FOUND GUILTY OF MURDER

The Jury Returns a Verdict of "Guilty" in the Case Against Moore Brothers

THE CASE OCCUPIED THE ENTIRE WEEK IN COURT

The jury in the case of the Territory versus Moore Bros. in which the defendants were charged with the murder of W. R. Dobbins, returned a verdict of guilty.

For the first time in many years in Eddy county a verdict of "guilty" has been rendered in a murder trial and there was no little surprise expressed by the citizens of the town when it became known that the jury in the above entitled cause had found the defendants John Moore and brother, Jim Moore, guilty of unlawfully taking the life of their fellowman. The case has been hard fought in the district court in its session in this city during the past week, a summary of which appeared in last week's issue of the Current, the substance of which was that the defendants and the deceased occupied adjacent quarter sections of land near Monument before the government survey had been made and, upon their respective tracts, fences were built. When the government lines were established a conflict arose as to the reestablishing the partition lines which according to the permanent survey cut a strip off of the land of the defendant, John Moore, and added it to that of the deceased, Dobbins. All attempts to arbitrate the matter proved futile and each attempt only left matters in a worse condition until it culminated in the killing of Dobbins.

Prior to dispute over the land each and all of the parties to the controversy were recognized as peaceable, quiet and law-abiding citizens and had lived together as neighbors for some time, assisting each other with their work exchanging tools and implements and in every way had been the best of friends but when the matter of adjusting the line between their respective farms arose the trouble began.

The defendants were placed under arrest immediately after the killing and as they were unable to give bond they have been held in jail awaiting their trial. The case was called in the district court here last Monday afternoon and a special venire consisting of forty-four men was summoned before a full panel could be procured. The case went to trial late Tuesday afternoon and throughout the remainder of the week witnesses were examined in the case. The Territory was represented by Messrs Gatewood & Armstrong of this city and G. U. McCrary, of Artesia. Seven "character witnesses" were introduced by the defense. One from Mississippi, from the former home of the defendants, one from Texas, where they had lived prior to coming to New Mexico, and five from the neighborhood where they have since lived. On the other hand testimony was introduced to show that the deceased had repeatedly been alienated the lives of the defendant and it was upon this latter testimony that the attorneys showed that the defendant was shown in the killing. The jury, after deliberating for some time, returned with their verdict of guilty.

pective son-in-law were walking across the land in question looking at the land on which he had a growing crop, when he was seen by the defendants. They went to their respective houses, procured a shot gun and a rifle and started on a run across the field towards the two defenseless men and when within range opened fire. Some three or four shots were fired and Dobbins fell a victim of the murderous assault.

The court room has been well filled with spectators throughout the trial and Saturday afternoon and evening when the attorneys in the case were delivering their arguments to the jury the court room was packed to its full capacity. The speeches were especially strong and forceful, some bordering onto eloquence.

Judge Armstrong delivered an address to the jury which was full of sound argument deduced from the evidence and which doubtless carried much weight with the jury. The speech by Judge McCrary was founded on the law and facts in the case and in it was the semblance of eloquence which was an appeal to the finer senses in the jury which was followed by Judge Gatewood, who, in his characteristic style, well known to the citizens of Carlsbad, he drama-

Judgment by default was obtained by the plaintiff in the case of T. P. Vest vs Susan K. Vest, which was a suit for divorce.

The case of Dorr & Dorr vs Dunaway & McBride was being tried by the court yesterday and was continued over until today.

The matter of procuring a jury in the case began Wednesday afternoon and the case will in all probability go to the jury some time today. The suit was brought to recover on a contract for the sale of cattle. A large number of witnesses was subpoenaed to appear on behalf of each side.

BAD ARTESIA FIRE.

Alfalfa Meal Mill Goes up in Smoke. Other Buildings in Danger.

News reached this city at ten o'clock this morning of a very bad fire in Artesia. The alfalfa meal mill, belonging to J. O. Kuykendall, was destroyed and one box car had been burned. The origin of the fire could not be learned, but it was largely under headway and out of the control of the fire fighting apparatus of Artesia when it was discovered. One small tenement house had also caught from the blaze, but this was put out. The electric light and power plant, which is located just across the track from the meal mill, was in great danger, but as the wind was not blowing, it was hoped that this would not catch.

The exact amount of damage done could not be ascertained, as there was so much excitement in Artesia, and the fire was not under complete control, the damage could not be estimated.

