INCORPORATED MODEL COLLEGE

Holiness Institution at Elida, Roosevelt County, Has Unique Ideas

RECEPTION TO NEW GOVERNOR

County Commissioner Appointed for Second District of Mora.

Governor Mills has settled down to the routine of the executive office and while callers are still many, he manages to dispose of business rapidly and without delay. He has accepted the invitation for himself and his staff of the Commercial Club of Albuquerque to a reception in his honor on March 303. Adjutant General A. S. Brookes today issued orders to members of the staff to be on deck for the occasion.

County Commissioner Appointed.
Governor Mills today appointed Severo Lucero of Lucero, county commissioner for the second district of Mora county, in place of Rafael Romero y Lopez, deceased. The appointment of Lucero was recommended by the Republican central committee of Mora county.

Notaries Public.
It was a big batch of notaries public who were commissioned today by Governor Mills. They are: Euterio Espinosa, Abiquiu, Rio Arriba county; Francisco Cordova, Gallina, Rio Arriba county; Edith Wileman, Raton, Colfax county; Francis H. Rathbun, Rock Island, Quay county; Samuel Van Curen, Hiale, Guadalupe county.

Lift for the School Fund.
Land Commissioner R. P. Ervien yesterday turned over to Territorial Treasurer Miguel A. Otero the sum of \$3,472.27 derived from land leases for the public school income and the institutional funds.

A Model College.
Incorporation papers were filed today in the office of Territorial Secretary Nathan Jaffa by the Southwestern Holiness College of Elida, Roosevelt county, whose incorporation provisions are somewhat unusual in that they prohibit to students and faculty the playing of pool and billiards, membership in secret societies, indulgence in brutalizing games (foot ball) the use of intoxicants, tobacco, dancing and other forms of wordliness. Transgression of this clause will result in the property reverting to the donors. The incorporators and trustees are: O. B. Kelley, who is designated as agent, Thomas Armstrong, E. L. Cruzan all three of Elida; F. S. North and Hattie R. North of Nobe and J. A. Peddycoart and S. C. Peddycoart of Lison.

Million Dollar Mining Corporation.
Incorporation papers were also filed by the C. O. D. Leasing Company of Lordsburg, Grant county, with headquarters at Phoenix and Los Angeles. The capitalization is \$1,000,000 divided into a million shares. The incorporators and directors are: Thomas A. Lister, James R. Phoenix and Robert M. Kedzie. The New Mexico agent is Daniel W. Briel.

Admitted to New Mexico Insurance Field.

Superintendent of Insurance Jacobo Chaves today admitted to do business in New Mexico the Aegis Life Insurance Company, a new company with headquarters at Denver and of which S. R. Fitzgerald, the lieutenant governor of Colorado, is the first vice president. Mr. Fitzgerald was in Santa Fe today to see to the formalities attendant to admission of the company.

PLEAD FOR REDUCTION IN FREIGHT RATES.

New York is Taking Business From Chicago and St. Louis Despite Greater Distances.

Chicago, Ill., March 4.—A demand for a reduction of freight rates to Texas and the southwest which will enable Chicago and St. Louis to regain business lost to eastern merchants on account of the low water tariffs from New York, was placed before a committee of western railroads yesterday. The controversy is an old one, being brought about by a rate war between the water lines from New York to Texas which started about the time the railroads advanced rates to Texas about ten per cent.

BUFFETED BY STORMS OF NORTH ATLANTIC.

Russian Steamer Korea Abandoned By Crew Who Were Picked Up By the Caledonia.

New York, March 4.—The Russian steamer Korea, buffeted by storms of the North Atlantic and pounded into helplessness by the heavy seas, was abandoned by her crew on March 1st and left to her fate. She was sinking fast when the men left her. The Korea's crew of 48 were picked up by the Anchor line steamer Caledonia.

BURSUM IS SUCCESSFUL

He Is Accomplishing Things at Washington for New Mexico's People

STATEHOOD BILL MONDAY

Special Meeting of Committee on Territories Tomorrow to Formulate Report.

Special to The New Mexican.
Washington, D. C., March 4.—Father W. H. Ketcham, head of the Catholic missions, closed the final hearings on the statehood bill before the senate committee of territories. An extra meeting of the committee on Saturday will prepare a report on statehood with which the amended bill will be presented to the Senate on Monday.

Chairman Cecil Lyon, of the Republican state central committee of Texas, and Collector of Customs A. L. Sharpe of El Paso, Texas, just reappointed, spent some time with Secretary of the Treasury McVeagh today and went with him to the White House.

Chairman H. O. Bursum of the New Mexico Republican central committee will return to Washington from New York on Monday. He has accomplished considerably for the modification of the statehood bill and has been extraordinarily successful in other New Mexico matters. Former Territorial Treasurer J. H. Vaughn of Santa Fe, is in Washington with him. Mrs. George W. Armijo and her two sisters, the Misses Manderfield, are here.

Delegate Ralph Cameron of Arizona, accompanied M. Schuster to the White House today.

The Indian appropriations bill, which makes many reductions over former years, will be reported to the Senate early next week and unless the statehood bill is soon disposed of it will be displaced by the appropriation bills.

Taft and Cannon Dance.

Washington, March 4.—While more than fifty guests looked on laughingly and applauded, Speaker Cannon tempted President Taft last night in a test of terpsichorean ability in the east room of the White House. Both stopped, panting, when the trail was ended but the opinion was unanimous that honors were even. The dancing followed a dinner given by the President to "Uncle Joe," said to be the first formal affair ever accorded a speaker of the house of representatives by a president.

Cross-Examination Grows Tiresome.

Washington, March 4.—The cross-examination of Gifford Pinchot proceeded slowly before the congressional committee today. Mr. Vertrees and Mr. Pinchot argued almost continuously as to the inferences to be drawn from the documentary evidence.

SIXTY-ONE MORE BODIES RECOVERED.

Peoria, March 4.—The bodies of sixty-one miners of the St. Paul mine at Cherry, Illinois, were discovered yesterday, and brought to the surface today. They were so decomposed that identification is impossible.

ALL HOPE IS ABANDONED

At Midnight Big Union Strike at Philadelphia Goes Into Effect

LABOR LEADERS ARE PLANNING

Estimates Vary from 20,000 to 100,000 as to Number of Men Going Out.

Philadelphia, March 4.—All hope of reaching an amicable settlement of the street car strike having been abandoned, the leaders of the labor unions devoted the day to preparing for the general walkout of the organized workmen which goes into effect at midnight. The directors of the company met today but nothing was given out as to whether the company will answer the request of the men for arbitration. The number of men that will obey the strike order cannot even be approximated. The unions claim an affiliated membership of 100,000. Directors of Public Safety Henry Clay declares that from investigation he believes that only 20,000 will respond to the leaders.

AVALANCHES AND FLOODS

Damage Running Into the Millions Caused by Both in Northwest

FREAK INCIDENTS OF DISASTER

Water, Water Everywhere But Not a Drop to Drink is Latest Plaint.

Seattle, Wash., March 4.—Culminating in the Wellington disaster, the storms and avalanches of the last ten days, have been responsible for the loss of about \$2,500,000 to the railroads of the Pacific Northwest. The Great Northern is the heaviest loser, its line through the Cascades has been tied up since the middle of last week. The avalanche at Wellington, it is estimated, cost the company \$1,500,000.

