of natural gas per day from the US. The 1988 daily average was 6.3 million cubic feet. Natural gas imports in 1990 are expected to surpass last year's figures. (Sources: El Financiero, 11/13/90; The Mexico City News, 11/14/90)
