A Journal Devoted to the Interests of Lincoln County.

VOLUME 12.

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, MAY 12, 1911.

NUMBER 14

Grand Jury Report.

To the Honorable District Court, sitting in the Town of Carrizozo, Lincoln county, New Mexico:

The Grand Jurors, after sitting for nine days and having examined all offenders of the law, we wish to render a report. Having examined and thoroughly looked into the cases coming before us, we submit to you 46 true bills, 18 no bills and 153 witnesses examined.

We have appointed committees who have examined the county officials, and herewith submit the reports of same. We also wish to call special attention of the Court to the report of the committee on the jail. Also the sworn statement of the deputy health officer, Dr. J. W. Laws.

We also wish to congratulate the county on the excellent work which has been done on the county roads by the county road commissioners.

We, the Grand Jurors, extend our sincere thanks to the Honorable District Court, District Attorney W. H. H. Llewellyn, Miss Llewellyn, reporter, and William Brady, interpreter, for their kindness extended to the Grand Jury while in session.

Having no further business we beg to be discharged.

Signed: T. K. KIRKLAND,

Foreman of the Grand Jury.

In considering the many cases brought before this body, and which said cases come from the Justice Courts of the county, we have found that quite a number are cases wherein the Justice Court has jurisdiction to finally dispose of same. Of this class of cases several were for carrying deadly weapons, and notwithstanding the Justice had final jurisdiction the cases were sent to the Grand Jury, incurring the expense of a large number of witnesses, and if a trial is had the expense of the jury is fastened on the county.

We recommend that each Justice of the Peace in the county be furnished with a copy of this report and that the Judge of the District Court is most respectfully requested to make mention of this matter in accepting the report of the Grand Jury, to the end that as wide publicity as is possible may be given the important matter.

There is no sense or reason in

a Justice of the Peace binding defendants over to await the action of the Grand Jury, where he has full, complete and final jurisdiction.

Another matter that would aid the Grand Jury is for justices of the peace to supply themselves with a full line of printed blanks, such as complaints, warrants, &c.

We recommend that the county commissioners furnish each justice with a set of the same as it would save the county hundreds of dollars in the matter of witnesses fees. In two cases from the Justice of Peace Courts, civil cases were docketed as criminal cases and the error was not discovered until the witnesses appeared before us.

If the blanks are printed and headed "Criminal Complaint," the errors could not be made.

To the Honorable E. R. Wright, Judge of the Sixth Judicial District, Carrizozo, Lincoln County, New Mexico.

Sir: We, the undersigned committee, appointed to examine the office of county treasurer of Lincoln county, beg leave to make the following report:

We find the books in first class condition, properly balanced at the end of each month, and the balance in different banks are as follows:

Exchange Bank of Carrizozo.....	\$40,463.42
First National Bank of Roswell.....	7,150.00
H. Lutz & Co., Lincoln.....	5,000.00

Total May 1st, 1911.....\$52,613.42

This amount corresponds with the different balances in the different funds of the county.

The court fund had a balance on the first day of May, 1911, of \$8,402.98.

William Kahler, Jr.,
Boni Kimbrell,
J. F. Morris,
Joseph Coleman.

Report of the committee to investigate the office of the probate judge:

We, the committee appointed to investigate the office of the probate judge, in which Hon. Doroteo Lucero is the probate judge of said court at Lincoln, Lincoln county, New Mexico, not having any other way in which to examine said office, we have investigated the interpreter of the said probate court, William S. Brady. Said William S. Brady

SANITATION IN PANAMA.

All the world is aware, in a general way, that sanitary conditions in the Panama Canal Zone have been vastly improved since American methods, applied by Americans, were introduced in that region. Indeed, it is quite generally understood that the former conditions down that way could not properly be designated as "sanitary" at all, says the Manchester Union. From time to time have come reports, official and otherwise, of the advancement that has been made, and the public has been kept fairly well informed in that respect. Many there are who have not forgotten the waggish and rather unkind intimation of a few years ago that the first health officers who went from the United States to take up the work of sanitation in Panama anchored their ship at a very safe distance from the shore and—remained on board the ship. There is no occasion for staying outside the three-mile limit now for fear of encountering a pestilence. The mortality rate among residents of the Canal Zone shows a definite reduction from year to year. A correspondent of the Boston Medical and Surgical Journal states that in 1904, when the population was small, there was a death rate per 1,000 of 15; the following year a somewhat higher rate, about 65 per 1,000, and in 1908 it had dropped to 24 per 1,000; last year, 22 per 1,000, corresponding favorably with the mortality in any of the large American cities.

"The world owes no man a living, but every man owes the world an honest effort to get one." It is hard to drum this into the creditors instead of the debtors of society, but it would do them, as well as their neighbors, a vast amount of good if they would allow it to soak in. Nothing contributes quite so much to collective prosperity as individual industry, says the Omaha Bee. What every fellow feels the same need for persistent personal effort on his part as he feels for his friend, community of interest becomes something more than mere phraseology. This is an end toward which society has to work to realize its best ideals. It would help vitally if all of our philanthropists and reformers would make the most of this principle. Indeed, they do a poor work whenever they fail to. No beneficence is worth while that does not recognize the necessity of helping others to help themselves. It is not simply charity that is so much needed. Eleemosynary institutions that accomplish most proceed on this self-help theory.