Drinking Water is Very Scarce.
Spokane, March 4.—After causing a loss of \$1,500,000 in central and scarce. The Dayton and Upper Tougness to subside, although water is still covering the streets in the towns of the Palouse wheat country and the fruit belt in the central part of the state. The towns along the Snake and Clearwater rivers in Washington and Idaho had no mail since Sunday and business is practically suspended. Colfax is in bad shape. The fuel famine has been partly relieved, but drinking water is very scarce. The Dayton and Upper Tougness and Petit valleys were swept by floods yesterday.

Tremendous Power of Avalanche.

Everett, March 4.—A report was circulated late last night that ten persons have been found alive in a car excavated from the wreckage at Wellington, has caused great excitement but so far is unconfirmed as the wires again failed during last night's hard storm. Survivors and members of the early relief parties returning from Wellington said that evidences of the power of the avalanche are seen on every hand. The body of Thelma Davis, a three year old baby, was found at the base of a tree bound around with iron pipes and rods torn from cars by the icy mass. The trip over the trail to scenic is exceedingly hazardous and railroad officials are warning sightseers to say away. Great masses of snow hang over the bluffs ready to fall without a moment's warning. The snowstorm which started last night changed to a drenching rain this morning, increasing the discomfort of and danger to rescue parties.

Ten Days Before Nevada Line Opens.

Ogden, Utah, March 4.—Assistant Superintendent Fitzpatrick of the Southern Pacific, who made a drive overland from Palisade to Battle Mountain, Nevada, reports that it will be fully ten days before overland traffic can be restored. The roadbed is completely washed out in places in Palisade canon and several bridges require rebuilding. All trains east bound and west bound are now being detoured via Portland.

WOULD NAME TICKET IRRESPECTIVE OF PARTY.

Democrats Say They Will Look to Interest of Santa Fe in Selecting Candidates.

That the Democratic party in Santa Fe expects to name a ticket irrespective of party lines and seeking solely the best interests of the city of Santa Fe was the declaration of Chairman Frank Owen of the Democratic central committee which met in Judge N. B. Laughlin's office Wednesday to make tentative plans for the spring campaign.

"The meeting was an enthusiastic one," said Chairman Owen today, "and is no news was given out yesterday about it, the reason was because everyone was resting up from the strenuous activities of inauguration."

"It was the consensus of opinion at the meeting of the committee that the thing to do in making up the slate for the spring elections is to pick men who are good citizens, no matter what their party affiliation may be. This method will insure the carrying out of a policy that will benefit Santa Fe."

It is said that several names were discussed at the meeting but Chairman Owen stated this morning that as yet no slate is ready for announcement.

CAPTAIN WILLIAM JACKSON CROSSES GREAT DIVIDE.

Muskogee, Okla., March 4.—Captain William Jackson, formerly of the Texas rangers, died here yesterday, aged seventy-five. Jackson was captain of the Confederate army. He was the first mayor of Wagoner, the first town in the Indian Territory to become incorporated.

BATH HOUSE JOHN IS SURPRISED

Says He Will Have Nothing to Do With Longhaired Reformers

TYPE OF DEMOCRATIC LEADER

Kind of the Tenderloin District in the Windy City on Lake Michigan.

Chicago, March 4.—Alderman John Coughlin, known to his admiring constituents and the world at large as "Bath House John," was nominated for the tenth consecutive time for alderman last night at the First Ward Democratic convention. And when the immaculate ruler of Chicago's down town district and sloughing hordes of the tenderloin arose to acknowledge the honor, he said: "Fellow Democrats: This is a surprise. I was never more surprised in my life. I have represented this ward eighteen years. You always know on what side of the fence to find John Coughlin. There's no bunkering about me. You probably have noticed I don't vote with alleged reformers on certain questions. I don't want to have anything to do with those long haired guys."

FOREST CLERK EXAMINATION ON MARCH 16 AND 17.

Entrance Salary \$1,100 or \$1,200 and Examination Will Be for Men. Requirements of Position.

Forest Supervisor Stewart has received a letter from Associate District Forest E. H. Clapp relative to the examination for forest clerk (male) to be held here in March 16 and 17.

The letter is as follows:
Albuquerque, N. M., March 2, 1910.
Forest Supervisor.

Dear Sir: You have been sent copies of civil service announcement No. 116 of the examination for the position of forest clerk (male), to be held March 16 and 17.

To secure a sufficient number of eligibles to meet the needs of the service, it has been found necessary to extend the examination to all parts of the country, and the commission will certify, first from the state in which the vacancy occurs, and then from adjacent states, in a constantly expanding circle, as may be required.

The need of men to act as chief clerks in supervisors' offices, and the requirements they must fulfill, were set forth in 90-district, supervision letter of January 19. In order to attract such men, it is necessary to increase the entrance salary to \$1,100 or \$1,200 per annum, as warranted by experience and qualifications. It is not intended, by limiting this examination to male candidates, to do away with the employment of female clerks or stenographers altogether, but only to provide, in making future appointments, that when a supervisor has only one clerk, it will be a man; and that when he has more than one clerk, the chief clerk will be a man and other clerical positions in the office will be filled from the departmental registers, either departmental clerk or departmental clerk-stenographer and typewriter. It is realized that in limiting this examination to male applicants, that female clerks and stenographers now serving temporarily, pending the certification of eligibles, will be barred from it, and that some of the supervisors will be averse to being compelled to give up the temporary female clerks who have become somewhat accustomed to the work, but this cannot be avoided in view of the urgent need for men clerks. The temporary female help now in supervisors' offices can become eligible for permanent appointment as clerks of the second class in supervisors' offices at an entrance salary of \$900 by taking the examination for the departmental register. Those who now hold permanent appointments as forest clerks, and who will be used as clerk of the second class need not, of course, be required to take the examination for departmental clerk.

While the announcement can not be furnished for general distribution, the copies sent you should be posted in conspicuous places, and given to local newspaper as information. Wide publicity is desirable.

Very truly yours,
EARLE H. CLAPP,
Associate District Forester.

FOUR CASES OF SMALLPOX ON ARMORED CRUISER.

San Francisco, March 4.—Flying the yellow flag, the armored cruiser Washington, on which four deaths from smallpox have occurred, steamed into port and anchored off quarantine. The war ship will be thoroughly fumigated after the smallpox victims on board are removed to the marine hospital ashore.

PRESIDENT MADRIZ IS GENEROUS

Holds Out Olive Branch to Defeated Insurgent Leaders

NO WHOLESALE EXECUTIONS

Estrada and Chamorro Will Be Asked to Help Restore Peace.

New York, March 4.—There will be no wholesale executions of rebel leaders in Nicaragua following the collapse of the insurgents cause, according to Dr. Luis Filipe Core, the special diplomatic representative of the Madriz government in New York. On the contrary, according to Dr. Core, President Madriz probably will urge Generals Estrada and Chamorro and other revolutionist leaders to remain in the republic and help out in the work of restoring order and prosperity.

ICE DESTROYS BRIDGE OVER THE CHAMA.

Unprecedented Flow Caused By Breaking up of Gorges in Rio Arriba County.

Special to The New Mexican.

Abiquiu, N. M., March 4.—An unprecedented flow of ice on the Chama which began coming down the river yesterday, presages an early breaking up of the upper ice gorges and damage by spring floods. The ice floes are so large and heavy that they destroyed a span of the new bridge over the Chama at Abiquiu. Some of the chunks of ice stood three to three and a half feet above the water and pieces weighing three to four tons have been hurled by the current against the shore. Old timers say that this has been the heaviest flow of ice in their memory. Much of the ice is now piled up high along the banks and it will take two months before all of it will have melted. Considerable damage has been done to low-lying agricultural land along the river.

