Russians Mass Forces in Poland to Meet Attack

Meant to Act Before Declaration of War

Wavering Policy of Cabinet Prevented Strategy From Being Carried Out; Operations in War Zones.

Berlin, Dec. 15.—Among the items given out today by the official press bureau were the following:

"The English naval periodical *Nautilus* reports that the former first sea lord Prince Louis of Battenburg, planned to cut off the German fleet in Norwegian waters the night of the second of August, but that the wavering of the British Cabinet frustrated his plan.

"Two American steamers laden with grain for Italian buyers have been stopped by the English and taken to Gibraltar.

"The Reichsbank gold reserve is 2,019,000,000 marks, (about \$505,750,000 which is 27,000,000 marks, (about \$6-750,000) more than that of last week.

"Constantinople reports that the vanguard of the Senussi tribesmen, a Mussulman brotherhood of North Africa, has arrived at the Egyptian frontier."

"That the Prussians still are holding their positions in and around the Mazurian lake region without molestation apparently shows that the Russian force there has been weakened by the necessity of employing all the men available in north Poland where the German attack is proceeding probably against the Lowicz-Morgan line. The fact that quiet prevails in south Poland also appears to show that the enemy may have devided his troops to the field farther north.

"The Russians, however, still are aggressive in west Galicia, but, according to Vienna reports, the investing forces at Przemyśl are making no attempt on the fortress and only rear guards are offering resistance in the Carpathians. The Servians also are avoiding gaining the issue and the Austrians are able to make new dispositions undisturbed.

"Constantinople asserts that the uprising of the Mahomedan tribes on the Persian border are growing daily.

"It is declared that the landing of the Russian troops near

Patum was without influence on the bombardment of that city by the Turkish fleet, which is continuing.

"Geneva reports that an examination of the verdict of the French court martial against German military surgeons and nurses has revealed irregularities in the trial and new proceedings have been instituted against the nine persons sentenced to terms of imprisonment for alleged looting.

"Sofia reports that the aversion of the Servians to the dynasty especially the king's sons is increasing.

Belen Enrolment 451; Attendance 402.

The department of public instruction has received a very satisfactory report from this City, stating that the enrolment of pupils in the schools there has been 451 and the daily attendance 402. This remarkable showing is attributed to the interest manifested by the pupils in industrial work and in the playground games offered by the school. Some of the pupils come a distance of one to four miles to attend school.

The officials of the department of public instruction are at work compiling a statistical report of salaries paid teachers in this state during 1913. Prof. Asplund says that the figures have not yet been totaled.

Visited By First Heavy Snow of Winter.

Grant county and all of Southern New Mexico was visited Saturday and Sunday by the first heavy snow of the season.

In Silver City almost three inches of snow fell, while in the mountain region surrounding that town the snow fall amounted in some sections to a foot.

The snow was of a damp variety and will prove of great boon to stockmen and farmers, furnishing an abundance of moisture for the midwinter months.

MAN WHO SHOTS FRIEND FOR DEER CARRIES BODY FOR DISTANCE OF MILE

Killing in Lincoln County Occurred Wednesday; Man Who Fired Shot to Be Prosecuted Under Game Law.

The killing of Wildie Zumwalt by Harry J. Little in Lincoln county, news of which reached Santa Fe, Monday, in a letter from Thomas W. Henley, deputy game warden at Nogal to State Game Warden Trinidad C. D. Baca, occurred last Wednesday, according to information received here from Carrizozo.

The bullet from Little's rifle struck Zumwalt in the neck, killing him instantly. Little carried the body of his hunting companion to the nearest habitation, a distance of over a mile. Game Warden de Baca says that Little would be prosecuted both for hunting out of a season and hunting without a license. The law provides a fine of \$50 in each instance, or imprisonment in the county jail for from three to six months, or both.

Little declared that he mistook Zumwalt for a deer. The Nogal deputy wrote to Santa Fe to ask if he should prosecute the hunter, who had not taken out a license, and who, by his explanation of the killing, admitted that he was hunting out of season.

Epidemic is Threatened.

