VOLUME 4. ALBUQUERQUE, NEW MEXICO, SATURDAY, JUNE 2, 1894. NUMBER 30.

YOUNG MEN.

Delegates to the Jubilee Convention Arriving in London.

Will the Lord Chief Justice of England Resign?

Mr. Frances Willard is Nick and Will Visit England.

WALT WHITMAN'S FRIENDS.

London May 31.—The delegates to the international jubilee convention of Young Men's Christian associations are rounding up here to-day preparatory to the opening of the convention to-morrow morning. Last night the delegates gave a conversation at the Cannon Street Hotel, at which the delegates from England and Scotland were present. George Willard, the venerable founder of the Y. M. C. A., was the special guest of honor. Distinguished attentions are being paid the local committee to Hon. John A. M. Baker, Rev. Dr. Theodore L. Cuy, F. H. Revell, J. E. Deffenbaugh and others of the American delegates. The delegates, up to noon to-day, include 2,000 delegates from Germany, 150 from Sweden, 70 from Holland, 100 from France, from the United States, and scattered contingents from the Australian colonies and other parts. The International committee has decided to issue a jubilee medal in honor of the convention. An immense marquee is being erected to shelter the delegates from the sun, and the local committee will serve them daily during the noon recesses. Opening service to-morrow will take place in Westminster Abbey, and the delegates are expected to be present in large numbers. The local committee will deliver the address to the delegates.

Lord Coleridge's Creditors.

London, May 31.—Rumors were extensively circulated to-day that the Right Hon. Lord Coleridge, lord chief justice of England, had tendered his resignation to Lord Rosebery. The report also took the form that the eminent jurist had intimated to a member of the cabinet that he had reluctantly arrived at the conclusion that the long tenure of office to his country was practically ended, and that he felt it incumbent upon him to resign. The possibility of his resignation has been the subject of much speculation, but no confirmation or denial of the report could be obtained. It is admitted, however, that for nearly a year past the lord chief justice has been confined to his bed with a serious ailment, and that for the past few days his condition has been so serious that his medical attendant, Dr. Cavendish Hale, has considered it necessary to call William Broadbent, eminent specialist, into daily consultation. It was also stated that although the condition was in a measure improved, it will be impossible, even under the most favorable circumstances, for the lord chief justice to leave his bed for several weeks. These developments have created a sensation, as the fact of Lord Coleridge's illness has been sedulously kept from the public.

Miss Willard Sick.

Chicago, May 31.—A private cable dispatch states that Miss Frances Willard, president of the World's and National Women's Christian Temperance Union, has been abroad for nearly a year in precarious condition of health, will call this country on the steamship Tecon on June 13. She will therefore be able to take part in the great prohibition conference at Staten Island, New York, next week. The dispatch says that although much improved in health, she is still very frail and requires constant attention.

A Royal Tournament.

London, May 31.—Fifteen hundred men with 200 guns and 600 horses are to-day in the opening of the South Royal Military Tournament at Aldershot. The Prince of Wales and a party of friends was present at the opening exercises.

Walt Whitman's Friends.

Philadelphia, May 31.—A number of admirers of the late Walt Whitman, the eminent poet, gathered to-day for the purpose of organizing an international Walt Whitman society. D. G. Burton will be selected as the president. The objects of the organization are to establish centers in different parts of the world among the admirers of Whitman, and to publish essays and newspapers devoted to an elucidation of his philosophy of life. The organization will be incorporated.

Monster Meeting of World's Delegates in London.

Trial of a Wholesale Poisoner in Progress.

Republican Congressional Convention in Session in Kentucky.

Poland International Exposition.

London, June 1.—Like a sudden burst of a thousand trumpets the grand old strains of the Doxology issued from within the venerable walls of Westminster Abbey this morning. The Lord Bishop of London had just concluded a stirring discourse. There was a moment of stillness. Then the great organ that has pealed forth triumph at the coronation of monarchs, and wailed requiems over the dead, sounded the opening notes of that hymn that has been sung by the people of every race and of every tongue. Instantly the vast audience, representing the nations of the earth, rose to its feet, and the memorable words, "Praise God from Whom all Blessings Flow," rolled forth like a paean of triumph and glory. They were taken up by the thousands who, unable to gain admission even to the cloisters, had been content to remain in the spacious Abbey yard. The music swelled into the air, arresting the progress of the pedestrians on the outside of the big gates and was carried across to the new palace yard, causing the members of parliament to stop and listen. As the strains died away the resonant voice of the bishop as he pronounced the benediction came through the great doors to the open air. And thus was the opening of the International Conference of Young Men's Christian Association declared an accomplished fact.

King's Place Claims.

The Caledonia mine, at Hillsboro, owned by Messrs. Scott Weaver, Howell and McIntosh, is showing up beautifully, and promises to become one of the best producing properties in the west. Mr. Howell came up to the city this morning bringing with him some samples of ore from a vein just cut in a new tunnel which the company are now driving and which are as fine looking specimens of sulphides as we have ever looked at. The vein is at present about three feet and widening all the time, and the ore is also improving in quality, though we should say from the samples shown us by Mr. Saint that it is already good enough.

LA JARA AND BEAR.

Miners of These Two Canons in Cochiti District Coming to the Front. Thanks to the persistency with which the subject of communication and transportation facilities for the Cochiti district has been agitated, hardly a single portion of the district now remains unprovided for. The latest move is that for La Jara and Bear canons. A road can and will be built from Bernalillo to Bear canon at a very moderate expense. A natural thoroughfare exists and the distance from Bernalillo to the grand ledge of the La Jara will not exceed eighteen miles. A semi-weekly stage and freight outfit has been put on by the miners of Bear and La Jara and until the completion of the new road mail, passengers and freight will go via Wallace. A petition has been forwarded to Washington for a postoffice near Bear Springs. The camp at this point now contains about a hundred prospectors, mostly engaged in assessment work.

