# Carrizozo News.

A Journal Devoted to the Interests of Lincoln County.

VOLUME 11.

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, MAY 6, 1910.

NUMBER 13

## The District Court.

Litigants, witnesses, jurors, attorneys and court officials began drifting in Saturday and continued to come until the middle of the week. Judge Cooley was detained at home by illness, and the wires were kept hot for two days in an endeavor to secure a judge to open court. Finally, Chief Justice Pope came Wednesday morning from Roswell, organized the grand and petit juries and set the former to work. The docket was gone over, a number of motions heard and the petit jury dismissed until the 17th of the month. Judge Pope returned to Roswell last night.

Announcement was made that some judge, possibly Judge Mechem, of Socorro, would be here next Thursday, the 12th, to receive the report of the grand jury and discharge it, if it is through with its labors at that time. On the 17th the petit jury is to return and then it is intended to begin court in earnest. In the meantime, most of the attorneys and a large portion of the other out of town people have returned to their respective homes.

Following is a list of the grand and petit jurors empanelled for this term:

### GRAND JURY.

J. I. Tipton (foreman)	Corona
Bonafacio Zamora	Picacho
Julian Serna	Capitan
Harry K. Dawson	Carrizozo
Francisco Samora	Lincoln
W. G. Wells	Parsons
Pablo Fresquez	Picacho
Chas. B. Lane	Alto
Felix Perea	Revanton
Francisco Trujillo	Arabella
Clifford E. Hulbert	Lincoln
A. C. Wingfield	Carrizozo
Jesus A. Cholella	Lincoln
Jose Gonzales	Hondo
Mannel Aguilar	Lincoln
Melcor Marquez	Lincoln
Trujillo y Maribal	Ruidoso
Teofilo Samora	Richardson
Ambrosio y Ahyeta Chavez	Hondo
G. W. Hagee	Angus
Wm. H. White	Nogal

### PETIT JURY.

Mannel Romero	Arabella
Ramon Luna	Lincoln
Juan Bartlett	Lincoln
Prospero Gonzales	Glendon
Jose Barella	Arabella
Louis Lalonde	White Oaks
Epemario Lacero	Arabella
B. A. Hunnicut	Capitan
John Cole	Hondo
H. E. Keller	Nogal
Fredrico Romero	Picacho
W. E. Kimbrell	Picacho
James Goodhall	Capitan
Antonio Montoya	Richardson
Jas. V. Tully	Ruidoso
G. H. Byfield	Nogal
F. K. Elliott	Carrizozo
Crux Herrera	Hondo
Fredrico Montoya	Picacho
W. T. Craddock	Corona
Jesus Maria Padilla	Lincoln
Ignacio Gonzales	Jicarilla
Chas. A. Burdell	Angus
Rafael Sedillo	Hondo

## NO ONE ESTABLISHMENT

Will ever monopolize the entire patronage in apparel for Women

Human opinions will range along identical lines for all—every lady exercises her right to think. . .

But we have always and shall always believe that "the lion's share" must eventually fall to those who can, and do, create Garments of superior merit. . . . .

## We are showing many styles and patterns of DAINTY LINGERIE FROCKS

They come to us from the Best Makers we know. You will be astonished at the amount of lace, embroidery and work on even the least-priced Dresses. . . . .

Prices range from \$4 to \$18.

Your Inspection is Invited.

## ZIEGLER BROS.

"The House of Good Taste."

### Court Notes.

The unfortunate illness of Judge Cooley, and inability to get a judge to conduct the Lincoln county district court, has been a great disappointment. Witnesses, petit jurymen and attorneys will have to make two trips to the one term. It so happened that the judges throughout the territory were busy in the various districts, and nothing remained but to take a recess until some one could come from another district.

District Clerk Downs remains at his post. He is issuing subpoenas for witnesses in cases that have been set for this term.

District Attorney Llewellyn is kept busy, consulting with witnesses for the prosecution in old cases, and also conferring with the grand jury.

J. I. Tipton of Corona was made foreman of the grand jury.

Harry K. Dawson was chosen as clerk of the grand jury.

The grand jury had returned four indictments up to the time Judge Pope left for Roswell.

It is understood that the county seat question will be argued before Judge Mechem.

William Brady of Lincoln was appointed interpreter for the grand jury.

### Attorneys at Court.

The following attorneys are here attending court: Hewitt & Hudspeth, White Oaks; Geo. B. Barber, Lincoln; H. B. Hamilton, Capitan; Colonel G. W. Prichard and Thos. B. Catron, Santa Fe; Daniel Jackson and J. E. Wharton, El Paso; District Attorney W. H. H. Llewellyn, Las Cruces; Williams & Ryan, Clovis; Geo. W. Hall, George Spence, Wm. F. A. Gierke and L. R. Wade, Carrizozo.

### Baseball Sunday.

The local baseball management announces a game of ball for next Sunday on the Carrizozo diamond. The contestants will be a combination team from Capitan and Fort Stanton against the home team. The grand stand has been completed, and the game may be watched with a keener degree of pleasure. The grounds, though new, will be in good condition.

### A Card of Thanks.

We desire to express through the columns of the News our sincere thanks to our friends and neighbors for their assistance and kind expressions of sympathy at the death of our dear husband and father. May they meet with like sympathy and kindness when overtaken by a similar sorrow.

MRS. C. W. WINGFIELD  
and Children.  
Ruidoso, N. M., April 28, 1910.

Japan has now more than 200 telephone exchanges, more than twice the number it had two years ago.

The average weekly income of what is known as "a poor family" in New York City is \$11.30, and the families averages five and two-fifths persons.

A Minnesota inventor has been granted a patent on a cash register that carries a phonograph to announce the figures indicated when its keys are pressed.

At the present rate of growth the borough of Brooklyn, with its population of about 1,240,000, will have a population of 2,910,000 in twenty-nine years from now.

