NUMBER 6.

## THE DESTITUTE!

### Crowding into Chicago for Free Subsistence.

### Terrible Accident at the Louisville Bridge.

### Romantic and Insane Woman Under Arrest at Kansas City.

#### SANTA FE FINANCIAL.

Chicago, Dec. 15.—An army of tramps pouring into the city when it was reported that a million dollars was being raised to feed and clothe the unemployed this winter. The kitchens this morning were crowded with strangers, who crowd out the city's hundred thousand destitute poor.

#### Bridge Disaster.

Louisville, Ky., Dec. 15.—At 10:20 this morning the fourth span of the Jeffersonville bridge fell in the river. Officers on the government boat Major McKenzie are reported as saying that eighty lives were lost. The accident was witnessed by hundreds along the river. Twenty-five bodies so far have been recovered, being horribly mangled. The accident was due to the faulty mechanism of the bridge. The killed and injured are mostly workmen engaged on the bridge. The probable deaths from the accident will amount to about fifty.

#### The Santa Fe Standing.

New York, Dec. 15.—President Rembert, of the Santa Fe railroad, having returned from Europe, is said to have had no difficulty in financing all the obligations of that company. The Santa Fe is operating ten thousand miles of road and carries a debt of one hundred and three million dollars. Excepting twenty-six millions given for acquiring the St. Louis & San Francisco road the bondholders will hold all the stock. A remnant only is available for speculation purposes. The road is financially sound.

#### Had Railroad Wreck.

McKeesport, Pa., Dec. 15.—A passenger train on the Pittsburgh, Virginia & Charleston railroad jumped the track at Hanford station, thirty miles south of here, this morning and ran into the Monongahela river. A number are reported killed and fifteen or twenty injured.

#### Additional Particulars.

None killed; twenty injured, none fatally. The train crew, except the conductor, escaped by jumping.

#### Wisconsin Diamond Discovery.

Madison, Wis., Dec. 15.—Last October a son of Charles Devine, a farmer, found a bright stone in a clay bank. To-day the stone was found to be a genuine diamond worth about \$200. Geologists have long insisted that there was a glacial drift where the stone was discovered, which is favorable to diamond discoveries.

#### Thousands of Tramps.

Austin City, Texas, Dec. 15.—All this section of the state is overflowing with tramps, most of them loafers. They have hand organs, horns and the like, and the atmosphere is laced with ungently noises. The influx is attributed to Governor Hogg's action sanctioning their capture of freight trains as means of transportation. They are a menace and nuisance to public and private property.

#### Mexican Revolutionists.

Denver, Dec. 15.—The department of the Colorado received word here this morning from Fort Bayard, New Mexico, that a body of men were at Wilcox, Arizona, preparing to cross the border and join the Mexican revolutionists. General McCook has ordered all the forts along the line to watch for and arrest them.

#### Hanged.

Sedalia, Mo., Dec. 15.—Dick Robinson, colored, was hanged here this morning for the murder of Johannes Schollman, a domestic in the family of Robinson's employer. The crime was committed to avoid marrying the girl as she threatened to leave him arrested for seduction, and he stabbed and choked her to death.

#### Fire in New York.

New York, Dec. 15.—The big furniture store of Thornton Brothers burned this afternoon, entailing a loss of a half million dollars.

#### Another Tramp.

Kansas City, Dec. 15.—Mrs. Duggan, a single widow, was arrested here to-day on account of her peculiar actions. She labors under the idea that she has a registered letter here containing a large amount, and that the postmaster and clerks are keeping it from her, intending

to burn it. She will be examined by sanity experts. The old lady is of a romantic turn of mind, and is on her way from Denver, where she was induced to go by the matrimonial advertisement of Will Roberts, a ranchman at Barn City, Colorado. The trip to Denver consumed all her money. Roberts thought her young and wealthy, and was shocked when he saw her, and deserted her at once. She became mildly insane, and the police authorities of Denver realizing that she would become a public charge gave her transportation to this city.

## LABOR REPORTS!

### Federation of Labor on Railroad Strikes.

### Protest Against the Interference of Federal Courts.

### Gov. McKinley will be Inaugurated Without Ceremony.

### UNSAFE FEDERAL BUILDING.

### STRIKES ON RAILROADS.

### There appears to be a tendency on the part of the courts and officers of the government to make all strikes, and particularly those on railroads, an offense against the laws of the country. Early in the year Judge Rick's issued an order compelling railroad employees to continue their work for a company, and convicted and sent to prison an engineer who had not complied with the order. That such an interpretation of the interstate commerce law is plainly at variance without intent is held by eminent jurists, and I would cite the fact that when that law was under consideration in the senate an amendment was proposed covering the exact conditions as contained in Judge Rick's order and defeated. The order of Judge Taft went even further in its effect upon the denial of the right to cease work in order to obtain fairer conditions of labor than even did that of Judge Rick's.

### Your attention is called to the fact that the Postmaster General and the superintendent of the Railway Mail Service recommend in their reports the passage of a bill practically making the cessation of work (strike) of employees on railroads an offense against the laws of the United States and punishable by a fine from \$50 to \$500, and imprisonment from a month to two years. The latter named officer in his report submits a bill framed upon the subject and the former approves it, at the same time adding his definition of a mail train to mean any train even with a single pouch or a railway postal car. When nearly every other government of the civilized world is cosoling the full right not only of organization, but also of the untrammeled right to use every legitimate means for the purpose of securing higher wages, less hours, and better conditions of labor, it becomes the officers of our republic to seek for hindrances to intensify and burden the struggles of labor.

