VOLUME 4.

ALBUQUERQUE, NEW MEXICO, SATURDAY, AUGUST 11, 1894.

NUMBER 40.

TERRIBLE ACCIDENT!

Rock Island Passenger Train Demolished in Nebraska.

Number of Passengers Burned to a Crisp.

Wreck Supposed to be the Dastardly Work of Enemies of the Road.

LIST OF KILLED AND INJURED.

Lincoln, Neb., Aug. 10.—A fearful wreck, involving the loss of twelve or more lives, occurred on the Chicago, Rock Island & Pacific railroad, where it crosses on a high trestle the tracks of the Union Pacific and Burlington & Missouri river roads, at 10 o'clock last night. The Fort Worth accommodation was due to arrive at 9:40 p. m. Last night it was about ten minutes late, and was making some time when it struck the trestle that crosses Salt creek. The rails spread and the engine, drawing two cars after it, went thumping along over the cross ties about fifty feet and then with a crash all forty feet to the bed of the creek. The engine burst and the glowing coals spreading ignited the wooden supports and coaches behind it, and in a few moments the bridge, dry as tinder from exposure to the sun, was a mass of flames. Coals falling upon the coaches lying in the ditches set them on fire, and minutes after the first warning the cars with their human freight were one mass of flames, from which shrieks of agony were heard to issue. Willing hands were there to help, but little could be done. The engine had fallen first, then the combination smoker and express car, and the rear coach falling behind it, and the car, pinning the unfortunate in the smother so that it was impossible to save them or for them to escape. The wrecking crew so far has recovered only a few blackened bones and fragments of burned flesh.

A SHAP OF CIRCUMSTANCES.
Nothing remains of the Rock Island train, which was wrecked five miles south of this city last night, but a heap of twisted and mangled iron mingled with debris and the remains of at least eight men, and it is believed the total number of deaths will reach twelve.

LIST OF KILLED.
Those known to be killed are, C. D. Standard, Council Bluffs, conductor, burned to death; William Craig, Fairbury, Neb., fireman, buried under engine; Isaac Dewey, engineer, Council Bluffs, instantly killed; Counselman, elevator builder, Narka, Kas., W. O. Hambell, Fairbury attorney, burned to death; Sanger, traveling man for Counselman, the grain dealer; E. H. Zerneke, abstracter, Lincoln; Henry Peters, blacksmith, Council Bluffs.

THE INJURED.
F. P. Scott, Holtan, Kas., express messenger, fatal internal injuries; Col. J. C. Ellis, Fairbury, Neb., treasurer National guard, U. S., badly hurt, but will recover; A. McDowell, Fairbury, legs cut and badly lacerated; Harry Foote, Council Bluffs, brakeman, leg broken; Porter, traveling man, Lincoln, internal injuries; the Frits and sister, Lincoln, a passenger named Somerel, hurt about the head; A. S. Bell, the Lincoln traveling man, was not killed, as at first reported, but terribly injured internally.

It is reported by Brakeman Foote that he is the only one of the train crew who escaped, and that five traveling men and two farmers were in the car burned.

A number of people are missing, and it is feared that C. Unruh, mother and son, of Janes, are among the dead. M. Weaver, a clothier, and A. B. Eddie, both of Pawnee City, cannot be found, and are supposed to have perished. An unknown man, said to have come from McPherson, was on his way to the Black Hills, is supposed to be among the dead.

WORK OF WARRIORS.

J. W. Glover, section man, to-day said he saw three well dressed men jump the freight and go west. He said each one carried a long brand new satchel. This gives rise to the suspicion they may have been Round Bunch, Oklahoma, enemies of the road. Marks made by a wrench on a loosened rail were plainly visible. The wood of the ties was deeply dented where a crow bar had been inserted and rails were lifted clear of the ties and spikes pulled out were lying loose around the bridge. C. H. Cherry, the colored mail clerk, was to have been carried in a month. The loss to the railroad company alone will amount to \$50,000.

PAID THE FINE.

London, Aug. 10.—Richard Snell, confidential private secretary to Lord Roth-

THE CONFERENCE.

The Senate Will Report Disagreement on Tariff Bill.

Alabama Election to be Investigated by Congress.

The Bicycle Relay Riders Crossing the State of Iowa.

FULLMAN WILL EVICT TENANTS.

Washington, Aug. 10.—It is stated on the authority of a conservative senator that the republican senators will be called into conference to-day and the senators will make a proposition to report a disagreement on the tariff bill. If the house will not accept, this resolution is to be presented in the senate recalling the senate conference. It did not take the conference long to find that they could come to no agreement on the basis of free sugar, the rest of the senate bill accepted. Within half an hour after the conference began, the senate conference left the room and met Gorman. Other conservative senators were sent for and it was said a point had been reached where a decision one way or the other must be reached.

Election Investigation.
Washington, Aug. 10.—Chandler to-day in the senate offered a resolution directing the committee on elections to investigate the Alabama election, and ascertain if frauds were committed. At Hill's request the resolution went over until to-morrow.

Great Race.
Ocala, Iowa, Aug. 10.—The Washington-Denver relay riders passed Ocala at 4:35 a. m., twenty-three hours ahead of time. Emil Kostomarov, of the Ocala division, made a relay of nine miles in 27 minutes. The Ocala relay ended at Prairie City at 7:14 a. m., twenty hours and twenty minutes ahead of time, making 44 miles in 2 hours and 30 minutes, a gain of 1 hour and 3 minutes.

American Wheelmen.
Denver, Aug. 10.—The incoming of visitors preliminary to the coming annual meet of the League of American Wheelmen commenced in earnest this morning, and from now on until Monday the special and regular trains will be packed with cyclists from far and near. For the fourth time this summer Denver has put on its holiday garb and brought out its best bib and tucker.

Will Evict Tenants.
Chicago, July 10.—The Pullman company has practically decided to evict the striking tenants for non-payment of rent. Vice President Wickes said to-day that the new employees must have houses. The announcement creates great excitement among the strikers.

Nebraska Republicans.
Holdrege, Neb., Aug. 10.—The republican congressional convention of the fifth district nominated Prof. W. E. Andrews, of Hastings. He ran against Congressman McKelgan two years ago and was defeated.

Fire at Pittsburg.
Danville, Ill., Aug. 10.—Almost the entire business portion of Pittsburg, a town of 600 inhabitants, 15 miles west of the city, burned last night. The origin of the fire is unknown.

The residence of James Cunningham at Hopkinton, the finest private residence in eastern Illinois, just completed at a cost of \$27,000, was burned last night; no insurance.

Condition of Grain Market.
Chicago, Aug. 10.—The grain markets to-day were decidedly quiet and steadier than during the past few days; in fact, they appear to have about resumed a normal condition. The feature of to-day's trading was the strong preference for September, the former becoming the leading option. The board of trade firm of Boege, Frazer & Co., assigned to-day. Fluctuations in the corn market and the failure of the Hawkeye Commission Co. of Omaha, are believed to have caused the failure. Boege & Frazer were heavy stockholders in the Hawkeye company. Liabilities \$35,000; assets \$3,500.

Drowned at Needles.
Special to The Citizen.
Needles, Cal., Aug. 10.—W. D. Gilbert, colored, while bathing in the Colorado river about a mile from town, was drowned and his body has not yet been recovered. Diligent search is being made, but as the river bed is composed of quicksand it may be weeks before it is recovered.

Wonderful Amnesia.
Says the Denver Daily Mining Record: Mr. R. L. Nichols, of Golden, N. M., one of the owners of the Gypsy Queen, arrived in this city this morning with a sufficient quantity of the ore to make a mill-run test. Mr. Nichols reports mining operations very active in the Ortiz mountains, where his property is located. Record readers will remember about two weeks ago, when Mr. Nichols came up from Golden with samples of Gypsy Queen, which he had assayed in this city. The result was so enormous that it was determined to at once make a mill-run. The assay from the Gypsy Queen at a depth

of fifty feet gave results of 1,891.4 ounces of gold, or a value of \$28,756.10 per ton. This result from a free milling rock was astonishing, and the owners at once put to work three shifts on the property to do further development work. The owners are Las Vegas parties, who with Mr. Nichols have three claims, or 4,500 by 600 feet on what they believe to be the famous Ortiz group vein.

Not Reduced in Rank.
London, Aug. 10.—A correspondent of the Times at Tien Tsin declares the report that Liung Chang had been reduced in rank by the imperial command is entirely unfounded. The report that the Chinese general, Yen, was killed in battle with the Japanese at Anson, is also declared to be untrue. A further denial is made of the report that the Chinese steamer Kowang had been sunk. The Chinese government has ordered authorities throughout the empire to protect foreign missionaries.

BONES OF A MASTODON.
What a horror found at Placitas—Mormon stories.
CHILDS, N. M., Aug. 8.

H. M. Brown, deputy United States surveyor, of San Pedro, is down sectioning the fractional townships adjoining the Chilili grant. He states that recently, while he was surveying near the little town of Placitas, opposite the north end of the Sandia mountains, he found the bones of a mastodon deeply imbedded in a bank of blue clay. Many of the extremely large bones are now to be seen projecting out of the creek bank. He has one of the teeth which he thinks is small compared to the other bones seen. It is about ten inches across and about sixteen or eighteen inches long. The roots to the teeth are very well preserved.

Two good horses were stolen from the Cinegra Farm three miles west of Antelope, Sunday night, July 29th. At last accounts the stock had been heard from and the parties concerned are satisfied as to who stole them.

Chas. Fowler, cattle inspector for the Albuquerque district, and Harry Gray, inspector for the southern portion of New Mexico, were here looking after a herd of cattle that came from about thirty miles west of Los Lunas. They overtook them about three miles east of Indian springs. They cut the herd and got twenty-three head of cattle belonging to parties scattered over a wide range in this territory. A man by the name of Lon Edleman owned the herd.

Dr. Wroth was called to visit the sick of J. W. Hoising at Indian Springs.

Crazy Man Abroad.
Judge W. C. Heacock, attorney at law was at Winslow Wednesday on legal business, returning to the city on the delayed passenger train late yesterday afternoon.

He informed THE CITIZEN that the train was delayed twice on account of a crazy man. At Daguerre, Cal., the man jumped off the train while it was moving, falling heavily on his face. He was not missed until the train had gone some distance. The engine was sent back after him. He had presented a bloody sight, being badly bruised and scarred as the result of the fall. He remained comparatively quiet until the train reached Laguna, when he sneaked unnoticed out of the car and hid in the depot. When the train pulled out he did not get aboard, but a few minutes later while the train was yet in sight of the station, the conductor observed the crazy fellow walking up the track in the direction of the moving train. The conductor rang the bell and the engine stopped the train. Special Officer Cade Selvy was on the train, and he went after the man. He was placed on the train again and chained. The man had a through ticket to his old home in Germany.

