VOLUME IV

BELEN, NEW MEXICO, APRIL 13, 1916.

NUMBER 20

## TRAINMEN'S DEMANDS.

Since the publication last week of the demands of the four great railway train service organizations for the so-called 8-hour day, and the reply of the Santa Fe and other railroads to those demands considerable public interest has been manifested in exactly what wages are being paid to engineers, firemen, conductors and brakemen in road and yard service. The men in the train service have been dubbed by the widely distributed literature of the railway managers' association as "aristocrats of labor." Officials of the four train services organizations assert that the men under them are entitled in fairness to the changes in pay and working conditions which they demand. Up to this time the public has had no accurate information as to local conditions; the matter given out having been almost wholly national averages.

There is probably less of agitation and dissatisfaction among the trainmen of the Santa Fe railroad in New Mexico than anywhere else in the country. Every western condition of road service is found on the Santa Fe in this state and wages paid in New Mexico therefore, afford an interesting basis for comparison with other classes of labor, for the whole country. The Rio Grande division of the Santa Fe, the line from Albuquerque to El Paso, Texas, probable presents the best average of working conditions of any of the New Mexico divisions.

Average earnings of train employees on this division for the year 1915, covering average time of all employees in the four classes of service, whose names appeared on the payroll in January and December 1915, are officially given as follows:

Engineers, freight service, \$1708.57. Men working as both engineers and firemen, freight services, \$1573.42. Firemen, freight service, \$1090.01. Conductors, freight service, \$1545.76. Brakemen, freight service, \$1132.73.

In Helper Service: Engineers, \$2036.62; firemen \$1130.61.

In Mixed Service: Engineers, \$1789.71; Firemen, \$1108.61; Conductors, \$1811.23; Brakemen, \$1218.13.

On Local Freight: Conductors, \$1926.98; Brakemen, \$1335.24.

In Yard service; Engineers, \$1497.41; Firemen, \$935.01; Foremen, \$1230.21; Switchmen, (helpers) \$1192.40.

## ELLCTRIC SPARKS

Do you believe all the good things you hear of yourself?

Another horror of war is the arrival of the word "bomed."

Persons who ever traveled on a Mexican railway can't understand why Funston wants to use 'em.

Yuan is perfectly willing to bow to the will of the Chinese Majority if he can only find out what it is.

Admiral von Tirpitz easily qualifies as the German goat, having that kind of whiskers.

Justice Hughes seems to be running for the nomination by the process of standing pat.

Roumania will perhaps continue shivering on the brink, until peace warms the water.

Tom Taggart in the senate will perhaps spread the beneficent gospel of mineral water.

Received; One extra large consignment of Hudson bay Weather, evidently incorrectly billed.

Europe is said to be "finding its soul", which is all very well, if it does not first lose its body.

Prominent optimists, are remarking that it is better to have had that storm now than on the Fourth of July.

When a blizzard comes along with trimmings of thunder and lightning it is certain that the weather is badly scrambled.

There is of course, no such thing as an equinoctial storm, but the equinoxes have something just as good in their repertory.

A girl may be witty and still a drug on the matrimonial market.

The highest earnings for 1915 on the Rio Grande division, in the four classes of service, were as follows: Engineers, (thru freight) \$2244.05; Firemen, (thru freight) \$1529.67; Conductors, \$2032.72; Brakemen, \$1388.55; Conductors, (Local) \$2079.11; Brakemen, \$1362.50.

In Yard service: Engine Foremen, \$1320.78; Helpers, \$1305.86; Engineers, \$1695.77; Firemen, \$1079.30.

In the Rio Grande division service trainmen constitute about one fifth of the total railroad payroll number. It is asserted that the demands, if assented to by the Santa Fe, would add at least 2500 to the above list of averages for all classes.

## America.

My country, 'tis of thee,  
Sweet land of liberty,  
Of thee I sing;  
Land where my fathers died,  
Land of the pilgrim's pride,  
From every mountain-side  
Let freedom ring.

My native country, thee,  
Land of the noble free,—  
Thy name I love;  
I love thy rocks and rills,  
Thy woods and templed hills;  
My heart with rapture thrills  
Like that above.

Let music swell the breeze,  
And ring from all the trees,  
Sweet freedom's song;  
Let mortal tongues awake,  
Let all that breathe partake,  
Let rocks their silence break,—  
The sound prolong.

