ALBUQUERQUE — NOV. 10, 1904

ATTENTION.

The publisher of the Gallup Gleaner has sold out the people of Gallup, getting \$150 from the Otero crowd for his dastardly act. It is hardly necessary to state that the Gleaner does not represent the people of Gallup in its double course. No one questions the right of that paper to change its course every day, but when it sells out to the opposition for a cash consideration it has no right to lie about other people. The Gleaner says Pedro Perez and the republicans have made promises to the people of Gallup which they do not intend to fulfill. In this the Gleaner lies for a cash consideration from the enemies of the town of Gallup, and the people of that town know this to be gospel truth.

The Albuquerque police are all right. It is reported that the new postmaster of this city is not a citizen of the United States.

To the people of Gallup: Stand by your guns and do not be talked or threatened into doing otherwise.

Some of the direct calamities that have befallen the old world are traced by the New York Advertiser to the destruction of forests.

During the month of October the public debt increased nearly \$14,000,000. This is one of the effects of a democratic administration.

PULLMAN has blacklisted a number of his unfortunate employees, but the people have blacklisted Pullman and his lobby, at this juncture.

The Las Vegas Optic is fifteen years old to-day, and it deserves to live forever. It has done much to develop the wonderful resources of New Mexico.

The Australian papers announce that a great impetus has been given to wool growing in that country by the late reduction of the United States tariff.

One of life's little ironies was the forcible abduction of a pauper from the Canaan, Me. poorhouse. The taxpayers are not inconsiderable, according to the New York Recorder.

This new tariff has at least had one stimulating effect. It has revived the importation of horses, mules and cattle from Mexico, and American stock-raisers are correspondingly out and injured.

AMERICAN cattle and dressed beef have been shut out of Germany. At the same time, by the passage of the Wilson bill the American market has been thrown open to the importation of cattle from Mexico.

In 1861, during our civil war, the London Times exultantly declared that "the bubble of free government in America had burst." The same journal is now exulting in the passage of the Gorman-Wilson Standard Oil Trust tariff bill.

Let the workingman's dinner pail be brought up in evidence this year as it was in 1892. Then it was full, now it is empty. In 1894 the workingman's grievance was an imaginary one, to-day it is a stern reality. Isn't it time for another "change"?

Dun's weekly review, current to-day, has this to say of the wool market: "At the west it is complained that wool goes begging at prices below the parity of similar wool abroad on the secured basis." That is the way free trade has helped the wool growing industry.

An old farmer when argued by an impatient dealer to buy a new binder refused, saying he had nothing to sell but a lot of horses and could not sell them, for threshers were run by steam, street cars by electricity, and this government was run by a lot of jackasses, and where does a horse come in, anyway?

CAREFULLY prepared statistics show that the average decrease in the number of workmen employed in the United States for the first six months of the present year was 30 per cent; decrease in the amount of wages earned, 45 per cent; decrease in output of factories, 44 per cent. Voters should bear these figures in mind next Tuesday.

This Denver Republican says: "It is unfortunate that the final decision of the private land-grant cases will be delayed for several years in consequence of the decision of the supreme court that an appeal lies from the judgment of the land grant court. The welfare of New Mexico and Arizona calls for the settlement of titles to these grants as soon as possible. The property embraced in them will be but little improved as long as the title question is pending in the supreme court."

ANOTHER co-operative commonwealth has gone the way of the Topolobampo colony. This time it happened on Vancouver island. There were only six persons in the colony, five men and one woman, and Providence seems to have intervened to prevent any more people from becoming victims of the scheme, and sent a landslide, which removed the whole plant from the face of the earth. If a co-operative commonwealth is possible in this country, it is one only which will include the entire country and people. The people who are trying to establish colonies of this character are beginning at the wrong end of the problem. They cannot succeed where there is a government superior to them with power to tax them at will.

THE cotton seed oil mills of England import their cotton seed almost exclusively from Egypt. The oil is used in soap factories, and a considerable quantity of it is shipped to the Mediterranean, where, without doubt, observes the New York Independent, it is transformed into "pure olive oil," much of which is sent to the United States and purchased by our people in preference to the really pure oil made in California.

MEXICAN HEAD AND NECK.

The following paragraphs are from the editorial columns of the San Francisco Chronicle. They are the comments of a republican paper on the outrageous characterization of American wool growers on the Pacific coast, by the democratic administration. We commend them to the careful attention of every justice loving American as well as to our Mexican fellow citizens, whom Cleveland's officials have denounced as "American greasers."

