Carrizozo News.

A Journal Devoted to the Interests of Lincoln County.

VOLUME 11.

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, APRIL 15, 1910.

NUMBER 10

The Taking of the Census Commenced this Morning.

This morning the census enumerators started on their rounds of taking the 1910 census. This county is divided into nine districts, with one enumerator for each district. Seventy thousand enumerators will be required to take the census of the whole country. The cost will amount to \$4,500,000, with an additional \$1,000,000 for supervisors and clerks.

The enumerators will want to know a good deal about you for the population volumes. They not only will insist upon knowing your sex, but will expect you to reveal your age, and will ask you to tell whether you are white, black, mulatto, Chinese, Japanese or Indian; whether you are married or single, and if married how often; whether you are American or foreign born, and if the latter that you give not only your nationality, but your race and mother tongue. Then, if you are a woman, you are to tell how many children have been born to you, and in any event, you are to tell all about your education, your parentage and your employment. All this information is to be for the general average and for the ear only of one of the enumerators. He is sworn not to reveal any of the awful truths.

At Nogal Hill.

The territorial road crew, under Assistant Engineer Lewis, began work on the Nogal hill last Friday, and from the rapidity the work has proceeded to date, that hill will soon cease to be an impediment to the traveler. A long stretch has already been cut out and leveled up, and the work presents the appearance of a railroad grade. About forty men are employed on the job, and the work promises to be completed in a reasonably short time. This hill is practically in the center of the county, and must be crossed by most of the travel from east to west. Its completion, on the plans outlined, means a great deal to Lincoln county.

Lecturer Coming.

Territorial Supt. Clark has arranged with Henry R. Pattengill, Superintendent of Michigan, to deliver a series of lectures in

New Mexico. Superintendent Clark and the lecturer are now in the northern part of the territory and they are greeted by enthusiastic audiences at all points.

They will be in Carrizozo Sunday night, May 1, at which time Mr. Pattengill will deliver a lecture in the Baptist church. The lecture will be free and everybody is cordially invited to be present. Boards of directors and school teachers are especially requested to be present on that occasion. On the following day every teacher in the county should be here, as both Superintendent Clark and Mr. Pattengill desire to talk over matters of interest with them.

Do not forget the date, May 1, and do not fail to come. The object is to stir up an interest in school matters, and these gentlemen should be greeted by a large audience.

The Real Live

Buster Brown

and

His Dog "Tige."

will be in Carrizozo To-morrow

Saturday, April 16.

They will hold a Grand Reception at Real's Opera House, to which young and old are cordially invited.

Souvenirs for all who attend.

ADMISSION FREE.

Come and See these Famous Characters in Flesh and Blood.

At the Opera House

Saturday, April 16.

Halley's Comet Visible.

Friday, April 15, at 10 o'clock in the morning, will be the earliest time at which it will be worth trying to see Halley's comet with the naked eye.

During April and the early part of May, the comet will be visible in the east before sunrise a few degrees north of east. By May 17 it will be too nearly in line with the sun to be seen in the morning, but from then on it will appear in the west in the evening as soon as it gets dark. On May 20 it will set two hours after the sun with the interval growing longer each night.

Gone Glimmering.

Some time ago it was not only reported that a resolution, annulling council bill No. 86, had been introduced in the lower house of congress, but that it had passed. A letter from Delegate Andrews

to an inquirer at Lincoln, states that the committee in charge of the resolution was requested to "shut it off;" that the request came from the Secretary and a number of others, some from New Mexico, and the basis of the request was that the county seat had already been removed to Carrizozo and court had been held here. So the committee "shut it off." Thus another peg was knocked from under the county seat contestants.

Church Services.

Regular services will be held in the Baptist church on the second and fourth Sundays in each month at 11 o'clock a.m. and 7:30 p.m. Rev. G. C. Berryman, pastor.

Sunday school every Sunday morning at 10 o'clock. E. B. Chapman, superintendent. Every body cordially invited to all services.

TWO NEAT STYLES

APPROPRIATE COSTUMES FOR YOUTHFUL BELLES.

Tailormade Either in Simple Gingham or Smart Wool—Shirtwaist Model Adapted for Many Kinds of Material.

The two costumes were displayed both show, in their respective ways, two of the neatest of the season's styles. The girl who is studying her lesson demonstrates the tailored neatness which may stamp a frock in either a simple gingham or a smart wool and in either case a piping of plain goods, put beside one of white, may form the trimming, as illustrated.

The standing girl, of college age, wears a very trim shirtwaist model, which is adapted to a girl's silk, panama, gingham or linen. The hip yoke skirt already described is here displayed and the double frill which ornaments the plain bodice may be accepted as very indicative of the summer's mood, for the shirtwaist without this double or single frill for jabot will be rare.

A word of sleeves and stocks. Arm coverings are much fuller than last summer and quite the best sleeve for any costume on shirtwaist-dress lines is the little bishop with narrow band cuff. The sleeve with close shoulder cap and puff lower portion held in at the wrist with a narrow cuff, is used for a smarter frock, while many a little sleeve in a thin material will be made with groups of crosswise tucks all the way down.

Stocks in thin textiles, such as lace, net, chiffon and open lawn embroidery, also continue to begay the frock in any fine material, but the girl who values the beauty of her throat will be glad to hear, I am sure, that little laces and embroidery collars of the Dutch sort are more worn at the other side of the water.

A young girl, in America on a visit,

and whose home until recently has been the historic Medinham abbey, on the Thames, declares that a girl in one of the high, choking stocks worn in this country would be considered "eccentric" in Paris and London.

All of this little lady's toilettes, by the way—they are made by the greatest dressmakers of London and Paris—display a girlish note delicious to

see. She is 18 and heiress to a large fortune and yet does not own so much as a bangle ring or a string of gold beads.

Would that our American lassies, too prone to fixy fineries, might take a leaf from her book.

Mary Dean

HANDSOME BLACK SILK WAIST

Black Embroidered Tulle Used Effectively Over Foundation of the Richer Material.