Our fathers' God, to Thee,  
Author of liberty,  
To Thee I sing;  
Long may our land be bright  
With freedom's holy light;  
Protect us by thy might,  
Great God our King.

ket.

Some hair is prematurely gray and some is prematurely dyed.

As long as a man does his level best he isn't going down hill.

Between the chatters of his teeth the bold early swimmer is beginning to tell how fit he feels.

One of the principal of the silent drama to the weary American public is its silence.

There is a lot difference between the Canadian border and the Mexican Border, May be it is due to the climate.

Europe fancies it hears the first twitterings of peace, and there is no harm in hoping that it does actually hear them.

If Pancho Villa has stirred congress to the point of working

## METHODIST EPISCOPAL CHURCH NOTES.

The church and Sunday School had a full attendance last Sunday.

The services for the coming Sunday are of special interest to all. The Morning Service is especially directed to the children. The Subject of the morning address being, "Children of the Bible."

The address for the evening will be on the "BOY SCOUT MOVEMENT" with the investiture ceremonies of initiating the scouts into the first degree of scoutcraft. Every one is cordially invited to this service, especially the parents and those interested in the Boy Scout Movement.

for preparedness he has done what thousands of American patriots vainly tried to do.

What are these tobacco frauds, the pipes are so full of—must mean Turkish cigarettes?

Well, if Villa is to set on killing Americans, Pershing will gladly give him a chance.

What Mexico needs is a de facto President, with as much gray matter in his head as on his chin.

Suspicion seems to be growing in Washington that current armor plate prices are a sort of Bethlehem steal.

T. R. is next move, says a headline. To stand still and let the lightning strike him.

"What Might Have Been." That's what Villa will be asking when Funston gets through with him.

No one is ever so lovely as the woman you look upon through eyes of love.

One place where the breaking through has been first class was the ice on the ponds.

## Mr. YOUNG MAN ABOUT TO ENTER COLLEGE:

Have you considered the importance of your environment during college days, on your future success in life?

Have you considered the importance of acquiring your college education in the state where you expect to make your home?

Do you expect to live in the great southwest? Then keep in mind that while getting your education at the State University of New Mexico, you are also in constant touch with the men, conditions and associations in and with which you will make your way after college days are over. IF YOU GO TO AN EASTERN SCHOOL the lessons of acquaintance and personal relations must be learned all over again when you begin the business of life.

INVESTIGATE YOUR OPPORTUNITIES IN THE NEW MEXICO STATE UNIVERSITY.

1916-1917 Catalog now ready. Address D. R. Boyd President, Albuquerque, N. M.

## MOST IMPORTANT NEWS ABOUT PUNITIVE EXPEDITION.

AMERICAN FORCES NOT WITHDRAWAL CONTEMPLATED

Secretary of war Baker has denied lastly that immediate withdrawal from Mexico of American troops was not contemplated since the reports received at the war department advise that the United States troops are close to Villa's trail what is enough to hope that the expedition might soon accomplish its purpose.

FUNSTON PLANS TO STIMULATE THE CHASE.

Is widely known that instead of anticipating an early withdrawal of the troops, General Funston has planned to stimulate the chase in every way possible and in order to do this has daily watched for advices from Washington that Carranza had at last made it possible to use with restraint at least one of the railroads extending south.

SENSATIONAL DEVELOPMENTS EXPECTED.

The state of a man holding his breath in anticipation of some great and imminent event is the state of the border. Statements in El Paso and Juarez, have made by Mexican officials that a speedy and sensational development in the situation is coming.

AMERICAN PLANT DESTROYED

Several Americans, including two women who arrived at El Paso from Chihuahua City, brought the story of the burning of a million dollar plant of the Durango Lumber Company, an American property near Durango City. The plant was said to have been destroyed by villistas under the Arrieta brothers, a pair who are earnest rivals with Canuto Reyes.

AMERICAN CALVALRY IS NEARING PARRAL.

The present position of the advance columns was not made public, but it was known that cavalry columns under Colonels Brown and Dodd are driving south from Satevo with all speed. Officers here had no information that their forces had gone so far as Parral, but they said the receipt of such information would be not surprise. General Pershing himself is moving south along the trail to Satevo, personally directing so far as possible, the pursuit of Villa and the search of the mountains and plains adjacent to the trails being followed.