Mr. Gentry's constituents will probably ask him a few questions when they read the remarks of ASSISTANT SECRETARY OF THE NAVY McADOO, who so eloquently characterized all wool growers as "GREASERS" unworthy of protection.

Mr. McAdoo, Cleveland's assistant secretary of the navy, seems to have a very poor opinion of Mexican Americans. He characterizes them as "GREASERS," and says that the protection accorded to wool is an outrage on the American people because it benefits "GREASERS" only.

The wool growers of California will be somewhat interested to read the views of ASSISTANT SECRETARY OF THE NAVY McADOO, expressed in a speech made by him at Parkersburg, W. Va. Mr. McAdoo not only advocates free wool, but in his ardent desire for the British system he goes so far as to speak contemptuously of those engaged in the business of wool growing. He characterizes all such as "AMERICAN GREASERS," and intimates that to tax other Americans to protect the "GREASERS" is an outrage on the American people. We commend his remarks to the careful attention of Mr. Gentry's constituents.

WADSWORTH SPEECH.

To Assistant Secretary of the Navy McAdoo must be awarded the gold medal for assiduity, so far as the speech of the present campaign are concerned. Mr. McAdoo recently scolded his under jaw at Parkersburg, W. Va., with wool as his theme, and this is what he said concerning this great American staple product:

Wool is one of the essentials of modern life. The people of America should use and must have this product of the backs of our sheep. This being so, let us see what protection has been doing. In the vast fields and prairies of the west and southwest an AMERICAN GREASER and a couple of yellow dogs will take care of 10,000 sheep, yet for years, under a republican rule, that party has been levying a tax upon 60,000,000 Americans for what? LARGELY FOR THE PROTECTION OF THOSE YELLOW DOGS AND THAT MEXICAN GREASER AND HIS BRONCO PONY.

This Wilson tariff has already caused a big boom on the other side of the Atlantic.

MR. CLEVELAND sends a telegram of condolence to the people of Russia, but not a word does he wire to Mr. Hill.

JAPAN has been indicted by fewer internal revolutions than any other nation, the existing government having held unbroken sway for 2500 years.

ASKED the war between Japan and China, the San Francisco Chronicle observes: It seems curious to see a nation of 35,000,000 people putting an empire with a population of over 400,000,000 on the map.

The southern states are said to contain at least 70,000,000 acres of waste land, which might be devoted to the production of rice. This would increase the present annual crop of 227,000,000 pounds to 70,000,000,000 pounds.

STILL has been instituted in the federal courts at Chicago to determine whether or not the railroads can charge and enforce collection of \$2 per car extra for taking cattle into the stock yards. The outcome of the suit will be interesting to large shippers of live stock.

It is estimated that the agricultural earnings of the United States are \$3,490,000,000; from manufactures, \$1,380,000,000; from mines, \$480,000,000; from transportation, \$1,155,000,000; from commerce, \$180,000,000; from shipping, \$160,000,000; from banking, \$200,000,000.

CHICAGO, it is said, has twenty-nine men worth over \$3,000,000, forty-one men worth over \$2,000,000, and 137 plain millionaires. It has some 30,000 residents who will have to pay the income tax, and the tax in the city, if fully collected, will amount to some \$2,000,000 a year.

The Japanese scheme of dividing China into three independent kingdoms, each to be ruled by a native prince, is, in the estimation of the Philadelphia Ledger, an ingenious one. The attempts of the three princes to do each other up would probably relieve Japan of any other subjugatory efforts in China.

The quantity of food products raised in the southern states increases each year, remarks the Chicago Herald. It is concluded that more southern planters will feed their stock and families from home raised food next winter than at any time since the war. This statement applies in general to the southern states but especially to North Carolina, whence the report comes that there is more home raised bacon and beef in the local markets than ever before in the history of the state.

ONE of the latest things in the way of a "colony" is a settlement of Russian Jews, who have taken up land on the old post road between the ancient Connecticut towns of Norwich and New London, and are engaged in farming, gardening and dairying. The old village of Chesterfield, which saw its best days sixty years ago, now possesses a synagogue, while the youthful Hebrews, born in Russia, attend the common school of the neighborhood, exciting the admiration of the Yankee school-boys by their quickness to learn. A great crucible, melting and blending many and various elements, is this country of ours.