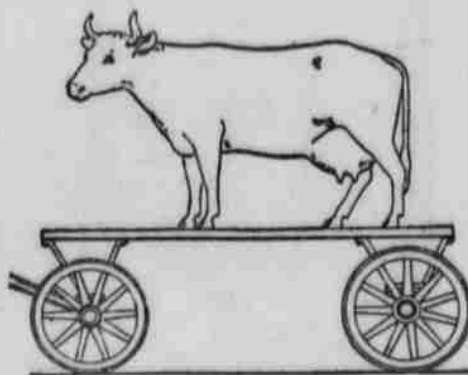

Persia is no exception to the rule that progress toward a more liberal political regime is attended by bitter reactionary opposition. Sometimes this hostility does not stop with passive resistance but takes the form of murderous action. Several years ago a Premier was assassinated; more recently attempts have been made on the lives of other prominent officials, and the other day Sanli ed Dowleh, the minister of finance, was shot dead in the street in Teheran by assassins who also killed two policemen and fled. The slain minister had been active in recent reformatory efforts, and there can be little doubt that he fell a victim to those opposed to modern methods in Persia.

DAIRY

MILK CART THAT IS CURIOUS

Device Resembles Life-Sized Cow in Which Product Is Stored and Kept at Right Temperature.

A curious idea for milk carts is contained in a patent, applied for in 1898, says the Popular Mechanics. Just what it is intended for is told by the inventor himself: "My invention is a new and useful improvement in milk refrigerators and delivery apparatus, and has for its object the provision of a device that resembles a life-sized cow, in which milk may be stored and kept at a proper temperature, and from which it may be drawn as occasion requires after the manner of milking a cow. Within the body are receptacles or compartments, each of which is provided with a cover and adapted to contain the desired quantity of milk. By the use of two receptacles two qualities of milk may be stored at the same time, such as sweet milk and buttermilk. In the bottom of each of the receptacles is located a valve having a spring for normally holding it in place, so as to prevent the downflowing of the milk. Each of the teats has a toggle-lever

Cow Gives Ice-Cold Milk.

connected to a lift-rod, and when the latter is raised the valve is lifted and the milk flows out of the teats. By proper manipulation of this device a realistic representation may be had of the milking of a cow.

"The portion of the body of the imitation cow not occupied by the milk receptacles is utilized for the storing of ice to maintain the milk at a proper temperature. The imitation cow stands riveted to a wagon platform and is drawn through the streets in the same manner as an ordinary milk cart."

Homogenized Milk.

To destroy the power of cream to rise on milk is the purpose of the "homogenizer." This machine forces the milk through narrow orifices against a polished agate plate, says the Agriculturist. This method crushes the fat globules and so incorporates the fat with the rest of the milk that the cream does not rise. It is claimed not to be practical to extract much fat, even by a centrifugal separator from milk so treated. Such milk is said to be more easily digested and its cream will not separate on standing. It is also claimed to stand sterilizing by heat more satisfactorily than untreated milk. Cream, ice cream, condensed milk and buttermilk are treated by this machine. Cheese can be made from homogenized milk, including, of course, all the fat.

Capacity of Swiss Cow.

It is claimed a well-bred Swiss cow weighing 1,200 pounds, fed on the rich nutritious mountain grasses, will give an average of ten quarts of milk per day for ten months or 750 to 800 gallons, besides raising a thrifty calf.

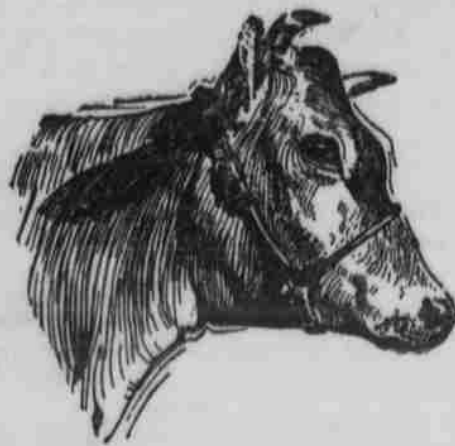

WHICH IS BEST DAIRY BREED?

Question Often Asked and Never Satisfactorily Answered—Selection of Individual Is Vital.

How often does that question come up? It is constantly asked, and never satisfactorily answered. Which girl will make the best wife? There are a host of men trying to find out.

On the cow question the following classification by Prof. F. E. Woodward of Utah is comprehensive, fair and just:

Ranked with reference to the amount of milk produced, the breeds stand as follows: Holstein, Ayrshire, Guernsey and Jersey. With reference to richness of milk: Jersey, Guernsey, Ayrshire, Holstein. With reference to color of milk: Guernsey, Jersey, Ayrshire, Holstein. With reference to size: Holstein, Ayrshire, Guernsey, Jersey. With reference to early maturity qualities: Jersey, Guernsey,

Ferris Golden Winnie.

Ayrshire, Holstein. With reference to ability to rustle for a living: Ayrshire, Jersey, Guernsey, Holstein.

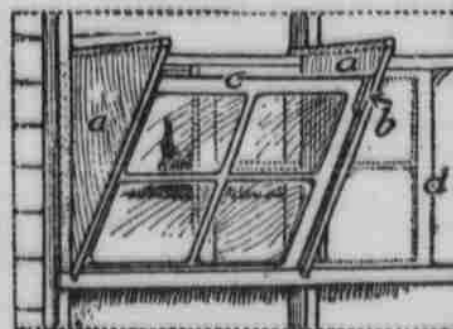

There is very little difference in the amount of butter fat that is produced on the average by various breeds. There is a great deal more difference between the individuals of a breed than between the breeds. Good cows are found in every breed. And poor cows are found in every breed. A good Holstein is better than a poor Jersey, and a good Jersey is better than a poor Holstein. The selection of a breed, then, is not of so much importance as the selection of the individuals within the breed.

The illustration shows the head of Ferris Golden Winnie, a champion 2-year-old Jersey Heifer on the Wisconsin state farm.

DAIRY WINDOW IS IMPORTANT

Practical Arrangement Is Shown in Illustration to Prevent Draft on Cows While in Barn.