MORE BIRDMEN NEEDED.

(Continued on 4th, Page.)

## DOUBLE HANGING NEXT MAY.

Death Sentence Upon Higtower and Montes.

Judge Neblett of Silver City has passed the following sentence upon Lucius C. Higtower and Pedro Montes.

"The judgement and sentence of the court is that you be remanded to the custody of the Sheriff of Grant county, New Mexico, and that you be by him safely kept in the common jail of said county of Grant until Friday, the 5th day of May, A. D. 1916; that on said day, between the hours of 6 o'clock in the forenoon and 6 o'clock in the afternoon of said day, in an enclosure to be erected by said Sheriff on the court house grounds in the town of Silver City, the county seat of said Grant County and State of New Mexico, you be then and there by the said Sheriff of said county of Grant, hanged by the neck until you are dead and may God have mercy on your soul."

Higtower was convicted of murder in the first degree, being charged with shooting down and killing his wife at Tyrone on September 30, last year. Montes was convicted of first degree murder, having been charged with shooting down and killing his sweetheart, Rufina Villanueva, a pretty old Mexican girl on January 1, of this year.

The galows may be erected on the north side of the court house and one of them will be built at once because there is only one.

There is the purpose to address a petition to Governor McDonald for the commutation of Montes' sentence to life imprisonment and nothing is told about the unfortunate Higtower.

Stockraising New Methods.

Noticeable Successes

A few months ago Mr. Frank A. Hubbell of Albuquerque started out last November to use a new method in stock feeding and yesterday he gave out in detail the result of his experiment. The figures shown to some farmers and stockgrowers are eloquent since they prove undoubtedly that Mr. Hubbell has contended and point out the way to a complete revolution in stock feeding and farming methods elsewhere in New Mexico.

We believe that those new methods in stock feeding will inaugurate an era of prosperity in whole state.

Mr. Hubbell must be congratulated for his discovery and New Mexico may be proud of this citizen.

## EDITORIAL.

An advertisement of the New Mexico State University, now running in this paper gives forward a new and very impressive view of the value of attendance upon New Mexico educational institutions by young men and young women of this state who expect to make their homes in New Mexico after college education has been completed. This is the matter of acquaintances, friendships and personal relations formed during college days; and the knowledge acquired during those days of resources, condition and opportunities existing in the region where in the educational institution is located.

The New Mexico boy, for instance, whose parents live in New Mexico and whose future home is likely to be in this state after college days are over, will, if he attends a New Mexico educational institution, be able to absorb during his college days a vast fund of practical information about the state's conditions, resources and business and development opportunities which may reasonably be expected to prove of enormous practical value to him when every-day, working years begin. He gets this information if he is alert, as a matter of course, during his college work, and without extra effort.

If on the other hand, the New Mexico boy goes to an eastern institution and then returns to this state to make his living, the acquaintances formed in the eastern school are lost for all practical utility and he must spend a few years at least in learning the practically useful things about this working environment. It means that the eastern school, no matter how well it may have finished him in theory, has cost him loss of valuable time and double effort.

For the young men who expect to live his life in New Mexico, theory and practical information come in a single operation and with a single effort at the New Mexico institution.

The University might have

the theoretical part of the education can be had in the New Mexico educational institution just as thoroughly and at about half the cost involved in attending an eastern college, which from a practical standpoint, clinches the argument for our home institution.

## NEW MEXICO SCHOOLS.

Nearly \$2,000,000 Spent for Education in Year.

The state of New Mexico spent nearly \$2,000,000 during the school year of 1914-1915 for educational purposes, which is an increase of \$161,000 over the year 1913-1914.

This was ascertained on the completion of certain statistical tables by the State Department of Education.

For the past year the total expenditures of elementary and high schools amounted to \$1,549,825.99 and for the state educational institutions; \$434,495.08, making a total of \$1,984,321.07. The total for 1913-1914 was \$1,822,528.64.

The revenues and expenditures of the state educational institutions in the years 1914 and 1912, ending June 30, follow:

University of New Mexico, \$63,961.47; \$67,601.89.

New Mexico College of Agriculture and Mechanic Arts, \$141,211.77.

New Mexico School of Mines, \$34,654.45; \$25,824.90.

New Mexico Military Institute, \$73,717.46; \$67,543.07.

