VOL. XI NO. 18

CARRIZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, APRIL 20, 1917

PRICE \$2.00 PER YEAR

MORE THAN 100 PRIZES ARE OFFERED BOYS AND GIRLS

**Game Protective Association
Offers Books and Maga-
zines to Those Who Cor-
rectly Solve Bird Puzzle.**

The Albuquerque Game Protective Association wants the boys and girls of the state to know more about the birds of New Mexico and for that reason, and to stimulate interest in our "feathered friends" is offering a total of 110 prizes to the ones sending in the best list of answers to the "Bird Puzzle" which consists of 30 questions. A few examples of Socratic methods of teaching are propounded here in an endeavor to impart some interesting information and to awaken interest. This is followed by the rules and regulations of the contest, and, lastly by the questions of the puzzle which are to be solved:

To the Boys and Girls of New Mexico:

Do you know that there are over 100,000 kinds of insects in the United States, the majority of which are injurious?

Do you know that these insects cause over a billion dollars worth of damage to our crops each year, and destroy forest trees sufficient to furnish lumber for thousands of homes?

Do you know that many birds often eat their weight in insects each day?

Do you know that but for these birds, insects would make the earth uninhabitable in seven years?

Do you know that the game hog, the small boy with a .22 rifle, and the domestic cat destroy untold millions of beneficial birds each year? (Cats alone destroy at least 31,000,000.)

Do you know that it is lots more fun to feed, water and build houses for birds, than to kill them? (Write us and we will tell you how.)

Do you know that such small damage as some kinds of birds do to fruit can be prevented by planting mulberries? (Write the department, and they will tell you why.)

Do you know that there are only three kinds of birds that it is ordinarily right to kill? (These are English Sparrows, Sharp-Shinned Hawks, and game birds where plentiful and in season.)

Do you know that every boy and girl ought to know at least fifty kinds of native birds on sight? (If you do not know the birds, you can learn.)

The Albuquerque G. P. A. wants the boys and girls of New Mexico to know more about birds. For the best answers to the following puzzle, it offers 110 prizes, as follows:

First Prizes—For the 10 best answers, 10 sets (2 volumes each) of Dr. W. T. Hornaday's

books on American birds and game, full of beautiful pictures, and interesting from cover to cover.

Second Prizes—for the 100 next best answers, 100 free subscriptions to The Pine Cone, the interesting quarterly paper on birds and game, published by the New Mexico Game Protective Association.

Judges—Answers will be judged by a committee of three representing the University of New Mexico, the U. S. Forest Service and the Albuquerque G. P. A.

How to Enter—All pupils of grade schools and high schools of the state are eligible. State your name, address, age and school; write out your answers by number, and mail before May 1st to Albuquerque Game Protective Association, Albuquerque, New Mexico.

Here is the Bird Puzzle:

1. There's a bird whose name tells if he flies fast or slow,

2. And one which boys use when with long strides they go.

3. There's one that tells tales altho he cannot sing,

4. And one who flies high, but is held by a string.

5. By one a high rank in the army is held,

6. There's another whose name with one letter is spelled,

7. There is one that a farmer in harvest would use,

8. And one you can easily fool if you choose.

9. What bird at dessert, is it useful to hold,

10. And which in the chimney place oft hung of old?

11. Which one always stands in the corner at chess?

12. Which bird wears a bit of the sky in its dress?

13. There is one built a church, of London the pride;

14. We have one when we walk with a friend by our side.

15. What bird would its bill find useful at tea,

16. And which would its tail use to steer us at sea?

17. Which proudly a musical instrument wears.

18. And which the name of a small island bears?

19. Which bird is called foolish, and stupid, and silly,

20. And which always wants us to punish poor Billy?

21. Which bird is an artisan, works at his trade,

22. And which is the stuff of which flags are made?

23. One, we're told by the poet, at Heaven's gate sings,

24. And there's one which in Holland the new baby brings.

25. What birds have we with us in eating and drinking?

26. One, used for a fence, you can say without thinking.

27. What bird is a scoffer, a scorner, a jest?

28. What bird is too lazy to build her own nest?

29. From a high wind at evening one name is inferred;

30. Guess all these, you're as wise as Minerva's own bird.

Mrs. Wm. McClain is reported ill at her home of the mumps.

