BELEN, NEW MEXICO, DECEMBER 30 1915.

NUMBER 5

GOVERNOR W. C. McDONALD GIVES STATEMENT PER- TAINING SAN DIEGO EXPOSITION.

Santa Fe, N. M., Dec. 20,
1915.

TO ALL TO WHOM IT MAY CONCERN:

It is not the purpose of this statement to advise, but to inform. There is no legal official obligation nor any authority for the Governor to direct or advise in relation to the subject discussed.

Therefore, I shall state the case as plainly and briefly as practicable, leaving it to the discretion and judgment of the people and those representatives who now only, have the power to take such action promptly as is absolutely necessary if New Mexico is to continue her exhibit at San Diego during 1916.

It has been authoritatively announced by the management of the San Diego, or Panama-California Exposition, that it would be kept open for another year, or during all of 1916. Assurances have now been given by foreign and other exhibitors at San Francisco that many exhibits will be moved from San Francisco to San Diego, insuring a larger, better more instructive and complete exhibit than has been had there in 1915.

At the second session of the First State Legislature an appropriation of \$30,000 was made for the Panama-California Exposition to be held in San Diego in 1916. With this the Board of Exposition Managers provided for in the bill was obliged to pay all expenses of organization, erecting a suitable building and gathering and installing exhibits, and presumably it was intended that this was to maintain the same. You must readily see how inadequate this sum was for the purpose of making a creditable exhibit. And yet the Board did go ahead undaunted, built a building superior to any other state building for the purposes intended, and which has been so admired and praised that provision has been made for its duplication in our Capital City as a permanent monument to judgment, ability and artistic taste of the Exposition Board.

After the building had been built, the exhibits installed and every detail of a unique and admirable display provided, the last State Legislature was prevailed upon to appropriate the insufficient sum of \$12,000 for the purpose of maintaining this splendid exhibit.

Little did many appreciate

what had been accomplished in the face of almost insurmountable difficulties, or realize what yet remained to be done to profit fully from the energy and the sacrifices already made. With the aid of many counties and private subscriptions complied with the willing sacrifices and enthusiastic endeavor of the Board and attendants, New Mexico accomplished wonders and it is now generally considered that she had the most appropriate exhibit at San Diego, second to no State exhibit either there or at San Francisco.

The following and publicity of the right sort obtained for our State through this enterprise is not only the most valuable of anything of this kind ever yet done for the State but in the future will prove more valuable than all the advertising ever done before.

New Mexico in one way and another obtained and expended during and before 1915 about \$55,000. I believe the value of that exhibit in the resulting publicity to be for more than that sum. The building is there; the exhibit is there. All that is now required is maintenance in the proper manner. This with the expense for one valuable new feature will be from \$13,000 to \$16,000. Are you in continuing? If so, how can the money be obtained? There will be no session of the Legislature in time to make an appropriation. Would our people approve such action if it could be had? I believe they would.

A State appropriation means really contributions from the Counties, according to the taxable values of each. Now if the Counties believe that a State appropriation would be proper, the County Commissioners of the various Counties have the power to make contributions for exhibits from the Counties, which in effect amounts to the same as a State appropriation. There is no question in my mind that they have the authority to do this, which has heretofore been clearly set out in an opinion of the Attorney General of New Mexico with which many of you are familiar.

Now then, assuming that it is desirable to continue our exhibit at San Diego during 1916, how shall we do it? The same Board of Managers will continue if they get the money to enable them to do so. The County Commissioners can furnish the money for the various Counties if they see fit to do so. The levies for general county purposes will, in my opinion, produce sufficient funds to enable them to do this. Taking the

valuations of the Counties as show by 1915 assessments, .0005 per cent will produce the amount necessary. The following in round numbers would be obtained from the respective Counties: Bernalillo \$910; Chavez \$1080; Colfax \$1275; Curry \$450; Dona Ana \$950; Eddy \$590; Grant \$1400; Guadalupe \$600; Lincoln \$400; Luna \$550; McKinley \$500; Mora \$400; Quay \$500; Rio Arriba \$300; Roosevelt \$425; Sandoval \$290; San Juan \$240; San Miguel \$870; Santa Fe \$480; Sierra \$250; Socorro \$700; Taos \$200; Torrance \$400; Union \$500; Valencia \$740. The question is, do the people desire this? Speaking for the State, I believe they do.

What is good for all is good for any and, generally, what tends to advance any locality is to some extent beneficial for the whole State. General advertising, publicity of the right sort, is what we need. The Exposition has given us this and if continued will do so more effectively and to a greater degree for the next year.

If I had the power to act independently, I would not hesitate. However, I am not advising or appealing to any one for any certain action.