Judge Heacock states that he met Chas. Zeiger at Holbrook, and saw G. L. Brooks standing on the bank of the Little Colorado river waiting for the water to recede, so as to drive across the stream to Holbrook for shipment several hundred steers from the Aztec Cattle company ranch.

The judge also informed THE CITIZEN that the Colorado county court, at Flagstaff, opened yesterday, with Judge Hawkins presiding. He also stated that heavy rains visited the western section of Arizona yesterday and the day before, causing small washouts in several places on the Atlantic & Pacific.

Oh, What a Surprise!
What an agreeable one, too, is experienced by the hitherto misguided individual who has been carelessly but vainly doing for years and years in the futile hope of curing constipation, when drastic pills and potions are abandoned for Hostetter's Stomach Bitters, a faithful auxiliary of nature, which does its work without griping or weakening, but always effectually. "Throw physic to the dogs!" and use this benign and thorough laxative, which achieves results which astonish as well as gratify those who use it. Not only a regular habit of body but complete digestion and assimilation are restored by its use. It regulates the liver and kidneys, and counteracts a tendency to rheumatism. In no case where it is possible to procure it should its use be delayed. Fortify with it against malaria.

M. A. Otero, of Las Vegas, who has been hobnobbing with the republican politicians of this city the past few days, left for his home this afternoon.

Dr. Price's Cream Baking Powder
World's Fair Highest Award.

CONGRESSES.

Disagreement on the Sundry Appropriation Bill.

National Regatta on Lake Saratoga.

Russian Fleet and Army Gathering on Korean Frontier.

BRITISH YACHT RACE.

Washington, Aug. 10.—The senate bill granting to the Northern Pacific railroad company right of way through Indian reservations in Minnesota, was passed by the house to-day.

Chairman Sayers of the appropriations committee reported a disagreement of conferees on the sundry civil bill as to the senate amendments, involving \$621,929. The house ratified agreements which had been agreed to and discussed amendment upon which there was still disagreement.

Senator Hill tried to obtain recognition to offer a resolution calling for information as to the status of tariff conferees, but was crowded out.

Annual Regatta.
Saratoga, N. Y., Aug. 10.—The great aquatic event of the year—the annual regatta of the National Association of Amateur Oarsmen—opens here this afternoon, and, as in previous years, it has attracted the cream of the amateur oarsmen of the territory east of the Mississippi river. The entry list is scarcely as large as last year but in the matter of quality it is of a high standard. The race-course is beautifully located four miles from the city, and is surrounded by high bluffs which afford a magnificent view. The lake itself is nine miles long and three miles across at the widest part, while the course is situated at the extreme northern end and is well sheltered from the winds.

Regatta Races.
Saratoga, N. Y., Aug. 10.—In the national regatta to-day the first race for senior pair oared shells was won by the Vesper boat club, of Philadelphia; Atlanta, of New York, second. Time, 10:24.

Second race—First trial, senior singles, was won by Ferdinand Koenig, of the Western rowing club; E. Thompson, Argonaut rowing club, Toronto, Canada, was second; Willis Caffery, Riverdale boat club, Cambridge, Mass., third. Time, 10:14.

Third race—Second heat senior singles, Fred Hawkins, Laureate boat club, Troy, N. Y., first; Russell, second; Chas. E. Bulger, Albany rowing club, third. Time, 10:24.

Russian Fleet.
Berlin, Aug. 10.—A dispatch to Tagblatt from St. Petersburg says: In addition to the eight Russian warships which sailed recently from Vladivostok under sealed orders for Korea, the commander-in-chief of eastern Siberia has been instructed to hold troops in readiness to march at any moment. Russia wishes to maintain a strict neutrality, but as soon as a constitutional change occurs in Korea, she will resolutely protect her interests. The dispatch states that France has declared her readiness to co-operate with the Russian fleet in the far east.

Was the Shield.
Cowes, Aug. 10.—The Britannia, Ivernia and Viking started to-day in a race for the motor challenge shield, presented by the German emperor, event being open only to yachts. The Britannia won the shield last year, beating the Santitas. The Ivernia and Viking soon retired from the race to-day, and the Britannia sailed over the course alone. The Prince of Wales becomes the owner of the shield, having won it two successive years. The Britannia and Vigilant will try issues again Monday.

Charged with Murder.
Montgomery, Ala., Aug. 10.—The supreme court has handed down a decision declaring Judge Job Talley, of the North Alabama court, guilty of murder and he is ordered imprisoned and stripped of his judicial emblems. The case grew out of the killing of Robert C. Rose, cashier of the bank at Scottsboro, by the three Skelton brothers, for the solution of their sister. Rose was attempting to leave the country when overtaken and murdered. Judge Talley, who is a relative of the Skeltons, prevented the delivery of a telegram to Rose warning him that he was being followed. For this act the supreme court holds that Talley is as guilty as those who fired on Rose, and he must stand for murder.

Low's Battle Rings.
Des Moines, Ia., Aug. 10.—Amid patriotic orations, with the music of bands innumerable, and amidst the acclaim of a multitude, the treasured battle flags of the Hawkeye state were to-day removed from the arsenal where they have hitherto found a resting place to a permanent home in the state capital. Preparations for the event have been in progress for several months and public interest in the event was increased by the stirring "Battle Flag" proclamation issued by Governor Jackson. Last night and early this morning the stars and stripes were liberally thrown to the breeze while every

available yard of bunting was brought out and utilized to give the city a gala aspect. To the gray-haired veterans of the state it is even a greater event than a national G. A. R. encampment and for forty-eight hours they have been pouring in, filling up the hotels and crowding the residences of the hundreds of citizens whose latching for this occasion has been hanging on the outside.

City of Mexico, Aug. 10.—In a duel with pistols last evening Senor Jose Verasagui, chief of government stamp department was killed by Francisco Romero, a well-known congressman. The second of Verasagui were Apollon Castillo, president of the Mexican senate and editor of El Partido Liberal, and Ramon Priola, a congressman and editor of El Universal. The seconds of Senor Romero were Senor Barrios, a Spaniard and Gen. Lauro Carrillo, ex-governor of Chihuahua and a member of the senate. The duel was the result of a quarrel over a woman. On the first fire Verasagui fell with a ball through his heart.

SCHOOL OF MINES.

Regents Make the Best of an Unfortunate Dilemma.

It has been definitely agreed that the school of mines will be closed during the coming year, says the New Mexican. It seems that the tax levy provided by law is not sufficient to maintain the school in such a manner as to be creditable to the territory. The regents have, in view of this unfortunate dilemma, concluded that it was to the best interest of the territory to close the school for the present, and use all sums collected from taxes for the purchasing of a laboratory and satisfactory equipment preparatory to opening the school next year. The board came to the conclusion some time ago that this was the best thing to be done, but it was unfortunately handicapped by a contract made with Prof. Floyd Davis for a period of three years, (of which he has served one year), and it was feared that he would be entitled to receive his salary for the full period of the contract, whether his services were required or not. To avoid this dilemma the board some time since requested the governor to use his best efforts to see if an amicable settlement could be made. The settlement was consummated last Saturday by Prof. Davis agreeing to accept his salary for the past year and a sufficient amount to cover the expense of moving his family to New Mexico and returning east, which was estimated at \$4,000. The settlement was finally concluded upon these terms. There has been no dissatisfaction felt with Prof. Davis. His course while in charge of the school has given entire satisfaction and there is no other reason for relieving him of the presidency of the institution except those given above, that the financial condition of the school will not justify its continuation for the present.

EQUALIZING TAXES.

Proceedings of the Territorial Board of Equalization.
The territorial board of equalization held a busy session yesterday afternoon and is at it again to-day. There are present Commissioners John Corbett, president; M. C. de Baca, secretary; Romulo Martinez and W. D. Kelly; Commissioner Kennedy, from the Albuquerque district, is absent.

Nearly a score of appeals are under consideration. In the matter of John Corbett, assignee for Wm. Berg, of Denning, the assessment was cut down from \$5,900 to \$4,000, and in the appeal of the Diamond L. Cattle company, of Grant county, the assessment fixed by Assessor G. W. Miles and the county board was sustained.

Much interest was centered around an appeal from Bernalillo county where, in compliance with the rates fixed by the territorial board in January last, County Assessor Santiago Baca assessed the timber lands of the Mitchell Lumber company, M. S. Otero and others at \$1 per acre and the county board cut it down to 25 cents an acre. Assessor Baca also raised the railroad return some \$40,000, their return, it was alleged, being that much short of what the rates established by the territorial board of equalization called for. The board is discussing a resolution sustaining the action of Assessor Baca in both cases.

Among the appeals under consideration to-day is one from the Mimbres River Cattle company, represented by S. Lindauer, of Denning; one from the Sierra Land & Cattle company, represented by Robt. Hopper, of Hillsboro; one from the Los Animas Land & Cattle company, represented by Hon. W. S. Hopewell, and one from Union county, wherein the Union Pacific, Denver & Gulf road claims exemption from taxation under section 2691, compiled laws of New Mexico—New Mexico.

Shelton's Arsenic Salve.
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dr. Thos. E. Burgess & Son, druggists.

The New Mexican says: In the supreme court this forenoon the case of Clerk H. S. Clancy, charged with contempt, came up and the court made an order requiring Judge Warren to make his interrogatories more specific and answer on Monday next. Hon. N. B. Field appeared as attorney for Clerk Clancy.

Easy to Take

And Perfect in Their Action.

AYER'S PILLS

Never fail to relieve Dyspepsia, Constipation, and Headache.

"I have proved the value of Ayer's Pills in relieving dyspepsia and headache, with which complaints I was so long troubled that neither the doctor nor myself supposed I should ever be well again. Through the use of the above medicine I am better than I have been for years."—A. GASKILL, Versailles, Ill.

"I have used Ayer's Pills for 15 years as a cathartic in liver complaint, and always with extremely beneficial effect, never having had need of other medicine. I also give Ayer's Pills to my children, whom they require 'an aperient,' and the result is always most satisfactory."—A. A. EATON, Centre Conway, N. H.

"Having been severely afflicted with constiveness, I was induced to try Ayer's Pills. Their use has effected a complete cure, and I can confidently recommend them to all similarly afflicted."—C. A. WHITMAN, Nipomo, Cal.

