TOURISTS LOSE CONTROL OF CAR; FOUR ARE HURT

Party Returning Overland From Kansas City to El Paso Meet With Accident Four Miles from Socorro.

Socorro, N. M., Oct. 18.—An automobile containing six persons, members of a prominent El Paso family by the name of Foster, who were returning overland from Kansas City, turned over four miles east of Socorro this morning when the driver lost control of the car, and four members of the party are now in the hospital in this city suffering painful but not serious injuries.

The party had spent Saturday and Sunday in Albuquerque, leaving the latter city Sunday afternoon. They camped Sunday night a short distance south of Belen, continuing on their way Monday morning. At a bad piece of road east of here the car went over an embankment and turned over two or three times.

The fact that no one was fatally injured or killed outright is considered little less than a miracle. As it is, the most serious injury sustained was a broken nose by a young lady who was a member of the party. The others were badly shaken up, but sustained only minor injuries.

EDITORS NOTE.

From information brought to Belen by a local business man the parties concerned in the above dispatch from Socorro, are very hard in their condemnation of the Butler Garage people of Albuquerque who they say would not furnish them with a log of that part of the country because as they put it "they bought gasoline from another firm." If the Tourists are right in their assertions and from what we know they are, the Butler people have shown a very poor spirit and a less business principle, to refuse tourists a log book simply because they don't happened to trade with you is not in accord with the Albuquerque business men's habits. They are the most progressive and accommodating set of people that you can find anywhere and we believe will resent such actions as are attributed to the Butler Garage concern.

Hans Becker and wife, Mrs. Laura Becker and Miss Lucy Becker are at Santa Fe, where Mr. Becker is taking in the Road meeting.

Stucked in the Mud.

Mr. E. C. Brockman and wife and the Supt. of this division, of the Harvey System made a trip to Albuquerque last week. About a mile this side of Los Chavsz they encountered what they call "the worst road they have been up against." The road was very muddy due to fact that workers have been dragging wet soil with which to build it and being that it was dark they got stuck right in the middle of it. After Mr. Brockman had been working about an hour or more a team came along and pulled them out. It seems to us that in case roads are not passable when they are being constructed it would not hurt if road board would arrange to have foreman place some lights during the night.

Impression of New Mexico State Fair.

Mr. P. P. Simmons, local business man, and family visited the State Fair Friday last and Mr. Simmons came home very enthusiastic about the way things were handled and the material exhibits displayed.

Mr. Simmons declares that he was agreeably surprised at the Valencia County exhibit, though not as extensive as some of the other counties still it was very creditable and shows what can be done around us if we only get up and do it. Mr. Simmons also declares that; Valencia County only had a farm agent things would improve around our part of country and it wouldn't be long before we would be capturing first prizes for farm products.

Wets Win Carry Tucumcari by Six Votes.

The dries and wets had it out at Tucumcari last week. The election was hotly contested by both sides but wets managed to pull through by a majority of six votes, which indicate that Tucumcari people are very evenly divided on liquor question and no one can predict how Tucumcari would go if it came to a question of state wide prohibition.

From all indication the bitterness which usually marks an election of this kind was entirely missing from the fight at Tucumcari. Final vote was 240 for wets and 236 votes dries.

Local Concern Captured First Prize.

The Belen Roller Mills captured first prize for the display of Mill products at the State Fair. Two other Valencia County Mills came in the winners too, the Los Lunas Mill winning second and the Jarales Trading Co., third.

AS THE EDITOR SEES IT

Who will join this paper in making this a PROSPERITY CHRISTMAS for this town?

Who will clasp hands with us in an effort to make it MARRY Christmas for EVERYBODY, and at the same time preserve our own best interest by keeping our money at home.

Who will write themselves down before their fellow men as being among the BEST CITIZENS of this community, who will take a determined stand in the ranks of those who are willing to think of the welfare of their neighbors as well as that of self?

