# SANTA FE NEW MEXICAN

VOL. 46.

SANTA FE, NEW MEXICO, FRIDAY, FEBRUARY 11, 1910

NO. 311

## FINE FINANCIAL SHOWING

Counties of Territory on New Year Had \$1,500,000 in Their Treasuries

## TOBACCO ON SCHOOL PREMISES

Quaint Complaint of a Teacher Received by Superintendent of Public Instruction.

Mounted Policeman Rafael Gomez reported today that Filemon Clokey of Glorieta, Santa Fe county, has been placed under \$500 bond for the grand jury on the charge of stealing merchandise from the store of J. W. Harlan at Pecos, San Miguel county.

Archaeological Trustees Meet. The executive committee of the School of American Archaeology held a meeting in the Old Palace this noon and disposed of routine business.

Union Label Filed. A petition for the union label of the Santa Fe Railroad of Carpenters and Joiners of America.

Public Appointed. Governor Curry today appointed the following officers public: John C. West, Santa Fe; Patricio, Lincoln county; and J. W. Harlan, Santa Rosa, Guadalupe county.

Office of Engineer. Territorial Engineer L. Sullivan is installing a steel filing cases in the Capitol building.

Use of Tobacco by School Children. The office of territorial superintendent of public instruction today received a letter from a public school teacher complaining of the use of tobacco on the school premises.

Financial Condition of Counties. The following is the financial condition of the counties January 1, 1910:

Bernalillo	\$ 96,920.73
Chaves	211,653.86
Colfax	76,221.75
Curry	39,036.61
Dona Ana	76,151.12
Eddy	99,321.79
Grant	92,880.17
Guadalupe	32,797.07
Lincoln	61,980.66
Luna	51,241.81
McKinley	25,938.63
Mora	28,039.30
Otero	34,679.37
Quay	70,541.29
Rio Arriba	55,636.18
Roosevelt	28,231.10
Sandoval	19,146.04
San Juan	15,834.32
San Miguel	52,688.95
Santa Fe	35,581.02
Sierra	36,184.43
Socorro	57,292.22
Taos	30,262.10
Torrance	44,800.47
Union	46,224.42
Valencia	62,756.21
Total	\$1,482,179.66

Special Agent Appointed. G. W. Newton has been designated as the special agent under whose supervision the census of mines and manufactures will be taken in New Mexico.

## PIONEER FOUND DEAD AS RESULT OF DRINKING.

Durango, Colo., Feb. 11.—Thomas O'Connell, aged 50, a pioneer of the San Juan county, was found dead in his store at Hermosa, in the Animas valley, twelve miles from Durango. O'Connell had been a hard drinker, and became intoxicated. It is believed his death was caused by alcoholism. When found he had been dead several hours.

## Citizens' Meeting.

A Citizens' Meeting will be held this evening at eight o'clock in the rooms of the Commercial Club on the west side of the Plaza at which the bonded indebtedness of Santa Fe county will be discussed. Governor Curry will address the meeting. Some action is necessary by the citizens on account of the pending statehood bill and the subject will be thoroughly sifted. The Board of Trade is asked to meet with the citizens' meeting tonight. Every one is invited to attend.

## DELAY WITH STATEHOOD BILL

Senator Beveridge Will not Call Meeting of Committee Before Friday

## STUNNER FOR MEGALOMANIACS

Awkwardly Decline Invitation to Testify Before Congressional Committee.

Special to The New Mexican.

Washington, D. C., Feb. 11.—Delegate Andrews today introduced a bill increasing the pension of Major Henry Whiting of Albuquerque, of Company E, 24th Michigan Volunteers, \$35 a month; of Napoleon Tulip, of Company I, of the 17th Vermont Volunteers, \$35 a month.

Senator Beveridge announced today that he would not call a meeting of the senate committee on territories before Friday of next week.

Muck Rakers Are Crawfishing. Washington, Feb. 11.—The Ballinger-Pinchot committee has invited the editors and publishers of all magazines that recently have been attacking Secretary Ballington to appear and present any facts in their possession.

Two have definitely declined, saying that they had no information at first hand. Another has stated that he thought Mr. Glavis and Mr. Pinchot would give the committee more than he himself could produce, although he will appear if requested.

## Ballinger-Pinchot Investigation.

Washington, Feb. 11.—After a session lasting less than an hour, during which the future conduct of the case was informally discussed, the Ballinger-Pinchot Congressional investigating committee today granted the request of Attorney Louis D. Brandeis, representing Mr. Glavis, for an adjournment until Monday morning.

## FORMER ARIZONA GOVERNOR STRUCK BY ELECTRIC CAR.

Los Angeles, Calif., Feb. 11.—Lewis Wolfley, former governor of Arizona and prominent in mining affairs in that territory, was struck and perhaps fatally injured by an electric car here today. Mr. Wolfley was appointed governor of Arizona by President Harrison in 1889 and served two terms. His home is at Prescott.

## REMARKABLE STORY OF GRAFT

Legislature of Sovereign Empire State of New York Is Tainted.

## SAW THE MONEY PAID OVER

If a Poor Territory Were Involved, Now Would Be Time for a Howl.

Albany, N. Y., Feb. 11.—The climax of the senate investigation of the charges filed by Senator Benn Conger several weeks ago against his colleague, Senator Jotham P. Allds, came up at today's hearing, when Senator Conger told in detail how Senator Allds demanded a thousand dollar bribe nine years ago when they both were members of the assembly and how Allds got it. Allds' accuser slowly laid before the senators the story of legislative corruption which even previous revelations of the investigation failed to parallel. His story agreed in every point with that of Hiram G. Moe, who handled the money. He told how he and Moe delivered \$6,000 to three legislators to protect bridge interests. Then he fixed his eyes on Allds and concluded: "and Mr. Allds came out and passed me, saying: 'I guess it's all right, Conger, it feels good.'" He added that none of the persons involved in the transaction other than Mr. Allds are now members of the legislature.

## POLICE COULD NOT HANDLE 300 POUNDS OF JAG.

Pueblo, Feb. 11.—William Coffin, who weighs over 300 pounds, accumulated a fine jag last night and when the police found him it was almost impossible to handle him. The reserves were called out and altogether they succeeded in lifting the man into the police patrol. The police magistrate this morning told Coffin that any man who weighed over 300 pounds ought to have more consideration for his fellowmen than to get dead drunk, and fined him \$3.

## WHITE SLAVE ACT PASSES

Senate Gives Its Assent to the Bill Formulated by the House

## PEARY NOT TO BE PROMOTED

Paper Company Brings Mandamus Proceedings Against Congressional Committee.

Washington, Feb. 11.—The Bennett "White Slave" bill regulating the traffic in immoral alien women was passed by the Senate today practically in the same form as passed by the House.

## No Rear Admiral Honors for Peary.

Washington, Feb. 11.—A medal of honor, instead of promotion to be rear admiral for Commander Robert E. Peary, discovered of the North Pole, is proposed by the sub-committee of the House committee on naval affairs. The sub-committee today unanimously disapproved the bill passed by the Senate making Peary a rear admiral.

## Mandamus Against Congressional Committee.

Washington, D. C., Feb. 11.—Judge Wright, in the supreme court for the District of Columbia, today granted adjournment of two weeks in mandamus proceedings against the joint congressional committee on printing, instituted by the Valley Paper Company of Holyoke, Mass. The Senate has instructed its members of the committee flatly to refuse to obey the court order. The paper company, dissatisfied with certain rulings of the committee, desire to question the members in court.

The specific cause of action by the Valley Paper Company is an award by the committee of a contract for furnishing paper to the government printing office. The mandamus was brought to show cause why the bid of the Valley Company should not be accepted. The House last night instructed its members to appear in court.

## The President Dances.

Washington, Feb. 11.—Once upon a time you had to play lawn tennis to be really "in it." Now you have to dance—President Taft has set the fashion.

The dancing masters are the happiest and most prosperous men in Washington; their hearts are as light as their feet.

"On with the dance, let joy me unconfine."

Everybody who came to trip the light fantastic is learning to trip it, and some are tripping over it.

Grave and reverend legislators are taking dancing lessons; the "Blue Danube" fills their minds, not thoughts of appropriations to make navigable streams that vanish in the summer time.

"One, two, three; come dance with me," echoes everywhere.

The senate committee are swinging all hands around in their committee rooms; if report, more or less credible, is to be believed.

In remote corners, the pages are practicing the waltz and two-step, chorusing.

"No sleep till morn, when youth and pleasure meet To chase the glowing hours with flying feet."

Or, as the Prince de Linge remarked: "The congress of Vienna does not walk but it dances."

## SUMMONS TO SPECIAL GRAND JURY AT KANSAS CITY.

Men of Good Standing in Community to Be Selected to Probe Swope Poisoning Mystery.

Kansas City, Feb. 11.—Joel Mayes, the county marshal, is busily engaged today making up a list of men to be summoned to serve on the special grand jury which meets tomorrow to investigate the death of Colonel Swope. "I instructed Marshal Mayes to get men of good standing in the community so that their labors will command the respect of all citizens," said Judge Latschaw this morning. "A special grand jury can examine the whole Swope matter at much less expense than can be done in any other way. It can and will run down every avenue of investigation and satisfy the people as to just what there is in the Swope mystery."

## BLEACHED FLOUR CASE TO BE TRIED AT NEW ORLEANS.

New Orleans, Feb. 11.—Judge Foster, in the United States district court today decided that the so-called "bleached flour" case, and the hearing of the petition of the government against the Aetna Milling Company of Kansas, should be tried on its merits in this court and not at Council Bluffs, Iowa. Many modern milling methods are involved.