Unless New Mexico enforces the compulsory vaccination law in every school precinct and takes the strictest precautions there may be danger of a small-pox epidemic in the spring. Conditions favor it. Not only in Dona Ana county have a number of cases appeared but also at the other end of the state, where at the coal camp of Dawson, the number of cases has been increased. Sporadic cases are reported from other sections. The chief center of infection, of course, is Mexico, and because of the unsettled conditions there, more and more refugees are arriving in New Mexico bringing with them infection.

Card of Thanks.

I wish to thank our many friends for their kindness and assistance during my wife's long illness and death.

NO TRACE FOUND OF CAPT. COONEY: SEARCH PARTY TO TAKE THE TRAIL

Five Weeks Passed Since Anything was Known of Old-Time Mining Man in Socorro County.

Socorro, N. M., Dec. 15.—So far as known here, no trace has yet been found of Captain Michael Cooney, pioneer mining man of this place, who left his home here on October 25th on a prospecting trip, and who has not been heard of in five weeks. A search for him is being made by a party headed by Charles Cooney, his son. Concerning Captain Cooney's disappearance, the Socorro Chieftain says: "The last seen or heard of Mr. Cooney was five weeks ago, when he left his wagon at the Alexander ranch and continued his journey alone on horseback. It has been given out by a number of the state papers that Capt. Cooney is lost, but report is dispelled by the fact that he is perfectly familiar with the country over which he is traveling and the only apprehension felt by Mrs. Cooney and their more conservative friends is that, owing to the severe weather in the mountains, he may be snowed in, or possibly have contracted pneumonia. Capt. Cooney is a pioneer mining man, used to hardships, and it is felt with his superb general health, and a thorough knowledge of the entire western part of the county, he has reached some habitation long ere this."

Goethals Gets Warships to Prevent Law Violation

Lack of Information is Excuse For Delay

Number of Vessels to be Sent South not Made Public; Land Forces May be Used if Found Necessary.

Washington, Dec. 15.—President Wilson and his cabinet decided today to send American warships to the Canal Zone to guard against violations of neutrality there by belligerent ships.

Just how many ships and whether destroyers or cruisers or battleships shall be dispatched will be determined after a full report has been received from Colonel Goethals, military governor of the Canal Zone and Captain Rodma, naval officer at the canal.

Both Secretary Garrison and Secretary Daniels made it clear today that the delay in acting on the request of Colonel Goethals for two destroyers was due to a lack of information. Mr. Garrison explained that the colonel had sent two messages of inquiry on the latter point, Colonel Goethals explained that the wireless regulations were being violated in canal waters and referred to the misuse of the Canal Zone as a base of supplies.

The war department again asked for specific instances of what had occurred, but tonight no further information had been received. On a full explanation of conditions in the Canal Zone, depends exactly what action will be taken and under what departmental jurisdiction.

If the Canal Zone is being used as a base of supplies, Colonel Goethals will be instructed to use his land forces to prevent such violations. Should it develop that the wireless is being used within territorial waters, the navy department will ask for an explanation from its naval officers, as the question of wireless regulation was placed by executive order of President Wilson on August 5 in the hands of the navy department for enforcement and Colonel Goethals, according to the war department officials, has no authority over the radio situation whatever.

"Whatever is necessary to be done," said Secretary Daniels tonight, "to carry out the executive order of the president with reference to the radio communi-

cation, will be done. A telegram from the radio officer at the Canal Zone shows that he is on the job. He says: "For communication with British cruisers from west coast, I have dismantled radio of one British collier, at Balboa, Canal Zone."

"Destroyers or other ships will be sent to the Canal Zone at any moment when needed to prevent the use of radio for any act by ships of any belligerent nation."

The probability is that some of the cruisers now on the west coast of Mexico will be sent to the zone instead of destroyers.

Gorilla Roper of Portales Has Close Shave in War.

Albuquerque, N. M., Dec. 15.—Dallas McDaniel, a cowboy, has written to friends at Portales, N. M., his home, from Liverpool, announcing his escape from Fort Lopez, French Congo, where he was marooned when the war broke out. McDaniel went to Africa with a party organized by J. C. (Buffalo) Jones to capture live specimens of gorilla for a New York zoo. McDaniel was taken along to rope apes. The expedition was abandoned when the war broke out and McDaniel and others of the party were left at Port Lopez without any funds for sixty days.

