VOLUME 4.

ALBUQUERQUE, NEW MEXICO, SATURDAY, AUGUST 18, 1894.

NUMBER 41.

## THE WRECK.

### The Body of Fireman Norton Frightfully Mangled.

ENGINEER NORMAN SLIGHTLY BRUISED.

The special train sent out late yesterday afternoon to Cubero for Engineer Wm. Norton and the dead fireman, James A. Norton, returned to the city at 11:30 o'clock last night.

THE ENGINEER BRUISED.  
Dr. J. P. Kanter, chief surgeon of the road and in charge of the hospital here, came in with the dead and injured.

Mr. Norton was only slightly bruised, sustained in being thrown from the cab of the engine when the bridge gave way. He walked to his home on the Highlands last night, and Dr. Kanter states that he will be all right for duty in a few days.

NORMAN SLIGHTLY BRUISED.

The body of the dead fireman was taken to the undertaking rooms of O. W. Strong, where they have been viewed by a number of our citizens today. The body is so frightfully mangled and cut, in fact the flesh baked solid from the escaping steam, that a correct description of the remains, in its horrible condition, cannot be given. Undertaker Strong states that it is the most fearful case he ever handled.

COMPLETE ACCOUNT.  
The following account of the sad accident is a continuation of what THE CITIZEN had yesterday:

It is the custom of firemen, when trains are ordered to run slow, to stand between the engine and tank and look out for danger. After the bridge, two miles west of Cubero, had been examined and pronounced safe, and Engineer Norton and Fireman Norton had returned to the engine, the former took his seat on the right side and Norton stood in the gangway. The train moved slowly and on reaching the middle of the bridge

IT GAVE WAY,  
and as the engine was going down Mr. Norton was thrown out of the window of the cab. One of the legs of the fireman was pinned between the engine and tank. He hung on, however, with his hands on the top of the cab and for three or four hours, while the trainmen were working to extricate him, he talked and implored them to

SAY HIS LIFE.  
Finally, some one pulled out the coupling pin between the tank and baggage car, and no sooner was the pin pulled out than the engine and tank came together, thus crushing and mangling the body of the fireman. He was then dug out from

UNDER THE WRECK,  
and arranged to say lived about thirty-five minutes. It is said by railroaders here, who have heard the story from eye-witnesses, that had the rescuers separated the tank from the engine, in place of pulling out the mentioned coupling pin, that the life of Norton would not have been sacrificed.

He was a member of Mechanics Lodge No. 108, K. of P., Kansas City, and in answer to a telegram from the above lodge, Kansas, the body will be buried here.

ATTENTION, KNIGHTS.  
All members of Mineral Lodge No. 4, K. of P., are requested to meet at Castle hall, on Gold avenue, at 8:30 a. m., Saturday, to attend the funeral of late Bro. James A. Norton.

N. F. IRELAND, C. C.  
P. T. LAMBERT, K. of R. and S.

They Want Us.  
C. H. McILHenny, Esq., Junction City, N. M.  
Dear Sir—We would like to see San Juan county have another of her exhibits of fruit and vegetables at our territorial fair this fall; do not know the best one to write to in your section. It is so you cannot give it your attention, kindly suggest some one. While times are very hard and close still we expect to have an exhibit worthy of New Mexico, and one that our residents may point to with pride, and we want your part of the territory to assist us in our undertaking. Let me hear from you. Will mail you our premium lists just as soon as they are out.

Yours respectfully,  
W. J. Wilson, Secretary.

From the above letter to C. H. McIlhenny from the secretary of the Territorial Fair association it will be seen that the impression made by the fine exhibit at the fair two years ago has not worn off, and our southern brethren are anxious to see their brothers of the north this fall with a display of the products of their soil. The chief aim of both the northern and southern parts, of the citizens of the territory should be to have direct railroad communication, and there is no better way to attain this than by making a display of what is raised from the soil at the fair. It is true that, comparatively speaking, the fruit crop is a failure, but as to all other crops they are fine and a most creditable exhibit, har-

ring the fruit, could be made. The trouble and expense of getting up an exhibit should not be left for two or three to bear but as any honors that are gained by the county are equally shared by all alike. It is not the habit of the Index to make a display of what it does but it has five silver dollars, (it is a silver journal) to give toward an exhibit at the territorial fair in Albuquerque—Aster Index.

CITIZEN'S REPORT.

Leon Eddleman's cattle—C. P. Kister and party in the mountains.

CHILLI, N. M., Aug. 15.

After Messrs. Fowler and Gray, cattle inspectors, went through Leon Eddleman's herd of cattle and cut out what cattle belonged to members of the Cattlemen's association, Sheriff Luna and posse, of Valencia county, also went through the herd and singled out about sixty head belonging to Mexicans living west of Los Lunas.

W. H. Wilder has started the last of the Circle company cattle, excepting a small remnant, to Trinidad. He also received from W. A. Skinner, receiver for the Davenport Cattle company, about 135 head of the D. L. S. cattle, which is the virtual winding-up of two of the largest cattle companies that have ever been in this part of New Mexico.

J. J. W. Harding, worked for the New Mexico Land and Cattle company nine years in succession, is the sole occupant of the ranch at this time. He was on the lookout for the interest of W. H. Wilder, the past winter. He thinks of starting a small merchandise store at Antelope for the accommodation of the traveling public.

C. F. Kister, the cigar manufacturer of Albuquerque, with his two friends, D. C. Barclay and Thomas Virginia, have been camping for the past ten days at the ranch of Wm. Poole. They have now moved down to Antelope Springs, where they will camp for a few days. The gentlemen are having a good time.

ROTHVIL.

A chance for Capital.

Hon. J. G. Chavez, of Valencia county, who spent yesterday in the capital city, said all crops are unusually poor in the central Rio Grande region this year, and the fruit crop, including grapes, will be shorter than for years. Not within the memory of man has the Rio Grande water flow so absolutely failed as this season, and naturally the people of the valley are wondering what is to be done about it. Mr. Chavez thinks water storage is the only remedy, and he considers the time ripe for the introduction of capital for this purpose. At many points in the valley above Los Lunas are natural depressions that could readily and at comparative light cost be utilized for water storage purposes. Mr. Chavez says if the representatives of responsible parties were now to come into the valley on such a business mission they could undoubtedly make very excellent terms with the valley land owners to donate land and subscribe liberally for water rights.—New Mexican.

What in Valley Cr. Co.

In the Southwestern Farm and Orchard for the current month, Messrs. F. C. Barker & Co., of Las Cruces, make this report:

Shipments of fruit have been very heavy all the past month, except for a few days during the railroad strike, when large quantities of fruit rotted on the ground. Several carloads of peaches have already been sent out to New Orleans, St. Louis, Denver and other points. Peaches have ranged from four to six cents per pound, according to quality. Plums, six cents. The grape crop is likely to be very short this season unless we get some heavy rains. No shipments will be made for two or three weeks. Honey has been very scarce this year and is quoted at fourteen to fifteen cents per pound frame.

There will be only little over one-half crop of alfalfa, owing to lack of water in the river. What has been harvested is of extra good quality and is quoted at \$7.50. Many holders, however, refuse to sell, feeling sure that hay will be scarce this winter and that alfalfa will go up to the usual winter prices of \$10 to \$12 per ton.

17th and 18th.

At the Aguilar mines an agreement was reached on Saturday last between the company and the strikers by which the strike was declared off. The men had been out three months and seven days. Seven of the new men went out last week, which gave rise to a rumor that a new strike was on. About one hundred men are now at work, the company making no difference between old and new men when hiring them.—Aster Index.

Hon. Pedro Perez was a CITIZEN caller to day. He is ready for the fall political campaign.

## PRESCOTT.

### The Beautiful Gem City of Central Arizona.

#### A Great Mining District Largely Developed.

##### New Railroad Enterprises Now in Active Progress.

BUSTLE & BUSINESS FOR IT.

Prescott, Aug. 15.—"Our city will be greatly benefited by the completion of the Santa Fe, Prescott & Phoenix road, instead of being injured, as some people are disposed to anticipate," was the energetic way Judge Wright expressed it yesterday. "It will open an exchange of commodities to the advantage of this community that is now denied us, and mean-time our citizens will actively engage in enterprises calculated to produce good results; and the great expense attending shipments of ore will be lessened to a considerable degree; mining interests lying dormant will revive from their enforced silence, due to prohibitive transportation rates," concluded the gentleman.

Col. Rogers, referring to the beautiful weather and the progressiveness of Prescott, asked the writer what opinion he had of the place, and the latter expressed a most emphatic answer to the effect that the climate at this season is all that could be wished for, and the town appeared more active than any yet visited, though apparently experiencing the effects of the present stagnation, a situation known to all localities.

IMPROVEMENTS.

Since our last visit the elegant residence of J. L. Fisher, costing \$6,300; that of Henry Goldwater, \$3,500, and John Lawler's \$4,500, have been completed and are occupied. The county hospital has been completed and occupants provided for in a comfortable manner.

The new city jail is under roof and will contain four iron cells, the whole to cost \$3,500. Stone is used in the construction, this being secured within hauling distance, and of good quality.

About \$15,000 will be expended on the Catholic church, which is constructed of brick and cut sand stone, the former made here. The building will be completed in September. Dimensions, 50x55 ft.; seating capacity, 500; height of tower, 150 feet. John Quilven, of Albuquerque, does the masonry, F. G. Parker, carpenter work and superintendence.

An addition of some twenty-four rooms in the nature of a manse for the Hotel Burke, will be finished at a cost of about \$8,000, furnished, during November. The work is Contractor J. E. Patton's, who completed the residences mentioned, and now prosecuting the work on the club house and theater. Mr. Patton built a theater in Phoenix, and also at Williams.

The Brinkmeyer hotel is being enlarged by an addition.

One hundred leading citizens have paid yearly dues in the sum of \$32 each as a guarantee fund to J. E. Patton to build a club house at the head of Gurley street. The building is three stories, frame, five rooms and bath on first floor, and is served for Mr. Patton as a residence. On the same floor are bath rooms and exercising rooms in connection with a gymnasium for club use. On the second floor is a billiard room, parlor and reading room, and two card rooms of ample dimensions. Third floor is divided into two parlors and five bedrooms. Around the whole are two balconies, north and west front; also an eight foot entrance on the first floor leading to the opera house in the rear. The building will be ready for occupancy by October 1. Electric lights are to be introduced into the club house, work on which will be commenced shortly. The auditorium is to be 40x70, stage, 22x50; seating capacity of former 700. From the stage the arrangement for turning on four 300 candle lights and twelve 11 power will be completed. Raised seats will be placed in the rear, the arrangement being such as to facilitate the clearance of the hall for dancing. The building will be frame, with good exits, and it is expected will be opened by a special entertainment under club auspices on Nov. 1. Cost estimated at \$12,000. The Turkish Bath and the Royce-Lansing company are booked.

Electric lights have been placed in and around the depot building; also in the Courthouse.

John Lawler is building a \$3,500 residence, adjoining the club house building to be occupied by one of the Lantry's.

TRACK AND TRAIN.

The track of the Santa Fe, Prescott & Phoenix railway was laid to Skull valley in May. Delay in receipt of rails until this week has prevented track laying beyond. Eleven thousand, five hundred tons of 77 pound steel rails are due, sufficient to complete the road to Phoenix. Timbers, ties, etc., have been ordered for the balance of the work and are being turned out as rapidly as possible. Telegraph line up to Skull valley will follow track layers. Some sixty men now employed will be increased two weeks, hence to 350.

Grading has been completed by Lantry's force, some 600 men, twenty-seven miles beyond Skull valley and thirteen more will be finished by the end of the month, bringing the grading to the vicinity of the big Congress mine, where a three mile spur will enter the main district. Rail to this point will be laid by October 15.

The contract for grading is limited to Feb. 15, so that all conditions being favorable as to supply of ties and timbers, the Bagshaw Lumber company having this contract and who assure prompt delivery, the road will be completed to Phoenix during the second month of 1895 with great ceremony.

Trains run daily to Skull valley, 25 miles out, connecting with stages for Phoenix. Trains will be run on and after September 1 to a valley beyond.

Congress mine, 64 miles south-west, sent out 15 cars of ore and concentrates in May, 23 in June and 31 in July, teams carrying the output to Skull valley station. A car daily is the average this month, all going to Pueblo, Denver and Arizona, some to Kansas City.

Red Bank mine, 40 miles south, Kirkland valley, and Valiente, southwest of Congress, big producers, will soon supply by team,

and rail when that is possible; also other mines in the south and south-west.

Del Rio, north of Prescott, will continue the stock shipping point, and the coming season will be a good one, due to recent rains. Arizona being great in this respect during the past two weeks.

By October 10 the narrow gauge of the Verde & Pacific Railway company will be completed to Jerome. The grading, on which 300 men are engaged, is largely done, and the distance, twenty-six miles, and the track-laying is in sight from the Junction, at Clear Springs, eighteen miles north. Two Baldwin compound engines, a combination passenger coach, twenty six flats and box cars are on the track ready for service. Wm. Crowley, an A. & P. roadmaster, and his section foreman, Pat Curley, arrived on the 10th inst., and are processing the track laying to a finish. In the main the grading has been comparatively light. Freight-train to and from the Jerome mining district will be conducted at Granite station until the road is open for traffic, which is a big item and will increase with better transportation. Forty car loads of forty and forty-five pound rails are at the Junction and to arrive. Water for tank No. 1, erected, is pumped by windmill from a twenty-foot well in Lone-come valley, the junction point. E. H. Becker is chief engineer in charge, the gentleman having had large experience. T. F. Miller & Co., of Jerome, have the board of contracts, feeding 100 men at Clear Springs, those coming in at Granite until the road is completed, and the 300 now operating in the mountains near Jerome. Two Raines, of Sonora, will be conductor of the construction and first passenger and freight train; George W. Hill, engineer; C. Gillespie, late of the Great Northern, foreman; Fred Bell, of Sonora, brakeman; F. A. Cole, of a most emphatic answer to the effect that the climate at this season is all that could be wished for, and the town appeared more active than any yet visited, though apparently experiencing the effects of the present stagnation, a situation known to all localities.