## LOSES WOMAN AND OVERCOAT

Louis Campbell's Illicit Romance Also Costs Him His Suit Case

## HUSBAND FINALLY RELENTS

Albuquerque Man Takes His Wife Home Because He Loved Her

An overcoat hanging in the office of Police Justice Jose Maria Garcia is all that remains to tell of the romance of Louis Campbell of Albuquerque who, it is alleged ran away with his "affinity" a few days ago and was brought to bay this morning by a peace proceeding warrant sworn out by the indignant husband, John Harry Thompson, also of Albuquerque. It appears that Thompson intended to prosecute Campbell and Mrs. Thompson under the Edmund's law but seeing his wife's tears and remembering how he had taken to love her, the husband grew tender-hearted and forgave the wife as well as the man who had run away with her.

But Campbell still had some sheriff's costs to settle, about \$4.50 worth, and lacking the collateral, he prevailed upon the magistrate to allow him to leave his overcoat as security. The trio then returned to Albuquerque, Campbell having borrowed, it is said, sufficient car fare to make the trip, by pawning a \$20 suit case for \$6.50.

## Case of "Affinity."

It is said to have been another case of Artist Earle Affinity. Rumor has it that Campbell was an artist—or at least a photographer—and that he met Mrs. Thompson at some social function and was attracted by the manner in which Dame Nature had sculptured her face. He called at her home occasionally and then more frequently taking her out to social affairs and to the theatres. Thompson thought little of the matter at the time, it is said, but a few days ago he missed his wife. Campbell was also missed. It is said Campbell and his affinity came to Santa Fe several days ago and registered at a hotel. Just what name they went under is not generally known. Thompson followed them here and went to the room where his wife was living. There was no stirring scene as Mrs. Thompson was found alone. Deputy Sheriff Ferrino Baca soon had Campbell in court and for a few minutes it looked as though it would go hard with the home-breaker.

But Thompson lost his harsh intentions, if he had any, when he saw how dejected and repentant his wife had become. "I would not go for the world have that woman go to the bad on account of this man or any other who may have tried to lead her astray," he is quoted as having remarked. Then he informed the magistrate that he did not wish to prosecute Campbell or his wife either, for that matter, and would be quite willing to have the charges quashed.

The little matter of \$4.50, however, interfered with Campbell going back to Albuquerque's salubrious climate. However, a happy thought struck the man and he volunteered to brave the chilly winds and leave his overcoat as security, Justice Garcia, realizing the plight of the man, decided that if Thompson could forgive the man who had run away with his wife, he, the magistrate would not be outdone. So he told Campbell that the coat would be accepted.

People who knew the details of the case were somewhat surprised to see the trio of Albuquerqueans returning on the same train today apparently at peace with the world. But Campbell shivered now and then when the wind blew hard as he was on his way to the depot.

## COMET'S TAIL WILL POISON ALL LIVING THINGS.

Dire Prediction of Professor Edwin Booth of the University of California.

Berkeley, Cal., Feb. 11.—"If the astronomers are right in their estimations of the amount of cyanogen gas in the tail of Halley's comet, and if that body's vapors do envelop the earth, we may have a chance to feel the sensations of the bugs and insects which are killed by the use of this dead gas as an exterminator."

Such is the cheerful opinion expressed by Professor Edwin Booth of the department of chemistry at the University of California and a well known expert on spectrum analysis. "We'll all be snuffed out," he said, if a sufficient quantity of this cyanogen gas unites with the hydrogen of this planet's atmosphere. "Their union," he continued, "would form the deadly gas known as hydro-cyanic acid, the most deadly poison known to science and which means death for all animals."

## WOMEN WERE HIS RUIN

Former U. S. Marshal Dies in the Electric Chair for Seven Murders

## WAS HANDSOME AS AN ADONIS

Executed in the Penitentiary at Richmond, Virginia, at Dawn Today.

Richmond, Va., Feb. 11.—Howard Little, who murdered Mrs. Bessie Justis, her son-in-law, George Meadows and his wife, and three children, near Hurley, Buchanan county, last September, was electrocuted in the penitentiary here at dawn today. Most murderers are executed for single murders, Howard Little had seven to his account. There were six in the butchery for which he died in the electric chair this morning, and the blood of George McKinney, whom he shot in eastern Kentucky, also stained his hands. For this crime he was sentenced to the penitentiary for life, but was pardoned after a short period and moved back to Virginia. Little was no ordinary "low browed" criminal. He was one of the most handsome men in Virginia, more than six feet high and built like a gladiator. He held the position of United States marshal in the eastern district of Kentucky for a number of years. But Little, who otherwise carried himself without reproach, was a rural Don Juan and he himself declared: "Women will be my ruin." The murder of the Meadows family, with whom he was living at the time, was for the purpose of robbery. It is believed that Little intended to leave Virginia for good with his latest woman friend.

## Execution in Pennsylvania.

Allentown, Pa., Feb. 11.—George M. Schaeffer was hanged in the county jail here for the murder of Leopold Erman, an itinerant jewelry salesman of Philadelphia in November, 1908. The men had been friends and Schaeffer confessed he killed Erman in the heat of passion because he teased him about his approaching marriage. Schaeffer cut up the body and buried it under a chicken house.

## END OF MADRIZ REGIME NEAR

Matagalpa and Boaco Have Fallen into the Hand of the Insurgents

## COFFEE PLANTATIONS SAFE

Steamer Managua Has Been Seized by Sympathizers of the Revolution.

Washington, Feb. 11.—The state department officials are greatly interested in the news from Managua that Matagalpa and Boaco have been captured by the revolutionists and their capture probably will remove any further cause of apprehension for the safety of Americans in that important coffee-growing section of Nicaragua. The capture of the steamer Managua at Managua by revolutionary sympathizers is regarded as a serious blow to the Madriz government. The whole situation appears to be distinctly in favor of the revolutionary forces and it is believed that the end of the Nicaraguan government under Madriz is rapidly approaching.

## American Recruits.

Bluefields, Nicaragua, Feb. 11.—Upon the arrival of General Zelleon at Moogan, yesterday, preparations were begun by the Insurgents for another forward movement of General Menas division, the progress of which was checked in the recent battle at Santa Clara. Walter Gordons, an aide has been dispatched to Panama to recruit fifty more Americans who are armed with rifles and are expected to join General Menas in three weeks. This suggests that there will be no further fighting until the reinforcements of American sharpshooters arrive. The insurgents declare that they are not disheartened by Menas' repulse, and say he accomplished his purpose of diverting a part of the government forces from their movement against General Chamorro.

Death of Healthseeker—George B. Williams, aged 55 years, who came to Albuquerque seventeen years ago for his health from Philadelphia, died yesterday of tuberculosis. He was in business at Albuquerque.

## SPLENDID START NOW MADE

School of American Archaeology in This Center Doing Great Work

## PAJARITO ROOM IS FINISHED

Co-Operation of National Museum and Bureau of Ethnology Secured.

Following the meeting of the executive committee, of the Museum of American Archaeology, held at the Palace building this morning, present Governor Curry, Justice McFie and Secretary Jaffa, Director Hewett authorizes the following announcements: The first of the Pajarito rooms is finished, the collections are being installed, and the room will be open to the inspection of the public from now on, as a specimen of what the School is trying to accomplish, by way of representing the ancient civilizations of the southwest. The art work in these rooms, which has already attracted wide attention, is supported by Frank Springer, of Las Vegas.

The work of the historian Bandler on the documentary history of the Rio Grande valley, is well along, Mr. Bandler's introductory report having been sent in for publication. This work on the early history of New Mexico, is made possible by the generosity of Mrs. John Hays Hammond of Washington City.

Miss Anna L. Wolcott of Denver, has contributed the funds for the equipment of a laboratory for the precise recording of the vanishing languages, myths, and songs of the Indian tribes. The instruments for this work have been ordered from Paris, and will be installed within a few weeks. This will be the principal laboratory for this class of work in America.

The National Museum of the United States has returned to our Museum a valuable collection of material from the Cliff Dwellings in the Pajarito Park, which was sent to Washington some years ago, and has entered into a system of exchanges with our Museum which will result in the placing here of valuable collections from various parts of the country. The secretary of the Smithsonian Institution has expressed his great satisfaction with the development of a first class museum in Santa Fe, and the willingness of the Institution and the National Museum to assist in its upbuilding now that its permanence and character is assured.

The Bureau of American Ethnology has joined with the School of American Archaeology here for researches in the archaeology and ethnology of New Mexico. Work under this joint agreement will begin on the Jemez plateau in May and continue until October. By this joint arrangement a much larger amount of work will be accomplished in the southwest than heretofore. The results of the researches will be published by the national government.

A series of publications have been started for the purpose of making known the results of the work of the School and Museum under the name of "The Papers of the School of American Archaeology." Ten numbers of the papers are already published, and will be ready for distribution within a few days. About ten more papers are almost ready for the press, and will be issued during the year. These papers will be kept on sale at the Museum.

An expedition starts from Santa Fe this week, for the exploration of ancient ruins in Guatemala and Honduras. This expedition is financed by the St. Louis branch of the Institute.

## SKELETON OF GIRL HAS BEEN IDENTIFIED.

Anna Jensen, a Domestic, Was the Woman Who Met Death on Mount Tamalpais.

San Francisco, Feb. 11.—The jewelry and the clothing worn by the girl whose skeleton was found on Mount Tamalpais on February 3, was identified yesterday by four men as having belonged to Anna Jensen, a domestic employed in a local boarding house, and who has not been seen since last April. An effort will now be made to trace the girl's movements after leaving the boarding house.

## Another Victim.

San Francisco, Feb. 11.—Another solution of the mystery is advanced by Michael Jargans of San Jose, who says he recognized in the clothing and jewelry of the murdered girl the effects of Mrs. Rose Shook, whom he brought to this country from Germany eight years ago last June. Jargans states that Mrs. Shook came from Seattle on a steamer and was married to a traveling man on the voyage. Since then she has not been heard from. Jargans identification is said to be the most minutely accurate yet made.

