Weekly Citizen

ALBUQUERQUE, N. M., MAY 25, 1935

President Weaver of the Territorial Fair is pushing preparations.

Over your mind in a determined mood to make an exhibit at the Territorial Fair. The ladies of the city will be invited to help make the Territorial Fair a credit to the city.

This people of this city will expend \$25,000 on the Territorial Fair and Irrigation Congress.

This city can accommodate, entertain and please 10,000 visitors during Territorial Fair week.

One of the grandest street parades ever seen in the west will be witnessed one night during Territorial Fair week.

This city will be decorated from end to end during the Territorial Fair. A committee will soon take charge of this work.

C. C. Hall is doing good work advertising the Territorial Fair and Irrigation Congress all over New Mexico and Arizona.

This finest horses in America were on the race track in this city this week, and the number will be increased at the Territorial Fair.

This managers of the Territorial Fair will try to secure the attendance of the troops at Fort Wingate, with the band and the base ball team.

The Territorial Fair will begin September 16 and last one week. It will be the last exhibition held anywhere in the United States west of St. Louis.

This success of the Irrigation Congress will be a long step in the direction of convincing congress that New Mexico and Arizona are entitled to statehood.

Every town and county in New Mexico should get in line and make exhibits at the Irrigation Congress and Territorial Fair, to be held in this city in September.

Every man and woman in the city is interested in the success of the Territorial Fair and Irrigation Congress. No one is pulling against the great public territorial enterprise.

This mine owners of New Mexico and Arizona will find it to their interest to make big exhibits at the Territorial Fair this year. Visitors from all parts of the country will be in attendance.

This people of Albuquerque have made successful thirteen annual Territorial Fairs, but the one in September will lead all the rest in all ways. It will be a hammer from start to finish.

This railroads are going to give exceptionally low rates to the National Irrigation Congress and Territorial Fair. Whole train loads of eastern folks will be in attendance at the big exposition.

This premium list of the Territorial Fair is being prepared by a competent committee and will soon be printed and distributed. This year extra good premiums will be offered in all the departments.

This territory has coal enough to supply the whole United States. It is hoped that an exhibit of coal will be made at the Territorial Fair from every coal mine in New Mexico. It will be an object lesson to visitors.

This Kingman, Arizona, Miner says "The Irrigation Congress to be held in Albuquerque in September should be well attended. It is among such men as will compose this body that silver literature should be spread."

This city will hold no special Fourth of July celebration, and will visit Santa Fe in a body and help the antebellum capital make a success of the Fremont Tournament. In return Santa Fe will move on Albuquerque in crowds during the Territorial Fair.

This people of New Mexico and Arizona do not have leisure enough to get acquainted. It will be profitable and a pleasure for everyone to take a week off from grinding work and spend the time at the Territorial Fair and Irrigation Congress in September.

Max Frost is doing everything necessary arranging for the big excursion to Phoenix, Arizona, and to Elly, New Mexico, at the close of the Irrigation Congress. These excursions will show the people of the east the boundless resources of the southwest.

This city is fortunate in having one millionaire who is public spirited and enterprising. We refer to O. K. Cronwell, who at his own expense is fitting up the Territorial Fair grounds in excellent shape, almost regardless of expense. Visitors this year will be pleased with the comforts and conveniences.

This people of Las Cruces are going to quit quarreling among themselves over the management of the Agricultural college, and Prof. McCrea and the managers of the institution will make a new exhibit of the work of the school at the Irrigation Congress. This is the best way to show that the school is well managed.

This Silver City Eagle says: "The official call for the fourth national irrigation congress, to be held at Albuquerque on September 16, 17, 18 and 19, is out. Preparations are already being made for the congress and it is confidently expected that it will be the most interesting irrigation meeting ever held in this country."

As it was in Denver it will be here. The manufacturers of pumping and irrigation machinery will put their machines on exhibition, and as we have plenty of water here near the surface it will demonstrate just what can be done from wells, whereas in Denver it was necessary for exhibition purposes to use the city water.

SEBASTIAN YANABU, who has been appointed by President Diaz, of Mexico, to represent that republic, is an elegant gentleman and thoroughly alive to the importance of irrigation. He was here some time ago to get acquainted with some of our people and has engaged his quarters.

for the inspection of visitors during the Territorial Fair. Secora has mines of gold, silver and other precious metals, and needs to let the world know the fact.

Only a few of the features of the coming Territorial Fair are mentioned in today's news. When the complete program is made up it will be a remarkable combination of attractions, only exceeded this year in the United States by the St. Louis fair, and in many departments our exhibition will be more attractive than the celebrated Missouri exhibition.

This people of Grant county are doing exactly right in refusing to pay illegal bonds. It is all stuff to assert that such action will hurt the public credit of that county or of the territory. If New Mexico and its towns and counties had no public credit it would be big money in the pockets of the taxpayers.

With proper irrigation facilities New Mexico can become in a few years the home of 1,000,000 happy and prosperous people. The same can be truthfully said of Arizona. Come to the National Irrigation Congress and help devise ways and means to bring about this result.

Iron strikes, mines bring people, and people build towns, and towns support newspapers. This is why every paper in New Mexico and Arizona is personally interested in promoting the National Irrigation Congress, which convenes in this city next September.

Ask the best sports who will be the prizegiving during the Territorial Fair.

KINGSTON CAMP.

The Silver Bonanza Mines of Sierra County.

Kingston, May 21. While our camp has not the long term of industry that we expect it to have when silver is discovered, yet we are doing our share in silver production and keeping up the average with other silver camps.

Judge J. E. Evans, who left here a few days ago for the state capital at Santa Fe, has said that it is a mistake not to mine with profit in the Kingston mining belt that has been not try it in any other silver mining camp. And he has gone to try the iron regions. He has been successful above the average of mining here, having only two years ago during our busiest period. He left with a year's lease on the Kingston mine on North Fork, and plenty of ore in sight, running over \$100,000 in silver. He had a company of five or six men with him, and he several reasons why he had concluded to quit the claim among which is the low price of silver. Yet the North Fork is not entirely deserted. Some miners are at work on the Temple and Virginia mines.