Dairy cows should never have a draft on them in the barn, so I had my windows made in such a way that they can be opened from the top, as shown by c, says a writer in Farm

Modern Barn Window.

and Home. The carpenters attached a three-cornered board, a a, at each side of the window to prevent wind coming in from the sides when the window is open. There are cleats, b, on these boards to hold the windows at the proper place. In the summer I like to have the windows wide open. I don't care then if there is a draft through the barn, so these windows were put in loose and can be opened at one side, as shown by d.

HOW TO MAKE SALADS

STANDARD KINDS OF POTATOES AND OTHER VEGETABLES.

Bonbon, Hazienut and Sweetbread Salade Are More Unusual, but Are Not Very Difficult to Mix.

Vegetable Salads.—While the many excellent cook books on the market give various good recipes for salads, it is from the real cooks themselves that we get the gems. The unusual salads are, as a rule, a rather expensive luxury for everyday use, the fish salads and meat salads are fairly well known, the vegetable salads are also becoming well known, such as asparagus, cauliflower and the macedoine of vegetables. The ever welcome potato salad is always a standby for the young housekeeper in making up her daily variety. The fruit salads are not always as popular as they should be, for many feel that just before the dessert course they take away the zest for the sweet to follow. Perhaps this is true, but they are so healthy that this should be their excuse for being.

Bonbon Salad.—Shape small-sized balls of new Pimento cheese and roll them in finely ground pecan nuts, press a half white grape on either side of the cheese. Allow six to a portion arranged on white lettuce leaves and cover with heavy mayonnaise, to which a little whipped cream has been added just before serving.

Hazienut Salad.—Shell and blanch one pound of hazienuts and grind half of them fine in a grinder. Grate a half of a pineapple, mix with the nuts and a tablespoonful of sherry, juice of half a lemon and a tablespoonful of powdered sugar. Let stand one hour, then drain and add a package of cream cheese, mix to a paste, then make into balls with a whole nut in the center of each, pile on white lettuce leaves and cover with mayonnaise.

Sweetbread Salad.—Parboil, blanch and chill one good pair of sweetbreads and cut them into small pieces. Grind fine one dozen salted almonds, six olives, one green pepper and one sweetbread with the juice of a lemon, gherkin pickle. Add these to the juice of one onion and a wineglass of sherry. Let stand one hour, then drain and serve in green pepper cases with mayonnaise dressing.

The invariable rule of good salad making is to have all of the ingredients ready, but not to mix the salad until the last possible moment. Of course, celery, where it is used, holds a salad up pretty well, but if dressed too long it is bound to grow wilted and unappetizing.

Tamale Pie.

Take one large chicken, joint as for fricassee, salt and pepper each piece and roll in flour. Have ready a frying pan, containing part lard and part butter; fry each piece of chicken in this until brown, then place chicken in stew pot and add one can of tomatoes; one large onion that has been sliced and fried; two or three red or green peppers, and a small piece of garlic; add a little water and the gravy that the chicken was fried in. Let stew until tender. Thicken gravy and turn into baking dish, take one cup of olives and drop them into the stew, slice four hard boiled eggs over top, and cover with rich pie crust and bake.

Date Gingerbread.

One cup molasses, half cup sweet milk, two and one-half cups flour, half cup butter, two eggs, one-half teaspoonful of any kind spice preferred, one teaspoonful soda dissolved in two teaspoonfuls vinegar. Beat thoroughly and add one pound of dates. Bake in a moderate oven.

BETTER TEETH FEWER DENTIST'S BILLS

Your teeth decay because particles of food get into crevices between and around the teeth and create germs of decay. Ordinary tooth powders and washes are entirely inadequate to prevent it.

Try Paxtine Toilet Antiseptic, a delicious, harmless germicide. Just a little in a glass of water, and rinse the mouth and brush the teeth thoroughly. It will whiten the teeth, prevent and remove tartar, destroy all germs of decay and save you dentist's bills.

Paxtine thoroughly cleanses, deodorizes and keeps pure and odorless false teeth and bridgework. Paxtine is far superior to liquid antiseptics and peroxide for all toilet and hygienic uses. His Interest.

"You are going to interest yourself in this reform enterprise?"

"Certainly," replied Senator Sorghum.

"It is. And I'm going to interest myself in it far enough to let me offer suggestions that will render it impractical."

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgment.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

JUAREZ HAS FALLEN.

Jaurez, the Mexican City across the Rio Grande from El Paso, has fallen into the hands of the insurrectos, and not a soul in the city is left to acknowledge the authority of President Diaz. General Navarro, the federal commander, who defended the city for three days from the fierce attacks of the insurrectos, is a prisoner, as is also his entire command.

Many stories are told of the attack and defense—some evidently only imaginary, others with only a slight foundation, but the main fact remains that the insurrectos attacked the city a little before noon Monday of this week, and with slight intervals of rest kept up the battle until Wednesday noon, at which time the city had fallen into the hands of the insurrectos and its federal garrison made prisoners. From the best information obtainable, the slaughter was not as bad as anticipated, the dead numbering in the neighborhood of a hundred and the wounded something more than twice that number.

This victory gives the insurrectos a prestige they have not heretofore enjoyed, and will, no doubt, bring about their recognition as belligerents by our own and that of other governments. The insurrectos are thus placed in control of one of the main ports of entry of the republic of Mexico, through which vast shipments are made, and failure to recognize the insurrecto authority at this important port will work a hardship on shippers of both republics. The report has been given out, however, that the Mexican federal authorities have withdrawn their forces from all the border towns, from El Paso to San Diego, California, and closed all ports of entry.

What the victorious insurrectos will now do is, of course, a matter of conjecture; but the cry of "on to Mexico" is very strong. The prevalent opinion is that a strong force will be left to guard the captured city and that the main army will march toward Mexico City, gathering recruits as it goes and overcoming all opposition.

MINING APPLICATION.

Serial Number 024680.

UNITED STATES LAND OFFICE.
Roswell, New Mexico.

