## Maintenance Problems

Interruption in Long Distance service means annoyance and loss of time to our patrons.

Intense heat, extreme cold, lightning, wind, sleet and snow are relentless enemies of "outside" telephone plant.

The elements are continually warring against our poles and wires.

Often an attack results in only the breaking of a single wire; occasionally the result is miles of broken poles and tangled wires.

Sometimes the trouble is near headquarters; often it is far up on the wind-swept mountains.

Wherever and whatever it is, our repairmen, bravely defying the elements, hurry to the scene to make the needed repairs.

Many a wreck caused by winter storms costs thousands of dollars to repair, and has caused our repairmen to suffer hardships almost unendurable.

But the lines must be kept open. Telephone service must be as nearly continuous as it is humanly possible to make it.

The maintaining of a telephone plant in this mountainous country is a problem rarely considered by telephone users.

## UNIVERSITY SERVICE

### HOLY WEEK.

The completed program for commencement week at the New Mexico State University was made public here today by President Boyd who announced Hon. W. C. Reid as the commencement speaker, and Rev. Father A. M. Mandalari, S. J., to deliver the baccalaureate sermon. The complete outline program of the week, follows:

Sunday, May 7—Baccalaureate Sermon by Rev. A. M. Mandalari, Rodey Hall, University Campus, 3 p. m.

Monday, May 8—Class Day Exercises, Rodey Hall, University Campus, 10 a. m.

Monday, May 8—Concert, University of New Mexico Department of Music, Rodey Hall, University Campus, 8 p. m.

Tuesday, May 9—Annual Play, "The Man From Mexico," Crystal Theatre, 8:15 m. p.

Wednesday, May 10—Commencement. Captain W. C. Reid, Commencement speaker. Rodey Hall, University Campus 10 a. m.

Wednesday, May 10—Alumni Dinner, Alvarado Hotel, 6:30 p. m.

Wednesday, May 10—Commencement Ball (Auspices Alumni Association,) Rodey Hall, University Campus, 9 p. m.

Something of the growing interest in the work of the University of New Mexico is indicated by the circulation of the University News, a faculty publication issued monthly and mailed only to those expressing active interest in the institution. The April number, just out, is an issue of 6000 copies, every one of which represents a request from an interested person, while the larger part of the circulation of the News is in New Mexico. Many copies are sent out of the state.

Prof. A. M. Espinosa, formerly Professor of Romance Languages at the New Mexico University, and now holding a similar chair in Leland Stanford University, California, has been granted a leave of absence for one year which he will spend in research work in Spain. Prof. Espinosa, who is a member of a distinguished New Mexico family, has gained considerable note as an author and critic in his chosen field.

## THE PUBLIC INTEREST.

The whole United States appears to have awakened with a start to the menace of the nation contained in the demands of the four great train service organizations for what the men term an 8-hour day, and what the railway companies declare is merely a demand for a twenty-five percent wage increase. The possibilities of a tie-up of the railways are so appalling that full realization has been slow in coming. But with the date set on which reply must be made to the demands newspapers all over the nation have joined in an all but unanimous protest against an action which it is beginning to be seen would cause a chaos in the United States as terrifying as that now existing in war-torn Europe.

The withdrawal of the Union Pacific engineers from the demands a few days ago has served to encourage hope of an amicable settlement. But the very importance of this action by the Union Pacific men has merely served to emphasize and bring home the dangers of the negotiations now pending.

One may not agree with everything its editor says as to the justice or injustice of the demands of the trainmen, but Kapper's Weekly has voiced strikingly in its latest issues what seems to be the general feeling of the people of the United States toward the threatened strike, in the following:

"WILL THE PUBLIC PERMIT A PARALYZING STRIKE?"

"According to the terms of the ultimatum handed to the railroad managers by the organized trainmen, an answer must be given by April 29.

"A month was given the railroads to consider the demand for an 8-hour day, with no reduction of pay to correspond with reduction in hours of work.

"The railroads apparently will refuse to grant the demand, also the argument for the 8-hour day is overwhelming, and the railroads must yield to it sooner or later.

"The truth is the railroads have come to be regarded in the United States not as so many hundred separate plants or companies doing a competitive business, like shoe factories or clothing houses, but as one great united industry in which three interests are about equally concerned—the owners, the employees and the patrons.

"The public interest is important in all business, but in this case it is vital.

## Lutheran Church.

### Holy Week and Easter Services

There will be special Holy Week Services Wednesday and Thursday night at 8 o'clock. "We will go with Jesus On the Way to the Cross."

ON GOOD FRIDAY MORNING at 10:30 the Preparatory Service to the Communion will be held. The thought will be "Victorious in Death."

EASTER SUNDAY will begin with a SUNRISE PRAISE SERVICE at 6:30

At the 11 o'clock morning worship THE HOLY COMMUNION will be Celebrated. A special offering will be made both morning and evening for the work of Church Extension.