The editor of this paper expects to spend every possible dollar of this Christmas money AT HOME this time. He expects to do that because it helps the community in general because it helps YOU, as well as others—because anything that keeps the money IN this community is good for all of the people OF the community.

Will YOU join this paper in such movement, which can have but one result, that of benefitting the community and its people?

There really is no rational reason why we should not buy our holiday goods from our own business men. There is every reason why we should.

We can not expect to prosper ourselves if we continually send our funds to outside sources.

The man who habitually pays out more than he takes in will soon reach the point where he has nothing left to pay.

When the people of a community continue to send their profits away from the community for any length of time, they soon come to realize that the home people are hard pressed for funds, that prosperity has taking wings, that hard times and business stagnation are upon them, and that the value of their holdings is shrinking day by day.

Our local merchants are making special preparations for the Christmas trade. You will be able to find practically anything within reason within some or other of our stores, and at prices as low as you can secure the same goods elsewhere.

By trading with home merchants you will be getting what you want at the right price and will be doing your share toward keeping as much as possible of our money in circulation among our own people, where it belongs, and where you will have an opportunity of seeing some of it yourself.

It is no hardship for us to do this.

It is what the people are doing in every PROSPEROUS community in this state, and it is one of the elements that contributes to their continued prosperity.

Whenever you see a town that is dead you may know that what few profits are made in that community are sent away to outsiders and that the town is GOING DOWN HILL EVERY DAY.

We don't want to be in that class. We want to GO UP HILL, and REACH THE TOP, and STAY THERE, and we can never do it unless we KEEP OUR PROFITS AT HOME.

When you buy from the city man the cost of manufacturing the goods and the merchant's profits are BOTH sent away from this town.

But when you buy from the HOME MERCHANT only the cost of manufacture is sent away. The merchant's profits are KEPT AT HOME and in circulation among OUR OWN PEOPLE.

That is a plain and straightforward statement of the case, and it clearly illustrates the course we must pursue if we want to KEEP PROSPERITY IN THIS TOWN.

Are you with this paper in a movement to BUY IT AT HOME THIS CHRISTMAS? Are you one of those who believes in making it a merry Christmas for OUR OWN PEOPLE?

It is possible there may be some article you want that can not be purchased in this town. But perhaps the local merchant can order it for you. Let him do it. He can get it at wholesale rates where you would have to pay full retail price if you sent the order yourself. And again the merchant's profits would be KEPT AT HOME.

Automobile Show at San Diego.

San Diego, Oct. 19.—Under a bower of blossoms, through which thousands of electric lights will shine forth and make the Plaza de Panama at night as light as day the San Diego Exposition's automobile show

SANTA FE RAILROAD BOYS.

Last Friday was Pay day as usual.

Operator Tom Breslin has resigned and gone to El Paso.

Fireman J. C. Childs has left the service and will return to Texas.

Carl Fraser of the Santa Fe service enjoyed the fair last Thursday.

Quite a number of the boys are nursing bad colds, touches of grippe.

Conductor L. Cantinwine has returned to duty from a trip to Eastern points.

General Yardmaster W. H. Hulbert, was a visitor at Albuquerque last week.

Operator Leo Gee has returned from San Marcial and is again in his old Chair.

Westbound travel to Calif., is already decreasing and people are now returning East.

General Manager Fox, arrived Sunday evening at 5 o'clock and remained until midnight, returning to Amarillo on No. 22.

Division Fireman J. A. Baker has been heard from at Sacramento, Calif., where he and Mrs. Baker are enjoying a visit with old friends after taking in the two expositions.

will run in October. Plans have been changed somewhat so that the exhibition will not be confined to the showing of the latest models for visitors will also see a gigantic horticulture display.

Hundreds of the rarest plants from the horticultural building and the Exposition nurseries will be grouped along the aisles while the center piece will be a mass of palms and semi-tropical plants. An electric fountain will be in the center piece and it is doubtless if automobiles will have ever been displayed among such artistic surroundings. As for the auto show all of the exhibit spaces have been taken and the leading American cars will be shown in all their splendor. Continuous music will be furnished day and night by the military and other bands at the Exposition. The first day of the show will be Transportation Day when 600 members of the American Electric Railway association will visit the Exposition.

