NUMBER 8

FOODSTUFFS SENT TO HER ENEMIES CONTRABAND SAYS GREAT BRITAIN

Chow For Germany, Austria,
or Turkey, Declared
Taboo

Department Thinks it Over

Washington, D. C., Feb. 2.—Great Britain notified the United States, today, though not officially, that foodstuffs of any kind destined for Germany, Austria or Turkey would be regarded as contraband.

Because the steamer Wilhelmina sailed from New York to Bremen before the issuance of the decree, it is understood her cargo of food for German civilians will be paid for and appropriated by the British government and the ship allowed to go free.

But hereafter food laden ships sailing from the United States directly for German points or for neutral points in Europe where it appears that the cargo may ultimately reach Germany, will be subjected to seizure outright, ship and cargo, without compensation.

The state department is now considering this latest announcement of the British government, but so far has not committed itself.

Action Postponed.

On Saturday last, the County High School Committee met with a number of the leading citizens interested, to select a suitable site for the new school. There was a lengthy discussion of the different locations proposed and it seemed that the majority opinion of those present favored some site in the higher land of the town, to the west of Main street.

The School Directors held a private session immediately after the public meeting and decided to postpone action until Saturday, February 13th, when another meeting will be held in the office of the People's Lumber Company at 2:15 p. m. All bids for sites of offers of any kind must be made in writing and handed one of the School Board on or before this date. Already there have been received several extremely liberal offers for both land and money to be given the District for this County High School and the Board is well pleased with the public co-operation accorded.

Members of the Commission
Now that the tax commission proposition is before the legislature and is almost sure of passage in some form, there are many theories advanced regarding the best method of procedure concerning it.

One suggestion has been made that is rather novel, viz., that the corporation commission have the duties of the tax commission placed in their hands. This idea is advanced by some of the most prominent business men of the state, and is based on the grounds that the establishment of a new board, with the salaries attached which would be sufficient to start the class of men needed for such a position, would be an additional burden to the taxpayers of the state. Already they are enduring about all they can stand in the way of taxes to aid in keeping up local government, and with the national government "war tax," they carry about a depleted pocket book that looks as if an elephant had stepped on it.

The suggestion of the business men that this tax commission, be the state corporation commission, is worthy of consideration among the others that will come before the houses which are to act on the proposition.

It may be that this body has all it can tend to at the present time and would not welcome additional service of the nature suggested, but it is certain that the members would not shirk the responsibility if it were laid upon them.

It is understood that at the present session of the insurance department is to be placed with them, and if they should also have the bank examiner's department added, these two supplemental divisions would add greatly to their labors, so that it may be that the tax commission should be a department by itself. The only reasons given by the business men who have made the suggestion is that it might lessen the expense to the taxpayers in the saving of salaries of the new appointees.

Senator Crampton's Efforts.

Senator Crampton, who is a pioneer in legislation which has aided in bringing the schools of the state to the position which they have attained, has more progressive measures for consideration which are along advanced lines. He would provide for the placing of manual training and domestic science in all the state aid schools, and

would pass a law that would make the teachers in the county high schools assistants in the rural school work in the country districts. Senator Crampton was the one who gave to the state the county high school law and his interest in the advancement of the schools of New Mexico has given to the state some of the best legislation that has been passed in the interest of higher education. In these laws the senator from Raton has erected himself a monument which the advanced citizenship of the youngest state appreciates and enjoys.

Registration Not Necessary.

The attorney general has given the following opinion regarding the registration in county road board elections.

"January 16, 1916.

"Mr. D. J. Finnegan,
"County Clerk,
"Tucumcari, N. M.
"Dear Sir:

"As I stated to you over the telephone, I have no doubt that the language of the act about county road elections requires no registration of voters. The provision in the statute that the election shall be held under the same substantial provisions and the votes cast for or against the bond issue shall be counted, returned, canvassed and declared in the same manner and subject to the same rules as votes cast for county officers, cannot reasonably be construed to include antecedent registration of voters.

"The constitutional provision should not be overlooked, however, as that perhaps creates a sort of registration list. You will see by reference to section 10 of article IX of the constitution that such a proposition for a bond issue must be submitted to the qualified electors of the county who paid a property tax therein during the preceding year, and must be approved by a majority of those voting thereon. It would be judicious to have the officers of election provided with lists of the electors who have paid a property tax during the year preceding the election which list could be made up of course, from the county tax rolls.

