# HSLIC News - LibGuides at University of New Mexico

## Instructional Materials for LibKey and BrowZine

by Robyn Gleasner on March 31st, 2022 | [o Comments](#)

HSLIC is dedicated to making finding the full-text of scholarly articles easier and has implemented the LibKey Suite which includes the DOI/PMID Search, LibKey Link, LibKey Nomad, and Browzine. To help users take advantage of these products, we have created five short videos:

[Using LibKey Nomad](#) (includes how to download the extension)

[What are DOI's and PMID's](#)

[Finding an Article Using a DOI or PMID](#)

[BrowZine Overview](#)

[BrowZine Personalized Features](#) (includes how to create an account)

We also created a single PowerPoint slide that can easily be inserted into any library orientation presentation or other instruction on how to access library resources. This slide includes the QR Code to the LibKey Information Guide and information on the Nomad Browser Extension and BrowZine. The full slide deck of the LibKey Suite Presentation that we have shared with different groups at the HSC is also available on the [Instructional Materials page on the LibKey Information Guide](#).

# Accelerate Your Research

**Nomad Browser Extension** - download to quickly access the full-text of articles while searching PubMed and Wikipedia

**BrowZine App** - download or use web application to browse your favorite ejournals, save to a personalized bookshelf, and get alerts when new issues are published