Further north, some parties, or rather D. A. Beale, representing himself and others, have arrived from the east, and are preparing to open up the Ingram mine, which at one time had a reputation equal to some of the bonanza mines on the "Hill," but never was a very heavy producer.

But off to the south, mining properties are coming up. Sophie Housinger has a lease and hold on the Grey Eagle mine, of national reputation, and is taking out ore equal to any that celebrated mine has ever produced, both in quality and quantity, and has two teams busy hauling ore to Lake Valley, twenty-five miles away.

Col. A. W. Harris, of the Illinois mine, one of the old-time producers, is again a familiar figure on our streets, and has some men at work on the mine.

The U. S. and Calumet-June mines, in the same group, are being worked by leasers, with more or less varying success as far as production of pay ore is concerned. But from the fact that they have been worked by the same parties for over a year would seem to indicate that they are paying, and are going out at irregular intervals from the mine.

On the Bonanza Hill quite a number of men are at work, all leaning on the Calumet, Savage, and possibly other mines. The Nargawies, which is owned by Chicago parties, has closed down for a short time.

It is rumored that E. V. B. How has secured a lease on the Lady Franklin group, which other parties have been trying to obtain, but have so far failed.

C. Housinger, an old timer here, returned from Arizona last week. He says good mining camps are scarce west of here. None are booming and few holding their own.

Judge C. W. Walker has had a force of men repairing the water works for the past two weeks, relaying and putting down a new line from a spring on the U. S. mine.

Charles Kent, who was formerly interested in valuable mining property here, has been mining in the U. S. of Columbia for some years, came in Tuesday evening. He is in very poor health and came here to recuperate. He is a nephew of Prof. H. W. Park, who he expected to find here, but who left a few weeks ago for White Oaks.

Mrs. C. A. Owens died on Cave creek, about twelve miles from Kingston, last Saturday about midnight. She was sick but a few minutes and was alone with two of her children, who fastened up the house, chained the dog to the door and went six miles to inform their father and the rest of the family. She was buried the next day, near where she died, there being no wagon road out.

Preparations are being made for the proper observance of Memorial day. The "16 to 16" brass band is busy practicing for the occasion and a choir is preparing vocal music.

Yours, believing that prospects are growing better every day for silver here, made of two years, 16 to 1.

For sale. A small dry flock, consisting of five ewes and stock, in Albuquerque, good location, low rent. Will be sold very cheap; rare chance to get into a good business with very little capital. Inquire of J. F. Luby, Albuquerque, N. M.

IRRIGATION CONGRESS.

Interest in the Congress Growing All Over the Country.

The following extracts are from correspondence received by J. E. Scott, chairman of the local committee of the Irrigation Congress, in regard to the next meeting of the National Irrigation Congress at Albuquerque, on September 16th, 17th, 18th and 19th. The following is from a letter of R. H. Moore, president Interstate Irrigation Association of Kansas.

Hon. J. E. Scott, Albuquerque, N. M.

Dear Sir: Your letter received and in answer will say we must have the largest and best national meeting ever held, and no mistake. I am with you to make it so. We have held several meetings as to size and interest. I would like to see every money interest and home-seeker turned to Albuquerque next fall. They can, after attending the congress, be satisfied all along the arid country for investments and self-interest. Every kind of trade, commercial, industrial, business centers, factories, mines and wool shops that will send out good, thrifty settlers should be encouraged. The railroads in the months of September should be kept hot running excursions at greatly reduced rates. You should make this an occasion to advertise and eventually settle your country. The result of this Irrigation Congress should be of lasting benefit to your section of the country.

The following is from Fred E. Allen, secretary of the National Irrigation Congress, Los Angeles.

In this session we will ask the Secretary of State to commission to visit the governments of Mexico and Canada to send delegates to Albuquerque and I look for a large attendance from Mexico especially. I think I have already advised you of the fact that I have suggested to the national committee that at Albuquerque we make a study of the irrigation situation involved in the water of the Rio Grande a special feature, and attempt then to set in motion the machinery which will result in amicably determining the rights of the two nations in that river and its tributaries. This will result in making the meeting at Albuquerque one of international importance.

The following is from H. V. Hunkley, consulting engineer for the board of irrigation, state of Kansas.

I send you Hutchinson and Wichita proceedings, from which you may be able to get some idea of what sort of stuff there is in this vicinity. The great point I wish to have you drawing card. At Wichita we had Fowler, at Hutchinson we had Cameron. I look for magnificent results from your congress.

The following is from Wm. E. Smythe, chairman of the National Irrigation Congress from Boston.

Your letter of March 3rd relating to the plans for the National Irrigation Congress is forwarded to me here. I suppose nobody in the United States has the success of the matter more at heart than I. I propose to issue the official call much more early than usual, and call a conference of the leading men at Denver in May for the purpose of perfecting the program and making arrangements to obtain the largest possible attendance. I have been in correspondence for some time with members of the national committee to this end. Am very glad to note the liberal appropriation made by your legislature. It has always been my custom to issue a special edition of the Irrigation Age previous to the congress, and fully advertise the event and the state or territory in which it is to be held. We did this in Utah in 1922, for California in 1923, and for Colorado in 1924, and we hope to be able to do this for New Mexico this year.

The following is from Thomas L. Smith, secretary of local committee Irrigation Congress, Denver, 1934.

A liberal use of the newspapers through regular bulletins seems to me the best way to advertise your Irrigation Congress. The great interest that is being taken in matters of irrigation throughout the western country seems to me to assure a large attendance at Albuquerque.

The following is from D. A. Mizner, member of the national committee, Mitchell, S. Dak.

I expect to attend the congress to be held at your city September 16th next and bring square with me, therefore I wish to inquire about your hotel accommodations and prices at that time as we had while in your city. The low rate of transportation to your city will determine the attendance from this section of country of a great many people.