The foundation of this waist is of black silk, but it is entirely covered with a large collar or bertha of black embroidered tulle which forms a jabot

on each side of the front, fastened at the top with a button. This collar is further ornamented with motifs of passementerie or soutache.

The yoke is of the embroidered tulle, ornamented in front with tiny knots of silk and bordered with an embroidery made of rolls of silk.

The sleeves are composed of ruffles of the embroidered tulle, and the long tight undersleeves are of plain tulle, ornamented with the little knots of ribbon.

Wrap for Next Summer.

An ethereal-looking wrap just a little more of a protection than the chiffon scarf, is a kind of burnous made from marquisette. It is extremely effective in black, though colors may be used, of course.

Bought ready for wear, this dainty accessory is expensive, but it could be made at home at little cost and trouble.

To construct it a strip of silk is looped in the back burnous fashion and again in a smaller loop on either shoulder.

The wrap falls to just below the hips and is bordered on all edges with a pretty galloon.

Fringe on Hats.

Fringe—narrow silk fringe—is used to edge a new straw hat, and very softening is it to the face. The bows of ribbon, which are the sole trimming, are also edged with the same narrow fringe.

A New Version.

Appropos of George Washington and the cherry tree story, Senator Beveridge said at a dinner in Indianapolis:

"I asked a little boy what this story was the other day, and he actually didn't know. He said he knew, though, the story about the judgment of Solomon, and he proceeded to tell it to me.

"Solomon," he said, "was a very wise man. One day two women went to him, quarreling about a baby. The first woman said, 'It is my child.' The second said, 'No, it is mine.'

"But Solomon spoke up and declared:

"'No, no, ladies; do not quarrel. Give me my sword and I will make twins of him, so that each of you will be supplied.'"

Ways and Means.

During what is called an "observation" lesson, a mistress was questioning a class of small boys on certain points or things they had observed in connection with the habits of animals in water.

"What do fishes swim with?" the lady asked.

"With their fins," replied one scholar.

"Right. And dogs?"

"Their paws," answered the next.

"Very good. And, now, the next boy, what do little boys swim with?"

"Bathing-pants, mum!"

Cause of the Increase.

Going downtown the other morning in the street car Judge Reid looked up from his newspaper. "I see that the publisher of Anybody's makes the claim that his magazine has a larger circulation than yours," he remarked to the proprietor of the Earth Monthly.

"Well, it's my fault if it has," snapped the other; "like a fool, I've been letting him run one of his ads. in the Earth."—Chicago News.

An Easy Job.

"Do you think that you can make my daughter happy?" asked Mr. Cumrox.

"She has been happy with you, hasn't she?" rejoined the confident youth.

"I think so, sir."

"Well, if she's that easy to please there ought to be no difficulty."

WHAT'S THE USE

Sticking to a Habit When it Means Discomfort?

Old King Coffee knocks subjects out tolerably flat at times, and there is no possible doubt of what did it. A Mich. woman gives her experience:

"I used to have liver trouble nearly all of the time and took medicine which relieved me only for a little while. Then every once in a while I would be suddenly doubled up with an awful agony in my stomach. It seemed as though every time I took a breath I would die. No one could suffer any more and live.

"Finally I got down so sick with catarrh of the stomach that I could not turn over in bed, and my stomach did not digest even milk. The doctor finally told me that if I did not give up drinking coffee I would surely die, but I felt I could not give it up.

"However, Husband brought home a package of Postum and it was made strictly according to directions. It was the only thing that would stay on my stomach, and I soon got so I liked it very much.

"Gradually I began to get better, and week by week gained in strength and health. Now I am in perfect condition, and I am convinced that the whole cause of my trouble was coffee drinking, and my getting better was due to leaving off coffee and drinking Postum.

"A short time ago I tasted some coffee and found, to my astonishment, that I did not care anything about it. I never have to take medicine any more. I hope you will use this letter for the benefit of those suffering from the poisonous effects of coffee."

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

HER PHYSICIAN APPROVES

Taking Lydia E. Pinkham's Vegetable Compound

Sabbatus, Maine.—"You told me to take Lydia E. Pinkham's Vegetable Compound and

Liver Pills before child-birth, and we are all surprised to see how much good it did. My physician said 'Without doubt it was the Compound that helped you.' I thank you for your kindness in advising me and give you full permission to use my name in your testimonials."

—Mrs. H. W. MITCHELL, Box 3, Sabbatus, Me.

Another Woman Helped.

Graniteville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms. Lydia E. Pinkham's Vegetable Compound restored my health and strength, and proved worth mountains of gold to me. For the sake of other suffering women I am willing you should publish my letter."

—Mrs. CHARLES BARCLAY, R.F.D., Graniteville, Vt.

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

NOVEL IDEA IN SANDWICHES

Dainty in Appearance and Palatable Are Those Made According to These Directions.

This is an unusually pretty sandwich, which will be a dainty ornament and a tempting morsel at any entertainment. To make it, cut five slices of white bread about half an inch thick, and spread each with softened sweet butter before slicing it from the loaf. Trim off the crust from the slices and shape the slices into squares of even size, about three by three inches.

Lay each slice, buttered side up, upon a pastry board. Spread the first one with cream cheese rubbed smooth with minced parsley and cress, the latter previously sprinkled very slightly with lemon juice; cover the next slice with a thin layer of smoked tongue freed from skin and gristle; strew the third with rice of a hard egg seasoned with salt, pepper and a bit of dry mustard, and put a layer of smoked salmon or of rosy ham on the fourth slice.

Pile the slices one upon the other evenly, and in the order mentioned, and top them with the fifth slice laid with the buttered side downward. Wrap carefully in a cheesecloth binder, which has been slightly dampened, and weight with a book for an hour or so.

When ready to serve remove the cheesecloth and divide the little brick into thin slices, cutting downward with a keen-edged carving knife. The result will be squares formed of half-inch strips of bread pressed together and crossed by lines of green, red, yellow and pink. The same effect can be obtained by using brown and white bread with cream cheese.