OF LOCAL INTEREST.

The case of J. W. Schofield, receiver of the Albuquerque National bank, vs. Montague Stevens et al, decided Thursday in the supreme court, settled in the affirmative the question whether or not the receiver of a national bank has the right to sue in the federal courts of the territory. Judge Freeman, who presided in the court below, decided that a receiver had no such right, although he believed the opposite. He so decided in order to give the supreme court a chance to decide the question. Thursday when the

decision was handed down it was found that that able judge had joined in a decision reversing his former ruling and declaring that the court had jurisdiction.

The argument in the case of Marshal Charles Closson vs. the board of trustees of the town of Cerritos, was concluded Thursday afternoon and the decision of the case was deferred until the next term of court. The practical effect of this state of things is to leave Closson in possession of the office of town marshal until the expiration of his term. The reason for a postponement of the decision, was the fact that the court was equally divided on the question involved and it will require the presence of the fifth judge, Judge McLaughlin, to reach a conclusion.

The supreme court then adjourned for the term. It will not reassemble again until next August.

SHOT BY INDIANS.

Mid and his band in the Animas Valley. Thomas Marshall, in charge of the fleet of the Haggin & Hearst company, received a telegram early this morning stating that Chas Preston, employed on the Gray ranch in the Animas valley, about seventy miles from Deming, had been shot by Indians yesterday afternoon about 2 o'clock, and asking that medical assistance be sent at once. No particulars were given, but from the urgent request for a doctor, it is to be inferred that his wounds are serious. Indians, supposed to be Kati and his band, have been seen in the valley for some weeks, and it is undoubtedly their work.

Dr. Hollingsworth started early this morning to attend the wounded man. The shooting occurred near the ranch property, and the attack was made from ambush—Deming Headlight.

Rev. C. W. Crispy, who has been preaching in the Congregational church of Albuquerque for nearly four years, has accepted a call to the Lakeview Congregational church at Cleveland, Ohio.

Mr. Crispy preached his farewell sermon last Sunday evening, and with his family will leave for the great city of Cleveland the early part of next week.

A partying social was given at the church on Thursday evening, which was well attended by the congregation and friends and ministers of other churches.

Mr. and Mrs. Skeele favored the social with one of their choice organ duets, and Prof. Harrison appeared for the first time in song before an Albuquerque audience. He displays a well trained voice.

Short speeches were made by Prof. Harrison, which were responded to by Rev. Crispy in a touching yet pleasant parting talk, in which he expressed appreciation of his treatment while laboring here, and regret that conditions of poor health from the altitude, made it necessary for him to resign. The church will greatly miss Mr. Crispy's excellent sermons.

University Notes.

Mr. Ruppel and Mrs. Wroth, Kaster and Kasterday lectured this past week. Fred Whitman has several times visited the University in his new role of invalid.

The Young Ladies' Athletic association met last week. They will meet again next Monday.

A few days ago a pupil at the University fell from the horizon at bar. No serious accident to lowered, for fortunately he hit on his head.

A "chubert day" was held Monday at the University. The very interesting program comprised a short sketch of his life, one of his piano solos and a few of his songs.

The Delmarie class this year is progressing rapidly in Indian club swinging. Many of the members, in fact nearly all, can hold one club perfectly horizontal for three or four seconds.

A Serious Ultimatum.

Shanghai, Nov. 6.—The British officials here have sent ultimatum to the viceroy demanding the settlement of the Chung King affair within seven days. British demands are that Tsoai Sheng be dismissed and degraded. If these demands are not complied with within the specified time reprisals upon the part of the British fleet are threatened. On August 4th a Tien Tsin dispatch announced that thirteen Japanese soldiers, who had been forcibly removed by the Chinese from the British steamship Chung King were returned immediately upon the Viceroy Li Hung Chang being notified, and it was added that the viceroy apologized to the British consul. On August 7th a dispatch from Shanghai announced the arrival there of the steamship Chung King and the captain of that vessel gave a version of the affair, which gave a more serious aspect. The captain said that while his ship was at Tung Ku on the Gulf of Pe Chiao, Chinese soldiers went on board for the purpose of seizing Japanese passengers. They found fifty Japanese, mostly women and children. The Chinese pursued the Japanese all over the vessel, bound them hand and foot and flung them over on the wharf. Li Hung Chang eventually, upon protests of the British consul, commanded the Japanese to be returned on board the Chung King and ordered the Chinese soldiers who made the raid to be severely punished.