The foregoing is a sample of what is being received by the local committee every day. It is safe to say that no Irrigation Congress in the past has awakened such universal interest as this one is to be held here in September. This is the time for New Mexico to advertise her irrigable lands and bring her agricultural resources to the attention of the whole country. Every community in New Mexico and Arizona should organize themselves into boards of trade, commercial clubs and irrigation societies and send delegates to this convention. It is the opportunity of a life time and the results should be of lasting benefit to the two territories.

Gold Medal Cocktails.

Good in the morning, good in the evening, good before bedtime, good when you go fishing, good to have at a picnic in fact, good at all times. The Gold Medal Cocktails, consisting of Whisky Cocktail, Brandy Cocktail, Gin Cocktail, Manhattan Cocktail, Martini Cocktail, Vermouth Cocktail. These cocktails are superior to those made in any saloon. O. Bichel & Co., successors to F. Frank & Co.

Member Sanitary Board.

Gov. Thornton has appointed Fred J. Otero, of this city, a member of the cattle sanitary board, vice M. S. Otero, resigned. The board met at Las Vegas Wednesday, there being present Messrs. Jack, Mitch-

ell, Chapin and LaRoe; also Inspector Townner and Solicitor General J. P. Vintory. Only routine business was given attention, but several matters of vital importance to the cattle industry were talked over with the solicitor general and will be acted upon at a meeting of the board to be held on May 30.

Land Court.

In the United States land court at Santa Fe yesterday two opinions were handed down, one approving the survey in the San Marcos grant, Lehman Spiegelberg claimant, and Francis Downe, attorney.

The other, in the De Vargas case, was upon the application by petitioners to make a part of the record in this case before the supreme court the approved survey in the Lorenz Marquez grant. The application was denied. Justice Sims, for the court, also states in his opinion in this case that a decree of judgment of the court takes effect as of the date the decree is rendered and not when the decree is entered.

When on the High Seas.

On the rail, on a steamboat, aboard a fishing smack, or yachting on the coast, the fisher's stomach is often found a reliable means of averting and relieving ailments to which travelers, mariners and migrants are peculiarly subject. Sea sickness, ship sickness, vomit, or sea-sickness, is a common ailment, and all about it is a dangerous disease, should not be neglected to avoid themselves of the safeguard of well ascertained and long-tried merit.

Constipation, indigestion, intestinal fever, nervousness, headache, and all ailments of the stomach and bowels are among the ailments which it eradicates, and it may be resorted to not only with confidence in the remedial efficacy, but also in its perfect freedom from every objectionable ingredient, except the most delicate and most salutary sources. It cures the effects of unwholesome food and water.

SPRING RACES!

A Disagreeable Wind Storm Prevents Good Attendance.

Black Regent, Lizzie S. and Joe Baile Were the Winners.

A Rattling Good Programme Being Carried out to-day.

OTHER LOCAL NOTES.

From Friday's Daily.

The first day of the spring races of the gentlemen's driving association was not, to the regret of this citizen, a great success in attendance, owing to a cold wind storm, although the races were all that could be desired.

The following gentlemen were decided upon to occupy seats in the judge's stand: H. F. Karkick and Jack Sproule, of Pueblo, and Chas. F. Hunt, of this city, judge; Frank M. Jones, of Santa Fe, and Mr. Karkick, timekeepers. Mr. Sproule started the trotters, and Mr. Hunt exercised his voice in starting the runners. A. T. Morris, of the Rio Puerco valley, of Santa Fe, acted as clerk of the course.

After these necessary preliminaries had been satisfactorily settled, Starter Sproule sprang the first event: Trotting race, 250 class. King Pin, owned and driven by J. C. Wallace, and Black Regent, owned by Mr. Hamlin and driven by Ed. Geers, were the only entries, and the three heats were beautifully trotted, but Black Regent was entirely too much for his opponent and took the heat and race in the following manner:

Black Regent, driven by Ed. Geers, 1 1 1
King Pin, driven by J. C. Wallace, 2 2 2
Time: 2:45, 2:46, 2:47.

The next trot was the 234 class, bringing out Lizzie S. who made the track record last year, and Roy Blue, one of Hamlin's famous string of thoroughbreds. Andrew Smith, "El Alamo," and Frank Sturges, "May Queen," were down on the course cards, but were withdrawn. Lizzie S. was driven by her owner, Frank Sturges, and it was the first time he was ever on the track as driver in a race. He naturally felt elated over the fact that he won three straight heats and the race with his mare, against Roy Blue, who was handled by that famous driver, Ed. Geers. The result of the trot is given in the following summary:

Lizzie S., driven by Frank Sturges, 1 1 1
Roy Blue, driven by Ed. Geers, 2 2 2
Time: 2:38, 2:39, 2:40.

The last event was a running race, one-half mile heats, and the following well-known horse sprinters were entered and answered to the tap of the bell from Starter Hunt: Roger Q. Joe Baile, Old Bill and Jim Baker. After several false starts, one in which Jim Baker and Old Bill came nearly running the whole distance, the horses were sent away almost back and neck, and the pace was a hot one. The run up the home stretch was grand, and Archie Waldie, on Joe Baile, made a magnificent grand finish, after his horse had hugged the outside rail for the whole half mile; Old Bill, who was the favorite in the pool selling, second; Jim Baker, third; Roger Q. in the rear. Time, 1:30 seconds.

The second heat was a repetition of the first, except that Jim Baker passed Old Bill, and pushed up the homestretch with a gallant attempt to overtake the leader, Joe Baile. Time, 54 seconds. Roger Q. was scratched for this heat.

The summary is as follows:
Joe Baile, ridden by Waldie and owned by W. J. Cunningham, 1 1 1
Old Bill, ridden by Turner and owned by J. H. Cunningham, 2 2 2
Jim Baker, ridden by James Baker and owned by James Baker, 3 3 3
Time: 2:38, 2:39, 2:40.