AYER'S PILLS

Receive Highest Awards AT THE WORLD'S FAIR

Preparations Being Made for the Fair

Remember the dates of the annual fair, Sept. 11, 12, 13 and 14, inclusive, and prepare something to exhibit.

San Juan county exhibitors are preparing to bring one of their displays of grains, fruits and vegetables, equal to any exhibition in years past.

Reports from several of the vice presidents appointed from the different parts of the county, making this year's fair a grand success, both as to exhibits and of getting a good attendance from their localities.

The special premiums in the poultry department are more complete than ever before. A large number of subscriptions to poultry journals, and settings of eggs of different breeds. Let the breeders prepare their fowls for exhibition.

The entries in the speed department promises to be larger than ever before. Quarters are already engaged for a car of speed horses from Denver, Colorado, and from correspondence from other sources it is learned that other stables will be here.

The bicycle tournament is exciting a great amount of interest and promises to be one of the main features of the sports. The association are arranging to give the following races: The mile open for the challenge cup held by Mr. A. J. Fischer, of Santa Fe, which must be won two years in succession to become the property of the winner. One-fourth mile dash. Five mile dash. One-half mile dash. Two mile handicap open to all; and age or weight handicap race of one mile for Albuquerque riders only over 30 years of age, no one taking part in other races eligible, the person weighing 150 pounds to be scratch man. The allowance of one foot for each pound to other riders, over the limit weight.

Marvelous Results.
From a letter written by Rev. J. Gunderson, of Dubuque, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at River Junction she was brought down with Pneumonia, succumbing to the disease. Terrible paroxysms of coughing would last for hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results. Trial bottles free at Dr. Thos. E. Burgess & Son's Drug Store. Regular size 50c. and \$1.00.

Way of the Citizen.
That boycott of the Citizens against the Albuquerque Street Railroad company must still be in force. The receipts of the company never were so good as now.—Democrat.

A few weeks ago when the street railway company took up the passes of the reporters of the two daily papers, the colonel rushed to this office and insisted that the papers were "unlawful" and urged a kick. THE CITIZEN agreed, and in the afternoon kicked. The colonel vowed he would make it hot for the street car company, and he did. Early the next morning he rushed to the manager of the company and borrowed \$25.

Dr. Price's Cream Baking Powder

World's Fair Highest Award.

Levi Baldwin, the sheep raiser of the Dali mountains, Socorro county, was in the city yesterday, and for a time was in the hands of Frank Waugh, who was showing the gentlemen courtesies. Mr. Baldwin informed THE CITIZEN that western Socorro county has had the finest rains he has witnessed there for years, and that the sheep ranges are looking fine. He left for Las Vegas last night on business.

COPPER RIVETED OVERALLS
AND
SPRING BOTTOM PANTS
EVERY PAIR GUARANTEED.
ADDRESS SAN FRANCISCO CAL.

Parting Love to Galt and Notes About Points West to Holbrook.
Holbrook, Aug. 3.—Number 3 in three hours late," said Operator McCormick when last seen early this morning. Later on Clerk Hurley said it was due at 9:55, another three hours. The circumstance nerved the writer to accept Engineer Simon Frost's invitation to go to the mines, via the spur route, and we did so. There was a deal of switching and then engine 98 started for the Gallup and Holbrook with thirty-eight coal cars, the iron horse breathing hard under the heavy task, Fred Finger exercising his muscles on Gallup coal deposited in the furnace. Posten, Hunt and other boys familiarly known about the yards were on duty braking and switching. Found both mines being operated and plenty of loaded cars in waiting. With a string No. 98 started off, some of the boys remaining behind to let a bunch of rare take a run on the down grade, and sometimes they get away. No accidents and back in time to catch No. 3.

Among the passengers on the west bound were F. W. Volz, of Canon Diablo, who has been in Albuquerque securing goods for his store. He also shipped to same point several mules purchased in central Texas which were sent ahead. Mr. Volz desired **THE CITIZEN** correspondent to stop off at his station and take a trip to the crater, a phenomenon south of Canon Diablo. During Mr. Volz's stay in the metropolis he met old friends, his companions in Albuquerque of years ago.

Met Charley Vorhes at Navajo Springs, where the crack base ball player looks after the "tucker" during the dark and dreary nights.

E. H. Angell, of Denver, is resting here a few days. He is interested in an enterprise of Denver capitalists, operating from Adamanna, a station some eight miles east of this place, to the petrified forest, of which more will be said in a future letter.

Promised to say something of the cement largely used in this place and Snow Flaker, a place highly spoken of, and which we must visit one of these days. Parties interested assure a good item about the cement at a later date.

Agent DeRover, who is the operator, and wife have been at their desks for some time. Mrs. DeRover spent most of her vacation in California.

Relief Agent Fine passed through to Daguerre, from which place he will go to San Diego. The gentleman's departure for Holbrook was regretted.

Albert Singer, of Mandell's, was here on Thursday.

The introduction of freights 33 and 34 as accommodations will be appreciated.

Freight 34, passing at 3:30 p. m., carried car 99, with Superintendent Gabel and Master Mechanic English as passengers. Mr. Gabel said he was glad to get home again, expecting to be with his family at breakfast on Saturday.

The Aztec Cattle company will ship twenty-five cars (3000 head) of 3-year-old cattle to Montana in a few days.

"Don't put my name in **THE CITIZEN**," said an Albuquerque drummer, who wanted to keep his whereabouts a secret.

There is but one saloon in operation—Greer & Woods proprietors.

The prospects for better grazing is flattering, and more rain wanted.

W. T. Losener has secured the mail route from Holbrook to Woodruff, Concho, St. Johns and Springerville, commencing September 1. He has the contract for four years at \$3,974 per annum. The opening of this route means the discontinuance of the Navajo-St. Johns route.

Major Baker, paymaster, was here Tuesday. He is paying off the Apache soldiers.

Master Greer's diminutive burro has been thieving provisions, entering stores and making himself at home with stuff palatable to his taste.

"The best watermelons and cantaloupes in the territory you will find at St. Joe, twelve miles west," is echoed by everybody. Will investigate this oasis in the wide stretch of Arizona desert land on the return trip.

The depot is the tideliest on the road.

Little Beasle.

Last winter Mrs. J. B. Reeves died here, leaving five little children to be cared for by the father. It was a great charge for him, and at the solicitation of the good ladies of the Children's Home he placed his children in the Home to be cared for. A few days ago Mr. Reeves gave his five-year-old daughter, Bessie, a pretty, blue-eyed little girl, to Mrs. J. Hirsch to adopt. Mrs. Hirsch called her adopted daughter will hereafter attend her church. The disposition of little Bessie and the desire of Mr. Reeves that his daughter become a Catholic, however, has caused some little commotion at the Children's Home and one member of the Home, who resides on the Highlands, is quoted as using some strong words against the raising of children under the Catholic faith.

On his Way to Washington.
Hon. A. C. Baker, chief justice of Arizona, R. H. Green, a merchant of Phoenix, and John R. Robbins, manager of H. Witbeck Land and Cattle company, Tombstone, came up from the south last night and remained over until this morning, when they continued on east. At a morning meeting of the people of Phoenix the other day, where a number of politicians, irrespective of party affiliations, spoke favorably to the admission of Arizona, a committee was appointed to select some prominent gentleman to go to Washington and lobby for the bill. Judge Baker was the man decided upon, and he is now on his way to Washington. It is hoped that his mission will be a successful one.

Ochoa Here.
THE CITIZEN learned last night that Victor L. Ochoa, the Mexican revolutionist who had the sister republic rocking in the balance for several months of last year, stopped with a friend in old town last week. He arrived disguised as a tramp, and after securing some important information he desired to obtain, he took his departure. Although there is \$10,000 reward for Ochoa, dead or alive, offered by the Mexican government, not one of the sleuth hounds of the west end, even the brave and gallant officers that habitually circulate through the rooms of the court house, caught on to Ochoa's presence among them until two days after his departure.

Minister's Students.
The silver camp has been shipped. Editor **Citizen**.
Kingston, Aug. 3.—Ore shipments have again resumed, the Caledonia, Cumberland and probably one or two others are shipping. Some are holding back on account of the uncertainty of the situation and the silver market, notably Hartman and Poran of the New Strike mine. Some are taking advantage of the bull and doing dead work, that is, putting their mines in a situation for the more economical taking out of ore.

The sale of the group of mines across the range, in Carpenter district, a tributary to Kingston, about eight miles away in Grant county, recently mentioned in **THE CITIZEN**, seems to have been. The railroad, or probably more properly termed labor troubles, have had an indirect interference.

The Brandon teams, Clay and Reay, do the principal freighting of ore and merchandise. Hauling of lumber from Bennett's and Hagar's saw mills engage several teams. Roads have been in fine condition as far as freights are concerned, for we have not had enough rain this season to dirty a buggy wheel, but then the dust has been in the mind of the hot and weary traveler, worse.

No rains in July! Ask the old timers to brush out the corridors of their recollections and tell us when this has happened before. Although travelers by rail tell us that from Cerrillos north and east the rains have been abundant and vegetation on the boom, with plenty of grass for stock and Coxy, while in this southwest country stock has been even suffering for water, and to ask the common army to keep off the grass would sound much like cracking a joke in the graveyard.

But we had fine rains on the lat with prospects for a continuance.

Miss Maggie Cain, daughter of John Cain, returned this week from a visit of five months among relatives and friends in Kansas, and was met at her father's home by many of her friends and the Black Range brass band, on the evening of her return.

The Bi-metallic League and the Populist club both held meetings on Saturday evening. The League discussed the question, "After silver, what is the most important question before the American people?" The principal speakers were Judge C. W. Walker, W. C. Tuttle, of El Paso, who is stopping in Kingston, G. W. Gregg and C. T. Barr, each having his own view of the situation. The Black Range land furnished music. Songs were sung by the "Boys of Sixty," Mrs. Moore, with the assistance of the league chorus, sang the new song, "Coxy, Keep off the Grass," published by Bell of Kansas City. And James Reay, who has been termed the "Sweet Silver Singer of Sierra," sang one of his best songs.

The populists, who held their meeting in the school house, listened to some "poor but honest" speakers, and made arrangements for the fall campaign.

Rumor has it that Mrs. M. E. Marble is preparing to stump Colorado for the republicans. This year correspondent would not verify, but does know that she has had some very flattering as well as tempting offers to go on the stump as well as the lecture stand.

