VOLUME 11.

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, AUGUST 26, 1910.

NUMBER 29

DELINQUENT TAX LIST OF LINCOLN COUNTY, N. M.

Amounting to Not Less than \$25.00.

And notice of application to the District Court for judgment and sale for taxes for the year 1909, delinquent on June 1, 1910, with penalties and costs.

Territory of New Mexico, } ss.
County of Lincoln.

In accordance with chapter 22 of the laws of the Territory of New Mexico, 33rd Legislative Assembly thereof, I, the undersigned Treasurer & Ex-Officio Collector of Lincoln county, in the Territory of New Mexico, do hereby make, certify and publish the following notice and list of delinquent taxes amounting to not less than \$25.00, with penalties and costs thereon, which became delinquent on the 1st day of June, A. D., 1910, the same being hereinafter set forth and containing the names of all the owners of all the property on which taxes are delinquent, the description of the property on which same are due, the amount of taxes, penalties and costs due thereon, and the amount of taxes due on personal property.

And notice is hereby given that I, the undersigned treasurer and ex-officio collector of said county of Lincoln, will apply to the District Court, held in and for said county, upon the next return day, to-wit: 8th day of November A. D., 1910, the same occurring not less than 30 days after the last publication hereof, for judgment against the lands, real estate and personal property described in the following list for amount of taxes due thereon, together with the penalties and costs, and for an order to sell the same to satisfy said judgment.

And further notice is hereby given that within 30 days after the rendition of such judgment against such property, and after giving notice by a hand bill posted at the front door of the building in which the district court of the said county of Lincoln is held, to-wit: the courthouse of the said county of Lincoln, at least ten days prior to said sale, I, the undersigned treasurer and ex-officio collector of the said county of Lincoln, will offer for sale at public auction, in front of said building, the real and per-

sonal property described in said notice, against which judgment may be rendered for the amount of taxes, penalties and costs due thereon, continuing said sale from day to day, as provided by law, until the same shall be sold.

Dr. T. W. WATSON,
Treasurer and Ex-Officio Collector, Lincoln County, N. M.

INDUSTRY AND MECHANICS

INDUSTRIAL AND MECHANICAL NOTES.

The Chicago and Alton railroad is testing automatic stokers on thirty-six of its largest engines.

Russia's wheat crop of 783,000,000 bushels for 1909 was the largest ever produced by any country for a single year.

A big Pennsylvania anthracite mining company is turning its accumulations of coal dust for years into briquettes.

From 8,000 to 10,000 of coal slack and pitch briquettes are manufactured and consumed in the city of Belfast, Ireland, each year.

The cultivation of tobacco in Spain is prohibited, a company which has a monopoly in dealing in it paying the government about \$35,000,000 a year.

The New York public service commission will make an extensive investigation of concrete as a deadener of noise on elevated railroad structures.

Colombia produces platinum second in quantity only to Russia, washing it from the gravels of the Choco river, where it always is found mixed with gold.

The highest viaduct in the world recently was opened in France. It stands 144 feet above a river, took eight years to build and cost about \$800,000.

The soil and climate of Formosa have been found so well adapted to the castor bean that a company has been formed to plant 200 acres and erect an oil mill.

It is said that enough horsepower goes to waste in the rivers and streams between Austin and San Antonio, Tex., to run all the industries in the state.

After exhausting research an English architect has decided that the leaning tower of Pisa was built at the angle it stands today as a feat of structural bravado.

While in the valleys of Abyssinia are grown sugar cane, cotton, rubber and other tropical plants, the uplands have excellent pastures and cornfields, such as may be found in England.

In British Columbia platinum is found in many alluvial gold workings as a by-product, but its separation is attended by too many difficulties to be practical except in a few instances.

A patent has been granted an Ohio man on a washboard with a convex metal rubbing surface, slightly roughened, so that even a light pressure of clothing passed over it will give the same results as hard rubbing over the ordinary flat, corrugated board.

SHIP AS WEIGHING MACHINE

Load of Vessel Ascertained by Apparatus Called Porhydro-meter—Very Accurate.

How the load of a ship can be quickly ascertained without actually weighing it was demonstrated in London recently by Edward Beresford at the Temple Pier by experiments on a two hundred ton barge.

The apparatus used is known as a porhydro-meter, and consists of a float placed in the water, which is admitted up a pipe fixed in the center of the vessel. As the load is increased the vessel naturally sinks deeper into the water, and the water in the pipe rises to a greater height, and the float thus raised throws a lever out of balance. A sliding weight enables one to bring it into balance again, and the position of the weight on a scale shows the amount of the load. The porhydro-meter was sufficiently accurate to show the weight of a man stepping aboard the barge.

CONCRETE AS BASE BUILDER

Instrument Invented by Washington Man Is Decided Improvement on Method of Construction.

Concrete bases for telegraph and telephone poles are not new, but the instrument invented by a Washington man and here shown, is a recent improvement on the method of constructing these bases. Where a wooden pole has rotted at the base or an iron pole has worked itself loose in soft ground the trouble can be remedied by excavating at the base and filling in the hole with concrete, giving the pole a firm foundation.

