Carrizozo News.

A Journal Devoted to the Interests of Lincoln County.

VOLUME 11.

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, MAY 13, 1910.

NUMBER 14

Preventatives for Tuberculosis.

The following paper on "What the County Medical Society May do to Prevent the spread of Tuberculosis" was read by Dr. J. W. Laws, of Lincoln, before The Southeastern Medical Association which convened in Roswell last month. At the request of the committee it is herewith presented to our readers:

While it is desirable that we have international, national, state, municipal and county laws for the control and the prevention of tuberculosis, with county medical societies and health officers working under such authority, nevertheless, no such condition at present prevails, and we as physicians should ever be on the alert to influence the adoption of legislation for the purpose of prevention and ultimate eradication of tuberculosis. By a united effort of the people of the entire country, it is possible in a few generations to stamp tuberculosis from the face of the earth.

Among the first steps necessary, is the education of the public to the dangers of infection and the importance of adopting and following the necessary measures to prevent infection and spread of disease. To arouse the public from its lethargy is no easy task. The White Plague has ingrafted itself in the homes of so many and so familiar are its aspects, that the public are loth to look upon it with the fear that is manifested in other infectious diseases. One reason people are so tolerant of tuberculosis is because they are ignorant of the fact that the period of incubation is a long one, that infection in children and in adults may take place and no visible signs of the disease appear for a long period of time, for months or years, until the vitality of the individual affected is lowered. The public is also ignorant of the many small details necessary to prevent infection, and in the measures adopted against infection, veritably, "strain at a gnat and swallow a camel."

It is a mistake to think that tuberculosis can not be contracted in the most favorable climate for its cure; for in the writer's experience histories have been taken, patients examined, and treated that contracted their trouble beyond doubt in New Mexico, in California and in Colorado; so while the danger is probably less in a favorable climate, still it is just as essential that sanitary rules of prevention be adopted here as in an unfavorable climate.

Among the things that the county medical society may do to prevent the spread of tuberculosis is the inauguration of a campaign for the purpose of educating the public as to the danger of infection and the importance of the adoption of individual and

News to Delight Women

Needing a Suit or Dress.

COME IN AND GLANCE AT THE PRICES and note how little a new a new Suit or Dress will cost you here. Come in and see the serviceable materials, their smart style, how well adapted they are to fit into various needs of the Summer Wardrobe. We think you will go away a happy woman at having found just what you wanted at so small a cost.

Remember this is the **SUMMER STYLE STORE**—the store that gets the new and beautiful things first.

Dainty Waists, Seperate Skirts, Summer Millinery,
Oxfords & Shoes, Hosiery & Parasols.

ZIEGLER BROS.

"The House of Good Taste."

public measures for the prevention of infection from tuberculosis. No more effectively can this be done than by beginning with the school children, the men and the women of the future. A course of public hygiene should be taught in simple language in the public schools, especial stress being laid upon tuberculosis. For instance the department of health of New York City have a small booklet in which questions and answers are given on the following subjects: "Tuberculosis; what it is." "How one gets tuberculosis." "How to keep from getting tuberculosis." "How to keep persons with tuberculosis from spreading the disease." In Boston the following health rules for school children are used:

1. Health is wealth.
2. Do not put pins in your mouth.
3. Do not hold money in your mouth.
4. Do not put your fingers in your mouth.
5. Do not put pencils in your mouth or put them with your lips.
6. Do not wet your fingers in your mouth when turning the leaves of books.
7. Do not put anything in your mouth except food and drink.
8. Never spit on your slate or on the floor or on the sidewalk.

(Continued on last page.)

The District Court.

The grand jury has been in continuous daily session since it was organized last week. It will conclude its labors tomorrow, at which time either Judge Pope or Judge Mechem will be here to receive the report. District Attorney Llewellyn, who has been in constant attendance, has kept in communication with the judges mentioned above, and has been assured that either Judge Pope or Judge Mechem will be here tomorrow.

Major Llewellyn is equally certain, from advices received, that Judge Mechem will be here on the 17th, if he does not come before, and that the regular docket will be taken up. The Major thinks the court session will run into June, as the docket is large and it is the purpose of the officials to wipe it out at this term, if possible.

District Clerk Downs was up a day or two this week, attending to routine business, and will be here again tomorrow. On account of continued illness, Judge has resigned, which has caused sincere regret throughout the district. Speculation is rife as to his successor.

Eastern Star Organized.

Mrs. M. R. Koeler, territorial organizer of the Eastern Star, after instituting a lodge here, left yesterday for Vaughn on a similar mission.

The following officers were elected in the local lodge:

Worthy Matron, Mrs. W. C. Miller; Associate, Mrs. C. Spence; Conductress, Mrs. S. F. Miller; Secretary, Mrs. E. H. B. Chew; Treasurer, W. E. Miller. The following constitute the floor committee: Mrs. S. F. Anderson, associate conductress; Miss Willie Hildebrand, Esther; Mrs. H. W. Loggins, Ruth; Mrs. E. H. B. Chew, Martha; Mrs. Hattie Pons, Electra, and Mrs. George Spence, First Point.

NOT LOOKING FOR TROUBLE

Young Man Unnecessarily Alarmed Over Question Put to Him by Old Gentleman.

A quiet, bashful sort of a young fellow was making a call on a Capitol hill girl one evening not so very long ago, when her father came into the parlor with his watch in his hand. It was about half past nine o'clock. At the moment the young man was standing on a chair, straightening a picture over the piano. The girl had asked him to fix it. As he turned the old gentleman, a gruff, stout fellow, said:

"Young man, do you know what time it is?"

The bashful youth got off the chair nervously. "Yes, sir," he replied. "I was just going."

He went into the hall without any delay and took his hat and coat. The girl's father followed him. As the caller reached for the doorknob the old gentleman again asked him if he knew what time it was.

"Yes, sir," was the youth's reply. "Good-night!" And he left without waiting to put his coat on.

After the door had closed the old gentleman turned to the girl.

"What's the matter with that fellow?" he asked. "My watch ran down this afternoon and I wanted him to tell me the time so that I could set it." Denver Post.

THOUGHT SO LITTLE.

ChollyChumpleigh—I'm not afraid, don'tcherknow, to say what I think.

Miss Cutting Hintz—You may not be afraid—but you ought to be ashamed.

Look . . . Welfare of Workmen.

A significant phase of the campaign against tuberculosis in Sweden is the establishment by various industrial concerns, of sanatoria for tuberculous workmen from their own factories. The Vulcan Match Company, the Ljusne-Voxne Timber Company, the Sandviken Hardware Company, the Eriksson Telephone Company and the Stora Kopparberg Company are among those who maintain such institutions, each accommodating from 15 to 30 patients. At these sanatoria the workmen are received free, and their families may be admitted for a small charge.