Manganese Dis- covery May Mark Beginning of New Industry in State

**Writer in Mining Magazine
Optimistic Over Opportu-
nities Presented in Lincoln
County Field.**

"The discovery of high-grade manganese ores in the Gallinas mountains in Lincoln county may mark the beginning of an important industry for New Mexico, the production of manganese." This is one of the statements made in the current issue of the Western Mining Review in a lengthy write-up of the New Mexico mining section.

Other excerpts from the article follow:

"The parties developing the properties are quoted as believing the work to be in the upper zones, mineralized by fumes, and while high-grade rock is found, the average value is not believed to be sufficient to ship the product without sorting, but depth will probably bring in a more even ore, also silver. It has been known for some time that the district was very strongly mineralized with manganese in a form not usually found, but generally indicating heavier ores with depth and silver values in addition. Sometimes depth brings in gold values, and it probably will in that camp, because there is always some gold in the ores produced from the different properties of the district."

"It is understood that hundreds of locations are being made in the iron deposits of Lincoln and Socorro counties. This iron is known to be in great quantities and of an unusually good commercial grade, but a distance from a railroad."

"The recent organization of a company with a capitalization of \$150,000 to take over the Corona Queen properties near Corona, is expected to result in early operations. It is understood that the owners have sent out for miners and will soon be at work. This property has produced some very rich ore and development will probably make it a great producer."

"I. & O. Iron Co., operating the Jones iron properties near Tecolote, is shipping about fifty tons of ore daily to the C. F. & G. at Pueblo. This is said to be the best iron produced in the west and is in demand. Much heavier shipping could be made but it is understood that the energies of the owners are being directed to the erection of an iron furnace at that point."

LATIN HAS NO PLACE IN SCHOOLS AND COL- LEGES THINK JUDGES

The debate held at the Methodist church Monday night by the

members of the Patrons' Club upon the question, "Resolved That Latin Should be Discontinued as a High School Study," proved very interesting as well as instructive. It took the third set of judges to break the tie in the decision as to winning side, the affirmative being given the victory. This side seemed to have the best of the argument all the way thru as there are really few things that can be said in favor of occupying the pupil's mind with the study of a dead language and one that can be put to no practical use when there are so many useful studies to which the time of the student can be devoted. The fact was cited that Dr. Elliott of Harvard and Dr. Abbott of Yale, two of the most prominent educators of the United States, had denounced Latin and went on record as opposing the teaching of it in the public schools. The fact was also disclosed that practically all the important colleges in the country now require no knowledge of Latin before admission nor even in college work. Among those requiring little or no Latin might be mentioned, Columbia, Cornell, Johns-Hopkins, Harvard, Oberlin, Yale, Wellesley and others. While in losing fight, it might be stated that the negative side debaters acquitted themselves well notwithstanding the fact that they were unable to make the judges feel the force of their arguments.

EXTRA SESSION OF LEGISLATURE NOW SEEMS PROBABLE

As Governor Lindsey expects action by Congress on the army bill this week which may change to some extent the provisions of the national defense act, says a dispatch from Santa Fe, he will wait for such action before issuing his call for an extra session of the state legislature to act on state defense. His idea is to be able to present an exact program to the legislature so there may be no excuse for delay. At the conference last week Major Llewellyn, speaker of the house, and Republican Floor Leader Barnes, urged immediate action, President Clark and Floor Leader Kaseman of the senate, counseling delay until Congress has a chance to act. It was determined at this conference that the state could at once secure \$40,000 by the sale of certificates of indebtedness and \$60,000 more by June 1st when outstanding certificates to that amount would be paid.

In a telegram to the governor, elicited by a wire by Governor Lindsey to the war department, General Pershing said he "was ready to meet any requirement along the border," and asked the governor for an estimate of the men needed. The governor has wired and written a letter setting forth the danger along the Grant and Luna county border and especially the menace to

LOCAL CITIZENS FORM HOME GUARD COMPANY

**Meeting at Courthouse Was
Very Enthusiastic and Founda-
tion is Laid for Effective
Protective Measures.**

Pursuant to call of Mayor Lutz a large crowd of Carrizozo citizens assembled at the courthouse Wednesday night for the purpose of discussing plans and organizing a home guard or company of "minute men" who may be called upon for immediate action in suppressing possible disturbances. One purpose of the organization may be to look after the munition equipment of the town and any necessary precautions resorted to in order to prevent its improvident sale, etc.