TRY FIG ROLL FOR DESSERT

Confection Easily Made and Has Few Superiors as a Light After-Dinner Dish.

Suet, of course, has its advantages over butter for boiled pastry, but as it is not allowed in the vegetarian's dietary, something must be substituted to give the openness to the pastry that is desired. A few bread crumbs saturated in melted butter and added to the flour will give the effect.

To half a pound of self-rising flour add two tablespoonfuls of the prepared bread crumbs, and three tablespoonfuls of butter.

Rub the butter into the flour with the tips of the fingers. Moisten with half a cupful of cold water. Turn out on a baking board and roll out the size desired.

Chop up some figs very finely, and spread a layer of them over the pastry. Sprinkle over with sugar, roll up and moisten the ends of the roll with a little water.

Tie in a clean cloth previously dipped in hot water and well floured. Boil for two hours. Serve hot with hot milk.

Ginger Apple Jam.

Four pounds of good, sour apples, four pounds of dark brown sugar, two lemons, a few pieces of dried root ginger and one pint of water. Pare, core and cut the apples; put the sugar and water in a preserving pan and boil until clear. Add the apples, the juice and grated rind of the lemons and the ginger. Boil all together until the apples look clear, which will be from three to four hours. They should only just simmer.

St. James Pudding.

One cup molasses, one cup milk, one-quarter cup butter, three cups flour, three level teaspoons baking powder, one-half teaspoon each of cloves, allspice and nutmeg, three-quarter pound dates cut in pieces. Melt the butter, add to milk and molasses. Sift together the flour, baking powder, salt, spices and add the dates. Turn into a buttered mold and steam two and one-half hours. Serve with any favorite sauce.

TRAGIC.

"I wrote her a poem on my new typewriter. It began 'How like a flower your face is.'"

"Yes."

"The cursed machine wrote it, 'How like flour your face is!'"

TINY BABY'S PITIFUL CASE

"Our baby when two months old was suffering with terrible eczema from head to foot, all over her body. The baby looked just like a skinned rabbit. We were unable to put clothes on her. At first it seemed to be a few matted pimples. They would break the skin and peel off leaving the underneath skin red as though it were scalds. Then a few more pimples would appear and spread all over the body, leaving the baby all raw without skin from head to foot. On top of her head there appeared a heavy scab a quarter of an inch thick. It was awful to see so small a baby look as she did. Imagine! The doctor was afraid to put his hands to the child. We tried several doctors' remedies but all failed.

"Then we decided to try Cuticura. By using the Cuticura Ointment we softened the scab and it came off. Under this, where the real matter was, by washing with the Cuticura Soap and applying the Cuticura Ointment, a new skin soon appeared. We also gave baby four drops of the Cuticura Resolvent three times daily. After three days you could see the baby gaining a little skin which would peel off and heal underneath. Now the baby is four months old. She is a fine picture of a fat little baby and all is well. We only used one cake of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Resolvent. If people would know what Cuticura is there would be few suffering with eczema. Mrs. Joseph Kossmann, 7 St. John's Place, Ridgewood Heights, N. Y., Apr. 30 and May 4, '09."

Fido's Portion.

"Did you give the scraps of meat to the dog, Nora?"

"You forgot, mum, that we'd quit eatin' meat, mum, but Ol give th' baste th' carrot tops an' pertaty parin's."—Los Angeles Express.

A big bowl of

Quaker Oats

is the best dish you can serve.

Delicious and nourishing.

Good for all ages and all conditions.

Economical and strengthening.

How it Was.

Against an old Georgia negro, charged with stealing a pig, the evidence was absolutely conclusive, and the judge, who knew the old darkey well, said reproachfully:

"Now, uncle, why did you steal that pig?"

"Bekase mah poor family wuz starvin', yo' honor," whimpered the old man.

"Family starvin'!" cried the judge. "But they told me you kept five dogs. How is that, uncle?"

"Why, yo' honor," said uncle, reprovingly, "you wouldn't 'spect mah family to eat dem dogs!"—Harper's Magazine.

Near-Billiards.

Two traveling salesmen, detained in a little village hotel, were introduced to a crazy little billiard table and a set of balls which were of uniform dirty gray color.

"But how do you tell the red from the white?" asked one of the guests.

"Oh," replied the landlord, "you soon get to know them by their shape."—Success Magazine.

Why Tiresome.

"Bragg is a dreadfully tiresome chap."

"What's he been doing now?"

"He's been blowing about what he blew in at his blow-out."—Boston Transcript.

CARRIZOZO - NEW MEXICO.

Entered as second class matter June 12, 1909, at
the postoffice at Carrizozo, New Mexico, under
the Act of March 3, 1879.

SUBSCRIPTION RATES:
One Year, \$1.50
Six Months, \$1.00
J. N. A. HALEY, Editor.

Tax Rate Lowered.

The territorial tax rate for the coming year has been reduced, as announced by the auditor, from 14.45 mills to 11 mills. This is the second reduction in fourteen years, the other reduction occurring in Governor Hagerman's administration. Fourteen years ago, when Miguel A. Otero succeeded Governor Thornton, the democratic appointee, the rate was less than 7 mills. It soon took a leap and finally reached 15 mills. A slight reduction was made under Governor Hagerman, but last year it again went to 14.45 mills.

This reduction of 3.45 mills means that Lincoln county will next year keep something like \$7,000 at home, which, at the old rate, would go to the territory. And just here is where we have been "dug" for years. The territory has been getting too big a slice of our revenue, while many of the county funds have been too small to meet the demands upon them. With this announced reduction in the territorial rate, the difference in individual payments of taxes should be noticeable. The county rate may be reduced in some particulars, especially in the court fund. We now have a very large court fund and an increase in the valuation will permit a decrease in the rate and yet produce sufficient revenue for two terms of court a year, a condition that has not existed in this county for many years. Therefore, it is with pleasure we make the foregoing announcement; for we know it will be received by the tax payers in the same spirit.