Two car loads of ore and malle are shipped out, grain, etc., in at Granite for the Jerome district at \$2 per ton. This traffic will be doubled when the railroad is opened and the rate lowered.

Machine shops and a round-house is among the possibilities at Prescott, at both will be needed by the P. & P. road.

Brakeman Daniels and wife leave in a few days for Texas, visiting Albuquerque.

MINE & MINING.

The assessment roll herewith gives a pretty good idea of the extent of mines, not including those undeveloped, on which assessments have not been made.

The Henrietta mine, in the Big Bend district, is in litigation, and some satisfactory settlement is expected soon.

J. R. Black put in a 5-stamp mill on the Big Bend, crushing ore for Fred Douglas, Conn & Lee and others.

W. A. Little has taken hold of the Black Mine shaft, south of W. A. Little in the Bradshaw district. He is crushing ore at his 20-stamp mill and has introduced a 40 horse power, pumping water five miles. His ore goes from \$5 to \$20.

The world is mine. There are not exactly 60,000,000,000 words, but they were to the effect that he expected to make a fortune out of his dry washer which he has been exhibiting here until wet weather set in. He has been working "tailing" successfully. Everything looks prosperous for him. His family reside in Prescott.

When the Congress district is reached by the Prescott & Phoenix railroad the stamps will be increased from 40 to 80. The company operating pay \$1500 taxes, likewise the United Verde company at Jerome, being the largest operators.

Those are going to Santa Maria district, 25 miles west, where a dry washer is operated. A wagon road is being opened to the district.

The Little Jesse continues a great producer, having made F. L. Wright and his owner, Mr. Jones, a mint of money, the former before the stamp mill was erected. Mr. Jones was \$20,000 in debt when he took the lease from Wright and is now a millionaire.

Crown Point, Gladiators, Dividend, Red Bank, Yarnell and Henrietta are among the leaders.

Jerome district sustains a population of 1,000 and the number will be doubled this winter.

PERSONALITIES.

Pete Kanter drives the horse team for beauty and speed in his high top. Tom Brown, both of the Windsor, is an authority on mining. No more popular men are among the Prescottites.

Thos. L. Shultz is foreman of Prescott Lodge, A. O. U. W., recently organized, and W. A. Little is a recorder. Both are known in Albuquerque, the former as a type and the latter in the ticket office, Goldworthy having a like occupation here.

Chas. Melini, of Franco Frank & Co., spent Saturday and two days following in vicinity of Skull valley. His first trip this way and a paying one.

W. A. Rowe, ex-speaker of the council, president of the constitutional convention and present chairman of the county board of supervisors is generally mentioned as a democratic candidate for delegate. He is a fine speaker and works like a beaver. Mr. Rowe is an old friend of the writer, meeting for the first time in over a dozen years, last May.

S. M. Cullum, Jr., is clerking in Duke's store and looks well.

Rudolph Beyer and John B. Bettegar came here from Albuquerque with Jacob Schwartz. The latter is in J. E. Patton's employ.

Master Quilven, of Albuquerque, is assisting his father as a mason on the Catholic church building.

Contractor, Geo. Williams, is working on the Catholic church, a most attractive edifice. The roof is being put on.

J. Derr, formerly of Flagstaff, is conducting a tailoring establishment.

Rogers Monroe, of Winslow, is here temporarily.

Chas. Martin, of the Bellevue hotel, was a boy in blue at Fort Whipple eight years ago.

Mr. and Mrs. W. C. Bashford, Mr. and Mrs. W. S. Morse, Misses F. Gould and Agnes Lynch, Mrs. Duke, H. Brownstein, John Kimball, H. H. Helm and H. D. Derrin, left for Grand Canyon on Saturday. Mrs. Anne McGowan, Miss Ada Duffendorf and Kate Helmer leave this week. W. B. Bass who organized the above parties, will go to Phoenix for a number contemplating the trip.

William Morrell just in from the front desert to be remembered to Editor Hughes and Captain Burdett.

F. W. Blake is an old time Wells, Fargo man.

Postmaster Morse's office is a big dis-

tributing point. The office is classed at \$7,000.

John Skaggs, deputy under Perfecto Armijo and other officials, is on Beaver creek in Verde valley. He said he would hardly know Albuquerque now and hopes to be able to attend the fair.

TAILORS.

Frank Murphy runs the Cobweb restaurant. This is not the railroad restaurant, but one of a class now kicking up a muss over little Corra, Frank worked for Mr. Murphy, hence the name, a common method of naming well known Chinese.

Gains in plenty from Ash Fork down to Prescott yesterday, and the grass will be up three feet in two weeks," said Conductor Tom Karrigan.

To Superintendent Coleman and Agent and Auditor Healy we are indebted for information.

"Meal hunters are too numerous for any good and most of them don't want work. There is plenty to eat at Jerome, Congress and on the railroad, but most of these meal hunters don't hanker for it," said a citizen this morning.

There are 26 members of the assembly and an election in November will test who are to sit in February.

Ex-Deputy Geo. Ruffner and Treasurer Oliver are quoted as democratic candidates for sheriff Recorder Brodie mentioned on the republican side. Sheriff Lowery has had two terms.

Verdi and Kingman fruits are truly splendid, the latter improving with each new shipment.

Bulfinch shipments for three months ending Aug. 1, have been larger than any preceding quarter.

The Examiner won its suit to recover \$150 from the city of Prescott for an unsatisfactory "write-up" last spring, and a kick has been coming ever since. The Citizens leads California papers in Prescott sixteen hours and morning papers by twenty eight hours, and they are beginning to find it out, though hard to be sure.

Abstract for 1894, assessment roll of Yavapai county. Value of 258,000 acres, \$209,124.45; 188 patented mines, \$68,000; town lots, \$230,000; improvements on lands, \$100,000; on lots, \$412,847; total, \$1,171,576. Atlantic & Pacific railroad, 60 54 100 miles, \$306,760; Prescott & Arizona Central, 75 miles, \$230,450; Live stock, \$4,400; horses, \$297,056; 41 stallions, \$4,320; 42 mules and 323 asses, \$5,087; 78,091 stock cattle, \$446,647; 50 bulls, \$2,000; total, \$552,741; 19,000 sheep, \$38,000; 10 dairy cows, \$300; 1,200 goats, \$1,200; 612 swine, \$1,380; all other property, \$781,326; total, \$2,353,305. Grand total, \$5,560,681. The Santa Fe, Prescott & Phoenix has been exempt, but an effort will be made to collect for 1893-94.

Albuquerque beer is sold for 5 cents, the same lamps, by several saloons.

The gentleman who "rambled on the green" is not doing much and changes occur daily in the personnel, so information gives it out.

PIRATES.

POLICE COURT.

Bath of Cuban Gang Victims Horse

George Cline and Ed Kennedy, who were soliciting alms, were arrested last night and placed in jail. This morning they were up before his honor, Justice Lockhart, and both sent to the chain gang for ten days each.

Billy Andrews, Floyd D'Atley, Eddie Jackson and Billy Hastings, four as the looking holes are ever walked in shoe leather, were caught in box cars last night and jailed. This morning they showed up in a row before Justice Lockhart, and as they could not account for their condition, they were sent to the chain gang for ten days each.

Walter Anderson, Jimmy Robinson and Claude Johnson were also found in box cars, but they declared to the judge that they were seeking work and were anxious to toil. The judge fined them \$5 and costs each, but suspended sentence provided they would leave town inside of ten hours.

Frank Rogers, Con. Hurley, Fred Cook, Billy Daniels, Johnny, Jimmy and Bobbie Brown, were found last night snugly hit away in a car of merchandise, which was bound for the south. They were brought into the august presence of his honor, Justice Lockhart, this morning, but as the night policemen, Fred Fornell and Frank Harris, and the night men at the depot, could not be present, their case was postponed until this evening at 6 o'clock.

The preliminary hearing of Maurice Chavez and Julian Quintana, accused of stealing two horses from J. M. Green, then came on before Justice Lockhart. He concluded that he had jurisdiction to hear the case, and bound the two men over to await the action of the grand jury of this county in the sum of \$1,000 each, in default of which they were conveyed to a cell in the old town jail. The men pleaded guilty to the charge of stealing the horses just before leaving the court room.

Registration in Apache county.

There are 937 names already filed for registration. From present indications the registration this year will reach thirteen hundred. Registering officers will confer a favor on the county recorder, as well as the printer, by forwarding the affidavits of registration every week.

By so doing they will facilitate the work all around.—St. Johns Herald.

Carnegie is a good example of the absentee landlord. He has caused more trouble, and done more to disgrace the nation, than any other man in it. His Homestead troubles, his armor plate frauds and other dubious transactions have brought shame to every American who loves the good name of his country.

The horse running team are doing some little practicing. Trainer Knight declared that his sprinters are in first-class condition, and he expects to bring back the team from the Las Vegas tournament.

Misses Bell and Brown, two pleasant young ladies, are in charge of Mrs. Gray's store, during the absence of the latter, who is spending her vacation in Denver.

## WHAT WE ARE DOING.

### A Good List of Prosperous Albuquerque Enterprises.

FOOD FOR REFLECTION.

The Southwestern Brewing company has been shipping considerably more of the famous beaver brand this season than heretofore, the fact which has placed the largest orders being the western country. This includes Fort Wingate, Gallup, Winslow, and as far west as Prescott. It will surprise many of our readers to know that the latter town is reached, but such is the fact, however. The product of Albuquerque's brewery is proving O. K., and the company deserves success.

The flouring mills of Charles Mansard are grinding away on new wheat, and the general proprietor informed this Citizen the other day that he is adding new customers almost daily, his flour receiving a good demand north and south of the city, on the Atchison, Topeka & Santa Fe, and out west on the Atlantic & Pacific. Mr. Mansard is authority for the item that the wheat of the Rio Grande valley is up to standard this season, and the average is about the same as last summer.

Hanning's Grindstone flour mills, on the street railway track, over at the old town, does largely in exchange, but still carries on a good grinding trade.

The Crystal Ice company plan is an institution worthy of the local and large outside trade it enjoys. This is an industry that involved, in the beginning, a large outlay of money, their weekly expense roll averaging considerable. The ice is sound and brim, and is of the best manufacture.

The Albuquerque Foundry and Machine works, E. P. Hall manager and proprietor, is not working as full as usual; this business being dull, as might be expected at this season, and especially during the depression in the railroads. Mr. Hall informed this Citizen yesterday that his works are enjoying its difficult season. No better plant, all conditions being in good shape, exists in this community.

The general machine shops, foundry and blacksmithing department, of the Atlantic & Pacific, were closed a short time ago, but this Citizen understands from pretty reliable sources, that they will start up in a few days. These works are the most important in the southwest, and when in running order employ at least 400 men during the day, and often at night when orders are rushing. The present "dullness" of the shops is one that is felt, but it is hoped only temporarily.

The Albuquerque cigar factory is a little over a year old, and the force employed has been increased in that period from two to seven workmen. This increase was necessary from the fact that the growing trade, locally and outside, had increased many folds. C. P. Kister & Co. are young gentlemen but hustlers.

John G. Wahl's new brewery will be the means of keeping work in motion here, and besides the fine character of work he is turning out will bring in many orders. The industry is somewhat of a necessity and should be patronized.

Hughes & Funnery'sinery is now taking orders, and a good trade is assured. The establishment of the tannery is a new institution, and the proprietors are working hard for its success.

The new vinegar factory is one of the many industries doing its share in bringing money to the territorial metropolis.

Joan Tumble, the manager, is at an early day to divert his work through a medium that reaches the remote north, east and west of Albuquerque. Locally, he is making a success out of his works, the merchants generally purchasing their vinegar from him.

The soda water factory of A. Harsch is one of the old established institutions of the city. The "old man" has made enough to lay back on his ears and rest, placing the burden of the business upon the shoulders of Ed B. Harsch, also accomplishing son. This company enjoys a good trade, and so does not mind a strike.

Santa Fe and Los Angeles & Santa Fe roads.

On the one hand, and on the other, the big gardens of old town, and some up to a west and south from the gardens, and the product is highly praised by the user man. These are our gardeners near the city, and several are contenting some scheme whereby potatoes can be raised with profit in the valley.

These industries are numerous and around Albuquerque, and while they do not constitute the entire list, (this Citizen being unable at present to present a complete list), it is no less true that Albuquerque is the home of enterprises and that they are all in a thriving condition.

Correcting the Misconception.

Fifteen more cattle of the Osborn herd of J. C. Jey were slaughtered yesterday by the Territorial Veterinary Surgeon Norton. Post mortem examinations were made on all of them, and the result of the doctor's tests concerning tuberculosis was confirmed.

Among the animals killed were several calves whose lungs have been preserved. All contain tubercles and present other conditions of the disease.

Of the original forty-five cattle of the herd twenty-two remain, some of the slaughtered animals having been calved since the herd was brought to the territory.—Phoenix Republican.

## A MARTYR TO INDIGESTION

Cured by Using

Ayer's Sarsaparilla

Words of Comfort to All who Suffer from Dyspepsia.

"For years, I was a martyr to indigestion, and had about given up all hope of ever finding relief, as the complaint only seemed to grow worse instead of better, under ordinary treatment. At last, I was

# Weekly Citizen

ALBUQUERQUE — AUGUST 18, 1894

BEFORE you repeat a slander remember that it has no antidote.

"THE HEAVENLY TWISS" of the administration are Greenham and Olney.

It is reported that the populist party will organize in this city next month.

Mexico will be forced by public sentiment to stop bull fighting and dueling.

FRED MARTINEZ is no longer the leader of the democratic party in New Mexico.