Uppers.

"I was brought up by my colored nurse," said the southern girl at a party on the seventeenth floor of a Harlem apartment house.

"I was brought up by the elevator," the New York girl declared.

SILK AND FLANNEL

DIFFERENT METHODS NECESSARY IN THE LAUNDRY.

Temperature of Water is the One Thing Necessary to Remember When Cleaning Flannels— Proper Process with Silks.

Silks are even more difficult to wash than flannels. In cleaning flannels all that is necessary to remember is that if one starts the laundry work with hot water the rinsing and bluing waters must be of the same temperature, or all three waters may be cold, for the shrinking of the material is caused by changing the garments from one temperature to another. The so-called fine silk flannels should be washed by the same method as is here given for silks.

With silks the process differs from that used for flannels that neither hot nor cold water should be used and that the washing, rinsing and bluing waters should all be tepid. Make a lather with some good soap, do not rub soap on the silk unless to remove perspiration stains. Rub between the hands, not on a board, rinse, blue, and squeeze out as much water as possible, but do not wring. The advantage of this will be found when doing the ironing as fewer wrinkles will have to be removed. Shake the garments into shape and hang where they will get air and dry evenly, but not in the sun, as sun burns silks as well as complexions.

When they are almost dry iron with a moderately hot iron, just hot enough to remove the wrinkles, and do not let it remain in one place longer than absolutely necessary, as it is the heat that discolors silks.

Soft silks, wash, china, and especially pongee must be ironed when damp all over or when perfectly dry. They, particularly the pongee, cannot be sprinkled as after ironing the sprinkling will show in unsightly spots and the garment must be again wet all over to remove them. The best results may be obtained by ironing silk when it is damp as so hot an iron is not required to remove wrinkles as when the material is perfectly dry.

White and pink silks will turn yellow if washed in hot water and a deep yellow if boiled and especially will this be noted in the wash ribbons that are used so much in lingerie, while pale blue will fade to a clear white and remain so as long as they are in use.

The easiest way to keep lingerie ribbons in order is to wash a number of them at a time in tepid water and wind around a large bottle and leave them thereon until dry. This has the same effect as ironing without the drawback of the heat. Fine laces may also be dried to great advantage by this method.

White silk stockings, lingerie, underwear, waists, and dresses that have become spoiled by careless washing and are too yellow to be attractive may be dipped in instantaneous dyes with most excellent results and be as pretty as new. Silk that has become yellow will take a fine shade of tan and that which is only a deep cream can be colored a dainty pink or baby blue, while any dark shade is still easier to handle.

In using instantaneous dyes be careful to try a sample of the material first to be sure that the desired shade has been obtained and in dyeing to have all parts of the articles thoroughly soaked, special attention being given to shirrings, plaits, belts, and all parts where the goods are in folds. When the process of dyeing is completed the coloring matter will be in the materials and the water will be almost clear.

The only way to launder white silks and to keep them white is do it one's self, avoid heat and complete the process as rapidly as possible.

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of illness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs and Elixir of Senna, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact that it is the only remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is, therefore, all-important, in order to get its beneficial effects, to purchase and note that you have the genuine article, which is manufactured by the California Fig Syrup Co. only.

It is pleasant and refreshing to the taste, and acts gently yet promptly on the kidneys, liver and bowels, cleanses the system effectually, dispels colds, headaches and fevers and assists in overcoming habitual constipation permanently, also biliousness and the many ills resulting therefrom. The great trouble with all other purgatives and aperients is not that they fail to act when a single dose is taken, but that they act too violently and invariably tend to produce a habit of body requiring constantly augmented doses. Children enjoy the pleasant taste and gentle action of Syrup of Figs and Elixir of Senna, the ladies find it delightful and beneficial whenever a laxative remedy is needed, and business men pronounce it invaluable, as it may be taken without interfering with business and does not gripe nor nauseate. When buying note the name, California Fig Syrup Co. printed on the front of every package. Price, 50 cents a bottle.

A CERTAIN CURE FOR SORE, WEAK & INFLAMED EYES.

KNOWN SINCE 1836 AS RELIABLE (TRADE MARK) **PLANTEN'S C & C OR BLACK CAPSULES** SUPERIOR REMEDY FOR URINARY DISCHARGES. DRUGGISTS or by MAIL on RECEIPT for 50c. H. PLANTEN & SON, 93 HENRY ST. BROOKLYN, N.Y.

Farmers should eat more oatmeal. Although the farmer of today is able to buy almost anything he wants to wear or eat he isn't paying enough attention to food values when it comes to his own table.

He feeds his stock carefully, avoids over-feeding and selects the stock food that he believes will give the best returns in strength and general efficiency.

If he has been watching the extensive researches and experiments on the question of the best human food for muscle and brain he will heed the advice from all sides to "eat more Quaker Oats."

Quaker Oats is mentioned because it is recognized in this country and Europe as the best of all oatmeals. Feeding farm hands on Quaker Oats means getting more work out of them than if you feed them on anything else.

61

A Mean Scheme.

"Is your wife home?"
"Yes; I got tired of having her away."

"But I thought she intended staying four months?"

"She did. I got the office boy to write on a card: 'Better come home. From a well wisher.' And she took the first train after receiving it."

DAVIS' PAINKILLER

Should be taken without delay when sure chest and tickling throat warn you that an annoying cold threatens. At all drug stores in 25c, 50c and \$1.00 bottles.

Of course, women are a trifle vain, but did you ever see a man pass up an opportunity to look in a mirror?

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Every man thinks he's a superior judge of human nature.

Constipation causes and seriously aggravates many diseases. It is thoroughly cured by Dr. Pierce's Peppets. Tiny sugar-coated granules.

It's easier to break away than it is to get back.

AFTER DOCTORS FAILED

Lydia E. Pinkham's Vegetable Compound Cured Her

Knoxville, Iowa. — "I suffered with pains low down in my right side for a year or more and was so weak and nervous that I could not do my work. I wrote to Mrs. Pinkham and took Lydia E. Pinkham's Vegetable Compound and Liver Pills, and am glad to say that your medicines and kind letters of directions have done more for me than anything else and I had the best physicians here. I can do my work and rest well at night. I believe there is nothing like the Pinkham remedies." — Mrs. CLARA FRANKS, R. F. D., No. 3, Knoxville, Iowa.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

TO PRESERVE A SILK SKIRT

Some Simple Precautions That Will Mean Addition to Life of Garment.