The County Commissioners know their own Counties. If they furnish the money as here suggested New Mexico will continue at San Diego during 1916. Should they fail to do this the building will be closed.

Respectfully yours
W. C. McDONALD,
Governor.

New Member of Faculty at University.

Albuquerque N. M., Dec. 28. —Miss Frances Lathrop, recently of the faculty of the Colorado Agricultural College at Fort Collins, has been elected professor of Domestic Science and Dean of Women at the New Mexico state University, succeeding Miss Margaret Gleason, whose resignation takes effect on January 1st. Miss Gleason will retire from active educational work, and her resignation was received with regret by the University regents at their recent meeting. She installed the Domestic Science department at the University and has brought it to a high state of efficiency. The University was fortunate in securing at short notice a woman of long and successful experience in Domestic Science training, to fill the vacancy.

Methodist Church Notes.

The congregations at the Methodist Church are on the continual increase. If you don't believe it come out and see. If the preacher cannot tell you something interesting, your neighbor can.

Don't miss hearing on Sunday morning, at 11 a. m.

"Noah, or God's Water Bucket."

And don't fail to hear on Sunday evening 7:30 p. m.

"The Science of Christ."

You are invited to worship with us.

Quite an amount of work has been done on the church building, including tinting. It looks fine.

The Belen Cleaning Works have made arrangement to install a Laundry in the same building and in connection with their department. Prices are reasonable and work guaranteed in both departments.

Former Governor Mills Dead.

William J. Mills, former governor of New Mexico and for many years chief of the New Mexico supreme court, died at his home in Las Vegas las Friday night.

Governor Mills was born in Mississippi sixty-seven years ago and lived in New Mexico for the past quarter of century, during all of which time he had taken a leading part in public affairs. In 1897 he was appointed chief justice of the supreme court by President McKinley, holding that office until his appointment as governor by President Taft in 1909. He was the last of the territorial executives, being succeeded in 1912 by Governor W. C. McDonald. In the first New Mexico state legislature Governor Mills was a candidate for the United States senate, his retirement in favor of Senator A. B. Fall breaking a six weeks deadlock. Deceased is survived by his wife, one son and one daughter.

Lutheran Church Notes.

At the morning Service, the theme of Dr. Ziegler's Sermon will be "The Star in the East." In the evening there will be a New Year's Service, the theme being, "The Length of our Days."

The Luther League at seven o'clock will be led by Mrs. C. L. Eker and Edward LeBrun. It is a Roll Call meeting. The Candle Light meeting last Sunday night was well attended.

The Christmas tree exercises of the school and congregation on Christmas night were very pleasing. The music was unusually pleasing and the Church was crowded to its capacity.

This is an invitation to everybody to come to Church this first Sunday in the New Year.

People of Santa Fe, Stir- red up on Account of Headlines in the New Mexican.

Special Correspondence to Belen News.

Santa Fe, N. M., Dec. 27 — The majority of the people of Santa Fe, are very much stirred up on account of evident bad faith in part of the New Mexican concerning the decision of Jury on the Eliego Baca et al. case. For sometimes past the New Mexican has been publishing articles pertaining to harm caused by people who raise the race issue but it seems that it is not particular to harm that can be done to a race of people by insinuations that their kind can only give a decision that might be questioned. The Jury that tried Baca and the others was composed of men of honest character, who fully appreciated the words of Judge Pellock and arrived at a verdict after considering the evidence presented by both sides, but it was up to the New Mexican, the apostle of square deals (?), to come out in large head lines and say that these men were declared not guilty when their case was given to a Spanish speaking jury, as if their case might have been different if their cases had been tried by another jury. Is it any wonder that people who speak the Spanish language should resent gratuitous attitude of the New Mexican?

But wait a few days and you will hear from New Mexican as to politics being played by Spanish lodges in New Mexico, because Frank A. Hubbell and Geo. Armijo belong to them but you will wait in vain to hear it say a word against the Masons because Judge Hanna says something that is inimical to Spanish speaking population.

Note of the Editor.—We read article in New Mexican pertaining Alianza Hispano Americana but that paper seems to be of such a hide bound prejudiced nature that it would be a folly to try and enlighten it. By its statements it has shown its capacity.

SOME PEOPLE suggest that the present secretary of State would make a dandy candidate for governor on the democratic ticket. He suits us, 90 per cent of the democrats, thus we know would just love to show their appreciation by voting for Bursum.

Obregon a Man of Reserve.

Gen. Obregon has made a most excellent impression upon those El Pasoans who have met him personally. He appears to be a man of a good deal of force, though quiet in his demeanor and essentially conservative in action. There is absolutely nothing of the blusterer or braggart about him. Nor does he talk over much of his patriotism, courage, or loyalty. He is plain spoken, uses simple words and forms of language, uses gesture sparingly, and bears himself like a capable military man.