Two democratic congressmen not being able to pass a free trade tariff bill, will have advanced in price.

THE CITIZEN is the only paper in the two territories having a general circulation in northern Arizona.

SINCE the Alabama election the democratic party is sitting up in its coffin and insisting that it isn't dead.

Gov. THOMAS declined to pardon the Raton strikers. Probably he was afraid his pass would be taken up.

This democratic congress actually hasn't sense enough to prepare a tariff bill upon which they can agree.

PRESIDENT RHEINART has resigned his position with the Santa Fe company, and others may be expected to follow.

If there is anybody who loves Mr. Cleveland for the enemies he has made, another installment of love is now due.

If you wish to know what sort of a tariff bill the democrats will eventually agree upon, apply to the sugar trust for information.

THE people of New Mexico have had little recreation this year, and a visit to the territorial fair in September will do them good.

The affairs of the city are being carefully managed, and Mayor Lathrop and the republican council are bringing the city up to scratch level.

SOME one has called the unemployed who go before the labor commission the "rabble." Yet sometimes the rabble discovers what is right.

CONGRESS is looking for a soft spot to land on, and for once it has the sympathy of the public. The softer the spot the quicker the disappearance.

THE state board of equalization has assessed the railroads in California for the current year at \$42,739,940, an increase of \$292,000 over the valuation of 1893.

HON. N. O. MURPHY has an open field for the congressional nomination on the republican ticket in Arizona, and he will be elected if he accepts the nomination.

THE democratic committee at Santa Fe adopted staid resolutions and selected Las Cruces as the place for holding territorial convention, with no date named.

ST. LOUIS boasts that it has more miles of electric railway than any other city in the world. A Chicago man suggests that it is because the people are too lazy to walk.

THE democratic majorities in some places in Alabama were larger than the total number of votes cast. The democratic party in Alabama is evidently in its old form.

IT is now announced that Mr. Debs, having declared that the strike is "off," will go upon the lecture platform, having been offered a large salary by a Boston lecture bureau.

THE democrats did not dwell together in harmony at Santa Fe last Saturday, and several heretofore leading lights of the party will be forced to keep away from the pie table.

THE majority in congress is showing a disposition to ignore the republic of Hawaii. By so doing they will merely improve the opportunity to increase the unpopularity of their position.

THEY have nice ways of putting things back east. Well bred people there now do not talk about the world, the flesh and the devil; they speak of "environment, heredity and circumstances."

THE Silver City Enterprise says: "Mr. June A. Hunt, representing the Albuquerque DAILY CITIZEN, the best all-around newspaper in the territory, was a pleasant caller at this office yesterday."

THE selection of Prof. Hiram Hadley as principal of the Territorial University will give general satisfaction. He is a trained educator, and a gentleman in every sense of the word. Under his care the University will prosper.

IF the incapable congress now sitting at the national capital would settle the tariff question in any way, it would give the people a change from the uncertainty and suspense which have prevailed since the advent of Clevelandism.

ACCORDING to the mint report the United States produced in 1893, 1,739,323 fine ounces of gold, of the value in round numbers of \$35,955,000, against 1,597,100 fine ounces, of the value of \$33,014,381 in 1892; an increase in favor of last year of 142,223 fine ounces, of the value of \$2,940,619 net.

IT has been decided by the courts that the selling of liquor to an Indian who is not under the charge of a United States agent is not punishable under the federal statutes. This will afford a strong incentive to the Indians to emancipate themselves and run things on their own hook.

THE new law regulating enlistments in the United States army when perfected will fix the term of enlistment at three years; and it will be required of foreign born persons that they shall have taken out their "first papers"—that is, that they shall have declared their intention of becoming citizens.

MAZZI's flying machine is the wonder of the age just now in Europe. Not only does it resemble in its 100-foot width with its four huge wings some giant bird of the past age of the world revisiting the sky, but it possesses a truly giant

strength. Its large two bladed screws, fashioned like the propellers of a ship, would seem to be the most powerful ever made, developing one horse power for every two pounds of their weight. The novel boiler of tubes gave a pressure of 32½ pounds for the triumphant flight, and made the machine speed through the air like a locomotive for 500 yards at the rate of 45 miles an hour. With its surplus power for yancy of 2,000 pounds, the marvellous air bird actually broke loose from its check rail and soared even higher than Macdonald wished.

THE San Francisco Chronicle pertinently says: "Certain eastern senators are opposing the admission of Arizona on the ground that the present bill contains a clause making silver a legal tender for all debts. In all probability these objectors are possessed by a lunatic delusion. The Cleveland Sherman stamp. They see no objection to a state or individual attempting to define the legal tender quality to gold, but have serious doubts about their right to treat silver in the same fashion, and yet the constitution, by implication, has given to the states the right to make both gold and silver a legal tender."

PROF. FRED DAVIS, late principal of the School of Mines at Socorro, was a pleasant caller at THE CITIZEN office a few days ago. In conversation regarding the school the professor suggests that the mining department and apparatus be added to the Territorial University and that the School of Mines building at Socorro be used as a territorial normal school. This would be a large number of pupils from all over the territory.

A GRACIOUS Chairman who has been interviewed in Philadelphia, holds that his country leads the march of civilization. It has a history of 4,000 years and printed records reaching back 3,500 years; has passed through the era of mythology, witchcraft and superstition to philosophical religion; is entirely sufficient to herself, doesn't owe a dollar, and has more money than all the rest of the world combined.

NEW Mexico has the largest percentage of church members of any state or territory in the Union—68.5 per cent of the population. In 1890 there were 463 churches, with 381 church edifices, with a seating capacity of 107,925. The church property was worth \$531,925, and the communicants were 105,749.

THE treasury officials are said to be anxious to put into use the large amount of silver bullion now stored in the vaults. This can easily be done by running all of the mints to their full capacity upon silver coins and retiring all government and national bank bills under the denomination of five dollars.

TEN thousand people have petitioned to have Olney's acts investigated with a view to his impeachment. It would make little difference whether 10,000 people wanted him impeached if the senate did the trying of the case.

**GOLD GOING TO SNOPE.** The gold exports are now in the neighborhood of a million dollars daily, and this steady drain is beginning to attract the serious attention of financial men all over the country. As a rule, gold exports begin in the spring, and last until about July 1. But it is now long past the time when the outflow should cease, yet there is no diminution of the drain. The reason for this phenomenon is this: given by a Chicago banker to the Evening Journal, of that city:

"The country is largely in debt for importations received and for securities held abroad. It is estimated that one-third of the total stock of corporations in the United States is owned by foreign capitalists. Their amount is over two billions of dollars. On account of the financial depression here, the aggregated statement of strikes and labor troubles published abroad, the failure of several of the largest railway corporations in the land, the distress in Australia and South America, which entailed heavy losses on the part of wealthy men in Europe and Great Britain, these capitalists have become scared, and they have therefore put their stocks and securities on the market, when, under other conditions, they would be loath to dispose of them. In payment for their securities the Europeans receive gold, and consequently the gold reserve in the United States treasury is drawn upon for millions of dollars."

**CONGRESS SHOULD ADJOURN.** Congressman Bland's resolution, which provides for free sugar and an income tax which will yield \$100,000,000 a year, is intended seriously, according to its author, "if there is an indication that the general tariff bill will fail."

SOME republican in the house should provide for the contingency which Mr. Bland seeks to meet, by offering a supplementary resolution declaring that inasmuch as the agitation of the tariff question has for more than a year past embroiled the business interests of the country in uncertainty, apprehension and disaster, the further consideration of the matter should be prevented, the McKinley law should be left unchanged and congress should adjourn.

SUCH a substitute for the Bland resolution would, if adopted, bring about a widespread and pronounced recovery of business.

**THAT "CHANGE."** In October, 1892, that great democratic authority, the Chicago Herald, exhorted its readers to vote for a "change," and in order to catch the votes of the farmers it used the following bait:

"Vote for Cleveland and \$1.25 for wheat."

ON July 6, 1894, this same Chicago Herald published the following dispatch: "Vandalia, Ill., July 5.—Wheat threatening in full blast in Fayette county. Six hundred bushels of the new crop were brought to market today and sold at forty-five cents per bushel. The berry is exceptionally fine, and weighs over sixty pounds to the bushel measure."

IN November the people will vote for another "change" in the make-up of congress and in 1896 will hurl the democratic party from power in the White House.

A. A. P. KENNEDY.

Notes from Williams, Ash Fork and Prescott.

Prescott, Aug. 11.—After closing the last letter from Williams, discovered that Mrs. B. McDonald, the popular landlady of the saw mill boarding house, was being surprised by some twenty friends. It was her birthday, and her friends decided to present her a handsome toilet set and selected Captain Strohn to "give the lady a little talk" in presenting the gift. When the Captain has a task anything like that of Thursday evening, it is well to be on hand and enjoy the treat.

Among the passengers on the train last Wednesday was one of Uncle Sam's boys from Fort Wingate, destined for Fort Vancouver. He occupied the floor, probably because it was inconvenient to do otherwise. Arising from his slumbers, he got off at Williams. The attractions of Front street just suited him, and he settled down to a game of "pitch"—it might have been poker, but it matters not, for he arose from the game somewhat dazed, his \$500 gone, and in a strange place. He wandered about town during the day and the last seen of him was when he asked a loan for bed and breakfast from one of the gentlemen who "pulled in the sack." A dollar was passed to the unlucky boy in blue, and his first move was for the bar, after which he went into an adjoining cafe, and that was the last I saw of him. The games are pretty quiet, of the sports here are Walter Darling, Jim Mahoney, Charlie Pierce, all known in Albuquerque.

There are now six saloons running, usually all night institutions, but of these only two hold out through the "wee sma' hours." Captain Smith says the cash end has been better the past two weeks than a like period preceding. During the strike the saloons were disposed to close entirely, as every other man wanted it "put on the slate." The man who hath tenacity to ask for a "stand-off" now must have a good record indeed.

Business, though dull, is better than could be expected, and but for the break in the machinery at the mill things would be better than at present. Williams is all right, but like other railroad towns we know of, they want to shake off the shackles and be more independent of the railroad. All will go better, and the corporation controlled now by the receivers will get along just as well.

Morris Walsh gave a chicken supper on Thursday evening, which Joe Broyles, Con Kennedy, and the writer enjoyed. At it was of the spring variety the cuts came in small doses. Nobody was prepared to say "dark meat," as it was "Hobbs' choice." Tom Lee's chief was complimented, and Broyles opened the claret. Mr. Walsh will remember his friends again—when the chickens have their growth.

The cross trees for the Postal's line are on the ground. Am told that Santa Fe gang will soon operate west from Williams.

Whatever you do, don't ask Michael or Doc Johnston about the change in the division. This amendment is intended for Flagstaffians and others visiting Williams.

**ASH FORK.** "Look at that grass," remarked Doc Johnston, as that gentleman passed the cigars to Conductor Jim Mahoney, while we were enjoying the front end of a chair car last evening. Mahoney was too much absorbed in that "charney stone" ring he is prone to show his friends, to take any notice of the doctor's reference to the green fields, which look so promising in the stretch between Williams and Ash Fork. The doctor came to Ash Fork on a professional visit.

W. W. Bass, the irrepressible projector of Grand Canyon trips, was at the depot waiting for No. 4 to Williams. He was "loaded" with information regarding the next party—"some of Prescott's 400," said he. Having missed the paper will be obliged to add the names in a future letter. There was 12 in the number and some to join the party at Williams.

Wm. Crowley, roadmaster from Walnut to Peach Springs came in yesterday with Pat Curley, one of his foremen. They will lay the Verdi & Pacific narrow gauge track from Clear Springs to Jerome.

On the return to Ash Fork will call and see my friend Crowley on the new narrow gauge, above mentioned.

Cashier Crary came down and returns from Prescott Sunday.

Dave Rudolph is here from Alaska, British Columbia, and came in from Phoenix via Congress mine recently. He was in Sacramento during the strike and tells an interesting story of the events of that period. Will defer further mention of David's observation and say, finally, that he was to go to Jerome this morning.

Reference to Prescott will be made fully in a long letter. Meantime will say that Leader Willbanks, of the Prescott band, will take his men to the fair, if all is "according to Hoyle."

Will see Mr. Healy and find out if they will send Yavapai minerals and views on the Santa Fe, Prescott & Phoenix.

The time table of the Prescott road fits nicely for THE CITIZEN, so that the leading New Mexico Journal located at the gateway to central Arizona and Prescott is sixteen hours ahead of Los Angeles evening papers, and twenty-eight hours ahead of the most formidable rival, the Times, of that place. Trains leave Ash Fork at 7:20 a. m. and 4:05 p. m.; the latter making the connection with No. 2, arriving at Prescott at 7:15 p. m. These two trains arrive from Prescott at 1:30 and 6:10 p. m. The loss of 45 minutes is made in the run. Conductors Karrigan and Bailey punch tickets, the former on the passenger. Conductor Brown is on the Kite track out of Los Angeles and is missed, though the others are good men, as we know.

**PITTOCK.**

The fourteenth annual Territorial fair will be held in Albuquerque this year on September 11, 12, 13 and 14, and will be under the management of President W.

Hesslein and Secretary W. J. Wilson.

These expositions improve each year, and have done more than almost anything else to advertise the resources and possibilities of New Mexico. Start in now to get together a good exhibit for Grant county. It will cost but little to make the exhibit, and the result is sure to be beneficial to our county.—Deming Headlight.

**HILLBORO MINE.**

Active Work at this Prosperous Gold Camp.

Extracts from Advertiser.

Crews & Titus are leasing on the Opportunity fourth level.

J. M. Moffatt has a ten ton lot of ore sampling at the smelter.

Gus Anderson is working the Printer Boy on Animas Peak.

A raise to connect the Snake and Bob-tail workings will soon be started.

Welch and Cogan are developing an iron mine discovery of theirs on the Percha.