## THE DAILY ROUND UP.

### THE TEST.

(By S. E. Kiser in Chicago Record-Herald.)

When friendship or love our sympathies move,  
When truth in a glance should appear,  
The lips may beguile with a dimple or smile,  
But the test of affection's a tear.  
—Lord Byron.

Once it may have been so, there has been a change, though,  
A tear is a cheap thing to shed,  
And a dimple or smile is no longer worth while  
If a meal can be furnished instead.

If it's friendship or love that you're wishing to prove  
It is useless to sigh or to kneel;  
Ask the lady to eat where the service is neat—  
Win her heart with the price of a meal.

They are few who can pay to eat three times a day,  
Hence the maiden will deem you divine,  
And you'll win in a walk, if you cut out the talk  
And merely invite her to dine.

**Grey Hound Coursing at Roswell**—A grey hound coursing meet has been arranged at Roswell for March 17, 18 and 19.

**Sanchez Sentenced to Jail**—Louis Sanchez was sentenced to pay \$50 fine and to go to jail for thirty days at Albuquerque, for selling liquor to an Indian.

**Wedded by Father Molinie**—Father Jules Molinie, formerly of Santa Fe, at Tucumcari united in marriage Miss Regatta Flanigan and Matthew Francis McNamee.

**Death of Sunday School Andrews**—S. S. Andrews, known as Sunday School Andrews, formerly of Tularosa, Otero county, died at Des Moines Ia., from a stroke of paralysis.

**Will Be Known as Lea Hall**—The new building of the New Mexico Military Institute at Roswell is to be known as Lea Hall in honor of the late Captain Joseph C. Lea.

**Relatives Cannot Be Located**—Ira Gibson died at the City Hotel at Tucumcari of pneumonia. He was penniless and the authorities have been unable to locate any relatives.

**Burned Up Paper Money**—The two year old son of Mr. and Mrs. T. H. Cooley at Silver City, threw a roll of bills, amounting to \$40 in the kitchen fire. One \$10 bill was entirely consumed and the rest of the money badly mutilated.

**Died on Train**—F. W. Fisher, a prominent resident of Evansville, Ind., died on the Santa Fe passenger train a short distance from Raton. He had been spending the winter at Las Vegas and had started for home when told by the physicians that he could not recover from tuberculosis. He was taken to the train at Las Vegas in an undertaker's ambulance.

**Death of Rev. Roscoe A. Clayborne**—Word has been received from Denver, Colo., of the death of Rev. Roscoe A. Clayborne, who died in that city at half past nine on Tuesday evening, February 8. Mr. Clayborne spent March and April of last year in Santa Fe having charge of the Church of the Holy Faith during that time. He was much beloved by the members of the congregation who are much grieved to learn of his death.

**Horticultural Society**—Former Governor Hagerman, president of the New Mexico Horticultural Society, has decided to call a meeting in the near future to consider holding a territorial fair at Santa Fe this fall.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.  
Sold by Druggists, 75c.  
Take Hall's Family Pills for constipation.

## Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterward. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the sneeze stage—they break, or head off these early colds. That's surely better. That's why they are called Preventics.

Preventics are little Candy Cold Cures. No Quinine, no physic, nothing sickening. See for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child, if there is feverishness, night or day. Herein probably lies Preventics' greatest efficiency. Sold in boxes for the pocket, also in 25c boxes of 48 Preventics. Insist on your druggists giving you

## Preventics

STRIPLING BURROWS CO.

## MINOR CITY TOPICS

Denver, Colo., Feb. 11.—  
Forecast for New Mexico:  
Fair weather tonight and Saturday with stationary temperature.

**Fair Weather Continues**—Tomorrow is to be as fair as today and as was yesterday and the days before since the last storm in January. The maximum temperature yesterday in the shade was 34 degrees, in the sun 67 degrees. The minimum was 16 degrees. The relative humidity at six o'clock last evening was only 35 per cent. The wind attained a maximum velocity of 36 miles an hour yesterday afternoon at three o'clock. A year ago today was cloudy and there was a fall of one-third of an inch of snow. The maximum temperature was 38 degrees, and the minimum 24 degrees. The sunshine percentage was 11.

**Less Than Fourteen Hours to El Paso**—On Monday morning a new time table goes into effect on the New Mexico Central which cuts down the time between Santa Fe and El Paso, Tex., to less than fourteen hours. A person leaving El Paso in the morning will arrive here before ten o'clock in the evening, and a person leaving Santa Fe at 8:45 in the morning will arrive in El Paso the same evening. The passenger train will leave Santa Fe at 8:45 in the morning instead of 1:45 in the afternoon. It will arrive at Torrance at 2:15 p. m. It will leave Torrance at 4:05 p. m. and arrive here at 9:45 p. m., making close connections with Rock Island trains both east and west at Torrance.

**"The Gingerbread Man"**—Patrons of musical comedy and comic opera will no doubt welcome the arrival of "The Gingerbread Man," who will play here Saturday with many well known names in the cast. Sloan's pretty music with which this opera abounds, has created a distinct vogue among music lovers in general, and the pretty melodies will long be remembered by those who hear them. The company is of an unusual order, also, and delineated as it is by comedians of class, there is every reason for the piece creating a new record financially. The management of the Elks' theater is looking forward to shattering all records with it this year, and as the production is said to be elaborate, it is very evident that anticipations will be realized.

### TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. W. E. GROVE'S signature is on each box. 25c.

## THE SAME OLD STORY

DEAR FRIENDS:

During the past week, we have had so many of our friends coming to us with the old story of a DULL RAZOR, and the experience of so many of those unpleasant shaves. We are glad to say that we were able to send them away from our Store pleased and happy. HOW DID WE DO THIS YOU ASK,— "Listen,—We absolutely guarantee to any person in the City of Santa Fe, or vicinity a MODERN COMBINATION RAZOR STROP UPON TEN DAYS TRIAL, that will sharpen any old Razor that you may possess and can be operated by a small Boy. We will be pleased to give you a demonstration of this Strop any time you find it convenient to call, and would be pleased to have you bring your "OLD RAZOR" and let us put an edge on it for you.

## THE VALUE OF MEDICINE IS IN ITS POTENCY

Unless a medicine is active it cannot very well perform the required service of relieving sickness. The potency and the action of a drug depend on its quality and freshness. Every drug entering a prescription must possess these characteristics. Take every prescription direct to ZOOK'S PHARMACY whose dependability is known to be equal to that of the doctor who treats you.

LOCATED IN CLAIRE HOTEL, WEST SIDE PLAZA.

## A CORROBORATION

Of Interest to Santa Fe Readers.

For months Santa Fe citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Santa Fe residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? No stronger proof of merit can be had than cures that have stood the test of time. The following statement should carry conviction to the mind of every Santa Fe reader.

Toribio Rodriguez, 110 Johnson street, Santa Fe, N. M., says: "Two and a half years ago I gave a statement for publication in regard to my experience with Doan's Kidney Pills. Today I am stronger in my praise of this remedy than ever. I suffered greatly from disordered kidneys, the pains in my back being so acute at times that I had to stop work and sit down. The trouble steadily grew worse and I rarely knew what was to be free from an ache or pain of some kind. Soon after I began using Doan's Kidney Pills, procured from Stripling, Burrows & Co.'s drug store, my pains and aches disappeared and my back was as sound and well as ever. Doan's Kidney Pills have my strongest endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## TIME TABLE ALL LOCAL TRAINS

Leave Santa Fe at 9 a. m. to connect with No. 19 from the south and west, also No. 3 from the east, returning arrive at Santa Fe 12:10 p. m.

Leave Santa Fe at 4 p. m. to connect with No. 1 west-bound, also takes passengers for No. 2 east-bound passing Lamy at 6:30 p. m. Returning arrive at Santa Fe 6:30 p. m. with No. 1's connection only.

Leave Santa Fe at 7:20 p. m. to connect with Nos. 7 and 9 west-bound, and Nos. 4 and 8 east-bound. Returning arrive at Santa Fe 11:10 p. m.

## CAREER OF LATE COL. W. R. ANDREWS.

Was Brother of New Mexico's Delegate in Congress and Was Well Known Leader.

Col. Wesley R. Andrews began his political career early in life. In the campaign of 1856 he was not old enough to vote, but he organized marching clubs and made speeches for John C. Fremont, the first presidential candidate for the Republican party. The efficiency of his work was indicated by an unprecedented majority for the Republican ticket in the vicinity where he resided. From that campaign, excepting the years he served as a Union soldier, he was identified with politics as a party worker, newspaper publisher, or official of the Republican state committee.

He was born at Sugar Grove, Warren county, Pa., December 23, 1837. At the outbreak of the Civil War he was engaged in the mercantile business. In April, 1861, he enlisted, but was not accepted. He again enlisted in 1862, in a three years' regiment, and later was commissioned a first lieutenant and regimental quartermaster. He served with the department of the Gulf until compelled to return home by serious illness.

Shortly after he returned to Pennsylvania General Lee's forces crossed the Potomac. Mr. Andrews hastened to Harrisburg, and from Governor Curtin received permission to organize a regiment of infantry. In Philadelphia he enlisted 700 men in three days.

## Recruited a Regiment.

Before he could be mustered in as lieutenant colonel an order was issued by the war department directing all officers and enlisted men to report to their regimental headquarters. When he returned to Philadelphia the battle of Gettysburg had been fought and New York city was in the hands of the mob. He reported to Major General Dix and was on duty in New York until the close of the war.

After the war Colonel Andrews again engaged in the mercantile business until 1884, when he established the Meadville Journal-Republican. This journal he conducted with signal ability for many years.