H. S. Campbell acted as chairman and H. B. Dawson secretary. The general plan agreed upon was to organize into a home guard company in military fashion and as early as practicable begin drilling practice. J. B. French was chosen captain and empowered to select a first and second lieutenant.

The organization is to be known as the Patriotic League of Carrizozo and will meet upon call of Captain French. The secretary was instructed to order at once a quantity of manuals of arms for use in drill practice. The meeting was full of patriotic sentiment.

Returns From Arizona.

Rev. J. M. Gardner of the Baptist church returned Wednesday from Phoenix, Ariz., where he had been attending the District Baptist Convention. Rev. Gardner occupied the pulpit of the Baptist church in Douglas both Sundays he was away and was greeted by splendid crowds. He describes his trip as a very pleasant one and reports the orange groves of the Gila valley full of bloom, some ripe oranges and myriads of beautiful roses.

Kennedys to Highrolls.

S. A. Kennedy, for several years an employe of the local railway, has resigned his position and together with his family departed Tuesday afternoon for Alamogordo where he has accepted a position with the Sacramento Lumber development company which operates the railway between Alamogordo and Cloudcroft. This firm has extensive lumber interests in the Sacramento mountains. Mr. Kennedy will have charge of the engines and road work of the company. They will reside at Highrolls, a small station on the line between Alamogordo and Cloudcroft.

the valuable mining properties.

A complete reorganization of the national guard is now being discussed, made necessary largely by the strong feeling of the men against many of the officers.

ANENT THROWING STONES.

In the long ago in the Judean country a party was brought to the only perfect judge the world has ever known, accused of sin, taken in the act, the Good Book says. The Scribes and Pharisees said the party should be beaten and pelted with stones. The good judge suggested that the one without sin cast the first stone. The narrative goes on to say that there were no stones thrown that day. The race has changed since that time and one is led to believe that it is trying to make up for lost time. A person does not have to misstep in these days, just let the appearance of evil show and the rock pile begins to move. The question of guilt or innocence is an after consideration. Throw the stones first seems to be the order and consider later on. Too many of us are not busy enough attending to our own business and therefore have time enough to throw stones at our neighbor who may be just as guiltless as we. It would be well for us to know that our neighbor is at fault before we begin throwing stones, and even then it is much better to let the stones alone.

We advocate preparedness in this office. We are prepared to receipt subscription bills six days in the week, and if you can't get around in the six days, we'd be tempted to grab it on Sunday without batting an eye.

We want an airship. We want to get up among the clouds and see if we can locate the cost of living.

The most serious thing this country must face now is the unholy prices the people are having to pay for food and the real necessities of life—meat, lard, sugar, groceries. The sooner the government takes a hand in the regulation of food supplies and prices, the quicker it will be relieved of the most serious problem to be solved. This nation has unlimited money and soldiers and could come a lot nearer bringing the world to its knees than Germany ever could hope to, but the food situation at home must not be neglected.

LET THE CLOCKS ALONE.

We wish persons would cease making us and others impatient about small things. With a shortage of the tobacco crop and a possible baseball strike we have quite enough to occupy our

minds without bothering about this nonsense called the "day-light saving plan." Some European put the clock ahead an hour over there and now a few in this country ask that the same thing be done. It will get people out of bed earlier and let them work in the cool of the morning, say these folks. What difference does it make what time it is. If one is ready to get out of bed? The day begins with the rise of the sun, and all foolish persons can get up at that time by setting alarm clocks after consulting almanacs. But there are many persons who find a morning sleep good for them; wherefore, they prefer to lie abed, and putting clocks an hour ahead would not help. The sun fixes the time, anyway, and when it is six o'clock no man on earth can make it seven by merely saying it is. Neither can clocks and watches. Let well enough alone.

Various outlying sections report that the frogs are using the same old ragtime music this spring.

There is a need of greater patriotism being taught, not only in the American schools, but in the American homes as well. This is forcibly shown by the reluctance of the average American family to have its members take part in the national defense. Such a spirit in 1776 would have left America the vassal of a monarch. Home ties are dear and to be held sacred. The love of home is one of the rocks on which the United States finds its sure foundation—but without a government founded on principles of morality, justice and liberty the American home would be an impossibility. That is why love of country and readiness to serve one's country must always come first among the people whose government and institutions endure.

LA FOLLETTE, THE APOSTATE.

Senator Robert M. La Follette, of Wisconsin, deserves to be impeached for treason and ousted from the Senate. His speech on the war resolution was full not only of treasonable utterances, but of slander against the American people.