Heretofore this has been an expensive operation, but the appliance here described reduces the expense con-

Concrete Base Builder.

siderably. A body portion, made in two semi-circular sections, clamps around the pole. Extending below is a strong spiral prong that encircles the pole, and the whole is revolved by a double handle. When this instrument is fixed in place and turned around, as a corkscrew would be turned, the spiral loosens the earth around the pole and pulls it up on being withdrawn. The concrete can then be poured in the excavation and the pole will stand firm for many years.

COLOR OF SEA DUE TO SALT

Some Parts Are More Salty Than Others and It Is These Which Are the Bluer.

In its deepest parts the sea is intensely blue, but where it is shallow it is a bright green color. This prevails until soundings cease to be struck. Some people ascribe the blue to the reflection of the sky, and say that if the green water which is found nearer land were piled up in a basin as deep as that which holds the blue, it would be the same color. But the true cause of the difference between the two is the quantity of salt which the water contains. Some parts of the sea are much more salty than others, and it is these which are the bluer.

That the sea water is denser in one part than another is the result of evaporation, less rainfall and a smaller inflow of fresh water from rivers, etc. It is estimated that eight feet of water are annually withdrawn from the Red sea by evaporation, and it is not surprising that it is saltier than the Baltic, where the evaporation is very small, and where there is an influx of water from various streams fed by heavy annual rainfalls.

But why is the ocean salt at all? The streams which feed it bring with them the salts of the soil through which they pass. As evaporation is ever going on, one would think that the sea water must ever grow more limelike, but such is not the case.

Many tons of wool were ruined in North China last August by heavy protracted rains, when there was no way of keeping the wool dry.

ONE THING CERTAIN.

"Do you know," shouted the earnest orator, "what to do to the trust?" "No, but I know blame well what they're doing to us!" said a man in the front row.

How She Conciliated Them.

Filmer—How did it happen that these five men who were so angry with the woman in the nickelodeon for not taking off her hat became so friendly with her afterward?

Screeners—It was raining like fury when the show was over and she invited them to take shelter with her under her hat.

Women in Love.

"Women in love are generally troublesome and persecuting." Such is the reported opinion of M. Emile Paquet. And if a French critic does not understand the subject, of whom shall we seek understanding?"

Refinement of Assurance.

Busy Business Man (irately)—Sir, I didn't ask you to sit down!

Persistent Salesman (settling back comfortably)—That's all right—no apology is necessary. I knew it was only an oversight.—Harper's Weekly.

HARD TO PLEASE

Regarding the Morning Cup.

"Oh how hard it was to part with coffee, but the continued trouble with constipation and belching was such that I finally brought myself to leave it off.

"Then the question was, what should we use for the morning drink? Tea was worse for us than coffee; chocolate and cocoa were soon tired of; milk was not liked very well, and hot water we could not endure.

"About two years ago we struck upon Postum and have never been without it since.

"We have seven children. Our baby now eighteen months old would not take milk, so we tried Postum and found she liked it and it agreed with her perfectly. She is today, and has been, one of the healthiest babies in the State.

"I use about two-thirds Postum and one-third milk and a teaspoon of sugar, and put it into her bottle. If you could have seen her eyes sparkle and hear her say 'good' today when I gave it to her, you would believe me that she likes it.

"If I was matron of an infants' home, every child would be raised on Postum. Many of my friends say, 'You are looking so well!' I reply, 'I am well; I drink Postum. I have no more trouble with constipation, and know that I owe my good health to God and Postum.'

"I am writing this letter because I want to tell you how much good Postum has done us, but if you knew how I shrink from publicity, you would not publish this letter, at least not over my name."

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Profanity of His Profession. "Who is that scientific gent in room 15?" asked the scrub woman. "I dunno, answered the broom gentleman. "But he's a funny one to swear. You ought to hear him. When he saw a lot of mold on top of his ink he said, 'B'cellus,' just that way."—Chicago Tribune.

Of Some Use.

"I see you employ a number of old men."

"I do."

"How old are they?"

"Too old to be interested in canoeing or mandolins, or race horses, or girls, or tennis. That makes them fine for work."—Washington Herald.

Light Burden.

"Sell a short ton of coal?" he echoed, raising his hands in protest. "Why, my dear man, if that should happen, it would weigh on my conscience the rest of my life."

"Well," responded the customer, with much feeling, "if it didn't weigh any more on your conscience than it does on your scales, I don't think you would notice it much."

Novelty.

"I thought you told me you had something original in this libretto," said the manager, scornfully. "Here at the very outset you have a lot of merry villagers singing, 'We are happy and gay!'"

"You don't catch the idea at all," replied the poet, wearily. "The 'g' is soft. It should be pronounced 'happy and jay.'"

SOFT, WHITE HANDS

May Be Obtained in One Night.

For preserving the hands as well as for preventing redness, roughness, and chapping, and imparting that velvety softness and whiteness much desired by women Cuticura Soap, assisted by Cuticura Ointment, is believed to be superior to all other skin soaps. For those who work in corrosive liquids, or at occupations which tend to injure the hands, it is invaluable.