Arvada.—The new home and training school for mental defectives, authorized by the last General Assembly, will be located a mile west of this place, the directors having selected the site. The assembly appropriated \$70,000 for this institution.

## CALF'S HEAD A NOVEL DISH

**Emma Paddock Telford Describes It**  
—Preparation Known as a La Vinaigrette.

Split a calf's head in two, remove brains and tongue and put the head in a large pan of cold water. Let stand two or three hours, then wash thoroughly, rubbing to make white. Rub the whole head with a cut lemon. Restore the tongue to its place and wrap the head in a large napkin wrung out of cold water. Place in a large stew pan; add cold water to cover.

Stir one-half cupful flour in a little cold water and add to the kettle, together with a quarter pound of beef suet cut in small pieces, a tablespoonful salt, eight whole peppers, four cloves, two bay leaves, a bouquet of sweet herbs, four medium-sized onions, sliced carrots and two stalks of celery.

Cover and set over the fire until it boils. Then push back and let simmer gently for two hours, or until tender. Take up, remove the eyes and all the bones. Skin the tongue and cut in halves lengthwise, putting one on either side of the head.

Garnish with hard-boiled eggs, sliced, and parsley, and serve with a vinaigrette sauce. To make the latter put into a bowl the yolks of two hard-boiled eggs put through a ricer, a teaspoonful shallot or mild onion chopped, and also put through the ricer one-half tablespoonful chopped pickles, a tablespoonful chopped parsley, a teaspoonful dry mustard stirred smooth in a tablespoonful of cold water, four tablespoonfuls olive oil, two tablespoonfuls tarragon vinegar, a teaspoonful salt and one-half teaspoonful pepper. Mix thoroughly and pour into a sauce boat to serve with the head.—Emma Paddock Telford.

## CLEANING GOLD AND SILVER

**Soap and Water Cannot Be Improved**  
**On Unless Articles Are Very Much Tarnished.**

With all its trials the wedding ring is bright, for hand washing suits it, there being no better treatment than soap and water for either plain gold or silver jewelry, unless it be much tarnished. Warm water, a little soapy lather and a soft brush for articles of intricate workmanship, with a brisk rub at finish on tissue paper, are the recipe for brooches, chains and bangles.

Considering its simplicity it seems a pity that many women appear contented to wear chains and necklaces so dirty that they not only soil white and light gowns, but the flesh itself.

For cleaning all pieces of jewelry, after repairs or otherwise, fine boxwood sawdust is ordinarily employed. To use this the trinket is shaken in it, care being taken that it is well embedded in the soft dust. A final polishing is administered with tissue paper, not chamol leather—the latter being usually reserved for watch cases, chased smelling bottles, stoppers and what may be called large surfaces.—Woman's Life.

### Squash Biscuit.

One cup of sifted squash, one small half-cup of sugar, two tablespoons melted butter, one level teaspoon of salt, half cake compressed yeast, dissolved in one eighth cup warm water; knead in as much flour as the mixture will hold. No water required other than what the yeast cake is dissolved in; let rise till very light, then mould into small biscuits; let rise again, and bake in a rather slow oven.

### Sour Cream Cookies.

Dissolve one teaspoonful of soda in a little cold water and add this to one cupful of cream. Cream one cupful of butter with two of sugar, add two eggs beaten light without separating and then add to the cream. Mix smooth with three and one-half cupfuls of flour. Cut with cookie cutter, sprinkle with sugar, stick one raisin or Maraschino cherry in each center and bake in a quick oven.—House-keeper.

## Distemper

In all its forms, among all ages of horses and dogs, cured and others in the same stable prevented from having the disease with Spohn's Distemper Cure. Every bottle guaranteed. Over 500,000 bottles sold last year. \$3.50 and \$1.00. Good druggists, or send to manufacturers. Agents wanted. Write for free book. Spohn Med. Co., Spec. Contagious Diseases, Goshen, Ind.

## Bringing Up.

"They're bringing the baby up to be a mollycoddle."

"How so?"

"They have the nurse take it out in a go-cart, instead of giving it an automobile."

## Pass Along The Good Word

That Dr. Pierce's Golden Medical Discovery is to-day and has, for over 40 years, been the standard Blood-purifier, Stomach Strengthenener and Liver Invigorator sold by druggists. It's not a secret nostrum but a medicine of known composition—a medicine so good that the best physicians prescribe it knowing that its ingredients, which are printed on its outside wrappers and attested under oath, are the best known to medical science for the diseases for which it is advised.

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not his greater profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, In Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 one-cent stamps, to cover cost of mailing only. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

**MICA AXLE GREASE**  
is the turning-point to economy in wear and tear of wagons. Try a box. Every dealer, everywhere  
**FOR SALE BY CONTINENTAL OIL CO. (INCORPORATED)**

# Divorce Seems the Curse of the Vanderbilt Family

Of the workaday world, which wonderingly reads of the increasing number of divorces of the Vanderbilts, the most puzzling and at the same time the most tragic aspect of their matrimonial record is its effect upon the little Vanderbilts. To be under the shadow of the divorce court is the fate of more than half the children that have already been born of the Vanderbilt unions. In fact, they are all exposed to this malady and its results more or less directly, as other children are exposed to the measles and the whooping cough. Whether it "takes" or not in their own immediate families, there are those who believe that there are none of the Vanderbilt families but who have this fate impending—that even if it never drops divorce is always a sword of Damocles hanging over the heads of the most devoted of them.

At present there are five Vanderbilt children of the younger generation whose fathers and mothers have enjoyed immunity from the divorce courts and who have only come in contact with it second hand.