It was so reeking with mis-statements and intemperate in its denunciation of the United States government and in its praise of the German government as to stamp him as a traitor to his country and to warrant one in believing that his is a case where egotism has developed into insanity.

As Senator Williams said, he went even farther than the German chancellor has ever gone in condoning the butchery of neutrals, including Americans, on the seas by German submarines, declaring Germany to have been strictly within her rights when she violated all human rights and all the recognized code of international law.

La Follette is not only out of place in the Senate—he is out of place in America. Since he thinks his own country wrong and Germany right, he should take passage for Germany and apply for a place in the reichstag—alho it should be said in justice to the reichstag that no speech reported from any of its members has ever equaled in

unfairness to America the traitorous address of the Wisconsin senator.

AVISO.

The LINCOLN STATE BANK

Brother of Mrs. J. C. Bender Dies in Grand Rapids

A copy of the Grand Rapids (Michigan) Herald of March 6th was handed us last week by Colonel Bender, the well known mine operator at Nogal, in which was chronicled account of the death of A. S. Musselman, a brother of Mrs. Bender. A few extracts are reproduced from the article which occupied more than a column in the Grand Rapids paper:

Amos S. Musselman, 66 years old, died at his home on Robinson road at 8 Monday night, after his physicians since last Thursday had sought by every means known to medical science to save his life.

A type of good citizenship, zealous public servant and energetic in discharging many civic duties with which he was entrusted, Mr. Musselman was one of the commanding figures in the commercial, financial, social and civic life of Grand Rapids. Few public enterprises that had to do with the advancement of his home city were without his personal assistance, and his counsel was sought where sound judgment and unbiased consideration were needed.

As a leader in commercial activity, Mr. Musselman loomed large among his fellows in Michigan. His influence was state wide. As a financier he was counted among the most conservative and able, and as president of the Commercial Savings bank he inspired the confidence of men of influence in large financial affairs, as well as that of the public.

When he came to Grand Rapids he served as bookkeeper about two years, then formed a partnership in a wholesale grocery business with two other young men.

The firm enjoyed prosperity and five years later he bought out the interests of his partner and with William Widdicombe formed another firm. The Musselman Grocer company was later incorporated with a capital stock of \$70,000.

During the administration of Governor Pingree, Mr. Musselman was honored with the appointment as member of the board of control of Iona reformatory. In Grand Rapids his civic responsibilities were many, among these was the presidency of the Grand Rapids board of trade.

Mr. Musselman was a prominent member of Westminster Presbyterian church, in which he was an official and he was also identified prominently with the Masonic fraternity.

Fifth Sunday Meeting Program Announced, 27-29

April 27-29, 1917.
Friday evening 7:30 p. m. song services.
8:00 p. m. sermon by pastor Porter of Alamogordo.
Saturday morning.
9:30 a. m. Devotional, C. C. Merchant of Capitan.
10 a. m. The churches relation to the community life—A. N. Porter and J. H. Hicks.
11 a. m. The support the church should give its pastor—Samuel Holmes and M. C. Merchant.
2:30 p. m. Devotional—L. R. York, of Alamogordo.
3 p. m. The relation of the local church to Kingdom enterprises.—Rev. W. J. Pace and Rev. W. Jackson.
7:30 p. m. Devotional song service.

Sunday.
10 a. m. Sunday School.
11 a. m. Sermon The Church and it's Ordinances.—Missionary W. S. Humble.
7:30 p. m. Song Service.
8 p. m.—Sermon by one of the visiting ministers.

Big Carnival Coming.

The Clark Greater Shows will be in Carrizozo all next week—commencing Monday, April 23rd, and promise the very latest attractions in the carnival line. The company comes here from Alamogordo, having also recently filled an engagement in El Paso, at both places enjoying liberal patronage. Among the many features are the Big Southern Minstrel Show, Giant Electric Carouselle, Roman Theatre, Genuine South Sea Cannibal Village and Kane's Merry Minstrel Maids. The company exhibits here under the auspices of the village board of trustees, ten per cent of the proceeds going to the village of Carrizozo.

Examination For P. M.

The Civil Service Commission has announced that an examination in order to fill a vacancy of postmaster at Ancho will be held at that place May 12th. The compensation of the Ancho postmaster last year was \$413. Application blanks may be secured from the postmaster at Ancho to those desiring to take the examination.