Alex. M. Storey has a lot of fine looking ore at the Standard Smelter.

Gus Selen has taken a lease on the Bob-tail mine and has begun work thereon.

Shwartz and Ochs made a shipment to the smelter this week from the Snake.

Recent rains have made some improvement in the water supply of our mills.

Jas. Kenning's mine in Grayback gulch is beginning to be a producer of smelter ore.

Bonzana mine and mill doing well and turning out good results in gold bullion and concentrates.

A big carload of matter was shipped from the smelter yesterday, to the Argo Refining Works, Colo.

The Hibernia-Caledonia mine is showing good progress by the appearance of the ore pile on the dump.

Larney and Fitzwilliams are putting in a car and track, and otherwise improving the New Hope in Wicks gulch.

The Standard mill is still crowded with more ore than it can crush. Five more stamps will be in operation next week.

F. Lindner has five men at work on the Frojan mine and is keeping the smelter well supplied with silver manganese fluxing ore.

W. W. Williams has taken charge of the work on the Wicks-Ross mines and has put a force of men to work sinking a new shaft.

Belser & Conahy and Fitzwilliams are making up a carload of ore for shipment to Pueblo from their mines in Ready Pay and Wicks gulch.

C. Robin shipped 45 tons of ore this week to the Standard mill and smelter, being one month's product from his lease on the Snake 350 level.

Alex. M. Storey is working the Richmond tunnel level and looking after the property generally. Quite a number of miners are hoping to get a chance to lease on the Richmond as they expect that method of working is likely to be practiced in the future.

The Standard Company's new 50 ton furnace is a little too big for this district as yet, and is necessarily idle a portion of the time. At the rate of increase from the Snake and other mines for the past few months it seems probable that the furnace will be kept in blast full time before the end of the present year.

The owners of the Chicago mine are about to commence work on that property, which was formerly known as the Lulu and has produced some of the richest gold ore found in the camp. It is more than probable that the Chicago is the true extension of the Opportunity, as it lies just the same distance east of the Snake hole that the Opportunity mine does, but nearly a mile further north. The Snake vein is distinctly traceable and unbroken to this distance and forms a good guide for the locating of parallel lodes.

**A Bastardy Act.** C. A. Cantrell, who lives on a ranch a few miles south of the city, is under arrest on the charge of shooting and killing a valuable Durham milch cow belonging to the D. S. Patterson dairy. The killing occurred last Saturday, and Mr. Patterson states that he would not have taken \$75 for the cow. The case will come up for hearing before Justice Lockhart next Monday morning. A short time ago a fine horse belonging to Mr. Patterson was shot and badly wounded, and the neighbors accused Cantrell of being guilty of the dastardly act, and an item to that effect was published at the time. Mr. Patterson was not in possession of facts that warranted him in having Cantrell arrested for shooting the horse, and after a friend of Cantrell's had denied the shooting and killing of the cow now lead Mr. Patterson to believe that Cantrell was also guilty of shooting the horse.

**Best Seat in the Territory.**

We see by the Albuquerque Evening CITIZEN, the best daily in the territory, that Mr. W. T. McCright has purchased a half interest in Tom Hughes, in that journal. We congratulate Mr. McCright on his good fortune. It is true that Mac and Tom are the brightest newspaper men in this territory, and it is due to them that THE CITIZEN has reached its present popularity. Mac has been engaged on the local staff for a number of years on that paper. Success to you, gentlemen.—Pecos Valley Independent.

**The Leading Paper.**

W. T. McCright, one of the oldest newspaper men in the southwest, has purchased a half interest in the Albuquerque CITIZEN. Mack has been connected with THE CITIZEN for a number of years and has helped to make that paper what it now is—the leading paper of New Mexico.—Williams, Arizona, News.

**We Was Pleased.**

J. E. Saint, receiver of the New Mexico Savings Bank and Trust company, who has been out at his Acme cattle ranch for the past two or three days, returned home this afternoon. The party of Turks, among them the girls who can dance "out of sight," gave free exhibitions of their wonderful proclivities on the train, and Mr. Saint was well pleased.

Turks sang a number of songs and played their musical instruments in great style.

**SILVER CITY.**

The Name, Though insignificant, calls a halt.

Silver City, Aug. 11.—Though well-named by that suggestive and musical word, it tells nothing of the great mines of gold and other metals that in these times of disheveled silver are the mainstay and backbone of this district to-day. By that building tenacity and courage which characterize the pioneers of the west and never say die, the miners of this district have temporarily turned their genius and industry to the production of gold, and maintain as the center of their operations one of the best towns to be found in the west—Silver City.

New Mexico is indeed proud of the record of the streams of wealth which have been turned, and are still turning, out of these grand old mountains. This generation, not probably the next, will ever witness the fullest returns from these coffers, but the output of 1893 is herewith submitted to show what is accomplished in its infancy:

Silver	\$610,201.79
Gold	\$65,108.56
Copper	\$6,000.00
Lead	\$2,300.00
Zinc	\$7,745.75
Iron	\$18,900.00
Total	\$711,155.10

This is a handsome showing for Grant county in the year of silver's downfall.

**THE TOWN.**

It has a population of 2,500, and is situated in a pleasant altitude among the foothills, near the continental divide.

The business houses are large and commodious structures and are occupied by energetic and progressive business men.

There are many handsome dwellings in the residence quarter.

The new territorial normal school building is in course of construction and occupies the most commanding site in town.

It will be opened this fall with a good course of studies. Prof. Geo. Selby will occupy the president's chair, with Mr. Jas. A. Long, of Hillsboro, as assistant.

Silver City is all right and is to be congratulated on holding her place as one of the best towns in New Mexico.

**PINOS ALTOS.**

Pinos Altos is one of the many good mining camps tributary to Silver, being only nine miles therefrom.

Bel & Stephens, the old time reliable merchants, are still in business, and are also heavily interested in mining and milling.

Joe Aronheim still holds a main corner down in general merchandizing.

Although at a good still altitude, the boys need an occasional stimulant, which is furnished at John Kraus' pleasure resort.

The mill at Max Schuts' Little Giant runs night and day pounding out free gold.

Demick Bros. are building a more capacious smelter for their rich silver mine, which often turns out 90 per cent of the white metal.

The placers here are worked by Mexicans, and during the present showery days they are "making hay" while the sun doesn't shine.

Dorsey Bros. recently made a very rich strike, whose returns run up so high that through sheer modesty they are not furnished.

Pinos Altos is on the backbone of the continental divide. Part of the rains which fall in the town make for the Atlantic, and part for the Pacific ocean.

Orchards and fields of corn are thriving on the divide and are a pleasant feast to the eye.

Hill Bros. are raising Angora goats a few miles west of town. Last year the Angora wool of half-breds brought them 17 cents per pound. Seven-eighths blood wool would bring 30 or 35 cents. When free wool ruins our sheep men, here is an avenue for them.

The mountain lions and bear are killing a considerable number of the Angora's.

On Thursday Jim Hill tried two cubs and hung his coat under one and his hat under the other to keep them from coming down. He had just done this when the old mother bear came through the brush like a cyclone and took a hand in the housekeeping.

She balanced and reared Jim sideways for a swing, when he pulled his revolver and broke her shoulder, knocking her down. She came up for another dance, however, when a couple of "lucky shots" finished her.

It was a narrow escape for Mr. Hill, as the great brute was in ten feet of him. He secured the cub which the coast guarded, but the hat failed to bluff the other one, which escaped. Two days after that Mr. Hill wounded another large bear and caught two cubs. It is a hunter's paradise—only thirty miles from Pinos Altos are splendid trout streams, and hot springs famed for their curative properties—called the Chis—where parties from all along the Rio Grande and other places find health and recreation.

**ON THE ROAD.**

To Deming, the road runs through verdant vales crowded with range cattle.

Mr. Aaron Schuts and family, of Silver City, were on the train for El Paso to attend the funeral of an uncle, Mr. Joseph Schuts.

Mr. Max Heyman, merchant of Deming, also returning home from Silver.

At Whitewater Junction we see an old-fashioned and novel sight—the Silver City and Northern road burning wood alone in the locomotive.

The only and inevitable Lum Hall returned to Deming, and on Sunday will be in Albuquerque for a short rest.

Speaking of Hall is a reminder that the fair managers ought to get a move on them and send some information to every territorial paper. Your representative is frequently questioned on the fair subject by many who are interested.

"As we go to press" a heavy rain is falling here—at Deming.

**Again United.**

The following bit of news in regard to Mr. and Mrs. L. E. Paige, who formerly resided in this city, will be read with interest by their friends here. Mr. Paige was a brakeman on the Atlantic & Pacific.

He and his wife had family quarrels, and finally they parted. Mr. Paige going to Mexico, and Mrs. Paige returning to her

old home in Oakland, Cal. Nothing was

heard from them until a few days ago, when a particular friend of the couple

intended the following information to THE CITIZEN: On reaching Mexico, Paige endeavored to secure work on the railroads, but failing, he went into the saloon business in the City of Mexico, and was successful. He carried on the business for nearly a year at a good profit, and finally sold out for \$1,300. With his pocketbook pretty well filled with the stuff that makes us all smile, he sought out his wife in Oakland, and begged her to "forget and forgive." Up to that time she had not heard from her husband, but all the past was forgotten and they joined hands once more to "love, honor and obey." They remained in Oakland a short time after the reunion, and then, with their pretty flaxen-haired daughter, went to Mexico. Mr. Paige did not again engage in the liquor business, but he purchased a butcher's stand and is now proprietor of a swell fresh meat market in the City of Mexico, and making money. Paige has grit, confidence in himself, and is above the ordinary man in business qualities and education; his wife is a pleasant lady, and their many friends here, especially among our railroad readers, will wish them success in the Sister Republic.

**NEW SECRET LAW.**

Time Extended One Year—No Expenditure in 1894.

On the 30th of July congress passed a law extending the time one year for making final proof on desert land entries, and waiving the expenditure of one dollar per acre in reclamation for the present year, 1894. The act reads as follows:

"An act for the relief of persons who have filed declarations of intention to enter desert lands.

Be it enacted by the senate and house of representatives in congress assembled, that in all cases where declarations of intention to enter desert land have been filed, and the four years' limit within which final proof may be made has not expired prior to January 1, 1894, the time within which such proof may be made in such case is hereby extended to five years from the date of filing the declaration; and the requirement that the persons filing such declarations shall expend the full sum of one dollar per acre during each year toward the reclamation of the land is hereby suspended for the year 1894, and such annual expenditure for that year, and the proof thereof, is hereby dispensed with. Provided, that within the period of five years from filing the declaration satisfactory proof be made to the register and receiver of the reclamation and cultivation of such land to the extent and cost and in the manner provided by existing law, except as to said 1894, and upon the payment to the receiver of the additional sum of one dollar per acre, as provided in existing law, a patent shall issue as therein provided."

**The Program.**

The sporting editor of THE CITIZEN received this morning a bundle of posters, announcing the second annual convention and first annual tournament of the New Mexico Association of Volunteer Firemen, which convenes in East Las Vegas on Aug. 23 and continues over until the 25th. The program is as follows:

**FIRST DAY—AUGUST 23.**

We Test for Championship Belt.

First Prize.....\$100.00

Second Prize.....50.00

Foot Race, 100 Yards.

First Prize.....\$20.00

Second Prize.....10.00

Third Prize.....5.00

Combing Contest.

First Prize.....\$20.00

Second Prize.....10.00

Hook and Ladder Straightaway.

# Weekly Citizen

(From Saturday's Daily.)  
A prominent homoeopathic physician was lately in the city with a view of establishing a sanitarium.

A gentleman from Booneville, Mo., has rented the store in the First National bank building, lately vacated by "The Fair," and will soon open a jewelry store.

Messrs. McLaughlin and Shannon, who are taking the school census, are progressing finely in their work, and expect to complete the job by the latter part of next week.

The long continued dry spell is a warning to thoroughly clean up the city. Disease lurks in the dirt and rubbish that gathers in alleys and back yards. Fire finds food in the dry tinder of the waste pile.

Ollie Carter arrived home the other day and at once found himself in luck. He discovered that his wife had, present-ly with a brand new girl baby, and that the school board had made him janitor of one of the public school buildings.

S. D. Lucas came in from the west last night and continued on to La Junta, Colo., where he will meet his wife and children. From La Junta they go to Fort Madison, Iowa, where Mr. Lucas accepts a position with Lantry Bros., railroad contractors.

A prominent physician deplors the fact that the city has no board of health. The city fathers are very slow in acting in this important matter. It may be that a pestilential scourge will come upon us unprepared and destroy hundreds before the proper precautions are taken.

A short time ago, Mrs. Lockhart sold to George H. Browne a Jersey cow. She was anxious to know how much butter the pretty Jersey would give in two milkings, morning and evening, and she found out. The lump of butter obtained weighed one pound and a half. The Jersey was sold for \$100.

The Silver City Enterprise says: "The 24th Infantry band has an offer to play at the Territorial fair at Albuquerque, N. M., in September for one week. There are several military bands stationed close by Albuquerque but the fair directors want first-class music and desire to secure Mr. Schaffner's band if possible."

It is rumored that Judge Collier, at Santa Fe, is maturing a plan for largely diminishing the court docket at the next October term of court. Those interested should make ready to pay judgments and thus avoid executions. It is rumored that some prominent democrats are seriously objecting to such action on the part of the appointees of the present administration.

The British-America Fire Insurance company and the Western Assurance company, locally represented by Major W. A. Rankin, are the first companies to pay the pro rata of the N. T. Armijo fire. The check of the first-named company called for \$107.63 and the other for \$51.71, the checks being received by J. R. Armijo, agent, for Mrs. N. T. Armijo this morning.