They escaped on one of three English ships which McDaniel writes were chased by German cruisers, which sank two of the ships. There ship, he says, was set on fire by a shell, but the fire was controlled.

Dies While Husband is Away

Efforts to notify Fred Huning of the death of his wife at Los Lunas, Sunday afternoon, so far have been unavailing. Mr. Huning is on his sheep ranch in the western part of the state. Mrs. Huning had been ill only twenty-four hours, and at the time her husband left for the range she was in apparently perfect health.

The Big Dog Gets the Bone.

It is passing strange that there is not a more fraternal spirit prevailing among the farmers and the consumers, and between the two classes.

Because of their lack of organization they are being plundered by the robber middlemen and trusts—scientifically PICKED TO THE MARROW.

Did you ever throw a bone out to a little dog and then watch a dozen big dogs pounce upon it? And did you take note of the little fellow's pained look as he watched his meal fade away?

The consumer and the farmer are in much the same position as the little dog and its master.

THERE ARE TOO MANY BIG DOGS AROUND.

In other words, instead of having farm products take a short cut from the producer to the consumer, either direct or via the retailer, they pass through the hands of numerous middlemen, all of whom slice off abnormal profits and boost the price sky high before the consumer ever gets a taste.

Middlemen will have their pound of flesh, whether the producer and the retailer get anything or not. And often produce junkets around from one big dog to another until the price mounts so high the robbers must get their additional plunder by lopping off the legitimate profits that are due the farmer.

Too much big dog and not enough bone!

The average farmer is keen upon chasing the big dogs away from his little one, but through force of habit he just about lets the middlemen and the trusts rob him of even the socks he stands in. He has been soaked and gouged and fleeced so often and so much he would feel lonesome if some one didn't hand him another wallop.

And he will continue to be gouged and fleeced and swindled and plundered until some one comes along with a sane plan for kicking the buzzards into the discard and marketing

and quadrupling their cost to the consumer.

Down among the Florida fruit growers the big dog got the bone for a good many years. until some fellow with brains advanced the idea of a fruit growers' organization. Of course, like everything else new, it was poo-hooed at first, but now the members of that organization are getting good prices for their fruit, their crops are marketed by the organization, they are sure of their money, and the consumer gets his fruit at a reasonable price.

MANY LITTLE DOGS CAN LICK A BIG BONE, and in like manner CONSISTENT ORGANIZATION CAN DO WONDERS FOR THE FARMER AND THE CONSUMER.

Middlemen and trusts are BIG DOGS.

They are hungry—ravenously hungry—and will continue to gobble everything in sight until the farmer arises in his might and thunders a mighty "NO!"

With the right kind of organization among the farmers the big dog will cease to exist. But until such an organization is an accomplished fact he will continue to get the bone.

Why the Women Lost.

Indignation is expressed at the National Woman's Suffrage headquarters over the reports that are coming in from Ohio, where an equal suffrage amendment to the constitution was defeated in the recent election. A formal statement from the Ohio suffragists will show that while the suffragists supported the dry cause in the election, the dries did not reciprocate. An informal report issued by the suffragists of Summit county Ohio states that the figures indicate that some of the wets voted for the suffrage amendment.

"Although there were 12,234 votes cast in this county for home rule, an out-and-out wet amendment, there were only 11,279 votes cast against suffrage. Nearly a thousand men voted wet but did not oppose suffrage and probably some of them actually voted for it," says the report.

"And what were the dries doing? They cast 14,721 votes for prohibition, while suffrage received only 9,215 votes in this county. It looks as if more than 5,000 dry voters voted against us, or what is just as bad, did not vote at all.

And this figures stand out in the face of the fact that we talked prohibition every chance we got and did all the work we possibly could for the cause.

"We were afraid of the wet vote. From the looks of things we might have looked for more trouble from those we thought were our friends. It really

seems that prohibition and suff-

rage do not go together, after all." The report concludes with the assertion that an analysis of the state results will show a similar situation throughout Ohio.

A Ham and Bacon Show.