The statehood bill is awaiting the disposition of the railroad bill. What many fear is that it will be on the waiting list when congress adjourns.

Speaker Cannon has again defied the insurgents, taunting them as cowards, afraid to depose him. The insurgents, however, say he is sitting over a powder magazine, and if he continues to strike matches, he will be blown through the dome of the capitol.

The governor of Tennessee has pardoned Col. D. B. Cooper, the slayer of Ex-Senator Carmack. The twenty-year sentence of the lower court was affirmed; hence the pardon, which fails to reflect any credit upon the executive.

Majority Increases One.

Carrizozo's majority was increased by one at the county seat hearing at Lincoln this week, thus making her majority to date 288. A witness was on the stand whose name appeared on the petition asking for an election last year. He testified that his name was attached to the petition under a false representation. On cross examination, he acknowledged that he was not a citizen of this territory; and when questioned further, he said he was allowed to vote and that he cast his vote for Lincoln. So Lincoln, instead of having received 613 votes—and being in the unlucky hole—now has 612 votes to her credit.

We are in receipt of an interesting letter this week from John M. Keith, Imperial, California. Mr. Keith left here about seven years ago, after many years residence in this county. He is, or was, city marshal of Imperial, but he wrote that, while he was candidate for re-election, the election to take place the day following the date of his letter, a certain element was after his scalp. He stated: "They may defeat me, and if they do I'll quit; wouldn't you?" He asks concerning many old friends, and says he will probably visit the "dear old town of 'Hearts' Desire' this summer."

To Taxpayers and Property Holders.

Notice is hereby given that all property delinquent in Lincoln county must be returned for taxes before May 1st, 1910, otherwise a penalty of 25 per cent will be added as provided by law.

In order that a just and satisfactory assessment may be made I hereby give notice that I will be in the following places on the dates given below, and desire that all owners of property, who have not already returned same for taxes, meet me there, to-wit:

Democrats On Statehood.

On the 26th of February, the democratic central committee of the territory met at Albuquerque to announce its position on the pending statehood bill. Resolutions were adopted, which we published at the time, and a committee was selected to present the matter to the senate committee. This committee did not go to Washington, however, but the following letter to Senator Money and Representative Clark, the leaders of the minority in their respective houses, speaks for itself, and we feel confident the position taken is unassailable:

"On the 26th ult. the democratic central committee of New Mexico held a meeting for the purpose of considering the statehood situation. The attendance was unusually large and was fully representative of the democracy of this territory. At the meeting resolutions were unanimously adopted as follows:"

Here follow the resolutions which were published at the time and which, no doubt, are still fresh in the minds of our readers:

"It was expected that the committee thus appointed would appear before the committee on territories of the senate before the senate committee should make its report, and present the above resolutions to that committee, together with such arguments as might induce the committee to embody the principles of those resolutions in any enabling act which it might decide to report to the senate, but for unfavorable reasons, our committee was unable to appear before the committee at the time stated. An enabling act has now been reported to the senate and we would not be entitled to a formal hearing. The bill as reported to the senate does not accord with the principles of the above resolutions in some important provisions."

"First:—Section 1 of the proposed enabling act provides that the basis of representation in the constitutional convention shall be determined by the vote cast at the election for delegate in congress in the year 1908. If this provision is to remain it is estimated that at least 25 per cent of the citizens of New Mexico will not be fairly represented in the constitutional convention. During the last two years many thousands of people have established their homes in a few of the counties of the territory, which, prior to that time, were sparsely settled, and under the provisions of the bill none of these people can be considered in the apportionment of delegates to the constitutional convention. The actual population of the several counties can be ascertained by June 1 through the taking of the census.

Second:—The fifth clause of section 2 requires that ability to read, write, speak and understand the English language shall be a necessary qualification for all the

state officers and members of the state legislature. The proposed enabling act permits citizens not possessing these qualifications to vote, and we submit that they should not be absolutely disqualified from having a voice in a representative capacity in the framing of the laws under which they are to live and exercise the rights of citizenship. Some of our educated and prominent citizens do not have all of the required qualifications, and such a provision would seem to be contrary to the spirit of Gaudalupe Hidalgo. Even if it be admitted that such qualifications for holding the offices named be desirable, it does not follow that such a provision should be incorporated in the enabling act. So far as known, this is the first time that congress has inserted such a provision in the act for the admission of a state. Qualifications for the holding of office are distinctively of local concern and the restriction thus sought to be imposed by congress is contrary to the democratic idea of home rule and representative government.

Third: The seventh clause of section 2 confers upon the United States the power to administer the so-called reclamation act in the irrigation of lands to the same extent as if the state were to remain a territory. In the territory the United States has absolute power to legislate concerning these matters and under this provision of the proposed enabling act it might be contended that such power would be continued in the United States. In any event, the purpose of this provision must be to confer upon the federal government some right or power which it does not already possess or which it does not possess in states heretofore admitted. Irrigation is one of the most important industries of New Mexico, and it would be decidedly detrimental to the interests of New Mexico if the general government should retain any right to control the waters in New Mexico to an extent greater than in other states.

Fourth: Section 4 of the proposed act requires that the constitution which may be adopted shall be submitted to the president and congress for approval. We deem this requirement repugnant at least to the spirit of the constitution of the United States. The constitution of the state should be framed solely with respect to conditions within the state and in accordance with the views of a majority of those who are to live under the constitution. If the people of New Mexico are qualified for statehood they should be permitted to adopt a constitution such as they may desire, provided only that it be republican in form and not repugnant to the constitution of the United States and the principles of the declaration of independence.

Fifth: Section 5 provides that until the issuance of a proclamation by the president admitting the new state, that all county and territorial officers, including the delegate in congress, elected at the general election in 1908, shall continue to discharge the duties of their respective offices. Under such a provision, if the people of

ADDITIONAL LOCAL.

