## ROOTING FOR GOOD ROAD

An Eddy County Necessity that Must be had Before People can Enjoy Life.

GIVE US PASSABLE ROADS OR WE PERISH

Practically every farm journal which reaches our exchange table contains an account of the progress which is being made in the betterment of the public highways. A universal activity has been manifested in the needs of the general public in good roads which are not for the benefit of the farmers alone but for the public in general. It means that the traveling public with conveyances of every description, from the horseback rider to the driver of an automobile, shall enjoy the pleasure, comfort and convenience of a good smooth road, free from tons upon tons of loose, rolling rocks, long deep ruts, or countless "chuck" holes. It means that the farmers can get to market at any and all times of the year with their produce, much to their own satisfaction and also that of the merchant. It means that every one who has a vehicle of any kind will save many dollars in wear and tear on his equipment, perhaps a doctor's bill, or the county be spared an expensive law suit, as the result of a traveler sustaining an injury in an attempt to travel over the bad roads; culverts out of repair, etc.

Almost every state in the union now has a commission appointed which devotes its time to studying methods for road improvements and thousands of dollars are being invested in improvements of the public roads. Here in the Pecos Valley, where the soil conditions are practically perfect, where the rainfall is slight, where snows are almost unknown and where a road once properly constructed will remain so for an indefinite length of time, here, the roads are in all most deplorable condition. In many places it is dangerous for two teams to attempt to pass lest one overturn in scaling a high embankment, or in leaving the trail and winding its way thru the mesquite brush and over salt grass bumps which abound on either side.

During the irrigation period, through the lack of caution on the part of the irrigator, the roads are converted into veritable rivers and hundreds of feet of water are lost from the fields only to soak and bog the public road.

With the use of the King road drag, the roads, after being once worked and put in shape, could be easily maintained at a slight expense and in a short time would more than pay the cost of construction. The use of the drag in one season would easily pay the farmers for its cost. The united efforts of the farmers, working independently of the county, would be worth to them more than their time and trouble in keeping up a good road adjacent to their property and each in turn thus maintaining a good road would permit the expenditure of the county funds on stretches of road elsewhere lying between unsettled communities.

Think good roads! Talk good roads! Make good roads and have good roads.

Regulate the bowels when they fail to move properly. HERBINE is an admirable bowel regulator. It helps the liver and stomach and restores a fine feeling of strength and buoyancy. Price 50c. Sold by Eddy Drug Co.

## Passing Them One.

While in the committee of the whole on the report of the committee on taxation and revenue, and while the republicans were engaged in forcing over the democratic objections a provision under which coal lands were to be assessed at their surface value which is, at the most for grazing, Delegate Moffett, of Otero county, got the laugh on the republicans, and caused them evident embarrassment, by introducing the following:

"Substitute for Sec. 2 of the Report of the Committee on Taxation and Revenue:

"Substitute sections 17 and 18 by striking out all of said sections and inserting in lieu thereof the following:

"Section 17. Timber lands, diamonds, coal, mineral, oil, and other precious stones and valuables, sheep, cattle, horses, burros and other domestic animals shall be valued and assessed according to the SURFACE value thereof, and not otherwise, that is to say: coal land for its surface value, sheep for their pelt value, cattle for their hide value, horses for their "old bone" value, and burros for the value of their pelt."

Now this created considerable merriment, but not among the republican politicians, and it was with savage words that they laid the Moffett amendment upon the table indefinitely. It hit them hard and on a sore spot, as they have not satisfactorily explained the advantage of exempting coal lands from taxation in the same manner as other lands are valued and assessed.

## CARLSBAD PROJECT SCORES

Territorial Engineer Bows to the Rights of Uncle Sam.

A sweeping rejection of all pending applications for water rights on the Pecos river today by Territorial Engineer Vernon L. Sullivan, upon an opinion by the attorney general, puts the people of the Pecos valley from Fort Sumner north in the same fix as the people in the Rio Grande north of the Eagle dam. The rejection is on the ground that the reclamation service has already appropriated more than the normal flow of the Pecos for the Carlsbad project. It will delay if not hinder altogether the development of the Pecos valley north of Roswell and involves such magnificent projects as that of Lake Urton near Fort Sumner. The applicants whose filings have been rejected are: A. A. Jones, H. B. Jones, Fort Sumner and Pecos Land Company, Fred H. Miller, Baldwin & Gibbany, J. M. Miller, Robert P. Ervian, Urton Lake, Land and water Company, George W. Prichard, Dr. J. McCann, L. M. Dismey, W. M. Reed, district engineer of the Reclamation Service and the Pecos Water Users' Association. There is no water subject for appropriation, this being on the theory disproved in the case of the Rio Grande, that all the waters at the head of a river reach the lower course.