He was about twenty-two years of age and had been a sufferer of the great white plague for some time past. Last fall the family left their home in a covered wagon and have been traveling around over the country seeking some climate which might prove beneficial to the young man's health. His strength gradually left him and last Wednesday morning the end came to relieve him of all suffering. The remains were taken to their former home for burial.

tized the incident of the killing and endeavored to show how the defendants had been imposed upon by the deceased, how he had threatened the lives of the defendants and he appealed to the laws of right and justice for their individual rights. The closing argument was delivered at the evening session by District Attorney Fullen. His address was one of the ablest delivered and upon which he received many congratulations. He carefully summed up the testimony of all of the witnesses and closed with an appeal to the sympathy of his hearers depicting the scenes which lead up to the killing and the fatherless home, the widow and children which were left to the mercy of fate to encounter the many vicissitudes of life. There was scarcely a dry eye in the court room at the conclusion of his argument.

The court followed with his instructions in the law in the case which was placed in the care of the bailiffs and retired to the jury room. They took the case about ten o'clock, Saturday evening and at one o'clock Sunday announced their verdict which was as follows:

"We, the jury find the defendant, John Moore, guilty of murder in the second degree as charged in the indictment, with the recommendation that the clemency of the court be extended."

I hereby present my name to the voters of Eddy County as a candidate for election to the office of Assessor of Eddy County, subject to the decision of the voters at the primary. Your support is solicited.

A movement is on foot among several of the local capitalists to organize a new national bank in this city to be known as the Citizens National Bank. Several large blocks of stock have already been subscribed and many of the representative business men of the town and country adjacent to Carlsbad are identified with the enterprise. With the perfection of the organization and that of the new mercantile company which is well under way, a streak of light is visible in the eastern horizon of the business world of Carlsbad which will doubtless mark the dawn of a new business era. The country was never in a more prosperous condition than now. The cattle have sold at fair living prices and with a good season ahead, the outlook is most flattering at this time. Carlsbad, Eddy county and the whole Pecos Valley as well, will experience a period of prosperity never before equaled in its history.

F. E. Bryant returned from a short business trip to Colorado Springs last Monday evening. He stated that while in the Springs it snowed and the thermometer when on the toboggan but he is of opinion that it was really colder here, while he was gone, than it was there. The fruit was not damaged there as it was here. He stated that by the universal use of smudge pots at Grand Junction, Colo., the entire fruit crop valued at about eight million dollars was saved. He is a staunch advocate of the use of smudge pots by all fruit growers as they work on the co-operative basis, the more pots in use the more advantageous, not only to the individual orchard but to the adjacent orchards, as well.

The recent grand jury returned an indictment against W. H. Mullane, editor of the Carlsbad Current, for libel upon the works and character of Dr. C. E. Lanken, of the children's help society at Albuquerque. It now remains to be seen whether the indictment will be made to stick. We have known Mr. Mullane for many years, and are perfectly satisfied that his charges are based upon what he believes to be the truthful statement of persons he knew. It is very likely that when the show down comes the person who said it will renig and disclaim, after the cheerful way some people have in treating the newspaper man. Many people who are normally considered desirable citizens have that habit. They will tell the reporter something and when it is published on the strength of the writer's confidence in the narrator, and there is a fuss raised about it, the reporter has to face the music alone. The case in question looks to us at a distance like one of this sort. That Mr. Mullane would intentionally slander anyone we know to be impossible. His long and honorable record of fair dealing as a writer and a man precludes the possibility of it. —Roswell Register-Tribune.

The above is the view taken by Will Robinson, probably the most

experienced and best newspaper man in New Mexico. However, it is hardly probable that the information given this paper can be incorrect or that the party giving it will not be true blue and stand by the truth as was stated it occurred.

A. M. Dettleback, Secretary of the Association of New Mexico Firemen has been arrested for forgery and fraud, having gotten away with over \$2,000 of the funds of the association.

Postmaster Bolton has just added two new sections of lock boxes to the post office equipment which has been made necessary by the constant increasing demand for boxes, by the public. The business of the office has been constantly increasing for the past few years and is now making a decided gain over that of the last year. The business transacted by a post office is a fair index to the business prosperity of a community and figuring from this as a basis Carlsbad and the surrounding community supplied from here is enjoying a steady and substantial growth. The rural mail route, also, shows that the farmers of the valley who are served by the route are steadily increasing their number of papers and the sale of stamps, envelopes and supplies indicates a business activity among them in that line of correspondence, the major portion of which is of a business nature. About sixty-five families now receive their mail delivered to their doors, daily.