### SPECIAL EASTER SERVICES.

By the Congregation and School will be held at 7:30 P. M. The service is entitled JUBILATE, and it is beautiful and impressive. The little people will take part. Easter Antunes will be sung by the Choir at each service.

We are anticipating a rich Easter blessing. Come and worship the Risen Lord.

### Chavez Murderer Mystery Solved.

A confession the police claim to have obtained from Jose Medina that he killed Jose N. Chavez a saloon keeper, who was found partially buried in a brick yard in Albuquerque, a month ago. Medina asserted his reason for the killing was a quarrel over 25 cents owed for Chavez.

The University of New Mexico Y. W. C. A. has elected as its delegates to the summer conference at Estes Park, Colo., Mrs. May Brorein and Lillian Gustafson of Albuquerque, and Miss Lulu Cooper of Gallup.

"When the railroad managers turn down the demand, what will happen?"

The trainmen will then refer to their executive committee of four officials the issue of a general strike of trainmen on all the railroads of the United States.

"If the four men to whom is submitted this tremendous responsibility call the men out, then will be witnessed the greatest railroad tie-up and the most terrific paralysis of traffic ever experienced in the world.

"The interested public will not stand for it.

"It is not a question here of the merits of the original issue of the 8-hour day.

"The greater issue overshadows it of a comparatively small body of men at the command of

(Continued on 4th. page.)

## THE SPECTRE OF INVASION.

A reader reported the other day that a friend with whom he had intended to come and locate on the Pacific Coast had decided that it would not be safe. The newspaper and magazine reports of an impending Japanese invasion had caused a chill so seize his pedal extremities. He preferred to stay inland, out of reach of the enemy's howitzers.

Shortly thereafter the president pronounced the "Pacific Coast defenseless" during his preparedness campaign. Obviously the only power which could do more than bombard a few unfortified coast towns on the Pacific shore is Japan. Though the navy has not been heard on the subject, the Army asserts that Japan could, within a month, land sufficient soldiers between San Francisco and Los Angeles to eat all available regulars and militia men before breakfast. To land a sizable army anywhere north of San Francisco at the foot of the wild coast Range rampart would be foolish, Homer Lee notwithstanding. But, granting the successful landing and the easy victory of a Japanese expedition, what next?

There are no munition factories on the Coast; powder works are easily blown up; California's 140,000 motors could escape under their own power; the sierras would shelter the stock; in other words, the conquered territory would supply only an infinitesimal part of the material needed by the invaders to carry on the war. They would have to bring their ammunition across the Pacific. It has yet to be demonstrated that a power lacking control of the Seven Seas, with a fleet inferior to that of its adversary can successfully conduct a campaign 7000 miles from its base. A fleet of six modern battle cruisers stationed on the Pacific Coast could so disturb the thin, long lines of the foe's communications that an attack would never be attempted. Japan may attack the United States: Roosevelt and Bryan may run in the same ticket; San Francisco may vote unanimously for absolute prohibition. In a topsyturvy age these things are not impossible. The sunk may become a household pet, Billy Sunday may forget a collection, Secretary Sane may plait his hair into a queue, but precedent, history and common sense are

against the occurrence of these

## SPORT IN N. M. UNIVERSITY

-- Ninety New Mexico High School Athletes will gather at the University of New Mexico, April 27, 28 and 29 for the most important track and field meet in the history of school athletics in the far southwest. The meeting, held under the auspices of the New Mexico Inter-Scholastic Athletic Association, will take place on the University campus where the visiting athletes will be entertained as guests of the university.

Artesia, Roswell, Tucuman, Deming, Albuquerque, Alamogordo, Santa Fe, Dexter, Gallup, Portales, Raton, Socorro and Belen high schools have entered full teams in the meeting, while several other high schools have entered in a part of the events.

An extra day, April 27, has been added to the meeting this year to accommodate the Inter-Scholastic Championship Basketball Contest which will occupy the evenings of the three days, and which will determine the championship high school basketball team of the state. Nine teams are entered in the basketball contest. Preliminaries will take place Thursday night, Friday morning and Friday night and the finals will occur on Saturday night in the National Guard Armory. Basketball has gained a great ascendancy in New Mexico during the past year and there is lively interest in this contest all over the State.

Special rates of one and one-third fare for the round trip have been made for the meeting and a large number of rooters and spectators are expected to accompany the visiting teams. Among the special attractions will be several high school orchestras and bands which will come to cheer the respective teams.

extraordinary phenomena. Unless the United States should decide to extend the Monroe Doctrine to China and to defend the youngest empire by force of arms, there is absolutely no reason why America and Japan should fight except the same mutual, insane fear followed by the same armament race that plunged Europe into the pit of hell.

The Asiatic Institute proposes to hold a conference of representatives from the entire Pacific basin this summer. If this conference will refuse to dwell ex-

(Continued on 4th. Page.)