Colonel Andrews first became a conspicuous figure in Pennsylvania politics in 1895, when the opposition to Matthew Stanley Quay, under the leadership of the late C. L. Magee, Daniel H. Hastings, and David Martin, sought to supplant Senator Quay in control of the Republican organization in the Keystone state. Colonel Andrews did much effective work for Senator Quay, who won, and when elected chairman of the Republican state committee obtained Colonel Andrews' election as secretary of the committee. He retained that position until 1905. In the campaign of that year Senator Boies Fenrose retired from the chairmanship and Col. Andrews was elected chairman. He had been at the head of the state committee ever since.

## Had Wide Acquaintance.

Col. Andrews personally was very popular. He was said to have a wider personal acquaintance in Pennsylvania than any other man. In politics he was uncompromising in his views regarding party regularity. He said he detested the word "independent." He insisted that without political parties a stable government would be impossible.

He had few near relatives. Mrs. Andrews and their two daughters died several years ago. William H. Andrews, for many years conspicuously identified with the politics of Pennsylvania, and now the representative of New Mexico in Congress, is a brother.

Col. Andrews never held public office. In 1902 and again in 1906 he was urged by his friends to become candidate for the Republican nomination for governor of Pennsylvania, but he refused. He also was assured of the Republican nomination for Congress in the Erie-Crawford district, but declined to be a candidate.

He was a member of the Grand Army, the Masonic order, the order of Elks, the Junior Order of United American Mechanics, and the Union Veteran Legion. He was president of the Pennsylvania Club in Washington. Owing to the death of Col. Wesley R. Andrews, president of the Pennsylvania Club, invitations for the smoker, which was planned for next Thursday evening, have been recalled. T. Lincoln Townsend, chairman of the entertainment committee, announces an indefinite postponement.

## CARLSBAD IS ENJOYING GREAT PROSPERITY.

Carlsbad, N. M., Feb. 11.—The growth surrounding Carlsbad is making itself felt. Business houses long established here are branching out to be able to take care of more business. A new large mercantile company heavily capitalized is now being organized and in all probability will purchase what is known as the Tansill block. This is the first large mercantile building erected in Carlsbad, but for a number of years the business part of the building has not been used. This building is well suited to a large business, and in case the growth necessitates more room there is plenty of available space that can be acquired.

The new Fant building, one of the finest structures in the town, is nearing completion. It is not yet settled who will occupy this building, but it is probable that some big firm will occupy the building as soon as ready for occupancy.

## For Evening Hours The Rayo Lamp

Some of the sweetest hours of home-life are passed under the gentle, kindly light of the evening lamp.

If it be the Rayo Lamp, the light contributes an added charm—makes reading and sewing easy. There are no aching eyes after reading or sewing under the rays of the Rayo Lamp.

The Rayo Lamp diffuses a steady white light. It is the least trying of any artificial light. Made of brass throughout—nickel plated—improved central draught burner.

The Rayo is a low-priced lamp, but you cannot get a better lamp at any price.

Once a Rayo user, always one

## COLD WAS SEVERE AND PRECIPITATION DEFICIENT.

General Summary of Climatic Conditions During Last Month by the Weather Bureau in This City.

The month began with general warmth, which was followed on the 3rd to 5th by a severe and general cold wave, with temperatures much below zero in the northern counties on the 5th, 6th and 7th. The local minimum temperatures quite generally touched a lower point than during the severe cold of December, 1909, and in a few instances the lowest temperature on record. A slow return to moderate temperature followed, and, after the 10th, temperatures were moderate, as a rule, until the close of the month. A second period of high temperatures occurred from the 22nd to the 27th; the 25th was generally the warmest day of the month, although many recorded the highest local temperature on the 1st, 2nd or 24th. Rather low night temperatures obtained from the 27th to the close of the month, giving, as a rule, the greatest daily range. A general excess in temperature occurred, reaching 3 to 5 degrees a day above normal in portions of the Rio Grande valley, Grant, Lincoln and Chaves counties, and from normal to 3 degrees a day above in all other districts, except the San Juan valley and northwest, where a slight deficiency occurred, amounting to more than 3 degrees a day at Chama. The month proved to be a severe and stormy one in the San Juan valley, and along the lower reaches of the San Juan range in Rio Arriba county.

Precipitation was deficient in practically all parts of the territory, except the upper Rio Grande valley, eastern Rio Arriba, western Socorro and extreme southwest McKinley counties. A part of the territory had no precipitation, or but a trace, while nearly three-fourths had less than a quarter of an inch. Two precipitation periods occurred; the first from the beginning of the month to the 5th, and the second on the 11th and 12th, continuing to the 16th and 17th in many localities. Both were, as a rule, periods of rather local showers, and a few thunderstorms occurred during the first. This period also gave moderate to heavy snow in the northern districts and at the higher stations with the rapidly falling temperature of the 3rd and 4th.

## Temperature.

The mean temperature of the territory, determined from the records of 68 stations having a mean altitude of about 5,000 feet, was 35.7 degrees, or 1.4 degrees above normal, and 5.9 degrees below the mean of January, 1909. The highest local monthly mean was 46.4 degrees at Carlsbad, and the highest recorded was 86 degrees at the same station on the 1st. This is the highest temperature that has been recorded during January since our climatic records for the territory began. The lowest local monthly mean was 18.2 degrees at Hopewell, and the lowest recorded 30 degrees below zero at Red River Canon on the 6th, which is the lowest January record since climatic records began for the territory. Other low temperatures were: 29 degrees at Dulce, 26 degrees at Hopewell, 24 degrees at Blackrock, 23 degrees at Elizabethtown, and 21 degrees at Chama and Manuelito. The greatest local monthly range in temperature was 88 degrees at Red River Canon, and the greatest daily range 63 degrees at Gallinas planting station on the 22nd. The least local monthly range was 53 degrees at Laguna. The means for the district were: No. 7, 36.5 degrees; No. 8, 36.0 degrees; No. 9, 33.4 degrees.

## Precipitation.

The average precipitation for the territory, determined from the records of 140 stations, was 0.40 inch, or 0.24 inch below the normal, and 0.14 inch greater than the precipitation of January, 1909. The greatest monthly amount was 3.30 inches at Red River Canon, and amounts in excess of two inches were also recorded at Aspen Grove, Chama, Hopewell and Aragon. The greatest amount in any 24 consecutive hours was 1.05 inches at Aragon on the 1st and 2nd. Six stations had no precipitation and 15 had but a trace. The average snowfall for the territory was 2.7 inches. The dis-

tributed averages were: No. 7, 0.22; No. 8, 0.47, and No. 9, 0.50 inch.

The average number of days with 0.01 inch or more precipitation was 3, and there was an average of 19 clear, 8 partly cloudy and 4 cloudy days during the month. The prevailing direction of the wind was from the west, although a large number of stations reported southwest or north-west as the prevailing local direction. Quite a number of days were windy and gales were reported in various parts on the 1st, 2nd, 24th to 27th; the 25th especially being a day with high winds in practically all parts of the territory.

CHARLES E. LINNEY, Section Director.

## MEXICAN RAILROAD EMPLOYEES TURN TABLES ON EMPLOYERS.

Join the Unions as Fast as They Were Given Employment and Will Strike.

San Antonio, Tex., Feb. 11.—A wholly unexpected condition may induce the management of the National Railways of Mexico to modify its policy towards its American employees. Some months ago the system started a number of schools in which Mexicans were to be instructed in the practical field of railroading for the purpose of having them take the places of the Americans and other foreigners now operating the road. As fast as the men graduated they were put to work and found to be excellent railroad men as soon as they had gained a little experience in actual work. During the recent negotiations between the heads of the various railroad employees unions and the management of the system it developed that the latter was forcing things considerably because of the opinion that if the Americans walked out the Mexicans would be able to take care of the situation. It now appears that the Mexican railroad men have joined the unions as they were admitted to membership and that in case of a walk-out the National lines would be practically without either an engineer, dispatcher or conductor. To prevent the possibility of being forced into operating the roads under military law the Mexican employees are said to have made arrangements to cross the Rio Grande into the United States.

## WOMEN OF MIDDLE AGE

Need Lydia E. Pinkham's Vegetable Compound

Brookfield, Mo.—"Two years ago I was unable to do any kind of work and only weighed 118 pounds. My trouble dates back to the time that women may expect nature to bring on them the Change of Life. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it made me feel much better, and I have continued its use. I am very grateful to you for the good health I am now enjoying."—Mrs. SARAH LOUISIGNON, 414 S. Livingston Street, Brookfield, Mo.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

## New Mexico Military Institute ROSWELL, NEW MEXICO.

"The West Point of the Southwest." Army Officers Detailed by War Department Army Inspectors RANK SCHOOL IN CLASS "A."

## OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

### RACE SUICIDE AND STATEHOOD.

When speaking of the future prospects of New Mexico federal legislators must remember that New Mexico is not a country where race suicide is popular. Both among the older American pioneers and among the native population large families are the rule. Although the native people receive no access like do the other races by immigration, they have managed to hold more than their own in numbers in this Territory. It is very likely that the Spanish-American population of the commonwealth will show an increase of thirty to fifty per cent over the last census. Neither poverty nor hardships have caused race suicide among them. It is different elsewhere, for the Washington Herald says:

"Paris writers find a prolific subject for discussion in the mortuary statistics of the nation. The strange part of the matter is that while all concede the condition to be an alarming one, the more it is brought to the public attention, the greater the neglect of the conditions which would result in a change.

"France, as a nation, faces effacement, owing to the restricted birth rate; but each separate family feels it the duty of some other parents to be the public benefactors. Agitation has only made matters worse, and there is no indication of a change for the better.

"During the last five years the available French population increased only 330,000 while Germany's rose 4,000,000. At the present rate of decline France will occupy the lowest place among the great powers of Europe in 1950. According to a writer, Field Marshal von Moltke spoke the bitter truth when he said: 'The French lose a battle every day.'

