VOLUME 11.

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, DECEMBER 16, 1910.

NUMBER 45

## Lincoln County Democrats Meet.

The democrats of Lincoln county met in convention at Carrizozo Saturday, December 10, at 1:30 p. m., convening in Humphrey Hall. The convention met in pursuance to a call issued by the democratic central committee of the county.

W. J. Doering, chairman of the central committee, called the meeting to order, read the call, outlining the purpose of the call, and announced that nominations were in order for temporary chairman. Scipio Salazar, of Lincoln, was unanimously named for the position. Jno. A. Haley was chosen temporary secretary.

By direction of the convention, three committees were appointed, as follows:

Credentials—George Kimbrell, Miguel Luna, Paul Mayer, S. R. Moss, Ben F. Nabours, M. G. Paden and G. Raniger.

Permanent Organization—Scipio Salazar, Robt. H. Taylor, S. R. Moss, Ben F. Nabours and Jno. H. Boyd.

Resolutions—A. H. Hudspeth, Miguel Luna, George Kimbrell, Ben F. Nabours, Jno. A. Haley, G. Raniger and S. R. Moss.

The convention took a recess, to convene at the call of the chair, in order to allow the committees time to prepare their reports. When the convention reconvened, the committee on credentials, through its chairman, S. R. Moss, recommended the seating of all delegates holding credentials, and the report was adopted.

The committee on permanent organization recommended Wm. D. Martin, of Oscura, for permanent chairman and Wm. S. Bourne for permanent secretary, and A. H. Hudspeth and Paul Mayer were named as a committee to escort the permanent officers to their stations. Upon taking the chair, Mr. Martin, in a few appropriate remarks, expressed his thanks for the honor conferred, and spoke of the necessity for careful consideration of the momentous question before the people. The convention heartily endorsed the statement by the chair that constitutions should be made for all the people, that partisanship should not be considered in the adoption or rejection of the document, but the question before the people was whether the constitution was such that it should be opposed or endorsed.

The committee on resolutions requested more time in the preparation of its report, which was granted, and invited Hon. A. H. Hudspeth, of White Oaks, to address the convention. Mr. Hudspeth spoke at some length, pointing the good and bad features of the constitution, and the address, while at all times conservative, clearly brought out the serious defects in our basic instrument and wherein the document con-

tained many jokers, hidden by a very thin veneer. He expressed it as his belief that, aside from two slight features in the constitution, the corporations did not wish for anything more suited to their purposes. Others followed in the same tenor, evidencing the meeting's view of the subject.

Dr. Raniger was named as a committee of one to prepare a resolution, in conformity with a motion tendering the thanks of the people to delegate Hudspeth as a member of the constitutional

convention for his efforts in behalf of the people, at the same time authorizing Dr. Raniger to call others to his assistance in the preparation of the resolution. A committee of three was also appointed to present a list of names for the consideration of the convention as delegates to territorial democratic convention; and thereupon the convention took a recess until 6:30 p. m.

Upon reassembling the committee on resolutions presented the following report:

"We, the delegates elected pur-

suant to the call of the democratic central committee of Lincoln county, in convention duly assembled at Carrizozo, New Mexico, this 10th day of December, 1910, for the purpose of electing seven delegates to the territorial democratic convention, to be held at Santa Fe, New Mexico, on the 17th day of December, 1910, to determine the attitude to be taken in regard to the proposed constitution lately drafted and to be submitted to the people of the territory at an election to

Store open from December 17th to 24th until 8:30 p. m.

## CARRIZOZO NEWS

CARRIZOZO - NEW MEXICO

### AN EASILY CONQUERED DISEASE.

When cholera was last in Europe, nothing very definite had been learned as to its real nature. It was still regarded as a contagious disease, which was—and of any disease still is—the same thing as confessing ignorance as to how its infection passes from the sick to the well, and against it there could be used only general measures of sanitation and isolation. Even these were enough to keep the ravages of the epidemic, except in a few special centers of filth and ignorance, within limits small indeed in comparison with the dreadful mortality that used to follow the appearance of cholera anywhere. Now the malady is among those most thoroughly understood, and though not much progress has been made as to the curing of victims once stricken, the infection agent and the avenues of infection have been found, and the latter can all be easily and effectively closed to anybody who knows and will use a few simple measures of prevention, says the New York Times. He who eats and drinks nothing that has not been subjected for some time, at least, to the heat at which water boils—and nothing that has been contaminated between consumption and the application of the heat—will not have the cholera, even though people are dying of it all around him.

Statistics are always more or less interesting and especially is this true of those statistics based upon the figures now being given out by census estimators and the government census bureau, says the Manchester Union. Aside from speculations as to the possible growth of one municipality or another, it is interesting to note the status of the native-born American in connection with the birth and death rates and even a most casual investigation will disclose figures little short of alarming. According to the estimates of competent authorities the population of the United States should be found this year to be in the vicinity of 90,000,000 souls. Deduct from this the immense flood of immigration which, since 1900, has closely approximated 9,000,000, and the increase in population meanwhile to have been something like 14,000,000, as far as native-born Americans are concerned. This is an increase of but six per cent. over the figures of the former decade, as against 21 per cent. for that just preceding. Thus it is seen that the rate of internal increase has fallen off fully fifty per cent.

The official census-statistics give Chicago a population of 2,185,293, a gain of 486,708 in ten years. This is doing very well, as the returns show Chicago to be the second city in the United States in number of inhabitants, ranking next to New York both in population and in rate of increase. Yet Chicago is not satisfied. The metropolis thought it should have at least 3,000,000. Apparently the only way to get such a total is to annex some more of the outlying territory.

The British are putting the letters "U. S. A." on mail intended for Union of South America. But the matter presents no problem except in theory. Mail so addressed will naturally be sent to these United States of America, and people writing to United South Africa who want their friends to get their letters will spell it out.

## Postoffice Department May Pay Out

WASHINGTON.—The estimates of Postmaster General Hitchcock for next year show that the postoffice department promises fair to pay its own way. The mail service comes nearer to the people than any other branch of the government, for it reaches every home as well as shops and offices. It costs a lot of money. Mr. Hitchcock asks for \$250,733,943, and the appropriation for the department always is set forth in the expenditures for each year, but the earnings from the mails bring back the outlay to the treasury. This business is not reported in the current daily statement of the treasury which set forth only the deficit paid. This amounted last year to \$17,000,000, and will be \$6,000,000 less for the current twelve months, while it is predicted that it will disappear in the next fiscal year. The department gets no pay for the vast tons of matter which it carries for other branches of the government. If it did the offset

against the deficit would be very large. The rent of offices in Washington and in public buildings elsewhere does not cover this traffic.