Considerable development work has been contracted for on the grand ledge and a custom and development tunnel 3000 feet long will crosscut and develop the grand and parallel ledges. The recent survey of the north line of the Santo Domingo reservation left but few claims within the Indian line.

Kept City is almost deserted and the Peralta canon people are moving further up the canon to reach water. In the vicinity of La Jara peak nearly every claim located has assessment work completed and many of the claims show up finely considering the slight depth reached. The northern portion of the camp will undoubtedly come out all right and as soon as good mineral is secured reduction works will be provided. The big tunnel scheme will prove most beneficial to the entire La Jara and Bear district as it will accurately determine the extent and value of the ledge matter.

THE FLOODS!

Colorado Towns Badly Damaged by Incessant Rains.

Senator Hill's Resolution Favoring Open Committee Meetings.

Kelly's Army of Industrial Sail South from St. Louis.

ST. LOUIS CARPENTERS STRIKE.

Boulder, Colo., June 1.—The flood here washed away dwellings, and the towns of Salina and Creman are destroyed. All county and railroad bridges on Boulder creek and in the city are destroyed. Communication with the south side of the creek is destroyed. The water is abating. The wildest excitement prevailed yesterday, and people ran in the strong rain to Lover's Hill, fearing the town would be destroyed. The estimated loss is a half million.

Washington, June 1.—The vice president laid before the senate to-day Hill's resolution offered yesterday for open sessions of the select committee, which went over till to-morrow. The same course was taken with Dolph's resolution relating to arrest for contempt of Eliza Edwards. The tariff bill was laid before the senate, and the sugar schedule being the pending question, Manderson proceeded to speak upon it.

Springfield, Ill., June 1.—The papers in the appeals to the supreme court from the decisions of Judges Bookwalter, of Danville, and Creighton, of this city, in the now celebrated apportionment cases, will be finally completed to-day, and will be ready for presentation on the assembling of the court. Upon the view taken by this tribunal depends the question whether a special session of the legislature will be necessary in order that the state may be again re-districted before the November elections.

London, June 1.—The American war vessel Chicago left Gravesend to-day for Cherbourg and Antwerp, where it will remain two weeks. The vessels in the harbor saluted as the Chicago steamed out. The officers are delighted with the hearty welcome that has been extended to them in London.

St. Louis, June 1.—The Kelly army started down the river for Cairo this morning. About two hundred under command of Col. Speed, deserted the navy and started to continue to Washington without Kelly.

Chicago, June 1.—It is understood that Justice Harlan overruled the motion to certify the record in the appeal from Judge Jenkins' decision to-day and that argument is set for to-morrow.

Later.—The court this afternoon decided to hear oral arguments in the case Monday, June 11, instead of next Monday.

Washington, June 1.—The house to-day passed the senate bill to extend to the nations with which the United States may have treaties respecting the fur seal provisions of the law of last March, to give effect to the findings of the Paris tribunal of arbitration. Representative Strauss offered a joint resolution to abolish the extradition treaty with Russia, which was referred to the committee on foreign affairs. The house proceeded to consider the bank tax bill.

Denver, June 1.—On the governor's return from Cripple Creek his first official act will be to issue an order to the militia to assemble at the armory to-morrow night prepared to go to Cripple Creek.

WHY SUFFER WITH Sick and Nervous HEADACHE?

You may be easily and quickly cured by taking

AYER'S PILLS

"I have been a victim of terrible headaches, and have never found anything to relieve them so quickly as Ayer's Pills. Since I began taking this medicine, the attacks have become less and less frequent, until, at present, months have passed since I have had one."—C. F. NEWMAN, Dug Spur, Va.

"Having used Ayer's Pills with great success for dyspepsia, from which I suffered for years, I resolved never to be without them in my household. They are indeed effective."—Mrs. SALLIE MORRIS, 125 Willow St., Philadelphia, Pa.

"I always use Ayer's Pills, and think them excellent."—Mrs. G. P. WATROUS, Jackson, Fla.

Ayer's Pills

Received Highest Awards AT THE WORLD'S FAIR

COCHITI CANONS.

Items clipped from the last issue of the Cochiti Call.

Beautiful specimens of free gold have been taken from the Lone Star the past week.

A number of workmen are busy getting out timber for the new steam mill at Allerton.

Lumber was moved up to the Crown Point mine Thursday for the erection of a bunk house.

A new town is soon to be laid out at the mouth of Cochiti and Medio Dia canons near the Mexican village of Canada.

Eagle has already assumed sufficient metropolitan size to require a city government and her inhabitants should proceed at once to incorporate the town.

Cochiti is now on speaking terms with the outside world. The telephone line is now completed and in operation from Eagle and Allerton to Santa Fe and Cerrillos.

Claim jumping is becoming very common and as a result the atmosphere around the head of Calla, Pine and Medio Dia is somewhat hazy with profanity. Trouble is looked for.

Andy Horn's stages left Wallace last Tuesday morning with twenty-two passengers bound for Cochiti. The same day the Santa Fe and Cerrillos stages arrived with eight more.

So many new towns are springing up in the district that it is impossible for the Call man to keep track of them all. The latest reported to these headquarters is Bear Springs at the mouth of Bear canon.

Warner A. Root, editorial correspondent of the Daily Mining Record of Denver, has been looking over Cochiti this week with a view of giving it a write-up in that enterprising journal. From Mr. Root's conversation we shall expect a good send-off, as he seems highly pleased with the outlook.

Cochiti is a poor man's camp. Five hundred dollars would make any one of the best prospects in the mineral belt a shipping mine. Take for instance those are shipping—the Lone Star, Crown Point, Iron King and Last Chance—and not a one of them are yet below grass roots, and some of them have are running into the hundreds of dollars per ton ten feet above grass roots in the ledges that crop out on the surface. About all the money that is required to make a good producing mine in Cochiti is a sufficient amount to purchase tools, powder, etc., for mining, a grab stake and then to get your ore to the smelter. There is no poor man's mining camp on the face of the earth if Cochiti is not one.