"Yours truly,
"FRANK W. CLANCY,
"Attorney General."
Attorneys Paid.

Checks have been mailed by District Clerk Safford to more than a score of attorneys, amounting to \$1,200 in all, and representing money they had advanced for fees years ago in the district court for Santa Fe county. During the

entanglements that ensued through federal investigations in the administration of former Governor Herbert J. Hagerman; these funds were tied up and in the investigations that followed, \$12,000 were found to be due the attorneys, J. H. Crist, E. H. Davies and Frank J. Lavan were appointed a committee of the bar to make the distribution.

SCHOOL NOTES

Mrs. Young visited Miss Thompson's room during the latter part of last week.

Mrs. John Becker, Jr., visited Mrs. Laycock's room last Friday afternoon.

A successful literary programme was rendered in Miss Tooker's room. The programme was conducted under parliamentary rules and the first edition of a class paper was read. The officers of the society are Andres Castillo, president; and Edna LeBrun, secretary. The society seems to be progressing rapidly although a name and colors have not yet been decided upon and in the future they expect to take up some work in debating.

Soledad de Baca, a pupil of Miss Mack's room is again well and attending school.

A number of pupils have been promoted from the second, third and high fourth grades which for lack of space we fail to give their names.

The total enrollment for this year is 493 and the average attendance for last month was 423 which considering the bad weather we have had is very close to the mark. Mrs. Braumback with the cooperation of the rest of the teachers have made up their minds that they will keep up the attendance up to the last day of the scholastic year.

The following are some suggestions prepared by Professor W. M. Fox through a request of the State Board of school directors:

An act, to make the County High School ten months long instead of the customary nine months as prevails at the present time.

BENEFITS TO BE DERIVED BY SUCH A CHANGE.

1. It gives two semesters of five months each, thereby making it unnecessary to complete a half years work in the middle of the month.

2. As agricultural and do-

mestic science are to be two of the most important branches of curriculums, it lengthens the time at the most advantageous stage, the planting, cultivation and harvesting periods, for it gives two weeks additional time to each half year subject thereby insuring a better educated student.

An Act, to make the County High School course a six year course, beginning with the seventh grade.

Benefits to be derived from such a change:

1. It will reach a much larger number of pupils.

2. Gives the opportunity to the advanced grade pupils of a good agricultural instruction which they otherwise would not receive.

3. It is a great incentive to hold pupils in school longer by connecting them with a high school course. Too many pupils get the idea that they are finishing school when they are through the eight grades and parents dislike to encourage them for four years more work.

4. Many of the 7th and 8th grade pupils are of compulsory school age and by the introduction of the 6 year course they can be interested in completing a high school course which they never would undertake under the present system.

It is hoped that these two acts may be made a part of the school law during the present session of the legislature.

Lineau Makes Report.

Peter A. M. Lienau has filed with Insurance Commissioner Jacobo Chaves, the report of his examination of the Occidental life and Fire Insurance companies of Albuquerque. The examination had been made at the request of the companies and the report shows them to be in splendid condition. In the life of the company, the investment average 8 per cent. interest, so well have they been made, the examination also showing that loans are secured by property of more than twice the amount.

Operating expenses have been materially reduced, both in the life and the fire insurance companies. The company has 2,936 life insurance policies, amounting to \$6,918,074, in force and paid death claims last year of \$38,089.61. The fire company paid \$121,921.24 of fire claims last year.

Auto Mishap.

Congressman Benigno C. Hernandez, on his way to San Diego with his brother-in-law Julian Amador, met with a mishap six miles beyond Rincon when their Ford automobile refused to budge any further. The auto, as well as the congressman and his brother-in-law, were hauled into Rincon and decided to take the train for the rest of the way to the pacific coast.

ATTEMPT MADE TO DEMOLISH BORDER BRIDGE

Structure on Canadian-American Boundary Dynamited by German.