The work done by the postoffice is a marvel of cheapness. In volume and in extent of territory covered there is nothing to be compared with it. The reduction in rates since the days when 25 cents was charged for a letter from New York to Columbus, O., does not cease to be a wonder. The system which for two cents delivers a message in writing weighing an ounce from Maine to San Francisco not only but to the Philippines, or from the southern point of Florida to the northern extremity of Alaska, is a model of efficiency at the minimum of cost.

Europe is compact in population with distances measured by hundreds of miles only. This is especially true of Great Britain. There penny postage is proclaimed as a triumph and an example. Americans forget that the British penny is the equal in current value of two cents of our money. The cent is often called a penny, but it is only half a penny, and thus the term is a misnomer. Our postal rates on letters are now just those of Great Britain. Penny postage has long prevailed here as well as there.

## Has Plan to Care for Ex-Presidents

THE great movement for the conservation of the natural resources of the country, at the present time exerting salutary influences upon every important national activity, has embraced a new field. A safe, sane and successful method of conserving and finding a method of caring for our ex-presidents is the latest idea in the conserving line. A provision in the constitution of the national conservation congress is responsible for the proposal, and serious consideration is being given it, not by the political dreamer or theorist, but by the great public figures of the country.

Bernard N. Baker, retiring president of the congress, by virtue of a clause in the constitution, becomes a member for life of the executive committee, and will, so long as the con-

gresses are held, continue to give the benefit of his counsel and experience to the president.

The suggestion has been made, and has already crystallized into an organized sentiment, to adopt the same method with the president of the United States, make him, for life, an advisory member of the president's cabinet and give him a competence sufficient to make him independent. Speaking of this proposal, Mr. Baker said that it was really surprising how many men there were in the west who thought that this method furnished the solution of the perpetual perplexing question as to what disposition to make of our ex-presidents.

"On its face the proposition is certainly a plausible one. It stands to reason that after a man has been president for four or eight years he knows the problems and difficulties which confront the man at the helm of the ship of state better than does his successor. If the ex-presidents could be made advisory members of the cabinet of the president, the latter would get the benefit of the advice of the former.

## Expert to Head the Economy Bureau

WHAT is considered a real step toward greater economy and more efficiency in the management of the government's business was taken when President Taft appointed Dr. Frederick A. Cleveland, director of the bureau of municipal research in New York city, as the head of a central staff that will work on the economy and efficiency problem under the direction of the president. Announcement was also made that each of the cabinet officers will organize in his department a committee or commission to be known as an economy and efficiency organization.

These steps were taken under the law passed at the last session of congress directing the president to conduct an investigation into the business methods of the several executive departments, and giving him \$100,000 with which to carry forward the inquiry. The final plans were not approved by the president until he had consulted with a large number of business men and had received written suggestions from numerous audit companies.

The central staff, of which Mr. Cleveland is to be the chief, will be composed of four men in addition to the chief. Its function will be to keep the president informed as to conditions in the several departments, might properly be called a bureau of inspection. The economy and efficiency commissions to be organized in each department will undertake to ascertain if greater efficiency can be obtained without increasing the cost of the service.

### WELL AT LAST.

Terrible Kidney Trouble Cured After Doctors Gave Up Hope.

Mrs. F. M. Hill, 188 W. 10th St., Waterloo, Iowa, says: "It makes me shudder to think of my awful suffering. I was languid and weak and never free from dull pain in my back. My hands puffed and my feet became so swollen I could not wear my shoes. The kidney secretions were painful and frequent in passage. I gradually grew weaker until the doctors gave up hope. It was then I began with Doan's Kidney Pills and soon improved. Continued use cured me."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

He Was a Boston Boy.

"Your little boy must be very intelligent," said a visitor to a Boston school teacher whose five-year-old son was forming Greek words with building blocks.

"Intelligent!" exclaimed the proud parent. "He is phenomenally gifted. As an example of his early erudition, what do you suppose was the first words he ever spoke?"

"Papa and 'mamma'?"

"Stuff and nonsense!" ejaculated the father in a tone of disgust. "Why, the day he was 12 months old he suddenly laid down his algebra and said to me: 'Father, the longer I live the more indubitable proofs I perceive that there is in Boston as much culture to the square inch as there ever was in the ambient area of ancient Athens!'"

### Mental Influence.

"How far is it to Gloomville?" we ask of the native who is leaning over the gate.

"Ten mile straight ahead," he answers.

"But we met a man a little way back and he said it was only two miles."

"Short, fat man, drivin' a flea-bitten sorrel hoss?"

"That's the man."

"Did you meet or pass him?"

"We passed him."

"Thought so. He's drivin' a balder I traded him, an' he didn't want his hoss to know how much furdier it had to go."

# COLDS BREED CATARRH

**Her Terrible Experience Shows  
How Peruna Should Be in Every  
Home to Prevent Colds.**

Mrs. C. S.  
Sagerser,  
1311 Wood-  
land Ave.,  
Kansas  
City, Mo.,  
writes:

"I feel it  
a duty to  
you and to  
others that  
may be af-  
flicted like  
myself, to  
speak for  
Peruna."

"My trou-  
ble first  
came after  
the grippe  
eight or  
nine years  
ago, a gath-  
ering in my  
head and  
neuralgia. I  
suffered  
most all the  
time. My  
nose, ears  
and eyes  
were badly  
affected for  
the last two  
years. I think  
from your  
description of  
internal catarrh  
that I must  
have had that  
also. I suffered  
very severely."

"Nothing ever  
relieved me  
like Peruna.  
It keeps me  
from taking  
cold. With  
the exception  
of some deaf-  
ness I am  
feeling perfectly  
cured. I am  
forty-six years  
old."

"I feel that  
words are in-  
adequate to  
express my  
praise for Peruna."

## Catarrh in Bad Form.

Mrs. Jennie Darling, R. F. D. 1,  
Smyrna Mills, Maine, writes: "I was  
unable to do my work for four years,  
as I had catarrh in a bad form. I  
coughed incessantly, and got so weak  
and was confined to my bed."  
"Peruna came to my relief and by  
faithfully using it, I am able to do my  
work. Peruna is the best medicine that  
I ever took."

Mrs. C. S. Sagerser.