Fighting Pirates.

About the worst rough-and-tumble fight which has occurred on a public street of this city for years took place last Saturday night in front of the St. Elmo hotel, between Tom Trash and Brennan. Both parties on the Democrat. They were pretty full and got to quarreling, which led to blows. Brennan was getting the best of Trash, when the latter resorted to hitting, both rolling over in the mud in the street, and imbedded his teeth in the cheek of Brennan. They were separated, when they went at it a second time. Brennan pulled the coat of Brennan, and Trash caught one of the hands of his antagonist in his jaws, and Brennan yelled out, "Please, Tom, don't chew me up!" Trash was on top, and had the advantage, but as he was fighting with his teeth he was roughly jerked off Brennan. Half an hour later the men showed up in the company room of the Democrat office and clinched once more, Trash receiving a slight blow across the forehead from an iron rod stuck in the hands of Brennan. I. D. Williamson, who was representing a case that night, seeing no one interfering to separate the fighters, attempted the job himself, and got hit on the nose, bringing forth copious crops of red fluid. The office boy ran out of the office after a policeman, and Officer Bowen responded. The colonel had arrived on the scene a few moments before, and succeeded in separating his belligerent parties. As no charge was preferred against them they were not arrested. Trash, however, ought to be put in jail on the charge of mayhem, which is a penitentiary offense. Both fighters received many bruises.

NEW COMPANY.

Or anized to Develop the Rio Puerco Country West of City.

WORTHY OF SUCCESS.

A group of gentlemen from the east have been organizing here for the last two weeks, looking over Albuquerque and the Rio Puerco valley. The result of their visit will doubtless redound very much to the benefit of Albuquerque. The affairs of the American Colonization company are now put on a surer footing and the work previously begun by the Colonization company will now be pushed to completion.

There is no question of the profit in irrigation enterprises in New Mexico, and there is no valley that offers more attraction in the way of profit than the Rio Puerco valley.

Our readers have been quite familiar with the efforts made in developing that beautiful valley and our citizens generally have looked on with interest and credit as the promoters and organizers of that enterprise, not only for the sagacity displayed in selecting a beautiful spot for their improvements, but for the energy and perseverance with which they have pushed it.

A new company has been organized, called the Western Homestead and Irrigation company, which has taken up the business of the American Colonization company. Its officers are: Peter McChesney, president; L. Bradford Prince, first vice president; William Whitford, second vice president; W. J. McMaster, secretary; M. Tygart, treasurer; E. W. Thomas, general manager.

They have a capital of \$500,000, and among the shareholders of this new company are many men of large means, now otherwise engaged, but who shortly expect to become citizens of Albuquerque. The backing this company has assures its success and the people of Albuquerque generally will be glad to see that valley dotted with thriving homes.

Dr. M. Tygart, the treasurer of this new company, has already located in Albuquerque with his family. Mr. McChesney left yesterday for New York City, to close out his business with an idea as to how to live here. Mr. Thomas and Mr. McMaster left on the same train for Chicago. Mr. Thomas will count as a resident here, and the latter gentleman announces his intention of soon changing his residence to this sun ycline. Success to the new company and the gentlemen at its head.

Articles of incorporation for the above company, the Western Homestead and Irrigation company, have been filed with the territorial secretary, denoting general irrigation and for manufacturing purposes. The capital stock of the company is \$500,000, and it is organized to run fifty years. The principal office is at Albuquerque. The following are named as directors: L. Bradford Prince, of Santa Fe; E. W. Thomas, of Albuquerque; George L. Brooks, of Albuquerque; Peter McChesney of New York City; William Whitford, of Nutley, N. J.; Martin Tygart, of Albuquerque; and Wm. J. McMaster, of Chicago.

A Card.

Please state that Jack Albright is a born liar, and that I can prove it every day in the week, and through stiff in the joints from age and exposure in fighting democrats several years ago. I can back this assertion up. There is no A. P. A. society in Albuquerque, but there should be a vigilance committee to take care of skunks like Albright.

Yours,
DAVID DREMAN.

A Harrison Man.