Treatment—Bathe and soak the hands on retiring in a strong, hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, and in severe cases spread the Cuticura Ointment on thin pieces of old linen or cotton. Wear during the night old, loose gloves, or a light bandage of old cotton or linen to protect the clothing from stain. For red, rough, and chapped hands, dry, fissured, itching, feverish palms, and shapeless nails with painful finger ends, this treatment is most effective. Cuticura Remedies are sold throughout the world. Potter Drug & Chem. Corp., sole proprietors, Boston, Mass.

Awfully Busy.

Jim—A stitch in time saves nine.
Tom—Who said that?
Jim—Gee! Ain't you read your Bible?
Tom—Nope; I ain't even had time to read the sporting page this morning yet.—Cleveland Leader.

Casey at the Bat.

This famous poem is contained in the Coca-Cola Baseball Record Book for 1910, together with records, schedules for both leagues and other valuable baseball information compiled by authorities. This interesting book sent by the Coca-Cola Co., of Atlanta, Ga., on receipt of 2c stamp for postage. Also copy of their booklet "The Truth About Coca-Cola" which tells all about this delicious beverage and why it is so pure, wholesome and refreshing. Are you ever hot—tired—thirsty? Drink Coca-Cola—it is cooling, relieves fatigue and quenches the thirst. At soda fountains and carbonated in bottles—5c everywhere.

We live truly in proportion as we go out of ourselves and enter into the fulness of the experience of those whom we serve, and by whom in turn we are served.—Westcott.

Some men carry a sandbag because they are too proud to beg.

DAISY FLY KILLER

placed anywhere, adheres & kills all flies. Kills all house flies, stable flies, mosquitoes, etc. Guaranteed effective. 10c per bottle. Sent by mail on receipt of 10c. HAROLD BOWEN, 150 Duane St., Brooklyn, New York.

PANAMA FOR WOMEN

MOST DESIRABLE OF ALL HATS FOR WARM WEATHER.

Good Ones Now Within the Reach of All—How They Should Be Trimmed and Fastened.

Most beautiful of hats, the panama has grown to be the desire of all, masculine and feminine alike, for wear in the hottest of weather. Good Panamas are not so expensive as to be out of reach of people who are in moderate circumstances. The initial expense may be twice that of an ordinary straw hat, but the length of life of a Panama makes it an extremely good investment.

For many generations this hat was woven in one shape by those natives of Latin America who have brought their handicraft to such perfection that all the world admires it. Then enterprising Americans who were heavy purchasers began asking for modifications of the shape and for hats woven for women especially. But the natives did not like to make a change. Their success has been built up on the old original shapes made by their fathers and they could see no good reason for changing or making new ones. Perhaps they were right, but finally they were persuaded to weave hats designed for women and we now have the Panama in sailor shapes with softly rolling or droopy brims and crowns of various forms. To trim the Panama seems like painting the lily and adorning the rose. A band or scarf is quite enough

to add to these exquisite hats. It is all they carry when quite new. But, after two or three seasons' wear, trimming helps out in concealing defects or in modifying or even concealing a crown which may look out of date. The advantage of the Panama of the original type is that it does not get out of date.

The brims of the Panama hats are so flexible that they may be turned up or down at any point. When turned down all around, the hat is improved by a full scarf or other trimming as shown in the pictures.

The owner of a Panama may be sure it will stand a lot of wear, but not abuse. Hat pins should not be used with them. Hat fasteners, sewed to the head band inside, fasten them

more securely and save the fibers from being broken by the pin point. The new pins with guide for the point may be used, but it seems almost a

crime to thrust a pin through so fine a piece of weaving, even at a single place.

SCARFS OF PRINTED CHIFFON

Wide Material Should Be Shirred Across and the Whole Lined With Soft, Thin Silk.

Charming scarfs that will be a real protection can be made from wide printed chiffon, and from three to four yards are necessary. In making the material should be shirred across the width in groups of pin tucks until the goods is only half its width. These groups are set in at intervals, leaving flowing ends.

Then the whole is lined with a soft, thin silk, the latter frilled to underlie the ends of the scarf.

The edges should be finished with marabou. Though of fragile materials, the construction of them results in a really practical and fairly substantial accessory.

A new and attractive idea in many instances is the addition of braid or a fold to all edges of a coat that forms part of a suit fashioned from white serge displaying a colored pin stripe. Often a suit of such material is apt to lack character, and this the coat edging supplies.

The color of the braid or fold is, of course, chosen to match the stripe in the serge.

In the case of the suit being worn by a short or stout woman, it will be better to omit the trimming, using something definite in color for deep collar and cuffs instead for relief.

Exquisite Tea Trays.

If one has a piece of rich old embroidery, too fragile to handle, it is just the thing to make up into a handsome tea tray. The embroidery should be mounted on a piece of linen, so that there will be no undue strain on the handwork in making up the tray. Take it to a dealer who understands the art of framing pictures. A pair of handles must be selected for the tray. These may be in either glass or ebony, if the frame itself is in that wood. Look carefully to the piece of glass which is placed over the embroidery and there may be no imperfections to mar the beauty of the embroidery. The embroidery used in this way will be a delight to many.