Now that taffeta petticoats are coming back again it is well to know how to make them last as long as possible.

Do not choose a silk that has much dressing in it, as it cuts much more quickly.

Do not have much shirring or tuck-ing as the effort to keep dust brushed out is hard on the petticoat.

Do not fold in a chest or trunk as the creases will cut quickly. Hang by straps to the waist band.

Have a silk skirt put on a narrow band; pulling on a draw string, besides giving greater bulk, cuts the material.

One woman says her skirts wear longer if she hangs them upside down by loops placed on under side of ruffle.

Do not save your taffeta petticoats. They will cut from hanging too long in a closet, so you might as well have the satisfaction of wearing them out.

Stuffed potatoes are made by mixing cheese and bread crumbs in with the contents.

A few allspice are an improvement to stews, thick soups and gravy. They give almost the same flavor as if wine had been added.

If you have a black gown that needs freshening, cleanse it thoroughly with clear black coffee diluted with water and containing a little ammonia.

After the weekly washing rub a little vinegar and spirits of camphor over the hands. This will keep the hands in good condition summer and winter.

Cleaning Lace.

Pure alcohol can be used with wonderful success as a means of cleaning black Spanish or chantilly lace. The alcohol should be poured into a clean basin and whipped with the hand until it is frothy, when the lace should be dipped into it and well worked about with the fingers until the dirt is removed. After gently squeezing out the spirit the lace should be laid on a folded cloth, the patterned edge fastened down with a pin. When perfectly dry the lace should be unpinned and pressed gently between the palms of the hands until smooth in lieu of ironing it, as this would flatten the pattern and spoil the color.

How to Broil Steak.

While broiling a steak, first wipe with a cloth wrung out of cold water; trim off superfluous fat. With some of the fat grease a wire broiler; place meat in broiler (having fat edge next to the handle); broil over a clear fire, turning every ten seconds for the first minute that surface may be well seared, thus preventing escape of juices. After the first minute turn occasionally until well cooked on both sides. Steak cut one inch thick will take five minutes if liked rare, six if well done. Remove to hot platter, spread with butter and sprinkle with salt.

Peppers Are Handy.

It is a good plan to have a can of Spanish peppers always in the house. They can be easily and attractively used in an emergency. Sandwiches may be made of them, or they may be used to garnish leftover meats, etc. Cut the meat into cubes, cover with bits of pepper and bread crumbs and brown.

Dumplings for Stew.

One small cup flour, heaping tea spoon baking powder, half a teaspoon salt; sift together; add enough milk to make a soft dough; mix with a knife, handle as little as possible; cut into small pieces, drop into your stew and cover; boil for 20 minutes. Mine are very light and white.

So Different.

"Mrs. Uppercrust takes such great interest in her baby."

"Yes; she says she was delightfully surprised when it came, as she had obtained her ideas about babies from the comic supplements, you know." — Puck.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists. Take Hall's Family Pills for constipation.

Alas.

A little five-year-old who had been watching her mother dress for an evening entertainment surprised her mother with the following question: "Mother, didn't you say you were almost 40 years old?"

"Yes," replied the mother.

"Well," answered the little girl, "you don't look it to-night, but you will to-morrow morning." — Judge.

Good Work in Denmark.

Under legislation enacted in 1905 the Danish government pays three-fourths of the expenses of all poor persons who desire to be treated in tuberculosis sanatoria. When the hospitals under construction are completed Denmark will have one bed in tuberculosis hospitals or sanatoria for every 1,200 inhabitants, a fact which will mean that the length of treatment can be considerably extended. In the United States there is one bed for every 4,500 inhabitants.

In New Hampshire.

That irresponsible Manchester Union man gave himself a surprise party by going to church last Sunday and this was the result: "On this first Sunday of Lent, while George Bailey of the Houston Post is sacrilegiously fishing for eels in a Texas bayou, and the (married) paragrapher of the Kennebec Journal is tapping his boots, and the Gling-Gling Gophus of the Springfield Union is playing seven-up, we, in common with other good New Hampshire people, shall dutifully attend church." — Springfield Union.

ROSY COLOR Produced by Postum.

"When a person rises from each meal with a ringing in the ears and a general sense of nervousness, it is a common habit to charge it to a de-ranged stomach.

"I found it was caused from drinking coffee, which I never suspected for a long time, but found by leaving off coffee that the disagreeable feelings went away.

"I was brought to think of the subject by getting some Postum and this brought me out of trouble.

"It is a most appetizing and invigorating beverage and has been of such great benefit to me that I naturally speak of it from time to time as opportunity offers.

"A lady friend complained to me that she had tried Postum, but it did not taste good. In reply to my question she said she guessed she boiled it about ten minutes. I advised her to follow directions and know that she boiled it fifteen or twenty minutes, and she would have something worth talking about. A short time ago I heard one of her children say that they were drinking Postum now-a-days, so I judge she succeeded in making it good, which is by no means a difficult task.

"The son of one of my friends was formerly a pale lad, but since he has been drinking Postum, has a fine color. There is plenty of evidence that Postum actually does 'make red blood,' as the famous trade-mark says."

Read "The Road to Wellville," found in pigs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Literature.

"I have read this poem over a dozen times," said the assistant editor of the Highbrow Magazine, "and I can't make head or tail to it."

"Good!" exclaimed the editor. "We'll hit it up for a feature, together with an announcement denying that true poetry is dead. And don't forget to send a check for \$1.25 to the fellow who wrote it." — Lippincott's.

King Edward Dead.

Edward VII., who had reigned over the English nation for nine years, died one week ago, aged 69 years. His reign has been short, in point of years, but his long public life before accession, and the brief period of his reign, will occupy a prominent place in history. He was a man of peace, and since he was crowned king England has enjoyed peace as never before.

"The king is dead; long live the king!" shouts the multitude as George V. is crowned king. The new king is forty-five years of age. To Americans, at least, his name is a handicap, and the odium attached to his predecessors of that name will be productive of many unkind criticisms if he fails to become a wise king. It is conceded that he is far from being the diplomat that his father was; but for that matter, the comparison is unjust; for no ruler of Europe, perhaps, possessed the finesse of Edward VII. Let us hope that the new sovereign will rule wisely and well for the honor of his race and the sake of our English cousins.

A petition, addressed to the railroad company, has been circulated, in which the company is asked to improve its facilities for shipping stock at this place. The present facilities are inadequate to the demands; for stock in large numbers can be loaded here only at a great inconvenience. Large pens are absolutely necessary, and to make it still more convenient, watering troughs in the pens would make Carrizozo an oasis to the shipper. Carrizozo is a growing shipping point, and the company will no doubt lend a willing ear to such a just request for improvement.