The few writings to which he has signed his name since the Mexican revolution began are marked by a simple straightforwardness and a tone of sincerity that are in strange contrast to the great majority of Mexican "manifestos." Reading his published statements, one is impressed by his reserve and his apparent attempt to avoid over-coloring. His ideas of Mexican possibilities in governmental reforms are not so radical as those of many of the revolutionary leaders, and he seems to be willing to work slowly through a practical program, rather than try to destroy everything that is, with wild ideas of general reconstruction all at once.

In such intimations as he has given of his plan for the future on the border and in the north of Mexico, General Obregon conveys the impression that he will take no step without careful reconsideration. He must know in advance what the results of his movements are likely to be. He is not a smasher, neither does he hang back unduly when circumstances call for action.

El Paso feels that it is certain to make for better things on this border if Gen. Obregon remain here until things are settled somewhat. He is of the type that inspires a considerable degree of confidence. He is neither a highwayman, a braggart, or an anarchist, but a remarkably simple sort of man to whom circumstances have brought unusual power. He believes in

safeguarding property rights while seeking to correct property abuse.—El Paso Herald.

Pure Drinking Water

The geologic resource of greatest value to the health of communities is a supply of pure drinking water. It is generally recognized that a number of diseases, prominent among which are typhoid fever and amoebic dysentery—a disease more common in tropical climates but found also in the United States—are contracted through contaminated water or contaminated food. Therefore a supply of pure water will eliminate one of the sources of such infection.

It is highly desirable to obtain supplies of domestic water from sources other than the shallow wells, some of them open, that are found near many houses. The water obtained from deep wells has percolated through sands and other material for so great a distance that its impurities have been removed by filtration, and it possesses a sanitary value that can not well be overestimated, for such water is free from the bacteria causing typhoid fever and the protozoa causing amoebic dysentery, and its use obviates the necessity for shallow wells that may serve as a breeding place for Anopheles, the mosquito to which malarial infections is due.

ONE OF THE fundamental principles of Americanism is fair play. If Larrazolo makes a mistake it is all right to point it out but he shouldn't be made the goat because he wants to be a republican. If we remember right the reason that Senator Fall gave for turning republican was that the only way you could beat the republicans was to join them and he certainly has succeeded mightily well. Also there is Medler, Curry, Catron, Rehman, Tom Cable and a few more who are now dead. No one ever accuses them of being selfish because they attacked the public counter for pie more than once. Larrazolo practically made the democratic party what it is in New Mexico and he will do his share to place it where he found it.

GEO. W. PERKINS, Chairman of the executive Committee of the Progressive party and heavily interested in the International Harvester Co., has addressed a letter to president Wilson about recognition of Carranza by the United States. It all happened two weeks after local government in Yucatan had made it pretty plain that foreign Corporations that were interested in Sisal were not going to be allowed to exploit that state to the detriment of its Citizens. Will hear the Chicago Tribune call for intervention in Mexico.

Public Notice

OF
A School District Meeting to
Vote on the Question of
Issuing County High School
Building Bonds.

School District No. 2,
of Valencia County, New Mexico

Public notice is hereby given that a special meeting of the legal voters residing in School District No. 2, of Valencia County, New Mexico, has been, pursuant to law and the action of the Board of Directors, called for, and the same will be held on Tuesday the 11th day of January, A. D. 1916, at the Public School House of said District, at which meeting there will be submitted the following question:

Shall the Board of Directors of School District No. 2, of the County of Valencia and State of New Mexico, borrow money for the purpose of erecting and completing a County High School within and for said school district, by issuing the negotiable bonds of the district, in the aggregate amount of \$14,000.00, to bear date the 15th day of January, A. D. 1916, due 20 years after date and redeemable at the pleasure of the district at any time after ten years, and drawing interest at the rate of six per centum per annum, payable semi-annually at such place as the Board of Directors issuing said bonds may direct, which said indebtedness shall be binding and obligatory on said school district for the use of which said loan shall be made?

The ballot-box for the reception of ballots upon said question will be opened at the hour of eight o'clock in the forenoon of said place and will be kept open until and will be closed at the hour of five o'clock in the afternoon of said day. Ballots to be used in voting upon the question submitted will be furnished by the clerk of the district to the judges of election, to be by them furnished to the voters. Each voter voting at said meeting shall deposit in the ballot box a ballot whereon shall be printed or written the words, "For the Bonds," and the words, "Against the Bonds," and shall indicate his approval or disapproval of the proposition submitted by placing a cross (x) opposite the group of words on his ballot which expresses his choice.