Prof. W. B. Creager, formerly superintendent of the government Indian school, this city, writes a private letter to THE CITIZEN, the following extract is taken: "Old Indians will show a republican majority in a few days. Now let me whisper to you something of interest: Benjamin Harrison will be the next president, because of the republican ticket. I kindly tell you this secret, so that you may know how to bet your money. They may win, but you will win. Prof. Creager has a perfect right to make prophecies, but there will be some one else to consult in regard to that presidential nominee.

The New York Herald of Oct. 31 gives an account of the marriage of Dr. M. Katzenberg to Miss Ida Foster, the ceremony being performed in the red room at Delmonico's, New York City. The doctor is a brother of Milton Katzenberg, formerly of this city, and a brother-in-law of Kent, Louisiana. The daughter of the latter, Miss Hortense, was officiated as one of the maid of honor. An elegant dinner was served to several hundred guests after the ceremony.

TREATMENT FREE.

For One Month—Extraordinary Offer to the Sick People.

ONE MONTH'S TREATMENT

Absolutely Free of Charge—All Medicines Included—Given by Dr. J. D. Prosser, Now in Albuquerque.

All who commence treatment before November 15, will be given one month's treatment absolutely free of charge. All medicines included. All diseases and deformities treated, but in no instance will an incurable case be taken for treatment. If your case is incurable the Doctor will frankly tell you so, also caution you against spending more money for useless treatment. The object of this course is to become rapidly and personally acquainted with the sick and afflicted. Remember dates and go early, as his offices will be crowded during the last days of free service.

The Doctor addresses himself particularly to young men and middle-aged men who are suffering from the awful effects of early indiscretions, and are thereby unfitted for study, business or the proper enjoyment of either married or single life. In this distressed condition are many thousands, who, although originally strong in body and bright in mind, have permitted their ailments to run on and on until finally, with physical and mental powers exhausted, death claimed them. The most obstinate cases of this character treated with unfailing success. All I want is a fair trial to convince the most skeptical. I use no mercury or other injurious drugs and undertake no incurable cases.

REPUTED CURED.

No cure, no pay; no knife; no detention from business. Cure guaranteed in 30 to 90 days. Catarrh positively cured by the German Method. Consumption, Asthma and Bronchitis treated by Prosser Brown-Brand's Method. Prepared under the direction of the Pasture Institute, New York. Endorsed by the profession.

J. D. PROSSER, A. M. M. D.

Corner Second Street and Copper Avenue, Albuquerque. Office hours—10 to 12 a. m.; 1 to 5 p. m.; evenings, 7 to 8; Sundays, 10 to 12 a. m. only.

Passed a Bad Check.

The people up in the Cuba neighborhood in the northern Benavides ward, would like to get a glimpse of a man calling himself H. R. Morgan. He called at the store of Mr. J. H. Matthews, the general merchant at Cuba, and purchased some goods, handing in payment a check. The check is claimed now to be worthless, and Mr. Matthews would, most naturally, like to again have the pleasure of meeting his slick customer. He is said to hail from the Tres Piedras neighborhood; and was riding a fine sorrel horse when at Cuba. He is a tall man, not fleshy, rather dark in complexion, claims Texas as his native place. This is the first time for his sleuth-hounds of the guardian force, for Morgan, when he left Cuba, said he was on his way to Albuquerque.

Down in Sierra County.

Kingston, N. M., Nov. 5.—A large delegation of citizens, headed by the Black Range brass band of Kingston, went down to Hillsboro last Saturday evening to attend a grand rally of republicans and came back next day well pleased with the meeting and their reception.

At 8 p. m. a torch light procession formed on the main street of Hillsboro and marched to the court house, where speeches were delivered by Hon. Nic Gallas, R. M. White, B. Williams and W. E. Martin.

"Billy" Martin's speech, delivered in Spanish, was the feature of the evening. He kept the Mexican portion of the audience in a roar of good humor. He told them that Mr. Ferguson had been going around making speeches and singing a song, which he could sing for them, if they desired, the chorus of which was "Richard Bland, of Missouri." Mr. Ferguson also told the people that the Black Range brass band was the best in the territory, which everybody knew.

The meeting was thought to be a vote-maker, if this was really needed to ensure republican success in Sierra county. To-night the republicans expect to have a grand rally in Kingston, with the battle cry of "Free and unlimited coinage; Silver and gold 16 to 1! Return to prosperity! Statehood for New Mexico! No despoiling soldier in the poor house!"