Carries Teuton Flag in Pocket

Vanceboro, Main, Feb. 2.—An attempt to destroy a railroad bridge spanning the St. Croix river; which forms the international boundary, was made early today, one of three spans of the structure being dynamited. The attack caused great excitement in New Brunswick, where rumors of a German plot spread rapidly and resulted in an immediate investigation by the provincial authorities. Inquiry was also begun on the American side and led to the arrest of a man who gave the name of Horne. The police say Horne admitted he exploded dynamite under the bridge. In his pocket Horne carried a German flag.

RAILROAD NOTES.

Conductor J. P. Burns, has been transferred to Clovis from this place, owing to an increase in traffic in that town.

Conductor Reese, will be given a regular car.

Ed. Countryman has recently been transferred to Clovis.

Conductors Fathergail and Cotton have again taken their regular cars.

T. L. Gunter, has taken charge of the Pumping station here while Mr. J. Holloway is in the hospital at Clovis for treatment.

E. F. Mitchel, chemist for the water plant at Albuquerque was in town on business during the early part of the week and left on Wednesday for Rincon.

J. B. Brisco was in town on business, last Wednesday.

Change of Venue in Case of the Luceros

Sheriff Emiliano Lucero and County Clerk Abelino Lucero, of Sandoval county, charged with official irregularities, are to be tried in Albuquerque instead of Bernalillo, on a change of venue. The February term of court has opened at Bernalillo, with no grand jury, and Judge Reynolds presiding.

REAL MORALITY.

"Provisionalism is not moral-
ity, says Dr. Frank Crane,
many conscientious people feel
that whatever is different is in-
moral.

"To many an honest villager
and farmer the city is a sink
of iniquity. The unconscious
ground from this conviction is
simply that so many things are
done in cities to which the rural
dweller is not used.

"I find a very common ex-
pression among those of any
nation, section or race, that
those of another are quite loose
in morals. The English think
French are libertines, and the
French think English are hypo-
crites. Methodists imagine
shocking things of Roman Ca-
tholics, and the latter can curdle
your blood with accounts of the
vileness of Methodists. A church
member in Kansas looks upon
a German sipping beer to music
in a garden as on the toboggan
slide to moral wreckage.

"I would define real morality
as that principle in a soul which
respects the sanctities of life,
maintains loyalty in love, seeks
and enjoys useful daily work,
subjects all desires to judgment
subordinates personal to altru-
istic motives, abhors dirt, is stern
toward self, and lenient towards
others. Wherever you find a
principle working these works
in a man, you have found mor-
ality, whether the man be white,
yellow, Christian or Mohammed-
dan, consumer of grape-juice or
of pump-water."

LOOK OUT FOR THEM,

From different parts of the
country come stories of a swin-
dle successfully worked on farm-
ers who thought they were going
to get cheap groceries. Two
smooth strangers went through
the communities taking orders
for a house in Chicago, pretend-
ing to sell a standard brand of
sugar and flour so cheaply that
every farmer visited took from
\$10 to \$60 worth, and other
things besides. Because of the
low prices the flour and sugar
had to be "paid in advance." It
is alleged that in one commu-
nity the swindlers picked up
some \$3,000 and no groceries
delivered.

HIGHER IN 1915.

Among the "Fifty Reasons
why the United States is to
Grow Richer in 1915" the fol-
lowing are grouped under the
head of "Agriculture" by the
writer, B. C. Forbes, financial
editor of the Hearst newspapers:
"American farmers, very tard-
ily, are learning the incalcul-
able value of crop rotation.

"The South has increased its
Winter wheat acreage 50 per
cent and corn average promises
to be similarly extended.

"A proper system of credit
for our farmers is to be estab-
lished, probably before 1915
ends. This is a consideration
of great importance.

"Heavy immigration from ru-
ral Europe should provide our
farmers with a more adequate
supply of labor and should also
lead to the cultivation of greater
acreage throughout the country.

"Our total farm products in
1814 are estimated by the gov-
ernment at almost \$10,000,000,
000 in value, a figure never
before attained.

"High prices for all food pro-
ducts will enrich our farmers
during 1915.

"Prosperity is enabling farm-
ers to buy more labor-saving
machinery, purchase better
grades of breeding cattle and
improve their homes, thus mak-
ing their daily life more com-
fortable.