"In 1870 France's military resources were about equal to those of Germany but in 1910 Germany can put into the field twice as many men as France. During the last six months the births in the flourishing Cote d'Or department were 2,843, while the deaths numbered 3,956. In the Yonne department, the figures were respectively 2,382 and 3,627. These figures tell their own story of depopulation.

"The writer suggests no new remedy. He blames the average French family for excessive anxiety to leave their limited progeny well provided for. He believes that if French fathers were more willing to make their sons take a chance in the struggle for life, it would put more backbone into the French nation.

"This view is philosophical, and theoretically excellent. But when it is not put into practice, there is little to be gained by its discussion. The family is the unit of population, and only the agreement among thousands of families would accomplish the results sought.

"France is not the only nation in which the native citizens are prone to look upon race suicide without terror. Statistics show that in this country the number of children to each family is kept to a normal average by the immigrants, and not by the families which have been in this country for several generations. The problem which is now France's will some day in the near future be ours, despite the injunctions of Colonel Roosevelt."

That medical examination of school children is not only desirable but a necessity is indicated by the result of an examination of the children in the public schools at Trinidad, Colo. Of 1733 children in the grade schools, 434 were found suffering from some defect of the eyesight. This in itself were not important if the defect were incurable, but it is of prime significance when it is known that the mere fact of the discovery of the defect will mean a cure in most instances or will at least prevent progression or eventually blindness. The great gain and saving to the community can not be expressed in dollars and cents, but it is self-evident, that in life, where the possession of every faculty is a condition for success, a policy that will prevent one-fourth of all children from being handicapped from the very start, is one that should be adopted by every progressive community.

Every citizen interested in the welfare of Santa Fe should attend tonight's meeting of the Board of Trade. In pursuance of its custom to have an address of local interest at each meeting, Attorney A. B. Renahan has been asked and has consented to speak on the subject of Santa Fe county's bonded indebtedness, a subject of much importance not only at this time but at any time.

### THE MOUNTAINS IN WINTER.

Few are those who are sturdy enough to roam in winter over the high sierras that leaguer around Santa Fe for the snow is deep and in the shade the cold is bitter, especially in the higher altitudes. Yet a trip to the peaks is worth while even in winter and there are grandeur which are more apparent now than during the summer. But it is not necessary to go into the gulches and ravines where the snow lies deepest but there are southern slopes that are clear and there are foothills among which may be found such splendors as the Nambe Falls, ice-locked and grand. A trip on horseback up the Santa Fe Canon or over the Tesuque Divide or up the Pecos to the Valley ranch, are exhilarating and worth while on a sunny day in winter or spring. It is to the man or woman with the energy to seek the mountains even in winter time, that the following verses appeal most:

Take me back to where the Rockies  
Lift their peaks of crested snow,  
Where the pines in requiem chorus  
Are chanting soft and low.

I am homesick, I am weary  
For the outland's winding trail,  
Leading up to heights of glory,  
Where cloud ships of sunset sail.

New Mexico will be divided into 294 enumeration districts for the census in April and May. In most instances, each enumeration district will include several precincts, except in the larger cities which will have several enumerators, Albuquerque, for instance being allotted eight, Santa Fe, Roswell, Raton, Dawson, four each, and Clovis, Tucuman and a few other towns two. By counties, the enumeration districts assigned number: Bernalillo 19; Chaves 12; Colfax 20; Curry 10; Dona Ana 10; Eddy 10; Grant 11; Guadalupe 13; Lincoln 9; Luna 4; McKinley 6; Mora 10; Otero 6; Quay 15; Rio Arriba 14; Roosevelt 10; Sandoval 8; San Juan 6; San Miguel 21; Santa Fe 18; Sierra 6; Socorro 19; Taos 10; Torrance 7; Union 8; Valencia 9. For the enumeration of mines and manufactures in the greater part of the Territory, special agents will be appointed, so that the entire census force at work during April and May in New Mexico will exceed three hundred persons. The task of selecting proper enumerators is a difficult one and the press and the public are asked by the government to co-operate with the census bureau to give New Mexico a complete and accurate census.

A former United States marshal, a man handsome and much admired by the female sex, was executed at dawn today for the murder of six persons, including a woman and three children. It is needless to dwell upon his excuse that women were his ruin, for a good woman is never any man's ruin, but it is well to emphasize that little had been a convict, was serving a life sentence for murder, but was pardoned out after serving but a short time. The nefarious practice of letting murderers out of the penitentiary on some pretext or other, is a danger to society, to which law-makers should arouse themselves. No man who willfully and with premeditation kills another should ever be given his freedom again. Not because of the doctrine of an eye for an eye, but because a man who will at any time forget himself so far or permit his passion to dominate him to such an extent as to strike down dead a fellow man, can never be trusted with liberty, for the lust of blood is in his heart. There is more than a whim in the old story of a mark being set upon Cain so that all persons might shun him. The mark of Cain is upon every murderer and it is eradicated only by his death.

It is difficult to place Democratic papers these days. The New Mexican was always under the impression that the El Paso Times has been and is Democratic to the core. It has never seen it advocate any principles that Republicans regard as a shibboleth. Yet, the Albuquerque Tribune Citizen says that the Times is not Democratic, and in this matter, the New Mexican bows to the judgment of its Democratic contemporary, for if a Democrat does not know who is a Democrat, a Republican certainly cannot enlighten him. Says the Tribune Citizen: "The other local paper makes a mistake when it heads a quotation from the El Paso Times on Bryan as 'A Democratic View of a Democratic Hoodoo.' The Times is not Democratic. It is Republican in all but name."

Both the Board of Trade and the Commercial Club have taken hold of a movement to discuss the bonded indebtedness of Santa Fe county and to co-operate in such action as will hold out the promise of relief for the tax payers. Two meetings have been called this evening, one a citizens' meeting in the Commercial Club rooms, and the other the regular Board of Trade meeting at its customary meeting place, to listen to Governor Curry, Attorney A. B. Renahan and others who know conditions, both here and at Washington, and who know more or less about the status of the indebtedness which to the average citizen is rather vague. There should be a good turn-out at both meetings and if practicable, the two sessions should be united. It is a decided disadvantage when it comes to public questions of importance to have the business community divided into two organizations and it is a hindrance that should be overcome by common sense and local patriotism.

There will be a meeting of the New Mexico Bar Association at Santa Fe, on February 28, at which officers are to be elected. As the supreme court meets the same day, and the following day, the present chief justice of the court will be inaugurated as governor, there should be a great gathering of legal lights in the Capital City on those two days. The railroads have made especially favorable rates which will result in large crowds visiting the capital at that time. What a pity that the Hotel De Vargas is not ready for these great gatherings. However, even if not available at that time, Santa Fe should not permit itself to be without its advantages of the Hotel De Vargas much longer.

According to the dispatches, Mrs. Glavis has appeared upon the scene in Washington and thereby hangs a tale. In fact, the Denver Post intimates that "Mrs. Glavis assures the world that her spouse is a swain with a roving heart and a roving eye." If she can convince the world that this is so, Glavis' case will be decided at once at the bar of public opinion, for no matter how far the world may stray from the paths of primness and rectitude, it does not believe that the man who is not faithful to his wife, can be faithful to any government or cause. Unfaithfulness in any relation of life is the unforgivable sin.

Land Commissioner R. P. Ervien yesterday turned over \$18,000 to the territorial treasurer for the public school and institutional funds. While it is merely a routine matter, yet, it is of sufficient importance to remind the people of the Territory that their lands are honestly and well administered; that the revenue derived from them is constantly increasing; that their administration is free from scandal and open as a book, despite the insinuations of certain gentlemen in Congress who fear that New Mexico would be less honest in the management of its public lands than Uncle Sam has been.

Some idea of the splendid results already quietly achieved by the School of American Archaeology under the directorship of Dr. Edgar L. Hewett, the famous archaeologist, may be gained from the few brief announcements on another page. Other matters of prime importance are pending and will be announced soon, and in themselves will convince the world that here in Santa Fe a school has been founded and a work is being prosecuted that is of the greatest interest to science and humanity.

The change of time on the New Mexico Central railroad which goes into effect on Monday, will enable people to make the trip between Santa Fe and El Paso, either way, in day time, and in less than fourteen hours. It will also enable businessmen to go to Estancia valley points in the forenoon and return in the evening. This should be a great advantage to this city commercially and if the town had a united determined commercial body it would follow up advantages such as these with avidity.

There will be a rallying of Republican leaders on next Tuesday when the welfare of the party and the phases of impending statehood legislation will be fully and frankly discussed. There may be even fireworks, but there is every indication that the Republican party is harmonious and united. No committee should fail to attend the meeting of the territorial central committee at Santa Fe on next Tuesday, February 15.

There are two thousand able-bodied men in Santa Fe. From that it must be argued that the public school fund should gain an addition of \$2,000 in the shape of poll taxes during the next few months. If the schools do not need it, they can at least, make good use of it. For instance, that long promised school building in the Fourth Ward is still non-existent.

Gifford Pinchot should cheer up. Despite his hobby, the nation loves him and believes in him and his policies. Not every one agreed with the manner that he sought to force them upon the nation, but in the main, his unselfishness and his zeal were recognized.

The report of Traveling Auditor Charles V. Safford shows that there were balances aggregating almost \$1,500,000, in the twenty-six county

treasuries of the Territory. That is certainly a splendid showing and quite different from what it was in the days when Democrats had their hands on the public till.

## PERSONAL MENTION

W. J. Brown of Little Valley, N. Y., is a sightseer in the city.

W. E. Smith, a farmer of La Veta, Colo., is visiting friends in the city.

R. S. Blevins, of Kansas City, is a tourist registered at the Hotel Modern.

H. H. Parsons, an attorney from Fort Sumner, Guadalupe county, is in the city.

H. Franklin, a promoter from Colorado Springs, is registered at the Palace hotel.

George H. Van Stone is home from a trip to different points in the Estancia valley.

