## President Taft Vetoes the Flood Resolution.

The Flood resolution, paving the way for the admission of Arizona and New Mexico, was vetoed by President Taft, Tuesday, the 15th. The president sent a long message to congress assigning his reasons for vetoing the resolution. The message deals wholly with the recall provision in the Arizona constitution. The following paragraphs, selected from the veto message, gave a fair view of the president's objections to the recall:

"If I sign this joint resolution, I do not see how I can escape responsibility for the judiciary recall of the Arizona constitution. The joint resolution admits Arizona with the judicial recall, but requires the submission of the question of its wisdom to the voters. In other words, the resolution approves the admission of Arizona with the judiciary recall, unless the voters themselves repudiate it.

"This provision of the Arizona constitution, in its application to county and state judges, seems to me pernicious in its effect, so destructive of independence in the judiciary, so likely to subject the rights of the individual to the possible tyranny of a popular majority, and therefore to be so injurious to the cause of free government, that I must disapprove a constitution containing it.

"Of course a mere difference of opinion as to details in a state constitution ought not to lead me to set up my opinion against that of the people of the territory. It is to be their government, and while the power of congress to withhold or grant statehood is absolute, the people about to constitute a state should generally know better the kind of government and constitution suited to their needs than congress or the executive.

"But when such a constitution contains something so destructive to government as the recall it should be disapproved.

"The wisdom of ages has taught that no government can exist except in accordance with the laws and unless the people under it either obey the laws voluntarily or are made to obey them. In a popular government the laws are made by the people—not by all the people—but by those supposed and declared to be competent for the purpose, as males over 21 years of age, and not by all of these—but by a majority of them only.

"Now, as the government is for all the people, and is not solely for a majority of them, the majority, in exercising control either directly or through its agents, is

## To Pass New Resolution.

Washington, D. C., Aug. 17.—This afternoon it is declared: "It is all over but taking the vote tomorrow." Senator Smith returned this afternoon from the White House, where he showed the president a copy of the bill agreed upon by the senate and house, and the president said he would sign it. The recall is to be eliminated for the Arizona constitution, but the amendment feature is to be retained in the New Mexico constitution.

bound to exercise the power for the benefit of the minority as well as the majority. But all have recognized that the majority of people, unrestrained by law, when aroused and when without the sobering effect of deliberation and discussion, may do injustice to the minority or to the individual when the selfish interests of the majority prompts.

"Hence arises the necessity for a constitution by which the will of the majority shall be permitted to guide the course of the government only under control checks that experience has shown to be necessary to secure for the minority its share of the benefit to the whole people that a popular government is established to bestow.

"A popular government is not a government of a majority, by a majority, for a majority of the people. It is a government of the whole people, by a majority of the whole people, under such rules and checks as will secure a wise, just and beneficent government for all the people.

"Is it said you can always trust the people to do justice. If that means all the people, and they all agree, you can. But ordinarily they do not all agree, and the maxim is interpreted to mean that you can always trust a majority of the people. This is not invariably true; and every limitation imposed by the people upon the power of the majority in their constitution is an admission that it is not always true.

"By the recall in the Arizona constitution it is proposed to give to the majority power to remove arbitrarily and without delay any judge who may have the courage to render an unpopular decision.

"By the recall it is proposed to enable a minority of 25 per cent of the voters of the district or state, for no prescribed cause, after the judge has been office six months, to submit the question of his retention in office to the electorate. The petitioning minority must say what they can on the ballot against him in 200 words, and he must defend as best he can in the same space.

### RECREATIONS OF SCIENCE.

The appearance of a book of uproarious humor by Stephen Leacock, professor of logic in a Canadian university, calls attention once more to humor as a safety valve to a career devoted to the more serious things of life. It is a fact, not usually recognized but easily believed, that minds which are concerned with philosophy, mathematics, statistics, or other absorbing intellectual pursuits find their recreation in something quite the reverse of these topics, says the Chicago Tribune. The late Sir Campbell-Bannerman, the British premier, found solace in reading innumerable French romances of the most modern type. "Lewis Carroll" was a mathematician, deeply expert in the science, and it is related that when Queen Victoria became charmed with his "Alice" stories, she sent out for all his previous works. They brought her several books on calculus, logarithms, etc. A few years ago a nonsense book, How to Tell Wild Flowers From the Birds, delighted us. Its author proved to be a professor of some dull science at Johns Hopkins. And thus it goes. Extremes meet. An astronomer, when away from his eyepiece, throws himself with ardor into pingpong. A mathematician in private life holds the tiddle-de-winks championship. The law of compensation works, and nature provides a safety valve which prevents the boiler from blowing up.

