## 3D Organon App Coming to HSLIC

by Tim Mey on July 5th, 2022 | [o Comments](#)

HSLIC is now offering the 3D Organon app for our students!

3D Organon is an anatomy atlas in 360 degrees, featuring over 12,000 anatomical structures across 15 body systems, 3D sectioning, microscopic anatomy, muscle actions, cadaver images, and more.

Students can access the app free of charge, and will be registered automatically. Installation instructions for desktop, laptop, and mobile devices are available on our [mobile app page](#).

If faculty members would like access, please contact us via [Ask a Librarian](#).