## THREE SANDWICH RECIPES

**Chicken, Japanese and Ribbon Sandwiches That Are Really Good Enough to Eat.**

**Chicken.**—Chop the white meat of chicken very fine, then pound to a smooth pulp in a mortar. Season to taste with salt, pepper, olive oil, and a little lemon juice and spread upon thin slices of lightly buttered bread cut in fancy shapes. The covers to these slices are spread with butter, into which are pressed almonds or English walnuts sliced or chopped very fine. Put together and press.

**Japanese Sandwich.**—This is made of any kind of left-over fish, baked or boiled. Pick out every bit of skin and bone and flake in small pieces. Put into a saucepan with a little milk or cream to moisten, add a little butter and dusting of pepper. Work to a paste while it is heating, then cool and spread on thin slices of buttered bread.

**Ribbon.**—These are made in different ways, carrying both bread and filling according to fancy. For instance, take six thin slices of bread buttered on both sides. Spread layers of deviled ham or chicken between, then press the entire sandwich. Slice crosswise, making thin, ribbonlike sandwiches; or use alternately slices wafer thin of white and brown bread, with a filling of cream cheese and chopped nuts or olives.

A plateful of grated Parmesan cheese is served in many households with macaroni or spaghetti instead of cooking the cheese with it.

If you haven't a shoehorn drop your handkerchief into your shoe before inserting the foot, then pull tight and it will slip on easily.

Medicine stains on silver spoons may be removed by a rubbing with a rag dipped in sulphuric acid and then washing it off with soap and water.

When the color of a dress has faded, owing to stains from lemon or other acid fruit juice, a good idea is to touch the spot with liquid ammonia, which usually will restore the color.

Raw potato grated and applied to a burn will give almost instant relief. Another good remedy is butter and then baking soda.

## Baked Eggplant.

Peel the plant and boil it whole in salted water, until tender enough to pierce with silver fork. Drain and wash, adding two tablespoons of bread crumbs and a teaspoon of scraped onion. When cool, beat one egg into the mixture, put in baking pan, cover the top with bread crumbs and bits of butter, and bake about half an hour in oven hot enough to brown the crumbs. We are fond of this and got the recipe from a famous chef.

## Boiled Tripe.

Wash half a pound of tripe then boil up in water, drain, cool and cut into small pieces. Put these with one cupful of milk, one cupful of water, two sliced onions, season with pepper and salt, and let simmer for two hours. Mix one heaping tablespoonful of flour with a little cold milk, add to the tripe, stir until it boils, then let it simmer for another 30 minutes.

## Cottage Pudding.

Cream one cup of sugar with butter the size of a walnut. Add two well beaten eggs, one-half cupful milk, one and one-half cupfuls flour with which two teaspoonfuls of baking powder have been sifted. Bake twenty minutes and serve at once with mashed, sweetened raspberries.

## An Effort to Oblige.

"Mr. Lobrow does his best to be agreeable," said the sympathetic young woman. "It's too bad that he has so little tact."

"I understand that Miss Coddleyap refuses to speak to him. He sent her a box of candy and she fed it all to her pet terrier. So he tried to be still more kind and thoughtful and sent her a box of dog biscuit."

## Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

## Too Free.

Seymour—What caused the Allcome Life Insurance company to fail?

Ashley—It was altogether too free in accepting risks. I don't believe it would have even refused to insure the life of a turkey the day before Thanksgiving.

ED GEERS, "The grand old man," he is called for he is so honest handling horses in races. He says: "I have used SPOHN'S DISTEMPER CURE for 12 years, always with best success. It is the only remedy I know to cure all forms of distemper and prevent horses in same stable having the disease." 50c and \$1 a bottle. All druggists, or manufacturers. Spohn Medical Co., Chemists, Goshen, Ind.

## The Preface of Trade.

"I had a curious experience yesterday," said Farmer Cornstossel.

"What was it?"

"A stranger came along and told me a funny story and didn't try to sell me anything."

## Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the

Signature of *Wm. H. Stearns*  
In Use For Over 30 Years.

The Kind You Have Always Bought.

Lots of women dress as if they were hard of hearing.

# SAVED FROM AN OPERATION

**By Lydia E. Pinkham's  
Vegetable Compound**

De Forest, Wis.—  
"After an operation four years ago I had pains downward in both sides, backache, and a weakness. The doctor wanted me to have another operation. I took Lydia E. Pinkham's Vegetable Compound and I am entirely cured of my troubles."

Mrs. AUGUSTE VESPERMANN, De Forest, Wisconsin.

## Another Operation Avoided.

New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first, and was saved from an operation."—Mrs. LILY PETROUX, 1111 Kerlerec St., New Orleans, La.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

If you want special advice about your case write to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

**AMATEUR PHOTOGRAPHERS** We develop 22 7/8 x 11, any size, 100 per roll and do it right. Our system gives greatest detail in cloud effects, snow scenes and underexposed negatives. Value prints, 10c each, and smaller sizes. Send 10c for 100. DAVID PHOTO FINISHING CO., Boulder, Colorado

**PATENTS** Watson E. Coleman, Washington, D.C. Books free. High references. Best results.

## You Can Work Near a Window

In winter when you have a Perfection Oil Heater. It is a portable radiator which can be moved to any part of a room, or to any room in a house. When you have a

**PERFECTION**  
SMOKELESS  
OIL HEATER

*Absolutely smokeless and odorless*

you do not have to work close to the stove, which is usually far from the window. You can work where you wish, and be warm. You can work on dull winter days in the full light near the window, without being chilled to the bone.

The Perfection Oil Heater quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. An indicator always shows the amount of oil in the font. The filler-cap, put in like a cork in a bottle, is attached by a chain. This heater has a cool handle and a damper top.

The Perfection Oil Heater has an **automatic-locking flame spreader**, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. The burner body or gallery cannot become wedged and can be unscrewed in an instant for re-wicking. The Perfection Oil Heater is finished in Japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

**Continental Oil Company**  
(Incorporated)

JNO. A. HALEY, Editor

Supreme Justice White has been elevated to the chief justice-ship by President Taft. The chief justice is from Louisiana, and was appointed to the supreme bench by President Cleveland in 1894.

It is now reported that the boundaries adopted by the constitutional convention are unsatisfactory, and that the constitution, even if adopted by the people, will be rejected by congress. It is claimed that the bordering states feel our convention took in too much territory, and such conditions are usually provocative of trouble.

It is true an elective corporation commission is provided for in the constitution, but its effectiveness is curtailed. The supreme court will have supervisory powers over its most important actions, and in cases which its advocates desired it to have sufficient powers its "teeth have been pulled." Most cases of complaint, under the provisions presented, will die of old age before they can be adjusted.