## J. D. CHRISTOPHER DEAD

He Passed Away last Monday at His Home in Artesia.

## FUNERAL TUESDAY AFTERNOON

The many friends of Jas. D. Christopher were grieved to hear of his death at his home in Artesia last Monday morning. "Jim," as he was known to everybody, not only in Carlsbad, where he resided for many years but all over Eddy county and in fact the entire Pecos Valley, had been in failing health for the past six years and while the announcement of his death came as a shock it has been generally understood for the past year that he was a victim of tuberculosis and that his recovery had become quite doubtful.

The funeral services were held at the Methodist church in Artesia, Tuesday afternoon at half past one o'clock, conducted by Rev. T. L. Lallance, pastor of the Methodist church at Carlsbad assisted by Rev. J. A. Ray, pastor of the church of the same denomination at Artesia. The subject of the discourse delivered by Reverend Lallance was "Life Triumphant." His remarks pertained to the life of the deceased and bore directly upon the life immortal. He drew from his subject many beautiful and valuable lessons which were

his own ambition, noble purpose and strict, unswerving integrity won a place of influence in his chosen career. About seven years ago he was united in marriage to Letha Gage, daughter of Rev. and Mrs. J. C. Gage, of Artesia. They have two children living, one boy, James D. Christopher, Jr., aged six years, and a little daughter, Regina Mae, aged four years. The deceased had made his home in the Pecos Valley for many years past and was for several years an efficient deputy sheriff under the present incumbent, M. C. Stewart. Once he defeated the present official at the polls and served the county one term as sheriff during which time his health failed and he was scarcely able to fill the term, the greater portion of the work devolving upon his deputy while he devoted his time in seeking to regain his health, all to no avail, although by following a quiet course he doubtlessly prolonged his life several months if not years.

He was genial, companionable and jovial and counted his friends among the ranks in every walk in life; he numbered his friends among the cowboys, the farmers and the business men of the towns. He was a kind and loving husband, a generous and forgiving father and possessed those attributes of character which make a true, honorable and upright citizen. His death will be mourned by a multitude of friends throughout the entire

presented in a series of word pictures and were aptly brought to his hearers, and which impressed upon them the uncertainty of life, the certainty of death and the need of us all in preparing for the Goal. Music was furnished by a choir chosen from the various churches of Artesia.

The pall bearers were Messrs. A. R. O'Quinn, J. W. Armstrong and W. H. Woodwell, of Carlsbad and Judge G. U. McCrary, J. H. Jackson and Jas. Connor of Artesia. At the conclusion of the sermon the services were taken in charge by the Independent Order of Odd Fellows of which fraternity the deceased was a member.

The marked esteem and devotion in which he was held by his friends was evidenced by the large number who were present to pay tribute to his memory and witness the last solemn rites of all that was mortal of their friend and brother.

The floral offerings were numerous and especially beautiful. A number of citizens of Carlsbad attended the services.

## Thanksgiving Day Proclamation.

In the year 1621, after the gathering of their harvests, the Pilgrim Fathers on the bleak shores of Massachusetts Bay appointed a day of thanksgiving and prayer for the many mercies which Almighty God had vouchsafed to them.

Annually since that time, in Massachusetts, a day in the fall has been set apart as a day of thanksgiving and prayer, and this custom has spread until Thanksgiving Day is now observed in all of the States and Territories of the Union, and the President each year issues a proclamation declaring the last Thursday of November to be a holiday and requesting the people on such day to give thanks to their Creator for the manifold blessings they have received during the year; and

Whereas, the President has recommended by proclamation that Thursday, the 24th day of November, A. D. 1910, be observed as Thanksgiving Day:

Now therefore, I, William J. Mills, Governor of the Territory of New Mexico, do hereby proclaim Thursday, November 24th, A. D. 1910, to be Thanksgiving Day, and a legal holiday in the Territory of New Mexico.