The Socialist Lecture.

J. E. Snyder, of Girard, Kansas, delivered a lecture at the school house last Saturday night, to a small but appreciative audience. His subject was the Preparation of a Constitution for the proposed state of New Mexico, and he handled his subject in an entertaining manner. He told the people to get busy if they wanted a constitution in their interest, and explained how they could protect themselves. His expressions, to a large extent at least, dispelled the belief that socialism had no good theories; for many of his points were sound and practical. His endorsement of the Oklahoma constitution, in a general way, met the approbation of those present. It is true, the Oklahoma instrument has been called a socialistic affair, but as a matter of fact, it was made by the people, for the people and comes nearer represents the desires of the real people better than any constitution in existence.

The speaker dwelt at some length upon woman's suffrage, showing where the participation of women in governmental affairs would result in curing many of the public ills, and that the moral tone would be improved by equal suffrage. At the conclusion of the lecture, Mrs. J. R. Humphrey made a short talk in which she gave the conclusions of her observations of woman's suffrage in Colorado. Her conclusions were that it was a success and that New Mexico, upon admission, would do well to follow Colorado's lead.

Good Ore at 90 Feet.

The Hopkins-Smith property, at the foot of the mountain eight miles from town, is beginning to show good results with depth. Mr. Hopkins brought to this office Saturday some fine looking ore that was taken from the bottom of the shaft, 90 feet in depth. The vein at that depth is about four feet, appears to be firm and stable, the ore, copper, lead and silver in character, looks sufficiently valuable to warrant shipping and treating. A substantial fund has been raised to develop this property, and it is being used in a practical manner. The operators have cause to feel jubilant over their promising prospects, and if their hopes are realized their efforts will be the means of bringing a new camp into existence. We certainly wish them success.

LINCOLN LOCALS.

Mrs. T. H. Rogers and Arthur Rogers and wife left for Roswell where Miss May Rogers is dangerously ill at the hospital. The latest reports are that her recovery is doubtful.

Mr. and Mrs. J. G. Riggle went to Tinnie last Sunday to bring back their daughter Genevieve, who had been visiting down there with the Cole family the past week. They were accompanied by Miss Iona Stevens and Miss Cora Cole.

Mrs. C. A. Stevens drove to Capitan last Monday morning and returned the same day.

Attorneys Geo. B. Barber and Wm. F. A. Gierke returned home the last of the week.

Mr. and Mrs. L. H. Bradstreet went to Carrizozo, where Mrs. Bradstreet boarded the train for her old home near St. Louis, Missouri. Mr. Bradstreet is fixing up their future home in Roswell, in the meantime.

John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it. Sold by all dealers.

Sunday, Mother's Day.

Sunday, the 15th of this month, has been named by Governor Mills as "Mother's Day." In his proclamation, setting apart this day, the governor says:

"Love of mother is deeply implanted in the heart of every reasonable human being. Love of mother is one of the sweetest characteristics of mankind, and comes to us naturally, as it should, for mothers not only bring us into this world, and suckle and tenderly care for us during infancy, but they guide and lead us during our more mature years and influence us for good during life. No sacrifice is too great for them to make for the welfare of their offspring.

"It is, therefore, proper that as a tribute to our mothers, one day in each year should be set apart, in which we may be with them if they are living, or think of them if they have been called to another world:

Therefore, although I have no authority of law to declare it a holiday, I hereby designate and appoint, SUNDAY, MAY 15th, A. D. 1910, as MOTHER'S DAY, and recommend that on said day all of our citizens attend divine worship, and that each of them wear if possible a white carnation, as typical of the purity, sweetness and love of our mothers; and I further suggest and recommend, that all priests, ministers and preachers of the gospel in the several churches of the territory on that day preach sermons taking as a text Mothers and Mothers' Love."

A touch of rheumatism, or a twinge of neuralgia, whatever the trouble is, Chamberlain's Liniment drives away the pain at once and cures the complaint quickly. First application gives relief. Sold by all dealers.

LINCOLN, NEW MEXICO.

Making a Record Pitcher.

Grover, the eighteen-year old son of Mr. and Mrs. C. Hightower, who went to Santa Fe last fall with his parents, is waking up the fans in the Ancient this season. Grover began pitching last year in the Capitan team, in which he had two older brothers, Willis and Perry, and established a local reputation as a pitcher. At Santa Fe he joined the St. Michael's College team. He pitched Sunday for the college boys against the Albuquerque Grays, and, according to the New Mexican's report of the game, his pitching was the feature of game. Neither was he a slouch at the bat and in running bases. He put out a liner that passed the fielders while he circled the diamond. Lincoln county fans are proud of the young man's triumphs and would like to see him on a local diamond ere the close of the season.

The New Mexico Scenic Highway has been completed from the Colorado line almost to Albuquerque, the construction camps being now well on the way towards the Bernalillo county line. Two other important roads now under construction are the Carrizozo-Roswell line and the Silver City-Mogollon road, both of which are badly needed, and which will open up large stretches of country, heretofore very difficult of access.

NOTICE OF SUIT PENDING.

In the Sixth Judicial District Court of the Territory of New Mexico, in and for Lincoln County.

Exchange Bank of Carrizozo, New Mexico,
Plaintiff.
Vs.
Nannie F. Henry and O. L. Henry,
Defendants.

The said defendants, Nannie F. Henry and O. L. Henry, are hereby notified that a civil suit has been commenced against them in the District Court aforesaid, by the plaintiff, Exchange Bank of Carrizozo, New Mexico, the general purposes of which are:

(1) To foreclose a certain mortgage deed executed by the defendants to the plaintiff on the 13th day of February, 1909, to secure the payment of a note of that date for the sum of Seven Hundred Dollars, with interest from the maturity of same at the rate of ten per cent per annum and attorney's fees, said note being due ninety days after its date.

And also (2) to foreclose a certain other mortgage deed given by the defendants to the plaintiff on the 9th day of March, 1909, to secure the payment of a certain other note of that date for Three Hundred Dollars, payable ninety days after the date thereof, with interest at the rate of ten per cent per annum from maturity, and ten per cent attorney's fees, both of said mortgages conveying Lots fifteen (15) and sixteen (16) in Block seven (7) in the town of Carrizozo, in said county of Lincoln.

Said complaint also prays for general relief. That unless said defendants cause their appearance to be entered in said suit on or before the 8th day of July, 1910, judgment by default will be rendered against them therein. Plaintiff's attorneys are Howitt & Hudspeth, White Oaks, New Mexico.