S. D. Wilson, a traveling salesman from Chicago, is calling on business men here today.

O. A. Arpin is a commercial traveler from Trinidad, Colo., who is registered at the Clalce.

R. P. Rueth, a merchant and postmaster at Chamita, Rio Arriba county, is in the city.

W. R. Seidel of Rock Island, Ill., is a sightseer in the city and is registered at the Palace.

U. S. District Attorney David J. Leahy of Las Vegas has gone to El Paso, Tex., on official business.

C. L. Martin, W. J. Broke, F. H. Langdon and C. E. Bailey are Denver salesmen stopping at the Palace.

Walter Gigg of Albuquerque, is in the city looking over locations for a drying and cleaning establishment.

County Superintendent of Schools John V. Conway left this noon on a school inspection trip to Agua Fria.

Territorial Secretary Nathan Jaffa and Adjutant General R. A. Ford left this afternoon on an official visit to Roswell. They will return next week.

Judge John R. McFie and District Attorney E. C. Abbott as well as District Clerk Frank W. Shearon, returned last evening from a trip to Estancia.

Miss Louise Hayward, daughter of Mr. and Mrs. George Hayward of this city, is visiting her grandparents, Mr. and Mrs. Thomas E. Hayward at Las Vegas.

District Attorney Alexander Read, of Tierra Amarilla, Rio Arriba county, and who has recently been trying a case at Estancia, is at the Palace hotel.

Hon. Manuel R. Otero, the register of the local land office, is laid up at his home on Palace avenue. He is suffering with a cold and may not be able to be at his office tomorrow.

Mr. and Mrs. James M. Bozeman of Manitou, Okla., are registered at the Coronado hotel. Mr. and Mrs. Bozeman will visit a number of places of interest here before they return to their home.

W. D. Harbert of Colorado Springs, E. D. Parkins of Wisconsin, J. M. Lucero of El Rito, Hugh McDonald of Denver, and Ray Skinner of Colorado Springs, are surveyors registered at the Clalce hotel.

W. E. Colladay, of Chicago; O. T. Leavenworth, of Oak Park, Ill., and Herbert Shindler, of Delhart, Tex., civil engineers, are at the Palace hotel. They are interested, it is said, in the El Rito dam project.

H. Raymond Haacke left last night for El Paso, Tex., where he will begin his duties next week as managing editor of the El Paso Times, a morning paper. A number of Mr. Haacke's friends were at the depot last night to see him off. Mr. Haacke has many friends in Santa Fe and general regret was expressed at his departure.

Attorney H. R. Parsons of Fort Sumner, Guadalupe county, is in Santa Fe today on legal business. Mr. Parsons is a young man of ability and energy. He reports that the Fort Sumner Irrigation Company will put five thousand more acres under ditch this year and that the town and Guadalupe county are looking forward to a prosperous year. The dry farmers have formed a farmers' institute and will put in an experimental plot under the direction of Professor Tinsley.

John Becker, the well known Belen, Valencia county, merchant, left last night for Alexandria, Egypt and the Orient to study irrigation methods.

"H. O. Bursum, chairman of the Republican territorial committee left Albuquerque last night for New York where he will be for two weeks on personal business. Mr. Bursum will go to Washington from New York where he will probably spend some time in connection with the statehood bills now pending in the Senate."

MISS A. MUGLER Southeast Corner Plaza.

### RIVAL RAILROAD CONSTRUCTION IN STATE OF COLORADO.

Denver, Feb. 11.—The Times says: A hurried exodus of Denver railroad officials for the east yesterday has revealed plans for a fierce construction war between the Denver & Rio Grande, Santa Fe and Rock Island officials on one side and the Colorado & Southern and Burlington officials on the other.

The Colorado & Southern, in anticipation of any sudden severance of the existing joint traffic agreement between that road and the Santa Fe has located and secured final estimates on a new line between Denver and Pueblo and is prepared to throw 1,000 workmen into the field on fifteen days' notice to build a road of its own.

The situation is peculiar and may result in the Santa Fe, Rock Island and the Denver & Rio Grande making a deal to use joint terminals in Denver and to operate the southern lines under joint agreement.

### WOODY'S HACK LINE

From BARRANCA TO TAOS Meets Both North South Bounds Trains.

20

Years Ago To-day

JOHN R. DEMIER SEES STATE-  
HOOD AT AN EARLY DATE

The President today nominated Judge O'Brien of Minnesota, to be chief justice of New Mexico.

John R. De Mier, a prominent citizen of Las Cruces, returned from Washington city last night and is a guest at the Palace. Mr. De Mier used these words when questioned as to New Mexico's admission to statehood: "I found the feeling among Congressmen very favorable to New Mexico. In fact, I was surprised to find among the members and also among the department officials, a general impression that New Mexico would be admitted this session, if only our own people do their duty. We must send a delegation on there at once to talk facts and show New Mexico up in its proper light. Do this and I confidently believe that Congress will not be long in deciding to give us an enabling act. Our representative men now have a chance to do some good and effective work toward advancing the interests of this people. Every day that passes now makes the chances for admission better for the New Mexicans now there have already made a favorable showing but they need assistance and ought to have it."

Hon. Thomas D. Burns, of Rio Arriba county, now on a visit to California, has been chatting with the newspapers about New Mexico's admission to statehood. The Los Angeles Tribune prints a column interview with him.

Governor Prince is being urged to appoint an arbor day for New Mexico. The only difficulty is the difference of seasons between the different sections of the Territory. In the Mesilla valley the day should not be later than March 1, while in the northern portion of the Territory a month later would be more appropriate. However the chances are that the people will soon be called upon to show their interest in observing this important occasion. It ought to be a general holiday.

## Personal.

Hon. John R. McFie arrived from Las Cruces last night.

Judge H. L. Waldo went north last night on business.

W. J. Kitchen representing capitalists back of the Santa Fe Southern and T. S. F. & N. companies, will arrive here in a day or two to investigate the county bond question.

## Plays AND Players

## Home Life of Ellen Beach Yaw.

Perhaps there is not another singer of note in the world who has been less affected by cosmopolitan training and earthwise experience than Miss Yaw.

Her house is simple and old-fashioned. A beautiful piano inhabits one corner of the parlor, and in the other reposes a fern which is absolutely a record-breaker. Its drooping branches, falling in a green catenact to the floor, spread across a space fully six feet in diameter.

Miss Yaw speaks French like a Parisian.

She lived in Italy, sang with Caruso, and talks Italian as though she were raised on spaghetti—yet there are no Latin evidences in her house, if we except a single Italian marble statue.

In a word when she is at home she is simply a plain, old-fashioned American.

She goes about the ranch in a sun-bonnet and a gingham gown, feeding the chickens, entering into debates on orange cultivation, discussing late fertilizers and even talking over the fall plowing.

Miss Yaw is entirely practical. If the table in the broad country dining room needs clearing, she can clear it. If it is to be set, she can spread the cloth and place the dishes as deftly and quickly as the most accomplished maid.

Her own little bower is in the front yard. It is a cunning little arbor, shaded with vines and shielded from the morning sun by prickly spines of a colossal cactus that rises fully thirty feet above the ground. Within the wee house all is coziness and daintiness. Score of pictures hide the weather-beaten framework, and a small writing desk, in a corner, bears materials which testify abundantly to this great little singer's love of correspondence.

## "Gingerbread Man."

Those who have heard her recently say that her triumphs in Europe have left her unspoiled. King Edward said of her: "She reminds me of a flower," but it is a flower that flourishes best in its native soil and sunshine.

Very few comic operas of recent years have given such unbounded satisfaction as "The Gingerbread Man." This piece was originally presented some three years ago by a millionaire at Malden, Mass., by the name of Converse, who put something like one hundred thousand dollars in its production and the first year it toured the country the entourage was so elaborate that no theater could hold sufficient money to pay its expenses. It, of course, made an unusual hit as the production was magnificent. It also demonstrated the fact that the music was of unusual quality and so pleased everybody that they were anxious to see it again and again. Some of the numbers were classics in a way and formed part of the nucleus of many individual music libraries. Music stores had a large sale and everybody was whistling the "Gingerbread Man." The book by Frederick G. Ranken is rather fantas-

tic in character, yet it served to hinge together a lot of clever lyrics and some very funny comedy, and the characters of "Margery Daw," "Simple Simon," "Jack Horner," "King Bunn," regained their standing in almost every household that had been represented at the performance of this clever opera.

"The Gingerbread Man" received a royal welcome everywhere, and its catchy songs and amusing sayings were repeated by everybody. "Every Little Something," "Do You Believe in Santa Claus," "Old Ramesses," "John Dough," and other songs in the piece were frequently quoted and seemed to have an uncommon vogue for a long time after the opera had left the city, and demonstrated the fact that the whole fabric of the piece is built on uncommon lines and that genuine comic opera properly presented has longevity and will continue to please long after the so-called musical comedy vogue has passed out.

The original No. 1 Company will be seen on its presentation here at the Elks theater tomorrow night.

## ALAMO CITY HAS GONE AVIATION-MAD.

San Antonio Has Big Crop of Aeronautes Some of Whom Have Had Fairly Good Success.