### NATIONAL UNIONS.

In accordance with our well defined policy to not only organize our fellow workers in unions, but also to render them doubly effective to protect and promote their interests, to form new national unions, we have organized three national trade unions. An attempt was made to organize a Laundry Workers' National Union, but had to be abandoned owing to the depression in trade at that time. The Teamsters' and Draymen's Unions have been re-organized to send delegates to conference to be held in this city within the next few days for the purpose of forming a national union, and many of the representatives of these organizations have arrived here for that purpose.

### Death of Bishop Payne.

Official notice of the death of Bishop Daniel A. Payne, senior bishop of the A. M. E. church, was received here by the pastor a few days ago. At a meeting of the members Wednesday night, it was decided to hold memorial services on Sunday morning at 11 a. m., and drape the altar for thirty days in honor of his memory. Bishop Payne was the acknowledged leader of his race in his sphere as a churchman and an educator. He was at the time of his death the oldest Methodist bishop in the world.

### Lane-Wiley.

At 9 o'clock last evening, Justice Lockhart joined in marriage W. A. Lane and Miss Eva Wiley, the ceremony being witnessed by a few intimate friends. Mr. Lane is day engineer of the switch engine in the Santa Fe yards, and is therefore well-known among the railroaders. He is competent and popular. The bride is the daughter of the foreman of car repairers at the Atlantic & Pacific shops. They reside on south Broadway, where they are to-day receiving the congratulations of friends.

### The Menit of a Trial.

CANBYTON, IND.—I have used Simmons Liver Regulator, manufactured by J. H. Zeilin & Co., Philadelphia, and found that for indigestion and liver complaint it is the best medicine I have ever used.—E. K. Clark. Your druggist sells it in powder or liquid. The powder is to be taken dry or made into a tea.

## LABOR REPORTS!

### Federation of Labor on Railroad Strikes.

### Protest Against the Interference of Federal Courts.

### Gov. McKinley will be Inaugurated Without Ceremony.

#### UNSAFE FEDERAL BUILDING.

Chicago, Dec. 15.—At today's session of the Federation of Labor the following supplementary reports were submitted by President Gompers:

#### STRIKES ON RAILROADS.

There appears to be a tendency on the part of the courts and officers of the government to make all strikes, and particularly those on railroads, an offense against the laws of the country. Early in the year Judge Rick's issued an order compelling railroad employees to continue their work for a company, and convicted and sent to prison an engineer who had not complied with the order. That such an interpretation of the interstate commerce law is plainly at variance without intent is held by eminent jurists, and I would cite the fact that when that law was under consideration in the senate an amendment was proposed covering the exact conditions as contained in Judge Rick's order and defeated. The order of Judge Taft went even further in its effect upon the denial of the right to cease work in order to obtain fairer conditions of labor than even did that of Judge Rick's.

Your attention is called to the fact that the Postmaster General and the superintendent of the Railway Mail Service recommend in their reports the passage of a bill practically making the cessation of work (strike) of employees on railroads an offense against the laws of the United States and punishable by a fine from \$50 to \$500, and imprisonment from a month to two years. The latter named officer in his report submits a bill framed upon the subject and the former approves it, at the same time adding his definition of a mail train to mean any train even with a single pouch or a railway postal car. When nearly every other government of the civilized world is cosoling the full right not only of organization, but also of the untrammeled right to use every legitimate means for the purpose of securing higher wages, less hours, and better conditions of labor, it becomes the officers of our republic to seek for hindrances to intensify and burden the struggles of labor.

### NATIONAL UNIONS.

In accordance with our well defined policy to not only organize our fellow workers in unions, but also to render them doubly effective to protect and promote their interests, to form new national unions, we have organized three national trade unions. An attempt was made to organize a Laundry Workers' National Union, but had to be abandoned owing to the depression in trade at that time. The Teamsters' and Draymen's Unions have been re-organized to send delegates to conference to be held in this city within the next few days for the purpose of forming a national union, and many of the representatives of these organizations have arrived here for that purpose.

### Death of Bishop Payne.

Official notice of the death of Bishop Daniel A. Payne, senior bishop of the A. M. E. church, was received here by the pastor a few days ago. At a meeting of the members Wednesday night, it was decided to hold memorial services on Sunday morning at 11 a. m., and drape the altar for thirty days in honor of his memory. Bishop Payne was the acknowledged leader of his race in his sphere as a churchman and an educator. He was at the time of his death the oldest Methodist bishop in the world.

### Lane-Wiley.

At 9 o'clock last evening, Justice Lockhart joined in marriage W. A. Lane and Miss Eva Wiley, the ceremony being witnessed by a few intimate friends. Mr. Lane is day engineer of the switch engine in the Santa Fe yards, and is therefore well-known among the railroaders. He is competent and popular. The bride is the daughter of the foreman of car repairers at the Atlantic & Pacific shops. They reside on south Broadway, where they are to-day receiving the congratulations of friends.