WASHINGTON FARMERS WILL DELIGHT TEDDY'S HEART.

Spokane, Wash., March 4.—Colonel Theodore Roosevelt will be more than delighted upon his return from the wilds of Africa when he reads the report prepared by officials of Dayton, Wash., a thriving city in the Touchet valley, southwest of Spokane. This shows that while many men have made fortunes in orcharding, stock-raising and general farming they have also reared large families. Representative R. A. Jackson called "the sheep king of the Tukanon," heads the list as the father of 12 children, all living. Rev. W. H. Harris has six; Rev. H. E. Mason, five; Charles J. Broughton, banker, eight; A. P. Cahill, banker, seven; J. A. Muirhead, mayor, eight; W. W. Ward, postmaster, eight; Chester F. Miller, judge superior court, six; J. W. Holman, judge police court, eight; J. L. Dumas, ex-president Washington Horticultural Association, three; C. Morrow, merchant, five; F. M. Weatherford, rancher; M. Woodwards, commissioner, and J. Swart, county clerk, five each.

BASEBALL IN EVERY SCHOOL

Should form Important Part in Child's Education Says Speaker

GOOD BOOST FOR THE FANS

Will Strengthen Bodies as Well as Improve Mentality of Children.

Indianapolis, March 4.—Base ball should be a factor in the education of children, and every school boy and every school girl should play the great American game, in the opinion of W. A. Stecher, director of physical training in the public schools of Philadelphia, expressed today before the conference of hygienics of the National Education Association. Each school should have a base ball club and the clubs should visit each other's grounds in the fashion of professional leagues. Mr. Stecher said, increased attention must be paid to the strengthening of bodies of children if their mentality is to improve, and of all games, Mr. Stecher said, base ball provides the best and safest exercise.

RECORDS NOT TO BE PUBLIC

Treasury Department Makes Important Decision Affecting Corporations

LACK OF MONEY IS CAUSE

Records Will Not Be for General Inspection Until Appropriation Is Made.

An important ruling affecting the publicity clause of the excise law which compelled corporations to make reports of the business they did in 1909 has just been received from the United States treasury department by Internal Revenue Inspector Henry Bardshar.

Owing to the lack of funds for compiling the records so as they will be suitable for public inspection the department rules that the returns made under the law will be handled just like the returns made under the other internal revenue statutes. The letter received by Mr. Bardshar this morning is as follows:
Treasury Department,
Office of Commissioner of Internal Revenue,
Washington, Feb. 17, 1910.

To all collectors of internal revenue, agents, employees, and others concerned:

Many communications have been received at this office making inquiry as to how the returns of corporations, joint-stock companies, associations, and insurance companies, made as required under the provisions of the corporation excise-tax law (sec. 38 of the tariff act of Aug. 5, 1909,) were to be handled in the office of the commissioner of internal revenue, and whether or not they were to be open to general inspection.

The law, paragraph 6, on this subject is as follows:

6. When the assessment shall be made as provided in this section, the returns, together with any correction thereof which may have been made by the commissioner, shall be filed in the office of the commissioner of internal revenue and shall constitute public records and be open to inspection as such.

Congress appropriated \$100,000 to carry into effect the provisions of the law. Under general statutes no portion of this appropriation is available for use in the District of Columbia. The returns can not be open to general inspection in the District of Columbia without the expenditure of a substantial sum of money. If, therefore, it was the intent of Congress to make these returns open to general inspection, it will be necessary for it to appropriate a sum sufficient to cover the necessary expenses. Until this is done this bureau rules that the returns made under this law are to be handled just as returns made under other internal revenue statutes.

Any person, therefore, other than the taxpayer making the return, or his duly appointed agent or attorney, who desires to see such return shall make written application to the secretary of the treasury, who in his discretion will, upon a proper showing of cause, approve such request. A request thus approved should then be presented to the commissioner of internal revenue, who will thereupon permit the return in question to be seen by the applicant upon such conditions as the secretary of the treasury shall have imposed.

ROYAL E. CABELL,
Commissioner.
CHARLES D. NORTON,
Acting Secretary of the Treasury.

RUSSIA REJECTS CHINESE PLAN TO BUILD RAILROAD.

Makes Counter Proposal to Construct an Extension of One of Its Own Lines North of Peking.

Peking, March 4.—The Russian government in a formal note rejects in toto the Chinese proposal for the construction of the Algin and Chinchow railroad. The Russian note includes a counter proposal for the extension of the Kalgan railroad by foreign capital to Balkal, Russia, to build a Siberian section. This proposal, as well as Russia's rejection of the Algin plan, are based upon the promise which the Russian government alleges China gave in 1898, that she will not construct any railways north of Peking without first consulting the Russian government.

WAS BLACK SHEEP OF FAMILY AND PROVED IT.

Fort Wayne, Ind., March 4.—"I always was the black sheep of the family and mamma will be glad to be rid of me I know."

Fifteen year old Florence E. Doctor today wrote these words on a slip of paper drank from a bottle of carbolic acid, went to bed and died. Florence's mother going to call her for school found her body.

THE DAILY ROUND UP.

I LOVE YOU DEARLY.

(By Justin Huntly McCarthy.)
I love you dearly, O my sweet!
Although you pass me lightly by,
Although you weave my life away,
And tread my heart beneath your feet.

I tremble at your touch; I sigh
To see you passing down the street;
I love you dearly, O my sweet!
Although you lightly pass me by.

You say in scorn that love's cheat,
Passion a blunder, youth a lie.
I know not. Only when we meet
I long to kiss your hand and cry,
"I love you dearly, O my sweet,
Although you pass me lightly by."

Two Dairy Cows Stolen—A. B. Stanton of Abajo, near Albuquerque, had two dairy cows stolen night before last.

Mail to Vaughn Instead of Torrance—This week, the automobile line from Roswell changes its terminal from Torrance to Vaughn.

Appointed State Commander—A. H. Lawrence of Silver City, has been appointed state commander of the Knights of Maccabees vice E. L. Bumpus, resigned.

Garcia Made Field Secretary—E. B. Garcia, a former student at the University of New Mexico at Albuquerque, has been elected field secretary of Harvard University at \$3,000 a year.

Archaeological Society Tonight—The Archaeological Society will meet this evening at eight o'clock in the Puye room in the Old Palace. All members are urged to attend and others are invited.

Special Election at Silver City—At the special election held at Silver City W. S. Cox was elected councilman to succeed Eugene Cosgrove, deceased, by a vote of 138 against 113 votes cast for W. C. Porterfield.

Death From Pneumonia—Mrs. Maggie Eaton, wife of Harry Eaton, died at her home at Central, near Silver City. Pneumonia was the cause of death. Besides the husband two sons, aged four and six years respectively, survive.

Mail Contracts Awarded—C. W. Marriott has been awarded the contract to carry the mails from Silver City to Mogollon. Robert Self has been given the contract to carry the mails between Silver City and Fort Bayard and Central.

Damage Suit Against the Santa Fe—Juan Cano, of Cerrillos, Santa Fe county, in the district court at Albuquerque, has filed a suit for damages against the Santa Fe. He wants \$5,000 damages for being thrown off a train and severely injured. He claims to have bought a ticket at Cerrillos good for the trip to Albuquerque, but was rejected from the train a mile north of Albuquerque.