## A HARD ROW TO HOE.

Public sentiment throughout the United States is forming very rapidly against any kind of internal conflict which will serve to upset business conditions and add to the difficulties bearing in upon the nation from the outside. Newspapers and magazines, trade publications, in fact every medium of public expression, is lining up solidly in opposition to any thing in the form of an ultimatum or arbitrary demand in the pending wage controversy between the four affiliated orders of railroad train service employees and the railway companies. Quite regardless of any former affiliations or sympathies this is the attitude of ninety-nine per cent or both newspapers and magazines, the surest reflection of a well formed public opinion.

This attitude probably has not been more clearly stated than in a brief article in the April number of the "Sunset Magazine," dealing with the demands of the train service employees and the public attitude toward them. "Sunset" says:

"Few laymen are sufficiently familiar with the intricate system of determining the earnings of engineers, firemen, conductors and trainmen to arrive at an intelligent technical opinion concerning the justice of the dispute between the railroad brotherhoods and the railroad managers. But the average man be-

(Continued on 4th. Page.)

## METHODIST EPISCOPAL CHURCH NOTES.

With last Sunday's Services another high water mark was set in the different departments of the church. There was an attendance of 81 in the Sunday School, full pews at the church service, a full attendance at Junior League, and there were about fifty out for Christian Endeavor, with every available seat taken in the evening services.

The mid week prayer meeting increases in attendance, and promises to become one of the most interesting features of the church. You cannot afford to miss any of these services. Easter morning the young people of the Endeavor Society will observe the morning watch in a Sunrise Prayer Meeting at 6:00 A. M., at the M. E. Church. Every one who will worship with them is invited.

Come to the Sunday School and for the Easter Program which will take the place of the morning sermon. Something good will be offered. Don't miss Junior League, and Christian Endeavor. The address for Sunday evening will be "Camp Fire Girls" to which every one is cordially invited.

### Thirty-One Different Departments Receive Money for the State of New Mexico.

Santa Fe, N. M. April 19.—  
In the course of its financial survey of New Mexico, the New Mexico Taxpayers' Association has begun its examination of the financial affairs of the state government which is to be embodied in a consolidated statement of receipts and expenditures of the state and an analysis of its financial methods. The examination is being made by Director A. E. James who has given out an advance statement of an article to appear in the forthcoming April number of the New Mexico Tax Review.

"As a starter," says the director, "it was found that thirty-one different departments aside from the Treasurer collect state funds, and of those only the collections from the State Corporation Commission, State Penitentiary, Cattle Sanitary Board, Sheep Sanitary Board and Clerk of the Supreme Court, are all paid into the state treasury. The accounts of the State Auditor are required to contain all the receipts of the above five bodies, alone of the thirty-one. All the rest disburse in whole or in part the collections they make without accounting to the State Auditor and Treasurer for them."

The director shows that the land department and the various state institutions are required to be examined annually by the State Traveling Auditor. He notes, however, that this audit does not guarantee that expenditures will not be improperly made, or that funds will not be lost. "It only guarantees," he states, "that such things if they happen will probably be discovered after they have happened. The real protection would be to get the money in the state treasury and pay it out only on auditor's warrants. By this means the funds would be protected before a loss could happen and an independent agent, the auditor, would be responsible. The taxpayers are interested not in

the state appropriations alone, but in the total department income, since the appropriations depend directly upon the proper safeguarding and economical disbursement of all funds received."

Director James goes on to show that the State Engineer, Land Department and Secretary of State receive funds, part of which are paid to the State Treasurer and part retained and paid out without the control of the State Auditor, while the Highway Commissioner, Game Warden, Museum and Historical Society and the various professional examining boards receive and disburse funds without any accounting to the State Treasurer and Auditor, and without any regular audit by outside authorities.

"Not only does this condition afford the public inadequate protection against loss or misapplication of funds," says the article. "It makes any complete statement of state finances difficult and expensive. The Taxpayers' Association completed an examination of all the receipts of the State Auditor in a week; but a little more time would have been required had all the state receipts been registered on his books. In fact examinations of the separate receiving departments are actually more difficult than the main examination in the office of the State Auditor. These outside agencies are largely located outside the Capitol, and a real study at first hand of their books is almost impossible without great expense."