W. H. Hahn, the barber in the N. T. Armijo building, and Ed. B. Harch, the soda water man, returned home late yesterday afternoon from their bear hunt in the Manzana mountains. They report having tracked a big she bear, with several cubs, for more than two miles, but did not see them. Nevertheless they have several very interesting bear stories to tell to their friends, and Hahn can be found at his barber shop ready and willing to answer all questions propounded.

The little playmates, boys and girls of Johnny Jacoby, surprised him at the residence of his parents in south Albuquerque last night. It was Johnny's 14th birthday, and his many little friends enjoyed several hours very pleasantly playing innocent games, eating cakes and sodas, and drinking lemonade. At 9 o'clock, the band appeared and gave Johnny and his guests a serenade, while the colored Glee club sang to their health several songs. Johnny is one of the city's sprightly news carriers, and this paper wishes him many future birthdays.

Kreest Dougherty, the general utility winter about this city, has been at Santa Fe this week on a visit to his son, Mrs. Haynes. A letter received from him this morning states that he is having a grand time—simply out of sight—and that he would like to remain away one week longer. He says that one week is hardly enough to get around and see "all his friends and form new acquaintances." He attended a party at the residence of Hon. T. B. Catron the other evening, and has several invitations to attend others next week. His request is granted, and he is off from work for another week.

This morning at 9 o'clock, the woman who is attending Mrs. Bambini, the lady lying sick in the little frame house on Third street between Gold and Silver streets, lit the gasoline stove, and as she did not understand its workings, an explosion for blast was started. An alarm of fire was sounded, and the four fire companies started for the scene. A gentleman, passing at the time, saved the building by picking up the gasoline stove and throwing it out into the back yard. His hand and arm was slightly scorched. The only damage done was to scorch a portion of which was burned. The stove was damaged by coming in contact with the ground.

The "Albuquerque Citizens" has a long newspaper team. Last week Thomas Hughes sold a half interest in the paper to W. T. McCright. The latter gentleman has been the city editor since the paper started. They now have the Associated Press dispatches, and the "Citizens" always popular, should be in greater demand now than ever—somewhere, Arizona, Sun.

The road to the University will soon be openable if not repaired.

A CRACK JERSEY HEARD.  
Messrs. of the Wonderful Jerseys Owned by J. E. Matthews.

On the old Juan de Cristofal Armojo ranch, three miles north of the city, is perhaps the largest and finest herd of thoroughbred, registered Jersey cattle to be found in central or southern New Mexico. J. E. Matthews, the lessee of the Armojo ranch, owns these some nineteen head of cream colored beauties, thoroughbred without exception, and of the famous Signal strain of Jersey stock, the herd being headed by Col. Marcey, a bull of unusually good form and constitution. There are many fine cows in the bunch, but most notable among them are Witchcraft, Ora Daisy, Maltese Kid, Plate Daisy, Marcey's Queen, Miss Lena and Lucretia who would all rank high in any show ring, while they are all superlative milkers, giving daily proof at the pail of the old saying that "blood will tell." It is a pleasure to look at such clean lined, soft-haired and mild-eyed creatures in these days when everything creating a suspicion of Jersey blood is called a Jersey.

Golden butter of delicious quality, sweet cream and rich milk are delivered daily by Mr. Matthews to epicurean Albuquerqueans who appreciate dairy luxuries par excellence. At this dairy it is to be seen the only cream separator that has been introduced in Albuquerque. This wonderful machine, while revolving its milk receiving bowl at the almost incredible speed of 5,600 revolutions per minute, throws off pure cream from milk brought fresh from the cow, the magic power employed being centrifugal force which accomplishes the separation for the plain reason that as the milk is heavier than cream, when the two are rapidly revolved in a bowl made for the purpose, the heavier fluid must be thrown to the outer part of the bowl while the cream, of less specific gravity, remains in the center of the bowl; thus each is easily drawn off in a completely separated condition.

Such cream, and the butter made from it, are of a quality much superior to that produced by the tin skimmer and dash churn methods of our grandmothers; and these methods intelligently employed in treating Jersey milk, known everywhere as the finest, are sure to bring forth a product leaving nothing to be desired. The cows are caressed and rubbed down like race horses, and are fed and cared for with every regard to health and cleanliness, the methods employed being identical with those at the famous Vanderbilt, Long Island, dairy and the Darlington, Philadelphia, dairy, whose butter brings one dollar per pound. Mr. Matthews' enterprise is in every way one of which Albuquerque should be proud and should substantially encourage.

Cures Rheumatism.  
We promised last week to let our readers know the effect the water of the salt lakes east of St. Johns had on rheumatism, from the experiences of Judges McDonald and Ruiz and wife, and John T. Patterson. With one accord they pronounce the effect as wonderful. When they reached the lakes there was quite a number of invalids already on the ground from New Mexico, who had come for the purpose of testing the virtue of bathing in its water for rheumatism. Among the number there was one lady who had been afflicted with this painful disease for twenty years. She had tried all the physicians she could hear of as well as the James Hot Springs in Bernadillo county, New Mexico, without finding relief. After taking only nine baths she left for her home entirely free from pain. There is no doubt but in a few years, when the curative power of these waters become better known, it will be a favorite for persons afflicted with rheumatism, and will become one of the noted sanitariums of this country.—St. Johns Herald.

(From Monday's Daily.)  
J. Schwartz, late of this city, has opened a paint shop at Phoenix, Arizona.

Miss Rose Kimberly, sister of Mrs. S. W. White, returned to the city this afternoon from a visit to her sister, Mrs. Charles L. Flynn, of Winslow.

E. L. Washburn and wife, and Mrs. Fred Lewis, who were on the Pease fishing and enjoying a very pleasant, happy outing, returned to the city last Saturday night.

Miss A. B. Carr, formerly in the millinery business on Railroad avenue, left yesterday afternoon for Denver. She expects to be absent from the city for several weeks.

Chas. Schmidt, freeman on the Atlantic & Pacific, is rejoicing over the arrival of his home in south Albuquerque of a bouncing baby girl. Dr. Wroth reports mother and child getting along finely.

W. H. Cobb, wife and baby, who have been rusticated out in the Sandia mountains for the past ten days, returned to the city yesterday afternoon. Kay Rose also came into the city with them.

Miss Edith Renner and mother left yesterday afternoon for Corvallis, where they will reside in the future. Miss Rose Renner left this afternoon for Santa Fe, where she will visit friends for a short time.

Sheriff Jacobo Yrisarri and family left on the afternoon train for Chicago, where he is taking his daughter, Miss Elvira, to have an operation performed on one of her eyes. They will be absent about a month.

James A. Lang, who went to New York on a visit to his parents, returned home last Saturday night. He claims to have had a jolly, good time, and he looks every inch like a man who did have a fine time.

H. V. Harris, probate clerk, who has been taking a needed vacation at the James Hot Springs, returned to his duties at the court house this morning. Mrs. Harris and the children will not return home until some time in September.

J. Van Houten, one of the progressive directors of the Maxwell Land Grant company, visited Albuquerque yesterday. He reports Colfax county making solid

advancement in all that goes to make up a prosperous commonwealth—in mines, stock and agriculture.

T. R. Gabel, general superintendent of the Atlantic & Pacific, has been on the sick list for several days, at his room in the Commercial Club building. He is now recovering and will be able to attend to his duties in a few days.

Mr. and Mrs. Hagerman, who have had rooms at the Girard house for several weeks, left this afternoon for Santa Fe. Mr. Hagerman is the southwestern agent for a Chicago mercantile agency, and is almost constantly on the road.

W. H. Mills, wife and daughter, of Chicago, are in the city, and called at the Citizens office this morning. Mr. Mills will be the local manager of the Postal Telegraph company, and he would like to rent a nice house in a good neighborhood.

Conductor Frank P. Secrist, on the Atlantic & Pacific, and wife, came in from Williams, Arizona, this afternoon and continued on to Washington City, D. C. Mr. Secrist will represent Arizona at the grand lodge of Knights of Pythias, which soon convenes at Washington.

Messrs. Williams, Kohler and Whitehead are the express messengers on the Atlantic & Pacific between this city and Williams, while eight messengers run between this city and Los Angeles. Messrs. E. H. Turner, Roy Stevens, Joe. Devine and Chas. Nye have been let out.

On last Friday evening Mrs. A. M. Bergers, of Los Lunas, presented her husband with a fine baby, and everybody in and around Los Lunas are congratulating Mr. and Mrs. Bergers. The Citizens learns that the little fellow will be christened at the Los Lunas Catholic church next Sunday morning.

The funeral of George Morris occurred at his ranch house, on the mountain road, yesterday morning at 10 o'clock, and was one of the largest funerals held in the valley for a number of years. The remains were buried in Fairview cemetery, and at least fifty vehicles, filled with mourners, followed the hearse to the cemetery.

The board of regents of the Territorial University—Judge Waldo, of Santa Fe; Messrs. E. S. Stover, F. W. Clancy, G. W. Meyler and M. S. Otero, held a meeting at Secretary Garcia's office last Saturday night and selected Prof. Hiram Hadley as vice president in charge of the University, which means principal of the institution. The board also audited a number of bills.

H. B. Ferguson, W. B. Childers, Ernest Meyers and other representative democrats, who attended the central committee meeting of that party at Santa Fe, have returned home. Mr. Ferguson states that the committee, in its resolutions, endorsed statehood and also decided upon Las Cruces as the place for the holding of the next democratic territorial convention.

Col. J. Francisco Chavez, Major W. H. Llewellyn, Judge J. R. McPhee, C. G. Bell and other southern republican politicians, who were at Santa Fe attending the territorial republican central committee, passed through the city last night on their return to their respective homes. Col. Chas. F. Hunt and other Albuquerqueans, who also attended the meeting, got home last Saturday night.

W. A. Sanders, general manager for the Equitable Life Assurance society, has returned from Kansas. He was called to Lawrence on the receipt of the news that his mother was quite ill, but he left her much improved. Mr. Sanders informs the Citizens that on last Friday the thermometer registered 104 degrees in the shade at Lawrence, and that the country in that section of Kansas is greatly in need of rain.

The railroad management has given for the freemen's tournament, a rate of one fare for the round trip, from any point in New Mexico and return. At points south of Albuquerque, tickets will be on sale 2nd and 3rd, and 2nd and 3rd and 4th from Albuquerque and points north. The limit includes the 25th on returning. The tournament meets in East Las Vegas on Aug. 23, and continues three days. The freemen's convention will meet at 10 o'clock on the morning of the 23d.

A Skin Disease.  
Messrs. F. B. Skinner and D. W. Thomas, who are interested in mining with J. P. Kessler and George Edick, in the Dolores district, all Albuquerque parties, called at the Citizens office this morning with a sack full of free gold carbons from their Skinner lode. The carbons are rich and strong, full of free gold that does not tax the imagination or a glass to discern, but are beautifully realistic to the naked eye. They are especially the ideal of a poor man's joy, and can be easily treated either by smelter or small stamps. While silver lodes are desirable and desirable, such rich strikes as this in a five-foot true square vein will go a long way to sustaining the mining industries until the turn comes.

Accidentally Shot.  
James Morton, formerly a hack driver of the city, accidentally shot himself last Friday afternoon on the road between the Cochiti mining district and Wallace. He was riding, when his horse fell, and the pistol he was carrying in his hip pocket was discharged, the ball going around the right knee joint, and strange to say only causing a painful skin wound. He came on to this city, arriving Saturday evening. Dr. Wroth is attending Mr. Morton, and the wound will soon heal. It was a narrow escape from a very serious wound.

Married.  
Harry Ludford, one of our townsmen, was married on the evening of August 8, at the residence of E. W. London, to Miss Annie Stephens, of La Jolla, Ill., but formerly of this city, being a sister of Mrs. Annie Madison. The ceremony was performed by Rev. Howard Billman. After congratulations were showered upon the young couple a dainty supper was served to those present, being only the relatives and intimate friends. The bride was the recipient of many useful and valuable presents.

Chas. F. Hunt went out to Tijeras canon this morning. He will be in Hell to-morrow, only a few miles separating the two canons.

THE BASE BALL GAME AND FOOT RACES.  
The sports given by the fire department at the fair grounds yesterday afternoon were exciting and interesting, but the crowd—well, the less said the better, for there were only a few present, still they heartily enjoyed the events and all were more than well paid.

THE FOOT RACES.  
Trainer Knight, who had charge of the foot races, selected P. F. Isherwood and the sporting editor of the Citizens as timers, and W. C. Mason as starter, he holding the time piece himself.

The first race on the program was between Ned Benjamin and Placido Garcia, the crack sprinter of the barcelas base ball club. They used the mark for the 100-yard sprint, and were sent off at a good start. For fifty yards they were running neck and neck, but after that Solly began to move away, running easily, and he crossed the home mark a yard in advance. Time, 11 1/5 seconds.

The next race was a fifty yard dash between Frank Kresmer and Harry McCue. The latter surprised his friends by winning by at least a yard in 6 1/5 seconds.

The third race was between Bert Vorhes and Joe Isherwood, distance seventy-five yards. The latter won in 5 seconds.

Granger and Raymer, two long distance sprinters of the home running team, contested for honors in the 200 yard race, and to the surprise of all, even to Raymer who said "he would come out second," the latter won in 22 1/5 seconds. Woodman was down as one of the contestants in this race, but withdrew.

The barcelas friends of Garcia were not satisfied with the showing he made against Benjamin, and bantered the friends of the latter for another race of 100 yards for a small purse. J. Apodaca backed Garcia for \$5, while Harry Weiler and half a dozen more backed up the \$5's on Benjamin. Weiler's \$5 was taken, and a special race then took place between the two sprinters, Benjamin winning again in 11 seconds.