Washington, D. C., October
19. A blunder by the Demo-
cratic Congress has crippled one
of its most important labor laws.

The last Congress passed a
provision intended to prohibit
the use in government plants
under the War Department of
of certain customs opposed by
labor organizations. That provi-
sion is practically inoperative
today. A vital link in the chain
of legislation.

The labor provision referred
to was the center of one of the
bitterest fights of the session. It
was intended to prevent the use
of army appropriations for "mak-
ing time study of employees or
to pay any premium, bonus or
cash reward to any employee in
addition to his regular wages,"
and was enacted as an amend-
ment to the army appropriation
bill.

The struggle over this amend-
ment all but causes the failure
of the army bill. First adopted
by the House, it was rejected by
the Senate after a long drawn
out controversy. When the bill
went back to the House, they
refused to ratify the Senate's ac-
tion.

The measure then went to a
conference committee of the two
branches. They tried in vain
to harmonize the differences,
with the labor amendment al-
ways the principal bone of con-
tention. Scores of other disagree-
ments were disposed of, but the
Senate continued to oppose the
labor clause and the House to
support it. Three times confer-
ence committee reports were re-
jected because of the labor re-
gulation alone.

Not until senators realized
they must vote for it or defeat
the entire appropriation did they
give up. The passage of the
army bill containing the labor
regulation speedily followed.

On the same day Congress
passed an act authorizing the
War Department to expend
more than six million dollars for
fortifications and other defenses.
To make the labor clause effec-

tive, it was as essential to the
fortifications bill as to the army
bill.

THERE IS NOT ONE
LINE OR WORD OF THE
LABOR REGULATION IN
THE FORTIFICATIONS
ACT. It was not proposed as
a part of this law in either
House or Senate, although to
include it in the army act and
not in the fortifications law was
a mere farce. The days and
weeks of fierce conflict that had
worn the strength and tempers
of the contestants to shreds
proved to be a sham battle.

This is not an isolated blun-
der. It is but one of hundreds
that have been woven into the
entire fabric of Democratic legis-
lation,—another evidence of
Democratic incompetency and
inefficiency.

Shear Goods.

CROPS.

The wheat harvest in the farm-
ing communities adjacent to this
city has been completed and a
large acreage has already been
sown for next season's crop. An
increase in the acreage sown for
next year in all crops will be
over twenty percent. This is a
notable advance made and the
farmers are confident that the
additional acreage can be profit-
ably handled because of their
increased knowledge of best
methods in producing crops in
this section of country.

The quality of all grains has
had been greatly improved dur-
ing the past two years and as
the farmers are becoming more
and more familiar with the con-
ditions to be dealt with in the
production of high grade grains,
they are adopting correct meth-
ods to their good advantage.

Some assistance has been giv-
en the farmers of this county by
the farm expert and if this office
is maintained with a competent
man in charge for a sufficient
period of time in which he may
become familiar with the actual
needs of the Colfax County farm-
er, a great deal more of assist-
ance may be rendered and the
expert be able to serve our farm-
ers in a greater capacity than
before.—Springer Times.

Question of Loyalty.

Speaking to the Knights of
Columbus, former President
Roosevelt said:

"For an American citizen to
vote as a German-American, an
Irish-American or an English-
American is to be a traitor to
American institutions; and those
hyphenated Americans who ter-
rorize American politicians by
threats of the foreign vote are
engaged in treason to the Amer-
ican republic."

The statement is a clear one,
which must appeal to the patriot-
ism of every man who recognizes
first allegiance to the government
of the United States.

The fact that threats have been
made against the political future

OUR PUBLIC FORUM

V.—E. P. Ripley

On Relations of Railroads and People

The industrial leaders of this nation are talking to
the public face to face through the columns of this paper.
The time was when if a corporation had anything to say
to the people they sent a hired hand, whispered it through
a lawyer or employed a lobbyist to explain it to the legis-
lature, but the men who know and the men who do are
now talking over the fence to the man who plows.