An extension of the new county road from Malaga to Carlsbad paralleling the railroad has recently been allowed by the county commissioners extending from Otis to a point just north of the stock pens one mile south of town. When opened up this will be a material saving to the people of the lower valley who come to Carlsbad to do their trading and to market their produce. The road extends from the stock pens to within about one mile of the highest curve, and as the old wagon road followed the section lines, it necessitated making all of the square corners and meant an additional distance of several miles of travel to make the trip. The road has already been opened from Otis to Malaga, and with the new road from Otis into this city will be a saving in time, distance and wear and tear on wagons, harness and horse flesh.

C. R. Foster who recently purchased the farm from T. B. Hunter known as the old Holloway farm, is erecting a handsome six room house on the place. The site selected is an ideal building spot. Surrounded by large shade trees on one of the finest fruit farms in the valley and a convenient distance from town makes the place specially attractive and when the young orchard which has just been planted comes into bearing it will rank second to none other farm in the entire valley.

T. S. Webb has completed his new neat five room cottage at the northeast corner of the Vineyard Stock farm to which he moved his household goods and with his family is making his home there. He has a fine tract of land consisting of 160 acres which he has in alfalfa and from which he expects to cut a large tonnage of hay this season.

The work of repairing the La Huerta bridge is progressing nicely. The earth work to the south approach has been completed and the work of laying the new floor has been commenced. The bridge has been closed and traffic to and from the north side of the river has been diverted to the ford, a short distance up the river from the bridge, coming to Carlsbad through Rio Vista. It is not thought the bridge will be closed but a few days.

ANTONIO JOSEPH IS DEAD.

Distinguished Statesman Died at Ojo Caliente Sunday, at 64 Years of Age.

Hon. Antonio Joseph, delegate to congress from New Mexico from 1884 to 1894, and a native of Taos, died yesterday at his home, Ojo Caliente in Taos county. A dispatch telling of his death was received Sunday, and while it caused much regret it was not a great surprise to those who remembered how close to death's door the aged statesman was in El Paso the latter part of January of this year. He suffered with bright's disease, but paralysis was the immediate cause of death.

Just what the funeral arrangements were was not ascertained, but it is known that Mr. Joseph expressed a wish some time ago to be buried in Santa Fe.

Former Delegate Antonio Joseph who for ten years represented the territory in congress, is well known in Santa Fe. A native of New Mexico the greater part of Mr. Joseph's life was devoted to public affairs. He was born in Taos, Taos county, on August 25, 1844. His parents having gone to Santa Fe, N. M., and he was in the same place, in the early part of 1864, during an Indian raid, the Josephs home was destroyed and Antonio, who was then two years of age and his mother were carried into captivity. They were rescued many months later by Colonel Sterling Price and his men.

Mr. Joseph received a good education, for as a boy he attended the La Academia at Taos. Bishop Lamy's school at Santa Fe and later went to Webster College at St. Louis, Mo., and spent some time studying at the Bryant and Stratton Business College in St. Louis.

He followed various pursuits in his business career, including stock raising, agriculture and horticulture. For years he lived at Ojo Caliente and was proprietor of the hot springs there. Mr. Joseph's public service was in the capacity of a probate judge, serving Taos county for six years, after a time he represented his district in the territorial council and then came ten consecutive years of continuous work in the house of representatives, whether he was sent by both democratic and republican voters, although the debate raged on a democratic ticket.

Mr. Joseph was elected in 1891 a member of the territorial council and was made its president for a unanimous vote.

He was a prominent Mason, having taken the 32nd degree.

He is survived by a widow, one son, a brother, John Joseph, and two brothers-in-law, Robert M. Forre, father of Miss Mary Forre, of this city, and Joseph Forre, of Ojo Caliente.

Gov. Patterson Pardons Killer of Sen. Carmack.

Nashville, Tenn., April 13.—Governor Patterson today pardoned Colonel Duncan B. Cooper, whose sentence of twenty years in the penitentiary for the murder of United States Senator Carmack was confirmed today by the state supreme court. The pardon coming so soon after the action of the court created a sensation. The supreme court today affirmed the verdict in the case of the state against Colonel D. B. Cooper and his son, Robert, as to Colonel Cooper, but reversed the lower court as to Robert Cooper. Both had been sentenced to twenty years in the penitentiary for the murder of U. S. Senator Carmack in November of 1908.