The Wretchedness of Constipation

Can quickly be overcome by

CARTER'S LITTLE LIVER PILLS.

Purely vegetable—act surely and gently on the liver. Cure Biliousness, Headache, Dizziness, and Indigestion. They do their duty.

Small Pill, Small Dose, Small Price.

Genuine must bear Signature

W. D. Carter

HE LIVED IN THE CITY.

Papa—Why can't we see the moon in the daytime?
Jimmie—'Cause they don't light it up until after dark.

Incorruptible.

The lady of the house hesitated. "Are my answers all right?" she asked.

"Yes, madam," replied the census man.

"Didn't bother you a bit, did it?"

"No, madam."

"Feel under some obligations to me, don't you?"

"Yes, madam."

"Then, perhaps you won't mind telling me how old the woman next door claims to be?"

"Good day, madam," said the census man.

The satirist can talk about the "average man" with impunity, because every man considers himself above the average.

A Dream of Ease—

Post Toasties

NO COOKING!

An economical hot weather luxury—food that pleases and satisfies at any meal. So good you'll want more.

Served right from the package with cream or milk. Especially pleasing with fresh berries.

The Normal Closes.

The Lincoln County Institute, which had been in session the past two weeks, closed yesterday. The number of teachers in attendance was twenty-three, and most excellent work was accomplished under the direction of Prof. John Milne of Albuquerque. This is the second institute that Professor Milne has conducted in Lincoln county, and all the teachers are pleased with his direction of the institute. The teachers tender their thanks to Professor Milne for his painstaking, earnest efforts in their behalf and Prof. Milne in turn expressed his pleasure over the manner he had been received, and congratulated the teachers on the progress made.

The Teachers' Association held a meeting before the Normal closed, and a report of their action may be found elsewhere in these columns.

The examination began this morning, and eighteen teachers are busy with questions touching their qualifications as teachers.

Injured in a Mine.

A young man by the name of Dickson, a friend of the Reasoner family, was quite painfully injured in the Old Abe mine at White Oaks yesterday afternoon. He, with others, was going thru the mine, and he got off the cage at one of the upper levels while the others went below. When the party returned to where they had left Dickson they found him unconscious, with two severe gashes in his head, both cuts penetrating to the skull. The injured man is yet unable to tell how the accident occurred, but the belief is that he hit his head against the roof or wall which threw him, and in falling struck another sharp rock with his head. Dr. Paden was called and dressed the wounds, and, while the cuts are quite painful and look serious, no bad results are anticipated unless the brain is injured by the concussion.

Lincoln County Teachers' Association.

On the closing day of the county institute a meeting of the Lincoln County Teachers' Association was held at the school house in Carrizozo. The meeting was called to order by the president, Mrs. Wallace Gumm. The secretary being absent the president appointed principal, Chas. L. Schreck, secretary pro tem.

The following members of the association were present: Mrs. Wallace Gumm, Samuel W. Kelsey, C. L. Kennedy, Miss Pearl Taylor, Miss Margaret Gallacher, Mrs. Irene Peter, Miss Donnie Franks, W. E. Blanchard, Miss Helen Jones.

The following teachers were present and joined the association: Mrs. Nora Massie, Mrs. Edna Ford, Miss Emma Peters, Mrs. S. R. Moss, Miss Mae Gilmore, Miss Edith Wells, Miss Doppie Cooper, Leslie Read, Miss Jane Brockway and Chas. L. Schreck. Conductor John Milne was made an honorary member of the association by unanimous consent.

The president announced that a committee on program had been appointed and had drawn up a tentative program for the next meeting of the association to be held the first Saturday after Thanksgiving. The program as arranged, subject to minor changes as may be found necessary, is as follows:

FORENOON SESSION.

Roll Call—Teachers respond with educational maxims or sayings of noted educators.

Business meeting—Election of officers, etc.

Reports of Schools—Teachers report of work done, conditions found, plans, etc., of their respective schools.

Model Recitation.

AFTERNOON SESSION.

Opening Address.

Address—A Review of an Educator.

Paper—Books that Help Professionally.

Address—Educational Ideas and Methods, Old and New.

EVENING SESSION.

An address, subject to be determined.

There being no further business, the association adjourned to meet the Saturday following Thanksgiving.

Jicarilla Happenings.

E. E. Wilson is in from Jack's Peak, taking a lay-off for a few days.

Everyone in camp is working, either doing assessment work or placering in the gulches.

Messrs. Stonerod & Handy are hauling the lumber for the completion of the schoolhouse.

There are several new comers located at the foot-hills, settling the homestead lands.

We are sorry to have to chronicle the sickness of Geo. Thorp. Hope he may be convalescent soon.

Mrs. Juan Chavez of Raventon was in camp Monday attending to matters of business with the justice.

John B. Brotherton smilingly hands out the mail at the post office during the illness of the postmaster.