Rev. M. Day and Dr. C. L. Edmundson and families have returned from their trip to the Gila, and our moral and physical health is no longer in danger.

Col. Dan Dinsinger and his son, George, who were over to the Mimbres, Frank Cox, James Rock, John Carlisle and others who were in the mountains hunting, have all returned. Game is scarce over there, their wives rest easier, and there is no further startling news from "16 to 1."

Paying Taxes.
Sheriff Jacobo Ylancas and his chief deputy, Jesus Garcia, have been quite busy for the past few months collecting taxes, and the people can look at the figures presented below, which will show to them that these two officers are competent and worthy officials of the county:

Territory.....\$8,450 72
County.....9,812 97
School.....1,721 95
City of Albuquerque.....4,905 02
Schools of Albuquerque.....987 00
Town of Gallup.....151 00

Total.....\$25,938 56
The above tax money was deposited in the First National bank yesterday, and credited to the different funds.

A Prominent Priest.
Rev. Juvenecio, a prominent territorial Catholic priest, who is an authority on the habits and customs of the various tribes of Indians in the southwest, having been associated with them more or less for the past thirty years, came up from Isleta this morning, where he has been on a visit to Father Decker. He continued on to Santa Fe, where he will remain for a few days. Rev. Juvenecio is now stationed at Lumberton, Rio Arriba county, directly across the Jicarilla Apaches, Utes and Navajo Indians. He states that the people of Lumberton are boring for artesian water, having let the contract to a practical well borer.

Little Folks' Party.
A pleasant little folks' party was held at the residence of Mr. and Mrs. D. H. Boatright Thursday afternoon. Miss Beasle and Master Frank Boatright entertained their little guests royally, serving ice cream and cake to them on the lawn. Master Robby Crosby, who left this morning for Mexico, delighted the little folks with several songs. The following were present: Edith Jones, Grace and Ward Fancher, Edith and Gertrude Walker, Flore and Glen Olin, Arthur Wickstrom, Vinta Hall, Arminta Shinnick, Robby Crosby.

C. M. Hanson, western passenger agent for the Wabash road, headquarters at Denver, was in the city yesterday on business.

POLITICAL LOVE FRANT.

San Miguel County Organizes a Partisan Alliance.
Las Vegas, Aug. 3.—San Miguel county has long been known as a place that fully carries out the old saying that "politics makes strange bed fellows," but the latest turn here is a little ahead of all previous ones.

As you know, Eugenio Romero and Lorenzo Lopez were formerly both republicans, but Romero occasionally wanting some of the "pie" Lopez took in the San Miguel democracy and with them organized the "people's party," carrying the county in the two past elections, and not having to divide with Romero, and really owning the party, did as he pleased. The only trouble was that it cost much financially to keep Romero and that the profit and loss account showed up badly. It has been known for some time that the two leaders were anxious to bury the hatchet, and when the Green trouble came on it gave the opportunity wanted. Monday night a large meeting was held in the town to talk on matters, condemn the Green affair and arrange for the fall campaign, and into this meeting they beguiled the innocent Felix. There were no Americans present, but it is reported that resolutions were adopted condemning Judge Smith for putting the greens under \$20,000 bail, instead of \$2,000; district attorney Fort for not prosecuting them more vigorously; and then the following political programme was adopted:

Only one ticket shall be run in this county this fall, a kind of reformed people's party ticket.

Romero, Lopez and Martinez to select their men for office and a convention to be called to ratify the selections.

As the reformers have already paid out lots of money in previous years, and no opposition ticket there will be no necessity of any ballot, not even for the newspaper.

The new party to have the head of the ticket blank, so some one can get a chance to stamp Joseph's name in on all these "non-partisan" tickets as was done when M. S. Otero ran for congress.

This last arrangement is one that meets with great enthusiasm among the democratic part of the combine, as it is thought Joseph's grant "bar" can be tapped by them.

Since the reported sale of his grant Mr. Joseph is very popular among his democratic friends, and this wise provision leaves them a chance to work him.

Precinct committees have been made out and steps taken to push matters. The East Las Vegas committee is Dr. Gould of the Optic, T. J. Brown, A. A. Jones, P. Padilla and Dr. Cunningham. It is doubtful if some of these parties will serve, as they do not believe in the combine.

In fact, there is great disgust among nearly all citizens who have heard of these proceedings, but very few know about what was done, as the facts were suppressed so far by the papers here.

The leaders of the movement feel very confident that they have cornered all the offices and "fat" of the county for the next two years, but as they personally use words about each other that are usually printed in papers with dashes, it is barely possible they may miss carrying their scheme through yet.

Odd Fellow's Committee.
The Grand Lodge of New Mexico, I. O. O. F., will meet here shortly, and last Saturday, at 8 o'clock p. m., the Odd Fellows of this city met and appointed the following committees on Grand Lodge entertainment:

On Hall—John E. Pearce, T. A. Finical, T. H. Healy.
Music—W. S. Lowe, H. C. Faville, J. F. Pearce.
Hotel Rates and Supper—T. A. Finical, W. S. Lowe, J. F. Pearce.
Reception—N. E. Stevens, W. S. Lowe, F. G. Pratt, W. B. McLaughlin, W. H. Long, Jr., W. M. Chellan, J. P. Lantz, C. M. Dodge, Calvin Whiting, J. F. Pearce.

W. A. Givens, of Las Vegas lodge, No. 4, and J. W. Schofield, of Aztec lodge, No. 3, are also on the reception committee.

Adjourned to meet at 7 o'clock Thursday evening, at I. O. O. F. hall.

Want their Liberty.
To day, Ernest Meyers is circulating a petition asking the governor to pardon Robert Bland, F. M. Walters, George Runyan and Fred Halliwell, the Raton strikers, recently sentenced to the penitentiary at Santa Fe for contempt of court, and the petition is being signed willingly by our merchants and citizens generally. It will be ready for mailing to the governor this evening. Mr. Bland, in a letter to Mr. Myers, says: "My sentence expires the 18th of September. Halliwell's the 16th, Walters' and Runyan's on the 8th. We have already been restrained of our liberty for thirty days." Petitions are to-day being circulated in almost every town up and down the Santa Fe road.

Dear Hunters.
W. H. Hahn, the hunter, and Ed. B. Harnsch, the soda water manipulator, left this morning for the range of mountains east of Chilli, and where, so it is stated, the bear holds full and undisputed sway. They expect to return in several weeks, and the hides of several bears, which they intend to bring along with them, will attest their ability as true bear hunters.

Death of J. N. Moss.
Yesterday Mrs. Moss, proprietress of the Armijo hotel, received a dispatch from Las Cruces announcing the death there the evening before of John Samuel Moss, who was a native of Prince Edward Island, Canada, and about 24 years of age. The deceased came to this city about a year ago as a health seeker, he being a consumptive, and up to within ten days ago stopped with Mrs. Moss, when he was advised by his physician to go to a lower altitude and he selected Las Cruces. The body was ordered here by his friend, D. B. Auld, who is from the same country, and the remains arrived last night, being received by Undertaker Montfort. Telegrams have been sent to his people and no disposition of the body will be made until they are heard from.

A Thieving Switchman.
The switchmen of this city, members of the Switchmen's Mutual Aid association, are avenging vengeance against Wm. Simarott, who occupied the position of grand secretary and treasurer of that order, from September, 1887, until May, 1894, when he suddenly and mysteriously disappeared during the national convention of the order at Evansville, Ind. Circulars, with his photograph printed thereon, have been received by the local switchmen, and they are informed that he is short in his accounts to the amount of \$32,527.49. The circulars says: "Almost the last act before his flight, he purchased and placed in his home, No. 29 Vernon Park place, Evansville, a fine piano, paying about \$600 for it, and from which he can evoke the strains of 'Home, Sweet Home' and 'Over the Hills to the Poor House,' with which to soothe the misery and anguish of the widows and orphans his barefaced robbery of them has caused."

Cerrillos Won.
Yesterday afternoon the "Little Pittsburgh" base ball club, of Cerrillos, and the Santa Fe crossed bats in Santa Fe, and from a dispatch the sporting editor of **THE CITIZEN** received from Mayor Austin Goodall, of Cerrillos, it is learned that the Little Pittsburgh made 14 scores to 5 for the Santa Fe. It is also learned that the game was spirited and exciting, but the boys from the thriving coal town had on their winning uniforms and fairly outplayed and outbatted their opponents. The Browns, of this city, send congratulations to Mayor Goodall and his gentlemanly ball tossers. It now seems that the territorial championship will narrow itself down to a series of games between the season is over, between the Browns and the Little Pittsburghs.

Swift Cycle Riders.
Fred Lewis, Harry and Frank Lee, Al. Colington and Alfred Frost mounted their "Safety" wheels yesterday and leisurely took a ride to Bear Canon, where they rested and enjoyed several hours in animated debates over the wheel supercilious the horse in more ways than one, after which Messrs. Lewis and Harry Lee concluded to make a swift ride back to the city. They started from the falls in the canon, and when they reached the corner of the European hotel they had covered the distance, and that over a sandy and rough road, in one hour and four minutes. The two riders are strong and athletic, and considering the road and distance the time is remarkably fast.

School Census.
It is the duty, every year according to law, of the clerk of the school board to secure the school census, but as Clerk Grinsfeld has other business besides his clerkship, which keeps him pretty busy, he has secured the services of two excellent young gentlemen, W. S. McLaughlin and R. E. Shannon, to do the work, and they started at their duties taking the school census this morning. Messrs. McLaughlin and Shannon are thoroughly competent, are well known, and the census they turn in to the board can be relied upon as correct in every particular. They expect to have the census completed in about ten days.

Entertained.
Mrs. F. J. Primrose, wife of the well-known wool merchant of Trinidad, had having visited this city on several occasions and are therefore known to many of our citizens, gave a reception to her many friends at Trinidad the other evening, and the papers of that town speak in praise of the manner in which they were entertained by the lady. It is true a rainstorm was in progress during the evening, which threatened to spoil the enjoyment of many, but it had no effect on Mrs. Primrose's invited guests, for they were bound to be present.

Is He Married?
THE CITIZEN was informed last evening that Charles W. Powers, who is well known to many of our citizens, not only as a comedian but also as a pleasant, companionable young gentleman, was recently married to a reigning belle of South Omaha, Neb., and is now conducting a first class restaurant in Denver. If the report is true **THE CITIZEN** wishes the "great imitator of other men's doings and sayings" a long, happy and successful married life, and if not true, **THE CITIZEN** also wishes Charles success in all his undertakings.