Sheriff Stevens and his deputies are looking for a man who raised a check from \$9.00 to \$19.00. The check was given by Engineer Lewis to one of the road employees, and it was cashed by the Capitan Mercantile Co. It is not known whether the man to whom the check was drawn or the man to whom it was endorsed did the pen work. Whoever the artist is he is a stranger and his present whereabouts are unknown to the officers.

A. J. LeClair, who pitched for the Fort Stanton base ball team last season, is now in Roswell, and is reported to have been engaged on the pitching staff of the base ball team of the Military Institute of that city. He will be employed in some line of business in the city when not playing ball. LeClair appeared on the diamond here several times last season, and his ball playing qualifications were thought of highly by the fans.

A Mexican was arrested Tuesday, on the complaint of a compadre, for "pulling" a gun. When the time arrived for bringing the case before the court, friends of both parties came to the front, and the prosecuting witness refused to go on the stand. The officer who made the arrest was put to more or less inconvenience in so doing; the Justice court was convened for hearing the evidence and deciding the issue. Now, the sooner the J. P's. of this county conclude they are not salaried officers, whose business it is to remain in their court room two-thirds of the day, awaiting, like Mr. McCawbey, "For something to turn up," the better it will be for the J. P's. In all such cases coming before the Justice court, the prosecuting witness should be compelled to prosecute, or be himself prosecuted for playing a fool with the court.

LINCOLN LOCALS.

Mr. L. H. Bradstreet, of Hon-do, was up one day last week on business.

County Surveyor Frank E. Theurer left in company with Mr. Lutz to do some surveying. They are expected to be gone several days.

Mrs. John H. Cole and brother, John Hobbs, have returned from San Angelo, Texas, where they had gone to see their mother, who was reported seriously ill, but is now much improved.

The Board of County Commissioners commenced its regular April meeting Monday morning, having been delayed a week on account of sickness in Mr. Taylor's family.

Several wagon loads of camping outfits came through here last week on their way to Nogal. It proved to be the Carrizozo-Roswell outfit, in charge of Engineer Lewis, on their way to Nogal hill from the east end. The engineer in charge assures us that there are plenty of funds on hand to finish the Nogal hill in good condition.

OSCURO OOZINGS.

Sam Whitmire visited Oscuro Monday.

George Castle left Monday for Chicago.

J. A. Haley visited Oscuro last Sunday.

John Auer left last week for Montoya to join his wife.

J. O. Nabours, of Three Rivers, visited Oscuro Sunday.

Mrs. Robt. Bruce left here for Kansas Monday.

Mrs. H. J. Kimmons left last week for Varney to visit friends.

The Bar W round-up wagon passed through this place Tuesday.

Elias G. Raffety left Thursday for Magdalena to look after his mining interests there.

Elizabeth Snyder has permanently taken up her residence in Carrizozo in the employ of Mrs. A. J. Rolland.

The Colorado Telephone and Telegraph Co. has been granted permission to stretch their wires across the E. P. & S. W. tracks.

Mrs. J. V. Edwards visited Carrizozo, Friday, on a short business trip. She encountered some difficulty in getting home, however, and was obliged to spend the night at Polly.

CAPITAN.

Fred Pfingsten was down from Angus Tuesday.

John H. Canning and John A. Haley went to Lincoln Monday, returning the day following.

T. J. Grafton was over from Parsons Saturday, and made a trip to Three Rivers Saturday night.

April has so far proven to be a giddy young thing. One day it is clear and balmy, the next day is cloudy and stormy.

The whist club met at Mrs. Collier's Wednesday. Following the regular program, delightful refreshments were served.

Mrs. N. M. Peibles returned Monday from Moody, Texas, where she spent the winter. She went out to her home on Little Creek, where she spends her summers.

The increase in the enumeration of children in this district will necessitate the erection of more school room. Another building is the only solution. Let's build for a big school.

Jim Goodall passed through Carrizozo Tuesday, returning to his homestead near Capitan from a prospecting trip to Old Mexico. Jim says he will try dry farming on his homestead for a spell.

John B. Baird returned Wednesday from a trip to the southern and eastern portions of the county. He reports fruit prospects excellent up to the time of his return. Alfalfa fields are green, orchards in full bloom and farmers busy all along the line.

James A. Scott, chief clerk in the forest office at Capitan, lost his residence and most of its contents by fire today. While attempting to extinguish the flames he received some severe burns.

George Killen, an old-time resident of Bonito, who has been developing some mining property south of here for the past eight months, passed through this week for his home on the Bonito.

The Commissioners are in session at Lincoln this week, going over the quarter's business. Illness in the families of two members of the board interfered with the meeting last week, and this week's session is in lieu of the one adjourned last week.

Deputy U. S. Marshal L. L. Chavez, of Albuquerque, who has been subpoenaing jurors and witnesses for the Federal court which opens at Alamogordo on May 23, returned Wednesday from a trip which took him to most points in this county.

The News has been requested to call the attention of subscribers to the Baptist church building fund. The building is now completed, and the balance outstanding on the subscription list is needed to meet the obligations incurred by the committee.

J. W. Kirkpatrick, an old time friend of John H. Boyd, stopped over in Carrizozo Tuesday evening, and visited Mr. Boyd's family. Mr. Kirkpatrick lives at Colorado, Texas, and was returning from Estancia, where he had gone to invest in some lands.

W. D. Gray, who had both ankles injured by falling from a scaffold last month, is getting along quite well, considering the nature of his injuries. He left his bed for the first time this week, but entertains little hope of being able to walk for several months.

The Rev. W. W. Graham has been appointed pastor of the M.E. Church (south) at this place for the balance of the conference year. He will hold service in the basement of the Bank building every Sunday at 11 a.m. and 7 p.m. Sunday school at the usual hour.

W. J. Brazel has opened up a coal mine near Willow hill, in the vicinity of other coal lands that have recently been patented. The development is not extensive but the coal is showing good, and with depth the indications are that a good body of first class coal will be uncovered.