### The Menit of a Trial.

CANBYTON, IND.—I have used Simmons Liver Regulator, manufactured by J. H. Zeilin & Co., Philadelphia, and found that for indigestion and liver complaint it is the best medicine I have ever used.—E. K. Clark. Your druggist sells it in powder or liquid. The powder is to be taken dry or made into a tea.

and convenient quarters in the Masonic Temple. When the court decided that it would be unsafe to hold any more sessions in the rattle trap structure at Clark and Adams streets it adjourned to meet in Milwaukee. The law, however, requires that a certain number of sessions must be held in Chicago, and the law has been justified by the fact that most of the business claiming the attention of the court originates in this city. The quarters reserved for the court comprise some eighteen rooms, of which twelve are on the fourth floor, three on the third and three on the fifth.

## ARIZONA.

### News from All Portions of the Neighboring Territory.

### Prescott is proud of her electric light works.

The Phoenix market is glutted with wild ducks.

The Phoenix Gazette has a female editor on the road.

The electric car line in Phoenix is being extended to outside additions.

The Phoenix jockey club will hold three days races beginning the 27th.

A brother of the late Wild Bill is at present visiting Prescott and vicinity.

A children's fancy dress ball will be given in Phoenix Christmas afternoon.

The Santa Fe, Prescott & Phoenix road will begin to-day steel about February 15th.

Northern Arizona is shipping large train loads of beef steers to the eastern market.

The passenger and freight business of the Southern Pacific company is big at just now in Arizona.

An enormous amount of mining machinery is being freighted into the section of country surrounding Prescott.

The president has nominated Henry H. Rows of Flagstaff, to be register of the United States land office at Prescott.

The Wilsons are worked up over an order that has been issued abolishing the W. U. telegraph office at that place.

P. J. McCormick and Guy Bennett of Prescott recently drove several hundred head of steers to Phoenix to fatten on alfalfa.

The election held last Monday in Tucson for city officers resulted in a complete sweep for the republican ticket by large majorities.

The criminal element in Arizona is smaller in proportion to the population than that of any portion of the thickly settled east.

The la grippe epidemic seems more general than it has ever been since the first winter of its advent to this country, in the winter of 1890.

A great many Colorado people are finding their way into Arizona. Many of them are thorough miners and soon catch on to a "grub stake," place or quartz location.

The bill for the admission of Arizona has received a favorable report from the house committee on territories. This foreshadows the early admission of the territory.

It is said that there are more than fifty men engaged in deer hunting in the Mogollon mountains. Deer are more plentiful this year than they have been for several years.

So far there has been only about \$2,500 in taxes collected in Mohave county, says the Miner. And the chances are that more property will go on the delinquent list than ever before.

Says the Prescott Courier: A meeting of the stockholders of the Virginia Gold Mining company takes place on the 15th when, it is said, arrangements will be made to start up the Yarnell mine and mill.

There is an immense deposit of beautiful gray sandstone about ten miles south-west of Kingman, near the line of the Atlantic & Pacific railroad, that will some day be used for building purposes.

There are a number of deposits of what is commonly called "rotten stone" in the vicinity of Kingman. This stone is used in the manufacture of houses, whistles and in a plastic state for wood polish.

Prescott is the only city in the country which makes newspaper offices pay a license for doing job work. The eastern job offices which do the bulk of the work are the ones which really ought to pay the license.

The Salvation Army ladies have announced free meals to the needy in Prescott. As but very few have accepted the invitation the inference is that there are few people in Prescott who are not able to obtain their food.

William Kandle came in yesterday from his place near Rich Hill, says the Prescott Courier, with forty-nine gold nuggets, ranging in value from \$2.20 to \$30 each, which he washed from his claim. He sent the gold to the San Francisco mint by express.

Rollins & Sons, Denver, Colo., have purchased the canal and irrigation pumping plant of the Colorado River Irrigation company of Arizona. The settlers are guaranteed an abundance of water for irrigation, their rights protected and a live policy. The new company has a large capital.

Charles Ruhl, an Apache county horse thief, who has been a fugitive from justice for several years was convicted at the recent term of court in Apache county and sentenced to fifteen months in the penitentiary. Since fleeing from Apache county, Ruhl had married and settled down in Texas and was living a quiet and respectable life.

That typical Arizona town, Yuma, will probably soon be lifted from Arizona into California, where, it is claimed, it has always rightly belonged. Up to about fifteen years ago the point was often contended between the local authorities both sides of the disputed line, but since the arrest, in 1877, by the Arizona authorities of a San Diego, California, tax collector

## THE RAILROADS.

### Brief Facts Concerning Track and Train.

### Christmas business on all roads promises to be very good.

### Cable Relay, special detective on the Atlantic & Pacific, went west to Gallup last night.

### The shipments of flour and grain from Chicago were 90,211 tons less for 1893 than for 1892.

### A T. Canfield has been appointed general freight and passenger agent of the Pease Valley line.

### The Great Northern & Santa Fe railway will extend its line from San Angelo to San Antonio, Tex.

### East Annual shipments from Chicago are on the increase since the new railway began to cut rates.

### It is estimated that six months will be required in perfecting the reorganization of the Union Pacific.

### Traveling Auditor Matson of the Santa Fe road, was a passenger on his way to Guaymas, Mexico, this morning.

### Railway miners in Pennsylvania offer to accept a reduction, but operators demand a lower, and a strike may follow.

### Officials of all railroads are now busy issuing annual passes for the year of 1894. The number this year will be greatly curtailed.