There are also just five who through no fault of their own are "short on fa-

thers," and who, getting along with one parent, are left to puzzle their baby heads as best they can over what has become of the other. Whether this shortage will increase into a multiplicity of fathers and mothers by each parent marrying again is the question which is now occupying those who are close enough to see the motions of that part of the Vanderbilt family which are separated.

## Children Involved in Muddle.

Of the children already involved in the divorce or separation muddles there are:

Willie H. Vanderbilt, son of Alfred Gwynne Vanderbilt, aged eight.

Muriel and William K., children of Willie K. Vanderbilt, Jr.

Marquis of Blandford and Lord Ivor Spencer Churchill, children of the duchess of Marlborough.

Among those not yet affected are: Cathleen, daughter of Reginald Vanderbilt.

Cornelius and Grace, children of Cornelius III, as he is usually called, but really Cornelius senior, as he is now the oldest member of the family.

The two children of Mrs. Harry Payne Whitney, who was Gertrude Vanderbilt, bring this number up to five.

How far this will go and where it will stop; to what extent it will break up the possibility of the perpetuating of a great family and a great fortune by always keeping one of the sons as "the head" is the question which agitates those who are most interested in the Vanderbilts.

## Parents Set the First Example.

That the newest and latest separation of Willie K. Jr., from his wife, who was Miss Virginia Fair, and that of the duchess of Marlborough from the duke is only natural with the example set by their own father and mother is conceded. It was only a short time after her own marriage that the duchess of Marlborough had the opportunity to exercise all her diplomacy from the embarrassing habit which her own father and mother formed of marrying again, and it was noticed that she was quite equal to the occasion.

Her father, Willie K. Sr., was married to Mrs. Rutherford in London, and the duchess was present. After the ceremony she kissed her father and wished him happiness, and she has always been on friendly terms with his new wife. She has also been on the most affectionate terms with her own mother, who married O. H. P. Belmont immediately after the divorce.

It was not so long after this that everybody was shocked with the news that the duke and duchess could no longer live together—or would no longer.

## Terms Favorable to the Duke.

Under the arrangements of the separation settlement the children were to be with their father a small part of the time, and most of the time with their mother. But under the English plan the duchess could not live at Blenheim, the home of the Marlboroughs, but had to content herself with the beautiful town house presented to her by her father.

Now it is thought that a reconciliation may be accomplished by the duchess' father, and, apropos of this, the latter has made a remark which is considered funny when his own matrimonial experiences are remembered.

"This nonsense of a separation has gone far enough," he said. To try to force the pair to live together again, he is reported to be cutting off part of the allowances that he makes to both the duke and the duchess. He has allowed the duke \$50,000 a year since the separation, and the duke soon declared that he could hardly keep up Blenheim on it so that it wouldn't go actually to pieces.

## Duchess Lends a Helping Hand.

To help him out the duchess relieved him of the support of the two children, paying for it out of her allowance. In the meantime it seems to those who look at the beautiful portraits of these children that they both look out on the mix-up which separates their father and mother with wondering eyes.

Whatever happens, the little duke of Blandford cannot be cheated out of his patrimony as far as the estate is concerned, although the fortune that it will take to "restore" it again when he comes of age will have to depend upon the good will of his grandfather, Vanderbilt. How many more separate sets of grandchildren this gentleman will have to settle his money upon will be seen later. If his son Willie K. gets a divorce and remarries. In case this son should acquire another family there comes the question, will Willie K. Sr., be most interested in his namesake, Willie K. III, who remains with his mother, or will he naturally turn to later children that might be born to his son Willie K. II.

Whether Mrs. Willie K. II, will remarry is wondered about. It was her sister, Mrs. Arthur Kemp, who divorced her husband and declared that it was the millions belonging to the rich married couples that begets all the unhappiness.

Who sails up into the clouds in his airship has a high old time;

## WELL KIDNEYS KEEP THE BODY WELL.

When the kidneys do their duty, the blood is filtered clear of uric acid and other waste. Weak kidneys do not filter off all the bad matter. This is the cause of rheumatic pains, backache and urinary disorders. Doan's Kidney Pills cure weak kidneys.

Rev. A. B. R. Weaver, Georgetown, Tex., former editor Baptist Herald, says: "At a Baptist conference at Jackson, Tex., I fell from a platform and hurt my back. I was soon over the injury, but the kidneys were badly disordered, passages painful and often bloody. Doan's Kidney Pills cured this trouble completely."

Remember the name—Doan's. Sold by all dealers. Foster-Milburn Co., Buffalo, N. Y. 50 cents a box.

## Thoughtful Child.

She was just three years old and it was her first visit to the zoo. When the towering form of the elephant appeared in sight, she drew back, clutching at her father's hand.

"I won't go too close, daddy," she whispered. "I might frighten him."—Detroit News-Tribune.

## NO HEALTHY SKIN LEFT

My little son, a boy of five, broke out with an itching rash. Three doctors prescribed for him, but he kept getting worse until we could not dress him any more. They finally advised me to try a certain medical college, but its treatment did no good. At the time I was induced to try Cuticura he was so bad that I had to cut his hair off and put the Cuticura Ointment on him on bandages, as it was impossible to touch him with the bare hand. There was not one square inch of skin on his whole body that was not affected. He was one mass of sores. The bandages used to stick to his skin and in removing them it used to take the skin off with them, and the screams from the poor child were heartbreaking. I began to think that he would never get well, but after the second application of Cuticura Ointment I began to see signs of improvement, and with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it finally yielded to the treatment. Now I can say that he is entirely cured, and a stronger and healthier boy you never saw than he is to-day, twelve years or more since the cure was effected. Robert Wattam, 1148 Forty-eighth St., Chicago, Ill., Oct. 9, 1909.

An empty human heart is an abyss earth's depths cannot match.—Annie C. Lynch.

Pettit's Eye Salve First Sold in 1807 100 years ago, sales increase yearly, wonderful remedy; cured millions weak eyes. All druggists or Howard Bros., Buffalo, N. Y.