The graduates of a high school in Washington were warned to keep away from the fashionable set if they wished to avoid degradation and lead upright Christian lives. But the eloquent orator might have tempered his fears for their future by the reflection that it takes something more than nondetermination to lead upright lives to get into the fashionable set of the capital—it takes money.

Following a dispute in a medical convention in Philadelphia on the removal of tonsils, and the sharp criticism of young surgeons for removing tonsils on slight pretexts, a resolution was adopted calling for an exhaustive report on the matter next year. But this will hardly tend to create overmuch confidence and pleasant feeling in people whose tonsillar troubles will occur this year.

Before leaving Chicago for Detroit, Rev. Joseph Anderson Vance declared that to be, with the possible exception of San Francisco, the wickedest city in the world. It might be suggested to the reverend gentleman that there are as many "wickedest cities" as there are cities with "the finest water supply in the world." It would take an expert to decide between them.

A Michigan man remembers when he was getting \$25 and Taft \$12 on the same paper. Now Taft is president and gets \$75,000. The Michigan man is an editor and gets an invitation to join the press association.

"The housefly," opines Doctor Wilson, has its good points. So has a cactus, but we advise our readers to pause and consider before swatting said cactus. We hope everybody sees the point.

The report that a New York taxi cab company is losing money leads one to suspect that certain persons are eligible to the Ananias club.

# WASHINGTON GOSSIP

## Good Faker in the Government Museum

WASHINGTON.—Fakes made while 'ou wait! The government ought to be ashamed of itself, but instead of that it retains a man especially to perpetrate them. It is no near-faking either, the government work is exacting and when the duplicate specimens are completed there is no telling which is the original and which the imitation. There are probably few men of similar calling in the world, and fewer still who are as clever in that line.

The National museum has dug up a son of Wizard Jack Hendley, who in his day was the premier imitation man of the United States, and they now keep young Will Hendley busy all the time making something look like something else. It seems to be a peculiar gift, and is valuable in a museum.

He works chiefly in plaster, making casts of anything and coloring them

so they look like the original, and he seems able to reproduce a counterfeit of anything from a raw oyster to a stone idol. There are a good many tricks in the trade that have been handed down from father to son, such as reproducing the bloom of a peach or scraping an apple to get the vegetable wax that will make the surface of a plaster apple look like the original fruit.

There are always new problems coming up in the curious art of making something out of something else. One of the features of the big ethnologic collection that is now being installed in the hall of the new museum building is a series of groups. These include the various families of man. There are Patagonians, Hawaiians, Eskimos, all sorts of Indians, a family of Igorrotes and altogether about 20 groups. Each of them is shown engaged in some characteristic tribal work. The Eskimos are loading a seal on a sledge.

If there is anything the museum cannot get in the original, from a rare trilobite to a Corinthian fresco, it can turn Hendley loose with the original, and he will make an imitation that would fool an expert.

## Senate No Longer a Rich Man's Club

N O longer is the United States senate the leading millionaires' club of America. The number of millionaires in the upper branch of congress has been decimated, and the time may not be far distant when the senate will become known as the poor man's club.

The death of Stephen B. Elkins of West Virginia carried \$15,000,000 out of the senate. The retirement of Nelson W. Aldrich of Rhode Island, carried \$10,000,000 away. Four million went with Eugene Hale of Maine, when he made way for Senator Johnson, elected by the Democratic legislature.

Chauncey M. Depew of New York, director in 32 different railroads, walked off with \$7,000,000. It was his own and he had a right to walk off with it, but the senate in the aggregate became just that much poorer.

Then there was John Kean of New Jersey, who while scarcely in the class of Elkins, was worth \$5,000,000. When he left, another five-million iron man

bit the dust, so far as the senate was concerned.

In the broad, sweet fields of private life wandered Nathan B. Scott of West Virginia, with his \$4,000,000. With him, along the rose-bordered byway, went James P. Tallaferro of Florida with \$3,000,000. Hughes of Colorado died, removing another \$2,000,000.

There was \$50,000,000 right at one clip. The men elected to replace these millionaires are virtually poor men, or at least, what the world considers poor in these days of big fortunes.

Watson of West Virginia, who replaced Elkins, is about the only millionaire in the batch of baby members. He is worth \$2,000,000.

## Uncle Sam May Lose Valuable Lands

J UST as the government is sitting in for the biggest legal game it ever played the discovery is made that it is bound to lose and the Southern Pacific railroad to win \$500,000,000 if the play goes on.

The stakes are a great area of California's richest oil lands. They were granted to the railroad with a clause in the grant expressly excepting all mineral lands save those containing coal and iron. Most of these lands were patented to the grantee more than six years ago.

The joker in the situation is a special statute of limitations, slipped through congress in an act of March 3, 1891, and perfected by another act of March 2, 1896.