"In fact this statement could only have been made by the Association after examinations made as rapidly as these outside bodies could have been reached. Fortunately the Governor, on his own initiative, volunteered to secure the reports, inquiries for which have been

TRACT NO. 1: Beginning at the point of the intersection of

the lines between the Nicolas Duran de Chavez grant and the San Clemente Grant and the west right of way line of the Atchison, Topeka & Santa Fe railroad; thence running south 10 degrees 20' west, 4117 feet; thence south 53 degrees 30' west 41 feet; thence south 25 degrees west 1970 feet; thence south 88 degrees 20' west 3577 feet; thence south 59 degrees 30' west, 700 feet; thence north 72 degrees 40' west, 189.7 feet; thence north 2 degrees 30' west, 262.5 feet; thence south 86 degrees 45' west 626.5 feet; thence following the meanders of the Huning Ditch north 8 degrees 30' east, 148 feet; thence north 14 degrees east, 2000 feet; thence following the meanders of the Los Lunas Ditch north 26 degrees 40' west, 292 feet; thence north 55 degrees 30' west, 128 feet; thence north 50 degrees 30' west 193 feet; thence north 25 degrees 30' west, 480 feet; thence north 21 degrees 30' west 396 feet; thence north 19 degrees 19' west 696 feet; thence north 24 degrees 40' east 481 feet; thence north 26 degrees 55' east 810 feet; thence north 28 degrees east 395 feet; thence north 27 degrees 40' east 580 feet; thence leaving the Los Lunas Ditch: south 83 degrees 8' east, 1309 feet; thence north 10 degrees 15' east 1711 feet; thence north 82 degrees 15' west, 41.5 feet; thence north 12 degrees 45' east, 657 feet; thence south 77 degrees 44' east, 1048.4 feet; thence north 16 degrees 40' east, 1015 feet; thence north 62 degrees 30' west, 199 feet; thence north 38 degrees west, 586 feet; thence north 31 degrees 30' east, 968 feet; thence south 78 degrees 30' east, 556 feet; thence north 49 degrees 15' east 657 feet; thence north 81 degrees 40' west 251 feet; thence north 9 degrees east 814 feet; thence north 37 degrees 45' east 90 feet; thence north 64 degrees east, 256 feet; thence north 32 degrees east 80 feet; thence north 24 degrees 30' west, 132 feet; thence north 51 degrees 8' east, 643.6 feet; thence south 78 degrees 30' east, 985 feet; thence south 9 degrees 45' west 485 feet; thence south 75 degrees 30' east 1332 feet; thence south 9 degrees east, 465.2 feet; thence south 10 degrees 20' west, 4911 feet to the point of beginning, containing 1326.7 acres.

TRACT NO. 2: Beginning at the point of intersection of the lines between the Nicolas Duran de Chavez grant and the San Clemente Grant and the east boundary line of the right of way of the Atchison, Topeka & Santa Fe railroad; thence running north 10 degrees east 1445 feet; thence south 74 degrees 15' east 695.5 feet; thence north 24 degrees 10' east, 499 feet; thence north 23 degrees 45' east 809 feet; thence north 24 degrees 10' east 1481 feet; thence south 84 degrees east 67 feet; thence south 86 degrees 15' east 52.7 feet; thence north 41 degrees 20' east, 787 feet; thence north 19 degrees 15' east 159 feet; thence north 12 degrees 10' east 824 feet; thence north 22 degrees 5' east 1670 feet; thence north 29 degrees 10' east 457 feet; thence south 78 degrees 45' east 238 feet; thence north 15 degrees 15' east, 434 feet; thence south 59 degrees 5' east 1552 feet; thence in a general south-westerly direction following the meanders of the Rio Grande to a point on the river where a line north 61 degrees 10' west, 2224 feet intersects the east boundary line of the right of way of the Atchison, Topeka & Santa Fe railroad, south 10 degrees and 29' west, 7164 feet from the point of beginning, containing 743.06 acres.

TRACT NO. 3: Beginning at a point on the public road to Socorro, which is south 23 degrees 30' west, 1109 feet from the southeast corner of the land of Mrs. Gertruda Sanchez de Varga; thence running south 26 degrees 45' west 1808.5 feet; thence south 17 degrees 30' west 1857 feet; thence south 11 degrees 30' west, 591 feet to the south-east corner; thence north 78 degrees 18' west 2494 feet; thence north 12 degrees east 2805 feet; thence south 76 degrees east 537 feet; thence north 17 degrees 10' east 1221 feet; thence north 70 degrees east 308 feet; thence north 52 degrees 30' east 356.5 feet; thence south 60 degrees 40' east 127 feet; thence south 67 degrees 20' east 1088 feet to the point of beginning, containing 247 acres.

TRACT NO. 4: Beginning at a point on the Socorro road south 11 degrees 30' west 805 feet from the south-east corner of the tract above described; thence running south 11 degrees 30' west, 682 feet; thence north 79 degrees west 355 feet; thence north 58 degrees 5' west 757.5 feet; thence north 88 degrees west 470 feet; thence south 3 degrees 30' west 44.2 feet; thence north 82 degrees 30' west 902 feet; thence north 40' east 117 feet; thence north 12 degrees east, 872 feet; thence south 78 degrees 6' east 2473.3 feet to the point of beginning, containing 44.32 acres.