Many an otherwise truthful woman lies about the amount of money her husband is making.

FILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding files in 6 to 14 days or money refunded. 10c.

## Philosophy and Religion.

The idea of philosophy is truth; the idea of religion is life.—Hayne.

Takers of the United States Census will use Waterman's Ideal Fountain Pen because it is always ready and sure.

Vanity is due to a leak in one's wisdom tank.

Six Months (by mail) - \$1.00

JNO. A. HALEY, Editor

The insurgents in the senate are beginning to insurg. The administration railroad bill was all shot to pieces this week.

In the county seat election in Curry county on last Saturday, Clovis won over its two competitors, Center and Texico, by quite a handsome majority.

Senators Aldrich and Hale announce that they will retire next March. They have been long in congress, and have left their imprint upon a vast deal of legislation the past decade, much of which is questioned by the people.

Colonel Roosevelt is credited with saying that he was "very glad to have all kinds of elephants." A republican friend remarked, when reading that statement: "Wonder if the Colonel is proud of the white elephant in the White House."

The lambing season is on in this county, and the sheepman is busy endeavoring to save a large per cent of the increase. In many parts of the county conditions have been quite favorable, except for some cold nights, and a good lamb crop is anticipated.

Two names have been mentioned in connection with the appointment of a commissioner to fill the vacancy caused by the death of Charles W. Wingfield. They are W. R. White, of Nogal, and J. V. Tully, of Glencoe. Both are republicans, and the central committee of their party is somewhat divided as to recommending their names to the governor. At a called meeting of the committee here last Tuesday night, however, the members present endorsed Mr. White; yet the outcome is so much in doubt that few will hazard a guess as to the probable appointee.

### A Frank Admission.

A Washington dispatch says that "It is doubtful if any of the administration measures, including the statehood bill, will be passed at this session."

Now, where have we heard that before?

It is the old, familiar story. For some strange reason it occurs at session after session. We

are assured that the enemies of the bill have been won over; that the principal objections to the measure are eliminated; that the president has been given assurances of the cordial support of every member of the house and senate and that nothing remains to impede the progress of the time honored statehood measure toward a speedy passage. Then at the last moment it is discovered that the outlook for administration legislation is punk, and that there will not be time to waste precious hours on the trifling matter of statehood for the territories.

What have they been doing with that statehood bill for the last month? Is Mr. Beveridge keeping it in cold storage until there is no time left for action?

Probably we have been jockeyed with again. However, there is a chance yet, and comforting ourselves with the fact that we have at least come nearer statehood than ever before, there is naught to do but to indulge what hope we can, with the underlying resignation wrought by many decades of disappointment. The oft-recurring shock has left us so callous that the barb is no longer painful.—Albuquerque Journal.

### ABSTRACT OF COUNTY RECORDS.

#### Good Roads Meeting.

A meeting of the Good Roads Association of Lincoln county was called to order by President Laws, Saturday, April 30, 1910, 3 p. m. at Capitan.

Capitan, Carrizozo, Lincoln, Ruidoso and Nogal precincts were represented by delegates. The secretary and the treasurer were absent and Dr. T. W. Watson was appointed temporary secretary.

The object of the meeting was stated as to consider by-laws and a constitution and transact any other business that might be before the association.

Geo. Ulrich, of Carrizozo, presented a set of resolutions and by-laws for consideration of the meeting and after discussion and amendments were accepted.

The following vice presidents were appointed: Wm. Ferguson, Nogal; C. D. Wilson, Capitan and J. V. Tully, of Glencoe.

The matter of obtaining possession of the tools being used by the force of men now at work for the Territorial Engineer was brought up and a motion was made and duly seconded and carried that the executive board be empowered to receive and receipt for all tools from the Engineer and have charge of same.

The treasurer was authorized to obtain receipt books to be placed in the various business houses of the county to aid in getting new members to the association at one dollar membership fee.

This association shall be known as "The Good Roads Association of Lincoln County, New Mexico."

The object of this association shall be to cooperate with the Territorial and other Good Roads associations and the county commissioners in the maintenance of good roads and highways within the county of Lincoln.

All residents of Lincoln county New Mexico, may become members of this association by paying to the Treasurer thereof the sum of one dollar and signing the roll of membership.

The annual dues of members of this association shall be one dollar, payable on or before the first day of November in each and every year after becoming members thereof.

The officers of this association shall be a president, three vice presidents, a secretary and a treasurer, who shall be elected on the first Monday of May of each year and shall hold their respective positions for the term of twelve months and until their successors are elected add qualified.

The duties of the officers of Carrizozo : : New Mexico

this association shall be such as one usually prescribes for such officers. The treasurer shall execute a bond to the executive committee of the association in such sum as the executive committee from time to time determine and shall render a statement of the collections and disbursements at each meeting of the association and at such other times as the executive committee may direct. No money shall be paid out by the treasurer except on order of the executive committee, signed by the president and attested by the secretary.

There shall be elected by the association an executive committee consisting of five members who shall hold office for twelve months and until their successors are elected and qualified. They shall have the direction and management of the affairs of the association. The president shall be ex-officio a member of the committee and shall preside at all meetings. The secretary shall also be an ex-officio member of the committee and record its proceedings and perform such other duties as the committee shall direct.

Fresh Vegetables every Wednesday and Saturday.

### "The Deestric Skoole."

The "Deestric Skoole," was presented Tuesday night to a crowded house, and, by request, was repeated Thursday night. It was an entertaining affair, full of laughter throughout and was heartily enjoyed by the audience.

Prof. Smith handled his classes in the good old way, which brought giggles, tears and sighs from his pupils, according to their temperament. Many good things—or mirth-provoking things—occurred, but we single out three incidents that deserve especial mention, and the audience seemed to select those as well.