## People's Mercantile Company

The observance of this day is strictly an American custom and it should be observed by all. Schools will be closed and the people generally when they can do so should attend places of worship to give thanks to the Almighty for having safely brot' our beloved country through another year; for having given us bountiful crops; preserved us from plagues and epidemics of a general character, and for having given us as a people so many comforts and luxuries. On said day let us also pray to God that like blessings may be vouchsafed our country and ourselves during the year to come.

## Field and Nye.

Engage Field was a great lover of old books and quite a collector of them. His means were not adequate to his desires, however, and one of the quaintest proofs of this was a slip of paper found by a purchaser of an old volume in Field's handwriting, evidently an impromptu verse:

Kind friend, for goodness sake forbear  
To buy the book thou findest here.  
For when I do obtain the pelf  
I mean to buy the book myself.

Another bit of rhyme which is thoroughly American is in the preface to one of Bill Nye's books. It runs:

Go, little booklet, go,  
Heating an honored name  
Thy everywhere that you have went  
They're glad that you have come.

## The Carlsbad Current

Carlsbad Printing Co., Publishers  
Wm. H. Mullane, Pres.

SUBSCRIPTION \$1.00 per annum

Carlsbad, N. M., Friday, Nov. 18, 1910

Official Paper of Eddy County.

The Current was eighteen years old Tuesday, Nov. 15, and is now in its nineteenth year. It started as a daily and two weeks later issued a weekly edition also, which has never missed an issue since. The daily lived two years, until the railroad was extended to Roswell, when it was found that the loss of business to Carlsbad by the railway extension was so great as to make the support of a daily impossible. During the time that Carlsbad was the terminus of the railway from Pecos the town flourished, but since it has become a point on the spur of a great system, the town has not profited much by the railway; but the many years have proved that the country around Carlsbad is able to support a good town, which has made many men rich in this world's goods, for there are none who have located here and used ordinary, fair business sense who have not done well. Dozens may be cited who came here with nothing, who have made fortunes and if only a small percent of their profits were used to help the town it is not improbable that business could be doubled. The town is the best equipped of any in the territory and has a more staple foundation. Carlsbad now has at least 30,000 acres of irrigated lands tributary. This includes the Rocky Arroya and Black river districts as well as the government project. The farms now being developed by pumping will add to the irrigated area as time progresses. The stock interests tributary aggregate about \$500,000 annually. So the continued progress of the town is assured even without more railroad facilities, but if the business of the town can be increased it will attract more railways.

It appears to this paper that it is of great importance to the citizens of this community to wake up to "what's doing" in the Plains country of eastern Eddy county. This section of the country that was scarcely inhabited at all three years ago, is now a thickly settled and prosperous community, and with an unlimited supply of the best water on earth, which stands at a uniform depth of 35 feet below the surface, which when placed on the proverbial rich soil, brings about the splendid results as proven by the experimenting farmers. Untold possibilities lie waiting for the thousands of thrifty, industrious farmers that are fast claiming their reward from the former waste. The present town of Knowles, which is situated in the midst of this great commonwealth, and was not on the map two and a half years ago, is now a thriving town, an important business point, and with the assurance of the Rock Island Railroad building there, it unquestionably will be one of the most important business centers in the Plains country, and will make the outer world sit up and take notice. Lovington is also one of the new towns on the plains, and quite favorably located, is now less than three years old, has made a wonderful growth, having many lines of business represented, and with an ample water supply, will undoubtedly make a good town. The towns of King, Plainview, Nadine and Monument, are also new towns, none of them except Monument being over two years old are striving hard to make good and the unusual hustling qualities, of which these people are possessed, proves that if there is "anything doing" they will have all there is coming to them. If the above mentioned Rock Island Ry. builds to Knowles, it

seems that if the Carlsbad people make the proper united effort this road could be induced to take the southern route, as contemplated at the present time. Carlsbad needs another railroad and she can no longer afford to sleep on her rights, when there is any thing doing along this line.