School will close the latter part of this month. The room on the south side, conducted by Miss Annie Hensler, closed two weeks ago, and Miss Hensler left for Texas. Carrizozo has enjoyed a most successful school the past term, and we hope to do even better the coming school year.

Judge Hewitt returned yesterday from Lincoln, and went to White Oaks last night. He has been at Lincoln the past week representing the commissioners at the county seat hearing, in which Attorney Gierke was tak-

ing evidence. The evidence is now all in, and Examiner Gierke will file his report with the court within the next day or two. Arguments will be heard when court convenes here in May.

A general rain fell in most sections of the territory last week. On Saturday night a heavy shower fell in Carrizozo and surrounding country. Snow fell in the mountain regions Wednesday.

Deputy Sheriff P. C. Baird came down from Corona Monday and went to Lincoln the day following. He had in custody Hilario Flores, who had been given a hearing at Corona on two charges. One charge was for conducting a house of ill fame, and the other was for selling whiskey without a license. The accused was given 90 days on the first charge and 60 days on the other.

An itinerant dancing master struck this town a few weeks ago and opened a school in Real's hall in which to teach the calisthenically-inclined the intricacies of the waltz, polka and two-step at so much per step. He waltzed out of town Monday, forgetting to pay hall rent, room rent, the musicians and some few other petty amounts, together with the five dollars tuition charged each pupil.

Prompt relief in all cases of throat and lung trouble if you use Chamberlain's Cough Remedy. Pleasant to take, soothing and healing in effect. Sold by all dealers.

CARRIZOZO NEWS

CARRIZOZO • • NEW MEXICO

BACK TO THE FARM.

Nine hundred million dollars' worth of Agricultural products were exported from the United States last year, according to the bureau of statistics in the department of commerce and labor. Secretary Wilson says that the total was \$8,776,000,000, so that a little more than 10 per cent. of our farm products were sold abroad and the home consumers had to be content with the remaining nine-tenths. This is a healthy condition, but doubtless helps to explain the high price of provisions in this country. Secretary Wilson thinks the high prices are due to the fact that there are too few farmers and too many distributors, too many young men rushing to the city, instead of staying home and tilling the soil. If we are to supply Europe as well as America with food stuffs we must increase the number of farmers with the increase of our population, and if farming is made and continues sufficiently profitable there will be no lack of farmers. The poor rewards of farming in the past have driven the farmer boys to other pursuits. There will be a cry of "back to the farm" as soon as it is clear that there is money in farming commensurate with the toll which it exacts from those whose livelihood is the cultivation of the soil.

Certainly the gentleman who undertakes to explain the cause of high prices of necessities of life should reach some sort of agreement and harmonize their views before they try to enlighten the public. For weeks the big packers and others have been saying that meat is so dear because the people eat so much and the supply is not equal to the demand. But here come the shoe manufacturers declaring that the people are turning vegetarians, and that with so few animals killed for food there is a shortage in skins and hides. Here are two radically different stories. Which is the consumer to believe?

An Indianapolis man returned from Alaska wealthy, and gave to his parents, to whom he had been as one dead for 20 years, a check for \$5,000 to make them feel that he was still their son. Cases of this kind are frequent enough to cause thought as to whether those who disappear in that way and cause anxiety and sorrow covering half an average life can ever make amends with demonstrations of affection from the check book? Kenneth Ardens without proper explanation as to their absence are in the same class, and there is always doubt as to the quality of the sympathy that should be expressed.

Crete continues to be a stormy petrel in European politics. Notwithstanding recent warnings the Creteans manifest a rebellious spirit and have so stirred up the protective powers that fresh warnings against further agitation have been issued. Crete is a small and relatively insignificant spot on the map. But when it keeps some of the greatest nations in the world on the anxious seat owing to doubt as to what the Creteans will do next it shows extraordinary capacity for trouble making.

A chemical analysis shows that 99 per cent. of a cup of tea is water. This does not refer to boarding-house tea, which contains even a greater percentage of water.

INDUSTRY AND MECHANICS

INDUSTRIAL NOTES.

Washing linoleum with a solution of glue and allowing it to dry thoroughly will restore its gloss.

There are said to be 2,000,000 horsepower available in the unharnessed waterfalls of Wisconsin.

Ohio, Vermont and New York have led in the production of maple sugar continuously since 1850.

More than one-quarter of the lead produced in the world each year is mined in the United States.

A rubber pavement, laid beneath a London hotel, withstood heavy traffic for 21 years before it needed renewal.

Pennsylvania's anthracite coal output of approximately 35,250,000 tons for the first six months of this year eclipsed all records.

Abrasion tests of the new aluminum coins with which France is experimenting show that they wear better than gold or bronze.

An Italian Engineer claims to have invented a reversible turbine engine that will work with equal power and speed in both directions.

Honey making on the Isle of Wight has almost ceased almost to a peculiar disease that attacks the bees, making them disinclined to work.

A recently patented attachment for type-writing is an erasing device, operated from the regular keyboard by a key which brings a bit of rubber against the platen and moves it up and down.

A steel clothes pole that may be removed from a base sunk in the ground when not in use is something new that is designed to add to the attractiveness of the surroundings of the suburban homes.

HANDY DRAIN PIPE CLEANER

Rubber Hose Connects with Spigot and Outlet at Sink, Enabling Woman to Clean Sink.

One of the most useful of all recent inventions for the home is the drainpipe cleaner designed by a Michigan man. This not only enables a

Drain Pipe Cleaner.