San Antonio, Texas, Feb. 11.—This city is literally aviation mad. Though most of its citizens have surveyed Mother Earth in the past from no higher an elevation than it afforded by the cow punchers saddle, they have taken an interest in the man-made things that fly that amounts to practically a craze. Not a few have built aeroplane-things that came to grief, a few feet above terra firma; and those that have not egged the daring ones on with encouragement bordering on recklessness. San Antonians had their first taste of aerial venture and honor when one of their citizens, Dr. Fielding, carried off a trophy for long distance sailing in a balloon, three years ago. Shortly after that the aeroplane made its general appearance and within a short time everybody of a venturesome turn of mind was building kites. Prentice Newman was one of the first to enter the field. Like all of them he had something new to offer. His machine was to keep its equilibrium under all conditions, but failed to do so. During a trial trip he had it towed by a powerful automobile. After ascending to a height of about 100 feet the rope harnessing the flyer to the automobile broke and the equilibrium aeroplane dashed to the ground losing most of its identity and giving the operator and inventor a severe shaking-up. Other kites built by the same man served merely to demonstrate his pugnacity—the equilibrium feature refusing to materialize.

The next inventor and aviator in the field was J. W. Oman. He entered the market with a contrivance that would have delighted the heart of Jules Verne. His was not a matter of sticks and canvass and high ten-

sion piano wire. The apparatus was to be built of steel and aluminum, and obviously answering Navy and War Department specifications it could rise from ground or water without the initial plunge forward of the ordinary variety of aeroplane. Helicopters were to lift the thing bodily off the ground, carry it into the realms above and hold it there until the momentum of the whole would be great enough to permit it to glide on the planes. The Oman enterprise went as far as the formation of a company and the subscription of funds. Orders were placed with manufacturers of the material needed, powerful motors were inspected, and so far the Oman airship is still a thing of the future. According to all indications the motor powerful and light enough to make the Oman airship, for airship it was, possible, has not been found yet.

A. Herff, Jr., was the next to try his hand at aviation. He, too, was prompted in this by a desire to make the aeroplane a safe thing, something that would not detract from the value of a life insurance policy. What is more he succeeded in doing this to some extent. His kite, having wings somewhat curved and other appurtenances positively refused to come down sideways. Law of gravity, however, sent it on a forward-downward course that proved disastrous for the reason that plane and earth met too soon. For all that Mr. Herff's machine gave great promise.

Among the latest inventors is Captain A. W. F. McMannus, U. S. A., retired. It may be said that he has made real progress towards the settling of the equilibrium problem. Using the principle of gravity he has shown his machine to be a decided improvement upon others. The weight carried is suspended from the plane frame by pivots, an arrangement insuring perfect load distribution at all times and under all conditions. The arrangement is extremely simple and effective and leaves to the operator only the choosing of his course. The remarkable qualities of the McMannus machine were definitely demonstrated a few days ago in a model towed behind an automobile.

But San Antonio is getting a little tired of its home talent. Uncle Sam has been induced to establish an aerial navigation station at Fort Sam Houston, where after the 15th of this month daily performances will be given with a Wright aeroplane in charge of Lieut. V. D. Foulis of the signal corps. The big sensation, however, will be a great aviation meet on April 21 to 24. Among those who will fly then are: Glen H. Curtiss, Charles H. Hamilton, Clive H. Willard, three other big men of the aid and possibly Paulhan. Aeroplanes, dirigibles and statics will compete.

## ALBUQUERQUE TO HAVE AVIATION MEET NEXT WEEK.

Energetic Campaign to Be Made at Once to Raise \$2,500 for a Guarantee.

Albuquerque, N. M., Feb. 11.—An aviation meet for Albuquerque, with C. H. Willard and C. K. Hamilton, two of the stellar attractions at the recent meet in Los Angeles, and who are now booked for three days' flying in Phoenix, as the men who will make the flights in the aeroplane, is the proposition made to the city by K. L. Bernard, a member of the Aero Club of America, who is at present connected with Nat Reiss, the well known carnival man. Mr. Bernard arrived yesterday from Phoenix, where he completed all arrangements for the meet which will begin there tomorrow and continue for three days. The Phoenix meet took like wild fire from the very first and when Mr. Bernard left there was every indication that an immense crowd of people from all parts of Arizona would attend and

witness the flights. Mr. Bernard proposes to bring Mr. Hamilton and Mr. Willard to Albuquerque and have them give a two days' meet, which by the way will be the third in the United States, the other two being the Los Angeles and Phoenix meets. A guarantee of \$2,500 is asked of the citizens of Albuquerque, which is indeed a small sum for an attraction of such magnitude and one which is bound to attract thousands of people from the surrounding country. Mr. Bernard was taken about the city yesterday by the City Clerk John B. McManus, and M. O. Chadbourne, manager of the Albuquerque Traction Company, and introduced to a number of business men. On every hand expressions of pleasure at the proposition were heard and it is quite likely that it will be accepted and a committee begin work today to secure the necessary guarantee to assure the attraction. It is almost a certainty that it will not be necessary to ask any one to donate any actual cash. Taking Los Angeles and Phoenix as an instance of what a big noise an aviation meet makes and the large crowd of people who turn out to see it, it is almost a foregone conclusion that the \$2,500 will be taken in the first day.

Providing the guarantee is satisfactorily arranged for, the meet will be held here between February 18 and 22. As soon as it is definitely announced that arrangements for the attraction are completed an energetic campaign will be begun throughout the territory to notify the people of the exact date of the meet. Nothing within the past quarter of a century has created such an interest among all classes of people as the development of the flying machine. Every one who has ever heard of a bi-plane, an aeroplane, or any kind of an aviation machine will want to come to Albuquerque and see Willard and Hamilton make their ascensions.

## NEW IDEA IN UNITED STATES MONEY ORDERS.

Ingenious Plan Which Will Avoid Delay Customary at Large Postoffices.

Spokane, Wash., Feb. 11.—J. E. Whitfield, a suburbanite of Spokane, believes that he has hit upon a mailing device that will facilitate the transmission of money orders from suburbs of cities to their destination. The device consists of a strip of strong paper with three folds, one fold being perforated. At one end the edges of the strip are gummed and project a full half inch. At the lower edge the usual form of instructions to patrons of the money order department is printed, with the usual blank upon which the request is made. The whole device is sealed to the back of the envelope carrying the letter to the addressee. Before the latter is mailed from the postoffice the perforation is cut and the money order issued inclosed again and the flap sealed. Whitfield's object is the saving of time, as it now takes nearly a day and a half to get an order dispatched on its way. Samples of the device have been mailed to Representative Miles Pindexter and his aid has been solicited at Washington, D. C., where it is hoped the matter will be brought to the attention of the postmaster general. "I am willing to donate the idea free of charge if it is possible to make use of it," stated Whitfield.

## CENTENARIAN IS SUFFERING WITH THE HOOK WORM.

Although Sufferer is 102 Years Old an Effort Will Be Made to Restore Her to Health.

San Antonio, Texas, Feb. 11.—During an inquiry into the mental state of Ellen Reece, an old, pre-war time aunty 102 years of age, the fact was brought out that for years she had been in the habit of eating a mixture of clay and sand, said to be the principal symptom of the hookworm disease. The old woman, weakened and little more than a skeleton, was examined by a physician, who announced it as his opinion that her advanced state of senility was partly due to the ravages of the parasite. An effort will be made to restore her to health.

## GORGONIO GARCIA IS HELD TO GRAND JURY.

Atrisco Man is Accused of Stealing Cattle and is Bound Over in Sum of \$2,000.

Gorgonio Garcia, arrested late Tuesday night near Atrisco, by a posse of the people of that village, charged with stealing cattle, was given a preliminary hearing before the justice of the peace at Atrisco yesterday afternoon and was bound over to the grand jury in the sum of \$2,000. He was held under \$2,000 bond on one charge and \$1,000 on the second. Unable to furnish the bond Garcia was returned to the county jail. The two companions alleged to have been with him when a bunch of cattle gathered up about the district were being driven away have not been apprehended.

## GLEANINGS BY A PERIPATETIC PEN

A Narrow Escape—On the editorial page of the Santa Fe New Mexican last week we saw two items that brought up rather odd recollections and whimsical speculations. One was an item in reference to ourself; the other mentioned Mrs. Carrie Chapman Catt, the honored president of the National Woman's Suffrage convention. It is over a quarter of a century since these two names or rather these two persons, since her name was Carrie Lane, figured on the same page. Both were candidates for the office of county superintendent of Cerro Gordo county, Iowa, in the year of grace, 1883, and we confess with shame that we were ungallant enough to carry the election against a lady by some 500 majority. She was nominated on the Democratic ticket and we on the Republican. Now, just let us notice on what small hinges one's destinies may turn. Suppose Cerro Gordo county had been Democratic, and Miss Lane had been elected to the office of county superintendent. After plowing through the snow drifts of Arctic Iowa winters for a spell she would probably now be running a paper at Obar, while we would no doubt be at the head of the Woman's Suffrage Association, succeeding Susan B. Anthony. We shudder, even now, when we realize that we escaped such an awful fate by the narrow margin of 500 majority.—Obar Progress.

## WANTS

FOR RENT—Four room house. Apply 224 Agua Fria St.

WANTED—By capable, energetic business woman—good correspondent, double entry bookkeeping, etc. Any kind of office work for all or part of time. Will keep small sets of books by contract. Address "E" care of New Mexican.

## OFFICIAL MATTERS

## Forest Service Examination.

Who wishes to have a \$1200 job in the forestry service with residence at Santa Fe? Uncle Sam will get an answer to this question by holding a civil service examination here March 16 and 17 to fill a position created for a forest clerk. Only men will be eligible and they must be from 18 to 40 years of age and free from tuberculosis or any other serious physical defect.

Secretary Parsons of the local board of examiners has received the following announcement concerning the examination from the United States civil service commission in Washington:

"The United States civil service commission announces an examination on March 16-17, 1910, at the places mentioned in the list printed hereon and at the additional places mentioned below, to secure eligibles from which to make certification to fill vacancies in the position of forest clerk (male) at an entrance salary of \$1,100 or \$1,200 per annum in the forest service at the places mentioned below, and vacancies requiring similar qualifications as they may occur, unless it shall be decided in the interests of the service to fill any or all of the existing vacancies by reinstatement, transfer, or promotion.