The New York Christian Advocate, a Methodist publication, contributes a final note to the music of the world when it pays the following tribute to a famous Catholic priest: "Father" Lambert, otherwise the Rev. Louis Albert Lambert, editor-in-chief of the Freeman's Journal of this city, and author of Notes on Ingersoll, Tactics of Infidels, Thesaurus Biblicus, and Christian Science Before the Bar of Reason, died last month at Newfoundland, N. J., a place whose healthfulness is widely known. He would have been seventy-six years old had he lived till February 11. His mother was a Quakeress who, after her marriage, became a Roman Catholic. When the civil war broke out, Father Lambert was appointed chaplain in the army, and after that he was pastor at Cairo, Ill., for two years, when he was made professor of moral philosophy at the Paulist Institute in this city. In 1877 he founded the Catholic Times, at Waterloo, N. Y.; later the paper was moved to Rochester. Father Lambert did a great work in exposing the fallacies of Colonel Ingersoll in the North American Review. The eloquent orator attacked the Christian religion vigorously. Father Lambert replied to him in a series of newspaper articles, which were published in book form, under the title Notes on Ingersoll. This book ran through ten editions in about a year and a half. Two years afterward a "Reply to the Rev. J. A. Lambert's Notes on Ingersoll" was produced by another writer. Immediately Father Lambert answered that in a book entitled "Tactics of Infidels." These volumes have been approved in both Protestant and Catholic circles. The Young Men's Christian Association circulated them by the thousand. A short time after that a dispute occurred between Father Lambert and his bishop, the militant Dr. McQuaid. The bishop took Father Lambert's parish from him. The latter appealed to Rome, which decided against the bishop, and he was forced to give Father Lambert a pastorate, and he sent him to Scottsville, N. Y. The parish work there was light enough to afford him abundant opportunity for writing, and for some time he edited the Catholic Standard of Philadelphia. Since 1894, he had been the chief editor of the Freeman's Journal in this city. He had a strong, keen, witty, logical, hearty style of controversy. We had much pleasure in his acquaintance and had a compact with him that if we erred in any statement concerning Catholicism he would notify us privately before attacking us publicly, and we were to treat him in the same manner. But he did not have occasion to notify us frequently, as we do not hastily represent the views either of our own or other religious bodies. His dissection of Ingersoll's tirades against Christianity was a needful work well done.

The constitution has been formed and will be submitted shortly.

### MY ROSARY

There is something in the way it comes  
About my hands I cannot tell,  
I only know sweet peace it brings,  
A feeling as though all were well.

Ave Maria! Ave Maria!  
The beads fall down in rhythmic sweet  
Dear Mother! and thy Son  
To hear me pleading at His feet.

For faith to lead me through the gloom  
When dark the night comes down to me  
Beyond the shadow of the tomb  
With thee to stand on Calvary.

Find strength to rise above life's storms  
Safe in the shelter of the Cross;  
Thy prayers should keep my soul from harm  
Ave Maria! Ave Maria!

## HINTS ON LAUNDERING.

How to Wash and Iron Fine Pieces at Home.

If women would only launder their delicate lingerie waists themselves instead of putting them with other clothes to be rubbed to pieces they will be repaid by their wearing three or four times as long.

First carefully mend any little rip or tear in the waist, then wash in warm water with pure white soap, rubbing as little and as carefully as possible. Squeezing will take most of the dirt out. Rinse the soap out thoroughly, putting a few drops of bluing in the last water. Make a thin starch by putting one heaping tablespoonful of starch in a flat earthenware crock, adding cold water to make a paste, then turn on slowly one quart of boiling water, stirring all the time, and add a bit of bluing. Dip the waist in this, wring out and if white hang in the sunshine to dry and whiten; if colored, dry indoors. Half an hour before ironing sprinkle and roll in a towel. Be sure your irons are clean and rub a little paraffin over each one and try on paper before using. Remember that pounce should always be ironed when it is perfectly dry and with a warm, not hot, iron.

Iron the sleeves first, and by using a small iron you will find it possible to iron them without creasing, even if you do not possess a sleeve board. Then iron the body of the waist, doing the tucks and plain part first on the right side, leaving the embroidery and lace, which should be ironed on the wrong side, for the last. To iron the tucks nicely start at the shoulder, holding the waist at the bottom of the tucks firmly with the left hand to straighten them, and be careful not to use too hot an iron.