WILLIAM SMITH BURKE DEAD.

Death Comes to Nestor of New Mexican Journalism—For Twenty-Nine Years Editor of Albuquerque Journal.

Albuquerque, N. M., April 18.—William Smith Burke, for the past twenty-nine years editor of the Albuquerque Morning Journal, Nestor of Journalism in New Mexico and for more than a quarter of a century one of the most widely known and most influential members of the profession in the west, died Saturday afternoon shortly after 4 o'clock, at the home of his son-in-law, Dr. James H. Wroth, corner of Fifth and Copper avenues, at the age of 72 years. At the end Mr. Burke was surrounded by the members of his immediate family, his wife and children and those who have been nearest to him in his home life. The end was very peaceful and had been anticipated for several days.

With the rare nervous vitality that was one of his remarkable characteristics, Mr. Burke, although never robust and although of late somewhat frail, had been leaving him rapidly, continued to perform his duties until about ten days ago, when he was forced by extreme physical weakness to allow himself to be taken to his home on West Coal avenue. A few days later he was taken to the home of Dr. Wroth, that he might have more constant medical attention. For the past three days, however, he had been unconscious and he passed away in a peaceful manner.

Besides his wife, Mr. Burke is survived by one daughter, Mrs. James H. Wroth, and one son, Wallace Burke, an editorial writer on the San Francisco Call, and for many years connected in an official capacity with the National Southern Home Care, and Finley Burke of Portland, Ore.

For fifty-nine years, practically without interruption, Mr. Burke followed his chosen profession of journalism. He was born in West Virginia in November 1837. He lived in Wheeling as a small boy and there received his primary education. At about fifteen years he removed to western Iowa with his parents and there learned the printer's trade. From this he passed quickly into writing and played an active part in the earliest development of the state, up to the opening of the Civil War. When the war broke out he at once enlisted in an Iowa Infantry regiment with which he served up to the battle of Shiloh. Participating in the battle, Mr. Burke contracted a severe case of pneumonia which left him completely incapacitated for duty. He was treated with the rank of captain. His service to his country made him while not an invalid, yet a man of delicate health for the rest of his life.

Following the war, Mr. Burke went to Leavenworth, Kan., where he became associated with Col. D. R. Anthony, the famous editor of the Leavenworth Times. For much of the time of his connection with that great newspaper and while in Leavenworth that was the principal city of the Missouri river territory. Mr. Burke was practically the editor of the Times. He took a very active part in the development of Leavenworth and in the building of the neighborhood.

Always a writer, always a developer, Mr. Burke followed the westward movement of journalistic enterprise to New Mexico in 1890. A NEW RAIL-ROAD, MAYBE

The Committee Representing Carlsbad Returned From Qunah Enthusiastic

THE ROAD TO CROSS THE PECOS VALLEY SOON

Messrs. C. H. McLenathen, G. M. Cooke, and Col. C. W. Merchant returned last Wednesday evening for a short business trip to Qunah, Texas, where they attended a meeting of the stockholders of the Qunah, Acme and Pacific railroad.

It was a deferred meeting of the stock holders which had been called for the 19th of last month, but for various reasons was set for the corresponding date of this month. Notices of the meeting had been sent to all of the leading towns of the Pecos Valley and the plains country announcing the purpose and date of the meeting and asking for a representation of the business men from the respective towns for the purpose of presenting plans and propositions to the stockholders and the Board of Directors of the road to be used by them in the consideration of the extension of the road from that section of the country thru the Pecos Valley and to El Paso, with an ultimate destination on the Pacific coast.

A large number of representatives were present from about twenty of the towns which are candidates for the proposed road. From Carlsbad, as stated above were Mayor-elect C. H. McLenathen, G. M. Cooke, cashier of the First National Bank and Col. C. W. Merchant who is one of the largest cattle owners in this section of the country and who has his ranch and holdings east of Carlsbad about sixty miles, which would be directly benefited by a cross-plains country road. Col. Merchant was wisely selected by the Carlsbad Commercial Club to be one of the members of the committee as was later on developed, at Qunah. He was personally acquainted with the president of the road, Sam Lazarus, and many of the other officials and by virtue of which the Carlsbad committee was able to procure an interview with President Lazarus in which he stated that it was the purpose of the stockholders of the road to seek an outlet for their road across this section of the country as soon as a corps of engineers can be put in the field to make the survey. Three different corps will be started out within the next thirty days to determine the most practicable route thru or around the mountains to El Paso. The Carlsbad committee was well received and while no promise was held out to them nor to any of the other committees President Lazarus stated positively that some section of the valley would be traversed. The route which proves to be the shortest and with the least grade to El Paso will be selected.