TRACT NO. 5: Beginning at the north-east quarter of the south-east quarter of the south-east quarter of section 19, T. 6 N., R. 2 E; thence running south 2265 feet; thence south 55 degrees 20' east 203.3 feet; thence north 21 degrees 49' east 3969 feet; thence west 1637 feet; thence north 792 feet; thence east 1244 feet; thence north 0 degrees 30' east, 578 feet to the north-east corner; thence 81 degrees west 1994 feet; thence south 5 degrees 30' east 1193 feet; thence north 72 degrees west 1953 feet; thence south no degrees 10' west 2050 feet; thence south 57 degrees 15' east, 1361 feet; thence north 384 feet; thence east 1320 feet to the point of beginning, containing 227.88 acres.

TRACT NO. 6: Beginning at a point north 22 degrees east 653 feet from the north-east corner of the tract above described numbered 5; thence running north 12 degrees 55' east 623 feet; thence north 10 degrees 20' east 643 feet; thence north 80 degrees 15' west 29.5 feet; thence north 10 degrees 40' east 1993.5 feet; thence north 80 degrees 10' west, 404 feet; thence north 8 degrees 30' east, 443 feet; thence north 33 degrees east 1084 feet; thence north 49 degrees east 202 feet; thence south 79 degrees 10' east 2170 feet; thence north 9 degrees east 450.5 feet; thence north 80 degrees 30' west 548 feet; thence north no degrees 15' east 746 feet; thence north 67 degrees 30' west 990 feet; thence north no degrees 30' east 1164 feet; being the north-east corner of the Thornton tract No. 2. thence south 84 degrees 10' west 649 feet; thence south 29 degrees west 553.5 feet; thence north 66 degrees 50' west 1359 feet; thence south 18 degrees west 1171 feet; thence south 37 degrees 15' east 69.5 feet; thence south 27 degrees 30' west 912 feet; thence north 72 degrees 15' west 96.5 feet; thence south 13 degrees, west 2992.6 feet; thence south 72 degrees, 30' east 758 feet; thence south 43 degrees 30' west 1807 feet; thence south 32 degrees 50' west 486 feet; thence south 82 degrees 45' east, 2720 feet to the point of beginning, containing 393.43 acres.

TRACT NO. 7: Beginning at a point on the west side of the Huning Mill Acequia about one half mile northerly from Huning Mill and joining the land of John McTague upon its north and west side beginning at a stake upon the west bank of the said Huning Acequia and on the north line of the land of John McTague; thence following the general course of the acequia north no degrees 9' east 2455.5 feet; thence leaving the acequia north 74 degrees 30' west 1322 feet; thence south 1 degree 35' west 3921 feet; thence south 72 degrees 20' east 791.6 feet; thence following the west line of the fence of John McTague north 8 degrees 15' east 551 feet; thence along the north fence of the said McTague south 74 degrees 30' east 453 feet to the point beginning containing 78.86 acres.

TRACT NO. 8: Beginning at a point which is north 15 degrees 5' east 1670 feet from the north-east corner of tract 2 as shown above, thence north 51 degrees west 237.6 feet; thence north 44 degrees east 871.2 feet; thence north 85 degrees east 1485 feet; thence south 40 degrees west, 1468.5 feet; thence north 83 degrees west 884.4 feet; thence north 51 degrees west, 950.4 feet to the point of beginning, containing 56.37 acres.

TRACT NO. 9: Beginning at a point on the east side of the railroad track and which is south 12 degrees 15' east 172 ft. from the north-east corner of the Thornton tract No. 3 (numbered here tract No. 8) above described; thence running south 10 degrees 20' west 4376 feet along the east right of way of the Atchison, Topeka & Santa Fe railroad; thence south 84 degrees east 826 ft.; thence north 78 degrees east 350.8 feet; thence following the meanders of the Rio Grande north 14 degrees 30' east 160 feet; thence north 11 degrees west 146 feet; thence north 24 degrees 30' west, 429 feet; thence north 22 degrees east 145 feet; thence north 14 degrees west 455 feet; thence north 9 degrees east 536 feet; thence north 22 degrees east 616 feet; thence north 58 degrees 30' east 679 feet; thence north 67 degrees 5' east 96.3 feet; thence leaving the Rio Grande, running north 32 degrees west, 2108 feet to the point of beginning, containing 85.29 acres.

## The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

**Silence of Operation**—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

**Decimal Tabulator**—A help in billing and tabulating. There is no extra charge for this convenience.

**Variable Line Space**—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

**Easier Ribbon Feed**—Insures new place of impact for each typeface.

**Choice of Carriage Return**—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

(Continued from 2nd. page)

TRACT NO. 10: Beginning at a point north 88 degrees 20' east 33 feet from the south-east corner of tract marked (1); thence north 88 degrees 20' east 512.7 feet; thence north 10 degrees 20' east along the west boundary line of the Atchison, Topeka & Santa Fe railroad 1745.8 feet; thence south 26 degrees west 439.3 feet; thence south 25 degrees 20' west 1480 feet to the point of beginning, containing 10.14 acres.