### The Pennsylvania Railroad company has already issued its hand-book of prospective Golden Gate tours to California, January 31, and the second, February 22.

### The Santa Fe has increased its freight business to such an extent in the Arkansas valley that nine additional locomotives have been put in the La Junta division.

### Irish railways carry a larger proportion of first-class passengers than any other country in the United Kingdom. England heads the list in third-class passengers.

### The Pullman cars which were exhibited at the World's Fair will be stored at Pullman, Ill. in a special building for exhibition. It is intended to put them in service only on special occasions.

### The Santa Fe railroad anticipates that it has put on a weekly refrigerator-car service between Los Angeles, Kansas City, Denver and Chicago and intermediate points per passenger train, the time to be seven days to Chicago.

### A single order for seventy-one standard railway locomotives was placed with an eastern engine building firm recently. Forty-two are to be built immediately, the remainder by early next year. It is one of the largest single orders on record.

### F. M. Murphy, who is doing good work for Arizona in building railroads and developing her rich mines, was a passenger en route to Prescott last night. Mr. Murphy had been to Chicago and New York in the interest of the Santa Fe, Prescott & Phoenix railroad.

### Three new engines have just been completed for the Santa Fe, Phoenix and Prescott Railway by the Brooks Locomotive Works. The force of workmen on the new road has been increased to its fullest capacity, with a view to the earliest possible completion of the road.

### The Michigan Central now hauls its night express trains an arsenal car, well fortified for protection of the train. The cars made their first trip on Monday night. The train on which the arsenal car is hauled is made of mail and express cars, only three being right or ten on the train in each direction. The arsenal car, as it has been christened, is hauled on the rear of the train, adjoining the express car in which the valuables are carried.

### Smelter Burned.

Last week the one-stack copper smelter at Ivanhoe, N. M., owned by the Ivanhoe Mining and Smelting company, and which is leased by J. M. Collier & Co., who had refitted the same and started it to work a few weeks ago, was accidentally burned down. Up to the time the smelter was burned it had only shipped one car of copper. It is stated that W. C. Ruler, the secretary of the company, has been authorized to go east shortly and form a stock company to rebuild the smelter on a much larger scale.

### They Are Here.

S. R. Audrain and his merry-go-round outfit, also Dr. C. C. Engleman and Major Nuggett, have arrived from Vermilion and are in camp at the corner of Fourth and Railroad avenues. They will be ready for business in a few days. Major Nuggett is 34 years of age, is 33 inches high and weighs 41 pounds. He was born in Knoxville, Iowa, father dead but formerly living in Colorado City, Texas. There were nine in the family, all of them above the average in height, except the major.

### At Home Again.

Among those who have been journeying in the east for the past few months and who have returned home without being mentioned in the columns of THE CITIZEN—an overnight strictly accidental—was Capt. Howard J. Balbridge, manager of the J. C. Balbridge lumber yards. Mr. Balbridge left for Chicago two weeks before the World's Fair closed, and after seeing as many of the sights as possible at the big exposition in that time, went on to Pittsburgh, Penn., where he had fun in childhood's days on the banks of the Allegheny and Monongahela rivers. He also visited friends in Kansas City. He returned home last Saturday night, and feels like a new man.

### Called to Fort Wayne.

Mrs. W. A. Davis and daughter, of Winslow, are in the city, stopping at the Windsor hotel. Mr. Davis having arrived from the west the day before. Mrs. Davis is called to Fort Wayne, Ind., on the receipt of a dispatch informing her of the severe illness of her aged mother. She and daughter will probably leave this evening, or remain over and take the fast east-bound passenger to-morrow morning.

Any one who has children will rejoice with L. H. Mulford, of Plainfield, N. J. His little boy, five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says: "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 50 cent bottles for sale by T. H. Burgess & Son, Druggists.

### Chicago Courts.

Chicago, Dec. 15.—The United States court of appeals, which literally walked out of the federal building a couple of months ago, on the ground that the structure was unsafe and placed their serving in it in daily jeopardy, will be housed within the next twenty-four hours in safe

# Weekly Citizen

ALBUQUERQUE, DEC. 16, 1908.

WHAT are the democrats of the territory doing toward securing statehood for New Mexico?

CALIFORNIA is "full of promises" and doesn't want the tariff on foreign prunes taken off.

CLAY'S SUFFRAGERS are not one of the Santa Clara family. He never gave anything.

The crime of crushing skilled labor in this country will be a lasting stigma to the Cleveland administration.

The man who writes an anonymous letter to a newspaper wouldn't do it if he knew what the recipient thought of him.

GUY WATER is so promiscuous and unkind that he makes the people of Colorado forget all their other troubles.

Know up the good old custom of holiday gift-making; find times in no holiday times. It helps good fellowship and helps trade.

ROWEN GORDON will move from New York City to Tarrytown, on the Hudson river, to escape what he says is unjust taxation.

MR. CLEVELAND has nothing to say about the repeal of the federal election law. Perhaps he has found new light on this question.

The election in the new county of Union, last week, was a tame sort of affair. Only two men were killed, and the democrats only had 100 majority.