When the leading business men of this nation get
"back to the soil" with their problems, strife and dissen-
sion will disappear, for when men look into each other's
faces and smile there is a better day coming.

Mr. E. P. Ripley, president of the Santa Fe Railroad,
when asked to give his views in reference to relations existing between the
railroad and the public said in part:

"Frequently we hear statements to the effect that these relations are
improving, that the era of railroad baiting has passed and that public senti-
ment now favors treating the railroads fairly. As yet this change in public
sentiment, if any such there be, is not effective in results.

It is true that in the legislatures of the southwestern states during the
past winter there were fewer unreasonable and unreasoning laws passed
than usual, but a consideration of the hostile bills introduced shows that
there is still reason for much disquiet even though they were defeated by
more or less of a majority.

Moreover, the idea that the railroads have been harshly treated does
not seem to prevail in the offices of the State Railroad Commissions which
seem to cherish a notion that their business is not to act as an arbitrator
between the railroads and the people, but which proceed on the theory that
the railroads are able to take care of themselves and that their duty is to
act as attorney for the people even though in so doing they deny justice to
the railroads. It requires no argument to demonstrate that the railroads
are entitled to justice equally with other citizens and taxpayers. That they
have not received it and are not receiving it is perfectly susceptible of
proof. That they have practically no recourse in the courts has also been
determined.

The situation therefore is that the people, through their representatives,
must elect whether the services of the railroads shall be adequately com-
pensated or not; and it requires no fortune teller or soothsayer to predict that
in the long run the service will take the class that is paid for and no better.
The natural competition between the railroads and the natural desire
to perform first-class service has heretofore resulted in giving the public
much more than it was willing to pay for. Continuation of this will be
impossible and no laws, however drastic, can long accomplish the impossible."

of President Wilson because he
would not allow this nation to be-
come the ally of the warring pow-
ers of Europe, is well known.
But that is not the only abuse to
which the hyphen has been put
in this country.

In a recent speech, President
Wilson said he was anxious to
"have a line-up and let the men
who are thinking first of other
countries stand on one side—bib-
lically it should be the left—and
all those who are for America
first, last and all the time on the
other side." That line-up will
come in the next election. On
that point there cannot be the
slightest doubt, and we cannot
permit the result to be in doubt.

It would be far worse for us to
be conquered by foreign bayonets
than it would be for us to become
annexed to a foreign country
through the traitorous ballots of
men who have sworn to support
the constitution of the United
States while they remain in real-
ity subjects of a foreign sov-
ereign.—Albuquerque Journal.

"In time of peace, prepare for
war." President Wilson is a-
bout to get married.

If it had a Farm Agent Va-
lencia County would have car-
ried first prize.

We're Opposed To MAIL ORDER CONCERNS

Because

They have never contributed a cent to furthering the interests of our town—

Not a cent received by them from this community—

In almost every case their prices can be had right here, which delay in receiving goods and the possibility of mistakes in filling orders.

But---

The natural human trait is to buy where goods are cheapest. Local pride is usually secondary in the game of life as played today.

Therefore

Mr. Merchant and Business Man, meet your competition with their own weapons—advertising.

Advertise!

The local field is yours. All you need do is to avail yourself of the opportunities offered. An advertisement in this paper will carry your message in front of the eyes in this community. It is the surest and most effective killing your greatest competitor. A space this size won't cost much. Come and see or write us about it.

"Thedford's Black-Draught
is the best all-round medicine
I ever used," writes J. A.
Steelman, of Pattonville, Texas.
"I suffered terribly with liver
troubles, and could get no relief.
The doctors said I had con-
sumption. I could not work at
all. Finally I tried

THEDFORD'S BLACK- DRAUGHT

and to my surprise, I got better,
and am to-day as well as any
man." Thedford's Black-
Draught is a general, cathartic,
vegetable liver medicine, that
has been regulating irregulari-