CAPITAN.

C. D. Wilson was over from Capitan Monday.

Mrs. W. M. Reily and children returned yesterday from a visit to relatives at Capitan.

Mrs. Geo. A. Read returned to Capitan last week, after more than a year's absence in Arizona.

Mrs. Chas. A. Stevens, wife of the sheriff, came up from Lincoln yesterday to spend a few days here.

L. C. Barlow, who has charge of the Old Abe cyanide plant, at White Oaks, made a trip to El Paso this week.

Dr. M. G. Paden has been appointed local health officer, by County Health Physician E. J. Cowart, of Capitan.

Seaborn T. Gray and son Seaborn came over on Monday's train from Capitan, and left the same evening for El Paso.

Judge T. W. Henley, postmaster at Nogal and one of the oldest citizens of Lincoln county, was down this week, greeting friends and transacting business.

Alfred Harris came in last week from Douglas, Arizona. He expects to return about the first of the month. Though for many years a citizen of this county, his new home in Arizona attracts.

Chas. B. Lane of Alto, who has been on the grand jury the past two weeks, leaves tomorrow evening for Chicago. Mr. Lane goes representative from this territory to attend the National Socialist Congress, which will be in session for a week.

Cane seed at Skinner's.

W. R. White, of Nogal, has received the appointment as commissioner of District No. 3, to fill the vacancy caused by the death of C. W. Wingfield.

The Carrizozo Social Club will give their second grand ball in Real's Opera House tonight. Superstition is evidently unknown to the members of the club, for Friday, the 13th, seems to have no terrors for them.

Wm. W. Marsh and Miss Gracie Jones were married Wednesday by Justice Scoggins in the latter's office. The newly wedded couple left yesterday for Torrance county, the home of the groom. The bride was a resident of Lincoln county.

F. F. Austin came in Saturday from Chicago on a short visit to relatives and to look after his real estate interests on Bonito. He is a son of Mr. and Mrs. A. C. Austin, of Angus, and a brother of Mrs. Dr. Laws, of Lincoln, and Mrs. W. L. Gumm, of this place.

Dr. E. J. Cowart came over on Monday's Capitan train, in charge of Mrs. Logan, wife of the Baptist minister at Capitan. Mrs. Logan is an invalid, and a lower altitude was recommended. She was met here by her brother who accompanied her to Alamogordo.

Robert O. Smith, the humorist, will lecture next Tuesday evening under the auspices of the Ladies' Aid Society. Mr. Smith has a national reputation as a humorous entertainer, and those who enjoy a merry laugh and a

good joke should not miss this opportunity. A couple of hours may be pleasantly spent at the Baptist church Tuesday night.

Henry Lacey has become an automobile repairer; at least he made one run this week that has stubbornly refused to move when coaxed by others. The machine is a Rambler, a new one, and is owned by E. G. Raffety, Oscura.

G. B. Greer and son, John H., of Parsons, came over Wednesday and boarded that evening's No. 1 for El Paso, where they went to to meet some parties on a business transaction. They returned last night and went home today.

Watt Gilmore and Tom McDonald were over this week from Cedar Creek, shipping a bunch of cattle to Oklahoma for J. H. Charles. Messrs. Gilmore and McDonald have taken the Cree pasture; hence the cause of removal of Mr. Charles' cattle.

Roy Treat came in this week from Gleason, Arizona, where he had been engaged in the butcher and vegetable business. He disposed of his interests there and came to White Oaks and Carrizozo for a short visit, after which he will look elsewhere for a business location.

Mrs. Thomas H. Moore and daughter Edith came in Wednesday from Idaho, and went to Capitan on yesterday's train. They left Mr. Moore at Alamogordo, as he is making his way back by easy stages; for he is endeavoring to remain away a year, and but little over half of that time has expired.

Announcement.

The young people of White Oaks will give a dance at the club hall Saturday night, May 21st. A pleasant time is anticipated and a general invitation is extended to everybody.

Sunday's Ball Game.

The game of ball here Sunday resulted in disappointment for the Carrizozo fans; for Fort Stanton, with her usual luck, came off victorious. The game ran along smoothly for a number of innings and the errors were about an even up proposition. Finally the errors settled down on the Carrizozoans, and besides the sphere seem to be an ignis fatuus—they could see it but couldn't find it—and it was all over but the shouting, and the visitors got that.

The Stanton team, however, practically covered the baseballists of the county, two of the old White Oaks team—Willie Gallacher and James Lee—and two of the old Capitan team—Lamay and Hightower—assisting in our defeat. But, win or lose, and of course we'd like to see our boys win, but that can't be expected at all times, the game affords a fund of amusement; and we hope to see soon the same teams cross bats with the hope that the score will be reversed. Sunday's score was, Stanton 10, Carrizozo 6.

CARRIZOZO NEWS

CARRIZOZO - NEW MEXICO

Economy in the household is now the slogan.

There is joy in the African jungles. The big hunt is over.

In this crisis America expects every hen to do her duty.

Cold storage is now trying to hold up 90,000,000 of people.

One can still eat crow and not break the rules of the meat boycott.

Investigation of the high cost of living makes food for thought abundant.

Unfortunately there is never a pre-inventory sale in the necessities of life.

Pretty soon you'll hear some man bragging that his hens laid all winter for him.

There is rather more water in this country now than the country really needs.

An Ohio man has been killed by a camel's bite. Need we look for an epidemic?

The world is being flooded with gold, says a Yale professor. Perfectly dry out here, prof.

It is now said that the Atlantic ocean is 170,000,000 years old. It keeps its age remarkably well.

One of the surest aids to longevity, according to numerous correspondents, is to be born a daughter of the war of 1812.

A woman may carry a ton of false hair on her head, but a man who wears a wig is the joke of the neighborhood.

Cement manufacturers are slow if they do not offer a germ-proof substitute for the gum on the back of postage stamps.

Divorce court proceedings show that wives who spank their husbands take risks of losing those useful articles of household furniture.

A New Jersey man named Wire says he has not slept for 20 years. If that's true, he should be thankful that he still is a live wire.

"Twenty cents a day is enough to spend on food," says an expert. It may be enough to spend, but it is certain that you cannot get enough for it.

Now the men who keep eggs and meat for years at a time in New Jersey may be indicted with the meat packers. Truly, these are hot times for cold storage.

At the Chinese New Year, just past, every Chinaman paid all his debts. How can American civilization stand being brought into contact with such Mongolian superstitions?

St. Paul thugs have solved the high price problem. Two of them held up a cafe owner while his cafe was full of diners who were receiving like treatment from mine host.