The Honeysuckle twins, Hannah and Sophia, (Miss Mountz and Mrs. James) sang "When You and I Were Young, Maggie," and the sweet old song was most pleasingly rendered. Then Patience Peterkin and Hannah Maria Honeysuckle (Misses Lee and Mountz) sang the "Larboard Watch," which received marked attention.

The third incident came in the wind-up, when the three committeemen attended the last day's exercises, and were later followed by Mrs. Honeysuckle (Mrs. L. K. Elliot), the mother of the Honeysuckle twins and a promising boy six feet two. Her portrayal of the old-time mother visiting the school was superb, and her ode to the Master was heart-rending. The side-splitting portion, however, was, when invited to sing, her rendition of "Wait 'Till the Clouds Roll By, Janie." The programme was amusing to old and young and the receipts excellent.

### LINCOLN LOCALS.

Attorneys George Barber and Wm. F. A. Gierke left last Monday morning for Carrizozo to attend the regular May term of the district court.

Louis Bozart and George Sinneros went to Roswell one day last week in Mr. Lutz' auto on some business, returning the next day.

Territorial Sheep Inspector Albert T. Roberts, of Carrizozo, has been here several days last week in the performance of his official duties. He was accompanied by Mr. Sherwood.

Wayne Van Shoyck and Chas. Spence, of White Oaks, stopped here last week on their way to Tinnie looking after some business interests.

Hon. A. H. Hudspeth, the White Oaks attorney, attended the regular session of the probate court here last Monday.

Mrs. Domingo Ballagos died very suddenly at 11 o'clock, Saturday, April 30th. Interment took place last Monday at Evergreen cemetery above Lincoln.

### Killing at Tularosa.

It is reported that a killing occurred at Tularosa Tuesday night of this week. The story runs that a man approached the home of John Barrett, and, evidently, thinking Mr. Barrett absent, insulted the latter's wife. Both are said to have fired shots, and the following day a man was found dead, supposed to have been the man who attacked Mrs. Barrett. Mr. Barrett lived in this county a number of years, going to Tularosa from this town about two years ago.

### The Good Roads Commission.

Albuquerque, N. M., April 29.—The New Mexico Good Roads Commission has now been in active operation a little more than a year. During that time it has accomplished some very substantial results in the way of good roads, with which comparatively few people are familiar. The commission is composed of the Governor, the Commissioner of Public Lands and the Territorial Engineer, the latter being the official in charge of construction work.

Territorial Engineer Sullivan has furnished to the Bureau of Immigration an interesting summary of the work accomplished thus far. The commission was created by the legislature of 1909 but did not get into actual operation until May of that year. Since that time it has inspected over 1,000 miles of road. It has surveyed about 500 miles and has actually constructed about 100 miles of road. It has five construction camps in various parts of the territory, in which all the available convicts are being used.

The policy of the commission is the establishment of a system of highways throughout the territory by permanent construction, using materials that will stand the wear and tear for a long time. The sandy stretches which are frequently encountered are being macadamized with what is called a sand-clay road bed and which makes a very hard surface and wears well. Low stretches, boggy places are macadamized with lime-stone gravel, which, under wear, pulverizes and cements together making a splendid road bed. Bridges and culverts are generally built of reinforced concrete, while dangerous places are being protected by concrete posts and iron chains. It is a system of construction that will result in permanent roadways which may be maintained and kept in good order at the least possible cost, and this system carried on from year to year for a few years will give New Mexico one of the best public road systems in the west.

## WELCH & TITSWORTH.

CAPITAN.

J. M. Rice of the Eagle mining company was down from Parsons this week.

The Burrell House changed hands on the first, Mr. Smith retiring and Mrs. A. M. Brothers taking charge.

Capt. P. L. Krouse, of Eagle Creek country, came over yesterday, met many of his old-time friends here, and returned today.

Mrs. Frank Galentine and Miss Elsie Mountz left last night for their former homes in Ohio and Pennsylvania, where they will visit the coming two months.

Miss Alda Anglin came up from Mountain Park, Otero county, Wednesday, and left yesterday for Ruidosa, where she is engaged to teach a summer school.

R. Irmingier and Mrs. Boone, his daughter, delivered about fifty head of steers here last Saturday, which were loaded out with others for northern pastures.

C. C. Bennett returned Saturday from El Paso and will remain during court. He is office deputy for Sheriff Stevens. His friends are glad to see him back in this county.

All members and friends of the Methodist church are requested to attend services next Sunday. If possible we will perfect an alphabetical roll. — W. W. GRAHAM, Pastor.

Robert Bourne and wife have returned from their trip to Arizona points. Mr. Bourne says Arizona is even drier than this territory, and, therefore, he was somewhat disappointed in his trip.

All parts of the county was pretty well represented at court this week. The dry farmer, the Deep Creek farmer, the sheep and cow man rubbed elbows on common ground — attendants upon district court.

County Treasurer Watson and wife came up from Lincoln Monday. The doctor will maintain an office here during court for the purpose of collecting taxes and paying warrants issued by the district court.

Professor E. B. Chapman, principal of the Carrizozo schools the past year, left Monday for Tularosa, where he will spend a month. From there he expects to go to Silver City to attend a two months' normal.

Messrs. Hoskins and Bloodgood were in from Jicarilla this week. These gentlemen are stockholders in the Enterprise Mining company, and stated the company intend to do some work on mine and mill in the near future.

A number of cattlemen from the east side delivered cattle here

yesterday and today for shipment. Among them we note: M. Read, Isidio McKinley, J. V. Tully, the Allen Bros., Perry Humphrey, Dave Parker and C. C. Roberts.

Mrs. W. L. Gumm went down to El Paso Monday to spend a week visiting the schools. Mrs. Gumm is one of the popular teachers in the Carrizozo schools, and is always looking for the best and latest methods of instruction.