"In addition to the places mentioned in the list printed hereon, the examination will be held at the following named places: Douglas, Ariz.; Harrison, Ark.; Redding and Marysville, Cal.; Salida, Colo.; Sandpoint, Idaho; Carson City, Nev.; Santa Fe, N. M.; Rapid City, S. D.; Olympia, Wash.; Rock Springs, Wyo.

"Many of the places of employment are desirable from a residence standpoint. The forest service does not furnish either houses or subsistence. Appointees will be expected to report at places of employment at their own expense."

Vacancies in New Mexico. While there are many places where this position will be open the following are named in New Mexico: Jemez and Pecos forest, Santa Fe; Alamo forest, Alamogordo; Gila forest, Silver City; Lincoln forest, Capitán; Manzano forest, Albuquerque, and Zuni forest, Gallup.

## NOTICE.

Department of Territorial Engineer. Number of Application 357. Santa Fe, N. M., Jan. 12, 1910. Notice is hereby given that on the 8th day of December, 1909, in accordance with Section 26, Irrigation Law of 1907, the Denver and Rio Grande Railroad of Denver, County of Denver, State of Colorado, made an application to the Territorial Engineer of New Mexico for a permit to appropriate from the public waters of the territory of New Mexico.

Such appropriation is to be made from Arroyo de la Petaca at points N. 5 degrees, 59 minutes W. 65 ft from a point which bears S. 51 degrees, 45 minutes W. 4055 ft. from N. E. Cor. of Sec. 22 T. 28 N. R. 9 E., by means of diversion and storage and 1.9 cu. ft. per sec. and or 15.54 ac. ft. is to be conveyed to station building, section houses, etc., at Tres Piedras, N. M., by means of pipeline and there used for domestic and mechanical purposes.

The Territorial Engineer will take this application up for consideration on the 12th day of April, 1910, and all persons who may oppose the granting of the above application must file their objections substantiated with affidavits (properly backed with application number) with the Territorial Engineer on or before that date.

VERNON L. SULLIVAN, Territorial Engineer.

## Minor City Topics.

(Continued From Page Two.)

Remember Valentine Day February 14. Weltmer has them.

Noon Trains Late—The Santa Fe trains from the south, west and east, due at noon, were an hour and a half late this afternoon.

Bids for Masonic Temple—Bids for the Masonic temple at Albuquerque were opened yesterday and ranged from \$43,000 to \$56,000.

Lincoln's Birthday—Tomorrow is Lincoln's birthday anniversary, a legal holiday in a number of states, but not in New Mexico.

"Day Light train to El Paso," via the New Mexico Central Railroad. See advertisement in this paper. Train leaves Santa Fe at 8:45 a. m.

Permanent Photographs—Attention is called to the advertisement of Carlos Vierra, the photographer, who tells of the advantages of platinum prints.

Mrs. Morley's Dancing Class—Mrs. Morley's dancing class will meet tomorrow afternoon at the usual hour instead of this afternoon as had been announced.

Purse Found—Postmaster S. B. Grimshaw found a purse with money in the postoffice lobby. Owner can have it by proving property and paying for this advertisement.

Soliciting Funds—Boy baseball fans were out today soliciting funds for a team to be captained by Frank J. Yardman and managed by Charles Armijo. The person who gives the most money to help the team buy uniforms will have the privilege of naming it.

Santa Fe County Indebtedness—This subject will be discussed this evening by Attorney A. B. Rencan at the meeting of the Santa Fe Board of Trade which will be held at eight o'clock, in the offices of the Santa Fe Water and Light Company. All are invited to attend.

Messenger Boy Shot At—William Lancaster, a messenger boy at Las Vegas, last night not only had three large dogs set on him but was also shot at by a woman who was frightened because Lancaster knocked vigorously at a door in order to deliver a package of medicine.

Funeral of Albuquerque Businessman—The funeral of David A. Bittner, a businessman of Albuquerque, formerly of Allentown, Pa., took place yesterday afternoon, the services being conducted by Rev. Hugh A. Cooper of the Presbyterian church. Mr. Bittner had a number of friends in Santa Fe.

Granted a Divorce—Mrs. Ruth Albrow Howard of Columbus, Luna county, was granted a divorce at El Paso, Texas, from her husband, whom she had married last spring against the advice and over the protests of her relatives. The husband is now languishing in jail on the charge of carrying a concealed weapon.

Governor Curry Will Be There—Governor Curry has promised to address the Board of Trade tonight on the subject of the Santa Fe County Indebtedness in relation to the statehood bill. All are invited to attend the meeting which will be in the offices of the Santa Fe Water and Light Company at eight o'clock.

Mrs. Phillips Dead—Mrs. Mathilda Phillips died of tuberculosis this morning at Sunmount Sanitarium at the age of 35 years. Mrs. Phillips came here some time ago from Kimball. She is survived by her husband and five children. Her body will be sent to Kimball this evening for interment. Undertaker J. D. Mulligan having prepared it for burial.

Lots of Fresh Paint—There is a good deal of fresh paint around the federal building and those who go there on visits know it. If they do not they soon find it out. The workmen have made many improvements but still there is much to be done before the furniture can be moved back from the halls to the offices. Several offices are crowded into one and it is amusing to see the difficulties under which government officials work on their reports. One official who wears a dark suit came in contact with a freshly painted door and now his friends tell him he has set a new fashion in stripes.

Prosperous Torrance County—Judge John R. McPhe who returned last evening from holding court at Estancia, was exceedingly pleased with the outlook in the Estancia valley. There has been ample moisture and people are taking new heart. They look forward to a very prosperous year and are putting large areas under plow. In every direction the homes of homesteaders are in view and the scene is one fair to look upon. The settlers are mainly of a high, progressive class. The term of court was a busy one as it was the first term in two years, but the absence of many witnesses at that time, prevented disposing of a number of important cases. Several men, who were to have been tried, have been lodged in the territorial penitentiary for safe keeping.

A Big Company—Judging by the reports received from railroad officials the Gingerbread Man Company is really a large one and those who turn out to see its performance tomorrow night will probably escape disappointment. It is sad to relate but none the less true that many advance agents of "shows" promise 75 persons when there are one-third that number and the dear public is simply taken in. "The Gingerbread Man" is called a fantasy, but the characters are all logical and ones that we can readily associate with those that good authors have presented to use from time to time. The story of the piece is

couched in good and entertaining dialogue—the epigrams are numerous and well formed, and the humor of a delightful turn, helped along with good lyrics and tunes that have an undeniable and pleasant lift, and that can scarcely fail to please the most exacting, the musically cultured or the mere seekers of entertainment.

Seven Indian Skeletons—While digging a well on the Graftenreid ranch near Buckman, Guadalupe county, seven Indian skeletons were unearthed. With the bones were found a prehistoric flint hatchet, arrowheads and Indian pottery. There were also a number of metates.

Broke Leg at Depot—Mrs. W. F. Morrisette, while trying to alight on a Santa Fe passenger train at Sabinal, Socorro county, to go home to Belen, fell and broke her right leg.

## ANOTHER MURDER MYSTERY IN DONA ANA COUNTY.

David Guaderrama Arrested on Suspicion of Knowing About Disappearance of Pena.

Las Cruces, N. M., Feb. 11.—David Guaderrama, son of Jose Guaderrama, Sr., who keeps a store at the smelter in El Paso, was brought here from Anthony Tuesday night and is now under arrest on suspicion of being implicated in the mysterious disappearance of Ignacio Pena, who disappeared Saturday night. Guaderrama is a barber at Anthony and is a brother of Jose and Avilino Guaderrama, of Anthony. Nothing has been heard from young Pena since he left the dance at Anthony Saturday night. It was reported at Anthony Tuesday that his body had been found in the river near Anthony, but this was found to be a false report. A search of the country surrounding the Anthony ford has been made and the river dragged but nothing has yet been found by which the body of the young Mexican might be located.

Sheriff Felipe Lucero returned to Las Cruces but before he left, a number of clues were discovered. At the river near where a fight had evidently taken place evidences of a struggle were discovered. It is reported that a pair of shoes upon which mud stains were found had been discovered in a saloon at Anthony and also a saddle blanket upon which there were marks resembling blood stains, were found in a corral there; also the horse of William S. King which disappeared the night of the dance.

Pena, the young man who is thought to have met with foul play, was a witness in a case which was brought against David and Avilino Guaderrama and Liberato Garcia some time ago for alleged theft of alfalfa seed.

SE NECESITA—Un colector y vendedor. Buena oportunidad para un hombre propio. Aplique a la Singer Sewing Machine Co., en la ciudad.

## EXPLOSION OF CHARGE ON BOARD BATTLESHIP.

Washington, Feb. 11.—The explosion of a charge which was being hoisted into one of the guns of the battleship Virginia while that vessel was firing a salute off Guantanamo, Cuba yesterday, resulted in the severe injury of J. Irben and L. W. Brunner, gunner's mates. Irben's arm had to be amputated above the wrist.

## HAGGIN WILL AGAIN ENTER RACE TRACK.

New York, Feb. 11.—The orange and blue of the Haggin establishment will again be seen this season on eastern tracks. James B. Haggin, a long time and most extensive breeder of thoroughbreds in this country will race a considerable string of horses over the tracks of the Jockey Club. His string, including a dozen horses of his own breeding, are at present in care of his veteran trainer, Charles Littlefield at Sheepshead Bay. Several years ago, the Haggin colors were famous, but of late years, Mr. Haggin has turned his attention more to breeding and marketing horses than to racing.

## MANY LIVES LOST IN FRENCH STEAMER WRECK.

Palma, Majorca, Feb. 11.—The French trans-Atlantic steamer General Chancy from Marseilles, has been wrecked on the north coast of this island. It is reported that only a single passenger was saved out of all persons on board.