The government land bureau has decided that the national mineral laws do not apply to Oklahoma, but that owners of homesteads own all mineral deposits.

THE naval estimates for the fiscal year ending June 30, 1909, for the navy and marine corps, including increase of the navy and public works, amount to \$27,800,000.

THE starving miners of the Gogoc range have sent to President Cleveland a protest against the placing of iron ore on the free list. It is not likely that it will have any effect.

THE official estimates sent to congress by Secretary Carlisle ask for \$441,875,041 for the fiscal year 1909, as against \$421,012,215 for 1908, and against \$422,456,320 appropriated for 1904.

YOU've had a protective tariff for thirty-two years, remarked Thos. McKinley. How rigorous have you found it? You have had a threat of free trade for six months. How much have you felt that?

THE reports of the destitution in the great cities are heart-rending details. The determination to force free trade on the country has closed the factories, and actual starvation is observed in the cities.

AN investigation shows that THE CITIZENS were imposed upon by a special deception a few days ago, which purported to give inside information regarding the branch Santa Fe line from Lamy to Santa Fe.

AT the Metropolitan opera house in New York City last Monday night there were \$19,000,000 worth of diamonds on exhibition by the attendance. But round about them were 100,000 men out of work.

PRESIDENT CLEVELAND's perfunctory praise of civil service reform will fall on deaf mugwump ears. The Van Allen scandal has settled Grover's claims to the confidence of all honest reformers of the civil service.

THOMAS is 723,062 Masons in North America. New York is the largest jurisdiction, with 83,275. The largest lodge in the United States is Minneapolis lodge No. 19, at Minneapolis, Minnesota, with 601 members.

OPINIONS don't agree as to the effect of cold weather on the gripe epidemic. Some have said that a cold snap would put an end to it, while others maintain that the gripe microbe being of Russian origin wears his fur coat all winter and thrives on cold weather.

THE tales of suffering from the frozen east are simply appalling to the people of a country whose laboring classes have hitherto enjoyed constant and remunerative employment. The industrial depression is felt by all, but like all calamities its most bitter fruits fall to the lot of the humble toilers.

THE Hawaiian blunder gives Senator David B. Hill the opportunity he has long been waiting for of sticking a long keen knife between the ribs of Grover Cleveland, and no doubt he enjoyed himself greatly when he declared that the president was usurping rights that did not belong to him by his arbitrary action.

WHILE the people of this country are talking about laying a cable across the Pacific, Canada and Australia are taking steps to construct one. Four different routes have been proposed, all of which have Vancouver as the Canadian terminus. The length of the shortest route, including branches, will be 6,246 nautical miles, and the cost is expected to be about \$5,500,000.

THERE are a number of Albuquerque business men who send every dollar of money that they spend for printed stationery away from home. They make their money off the people of Albuquerque and want to give nothing in return. Just as good work is done in this city as anywhere and it is positive treason to send money away that can just as well be spent at home.

Is an interview published in the Hawaiian Star, Minister Wilkes describes what will be and what will not be allowed in Hawaii. He talks as though he had already secured supreme authority over the islands. The provisional government should teach him the limits of a foreign minister's authority. Suppose the Chinese minister should undertake to say what things shall be forbidden in this country?

It is estimated that about 142,000,000 gallons of whiskey are lying in bonded warehouses with the tax unpaid. Should the tax be raised from 90 cents (the present rate) to \$1 a gallon on all whiskey hereafter produced, the holders of the whiskey now in bond and exempt from the increased tax would divide among them a pretty plum of the size of \$14,000,000. The Whiskey Trust would proceed to realize upon the product in bond and the government would wait a year before obtaining any revenue upon the new whiskey subjected to the new rate of tax.

THE progressive reduction of the sugar bounty by one eighth each year, reminds one of Mrs. Partington's method of killing a chicken. The tender-hearted old lady would not let her disfigure the fowl at one stroke of the hatchet, and therefore administered several preliminary chops until she got the chicken used to it.

THE annual report of the Secretary of the Navy Herbert is testimony to the soundness of the policy, planned under Arthur's administration, of building a new American navy, and which policy revealed its greatest impulse during the administration of President Harrison.

THE Tarry bankruptcy bill was killed in the house of representatives after ten years of labor and argument. The whole affair was precipitated by the champions of the bill refusing to permit a vote on a substitute providing for a voluntary system of bankruptcy.

THE secretary of the treasury has sent to congress estimates for improvements for roads and harbors, amounting to \$3,445,000 in addition to those heretofore furnished. Of this sum \$2,000,000 is to be used in improving the Mississippi river.

THE publishers of the Spanish American papers in this territory held a meeting at Santa Fe last Friday, and elected the following officers for the ensuing year: President, Jose Siguero; treasurer, J. B. Cardenas; secretary, Pedro G. de la Haza.

AWAY back in the '90's, when a income tax was proposed, to help raise the vast sums needed to carry on the war, the demagogues shouted that it was "un-American" to have such a tax. They are energetic today.

THE Centinel Rector says G. W. Pitlock, representing the Albuquerque Citizens, is in town in the interests of his paper. We are pleased to note that THE CITIZENS is rapidly growing in popularity in this locality.

