HUGHES PRESIDENTIAL REPUBLICAN CANDIDATE

The Republican Convention at Chicago designed Judge Charles E. Hughes candidate for the First Official position in United States. Mr. Hughes, when he new his nomination said in a telegram.

"I have no desired the nomination. I have wished to remain on the bench. But in this critical period of our national history I recognize that it is your right to summon and that it is my paramount duty to respond."

WICKERSHAM SAYS NO THIRD TICKET.

Denies He has Political Mission to See Mr. Hughes.

Mr. Wickersham conferred the 12th, with Mr. C. E. Hughes in New York, soon after Mr. Hughes arrived there from Washington. "I have no expectation of seeing Col. Roosevelt and no mission to see him" said Mr. Wickersham after emerging from the talk with Mr. Hughes. "I have had no political relations with Mr. Hughes on this occasion. I am heartily and enthusiastically supporting him and of course I think that the Progressives will give him their support. I don't expect Col. Roosevelt to head a their ticket. But that is only guess work on my part" Mr. Wickersham insisted his visit had nothing to do with politics.

Obregon-Gavira Meeting is seemed as bad Omen.

Gen. Gavira commander of northern Chihuahua is unexpected gone aboard a special train toward Mexico City. In El Paso Texas there was attendance to attach sinister importance to the fact that Gen. Gavira has been called by Gen. Obregon on the heels of reports of anti-American demonstrations.

Mining men arrived to El Paso manifested apprehension for the safety of their american employes in Mexico, and those friendly to the americans expressed the idea none may be fearful.

Railroad Companies and Trainmen Conference Unexpected Halted.

The conference which must held the 12 between representatives of the railroads of the United States and their 350,000 employes was suddenly halted. The railroads make a reply to what is considered the ultimatum of the men, declining to consider the railroads' proposition, described as the "yard stick." The railroads answered to the men's demands was a tentative offer of compromise, granting the eight hour day and overtime, providing the double compensation rule is wiped out. In others words the railroads maintain that if the men desire a shortened day they must put in the full time in what ever class of service they are assigned. The break came when following the reading of the outline of the "yard stick" method by Elished Lee, chairman of the railroads managers. Heated objections were immediately made by the brotherhood leaders.

Treviño Aid Americans.

Gen. Treviño has demonstrated his full desire to give Americans residents of Chihuahua any kind of protection in the face of mob disorders. He provided an escort for a train carrying several Americans who flew from Chihuahua and had placed guards of a dozen soldiers at the American Consulate in Chihuahua during the trouble.

How Admiral McRae

Thinks is Preparedness

"Partial preparedness is only an invitation for an enemy to hate you and come and take all you have," was the declaration of Admiral Cameron McRae Winslow, commander in chief of the Pacific fleet, in an address on "Preparedness", Government day at the Panama California International Exposition, May 26. "One modern battleship could dispose of our entire Pacific fleet for ships with higher speed and greater gun power could hit our ships when we could not get close enough to hit them. Our one hope would be in destroyers and submarines working at night when the enemy could not see us. In the Pacific fleet we have four capital ships and these are not modern, —only one has its complement of men and officers, and the others are only half manned."

COWBOYS REUNION 4-BIG DAYS-4

Las Vegas June 15—"Bed and grub" for all visitors to the New Mexico Cowboys' Reunion to be held in this city July 4-5-6-7 will be provided. The Cowboys' executive committee has promised itself that the large crowd will be accommodated, and whenever a cowboy makes a solemn pledge unto himself, he always delivers the goods.

In order that all strangers in the city may secure rooms, the reunion association has made a census of the city's places where accommodations may be secured. All hotels, rooming houses and private residences that will be thrown open to visitors have been listed, together with the prices that will be charged—and the punchers made certain that no high rates would be piled on just because of the reunion. The list will be kept in the office of the information bureau. All persons coming into the city will find information regarding available rooms, and will be escorted to the place of their choice by Boy Scouts acting as Bell Hops and Information dispensers.

Though it has been estimated that Las Vegas can care for 5,000 extra people, it would be well for all who intend to come to the Reunion to engage rooms in advance, which may be done by writing the Reunions headquarters.