Silver City Normal, \$37,898.26;

New Mexico Normal University, \$51,765.65; \$57,573.14.

Spanish-American Normal, \$6,329.24; \$5,296.79.

Institute for the Blind, \$18,463.42; \$22,485.32.

New Mexico School for the Deaf, \$13,210.30; \$15,977.81.

NOTICE is hereby given that by virtue of a final judgment and decree heretofore rendered in the above consolidated causes on the 19th day of January, 1916, I, the undersigned special master will, on the 25th day of April, 1916 at the hour of twelve o'clock noon, at the front door of the county court house of Valencia county, New Mexico, offer for sale and sell at public auction, to the highest and best bidder for cash, the following real estate situate in the county of Valencia, state of New Mexico to wit:

Beginning at the point of intersection of the lines between the Nicolas Duran de Chavez grant and the San Clemente Grant and the west right of way line of the Atchison, Topeka & Santa Fe railroad; thence running south 10 degrees 20' west, 4117 feet; thence south 53 degrees 30' west 41 feet; thence south 25 degrees west 1970 feet; thence south 88 degrees 20' west 3577 feet; thence south 59 degrees 30' west, 700 feet; thence north 72 degrees 40' west, 189.7 feet; thence north 2 degrees 30' west, 262.5 feet; thence south 86 degrees 45' west 626.5 feet; thence following the meanders of the Huning Ditch north 8 degrees 30' east, 148 feet; thence north 14 degrees east, 2000 feet; thence following the meanders of the Los Lunas Ditch north 26 degrees 40' west, 292 feet; thence north 55 degrees 30' west, 128 feet; thence north 50 degrees 30' west 193 feet; thence north 25 degrees 30' west, 480 feet; thence north 21 degrees 30' west 396 feet; thence north 19 degrees 19' west 696 feet; thence north 24 degrees 40' east 481 feet; thence north 26 degrees 55' east 810 feet; thence north 28 degrees east 395 feet; thence north 27 degrees 40' east 580 feet; thence leaving the Los Lunas, Ditch: south 83 degrees 8' east, 1309 feet; thence north 10 degrees 15' east 1711 feet; thence north 82 degrees 15' west, 41.5 feet; thence north 12 degrees 45' east, 657 feet; thence south 77 degrees 44' east, 1048.4 feet; thence north 16 degrees 40' east, 1015 feet; thence north 62 degrees 30' west, 199 feet; thence north 38 degrees west, 586 feet; thence north 31 degrees 30' east, 968 feet; thence south 78 degrees 30' east, 556 feet; thence north 49 degrees 15' east 657 feet; thence north 81 degrees 40' west 251 feet; thence north 9 degrees east 814 feet; thence north 37 degrees 45' east 90 feet; thence north 64 degrees east, 256 feet; thence north 32 degrees east 80 feet; thence north 24 degrees 30' west, 132 feet; thence north 51 degrees 8' east, 643.6 feet; thence south 78 degrees 30' east, 985 feet; thence south 9 degrees 45' west 485 feet; thence south 75 degrees 30' east 1332 feet; thence south 9 degrees east, 465.2 feet; thence south 10 degrees 20' west, 4911 feet to the point of beginning, containing 1326.7 acres.

TRACT NO. 2: Beginning at the point of intersection of the lines between the Nicolas Duran de Chavez grant and the San Clemente Grant and the east boundary line of the right of way of the Atchison, Topeka & Santa Fe railroad; thence running north 10 degrees east 1445 feet; thence south 74 degrees 15' east 695.5 feet; thence north 24 degrees 10' east, 499 feet; thence north 23 degrees 45' east 809 feet; thence north 24 degrees 10' east 1481 feet; thence south 84 degrees east 67 feet; thence south 86 degrees 15' east 52.7 feet; thence north 41 degrees 20' east, 737 feet; thence north 19 degrees 10' east 159 feet; thence north 12 degrees 10' east 824 feet; thence north 29 degrees 5' east 1070 feet; thence north 39 degrees 10' east 457 feet; thence south 78 degrees 45' east 238 feet; thence north 15 degrees 15' east, 434 feet; thence south 59 degrees 5' east 1592 feet; thence in a general southwesterly direction following the meanders of the Rio Grande to a point on the river where a line north 61 degrees 10' west 2224 feet intersects the east boundary line of the right of way of the Atchison, Topeka & Santa Fe railroad, south 10 degrees and 20' west, 7164 feet from the point of beginning, containing 743.06 acres.