O. O. Smith, who has been conducting the Burrell House the past two months, has leased the City Hotel, and in addition to rooms will also set a good table. The place will be known in the future as "The Commercial."

Joe N. White took his wife to El Paso Sunday to place her in a hospital. Mrs. White was brought home from the hospital a month ago, but did not improve as rapidly as was hoped; in fact, her condition became worse; hence the necessity for her return for treatment.

A mass meeting was held at the schoolhouse Saturday night, called for the purpose of considering the issue of bonds for an additional school building. A motion was adopted to the effect that it was the sense of the meeting that the board call an election to vote bonds for that purpose.

The News is in receipt of a letter from Will Rawls, who was once a citizen of this county, but now lives near San Angelo, Tex. He is in the sheep business, says the range is fine and that his flock is good condition. He desires to be remembered to his friends in this county.

An old citizen of Jicarilla who was attending court this week in this bailiwick, wishes the people of the county to remember that preparations are already under way for their annual Fourth of July picnic. Apart from the usual ice cream, lemonade and refreshment stands, there will be a number of horse and pony races, and to add interest to the events pools will be sold on the results.

During the wind storm that prevailed here Tuesday, considerable real estate was moved; also, quite a large number of hats, among which was one bearing the mark of a laundry in Houston, Texas, stamped on the sweat band. If the finder of this absconding piece of head gear will return same to the Methodist parsonage, or to this office, he or she will be amply rewarded. This one, as well as a number of other ones that tried to beat the wind, were last seen rolling along in an easterly direction at a two-forty clip. [Kansas and Oklahoma papers please copy.]

## CARRIZOZO NEWS

CARRIZOZO - NEW MEXICO

### THOUGHT FOR TO-DAY.

It seems to be the fate of men to get angry, but it is poor business. One never makes by it. If God ever takes sides, it is with the victim of an angry tongue, says Ohio State Journal. There are few eternal things—like candor, kindness and truth—and getting mad hurts these. Emerson suggests that after ten years let a club or company of intelligent men reassemble and "what a confession of insanities would come up!" All our fierce words in behalf of the causes we have espoused, how like clatter they would seem. The sincere word is always temperate and kindly. The man who gets wild and brandishes his opinion with gesticulation and vociferation thinks he is pressing the truth home, but he is only scaring it away. To make a real friend of it, he must treat it gently, and those, too, whom he would impress by it. Just as soon as the angry word is spoken, truth wants to get away and root off in some dead tree. Of course, a person may be earnest and vigorous of expression, but he must watch closely lest he let hate, prejudice, envy get into his earnestness and spoil it. There was a man who differed with another about politics, got mad at him and would hardly speak to him. What a low kind of politics it must have been. There was another man who spoke in terms of bitterness on account of another's religion. He should be born again.

That thrifty element which likes to see the poor "work for what they get" will be gratified at the system in Frankfurt-on-the-Main, where the Association for the Poor contracts with property owners to clean their sidewalks and sprinkle the streets. Able-bodied men who are temporarily out of work are assigned by the relief society to do this work. Last year about \$12,000 out of the society's total budget of \$80,000 was expended in wages for these street cleaners, while the contracts with the property owners netted the society about \$20,000. The main difficulty with plans of that sort in this country is that such employment of the poor would merely serve to throw out of employment quite an army of men who get living wages rather than relief wages for the work.

This is a year of expositions in South America, where so many of the nations are also celebrating the centenary of independence. The Pan American conference will meet at Buenos Ayres, Argentina, where there will also be held an exhibition beginning May 25 and lasting until September 30. At Santiago, Chili, the centennial exposition of that country will open September 18. The United States will be represented at both places, and it is to be hoped the exhibit by Americans will be worthy of the great republic and one to stimulate closer trade and other relations with South American contemporaries.

The long and severe winter has some features which it may put forward as a plea in abatement. The western wheat growers say the grain undoubtedly will be benefited by the blanket of snow that has covered the fields.

Beneath the rule of modern surgery all men lie equal. The king of Sweden has had to submit to an operation for appendicitis just like thousands of plain, everyday American sovereigns.

## THE ELECTRICAL WORLD

### ELECTRICAL NOTES.

A steam turbine electrical locomotive is being tried in England.

Venezuela has nearly 5,000 miles of telegraph lines with nearly 200 offices.

A new electric water heater heats its contents in 15 seconds and boils it in 45.

More than 20,000 20-candle power incandescent lamp filaments can be made from a single pound of tantalum.

Invisible to the naked eye, electric wireless waves leaving a station have been caught and pictured by the camera.

Because of the scarcity of coal, gas is not used for illumination in Siam, and the only city using electricity is Bangkok.

Electricity has supplanted gas for car lighting in nearly all the state railways of Italy, Switzerland and Denmark.

A wireless station at Cape Cod, Mass., recently picked up messages from Colon to naval vessels in Nicaraguan waters.

The electrification of the street railways of Rio Janeiro, as a development of the hydro-electric power system of that city is progressing rapidly.

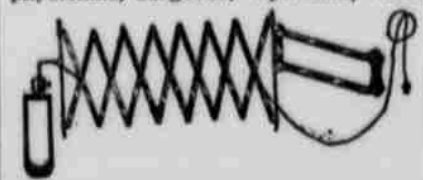

Electro-magnets in use in English hospitals to remove metal particles from patients' eyes can be made to exert a pull of 30 pounds to the square inch.

Petrol driven street cars, seating 48 passengers and capable of a speed of ten miles an hour, are supplanting horse carts in Karachi, India, without necessitating the expense of changing the system into an electric line.

### BRACKET FOR ELECTRIC LAMP

Adjustable Device Particularly Handy for Physicians and Other Professional Men.

