In a Nov. 18 report, Energy, Mining and State-run Industry Secretary Fernando Hiriart Balderrama said the federal government has privatized 372 of 404 state-run companies since 1983. Of the 372, 71 are yet "in process." Once the privatization process is complete, said Balderrama, the government will be restricted to mining, oil, petrochemical, electricity and nuclear energy.