There are few persons who will contend that the referendum in the constitution is of any material value. The Santa Fe New Mexican, which opposed any kind of a referendum, admits that the one proposed may catch some votes, and if it does it will have served its purpose, but pointedly states that it is not a workable one. Will anyone who earnestly favored a reasonable referendum be satisfied to accept this substitute?

More or less fighting has been in progress the past week in Mexico between the government troops and the revolutionists. Both sides, according to reports, claim victories, and the outside world is still in the dark as to actual results. The latest information from the scene of conflict is that the federal commander ordered eighty insurgents shot, a part of whom were non-combatants. Such acts will, in the end, prove disastrous to the government authorities.

We are not prepared to say what action the democratic party will take at Santa Fe tomorrow on the constitution, but we believe it will merely call the attention of the people to the defects in the instrument, show wherein the convention fail to incorporate features that were demanded, by the people and make no attempt at a formal declaration that will be binding upon the individual members of the party. There is no question that some democrats will support the constitution, even admitting its defects, and that some republicans will oppose it. Constitution making is not a party question.

## BOUNDARY DISPUTE DISTURBS THE POLITICIANS.

### OUR SANTA FE LETTER.

Santa Fe, N. M.—Recent developments in the boundary dispute between Texas and New Mexico make it certain that there will be no statehood until the next session of congress, and that the adoption of the constitution will make little or no difference, and more than likely complicate matters. In fact, it is predicted that if the constitution is adopted at the election in January, as it is now written as to boundaries, that it will absolutely defeat statehood under the enabling act now passed, as Texas will fight the admission of New Mexico to the last ditch.

It is now admitted that the chances of admission at an early day will be bettered by the defeat of the present constitution and the making of another one, as no admission can be obtained under the present constitution, and under its own provisions it can not be amended in twenty-five years.

The situation is just this. If the present constitution is adopted there will be no statehood at all under this constitution, as the Texas senators can effectually block admission. There is no way to change this constitution without allowing it to go to defeat at the polls in January and then re-assembling the convention for the purpose of reconstructing it.

If this boundary proposition could be arranged the republican politicians would speedily fix it to the satisfaction of Texans, as they are desperate in their efforts to secure statehood before the coming democratic congress gets a chance to order an investigation of the election methods in New Mexico, as is already threatened.

Not only are they afraid of the proposed election investigation in the counties of San Miguel, Colfax, Valencia, and even other counties, but there is at least one serious shortage which has been covered in an imperfect manner which will involve prominent party men. This shortage had been repeatedly charged openly, and has never been denied, but the territory was paid and the county left to one.

The land scandals will again come to the front from such an investigation. It will be remembered that the men investigating irregularities in New Mexico were withdrawn through strong political influences, and a number of indictments dismissed, but they do not want an honest and open investigation.

The recess appointments of Edward R. Wright and Clarence J. Roberts to be associate justices of the New Mexico supreme court have been confirmed by the senate. Judge Wright sits in this, the sixth district, and Judge Roberts in the fourth.

Sweaters! Sweaters! Sweaters! Nothing like them for these cool mornings. Come in and look—we can fit you well. —Ziegler Bros.

### Contest Notice.

Department of the Interior,  
U. S. Land Office at Roswell, N. M.  
November 12, 1910.

A sufficient contest affidavit having been filed in this office by Paul R. McQuinn, contestant, against Homestead Entry No. 10370, Serial No. 011502, made Dec. 12, 1904, for sec. 24, and 1/2 sec. 25, Township 7 N., Range 10 E., New Mexico Principal Meridian, by William H. Nix, contestee, in which it is alleged that William H. Nix has not lived on said claim for more than one year last past, and has left New Mexico and entirely abandoned his claim, said parties are hereby notified to appear, respond, and offer evidence touching said allegation, at ten o'clock a.m., January 3, 1911, before A. H. Harvey, U. S. Commissioner, at Carrizozo, New Mexico, and that final hearing will be held at ten o'clock a.m., on January 13, 1911, before the Register and Receiver of the United States land office in Roswell, N. M.

The said contestant having, in a proper affidavit, filed November 21, 1910, set forth facts which show that after due diligence personal service of this notice can not be made, it is hereby ordered and directed that such notice be given by due and proper publication.

It is ordered that a copy of this notice be published in the Carrizozo, N. M., 12-2-10.

E. C. McLENNON, Register.

The peculiar properties of Chamberlain's Cough Remedy have been thoroughly tested during epidemics of influenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by all dealers.

#### Ancho Personals.

—1—

At last our little Village is freed from the small pox cases.

Mr. and Mrs. E. N. Talbot passed through Ancho on their way to Jicarilla to look after their mining interest.

Mr. and Mrs. J. A. Cooper have the lumber on the ground to build their new house.

Mr. W. C. Welch who had been appointed to this place an agent to succeed Mr. W. L. Scales, was sent to a station on the Dawson branch; as yet we do not know who will be sent here, Mr. Armogost is still in charge.

The Ancho School, after nearly a three weeks' shut down, has begun work again.

Rev. Paul Bentley was down Sunday to fill his appointment, but on account of the small-pox there were no services.

Messrs. Bush, Williams, Crawford, Price, Palmer and others were down to the court in Alamogordo. We understand the matter was settled out of court.

Mr. Al. Cowen, former storekeeper and Post Office clerk at this place, has gone to Kansas.

—2—

Preparation is being made for a large shipment of sheep from this place soon.

We understand that there will be some changes in Ancho R. R. circles, January 1st.

The community of Ancho is planning a Christmas entertainment, a Christmas tree included. Every body invited to participate.

Ancho School is again running regularly. Quite a number of sore arms in evidence. The law on vaccination was carried out to the letter.

The regular man, as the E. P. & S. W. agent here, has at last come. We have not learned his name but he comes from Tucumcari. Mr. Armogost, who relieved Mr. Scales, has returned to Torrance.

The small-pox has claimed one victim; a 6 month's old baby of the afflicted Mexican family. The child was buried last Friday. No new cases, and we hope this is the end. The family are moved out of town and the old building burned.

We sell for cash or thirty days time.—The Carrizozo Trading Company.

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. When Chamberlain's Liniment is applied a cure may be effected in three or four days. This liniment is one of the best and most remarkable preparations in use Sold by all dealers.

The greatest danger from influenza is of its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy, as it not only cures influenza, but counteracts any tendency of the disease towards pneumonia. Sold by all dealers.

#### Jicarilla Happenings.

Jules Kelt and wife were visitors here last week.