April 12, 1911.

Notice is hereby given that Chicago and Santa Fe Smelting and Mining Company, by John Y. Hewitt its attorney-in-fact, whose post office address is White Oaks, Lincoln County, New Mexico, has this day filed its application for a patent for the Hawkeye Group of mining claims consisting of the Hawkeye Lode for 1270.90 feet and the Red Rose Lode for 1254.15 feet of said veins, bearing gold, together with the surface ground as shown on the plat on file in this office situated in Jicarilla Mining District, Lincoln County, New Mexico, and described by the field notes on file in this office as survey No. 1388, in unsurveyed township No. 5 S., Range 12 E., New Mexico Principal Meridian. Said survey No. 1388 being described as follows, to-wit:

HAWKEYE LODGE

Beginning at corner No. 1, whence the standard 1/4 section corner on the South side of Section 34, Township 5 S., Range 12 E., of New Mexico Principal Meridian, bears S. 27° 53' W. 5573.95 feet.

Thence N. 16° 24' W. 1289.7 feet to corner No. 2; Thence N. 58° 16' E.—Var. 13° 10' E.—477.55 feet to corner No. 3.

Thence S. 22° 36' E.—Var 14° E.—1259.81 feet to corner No. 4;

Thence S. 58° 16' W. 618.50 feet to corner No. 1, the place of beginning.

Area of this the Hawkeye Lode claim 15,690 acres.

RED ROSE LODGE

Beginning at corner No. 1, whence the 1/4 section corner of the South side of Section 34, Township 5 S., Range 12 E., New Mexico Principal Meridian bears S. 15° 50' W. 6730.11 feet.

Thence N. 10° 53' E. 333.30 feet to corner No. 2; Thence S. 65° 21' E. 1254.15 feet to corner No. 3.

Thence S. 10° 53' W. Var. 14° E. 383.30 feet to corner No. 4.

Thence N. 65° 21' W. 1254.15 feet to corner No. 1, the place of beginning. Saving and excepting from this claim all that portion thereof in conflict with the Hawkeye Lode of this survey. Net area of this the Red Rose Lode 9,112 acres.

Total area of this group 24,802 acres.

Each of said mining claims is of record in the office of the Recorder of said Lincoln County, New Mexico.

The adjoining claims so far as known, are on the East Meadow Luck Lode, Zig Zag Lode and public lands; on the North, Hard Luck Lode and public lands; on the West, Belle of New Mexico Lode, Hard Luck Lode and public lands; on the South, Belle of New Mexico Lode, Ready Cash Lode and public lands.

Any and all persons claiming adversely the mining ground, veins, lodes, premises or any portion thereof so described, surveyed, platted and applied for, are hereby notified that unless their adverse claims are duly filed according to law and the regulations thereunder, with the Register of the United States Land Office at Roswell, New Mexico, during the sixty days period of the publication hereof they will be barred by reason of the statutes.

ADDITIONAL LOCAL.

Ben Bechtel, the court house contractor, left last night for Clovis.

Judge H. M. Bellomy came up Tuesday from Alamogordo, and will remain until next week.

Architect Goetz left this week for El Paso. He had a chance to witness the Juarez fight at close range.

Judge J. Y. Hewitt left last week for the city of Washington. While absent he will visit friends and relatives in the east.

E. J. (Pete) Gumm is up this week from his home near Three Rivers. He is still the same old Pete, and yet not so old.

The corner stone of the Methodist church was laid Sunday afternoon. The services attending the laying of the stone were conducted by Rev. B. W. Allen.

Capt. D. W. Roberts came up from Oscura yesterday, remaining a few hours. The captain was on his way to Trinidad, Colorado, to visit his nephew, Fred.

D. W. Glenn came in from California the past week, and is attending the present term of court. Mr. Glenn still owns some property in this county, where he was so long a resident.

Mr. and Mrs. Frank Hall came through this week on their way from Corona to Palomos hot springs. They go for the benefit of the health of Mrs. Hall, who has been in poor health for some time.

Land-Johnson.

Walter Land, the trusted employe of the E. P. & S. W. railroad at the intake near Parsons, and Miss Edna Johnson, one of the charming young ladies of Parsons, were married at the Clerk's office in Lincoln, Monday afternoon at two o'clock, Judge Lujan officiating. After the congratulations of the few friends present, Mr. and Mrs. Land left for their new home at Parsons.

Aged Lady Dies.

Mrs. Mary E. Anderson died Monday night at the home of her friend, Mrs. Moore, in Carrizozo, and was buried the following day in the local cemetery. The deceased came to Lincoln county a number of years ago and settled at Nogal, where she made her home. Her health had been failing some time, and she gradually sank into deathless slumber. A large crowd followed the remains to their last resting place, and the funeral services were conducted by Rev. Paul Bentley.

Court Sessions Active.

The regular petit jury, consisting of twenty-four members, was organized Monday, and court began to grind in earnest. The grand jury concluded its labors Tuesday evening, made its report and was discharged. The grand jury report is published elsewhere in this issue.

Five pleas of guilty have been entered so far and sentences of the court passed. They are as follows:

Charles Bell, larceny of horse; sentence 3 to 5 years in penitentiary.

Pablo Wamer, burglary; sentence 3 to 4 years in reform school.

Casimiro Rameris, burglary; sentence 4 to 5 years in penitentiary.

Simon Sais, assisting prisoners to escape; sentence 3 months in jail.

Jack Gerrard, impersonating an officer; sentence 4 months in jail.

Juries were empaneled in the cases named below, with the following results:

Walter Gray, concealing stolen property; acquitted. Attorney J. E. Wharton, counsel for defense.

Young E. Hurt, larceny of horse; dismissed on motion of district attorney. Attorneys Prichard & Barber, counsel for defense.