Struck with Apoplexy.
William Coffin, a well-known business gentleman of El Paso, was struck with apoplexy the other morning, and is now considered in a precarious condition. Mr. Coffin, in the early days of Albuquerque, conducted a saw mill in the west end, besides being in business on this side. He is a bachelor, about 57 years old, and went to El Paso from this city about thirteen years ago. He is well-known throughout the southwest.

He Did Not Walk.
Murphy, the well-known brick mason, who has been at White Oaks working on a new school building for that town, returned to the city last Saturday night, and was observed celebrating his birthday this morning. He denies walking all the distance from White Oaks to the San Antonio railroad station, regardless of the report of a few teasing friends to the contrary.

T. N. Hinch, of Gallup, accompanied by his brother, Dr. F. E. Hinch, were in the city yesterday, leaving this morning for the James hot springs.

SCHOOL BOARD.
Important Matters Transacted by Board of Education.
S. SCHOOL JANITORS APPOINTED.
The school board of the city met in regular meeting last evening at the office of R. W. D. Bryan, Trustee Nettleton presiding.
Trustees: Chamberlin, Snyder, Bartlett, Mausard and Clerk Grinsfeld.
Absent—Trustees Armitjo, Kuhns and Fisher.
The minutes of the previous meeting were read and approved.
The clerk was instructed to draw warrants for the following bills:
J. J. Tway.....\$ 2 30
Electric Light Co.....12 00
J. H. Hinch, janitor.....12 25
The bills of Thos. H. Borgens & Son, and Mrs. E. G. Shields, the first bill for \$4 and the later one for \$3.75, were rejected on motion of Trustee Snyder, seconded by Trustee Mausard.
On motion of Trustee Chamberlin, seconded by Trustee Snyder, the bill of Alan Sandvol for \$2.10 for planting trees was adopted until Trustee Armitjo could be present.
The bills for placing four washout water closets in the Third ward school building were read as follows:
Smith Bros.....\$ 60 50
J. E. Rose & Son.....60 50
W. H. Hahn, Isador & Co., janitors.....60 50
On motion of Trustee Mausard, seconded by Trustee Chamberlin, the contract was given to the low bidder.
The clerk was instructed to notify S. E. Rose & Son, that their bid was accepted.
It was moved by Trustee Mausard, seconded by Trustee Snyder, to purchase ready-made genuine parchment diplomas, 16 by 20 inches, for \$24. Carried.
Prof. Holgin, superintendent of public schools, was appointed to attend to the purchase of same.
It was moved by Trustee Mausard, seconded by Trustee Chamberlin, that the building committee should see to painting and repairing of the blackboards in the various school buildings. Carried.
It was moved by Trustee Snyder, seconded by Trustee Mausard, that four janitors for the schools be employed, one for each school house, their services to commence on the 15th of September at a compensation of \$30 each per month, which motion was carried.
A number of applications for janitor were read, and it was moved by Trustee Snyder, seconded by Trustee Chamberlin, that the applicants not known to the members of the board be laid aside, which motion prevailed.
The following janitors were elected: For the First ward school building, F. Bartelme; for the Second ward, C. S. Kaster; for the Third ward, O. I. Carter; for the Fourth ward, C. C. Crockett.
The clerk was instructed to notify the above applicants of their selection as janitors.
It was moved by Trustee Mausard, seconded by Trustee Chamberlin, that Prof. Harmon, who occupies a room in the old school building on Edith street, and teaches German, pay \$10 rent monthly in advance.
It was moved by Trustee Snyder, seconded by Trustee Mausard, that Prof. Holgin should occupy the south room in said frame school building on Edith street for office purposes, which was carried.
The resignation of Trustee G. W. Fisher was presented and read.
It was moved by Trustee Chamberlin, seconded by Trustee Mausard, that the resignation be not accepted, which was carried.
Board adjourned until the next regular meeting, Sept. 3.

That Game.
The CITIZEN of yesterday gave a brief account of the game of base ball at Santa Fe last Sunday afternoon between the Little Pittsburghs of Cerrillos and the Santa Fe club (not the Athletics), in which the former walked the latter to the tune of 14 to 5. The result of the game per inning is as follows:

1 2 3 4 5 6 7 8 9
Little Pittsburghs.....5 0 4 2 0 3 0 1 4
Santa Fe.....0 0 1 1 0 0 0 0 0

Shoemaker and Garcia tossed for the Santa Fe.
Pardee pitched for the L. Pa. and struck out eight batters, while Shoemaker and Garcia moved down only three men.

Ashford, of the Santa Fe, made a home run, while Dan Rotes of the L. Pa. did the same thing for his club. Both hits were long.

Payette Jones, Dave Jones and Captain Murphy of the L. Pa., cracked out each a three-base hit.

Pardee made a beautiful stop and throw to first base, he running for a batted ball out toward third base.

Dave Jones backed up third base for the L. Pa. to perfection. He was at himself.

"Snapper" Hall, behind the bat, distinguished himself catching Pardee. He had only one passed ball in the hardest pitcher's game he ever played.

A bystander contributes this paragraph: "The umpire was grieved from the grand stand unmercifully, all because the Santa Fe were behind from start to finish." He states, however, that the decisions of the umpire, who was Col. F. C. Buell, of the Cerrillos Rustler, were fair and impartially rendered.

Quite a number of Cerrillos people took in the game, among them Manager Crockett, W. H. Kennedy, Chas. Way, Randolph Kelly, Jack Langston, J. Leachy and others.

W. H. Coleman for the L. Pa. made a fine catch in right field and doubled a man up at first base.

Dave Jones at short assisted in a pretty double play at second and first base.

Away from Duty.
Constable J. Edward Priest informs **THE CITIZEN** that on last Friday and Saturday the justices of the peace of precincts 26 and 12, (city) and precinct 5, (Barajas) were away from their duties, and no criminal or civil papers could be obtained. Justice Lockhart, of precinct 26, was at Cochiti, seeing how well the ore in the Crown Point was holding out; Justice Burke, of precinct 12, was at the ranch of Tom Phelan south of the city, drinking buttermilk, while Justice Barajas, of precinct 5, was out in the mountains taking a rest from his arduous duties under the shade of a pison tree up Tijeras canon.

Sporting Events.
The general fire committee of the fire department—a committee composed of bustling, harmonious firemen—met last evening and agreed to hang up a good-sized purse for a game of base ball next Sunday afternoon at the fair grounds between the Browns and the Barajas club.

The latter club has been strengthened by the addition of several crack amateur tossers, and are willing to bet on the side that they can lower the colors of Capt. W. H. Hahn and his team. The match will be called at 2:30 o'clock p. m. Besides the base ball game there will be several foot races between the swiftest runners in the horse team and fire department. The committee concluded to charge an admission fee of 25 cents, including seats on the grand stand, and it is hoped that a good crowd will attend, for the receipts will be applied to the horse running team fund.

Word Reached This Office.
Word reached this office last evening that yesterday morning W. H. Hahn and Guy Kinsley had killed a big black bear in Bear canon. Mr. Hahn, wife and the baby are in camp in the canon, and yesterday morning he started to a spring for some water, taking along with him his pistol. Just as he got to within a few yards of the spring, he observed a huge and taking deliberate aim with his pistol he fired and wounded the bear. This only aggravated the bear, and the animal wheeled and started for Hahn, the latter peppering it with his pistol at every jump. Finally, Guy Kinsley appeared with his rifle and soon the bear succumbed to several muzzling shots from Guy, Harry Lockhart and Clyde Harding were out in the above canon yesterday, and brought the news of the bear killing into the city.

Yesterday afternoon Frank Wilson, colored, sentenced for sixty days, and Jose Manuel Hahn, crazy, were taken over to the county jail. There is a tough gang in the city jail, and on yesterday they went on a strike—that is, positively refused to do any work. The strike was led by John Smith, the hobo who had a fight with Policeman Fornoff the other day. The gang were placed in cells, and will be fed upon bread and water until they agree to comply with the law by working out their sentences.

Sam Lucas, who formerly held the position of book-keeper at S. E. Rose & Co's, but who has been representing the Hibbard-Spencer-Bartlett Co in Mexico, arrived in the city from the south last night, and left for Prescott this morning. He will pass through the city on Friday for Fort Madison, Iowa, where he accepts a lucrative position with Langtry Bros. While here last evening Mr. Lucas was pined around by P. F. McCanna and Wm. Hye.

The law in regard to killing game is a strict one and should be rigidly enforced. It is stated that city people, who visit the mountains, pay no attention at all to the law, and kill game indiscriminately. They even shoot rabbits, when the hunters know very well that the little jack and cottontails are unit to eat this season of the year. If some of our city folks are not careful they will be informed on, which will be followed by their arrest.

C. A. Hudson, the painter, returned from the Sulphurs, Jones mountains, late yesterday afternoon. He left the Sulphurs early in the morning, rode over to Bland in five hours, and from there to the city. The entire trip was made on horseback. He reports to **THE CITIZEN** that Mrs. John Pfeiffer was seriously ill the other day, Dr. Sloan of Santa Fe being sent for, but when he left the lady was very much better.

The headquarters of the Ferguson Hook and Ladder company are now in one of the Mandell buildings on Second street, opposite the livery stables of W. L. Trimble & Co., and as soon as the contemplated improvements are made Foreman Jacoby and his celebrated hookers and ladder climbers, among whom are McCanna, Harnsch, Mason, Kniss, Hye, Gentry, Gaudrey, Ryan and others, will have splendid quarters.

The eating house at the depot is in most excellent hands since the recent change. Thos. J. Cummings is proving himself to be a practical, obliging manager, while Howard Leland as cashier and Harry E. Lewis as head waiter cannot be excelled in their respective positions. G. Clinton is the competent chief. The house now feeds the passengers of trains Nov. 1, 2 and 4, and have added additional waiters in consequence.

Last evening John Fisher introduced at **THE CITIZEN** office, A. H. Gibson, teacher in the Ramona Indian school, and Reyes Gurule, night watchman of the government Indian school, Santa Fe. Mr. Gibson is here to visit for a few days, after which he will go to his old home at Columbus, Kansas. Mr. Gurule returned to his home at Los Lunas this morning.

Night yardmaster Homer is considerably bothered on the arrival of trains at night, at the depot, by little boys jumping on and off. He complains greatly about the little fellow who sells the Morning Blunderer, and that he has come near being run over on several occasions.