THE death of Major Wm. C. Caffrey, editor of the White Oaks Leader, occurred on Monday, Dec. 4. His death was caused by diphtheria. The funeral services were held at White Oaks, under the auspices of the Grand Army of the Republic, of which order he was a faithful member. Major Caffrey was 61 years old, and a veteran journalist. The publisher of this paper was in his employ at Fort Scott, Kansas, on a paper in 1871. From Fort Scott the major went to Lincoln, Nebraska, where he published a paper, and then he came to New Mexico several years ago, and established the White Oaks Leader, which he published to the day of his death. He was a kindly, genial man, and a real little for my age. In his death the newspaper fraternity loses a whole-souled comrade, and the territory a good citizen.

THE Springfield Standard gives the following particulars of the mysterious election now in Union county:

"The democratic party of the Creek, Union county, attempted to hold a meeting last Saturday evening. The republicans tried to drown the proceedings with catcalls and noisier crowding; the result was a free fight with casualties as follows: Francis Gallagher, head split open very seriously injured. Eugene Gallagher, hand broken in two. Eugene Gallagher shot at the chairman (Liam Baker) and missing him the bullet entered his right leg, who is not expected to live."

The Clayton Democrat says that Eugene Gallagher accused S. Otero and Val Oteray of shooting his son, and wore out a complaint against Val and placed him under a \$10,000 bond which he readily gave.

A Village Feast. The feast at Los Griegos, in honor of the patron saint of that village, is in progress to-day, and a number of Albuquerqueans went up to the little town this morning. For years the penitents, who reside in the Griego neighborhood, have exhibited and tortured themselves on this feast day, but owing to the fact that their self-infliction resulted in death in several cases, the priests of the territory were prevailed upon to put a stop to such brutal practices and in consequence the penitents have almost fainted from sight. They were out this morning, however, taking part in the procession, but did not torture themselves. This evening the feast will wind up with a big baile.

Died at Las Vegas. The Hon. Blodgett received word from A. R. Quinley, of the Opera salon, Las Vegas, to the effect that T. C. Crispell, president of the New Mexico Fish, Game and Protective association, had died there on Sunday morning. Deceased had many friends here who will regret to hear of his death. He requested that his remains be kept for three days after his death.

Injuring the Bridge. W. H. Metzger, of Pajarito, called at this office this morning, and gave the information that a number of piles were left in the river by the workmen on the Barajas bridge, and that they are changing the current of the stream, which is liable to do injury to the west end of the bridge.

Should be Arrested. The Popular Demand. Who? What should be arrested? All excessive nervousness, dyspepsia, headache, dizziness, sleeplessness, neuritis, nervous debility, dulness, confusion of mind, nervous prostration, etc. They should be arrested, or stopped, before they develop into a condition that can be cured only by Dr. Miles' Restorative Nervine, the discovery of the renowned specialist, whose remedies are the wonder of the civilized world. Nervine is sold by T. H. Burgess & Son on a positive guarantee. Ask for his book free.

## ARIZONA.

### News from All Portions of the Neighboring Territory.

The Salvation army is doing good work in Tucson.

The land court will meet in Tucson next Monday.

In Coconino county taxes to the amount of \$5000 are collected to this year.

Vigorous and well directed effort for statehood is being made by the people of Arizona.

The Southern Pacific company has paid its taxes in Pima county, amounting to \$14,000.

The Saginaw lumber company at Williams have an order for 50,000 ties from the Prescott road.

New gold fields have been discovered near Fort McDowell, and Phoenix is profiting by the discovery.

A preacher at Nogales is entertaining his congregation with a discussion of the question, "Is life worth living?"

Mrs. York of Ash Fork, has bought Mrs. Evans' lodging house at Williams. Mrs. Evans is going to California.

During the past seven years the output of the Copper Queen mines at Bisbee has reached the enormous total of 78,000,000 pounds.

The government of Arizona offers a reward of \$500 for the murderer of Thos. Grady, which occurred a few weeks ago at Mesquite station.

The statehood convention which met in Phoenix on November 27th, was slumily attended. There was no representation from the northern counties.

All the races of the Phoenix jockey club are rapidly filling up and their promises to be three days' racing during the holidays that Phoenixians will be proud of.

The morning folk at Prescott continue to attract great attention. As a good producing country this section of the territory has few equals in the world.

The citizens of Phoenix at an early day will call a mass meeting in the interest of statehood and give voice to their sentiments in reference to this important matter.

A "Missouri Club" has been formed in Phoenix. It is estimated that there are 2,500 former Missourians in Maricopa county who will all be invited to join the club.

There is an ordinance in Phoenix against merchants making a display of merchandise on the sidewalk in front of their places of business. This seems to be a very nonsensical law.

Cattle buyers report beef cattle scarce this winter, though feed is good and they predict high prices. The main reason given for the scarcity is the death and shipment of so many last year.

Mrs. Fred W. Smith, well known to Tucson society in youth gone by as "Pansy" Smith, divorced wife of the ex receiver of the land office, was married in San Francisco, last Saturday to Frank Walker.

The Phoenix Gazette editor was not downed nor was his spirit crushed by incarceration in jail for plainly expressing his convictions. He still keeps up the war against the territorial administration.

It is said that there are more than fifty men engaged in deer hunting in the Mogollon mountains. Deer are more plentiful this year than they have been for several years past. Quail are also very numerous.