Julian Sabedra and Reyes Trujillo, killing beef; acquitted. Attorney H. B. Hamilton, counsel for defense.

B. J. Baca, burglary; acquitted. Attorney Geo. Spence counsel for defense.

Juan Chavez, rape; Attorney G. W. Prichard counsel for defense. This case is still in progress as we go to press.

There is nothing definite as to the length of the term, but the session will probably run into next week.

Sting of Scorpion Fatal.

The Douglas International gives a piece of news concerning some former Lincoln county people who are now living in Mexico. It reported the arrival last Monday at Douglas of Mr. and Mrs. E. L. Stewart and Mr. Stewart's mother. The 20-months old son of Mr. and Mrs. E. L. Stewart had been stung by a scorpion, which, despite medical aid, produced death, and the remains were conveyed to Douglas for interment. The Stewarts, both the elder and younger families, live at Ysabel, state of Sonora, Mexico.

Killed Bear; Caught Two Cubs.

Bear meat was obtainable here last Saturday. Lute Jennings, of Parsons, having killed one, a two-year-old the day previous in the mountains near his home. He and Ira Robinson stripped the pelt from his royal remains and brought the carcass to Carrizozo, disposing of the delicious meat to a local dealer at a fancy figure. Dressed, bruin weighed eighty pounds. Two cubs were treed and captured the same day and in the same neighborhood by the same nimrod. The mother of the cubs has not yet been apprehended, but she is thought to be lurking near. The fur on the pelt taken from the two-year-old is in fine condition, and will make a beautiful robe.

Thrown into the Fire.

From the sheep camp of Fred Scholey comes a report of a most cruel outrage. Mr. Scholey owns a sheep ranch in the Oscuro mountains, in Socorro county, just over the Lincoln county line. He was engaged in lambing his flocks last week when an altercation arose between him and his herders. The report has it that the herders double-teamed on Mr. Scholey, threw him into the camp fire and held him there, and before he could extricate himself from his perilous position his hands and arms were seriously burned. A temporary truce was patched up, and the injured man departed immediately for his home in the Rio Grande valley to secure medical attention.

Lincoln Locals.

All prisoners were taken to Carrizozo Monday morning for trial. Harry Halstead and Larry Dow assisted Deputy Romero with them to Capitan.

J. E. Koonce has opened a first class barber shop in the Lincoln hotel.

J. G. Riggle was in Carrizozo on official business Thursday and Friday.

Reports from all parts of the fruit belt indicate that the apple crop is unharmed, and the crop will be the largest in years.

W. B. Wagoner, of Carrizozo, was visiting friends here Saturday and Sunday.

Father Girma leaves Thursday for an extended visit to his different churches in various parts of the county. The Father will be absent from Lincoln about three weeks.

Bennett, the young man who escaped from the jail here on Thursday morning is still at large. He was being held as a witness in a criminal case.

NOTES FROM JICARILLA.

Johnie Martin, of Ancho, was in camp a few days ago.

Mr. and Mrs. Crawford, of Gillenas, are in the camp on a visit to Mr. and Mrs. Tolbert.

The Littell Company has put on a crew of men at the "Summit," where they are drifting and sinking.

Mr. P. G. Peters, of Carrizozo, was in camp a few days looking after his interests. He was accompanied by Sebe Gray, of Capitan.

The Spence sheep have been driven to the del Curto ranch for lambing. The range is said to be fine in that "neck of the woods."

The string band is practicing thrice a week now, and is quite equal to the task of entertaining "ze country huncks."

F. W. Littell left on a business trip a few days since, but is soon to return. His brother, I. A. Littell, came back from Colorado a few days ago to resume his work among the mines.

Mr. Bloodgood is gardening quite extensively we learn, he having grown the earliest vegetables in this section. His lettuce was eatable at Easter.

Everything is green and lovely here. The "garden sass" and field plants are all up and are almost daily receiving a warm rain. All early things are adorning the table now. The roses are budding and will be earlier than ever before.

Is there anything in all this world that is of more importance to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood. When the digestion fails the whole body suffers. Chamberlain's Tablets are a rational and reliable cure for indigestion. They increase the flow of bile, purify the blood, strengthen the stomach, and tone up the whole digestive apparatus to a natural and healthy action. For sale by all dealers.

LOCAL NEWS

Rev. B. W. Allen spent several days in El Paso this week on business.

Frank B. Coe and D. N. Bonnell were in town this week from Ruidoso.

Mr. and Mrs. Harry Johnson and children came over from Capitan this week.

George Smith was over from Capitan Tuesday with a shipment of cattle.

J. E. Koonce returned to Lincoln last Friday, having spent several weeks in Carrizozo. He has opened a barber shop in the Lincoln hotel.

W. F. Osborne was here yesterday from the Pecos Valley. Mr. Osbourne is a school teacher of many years' experience and is investigating Lincoln county school conditions.

D. del Curto and family left this week for Portales, Roosevelt county, where they will make their home. Mr. del Curto has been in the sheep business in this county for a number of years, has been regarded as one of our best citizens, and it is with regret we see him and his estimable family leave our county.

Frank Goodin, of Three Rivers, loaded out a bunch of steers at this point Friday.

Joe Tatti, a prominent citizen and old time stockman of the Capitan country, is in town this week.

John Owen, ex-sheriff of this county, came down from his Gallo ranch Saturday, and has remained this week.

G. A. Bush and S. F. Fambrough, who had been attending court here, returned to their homes, Ancho and vicinity Tuesday night.

W. C. McDonald, of Carrizozo, who was here several days on cattle business, left on the auto Sunday for his home.—Roswell Daily Record.

The grand jury made its final report Tuesday night, and was discharged. They reported 46 true bills and 18 no bills. This, at first glance, would appear to be an excessive number of bills, but when it is remembered that no court has been held in this county for a year, the number is not exorbitant. No murder cases were brought before the grand jury at this term, and therein Lincoln county is ahead of most of the counties of the territory.