Mare and Colts for Sale

Have mare and 1 one-year-old and 1 two-year-old colt, also light buggy which will be sold cheap. Inquire Outlook office.

Chautauqua Special to be Here Saturday Morning

The Redpath Horner Chautauqua Special train of eight cars leaves the Kansas City Union station on the morning of April 20 and will pass through Carrizozo at 9:25 o'clock on Saturday morning, staying here 10 minutes. The train is enroute to El Centro, California where the first Chautauqua program of the season on the Premier Circuit is given. On the train will be Charles F. Horner, president, and general manager of the Redpath Horner Chautauquas; J. F. Rodabaugh, secretary and Master of Transportation of the company; and most of the talent which will be engaged on the Premier Circuit. The talent includes Governor Patterson, Wm. Rainy Bennett, Brooks Fletcher, Robert P. Carson, Lou Beauchamp, lecturers The Althea Players, six young lady violinists and singers; The Metropolitan Men Singers, a quartet of national reputation who have the distinction of weighing 900 pounds are called "Half a Ton of Harmony;" the Hawaiians under the leadership of "Bill" Ellis; the forty members of the Pinafore company; the fourteen players who present "Little Women;" Walter Jenkins and Mlle. Madeleine Archinard, baritone soloist and pianist; Ada Roach, "The Sunshine Girl;" Harrison Keller and Stewart Wille, violinist and pianist; Jane Dillon of New York, reader, and Frank Ducrot, the world's greatest magician. Arrangements are being made for a short concert by some of the different companies where the special train makes a short stop.

San Patricio School Closes

Last Friday closed a very successful eight-months school at San Patricio. This school was begun by Miss Ivel Davis, who resigned a few weeks ago to accept a longer term in Otero county. Miss Lucille Lindsey finished the term.

Freemans Have Girl.

Dr. and Mrs. Carl E. Freeman who formerly resided here but who are now living on their Coyote Canyon ranch, near White Oaks, report the birth Saturday of a bouncing baby girl. The new arrival is heir No. 1 to the Freeman estate.

To Hold Dedication.

In a letter received this week by Rev. Marston, pastor of the local Methodist church, Bishop Lambreth who has charge of the New Mexico Conference, states that he has an open date for June 17th and will be in Carrizozo on that date for the purpose of holding the church dedication services.

People You Know

Mrs. Tex Loughry underwent a minor operation at her home Tuesday morning. The operation was performed by Dr. Lucas. The infant of Mr. and Mrs. W. L. Hobbs is seriously ill at the family home in Highland addition.

Mayor Henry Lutz spent the first of the week in Santa Fe.

Prof. A. B. Stemple who last Friday closed a successful term of school in district No. 2, is spending the week in Carrizozo, the guest of friends.

Born to Mr. and Mrs. O. T. Gillett a girl, Saturday morning at the Lucas hospital.

FARM SEEDS—Amber, Red Top and Orange cane seed, milo maize, feterita, millet, corn and Kafir corn seed, at Humphrey Bros.

Miss Ida Coleman passed thru Carrizozo Monday enroute to her home near Estancia. Miss Coleman has just closed a seven months term of school in district No. 31, near Capitan Gap.

Mrs. T. E. Kelley and little daughter returned last night from a months' visit to her old home in Texas.

Is Tuberculosis
Lungs with a case of tuberculosis are particularly dangerous if the sinner and those around him will expect proper care. Sputum cups or paper napkins should be used for all discharges of the nose and throat, as well as for matter coughed up from the lungs. Handkerchiefs should not be used, since it is an expensive matter to destroy them, and washing them is not safe unless the soiled handkerchief is boiled immediately after use.

The Date Palm.

No tree is more graceful and beautiful than a date palm, and the plants the Arizona university have conclusively shown are ornamental for lawns and parks. At the same time they grow an appetizing article of food. In northern Africa, the native habitat of the date palm, the fruit is a common article of daily diet.

Friendship.

A really noble friendship, which realizes the higher ideals of the revelation, must be open-eyed; friendship ought never to lose its sight.—Hamilton W. Mallie.

Good Cider.

Many persons who have orchards as any and all kinds of apples both or cider and vinegar; but if one is at all particular about "quality" of such things, all wormy and rotten apples should be fed to the hogs, or otherwise destroyed.

—The Arizona Republic
An exchange made "Can you not
fact

Block to Success.

Most people would succeed in small things if they were not troubled with great ambitions.