Yesterday V. P. Edie, for the F. J. Primrose wood company, purchased from M. T. Moriarty his spring wood clip of 12,000 pounds. The wood will arrive this afternoon, being received by Pedro Sandoval for Mr. Edie, who went to Socorro this morning to look after a big clip there. He will return home this evening.

LEVI STRAUSS & CO. COPPER RIVETED OVERALLS AND SPRING BOTTOM PANTS EVERY PAIR GUARANTEED. ADDRESS SAN FRANCISCO CAL.

DR. PHILIP Cream Skin Powder. The only Pure Cream of Talc Powder.—No Ammonia; No Alum. Used in Millions of Homes—40 Years the Standard.

ALBUQUERQUE, — JUNE 2, 1904.

The Bland boom appears to be quite healthy.

Work on a large scale is soon to be resumed at San Pedro.

A fire isn't so very much worse than house cleaning, after all.

The atmosphere in Kentucky is steadily growing warmer for Willie.

The Kansas railroads have decided to make no special rates for convention delegates this year.

Give us free silver and protection to American industry, and peace and prosperity will follow of their own accord.

There is one very rare thing about Bland—he always means what he says. Very rare quality, that is, among politicians.

The Cleveland administration now holds three of a kind—the Carnegie scandal, the sugar scandal and the bribery scandal.

Herre says he didn't intend to bite anybody; he simply wanted to make a little money by finding out how much a senator was worth.

The Optic covered the hanging of Herman Maestas, at Las Vegas yesterday afternoon, in good eastern style, giving full and complete proceedings.

Those actresses who are pictured in the Illustrated American are very beautiful, but in some cases the development is rather too much like that of a Jersey cow.

The Prendergast farce is still going on in Chicago. We punish our murderers in New Mexico. Probably that's why some of the Chicago papers think we are not fit for statehood.

The El Paso council has passed an ordinance to "prohibit women from riding astride." The Texas politicians want to do all the straddling themselves—and they are experts in that line.

Les's Uncle Samuel playing second fiddle to John Bull in that Riedel matter—Democrat.

Why, of course, just as he does in the silver matter, and every other matter managed by this model democratic administration. There's nothing proper from a Cleveland standpoint unless it's English, don't you know.

All Colorado is rejoicing because Tabor has succeeded in getting out of his financial troubles, and we can cheerfully say amen to it. During the few weeks that he was a senator of the United States, Tabor was a trifle long on night shirts, but he is a pretty good old fellow for all that, and always stands up for his own town.

It is given out that the marriage of Albert Sears, grand-nephew of the late Governor James Lawrence Orr, of South Carolina, and cousin of the late Zachariah Chandler, of Michigan, to Miss Annie Taylor, one of the season's belles, will be celebrated during the first week of September. The engagement was announced a few weeks since.

The Chicago Herald—the leading democratic paper of Illinois—in enumerating the issues to be before the country this fall, says: "Chief among these is the disgraceful conduct of a democratic congress." No doubt that is an important issue, but it is not a new one. It forces itself upon the country every time we have a democratic congress.

The triple screw cruiser Columbia is the swiftest war vessel afloat in the world. On her acceptance trial she made 22.8 knots, while according to the reports she has just made 24 knots with a green crew without selected fuel and without special preparation. Had the contractors done as well with her they would have earned another \$200,000 in addition to the premium they did make.

The penitentes of New Mexico have been photographed for the first time and from this photograph a drawing has been made which will appear in Harper's Weekly for May 27th. The same number will contain a three-page article appropriate to the occasion. The article will be entitled "The Soldier Dead," and views of the tombs of great generals of the northern army will be among its illustrations.

The El Paso city council has passed another ordinance for regulating women's wearing apparel. This one declares it "unlawful for any female person to wear the garment commonly called a bifurcated skirt." A book of revised ordinances will soon be a necessary article in every El Paso lady's wardrobe, or otherwise she will not know what sort of petticoat or chemise she may lawfully put on. And pray, what is the fool killer down there, all this time!

A Las Cruces writer says the commencement at "the Agricultural college next week will be the first commencement exercises ever held at a public institution in New Mexico." Where does that put the Albuquerque high school, which has had regular commencement exercises every summer for the last four years, and which is as much a "college," in fact, as the institution at Las Cruces? Our neighbors down the river are doing a grand work, but they must not lose sight of the fact that quite a considerable fraction of New Mexico lies beyond the limits of Dona Ana county.

As long as they were of the outs the democrats were loud in their protestations of devotion to the cause of civil service reform, but now that they are in they can't say any merit in the movement, and a Washington dispatch this afternoon says, "before congress adjourns the house democrats will endeavor to complete their work of breaking down civil service reform." Of course they will. The only merit in civil service reform, from a democratic standpoint, is that it keeps democrats in office under a republican administration, but when it begins to work the other way there is no good in it at all.

THREE-LIVING TESTER.

In an able review of the present situation in the United States, the Los Angeles Bulletin uses the following strong and truthful language:

"Relief from the present condition must come in some way, either through forcible revolution, or through a change in policies on the lines of conservative progress. It has been predicted that Mr. Cleveland would be the last president of the United States. While the prediction was a foolish one, we have little doubt that he will be the last to advocate and pursue policies that brought upon the country its present unenviable situation. He has given it an 'object lesson' that cannot be otherwise than profitable in the acquisition of wisdom, for it is impossible to believe that after the experiences the country has had it will repeat its mistakes."

"Three things at least are necessary to be done, and done quickly, in order to reverse the wheels of retrogression. They are an enlargement of the money volume, protection to all our substantial industries that they may be diversified and enlarged, and much greater restriction of foreign immigration."