The property of Wied & Baumgartner, saloon and boarding house keepers at Chandler, has been attached by Chas. Zenger, the wholesale liquor dealer of Albuquerque, to whom they are indebted to the extent of \$240.

The committee appointed at the statehood convention to make a detailed statement of the resources of Arizona, among other statements say that Arizona has \$500,000,000 of taxable property, and a population of 80,000.

Systematic poultry raising offers splendid inducements to the one who will engage in it in this section, says the Prescott Journal-Miner. Hundreds of turkeys, chickens, geese and ducks and thousands of eggs are imported here every year.

Says the Chicago Tribune: Considerable comment has been made regarding the fertility of the soil in the Salt River valley, Arizona. It is not generally known that oranges can be grown in that section in time for the holiday trade, but such is nevertheless a fact.

Pauline Cushman, known in this territory as Mrs. Pauline Fryer, for several years a resident of Casa Grande in this territory, is dead from the effects of an overdose of morphine. Her death occurred in San Francisco and is reported to have been suicidal. She was a southern scout in the civil war.

Last Sunday the Papagos had a big drunk and celebration. The occasion was the observance of their saint's day, of San Francisco de Xavier. The old church at Tucson was crowded to its utmost capacity. Several fainted in the jam. The Papagos, in many cases, drank themselves into utter helplessness. The "feast" lasted from Saturday night till Monday.

Gov. N. O. Murphy will leave Phoenix the latter part of this week for Prescott. The governor says the report that no more men were being employed is a mistake. All the men that make application are being put to work, and there are now over 500 men on the pay roll. There seems to be more men than needed and some of them are being turned away.

Frank M. Murphy is expected to arrive in Prescott next week from Chicago and work will then be pushed; within the next month 1,000 men will be grading and laying track.

The Prescott Journal says: The man arrested at the Henrietta mine for the alleged murder of his infant child, and who has been designated by the name of Butler, Barthold and Barthold, is named D. N. Barthold. He came here in July last from Nevada and has been working at Chaparral ever since. He is a young man, apparently not over 23 years old. His examination has been postponed in order that a more extended search may be made for the infant.

The Flagstaff Sun says: John Henry Smith, one of the twelve apostles of the Mormon church, and one of the leading citizens of Salt Lake City, Utah, was in town yesterday on business. Mr. Smith is largely interested in cattle, and his concern recently purchased the Kaibab Cattle company's ranges, and stock in the northern part of this country.

## NEW MEXICO NEWS.

### Interesting Items from All Parts of the Territory.

There are many strangers arriving at White Oaks.

The schools of Roswell are in a flourishing condition.

Eastern stockholders ask that a receiver be appointed for the Cobella land and cattle company, headquarters at Fort Wingate.

The ladies of the Guild, at San Marcial cleared about \$100 from the Thanksgiving party, which will be applied toward the new church.

Thos. P. Gable, chairman of the territorial board of equalization, has called a meeting thereof at Santa Fe on the first Monday in January.

Lloyd Schell, who, for many years, has been an honored citizen of White Oaks, has pulled out for parts unknown, accompanied by his family.

The Wells-Parker coal, down at White Oaks, has been analyzed by D. C. Boyce, expert in coal and iron, Chicago, and is found to be first-class.

Bruce Glasgow, formerly a well-known miner and newspaper man of Grant and Sierra counties, is now a rich mine owner and operator in Nova Scotia.

The Christian people of Clayton have united together and organized a church irrespective of denominational lines, and will erect a house of worship.

Louis W. Lenoir, of Las Cruces, has been appointed district clerk of the third judicial district to fill the vacancy caused by the resignation of Amascio B. Reia.

An unknown tramp committed suicide at Deming by blowing out his brains. He left a note saying he was without work or money, and had been without food for three days.

Tickets to the educational association which meets at Albuquerque, December 27th, will be sold at one rate for the round trip; placed on sale December 26th and limited to January 3rd, returning.

Careful estimates place the output of the Kingston mining camp for the past year at 150,000 ounces of silver, to which is added about 10 per cent in gold, with a considerable tonnage of iron and manganese.

Prospectors should remember that the recently amended United States mining law has no bearing on the territorial mining law, and that they will have to put down their ten-foot hole on new locations the same as usual.

The old school house building in Springer will be repaired and refitted, and on January 25th, 1894, it will be dedicated to the service of God, and in future will be known as the M. E. church of Springer.

The Socorro Advertiser says: It is reported that a number of Albuquerque's prominent men are moving to secure a performance by the Gem City Minstrels in that city, in the near future. An effort is being made to secure a special rate on the Santa Fe for the entire troupe.

A law partnership has been formed at Deming between S. M. Ashenfer, O. H. Cross and W. B. Walton, under the firm name of Ashenfer, Walton & Cross. Messrs. Walton and Cross have been reading law in Mr. Ashenfer's office, and were admitted to the bar last November term.