C. B. Hatfield will leave shortly for Richardson, where he has been engaged to do some carpenter work.

A man accidentally shot himself in the leg with a rifle at Ancho a few days ago. Didn't learn his name or the particulars.

There are many deer in the woods adjacent to the settlements since the rains set in. The rains probably drove them in from the plains.

Bivian Brookin hauled a load of cement to this place Thursday, to be used in camp. It was purchased in the "capital city."

The new well at the Frambough ranch has been shut down, awaiting a shipment of casing from El Paso. There is eighty feet of water in the well.

Ed. Haskins, the road supervisor, is combating with the elements these days. It is like playing to the caprice of the fickle goddess to repair the bad places on the roads over and over again.

THE HEADLIGHT SALOON FOR SALE.

School Opens September 12.

The directors of the Carrizozo district have decided to have the public schools open Monday, the 12th day of September. There will be six teachers employed this year to handle all the courses. This is made necessary in order that more attention may be given high school work and at the same time push the grades. Some resignations of teachers have been tendered, but the board has practically agreed upon others to fill the vacancies, and announcement of the full corps of teachers will be made in due time.

A Ball Game at Fort Stanton.

The Fort Stanton base ball team defeated the Capitan team on the Fort Stanton grounds last Sunday in one of the most exciting games of the season by a score of four to three. It was a pitcher's battle from the beginning between Chamberlain and Putney for the Fort and Hightower for Capitan. The hits were few and the strike-outs many. Chamberlain was hurt in the first part of the game and retired from the ground, and was succeeded by Putney. It was practically an in-field game, but many sensational plays were made during the game, which was one of interest from start to finish. The Fort team would like to hear from the manager of the Carrizozo team with a view to arranging a couple of games before the season ends.

Lincoln Locals.

The family of John W. Owen has gone out to their ranch to spend two or three weeks.

Mrs. J. G. Riggle has returned from an extended visit to White Oaks, Carrizozo, Alamogordo and Capitan.

The county conventions which met here on the 18th for the purpose of nominating candidates for representatives of the county in the constitutional convention were well attended, and the work done in the conventions partook largely of a non-partisan nature. The following were nominated: Jake Aragon of Lincoln, John H. Canning of Carrizozo, and A. H. Hudspeth of White Oaks.

Notice of Dissolution.

By mutual consent, the firm known as the Tinnie Mercantile Company, of Tinnie, N.M., composed of Stephen Ramond and H. Doyle Murray, was on the 10th instant dissolved. H. Doyle Murray withdrawing from the firm and Stephen Ramond continuing in the business as the sole proprietor of the firm known as the Tinnie Mercantile Company, of Tinnie, N. M.

We are headquarters on trunks, valises and suit cases. Drop in and examine the quality of the goods we handle, and compare values with the cheaper grades at the same prices.—The Carrizozo Trading Co.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by all dealers.

HUNTING AND FISHING FEES

Under an act passed by the last legislature, and in effect March 18, 1909, you are required to procure a license in order to hunt or fish. The fees are as follows:

Big game, moose, deer and turkey, resident	\$1.00
Bird license, resident	1.00
General license, covering big game and birds, resident	1.50
Big game license, non resident	25.00
Bird license, non resident	5.00
Big game license, resident, alien	5.00
Bird license, resident, alien	5.00
Bird license, non resident, alien	10.00
Transportation permit, live game	1.00
Permit to transport out of the Territory, each deer	2.00
Permit to ship out of the Territory, each lot of fish	1.00
Duplicate license, certificate or permit	1.00
All non residents over the age of twelve years will be required to pay a fishing license of	1.00

Bring your butter and eggs to us; we pay the highest market prices for all kinds of produce.—The Carrizozo Trading Co.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by all dealers.

CAPITAN.

Probate court will be held at Lincoln on Sept. 7, 8 and 9.

We sell for cash or thirty days time.—The Carrizozo Trading Company.

Brent Paden came up from El Paso this week, and will remain several days with his father and brother.

Attorney Hudspeth of White Oaks left for Santa Fe last Sunday on legal business, to be absent about a week.

FOR SALE.—A number of Cots, Springs, Mattresses, etc., for sale cheap.—Carrizozo Eating House.

Frank Gray returned today from Kelly, Socorro county. He purchased a saloon in that thriving camp before returning.

Miss Clara Jacobs returned Sunday from El Paso, where she visited a week with friends. She went to Capitan on Monday's train.

L. H. Rudisille, ex-superintendent of schools, was down from White Oaks Monday. While here he visited the Normal and spent several hours with the teachers.

News reached here this week that the mercantile firm of Murry & Ramond of Tinnie has been dissolved, Mr. Murry having sold his interest to Mr. Ramond on account of failing health.

We will sell goods only on 30 days time after Sept. 1st. We will make close buyers some interesting prices on first class merchandise.—The Carrizozo Trading Company.

Clark Hust, who has been suffering from ptomaine poisoning for more than a week, and was for a time dangerously threatened, has passed the critical stage, and is now on the road to recovery.

If you want a really good wagon, the Winona will fill the bill. Strictly 30 days time.—The Carrizozo Trading Co.