Last night, Alderman Aubright, who is opposing the cause of the fire department against removal, appeared at the council meeting with the four petitions signed by citizens opposing the removal, but he did not have the opportunity to present them to the council.

E. M. Alters, proprietor of Frisian Stock Farm, Eagle, Cass county, Neb., writes to Otto Diekmann that he will arrive shortly with a car load of thoroughbred Holstein cows, for the purpose of starting a first class creamery in or near this city.

James Tierney, a brother of Martin Tierney, left yesterday afternoon for Burlington, Iowa, on a visit to his mother. He was a boiler maker at the Atlantic & Pacific shops, and expects to return to the city in a few weeks.

The infant son of Felipe Hubbell was christened this morning with the excellent old name of Walter Charles. Thos. S. Hubbell and sister acted as sponsors. The ceremony took place in the church at Pajarito.

Captain Boucher took north No. 4 passenger train this afternoon. He states that Conductor Gardner will be on his run to Albuquerque in a few days. This will be good news to Gardner's many admirers.

The June pay checks for the Atchison, Topeka & Santa Fe employees left Topeka this morning. They will be mailed with considerable joy when they reach this city.

SCHOOL BOARD.
Important Matters Transacted by Board of Education.

S. SCHOOL JANITORS APPOINTED.

The school board of the city met in regular meeting last evening at the office of R. W. D. Bryan, Trustee Nettleton presiding.

Trustees: Chamberlin, Snyder, Bartlett, Mausard and Clerk Grinsfeld.

Absent—Trustees Armitjo, Kuhns and Fisher.

The minutes of the previous meeting were read and approved.

The clerk was instructed to draw warrants for the following bills:

J. J. Tway.....\$ 2 30
Electric Light Co.....12 00
J. H. Hinch, janitor.....12 25

The bills of Thos. H. Borgens & Son, and Mrs. E. G. Shields, the first bill for \$4 and the later one for \$3.75, were rejected on motion of Trustee Snyder, seconded by Trustee Mausard.

On motion of Trustee Chamberlin, seconded by

From Wednesday's Daily.

W. S. Strickler and wife left this afternoon for Chicago and the far eastern cities.

Miss Mabel Stevens, who has been on a visit to the Grand Canyon of the Colorado, returned home today.

Horace Ropes, the well known civil engineer, was at the San Felipe last night, registered from Las Cruces.

Hon. Silas Alexander, territorial secretary, came up from Socorro Monday night and went on to Santa Fe yesterday.

Judge Adams, who has been quite ill for the past few days, is reported by his partner, L. R. Strauss, as much better today.

Felix Baca and Jose Escobar will issue a Spanish weekly newspaper, called "La Voz de Nuevo Mexico," in this city, on the 15th of August. It will be six columns.

Julius Unfelder left last night for Trinidad, where he accepts a position in a mercantile establishment. Julius has many friends in this city who wish him success in Trinidad.

Miss Ida Summers will visit friends at San Marcial and El Paso and will return home for a month. Her sister, Miss Maud, will leave in a few days for Denver, where she will visit relatives several weeks.

Dr. Himes, the Atlantic & Pacific surgeon at Needles, who took in the Grand Canyon of the Colorado with other surgeons, came into the city this afternoon. He will remain a few days and then return to Needles.

Rev. H. Billman, superintendent of the Indian school at Tucson, Arizona, and who is filling the pulpit of the Presbyterian church during the absence of Rev. Beattie, will remain among us until some time in September.

M. M. Harris, the piano man, whose business in Las Vegas was closed up yesterday, came down to the city last night and is at the Hotel Columbia. Mr. Harris was formerly tuner for the Clark-Watson Lorch Music company.

Henry Kessinger, the southwest agent for a Cincinnati, Ohio, wholesale liquor house, arrived from the west Monday night and is at the European. He reports having been blockaded during the strike for fourteen days at Yuma, Arizona.

W. J. Dixon reached his first birthday yesterday. He stated to THE CITIZEN this morning that he was busy writing up the proceedings of the city council yesterday that he did not realize that he was 31 years old until last night. Success to you, in the wish of THE CITIZEN.

Receiver Schofield, of the Albuquerque National bank, says that it is almost impossible to get some of the creditors of the bank to call and get their dividend checks, and among them are a number of people in this city. The money is lying in the east, and should be called for and put in circulation.

John N. Dixon, of Detroit, Mich., a brother of W. J. Dixon, city clerk, writes that he will visit Albuquerque about the 15th of August, and will remain in the territorial metropolis, a guest of his brother, for a few days. He is a lumber inspector of Michigan, and is on his way to California.

The El Paso Herald says: "The fourteenth annual exposition of the New Mexico Fair association will be held in Albuquerque September 11, 12, 13 and 14. This annual fair given by the citizens of Albuquerque has done more to advertise New Mexico and her resources than any other one thing."

W. Schwerdtfeger, of Richmond, Va., who had the contract to repair and overhaul sixteen engines for the Atlantic & Pacific, arrived in the city last Sunday with engine No. 37, the last one of the contract. While here he was the guest of H. C. Giegoldt. The gentleman left yesterday afternoon for his Virginia home.

Col. Harris, accompanied by his daughter-in-law, Mrs. Wm. Harris, will leave for the north this evening. The colonel will continue on to Massachusetts to visit his old New England relatives and friends, while Mrs. Harris will get off at Wallace and from there join her husband at Bland, Cochiti mining district.

Trainer Knight, of the Albuquerque horse running team, a gentleman who never fails to comply with all his promises, will have the foot race program of the events at the fair grounds next Sunday afternoon, ready for publication tomorrow. All arrangements for the base ball game between the Browns and Barceas team have been perfected.

Yesterday THE CITIZEN stated that George Weinert had been selected by Clerk Grunfeldt to collect the poll tax for the year 1904; but this morning Mr. Weinert resigned the position, whereupon Mr. Grunfeldt employed G. C. Beaman to do the collecting. All persons who fail to pay poll tax will be reported to the Board of Education, who will act upon such failure as the law directs.

Park Wilson, who was Albuquerque's base ball catcher when Mann was pitcher six years ago, made a home run hit off Staley, of the Boston club at New York the other day, and the event was so unexpected that many of the spectators had to be carried out of the grand stand in a fainting condition. Park is a rattling good catcher, being one of the receivers for the New York club, but has never distinguished himself at the bat.

David Strachan, who is mining in Hell canon district, drove into the city this morning. He has reached a depth of sixty feet in his mine, but has struck nothing that would indicate the presence of gold, although the dirt appears good

from a mineralogist standpoint of view. Experts have examined the hole being dug by Mr. Strachan, and all have assured the faithful toiler after the precious yellow stuff that he will be rewarded with success if he continues digging long enough. Mr. Strachan is one of those human beings that never gives up, and as long as the dirt has a good color he will keep digging.

Miss Maggie Fornoff, sister of Policeman Fornoff, resides in Baltimore, and has ordered THE CITIZEN, for the purpose of learning something about New Mexico, especially Albuquerque and the famous Rio Grande valley. It is more than likely, after reading THE CITIZEN for a few weeks, that Miss Fornoff will conclude to come to Albuquerque and take up her residence with her brother, one of Albuquerque's efficient policemen.

W. H. Cooley, a Duluth, Minn., newspaper writer, and C. T. Prescott, an attorney from the same city, were in the city yesterday, and in the afternoon Mr. Cooley made a pleasant call at THE CITIZEN office. The two gentlemen are in camp at Laguna, and have been visiting the various tribes of Indians along the Atlantic & Pacific, with the view of compiling articles upon their customs and habits for several large eastern journals.

Hon. L. Bradford Prince, ex-governor of the territory, and Hon. S. B. Newcomb, of Las Cruces, the latter having been at Santa Fe attending the sessions of the territorial supreme court, came down to the city last night on No. 1 from the territorial capital and continued on to Las Cruces, where Mr. Prince is interested in some Mesilla valley lands and also in some mining property out in the Organ mountains. He expects to be in Albuquerque again in a few days.

THE CITIZEN, through an oversight, neglected to state that Rev. A. Gourboye, the Manzana priest, who had a hearing last Saturday afternoon before United States Commissioner Bryan on the charge of fornication, was acquitted, the witnesses examined claiming that they did not know anything derogatory to the good character of the reverend father. The man who preferred the charge against Rev. Gourboye testified that he did not know anything wrong about the priest, but that he saw the latter and his housekeeper out driving and that they acted very queer in the buggy.

Death of Mrs. Donovan.
Mrs. W. T. Donovan, wife of Col. Donovan, died at the residence of her daughter, Mrs. Horace A. Johnson, on Silver avenue near Third street, this morning at 3:30 o'clock, with dropsy, after a long illness.

Mrs. Donovan was born on her father's farm about forty miles below Pittsburgh, Penn., on the Ohio river, on July 22, 1822, and was married in Bridge Water, Penn., on July 3, 1848, to the husband that survives her. In 1857, they immigrated west, and located for a time at Plattville, Neb., where they experienced many trials and hardships on the then frontier. They remained in Nebraska until 1881, when they left for the Rio Grande valley for the health of the wife, making Albuquerque their home, until now, when death took the husband of his wife, who was his companion for nearly fifty years. Her health was greatly improved here, but the rheumatic affection, which troubled her in Nebraska, returned on her in December last, when she was also ill with a gripe. The latter disease developed into acute rheumatism and neuralgia, and then into dropsy. She was a great sufferer and was almost continually bed-ridden for eight months and eight days.

Besides her aged husband, who is bowed down with grief, there is left to mourn her death three sons and a daughter as follows: Joseph, of Colorado Springs; Melancthon, of Denver; Morton, and Mrs. Johnson, of this city. The Colorado sons have been notified by wire of the death of their mother and they are expected to arrive tomorrow morning. Morton is out with a surveying party on the mesa, and will reach the city this afternoon.

Col. Donovan and the surviving children have many warm friends in the city, who join with THE CITIZEN in extending condolence. The funeral will occur from the residence on Silver avenue to-morrow morning at 10 o'clock. All friends invited.

Receives List.
W. T. McCreight, for a long time the efficient city editor of the Albuquerque CITIZEN, has purchased a half interest in the plant and his name appears at the head of the column as city editor and business manager. Mr. Hughes continues as editor. THE CITIZEN is one of the very best papers in the country, way in advance of the town in which it is published, and deserves all the support that can be accorded it. We congratulate Mr. McCreight in securing an interest in so valuable a property.—Trinidad, Col., Chronicle.