Democratic Anti-Statehood Committee—A. A. Jones of Las Vegas, C. R. Worral of Clovis, and W. R. McGill of La Lande, expect to leave on Monday for Washington to put a few blocks in the way of the enabling act for the territories. Under instructions of the Democratic Central Committee of New Mexico, they will object to the clause providing that the constitution should be submitted to the President and reserving to Congress the right to reject it, and will demand that the apportionment for the constitutional convention be based on the next census instead of the vote of 1908, which furnishes a good pretext for delay. Colonel W. S. Hopewell, who had been named on the committee will not go.

Bisbee Will Be Good—While the prohibitionists lost at the recent local option election at Bisbee, Ariz., the result has been beneficial for the city council has passed ordinances which will close the dance halls and saloons in the Red Light district and will compel the saloons in the remainder of the city to be closed between midnight and six o'clock in the morning.

Long Distance Telephone to Carrizozo—Long-distance telephone service from Santa Fe to Carrizozo, Lincoln county, via Socorro, was opened yesterday.

Contract for Masonic Temple—The Masons of Albuquerque last evening let the contracts for their Masonic Temple which is to cost more than \$50,000. Ground for the structure is to be broken within ten days.

Tucumcari Boys Run Away From Home—William Crosby, aged 14, and Chiles King, aged 11, have run away from their homes at Tucumcari. Officers have thus far vainly searched for them.

PILES CURED IN 6 TO 14 DAYS

PAZOINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded, 50c.

MINOR CITY TOPICS

Denver, Colo., March 4.—
Forecast for New Mexico: Fair
weather tonight and Saturday
with stationary temperature.

Police Business Slack at Albuquerque—There were only 62 arrests by the police at Albuquerque during February, less than during any preceding month for many years past.

G. A. R. Meeting—Comrades, Attention! Regular meeting of Carleton Post, G. A. R., at the post hall Monday evening, March 7. There will be business of importance and a large attendance is desired. E. F. Hobart, adjutant.

J. Frank Curns Ill—J. Frank Curns, of the field division of the general land office, is ill with pneumonia at his home on Cathedral street. Mr. Curns, it is said, caught cold a few days ago and yesterday he developed symptoms of pneumonia.

J. W. Reynolds is Better—James W. Reynolds, superintendent of the penitentiary, has been laid up with a cold for the past two days, but this morning was reported much better. The rumors that he is suffering with pneumonia are said to be without foundation.

Become Residents of Santa Fe—Mr. and Mrs. I. H. Rapp today received their furniture from Las Vegas and moved into the Sena Block below the court house on East Palace avenue, vacated by Doctor J. A. Massie who with his mother and sisters has just moved into their fine new home erected on Lincoln avenue.

Dorothy Morton Coming—Dorothy Morton, the prima-donna comedienne, whose name is linked with the original productions in New York of the comic opera, "Dorothy," "The Geisha," "The Fencing Master" and "The Prince of Pilsen" is this season starring in J. J. McNally's musical comedy, "Widow Jones" and she will be seen here as the attraction at the Elks' theater Tuesday night.

"Widow Jones" Coming—Miss Morton's managers have spared no expense to present her in a manner worthy of her high professional standing. A selected company will appear with her, both of actors and singers, surrounded by a lavish display of scenery and handsome costumes, while the prettiest show-girls to be found in the theatrical word were also engaged to appear with the star.

Fine Weather to Continue—Fair weather is predicted for today and tomorrow. Yesterday was a perfect day with 100 per cent of sunshine, a maximum temperature in the shade of 62 degrees and a minimum last night of 34 degrees. The relative humidity was down to 21 per cent at 6 o'clock last evening. A year ago today was clear, warm and pleasant with a maximum temperature of 57 degrees, a minimum of 31 degrees and sunshine percentage of 100.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

THROW OUT THE LINE.

"Throw Out the Life Line"—The kidneys need help. They're overworked—can't get the poison filtered out of the blood. They're getting worse every minute. Will you help them? Doan's Kidney Pills have brought from the verge of despair. Will cure any form of kidney trouble.

Thomas M. Baca, Cerrillos street, Santa Fe, N. M., says: "My faith in Doan's Kidney Pills is just as strong today as when I publicly recommended them in 1902. I was caused much suffering by backache for three or four years and though I never laid off from work, my back was so painful at times that it was all I could do to attend to what I was doing. Doan's Kidney Pills, procured at Stripling, Burrows & Co.'s drug store, entirely relieved me and I had no return of the trouble for six months. At the end of that time my work brought on another attack of backache. I at once took Doan's Kidney Pills and they gave me the desired relief. A medicine that lives up to the claims made for it like Doan's Kidney Pills, deserves the strongest endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Small Holding Claim No. 1419. (Serial 012529.)

Pecos Forest Reserve. Not coal land Department of the Interior.

United States Land Office.

Santa Fe, N. M., Feb. 21, 1910.

Notice is hereby given that the following claimant has filed notice of his intention to make final proof in support of his claim under sections 16 and 17 of the act of March 3, 1891 (26 Stats., 854), as amended by the act of February 21, 1893 (27 Stats., 470), and that said proof will be made before register or receiver at Santa Fe, N. M., (U. S. Land Office) on April 15, 1910, viz: Jose E. Roybal, heir of Gregorio Roybal, of Rowe, N. M., for the lots 1 and 2, and S 1-2, NE 1-4, Sec. 32, T. 16 N., R. 13 E., 15.172 acres.

He names the following witnesses to prove his actual continuous adverse possession of said tract for twenty years next preceding the survey of the township, viz:

Visenter Quintana, of Pecos, N. M.; Ramon Rodriguez, Cleofes Garcia, Caletano Garcia, all of Rowe, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason under the laws and regulations of the Interior Department why such proof should not be allowed will be given an opportunity at the above-mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

MANUEL R. OTERO, Register.

The Spanish edition of the 1909 Laws of New Mexico are now ready for delivery. Price: Paper cover, \$3.25, plus 17 cents postage; full sheep, \$4.00, plus 20 cents postage. Address all orders to The New Mexican Printing Co., Santa Fe, N. M.

NOTICE OF SALE.

Notice is hereby given that on the 22nd day of October 1908, Deputy Collector Frank R. Crandall, seized at Pecos, Arizona, 46 1/2 pints and six quarts bottles of whiskey. The above described property having been seized for violation of Section 6 Act March 3, 1897.

Any person claiming the above described property is required to make such claim in compliance with law, to the undersigned within thirty days from the first publication of this notice.

H. P. BARNES, Collector.

IMPORTANT TO LIVESTOCK MEN

Twenty-Eight Hour Law Argued Before the U. S. Supreme Court

STUBBORNLY FOUGHT CASE

Test Case Is Against Baltimore and Ohio Southwestern Company.]

Washington, D. C., March 4.—How severe a punishment Congress has provided for railroads guilty of violating the so-called "Twenty-Eight Hour Law" for punishing the unlawful confinement of live stock in transportation was the basis for a stubborn contest today before the supreme court of the United States. Counsel for the government contend that the unit for fining railroads is the separate shipment, while the legal representatives of the Baltimore and Ohio Southwestern Railroad Company insist that the unit is the train, no matter of how many separate shipments it is composed. Some features of the case resemble the \$29,000,000 Stand Oil case. The outcome of the controversy will have a far-reaching effect. Many separate consignments of stock are carried frequently in one train, so the sum of the penalty, imposed by the law, will vary from \$100 to many times \$100, according to the outcome of the litigation. The Baltimore and Ohio Southwestern railroad alone appears in this case, but practically every carrier engaged in interstate commerce in the United States will feel the effect of the decision.