TRACT NO. 3: Beginning at a point on the public road to Socorro, which is south 23 degrees 30' west, 1109 feet from the southeast corner of the house of Mrs. Gertruda Sanchez de Vigil; thence running south 25 degrees 45' west 1808.5 feet; thence south 17 degrees 30' west, 1857 feet; thence south 11 degrees 30' west, 591 feet to the south-east corner; thence north 78 degrees 18' west 2494 feet; thence north 12 degrees east 2805 feet; thence south 70 degrees east 537 feet; thence north 17 degrees 10' east 1221 feet; thence north 70 degrees east 306 feet; thence north 52 degrees 30' east 356.5 feet; thence south 60 degrees 40' east 727 feet; thence south 67 degrees 30' east 1088 feet to the point of beginning, containing 247 acres.

TRACT NO. 4: Beginning at a point on the Socorro road south 11 degrees 30' west, 805 feet from the south-east corner of the tract above described: thence running south 11 degrees 30' west, 682 feet; thence north 79 degrees west 355 feet; thence north 86 degrees 5' west 757.5 feet; thence north 88 degrees west 470 feet; thence south 3 degrees 30' west 44.2 feet; thence north 82 degrees 30' west 902 feet; thence north 7

degrees 40' east, 117 feet; thence north 12 degrees east, 872 feet; thence south 78 degrees 6' east 2473.3 feet to the point of beginning, containing 44.32 acres.

TRACT NO. 5: Beginning at the north-east quarter of the south-east quarter of the south-east quarter of section 19, T. 6 N., R. 2 E; thence running south 2265 feet; thence south 55 degrees 20' east 203.3 feet; thence north 21 degrees 49' east 3969 feet; thence west 1637 feet; thence north 792 feet; thence east 1244 feet; thence north 0 degrees 30' east, 578 feet to the north-east corner; thence 81 degrees west 1994 feet; thence south 5 degrees 30' east 1193 feet; thence north 72 degrees west 1953 feet; thence south no degrees 10' west 2050 feet; thence south 57 degrees 15' east, 1361 feet; thence north 384 feet; thence east 1320 feet to the point of beginning, containing 227.88 acres.

TRACT NO. 6: Beginning at a point north 22 degrees east 653 feet from the north-east corner of the tract above described numbered 5; thence running north 12 degrees 55' east 623 feet; thence north 10 degrees 20' east 643 feet; thence north 80 degrees 15' west 29.5 feet; thence north 10 degrees 40' east 1993.5 feet; thence north 80 degrees 10, west, 404 feet; thence north 8 degrees 30' east, 443 feet; thence north 33 degrees east 1084 feet; thence north 49 degrees east 202 feet; thence south 79 degrees 10' east 2170 feet; thence north 9 degrees east 450.5 feet; thence north 80 degrees 30' west 548 feet; thence north no degrees 15' east 746 feet; thence north 67 degrees 30' west 990 feet; thence north no degrees 30' east 1164 feet; being the north-east corner of the Thornton tract No. 2, thence south 84 degrees 10' west 649 feet; thence south 29 degrees west 553.5 feet; thence north 66 degrees 50' west 1359 feet; thence south 18 degrees west 1171 feet; thence south 37 degrees 15' east 69.5 feet; thence south 27 degrees 30' west 912 feet; thence north 72 degrees 15' west 96.5 feet; thence south 13 degrees west, 2992.6 feet; thence south 72 degrees, 30' east 758 feet; thence south 43 degrees 30, west 1807 feet; thence south 32 degrees 50' west 486 feet; thence south 82 degrees 45' east, 2720 feet to the point of beginning, containing 393.43 acres.

TRACT NO. 7: Beginning at a point on the west side of the Huning Mill Acequia about one half mile northerly from Huning Mill and joining the land of John McTague upon its north and west side beginning at a stake upon the west bank of the said Huning Acequia and on the north line of the land of John McTague; thence following the general course of the acequia north no degrees 9' east 2455.5 feet; thence leaving the acequia north 74 degrees 30' west 1322 feet; thence south 1 degree 35' west 3024 feet; thence south 72 degrees 20' east 701.6 feet; thence following the west line of the fence of John McTague north 8 degrees 15' east 551 feet; thence along the north fence of the said McTague south 74 degrees 30' east 453 feet to the point beginning containing 78.86 acres.