"Remarkable advances in
agricultural science combined
with the unmatched efficiency
of our federal department of
agriculture, have greatly re-
duced the danger of any gen-
eral failure of crops."

INFORMATION BUREAU

for the benefit of the readers
of THE BELEN NEWS and many
others we will say that we are
making this office a sort of bureau
of information for the general
public. If you want to know
where some one lives, or who has
a house or room to rent or who
will take one or more boarders,
come to THE BELEN NEWS
office. If you have anything for
sale come to this office, and we
will tell you how and where to
dispose of it, we can probably
tell you where you can buy an
automobile, horse, cow, chicken
or eggs. All information will be
given freely and free. Of course
we will take care of our adver-
tisers first of all. Aside from
the direct results usually obtained
from an ad in this paper, we make
a personal effort to look out for
our advertisers.

Come to THE BELEN NEWS
office for information about any-
body in this neighborhood.

FARM PLANNING

If each farm in any commu-
nity is clean, tidy, and well
kept, presenting a thrifty, home-
life appearance, the whole neigh-
borhood will be attractive to
visitors and satisfying to resi-
dents. Local and county fair
boards might create a very val-
uable farm improvement habit
by offering a liberal prize for the
best planned farm in a neigh-
borhood or in a county.

THAT SINFUL PRINTER.

Unobserved and unannounced
the president of a Church Society
entered the composing room just
in time to hear these words issue
from the mouth of the boss print-
er:

"Billy, go to the devil and tell
him to finish that 'murder' he
began this morning. Then 'kill
William J. Bryan's Youngest
Grandchild, and dump the
Angel of mercy' into the hell box.
Then make up that 'Naughty
Parisian Actress' and lock up 'The
Lady in Her Boudoir.'"

Horried the good woman fled
from that place of sin, and now
her children wonder why they are
not allowed to play with the
printer's youngster.

Apparatus For Making Ice.

Every farmer can have his own
ice plant at a cost of from \$13 to
\$20, if he will use the apparatus
described in a new bulletin just
issued by D. J. D. Walters, pro-
fessor of architecture in the Kan-
sas Agricultural college.

The ice plant is made of gal-
vanized iron and consists of a
double tank with an inner tank
about 10 feet long, 2 feet wide,
and 12 inches deep. The top of
the tank should be slightly wider
than the bottom. The inner tank
should be divided into six com-
partments by means of galvaniz-
ed iron strips.

This double tank should be
placed near an outdoor pump
where the compartments can be
easily filled with water. Being ex-
posed on all sides, the water will
freeze in from one to three hours.

A bucket full of hot water pour-
ed into the space between the
two tanks will loosen the cakes so
that they may be removed. One
freezing will give five cakes of
ice each weighing 120 pounds.
Fourteen freezings will yield four
tons of pure ice, or enough to last
an average family for a year.

The cakes of ice can be packed
away in sawdust in the cellar as
they are frozen.

Our Bedtime Story

"DINGLEDOLLAR DAN"

Once there was a nice Old
Fossil living in a town about
the size of this.

When he was a Little Boy a
man gave him a dollar to run
and get changed.

He Forgot to go back with
the change and that was the
First Dollar he ever earned.

When he died he had it still.
He used to pack his money
down into his Jeans with a Hay
Press.

He could make an ordinary
Tight-wad look like Coal Oil
Johnnie.

Whenever he needed any
clothing or shoes he grew Sick
at Heart to think of the Useless
Expense.

He did not nother the town
merchants very copiously, but
when they saw him coming they
ducked into the trenches.

He beat them down on their
prices until they were almost
willing to give him the goods to
Get Rid of him.

Time rolled on until one day
there blew into town an Outfit

which rented an Empty Store
Room and offered the good citi-
zens a chance to buy what was
left by a Bankrupt Fire and
Flood Sale Stock of Shoes and
Clothing at thirty cents on the
Dollar.

Ah! those were the happy
days of Dingledollar Dan.

He loosened up on more coin
than he had Emancipated for
many, many years.

Money that had been mourn-
ed as Lost Forever came back
to Life, Liberty and the pursuit
of Happiness.

He loaded up with clothes
and shoes from the Bankrupt
Stock.