The muslin ties and jabots look much softer and prettier if no starch is used, but the little neck things that are intended to hang straight can have just a bit of thin boiled starch in them. The plated jabots should have the plaits firmly basted into place with fine stitches before being washed, and it is better to baste just at the bottom edge, so the lines of the thread won't show when it is ironed. When ironing begin at the bottom, pulling it gently from the top. The plaits adjust themselves.

It is a simple thing to launder embroidered collars and takes but a few minutes. Make a little cold starch by adding one-half tablespoonful of starch to a pint of cold water and add a drop of bluing. After washing and rinsing the collars rub them in the

starch, fold them in a cloth for about ten minutes, place them on a well padded ironing board, then cover with a cloth and iron on the wrong side until nearly dry, then without the cloth until perfectly dry, finishing the buttonhole part on the right side to curve it. Turn over the embroidered part last.

### Recommends Liberal use of Guano.

LOVING, NEW MEXICO, SEPT., 1, 1910.

Carlsbad Guano & Fertilizer Company.  
GENTLEMEN:—In reply to your request for my experience with guano used as a fertilizer, will say:

In the spring of 1909, I fertilized twenty acres, which I seeded to alfalfa, putting about 200 pounds per acre, well disked in before seeding. The crop of 1910, both hay and seed, was considerably greater than on other ground, maturing from ten days to two weeks earlier. Am very favorably impressed with results I have obtained, and personally recommend the liberal use of guano in this valley.

Yours truly,  
W. H. CARTER.

Best Product on the Market for the Money.

Carlsbad, New Mexico, October, 6, 1910.

To Whom it may Concern:—  
This certifies that I have used the bat guano of the Carlsbad Guano & Fertilizer Company on various kinds of soil in the production of alfalfa. I find that 300 pounds per acre invariably insures a good stand, a fine yield and is the best product on the market for the money for results.

Mrs. Will Wood left this week for her home in Winter, Texas, after a visit with her sisters, Mesdames L. E. Merchant and and Laura Mitchell.

D. R. Harkey loaded and shipped six cars of cows, calves and stock cattle to Kenna, last Tuesday, where they will be put on pasture for the winter.

During the winter months the services at St. Edwards' will be held at 10 A. M. Sundays, with instruction for the children and benediction from 2:30 to 4 P. M.

Tom Jones returned from the Sacramento sinks last week, where he put in a couple of months with a surveying party, assisting in surveying five townships.

Jack James returned Tuesday from south of Kenna, where he drove several hundred cattle to pasture for the winter at what is known as the White Lake pasture.

John Piper, who has been in the employ of the Public Utilities company for some months past, resigned his position with them recently and left last Tuesday for points in Texas.

W. A. Work was in from the Buckeye Sheep ranch this week where he has been trapping for the past month. He reports fairly good success. He says coyotes are plentiful as are also gray wolves and other sheep destroying animals.

Attorneys Armstrong and Woodwell went to Roswell Tuesday morning where they have cases pending in the district court which is in session at that place, this week. They stopped at Artesia to attend the funeral of Jim Christopher.

Messrs. John Plowman and J. R. Means brought a bunch of 32 horses down from the mountains Tuesday, and shipped them to South Texas points. Mr. Means accompanying them to sell them in lots of one or more. Mr. Plowman and Oran Means returned to Queen Wednesday.

Mr. and Mrs. W. M. Bowden left last week for their home in Mayfield Ky. They were here visiting the families of W. A. and H. M. Bowden for two weeks. While here they visited many points of interest and report a most delightful time during their stay in the beautiful Pecos Valley.

A. M. Russell, otherwise "Pat" and wife rejoice in the advent of a brand new baby girl at their home, who arrived October 31st. The announcement, though a little late, was caused by the absence of "Pat," who as soon as he had time to come up town after coming home could not keep the news longer and so it leaked out.

Mr. and Mrs. J. R. Holt expect to move into their new home within the next few days. The house has been remodeled and rearranged and is now fitted with every modern convenience making it one of the most complete and comfortable homes in Carlsbad.

Roy Burnett drove in from the D ranch, about fifty-five miles, Saturday, in three hours, in his fine auto. The roads out in that direction are fierce, and this is considered excellent time.

Jas. M. Stevens who for three years held responsible positions as expert horse shoer in the shops of Carlsbad returned last Friday to take a position with the O. K. Shop. Shorty is well known and has many friends whom he asks to call at his present location when in need of anything he can do.