TRACT NO. 8: Beginning at a point which is north 15 degrees 5' east 1670 feet from the north-east corner of tract 2 as shown above, thence north 51 degrees west 237.6 feet; thence north 44 degrees east 871.2 feet; thence north 85 degrees east 1485 feet; thence south 10 degrees west, 1468.5 feet; thence north 83 degrees west 884.4 feet; thence north 51 degrees west, 950.4 feet to the point of beginning, containing 56.37 acres.

TRACT NO. 9: Beginning at a point on the east side of the railroad track and which is south 12 degrees 15' east 172 ft. from the north east corner of the Thornton tract No. 3 (numbered here tract No. 8) above described: thence running south 10 degrees 20' west 4376 feet along the east right of way of the Atchison, Topeka & Santa Fe railroad; thence south 84 degrees east 826 ft.; thence north 78 degrees east 340.8 feet; thence following the meanders of the Rio Grande north 14 degrees 30' east 160 feet; thence north 11 degrees west 146 feet; thence north 24 degrees 30' west, 129 feet; thence north 22 degrees east 145 feet; thence north 14 degrees west 455 feet; thence north 9 degrees east 536 feet; thence north 22 degrees east 616 feet; thence north 58 degrees 30' east 679 feet; thence north 67 degrees 5' east 96.3 feet; thence leaving the Rio Grande, running north 32 degrees west, 2148 feet to the point of beginning, containing 85.29 acres.

## The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

**Silence of Operation**—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

**Decimal Tabulator**—A help in billing and tabulating. There is no extra charge for this convenience.

**Variable Line Spacer**—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

**Faster Ribbon Feed**—Insures new place of impact for each typeface.

**Choice of Carriage Return**—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

L. C. SMITH & BROS. TYPEWRITER COMPANY  
Factory and Home Office, SYRACUSE, N. Y., U. S. A.

7164 Champa St.

DENVER, COLO.

The Belen Cleaning Works have made arrangement to install a Laundry in the same building and in connection with their department. Prices are reasonable and work guaranteed in both departments.

Stuart Blackton and Albert E. Smith present, Charles Richman and other eminent vitagraph stars in the BATTLE CRY OF PEACE "A Call to Arms Against War" by J. Stuart Blackton.

April 10th Monday,

(Continued from 2nd. page)

TRACT NO. 10: Beginning at a point north 88 degrees 20' east 33 feet from the south-east corner of tract marked (1); thence north 88 degrees 20' east 512.7 feet; thence north 10 degrees 20' east along the west boundary line of the Atchison, Topeka & Santa Fe railroad 1745.8 feet; thence south 26 degrees west 439.3 feet; thence south 25 degrees 20' west 1480 feet to the point of beginning, containing 10.14 acres.

TRACT NO. 11: Beginning at a point at the intersection of the lines between the property of Demetrio Vallejos and Solomon Luna, and the west boundary line of the right-of-way of the Atchison, Topeka & Santa Fe Railroad Company, thence south 10 degrees 20' west 1627 feet along the line of said right of way; thence south 28 degrees 35' west 1268 feet; thence north 46 degrees west 1080 feet; thence north 53 degrees west 449 feet; thence north 49 degrees 45' east 789 feet; thence north 14 degrees 30' east 701 feet; thence north 25 degrees 34' east 784.5 feet; thence south 78 degrees east 938 feet to the point of beginning, containing 61.95 acres.

TRACT NO. 12: Beginning at a point which is south 49 degrees 45' west 101 feet from the south-west corner of tract above described; thence running south 49 degrees 45' west 236 feet; thence south 72 degrees 32' west 1143 feet; thence south 69 degrees west 1194 feet; thence south 16 degrees west 834 feet; thence south 28 degrees 15' west 1639 feet; thence south 42 degrees west 507.5 feet; thence south 88 degrees 30' east 543 feet; thence north 77 degrees 30' east 368 feet; thence north 89 degrees 45' east 376 feet; thence south 81 degrees 30' east 356 feet; thence north 19 degrees 30' east 349 feet; thence north 46 degrees 45' east 861 feet; thence north 26 degrees east 513 feet; thence north 84 degrees 30' east 856 feet; thence north 20 degrees 30' east 2126 feet; thence north 80 degrees west 468 feet to the place of beginning, containing 152.06 acres.