The last event was a running race, one-half mile heats, and the following well-known horse sprinters were entered and answered to the tap of the bell from Starter Hunt: Roger Q. Joe Baile, Old Bill and Jim Baker. After several false starts, one in which Jim Baker and Old Bill came nearly running the whole distance, the horses were sent away almost back and neck, and the pace was a hot one. time. Mr. Geers states that Hal Pointer has won more races and more money for his owner than any other horse on the face of the globe.

From Monday's Daily.

The last day of the spring races of the gentlemen's driving association will not go down in history as a successful one in attendance or as a fine day for any kind of racing; although, it had been published and republished that the most costly string of thoroughbred trotters and pacers in the world were stabled at the course and Fantasy and Hal Pointer, two of the greatest, would be exhibited; also the famous and wonderful canter, Ned, would give an exhibition of his trotting qualities.

The day was bright and beautiful, and the attendance was indeed good, a majority of those occupying seats on the grand stand being ladies, who were present in their loveliest and prettiest spring dresses.

Again, the announcement that Robert J., the famous and fastest pacer in the world, would go on exhibition mile, proved one of the great attractions and had a tendency to otherwise increase the attendance.

The first event was a half mile bicycle race. Four had entered, but Frank Lee and Tom Scott only showed up at the wire. The race was a pretty one, the "Ward McAllister" winning by several feet, although Tommy pressed his opponent closely the entire distance.

The special race for New Mexico and Arizona, three year olds brought to the wire "Willard P." owned by Joe Johnson, "Albuquerque," by Chas. F. Hunt, "St. Kimo," by Joe Barnett; "Spanish Kate," by Olinsted & Dixon.

It was laughable to witness "Albuquerque" and "Willard P." trot, but it was interesting and close to see how evenly matched were "St. Kimo" and "Spanish Kate." The result, without going into details, is told in the following summary:

Spanish Kate, owned by Olinsted & Dixon, 1 1 1
Willard P., owned by Joe Johnson, 2 2 2
Time: 2:40, 2:41, 2:42.

The next event was the free for all pace, bringing out "Moonstone," owned by Mr. Hamlin and driven by Ed. Geers, and "Lucky John," owned by R. C. Calhoun and driven by Alex. Carson. The latter horse broke badly in the first two heats, "Moonstone" pacing over the course without a break and in grand style. Mr. Geers sent word to the judges that if the distance flag be waived in the third heat, he would send "Moonstone" for the last heat in fast time. The judges agreed to the request, and the third heat was paced as follows: The quarter in 35 seconds, half in 1:09, three-quarters in 1:45, and mile in 2:19.

The summary was as follows:
Moonstone, driven by Ed. Geers, 1 1 1
Lucky John, driven by Alex. Carson, 2 2 2
Time: 2:40, 2:41, 2:42.

The next event was the 234 trotting, bringing out Ben Bolt and the Albuquerque favorite, May Queen. The three heats were taken by Ben Bolt, the beautiful May Queen breaking at critical stages in the trot. She had many supporters, as she always has, and a great deal of money changed hands. The result by summary is as follows:

Ben Bolt, owned by J. C. Wallace, 1 1 1
May Queen, owned by Frank Sturges, 2 2 2
Time: 2:40, 2:41, 2:42.

The following event was the crowning feature of the day, and the grandest race of trotting mile, by the fastest and most costly horse, Robert J. As this magnificent specimen of equine flesh was driven past the grand stand, the reins being in the hands of Ed. Geers, the crowd gave forth hearty applause, Mr. Geers tipping his hat in recognition. The great pacer was given a little warning up, and at the nod from Mr. Geers, Starter Sproule said "Go." Roger Q. was the running mate. The first curve and down to the quarter was reached in 35 seconds; coming up the stretch the noble animal passed the half mile in 1:07; the three-quarter pole was reached in 1:40. Timekeepers Karkick, Jones and Trimble then remarked 2:15 will be beaten and it was, the official time being 2:14. This is by eighteen seconds the fastest time ever trotted or paced on any track in the southwest, and Mr. Geers states that it is a rattling good time on a half mile track when the horse is as sharp as on the Albuquerque track.

The running race, three fourths mile dash, was won by Venwood, Fanny Fair, play, second; Nutmeg, third.

J. Edward Priest is the marshal, and his force, especially M. Ryan, are keeping the most respectful order.

W. J. Dixon is selling gate admission tickets, and John Jacoby is officiating as taker.

R. E. Shannon is in the quarter stretch and grand stand ticket box, and Dr. J. R. Sutherland takes the grand stand tickets.

The pool selling is looked after by Auctioneer Vondorf in his usual happy style. He is assisted by Capt. Ed. Newcomer, H. S. Knight and Ed. Coddington.

The judges, starters and timekeepers yesterday were the same as the day before.

"Let the races proceed," remarked Ed. Newcomer as one of Albuquerque's downer captains showed up yesterday.

The rumor that Secretary Crawford had made enough money out of the races to purchase Robert J. is strenuously denied by President Weaver of the association.

Among the distinguished visitors at the race course yesterday afternoon was the famous manipulator of the Rio Puerco valley, who was pleased with the events.

The trotting dog, "Ned," is being driven this afternoon by Master Willie Cudiff, and the little fellow is as proud as his dad, the captain.

Fantasy, the trotter, who has the three and four year old records to credit, will go against time this afternoon. Driver there expects to land her "queen of the turf" before the present season closes, and will drive her next year with the intention of beating two minutes, if possible.

Another feature this afternoon is the equally famous pacer Hal Pointer, who will give an exhibition mile pace against time.

The free for all trot will have Lizzie S. and Ben Bolt, Nightingale. El Alamo is in the pool, but will be withdrawn on account of lameness.

The 240 class trot will have as contestants Numbie Jim, King Pin, Rowena and Roy.

The five-eighths running will fill this track.

Hal Pointer will pace, and Fantasy will trot against time this afternoon. The trotting dog, Ned, will also endeavor to add to his record of 3:00 for the mile.

Hal Pointer will pace, and Fantasy will trot against time this afternoon. The trotting dog, Ned, will also endeavor to add to his record of 3:00 for the mile.

Hal Pointer will pace, and Fantasy will trot against time this afternoon. The trotting dog, Ned, will also endeavor to add to his record of 3:00 for the mile.

THE THIRD GAME.

The Albuquerque Browns Defeat Manager Lyon's "Free Coinage" Club.

A RATTLING GOOD GAME.

The "Free Coinage" base ball club arrived in the city on Saturday night from Los Cerillos, under the management of Mayor Chas. Lyon and his famous fighting dog, Fred. A committee of local players were at the depot and after extending to them the right hand of fellowship escorted the visitors to the hotels assigned them.

Yesterday morning they showed up in splendid form, after a good night's rest, and were shown over the city, being introduced at the quarters of the Athletic club, and while there Fred, the badger fighting dog, gave an amusing exhibition of punching the bag, and doing other freaks almost human in nature.

In the afternoon at 2 o'clock, the two clubs took one of Superintendent Trimble's open air street cars for the grounds. Up to this time the day was calm and beautiful, but just as soon as the boys showed up for preliminary practice work one of those disagreeable and distressing east winds, that knocks enthusiasm higher or lower, came up. However, Captain McDonald was instructed by the manager to start the "ball rolling," and Frank Johnson, being actually gagged upon an empire on balls and strikes, called out "Play ball."

A brief summary of the game is as follows:

FIRST INNING.

Cerrillos—Montoya hit foul fly to C. McDonald, who muffed, and later hit a grounder to Forbes and out at first; Jones hit grounder to Forbes and out at first; Griffith struck out.

Albuquerque—Forbes foul fly to catcher and out. He threw his bat in the diamond, and went to bat again, not knowing he was out and sent a foul to Griffith and out the second time. Raymer to first on safe hit and to second on error; R. McDonald grounder to Montoya and out at first.

SECOND INNING.

Cerrillos—Clausen to first on balls; Hale struck out; Graham hit to Raymer, reached first, but forced Clausen out at second; Zimmer struck out.

Albuquerque—Holland drove out a two-bagger, and scored on McCue's safe hit; Ortiz sent out a two-bagger, sending McCue to third, who went home on wild throw of Griffith; Herbert out on fly to Clemente; Quier struck out; C. McDonald's base hit scored Ortiz; Mac stole second and got to third on Hale's wild throw; Forbes reached first on base hit, scoring McDonald, but was thrown out at second by Hale.

THIRD INNING.

Cerrillos—Clemente out on fly to Forbes; Wilson got first on C. McDonald's error, and second on error of Forbes; Montoya's safe base hit sent him to third, and Wilson then went second on error of R. McDonald; Jones rapped out a base hit, scoring Montoya; Griffith struck out; Clausen got first on Raymer's muffed fly; Hale struck out, leaving Clausen on first and Jones on second.

Albuquerque—Raymer hit to Griffith and out at first; R. McDonald hit to Griffith and out at first; McCue to first on base hit and Ortiz struck out, leaving McDonald and McCue on base.

FOURTH INNING.

Cerrillos—Graham out on fly to Raymer; Zimmer out on foul fly to Catcher McDonald; Clemente hit to Forbes and out at first.

Albuquerque—Herbert sent out a two-bagger; Quier hit to Zimmer and out at first; C. McDonald out on fly to Clausen; Herbert scored, and Forbes out on fly to Clemente.

FIFTH INNING.

Cerrillos—Quier muffed Wilson's fly, but the base runner was caught at second on Catcher McDonald's throw; Montoya's fly to Ortiz and Jones' fly to McCue were both caught.

Albuquerque—Raymer, McDonald and Holland scored in rotation from heavy batting; McCue and Herbert both hit too short and out at first; Griffith struck out.

SIXTH INNING.

Cerrillos—Griffith struck out; Clausen to first on base hit; Hale's fly to Raymer and Graham's grounder to McCue, finishing the inning, leaving Clausen on second.

Albuquerque—C. McDonald out on fly to Griffith; Forbes out on fly to Griffith; Raymer to first on ball; R. McDonald hit down to short, and reached first on Zimmer's wild throw; Holland hit to Montoya and out at first, leaving Raymer on third and Roy McDonald on first base.

SEVENTH INNING.

Cerrillos—Zimmer drove a corking two-bagger, and went to third on Raymer's wild throw, but was caught at home plate; McCue assisting Catcher McDonald in the put out on base hit; Montoya hit to Herbert and out at first, leaving Wilson on third.

Albuquerque—McCue got first on first wild throw, went on to second, but was called out for not touching first base; Ortiz struck out, and Herbert out on fly to Zimmer.

EIGHTH INNING.

Cerrillos—Herbert muffed Jones' high fly, but was thrown out by Catcher McDonald in trying to reach second; Griffith struck out; Clausen to first on base hit and scored on Hale's two-bagger; Graham struck out, leaving Hale on second.

Albuquerque—Quier got first on dead ball; C. McDonald hit on base hit, sending Quier to third, and he reached home on a muffed later, McDonald going round the bases to third; Forbes out on foul fly to Griffith; Raymer out at first on ball; Montoya; Roy McDonald's base hit sent Brother Charley home; Holland reached

base.

NINTH INNING.

Cerrillos—Zimmer drove a corking two-bagger, and went to third on Raymer's wild throw, but was caught at home plate; McCue assisting Catcher McDonald in the put out on base hit; Montoya hit to Herbert and out at first, leaving Wilson on third.

Albuquerque—McCue got first on first wild throw, went on to second, but was called out for not touching first base; Ortiz struck out, and Herbert out on fly to Zimmer.

EIGHTH INNING.

Cerrillos—Herbert muffed Jones' high fly, but was thrown out by Catcher McDonald in trying to reach second; Griffith struck out; Clausen to first on base hit and scored on Hale's two-bagger; Graham struck out, leaving Hale on second.

Albuquerque—Quier got first on dead ball; C. McDonald hit on base hit, sending Quier to third, and he reached home on a muffed later, McDonald going round the bases to third; Forbes out on foul fly to Griffith; Raymer out at first on ball; Montoya; Roy McDonald's base hit sent Brother Charley home; Holland reached

base.

NINTH INNING.

Cerrillos—Zimmer drove a corking two-bagger, and went to third on Raymer's wild throw, but was caught at home plate; McCue assisting Catcher McDonald in the put out on base hit; Montoya hit to Herbert and out at first, leaving Wilson on third.

Albuquerque—McCue got first on first wild throw, went on to second, but was called out for not touching first base; Ortiz struck out, and Herbert out on fly to Zimmer.

first on a muffed fly; McCue's long drive to deep center scored R. McDonald and Holland, and he would have scored himself had he not been called out for not touching second base.

SIXTH INNING.

Cerrillos—Zimmer got first on base hit; Clemente hit to Raymer, who put Zimmer out to Forbes, and the latter doubled up Clemente at first; Wilson got first on balls and to second on a passed ball; Montoya hit to Herbert and out at first, leaving Wilson on second base and ending the inning.

The score in tabulated form was as follows:

Albuquerque: 1 2 3 4 5 6 7 8 9 10 11 12 Total 12 20

Cerrillos: 1 2 3 4 5 6 7 8 9 10 11 12 Total 12 20

Weekly Citizen

ALBUQUERQUE, — MAY 25, 1925

From Thursday's Daily.
J. F. Sulzer, of "The Fair," is on the sick list.

After a brief visit to relatives and friends at Socorro, Mrs. F. Frank returned home last night.

The heaviest rain for the past few years occurred south and north of the city yesterday and last night.

There is a big hole in the Harwin bridge across the Rio Grande, and W. H. McGar says it is dangerous.

God, Stach, the wealthy Santa Fe merchant, is in the city today visiting his home in Los Angeles and Santa Fe.

Percy Hawley was elected the other night treasurer of the Albuquerque Browns baseball club, vice M. McGar, resigned.

James J. Allie, the sheep clipper, is here to remain for a couple of months. He reports the sheep industry much improved in Texas.

Receiver Schofield, of the Albuquerque National bank, would like to know why depositors don't call and get their dividend checks. The receiver and Clerk Newhall would like to see the depositors have their money.

Miss Maud M. Steadman, a pretty New York lady, who was out in California on a visit to relatives and friends, is returning home and stopped over here for a day, arriving from the west on No. 4 passenger train this morning.

Loddy, the well-known teamster, between this city and Denver last spring, drove down to the city yesterday afternoon with a wagon load of northern pine.

He states that the latest to arrive at the springs in George Bond and family of Kenosha.

The Citizens are under obligations to Conductor Sam K. White, for copies of the Atlanta, Ga., Journal, containing the proceedings of the Order of Railway Conductors' convention, which held forth there the past week. The New Mexico contingent are undoubtedly having a splendid time.

The G. A. R. and W. R. C. of this city are preparing for an appropriate observance of Memorial day. The service will be held in the Lead Avenue Methodist church next Sunday at 11 a. m., and the sermon will be preached by Rev. Harwood. Further announcements will be made at a later date.

The new postoffice building, in course of erection on south second street, has reached the second floor, and the contractors, Strong & Hoeselien, expect to have the building ready for occupancy in a few weeks. Ed Lloyd is attending to the brick laying portion of the contract, and he is rushing work.

Yesterday afternoon little Miss Lora Albright, daughter of Mr. and Mrs. G. F. Albright, entertained in honor of little Miss Wrenetta Miller, daughter of Secretary and Mrs. Loran Miller, who is visiting her from Santa Fe. The few invited guests, little people who know Miss Wrenetta, when her parents resided here, spent a very pleasant afternoon.

Kugene Tyler, the colored man who was assaulted and cruelly beat up by the proprietors of the Phoenix saloon, was arrested in Las Vegas yesterday, and Marshal Clay, late yesterday afternoon, informed Marshal Fornell of the arrest. Sheriff Hunt, who is at Las Vegas today, will bring the prisoner to the city this evening.

The secretary of the Cooperative Building and Loan association, Col. Calvin Whiting, who took his family back to Ballston, N. Y., to spend the summer with relatives and friends, returned to the city last night. He enjoyed a splendid hot bath, but was pleased to get back for the reason that he ran up against a snow drift back in Chicago.

Tax Citizens learned this afternoon, with considerable pleasure, that Chas. Zenger expects to amiable arrange his financial troubles with his creditors, and again assume control of the handsome Zenger's Cafe. Mr. Zenger knows how to carry on such an establishment, and this paper believes he can make it win, provided his creditors give him more time while business are close.

Hon. John M. Krvin, special agent United States department of labor, has arrived in the city from Washington, D. C. He called at Tax Citizens office and was shown the files of this paper, issued during the big strike of last year and the year before, when we had occasion to say some mighty strong words about the present administration.

H. W. Kelly, of the big grocery firm of Gross, Blackwell & Co., of the city, Las Vegas and St. Louis, arrived in the territorial metropolis last night from the north. He reports business improving, in all branches, up north, and that Las Vegas is reaping her share of the trade. He states that three days' steady rain made everybody jubilant and happy in the vicinity of Las Vegas.

Hon. Clark K. Carr, brother of Gen. Carr and uncle of Clark M. Carr, paid a pleasant visit to Tax Citizens office yesterday afternoon. The gentleman is a well-known republican politician of Champaign, Ill., and during the administration of President Harrison represented the United States as minister to Denmark. This morning, accompanied by his nephew, Mr. Carr left for Gallup to look after the water possibilities of that town.

G. W. Hickox, the head of the big jewelry firm of G. W. Hickox & Fox, with well stocked and beautiful stores in this city, Santa Fe and El Paso, came down from the territorial capital this morning, and will remain in charge of the local house during the absence of his partner, Mr. Fox, who starts this evening on a tour over the Atlantic & Pacific. Mr. Hickox favored Tax Citizens with a brief talk, in which the gentleman stated that trade in his line of business is continually improving and he has no fear of the future.

BLAND BUZZINGS.

The Mining Room Settling Down to a Solid Basis.

THE COURT DISTRICT.

Blair, N. M., May 20.—While it may not be said that this camp is having a boom, things seem to be settling down to a steady state, and the steady output of minerals is being maintained.

And right here I want to correct a statement made by a correspondent in one of your last week's issues, to wit: that there was plenty of work here for non-miners. Well, while this may prove to be the case later on, it is not by any means true at present, and while the steady state is being maintained, it is not likely that there will be much work for non-miners.

One of the most important propositions that has ever appeared in camp, was made last week by a gentleman representing eastern capital, who offers to fund himself to build a mill on the Rio Grande river for the treatment of oxidized ores, and further to transport said ores from the mines and treat them for the sum of \$5 per ton, provided the mine owners of the district would guarantee him payment of one per cent for treatment. Whether this offer will be accepted remains to be seen. It would mean much for the camp, among other things the probable construction of an electric or tram road for the hauling of ore and freight.

It is also rumored that a smaller will be put on the river at some point connected with the mine of Blair.

The Blair mill, however, is rapidly taking form, and it will not be long before the mine of the camp will be heard of in the city and down the canon.

The contract has been let for a stone building to be located in the neighborhood of the mill for the Blair mine.

Deaths have again visited the camp the past week. Morris Chappell, a miner, was fatally injured by the caving of a large rock in an assessment which he was working. The deceased was generally esteemed by all who knew him, and was an old timer, having driven stage between Santa Fe and Gallup before the civil war.

Two shipments of the smelters from the mines on the Lead Star have recently been made. While the results are not given out for publication, it is understood that they are very satisfactory.

The ironing shaft is down to feet and before long it is probable that they will begin shipments.

The best contract for the Washington has been completed, and some construction is being done across the vein. The result of the trial shipment made recently at Albuquerque has not yet been made known in camp.

Among other work that has been going on is the contract for 50 feet of work on the Corona lode, one of the extensions of the Washington on the south, and pronounced by those who are in a position to know to be a most valuable property.

A 100-foot tunnel has recently been completed on the No. 2 mine, also a very fine property, held under bond and lease by Messrs. Bailey & Carpenter, of A. J. Blair, and situated about one mile south of Blair. Among other things, claims in that neighborhood which have not been spoken of much lately are the Union and Kellen.

The transfer of these claims has some work done on it and shipments have been made, but not enough development has been made to determine the real value of the claim. This claim will undoubtedly be a paying mine as soon as we have mining facilities in Pima county. It is on a good wagon road and within easy distance of the mill. The files are undeveloped so far, but is claimed to be fully as good as the Union.

Coming nearer to Blair we find the G. W. Hope mine. This mine goes back to the days of the late Blair, and is one of the most promising properties in the camp. The owners, Messrs. J. C. Spitzer and S. W. Young, have made very successful shipments of ore which netted them a handsome profit. The work so far on this claim has been done on the upper tunnel, which shows improvement in value as depth is gained on the vein. This week the owners intend to commence work on a new tunnel at the base of the mountain, which will not only give them a great depth on the vein but will also allow them to handle their ore by wagon from the dump. Adjoining this claim is the Hopewell, also a good property, not being worked.

Other promising claims in the immediate vicinity of Blair are the Blackfoot and the Iron Queen. The former is entirely undeveloped so far, but the latter is being worked at present vigorously and showing every indication of making a paying mine.

We understand that work will be resumed before long on the Altamira in Chama county, one of the great properties of the camp, although there is very little work done there as yet.

A number of small veins have been accumulated in the past month of which nothing is said. The people who are getting in on the ground there now will have to reason to regret it later on.

A protest has recently gone to Washington against the manner in which the mail is carried between Blair and Gallup. We hope that the authorities will decide to allow some responsible party to do the hauling of mail matter in the future.

Social gatherings have become somewhat stagnant lately. Blair hopes to have a number of additions to its 400 during the summer, which will tend to make social life more active.

Park Station.

The ladies of the city are interesting themselves in the improvement of the park on west Copper avenue, and the following official notice was left at Tax Citizens office this morning for publication.

"All ladies interested in the improvement of the park are requested to meet at the home of John A. Lee, No. 108 Copper avenue, Saturday afternoon, at 3 o'clock."

THE RAILROADS.

What is being done on all the Western Lines.

THE RAILROADS.

English investors in the mines of Africa are putting their earnings on railway securities of America.

It is said that Chicago bankers will take all of the bonds of the Chicago & St. Louis Electric railway.

The Great Northern railroad has organized a series of personally conducted tours of the Pacific northwest and Alaska.

It is confidently expected that the Santa Fe system will be turned over to the bondholders on or before August 1st next.

A fine train load of corn fed California four and five year old cattle passed through the city this morning for Denver market.

The Chif government believes in state ownership of railroads and is putting its belief into effect by buying out private corporations.

Railroad companies proposing to take advantage of the renewed exemption laws in Arizona will need to get a move on themselves.

The federal court has ordered the receivers of the Santa Fe to pay no attention to suits entered against employees of that company.

There is more railroad building being done in Arizona than in all the rest of the west.

The people of Gallup are agitating the question of building the Denning, Gallup & Durango railroad, and have strong hopes of its success.

The A. T. & S. F. agent at Trinidad, W. M. Smith, was thrown from a horse, sustaining injuries about the head that rendered him insensible.

The Southern Pacific will soon be running its sugar beet cars for the coming season, and the company expects to handle an enormous amount of beets this year.

The Southern Standard Telegraph company, with a capital stock of \$100,000, to operate in Tennessee, Kentucky and the Carolinas, has been organized.

James W. Jackson, an engineer on the New Mexico division, will wed Miss Daisy Galloway, daughter of a conductor up at Raton on Wednesday evening, May 27.

Agent Silex, of Ash Fork, is kept very busy. He has attended to the shipping of 500 cars of stock in the past two weeks and expects as much or more during the next two weeks.

The Union Central now has five fast freight trains daily into Chicago, loaded only with fruits, vegetables and the merchandise of strawberries alone, it is delivering from forty to fifty car loads daily.

John Finley and Miss Anita Daniels were married at the Nagales house, Nogales, by Justice D. C. Cummings. Mr. Finley is an engineer on the New Mexico & Arizona, running between Torrey and Guaymas.

At Ogden, Utah, the jury in the case of Robert Morris & against the Union Pacific railroad, gave the plaintiff \$40,000 damages. The plaintiff lost both legs while acting as brakeman for the company. Appeal will be taken.

During the stock rush, eleven engines are being used on the Paton mountain, and even with this number it is impossible to move all cars. It is frequently necessary to use four and five road engines to help out.

The fastest train that has been made in the west on any railway was made on the Santa Fe on Saturday afternoon from Denver to Colorado Springs. The distance is seventy-three miles and was made in seventy-four minutes.

E. R. Sherman, in charge of the depot office of the Wells Fargo Express company, who is on the sick list, is reported much better today. C. E. King, retail agent, is here from Santa Fe filling the position during Mr. Sherman's illness.

An Iowa, Mich., man, after a half dozen years of experimenting, has perfected the model of a postal car that will attain a speed of 200 miles an hour, and is designed by the inventor to carry mail between the principal cities of the country. The car is to be thirty-three feet long, and to run on a steel elevated track, eighteen feet above the ground. It is estimated the road will cost \$10,000 a mile. The car is provided with an apparatus for picking up and throwing off mail automatically.

As the game at Fort Wingate, the Braves will be commencing the club of Las Vegas, Santa Fe, Gallup, Socorro, San Marcos and El Paso, challenge sent to them, having been accepted, but no date has been arranged.

Tomorrow evening, at the old town hall, "Kok" Dwyer and "The Missouri Spirit" will meet in a bout with gloves, for a wager of \$100 a side. Both men are in the peak of condition and the contest will be a lively one.

A meeting of the trustees of the Albuquerque Academy, per notice from J. F. Luby, president, will be held at the Democratic office tomorrow evening at 8 o'clock.

At the Presbyterian church and on a cream festival, to be held tomorrow evening in the lobby of the Crowne Hotel, a check, five berries and cream, and tea will be served.

Capt. Saltmarsh, of Co. G, desires all members to meet this evening for drill in full uniform. The local soldiers boys are making big preparations for their excursion to Fort Wingate on Decoration day.

A cup of Parks' Tea at night moves the bowels in the morning without pain or discomfort. It is a great health giver and blood purifier. Sold by Dr. H. Burgess & Son.

NEW MEXICO.

Brief Paragraphs Culled from the Territorial Press.

NEW MEXICO.

There are now fifty boys in Silver City.

Crops are doing nicely in Rio Arriba county.

Front crops in Dona Ana county are excellent.

White Oaks will observe Memorial day this year as usual.

Mrs. Sophia Gutz, formerly of Denning, started for Europe.

The vines of the big green vineyard at Bldy are heavily loaded with grapes.

The probabilities are there will be no frost in Rio Arriba county until next fall.

Judge Smith hopes to clear the Coffey criminal docket at the present special term.

Col. Kent, the commanding officer, arrived at Fort Huachuca from Fort Bliss last week.

A. P. Morris, a negro, has been confined in the Territorial House for eighteen months without a trial.

Thomas G. H. of Santa Fe, has gone to Santa Monica, Cal., to look after his mother's property there.

The Vay-smeller, half a mile below Silver City, was blown in and started with out a single deflagrant of any sort.

P. J. Burke, who has been teaching school at Georgetown for several months, has closed school on account of lack of funds.

George W. Curry has not yet fully determined as to whether or not he will reside in Socorro during his term as clerk of the district court.

Joseph A. Reynolds, of McKee's hardware store, Santa Fe, received from Washington letters patent for a folding envelope, arranged as to make two out of one.

The body of W. J. Vickery, a ranchman on Bear creek, Grant county, was found and taken to Pinos Altos for burial. Two bullets were found in his heart. His murderers are unknown.

The Hudson Hot Springs Sanitarium company, constructing the summer resort at Hudson's springs, Grant county, have cleaned out the springs to the depth of sixty feet, and cemented from top to bottom.

F. C. Creamer, of San Marcel, is laid up at St. Vincent's hospital, Santa Fe. He lost a leg at the knee a few years ago, and was wearing a cork leg while looking cattle at San Marcel the other day. When a gate fell on him and broke the same leg in two places.

A True Hero.

Is the individual who smiles with apparent cheerfulness during an attack of rheumatism. If such there be, we never knew him nor her. An agonized grin is the nearest approach to cheerfulness in aspect we ever beheld under such circumstances. But when Hostetter's Stomach Bitters relieved him, so did certainly the earlier attack of this formidable disease, the quondam sufferer has good reason not to smile, but to give vent to hearty guffaws interspersed with frequent chuckles. To the removal of dyspepsia, indigestion and kidney complaints, constipation and disorder of the liver, the Bitters is especially adapted. It renews fighting strength and appetite, and counteracts the influence of age. When debilitating maladies are succeeded by largely convalescent, with a danger of relapse, it accelerates a gain in vigor and, and tends to re-establish health on a lasting basis. Give it a suitable trial.

First increasing use of bicycles is making deep inroads in the livery business, and liverymen are deeply another matter. If such there be, we never knew him nor her. An agonized grin is the nearest approach to cheerfulness in aspect we ever beheld under such circumstances.