Wm. M. Reily and Geo. L. Ulrick left Saturday for Arizona. Their stay is indefinite.

Gordon Gray came up from Roswell to Capitan Saturday, and has been in Carrizozo the present week.

M. C. West brought a load of jurymen over Sunday and returned the following day to his home below Angus.

W. R. White, chairman of the board of county commissioners, was down two or three days this week on official business.

Wm. M. Ferguson drove a small bunch of cattle over from his place Wednesday. He disposed of his stuff to a local buyer.

Wm. J. Doering went to Capitan Wednesday on some matters connected with his lighting system. He expects to return today.

S. J. Woodland returned Monday from the Block ranch, where he has been busy the past few months in the company water service.

Judge J. E. Wharton came up Sunday night from El Paso. Judge lived and practiced law in Lincoln county for many years, and since leaving attends the regular court sessions here, looking after the interests of clients.

Hugh M. Miller, of Picacho, is here attending court.

Harry Little returned last night from Elephant Butte.

A. J. Rolland visited Alamogordo Tuesday, returning that evening.

B. R. Robinson, an old-time prominent citizen of Bonito, is in town this week.

Ed. C. Pfingsten was down from the Mesa Sunday. He had not been caught on the jury, but brought others who had been.

H. E. Alexander and little son arrived last week from East Texas, and Mr. Alexander has opened a tailor shop in our town. He is a brother of Mrs. S. W. Perry.

Oliver Peaker, a White Oaks ranchman, was down Monday. He says his section has enjoyed fine rains, prospects for both farming and stock excellent and happiness reigns supreme.

Two shifts are maintained on the temporary jail here. Octaviano Perea and Alfredo Gonzales act during the day and Pete Green and William Barnett hold the fort through the silent watches of the night. Thus, doubly-guarded, there is little opportunity for escape.

CHANGE IN WOMAN'S LIFE

Made Safe by Lydia E. Pinkham's Vegetable Compound.

Graniteville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—MRS. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing woman's ills such as inflammation, ulceration, fibroid tumors, irregularities, periodic pains and nervous prostration, and it is unequalled for carrying women safely through the period of change of life.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

FONDANT FOR FINE CANDIES

It is Made of Granulated Sugar and Cream Tartar—Recipe for Chocolate Creams Using It.

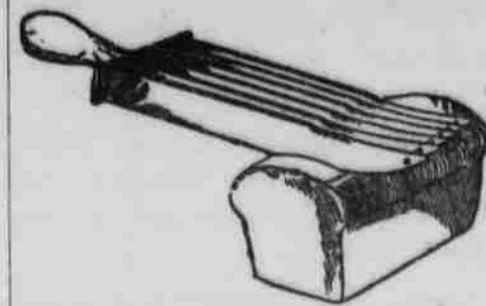

Fondant.—Two cups granulated sugar, one-half cup cold water, boiled slowly. Add quarter teaspoon of cream tartar, before it has boiled five minutes. When it keeps its shape in cold water wet a dish in cold water, a platter is best, pour it out carefully and stir with a wooden spoon till stiff and about to crumble. Then take in your hands and work and knead it till pliable and smooth. Pack in a deep dish and cover with a wet cloth. Let stand several hours, till next day is better, when it will be velvety and of fine texture. Don't try to make it on a cloudy or stormy day, as a clear, bright atmosphere will give best results. From this fondant all kinds of fine candies can be made.

Chocolate creams—Form the balls from the above fondant and let stand over night to harden. Cook together one cup granulated sugar, one-half cup water and tiny pinch of cream of tartar till, when a little is dropped in cold water, it can be gathered on a spoon, then set on back of stove and add two squares of chocolate that has been melted, a heaping teaspoon each of butter and vanilla, and set dish in another of hot water, and dip the creams. It takes but a few minutes for them to harden. Drop on waxed paper. They are extra nice.

CUTS SIX SLICES AT ONCE

Bread Knife That Will Surely Prove Boon to the Head of a Large Family.

The bread knife shown in the illustration would prove a boon in large families where innumerable slices of bread disappear at every meal. In the public restaurants there are more elaborate contrivances for slicing bread. The simplicity of this bread

cutter is its most attractive feature. It is nothing more nor less than six knife blades attached on one end to a cross piece to which the handle is fastened, and on the other end jointed by a small, round piece of metal. A piece of strong wire would serve the purpose of the latter, as its function is simply to keep the blades the proper distance apart.—Popular Mechanics.

Milk Baked Chicken.

Select well-cleaned, plump spring chickens. Halve them, place in shallow roasting pan, salt and pepper well, dot liberally with bits of butter; use sufficient milk to nearly cover. Place in hot oven and bake for one and one-half hours in covered pan. Make a good pint of well seasoned milk gravy (slightly thickened). Add one-half can French peas, one-half can button mushrooms; let come to a boil. Place chicken in center of platter. Around this place hot baking powder biscuit. Pour gravy over both and serve at once.

For the Tea Table.

A novelty to serve instead of candy at an afternoon tea is made from figs stuffed with chopped nuts and a fresh marshmallow. The figs are first soaked in brandy—or sherry, if preferred—for half a day, then pulled apart, and each half lined with the nut and pulled around the marshmallow to make a round ball.

The only drawback to this delicious confection is that it is somewhat "smeary" to eat.

IS EPILEPSY CONQUERED?

New York Physicians Have Many Cures to Their Credit.

New York, April 4.—Advices from every direction fully confirm previous reports that the remarkable treatment for epilepsy being administered by the consulting physicians of the Dr. Waterman Institute is achieving wonderful results. Old and stubborn cases have been greatly benefited and many patients claim to have been entirely cured.