THE BASE BALL MATCH.  
L. D. Mandell, who had been mutually selected as umpire, called the base ball match at 3:30 o'clock, with the Browns at the bat. The game was replete with exciting plays, Helwig, for the Browns, however, proving weak at short stop, but that did not prevent Capt. Woodman's unbeaten colts from outplaying, outbaiting, and outclassing, in every particular, their opponents, the barcelas team. The score by innings is as follows:

1 2 3 4 5 6 7 8 9  
Browns.....1 2 0 4 4 0 3 0 17  
Barcelas.....0 1 0 0 0 3 0 5 17

DIAMOND DUST.  
"Sporting Davis," of "Our Chief McKnight" company, occupied a seat on the ground and lustily cheered the barcelas boys, and occasionally threw out a hint to the umpire that he was not square in his decisions. Mandell was all right.

P. F. McCanna sold ticket-stub the gate box, while W. L. Haney took them in. Both are enthusiastic when it comes to helping along the fire department.

C. McDonald made thirteen of the barcelas sluggers fan the air. He was supported in admirable style by Raymer, his regular catcher, Roy McDonald, playing in Quiet's position in left field. Roy hit for a home run in the fourth inning, and Raymer, who ran the bases for him, made the circuit in race-horse fashion.

Bert Vorhes covered himself again with glory at second base and at the bat. He drove out a home in the fifth inning. J. Sedillo, the heavy batter of the barcelas, landed on the ball in the second inning, and Capt. Woodman, out in center field, had to chase leather. Sedillo knocked one of the longest hits ever around the grounds, and went clear around the bases. The next time at the bat he struck out.

Chaves pitched for the barcelas in good style for three innings, but in the fourth the Browns found him an easy mark, and drove the ball in all directions. Other pitchers were tried, but they fared no better.

J. Apodaca is the captain of the barcelas team, and his club is composed of gentlemanly players. With more practice they would be able to hold the Browns down to a closer score.

The barcelas boys pulled down from the skies six flies, two of them very difficult, while the Browns caught seven flies.

Tony Ortiz, who was signed at midnight last Saturday night to fill right field for the Browns, proved a very promising player, hitting the ball a smash every time he went to the bat, and catching a long and difficult fly in the field, although he collided with Captain Woodman.

Butler and McCue guarded third and first bases respectively and played well, both in their positions and at the bat.

The center field was looked after in good order by Captain Woodman.

From Tuesday's Daily.  
Milt. Katschberg goes to Denver next Saturday on business.

J. J. Furlong, representing the Hicks Car company, is in the city.

Mrs. C. N. Berry and children leave this evening for Santa Monica, Cal.

Rev. Mayroyles, of Bernadillo, visited the laleta priest yesterday, and returned home this afternoon.

W. A. Olvera, general agent for the Singer Sewing machine company, left this afternoon for Las Vegas.

Ed. F. Taylor, special officer of the Santa Fe road, was in the city last night, going north this afternoon.

Mrs. John Manual, residing on the Highlands, has gone to the James Hot Springs to visit a married daughter.

The San Marcial Bee says: "W. L. Ewing and family went up to Albuquerque Thursday, where Will. has a position in the yard."

Captain Sherry, wife and children, who were at Wagon Wheel Gap, Colo., on a fishing expedition for two weeks, have returned home, and the captain has gone to Flagstaff, where he represents the

Atlantic and Pacific in a personal injury suit.

Santiago Baca, assessor, and Bernardino Baca, deputy, left this afternoon for Santa Fe.

Rev. J. M. Couder, the parish priest of Bernadillo, was in the city last night and registered at the European.

D. H. Hurley, the road-master for the Atlantic & Pacific, stationed at Gallup, is in the city, stopping at the Windsor.

R. B. Burns, a popular railroad official of the Atlantic & Pacific, with headquarters at Williams, Arizona, is at the European today.

Ed. F. Reeder, chief clerk to General Master Mechanic English, of the Atlantic & Pacific, has returned from a short vacation in California.

H. C. Hartshorn is back from his home in Vermont. He looks well and healthy, and the trip back to New England no doubt did him good.

Frank K. Avery, late superintendent of the government Indian school, and wife, were passengers on their way to Horton, Kansas, this afternoon.

Sheriff Luna and wife, who were here yesterday and last night, returned to Los Lunas this morning on the delayed south-bound passenger train.

C. H. Fancher, the local land commissioner for the Atlantic & Pacific, has gone to Needles, Cal., on business connected with his department.

Sister Fidelity left for Santa Fe this afternoon. She informs the Citizens that her old town school will open the fall term on the first Monday in September.

G. A. Woods and family leave Thursday afternoon for St. Johns, New Brunswick. They will be absent about ninety days. Mr. Woods is an engineer on the Atlantic & Pacific.

Karl A. Snyder, the assistant attorney for the Atlantic & Pacific, was a passenger en route to Flagstaff this morning. His trip is a legal one, and he expects to be absent several days.

M. W. Browne, of the wholesale grocery firm of Browne, Manduarez & Co., who was at Las Vegas on business, came down to the city this morning and continued on to Socorro.

A. W. Maxwell, of Gallup, who was anxious to reach his western home, tried all night to get away. He, however, had to remain until this morning, when he took No. 3 for Gallup.

Cade Selvy, the special officer on the Atlantic & Pacific, who rested up several days at his home on Elkh street, in the Highlands, went west to Gallup and Holbrook this morning.

Thos. R. Gabel, general superintendent for the Atlantic and Pacific, who has been on the sick list for a few days, will leave for Southern California, where his wife is sojourning, this evening.

Hugh Morrison returned Sunday afternoon from Navajo, bringing in with him his brother, John V. Morrison, who was recently shot at St. Johns, Arizona, by a Mexican named Sanchez.

John Stein, traveling superintendent for the Harvey eating houses and lunch counters, came down from the north this morning and continued south to San Marcial on the delayed No. 1.

From an essay made yesterday the Albuquerque mine, in the Cochiti district, and owned by Mandell, Blake, Mettew and Hostetter, gave returns 21 ounces gold and 1465 ounces silver.

The Raton Reporter says: Harry Ainsworth arrived this morning from Albuquerque where he has been working until the strike in the A. & P. shops, to visit relatives for a few weeks.

C. F. Morgan and F. D. Higginbotham, two jolly drummers from San Francisco, are in the city and are having a good time. They are acquainted with several of Albuquerque's pleasant young ladies.

June A. Hunt, agent and correspondent for the Citizens returned yesterday from a successful trip in southern New Mexico, where in two weeks he added over 100 new subscribers to the popular paper's lists.

George H. Waterbury, postoffice inspector for this district, came down from Denver last night and is at the European. This old sleuth of the postoffice department is on the track of some dishonest postmaster down in the southwest.

Col. Goss, of the military institute, left this morning for the south for the purpose of soliciting pupils. His school opens the first of September, and should be liberally patronized by the military inclined young boys of the southwest.

Henry Hart, of Gallup, made a pleasant call at the Citizens office this afternoon. This is the first visit Mr. Hart has made to Albuquerque in the past four years. He is in the lumber business at Gallup, and is a pleasant gentleman.

Mrs. W. B. Trull, wife of the Santa Fe road agent at El Paso, and daughter came in from the west yesterday afternoon, after a visit to California relatives and friends. She returned to her El Paso home on the delayed train this morning.

A squaw, in the city jail for twenty days for drunkenness, escaped this morning. Jailor Tyler had some work for her to do on the outside, and after seeing her at work he came up town. On his return, the squaw was nowhere to be found.

Mr. and Mrs. F. H. Kent, Miss Maggie Kent, and Miss Maggie Lee, will leave to-morrow morning for the Hell canon district, and will be absent the balance of this week. The ladies will keep house at the Kent cabin, while Fred Kent out nuggets of gold from his rich placer field.

Pinio Pino, the well known Spanish interpreter of Las Cruces, who attended the meeting of the republican central committee at Santa Fe, passed through the city on his way home this morning. Pinio has a number of relatives at the capital, and he remained over with them several days after the committee meeting adjourned.

CHARGES AND PROMOTIONS.  
Express Agent Alexander short in his Accounts & Few Promotions.  
There has been rattling of dry bones—let out, changes and promotions—in the Wells-Fargo Express company, on this division, in the past few days, and this Citizens exclusively gives the following information.

W. T. Alexander, who was agent for the company at East Las Vegas since October last, was found short in his accounts upon an investigation, and of course was let out. He is under arrest, and if he can't make good his shortage in a given time he will be subject to a trial. The officials state that they have a very strong case against Mr. Alexander. He is one of the oldest employees of the company on the Santa Fe road, for a long time running a messenger between Kansas City and El Paso. He proved competent and trustworthy, and was promoted to the agency at Nickerson, Kansas. He remained there for a short time to the satisfaction of the company, when he was given the Wichita, Kansas, office, with an increased salary, and last October, when he changed off with the Las Vegas agent, his accounts were square to the cent. He is universally liked by all Las Vegas who had business with the express office, and his present trouble is therefore much regretted. He does not account for his shortage, which amounts to several hundred dollars.

R. C. Rankin, cashier for the company here, succeeds Alexander as agent at East Las Vegas. Mr. Rankin came to this city only a short time ago from Colorado Springs, and his promotion proves that he has gained the confidence of the company. This Citizens congratulates Mr. Rankin, and takes this method of telling the people of Las Vegas that they will find him a most excellent gentleman with whom to do business.

W. B. Duerns, who arrived here a few days ago and was made the local depot agent for the company, is promoted to the cashier's position, made vacant by the promotion of Mr. Rankin. Our acquaintance with Mr. Duerns is limited, but from those with whom he is thrown in daily intercourse, it is learned that he is a pleasant, accommodating gentleman, successful to the new cashier.

J. E. Perrine, who has been running as messenger on the Lamy branch from the junction to Santa Fe, will arrive to-night from the north, and he then takes the position made vacant by Mr. Duerns.

C. E. King, who had a messenger run on the road up to the recent strike, since then an employee of the company at the local depot, left the city on No. 2 last night to take charge of his promotion. That of messenger between Lamy junction and Santa Fe. The Citizens is personally acquainted with Mr. King, and considers him one of the best fellows in the employ of the company located here. He is a happy faculty of making friends, and he takes pleasure in recommending him to the people of Santa Fe, where he will reside in the future.

Marcus Byrne, the local driver, takes the position vacated by Mr. King, and Mr. Trotter assumes charge of the old position of Mr. Byrne. Both gentlemen are well known to our citizens.

From Tuesday's Daily.  
Chas. Quier returned from Winslow this afternoon, where he papered a cottage occupied by Station Agent Aspinwall. Charley informs the Citizens that the Gallup base ball club defeated the Fort Wingate club last Sunday by the score of 16 to 8.

Wm. Sanguinette, who has been troubled for the past month with rheumatism to such an extent that he could not work, resumed charge of his position at the St. Elmo this morning. While absent, L. Shoemaker was one of the mixers at that resort.

Belen will be in her glory to-morrow, for the reason that the people there and for miles around will congregate to celebrate the "Feast of Assumption." Rev. J. M. Couder, of Bernadillo, and a number of other priests throughout the territory are now at Belen.

It is more than likely that the city council will, at its next meeting, take some action toward widening Tijeras avenue, between Second and Third streets. The land at this point lays in a peculiar shape, and in consequence, those who own the land are filling up the avenue.

Dr. H. C. Himes, the Atlantic and Pacific surgeon at Needles, who has been in the city several days curing a sunburnt nose which he contracted on a recent trip to the Grand canon in Colorado, will leave this evening for his home. The nose, although badly out of gear, appears to be mending nicely.

G. B. Erickson, cousin of W. H. Erickson, came up from Rincon and Magdalena last night, and remained over here until this afternoon when he went up to Las Vegas. W. H. Erickson endeavored to get Ollie to remain over to see the Turks dance and sing, but he would not be persuaded.

Hon. Jefferson Reynolds, New Mexico's successful banker, was a passenger on No. 3 this morning from Las Vegas, and continued on to Denning, where he is interested in several irrigation and mineral enterprises. He expects to return to this city in a few days, where he will remain for a short time.

Judge Trumble, the old democratic warrior, whose true Jeffersonian ideas are not pleasant to some of the so-called democrats of the city, is complaining these warm days. He is thinking of returning to his Tijeras canon ranch in a few days, where he can sip the pure mountain air and live on butter milk.

G. C. Carew, who left here under unfavorable circumstances yesterday morning, being accused of stealing two pneumatic bicycle tires from J. N. Shurtz, a telegram being sent to intercept him at Las Cruces, reached El Paso safely. The officer at Las Cruces received the dispatch after the train had passed that station.

Johnny Hitchcock, the good-looking right holer of the Browns base ball club, has returned from a pleasant visit to his parents, Mr. and Mrs. D. W. Hitchcock, of San Marcial. It is hinted by Captain Woodman and his gaiter Browns that Johnny is not particularly stuck on San Marcial, but that he is somewhat in love with a pretty little miss, who, Dame Rumor says, is likely to captivate his heart.

Ernest Dougherty, of the Citizens, who has been on a visit of a few days to Santa Fe relatives and friends, and while at the capital had as much fun as the next young society gentleman, returned home on the

delayed train this morning. He was scheduled to remain away from work also during this week, but the young gentleman who was sulking for him considered that he could make more money by playing with the boys, and therefore threw up his hands.

Zottman Arrested.  
Otto Zottman, who will be remembered by many of our citizens as a man claiming to be a first class piano tuner several years, dropped into the city from Trinidad, Col., last Sunday night and was arrested yesterday morning by City Marshal Phike. The marshal received a card from the Overman Wheel Co. of Denver, claiming that Zottman had in his possession a Victor wheel unlawfully, and offering \$25 for his capture. Zottman was therefore arrested and a guard kept an eye on him all last night. This morning, the marshal received a telegram from the above company, telling him that the wheel had been received from Trinidad, from which place Zottman shipped the wheel back to Denver. The prisoner was released on the receipt of the telegram this morning.