Leading Paper.
W. T. McCreight, who has been connected with the Albuquerque EVANS CITIZEN since it was started, has purchased a half interest in that excellent up-to-date paper. Mac will have charge of the local and business departments of the paper, while Tom Hughes will look after the editorial department and keep his weather-eye on matters of a political nature. THE CITIZEN with this strong team and the afternoon Associated Press report is now the leading republican daily of New Mexico and the southwest.—Gallup Gleaner.

Four Big Successes.
Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale: Dr. King's New Discovery, for Consumption, Coughs and Colds, each bottle guaranteed—Electric Bitters, the great remedy for Liver, Stomach and Kidneys. Bucklen's Arnica salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer whose name is attached herewith will be glad to tell you more of them. Sold at Dr. Thos. H. Burgess & Son's Drug Store.

A FEEL OUR TRIP.

Joe Goodlander and a "San Juan Water Scout."

"Yes, I had a hard time getting out of the San Juan country," remarked Joe Goodlander, the well known St. Louis drug traveler, who is here today, "and it was all in account of a water-scout."

"I had left Durango," continued Mr. Goodlander, "in a buggy, the lines on the horse's back being handled by a colored boy who blacked my boots back in old Missouri a few years ago, for the purpose of visiting my customers along the San Juan river in New Mexico. Everything went along smoothly until about 4 o'clock in the afternoon, when a heavy black cloud showed up in the western sky. We had just crossed the river and was going through a small canon, probably a mile long, when I looked forward and it seemed the very heavens had parted, and a torrent of water came rushing down the canon toward us, fully four feet deep and as mighty, it appeared to me, as the big waves on the ocean. The colored driver became frantic, in fact I was frightened myself, but we managed to keep in the buggy, as the horse, with the vehicle and occupants were being washed back toward the river. Finally, the horse shied to one side, and within a few yards of the river bank the animal and vehicle got lodged between two trees. This saved us and we remained there until the water receded. I then continued my visit to my customers, was successful in taking a number of orders, and then returned to Durango. I have had many narrow and dangerous experiences on my trips to the southwest, but I will never forget my water-scout experience along the San Juan river in New Mexico."

From Thursday's Daily.
The Santa Fe fire department sent in their resignation to the Santa Fe city council.

The Santa Fe school board have laid a levy of five mills, for school purposes, in that city.

The machinery for the saw mill at Bland is all on the ground and being rapidly put in place.

Bernardino Baca, deputy sheriff of this county, who was at Santa Fe on business connected with the assessor's office, returned last night. The board of equalization sustained Assessor Baca in his assessments.

City Marshal Fluke is supporting a handsome gold badge, the gift of a St. Louis firm. It is a pretty badge, the design handsome, and no doubt cost the donor considerable money. Mr. Fluke is proving a good marshal.

A strike of more than passing importance was made on the "Central," at Cochiti, last week. The ore body encountered is about six feet thick, and while no assays have been obtained, the ore is said to be very rich in appearance.

Mrs. Frezell and daughter left this afternoon for Topeka, where they will visit relatives and friends for an indefinite period. Mr. Frezell was a machinist in the employ of the Atlantic & Pacific before the local shops were closed down, and is now out looking for a job.

M. A. Otero, a popular gentleman of Las Vegas, whose name is prominently mentioned as a candidate on the republican ticket for delegate to congress, is in the city, and made a pleasant call at THE CITIZEN office this morning. Mr. Otero will remain in the city for several days.

Joe Helwig, the deposed treasurer of the kid how running team, who was elected captain after "Gladiator" Hart refused to serve longer, makes regular trips to Ialeta every afternoon. The "gladiator" informs THE CITIZEN that Joe has a sweetheart among the Pueblo Indians.

Hon. W. H. Patterson, the well known owner of the Graphic and several other first class mines in and around Kelly, Socorro county, came up from the south last night and left this afternoon for Piketon, Ohio, where his wife and children are visiting. They will return to the territory sometime in October.

Edward Williams, charged with creating a disturbance during a festival at the A. M. E. church, was tried before Justice Lockhart last evening and fined \$5 and costs. He was accused of brandishing a pistol in a threatening manner, but the witnesses, when placed upon the stand, denied that Edward had a pistol.

C. B. Tyler, for several years the competent ticket accountant at the Atlantic & Pacific general offices, will leave this evening for the south, to accept the position of chief dispatcher for the Sonora railroad. H. L. Stephenson, Memphis, Tenn., arrived last night, and has accepted the position made vacant by Mr. Tyler.

The old family gray horse of D. L. Sammie, which has been almost a member of his family for the past ten years, was shot and killed this morning. A short time ago the old gray was driven to the mountains, and on returning to the city the horse stepped into a hole of a prairie dog and injured himself. The injury developed into lockjaw and the sufferings were so intense that it was thought advisable to kill the animal.

Hon. B. S. Raley has returned from the Cochiti mining district, where he went with Judge Stuart and Dr. Smith, Denver capitalists. He informs THE CITIZEN that the Colorado visitors were greatly pleased with the district, and that Judge Stuart purchased two-thirds interest in the Monte Carlo mine. He also stated that the chances are bright for the judge to put in, near the Monte Carlo, an ore concentrator and sampler.

On next Sunday afternoon at the fair grounds, there will be some grand outdoor sports under the auspices of the fire department, and the admission price of only twenty-five cents is so cheap as to guarantee a big crowd. Besides the game of base ball between the Barceas club and the Browns for a purse, hung up by the fire department, there will be several exciting foot races. The first

event will occur at 2 o'clock p. m., and the game of base ball will be called at 3:30. The proceeds derived therefrom will be added to the horse running fund.

The St. Johns Herald says: "John V. Morrison is able to be out on the street, through his wound is not entirely healed. The bullet turned on striking the rib and tore a very large hole across his stomach. It is his intention to take a trip to Santa Fe, on a visit to his father and mother as soon as he is able to stand the trip from this place to Navajo." Mr. Morrison is the son of Hon. A. L. Morrison, of Santa Fe, and a brother of Hugh Morrison, of this city.

The No. 4 passenger train from the west, due at 1 p. m., is marked up at the depot four hours behind time. The CITIZEN could not ascertain the cause of the delay. Trainmaster Robins not being in possession of facts in regard thereto. The passenger train from the south, due last night at 8:25, did not arrive until this morning at 3:45. Cause—water running over the track this side of San Antonio. This train was held here until this afternoon at 1:30 o'clock, when it was sent north.

A Fainter for the Colonel.
During the past month THE CITIZEN has received a number of letters from editors and printers, back in the east and down south, asking work, some on account of bad health and that they would like to reside in a more mild climate, and some stating that they are compelled to relocate where for the health of their families. To all these letters THE CITIZEN has been kind enough to explain the situation fully, telling the writers that there is no work out here, and stating, if they have jobs back at their homes, it would be wise to hold them until better times.

One letter was received the other day from a gentleman residing at Millersburg, Ky., who is anxious to come to New Mexico, but don't want to make the move until guaranteed work. His letter was answered and he was informed that it was best to remain at home.

To the personal knowledge of THE CITIZEN, at least a hundred editors and printers, in the last ten years, have been persuaded to leave good situations and come to Albuquerque on false promises. They work for a few weeks, find out how nicely they have been duped and imposed upon, and then they resign their positions, without a cent in their pockets, money due them for work, and soon they are noticed panhandling their grub up and down the streets.

Such acts are heartless, but as long as an institution don't pretend to pay its employees, so long will the management work such little schemes on the unacquainted.

The Funeral.
The funeral of Mrs. W. T. Donovan occurred this morning at 10 o'clock from the residence of her daughter, Mrs. Horace A. Johnson, on Silver avenue, and there were a number of mourners present. The services were conducted by Rev. Billman, who is officiating as Presbyterian minister. The remains were consigned to a grave in Fairview cemetery.

The Colorado sons were telegraphed to in regard to the death of their mother, but no answer was received. It is thought by Col. Donovan that they are mining somewhere off the railroad, and cannot be reached for several days. Morton, the son who is a member of the surveying party on the mesa, received the news of the death of his mother at midnight last night, and he left for the city at once on horseback, reaching here this morning.

Mrs. Sanchez Dead.
The daughter of John Miller, the old town fresh meat dealer, Mrs. Jesus Sanchez, died at her residence in the west end yesterday afternoon at 5 o'clock. About two months ago Mrs. Sanchez gave birth to a girl baby, and never recovered from the shock. Her sisters and brothers reside at Casa Salazar, on the Rio Puerco, and as soon as possible after her death a courier was sent to Casa Salazar to carry to them the sad tidings. They are expected to arrive this afternoon, when the funeral will occur to-morrow morning at 8 o'clock, at the old town cemetery, burial in Santa Barbara cemetery. All friends are respectfully invited to attend.

An Impostor.
A Mexican, supposed to be blind, has been making the rounds of the stores begging, and the little bag he carries is filled several times a day. He has worked the racket pretty well, but THE CITIZEN is pleased now to expose him. There is nothing the matter with his eyes, except that they are a little sore, and the impostor can see as well as any one. This is a pointer, and when he calls give him the cold shoulder.

Good Wishes.
The Albuquerque CITIZEN announces that Mr. W. T. McCreight has purchased a half interest in that paper and the firm hence forth will be Hughes & McCreight; the veteran, Thos. Hughes, serving as editor and Mr. McCreight filling the dual role of business manager and city editor. Success to the new firm.—Silver City Sentinel.

When moving into our present home I found a bottle of Chamberlain's Pain Balm left by a former tenant. On the label I found the statement that it was good for cuts and burns. I can testify to the truth of this. Nothing in all my experience has found its equal for treating blisters or burns. F. E. Barrett, manager Le Sueur Sentinel, Le Sueur, Minn. Pain Balm is also a sure cure for rheumatism. For sale by T. H. Burgess & Son, druggists.

A large number of our citizens left on the freight train this morning for the feast at Bernalillo. It is learned the little town is pretty well crowded to-day with visitors from all parts of the territory.

In order to introduce Chamberlain's Cough Remedy here we sold several dozen bottles on strict guarantee, and have found every bottle did good service. We have used it ourselves and think it superior to any other. W. L. Moorey, Jarvisville, W. Va. For sale by T. H. Burgess & Son, druggists.

WEATHER BULLETIN.

Weather for the Past Week favorable to crops.

H. B. Hersey, director of the United States weather bureau, central office at Santa Fe, has mailed the following weather crop bulletin for the week ending August 6, which will be read with interest by our valley farmer subscribers:

The weather during the past week has been very favorable for all kinds of crops and fruit. Partly cloudy weather with frequent showers has been the prevailing condition.