"A silver currency law that allows all holders of bullion to go to the mint and get it coined and to put the coin into circulation the best they can, will enlarge the volume of the circulating medium, possibly to a sufficient extent, and until this is tested it is not necessary to discuss any other measure looking to the enlargement of the volume."

"Our industries can only be diversified and enlarged through the imposition of such duties as will secure our own markets to our own people to the extent of supplying our own wants as to everything practicable for us to produce. Such a policy will be a generally against depletion of our monetary resources to pay adverse balances of trade; it will inevitably assure balance in our favor because we produce much that European countries must have, and thereby enlarge our money volume. Silver currency will re-open our mines and protective duties will revive our manufacturing establishments, and both together will widen the basis of labor, and give employment to the unemployed. Sufficiency of money will stimulate enterprises, which, in turn, will give opportunity for the able to work."

"Restriction of immigration will prevent those coming here when we do not want, and whom we do not need. It will relieve our working population from competition, and protect the country against bomb throwers, dynamiters, incendiaries and anarchists."

"If congress had the good sense to put these policies into effective laws, relief from the present distressed condition would not be long delayed, and there would be no marching of unemployed men upon the capital, to petition for a redress of grievances, and no trembling from fear of a resort to violence."

We believe a very large majority of the American people have been for some years past earnestly in favor of all three of the propositions laid down in the foregoing extract, but through the machinations and jugglery of the money power the will of the people has been defeated, and representatives of both parties have been made to vote contrary to the interests and desires of the men who elected them. But we are rapidly nearing the point at which forbearance in such things will cease to be a virtue, and the masses of the country will assert their sovereignty."

ACQUITTAL.

The Los Angeles Times says, "In the window of a prominent Los Angeles store there is a sign which reads: 'We have stopped all advertising; the money thus saved will be given to our customers in prices.'"

"It is not often nowadays that a journal published in an intelligent community finds it necessary to remind its business readers of the value of advertising. The time has gone by when it was necessary to urge intelligent men to advertise. The question among such people nowadays is not: Shall we advertise? but how, when and where shall we advertise? The business man of to-day who questions the efficacy and desirability of advertising, in a general way, is considered as great a curiosity as the man probably was who first brought his business prominently before the attention of the people by means of a public crier, or by notices posted on the walls, which event happened some ten thousand years ago, more or less."

The man who undertakes to do business in this age of the world without advertising is twin brother to the one who tried to teach his horse to live with a beating—as soon as he "got him learnt he died."

THE CHIEF OF POVERTY.

The millionaires were received with open arms by the gold bug element of the country and allowed not only to walk on the grass, but anywhere they pleased, and the fatted calf was killed for them. Coxy and his men entered Washington on soles feet, with a demand for work for the millions of unemployed who are suffering for the necessities of life. Instead of being received with open arms they are met by the police and landed in the calaboose for daring to demand their rights. Mark our word—if the condition of affairs is not changed in the near future, the millions who have begged the whole works will wish they never had been born.—Durango Herald.

THE CHAMBER NITROBOM.

The democrats of the senate have most vociferously protested that they courted "fullest and freest investigation of the charges of bribery and corruption in connection with the sugar tariff," but when they had an opportunity to show that they were in earnest in the matter, their actions gave the lie to their words. The committee appointed to investigate the charges was composed of five members, Messrs Aldrich and Davis, republicans, Messrs Gray and Lindsay, democrats, and Mr. Allen, populist, and when they met for work, despite the protest of the two republicans, the two democrats and

their populist assistant decided to conduct the investigation in secret session, and thereupon the two republicans withdrew from all responsibility for the outcome of the alleged investigation. While the democratic senators have expressed their anxiety to clear themselves of the popular suspicion that the sugar trust is in control of the situation, the action of the democratic-populist majority of the investigators to sit behind closed doors, exposes their insincerity. The apology which Messrs Gray, Lindsay and Allen made when they decided on star chamber methods, was that the testimony taken would be published simultaneously with the report. The notes taken of the testimony by the stenographers will, it is notorious in Washington, be subject to the revision of the majority of the committee in secret session. The true testimony may never reach the public, except as it may be given out to the newspapers by the witnesses examined.

The hand of the whitewasher is already to be discerned; and the hope widely indulged in, that the scandalous operations which marked the long delay on the Wilson bill in the Finance committee, and the big boom in sugar securities in Wall street would be exposed, must be deferred. A partial report has been submitted, charging Blutz with having attempted to corrupt Senators Hutton and Kyle, and that probably is the last will ever be released from this so-called investigation, which was undertaken by the senate with such a grand flourish.

UNWORTHY OF CONFIDENCE.

It is almost certain that the executive department would have whitewashed the Carnegie company if it had had the matter solely within its control. But congress has a voice in the matter, and therefore an investigation will be made which will show to what extent the government has been swindled. No confidence is to be placed in the administration of Mr. Cleveland, which has been shown in so many ways to be eaten through with corruption.—Denver Republican.

It is altogether certain that Cleveland did everything he could to whitewash Carnegie. He tried to have the matter passed over with a nominal fine, and in this case there is no chance for him to charge the responsibility upon any of his "swindled partners," for he remitted the lawful fine which had been imposed by his own secretary of the navy, and did everything he could to hush the matter up. And Carnegie's interview, which resulted in his whitewashing, was not held with any subordinate, but with the staffed hunting himself, in his own private office.

ORGANIZED WANT.

Representatives Davis and Taubeneck have been making a careful estimate of the different bands of Coxyites on their way to Washington and claim there are 5,000 tramping or riding on boats and borrowed trains toward the capital.

Mr. Davis does not believe in the wisdom or efficacy of the Coxy movement and has written a magazine article in which he points out that the movement is a result of currency contraction and summarizes it as "organized want."