TRACT NO. 13: A parcel of land, the south-west corner of which is north 5 degrees 6' west 3014 feet from the two-mile corner of north boundary of the Nicolas Duran de Chavez Grant and embracing the land from the Huning property on the south; Eusebio Gallegos and Pablo M. Jaramillo on the east, and bounded on the west and north by meanders as follows: Beginning at the point above described, thence north 56 degrees east 603 feet; thence north 46 degrees 30' east 1021 feet; thence north 32 degrees 45' east 928 feet; thence 33 degrees 30' east 307 feet; thence north 31 degrees 30' east 1196 feet; thence north 85 degrees 15' east, 1189 feet; thence north 42 degrees east, 171 ft.; thence south 81 degrees 30' east to the north-west corner of Jaramillo's fence, containing 76 acres more or less.

TRACT NO. 14: Beginning at a point on the south boundary of the tract of land known as the Thornton Tract No. 2 and north 55 degrees 20' west, 203.3 feet from its south corner; thence north 2265 feet; thence west 1320 feet; thence south 384 feet; thence south 57 degrees 15' east, 820 feet; thence south 18 degrees 39' west 857 feet; thence south 55 degrees 20' east 1100 feet to the place of beginning, containing 42.37 acres.

TRACT NO. 15: Beginning at a point on the west bank of the Huning Ditch, which is south 86 degrees 45' west 44.5 feet from the north-west corner of the fence of Charles Raff; thence south 86 degrees 45' west 1805.5 feet; thence south 36 degrees west 995 feet; thence south 66 degrees 45' west 927 feet; thence south 14 degrees 30' west 298 feet; thence south 14 degrees west 485 feet; thence south 26 degrees 30' west 919 feet; thence south 10 degrees 30' west 769 feet; thence south 8 degrees 15' west 830 feet; thence south 21 degrees 15' east 525 feet; thence south 16 degrees 30' west 820 feet; thence south 35 degrees 43' west 450.6 feet; thence south 74 degrees 30' east 705 feet; thence north 16 degrees 30' east 608 feet; thence north 36 degrees 15' east 477.5 feet; thence north 62 degrees 45' west, 189 feet; thence north 12 degrees 45' east 160.5 feet; thence north 32 degrees 45' east 204.5 feet; thence north 39 degrees 30' east 403 feet; thence south 64 degrees 30' east 324 feet; thence north 48 degrees 45' east 418.5 feet; thence north 61 degrees 15' east 605.5 feet; thence north 15 degrees 15' east 604 feet; thence north 4 degrees 45' west 252.5

feet; thence north 24 degrees 45' east 155 feet; thence north 64 degrees 30' west 212 feet; thence north 16 degrees 4' east 1123 feet; thence north 58 degrees 30' west 86 feet; thence north 21 degrees 45' east, 63 feet; thence north 33 degrees 30' east, 1407 feet; thence north 34 degrees 30' east 786 feet; thence south 78 degrees 10' east 359 feet; thence north 14 degrees 30' east 1158.5 feet to the point of beginning, containing 277.28 acres.

TRACT NO. 16: Beginning at the north-west corner of the fence on the Huning Mill property and southwesterly from the old Huning Mill; thence running north no degrees 51' east 752 feet, the north-east corner; thence west 718.7 feet; thence south 1 degree 50' west 1925 feet; thence north 77 degrees 45' east 796.5 feet to place of beginning, containing 31.49 acres.

TRACT NO. 17: Beginning at a point north no degrees 5' east 811.8 feet from north-east corner tract No. 16; thence running north no degrees 5' east 538 feet; thence south 80 degrees 25' east 735 feet; thence north 12 degrees 45' east 709.5 feet; thence south 87 degrees 30' east 212.5 feet; thence north 9 degrees 15' east 556 ft.; thence north 72 degrees 20' west, 619.6 feet; thence north 1 degree 35' west 2080 feet; thence south 27 degrees 30' west 1706 feet; thence south 9 degrees 10' west 2430.6 feet; thence east 639 feet to the point of beginning, containing 76.29 acres.