TRACT NO. 11: Beginning at a point at the intersection of the lines between the property of Demetrio Vallejos and Solomon Luna, and the west boundary line of the right-of-way of the Atchison, Topeka & Santa Fe Railroad Company, thence south 10 degrees 20' west 1627 feet along the line of said right of way; thence south 28 degrees 35' west 1268 feet; thence north 46 degrees west 1080 feet; thence north 53 degrees west, 449 feet; thence north 49 degrees 45' east 789 feet; thence north 14 degrees 30' east 701 feet; thence north 25 degrees 34' east 784.5 feet; thence south 78 degrees east 938 feet to the point of beginning, containing 61.95 acres.

TRACT NO. 12: Beginning at a point which is south 49 degrees 45' west 101 feet from the south-west corner of tract above described; thence running south 49 degrees 45' west 236 feet; thence south 72 degrees 32' west 1143 feet; thence south 69 degrees west 1194 feet; thence south 16 degrees west 834 feet; thence south 28 degrees 15' west 1639 feet; thence south 42 degrees west 507.5 feet; thence south 88 degrees 30' east 543 feet; thence north 77 degrees 30' east 368 feet; thence north 89 degrees 45' east 376 feet; thence south 81 degrees 30' east 356 feet; thence north 19 degrees 30' east 349 feet; thence north 46 degrees 45' east 861 feet; thence north 26 degrees east 513 feet; thence north 84 degrees 30' east 856 feet; thence north 20 degrees 30' east, 2126 feet; thence north 80 degrees west 468 feet to the place of beginning, containing 152.06 acres.

TRACT NO. 13: A parcel of land, the south-west corner of which is north 5 degrees 6' west 3014 feet from the two-mile corner of north boundary of the Nicolas Duran de Chavez Grant and embracing the land from the Huning property on the south; Eusebio Gallegos and Pablo M. Jaramillo on the east, and bounded on the west and north by meanders as follows: Beginning at the point above described; thence north 56 degrees east 603 feet; thence north 46 degrees 30' east, 1021 feet; thence north 32 degrees 45' east 928 feet; thence 33 degrees 30' east 307 feet; thence north 31 degrees 30' east 1196 feet; thence north 85 degrees 15' east, 1139 feet; thence north 42 degrees east 171 feet; thence south 81 degrees 30' east to the north-west corner of Jaramillo's fence, containing 76 acres more or less.

TRACT NO. 14: Beginning at a point on the south boundary of the tract of land known as the Thornton Tract No. 2 and north 55 degrees 20' west, 202.3 feet from its south corner; thence north 2265 feet; thence west 1320 feet; thence south 384 feet; thence south 57 degrees 15' east, 820 feet; thence south 11 degrees 39' west 857 feet; thence south 55 degrees 20' east 1101 feet to the place of beginning containing 42.37 acres.

TRACT NO. 15: Beginning at a point on the west bank of the Huning Ditch, which is south 8 degrees 45' west 44.5 feet from the north-west corner of the fence of Charles Raff; thence south 56 degrees 45' west 1805.5 feet; thence south 36 degrees west 995 feet; thence south 66 degrees 45' west 927 feet; thence south 14 degrees 30' west 298 feet; thence south 14 degrees west 485 feet; thence south 26 degrees 30' west 919 feet; thence south 10 degrees 30' west 769 feet; thence south 8 degrees 15' west 830 feet; thence south 21 degrees 15' east 525 feet; thence south 16 degrees 30' west 820 feet; thence south 35 degrees 45' west 450.6 feet; thence south 74 degrees 30' east 705 feet; thence north 16 degrees 30' east 608 feet; thence north 36 degrees 15' east 477.5 feet; thence north 62 degrees 45' west, 189 feet; thence north 12 degrees 45' east 160.5 feet; thence north 32 degrees 45' east 204.5 feet; thence north 39 degrees 30' east 403 feet; thence south 64 degrees 30' east 524 feet; thence north 48 degrees 45' east 418.5 feet; thence north 61 degrees 15' east 615.5 feet; thence north 15 degrees 15' east 614 feet; thence north 4 degrees 45' west 252.5

feet; thence north 24 degrees 45' east 135 feet; thence north 64 degrees 30' west 212 feet; thence north 16 degrees 4' east 1123 feet; thence north 58 degrees 30' west 86 feet; thence north 21 degrees 45' east, 63 feet; thence north 33 degrees 30' east, 1407 feet; thence north 34 degrees 30' east 786 feet; thence south 78 degrees 10' east 359 feet; thence north 14 degrees 30' east 1198.5 feet to the point of beginning, containing 277.28 acres.

TRACT NO. 16: Beginning at the north-west corner of the fence on the Huning Mill property and southwesterly from the old Huning Mill; thence running north 10 degrees 51' east 752 feet, the north-east corner; thence south 718 7 feet; thence south 1 degree 50' west 1925 feet; thence north 77 degrees 45' east 796.5 feet to place of beginning, containing 31.49 acres.

