LibKey Suite - Access Full Text Faster

by Robyn Gleasner on January 19th, 2022 | [0 Comments](#)

HSLIC has subscribed to the LibKey Suite through Third Iron. This is a suite of products designed to connect users easily and quickly to the full text of articles. It includes the following products:

[DOI/PMID Search](#) - will search for any DOI or PMID using your browser. To get started select University of New Mexico Health Sciences Library & Informatics Center as the organization.

LibKey Link - a discovery accelerator that connects users directly with the full text of an article. Simply click "View PDF" in Discovery or the "Find@UNM" button in EBSCO Databases and Pubmed. The "Find@UNM" button will direct users to the LibKey Landing Page where the PDF can then be downloaded.

[BrowZine](#) - a visual representation of HSLIC's ejournal subscriptions with the option to personalize bookshelves with favorite ejournals and save articles to a collection.

[Nomad Browser Extension](#) - a browser extension that links HSLIC users to the full text of articles when searching websites like PubMed and Wikipedia.

For a complete description of each of these products and for information on how to sign up for personalized features, please see the [LibKey Information Guide](#).