Robert P. Brookin was here to spend Sunday of this week.

Mr. and Mrs. James Cooper Sr. were visiting their son and family Saturday.

Mr. and Mrs. Sam Woods, of Ancho were visiting in the Jicks lately.

Ed. Wilson was rewarded by getting a copious flow of water in his new well.

We learn that many Jicarilla people intend filing on homesteads on the east side, and drilling wells.

There was a trio of mining men from Colorado here during several days last week. We feel sure they will come again.

Mr. and Mrs. James Cooper Sr. gave a delightful party a few nights ago. Many people from Ancho and nearby settlements were here.

Miss Pearl Taylor and sisters, and others, came out from White Oaks, to attend the party, given by the Coopers, last Saturday evening.

We hear there is to be an elaborate program for the Christmas entertainments in White Oaks. Beside the usual tree, there will be charades recitations, musical performance and the special Stunts of St. Nicolas. And the whole terminating in a dance.

Recently there have been parties out from White Oaks investigating one of the best mines in this camp. We learn it was with a view of leasing and working, and that all were very well pleased with the ore and general outlook.

If its Schlitz you are looking for, the Headlight has it.

#### ABSTRACT OF COUNTY RECORDS.

#### Andrew J. Hale Dies.

Andrew J. Hale died last Saturday night at his home near Nogal of pneumonia, and was buried the following day in the Nogal cemetery. The deceased was a member of one of the old families of the county, having lived for many years on the old homestead on the Ruidoso. He left a wife and several children, also brothers and sisters, to all of whom the News extends sympathy.

#### New Man Enters Firm.

Mr. Orville T. Nye, principal of the Lincoln school has purchased an interest in the American Title and Trust Co., has been elected secretary and treasurer, and will enter the active service of the Co. upon the conclusion of his present school term. Expect to do an extensive real estate business in all valley lands and take advantage of the method offered by the Immigration Bureau of the Territory.

The Headlight is becoming famous like Milwaukee—it handles Schiltz.

#### The Whist Club.

On Friday evening Mesdames Harry Dawson, Harold Fairbanks and Mrs. John Canning united to entertain the Carrizozo Whist Club at the residence of Mrs. Canning. Only the members of the club and their husbands are present at these evening sessions, substitutes filling the places of absentees.

Favors of red carnations, were given to the players as the score cards were passed, dainty fantastic figures handpainted and oval in shape. On stands and parlor mantel red carnations nodded their pretty heads in great clusters at the players to the counting of the score.

Mrs. George L. Ulrick held the highest number of points on the ladies side, winning a beautiful jeweled belt buckle; Mr. Holmes, a guest of a member of the club, carried off the gentleman's first prize, a handsome brush.

To Miss Boykin and Mr. Doering fell the two booby prizes, a powder rig and "Snookums," the latter creating merriment, Mr. Doering good-naturedly joining in the banter.

Sandwiches and coffees, ices and cakes were bountifully served.

The personnel of the party included:—Mr. and Mrs. Arthur Rolland, Mr. and Mrs. John Kimbell, Mr. and Mrs. Will Whittingham, Mr. and Mrs. Frank Sager, Mr. and Mrs. H. Fairbanks, Dr. and Mrs. E. Walker, Mr. and Mrs. Harry Dawson, Mr. and Mrs. Elliott; Mr. and Mrs. John Canning, Mesdames George L. Ulrick, W. C. McDonald; Misses Lorena Sager, Virginia Fenton, Nettie Lee, Boykin and Eshleman; Messrs. Butterworth, Doering, Holmes, Spencer and Smith.

If you want a really good wagon, the Winona will fill the bill. Strictly 30 days time.—The Carrizozo Trading Co.

Time for blankets and quilts. Have you seen our complete stock of this merchandise? If not inspect them today.—Ziegler Bros.

#### Lincoln Locals.

The news of the approval of the \$10,000.00 bond recently filed by the people of Lincoln with the District Court, has brought great joy and satisfaction.

The stork, on a recent trip through Lincoln County, left a 9 lbs. boy at the home of Mr. and Mrs. Charles P. Fritz. Both mother and baby are reported well.

Wyatt B. Richards the Capitan Hotel man, accompanied by his witnesses, Ben Kentfrow and Clement Highower, all of Capitan, appeared before Probate Clerk Riggle last week to offer final proof on his homestead.

Attorney H. B. Hamilton was here last week on legal business in connection with the case of the Territory vs. R. J. Wood, who was put under a peace bond of \$300.00 on the complaint of F. E. Allen by Justice of the Peace Ramon Lujan.

Joe Coleman and Capt. P. L. Krouse of Alto were Lincoln visitors last week. They reported everything in good condition in and about Alto and Eagle Creek.

Dr. T. W. Watson commenced the construction of his new phone line from Capitan to Lincoln Tuesday morning. Considerable inconvenience has been experienced with the Colorado Telephone Co. in the past and Dr. Watson's new enterprise is meeting with great encouragement from the people of the eastern part of the county as he also contemplates the building of a line from Lincoln to Picacho.

Wm. H. Fisher, the veteran lumber man of Capitan proved up on his homestead before Probate Clerk Riggle last week. He was accompanied by Seaborn T. Gray and George Smith, both of Capitan who acted as his witnesses.

#### Masonic Meeting.

At the regular meeting of Carrizozo Lodge 41, A. F. & A. M., held last Saturday night, the election of officers for the ensuing year resulted as follow:—Worshipful, Master, W. C. Miller; Senior Warden, S. F. Miller; Junior Warden, T. W. Watson; Treasurer, G. W. Spence; Secretary, G. Ranniger; Tyler R. E. Studham.

The Master elect announced the following appointments: Senior Deacon, E. H. B. Chew; Junior Deacon, Harry Chant; Senior Steward, R. R. Sale; Junior Steward, I. I. Cavender. The new officers will be installed on the night of St. Johns day December 27th. The installation will be public and all masons and their friends are invited.

A green Christmas, according to an old adage, makes a full graveyard. Let us hope old Santa Claus will have to come in the snow this year.

The New Mexico Educational Association meets at Las Vegas during the holidays. Some of the Lincoln county teachers will take advantage of the Christmas recess to attend its sessions.

s forty days in y to the quo war- e meantime the tion will come up fore the supreme Fe, which will h.

Peter Hale was over yesterday with a load of apples.

J. B. Burrell was over from Capitan Saturday night.

The roof on the court house is not on the court house—it's in the air.

Judge John Y. Hewitt came down from White Oaks Tuesday, and left that night for Santa Fe.