TRACT NO. 17: Beginning at a point north 10 degrees 5' east 811.8 feet from north-east corner tract No. 16; thence running north 10 degrees 5' east 538 feet; thence south 80 degrees 25' east 735 feet; thence north 12 degrees 45' east 709.5 feet; thence south 87 degrees 30' east 212.5 feet; thence north 9 degrees 15' east 556 feet; thence north 72 degrees 20' west, 619.6 feet; thence north 1 degree 35' west 2080 feet; thence south 27 degrees 30' west 1706 feet; thence south 9 degrees 10' west 2430.6 feet; thence east 639 feet to the point of beginning, containing 76.29 acres.

Also the acequia known as the Huning Acequia which was originally constructed by Louis Huning in the year 1873, for power purposes, and was afterwards by the said Louis Huning used for conveying water for purposes of irrigation, together with all the water and water rights which by prior appropriation or otherwise accrued to the said Louis Huning and his successors in title by reason of the diversion and beneficial use of the waters of the Rio Grande to the full extent of the carrying capacity of said acequia and the right to divert and carry said water of the Rio Grande through the said acequia and any enlargements and extensions thereof and to use the same for all lawful purposes, including the application thereof to lands for the purposes of irrigation whether such lands be owned by the owner of the said acequia or other persons, and to charge and exact from either such persons compensation for the carrying of such water and delivering it to and upon the lands of such other persons, and to increase and enlarge the appropriation thereof to the same extent that the grantor herein might lawfully do, together with the right of way for the said acequia throughout its entire length and the lands upon which the said acequia is excavated, together with a strip of land six feet on either side of the water bank of said acequia which said acequia is more particularly described as follows: The head of the western intake of said acequia is in the 48 degrees 45' east 20,382 feet from the two-mile corner of the north boundary of the Nicolas Duran de Chavez Grant, and the eastern intake is south 32 degrees west 260 feet from the said western intake above described; the two ditches join south 17 degrees west about 900 feet from the headgates of the western intake, the acequia bears in a southwesterly direction and at a point south 1 degree 45' from the north-east corner of tract No. 2 of the lands of the Southwestern Irrigation Land & Power Co., is located a sluiceway which bears south 12 degrees 30' east to the river about 500 feet distant, the acequia crosses under the right of way of the Atchison, Topeka & Santa Fe Railroad Company, under bridge No. 834, which is south 10 degrees 20' west 478 feet from the intersection of the north line of Nicolas Duran de Chavez Grant and the center line of said railroad; from this point the acequia bears in a general southwesterly direction for a distance of about 4600 feet; thence bears north 86 degrees west 3440 feet, where it joins the Los Lunas acequia; from this point it bears in a general southwesterly direction to the old mill site on the tract of land known as the Huning Mill property; and from thence it bears in a general southerly direction through the Huning property and thence in a southeasterly direction, crossing under the Atchison, Topeka & Santa Fe Railroad Company's bridge No. 841, which is south 10 degrees 20' west 27,701 feet along the railroad track from the intersection of the north grant line of the Nicolas Duran de Chavez Grant and the center line of said railroad; the acequia empties into the Rio Grande east 100 feet from the said last-mentioned bridge, and the width of the said acequia, including right of way on either side of the water banks thereof is 40 feet from the intake to the point of junction with the Los Lunas acequia and from thence 30 feet to the point where it discharges into the Rio Grande; the said acequia is designated and meandered upon a map of the lands of the Southwestern Irrigation Land & Power Company made

by J. R. Farwell, C. E., and which is to be filed for record in the office of the probate clerk and ex-officio recorder of Valencia county, to which map reference is hereby made for greater certainty and better description.

Excepting from the real estate above described lots 47, 48, 49, 50, 51, 52, 53, 54, 55, 74, 77, 80, 82, 84, 87, 89, 91, 92, 94, 96, 98, 100, 110, 112, 114, 124, 175, 176, 177, 178, 179, 180, 182, 183, 184, 185 and 186, as the same are known and designated on a plat of the sub-division of the property of the Southwestern Irrigation Land & Power Co. made by J. R. Farwell and filed in the office of the probate clerk and ex-officio recorder of Valencia county, New Mexico, on the 20th day of March, 1908.

Also all other real estate owned by the Southwestern Irrigation Land & Power Co. on the date of the deed of trust executed to the Federal Trust Co., namely, March 1, 1911, or thereafter acquired.