Dr. W. H. McLenath left last Tuesday afternoon for his home in Brooklyn, N. Y., after a stay of a month in Carlsbad with his brother, Mayor C. H. McLenath and his son Paul. Two weeks of his visit here were spent in a deer hunt with a party in the Guadalupe mountains. He will visit at points in Texas and also in New Orleans before returning to his northern home.

Just received all kinds of pickles. Dill pickles; sweet pickles, sour pickles etc, and also the celebrated Bismarck Saurer Kraut.

Lilian, the daughter of Dr. and Mrs. A. A. Bearup, has been very sick with typhoid fever at the family home the past few weeks. Their many friends will be glad to know that she is holding her own with the fever, at present, and the physician in attendance thinks she will recover.

The party of deer hunters composed of Messrs. Y. R. Allen, Roy Waller and A. G. Shelby, of this city, and Homer Wilder, Dr. Higgenbotnam and son Gary, returned last Saturday night from the Sacramento mountains where they have been pursuing the wily deer. They succeeded, in so far as four deer and countless wild turkeys are concerned. They report a most enjoyable trip.

Anton Kaine, the tinner, chap-eroned to the Spencer dam, Monday, Reverends Lorenz and Samuel and Brother Christopher, of St. Edwards. Mrs. Kaine also accompanied the party. In another rig were John Bogelin and son, Bernard Stutz and Ike Richards. They camped near the dam and hunted for quail, duck etc. for four days.

H. H. Wilson had a narrow escape from what might have been a serious accident at his home south of town last Monday evening. After returning home late in the evening he attempted to rekindle the fire in the heating stove in a hurry, and in so doing used a liberal supply of kerosene oil. When he applied a match a small explosion followed which resulted in singeing his eyebrows, eye lashes and the hair around his forehead. No serious damage was done.

W. H. Sanders, of the Ballard Medicine company, of St. Louis, was in town Wednesday in the interests of his house.

A party composed of R. L. Slaughter, R. L. Slaughter, Jr., J. H. Armstrong, all of Fort Worth, J. T. Holman and Frank F. Gary, of Big Springs, Texas, and H. T. Collins, of London, England, arrived in Carlsbad this week, from a hunting trip in the Guadalupe mountains where they bagged four deer. They have been the guests of Roy Burnett on the D ranch for several days past. They made the trip from Ft. Worth in an auto and aside from the customary punctures and "blow-outs" experienced little or no trouble in the trip. They expect to return to the Burnett ranch this week from which place they will take a short hunt in the mountains for bear after which they will start on their return trip to Fort Worth.

Do not miss the treat offered by Misses Lynn and Slaughter in their evening of music and physical culture at the Auditorium December 2nd.

## Indoor Band Concerts.

On account of the cool weather, evenings, the band concerts from now on, during the winter season, will be held in the Lyric theater every Friday evening as heretofore. Free season tickets are issued to the regular subscribers to the band, and which also entitles them to the entertainment given in connection with the band concert, by Messrs. Walker & Bunch, managers of the theater. The regular admission will be charged to the general public. If you wish to compound your interest on your investment subscribe regularly to the band fund. The boys are making remarkable progress and are deserving of your support.

W. J. Barber in company with Messrs. Pinkerton and Reitz, cattle buyers, returned last Tuesday from Queen where they have been on a cattle buying expedition. While there they heard through a messenger from the hunting party composed of Messrs. Owen, Cantrell, et. al. that they were having a fine time and up to Saturday night had bagged two deer, one of which was shot by George Beckett, the name of the other fortunate man was not learned. As Tuesday was the last day for deer shooting they returned, arriving in the evening having eaten the two deer and found no others.

## Railway Change.

Last Tuesday witnessed the inauguration of a change in management of the Eastern Railway of New Mexico and the other branches of the Santa Fe system which has here to fore been operated under the same management. Under the new regime George C. Starkweather who has been superintendent of the E. Ry. of N. M., the P. & N. T. and the S. K. of T., has been promoted to the position of general manager of the same roads. J. E. Mahon, from the main line of the Santa Fe, assumes the duties of division superintendent; M. D. Eliot succeeds Starkweather as superintendent; R. J. Woodward is made train master and Joe Klassner is made general foreman of the Bridge and Building department. The division which formerly extended from Amarillo to Pecos has been rearranged and now includes the Belen Cut-off, extending from Clovis to Belen, west and also the E. Ry. of N. M. extending from Clovis to Pecos south. The division headquarters will be located at Clovis.