The True Test

Only what thou art thyself determines the value of what thou hast achieved.

Amending the Constitution.

To amend the Federal Constitution, a two-thirds vote in house and senate and ratification by three-fourths (not two-thirds) of the states is necessary. A national law, of course, supersedes state law in conflict. A federal amendment adopted by three-fourths of the states becomes the law in all the states—those voting against it in effect.

Growing Dates.

Dates are imported to the United States from the warm countries of southern Europe and Africa, but if the results of western experiments are a faithful result as the trees grown have been full of fruit, it may be expected that this country will before long grow all its own dates, according to a writer in the Scientific American.

Distance Lends Enchantment.

She—"Do you think it will be a sheet for us after we are married to settle a couple of squares away from my family?" He—"I was going to say a couple of states."

Thought Measurement.

"A man is as big as the terms in which he ordinarily thinks," remarked the wise citizen. "That is dreadful!" exclaimed Miss Cayenne. "My father is a scientist, and he is accustomed to getting his ideas with a microscope."—Washington Star.

Our Advantage.

It is not so much the being exempt from faults as the having overcome them that is an advantage to us, it being with the follies of the mind as with the weeds of a field, which, if destroyed and consumed upon the place where they grow, enrich and improve it more than if none had ever sprung there.

Overheated Air.

A rise of temperature in the surrounding air diminishes the amount of oxygen consumed and the amount of dioxide discharged. A fall of temperature has the opposite effect. In addition, the overheated air forms a hot jacket around the body which prevents the radiation of heat necessary to keep the body in a healthy condition. With a sedentary occupation a temperature of from 64 to 70 should be maintained for comfort and health.

Safeguarding the Nation's Money.

The bureau of engraving and printing, at Washington, D. C., where all paper money, postage and revenue stamps and valuable documents are printed, is one of the most carefully guarded buildings in the world. It is protected by some of the most modern electrical burglar alarms, and 24 armed night watchmen patrol the plant.—Popular Science Monthly.

"LOOK OUT FOR THE CAR"

DO YOU know of anyone
who is old enough to
read, who has not seen that
sign at a railroad crossing?

If everyone has seen it at some
time or other, then why doesn't
the railroad let the sign go
away? Why does the railroad
company continue to keep
those signs at every crossing?

Maybe you think, Mr. Merchant,
"Most everybody knows my
store, I don't have to advertise."

Your store and your goods need
more advertising than the rail-
road needs to let the people
to "Look Out for the Car."

Nothing is ever completed in the
advertising world.

The Department Stores are a
very good example—they are
continually advertising—and
they are continually doing a
good business.

If it pays to run a few ads round
about Christmas time, it cer-
tainly will pay you to run ad-
vertisements about all the time.

It's just business, that's all, to
ADVERTISE in

State Advertising Seals Being Distributed Free

The New Mexico Publicity Bureau at Santa Fe has just received a supply of 100,000 "Sunshine State" seals similar to those used in large numbers several years ago by the old state immigration bureau and which had much to do with fixing in the public mind through the country New Mexico's title to be known as "The Sunshine State." The new seal is in two colors, blue on a background of red and carries the New Mexico coat of arms and the words, "New Mexico—The Sunshine State." The seals are about the size of a half-dollar and are convenient for use on the backs of envelopes. They are intended for free distribution

NOTICE OF FORFEITURE

To A. H. Harvey, Esq.,
Carrizozo, N. M.

Under and by virtue of that certain partnership agreement, entered into by certain parties more fully stated herein, the memorandum of which recites that all parties whose names are subscribed thereto shall be equal owners in that certain Lode Mining Claim, known as and called the HONDO, said original location notice, filed and recorded as required by law, was so filed and recorded in Book A-1 of the Mining Records at Page 172, said HONDO Mining Claim is therein fully described, and same is situated in the Nogal Mining District, Lincoln County, New Mexico. That the said Memorandum of Partnership Agreement contains the following names: M. M. Duke, A. H. Harvey, H. S. Campbell, George W. Olney, Wm. Kahler Sr., E. C. Monroe, Doc Tice, A. J. Rolland, M. B. Foreman, R. L. Ransom; That said agreement was further to the effect that certain sums of money and amounts of labor were to be expended upon said Lode Mining Claim, and all of said sums as agreed upon have been expended and the labor performed, with the following exceptions, that the said A. H. Harvey has refused and neglected to pay his pro rata share as per agreement the following sum, \$61.75. And you are hereby further notified that if you fail or refuse to contribute your just share under said agreement, and continue to contribute your just share as per agreement within ninety days from the date of the last publication of this notice, as required by Section 2324 of the Revised Statutes of the United States, your interest in and to the said above described Mining Claim shall become the property of the said Partnership.