This controversy was begun when the United States district attorney for the southern district of Ohio, filed eleven cases against the Baltimore and Ohio Southwestern Railroad Company, claiming that it had carried as many shipments of live stock from shippers in various points in Illinois to Cincinnati without unloading the stock for rest, all in violation of the Twenty-Eight Hour Law.

The railroad admitted the shipment and its detention beyond the statutory time, but it averred guilt of only one offense because all the shipments were carried in one train it expressed a willingness to pay a fine for one violation.

The district court consolidated the cases and assessed a single penalty. The circuit court of appeals for the Sixth district reversed that decision. The case then was brought to the supreme court by the railroad. Briefs on both sides of the controversy have been filed with the court. Counsel for the railroad is headed by Judson Harmon, now governor of Ohio. Solicitor General Bowers, of the department of justice, has directed the fight on behalf of the United States.

Train is the Factor. In the brief of the railroad counsel, it is contended that the train is the factor of offenses, because live stock is moved in trains.

"If there be a confinement in cars beyond twenty-eight hours during transit under circumstances which constitute a violation of the statute, it must be the fault of the train," says the brief. "Congress has not said whether the offenses shall be per head of stock, per shipment, per car load, or per train load. If Congress had intended there should be a fine of \$500, (the maximum penalty for one offense), for each head of stock delayed, or for each shipment delayed, or for each car load delayed, it was easy to say so. Bearing in mind the rule of strict interpretation of penal statutes, the only reasonable construction of the statute is that the detention of all stock on the same train constitutes but one offense."

"Congress did not deem it necessary to be so severe as to permit a fine of \$500 for each shipment in a train load containing possibly fifty shipments, when a single fine of \$500 would answer as well."

Several routes lead to the conclusion that the separate shipment was meant as the basis, the government contends.

"Suppose cattle are loaded into cars by the carrier and kept there more than 28 hours without unloading before the cars are put into any train," says Solicitor General Bowers in his brief. "Is the train the unit of offense, though there has been no train?"

He asked the same question where cattle had been sidetracked in cars and the train proceeded. In the case of cattle not being fed after they were unloaded he claimed the train plainly was not meant to be the unit.

"Indeed, the word 'train' does not once occur in the act," he says.

He further contends that his point is proved by means of the provisions regarding owner's consent to the extension of time from 28 to 36 hours.

"The owner's consent affects his shipment, and only his shipment, whether it is in a train with other shipments of live stock or not; and the result is that the rule of conduct for the carrier varies as to different shipments. The shipment being the unit as to which the carrier's conduct is prescribed by statute, it must equally be the unit of the carrier's miscon-

For Evening Hours The Rayo Lamp

Some of the sweetest hours of home-life are passed under the gentle, kindly light of the evening lamp.

If it be the Rayo Lamp, the light contributes an added charm—makes reading and sewing easy. There are no aching eyes after reading or sewing under the rays of the Rayo Lamp.

The Rayo Lamp diffuses a steady white light. It is the least trying of any artificial light. Made of brass throughout—nickel plated—improved central draught burner.

The Rayo is a low-priced lamp, but you cannot get a better lamp at any price.

Once a Rayo user, always one Every Dealer Everywhere. If Not at Yours, Write for Descriptive Circular to the Nearest Agency of the CONTINENTAL OIL COMPANY (Incorporated)

duct through violation of the prescribed rule of conduct concerning the shipment."

The court may take some time before handing down a decision in the case.

RAISING OF QUINCES IN NEW MEXICO.

Bulletin No. 163 of Agricultural Experiment Station from Press of New Mexican.

The quince has been grown in various localities throughout the United States since the early days. Its cultivation is on the increase and in some sections we find it planted on a commercial scale. But owing to the fact that the quince, including all the varieties, is unfit for eating uncooked has kept it from taking much prominence among the commercial orchard fruits.

The uses to which the quince may be put are many, but its chief value is as a preserving fruit. Where the quince is more grown it is naturally more used. In France and some of the other European countries, large quantities of the quince are used yearly for making quince marmalade and wine. The marmalade industry, especially in France, is quite an extensive one, and the finished product finds quite a ready sale.

Almost all the cook books suggest many ways to prepare the quince for the table. One of the methods is to boil the fruit until done and serve hot with cream or butter; another to bake as an apple. There are various ways to preserve and can the fruit, but it will not be necessary to take them up here.

In habit of growth the quince is a low dwarf tree which admits close planting in the orchard. Ten feet apart each way is sufficient distance for most varieties. Planting the trees at the above distance will give about 435 trees per acre. To the man who has but a small area about his grounds for fruit the quince should find a place.

While the quince will grow on almost any kind of soil, a medium heavy clay loam, being easy of cultivation, is the ideal soil for it. In such a soil the quince readily responds to good cultivation, and if given good care it will continue to produce good crops of fruit for many years. In case the soil should be hard or deficient in plant food liberal application of manure will be very helpful in making the soil a better one and keeping the tree in a vigorous condition.

In regard to how to plant the quince and when, the same general rules used in planting other orchard fruits hold good for it.

The quince does not require a great deal of pruning. About all the care that will be necessary along this line will be to remove and cut out the surplus shoots and dead branches. An occasional shortening back of the longer branches may be necessary to keep the tree in its natural form. The time of the year to do this pruning depends somewhat on the locality. The best time probably is just before the beginning of the growing season. Any wounds made at that time usually heal promptly.

The codling moth is the worst insect pest the quince has. The same remedies recommended to keep it out of the pear will apply to the quince. A little care and foresight practiced at the proper time in keeping the fruit free of insects and the tree healthy will more than pay for the amount expended. Good clean fruit of first

quality whether for home consumption or for market ought to be the motto of every grower, for it costs no more to produce good fruit than bad.

The quince is propagated in many ways. The methods most in use are by budding, grafting, cutting and from seed. The method of propagating by cuttings is the easiest. The cuttings should be made from the fresh young growth of the previous season and be treated as any other cutting. The fruit catalogues offer the quince either from grafted or budded stock. The price charged for the trees is about the same as for the pear.

There are not many varieties of the quince in cultivation. Among the best we have the following:

Orange. This is one of the old standard sort. It is nearly round in form, of a bright yellow color and of fine quality.

Rea's. One of the best in cultivation; of the largest size, of good quality and comes into bearing early.

Champion. A late variety that is valuable when the demand continues late, but is not as valuable as the Rea or Orange.

The quince begins to bear early, usually in two years after planting. The size of trees and kind to plant depend to some extent upon the locality and the taste of the grower. Two year old trees seem to be preferred by most planters.

The fruit of the quince has a tender skin and should be handled with care when picking, or packing for market, to prevent bruising which will cause the fruit to discolor or decay. The amount of quinces grown in the Mesilla Valley is comparatively small. What is grown finds a ready market and sells at a good price, all depending on the quality. The price paid the past season ranged from two to three and a half cents per pound.

The quince is so easily grown that the care required in raising it is more than amply repaid by the value of the fruit produced. When the quince is properly prepared for the table by the many methods recommended it is a very delicious fruit.

J. E. MUNDELL.

SPOKANE HAS BOOSTER ORGANIZATION OF 3,000.