Persons suffering from epilepsy should write at once to Dr. Waterman Institute, 122 East 25th st., Branch 63, New York, for a supply of the remedy, which is being distributed gratuitously.

WHICH ACCOUNTS FOR IT.

BAKER Briggs—I understand that Mr. Bigge, your wife's late husband, made everything over to her?

Henpecklett—Yes, and now she's making everything over for me.

SCALES ALL OVER HER BODY

"About three years ago I was affected by white scales on my knees and elbows. I consulted a doctor who treated me for ringworm. I saw no change and consulted a specialist and he claimed I had psoriasis. I continued treatments under him for about six months until I saw scales breaking out all over my body save my face. My scalp was affected, and my hair began to fall. I then changed doctors to no avail. I went to two hospitals and each wanted to make a study of the case and seemed unable to cure it or assure me of a cure. I tried several patent medicines and was finally advised by a friend who has used Cuticura on her children since their birth, to purchase the Cuticura Remedies. I purchased a cake of Soap, the Ointment and the Resolvent. After the first application the itching was allayed.

"I am still using the Soap and Ointment and now feel that none other is good enough for my skin. The psoriasis has disappeared and I everywhere feel better. My hands were so disfigured before using the Cuticura Remedies that I had to wear gloves all the time. Now my body and hands are looking fine." (Signed) Miss Sara Burnett, 2135 Fitzwater St., Philadelphia, Pa., Sept. 30, 1910.

Cuticura Soap (25c) and Cuticura Ointment (50c) are sold throughout the world. Send to Potter Drug & Chem. Corp., sole props., 135 Columbus Ave., Boston, for free book on affections of the skin and scalp.

Proof Positive.

"I heard he was in bad odor with her family. Is that true?"

"Draw your own conclusions. It was a centless marriage."

Better general health is sure to follow the use of the natural Herb Laxative, Garfield Tea. It corrects constipation.

Some sermons come near being demonstrations of eternal punishment.

Home Made Cushion.

"I hardly knew your father to-day," said the district visitor pleasantly to the little girl. "He's cut his beard off again. That's three times since a year ago."

The little girl explained: "It ain't father done it. Father like his beard on. But muvver's stuffin' the sofa."—London Chronicle.

A Flyer's Joke.

Hubert Latham, the Antoinette flyer, was talking at a tea in Los Angeles to a pretty California girl.

"Mr. Latham," said the girl, as she took her nineteenth walnut and lettuce sandwich, "tell me, does flying require any particular application?"

"Well, (no none in particular," Mr. Latham answered. "Arnica or horse liniment—one's as good as another."—Pittsburg Gazette-Times.

Room for One More.

Archbishop Ireland was urging one of his senatorial friends to help the church with his presence, but the senator declined to be a regular churchgoer, giving this reason:

"One finds so many hypocrites there."

"But there is always room for one more," said the genial prelate, as he gripped the hand of his statesman friend.—Kansas City Star.

Bait for Burglars.

"John," said Mrs. Brown, sitting up suddenly in bed, "there's a burglar in the place."

"Nonsense!" replied her husband, drowsily.

"I'm quite right," she returned: "I can hear him distinctly crossing the floor of the room below. Now"—excitedly: "he's lighting one of those cigars I gave you for your birthday. I heard him pick up the box and put it down again."

Agreed.

A real joke was sprung by a student at the Western Reserve University last week. This student suffers from the stigma of obesity; it appears that even professors do not love a fat man. After a particularly unsuccessful recitation in English III the professor said:

"Alas, Mr. Blank! You are better fed than taught."

"That's right, professor," sighed the youth, subsiding heavily. "You teach me—I feed myself."—Cleveland Plain Dealer.

Plying His Trade.

A man who had been caught in a raid on a gambling house was arraigned, not long ago, before a local magistrate.

"What is your trade?" the magistrate asked.

"I am a locksmith, sir."

"And what were you doing in the gambling den?" pursued the magistrate. "What were you doing when the police entered?"

The locksmith looked up into the magistrate's face with an expression of sublime innocence.

"Why, your honor," he answered, "I was making a bolt for the door."—Philadelphia Times.

SPRINTER LOSES HER TEETH

Go Astray in Mails and Lady Puts It Up to the Postmaster General.

A Jersey spinster intrusted her false teeth to the mails, and they went astray. Postmaster General Hitchcock received the following appeal from her:

"Dear Sir—I suppose you have received a note from the Camden postmaster that the upper plates of my teeth have been lost in the mails. They were mailed at Camden on January 1. I should like very much to hear from you. If you are unfortunate enough to have store teeth, you know how inconvenient it is to have to do without them, and I have not had them even a year. I paid \$35 for them, and I cannot afford to get any more just now. So will you kindly do what you can for me, and as quickly as possible?"

"P. S.—They were very good teeth."

The postmaster general put one of the best inspectors in the service on the job to find the missing ivories.

After a Big Haul.

"Binks used to be daft on the subject of buried treasure. What's he up to now?"

"He's got up an expedition to Asia Minor to try to find the place where Methuselah stored his birthday presents."

COFFEE HEART

Very Plain in Some People.

A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises.

A gentleman in Brooklyn describes his experience, as follows:

"I became satisfied some months ago that I owed the palpitation of the heart from which I suffered almost daily, to the use of coffee, (I had been a coffee drinker for 30 years) but I found it very hard to give up the beverage.

"One day I ran across a very sensible and straightforward presentation of the claims of Postum, and was so impressed thereby that I concluded to give it a trial.

"My experience with it was unsatisfactory till I learned how it ought to be prepared—by thorough boiling for not less than 15 or 20 minutes. After I learned that lesson there was no trouble.

"Postum proved to be a most palatable and satisfactory hot beverage, and I have used it ever since.