Also the following goods and chattels, to wit:

- 1 alfalfa huller
- 1 grain threshing
- 1 sweep rakes
- 1 mowers
- 1 rakes
- 1 spike tooth harrows
- 2 cultivators, 1 disk cultivator
- 1 disk plow
- 1 gang plow
- 1 sulky plows
- 1 traction engine
- 2 hay loaders
- 2 side delivery rakes
- 10 walking plows
- 3 grain drills
- 2 power presses
- 3 horse balers
- 2 corn listers
- 1 disk harrows
- 2 binders
- 10 wagons
- 2 alfalfa cultivators
- 1 hay stacker
- 1 10 h. p. portable gaso'ine engine
- 1 dump cart
- 1 spring wagon
- 2 graders
- 3 corn planters
- 2 slip scrapers
- 2 2-horse Fresnos
- 2 4-horse Fresnos
- 1 wheel scraper
- 1 corn shelter
- 1 co'n grinder
- 1 road plow

- Team 1. 1 horse mule, grey 16 years. 1 horse mule, black, 16 years.
- Team 2. 1 horse mule, brown 5 years. 1 mare mule, bay, 5 years.
- Team 3. 1 mare mule, brown, 6 years. 1 mare mule, sorrel, 6 years.

- Team No. 8. 1 mare mule, brown, 4 years; 1 horse mule, black, 9 years; team No. 9, 1 horse mule, black, 10 years, 1 horse mule, sorrel, 7 years, team No. 10, 1 mare mule, brown, 8 years, 1 horse mule, black, 8 years; Team No. 11, 1 mare mule, brown, 7 years, 1 mare mule, bay, 8 years; Team No. 14, 1 horse, gray, 9 years, 1 mare, bay, 10 years. Team No. 15, 1 mare bay, 8 years; 1 horse mule, bay, 8 years. Team No. 16, 1 mare mule, grey, 9 years; 1 horse mule, grey, 9 years. Team No. 17, 1 horse mule, brown, 19 years; 1 mare mule, blue, 19 years. Team No. 18, 1 horse mule, black, 19 years; 1 mare mule, blue, 18 years. 5 saddle horses; 1 bay horse; 1 bay mare; 1 colt; 3 milch cows; 1 thoroughbred Berkshire sow; 1 thoroughbred Berkshire boar; 21 brood sows; 4 large barrows; 42 shoats; all of said property being on the ranches of said Southwestern Agricultural Corporation in Valencia county, New Mexico.

Also all harvested crops of every kind and nature on the lands above described. Also all goats and other livestock not hereinbefore specifically described. Also all notes, interest or other evidence of indebtedness whether contracts, notes secured by mortgage, or deed of trust, and bills receivable, claims and choses in action, and all other property of every kind and nature owned by the Southwestern Agricultural Corporation, whether hereinbefore specifically described or not.

The sale of said real estate is made to satisfy a first lien against said real estate in the sum of forty-three thousand three hundred ninety six and 54/100 dollars (\$43,396.54), and to satisfy other subsequent liens and charges against said premises and costs of suit; and said personal property is sold to satisfy a lien of fourteen thousand three hundred and ninety-seven dollars (\$14,397.00) and other subsequent liens and charges and costs of suit, all of which will more

fully appear from the judgment and decree hereinbefore mentioned, reference to which is hereby made.

HARRY H. SCHUTZ,  
Special Master.  
F. P. March 23. L. P. April 13.

## Editorial Section.

sent out and are now being returned. Without this assistance the task would be exceedingly difficult, and even this, it must be remembered, is secondary information not gathered directly from the books.

"What is the remedy?"

"Pay all money into the State Treasury and disburse only on warrant of the State Auditor."

"Relieve the Traveling Auditor of all duties over these departments except to audit receipts and see that they are all paid into the Treasury."

"Make the audit of receipts as automatic as possible."

"To illustrate. The Boards of Examiners and the Secretary of State licenses for which fees are required. All licenses should be procured by the State Auditor and issued to those agencies, charging them to the licenses given out as so much cash. Monthly or obtain the cash

should be turned in. The institution of a committee as now ed, reference to which is hereby made, to receive fees, etc., but should turn in all receipts and be audited only by the Traveling Auditor. This is now the condition at the Penitentiary. It can be made the condition throughout the state service.

"After the fact," concludes Director James, "is expensive and unnecessary. Auditing before the fact and automatically is safer, cheaper and simpler. It makes complete reporting, centralizes and safeguards responsibility."

## We're Opposed To MAIL ORDER CONCERNS Because

They have never contributed a cent to furthering the interests of our town—

Every cent received by them from this community is a direct loss to our merchants—

In almost every case their prices can be had right here, which delay in receiving goods and the possibility of mistakes in filling orders.

But---

The natural human trait is to buy where goods are cheapest. Local pride is usually secondary in the game of life as played today.

Therefore

Mr. Merchant and Business Man, meet your competition with their own weapons—advertising.

Advertise!

The local field is yours. All you need do is to avail yourself of the opportunities offered. An advertisement in this paper will carry your message into hundreds of homes in this community. It is the surest medium of killing your greatest competitor. A space this size won't cost much. Come and see or write us about it.