Tuesday afternoon a smoker was tendered the visitors by the Qunah Commercial Club, at which a large representation of the delegates were present and at which meeting not only the railroad business was gone into, but matters of a general nature were discussed, informally. Light refreshments were served. The delegates were taken in automobiles for a pleasure ride and shown the country.

The Otis Club met Tuesday night and there were spirited and helpful discussions on all the subjects, and it was decided to organize an alfalfa growers and shippers society. All alfalfa growers in the lower valley are invited to be present two weeks from last Tuesday night to perfect the organization. Mc Lenathen. Insurance.

A LIVELY MIX UP.

Prisoner Jumps From Moving and Officers Follow Suit

F. C. Greenwood was arrested by the sheriff of Midland Tex. last week who turned him over to Deputy Roy Waller who went to Midland after him. Greenwood being charged with forging checks with the names of J. S. Smith and J. S. Wells, passing one of the checks on W. G. McArthur of Monument. Deputy Waller was accompanied from Midland by Sheriff Beverly. Waller was taken ill on the train and left his prisoner with Beverly who allowed him to leave his seat for a drink of water while the train was running some ten miles this side of Pecos. The prisoner after setting down his cup made a dash for the door and jumped from the train with sheriff Beverly close on his heels he having left the train while it was in motion throwing him a double somersault losing his six shooter but he ran Greenwood 600 yards and overtook him. Greenwood yelling "Don't shoot", while Beverly was threatening to shoot him if he did not stop. Waller was aroused by the conductor and also left the train but his six shooter was in his grip. When he met Beverly with the prisoner, Beverly, who was about all in said: "Here he is Roy, take him." But Greenwood was not to be taken so easily for he at once grappled with Roy and they mixed right up. Roy happened to have a pair of hand cuffs and got in a couple of blows on the prisoner's head who yelled for Beverly not to let Roy kill him. Roy then handcuffed him and brought him in without further trouble.

JOHN W. PRICE.

Smudge pots, fertilization, acre feet of water and head gates and "sich" have had their innings and have made a "like-ly" score but the stockmen are now at bat and the manner in which they are making home runs by the train loads is astounding. During the fall and winter months there is little heard from the stockmen but when the spring opens up and the grass in the northern pastures begins to look fresh and green the cattle men make a noise like a real business institution and the railroads sit up and take notice of the rolling stock of the said companies are taxed to their full capacity and motive power is at a premium. Huge clouds of dust in the vicinity of all of the loading pens up and down the valley, indicate the immense herds of cattle which are being brought in for shipment and the army of cowboys which may be seen accompanying each bunch of steers represents a bill of "chuck" which is the eagerly sought after by the respective merchants of the town. The rations required to feed the "knights of the saddle" from year to year, from shipping time to shipping time, runs into the hundreds of thousands of dollars and the sum total is garnered in, in the space of but a few weeks after the spring round-ups begin.

Buyers from the various sections of the country have been in the city constantly since the middle of January and contracted for the cattle which are being shipped out at this time. The great majority of them came from the Panhandle country and from Kansas and Nebraska, where early spring pastures can be procured and the cattle put in prime condition for the eastern markets which are near at hand.

While several train loads have been shipped out of Eddy County within the past few weeks the busy season opened this week when S. T. Bittling who represents a large number of the cattle growers of this section of the country began shipping out those which he contracted for sale in the early spring. He has already shipped several train loads and last Monday he loaded out more than three thousand head from the shipping pens at Lake Avalon and tomorrow he will ship about seven hundred head of cows. They will be consigned to pastures at Toronto, Kansas and in the Panhandle country.

An ox team hitched to a wagon hauling a load of lumber was an odd and attractive feature on the streets of the town this week. They were owned and driven by M. Lovejoy, who recently came to this city from the plains country and will make his home on a tract of land about three miles west of town. The oxen are well broken to work and with this team Mr. Lovejoy does all of his farm work. His son was injured by a fall from a horse and was brought to this city some time ago and underwent an operation in which his left arm was amputated near the shoulder.