Suffragists Unusual Demonstration

Suffragists are planing a big demonstration during the national democratic convention in St. Louis Mo., next June 14 which is the first day of the convention. Lines of women wearing yellow and white sashes will form on the streets. They have adopted as their solgan this inscription: "A woman in line is worth ten petitions in the waste basket."

Preparedness Parade in San Francisco, Cal.

The Panama California International Exposition is promoting one of the biggest preparedness parade in the United States for July 4. In addition to the thousand marines on the Exposition grounds, the regulars

GERMANS FAIL- URE AT VAUX.

Their Losses to May.

The assault made by germans troops the 12th, against Fort Vaux on the Verdun front failed entirely. The frenchmen hold positions and germans continued their heavy bombardment.

According reports from London, Germany up to the end of May had lost 2,924,586 soldiers of whom 734,412 are dead, 1,851,652 wounded and 338,522 prisoners and missing.

Mexican Raiders Killed.

The 12 in Texas were killed three men captured, according to a report received in Laredo. Those three men participated in the raid on T. A. Coleman ranch at San Samuel.

American cavalry commanded by Capt. Ola W. Bell, who pursued mexican bandits following a raid on the Coleman ranch near San Samuel, did not cross the international border.

at Fort Rosecrans, officers and men from the Pacific fleet and Pacific reserve fleet, the aviation at North Island, and the thousands of members of fraternal organizations, the California National Guard and the Auto Reserve Corps will have a part in the day's celebration. Admiral C. McRae Winslow and Admiral W. F. Fullam have addressed Exposition audience on the subject of "Preparedness" and have assisted in making the plans for the big Preparedness celebration at the Exposition.

THINGS TO LAUGH OVER.

CAUSE FOR SHAME.

A merry party was going on in the bedroom of the host at a large hotel, when the festivities were interrupted by a waiter who said: "Gentlemen, I have been sent to ask you to make less noise. The gentleman in the next room says he can't read."

"Can't read?" replied the host. "Go and tell him that he ought to be ashamed. Why I could read when I was five years old."

TRYING THE DOG ON HIM.

"Come right into the yard," said the farmer's wife cordially to a tramp who had been asking something to eat.

SOME EVENTS OF PANAMA CALIFORNIA INTERNATIONAL FAIR.

The half-million mark has been passed in 1916 attendance at the Panama California International Exposition. In view of the fact that the early months are considered low from an attendance standpoint. Along the coast, the showing is highly gratifying to Exposition heads. President G. A. Davidson points to the fact that the attendance is greater than for the same period last year, and is firm in the belief that July, August and September will bring the biggest months enjoyed by the Exposition.

The thousand U. S. marines that have been stationed at the San Diego Exposition since the first of the year are still on duty and have given up hope of being called to Mexican service. The 21st Regiment U. S. Infantry, under Major William Brooke, left a few days ago for the border, a few weeks after they had prepared a wonderful camp on the Exposition grounds.

The 4th Regiment marines have seen more foreign service than any other regiment, and have in a special relic tent grim reminders of the part they have played in China, Nicaragua, Cuba, the Philippines, Vera Cruz and on other foreign fields. The sword carried by Balboa when he discovered the Pacific has come into the marine collection by capture, and was used in the Nicaraguan rebellion which the marines quelled. A three-inch shell used against the boxers in 1900, a cap and queue of a Chinese officer killed by a marine in the charge over the wall, a shell used on Admiral Dewey's flagship, a Mauser rifle and belt of cartridges, captured from Huerta's troops at Vera Cruz, and scores of other relics can be seen by visitors at the model camp.

The Pied Piper returned from the pages of fiction to be host to 15,000 children at the Panama California International Exposition, Saturday, May 27. The Piper gave notice that he would appear promptly at 11 o'clock from the canyon of the Exposition grounds, and when the thousands of children, assembled on the lawns, saw him, they hailed him with delight and followed him and his magic pipe through the Exposition wonderland, through the mountain people with gnomes and sprites, and to the aviation field where a wonderful program of entertainment was provided.

TROLLEY CAR PARADE ON OCCASION NEW MEX- ico University. Next Year.

Albuquerque, N. M., June 13.—Albuquerque business men will hold a "Trolley Car Parade" the first ever held in New Mexico, on August 22, starting in the business district and ending at the University of New Mexico, on the occasion of the opening of the University for the coming college year. The parade which will include a number sufficient to fill practically every car of the City Electric company, will be a recognition of University progress and a demonstration over the furnishing of adequate transportation between the business section and the University campus. Lack of transportation has been one of the greatest obstacles with which the University has had to contend. The trolley line now building to the campus, will be complete early in July and will serve to hasten growth of the whole University district where during the past six or seven months thirty nine new residences have been built. The chief stimulant to this building has been the demand by University students for rooms in private families, situated close to the University. Practically every new home built on "University Hill" contains accommodations for two or more students.

THE FATHER AND HIS BOY.

A father writes in perplexity about his eighteen-year old boy, and closes his letter thus:

"He seems to resent my making decisions for him, and will not bend to my will."

The boy, of course, is right and the father is wrong. No eighteen-year-old boy, if he is worth his salt, should have his decisions made for him by his father or by anyone else. We fathers are too apt to forget that our sons are personalities; that they have a right to their own lives; that they must live those lives, not we. We can plan for them, explain, guide, direct, counsel, but there is where the father must stop. If never a boy is going to be worth anything to himself and to the world at large it is time at eighteen for him to begin to learn to decide things for himself. "But he will make mistakes" says some anxious father or mother. He certainly will, and he will (Continued on 4th. page.)

ANNUAL MEETING OF TAX- PAYERS' ASSOCIATION.

Santa, Fe, N. M., June 13.—
That the Taxpayers' Association
of New Mexico, organized
September 1, 1915, will be able
to show savings effected for
New Mexico taxpayers totalling
around half a million dollars,
in its first year of operation, was
indicated by preliminary reports
presented to the executive board
of the association at a meeting
in Las Vegas on June 10, when
the work of Director A. E. James
and his assistants up to this
time, was reviewed by the board,
and an outline formed of work
for the remainder of the fiscal
year of the organization which
ends September 1, next. The
board made a careful examination
of all work performed by the
Director up to date and gave it
unqualified approval. It was
concluded to devote every effort
to pursuing the financial survey
of the state on which Director
James has been engaged since
last October and which has made
considerable headway.

The Executive board voted
unanimously to call the annual
meeting of the association to be
held in Albuquerque Tuesday
and Wednesday, September 26
and 27, in the Albuquerque
High School auditorium. The
dates fall within State Fair work
when a large number of members
and interested taxpayers will
be in Albuquerque and when it
is expected that the work of the
association can be presented to a
larger audience of those directly
interested than would be possible
at any other time. President H. J.
Hagerman of Roswell and Director
James will attend the annual
meeting of the National Tax
Association, at Indianapolis late
in August where Mr. Hagerman
will deliver one of the principal
addresses. They will extend an
invitation to the National organization
to hold next year's meeting in
New Mexico and at the same time
will invite several distinguished
experts in taxation to address the
annual meeting of the local
association in September.

tember.

The Taxpayers Association
now has some 600 members including
all classes of taxpayers from the
owner of a modest house and let
to the largest railway system entering
the state, and from the owner of a
few head of sheep to the greatest
of the livestock outfits. It is stated
by those who know that Director
James in the first ten months of
work has saved taxpayers enough to
pay his salary for more than eighty
years. The executive board of the
association consists of President Hagerman,
Bronson M. Cutting, Santa Fe;
Blas Sanchez, Mora; John S. Clark,
Las Vegas; G. A. Kaseman, Albuquerque;
J. Van Heaten, treasury, El Alamo;
Vice-President.

THE EXPLORATION OF THE COLORADO.

The town of Green River,
Wyoming, is on one of the most
interesting drainage systems in
America. The river rises about
200 miles farther north and at the
railroad crossing is a stream of
considerable size, having an average
flow of 2,200 cubic feet a second.
About 540 miles farther south it
joins Grand River to form the
Colorado, which after winding
through more than a thousand miles
of the most wonderful canyon
scenery in the world reaches the
Gulf of California.

From the town of Green River
Maj. J. W. Powell, afterwards
Director of the United States
Geological Survey, started May 24,
1869, with his little company of
daring associates to explore the
canyons of the Colorado. The story
of the trip is well known, but from
the simple, unimpassioned language
in which Maj. Powell himself tells
it, the reader might not realize
that this was one of the most
hazardous undertakings in the
history of modern exploration. Few
have cared to undertake the
adventure since, and some of those
who have paid for their temerity
with their lives. The journey has
recently been successfully repeated,
however, by two photographers,
Ellsworth and Emory Kolb, who on
September 8, 1911, also started from
Green River and, after numerous
adventures, emerged from the
canyons with a valuable collection
of negatives and moving-picture
films. (U. S. Geological Survey.)

OUR PUBLIC FORUM

VII.—Hon. Elihu Root On Woman's Sphere

The question of Woman Suffrage is an issue before
the American people. Twelve states have adopted it,
four more states vote upon it this fall and it is strongly
urged that it become a platform demand of the national
political parties. It is therefore the privilege and the
duty of every voter to study carefully this subject. Hon.
Elihu Root, in discussing this question before the Constitutional
Convention of New York, recently said in part:

"I am opposed to the granting of suffrage to women,
because I believe that it would be a loss to women, to all
women and to every woman; and because I believe it
would be an injury to the State, and to every man and
every woman in the State. It would be useless to argue this if
the right of suffrage were a natural right. If it were a natural
right, then women should have it though the heavens fall. But
if there be any one thing settled in the long discussion of
this subject, it is that suffrage is not a natural right, but is
simply a means of government, and the sole question to be
discussed is whether government by the suffrage of men and
women will be better government than by the suffrage of men
alone."

Into my judgment, sir, there enters no element of the inferiority
of woman. It is not that woman is inferior to man, but it is
that woman is different from man; that in the distribution of
powers, of capacities, of qualities, our Maker has created man
adapted to the performance of certain functions in the economy
of nature and society, and woman adapted to the performance
of other functions.

Woman rules today by the sweet and noble influences of her character.
Put woman into the arena of conflict and she abandons these great
weapons which control the world, and she takes into her hands
feeble and nerveless weapons of strife, weapons with which she
is unfamiliar and which she is unable to wield. Woman in
strife becomes hard, harsh, unlovable, repulsive; as far
removed from that gentle creature to whom we all owe allegiance
and to whom we confess submission, as the heaven is removed
from the earth.

The whole science of government is the science of protecting life
and liberty and the pursuit of happiness. In the divine distribution
of powers, the duty and the right of protection rests with the
male. It is so with men, and I, for one, will never consent to
part with the divine right of protecting my wife, my daughter,
whom I love, and the women whom I respect, exercising the
birthright of man, and place that high duty in the weak and
nerveless hands of those designed by God to be protected rather
than to engage in the stern warfare of government. In my
judgment, this whole movement arises from a false conception
of the duty and of the right of both men and women.

The time will never come when the line of demarcation between the
functions of the two sexes will be broken down. I believe it to be
false philosophy; I believe that it is an attempt to turn backward upon
the line of social development, and that if the step ever be taken,
we go centuries backward on the march towards a higher, a nobler
and a purer civilization, which must be found not in the confusion,
but in the higher differentiation of the

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has
been due to the fact that the wants of the user have
dictated its construction. The user has decided in favor
of certain improvements now incorporated in Model 8.
Among them are:

Silence of Operation—The most silent running efficient
typewriter ever placed on the market. Absolute silence
has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating.
There is no extra charge for this convenience.

Variable Line Spacer—Enables the operator to start on a
given line and space from point of starting; also to write
on ruled lines whose spacing varies from typewriter spacing.
A great help in card work.

Faster Ribbon Feed—Insures new place of impact for each
typeface.

Choice of Carriage Return—Upon special order the new
left hand carriage return will be furnished in place of the
right hand return.

All the important features of previous models have been retained
—ball bearing carriage, typebars and capital shift, back spacer,
key-controlled ribbon, removable platen, protected type, flexible
paper feed and automatic ribbon reverse.

The Father . . .
take the consequences for them
too. So did you, so did I, so
will our sons and grandsons af-
ter us. But a boy's fiber is not
hardened by sparing him those
experiences he must have them
if he is to be a red-blooded man
and not a member of the querub
choir. And we fathers must
stand by and see our sons pass
through those experiences, and
see them get the hard knocks of
life. It is not easy to do cer-
tainly not; but it is life, and in-
exorable. No lesson is really
learned save by experience.
Even if a boy is of his father's
flesh and blood, he is not his
father; he is himself different in
every respect, and after the fun-
damentals of training have been
laid he is entitled to the devel-
opment of his own personality.

A bilious, half-sick feeling, loss
of energy, and constipated bow-
els can be relieved with surpris-
ing promptness by using HER-
BINE. The first dose brings im-
provement, a few doses puts the
system in fine, vigorous condi-
tions. Price 50c. Sold by All

If you have the itch, don't
scratch. It does not cure the
trouble and make the skin bleed.
Apply BALLARD'S SNOW LI-
NIMENT. Rub it in gently on
the affected parts. It relieves
itching instantly and a few ap-
plications removes the cause thus
performing a permanent cure.

Telephone service enters more intimately into the lives of the public than
does any other utility, for it affects, in a greater or lesser degree, practically
every form of human activity.

We cannot afford to pursue any course, which, upon analysis, would prove to be
contrary to the best interests of the public and a consequent betrayal of public
confidence.

This condition imposes upon us grave responsibilities, which we cheerfully re-
cognize and which we undertake at all times to discharge in a manner that will
merit public favor.

Therefore, we shape our policies and build our rates to conform to the best
thought developed in the telephone business up to the present day.

By pursuing such a course we believe we will always merit the confidence
of the people we serve.

Our entire PLANT, which affords facilities for intercommunication in the
cities, towns and rural districts of seven states, is built upon confidence. Con-
fidence in the industrial and commercial future of the territory which our
system covers; confidence in the fairness of the people we serve and confi-
dence in our ability to serve the public well.

Our entire BUSINESS is built upon confidence. Confidence which the public
has in our corporate character; confidence in the integrity of our policies and
confidence in our ability to render efficient service.

**Information and Consulting Bureau on
All Kinds of Business About
Old Mexico.**

You may need information relative to international Jurisprudence,
legal or business matter.
Hence I beg you to know that I have established an Office in this
Printing Shop to furnish all kinds of reports about any kind of
business in any place of Mexico Republic, either at the present
time or when peace and order may be entirely restored.
A specialty will be made on consultation in international cases and
legal business.

I am Mexican Lawyer, graduate of the Law School of the City of
Mexico and Madrid, Spain, and have acted as Military and Superior
Judge in several places in my own country.

I will serve correspondent consultations on any of the subject
specified, confident that my knowledge of matters in Old Mexico
and Mexican Laws, will stand full test. With the question letter
send TEN DOLLARS and YOU WILL RECEIVE AT ONCE A
SATISFACTORY ANSWER.

YOUNG MAN

You propose to win in life.

A college education will help you win.

You can get that education at the NEW MEXICO
STATE UNIVERSITY in four years, at an actual
necessary cost of \$195.00 per year.

During those four years you will form friendships
with hundreds of other young men from every county
in New Mexico, from among whom will come the
future business, industrial and political leaders of
your home state.

Figure out what acquaintance will be worth to
you.—Where else can you get it with the same out-
lay of money, time and work?

THE UNIVERSITY OPENS August 22nd.

Oh, You Skinny!

Why stay thin as a rail? You don't have to! And you don't
have to go through life with a chest that the tailor gives you; with
arms of childish strength; with legs you can hardly stand on. And
what about that stomach that flinches every time you try a square
meal? Are you a pill-feeder?

DO YOU EXPECT HEALTH AND STRENGTH IN TABLOID FORM—
THROUGH PILLS, POSITIONS AND OTHER EXPROPRIATED PIFFLE? YOU
CAN'T DO IT; IT CAN'T BE DONE.

The only way to be well is to build up your body—all of it
—through nature's methods—not by pampering the stomach. It
is not fate that is making you a failure; it's that poor, emaciated
body of yours; your half-sickness shows plain in your face and the
world loves healthy people. So be healthy—strong—vital. That's
living. Don't think too long; send 4 cents in stamps to cover mail-
ing of my book, "INTELLIGENCE IN PHYSICAL CULTURE,"
written by the strongest physical culture instructor in the world.