It is estimated conservatively that the gripe has caused prostration in fully

## A WHOLEM REVISED.

### The Appearance of Conductor Blue causes the 40 Times to Talk.

When a representative of THE CITIZENS was in Chicago last August, he had the pleasure of meeting George F. Blue and wife, who reside in an elegant flat on Forty-third street. Mr. Blue was a conductor on the Chicago extension of the Santa Fe road, and on February 16th, 1893, his train met with an accident near Rutledge, Mo., by going through a bridge. There was no one killed outright, but he was more seriously hurt than any one else. He had time rib broken, right shoulder dislocated, and every rib loosed from the backbone. With the others who were injured, he was taken to Chicago, and for months his life was despaired of. When THE CITIZENS man met him last August he was moving along slowly with the aid of crutches and his whole breast encased in a steel jacket. Yesterday when the writer met him again he was in the same condition, but has the assurance from the surgeons of the railroad, who attend him, that with life and good care he will be all right in a short time. They left this morning for Southern California.

Mr. Blue was a conductor on the Santa Fe road in this territory, running between Las Vegas and San Marcial in 1880 and '81. The old timers of Albuquerque surely know "Blue George," as he was familiarly called in those days.

**C. L. GARDNER KILLED.** Information in regard to him and whereabouts of his sister desired.

Yesterday, William Farr, the well-known meat marketer on south Second street, received the following dispatch:

RATON, N. M., Dec. 11. William Farr, Albuquerque.

C. L. Gardner was killed this morning. Do you know anything about his folks? Answer quick.

Mr. Farr at once started out to investigate, and learned that a Mrs. C. L. Gardner was here visiting Mrs. L. P. Kraus. He called on the lady, showed her the above dispatch, but the lady stated that her husband, also named C. L. Gardner, was not in Raton. But a conductor on the Lake Valley branch, south of the city. Mr. Farr then telegraphed to Mr. Boyle that he could learn nothing about the man mentioned in his dispatch, and in answer received the following telegram this morning:

RATON, N. M., Dec. 12. William Farr, Albuquerque.

Mistake; this C. L. Gardner is better known as "Sam" Gardner, and has since married in Albuquerque a conductor on the Atlantic & Pacific, first name Jerry. If any information answer at once.

J. F. Boyce.

There are several "C. L. Gardners" in the employ of the railroads in the southwest—two on the division between Las Vegas and Raton, conductor and brakeman, and it is thought here that the latter is the party killed. The "C. L. Gardner" on the Lake Valley branch is pretty well known in this city. His wife returned to Lake Valley this morning.

It is evident that the object of the dispatches to Mr. Farr is to find the whereabouts of the sister of the man killed.

**News Notes.** The governor and state officers of Missouri are down with gripe.

The French war department has established a torpedo corps in the army.

The Brazilian government is said to be negotiating for a loan of \$5,000,000.

The Swiss landwehr is discussing a scheme to fortify the St. Gothard tunnel.

Virginia democrats have nominated Gen. C. Hinton for United States senator.

"Tom King," the famous Oklahoma female horse thief, escaped from jail at El Reno, Ok.

A total general loss of \$33,231,215 was caused by the sixteen weeks' strike of English coal miners.

The situation at Rio is unchanged. Firing between the insurgent vessels and the forts goes on daily.

Governor Waite may be indicted as a result of the trouble over the wardenship of Colorado's penitentiary.

General de Campos has offered such harsh terms to the Kifians that the war at Melilla may be renewed.

The city of Leadville is trying to break its contracts with the water company and the gas company. Too heavy expense.

**A Lucky Shot.** Eddie, the colored boy at the jewelry store of G. W. Hickox & Fox, came very near adding a tragedy to his career yesterday afternoon. He was behind the counter dealing with a revolver, when the hammer came down on a loaded cartridge and the deadly bullet went crashing through the show case, through the large plate glass on the second street side of the store, and thence across the street, striking the brick wall of the Whiting building. There were several in the store at the time. Misses Mabel Fox and Grace Comstock moving out of the course of the bullet a few moments before the shot was fired.

**Had News.** T. N. Wilkerson, the young lawyer in the First National bank building, has received the sad intelligence of the death of his father, Dr. A. Wilkerson, at Fulton, Missouri, the other evening. The deceased was for ten years superintendent of the Missouri state lunatic asylum, but in 1890 resigned, at the same time retiring from active practice. He was 73 years of age, and one of the best known physicians of Missouri. THE CITIZENS mourns with the bereaved son in Albuquerque.

**Such Better.** THE CITIZENS is pleased to say that Mrs. Fred Auer, who came here with her husband from Jefferson, Wis., for her health, is rapidly improving in strength and weighs more now than at any other time in her life. Mr. Auer is in the creamery business, and as his wife is on the high road to health again, he will return to his business in a few days, but will leave his wife here until spring. They occupy a portion of the residence of Dave Rudolph on north Third street.

**Successful Surgical Operation.** About two months ago Theo. Muenchman, of Belen, arrived in the city to undergo surgical treatment for abscess of the liver. The operation was a very painful and dangerous one, but the patient is reported up and around, and expects to resume his duties as chief clerk for John Becker, Belen, in a short time. Dr. Kaster handled the knife in a skillful manner, assisted by Drs. Rasterley and Wroth.

**Strength and Health.** If you are not feeling strong and healthy, try Electric Bitters. It "is gripe" has left you weak and weary, use Electric Bitters. This remedy acts directly on the liver, stomach and kidneys, gently aiding them to perform their functions. If you are afflicted with sick headache you will find speedy and permanent relief by taking Electric Bitters. One trial will convince you that this is the remedy you need. Large bottles only 50 cents at Dr. Thos. H. Burgess & Son's drug store.