The Halley comet, which has been attracting so much attention, in the newspapers only, of late, has at last diverted the attention from the public press to itself, and is now visible to the naked eye in the early morning in the eastern sky. It is about due east, and at an angle equal to that of the morning star. Many people have already reported as having seen it. The time at which it appears best is between four o'clock and daylight.

Cashier C. M. Richards, of the National Bank of Carlsbad, received a post card this week from H. A. Houser postmarked Hong Kong, China, which states that he is having a most delightful trip and that he had missed meeting John R. Joyce, at that place by ten days. He stated further that he had been able to wear a collar for the first time since leaving here last February, on account of the abscess which formed on his neck while here. He expected to leave for Canton within the next few days.

Alfalfa cutting began in the valley last week and each day adds the whirl of the mowers to the din emanating from the haying section. Lee Holland was the first to start the machinery. He began last Saturday and has about one hundred acres of alfalfa as is to be found in the community. C. R. Foster, the recent purchaser of the Hunter or Hollisway farm, near the river, southeast of town commenced cutting hay on his place last Monday morning. The hay is of a fine growth and the greater portion of the crop would have been ready to cut some two weeks sooner but the last freezing weather which caught it just as it was beginning to bloom. It was a costly freeze as it will reduce the hay crop one cutting, in all probability, this season.

Commissioners Session

(From page 1.)

and the NW 1/4 of the NW 1/4 of sec. 12, township 25 S. range 25 E. The tax rolls of Eddy county show the taxes for the years 1894 to 1908 inclusive amounting to the sum of \$109.85, and the publishers cost of \$17.60, making a total of \$127.45. This statement was based on a report made by the County Treasurer and the offer was made that the above sum would be paid by said Smith in full payment of the lien caused by the non-payment of said taxes. It appearing to the Board that it was for the best interests of the county to accept such tender and issue a receipt in full for the taxes for the above years set forth, it is therefore ordered that the District Attorney be requested to apply to the District Court for an order to the County Treasurer to accept the sum of \$127.45 in full for said taxes and that the County Treasurer issue a receipt in full therefor.

The west 1/2 of the NW 1/4 of the SE 1/4 of the NW 1/4 of sec. 13, T. 25 S. R. 28 E. having been sold to the county for taxes and being now owned by the county, Mr. Ezra Hartshorn presented a proposition to the Board that if the Board would accept the sum of \$2.00 per acre for the above mentioned land with the understanding that all taxes against said land should be cancelled. It was moved and carried that the District Attorney be instructed to apply to the District Court for an order authorizing the County of Eddy to accept the sum of \$2.00 per acre for the above mentioned land and that all taxes against said land be cancelled. There being no further business, the Board adjourned.

Attest:
E. P. BUJAC, Chairman.
A. R. O'QUINN, Clerk.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.—take the advice received and be well.

L. E. Foster, superintendent of the Carlsbad Reclamation service, stated to a representative of the Current this week, that the late freeze practically destroyed all of the peach and other fruit crops except where they were protected. The Tracy orchards in La Huerta were protected by the use of smudge pots and the E. McQueen Gray orchard near Loving was also saved by an accidental breaking out of the water, which flooded the orchard and protected it from a damaging freeze. The alfalfa suffered considerable, insofar as the first cutting is concerned, but it has been retrieved and the cutting has commenced at various points in the valley. The prospect is good for the later fruits.

L. T. Carlisle and wife left yesterday for Roanoke, Ala., where they expect to make their future home, for the next year or so at least. Mr. Carlisle has been in the employ of Joyce-Pruit company for the past two years and has found the indoor employment too confining for him and he is making the change largely for that reason. While in Carlsbad Mr. and Mrs. Carlisle has made many friends all of whom regret to have them leave Carlsbad.

Last week Judge Cunningham issued about ninety-five warrants for persons in the first precinct who have failed to pay their poll tax. As the amount so collected goes directly into the school fund, the county is in need of the money and resorted to the statutory provision for the collection of the same. The tax is one dollar and the cost attached to the forced collection amounts to one dollar also hence a double amount is collected from those who became delinquent and are forced to appear in court. Some few have furnished satisfactory excuses.

The meeting was set for four o'clock and promptly at the appointed hour the mayor-elect and all of the members of the new board were present but several telephone messages were required to procure a quorum of the old board. Those of the former board present were J. M. Dye, Mayor Messrs T. C. Horne and J. R. Linn. The mayor-elect McLenathen and Messrs G. M. Cooke, W. S. Jolly and R. M.