The southern part of the territory has been favored with a seasonable amount of rainfall, but was rather unevenly distributed.

In the favored localities many late crops that were suffering severely for water are now a ting up and with a fair amount of rain during the present month will make a partial crop. The ranges in the south that were nearly burned out by the long drought are beginning to show signs of life, but a large amount of rain will be necessary to insure a good supply of feed for the winter.

In the northern part everything has made splendid progress during the week. The ranges are reported to be in excellent condition. The principal hay product of the territory is alfalfa, and the reports indicate that up to date the amount produced is about the average in the northern part but much below the average in the south.

The following extracts from a few of the crop correspondents, received at this office will be of interest:

Springer—Rainfall .30 of an inch. Grass fine, no better at this time of year in ten years. Good prospect for corn, oats and alfalfa.

Hill's Peak—Everything making excellent progress. A splendid growing week. Rainfall during week 1.60 inches.

Cruella—Fruit in fine condition. The spring past few days of great benefit as they were slow and steady. Rainfall during week 3.18.

Watrous—On Aug. 1st heaviest fall of rain for years, over two inches. River swollen, running over banks. Alfalfa much injured, except that in stack. Very good outlook for corn and growing crop of alfalfa.

Total rainfall during past week was 3.01 inches.

Gallinas Springs—The rains have been scattering the past week but most crops are doing well. Rainfall .23 of an inch.

Las Vegas—The week has been cool and damp and grass and crops have come forward well. Rainfall .29 of an inch.

La Luz—Conditions have been more favorable for all crops, the frequent rains in the mountains having increased the supply of water for irrigation. More rain is needed for the grass, on the ranges. Second crop of alfalfa is being out, and is much lighter than first, owing to lack of water for irrigation. Immense yields of fine potatoes are being dug for market, in the mountains.

Alma—Condition of growing and cattle feed crops is good. A certain amount of rain for irrigation. Rainfall .55 of an inch.

Rawell—The outside country begins to show the need of rain to lay the dust and freshen the grass. Cattle are doing well and ranges are in good condition. Alfalfa crop is coming forward finely; melons, corn and fruit plentiful in market.

Rincon—Rain and cloudy days have been the rule during the week, adding very materially to the prospects for late crops and ranges.

(From Friday's Daily.)
Mrs. M. S. Otero and children, Alfred Otero and wife, Mrs. G. W. Harrison and children, and Elias Armijo, who have been at the Jemez hot springs almost since the opening of the season, returned to the city late yesterday afternoon.

Al. Codrington and Frank Lee left on the No. 4 passenger train, this afternoon, for Denver, as delegates from the Bicycle club of this city to the national association, which will soon convene in Denver. The boys expect to return home by the 19th inst.

Albert Grunfeldt and wife, who have been spending their vacation among eastern relatives and friends, are expected home next Monday evening. While in New York, Mr. Grunfeldt purchased the fall and winter stock for the firm of Grunfeldt Bros.

Mr. Cavalier, who has held the position of mining engineer at the hard coal mines, Cerrillos, has been in the city the past few days, and will leave shortly for the City of Mexico, where he takes a position on the Mexican Central railroad. Mr. Cavalier has returned to Trinidad, Col., for the present.

C. Raim, a Los Angeles, Cal., wholesale grocery drummer, was introduced to THE CITIZEN this morning by Ivan Grunfeldt, of the firm of Grunfeldt Bros. Mr. Raim stated that the people throughout the southwest are complaining of hard times, still he has taken good orders wherever he stopped.

W. A. Maxwell, John Spiers and wife, and Rev. Hodgson came in from Gallup this afternoon. Mr. Maxwell continued on to Santa Fe, while Mr. Spiers and wife will leave for Cochiti mining district this evening. Rev. Hodgson, who has been holding a Methodist revival meeting at Gallup, returned to his church here.

Floyd Bone, one of the competent employees at the Atlantic & Pacific general offices, was a passenger going east this afternoon, his objective point being Indianapolis, Ind., where he will visit for the next thirty days. During his absence, THE CITIZEN will keep him posted on the happenings in and around Albuquerque.

An Old Timer Dead.
This morning, at 4 o'clock, George Morris died at his ranch on the mountain road, just beyond the city limits, from typhoid malarial fever. His funeral will occur at the residence on Sunday morning at 10 o'clock, and the remains will be buried in Fairview cemetery.

In one of his adobe houses for a number of years, but his health began to fail him several years ago, when he sold out his mercantile business and with his wife and grandchildren moved to his pretty ranch on the mountain road, about half a mile from the old town, where his death occurred this morning.

The surviving wife and relatives invite all friends, especially the old timers and soldiers, to attend his funeral Sunday morning.

Chas. Yondorf, business manager of "Our Chief, McKnight" Opera company, was out rustling this morning, making arrangements to give an exhibition at Las Vegas on either Aug. 23rd or 24th. The company, on its return home, will stop over at Cerrillos, playing there on Aug. 25th.

Dr. Price's Cream Baking Powder
Most Perfect Made.

E. K. Gregory, manager of the Prescott office of Lantry Bros., railroad contractors, came in from the west last night, and met his sister here, who arrived on No. 3 from Topeka, Kansas. They left this morning for Topeka.

Kenneth Hazenore had the good fortune to receive a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when three members of his family were sick with dysentery. This one small bottle cured them all and he had some left, which he gave to Geo. W. Bader, a prominent merchant of this place, Lewistown, N. C., and it cured him of the same complaint. When troubled with dysentery, diarrhoea, colic and cholera morbus, give this remedy a trial and you will be more than pleased with the result. The praise that naturally follows its introduction and use has made it very popular. Twenty-five and fifty cent bottles for sale by T. H. Burgess & Son, druggists.

A. McCartney, a wealthy gentleman of San Francisco, who has purchased considerable Albuquerque real estate by tax sales, arrived in the city last night and registered at the San Felipe. He went on to Kansas City this afternoon.

TO PUT ON
needed flesh, no matter how you've lost it, take Dr. Pierce's Golden Medical Discovery. It works wonders. By restoring the normal action of the digestive organs and functions, it builds the flesh up to a safe and healthy standard—promptly, pleasantly and naturally. The weak, emaciated, thin, pale and puny are made strong, plump, round and rosy. Nothing so effective as a strength restorer and tonic. It is a healthy food, and this puts on healthy flesh not the fat of cod liver oil and its filthy compounds. It restores every organ of the body to activity, purifies, enriches and vitalizes the blood so that the body feels refreshed and strengthened. If you are too thin, too weak, too nervous, it may be that the food assimilated is at fault. A certain amount of bile is necessary for the reception of the fat foods in the blood. Too often the liver holds back this element which would help digestion. Dr. Pierce's Golden Medical Discovery stimulates, tones up and invigorates the liver, nourishes the blood, and gives the body the strength and energy it needs.

Send Hundreds of Dollars with no Receipt. M. J. COLEMAN of St. Joseph, Mo., writes: "After suffering from dropsy and constipation for several months, I was told to try Dr. Pierce's Golden Medical Discovery. I got one bottle and used it as directed. I got more relief in one hour from your medicine, as far as my stomach was concerned, than from all the other medicines I used. If any person who reads this is suffering from dropsy or constipation and will use your medicine as I have done, he will never regret it."

Equalization Board.
The territorial board of equalization closed up its labors at 2 o'clock yesterday afternoon and adjourned to January next.

The appeal of the Sierra Land & Cattle company was reconsidered yesterday afternoon and the assessment of all the company lands fixed at \$1.25 an acre, except the two home ranches and a fraction of improved land, on which the figures fixed by the Sierra county assessor were sustained.

The appeal from Union county, under which the Denver & Gulf railroad claimed exemption from taxation, was dismissed, thus giving effect to the county assessor's action in assessing the property of the road.

Action on appeals from San Miguel county brought up by the Bell Cattle company and the Las Vegas Hot Springs company were postponed till the January meeting.—New Mexican.

SICK-HEADACHE
Makes life miserable. All other ailments are as nothing in comparison. Women especially know its suffering, and few escape its torture.

THE RELIEF AND CURE IS
SIMMONS' LIVER REGULATOR.

Many people take pills, which gripe and purge, weakening the body. More take Simmons' Liver Regulator, liquid or powder, because more pleasant to take, does not gripe, and is a mild laxative, that also tones up the system. The relief is quick. It is Nature's own remedy, purely vegetable.

"I never found anything to do me any good until I used Simmons' Liver Regulator. It has been three years since I first used it, and I have not had a headache since. I sent my sister and a sick headache sufferer to two attacks of St. Albans, and she has not had it since."—C. E. MORGAN, Brownsville, W. Va.

DR. E. E. BURLINGAME'S ASSAY OFFICE & LABORATORY
Established in 1880, under the supervision of the U. S. Government, and under the personal supervision of Dr. E. E. Burlingame, Chemist, U. S. Geological Survey, Washington, D. C. Address: 1205 S. 2nd Street, Santa Fe, N. M.

Awarded Highest Honors—World's Fair.

DR. PRICE'S
CREAM BAKING POWDER
MOST PERFECT MADE.
A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant.
40 YEARS THE STANDARD.

THE CITIZEN has it direct from the Co-chiti mining district that the miners up there are agitating the advisability of making a grand display of ore at the coming territorial fair. A committee, so THE CITIZEN is informed, will be appointed at a meeting to be held this afternoon at Bland, and as soon thereafter as possible the committee will select specimens from the different mines and make other necessary arrangements for the exhibition.

A Good Recommendation.
La Fayette, Ind.—Mrs. Jan. Fay living near this city claims to have been cured by the use of Simmons' Liver Regulator after five or six of the best physicians had pronounced the case hopeless.—Albert A. Wells, Your druggist sells it in powder or liquid. The powder to be taken dry or made into a tea.

THE CITIZEN regrets to learn of the illness of George Washington Newland, a printer on the morning sheet. Sympathy was sent to him at his room in a Third street building yesterday and while he was suffering, but he replied to the message that "it was not sympathy he wanted but money due him." It is useless to state the money was not forthcoming.

Notice.
In the District Court of the County of Bernalillo, Territory of New Mexico.
Alonso B. McMillan, plaintiff, vs. H. E. Folson, defendant.

The said defendant, H. E. Folson, is hereby notified that a suit in assumpsit by attachment has been commenced against him in the District Court of the County of Bernalillo, Territory of New Mexico, by said plaintiff, Alonso B. McMillan, damages claimed,