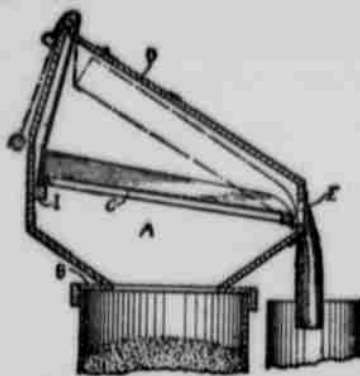

woman to keep her kitchen sink clean by having the pipe free, but it saves the expense which is sometimes incurred of having the pipe cleaned by a plumber. A long rubber hose has its upper end adapted to be fitted to the spigot. The lower end terminates in a bell mouth which is made thick at the top to prevent its collapsing and thin at the extremity to form a flexible lip. This lip is fitted over the drain and held there by suction and the water turned on. In this way the full pressure of water is forced through the drain pipe, flushing it very effectually and washing out all the extraneous matter that is bound to accumulate no matter how careful a woman or her servants may be—and the latter are often not careful at all. There is also a lateral air inlet near the top of the hose.

DEVICE FOR SIFTING ASHES

Home-Made Contrivance is Easily Put Together and at Very Small Expenditure of Money.

A dustless ash sifter can be made at a very small expenditure of money by following the lines of the accompanying drawing, writes J. A. Brophy in Scientific American. Make a box A shaped as shown about two feet high, two feet long, and ten inches high at its lowest part. The box should be of such a width as to fit a square hole in a base board B. Make the base board square to fit over top of an ash can and cut a square hole in the base board of such a size as to be entirely within the diameter of ash can. Nail the base board to the bottom of the box.

Then make a frame C of 1-inch wide stock, 1 inch narrower than the inside width of box and 1 inch shorter than the inside length of the box. Bore a 1/4-inch hole in the center of one end of this frame and cover the frame with 1/2-inch mesh galvanized netting. Inclose three sides of this frame with thin board about 5 inches high, tapering the two sides, as shown,

Sectional View of Sifter.

and leaving the discharge end open, which should be hinged to front end of box with two 2x2 inch hinges. Put a piece of rope through a hole in the upper end of frame and fasten it on top so that it will not pull out.

The box is now ready for the top which has a hinged door D, as shown. On top of box place a pulley and run the rope through the hole in the top of the box and over the pulley wheel. The end of the rope may have a large ring attached to it as shown.

This arrangement will allow the sifting frame to be swung up and down, jarring the frame every time it strikes the block I fastened to rear of the box.

Over the opening in front of box fasten a bag-shaped cloth to guide the clinkers to a suitable receptacle and prevent dust from rising.

This sifter has proved very clean and does not require a second shoveling of sifted ashes.

HOUSES MADE OF ASBESTOS

Material Made Use of in Australia to Construct Dwellings, is Fire and Waterproof.

Many houses are now being built in different part of Australia of asbestos material, says Popular Mechanics. The material is made in sheets for walling and in tiles or slates for roofing. It is not only fireproof, but impervious to water, unaffected by heat or cold, and of high insulating

Fire and Waterproof.

properties. Still another favorable feature is the fact that it is not attacked by white ants or other insects that abound in southern countries.

A deposit of ore containing 93.6 per cent. tantalum has been discovered in the Ural mountains.

INSTEAD OF MEAT

TRY THESE DISHES AS AN OCCASIONAL SUBSTITUTE.

Complete Menu for Each Meal of the Day Can Be Made from Them—Economical as Well as Satisfying.

Cream of Celery.—Two stalks celery, two teaspoonfuls of butter, two tablespoonfuls flour; one cup milk, a little parsley, salt to taste. Boil celery in water until tender. Drain off water and rub celery through sieve. Add milk. Stir butter and flour to a paste and add this slowly to the heated milk and celery. Add the minced parsley and season with salt to taste. Cook until thick. Serve hot with salted wafers.

Cream of Kidney Beans.—Take two cups of kidney beans, three tablespoonfuls butter, one onion, three tablespoonfuls flour, $1\frac{1}{2}$ cups milk; salt to taste. Rub beans through sieve and proceed in the same way as in making cream of celery, with the addition of minced onions.

Fruit Salad.—One grape fruit, one orange, one bunch of red California grapes, a few English walnuts. Cube the grape fruit and orange, being very careful to separate the pulp fruit from the skin. Cut the grapes in halves and take out the seeds. Chop the nuts quite fine. Add altogether and serve with French dressing.

Nutmeat Roast.—One pint of one cup sifted kidney beans, $1\frac{1}{2}$ cups water, two spoonfuls cornstarch, one spoonful salt. Cook beans until tender and rub through sieve. To one cup of this sifted pulp add other ingredients and mix well. Cook in sealed cans three to five hours.

Nutmeat Roast.—One pint of toasted bread crumbs, one pint of water, one-half pint strained potatoes, one-half pound nutmeatose chopped fine; flavor with finely sifted sage. Mix well and salt to taste. Bake in buttered, shallow pans until brown. Serve with egg gravy.

Egg Gravy.—In one pint of water dissolve one level spoonful nut butter. Thicken with flour until thin gravy. Just before removing from the stove add one egg, well beaten. The white of egg may be used or omitted, as desired.

Apple and Banana Sauce.—Cook apples as you would for ordinary apple sauce. When just about tender add one or two sliced bananas (according to amount of apples you use). Let cook until both are tender. Remove from heat and add sugar to taste. If apples are not too sour, you will not need to add sugar.

Vegetable Salad.—Finely shredded cabbage, onion, celery and leaves from the heart of the spinach and coarsely ground mixed nuts. Serve with either a French dressing or a mayonnaise. In preparing cabbage for a salad slash deeply across the cabbage with a knife both ways before slicing it. The shreds will be shorter and more manageable for eating.

Orange Pie.

Rub smooth a heaping tablespoonful of cornstarch in three of water, pour in one cup of boiling water and cook until clear. Add one cup of orange juice, a little of the grated rind, the juice of one lemon, add sugar to taste. When cool, stir in the well-beaten yolks of two eggs. Bake with under crust only. Beat the whites of the eggs stiff, with a tablespoon of sugar, and a little grated orange peel, and spread on the top.

Old-Fashioned Raised Cake.

One cup of light bread dough, one half cup of butter, one egg and one and one-quarter cups of sugar beaten together with the hand. Add one-half cup sour milk, scant half-teaspoon of soda, nutmeg, cinnamon and one cup of raisins, one and one-quarter cups of flour. Let it rise till very light. Bake one hour.