If the government should yield to Coxy's demands, other armies would march on the capital with other demands and the result would be government by the multitude. The remedy for the present state of business, he finds in the ballot, which he defines as a "recorded opinion."

"No Coxyites have come from Kansas," he said, in a conversation on the subject, "because Kansas has expressed herself properly by her elections, and Nebraska, which is largely a populist state, has contributed not more than seventy-five men to the movement."

By imprisoning the leaders, he says, the authorities have made a swan out of a goose. The chief danger from the movement, he thinks, will develop next fall when the weather becomes too cold for the men to camp out doors. Then he looks for trouble.

It is said that the older Cleveland baby is a little "off" mentally. Her father's own child.

There is one thing to be said to the credit of the democratic party: If it did sell out to the sugar trust for \$500,000, it didn't go back on its bargain.

SAN JONES says he "believes in Old Cleveland." Yes, and San believes in a personal devil, too, but we don't see how his belief, in either case, helps things any.

JEAN forgot to have New Mexico admitted last week. That's the first week for a long time that he has neglected this important matter. Probably because he was so busy with that canal.

EL PASO has just organized a mining exchange, and it has a fair prospect of accomplishing much good for the town. Preparations are being made for a similar organization here. There is certainly a broader field in that line at Albuquerque than at El Paso.

CLEVELAND wants Massachusetts to build a dam for him at Gables. The Denver Sun suggests that the west would like to furnish the material. Don't know about that, Mr. Sun; there are lots of people in the west who don't consider Cleveland worth that much.

All Free Dr. King's New Discovery know its value, and those who have not, have now the opportunity to try it free. Call on the advertised Druggist and get a trial bottle free. Send your name and address to H. E. Bucklen & Co., Chicago, and get a sample box of Dr. King's New Life Pills free, as well as a copy of Guide to Health and Household Instructor, free. All of which is guaranteed to do you good and cost you nothing. Dr. Thos. H. Burgess & Son's drug store.

BURGESS' ANKER-PAIN-EXPELLER.

The best cure in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, sores, and all skin eruptions, and positively cures piles, or no pay returned. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Dr. Thos. H. Burgess & Son, druggists.

WILLIAMS' WASHINGTON.

A Day in the growing Lumber Town and Railroad Station.

WILLIAMS May 24.

There is trouble brewing. Williams is up in arms over the proposed building of a court house at Flagstaff, and the citizens have petitioned Judge Hawkins, at Prescott, to grant an injunction restraining the county board of supervisors from building the much-needed structure. The matter will come up on Monday, when Judge Hawkins is expected to act wisely and well. Judging by the feeling shown last night, the Williamses mean business and propose to be on hand to show cause. There is much to be told in this connection, but THE CITIZEN will keep its "hands off." One good move the Williams people have in sight is the formation of a board of trade, and such an organization will bring order out of chaos.

THE CITIZEN advocates harmony and unity, hoping in the strife over the court house question all will come out well for both towns.

Williams keeps on growing, new houses being in the regular order of business all the time.

ABOUT TROUBLE.

Max Sulzman, the general merchant, is on the coast.

President Brown, of the Saginaw Lumber company, who is in Chicago, is expected home June 1. Traveling salesman Stanton is in California.

Agent Richardson will return in a few days, relieving Mr. Fink, the chief, who goes to Hollywood to take charge of the Keweenaw office during the latter's absence on the coast.

André Smith and Mr. Vezeth, of the Harvey, were here today.

Frank Merrill and Hon. Fred R. Nellis went to Flagstaff this morning to gather notes of value in the court house question, from their point of view.

W. W. Strohm, formerly of Shelbyville, Mich., has invested in the Saginaw company, and is now treasurer, and B. E. Saeedwood, bookkeeper, the latter succeeding Col. Burrows. All are able gentlemen and will continue to make it agreeable to the trade supplied by this company.

Car Inspector Jas. A. Johnson has returned, and now confines his time to business and justice matters.

The elder Mr. Phelan expects to go to Albuquerque shortly.

M. D. Lattin left for account of the Francis Mining company, to look into the mines they have opened forty-five miles northeast.

IMPROVEMENTS.

C. E. Boyce has moved the home restaurant building from Second street to Third and Railroad. His former store building on the plaza was moved to Second and Railroad, and will be filled up by Joe Boyles. A \$500 bar is en route for Boyles' new quarters.

Twenty odd men under the Lantry's are adding ten feet of stone wall to the reservoir. This addition will increase the volume of water from twenty to forty million gallons. The work is being done for the Atlantic & Pacific.

A conveyer has been introduced by the Saginaw company, which is intended to convey chips and sawdust either to the furnace or pile in the yards, at the will of the engineer. An addition to the box factory will be made. California orders are large and business is increasing generally.

A M. Conrad, the bottler of sodas and sarsaparilla, will move into his new building, nearly finished.

Mrs. Susie Taber has painted and renovated the Williams lodging house.

MICHAELIANOS.

Drake & Co., furniture dealers, have sold out to Arcy & Hall. Mr. Arcy is the school principal and Mr. Hall is a railroad.

Purchasers of suits sold by commercial tourists are kicking and the kick is echoed all along the line. A word to the wise is sufficient. It is reported that Ruffhead & McTary will take a lease of the Nellis building.

Mike Clancy is considered a great dancer and always draws a crowd.

Editor Michel will get out the News alone for several weeks, Lattin being at the mines. Michael has increased his jobbing facilities.

Soldier Pot will observe Decoration day, committees being appointed last night. The post numbers fifteen.

Reports from the gold district above mentioned are fitting.

Some thirty of the Coxy contingent are at this place. They will move on to Flagstaff, Major Baker being ahead as recruiting officer and collector of funds and food.

The William Cornet band produced the Rio Grande march in great style at the last rehearsal. The following letter will explain itself:

WILLIAMS, May 23.

Thos. Hughes, Esq., Pub. Albuquerque CITIZEN.