Visitors from Turkey.  
A party of Turks, four men and three women, who having been holding forth at the Midwinter fair, and who were also at the World's fair, came in from the west this afternoon, and were the center of attraction at the depot for several hours. A number of young gentlemen were so well pleased with their appearance that they followed them from the depot to their lodging quarters. This Citizens learns from Frank M. Cronan that they are going to remain in the city for a few days, and will probably give an exhibition. It is also understood that the women of the party are accomplished dancers, and are proficient in the dances that shocked the lady commissioners at the World's fair.

Gene to San Francisco.  
J. F. Dayton and his pleasant, estimable wife came down from Las Vegas this morning and left for San Francisco half an hour later, where they will reside in the future. For a long time, Mr. Dayton was a trustworthy and competent freight conductor on

Chas. Melini, of the firm of F. Frank & Co., came in from the west this afternoon.

I. D. Laferty and others of the pension commission returned from the West this afternoon.

John Pfleger, the Calabazon merchant, is in the city. He states that his wife, who was quite ill a few days ago, has recovered.

Mrs. J. Edward Priest and the children left this afternoon for Santa Fe, where they will visit relatives and friends for the next thirty days.

Wm. M. Moss is the supervisor in charge and acting superintendent of the government Indian school, near Frank Avery, resigned, and left for Kansas.

The Atlantic and Pacific pay checks for June wages will be sent to the employees tonight. The employees of this city are receiving their checks today.

Miss Alice Peden, one of the faithful and competent C. T. & C. composers, will spend her vacation at Camp Whitehorn, leaving for that pleasant resort this afternoon.

Mrs. Ed. Mueller, who has been on a visit to southern California friends, returned home this afternoon. She brought home with her a basket of choice California flowers.

Al Ware and brother, who have been rusticated at the Jemez hot springs, have returned to the city, and Mr. Ware will re-open his restaurant on First street in a few days.

Mrs. L. L. Merrill, Mrs. T. Y. Maynard, and Miss Catherine Wilson, three sisters, left this afternoon for Fair, Colo., where they will visit relatives and friends for two months.

Albert Grunfeldt, wife and children, who have been east on business and pleasure, returned home last night. They had a delightful time, but state that the weather in Chicago is frightfully hot.

There is a rumor in the city that Judge B. Otero, who has many friends here, was appointed clerk of the territorial supreme court at Santa Fe late yesterday afternoon, but nothing authentic has been received.

Frank J. Masley, good-natured and always happy, came up from San Francisco last night. It is rumored that he heard that the Turks were here and would give a show last night. He returned home this morning disappointed.

The championship belt—the one which the firemen will contest for at the Las Vegas tournament, will be taken out of the express office to-morrow morning by the president of the association, and placed on exhibition at Mrs. Allen's until next Wednesday, when it will be taken to Las Vegas.

The citizen was mistaken in stating yesterday that Thos. R. Gabel would leave that evening for Santa Monica, Cal. Dr. Kasterly, who is attending Mr. Gabel, informs this citizen that his patient is rapidly improving, and will not be able to take the trip to the coast for a few days yet.

Judge Tomas C. Gutierrez, Jose de la Luz Sanchez, Tomas Sanchez, Martin Sanchez, Manuel Antonio Jaramilla and F. A. Hubbard left this afternoon for Santa Fe, to appear before the land court as heirs and witnesses in the Atrisco land grant, which comes up for a hearing to-morrow morning.

A. M. Bergere came up from Los Lunas last night and went on to Santa Fe. A few days ago this citizen noticed the arrival at his home of an heir, and last evening during the brief stop of the train at the depot, Mr. Bergere reported to Dr. Kasterly that the brain new youngster and mother are doing finely.

John Gray, postal route agent between this city and La Junta, who took a short lay-off, is here today. He visited Denver, and reports Al. Coddington and Frank Lee having a grand time at the meeting of the League of American Wheelmen. He says they are representing the association of this city in a royal manner, and that Frank has been dubbed "the duke" of the league.

B. M. Stanhope is in the city from Panhandle City, Texas, and has been engaged by J. E. Saint to superintend the shipment of the latter's cattle from the Acoma cattle ranch, on the Atlantic & Pacific, to pastures near Panhandle City. Mr. Stanhope informs this citizen that the Panhandle portion of Texas has plenty of good grass and water, although no rain has fallen since last June.

Report comes from Cincinnati, Ohio, that on last Sunday afternoon, while the Cincinnati were playing the St. Louis base ball club, Twineham, well-known in this city, hit the ball square in the nose and drove out a home run. Twineham is now the star catcher for the St. Louis club. He formerly played in Albuquerque, when this city was in the New Mexico league of professional ball playing.

They are stating on the street, especially in a certain circle of jolly, good-natured men, that Billy Wilson, who travels for Armour, and who wears with dignity and grace the title of the "greatest joker in the southwest," chaperoned the Turkish show people from California to this city, and perched under to get off here and see Lun Hall. It is an actual fact that Mr. Hall heard of the rumor and left town last night.

J. D. Torlina, the Railroad avenue carpet and shoe dealer, is today 61 years old, and this evening, at his pleasant home, in south Albuquerque, he will royally celebrate the event surrounded by a number of invited friends. Mr. Torlina was born in Europe but raised in Cincinnati, Ohio. For a number of years he was a staunch business man of St. Louis. He has been identified with the business interests of Albuquerque for about thirteen years. This citizen wishes him many future birthday anniversaries.

## BADLY WANTED

Convict Chas. Taylor Buies a check and returns home. Charles Taylor, a convict who worked for the Antelope Springs Cattle company, east of the city, and who is a member of the notorious Jones-Kravis gang, is badly wanted in this city.

It was just looked out that Taylor came to the city about two weeks ago and called at the store of K. L. Washburn & Co., where he purchased goods to the amount of about \$30. He presented in payment a check of \$50, signed by W. H. Wilder, owner of the Antelope Springs ranch. The difference was paid to Taylor, who at once skipped the city. A letter from Mr. Wilder now informs the firm that the check was drawn for \$8, and that Taylor had skillfully raised it to \$50. Mr. Wilder furnishes a description of the convict: about 35 years of age, 5 feet 10 inches in height, weighs about 145 pounds, light gray eyes, and brown hair about 14 years old. He has a scar in his waist, one leg being shorter than the other.

William Doss, the merchant of Chulita, is in the city, and it is understood that Taylor, while on his way to the city from the ranch, stopped at Mr. Doss's and passed a forged check on him. The check called for \$45 and bore the signature of Fred. Lee, son of Judge W. D. Lee.

Yesterday afternoon a fire was discovered in the back shed of the residence on Broadway, recently vacated by Mr. and Mrs. A. J. Sloan, by Eddie Samson, who promptly extinguished the flames before any excited person sent in an alarm calling on the department. In the shed was a lot of waste paper, and packing material, and these had been set on fire. Several barrels have been started recently in this neighborhood, and the police suspect a lot of very bad boys are in the neighborhood. The officers will keep a close lookout on the movements of the suspected lads.

Last night at 7 o'clock, an alarm of fire was sounded, but the person who was at the call continually rang for the Fourth ward. The fire, however, was at the dry goods store of Grunfeldt Bros., on First street, the blaze being caused by the burning of the curtains and several N. Y. blankets in one of the front windows. It was a lively blaze for a time, but a few buckets of water, skillfully handled by Fred. Lewis, soon had the flames out. The loss is trifling, but had not Mr. Lewis exhibited presence of mind and extinguished the flames promptly as he did, a very serious conflagration would have resulted.

**Horse Thieves Arrested.**  
J. M. Green arrived in the city this morning, having in charge Mauricio Chavez and Julian Quintana, charged with stealing two horses from him. The men were turned over to Officer Hubbell. Mr. Green is from San Miguel county, and states that on the night of the 8th of August two horses were stolen from his ranch. He trailed the horses to Calabazon, this county, and yesterday found them in possession of Chavez and Quintana. He then arrested the men, bringing them and the horses to this city.

The case was called at 11 o'clock, and as the parties were not ready for trial the case was postponed until to-morrow morning at 10 o'clock.

**The Note.**  
C. H. Morehouse, division freight and passenger agent, Santa Fe railroad, headquarters at El Paso, writes this citizen as follows:

El Paso, Texas, Aug. 12.  
Dear Sir: In reply to your letter I am pleased to advise you that arrangements have been made to make a rate of one fare for the round trip from all New Mexico points to Las Vegas, for the Firemen's Tournament held there August 23d and 24th.

From points south of Albuquerque tickets will be on sale August 22d and 23d, and from points north of Albuquerque tickets will be on sale August 22d, 23d and 24th, all sales limited for return to and including August 25th.

**Booming Things.**  
Since W. T. McCright has become one of the proprietors of the Albuquerque Citizen, that paper is fairly bursting with a plethora of matter. With two editors, two traveling representatives, and an immense composition account, the paper is cutting a wide swath.—Las Vegas Optic.

**From Mac's Home Paper.**  
Mr. W. T. McCright, a Shelbyville boy who moved west a number of years ago and located in Albuquerque, N. M., has purchased a half interest in the Daily Citizen of that place, a paper on which he has been employed since its inception. He is a capable newspaper man and will add strength to the journal in the capacity of business manager and city editor.—Shelbyville, Ky. Sentinel.

**From Thursday's Daily.**  
Mrs. T. J. Shilick and Mrs. R. P. Hall started this morning for the mountains to spend the autumn months.

E. A. Dow, of Taquique, was in the city yesterday, and made arrangements to place his four daughters in the Academy, this city.

At Santa Fe yesterday in default of \$1,000 bond, George Sanetta, the Indian coal miner who shot and wounded John Pave, at Madrid, July 29, was committed to jail by Justice Neustro Armitage.

A. A. Keen, assistant cashier of the First National bank, has gone to Kansas City to meet his wife, who has been visiting in Boston, Mass. They will return home with the mother of Mr. Keen.

Owing to bad weather, the brass band did not serenade John D. Torlina on his 61st birthday last night. Those who accepted of his hospitality at his home were royally entertained and went away well pleased.

W. A. Skinner is in receipt of a letter from Chas. Chadwick, a nephew, who is attending to the former's ranch east of the Sandias, stating that cattle and sheep are looking fine, and there is plenty of water and grass.

Abner Bros., the enterprising Pueblo Indians, who reside at Isleta, where they are in business, write to this citizen that

the postoffice at Isleta has been discontinued. The Al. has been subscribed to this citizen for years, and this citizen, for personal reasons, that he has not been able to get it, has been ordered to stop.

Twenty-seven letters, the envelopes properly addressed and stamped, but containing no letter and not sealed, were dropped in the several city boxes yesterday. The handwriting is the same on all the envelopes.

President Hensolden, of the Territorial Fair association, informs this citizen that arrangements are being perfected for an encampment of the territorial militia here during the fair. The only thing lacking is the consent of Governor Johnston.

John Trouble and wife left this afternoon for "Kim-Ki" Rogers' place in the Santa mountains, where they will stay for several days. From there they go to San Pedro, thence to Corralito, and thence to Bland, Cochiti district. They will be absent about a month.

George F. Albright returned home last night from Bland, Cochiti mining district. He states that the little mining town was a lively scene for a few hours yesterday afternoon, after Constable Will had shot Fred. Meyers. He reports having seen more six shooters prominently displayed than he ever saw before.

The case against the horse thieves, Mauricio Chavez and Julian Quintana, was called at 10 o'clock this morning before Justice Luskhart, and out the question of jurisdiction being raised—the horses having been stolen to San Miguel county—the case was postponed until to-morrow morning at 10 o'clock.

Mrs. Alfred Otero, nee Miss Candelaria Armitage, gave birth to a fine girl baby at the ranch of her father, Perfecto Armitage, a few miles above the city, day before yesterday. Mr. Otero left for Jemez hot springs the day before the event happened, and it is not sure that he is his father, Uncle Fred Otero, who resides in the city, will drive to the ranch this afternoon to take a peep at his little niece.

Dave Strachan, who is digging a hole in the ground in the Hell canon mining district, is in the city, and is down on the Maggie charger sixty-three feet. He has not struck anything rich, but says the color continues good. He feels like giving up in disgust and returning to Gallup. Should he return to the district, he will not prospect any further on the Maggie. Garber, but will open up several other claims near by. Mr. Strachan, however, believes that the future of Hell canon, as to mineral, is very bright.

## SHOOTING AT BLAND.

Constable Frank Will shoots and probably kills Fred. Meyers.

Special Officer, H. D. Van Allen, of Cochiti mining district, arrived in the city last night, having in charge Deputy Sheriff and Constable Frank Will, who shot and probably killed Fred. Meyers, a saloon keeper of Bland, yesterday afternoon at 2:30 o'clock.

As near as this citizen can get particulars of the shooting are about as follows: Meyers, who conducts a saloon with a Mr. Anderson, started on a spree early yesterday morning, visiting the various saloons. After several hours of drinking, he became very boisterous, knocking the glasses off the counters and bantering any person to interfere with him. He continued in this manner until shortly after noon, when some person engaged him in a fight and he came out of the scrape with a bloody face. He then rounded up at his own saloon, where he secured a revolver and commenced shooting promiscuously through the floor and ceiling, firing four shots. Everybody at his saloon and within a few yards of the place, made haste to get out of the way of the flying bullets, when Constable Will put in an appearance. He entered the saloon of Meyers and demanded his weapon, whereupon the man deliberately fired at the constable. The officer was prepared himself, and when he observed Meyers raise his pistol to fire, he also shot, the bullet striking on the right side of Meyers near the nipple, passing clear through his body and coming out under the right shoulder blade. The firing then ceased, and the officer called in Dr. Kelly, who had just arrived from Allerton.

After the shooting, Justice of the Peace Coddington, seeing that Meyers' friends were threatening to do bodily harm to the constable, deputized Mr. Van Allen to take Mr. Will to Albuquerque until the matter had quieted down. He then set the preliminary hearing at Bland for next Monday morning at 10 o'clock. It was reported to Mr. Van Allen, just as the stage was leaving for Wallace, to take the train for this city, that Meyers could live but a few hours. No word has been received to confirm his death.