W. R. White, county commis- sioner from the third district, was in town yesterday from his home on the Mesa.

The public schools of Carrizozo will close for the holidays next Wednesday, and will reconvene on Monday, January 2.

Attorney Gierke and Dr. Wat- son were up from Lincoln last Saturday night, attending the regular masonic meeting.

Rev. Frank M. Wadley will preach at the Baptist church Sunday morning and evening. A cordial invitation to all.

The beautiful weather of the past month was slightly disturbed a couple of days this week; and yet the moisture was lacking.

Leslie Harman was in Monday from his home beyond White Oaks. While here he sold the remnant of the V V cattle to George Murray.

Mrs. Harry Humphrey arrived Friday morning from Michigan to join her husband. Two sis- ters of the Humphrey Bros. ac- companied her and all will make Carrizozo their home.

Wm. S. Bourne and the Hill Bros. went out to the San Andres this week to examine some min- ing property. They returned yesterday.

Uncle Amos Eaker left Tues- day for Kelly, New Mexico, to visit his daughter, Mrs. John Adams. He expects to go to Austin, Texas, his old home, in the near future.

Ervin Gray returned Saturday from Kelly, New Mexico, where he had been the past month, looking after the interest of Gray Bros. Before coming home he sold the Gray Bros. saloon to Welch & Adams.

The most delightful weather has prevailed the past month: in fact, it has been too delightful. If we could have a big snow to moisten the ground and create a water supply conditions would be much improved.

Harry Gross, who has been in the service of the local company as an engineer for the past ten years, left Wednesday night for Helper, Utah, where he expects to enter the employ of the Rio Grande & Western. Mrs. Gross and the children will remain here for some time.

W. C. McDonald recently pur- chased the BarV remnant of cat- tle in Chaves County. The Bar V's formerly had a large stock of cattle but some time ago dis- posed of all cattle they could gather. Mr. McDonald has also leased all the L. F. D. water on the Pecos, thus insuring a supply for all stock run by him.

The open season for hunting is drawing to a close. Turkey and quail may be killed until the 31st of this month.

The Carrizozo school is prepar- ing an entertainment for the Christmas holidays. It will take place in the Baptist church.

The school building is about completed, and it is thought it will be ready for occupancy by the time school reconvenes after the holiday recess.

W. J. Doering, the busy light man, has moved into the Oriental building. He has given the in- terior a touch with the brush— varnish and paper—and the room shines like a new pin.

Oscuro sent a large delegation up Saturday: some were members of the democratic county con- vention and all were interested in its proceedings. The con- stitution is regarded with a degree of disfavor in their section.

Mr. and Mrs. George Kimbrell left on Monday's train for their home at Picacho. They were ac- companied by their daughter, Mrs. F. W. Brockway, who has been ill for sometime, and goes to remain with her parents for a while, with the hope of soon be- coming stronger.

Mrs. Spencer and daughter ar- rived Wednesday from St. Louis, and are the guests of Mrs. W. C. McDonald. Mrs. Spencer is a sister of E. W. Parker, formerly a resident of White Oaks but now in El Paso, and will be remem- bered in a visit to her brother's family some years ago.

## NEW SOUP RECIPES

GIVING VARIETY TO FIRST COURSE IN MENU.

Potatoes and Sorrel Added to Familiar Tomato Bisque—How to Use the Water in Which Fowl Has Been Boiled.

In the fall the housewife's fancy seriously turns to thoughts of soups. With the first few whiffs of snappy autumn air the stock pot acquires an interest which it has lacked for at least three months, while the daily menu becomes longer by one hot, wholesome course.

The average first course is extremely limited in point of variety, and good and tasty recipes are so numerous that it is a pity this should be the case.

When reinstating soup to its proper dignity this year it would be an excellent housewifely study to vary it to a greater extent than in former seasons.

While fresh tomatoes are still with us, try a variation of the familiar tomato bisque. Have the fruit weighing just a pound, and cook them in salted water, with either three or four white potatoes (peeled, of course) according to size, and have a bunch of sorrel in the water. When soft, rub them through a sieve and heat again with some butter. Add the seasoning liked, boil up yet again, and serve with toast fingers.

This is the method followed by one adept manager to use up the superfluous liquor when serving boiled fowl. To a pint and a quarter of the latter add just a little celery, a mere silver of onion, a saltspoonful of pepper corns, and a teaspoonful of salt to taste. When it has reached the boiling point, simmer it slowly half an hour, and afterward strain. Prepare the usual blend of flour and butter, gradually pour on to it the boiling liquid. Add one cupful of milk and season with salt and pepper.

If the yolk of one egg is slightly whipped, thinned with a tablespoonful of the soup, and added to the potage proper it makes for additional richness. In such case it must be served immediately, or it will curdle.

Artichoke soup is less known than many other vegetable broths which are less choice. Following is a reliable recipe for it. In a tablespoonful of good butter fry a white turnip sliced thin, red onion ditto, three pounds of Jerusalem artichokes, washed, pared and sliced, and a thin slice of bacon. Stir these in the hot butter for ten minutes, and gradually add one pint of stock. Season to taste, strain and press vegetables through a sieve, after which add two cups of boiling milk, reheat and serve.

One of the many uses of a can of salmon is a soup easily whipped up on washday or to eke out a scanty luncheon menu some time.

Remove all bits of skin and bone and mash the fish in a bowl to a paste. Mix together two cups of veal broth with the same quantity of sweet milk and bring to a boiling point. Cream together two tablespoonfuls of flour and one of butter, and with it thicken the stock, stirring smooth. Add the fish, boil up once more and serve.

The same rule can be used when there is a pound of fresh boiled salmon in the larder to be picked over, and it is equally delicious with halibut.

Good and appetizing, too, especially noteworthy in a household where there are school-going appetites, is cream of sago. For it is the sago, after being thoroughly washed, is soaked three hours or more. A quart of white stock is put in the soup pot with a small onion, a bay leaf and a parsley spray and is slowly simmered for 30 minutes, after which the greens are removed. A pint of cream or milk is brought to a boil and is thickened in the usual way with blended butter and flour.

RATHER FAST.

"What is the fastest run your auto ever made?"  
"It ran me \$200 in debt the first week I had it."

### The Test of Time.

Benjamin Hapgood Burt and U. S. Epperson of Kansas City were motoring in Long Island the other day and stopped at Evan's hotel in Douglaston. They ordered large quantities of raw oysters, some of which were thrown aside by the oyster opener.