This electric lamp bracket was designed to meet the requirements of physicians, surgeons, opticians, den-

Adjustable Bracket.

tists and draftsmen, says Popular Mechanics. The bracket is made of steel, is rigidly put together, has a horizontal radius of 5 feet in any direction, and is adjustable vertically anywhere within 8 inches above or below the mounting. The electric light socket is also adjustable on its fastening and the reflector can be set at any angle.

### Grand Opera by Wireless.

Two new marvels have just been tested by the New York World, one bringing a performance of grand opera into the home of any one having a telephone, and the other picking wireless messages out of the air without the use of the towers which have heretofore been considered necessary. The instruments used in both cases are little boxes that one could carry in a coat pocket. Two of these are placed on the stage of the theater where the performance is taking place, connected with the telephone wires and in the other with a wireless plant. Corresponding boxes may be used in any number of homes by simple connection with the telephone receiver.

More than half a million dollars' worth of radium has been produced at the Imperial Austrian laboratory at St. Joachimsthal, the pitchblende from which it is extracted being taken from a worked out silver mine.

### ELECTRIC MIRROR FOR MOUTH

Enables Dentist or Doctor to Peer into Remote and Difficult Places in Making Search.

Electricity has made so many difficult things easy that it is no wonder to find it used in exploring the human system. Where the dentist or doctor formerly had a hard time seeing just what was the matter with an almost inaccessible tooth or a bad spot in the throat, this work is made simple by the electric mouth mirror, designed by a Connecticut man. This device is understood by one glance at the accompanying illustration, and its merits

Electric Mouth Mirror.

will be appreciated in the same glance. It consists of a long hollow handle, through which an electric wire runs to a tiny lamp, set in the socket just opposite the mirror. The battery is also in the handle, and the light is turned on or off by the pressing of a button. The mirror is bent to reflect the object outward. To examine a tooth far back in the head, for instance, the mirror is thrust under or behind the tooth and the light turned on. It can then be inspected as satisfactorily as if it lay on a table.

### IS CONTROLLED BY WIRELESS

Frenchman Invents Torpedo Which is Operated by Waves—Successful Experiment.

A French inventor has come forward with a torpedo which he claims can be controlled by wireless. The contrivance when out of water has the appearance of being two torpedoes, one above the other, and about six feet apart. The lower part is the real torpedo, carrying a motor storage battery, an apparatus for receiving the wireless or Hertzian waves, and at the nose or forward end an explosive charge weighing 1,800 pounds. The ordinary torpedo only carries a charge of 200 pounds. The upper part is merely the floater. When placed in the water, the contrivance sinks to the upper floater, which carries two masts and antennae for receiving the wireless waves. In the experiments the inventor made use of an instrument somewhat resembling a piano. When he touched one of the keys the torpedo responded immediately, going to right or left as directed. By sending a varying number of waves he moved the rudder of the contrivance to right or left as he pleased. The wireless waves do not themselves operate the screw or rudder, they simply control the appearance.

### New Steam-Electric Locomotive.

A new steam-electric locomotive is being built in England. It comprises a steam turbine, which operates a dynamo supply current for four series wound motors. The engine is being designed to haul express trains, and will be tested in actual service so as to show its efficiency as compared with the ordinary steam locomotive. It is pointed out that turbo generators have proved so efficient in stationary plants that a similar system would very probably prove to be of value on railways to replace steam locomotives.

There's more strength in a bowl of

# NEWS FROM The CAPITAL

## States in a War Over a Postmaster

WASHINGTON.—It's hard enough to have constituents in any event, but it's much harder to have 'em for next door neighbors.

Representative Slomp is the only Republican member of the house from Virginia. This, is of course, a Republican administration. So when anybody in Virginia wants anything he comes to Slomp.

Just now Slomp is facing a problem in little. The town of Bristol is split up between Virginia and Tennessee. Representative Brownlow of Tennessee, like Slomp, is the lone Republican from his state. White House influence is divided. For 40 years a Tennessean has been postmaster of Bristol. Brownlow wants a Tennes-

seean to be postmaster. But the president has appointed a Virginian to the place.

Four years ago the late Representative Campbell Slomp, father and predecessor of the present representative from the Ninth Virginia district, and Representative Brownlow, who comes from the Tennessee part of Bristol, agreed, so the Virginians say, that if Eli Warren, a Tennessean, were made postmaster a Virginian should be named as assistant. The Slomps put forward no candidate for the place and Warren got the appointment on Brownlow's indorsement.

At this stage the president enters. As soon as the younger Slomp got his congressional seat he acquainted Mr. Taft with the situation and told him that it was about time that Virginia was given some recognition in the patronage in this divided town. The president thereupon sent to the senate the nomination of a man named Goodell. Brownlow's protests against the Virginia appointment were vigorous, and Goodell's name has been held up.

## Question of Ethics Raised in House

MR. SHERLEY was making a speech in the house several days ago when Representative Clayton arose and asked: "May I interrupt the gentleman?"

Mr. Sherley—Certainly.

Mr. Clayton—To say that the gentleman from Georgia was unavoidably taken away and is not present.

Mr. Sherley—I thought the gentleman wanted to ask me a question.

Mr. Clayton—I wanted to ask the gentleman—

Mr. Sherley—I would rather go on with my remarks but just ask the question.

Mr. Clayton—That is to say, does the gentleman think that any man who in failing circumstances goes to a man who has money, within four months of his failure, and says to him: "I am about to fail; I am in an embarrassed position; let me have a thousand dollars and I will prefer you." Do you think any sane man

will let him have that thousand dollars?

Mr. Sherley—I will say, if you will read the law, you will find the express provision that he can get a thousand dollars and give security for it, and there is not the slightest reason why a man should not lend it if he wants to.

Mr. Clayton—That is not an answer to my question.

Mr. Sherley—That is my answer; I am not going to answer it as the gentleman wants, but I have answered it according to the law.