Why doesn't one of our enterprising merchants—or a group of them—organize a county ham and bacon show to be held at some convenient place within the next few weeks? It could easily be made so attractive that it might become an annual early-winter event. There are many farmers who are curing their own hams and bacon and these could be induced to exhibit. It might be possible to secure the services of a demonstrator from the Agricultural College who would instruct other farmers and their sons, wives and daughters in the best methods of home-curing. The smoke house, so long a neglected adjunct to the farm, is coming into its own once more and the farmers who are overlooking this source of profit are just a bit behind the times. There is a brisk market for home cured hams and bacon in the larger towns and the cities and this market may easily be cultivated to the great advantage of the farmer. Let us make this section of the country famous for its home-cured hams and bacon.

The way to start the thing is to organize an exhibit, offer attractive prizes, work up plenty of enthusiasm. This paper will do its share. Who's for the first annual ham and bacon exhibit?

The legislature of New Mexico meets January 12. Have an interview with your member of the legislature, kindly yet firmly urge him to work and vote for the submission of state-wide Prohibition to a vote of the people at the 1916 general election. If you cannot personally see him, write him a letter. Forward his reply or a report of your interview with him to League headquarters. Begin also to have your churches pass resolutions favoring strongly state-wide Prohibition; also have petitions signed up by individuals, making separate lists of voters, with women and children on another list. Any simple petition expressing the above object will do. Forward all to Anti-Saloon League at Albuquerque, N. M., as soon as possible. It is none too early to begin this work. Perseverance will be crowned with success. Remember, also, that your representative at Santa Fe who must draft the bills, have them introduced, appear before committees, etc., is there on expense for you, and must have financial help, if we are to be successful. Therefore, send your personal contribution for this purpose to League headquarters. And let every pastor take an

Odd Bits of News

Omaha, Neb.—Night school has been started in Nebraska's State Prison and 130 prisoners attend classes in shorthand, typewriting, book-keeping and all common school branches. A number of the prisoners are taking extension work for the University of Nebraska.

Montclair, N. J.—If you have a reliable "anti-fat" remedy Chairman Thomas P. McGlynn, of Montclair Fire Department would like to hear of it. The Montclair firemen have so little work to do that they are fast putting on too much weight for the good of the service.

New Orleans, La.—At the convention of the U. S. Brewers Assn. just closed, the fact was revealed that, through the new war tax, the U. S. government is getting three times as much revenue from beer as the brewers get.

Muskogee, Okla.—Miss Flora Wetzell, a telephone girl, started to answer a call recently and could not speak. Her physicians say that she may never speak again. The cause of her loss of voice is unknown.

Auburn, Ala.—The Crimson White, a first class weekly paper, is just edited and published by the students of the University of Alabama. It is run along the lines of a regular weekly paper and is a credit to the students in charge of the 'sheet.'

Logan, Utah.—"Queen Utana" is claimed by the Utah Agricultural College to be the champion long-distance layer among the hen tribe. During five years ending Nov. 1, 1914 "Queen Utana" had laid 816 eggs averaging 2.1 ounces each. "Queen" weighs 3 1-2 pounds and during the 5 years has produced 107 pounds of eggs.

Wait For Her Boys!

The girl who is unkind to her mother isn't worth a tinker's doggone. This isn't written in any part of the Bible, but it's written in the history of thousands and thousands of misfit homes. If one of you boys ever run across a girl with her face full of roses; with eyes that would make the song of an angel seem discordant, and she says, as she comes to the door: "I can't go for a few minutes, I've got to help mother with the dishes." Don't give her up. Stick to her like a burr to a mule's tail. Just sit down on the door-step and wait. If she joins you in two or three minutes, so much the better; but if you have to stay there on the door-step for a half hour, or an hour, you just wait for her. If YOU don't somebody else WILL and in time you'll be sorry. For you'll realize what you have lost.

Wait for her, boy. She's worth it.

Bound for Cattle Larceny.

Dario Garcia of Carnuel, Bernalillo county, was committed to the county jail, Monday, to await the action of the grand jury on the charge of larceny of cattle. Justice Gregorio Garcia, of Los Griegos, who bound him over, fixed his bond at \$500, which he did not furnish.

Garcia was arrested a week ago by Sheriff Romero at Martineztown. He is accused of stealing two cows from a neighbor at Carnuel, his nome.