Also the acequia known as the Huning Acequia which was originally constructed by Louis Huning in the year 1873, for power purposes, and was afterwards by the said Louis Huning used for conveying water for purposes of irrigation, together with all the water and water rights which by prior appropriation or otherwise accrued to the said Louis Huning and his successors in title by reason of the diversion and beneficial use of the waters of the Rio Grande to the full extent of the carrying capacity of said acequia and the right to divert and carry said water of the Rio Grande through the said acequia and any enlargements and extensions thereof and to use the same for all lawful purposes, including the application thereof to lands for the purposes of irrigation whether such lands be owned by the owner of the said acequia or other persons, and to charge and exact from other such persons compensation for the carrying of such water and delivering it to and upon the lands of such other persons, and to increase and enlarge the appropriation thereof to the same extent that the grantor herein might lawfully do, together with the right of way for the said acequia throughout its entire length and the lands upon which the said acequia is excavated, together with a strip of land six feet on either side of the water bank of said acequia which said acequia is more particularly described as follows: The head of the western intake of said acequia is north 48 degrees 43' east 20,382 feet from the two-mile corner of the north boundary of the Nicolas Duran de Chavez Grant, and the eastern intake is south 32 degrees east 260 feet from the said western intake above described; the two ditches join south 17 degrees west about 900 feet from the headgates of the western intake, the acequia bears in a southwesterly direction and at a point south 1 degree 45' from the north east corner of tract No. 2 of the lands of the Southwestern Irrigation Land & Power Co., is located sluice gates and the head of a sluiceway which bears south 12 degrees 30' east to the river about 500 feet distant, the acequia crosses under the right of way of the Atchison, Topeka & Santa Fe Railroad Company, under bridge No. 834, which is south 10 degrees 20' west 478 feet from the intersection of the north line of Nicolas Duran de Chavez Grant and the center line of said railroad; from this point the acequia bears in a general southwesterly direction for a distance of about 4600 feet; and thence bears north 86 degrees west 3440 feet, where it joins the Los Lunas acequia; from this point it bears in a general southwesterly direction to the old mill site on the tract of land known as the Huning Mill property; and from thence it bears in a general southerly direction through the Huning Mill property and thence in a southeasterly direction, crossing under the Atchison, Topeka & Santa Fe Railroad Company's Bridge No. 841, which is south 10 degrees 20' west 27,701 feet along the railroad track from the intersection of the north grant line of the Nicolas Duran de Chavez Grant and the center line of said railroad; the acequia empties into the Rio Grande east 100 feet from the said last-mentioned bridge, and the width of the said acequia, including right of way on either side of the water banks thereof is 40 feet from the intake to the point of junction with the Los Lunas acequia and from thence 30 feet to the point where it discharges into the Rio Grande; the said acequia is delineated and meandered upon a map of the lands of the Southwestern Irrigation Land & Power Company made

by J. R. Farwell, C. E., and which is to be filed for record in the office of the probate clerk and ex-officio recorder of Valencia county, to which map reference is hereby made for greater certainty and better description.

Excepting from the real estate above described lots 47, 48, 49, 50, 51, 52, 53, 54, 55, 74, 77, 80, 82, 84, 87, 89, 91, 92, 94, 96, 98, 100, 110, 112, 114, 124, 175, 176, 177, 178, 179, 180, 182, 183, 184, 185 and 186, as the same are known and designated on a plat of the sub-division of the property of the Southwestern Irrigation Land & Power Co. made by J. R. Farwell and filed in the office of the probate clerk and ex-officio recorder of Valencia county, New Mexico, on the 20th day of March, 1908.

Also all other real estate owned by the Southwestern Irrigation Land & Power Co. on the date of the deed of trust executed to the Federal Trust Co., namely, March 1, 1911, or thereafter acquired.

## We're Opposed To MAIL ORDER CONCERNS

Because

They have never contributed a cent to furthering the interests of our town—

Every cent received by them from this community is a direct loss to our merchants—

In almost every case their prices can be had right here, which delay in receiving goods and the possibility of mistakes in filling orders.

But—

The natural human trait is to buy where goods are cheapest. Local pride is usually secondary in the game of life as played today.

Therefore

Mr. Merchant and Business Man, resist your competition with their own wares.

Advertisement

The local field is yours. All you need do is to avail yourself of the opportunities offered. An advertisement in this paper will carry your message into hundreds of homes in this community. It is the surest medium of killing your present competitor. A space this size will do it. Come and see or write.