Of this it will probably be too late to give you any account, as by the time it would reach you, we will all be rejoicing over the new birth of the republic party.

The Circus.

One of the most agreeable gentlemen among the show people is John D'Alma, who has a mint of duties to perform. He is the affable press agent, equestrian director, chief marshal of the parade, etc., and it is absolutely surprising how easy and nice he goes through the routine.

A Circus representative called at the big tent, erected on east Railroad avenue and Broadway this morning, and, although Mr. D'Alma was very busy, he found time to extend the usual courtesies due a representative of a first class newspaper and kindly gave out for publication the most interesting features of the circus.</

The furniture of the defunct Albuquerque National bank, which was recently purchased by the First National bank, is being removed to its new quarters today.

On the 10th of this month, John Hill will have the court house at Clayton under roof, and an outside jail completed. This is about the quickest work ever known in this territory.

A "flim flam" game and several "shell" games were checked on the circus ground by Policemen Harris and Forman. The sharpers, before the policemen caught on to their racket, had taken in several prominent citizens, one of whom is a bright light in our legal fraternity.

Henry Gordon and Allen Johnson, of Gallup, members of the petty jury, came in from the west this morning and stated that the election at Gallup yesterday was quietly and orderly conducted, the republican ticket carrying everything before it except the office of probate clerk, Harris receiving a majority of 60 over Garcia.

Hon. W. A. Maxwell, one of the candidates on the fusion ticket for the legislature, came in from the west last night, and when informed at the depot of the political upheaval, not only in this county but all over the territory, a look of genuine disgust slowly crept over his usually placid countenance.

Two years ago Henry V. Harris received 2,691 votes in the county, against 1,198 votes for Jesse Anthony, his opponent, defeating the latter 1,522 votes. Mr. Harris will no doubt pull through at this time, but just observe the big decrease in his majority. Jesse H. Garcia made him run his best last Tuesday, and don't you forget it.

Hall, United States marshal, both government officials of the territory, passed up the road last night from Grant county, where they were electioneering in election day, for their homes in Santa Fe county. Francisco Chavez at its head, was elected by big majorities.

A woman, known as May here in Albuquerque and who claimed that she was engaged to be married to a fireman recently killed on the Atlantic & Pacific, died suddenly in Gallup Tuesday. She came to this city first from Trinidad, and after living here for nearly a year took up her residence in Gallup.

Hunter Woodson, of the New Mexican, Santa Fe, came down to the metropolis last night and is registered at the European. He states that W. P. Cunningham was elected sheriff of Santa Fe county against the bitterest opposition by at least 200 majority. The balance of the county tickets, republican and democratic, are pretty badly scratched, and the result will not be known until some time today. Mr. Woodson states that there is no doubt that Catron has carried the county by at least 50 votes.

Mrs. Sue A. Buckman, wife of J. E. Buckman, formerly of Kentucky, died at

The programme declares for compulsory education, direct legislation, a legal eight-hour workday, the sanitary inspection of workshops, mine and home the liability of employers for injury to health, body or life, the abolition of contract system in all public work, the abolition of the sweating system, the municipal ownership of street cars, and all gas and electric plants for the distribution of light, heat and power to the public, the nationalization of telegraphs, telephones, railroads and mines, the collective ownership by the people of all means of production and distribution, the principal of referendum in all legislation.

To the Next Grand Jury. Al Lomery, a well known printer, and Mrs. W. B. Sanders, two young people who are causing a large amount of gossip on account of their immoral lives, had a hearing last evening before United States Commissioner Bryan under the Edmunds law, and the testimony as to their guilt was so overwhelming that the commissioner bound them over to the next United States grand jury, at the March term, of the district court, in the sum of \$250 each. At 8 o'clock last night Mrs. Sanders, whose career in this city, although brief, has been one of continual carnal, was taken over to the county jail by United States Marshal Fowler, and confined in a room now occupied by a woman accused of stealing rings from M. C. Nettleton. It is thought that some one will come to the rescue of the young and wayward wife-to-day and secure her release on bail. Mr. Lomery was held until day to secure bonds, and on failing was also incarcerated in the county jail.

Directum Here. The famous trotting stallion, Directum, with half a dozen more famous trotters and twenty six high-bred runners, arrived in the city this morning from the east. Mr. Otero also states that the county republican ticket of Valencia was elected by majorities ranging from 600 to 900.