LIVE STOCK STATE NOTES

Farmington, N. M. Dec. 16.—This country is becoming heavily interested in the stock industry. Up to date there have been 130 cars of stock shipped out of the county. One hundred cars have gone out from Farmington and thirty cars from Aztec. This means a lot of outside money coming into the county.

Roy, Dec. 16.—Another shipment of cattle was made from Roy, Saturday. Fifty 50-foot cars were ordered for the shipment and it included 1250 head. T. E. Mitchell furnished the cattle for the shipment. This is the largest shipment ever made from Roy and with the other shipments made recently it brings the total to 100 cars of cattle this winter. Mr. Mitchell has furnished 75 carloads.

Fort Sumner, Dec. 16.—Hugh Anderson has sold 150 head of calves to J. Brown.

Morrow and Sons delivered 50 cows and 190 calves here recently to Carter and Cochran of Ingleville.

Bill Elliot, of Taiban, has bought 540 head of mixed stuff from Land & Makenson. Delivery was made at the L. & M. Ranch.

Carlsbad, Dec. 16.—The Merchant Livestock company is shipping about 700 steers from Avalon. The cattle were bought by C. B. and W. D. Manley and C. C. Wyatt of Abilene.

No Delay in Giving Election Certificates.

Secretary of State Antonio Lucero announced today that the issuance of certificates of election to the successful candidates in the last election will not be withheld by the state canvassing board because of the failure to receive poll books from small precincts in counties where such precincts could not possibly affect the result. Many poll books which were sent back some time ago for the necessary signatures of election judges and clerks, are still out, only about half of the counties having completed their lists. However, it is believed that by the early part of next week enough of the poll books will have been received from all counties to allow the canvassing board to issue certificates. The

certificates on the adoption of the constitutional amendments will be issued at the same time.

Why He Didn't Advertise.

"Why don't you advertise?" asked the editor of the home paper. "Don't you believe in it?" "I'm agin' advertising," replied the proprietor of the Haysville racket store.

"But why are you against it?" asked the editor.

"It keeps a feller too darn busy," replied the proprietor. "Advertised in a newspaper one time about ten years ago and I never even got time to go fishin'."

Another Gunning Accident.

The twenty-fifth serious gunning accident reported by New Mexico newspapers this fall, is that in which Eliseo Baca, aged 17, is the victim. He was out in a sheep camp and as he set down his gun under a tree it was discharged, the bullet piercing his left hand and his stomach. He was rushed to the hospital at Tucumcari, but no hope is entertained for his recovery.

Government Employment Agency.

A plan has been worked out by the department of labor and the postoffice department whereby every postoffice in the country will become a laborexchange. It is expected that these postal labor agencies will be in operation within a month. A man who has lost his job can go to the nearest postoffice and give his name and the kind of work he can do or desires. And similarly the man seeking employees can make his selection at the postoffice or leave his application.

An employment bureau, backed by the government, should relieve labor conditions, particularly in the rural districts, where there is an absence of other employment agencies. It also ought to serve to assist what are known as "floaters," workers who move from one section of the country to another according to the seasons. Many

BLANCH

This City is extremely fortunate in engaging the Blanch-Walsh company, for a big six-act comedy production to be given at the Commercial Club, Saturday night, Dec. 19th. The troop comes highly recommended. Finest comedy of all black face comedians, it is anticipated the pleasing sensation will be exquisite. The house will be provided with comfortable seats, and will also be heated. Come out and bring the kiddies. Admission 10 and 20 cents. Dance after the show.

laborers who belong to this class are said to range the country from Texas to Canada.

With the extensive information and resources in the hands of the government, there is no telling how much good may result from this plan. There exists a peculiar type of person that will trust and seek the services of the federal government when all else fails. Particularly is this true of the immigrant; and if at the close of the European war, a large increase takes place in this form of foreign labor, the problem of unemployment will positively demand the services of the federal government in seeing that workers are distributed to points where they are needed. The task has already outgrown the facilities of cities and states.

But the Journal does not share the alarm prevalent regarding an influx of immigrants following the close of the European war. So many laborers will have perished in that war or will have been disabled, and there will be so much recuperative work in all of the nations, that all labor should be employed there at higher wages than prevailed before the war commenced.