"How do you determine when an oyster is bad?" asked Mr. Epperson.  
"You wait a short time and if you have ptomaine poisoning the oysters were bad," said Mr. Burt. "If you are not ill they were good. That's the only safe way to tell good oysters from bad ones."

### Good Arrangement.

A genial looking gentleman wanted an empty bottle in which to mix a solution, and went to a chemist's to purchase one. Selecting one that answered his purpose, he asked the shopman how much it would cost. "Well," was the reply, "if you want the empty bottle it will be a penny, but if you want anything in it you can have it for nothing." "Well, that's fair," said the customer; "put in a cork."

### STOPPED SHORT

Taking Tonics, and Built Up on Right Food.

The mistake is frequently made of trying to build up a worn-out nervous system on so-called tonics—drugs.

New material from which to rebuild wasted nerve cells is what should be supplied, and this can be obtained only from proper food.

"Two years ago I found myself on the verge of a complete nervous collapse, due to overwork and study, and to illness in the family," writes a Wisconsin young mother.

"My friends became alarmed because I grew pale and thin and could not sleep nights. I took various tonics prescribed by physicians, but their effects wore off shortly after I stopped taking them. My food did not seem to nourish me and I gained no flesh nor blood.

"Reading of Grape-Nuts, I determined to stop the tonics and see what a change of diet would do. I ate Grape-Nuts four times a day, with cream and drank milk also, went to bed early after eating a dish of Grape-Nuts.

"In about two weeks I was sleeping soundly. In a short time gained 20 pounds in weight and felt like a different woman. My little daughter whom I was obliged to keep out of school last spring on account of chronic catarrh has changed from a thin, pale, nervous child to a rosy, healthy girl and has gone back to school this fall.

"Grape-Nuts and fresh air were the only agents used to accomplish the happy results."

Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## CALUMET BAKING POWDER

The wonder of baking powders—Calumet. Wonderful in its raising powers—its uniformity, its never failing results, its purity.

Wonderful in its economy. It costs less than the high-price trust brands, but it is worth as much. It costs a trifle more than the cheap and big can kinds—it is worth more. But proves its real economy in the baking.

Use CALUMET—the Modern Baking Powder.

At all Grocers.

Received Highest Award World's Pure Food Exposition

## UMC .22 CARTRIDGES

The straight shooting, hard-hitting, sure-firing 22's.

The reason why UMC .22 Cartridges are the best is that they are made with precisely the same care, the same tested materials and undergo the same rigid safeguards, as the heavier calibre, big-game-shooting UMC ammunition.

UMC .22's are also made with the heavy hollow point bullets, thereby increasing their shocking and killing power over the old solid bullet.

Try Our New "Lesmok" .22's

UMC .22 short, .22 long, .22 long rifle "Lesmok," Smokeless and Black Powder—as you wish.

## ROAD and FARM IMPROVEMENT

### GRADING LAWNS AND FIELDS

For Smoothing Uneven Places Plank Smoother is Useful—Buckscraper Also Used.

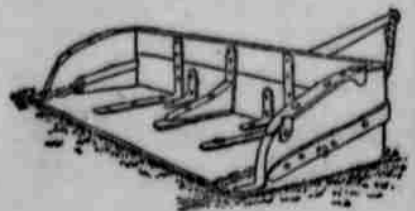

Where irrigation is practised it is necessary to bring the surface to a uniform grade. The appearance of lawns is also improved by grading. For simply smoothing uneven places the plank smoother is very useful, says Farm and Home. This is made eight to ten feet long and of heavy joist, shod with a piece of flat steel on the lower edge. A plank is

Split-Log Smoother.

fastened at the middle for the driver to stand on. His added weight will aid materially in the work accomplished. Either two or four horses can be used on a drag of this sort.

Where there is much grading to be done the buckscraper is the best device. A very useful one is made four feet along the cutting edge, three feet deep and one foot three inches high. It will carry one-half cubic yard at a load, and must be made of two-inch plank, well braced with strap iron. The cutting edge should be of steel.

The Buckscraper.

The drawbar works on pins fixed near the middle of the sides. The handle is about seven feet long, and by it the scoop is kept under control for filling or tipping.

### Pride in Good Roads.

Heretofore the average farmer has taken a pride in the public schools and churches, in farm buildings and in the appearance of his field fences; but pride in the roads passing his field, and over which he has to travel whenever he stirs from his farm, has been totally lacking. But an awakening has taken place, and already the farmer is beginning to ask himself why he should not put his roads first instead of last. He is the chief sufferer when they are bad—and they nearly always are bad. Conversely, he will be the chief beneficiary if they are good and it depends chiefly on him whether they are good or bad.—Automobile Topics.

### Protect the Lawn.

If leaves have fallen on the lawn, let them remain there during the winter. They will serve as a protection to the sward. You may not think that the sward needs any protection, but if you do not think it receives a benefit from such a covering as leaves provide, take observations, this season. You will find next spring, that the grass where the leaves were thickest is greener and stronger than elsewhere, and it will start into growth sooner in the spring.

### Rye Helps Potatoes.

A good growth of rye plowed in next spring will give you more and better potatoes. But you'll have to get it in right off or you won't have much growth to plow under.

## SPLIT-LOG DRAG FOR ROADS

Costs Very Little and Make Good, Serviceable Highways—it is the Poor Man's Friend.

"We have more than once pointed out," says Southern Good Roads, "that where a bond issue or a heavy road tax is impossible owing to the strength of the opposition or to poverty, there can be nevertheless perfectly good earth roads built at very small expense. The chief thing is co-operation among the people of the community. There is no excuse for a bad road in any village or farming section—none whatever. For the split-log drag is the poor man's friend, and with it any people, however poor, however far from the day of macadam, can make and enjoy good roads.

"Let us take, for example, a stretch of bad road in the country. Say it is ten miles in length and that ten farmers live at intervals along its course. It is very bad in summer and next to impassable in winter. Those ten farmers decide that they are not going to put up with holes and ruts and washouts any longer, and they come together. They agree that they will divide the road into ten sections of one mile each, and every farmer is to take charge of a mile. They select one of their number to act as foreman of all. They fall to work and build split-log drags. These cost practically nothing. The office of public roads, United States department of agriculture, will gladly furnish information as to the construction, and if possible will doubtless send an expert to give preliminary instructions.