Dear Sir:—Appreciating the kindly notices made in your travelling correspondent in his story from Williams, especially as in regard to myself and our concert band I have composed the "Rio Grande" march and dedicated the same to the Albuquerque CITIZEN as a compliment to your publication. At the same time I have prepared parts to be handed to the leader of the First Regiment band of your city. I just the composition will meet with your approbation and hope to bring the Williams cornet band to your city during the fr season.

Respectfully, Y. ESCOBAR, Leader.

KNIGHTS OF PYTHIAS.

Williams have been selected as the place of holding the session of the grand lodge in 1905—spring May—suggests a item or two concerning the order here.

are named as incorporators in the articles filed with the county recorder. The name of the association is the "Williams Opera House company." The capital stock is \$4,000, shares, \$50 each. This association is composed of members of the order who have closed negotiations with Manager Patton for the purchase of the opera house for \$4,000.

Grand Canon lodge No. 14 was organized January 27, 1892, with 33 members. Dr. W. M. Johnston was the first representative to the grand lodge. T. A. Fleming, F. R. Nellis, K. C. Thorp, Jas. C. Phelan, C. B. Winnie, G. McCully, J. F. Hennessy, L. L. Ferrall were the officers chosen at the initial meeting. Dr. Johnston, P. C. In July of the same year Walsh's hall was vacated and quarters secured in Patton's opera house annex. The past chancellors are Dr. W. M. Johnston, L. L. Ferrall, J. R. Nellis, Wm. Chollar. Present officers: W. J. Haynes, C. C. W. A. Ruffhead, V. C. J. S. Robinson, M. W. E. G. Dubois, P. J. W. M. Johnston, M. R. C. E. Boyce, M. A. M. F. Shelly, I. G. W. Hayward, O. G. W. M. Johnston and L. L. Ferrall, representatives to the grand lodge whose session closed recently at Phoenix. The membership is 65. A number of grand balls have been given, the last by the Pythian sisters on the 16th inst., the fair sex being about to form an auxiliary.

BANQUET AND COACHING PARTY.

The Saginaw Lumber company have arranged a banquet at the Harvey house on the evening of June 1, of which a number of invited guests will partake. A most souvenir card of invitation was issued about two months ago over the signature of A. J. Stanton, travelling salesman of the Saginaw Lumber Co. The program is the banquet, and on the following day a party consisting of the gentlemen named below will leave on coaches for the grand canyon of the Colorado to be absent a week in that wonderful region. All these are expected to bring guns and ammunition. The banquet, according to the invitation card, is to be a complimentary Log Cabin reception. Members of the coaching party: R. C. Woodruff, F. A. Hoody, Prescott, C. A. Cray, T. R. Gabel, John Denton, H. S. Van Slyke, Albuquerque; Dr. W. M. Johnston, C. R. Perry, Williams; E. B. Stanton, Frank Devine, Dr. Sawyer, P. Knoffel, Riverside, Cal.; Senator E. C. Seymour, San Bernardino, Cal.; A. M. Anthony, Frank Simpson, C. A. Stilson, Chas. Anderson, Henry Daddie, Chas. Jenkins, Los Angeles; A. H. Cargill, Brookhurst, Cal.; W. B. Derby, Orange, Cal.; E. E. Hall, Vanderbilt, Cal. THE CITIZEN correspondent acknowledges the receipt of an invitation to the spread at the Harvey, which will be a regal affair, the menu being printed on thin sheets of wood prepared at the mills of the Saginaw company.

L. O. O. F.

Williams lodge No. 15, L. O. O. F. was instituted on Thursday evening by the grand officers. Twenty-nine charter members and some eleven by card were those who can look back in years to come and say that in Williams they were present on the eventful occasion. Flagstaff was represented, likewise Winslow, Frank Flickinger, C. D. Harrison, Theo. Harris, Sam Sloan, John Downes were the quintette who left their friends in Winslow to aid their brethren in Williams to make the occasion pleasant, which included a banquet at the Harvey, pleasant in all particulars. Geo. Fleming was chosen noble grand of No. 15.

INCIDENT.

Daniel Brown, about 50 years of age, is accused of the dreadful crime of incest, and on the strength of affidavits furnished by parties, Policeman Fornoff arrested Brown this morning. The prisoner, who evaded arrest last evening when the complaint was first filed, was apprehended this morning and is now in jail.

A sad Death.

A writer from Flagstaff states that George Reim-snyder, the attorney from Williams, who was found dead the other day at Ash Fork, was a native of Lancaster, Pa., was a graduate of the College of Pennsylvania, and was about 40 years of age. At the request of his relatives in Lancaster, his remains were buried at Ash Fork. He was a man of many attainments and claimed to be a nephew of Hon. Allen G. Thurman. The Flagstaff Sun, in commenting on his death, says:

He arrived in Ash Fork on the west bound passenger train Thursday night and was sober. In a short time he was in an intoxicated condition. He had with him a bottle of medicine. The directions on the bottle were, "take one teaspoonful every two hours," but he did not regard the directions and took the medicine so frequently that the bottle was soon emptied. It is supposed that his death was due to the combined results of an overdose of whisky and medicine.

George Reim-snyder came to this county a little over a year ago, and suffering from the effect of a prolonged spree. With the intention of reforming he engaged in sheepherding for Wm. Klostermeyer, and remained until last fall, when, at the August term of the district court, he was admitted to the practice of law in the district court. He proved himself a lawyer of ability, but his old habit proved too strong for him and he lost his clients here and went to Williams, where he was connected with the News.

THE COMMENCEMENT CONCERT OF THE CONSERVATORY OF MUSIC.

The commencement concert of the Conservatory of Music will be given in the Opera house on Friday evening, June 8. The program will be given by the teachers of the conservatory, assisted by the Orpheus quartet. In order to secure a full house the prices have been put at fifty cents for reserved seats and thirty cents for general admission. The seats will be on sale Friday, June 1, at Walton's.