A GOOD COUGH MIXTURE.

Simple Home-Made Remedy That is Free from Opiates and Harmful Drugs.

An effective remedy that will usually break up a cold in twenty-four hours, is easily made by mixing together in a large bottle two ounces of Glycerine, a half-ounce of Virgin Oil of Pine compound pure and eight ounces of pure Whisky. This mixture will cure any cough that is curable, and is not expensive as it makes enough to last the average family an entire year. Virgin Oil of Pine compound pure is prepared only in the laboratories of the Leach Chemical Co., Cincinnati, O.

TRAGIC RECOLLECTION.

Words of Praise

For the several ingredients of which Dr. Pierce's medicines are composed, as given by leaders in all the several schools of medicine, should have far more weight than any amount of non-professional testimonials. A Booklet made up of these sent free. Address as below. Dr. Pierce's Favorite Prescription has THE BADGE OF HONESTY on every bottle-wrapper, in a full list of all its ingredients printed in plain English and sworn to as correct.

If you are an invalid woman and suffer from frequent headache, backache, gnawing distress in stomach, periodical pains, disagreeable dragging-down distress, perhaps dark spots or specks dancing before the eyes, faint spells and kindred symptoms caused by female weakness, or other derangement of the feminine organs, you can not do better than take

Dr. Pierce's Favorite Prescription

The hospital, surgeon's knife and operating table may be avoided by the timely use of "Favorite Prescription" in such cases. Thereby the obnoxious examinations and local treatments of the family physician can be avoided and a thorough course of successful treatment carried out in the privacy of the home.

"Favorite Prescription" is composed of the very best native medicinal roots known to medical science for the cure of woman's peculiar ailments, and contains no alcohol and no harmful or habit-forming drugs.

Do not expect too much from "Favorite Prescription;" it will not perform miracles; it will not dissolve or cure tumors. No medicine will. It will do as much to establish vigorous health in most weaknesses and ailments peculiarly incident to women as any medicine can. It must be given a fair chance by perseverance in its use for a reasonable length of time.

You can't afford to accept a secret nostrum as a substitute for this remedy of known composition.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels.

Mayer

The Lincoln County Goods Road Association.

To the Editor:

I beg to state through your columns, that the Lincoln County Good Roads Association has already accomplished considerable toward the upbuilding of the roads of the county. The committee appointed to wait upon the business men of Roswell went to Roswell, accompanied by several interested citizens of the county and while there interested the business men of that little city in contributing \$1,500.00 to be used by Construction Engineer Lewis from the Picacho hill up the Hondo valley as far as the junction of the Ruidoso and Bonito rivers. Private subscriptions are being raised along the Roswell-Carrizozo road for its further completion, after the completion of the work on the Nogal hill. There is no doubt that the Nogal hill will be completed with Territorial funds, and if the people of the entire county get into the harness at the next meeting of our Lincoln County Good Roads Association, to be held in Capitan at an early date, that more funds will be forthcoming for the completion of the entire road. We are also assured that the tools, scrapers, road graders and plows will be turned over to the association, providing that the association will appoint responsible custodians that can be depended upon to see to it that the tools thus obtained are used only upon public roads of the county and not for private farms, etc.

In the event, after the completion of the Nogal hill, further funds from the Territory are not available, funds raised by private subscription for work on the road from Picacho to Lincoln, from Lincoln to Capitan, from Capitan to Nogal and from Nogal to the town of Carrizozo, will at least be duplicated by funds from the Territory. It seems to be the intention of the new Governor and the other members of the Territorial Good Roads Commission to help those who are interested in good roads and are willing to help themselves. I am reliably informed that one camp and work on one road has been discontinued on account of lack of interest on the part of the people in the locality where the road was being constructed. I appeal to every citizen of the county not to let such be the case with the road now under construction. There is not a citizen in the entire county of too little importance not to be a help to our Good Roads Association and a member of it, and it is to be hoped that when the next meeting is called

that every man in the county will make an effort to attend. I enclose a clipping on the value of good roads, and hope that it will be published, if not in this issue, for I have taken more of your valuable space than I had intended, that you will find room for it in next issue.

J. W. LAWS,
Chairman Lincoln County
Good Roads Association.

"Secretary Knox believes that congestion of population in great cities is caused in large part by lack of good roads in this country. He told the House committee on foreign affairs that the reason France was the best agricultural country in the world was because it had had good roads so long. He said:

"The agricultural population of France does not have to spend its money in repairing vehicles and their harness every winter. I think it has improved the at-

tractiveness of rural life. I believe it has caused the population to remain on the soil more than any other country. You do not find that tendency to urban population in France and England that you do in this country."

List 1398.

RESTORATION TO ENTRY OF LANDS IN NATIONAL FOREST.—Notice is hereby given that the lands described below, embracing 40 acres, within the Lincoln National Forest, New Mexico, will be subject to settlement and entry under the provisions of the homestead laws of the United States and the act of June 11, 1906 (34 Stat., 233), at the United States land office at Roswell, New Mexico, on June 30, 1910. Any settler who was actually and in good faith claiming any of said lands for agricultural purposes prior to January 1, 1906, and has not abandoned same, has a preference right to

to make a homestead entry for the lands actually occupied. Said lands were listed upon the applications of the persons mentioned below, who have a preference right subject to the prior right of any such settler, provided such settler or applicant is qualified to make homestead entry and the preference right is exercised prior to June 30, 1910, on which date the lands will be subject to settlement and entry by any qualified person. The lands are as follows: The SE $\frac{1}{4}$ of NE $\frac{1}{4}$, Sec. 14, T. 11 S., R. 14 E., N. M. M., 40 acres, application of Andres Nejerres, of Analla, New Mexico; List 1398. S. V. PROUDFITT, Acting Commissioner of the General Land Office. Approved April 1, 1910, FRANK PIERCE, First Assistant Secretary of the Interior. 4-15-4t