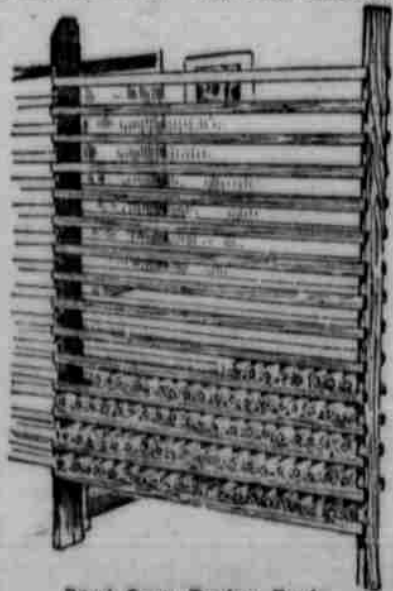

"When the farmers have everything ready, the foreman calls them out after each rain to drag their several sections. This is repeated until within an amazingly short time that miserable old road has been transformed into a splendid highway, smooth, well-drained, well-shaped, a thing of beauty and a joy forever, without the expenditure of enough money for the farmers to miss it. They receive incalculable benefit from the road, and it serves as an object lesson to the rest of their county, causing others to go and do likewise, until in the course of no great time the road situation in the county has been revolutionized and the way paved for the day when permanent stone roads will be built.

"Why not try it in your community?"

## DRYING RACK IS IMPORTANT

Few Hours' Work This Fall Will Materially Add to Corn Crop Yield Next Year.

The importance of selecting and drying seed corn in the fall cannot be too strongly urged. A good drying rack is a great convenience and may easily be made. The rack should be

Seed Corn Drying Rack.

placed in a dry room, but one that is not too warm.

By the use of this rack it will be easy to keep certain grades of corn separate. A few hours' work this fall may increase the corn crop very materially next year.

### A Terrified Hero.

"Did you have any narrow escapes in the surf last summer?"  
"Yes," replied the life-saver. "One lady whom I rescued was so grateful that she nearly married me."

Sore throat leads to Tonsillitis, Quinsy and Diphtheria. Hamlin's Wizard Oil used as a gargle upon the first symptoms of a sore throat will invariably prevent all three of these dread diseases.

There is said to be a professor of languages in an eastern college who has mastered all the modern tongues—except his wife's.

Strong Winds and Sand Storms cause granulation of the eyelids. PETTIT'S EYE SALVE soothes and quickly relieves. All druggists or Howard Bros., Buffalo, N.Y.

Silence may give consent or it may give offense.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. See a bottle.

The worst deadbeat is he who refuses to pay a debt of gratitude.

## Constipation Vanishes Forever

Prompt Relief—Permanent Cure

CARTER'S LITTLE LIVER PILLS never fail. Purely vegetable—act surely but gently on the liver. Stop after dinner—distress—cure indigestion—improve the complexion—brighten the eyes. Small Pill, Small Dose, Small Price. Genuine must bear Signature.

"Two bottles Cured My Rheumatism"

"I have been a sufferer from rheumatism for about two years, and have used many liniments and patent medicines which gave me no relief. A lady friend of mine told me she had used your Liniment and found relief at once. I

got two bottles and they cured me. I think it is the best Liniment a person can have in the house. I shall always keep a bottle in my house as long as I can get it."—MRS. E. R. WALLACE, Morrisons, Va.

### Another Letter.

MRS. JAMES MCGRAW, of 1216 Mandeville St., New Orleans, La., writes:—"I take pleasure in writing to you that I had a pain in my arm for five years, and I used

# SLOAN'S LINIMENT

for one week and was completely cured. I recommend your Liniment very highly."

Sloan's Liniment instantly relieves stiffness of the Joints, Sore Throat, Hoarseness, Sprains, Neuralgia, Sciatica and Lumbago. Better and cheaper than porous plasters.

At All Druggists. Price 25c., 50c. and \$1.00

# Lincoln County Democrats Meet

(Continued from first page.)

be held on the 21st day of January, 1911, and for other purposes, make the following declaration:

"Be it resolved that, while we do not consider the preparation and submission of a constitution a partisan question, yet we do assert that the fundamental principles of good government are involved therein, and that the rights of the people are at issue; that said rights have been abridged and the demands of the people disregarded in the framing of the objectionable document submitted to us as the organic law of the future state;

"That we declare our position as representatives of the people of Lincoln county in opposition to the adoption of the document framed by the constitutional convention;

"That in furtherance of this position we favor the organization of a non-partisan league to fairly present the issue to the voters of Lincoln county, and we hereby pledge our best efforts to bring about the rejection of said instrument, believing the delegates, when they reconvene—if the document is not adopted—will frame a constitution in the interests of the people."

A substitute was offered to the committee's report by James M. Simms, endorsing the constitution, which, however, was not put before the house because of the lack of a second, and the motion to adopt the report of the committee prevailed.

Dr. Raniger, E. H. B. Chew and Wm. D. Martin then presented the following resolution which was unanimously adopted:

"Resolved that a vote of thanks be tendered by this convention for the service rendered to the people of Lincoln county, and the interest and sincerity shown in all his labor, in the constitutional convention, in Santa Fe, by the Hon. Andrew H. Hinds, of White Oaks, Lincoln county, New Mexico."

The committee appointed to prepare a list of names of delegates to the territorial democratic convention presented the following list, which was adopted:

John Y. Hewitt and Paul Mayer, White Oaks; Martin Chavez, Picacho; Porfirio Chavez, Lincoln; W. C. McDonald and Wm. S. Bourne, Carrizozo, and Guido Raniger, Oscura. The delegates present at said convention were instructed to cast the entire vote of the delegation.

The usual thanks were tendered, and the convention adjourned sine die.

The English elections have about been concluded. This may seem strange to Americans, where we cast the vote of the entire country in one day, but in England the voting continues for a fortnight. The standing of the parties in parliament remains unchanged, the Liberals retaining a substantial majority. Thus the people of England have again endorsed the theory of David Lloyd-George in his proposition to tax the landholder and at the same time curb the authority of the House of Lords. Good for Johnny Bull.

## Buy that New Christmas Suit now!

Only Seven More Days until Christmas.

Sincerity Clothes Copyright

**OUR GREAT CLOTHING SALE** is the biggest money-saving event of the season. Right now, at Christmas time, when you must make your money go farthest, we give you the chance. Whether you need something for yourself, or a present for a friend the best selections and most attractive prices are brought out by our **GREAT YEAR END SALE.**

Our entire line of **SUITS & OVERCOATS** are now on sale at **25 per cent off regular price.**

We are also showing a beautiful line of **HOLIDAY GOODS,** consisting of

Neckwear

Belts

Suspenders

Handkerchiefs

Mufflers