Miss Elsie Mountz has written from her home in Pennsylvania that she will be unable to teach here this winter. This is a distinct disappointment to our community, for Miss Mountz was regarded most highly.

The hot weather the past few days was rudely ended early yesterday morning. The tail end of a storm from the north swooped down upon us, cooling the atmosphere, but at the same time put a lot of real estate in motion.

The ball game between the Fats and the Leans last Sunday between the Fats and the Leans last Sunday resulted in favor of the Leans by a score of 20 to 15. The extreme heat prevented a large number from attending the game who otherwise would.

John Z. White of Chicago, the great advocate of the initiative and referendum, addressed a large audience this afternoon from a platform in front of the postoffice. Quite a number of people from outside points were present. All were well pleased with the lecture, which was interesting, instructive and logical.

R. R. Larkin, an old school man, now living at Las Vegas, made a pleasant talk at the institute one day this week. Mr. Larkin is still interested in school matters, and his talk was not only interesting but beneficial to the teachers in attendance.

Superintendent of Public Instruction J. E. Clark was in Carrizozo several hours Wednesday, and assisted the Lincoln County Institute while here. He addressed the institute at some length and congratulated the teachers of Lincoln county upon the showing made.

W. H. Harris is quite ill at his home, three miles west of town. The old gentleman is getting old, and fears are entertained for his recovery. All the members of the family are present with the exception of one son, Jonas, who is in Arizona and who has been detained by illness.

T. C. Hill, manager of the company store at Dawson, and formerly in a similar capacity at Capitan, this county, had the misfortune to accidentally shoot himself recently. The shot took effect in the arm and neck, and how serious the wound is we are not, at this time, able to say.

Chief Clerk Wateman James is again in his accustomed position at the cashier's desk in the Railroad Eating House, after successfully pulling off the greatest baseball stunt that ever happened in Lincoln county, namely: the Fats vs. the Leans played on the local diamond last Sunday.

Mrs. Ledbetter and Miss Ethelyn Pierce are visiting their brother and uncle, B. F. Goff. They live in Fort Scott, Kan., and in addition to the relative above named have also been visiting at Picacho, Mrs. E. W. Hulbert being a sister and aunt respectively of the two ladies. They expect to start for home tomorrow.

No contest in Lincoln county for delegates to the constitutional convention. One ticket, one platform and all united for a good constitution. Good results are expected from the Lincoln county delegation.

Ex-Governor George Curry was in town a short time yesterday. The governor is quoted as saying that the initiative and referendum will certainly go into the constitution; and if it does it means a Waterloo for the old crowd that is opposing it. This is good news, and the further fact that Mr. Curry is bending his efforts along that line adds strength to the proposition.

Fred Ferguson found a troublesome "varmint" in his shoe yesterday morning, but not until he had pulled on his shoe and felt a foreign substance in the shoe and received a sting on the toe. Hastily removing the shoe, he extracted a five-inch centipede which he immediately dispatched and then gave his attention to the injured member. No ill effects have resulted from the sting.

CARRIZOZO NEWS

CARRIZOZO - NEW MEXICO

MUST HAVE SERVICE AT ONCE

Peculiar Fact That Few Men Can Wait With Patience for Telephone Answer.

Why is it that when a man has to wait for "Central" to answer him seconds seem minutes? Many a busy man will wait minutes for anything else and never turn an eyelash. But when he faces that formidable gutta percha ear on the wall, when he listens in vain for "What number, please?" of the telephone girl, he loses all his patience. With his patience go his temper and his manners.

Why is it? The reason is comparatively obvious to one who analyzes the problem. People are not accustomed to delay at the telephone. Custom has us all in its deadly grip. Any deviation from custom affronts those prehistoric nerve cells of ours which tell us that a discussion from the beaten track leads us into unknown terrors. Of course, these world-old instincts are dying, but they still possess force enough to render a change undesirable.

Men are used to waiting for others. Therefore delay in a bank or store causes no wrath. But men—and women, too—are not accustomed to delay in the telephone service. They are used to the quick, cheery inquiry from "Central," almost instantly following the first call. The unwonted delay thus makes the busy man wroth, leads him to needless expenditures of valuable temper and to equally futile venting of his anger in heated language.

Safe to Hold Radium.

What is described by its makers as the most ingenious safe ever constructed has just been completed by the Chubb company of London for the British Radium corporation. The problem presented to the manufacturers was not only to construct a safe that would bid defiance to burglars, but which would at the same time prevent the escape of the radium.

It is well known to science that radium emanations will pass through the thickest and hardest steel. For this reason the inner cover of this safe was made of lead three inches thick, inclosed within a burglar-proof steel shell. There are many other special features, including a means of collecting the radium emanations before the cover is opened.

This compartment of the safe is designed to hold 100 pounds of radium, valued at \$5,000,000,000. The total weight of the safe is one and a half tons.

Practical.

An English friend, who contends that we Americans have no true sense of historic value or artistic verity, cites the following to prove her point: She was at Holyrood last spring, and the custodian was showing her, together with several American tourists, the old rooms of the famous castle. Darnley's dressing-room especially charmed her—the rare mellow panels, marvelously rich with intricate carving, and the exquisite narrow windows of quaint design.