And in his mind he Groaned
to think of the Good Money he
had given the town merchants
for things that were No Better
than those he was getting so
Cheaply now.

He knew they were No Bet-
ter because the Bankrupt fellows
told him so.

One day it Rained.

To his astonishment the color
of his new coat ran blithely
away, the trousers shrank timid-
ly from the ankles, his shoes be-
came nice and soft like wet
pasteboard and the soles fell off
gracefully.

He hurried to the Bankrupt
Sale to tell the gentlemen—but
they had gone to another town
about the size of this, looking
for other economical buyers.

Dingledollar Dan's funeral was
Largely Attended by his pros-
pective heirs.

Moral: Often the principle
thing Sold is the Customer.

Berlin Still Expects

To Hold Next Olympiad

Conflicting reports regarding
the status of the Olympic games,
scheduled for Berlin in 1916, con-
tinue to reach the athletic author-
ities of this country. An American
who recently returned from Ber-
lin reports that the German Olymp-
ic committee has not aban-
doned the idea of holding the inter-
national meet and is still work-
ing on the details and arrange-
ments for the games. The Swed-
ish Olympic committee, on the
other hand, has begun distribu-
tion of a fund previously collected
for this meet, being apparently,
of the belief that the games will
not be held at Berlin or elsewhere
next year.

Cotton Still Rising.

The rise of cotton last week to
nearly ten cents a pound was very
gratifying to the business man of
the whole country. If the cotton
planters will continue to borrow
on their cotton instead of selling
it, the price of cotton will con-
tinue to rise and then when the
Departement of Agriculture an-
nounces after the planting season
is over that only one half a crop
was planted then the price will
no doubt go up to eleven cents a
pound.

LOCAL

The local bakery has again been reopened and fresh bread may now be obtained on demand.

Mr. Martin Gilbert, was in Albuquerque last Saturday attending the marriage of his sister-in-law.

Mrs. M. Gilbert, returned to town place last Sunday night after a prolonged stay in the Duke City.

Charlie Murry, has been on duty at the Budweiser Bar, in place of Arthur Didier who has been ill.

and Mrs. Jesus Chavez's three year old son has been sick with the mumps for the last three or four days.

A part of the wall of the new Becker garage was knocked down by the heavy rain last Friday night, this will probably delay the completion of the building a little longer.

Mr. J. R. Armijo of St. John, Ariz, a well known stock and land property owner in that state was married to Miss. Florela Salazar last Saturday morning in the church of the Sacred Heart, at Albuquerque, the bride is the daughter of the respected and widely known officer J. I. Salazar, of the Duke City police force. A large attendance turned out at the church and home of the bride. The newly wedded couple were to leave soon for the home of the groom in Arizona. Mr. and Mrs. Martin Gilbert served as best man and brides made.

Better Streets for Belen

Belen Main street property owners have initiated laborious repairs on the Main street of this town during the week. The street is being graded with gravel and cinders which will to a certain extent better the condition of the road and prevent so much mud during heavy rains.

According to the statement of one of the promoters of the movement the citizens have taken it upon themselves to do the work owing to the fact that the county road's supervisor has for a considerable length of time ignored the necessity of better streets in this community.

We praise the good spirit of the people in such a generous enterprise and hope that it will not stop there but that it will be contagious to other quarters of the town and county.

Elfego Baca Indicted

At His Own Request

El Paso, Feb. 2.—Elfego Baca, at his own request was immediately indicted by the grand jury here today; following the indictment his attorneys applied for a habeas corpus writ and the matter was taken up for hearing before Judge Ware. Baca appeared this morning before a justice of the peace and waived preliminary hearing on the charge of murder for killing Celestino Otero.

NOTICE TO PUBLISHERS.

July 8, 1913.

The act of June 11, 1906 (34 Stat., 233), requires that the opening of national-forest lands thereunder shall be advertised for not less than four weeks in one newspaper of general circulation published in the county in

which the lands are situated, except where no newspaper is published in the county where the land is situated, in which case the opening should be advertised in the newspaper nearest the land. Therefore, publishers, before commencing publication of notices under the above-designated act, should determine whether their paper is the proper one in which to make such publication; if not they should immediately return the notice to the register of the local land office, so that publication may be ordered in the proper county and paper. Publishers are hereby notified that if by mistake of land-office officials, or for any reason, notices above described should erroneously be sent to them and they should publish the same, no compensation will be allowed therefor. ANDREWS A. JONES, First Assistant Secretary.