Painful accident.

The regular Highland carrier of Cox, George Thomas, was on the sick list yesterday, and had on as a substitute, Willie Wilson, a bright little son of William Wilson, Sr. Willie secured his papers, a bundle of over 200, and mounted his horse to make his rounds. He left a paper at H. Blumberg & Co's, on First street, and with a bundle in a bag, quite a weight to be carried over his shoulder. He stepped one foot in the stirrup, where the horse moved off, and with the weight from the papers he was unable to mount the saddle, and in consequence was dragged across the street to wards A. Harsh's. His right leg came in contact with the wooden sidewalk, and the flesh, clean to the bone, below the knee was badly gashed and torn. When this occurred his foot was freed from the stirrup, and the cries of the little sufferer brought forth a distance. Tender arms carried him into the home of Mr. Harsh, where the dreadful gash was carefully washed and dressed by Mrs. Harsh until Dr. Worth arrived, after which Willie was taken to his home on West Coal avenue. Fortunately no bone was broken, but it will be several weeks before Willie will be able to be up and around.

This is the reason why a number of our papers subscribers did not get their papers, and we ask their indulgence until our regular carrier, George Thomas, recovers from his present illness. Copies can be secured at the office if any papers are missed.

The pain across the small of the back, which extends around the abdomen, first one side, then the other, or perhaps up under the shoulders, or down the hips, is an indication that you should use Oregon Kidney Tea. It will cure you, as the trouble comes from the kidneys refusing to perform their duty. Oregon Kidney Tea is now sold in small size packages at 25 cents. It will pay you to try it.

Optical Menstruation.

Dr. Fouts, Indian agency physician, informs Capt. Bullis that the disease that has caused such ravages among the Cochiti Indians is nothing more or less than spinal meningitis. Another Indian died Wednesday, refusing absolutely to take the medicine prescribed for him. This disease is very rare in New Mexico. As a rule the Indians, even the Pueblos, are opposed to taking "the white man's last resort," and will do only as a last resort. During the early stages of their sickness they invariably call in their tribal medicine men who usually hope to save their patients by a series of chants, but sometimes administer herb teas.

Dr. Fouts still has Mr. Studley assisting him as nurse and hopes, by hook or crook, to induce the afflicted at Cochiti to take a rational view of their malady and take "the white man's medicine."—New Mexican.

Wait of Mary.

Wichita, Kan., Nov. 9.—Speaking of the election Mrs. Mary E. Lease said to-day: "Defeat of the people's party in Kansas is due largely to the disgraceful compromise with democracy two years ago and to the treachery perpetrated upon the people by the election of John Martin. I believe Governor Leavelle would have been re-elected this year had it not been for Martin's letter and building methods and the treachery of state chairman Br. Kendall, who, to serve his own selfish ends, sacrificed the head of the ticket by endeavoring to fuse in legislative and congressional district."

London, Nov. 9.—The crowds which witnessed the procession to-day, attending the installation of the new lord mayor, Alderman Sir Joseph Renals, were far smaller than usual on such occasions. The procession itself was far from comparing with those some years back.

A Temple of Art.

Not for a Day but for all Time.

Memories of the White City are fading—all but one. Majestic in its beauty the Palace of Art survives to remind man kind of wonders departed. Triumphant over fire and tempest the stately structure stands beside the lake dedicated forever to the service of the people. As a gallery of painting and sculpture it surprised and delighted the nations. As the Field's Columbian Museum it will entertain and instruct multitudes in the ages to come.

A World's Fair in miniature is the museum to-day. While it lasts the public will have before them a vivid reminder of the greater exposition of 1893. It will bring back the vast panorama of splendid exhibits including the fine showing made by

Dr. PIERCE'S Golden Medical DISCOVERY

Cures Ninety-eight per cent. of all cases of Consumption, in all its Earlier Stages.

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent. are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpassed in curative power over this fatal malady, all other medicines with which they are acquainted. Name cod-liver oil and its filthy "emulsions," and mixtures, and been tried in nearly all these cases, and either utterly failed to benefit, or had only secured to breed a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain. The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. Address for Book, World's Dispensary Medical Association, Buffalo, N. Y.

Maricopa Indians Taken.

Phoenix, Nov. 9.—Oakes Murphy's majority in Phoenix is 145 and in the county 200.

THE WALKER CASE.
