Sherman E. Smith

Recommendation of Student Affairs Committee

At the instigation of the Student Council the Student Affairs Committee has for the past two months been studying the causes of the evident lack of interest in the University Band. A survey made by Mr. Dabhart indicates that most comparable institutions have adopted one or more of a considerable variety of techniques for enlisting student interest in their bands. These range from outright money grants or "scholarships" to miscellaneous minor awards.

The Student Affairs Committee is opposed in principle to financial awards for extra-curricular activities of any kind. The Committee is convinced that adequate talent to maintain the Band is already present on the campus and that the essential problem is one of ensuring sufficient interest.

The demands made on members of the marching band during the football season are still five or six hours of drill five or six days each week. Drill periods are scheduled at five o'clock. The drills are strenuous.

At eleven of the twenty-seven schools surveyed by Mr. Dabhart members of the marching band are allowed credit for physical education during the term in which the band is active. This practice is justified on the grounds that the exercise and discipline involved in the band work over-match the exercise and discipline involved in a typical one-hour class in physical education.

The Student Affairs Committee recommends that one hour of credit in compulsory physical education be allowed for each semester of satisfactory performance in the University marching band.