Mr. Will is well known in this city as a mild-mannered gentleman and a man who would not harm a hair in a person's head unless justified. His family resides in this city, and this morning he called at the Citizen office, stating that he was compelled to do the shooting for self-protection, and sincerely regretted the occurrence.

Mr. Meyers came from Rico, Cal., and is one of the first to go into business at Bland. He has considerable money, and when not drinking is a pleasant, agreeable gentleman.

This is the first shooting of a person to occur in the wonderful gold mining district of Bernalillo county.

**Married.**  
John Harris James, of Las Cruces, and Mrs. Ella Clark Rishaberger, of Colorado, met in this city, and were joined in marriage on the 14th by Rev. Howard Billman, of the Presbyterian church.

Edward Everett Greenleaf, passenger brakeman on the Atlantic & Pacific between this city and Winslow, and Miss Carolina Melcher, were joined in marriage yesterday by Rev. Billman.

The citizen wishes the happy couples a long and prosperous married life.

## FATAL WASH OUT.

Engineer No. 11, on duty, Injured—Fireman Killed Outright.

RAVY HITS THE CAUSE.

This morning at 4 o'clock, the No. 3 passenger train on the Atlantic & Pacific, going west, was wrecked two miles west of Cochiti and about seventy-five miles from Albuquerque, and Engineer William Norris is dangerously injured, while his fireman, James A. Norton, was killed outright.

The passenger train arrived from the east, due at 10:30 p. m., at 1:10 a. m., under Conductor Boucher, being detained by slow running between Wallace and Bernalillo on account of water running over the track and the fear of a wash-out.

After reaching the city, the train was made up for the west, leaving the depot at 1:55 a. m. under Conductor Barry. It was raining very hard a few miles south of the city and after passing the Isleta junction the train was stopped, and several bridges examined.

Two miles west of Cochiti the bridge across an arroyo was examined and considered safe, but the engine had been badly wrecked by the structure gave way and the engine toppled over, almost burying itself in the rushing water and catching both engineer and fireman under its weight.

The coupling between the engine and baggage car snapped, thus leaving the whole train, with the exception of the engine, standing on the track.

A wrecking train and crew was dispatched to the scene of destruction soon after the accident as possible, but no one in authority here can give information when passenger train No. 4, due at 1 p. m., will arrive with the injured and dead.

Mr. Norris was in a wreck on the Atlantic & Pacific nearly two years ago, suffering such serious and dangerous injuries that he was almost a hospital patient to several months ago when he resumed his engine. Although a careful, trained engineer he has had a series of accidents, and his many friends hope that his present injury will not prove fatal. His wife and married daughter reside on the Highlands.

The fireman, James A. Norton, is one of the very best on the Atlantic & Pacific and a young man, about 25 years of age, universally liked by all railroaders. His folks reside at Newton, Kansas, and he was in the employ of the company for a number of years. Engineer McGuire, on hearing of the accident, telegraphed the sad news of the killing of Norton to Chas. Grover, a fireman, at Las Vegas with whom he went to school and considered as a "chum."

P. F. Isherwood, K. of R. & S. of Mineral lodge, K. of P. informs this citizen this afternoon that the dead fireman was a Knight of Pythias, being a member of a Kansas city lodge. Mr. Isherwood telegraphed to the Kansas City lodge, informing the members there of the killing. It is learned just as this citizen goes to press, that J. W. Walker, chief clerk of the railroad company, announced that No. 4 passenger train will arrive about 7 p. m.

**(From Friday's Daily.)**  
Mrs. James Thorpe and children left last night for Williams, Arizona, where Mr. Thorpe is working in the Atlantic & Pacific shops.

C. M. Baker, superintendent of construction, Postal Telegraph company, and wife, and Miss Adelaide M. Baker, are at the San Felipe.

Prof. G. S. Ramsey, of the Academy, has gone west over the Atlantic & Pacific. He will visit all the towns and expects to get a number of scholars for the Academy.

Miss Nannie Slater, of Phoenix, Arizona, who is visiting the family of J. M. Moore, resided in this city several years ago, at the time holding a position at Mrs. Oaks.

Bernardino Baca, son of Asessor Baca, was taken suddenly ill last night with heart trouble and for a time he was considered in a precarious condition. He is reported better to-day.

The late Col. John H. Platt, of Denver, and Postmaster Whitecomb, of this city, were boys together at Burlington, Vermont, and in 1855 they were both members of the Burlington brass band.

C. H. Fancher, the local manager of the Atlantic & Pacific land office, who has been west in the interest of his department, as far west as Needles, Cal., returned this morning on the delayed passenger train.

This citizen learns this afternoon that a new superintendent of the government Indian school, appointed the other day but whose name we are unable to give, is expected to arrive in a few days from the Indian territory.

W. H. Curtis, of this city, and Henry Northern, of Fort Wingate, who have been at the Jemez hot springs for the past month, returned to the city late yesterday afternoon. Mr. Northern went out to the Fort this morning.

Chas. Melini, of the liquor firm of F. Frank & Co., who was scheduled to return from the west Wednesday got in on the No. 4 passenger train this morning. He visited all the towns on the Atlantic & Pacific, and reports having met with a good trade.

The chair car, which was put on the Atlantic & Pacific when the new time card went into effect on August 5th, will be discontinued on that road, so reported in railroad circles. The chair car, however, will go east on the Santa Fe road from Albuquerque.

A young Danish fellow, with more gall than is common with real fresh kids, has been working a very slick trick on Ziegler's Cafe, whereby he secured first-class dinner free of cost. He was caught "dead

to rights," yesterday, and it is dollars to doughnuts that when he eats again at the Cafe that he will march up to the counter, like honest people, and liquidate his meal checks.

After a sojourn of over a month at the Jemez hot springs, Mr. and Mrs. Wiley Weaver returned to the city late yesterday afternoon. They report having enjoyed a most splendid outing, and are full of praise favorable to the springs as a great resort.

The trotting horse, Huron, belonging to George K. Neher, was hurt while being speeded at the race course this morning. One of his hoofs was badly injured, but Mr. Neher assures this citizen that he will be all right for the races at the coming territorial fair.

Guy Rodley, who distinguished himself by killing a bear out in Bear canon, as reported by Harry Lockhart, but denied by Guy returned to the city from the mountains this morning. He states that he killed a rattlesnake yesterday that had nine rattles and was about six feet long.

D. E. McDowell, a pleasant gentleman from Middleboro, Ky., who has the appearance of a true Kentuckian with a grin and one that won't take any foolishness, was introduced at this citizen's office this morning by Chas. O'Connor Roberts. Mr. McDowell left his Kentucky home with the expectation of residing in the Rio Grande valley.

Joseph Barnett, of the St. Elmo firm, returned yesterday afternoon from a delightful outing at Jemez hot springs. He states that Dick Hoffmeyer, who went up to the springs with him, crossed the mountains and is probably at Bland, Cochiti district, today. James Bentley, who Hoffmeyer along the mountain paths to the town of Bland.

G. P. Owen, father of Harry Owen, returned to the city from a visit to El Paso and Las Cruces. He reports it very dry in the neighborhood of Las Cruces, but states that the ditches are full of water, caused from several heavy rains on the Puerco and which empties into the Rio Grande. Farmers are irrigating from this sudden coming of water, which guarantees a big crop of late fruits.

Mrs. Maria Busch, of Chicago, telegraphed to City Marshal Fluke this morning to ascertain the condition of Simon Busch, who arrived in this city about two years ago, from Chicago a victim of consumption. The marshal began his investigation, and found Mr. Busch at 317 West Gold avenue. The gentleman is quite ill, it is true, but appears to be mending slowly in this climate.

Mrs. P. Walsh, wife of the genial baggage master of the Santa Fe system of roads, and brother, Thos. A. Brady, arrived the other day from a visit to California. Mr. Brady is quite sick. They are particular friends of Col. and Mrs. John Brady of this city. The sick man has been in the southwest for nearly fifteen years and is station agent for the Atlantic & Pacific at Wingate.

The mother-in-law of a printer, who recently worked in this city, called at

she and her daughter, who has one child, would like to have some kind of housework. The lady, wiping the tears continually from her eyes and between sobs, declared that she and her daughter were almost penniless, but that she was unable to secure the money due her son-in-law. It was a sad sight to see the old gray haired lady weeping over her fate.

## Died in New York.

News was received here yesterday, announcing the death of Mrs. Elmer Ward, nee Miss Lena Goodrich, at the home of her parents in New York state, where she was visiting. Her death was due to child birth. The deceased is the wife of Elmer S. Ward, the Atlantic & Pacific engineer, who was injured in a wreck on that road some months ago and who was a patient in the company's hospital here, until he and wife, accompanied by Mrs. J. R. Mallette, of Gallup, a sister of Mrs. Ward, went to New York on a visit to relatives and friends. The news of the death of Mrs. Ward will be received with regret by her many friends in this section of New Mexico.

## MOTHERS

and those about to become mothers, should know that Dr. Pierce's Favorite Prescription robs childbirth of its torture, terrors and dangers to both mother and child, by aiding Nature in preparing the system for the ordeal. Thoroughly "labor" and the period of confinement are greatly shortened. It also promotes an abundant secretion of nourishment for the child. During pregnancy, it prevents "morning sickness" and those distressing nervous symptoms from which so many suffer.

**Take, Cattle Co., Texas.**

Dr. R. V. Pierce, Buffalo, N. Y.:  
Dear Sir—I took your "Favorite Prescription" previous to confinement and never did so well in my life. It is only two weeks since my confinement and I am able to do my work. I feel stronger than I ever did in my life.

Yours truly,  
Bessie C. Calhoun

## A MOTHER'S EXPERIENCE.

South Bend, Pa. Co., Wash.  
Dr. R. V. Pierce, Buffalo, N. Y.:  
Dear Sir—I began taking your "Favorite Prescription" the first month of pregnancy, and have continued taking it since. I did not experience the nausea or any of the ailments due to pregnancy, after I began taking your "Favorite Prescription." I was in labor a short time, and the physician said I got along unusually well.

We think it saved me a great deal of suffering. I was troubled a great deal with leucorrhoea also, and it has done a world of good for me.

Yours truly,  
Mrs. W. C. Baker

**Beckley's Arnica Salve.**  
The best salve in the world for cuts, bruises, sprains, all rheum, fever, sore, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dr. Thos. E. Burgess & Son, druggists.

## The World's Fair Medal and Diploma awarded to Dr. Price's Cream Baking Powder

The highest award was given on every claim, comprising superiority in leavening power, keeping properties, purity and excellence. This verdict has been given by the best jury ever assembled for such a purpose, backed by the recommendation of the Chief Chemist of the United States Department of Agriculture, Washington, D. C., who made an elaborate examination and test of all the baking powders. This is pre-eminently the highest authority on such matters in America.

This verdict conclusively settles the question and proves that Dr. Price's Cream Baking Powder is superior in every way to any other brand.

**NOTE.**—The Chief Chemist rejected the Alum baking powders, stating to the World's Fair jury that he considered them unwholesome.

**Deming School Census.**  
Mr. Robt. Campbell has almost completed the school census, and it shows a gratifying increase over that of the last year. The total to date shows children of school age, 410—males 239, females 171. This will be increased to 425, at least. Last year the total enumeration was 399. The population of Deming is surely and steadily increasing.—Headlight.

## Pecos Reservation.

John Campbell, the civil engineer, has received a letter from Delegate Joseph, in Washington City, written by Camilo Padilla, his private secretary, and signed in his own John Hancock, stating that there is no possibility of the government's appropriating any money for the improvement of the Pecos reservation at present.—Las Vegas Optic.

## Shropshires.

L. M. Haidley, owner of the Pine Ridge flock of SHROPSHIRE, of Salem, Iowa, is offering this fall 1000 head of Rams of this breed. Two car loads will be on exhibition at the Territorial Fair at Albuquerque, Sept. 11th to 14th, inclusive. Sheep men are invited to inspect. Reasonable prices will be made. Correspondence solicited. Information can be obtained through E. D. Bullock, Albuquerque, or T. A. Stinson, Cincinnati.

## School Census.

The following is the school census, just completed by census takers, McLaughlin and Shannon, and turned over to School Clerk Grunfeldt:

	Male.	Female.	Total.
First Ward.....	101	100	201
Second Ward.....	174	170	344
Third Ward.....	184	180	364
Fourth Ward.....	184	180	364
Total.....	543	530	1073

## Notice.

In the Dis. of Court of the County of Bernalillo, Territory of New Mexico.

Alonso B. McLaughlin, plaintiff, vs. H. E. Folsom, defendant.

The said defendant, H. E. Folsom, is hereby notified that a writ of attachment by attachment has been obtained against him in the District Court of the County of Bernalillo, Territory of New Mexico, by said plaintiff, Alonso B. McLaughlin, and that said writ is now in force, and that you are hereby notified that you are to appear in said court on or before the first Monday of October, 1904, at 10 o'clock a. m., to answer to said writ, and to show cause why said writ should not be satisfied by said plaintiff.

By Geo. W. Johnston, Attorney for Plaintiff.

## Notice.

In the District Court, County of Bernalillo, Territory of New Mexico.

The Lendoville National Bank, vs. H. E. Folsom.

The said defendant, H. E. Folsom, is hereby notified that a writ of attachment by attachment has been obtained against him in the District Court of the County of Bernalillo, Territory of New Mexico, by said plaintiff, The Lendoville National Bank, and that said writ is now in force, and that you are hereby notified that you are to appear in said court on or before the first Monday of October, 1904, at 10 o'clock a. m., to answer to said writ, and to show cause why said writ should not be satisfied by said plaintiff.

By Geo. W. Johnston, Attorney for Plaintiff.

## Notice.

In the District Court, County of Bernalillo, Territory of New Mexico.