"The effect on my health has been most salutary. The heart palpitation from which I used to suffer so much, particularly after breakfast, has disappeared and I never have a return of it except when I dine or lunch away from home and drink the old kind of coffee because Postum is not served. I find that Postum cheers and invigorates while it produces no harmful stain.

STIRRED BY SPRING

FEMININE FANCY GETS BUSY ON SUBJECT OF CLOTHES.

Hats for Early Spring Wear Are Moderate in Size—Flexible Headwear Is Feature of Season—Flowers Are Popular.

Just as soon as a reward is out for the first robin the feminine fancy begins to wander in the direction of spring clothes. January is a great month for summer sewing; February sees the milliners rushing to market after the alluring things that have been prepared for them. It is a short month and before you know it March is here and it is spring. April brings Easter, when all is completed. And, although the snow may still be flying,

spring millinery is all ready for that great festival.

The hats shown for early wear are moderate in size with plenty of big graceful shapes for later on. They are mostly of braid, sewed into shape with or without a wire frame. The flexible hat is a feature of the season and soft crowns are much admired. Flowers, fine velvets and ribbons are everywhere in evidence in the trimming. Brims are not so droopy as heretofore, and little eccentric dents and turnings characterize many of them. Beads and especially coral beads in pink or red or white match every display of model hats, and beads of other varieties play their parts, those of jet and pearl and those in turquoise blue make up some very handsome bands.

Braids are unusually beautiful. The Rannie braids are shown in all colors with an iridescent play of color introduced in them like the colors in a shell or soap bubble. The silk fibre

braids are soft and pliable and all are light as air.

French plumes are favorites on fine hats and trimming effects are simple. In fact simplicity in millinery gains headway in the popular taste, but the demand makes no lowering of price because every one wants better and better qualities of merchandise all the time.

T PIN IS LATEST NOVELTY

Many Little Annoyances Are Avoided by Use of This New Invention.

A novelty in pins is the T pin, which in place of the age-long familiar little knob at the top has at the head end of the shaft and set at right angles with it a short crossbar, making it a T pin.

Often it is difficult to thrust an old style pin through a number of folds of paper or through fabrics or other materials; and the head of the pin sinks into the finger tip and hurts that; and when the pin has finally been set into place the material pinned is liable to work up around its head.

All these things are avoided by the use of the T pin, which with its crossbar head gives a surface upon which greater pressure can more easily be exerted, making the pin easier to use; while when it has been set in place the material cannot work up over it.

T pins are made in various sizes, and finished in various colors, for all sorts of domestic uses; and there is also made a T pin that is called the wryneck, this for bank and office use.

The wryneck T pin has at the top, the head end of the shaft, a little curve, the crossbar being at the curve's end. A pin with this little curve in it can be thrust through a bunch of papers to lie flat in them, horizontal with them, while the cross head does not stick up above the top paper, but lies close and flat upon it, across the opening where the pin was thrust through.

It might have seemed that the age-long familiar pin was just a pin and that so it would always remain, in the future as it had been in the past, always just the same; that nobody would ever think of such a thing as trying to invent a new pin, but here now in the T pin is a novelty in pins.

Hair Bandeaux.

Bandeaus for the hair are now being made of the embroidered and brocaded ribbons, which are to be had in a great variety of colors and designs. A blue brocaded ribbon exactly of the shade which was used many years ago when these scalloped and brocaded ribbons were fashionable has been revived, and is most popular for the hair bandeaux. The ribbons, if narrow, are sewed together to make the wide band, which is now in greatest favor.

New Pouch Bags.

Pouch bags are cut with an oval bottom, covered with black velvet on one side and a bright-colored satin on the other. The top, which is joined to the bottom without fullness, is finished on top with black satin ribbon. It is lined with the satin.

The top has a draw string of satin ribbon through a casing, long enough to hang over arm. The lining may be in coral, green, burnt orange or royal purple.

\$3.50 RECIPE CURES WEAK KIDNEYS, FREE

RELIEVES URINARY AND KIDNEY TROUBLES, BACKACHE, STRAINING, SWELLING, ETC.

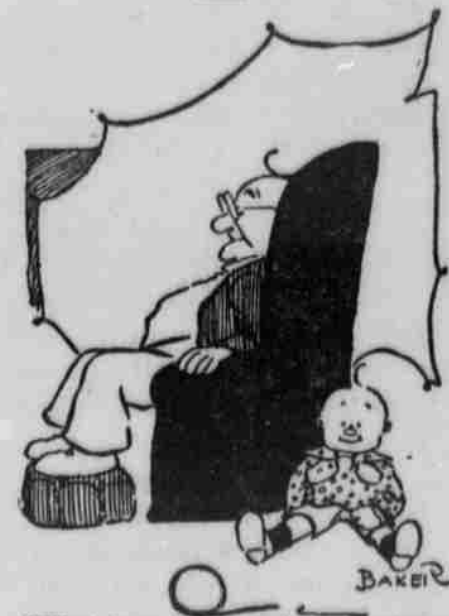

Stops Pain in the Bladder, Kidneys and Back.

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too frequent passage of urine; the forehead and the back-of-the-head aches; the stitches and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a QUICK RECOVERY, you ought to write and get a copy of it. Many a doctor would charge you \$3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K-234 Luck Building, Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power.

It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.

We, the committee of this Grand Jury, appointed to investigate the condition of the sheriff's office and county jail at Lincoln, New Mexico, do hereby report as follows:

We find that the prisoners confined at Carrizozo temporary jail are kept in a clean and orderly condition. While we find that the food served to the prisoners in Carrizozo is not to their liking we do find the food served them in the Lincoln jail excellent.

The sanitary condition of the Lincoln jail is not of the best, the county commissioners having neglected the repairing of the well and wind mill. They were informed of the condition by the sheriff and we hope will take the matter up at once, as this neglect has a tendency to create a desire in the prisoners to escape.