No ballot will be received by the judges of election unless the person offering the same shall be a legal voter residing in the district.

The members of the district school board will act as judges of said election, and should any of the judges be absent at the opening of the polls, the judges present will appoint a legal voter to fill the vacancy.

In Witness Whereof, the Board of Directors of School District No. 2, of the County of Valencia and State of New Mexico, has caused this notice to be posted as required by law this 1st day of December, A. D. 1915.

The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.

Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed—Insures new place of impact for each typeface.

Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

caballo?

El Remedio del Dr. Miles para el Corazon.

curó a la Sra. C. C. Gókey de un
caso obstinado de mal de corazon,
del cual miles de personas van
padeciendo hoy dia. Léase lo que
ella dice:

"Antes de tomar el Remedio
del Dr. Miles para el Corazon
padezia de mal de corazon hace
mas de cinco años. Estaba tan
débil que era imposible hacer en
un dia cumplido un trabajo que
exigia solamente treinta minu-
tos. Pudea de dolores agudos
en el lado izquierdo y debida a
la palata izquierda. No podia
dormir en dicho lado, y tanta
respiracion tan dificultosa que
sentia como si mi vida misma
podiera tomar una respiracion
profunda. La mas ligera ac-
cion inducia la mas penosa
palpitacion. Apenas habia to-
mado medio frasco del Remedio
para el Corazon cuando el
uso de este maravilloso remedio
comenzó a disminuir los
dolores, hasta que me quedé
de nuevo como al principio
del ataque. Hoy me siento
perfectamente sana."

Kirschbaum Clothes \$15 \$20 \$25

The Greatest Clothes Values in America

Copyright, 1911, A. B. Kirschbaum Co.
**ABSOLUTE DURABILITY
AS WELL AS SPLENDID
STYLE—IN OUR
KIRSCHBAUM SPRING &
SUMMER SUITS**

Guaranteed all-wool fabric means long
wear. The thorough cold-water-shrink-
ing gives permanent shape-keeping. Our
clothes retain their fashionable appearance
as long as you wear them.

One of our specials—Kirschbaum Special
Serge Suit at \$18—is woven with
two-ply warp for extra strength and
stain-resistance in wear. Yet the fine twill
makes it the lightest of serges. See these
beautiful, deep, rich, unfadable blue
serges.

OUR PUBLIC FORUM

IX—Peter Radford On "Back to the Soil With Wall Street"

When Wall Street wants good business men she
usually goes back to the soil to get them. That financial
thoroughfare is said to be honeycombed with men who
have plowed barefooted, who have drunk branch water,
eaten cornbread and molasses and slept on the floor in
their early days. A man is more capable of holding the
reins of business who knows how to drive a team of
mules, shear a sheep or put a ring in a shoat's nose. A
man is better equipped to meet the problems of life who
in his youth has walked the log across the creek to get
to school, courted the girls at husking bees and
pitched horse shoes Saturday afternoon. A man who has
spent the moonlight nights of his youth possum hunting, going to protracted
meetings and occasionally turning down the community at a spelling match
has the right sort of stuff in him to make a good business man. The active
officials of most of the large business organizations of America it is said
were, with a very few exceptions, raised on the farm, and could swim the
creek, pitch hay, chop wood, milk the cows or slop the hogs as easily as
they can run world-wide business institutions.

The farmers look to these capable and loyal sons of the soil to assist in
the solution of the business problems of agriculture. Wall Street is reputed
to be capable of financing everything from a Y. M. C. A. to a war, so why not
finance agriculture? It is not sufficient to lend money to a correspondent to
lend to a local banker, to lend to a broker to lend to a merchant, to lend to
the landlord to lend to a farmer. Such a financial system sounds like the
house that Jack built, and is just about as useful. Neither is assistance com-
plete when money is furnished byers to "move the crop." What the farmer
wants is money to hold the crop. What better security is there than a ware-
house receipt for a bale of cotton, a sack of wheat or a bushel of corn and
why will such securities not travel by the side of government bonds?

The American farmer is a capable plowman. He always has filled and al-
ways will fill the nation's granary, larder and wardrobe, but he has nothing
to say in fixing the price of his products. The problem confronting the farm-
ers of this nation today is marketing and its solution depends first upon the
farmer organizing for concert of action and the co-operation of the financial
interests in marketing the crop. Agriculture is the biggest business in
America and the only one that has not a financial system adapted to its use.

No. 6597.

Report of the Condition of the FIRST NATIONAL BANK OF BELEN,

At Belen, in the State of New
Mexico, at the close of Busi-
ness, November 10, 1915.