Spokane, Wash., March 4.—C. Herbert Moore, a pioneer capitalist and mayor of Spokane from 1907 to 1909, has accepted the office of president and general manager of the One Hundred and Fifty Thousand Club of this city and will devote a year to the work without salary or other pecuniary reward. The club has a membership of 3,000, including millionaire mining and lumber men, bankers, lawyers, preachers, business and professional men, athletes, actors and street-sweepers. It is the "booster" auxiliary of the Chamber of Commerce, the Dry Farming Congress, the National Apple Show, the Interstate Fair and the Mid-Summer Carnival, and fosters the spirit of fraternalism and frolic in the E-Nak-Ops. The organization has been the means of placing thousands of men and women in positions, also assisting in locating manufacturing and mercantile establishments and settling homeseekers in the Inland Empire. It is the originator of the City Beautiful idea and its annual cleaning day has received favorable comment in all parts of the world. Mildred Simmons has been chosen secretary for 1910.

DECLAMATION CONTEST ATTRACTS AUDIENCE.

Harold Hamill and Miss Dorothy Hayward Win W. C. T. U. Medals—Fine Musical Program.

Before a large audience that seemed to thoroughly enjoy the declamation contests held in the high school building last night, the judges announced that the winners of the W. C. T. U. gold medals were Miss Dorothy Hayward and Harold Hamill. Prolonged applause greeted the announcement. There were five boy and five girl contestants and each spoke on a temperance theme, displaying many qualities of the youthful orator. The judges of the contest were G. Volney Howard, who made the presentation address, County Commissioner I. Sparks and Dr. C. O. Harrison. The judges had some work before them to pick the winners, said Mr. Howard, but considering all of the points, they had finally managed to agree.

The program was rendered all the more interesting by the vocal selections furnished by Miss Foree and Miss Hancock, and by the male quartet. Mrs. Flick was unable to be present and the male quartet sang a selection in place of her's.

MILLIONAIRE SQUANDERED FORTUNE.

New York, March 4.—Annie Theresa Herne Heise, a daughter of Edwin P. Herne, one of the founders of the United States Steel Corporation and a niece of the Colorado Fuel and Iron Company obtained a divorce from her husband Rudolph John Heise. She will resume her maiden name and is given the custody of her four children. She accused her husband of squandering her fortune and finally running away with a cloak model.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves. This clearly explains why as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these "nerve" and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help. If you would have strong hearts, strong digestion, strengthen these "nerves"—re-establish them as needed, with

S.S.S. NATURE'S CURE FOR BLOOD POISON

Not only its proven ability to cure, but its absolute safety as a remedy has made S.S.S. the most desirable of all medicines for the treatment of Contagious Blood Poison. S.S.S. is made entirely of roots, herbs and barks of the forests and fields. It does not contain a particle of mercury, potash or any other harmful mineral to injure the delicate parts of the system, impair the digestion, corrode and irritate the lining of the stomach, or in any other way injure the health. It is Nature's blood purifier, harmless in its action and certain in its good results. S.S.S. removes the poison from the circulation, enriches the blood, and safely and surely cures Contagious Blood Poison. It builds up and strengthens the system by its fine tonic effects and leaves the patient not only cured of the disease, but stronger and in better health in every way. If you are suffering with Contagious Blood Poison S.S.S. is your most certain reliance; an honest medicine, and because of its vegetable purity, a safe treatment for any one. We have a special book on home treatment which explains fully the different stages of the disease, also suggestions that will be helpful to you in the treatment of your case. We will be glad to send this book together with any medical advice desired, free to all who write.

PLAYS AND PLAYERS

Dorothy Morton, the prima-donna comedienne, who is this season starring in J. J. McNally's musical comedy, "Widow Jones," and who will be seen here Tuesday night, March 8, at the Elks' theatre is a St. Louis girl and occupies a distinguished position on the American stage.

Her first musical experience was as a singer in St. Xavier's church choir in her native city and she obtained her musical education at the Beethoven Conservatory in St. Louis. Discovering she had some vocal ability, she decided to go to New York, where she studied under Agromonti and Murio Chelli, the very best teachers to be obtained at that time on this continent. Studying in the same class was Elenor Broadfoot, who is now the Countess Elenor de Cisneros, the famous contralto of the Metropolitan opera house. Under the guidance of Murio Chelli, Miss Morton developed the fine voice she now possesses. After a few years of professional work she went abroad and took a six months' course with Madame Marchesi, one of the great vocal teachers

MADE WELL AND STRONG

By Lydia E. Pinkham's
Vegetable Compound

Jefferson, Iowa. — "When my baby was just two months old I was completely run down and my internal organs were in terrible shape. I began taking Lydia E. Pinkham's Vegetable Compound, and mother wrote and told you just how I was. I began to gain at once and now I am real well."

Mrs. W. H. BURGER, 700 Cherry St., Jefferson, Iowa.

Another Woman Cured.
Glenwood, Iowa. — "About three years ago I had falling and other female troubles, and I was nothing but skin and bones. I was so sick I could not do my own work. Within six months I was made sound and well by Lydia E. Pinkham's Vegetable Compound. I will always tell my friends that your remedies cured me, and you can publish my letter." — Mrs. C. W. DUNN, Glenwood, Iowa.

If you belong to that countless army of women who suffer from some form of female ills, just try Lydia E. Pinkham's Vegetable Compound. For thirty years this famous remedy has been the standard for all forms of female ills, and has cured thousands of women who have been troubled with such ailments as displacements, fibroid tumors, ulceration, inflammation, irregularities, backache, etc.

If you want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

of the age. Madame Marchesi gave her the finishing touches which perfected what was then almost a perfect singing organ. It might be interesting to note a few of Miss Morton's engagements, so that our readers will know just who she is and the range of parts she has played. Her first engagement in New York was Dorothy in the opera "Dorothy" at the Manhattan theater, which was followed the next season as Cleopatra in Frank Daniels' production of "The Wizard of the Nile," which practically ran a whole season at the Casino theater. B. C. Whitney then engaged her to follow Marie Tempest as Francesca in "The Fencing Master," in which piece she starred her and brought her for the first time to the Pacific coast. At the close of this engagement Augustin Daly engaged her to create the part of Mimosa San in his production of

MISS DOROTHY MORTON

"The Geisha," which ran for a solid year at Daly's theater in New York. Perhaps one of the greatest achievements from an artistic standpoint was when she studied San Tuzza in "Cavalleria Rusticana" in three days and played it at the Schiller theater in Chicago for three weeks while at the same time Calve was playing San Tuzza at the Auditorium with Maurice Grau's grand opera company, and the critics compared the two so favorably that it was hard to tell who had the better of it. Of course, we all know of Miss Morton's creation of the widow, Mrs. Crocker, in Henry Savage's production of "The Prince of Pilsen," which was originally produced at the Tremont Theater, Boston, and has since toured every city and hamlet on this continent. While in Paris a few years ago she sang for Madame Duff and M. Caroe, director of the Opera Comique, after which he offered her the part of Mimi, "La Boheme" and "Lakme" for the Paris season if she would study the parts for six months under Madame Duff, but she figured that a bird in the hand is worth two in the bush, so she declined the offer so generously tendered, as the good old United States looked good to her.

While abroad, however, she filled several engagements in London at the Tivoli and several music halls, as well as the Opello in Berlin. When the deplorable accident overtook Isadore Rush at Coronado Beach, Reilly and Fisher were at a loss to know what to do with the production of "Glittering Gloria." Hearing that Miss Morton was in San Francisco, they arranged with her by wire that she should continue the starring tour of that piece and fill in all the Rush time, which resulted in her opening in Salt Lake four days after she got the part, and continuing in the piece until the close of the season.