One of the Americans, evidently a middle-aged man of business, poked his nose into the room and out again. "Whose did you say? Darnley's? Dressing-room? Humph! Very poor light for shaving."—Harper's.

They Went, Too.

Overheard in the street, recently. Two women just meeting.

"So you have lost your poor dear husband?"

"Yes; troubles never come singly. It was only a fortnight ago I bought him a new suit of clothes and a new pair of boots."

CREATE LOVE FOR THE FARM

Farmers' Co-Operative Demonstration Work Has Solved Problem of Agricultural Life.

(By S. A. KNAPP.)

One of the greatest problems before the American people has been how to interest in rural life and attach to the farm the young man who has acquired a capacity for leadership. The loss of rural leaders by emigration to the city has been one of the most serious retrogressive factors in our whole civilization. The Farmers' Co-operative demonstration work has solved the problem. These young men left the farm because they were repelled by the hardships, excessive toil, and meager gains on the farm and were allured by a seemingly greater opportunity to acquire wealth, influence and position in the city. The demonstration work undertakes to create in the schoolboy a love of the farm and a new hope by showing the wonderful possibilities of the soil when properly managed and the ease with which wealth and distinction are achieved in rural life when science and art join hands. This is worked out by the co-operation of the demonstration workers, the county superintendent of public instruction, and the teachers.

The superintendent and teachers organize the schoolboys over ten years of age into clubs; the demonstration work furnishes the plan of organization and the instructions (which the boys agree to observe); the respective parents furnish land, teams and implements; the merchants and bankers provide the prizes, and the local papers give the publicity. Each boy must personally work one acre under the same regulations governing all other contestants. The result of 300 to 400 boys entering such a contest in a county arouses intense interest. The boy learns the best way to raise corn or cotton and his appreciation of the farm is greatly enhanced.

The boys in the corn contest of one county in Mississippi last year averaged a production of 74 bushels of corn per acre, while the farmers averaged less than 20. In South Carolina one boy raised 152½ bushels on a measured acre, while the state average was 16.

PLANS FOR COUNTRY HOUSE

Outline of Residence Well Laid Out for Convenience and Economy of Space and Neatness.

(By J. C. SHAWVER.)

This beautiful residence is equally adaptable to country or city. It is large and well laid out for convenience and economy of space inside and neat and attractive outside.

There are 10 rooms: The reception room is 12x16 feet, the dining-room

Front View.

16x16 feet is connected with the parlor by a grille. The kitchen is 12x12 with a pantry 8x12 feet. The bedroom downstairs is 10x16 feet with a closet under the stairs. The parlor is

16x16 feet. All of these rooms open off the main hall and a telephone booth is also provided in the hall, un-

First Floor.

der the stairway, which is open with newel posts and railing.

Access to the basement is made by way of a stairway leading down from the kitchen.

Upstairs are four large bedrooms, bath and sewing rooms, with ample

Second Story.

closets provided for all. There is also a linen closet in the hall.

There is one sure way of preventing large weeds from growing in the garden—kill all the small ones.

White onions are very much better keepers than the yellow variety, although the latter grow larger.

The best garden-seed are not always found in the packages on which are found the prettiest pictures.

It is best to sow grass seed with a drill on light sandy or sandy loam soils, as it is less likely to dry out in dry seasons.

Arsenate of lead will not destroy the black squash-bug and other sucking insects. They must be picked off by hand and squashed.

The extensive root systems of grass crops, especially clovers, open up the subsoil, increase the supply of humus and are of great value to the soil.

Coal-ashes contain no fertilizing value and our experience is that they only serve to pack the soil instead of making it friable. Wood ashes are different.

The average wheat yield of America is only about 14 bushel to the acre while in England the land that has been farmed for hundreds of years averages about 30 bushels.

In the mild climates, lettuce may be set out in the fall in beds protected by glass or cloth and this delicious vegetable may be had through most of the winter months.

If other remedies fail, spray the cucumber-vines with arsenate of lead. It destroys the yellow-striped beetle, which is the most dangerous enemy of the cucumber, and requires the most vigilant watching.

New discoveries in minerals are used by the doctors, new discoveries in machinery are used by the undertakers.

Dr. Pierce's Peppets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels and cure constipation.

And many a coming man neglects to arrive.

MORE PINKHAM CURES

Added to the Long List due to This Famous Remedy.

Oronogo, Mo.—"I was simply a nervous wreck. I could not walk across the floor without my heart fluttering and I could not even receive a letter. Every month I had such a bearing down sensation, as if the lower parts would fall out. Lydia E. Pinkham's Vegetable Compound has done my nerves a great deal of good and has also relieved the bearing down. I recommended it to some friends and two of them have been greatly benefited by it."—Mrs. MAE MCKNIGHT, Oronogo, Mo.

Another Grateful Woman.