## Forming a Country Club.

Every community should have a country club. More important perhaps is the fact that every community can have one if there is just one man to go ahead, work up enthusiasm and carry out details. Almost every club in the country owes its existence to the public spirited efforts of some individual.

Two or three things seem reasonably certain to successfully start such an enterprise. One of two persons must do most of the work.

The initial dues will prove to be insufficient and will later be raised.

When the success of the venture is sure every one will want to join.

If the club survives the first year of disappointment and complaints it will go on.

A membership waiting list is the best asset of all.

## Too Talkative.

The following story is told of the famous painter Makart: The artist was a very passionate chess player, but he did not like his adversary to utter a single word during the progress of a game. A stranger who was very anxious to get on intimate terms with the famous artist thought to be able to achieve his object by means of the royal game. After many tries he succeeded at last in getting an introduction to Makart, and one day the latter consented to play a game with him. Being well aware of the fact that his adversary was very much averse to any talk during the game, not a word was spoken, and even the word "check" was never spoken. All the stranger dared to do was to touch his adversary's king when he put that piece in check. The game ended in Makart being mated, when the stranger quietly said "checkmate". Makart rose very excitedly, threw the pieces off the board and, giving his opponent a fierce look, got off his chair, turned his back to the stranger and exclaimed "Prattler!"

## ROAD BUILDING EXPERIMENTS

Results of Tests Made Near Harrisburg, Pa., of New Methods.

Important changes in the matter of constructing state highways are likely to be made as a result of experiments being conducted by the Pennsylvania state highway department. These were begun two years ago, when it became apparent that under the stress of increasing automobile traffic the ordinary standard macadam roads could not be kept in first class condition without expensive repairs.

The various experiments have been made in the vicinity of Harrisburg, in order to be frequently inspected. The first was a piece of road built on what is called the penetration system in 1908. Upon the usual foundation was placed a layer of crushed stone, half the thickness of that ordinarily used in macadam construction, and into the interstices was poured an asphaltic oil containing about 80 per cent of asphalt. The surface of the road was then covered with dry stone screenings and the mass rolled. Although subjected to heavy traffic for over a year, the road shows but little evidence of wear and is nearly dustless.

Two pieces of road closely resembling the ordinary sheet asphalt pave

ment, which were built last year, show practically no evidence of wear. Telford blocks, laid by hand, were used as a foundation, and on top of this was placed a mixture of crushed stone and asphalt, mixed hot and rolled. A surface of fine stone screenings and asphalt was placed over this.

Another experimental road now being constructed has a telford base, upon which is placed a layer of crushed stone and asphalt mixed with the stone cold and the asphalt hot. The surface is sprinkled with hot asphaltic oil and covered with a thin coating of coarse stone screenings.

These various methods exceed the cost of ordinary macadam by at least 25 per cent, but this extra cost is supposed to be more than compensated by the reduced cost of upkeep.

The department is also experimenting with a dust layer for ordinary macadam roads known as glutria. It is a byproduct of wood pulp making. The liquid has the consistency and appearance of tar. It is soluble in water, and one of its peculiarities is that each succeeding rainfall renews the bonding or cementing qualities of the compound. A piece of road dressed with it early this season is being carefully watched by the department.

## A BOON TO ANY STATE.

Money Value of a Hard Wagon Road to the Farmer.

The reduction of a cent or two in railroad rates or a similar increase in far less importance to the farmer than

the condition of the wagon road on which he hauls his produce to the railroad. If he must waste a day going and coming, if he must haul a small load for fear of getting stuck en route, if sometimes he cannot get through the road at all, even though the market price of his product be at that time unusually high, what does a slightly lower or higher rate on the railroad profit or harm him?

On the other hand, a hard, level road is his good servant. He can make the trip thereon quickly at almost any season of the year. He can haul a large load and so have to make the trip less frequently. A good road means, therefore, a practical reduction in the cost of getting his products to market. It means more money for every bushel of wheat or potatoes or other crop. It means a lower cost for all the supplies he buys in town.—Minneapolis Journal.