A year ago this past summer Miss Morton sang "Aida" and "Il Traviatore" in several eastern cities, with great success, in fact the critics said her voice was being wasted on comic opera and that she should not wander from the old masters, as her voice is purely a dramatic soprano.

Her two eccentricities are singing with a full military band and automobile; the latter desire she satisfies to her heart's content with her own machine.

Vaudeville to Continue.
The vaudeville turns at the Elks'

theater made a hit last night and they will be repeated tonight and tomorrow night. The moving pictures were also pronounced good and a good attendance is looked for tonight.

CRIPPLE DECLARED TO BE MARVELOUS ATHLETE.

Spokane, Wash., March 4.—Charles Galbraith, 18 years of age, living with his parents at 1317 Fifteenth avenue in this city, is declared by Van Cook, physical director of the Spokane South Central high school, where the boy is a student, to be the most remarkable all-around amateur athlete in the world. Galbraith stands five feet 10 3/4 inches and weighs 130 pounds, and, despite the handicap of being a cripple, having lost his right leg at the knee, four years ago, he is today the star swimmer in the Y. M. C. A. aquatic contests, captain of the high school class basketball team, tennis expert, gymnast and leader of the school apparatus squad, wrestler and horseman. When walking in the streets and in the school room he uses crutches, but he does not need them in the "gym" or in the field. Cook, who has had international experience as a teacher of athletics, says the boy is without doubt the most wonderful bunch of grit and energy in the United States. He is a bright scholar and stands well in front in his class.

SPOKANE MAYOR WANTS WAGE EARNERS PAID.

Spokane, Wash., March 4.—"There is no room for question that it is of vast importance to Spokane that its laborers shall be able to live with their families in decency and comfort than that we shall be able to say we pay them the lowest figure which hard economic conditions will force them to accept."

Mayor Nelson S. Pratt says this in a special communication to the council, recommending that the city raise the wage of laborers from \$2.75 to \$3 a day and that of the teamsters from \$5.50 to \$6 a day. He shows also in compilation of reports, submitted to the council, that since 1906 the increase in the average price in America of 96 staple commodities, including all necessary foods, amounts to 37 per cent, while in the same length of time the average increase in wages, determined by investigation of more than 4,000 industrial establishments, is only about 6 per cent. He adds:

"On an occasion such as this, when beyond all question the competitive wage is insufficient to furnish to the laborer an income with which to maintain his family in a proper standard of living, it is a fortunate thing for the city that the competitive wage is not the most important factor in the question. A municipality does not use its labor for the production of commodities which sell in a competitive market. There is no competitor to drive the city out of the field unless its labor is obtained at the lowest possible competitive price. Hence, economic conditions do not require this, but, instead, permits it to pay a fair living wage to its laborers. And in a proper view, a truer vision, there can be no question that this is the part of wisdom."

KONDON'S CATARRHAL JELLY

Cures Colds

Kondon's breaks up a cold in a few hours—clears the head—relieves delicate nasal membranes—pleasant to take—absolutely pure and guaranteed. Don't neglect colds and get hay fever, asthma, deafness, catarrh, etc. Get handy sanitary 25c or 50c tube, or

H. S. LUTZ Agent, Santa Fe, N. M.

NOTICE.

Department of Territorial Engineer.

Number of Application 379.

Santa Fe, N. M., March 2, 1910.

Notice is hereby given that on the 29th day of January, 1910, in accordance with Section 26, Irrigation Law of 1907 L. T. Hardy of Espanola, County of Rio Arriba, Territory of New Mexico, made an application to the Territorial Engineer of New Mexico for a permit to appropriate from the public waters of the Territory of New Mexico.

Such appropriation is to be made from Rio Medio at points S. 20 degrees 25 minutes E. 12,312 ft. from corner of Tps. 20 and 21, N. Ranges 9 and 10 East, by means of diversion and 40 cu. ft. per sec. and is to be conveyed to a point from which the corner to Tps. 20 and 21 N. Ranges 9 and 10 E. bears N. 19 degrees and 34 minutes W. 11,520 feet, by means of flume and ditch and there used for power purposes.

The Territorial Engineer will take this application up for consideration on the 30th day of May, 1910, and all persons who may oppose the granting of the above application must file their objections substantiated with affidavits (properly backed with application number), with the Territorial Engineer on or before that date.

VERNON L. SULLIVAN,
Territorial Engineer.

20 Years Ago Today

(From The New Mexican of this date, 189)

MALIGNERS OF NEW MEXICO ARE CALLED TO ACCOUNT.

There are black-cappers in all counties, but New Mexico seems to have more than her share of them. A private letter is at hand today from a gentleman who has interested himself of late in establishing a little colony of farmers in central New Mexico. The leaders of the party have been all over the ground and know just what its merits and demerits are, and they are anxious to come and locate. But New Mexico's citizens are charged with discouraging them in every way possible. The gentleman writes thus:

"It keeps me on the alert trying to fight off adverse influences. I no sooner straighten out one matter before New Mexico is attacked from another quarter, and the worst of it

generally comes from some one in New Mexico. The last report sent out is that the sheep herders encroach upon the farmers. This is what some one has either written them or told them. If it were not a matter of pride and a sincere love for New Mexico I would abandon the project."

A severe snow storm rages on the Jersey coast reminding one of the fearful blizzard of 1888. A blinding snow storm raged yesterday in New York City.

ASSOCIATION TO GIVE SETTLERS SQUARE DEAL.

Spokane, Wash., March 4.—Coeur d'Alene Settlers' Association, just organized in Spokane with 150 resident members and W. M. Masi, Jr., as president, purposes to do all it can to as-

sist the winners of homesteads on the Coeur d'Alene reservation in northern Idaho in getting a "square deal" when they locate on the land in April. Several thousand men and women, representing almost every state, province and territory on the continent, were lucky at Uncle Sam's big land lottery at Coeur d'Alene last August and most of them will come west within 45 days to locate.

"We have a fund to begin work," said President Masi, "and we are going to get down to brass tracks. We are now making arrangements to cruise the reservation with competent men to check up on locators who seek our patronage. We won't stand for any crookedness on the part of these professional locators and in this Judge Witten, who conducted the drawing last summer, has promised us every assistance the federal government can give to homeseekers, not only in Idaho, but also in Washington and Montana."

GROUP

stopped in 20 minutes sure with Dr. Shoop's Group Remedy. One test will surely prove. No vomiting, no diarrhea. A safe and pleasant remedy. See Druggists.

SPOKANE WOMEN'S CLUBS AT WAR OVER POLICE.

Rich Women Hold Indignation Meetings and Club Relations Strained — \$60,000 Damage Suit.

Spokane, Wash., March 4.—When Mrs. Helen LaReine Baker, rated as the richest woman in eastern Washington, repudiated in an authorized interview the scathing indictment of the police department of Spokane by Mrs. Philip P. Stafford in a speech before members of the city council, she started an insurgent movement which officers of local woman's clubs declare, will result in demands for her resignation by a half dozen organizations.

Another factor in the battle is Chief of Police Sullivan, who, backed by Mayor Pratt, charges that the attack on the police by the women's clubs was inspired by the Industrial Workers of the World. Chief Sullivan has engaged counsel to institute six suits against Mrs. Stafford for slander, claiming \$60,000 damages. This has prompted Mrs. May Arkwright Hutton, wife of a millionaire mine operator and head of the Washington Equal Suffrage League, to take up the cudgel for Mrs. Stafford against Mayor Pratt, Chief Sullivan and Mrs. Baker.