A New York woman is advertising for her lost diamond-studded cigarette case. There may be some plain folk of old-fashioned notions who will not at all sympathize with the lady in her loss.

In the case of the hog it is slightly different. People don't complain so much of the price of the choice cuts, because the whole hog comes so high as to be out of reach, if not out of sight.

Money and expense are not essential to artistic homes and attractive rooms. One dollar and fifty cents' worth of material will completely transform a crude, inartistic room into a graceful, dainty apartment.

Really it is good taste and skill that makes the home homelike. That dainty touch is worth twice as much as money.

Wall paper is expensive—it costs money to buy it, to hang it and again to remove it. With the use of the alabastined wall there is only the slight cost of the material—any one can brush it on—and it is not necessary to wash it off the wall when a fresh coat is required.

It is very easy to mix, very simple to apply, but the results are simply beautiful. A whole house can be done at just a little more than the cost of a single room when ordinary materials are used.

And this is true, that now that we have so much better materials for use in the decoration of our homes, that wall paper, common lead paint and paint are now as much out of date as the old time white-wash, tallow candles and rough hewn floors. Mere money is no longer an essential in good housefurnishing in artistic home making.

The new materials and labor-saving machines are most welcome to us all—and every thoughtful woman, every woman who cares for her home, is quick to utilize them.

ONE OF ADAM'S TROUBLES

Incident in the Garden of Eden That Must Be Taken for What It Is Worth.

Rev. Dr. Charles Townsend of Orange was one of the speakers at the Park Presbyterian Church Men's club banquet last week, and told this story of one of the troubles of the original ancestor:

"Adam had eaten the elaborate repast furnished by his helpmeet with every indication that he relished each morsel. He complimented her upon the dainty manner in which the blue-points were served, the flavor of the puree of peas, the seasoning of the fish and entree, and finally reached a delicious salad. Adam paused, and with a worried look on his face he demanded of Eve where she found the ingredients. She enumerated all except the lettuce.

"Where did you get those leaves?" he demanded.

"Why, they were lying on a bush in the back yard," she replied, sweetly.

"Well, those were my best Sunday trousers," sobbed Adam, adding, "Ah, woe is man," which was corrupted into 'woman,' the term by which we know Eve's daughters."—Newark Star.

BABY'S SKIN TORTURE

"When our baby was seven weeks old he broke out with what we thought was heat, but which gradually grew worse. We called in a doctor. He said it was eczema and from that time we doctored six months with three of the best doctors in Atchison but he only got worse. His face, head and hands were a solid sore. There was no end to the suffering for him. We had to tie his little hands to keep him from scratching. He never knew what it was to sleep well from the time he took the disease until he was cured. He kept us awake all hours of the night and his health wasn't what you would call good. We tried everything but the right thing.

"Finally I got a set of the Cuticura Remedies and I am pleased to say we did not use all of them until he was cured. We have waited a year and a half to see if it would return but it never has and to-day his skin is clear and fair as it possibly could be. I hope Cuticura may save some one else's little ones suffering and also their pocket-books. John Leason, 1403 Atchison St., Atchison, Kan., Oct. 19, 1909."

FOR THE BREAKFAST TABLE

Simple Dishes, Easily Prepared, That Will Give Variety to the Morning Meal.

Cut bread thin and if it is not too old it can be folded after removing the crust and be held together with toothpicks. Toast the slices in the oven. When done put pieces of butter over each and serve the rolls with fried eggs.

For the invalid's breakfast beat the white of an egg and place it in a buttered drinking glass. Lay the yolk on top, dot with butter, season and cook in a pan of boiling water until done.

Soak codfish, the boxed variety, and mix it with one egg and mashed potatoes twice the bulk of the fish, roll into balls, then coat with egg and cracker crumbs and fry.

Get salted square crackers, cut thin slices of cheese, place on the crackers, dot with butter, toast and serve while the cheese is hot.

Bread-crumble cakes are made by soaking stale bread in buttermilk, using it with the usual batter in the place of flour and adding just enough flour to thicken the batter.

Beat one egg, add seasoning to it and a little water. Cut bread, dip slices into the mixture and fry brown. This is often served with poached eggs.

Boil dried beef a few minutes in water to remove the salt and to make it tender. Put the beef into hot butter, fry a second, make gravy with flour and milk, boil for a minute and serve with small pieces of toast.

Cold-broiled him if freed from excessive fat and fried is palatable served in butter gravy.

TO STRETCH THE CURTAINS

Frames Must Be Perfectly Straight If the Result is to Be Satisfactory.

To insure proper hanging of curtains the frames in which they are stretched must stand straight.

Carelessness here can not be righted afterward. Carefully stretched, the next special feature is the pressing. All points are carefully pressed, the edges being steam dampened by using the iron over a wet cloth. Hook holes along the plain edge are obliterated by dampening and working between the fingers.

A taped edge made wavy and irregular by the hooks is straightened by working the steam dampened curves outward with one hand while pressing with the other. Any slack or tension of material may be steamed out with a wet cloth and iron. The same process, using several thicknesses of cloth, will remove traces of unfortunate scorching, a fact not generally known.

Iron rust sometimes resulting from contact with corroded hooks may be removed by application of salt and lemon juice, steaming it out as above, steam being more efficacious than the time honored sun in removing rust stains. Large holes are machine mended or caught up by hand; small ones are steam dampened, opposite threads crossed over and held by a pin point while the iron is being applied, and not a trace is left.

Soup a la Printanier.

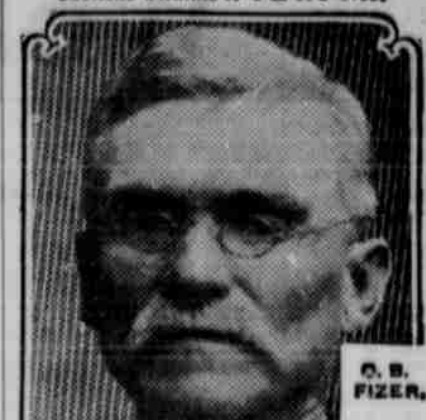

One-half cupful of mashed potatoes, one cupful of hot milk, a little onion juice, one-fourth teaspoonful of chopped parsley, one-half teaspoonful of flour dissolved in a little old milk. Salt and pepper to taste. (It would be possible to multiply this by three and still keep the price within five cents.)

Egg Butter.

Cut up a few slices of bacon or ham into fine pieces and fry. Then mix a batter of six eggs well beaten, a tablespoon of flour, milk enough to make a thin batter (like pancake batter), season and a pinch of salt. Pour it over the bacon already fried and proceed to boil till thick. It must be kept stirred continually.