Mr. Clayton—If the gentleman will not be so much in earnest and a little more dispassionate—

Mr. Sherley—Permit me to make my speech. After I make it you may make such criticism of my manner as you choose. I insist upon consuming my own time.

Mr. Clayton—May I interrupt the gentleman?

Mr. Sherley—The gentleman cannot.

Mr. Clayton—I am very sorry that the gentleman's argument is so vulnerable that he cannot submit to an interruption.

Question: Was the expressed regret justified or genuine?

## How Congressman's Secretary Got Help

SEED.—HORN of the staff of S. R. representative Gaines, is a Foxy Quiller. The other day he sent out invitations to a number of other secretaries for a lunch in his office of a certain night.

"Fine," said the surprised secretaries.

"I'll have a pretty girl for each of you," said Horn.

"Finer," said the secretaries.

He had the lunch and the girls. He had spent nearly six dollars, though

some of the secretaries said afterwards that they had an idea that the girls had brought the lunch. It is not of record whether the lunch was eaten before or after Horn unfolded his little scheme.

In any event, before each secretary and each girl had left, they had addressed about a thousand envelopes apiece. You see, it's seed time here; all the congressmen are sending Secretary Wilson's seeds to their constituents.

Horn saw a monumental task before himself. Hence the pretty-girl-tempting-lunch invitation. Now a number of pretty girls and secretaries are wondering who got the best of it. The party idea in this connection has taken root, too. One secretary has a scheme to have a stag affair in his office. He will have cigars and pop.

It is easy for the man who never wore a dress suit in his life to blame all the discreditable things he hears on polite society.

Passing the Superlative.  
"I am going to have Jagsby for my best man."  
"Oh, I know a better man."

# Have You Tried?

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this.

As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Cresson, Pa.—"Five years ago I had a bad fall, and hurt myself inwardly. I was under a doctor's care for nine weeks, and when I stopped I grew worse again. I sent for a bottle of Lydia E. Pinkham's Vegetable Compound, took it as directed, and now I am a stout, hearty woman."—Mrs. Ella E. Aikey, Cresson, Pa.

Baird, Wash.—"A year ago I was sick with kidney and bladder troubles and female weakness. The doctors gave me up. All they could do was to just let me go as easily as possible. I was advised by friends to take Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am completely cured of my ills, and I am nearly sixty years old."—Mrs. Sarah Leighton, Baird, Wash.

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

MILWAUKEE, WIS.

#### New Placer Strike in the Jicarilla.

Jicarilla, the placer gold camp of Lincoln county, from which much gold has been washed during the past fifty years, has again attracted notice from recent discoveries of new placer ground. The new ground is on the flat, or bench, above Ancho gulch, and has been staked by Geo. J. Wishar, C. C. Hedges, and Phil Ressonier. Messrs. Wishar and Hedges have been working their property for the past twelve months, and just lately struck "pay dirt." The distance to bed-rock is 27 feet.

They extracted about 5 tons from the pay streak and washed out about \$65.00. Later they took another batch of dirt, about a ton and a half, hauled it to water and washed out \$25.50. The pay streak, so far as developed, is 10 feet wide and from 14 to 18 inches thick. Lack of water is the only difficulty, but these parties hope to overcome that difficulty by tapping a pipe line near their property.

The gulches of the Jicarilla country have produced, in the aggregate, a large sum. This last strike, however, is upon a bench, away from any gulch, and yet the deposit indicates that it was once a stream bed. If, as development continues, and present conditions are maintained it will mean much for the operators and for the camp. The people of Jicarilla who have held to their property for so long, and under adverse conditions, at times, are entitled to something good, and we hope the camp will again become a heavy producer of the precious yellow metal.

#### The Outlook Good for Fruit.

Advices received by the Bureau of Immigration, up to April 28, from all the fruit growing sections of the territory indicate that the loss from frosts are nothing like as heavy as was believed a week ago. There has been some damage in the Pecos valley, where the crop will be somewhat reduced, and likewise some small damage has been done in San Juan county.

The crop in the central Rio Grande valley will be much reduced as regards apples, while the peach crop will probably be a failure. No damage has been done in the Mesilla valley of any moment, except to the grapes, which have been badly nipped.

It seems now that the spring will pass without any further low temperature, and that New Mexico is assured this season of a very satisfactory fruit crop. Fruits of all kinds will be in unusual demand because of the heavy damage which has been

done by frosts in the fruit growing sections of the central and northern states.

Highest Cash prices paid for eggs, hides and pelts. Bring us your produce.

#### List 1398.

RESTORATION TO ENTRY OF LANDS IN NATIONAL FOREST.—Notice is hereby given that the lands described below, embracing 40 acres, within the Lincoln National Forest, New Mexico, will be subject to settlement and entry under the provisions of the homestead laws of the United States and the act of June 11, 1906 ( 34 Stat., 233 ), at the United States land office at Roswell, New Mexico, on June 30, 1910. Any settler who was actually and in good faith claim-

ing any of said lands for agricultural purposes prior to January 1, 1906, and has not abandoned same, has a preference right to make a homestead entry for the lands actually occupied. Said lands were listed upon the applications of the persons mentioned below, who have a preference right subject to the prior right of any such settler, provided such settler or applicant is qualified to make homestead entry and the preference right is exercised prior to June 30, 1910, on which date the lands will be subject to settlement and entry by any qualified person. The lands are as follows: The SE $\frac{1}{4}$  of NE $\frac{1}{4}$ , Sec. 14, T. 11 S., R. 14 E., N. M. M., 40 acres, application of Andres Nejeres, of Analla, New Mexico; List 1398. S. V. PROUDFIT, Acting Commissioner of the General Land Office. Approved April 1, 1910, FRANK PIERCE, First Assistant Secretary of the Interior.