St. Louis, Mo.—"I was bothered terribly with a female weakness and had backache, bearing down pains and pains in lower parts. I began taking Lydia E. Pinkham's Vegetable Compound regularly and used the Sanative Wash and now I have no more troubles that way."—Mrs. AL. HERZOG, 6722 Prescott Ave., St. Louis, Mo.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

DESSERTS FROM PINEAPPLE

Fritters, Souffle, Cream and Log Cabin Are Four Dainty Dishes Made From This Appetizing Fruit.

Pineapple Fritters.—Make a batter with one egg, beaten separately. To the yolk add one-half cup of milk, pinch of salt and enough flour to make a stiff batter, the beaten white and one-half teaspoon of baking powder. Open a can of the best sliced pineapple. Cut each slice of pineapple in two, dip in the batter and fry in hot lard. Drain, sprinkle with powdered sugar and serve. Fresh fruit is much nicer if obtainable than the canned.

Pineapple Souffle.—Melt two ounces of butter in a stewpan, put in three ounces of fine flour, mix with half pint of milk, boil until it thickens; have ready three ounces of pineapple cut small, the same quantity of sugar; put with the cooked mixture, add one by one the yolks of three eggs, then the whites beaten to a stiff froth; make a sauce with one cup of pineapple juice, half cupful of cut pineapple. Cook the pudding three-quarters of an hour.

Pineapple Cream.—Select one ripe pineapple, pare, remove the "eyes," grate, add sugar (pound for pound, or a little less, but it must be sweet, as freezing destroys some of the effects of the sugar.) Allow one pint of cream to each pint of pulp and sugar, and freeze. Be sure and have all the ingredients icy cold before combining them.

Pineapple Log Cabin.—Select a large ripe pineapple, pare, eye and cut into slices about a fourth of an inch thick. Cut these across into half-inch strips. Sprinkle thickly with sugar and set in a cold place until time to serve. Then carefully drain off the sirup and arrange the strips six deep in log cabin fashion on small china plates. Sprinkle each strip with powdered sugar and freshly grated coconut. Fill the center with fine ripe red raspberries and pour over them the sirup which has been drained from the pineapple.

To Roast a Leg of Veal,

Wash well and have leg of veal boned and filled with stuffing. Take a deep iron kettle and put layers of sliced onion, carrots and turnips; add one teaspoonful of salt, four round peppers, four cloves, four bay leaves, and on this lay the meat and put three slices of salt pork on the meat and put wooden toothpicks to hold them in place; then add one pint of water, cover the kettle tight and put in a hot oven for three hours. When done, take out the roast and put on a platter with the vegetables around. Serve strained gravy separately.

Stuffing for Roast.—Three cupfuls stale bread crumbs, two onions chopped fine, one teaspoonful salt, one-half teaspoonful of white pepper, two tablespoonfuls chopped parsley and one-half cupful melted butter.

Breakfast in the Bedroom.

The summer hostess considers carefully the question of the breakfast tray: for there are many guests whose custom it is to partake of this meal in bed, or at least in their own rooms. In the case of dressing gown and informal coiffure, and a dainty means of serving this bedroom breakfast must be provided beforehand. In a large country house two footmen are usually kept busy from eight o'clock until ten in the morning, carrying breakfast trays about, and special china is usually supplied for these trays—rather small cups and dainty cream, sugar and coffee receptacles in individual size.

Sagging Cane Seats.

If the seats of cane chairs sag, turn them upside down, wash well with soapy water, soaking so as to thoroughly wet them. In drying they will stiffen almost to their normal state. It is well to begin this treatment before the seats have sagged badly, and if kept up the chairs will wear a long time.

WEAK KIDNEYS WEAKEN THE WHOLE BODY.

No chin is stronger than its weakest link. No man is stronger than his kidneys. Overwork, colds, strains, etc., weaken the kidneys and the whole body suffers. Don't neglect the slightest kidney ailment. Begin using Doan's Kidney Pills at once. They are especially for sick kidneys.

Ted Hiatt, Oswego, Kans., says: "For many years I suffered from kidney disorders. I was treated by specialists in Kansas City and Chicago, was told I had an abscess of the kidneys and an operation was advised. I thereupon began the use of Doan's Kidney Pills and gradually improved. Soon an operation was unnecessary as my kidneys were well."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

VISIONARY.

Jiggson—If a man could only sell coal at the north pole or ice in hades! Wiggson—But that's out of the question.

Jiggson—I know; but, gee! just think of the prices he could get!

The Stomach Hold.

Col. H. N. Renouf, at the "Old Guard" banquet at Delmonico's, emphasized the importance to an army of a good commissariat.

"You have perhaps heard," he said, "of the company of privates that a patriotic lady entertained one Memorial day to dinner."

"It was a good dinner, and at its end a pretty maid servant entered with a superb dessert."

"Dessert, sergeant?" she said to the stalwart young soldier at the head of the table.

"Desert?" the sergeant answered. "When I can get eats like this for nothin'! Nixie! Not me!"

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. See a bottle.

Mortgage the ship for all it's worth before giving it up.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medical forest plants. World's Dispensary Medical Association, Props., Buffalo, N. Y.