KIDNEY TROUBLE

Suffered Ten Years—Relieved in Three Months Thanks to PE-RU-NA.

C. B. FIZER, Mt. Sterling, Ky., says:

"I have suffered with kidney and bladder trouble for ten years past.

"Last March I commenced using Peruna and continued for three months. I have not used it since, nor have I felt a pain."

Stops Lameness

Much of the chronic lameness in horses is due to neglect.

See that your horse is not allowed to go lame. Keep Sloan's Liniment on hand and apply at the first sign of stiffness. It's wonderfully penetrating—goes right to the spot—relieves the soreness—limbers up the joints and makes the muscles elastic and pliant.

Here's the Proof.

Mr. G. T. Roberts of Resaca, Ga., R.F.D. No. 1, Box 43, writes:—"I have used your Liniment on a horse for swiney and effected a thorough cure. I also removed a spavin on a mule. This spavin was as large as a guinea egg. In my estimation the best remedy for lameness and soreness is

Sloan's Liniment

Mr. H. M. Gibbs, of Lawrence, Kans., R.F.D. No. 3, writes:—"Your Liniment is the best that I have ever used. I had a mare with an abscess on her neck and one sore, bottle of Sloan's Liniment entirely cured her. I keep it around all the time for galls and small swellings and for everything about the stock."

Sloan's Liniment will kill a spavin, curb or splint, reduce wind puffs and swollen joints, and is a sure and speedy remedy for fistula, swiney, founder and thrush.

Price 50c. and \$1.00

NEW FOR THE TABLE

NOVELTIES THAT WILL PLEASE
YOUR GUESTS.

Nut Croquettes Are Inviting and Easily Prepared—Stuffed Peppers Made Along Same Lines—Dumpling Desserts.

When guests are expected some little novelty in the way of an entree helps out wonderfully. One such is nut croquettes, very unusual and dainty, made thus:

Grate enough second-day bread to make two cupfuls, chop in the meat chopper or the nut mill one and one-third cupfuls of shelled English walnuts. Stir these together in a basin with a small piece of butter, a tablespoonful of grated onion juice and a tablespoonful of mace. Melt in a skillet one large teaspoonful of butter, with half a teaspoonful of flour; add slowly one cup of sweet milk. Allow this to boil, then add the other ingredients with salt to taste. Add a beaten egg and, when removed from the fire, a teaspoonful of lemon juice. Mix thoroughly and turn upon a platter to cool. Roll into balls or cones. Dip in egg and bread crumbs as usual and fry in deep fat. Serve with tomato sauce.

Stuffed Peppers.—Have as many stuffed peppers as there will be guests. Cut a lid from the top of each, shave off the stem and smooth with a sharp knife. Extract the seeds and the tough membrane with a small knife having a sharp point. Then rinse and drain. Stuff them with a force-meat made as directed for croquettes in the above recipe, cover the top with bread crumbs and arrange in a baking pan with a dot of butter on each, and just enough butter to prevent burning and brown nicely. Serve with brown sauce.

Dumpling Desserts.—To some young people this dessert is the chef d'œuvre of the household repertoire. Either canned or stewed fruit is available, the juicier the better. Berries are especially good. If any one has compunctions as to marring the perfection of raspberries or strawberries by stewing them, the hint may be preserved for huckleberries and blackberries, which are delicious as a compote.

Stew or rather simmer the berries until tender. When done add sugar enough to make them pleasantly sweet, but do not stir after adding this, as it would cause the sugar to candy. Keep them hot over a low flame and turn into the saucepan a dumpling made of milk, flour, sugar, one egg and baking powder. The proportions of the dumpling vary according to the size of the puree. For one of medium size begin with a cup of flour, to which stir in enough milk to form a thick batter. Add one egg, two tablespoonfuls of sugar, a generous teaspoonful of baking powder. Mix thoroughly and turn into the steaming puree. Cover closely and cook for 20 minutes without lifting the lid. To serve, reverse the skillet over the compote, when the dumpling will be underneath with the fruit under and around it. Or, in making it, the dumpling batter may be put in by the spoonful to form small dumplings. Canned peaches, cherries, etc. are nice in this way. When using them it is frequently necessary to add a little water to the juice from the can, as a good quantity of syrup is necessary to boil the dumplings.

New Peche Melba.—A variation of the celebrated "Pêche Melba" is possible even out of fresh fruit season. Simmer some good canned peaches until tender in their syrup, with the addition of a little sugar and flavored with rum. Place a portion of vanilla cream on each saucer or in each sherbet glass; add to this one-half peach with the hollow left by the stone turned up. Fill the hollow with whipped cream and surround the whole with raspberry syrup. Serve immediately.

IN DOUBT.

Jinks—That chap that wrote a historical novel forged a note. Now he's in jail.

Blinks—What was he convicted for?

IN HOSPITAL FOR NINE MONTHS.

Awful Tale of Suffering From Kidney Trouble.

Alfred J. O'Brien, Second St., Sterling, Colo., says: "I was in the Baltimore Marine Hospital for nine months. I had a dull pain in the small of my back that completely wore me out. The urine was in a terrible state, and some days I would pass half a gallon of blood. I left the hospital because they wanted to operate on me. I went to St. Joseph's Hospital at Omaha and put in three months there without any gain. I was pretty well discouraged when I was advised to use Doan's Kidney Pills. I did so and by the time I had taken one box, the pain in the back left me. I kept right on and a perfect cure was the result."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Absolute Equality.

The Woman—The tax office is one place which I simply love to go to.

The Man—Very few people do. Why do you like it?

The Woman—Because it is absolutely the only place where no discrimination is made against me because I am a woman. They let me there pay just as much as if I were a man.

Studies in Still Life.

"I want a few colored illustrations of beets and tomatoes."

"Life size?" inquired the artist.

"Catalogue size," replied the seedman, with a significant smile.—Louisville Courier-Journal.

Important to Mothers.

In Use For Over 30 Years.

The Kind You Have Always Bought.

Progress.

Knecker—Now we have children taught how to play.

Bocker—Fine; next we shall have animal trainers to show lambs how to gambol.

It's difficult to arouse a man's enthusiasm by showing him a photograph of himself when a baby.

Takers of the United States Census will use Waterman's Ideal Fountain Pen because it is always ready and sure.

Think all you speak, but speak not all you think.—Delaware.