NOTICE OF ANNUAL MEETING.

Notice is hereby given that the annual meeting of the B'nai B'rith Cemetery association will be held at the office of Messrs Adams & Strauss, in rooms 10 and 12 in the N. T. Armijo building, in the city of Albuquerque, Bernalillo county, territory of New Mexico, on the first day of June, A. D. 1904, at 8 o'clock p. m., for the purpose of electing officers and trustees of said association for the ensuing year.

B. STRAUS.

PROF. B'nai B'rith Cemetery Ass'n.

LAS VEGAS LAUREL.

The Montezuma to Be Re-opened—Other Items of Importance.

RAT LAS VEGAS, May 20.

Editor Citizen.

It is rumored here that the Montezuma hotel at the Hot Springs will be reopened about July 1. It is to be hoped that the rumor may prove true. While some "growlers" claimed that the hotel took custom away from the town, since it closed they have found that it was just the opposite and instead of drawing money and business away it brought both to the town and territory. With the closing of the hotel the cheap round trip New Mexico tickets were withdrawn from sale and tourists could buy California tickets cheaper than to New Mexico, so that the closing of the hotel was a loss to the territory as well as to Las Vegas. If the hotel had only been on the main line of the railroad it would undoubtedly have had double or treble the patronage it had, but many persons disliked a change of cars so much that it lost many a guest that way, while many who did stop stayed longer than they intended, detained by the excellence of its management and the beauty of its surroundings.

Your contemporary, the Democrat, says that so many republicans have been convicted at the present term of the district court that it will weaken the g. o. p. here. So far everyone has been a member, or ex-member, of the people's party, we think. One of the original organizers of that party says they believe reform should commence at home and are "purifying the party." But it begins to look as if after the "purifying" is over there would not be enough of the party left to keep up the organization. If the colonel has been back a couple of years and will refer to them he will find that the people's party and the democratic party in this county were one and the same. Names which figured prominently here as members of the people's party in a territorial gathering or at the Chicago convention were democrats.

Prof. C. F. Miller, who has been a teacher of music here for many years, is said to have struck it rich, not in mining, but in relationship—to a big estate and will soon come into possession of a property that will make him wealthy. He is a man who will make good use of his newly acquired wealth.

One of our citizens, a man well known through the territory, has had quite a lot of trouble here lately in his effort to consummate matrimony, there being a strong opposition to it from the members of his family. He and the lady finally took the train away and will likely be taken in by the first person they encounter.

A threatened rain storm all day yesterday finally broke, about 6 p. m., into a hail storm, which lasted some ten or fifteen minutes. It did some little damage in gardens, but was not heavy enough to harm anything further.

The attorneys in the Las Vegas grant case have finally made up an agreed statement of the case, which will be submitted to Chief Justice Smith, who will probably give a decision on the case at an early day, and it is hoped and expected that it will be soon enough to go before the summer term of the territorial supreme court, and probably from there to the fall term of the United States supreme court. At present the interior department is contemplating the survey of the unoccupied part of the grant as government land and throwing it open to settlement. The heirs of the grantees and the town also claim it, making a triangular fight. A decision from the United States supreme court would settle the title and throw open from 400,000 to 450,000 acres of land which now is in such shape that no investor or settler will touch it. When we do get the title settled will show you the best and liveliest town in the west.

AXON.

In Broadway the other day," said a stroller, "I saw two young men walking together and talking earnestly; one of them was smoking. The smoker was the more earnest of the two. Pretty soon he looked at his cigar which was about two thirds smoked up, and lighted a fresh one. Instantly he went on talking. 'Pooh!' he began, and in his animation, instead of throwing the discarded cigar into the street, he tossed it into the air. It was caught as it came down by a tram, who was walking behind him, and who, betraying no surprise whatever, went right on smoking it, as though it had been his own."—New York Sun.

American Colonial Laws.

It is said that the Historical society of Pennsylvania has the most complete collection of American colonial laws in the United States. It was made by Charlemagne Towers and includes the laws of the Danish and British West Indies.

THE BOY WHO WAS IN SCHOOL.

The small boy appeared at the country school, and the teacher, as a preliminary, had a talk with him. "Well, my little man," he said, pleasantly, "do you know why you come to school?" "Yes, sir," "Tell me why." "Cause mother said I was in her way all the time at home, and she didn't want the bother of me," and the teacher subsided.—Detroit Free Press.

THE FEELER ASSAULTMENT.

It was with regret that THE CITIZEN learned of the assignment of E. C. Feeler, of the "Progress," to Mr. E. L. Washburn, which took place yesterday afternoon after this paper had gone to press. Mr. Feeler has been in business here almost two years, and during that time has worked hard and faithfully to build up a trade in this city, and has always treated his customers fairly and well. Going into business just at the time when the business depression began to be felt, it is not strange that he is to day find himself financially crippled. When he does so he makes an assignment for the benefit of all his creditors, attempting no crooked work, and trying to prefer no one, which is certainly the most honorable course for a business man to pursue.

It is stated that taking the stock at invoice prices the assets and liabilities will be about equal.

With reference to the statement contained in this morning's Democrat, which showed a somewhat malicious spirit, THE CITIZEN desires to state that that paper, as usual, is again in error. Mr. Washburn was asked if he would assign as assignee of the stock of goods, and expressed a willingness to do so. The assignee was required to give a bond, and as Mr. Mandell happened to be in Mr. Washburn's store at the time, he was asked by Mr. Washburn to go on the bond, and expressed a willingness to do so. After this Mr. Feeler drew up the bond, and when he went to Mr. Mandell to have him sign it, Mandell was found in Childers & Dobson's office

The Citizen Building Partially Destroyed by Fire.

The Upper Story Completely Burned Out.

The Lower Rooms Inundated With Water.

