

PEER REVIEW

The Co-Editors and editorial team of the *Western Journal of Orthopaedics (WJO, formerly The University of New Mexico Orthopaedics Research Journal)* express sincere thanks to our peer reviewers, whose volunteered time and effort enhance the Journal's scientific quality and relevance of content. As a team, we continue to move forward in our path toward official indexing in PubMed.

Instructions for Peer Reviewers

WJO is an annual biomedical research journal that focuses on orthopaedic-related surgery and engineering. *WJO* involves a two-step, double-blinded review process to ensure high quality of content: 1) review the submission and 2) review the authors' responses to your suggestions.

We provide you with a PDF of the submission, a Response Form, and an assessment guideline. We ask that you return your initial review within **2 weeks** and include:

1. Your overall assessment of the submission's strengths and weaknesses,
2. Specific concerns by line numbers for authors to address,
3. Publication recommendation to the Co-Editors.

You will not be asked to review more than two submissions for a given volume. We understand that your time is limited and valuable. If the request is not possible, or if you believe that the content does not align with your expertise, please let us know immediately. A prompt review helps encourage authors to submit future work and allows our team to meet printing and publication deadlines.