PUTNAM FADELESS DYES

Color more goods brighter and faster colors than any other dye. One 10c package colors all fibers. They dye in cold water better than any other dye. You can dye any garment without ripping apart. Write for free booklet—How to Dye, Bleach and Mix Colors. **MONROE DRUG CO., Quincy, Illinois.**

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY.
It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

A Free Book About Beautiful Walls

We have just issued a book about house decoration. May we send you a copy—free?

It tells how to produce those beautiful walls, now seen in all the finest of homes and hotels.

It suggests color schemes—offers a wealth of ideas. And it tells what has brought alabastine into universal vogue.

Alabastine

The Sanitary Wall Coating

Alabastine is the only wall coating that doesn't breed germs. It has been so for 30 years.

In the past few years it has become the rage. Fashion now demands it. People of taste—both rich and poor—now have alabastined walls.

Please know the reason. Know the endless color schemes you can get from it. Know how easily you can apply it, even on papered walls.

You will never use wall paper—never use kalsomine—after you know the facts.

Alabastine Co., Grand Rapids, Mich.

Bakes—Roasts—Broils—Toasts

BAKES bread, pie and cake—bakes them perfectly all through, and browns them appetizingly.

ROASTS beef, poultry and game with a steady heat, which preserves the rich natural flavor.

BROILS steaks and chops—makes them tender and inviting.

TOASTS bread, muffins, crackers and cheese.

No drudgery of coal and ashes; no stooping to get at the oven; no smoke, no dust, no odor—just good cooking with greater fuel economy. Irons and water in wash-boiler always hot. The

New Perfection

WICK BLUE FLAME

Oil Cook-stove

has a Cabinet Top with shelf for keeping plates and food hot. Drop shelves for the coffee pot or saucepans, and nicked towel racks.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove very attractive and invites cleanliness. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

CAUTIONARY NOTE: Be sure you get this stove—see that the name-plate reads "NEW PERFECTION."

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

Continental Oil Company
(Incorporated)

Preventatives for Tuberculosis.

(Continued from first page.)

9. Do not pick your nose or wipe it with your hand or sleeve.
10. Keep your face, your hands and finger nails clean.
11. Keep the interior of your body clean by allowing nothing to go into it except pure food and pure drink.
12. Do not keep your rubbers on in the school room.
13. Do not sit with damp feet and wet clothing; resort to stove or register until they are dry.
14. Do not swap parts of apple, candy, chewing gum, half eaten food, whistle or anything else that is to be put in the mouth.
15. Never cough or sneeze in a person's face; turn your face to one side and hold a handkerchief before your mouth.
16. When drinking, rinse out the cup and empty what water you leave in the wash basin.
17. Breathe fresh air day and night; simply avoid draughts.
18. Breathe, sit, stand and walk correctly. In so doing you will do more to prevent consumption than all the physicians combined. A good pair of lungs is the most efficacious barrier to this disease.
19. Go to bed early, rise early and take plenty of physical culture, helping father before and after school with the chores.
20. Study the Physiology—to know how to use rightly and take proper care of every part of the body.

Rules like the above impressed upon the minds of growing children are bound to have an influence on the prevention of tuberculosis as well as other infectious diseases. It is a sad commentary on our schools and colleges that so little attention is paid hygiene and the adoption of its rules. In many colleges so little attention is paid to the health of the students, who are crowded through its courses as through a machine, regardless of their physical strength, that it is no wonder that so many of our young men and young women on the threshold of life find themselves nervous and physical wrecks, and often victims of tuberculosis.

The intimate relation of the family physician, in the homes of his patrons, gives him an exceptional opportunity to teach the necessity of proper ventilation night and day; the necessity of play-grounds and life in the open air for the development of growing children; the necessity for recreation and diversion for the tired housewife; the danger of overwork and irregular hours, and in many other ways can the physician teach health rules and guard the children and the family from infectious diseases, laying stress upon the fact that tuberculosis is the most dangerous of all others put together. The danger of close association of children with a careless consumptive or playing in rooms occupied by consumptives; the danger of infection of food of young children from flies that have bedraggled themselves in tuberculosis sputum; the danger from cows milk where the cows have not been tested and proven non-tuberculous are subjects upon which very practical, efficient teaching can be impressed upon the parents that will be very effective in the prevention of the spread of tuberculosis. The family physician who has used his influence and worked to build up the resisting power of the children in the families with whose health he has been intrusted, and is conscious of the fact that on account of effort along these lines of health, he can point to large numbers of vigorous, healthy children, has indeed reason to be proud.

While it is our duty, in public

lectures to dwell upon the importance of destroying the sputum of consumptives and the necessity of requiring the use by them of destructible sanitary pocket and hand cups with lids, and, in fact, to lay emphasis upon the destruction of all excretions of tuberculous patients; nevertheless, it is not only unkind but unjust not to state with equal emphasis that there is no danger, with proper precautionary measures, from association with the careful and cleanly consumptive.

Incorporated towns should pass anti-spitting ordinances and an ordinance providing for the proper supervision and enforcement of sanitary measures by the county health officer or municipal health officer of consumptives who are not under the guidance and supervision of a reputable physician. The fumigation and disinfection of houses and rooms vacated by consumptives, as well as proper disposal of infected

bedding, is a measure to be adopted by physicians in every locality. The time is not far distant when every community will demand that the hopeless cases, from which there is the greatest danger of infection, shall be placed in a hospital or sanatorium for such cases. The support of such an institution will be money well spent in preventing the spread of the disease, as well as a godsend to the sufferer, making more comfortable the remaining days of the afflicted.

A measure to be worked for by physicians, endorsed by medical societies, and worked for by the citizens of every community, is the passage of a law for the establishment of a Department of Public Health of the United States. Such a department of health, broad in its scope and powers, not restricting its work to the health of the Army, or Navy, or Sailors of the Merchant Marine, but a Department of

Health for the good of all the people of the Nation, is greatly needed, if for no other purpose than to combat tuberculosis. Such a Department of Health, with state, county and municipal authorities cooperating, would be the means of dealing with all infectious diseases with an authority and an efficiency greatly needed in a long drawn-out campaign such as there must of necessity be in the fight against tuberculosis.

Notice of Publication.

San Coal Land—014878.
Department of the Interior,
U. S. Land Office at Roswell, N. M.,
May 6, 1910.

Notice is hereby given that Sarah Hampton, of Holaway, N. M., who, on May 1, 1908, made Homestead Entry No. 0112 Ser. No. 014878, for NE 1/4, Section 2, Township 3 S., Range 12 E., N. M. P. meridian, has filed notice of intention to make final commutation proof to establish claim to the land above described, before R. F. Adams, United States Commissioner, at his office at Corona, N. M., on the 17th day of June, 1910.