E. C. Monroe,
State of New Mexico,
County of Lincoln,
On this 6th day of April 1917 before me personally appeared E. C. Monroe, known to me to be the person who signed the above and foregoing Notice of Forfeiture and stated on his oath that he is a member of the Partnership therein described, that he has had charge of all of and now has charge of the books of the said Partnership, and that the sum of money contained in the said Notice to be the sum that is lacking payment is correct.
Henry S. Campbell, Notary Public.
Subscribed and sworn to before me this 6th Day of April 1917.
(Seal) My commission Expires March 15, 1921.

LEGAL NOTICE

LAST WILL AND TESTAMENT OF THOMAS O. LUSTER, DECEASED.
To Hannah Luster and the heirs of Thomas O. Luster deceased.

You are hereby notified that the alleged Last Will and Testament of Thomas O. Luster, late of the County of Lincoln and State of New Mexico, deceased, has been produced and read in the Probate Court of the County of Lincoln, State of New Mexico, at a regular term thereof, held on the 6th day of March, 1917, and the day of the proving of said alleged Last Will and Testament was by order of the Judge of said Court thereupon fixed for Monday, the 7th day of May, A. D. 1917, Term of said Court, at 10 o'clock in the forenoon of said day.

Given under my hand and Seal of this Court this 6th day of March, A. D. 1917.

(Seal) O. T. NYE, Probate Clerk

CORN MEAL IN DIET AS KEY TO H. C. OF L.

Is Cheap as Compared With
Other Cereals, Says
Department.

One way to reduce the cost of food for the family, say the specialists of the U. S. Department of Agriculture, is to use more corn meal, where this is low in price as compared with other cereals. Corn meal at present prices, when bought at retail stores, costs about half as much per pound as wheat flour, one-third as much as rolled oats, one-fourth as much as rolled wheat, and almost half as much as broken rice. That is, it costs much less per pound than any of the popular cereal foods, yet even the bolted corn meal usually sold, from which the germ of the grain has been removed to make the meal keep longer, has a food value which compares favorably with that of wheat flour. It does not supply quite so much protein or mineral matter for building the tissues of the body, but, on the other hand, it gives more fat and starch, pound for pound, and its value as fuel for the body is fully as high.

The old-fashioned unbolted corn meal made from the whole grain, contains more of the tissue-building material and has what many consider even a better flavor than the bolted meal and is much liked for making some forms of corn bread.

Any family in town or country can have the best of corn meal by grinding it at home in a hand gristmill. The city man can buy corn by the bushel at a grain store. He can grind it coarse or fine, to suit the taste of the family, and in quantities to last a day or a week, or longer. Many people will agree that this meal containing the germ is very palatable and compares well in this respect with that ordinarily purchased ready ground. Prices of hand mills of substantial make run from \$2.50 to \$5. A small mill can be had for as little as \$1.50, tho this probably would prove too tedious to use, except for small quantities.

Whether obtained at the retail store, brought from a mill, or ground at home, corn meal can be used in several ways to give inexpensive variety to the diet.

A dish of mush and milk has made the greater part of many a supper on the farm, and children thrive on it, tho they may rebel at cleaning the kettle and the "pudding spoon" afterwards, if the old-time methods of cooking it are followed. It is a simple dish to make—just 3½ cups of water and a teaspoon of salt to every cup of meal. The water can be put in cold and the vessel heated gradually. A double boiler is very convenient in cooking cornmeal mush, as well as all other cereals, and is easier to clean. The great secret of good mush is long slow cooking—the longer the better. A fireless cooker, in which the cooking can go on all day or all night, is very useful for this purpose.

For "quick action" in getting breakfast in the city flat, the corn meal and salt may be put in the double boiler, mixed with a little cold water, and then hot water may be added up to the required amount. If clean hot

water is to be had from a spigot, a good corn-meal mush can be made in three-quarters of an hour. But corn meal can hardly be cooked properly in less time. Corn-meal mush can be used in many other ways besides as a breakfast or supper dish. Fried mush, mush with fruit, and mush with cheese are in the list of recipes. Fish cakes with corn meal are good, and corn meal and meat of different kinds may be cooked together, "scrapple" being a favorite in some parts of the country.

Corn bread and corn griddle cakes are made in many ways, all good. Bread may be made of wheat flour and corn meal, half-and-half. Puddings and even doughnuts and cakes are made with corn meal as the basis.

Recipes for using corn meal in all these ways and others may be had from the United States Department of Agriculture upon request.

Brightening Up on Flag Etiquette.

If you are not up in flag etiquette here are the rules: Raise the flag at sunrise or after, never before.

Lower the flag at sunset.

When draping the flag against the side of the room or building, place the blue field always to the north or east.

Bunting should be draped or hung with the red at the top, followed by the white and the blue in accordance with the heraldic colors of the flag.

It is a mark of disrespect to allow the flag to fly thru-out the night.

A flag flown upside down is a signal of distress.

The Greatest Weather Prophet.

Rev. Irl R. Hicks, of St. Louis, the greatest and most successful of weather forecasters, died on October 12, 1916, after a short illness. Before he took sick he had entirely completed his work on the great Hicks Almanac for 1917 and had read the proofs of all his weather forecasts a year in advance. This noted almanac is now ready and is a fine specimen of almanac making. Prof. Hicks' portrait was painted by a leading artist of St. Louis, in May, and this portrait printed in colors, makes the frontispiece of the 1917 almanac. The 1917 Almanac is 35 cents by mail. Prof. Hicks' monthly magazine, Word and Works, will also be continued by the publishers. Word and Works one year with the Hicks' Almanac is \$1. Send 5c for a sample copy of Word and Works. Address Word and Works Publishing Co., 3401, Franklin Avenue, St. Louis, Mo.

State Will Ask for Higher Bean Tariff.

According to a dispatch from Santa Fe, New Mexico bean growers will ask Congress for more of a protective tariff, in view of the fact that millions of dollars' worth of beans are being shipped into this country from Japan and China in competition with New Mexico markets. It is stated that the Chinese can raise beans at 1 cent a pound and still make a profit,

Prepare! Prepare!

—We are ready;
are you?

IT behooves us during these times when preparedness for protection from foes is uppermost in our minds, to not forget that it is equally as important for us to PREPARE ourselves with needful merchandise for the coming increase which is about to come.

Goods Considered High Today Will Appear Cheap in Time to Come

Now is the opportune time to lay in your supply. Our stock are large; assortments ample. In trading with us you are always in safe hands. Our reputation of 35 years of honest merchandising in Lincoln county stamps our store indelibly with a character to be proud of.

Efficient Service; Courteous Treatment Always---ALL ways.

(Rev. Marston, Pastor.)

The Juniors will have charge of the service next Sunday morning.

Other services as usual.

The committee appointed to collect the church debt has been successful. The church is now free of debt.

Met a Man.

The editor met a man the other day who declared in all seriousness that he liked the Outlook. Thought we'd mention it to you—maybe you will want to stand as well on our subscription books as he does. Truth to tell we'd like a lot more new subscriptions; they're coming in right along but you know the raw cash is good to look upon these days and there's no denying it, the Outlook is a mighty good little newspaper. The cost to you is \$2.00 a year. Bring it in or mail it in. Here's the address if you can use it: Carrizozo Outlook, Carrizozo, N. M.

Safety deposit boxes for rent at Lincoln State bank.

NO. 10,963

Treasury Department OFFICE OF COMPTROLLER OF THE CURRENCY

Washington, D. C., March 23, 1917.

WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that

"THE FIRST NATIONAL BANK OF CARRIZOZO"

in the Village of Carrizozo, in the County of Lincoln and State of New Mexico, has complied with all the provisions of the Statutes of the United States required to be complied with before an association shall be authorized to commence the business of banking.

NOW THEREFORE I, John Skelton Williams, Comptroller of the Currency, do hereby certify that "THE FIRST NATIONAL BANK OF CARRIZOZO" in the Village of Carrizozo, in the County of Lincoln and State of New Mexico, is authorized to commence the business of banking as provided in Section Fifty-one hundred and sixty-nine of the Revised Statutes of the United States.

IN TESTIMONY WHEREOF witness my hand and Seal of office this Twenty third day of March, 1917.

(Signed) JNO. SKELTON WILLIAMS,

(SEAL)

Comptroller of the Currency.