Indignation meetings have been held to discuss Mrs. Baker's action and relations are strained to the breaking point. The club women claim to have the support of the union labor forces in their campaign for three police matrons, while the unionists say they have the backing of the equal righters, students of economics and advocates of other reforms in their fight for an increase in the municipal wage scale, recommended by Mayors N. S. Pratt.

Rev. W. E. Themfield, pastor of Grace Methodist church, has requested City Clerk Fleming to strike his name from the petition for matrons, saying he is satisfied with the work of the police.

"There is no telling where the matter will end," said Mrs. A. E. House, president of the Woman's Club, "but the police department will wish it had not attacked our organizations."

DOG THAT SAVED WOMAN'S LIFE IS DEAD.

Spokane, Wash., March 4.—"Boomer," for 20 months a self-appointed guardian of the Northern Pacific railway crossing at Sprague avenue and Division street, in the eastern part of Spokane, where the animal saved the lives of scores of adults and little children, is dead. The noble animal was executed by the poundmaster after biting a street car conductor. The dog, a tramp of mongrel origin, gained national

Judge Abbott Will Hold Court at Clayton—Judge Ira A. Abbott of Albuquerque, will hold court at Clayton, Union county, from March 7 to 21.

Had Leg Amputated at Hip—Jose Cervantes, who was injured while stealing a ride on the Santa Fe, had a leg amputated at the hip in Saint Joseph's Hospital at Albuquerque yesterday.

Swiped an Ash Can—Some scoundrel was not in sympathy with Mayor Jose D. Sena's ash can ordinance, stole the brand new can of A. E. P. Robinson on Chappelle street, between yesterday and today.

Will Carry Case to Supreme Court—Elfigo Garcia of Albuquerque, who recently won the custody of his eight month old baby, will appeal the judgment which seeks to compel him to pay \$600 for the keeping of the baby to Mrs. Georgia Cahill of Minturn, Colo., to the supreme court.

Temporary Receiver For Raton Concern—Upon application of Attorney Clarence J. Roberts, Judge Ira A. Abbott yesterday at Albuquerque appointed Attorney E. C. Crampton temporary receiver of the Department Stores Company at Raton. Roberts represents creditors who claim accounts amounting to \$20,000.

Inauguration Executive Committee—The inauguration executive committee will meet tomorrow afternoon at 4 o'clock in the office of Mayor Jose D. Sena at the capitol. All bills incurred for the inauguration festivities must be presented before then to the chairman of committees so that they may be approved and ordered paid at tomorrow's meeting which will be the last of the committee.

WASHINGTON FRUIT GROWERS HAVE 250,000 ASPARAGUS PLANTS

Spokane, Wash., March 4.—Fruit growers at Kennewick, on the Columbia river in Benton county, Washington, southwest of Spokane, have obtained 250,000 asparagus plants, which will be set out in a short time, the plan being to produce the vegetable for export by the carload. They believe that asparagus can be grown in commercial quantities at a big profit, and, if the venture proves the success predicted for it by experienced truck-gardeners, they say that canneries will follow. They have sufficient plants to spread over more than 100 acres and it is expected the entire district will be interested in the industry within five years. They will grow the vegetables in their newly-set orchards and in connection with small fruits and early vegetables. The Kennewick district is one of the first to have strawberries on the market and many growers have made fortunes there in following that industry.

YELLOW PERIL IN CALIFORNIA LESS SERIOUS.

Many Japanese Are Going Home and Others Flocking Eastward, Says Expert.

Spokane, Wash., March 4.—Dr. H. B. Johnson of San Francisco, superintendent of Pacific Japanese missions, who is making a tour of the northwest, declared in an interview in Spokane there are 2,000 less Japanese in California today than were in the state two years ago. Those migrating to other states are not included in his estimate. Several thousand have also returned to Japan from other states since 1908. The recent run on the Japanese-American banks has caused a financial depression among the Japanese, he said, and this is augmented by the fact that the American banks refuse to advance money on lands for which the Japanese are paying on the contract plan. He intimated that the immigration of the Mikado's subjects to the Pacific coast will be smaller in the future, because of the obstacles placed in the way of the Japanese by white residents of these states. He added that the missions in the northwest are doing good work and that they are in excellent condition in all parts of the country.

MEXICAN INVENTS NEW KIND OF IRRIGATION DAM.

San Antonio, Texas, March 4.—An irrigation dam that will prove of great benefit in rivers subject to sudden floods has been invented by Frederico Wulff, a Mexican engineer of Torreon, and will be used in a dam he is constructing for the firm of William Purcell & Co., on the Naxas river. The dam consists of a solid foundation of concrete and two steel cylinders, in this case 100 feet long and eight feet in diameter. Behind these the water will be backed up to a level where it will enter the irrigation ditches. The steel cylinders are anchored on the banks and in the middle of the riverbed and by means of jack-chains and a winch can be rolled out of the way in case of high water. The same arrangement will govern the size of the orifice the steel cylinders provide for a spill way as their ends converge on each other.

The opinion of experts who have seen a similar dam in operation is that it is an unqualified success in rivers where sudden floods have to be taken into consideration. Instead of inundating the fields which the river under normal conditions irrigates, the surplus of water will be disposed of by rolling the steel cylinders out of the way entirely.

The dam now in the course of construction is on the Naxas river in the San Pedro cotton district. It will cost about \$200,000 and when ready will store up water enough to take care of

15,000 acres of the richest cotton land anywhere. Since Egyptian cotton is best suited for cultivation by means of irrigation this variety will be planted to a large extent.

PROSPECTORS RUSHING TO ELK CITY DISTRICT.

Spokane, Wash., March 4.—Prospectors and miners from nearly every camp in the northwest are rushing to the Elk City district in northern Idaho and to Jarbridge, just south of the Idaho-Nevada state line, where there is great excitement over the recent gold discoveries. The first named district, including Elk City, Newsome and what is now known as Ten Mile, was the Mecca of placer miners about 45 years ago, the Wells Fargo Express Company handling more than \$30,000,000 in gold, the total output from 1864 to 1871. The early operations were confined to the shallow bars, but since 1898 there has been considerable work on the high benches. One company, of which M. H. Hare of Spokane, is manager, has 742 acres of patented ground on the old Montana placer in Newsome camp, and this, engineers report, contains more than one hundred million cubic yards of gold-bearing gravel, the lowest average value being 10 cents a yard. The main deposit is from 1,200 to 2,600 feet in width, 6,000 feet in length and 300 feet deep. Experts predict that 50 men will be employed next season where only one is at work today and that the output will be large.

WOULD SELL FARM PRODUCTS AT COST.

Spokane, Wash., March 4.—H. E. Sharp, president of the Meadow Lake branch of the Farmers' Educational and Co-operative Union of America, which claims 3,000,000 members in the United States, announces that it is planned to establish wholesale and retail stores and a warehouse in Spokane to serve consumers with products of the farm at cost. It is also proposed to have similar concerns in every city of the 100,000 class in the state. The object is to reduce the cost of living by eliminating the middleman. The union will have to fight a boycott by retailers and wholesalers. Sharp added, but it is expected the organization will win in this campaign as it did last year, when the big wheat buyers put the union under the ban, the result being that the farmers in Washington fixed prices on grain and realized \$1,000,000 in extra profits by selling their wheat direct to the millers and exporters. Officers claim the union controls the products and trade of 95 per cent of the farmers in the northwest.