WE'VE MOVED ACROSS THE STREET.

At about twelve o'clock Saturday night smoke was discovered descending on Gold avenue which in a short time became very dense and suffocating. It soon became evident that the smoke was emanating from the rear end of the Second story of the Citizen building. The first fire company upon the scene was the No. 2 hose, their cart being taken from their quarters by El. Freeman before the alarm was sounded. By this time quite a concourse of people had gathered, and soon the whole fire department was on the ground rapidly laying hose on the adjoining fire plugs, and in a very few moments four heavy streams of water were being poured into the flames.

It was a question for a few moments who should be the master of the situation, the fire or the men, as it was impossible to get the hose in a position to force a stream directly on the conflagration. However, the firemen were equal to the occasion, and with the valuable assistance of the heavy extension ladders, which were immediately placed in position, the competing streams were doing effective execution. By this time the danger of the spreading of the fire to adjoining property, which for a time seemed imminent, abated, and the fire ladders continued their work as early as they began. The Atlantic & Pacific hose company, in charge of Foreman Lightfoot, responded promptly and demonstrated their ability as fire fighters.

The upper story, occupied by Mr. and Mrs. Mayes as a photograph gallery and dress maker's room, was completely burned out, except the front room, and this considerably damaged. The parties named were sleeping in the front of the building and their first notice of the fire was given by the ringing of the bells. Even then they had no idea they were in danger, but went to the window to see where the fire was, and did not succeed in locating it till they opened the door to go to the back part of the house. All this time the fire was burning in the photograph gallery and gaining headway every moment. All that portion of the building was then a mass of flames, and the fire soon began to show itself through the roof. It looked for a time as though the whole block was certainly doomed but the firemen, assisted by the fact that the air was perfectly calm at the time, succeeded in containing the fire to that portion of the building in which it originated.

The upper story of the building is thoroughly wrecked, and competent contractors estimate that it will cost at least eighteen hundred dollars to repair the damages to that part of the house while the lower story is injured by water to the extent of probably two hundred and fifty dollars in addition to the damage done stock, materials and machinery in the printing office. By reason of the fact that the firemen were men who knew their business, the last named item is comparatively small. It would have been the easiest and most natural thing in the world for an incompetent force to have wrecked the office entirely, but under the present efficient management by the department not a dollar's worth of unnecessary damage was done.

The printing office rooms being rendered untenable, the Citizen has taken temporary quarters in the building almost opposite, on the corner of Gold avenue and First street.

Old Citizen Dead.

Oliver Kromer, one of the first inhabitants of Albuquerque and a universally respected citizen, died yesterday morning at 4 o'clock, after a very brief illness, of heart failure. The deceased was unmarried. A brother residing in Missouri has been telegraphed for. The remains have been embalmed and burial will be deferred until the arrival of the brother.

The Baby Was a Buggy.

At Gallup, on the morning of the 16th of May, there was born to Mr. and Mrs. Fred Meyers, a tiny daughter. Mrs. Meyers is now able to sit up and receive the congratulations of her many friends. The little one is doing well and is, of course, the "image of papa." As soon as the event was announced, the clerks of the Crescent Coal company's store, of which Mr. Meyers is manager, devised a plan to surprise the manager and his wife, and all "clipped in" (to use an expressive slang phrase), and the result was the arrival this morning, from St. Louis, of the daintiest baby carriage ever trundled along the walks of the lively Carbon city, a present from said clerks to the little lady mentioned.

Now, if each and every one of these boys ain't allowed to kiss that baby, when she makes her debut in Gallup social circles, we shall believe there is no such virtue as gratitude remaining in our midst. Even Ben, I am sure, would appreciate the privilege, if he hasn't forgotten the modest operandi. Success to the small maiden and her generous admirers.

Dr. Winslow Moved.

Dr. Charles E. Winslow left the city this morning to attend the American Medical association's convention to be held at San Francisco, Cal., June 5 to 10. He has had the honor of being invited to present a paper before the association on "The Physician and State." It reflects great credit on Albuquerque to be not only represented at this important meeting by a delegate, but to have one of her physicians take part in a program composed of papers by the most prominent men of the medical profession, coming from the largest cities of the United States; for example: N. S. Davis, the well known president of the Chicago Medical college; Walter Wyman, surgeon general of Marine hospital; J. H. Kellogg, the head of the far famed Battle Creek sanatorium; Chas. H. Shepard, of Brooklyn, N. Y.; Lawrence Flick, of Philadelphia, and others each have a part on the program. As the subjects of many of the papers to be presented refer to consumption and tuberculosis it can but result in good for our fair city to have present a physician who can speak positively from personal experience, of the wonderfully beneficial effects this climate has had on consumptives who have given it a fair trial.

Late Gallup News.

GALLUP, May 28.

Manager Lane's Crescents won their initial game yesterday, the victims being the Gibson nine. About 200 persons sat or stood through seven innings and saw a fairly good game up to the last inning, which furnished fourteen runs to the victors, obtained through the Crescents' hard hitting and the Gibsons' marauding sharp playing and goose eggs credited to each club. Rogers and Conley were the Gibson battery, while Campbell and Schwartz did the greatest part, in like capacity, for the town club. The nine were Bayless Jr.; Schwartz 2; Hunt 1; Bailey 3; Meyers 4; Briscoe as captain; Buckley Jr.; Campbell 4; Davis 1; Gibson-Conley 4; Rogers 1; Murphy 1; Walls 2; Hartson 2; Berry 3; Glover 1; Casey of Thaisar 1. The umpire was a little off and rattled at times in his decisions. Of last years invincible players were Walt. Campbell, Pete Buckley, W. Bayless, J. Briscoe. All did good work, especially Campbell, Schwartz and Hunt. Walls, Casey and Conley the best for the Gibsons. They play again on the 4th and on the 11th the Crescents want a game with Albuquerque's best.

Score:
