In the matter of the assessment of certain sheep men, who live and reside in Roswell, and Chaves county, New Mexico, and who maintain sheep ranches and run their sheep both in Lincoln and Chaves counties.

Now on the 24th, day of July, A. D. 1911, comes on for hearing before the board of county commissioners of Lincoln county, New Mexico, sitting as a county board of equalization, at the regular July, A. D. 1911, meeting as such, the matter of the coming to a proper assessment of the sheep of certain sheep men who live and reside in Roswell and Chaves county, New Mexico, and who maintain ranches and run their sheep in both Lincoln and Chaves counties, and the board having considered the same and being fully advised in the premises finds:

Whereas, There are certain sheep men who reside and live at Roswell and in Chaves county, New Mexico, who own and run sheep on the public range, and who have and maintained ranches in both Chaves and Lincoln counties, New Mexico; and who run and range their sheep for a portion of each year in both Chaves and Lincoln counties; and

Whereas, said sheep men have instructed this board that they are anxious and desire that said boards of county commissioners of both Chaves and Lincoln counties, come to some understanding as to where said sheep should be returned for taxes in order that there will be no future dispute as to the same and

Whereas, said board, is informed that it has been suggested by certain of said sheep men that their sheep be returned and assessed as follows, to-wit:—50 per cent or one half of said sheep to be returned for taxes in Lincoln county, New Mexico, and 50 per cent or one half of said sheep to be returned for taxes in Chaves county, New Mexico, without regard by said assessors of Chaves and Lincoln counties, as to where said sheep are actually ranging on the 1st day of March, for the year for which said taxes are returned; and

Whereas, said board are informed that the board of county commissioners of Chaves county, New Mexico, have shown their willingness to agree to the above assessment on the part of all sheep men as aforesaid who live and reside in Roswell and Chaves county and who maintain sheep ranches and run sheep in both Lincoln and Chaves counties.

Wherefore, it is ordered by said board of county commissioners of Lincoln county, New Mexico, sitting in regular July A. D. 1911 session as a county board of equalization that:

That the assessor of Lincoln county, New Mexico, is hereby requested to take the matter of the assessment up with said assessor of Chaves county, New Mexico, and that said assessor of Lincoln county, New Mexico is instructed to take from said sheep men as aforesaid a return for their sheep on the bases of 50 per cent or one half of their sheep for taxes in Lincoln county, New Mexico, without regard as to where said sheep are ranging on said 1st day of March of the year in which they are assessed.

And it is further ordered that a certified copy of this order be sent by the clerk of this board to the clerk of the board of county commissioners of Chaves county, New Mexico, and also a certified copy of same be sent by the clerk of this board to the Territorial board of equalization, in order that this action may be approved by said Territorial board of equalization at their next regular meeting.

This resolution is subject to their approval and passing of a similar resolution by the board of county commissioners of Chaves county, New Mexico.

LUNCH FOR EVENING GUESTS

Simple Refreshments Easily Prepared Without Spending Much Money or Effort.

When girl friends drop in unexpectedly for the evening dainty refreshments add much to the pleasure of the guests without causing any great expenditure of either money or effort. Hot chocolate is a favorite beverage of all womankind and the truly hospitable woman is always an adept at making it.

To make hot chocolate allow one ounce of chocolate to each pint of liquid. To make one quart put two ounces of chocolate in a double boiler with one pint of hot water. Stir until the chocolate is melted, then add one pint of rich milk. Beat and stir rapidly until it boils again. Add three tablespoonfuls of sugar, take from the fire and beat quickly. Have the chocolate pot hot when the chocolate is turned in and served with whipped cream. If slightly thickened chocolate is desired make a thin paste of two teaspoonfuls of cornstarch moistened with milk and stir slowly into the mixture just before it is taken from the stove.

Dainty sandwiches to serve with the chocolate are made by cutting white bread into thin slices and spreading them with a paste made of finely chopped pecan nut meats and mayonnaise. Lettuce sandwiches have a leaf of crisp lettuce spread with the mayonnaise as filling. Butter the bread before using the filling. Some hostesses keep a jar of chopped nuts or peanut butter on hand all the time and so are never at a loss when the unexpected guest drops in. Peanut sandwiches are made by spreading one slice of the bread thinly with butter and the other with the peanut butter. Put together with a lettuce leaf.

WILL DIVIDE PIE FAIRLY

New Machine Invented Which Will Cut It Into Six Equal Pieces.

No more will the restaurant Romeos wrangle because Florence, the belle of pie jugglers, shows partiality. A heartless machine has been invented that insures peace in the lunch counters of America by dividing every pie into six equal parts with a mathematical precision that admits of no dispute. The machine consists of a plate

with a jointed handle curving over it. Depending from the handle are six knives, arranged like the spokes of a wheel, on a spring device, which gives resiliency to the stroke. The pie is placed on the plate of the machine and the handle pressed down. The knives divide the pie into six pieces at one blow and not only cuts each piece exactly the same size, but saves the time required to divide the pie with an ordinary knife. Hotels and restaurants will find one of these implements indispensable.

WISE BROKER.

Jiggs—That marriage broker was to get 10 per cent. of the girl's estate for arranging a match with a French marquis, but he did better than that—he took it all.

Wiggs—How?

Jiggs—Married the girl himself.

THE TRUTH ABOUT BLUING.

Talk No. 4.

Liquid bluing is mainly water. Given a half or a cent's worth of bluing and a large bottle filled with water and you have the frail excuse that's called bluing.

Always use RED CROSS BAG BLUE. The best blue anywhere at any price. It does make the laundress smile for a week. Large package 5 cents. AT ALL GOOD GROCERS.

The Exception.

Post—There are as good fish in the sea as ever were caught.

Parker—Hm! I guess you haven't heard Thompson's latest fish story.—Harper's Bazar.

The Herb laxative, Garfield Tea, overcomes constipation, giving freedom from sick-headache and bilious attacks.

To apprehend contempt is to have deserved it already.—Pierre Loti.

FREE ADVICE TO WOMEN

Women suffering from any form of illness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; thus has been established this confidence between Mrs. Pinkham and the women of America which has never been broken.

Never has she published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

Historic Event Celebrated.

Australia recently commemorated the one hundred and forty-first anniversary of Captain Cook's first landing. It was in 1770 that H. M. S. Endeavor, a barque of 370 tons, entered the inlet first called Sting Rays Harbor, but afterwards Botany Bay, from the beauty and variety of the plants growing about its shore. The vessel remained eight days, and before she left the British flag was hoisted. As is the custom on each recurring anniversary, the flag was again unfurled upon the spot where it was first displayed, and was saluted by the guns of the warships in the harbor.

WANTED TO SLEEP

Curious That a Tired Preacher Should Have Such Desire.

A minister speaks of the curious effect of Grape-Nuts food on him and how it has relieved him.

"You will doubtless understand how the suffering from indigestion with which I used to be troubled made my work an almost unendurable burden; and why it was that after my Sabbath duties had been performed, sleep was a stranger to my pillow till nearly daylight.

"I had to be very careful as to what I ate, and even with all my care I experienced poignant physical distress after meals, and my food never satisfied me.

"Since I began the use of Grape-Nuts the benefits I have derived from it are very definite, I no longer suffer from indigestion, and I began to improve from the time Grape-Nuts appeared on our table.

"I find that by eating a dish of this food after my Sabbath work is done, (and I always do so now) my nerves are quieted and rest and refreshing sleep are ensured me.

"I feel that I could not possibly do without Grape-Nuts food, now that I know its value. It is invariably on our table—we feel that we need it to make the meal complete and our children will eat Grape-Nuts when they cannot be persuaded to touch anything else."

FOR THE COOK TO TRY

RECIPES THAT OFFER AGREEABLE VARIETY FOR SUMMER.

Old Dominion Corn Bread is Really Delicious—Mushroom Soup, Cheese Aigrettes and Ginger Cream Worth the Trouble.

Old Dominion Corn Bread—The night before take cup yellow cornmeal and half cup rice, put into a good sized bowl with a piece of butter the size of an egg, a pinch of salt and a tablespoon of sugar. Pour over this sufficient boiling water (be sure the water is boiling) to make the mixture a thick paste. Cover tightly and let stand till morning. In the morning prepare two pie tins for making. Then take a tea cup of sweet milk or cream and three well beaten eggs, add the milk to eggs and beat. Then dissolve two large teaspoons of baking powder in a little extra milk. Pour the milk and egg mixture into the cornmeal and beat well. Then add the baking powder dissolved in milk. Bake at once in a quick oven for 15 or 20 minutes. If the mixture is allowed to stand before baking, or if the oven is cool the egg will separate and form a custard on top, but if properly prepared this makes a corn bread without an equal. Should be eaten hot right from the oven.

Mushroom Soup—Quart of milk, pint mushrooms, two tablespoons butter, tablespoon flour, minced onion, salt and pepper to taste. Stew the mushrooms and onion with half cup of milk till tender, then mash and rub them through a colander. Pour this into the quart of milk and place over the fire in a double boiler. Cream the butter and flour together, and when the milk is at boiling point pour about a cup into the creamed flour and butter, stirring until smooth. Pour this into the boiling milk and stir until thick as cream. Add seasoning and serve with cubes of toast.

Cheese Aigrettes—Boil together half a cup of water and quarter cup of butter; sift into this half a cup of flour, a pinch of salt and seasoning of paprika; beat until the mass forms a ball. Let it cool a few moments; then break in three eggs and beat, one at a time. Add third of cup of grated cheese (Parmesan preferred), drop by teaspoon on greased pan or oiled paper, leaving a good space between each spoonful of mixture. Bake in a hot oven till light and puffy and well browned. Serve hot with butter.

Ginger Cream—Cut in small, thin pieces three ounces of preserved Canton ginger; put this in a bowl with three dessert spoons of the syrup and the well beaten yolk of four eggs and a pint of sweet cream. Mix these ingredients well together and then cook in a double boiler ten minutes or till thick. Then take from the fire and beat with a wire whisk until cool. Add two teaspoons of pulverized sugar and one ounce of gelatine, previously soaked in water to dissolve. Beat all together until thoroughly mixed; put in a mold and keep on ice or in cold water in a draught of air until serving time. This makes a very dainty and delicious dessert. Whipped cream piled about the mound adds to the appearance, but is not necessary.

Cod Fish Salad.

Shred one pound of old-fashioned salt cod fish, tearing in narrow strips. Allow to soak over night in cold water. The next morning drain off the water, put the fish in a saucepan, cover with cold water and simmer for thirty minutes from the time it commences to boil. It must not boil hard or it will toughen. Drain well, separate the pieces and put in a salad bowl with an equal quantity of cold boiled sliced potatoes, one chopped gherkin, one hard cooked egg, cut in rings, and, if you have it, half a cupful of sliced celery. Arrange on crisp lettuce leaves and mask with a boiled dressing.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.

Governor Curry to Wed.

Papers at the National capital announce the engagement of Miss Gwendolyn Brooke, of that city, to Ex-Governor Curry, of Tularosa. No announcement is made as to the date of the wedding. The governor kept the matter very quiet, not even acquainting his most intimate friends with the important event. Hosts of friends extend best wishes.

A Double-Header.

White Oaks gave Carrizozo a return game of ball Sunday, and gave us a good game as well as a drubbing. It is true that the visitors had some assistance from other teams in the county, but they were boys against whom the home team had often played, and we knew their good points as well as their bad ones. Our boys were a little off their batting average, or Gallacher, for the visitors, was in little better form, for few of our batters connected with the sphere. Few hits were made off Robertson, either, but some costly errors on the part of the home team gave the visitors the lead, and they maintained it throughout the game, the score at the close of the game being White Oaks 4, Carrizozo 2.

Eliminating the errors in the first inning, when White Oaks was given 2 runs, and a costly error on the part of White Oaks, when they allowed the home team to count a run, the game would have stood 1—1, or at best 1—2; and that is proof conclusive that, at nearly all times, both teams put up a magnificent game. But when all is said, it finally resolved itself into a pitcher's battle, with Gallacher, for White Oaks, and Robertson for the locals, doing the twirling.

A big crowd was present to watch the game, White Oaks sending a big delegation, a number coming from Nogal, Mesa, Bonito and Capitan. Good feeling was manifested on all sides and the game was a clean, pleasant affair from start to finish.

The following day a second game was played, but both teams changed their line-up to some extent. The visitors were disappointed in not securing certain players from Fort Stanton, and went into the contest somewhat weaker than they intended. The locals made a few changes that strengthened their chances, and produced satisfactory results.

At the very beginning of the game, however, the home team allowed the visitors to score 4 runs, which looked like another swamp. The day was a disagreeable one, cold and windy, and the local team finally struck a gait that left the visitors shivering in the rear, the score at the ninth being Carrizozo 19, visitors 7.

Gallacher and Robertson, the pitchers of the day before, started in for another bout, but the cold weather and the hard work of the day before told on them, their arms failed to work, Robertson retiring after the first and Gallacher after the second inning. Reiter went in the box for the visitors, while W. Dingwall performed the same service for the locals. Reiter had rather bad luck, hitting several men and walking others, while Dingwall was more successful with his long curves, which, after a change from the pitcher they had been batting, fooled the visitors. The state of the weather was largely responsible for the many errors by both teams and the game was far from a good one, and, after the splendid showing of the day before, was a distinct disappointment to the fans. However, the excitement existed just the same.

Excursion to Alamogordo Sunday.

The E. P. & S. W. Railway has made a rate of one fare, \$2.35, for the round trip, Carrizozo to Alamogordo Sunday, on account of the ball game between Carrizozo and Alamogordo, the game to take place at Alamogordo in the afternoon. A coach will be attached to a fast freight which will leave here Sunday morning at nine (9) o'clock and to reach Alamogordo before twelve. The coach will be attached to No. 2, on return, which will land the excursionists in Carrizozo Sunday night at 9:50. Take a day off and swell the crowd.

Kelley-McCall.

Miss Cora Kelley was united in marriage to Lemuel A. McCall Wednesday afternoon at the home of the bride's parents, Mr. and Mrs. Mills B. Foreman, Rev. B. W. Allen performing the ceremony. A number of friends were present to wish the couple bon voyage. Many useful and beautiful presents were made by friends and all acquaintances join in best wishes. Mr. and Mrs. McCall will reside at their new home near town.

Disastrous flood at Lincoln.

A severe rain and hail storm struck Lincoln Sunday night, and caused a great deal of damage. Farms were badly washed, houses were damaged, farm implements and wagons carried off and a number of stock killed. The new iron bridge at Las Chosas, four miles below Lincoln, was swept away by the flood that passed down the Bonito. The rainfall was said to have reached 4 inches, and fell in a very short time, and the immense volume of water swept everything before it. The loss of property, real and personal, was something fearful, when the restricted area over which the flood went is considered.

Jicarilla Happenings.

Mrs. James Cooper Jr. of this place is quite sick.

The young men of Ancho gave a dance Saturday eve last, to which a bevy of pretty girls and winsome ladies went from here.

The Deel family, accompanied by friends from Ancho, were visiting in camp a few days ago.

Sunday last was the warmest day this summer, registering 82 degrees in the shade the most of the day. Monday morning came on cold enough to suggest a fire for real comfort.

A severe electric storm passed over to the southeast Sunday night. We were thankful that it lost only the cold wave in going over.

We hear that Miss Minnie English has departed for Alamogordo on a visit to friends and relatives in that city.

We learn that Mr. Fred Craig was contemplating an European tour quite soon, but did not learn to what definite point he steers to.

Some one said that Jicarilla locals were "trash." I wonder why he borrows his neighbors' News to read and comment upon such "light stuff?"

There was a meeting held one day last week, about some local school affairs. We learn it was decided finally to give the school master permission to run his own business, until further notice.

Sprains require careful treatment. Keep quiet and apply Chamberlain's Liniment freely. It will remove the soreness and quickly restore the parts to a healthy condition. For sale by all dealers.

ADDITIONAL LOCAL.

R. L. Hust was down Monday from Nogal, with a load of vegetables.

Twins—of the male gender—were born to Mr. and Mrs. C. O. Davis, at Coyote, Tuesday night.

The Carrizozo ball team will go to Alamogordo Sunday to play a game of ball with the Alamos. The Alamo team is to give us a return game the following Sunday.

A freight wreck at Vaughn last night, literally tore the track up and ditched six cars and delayed No. 1 until 1 o'clock this afternoon, making it about ten hours late.

The past week has been more exciting than usual. Two ball games, and the returns from Texas, one day dry, the next wet, kept a large part of our population guessing; particularly those who backed their judgments in each case.

Sheriff Stevens, Commissioner Duran and Probate Clerk Riggle came up from Lincoln Sunday, and attended the regular meeting of the board of county commissioners this week. Assessor Hurt was also over from Capitan, assisting the board in the matter of equalization of taxes.

Albert Ziegler left Wednesday night for a three weeks trip east. While absent, Mr. Ziegler will visit St. Louis, Chicago and New York, where he goes to purchase a fall and winter stock of goods for Ziegler Bros. This firm, following its habitual custom, expects to have a line of the latest patterns in dress and dry goods ever brought to this market.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all dealers.

Happiest Girl in Lincoln.

A Lincoln, Neb., girl writes, "I had been ailing for some time with chronic constipation and stomach trouble. I began taking Chamberlain's Stomach and Liver Tablets and in three days I was able to be up and got better right along. I am the proudest girl in Lincoln to find such a good medicine." For Sale by all dealers.

Lincoln Locals.

Dr. J. Odd Hamilton the genial dentist of Roswell, is here on professional business.

Probate clerk, J. G. Riggle, Sheriff Stevens and commissioner Duran are attending the meeting of the board of county commissioners in Carrizozo this week.

Henry Lutz has returned from his ranch, where he has just finished shearing 2000 sheep. The heavy rains of late interfered very much with the shearing.

Sylvester Baca, is reported to be very sick. The symptoms point to typhoid fever.

The Lincoln Sunday school, which was recently organized, is rapidly growing in numbers and much interest is being manifested.

J. M. Penfield has been overseeing the loading of a big shipment of wool at Capitan.

One of the heaviest rains ever known in this valley fell Sunday night. The storm which was accompanied by much lightning, began about 10.30 o'clock and lasted for several hours. Much damage was done to all kinds of property. The river overflowed its banks and destroyed the crops for miles down the river.

Jose Leon Padillo lost 800 out of a herd of 1100 goats, by drowning. Jose Salazar estimates his loss in cattle at 40 head.

Several horses are lodged in the piles of debris along the river. The new county bridge, which was recently completed across the Bonito, was washed away.

Notice.

All parties who were indebted to The Carrizozo Trading Company on March 11th, 1911, and whose accounts or notes were assigned and transferred to the undersigned, are hereby notified to make prompt settlement of same during the month of July.

All accounts and notes outstanding on August 1st, will be turned over to an attorney for suit and collection.

CARRIZOZO - NEW MEXICO

MOTOR CARS IN THE ALPS.

Motorists who desire to include the most picturesque parts of Switzerland in their itinerary have run up against a dead wall of opposition on the part of the people of the canton which contains the finest Alpine scenery, including the valley of the Engadine, the Maloja lakes, the famous resorts of Moritz, Pontresina and Davos and the passes of the Splügen, Maloja and Bernina, says the Pittsburgh Chronicle-Telegraph. The question of admitting motor cars to the Grisons was submitted to the people by resort to the initiative, and the result was a vote of absolute exclusion. This came to pass in spite of the disposition of the federal authorities to encourage automobile traffic and the active work of the Swiss Automobile club on the same side. The people, however, were unalterably hostile for the reason that the Alpine roads are narrow and that, if motor cars were admitted, the use of those highways would be fraught with great danger. Obviously, if the opposition so manifested is to be overcome the only means of accomplishing this end is by the widening of the mountain roads. Here again, however, the will of the people must be consulted and the issue is bound to be mighty uncertain.

We are now getting intelligence that will add to the charm of farming and gardening and magnify the ideals of the city fellow who dreams of the delicious flavor of rural life. It has been discovered, through experiments in Scotland, that the application of electricity to a garden bed will make the lettuce, the cucumbers, the peas, the tomatoes, the beets, etc., grow furiously and increase the yield from 20 to 100 per cent. The time for the things to come up, after the seed is put in the ground, is reduced at least one-half. The application of the electricity can be done by putting some electric lights over the bed or discharging high-tension electricity from a system of overhead wires. There is scientific reason for this sort of horticulture. Electricity is a powerful and permeating fluid, and it is particularly effective in promoting plant life.

In New York it has been made an offense for a driven of a motor vehicle to speed away after an accident, and if he is caught the penalty is so much the heavier. It is so comparatively easy for an offending motor driver to escape by speeding that every risk to his doing so should be put in his way. This speeding in city streets is getting to be one of the most serious menaces of urban life. More than one valuable life have been sacrificed to it, and what power there is in law and the law's enforcement to stop it should be done.

Chauffeurs arrested a second time in Atlantic City for speeding will lose their licenses. Some such drastic measure must be taken in all large communities against this new danger of civilization, or next time the penalty will have to be padded everywhere.

If it is necessary to get up at six o'clock every morning to reach the age of one hundred and one, we are satisfied to linger the traditional three score and ten years in this world and let it go at that.

SUFFERED FOURTEEN YEARS.

A Terrible Case of Dropsy and How It Was Cured.

Mrs. W. R. Cody, 603 Tenth St., Lewiston, Idaho, says: "Fourteen years I suffered from kidney trouble. I was so lame and sore I could hardly move. Headaches were frequent and my whole body bloated. I had chills and hot flashes and my ankles were so swollen I could scarcely wear my shoes. The kidney secretions bothered me and my nerves were unstrung. I began taking Doan's Kidney Pills and soon the swelling diminished. The backache and other troubles quickly disappeared and I was completely cured."

FREED FROM SKIN DISEASE

"Our boy was born in Toronto on Oct. 13, 1908, and when three months old a slight rash appeared on his cheek. What appeared to be a water blister would form. When it broke, matter would run out, starting new blisters until his entire face, head and shoulders were a mass of scabs and you could not see a particle of clear skin. Other parts of his body were affected, but not to such an extent. We tried about every advertised remedy without avail, indeed some of them only added to his suffering and one in particular, the

Remedy, almost put the infant into convulsions. The family doctor prescribed for him and told us to bathe the baby in buttermilk. This did not do any good, so we took him to a hospital. He was treated as an out-patient twice a week and he got worse, if anything. We then called in another doctor and inside of a week the boy was, to all appearances, cured and the doctor said his work was done. But the very next day it broke out as bad as ever.

"We decided that it could not be cured and must run its course and so we just kept his arms bandaged to his side to prevent his tearing his flesh. We left Toronto and shortly after our arrival in Duluth, the Cuticura Remedies were recommended. We started using them in May, 1909, and soon the cure was complete. You would not think he was the same child for Cuticura made his skin perfectly clear and he is entirely free from the skin disease. There has been no return this time. We still use only Cuticura Soap for baby's bath. Robert Mann, Proctor, Minn., May 3, 1910."

"Why did Humpty Dumpty sit on the wall?"

"He probably thought he could hold it down."

GETS ALL OF THE JUICE

New Squeezing Device That Drains Lemon Dry and Keeps Seeds Out of Glass.

A squeezing device that will get all the juice out of a lemon and at the same time keep the seeds from getting in the lemonade has been designed by a New Jersey man. It is shown in the illustration and practically explains itself. The squeezer consists of two parts pivotally connected, one of them forming a cup and the other having a plunger fixed inside. A lemon or orange is cut in two and placed in

the cup, cut side down. The other member of the squeezer is then brought over till the plunger rests on the fruit in the cup. By pressing the two handles together the fruit is flattened until every drop of juice is out of it, and the juice may then be poured into pitcher or glass through the little lip which is seen on one side of the cup. The space through which the liquid flows is so small that a seed can not pass through, and the seeds together with the skin of the lemon, can be dumped out afterward.

HOW TO PUT AWAY LEMONS

Simple Instructions by Which the Housekeeper Can Economize This Summer.

Lemons are an item that every housewife can economize on this summer if they follow these instructions. Dip each one in melted paraffine and wrap in waxed paper. Lay away in a large glass jar or crock. The large, thin-skinned ones are to be preferred, as these can now be purchased for about one cent each, and, as you know, in the middle of the summer you are required to pay three times as much for not as good quality;—an hour's time, ten cents' worth of paraffine and five cents' worth of waxed paper will be considered money well spent if you now put away enough to last you through the hot spell.

When you wish to use them, all that will be necessary will be to dip them in fairly hot water and not only will the paraffine entirely come off, but the hot dip will also improve the lemon by making the extracting of the juice much easier and more complete.

An excellent way of cleaning lamp chimneys is to hold the glass over the spout of a kettle of boiling water until it becomes well steamed, then polish with a clean dry cloth, and the glass will be beautifully bright.

When steel knives are not in constant use always wrap them in tissue paper and lay them away. This quite prevents them from rusting, and so saves the bother of cleaning them when they are required again.

Ground rice is excellent for cleaning white cloth. It should be applied with a piece of clean white flannel, left for two or three hours, and then well brushed and shaken.

Intricate Letter.

When Bilkins was away from home on a long business trip, he got a letter from his wife that still puzzles him. It ended thus:—

"Baby is well and lots brighter than she used to be. Hoping you are the same, I remain, your loving wife."—Everybody's.

Quickest Salad That Grows.

The quickest salad that grows and the least used in this country is mustard and cress. Sow curled garden cress in long rows, four inches apart. It matures in 21 days. As soon as it breaks through the ground sow the same quantity of white mustard, and the two will be ready at the same time. They should be cut when about an inch and a half high and used mixed in equal parts. In England and on the continent it is used extensively for sandwiches, dinner salads, with lettuce leaves, and for garnishing meats. The round turnip radishes take only about the same time to mature if sown in rich ground, so it is easy to have a home grown salad, if nothing else, the first of July.—Harper's Bazar.

A Sewing Rug.

To the woman who must sew in her living rooms, I would recommend a sewing rug, made of a piece of denim of the right size to fit a light corner of the room. The edges are hemmed. Along the outer side which comes next the wall are four buttons evenly spaced. At the center of each end a strip of cloth forms a handle. When wishing to tidy the room, I fold over the rug lengthwise one-third, which brings four eyelets worked with carpet warp on the wrong side of the rug along the fold. The other side is then folded over and the buttons on the edge slipped into corresponding eyelets. The ends are then brought together, and the rug is hung by the handles on a closet hook.—Housekeeper.

EXTENUATING.

Parson—Boys, don't you know that you shouldn't play ball on Sunday?
Jimmy—Oh! that's all right, Parson. We ain't playing; we're practicing for tomorrow's game.

Couldn't See the Resemblance.

They have been joking Assistant Treasurer James A. Mathews of the Guardian bank, on his resemblance to President Taft, and Mr. Mathews has steadily refused to be annoyed thereby. So the jokers subsided and the joke died a natural death.

Until the other night, when Mr. and Mrs. Mathews dined together with Mr. and Mrs. Frank Harmon and their little daughter, when the Taft resemblance was revived. Turning to young Miss Harmon, Mr. Mathews asked whether she, too, thought he looked like the president.

Dorothy studied long and earnestly. Then she answered:

"Not in the face, Uncle Jim."—Cleveland Leader.

"DEAF" BEGGAR COULD HEAR

Incident That Struck Householder as
Being Along Slightly Humorous
Lines.

"Many funny things happen in a flat during the course of a few months," said a Milwaukee flat dweller, "but one of the best things I ever saw happened yesterday.

"I was suddenly roused from my slumber by three loud knocks on the door. Jumping to my feet and into a bathrobe, I hastened to see what was wanted. I opened the door in time to see a young fellow half way up the flight to the next floor.

"Hello, there!" I yelled at him.

"He turned around, hastened back and handed out a small envelope, pointing to the inscription. I glanced at it. It was an appeal for aid because the applicant was deaf and dumb.

"Say, I was mad enough to kick him down stairs. Then the joke struck me and I slammed the door in his face and went back to bed laughing."

The Old Gag.

Miss Lillian B. Rowe, at an advertisement writers' dinner in Denver, said of the harem skirt:

"It will soon be so widely worn that the old gag, perpetrated in the '40s on men, may profitably be revived for women victims.

"Some sharper, you know, will revive the gag by advertising in the Ladies' Own—

"Send \$1 and learn how to keep your harem skirt from becoming fringed at the bottom."

"Thousands of dollars will pour in, and to each victim the sharper will reply:

"Wear knickers."

SUCH A QUESTION.

State's Attorney (examining talesman for jury)—If you considered this man guilty would you send him to the gallows?

Talesman (a politician)—What's his politics?

When Fate Mocks.

"Too bad about Joe."

"What's the matter?"

"He sprained his arm and they are afraid he can never pitch again, so his folks are going to make a doctor or something of the sort out of him."

Method.

Mrs. Knicker—Will your furniture go in the new flat?

Mrs. Bocker—It will after it's smashed.

Speak kindly to all. It lies in God's hands whether or no that spoken word shall be the last you utter to the one you are addressing.

Some Day Ask Your Physician

To tell you the curious story of how the mind
affects the digestion of food.

I refer to the condition the mind is in, just
before, at the time, or just following the taking
of food.

If he has been properly educated (the major-
ity have) he will help you understand the curious
machinery of digestion.

To start you thinking on this interesting
subject, I will try to lay out the plan in a general
way and you can then follow into more minute
details.

Pawlow (pronounce Pavloff) a famous Russian Physi-
cian and Chemist, experimenting on some dogs, cut
into the tube leading from the throat to the stomach.

They were first put under chloroform or some other
anesthetic and the operation was painless. They were
kept for months in very good condition.

When quite hungry some unappetizing food was
placed before them and, although hunger forced them
to eat, it was shown by analysis of the contents of the
stomach that little if any of the digestive juices were
found.

Then, in contrast, some raw meat was put where they
couldn't reach it at once, and a little time allowed for
the minds of the dogs to "anticipate" and create an ap-
petite. When the food was finally given them, they de-
voured it ravenously and with every evidence of sat-
isfaction. The food was passed out into a dish through
the opening before it reached the stomach. It was
found to be mixed with "Ptyalin" the alkaline juice of
the mouth, which is important for the first step in di-
gestion. Then an analysis was made of the contents of

the stomach, into which no food had entered. It was
shown that the digestive fluids of stomach were flowing
freely, exactly as if the desirable food had entered.

This proved that it was not the presence of food
which caused the digestive juices to flow, but the flow
was caused entirely and alone as a result of the action
of the mind, from "anticipation."

One dog continued to eat the food he liked for over
an hour believing he was getting it into his stomach,
whereas, not an ounce went there; every particle went
out through the opening and yet all this time the di-
gestive juices flowed to the stomach, prepared to
quickly digest food, in response to the curious orders of
the mind.

Do you pick up the lesson?

Unappetizing food, that which fails to create mental
anticipation, does not cause the necessary digestive
juices to flow, whereas, food that is pleasing to the
sight, and hence to the mind, will cause the complicated
machinery of the body to prepare in a wonderful way
for its digestion.

How natural, then, to reason that one should sit down
to a meal in a peaceful, happy state of mind and start
off the breakfast, say with some ripe delicious fruit,
then follow with a bowl of crisp, lightly browned, thin
bits of corn like Post Toasties, add a sprinkle of sugar
and some good yellow cream and the attractive, appetiz-
ing picture cannot escape your eye and will produce the
condition of mind which causes the digestive juices
nature has hidden in mouth and stomach, to come forth
and do their work.

These digestive juices can be driven back by a mind
oppressed with worry, hate, anger or dislike of the dis-
agreeable appearance of food placed before one.

Solid facts that are worthy the attention of anyone
who esteems prime health and human happiness as a
valuable asset in the game of life.