Department of the Interior United States Land Office Santa Fe, N. M., Jan. 8, 1915. Notice is hereby given that the State of New Mexico, under the provisions of the act of Congress of June 21, 1898, and June 20, 1910, and the acts supplementary and amendatory thereto, has made application for the following described unappropriated, nonmineral public lands, as indemnity school lands:

List No. 4530, Serial 022492, W1-2 NW1-4, W1-2SW1-4, Sec. 28, T. 6 N., R. 8 W., N. M. Mer. 160 acres.

The purpose of this notice is to allow all persons claiming the land adversely, or desiring to show it to be mineral in character, an opportunity to file objections to such location or selection with the Register and Receiver of the United States Land Office at Santa Fe, New Mexico, and to establish their interest therein, or the mineral character thereof.

FRANCISCO DELGADO Register, U. S. Land Office.

RESTORATION TO ENTRY OF LANDS IN NATIONAL FOREST.

Notice is hereby given that the land described below, embracing 40 acres, within the Zuni National Forest, New Mexico, will be sub-

ject to settlement and entry under the provisions of the homestead laws of the United States and the act of June 11, 1906 (34 Stat., 233), at the United States land office at Santa Fe, New Mexico, on March 22, 1915. Any settler who was actually and in good faith claiming any of said lands for agricultural purposes prior to January 1, 1906, and has not abandoned same, has a preference right to make a homestead entry for the lands actually occupied. Said lands were listed upon the applications of the persons mentioned below, who have a preference right subject to the prior right of any such settler, provided such settler or applicant is qualified to make homestead entry and the preference right is exercised prior to March 22, 1915, on which date the lands will be subject to settlement and entry by any qualified person. The lands are as follows: The SW1-4 NE 1-4, Sec. 34, T. 12 N., R. 9 W., N. M. P. M., 40 acres, application of Abel Sandoval, Grants, New Mexico; List 3-3238, January 6, 1915. C. M. BRUCE, Assistant Commissioner of the General Land Office.

SEXUAL KNOWLEDGE

ILLUSTRATED 320 PAGES

Tells all about sex matters; what young men and women, young wives and husbands and all others need to know about the sacred laws that govern the sex forces. Plain truths of sex life in relation to happiness in marriage. "Secrets" of manhood and womanhood; sexual abuses, social evil, diseases, etc.

The latest, most advanced and comprehensive work that has ever been issued on sexual hygiene. Priceless instruction for those who are ready for the true inner teaching.

This book tells nurses, teachers, doctors, lawyers, preachers, social workers, Sunday School teach-

ers and all others, young and old, what all need to know about sex matters. By Winfield Scott Hall, Ph. D., M. D. (Leipzig).

Newspaper Comments:

"Scientifically correct."—Chicago Tribune. "Accurate and up-to-date."—Philadelphia Press. "Standard book of knowledge." Philadelphia Ledger. The New York World says: "Plain truths for those who need or ought to know them for the prevention of evils."

Under plain wrapper for only \$1.00. Coin or Money Order, postage ten cents extra.

The Triumph of Science

A new era of commercial and social development has dawned for this busy, progressive nation.

The means by which the human voice can be carried across the continent have been provided.

Talking by telephone from New York to San Francisco is now an accomplished fact.

The celebration of this latest and greatest triumph in the art of telephony has just taken place.

This triumph of American brains, American initiative and American scientific and technical skill has no equal among the civilized nations of the world.

One hundred million people will have for their daily use the greatest system of communication in the world.

It knows no North, no South, no East, no West. It advances the neighborliness of the whole nation.

With no traditions to guide, and no experience to follow, the engineers of the Bell System have created an entirely new art—the Art of Telephony.

They have given to the people of this country a telephone service that has no equal.

The Bell System, with its connecting companies, now comprises 21,009,000 miles of wire and 9,000,000 telephones.

It serves daily a nation of one hundred million people.

The Mountain States Telephone and Telegraph Co.