The effects of these acts, as construed by the United States Supreme court, is absolutely to bar proceedings by the government to annul a patent of land to a land-grant railroad after six years from the issuance of the patent. Until these acts are repealed, the government has not a chance on earth to get back its lands.

Announcement has been made that within a few weeks the government will file suit as to these lands with Special Assistant Attorney General Townsend in charge. The oil men of California are thoroughly aroused and alarmed by the discovery of the joker.

They are advised by some of the ablest lawyers that the suits can result only in confirming the railroad's title and so they are appealing to Washington with all the force they can command to hold off the litigation until the "joker" act can be repealed. This they believe congress will not hesitate to do, once it knows the inwardness and gravity of the situation.

## Don't Persecute Your Bowels

Cut out cathartics and purgatives. They are brutal, harsh, unnecessary. Try **CARTER'S LITTLE LIVER PILLS**

Purely vegetable. Act gently on the liver, eliminate bile, and soothe the delicate membrane of the bowel. Cure Constipation, Biliousness, Sick Headache and Indigestion, as millions know. **SMALL PILL, SMALL DOSE, SMALL PRICE.**

SHE WAS WISE.

He—Ah, sweetheart, I love you more than all my wealth.  
She—Yes, but you only get ten a week.

To Make Fruit Jar Rubbers Last.

To have fruit jar rubbers last, keep them well covered in a jar full of flour until used, and as soon as removed from empty jars. One can then afford a good quality of rubbers, as kept thus they will safely last several seasons. When there is doubt of old rubbers, they may often be made to eke out one more season by using two of the rubbers to each jar and screwing down tight. Always stand newly filled jars upside down until cool, to test the tops and rubbers.—Designer.

## CARING FOR TUBERCULOSIS

Thirty-Nine State and 114 Local Sanatoria Provided, but These Are Only a Beginning.

In spite of the fact that state sanatoria and hospitals for tuberculosis have been established in 31 states, and 114 municipal or county hospitals in 26 states, vastly more public provision is needed to stamp out consumption, says the National Association for the Study and Prevention of Tuberculosis. Nearly every state east of the Mississippi river has provided a state sanatorium, and west of the Mississippi river, state sanatoria have been established in Minnesota, Iowa, Missouri, Arkansas, Texas, Kansas, Nebraska, North Dakota, South Dakota, Montana and Oregon. There are 38 sanatoria provided by these states. Massachusetts having four, Connecticut and Pennsylvania three and Texas two. Including special pavilions and almshouses, there are 114 municipal or county hospitals for the care of tuberculosis patients.

Apart from these institutions, however, and a few special pavilions at prisons, hospitals for the insane, and some other public institutions, a grand total of hardly 200, the institutional care of the consumptive is left to private philanthropy.

### Maternal Instinct.

Mrs. Rattle—I am sure that is my baby with the pink ribbon over there.

Mr. Cynic—How can you tell it so readily?

Mr. Rattle—I can recognize it by my pet poodle the nurse has with her.

### Extravagant.

Ada—Cholly Saphedde was in a brown study the other day, and I offered him a penny for his thoughts.

Edith—You spendthrift! You never did know the value of money!

### Modern Ethics.

Do not kick a man when he is down. Turn him over and feel in the other pocket.—Galveston News.

### WRONG SORT

Perhaps Plain Old Meat, Potatoes and Bread May Be Against You for a Time.

A change to the right kind of food can lift one from a sick bed. A lady in Welden, Ill., says:

"Last spring I became bed-fast with severe stomach troubles accompanied by sick headache. I got worse and worse until I became so low I could scarcely retain any food at all, although I tried about every kind.

"I had become completely discouraged, and given up all hope, and thought I was doomed to starve to death, until one day my husband, trying to find something I could retain, brought home some Grape-Nuts.

"To my surprise the food agreed with me, digested perfectly and without distress. I began to gain strength at once. My flesh (which had been flabby), grew firmer, my health improved in every way and every day, and in a very few weeks I gained 20 pounds in weight.

"I liked Grape-Nuts so well that for four months I ate no other food, and always felt as well satisfied after eating as if I had sat down to a fine banquet.

"I had no return of the miserable sick stomach nor of the headaches, that I used to have when I ate other food. I am now a well woman, doing all my own work again, and feel that life is worth living.

"Grape-Nuts food has been a God-send to my family; it surely saved my life; and my two little boys have thriven on it wonderfully." Name given by Postum Co., Battle Creek, Mich.

Read the little book, "The Road to Wellville," in pags. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## HERE IS HANDY FRUIT CORER

Extracts Center of Apple or Pear at One Stroke by Simple Device.

A simple and effective device for extracting stones and cores from fruit has been designed by a Virginia man and will probably become a popular kitchen utensil. At first glance it resembles the top of a shovel rolled out into a single sheet of metal which is rolled into a tube, tapering toward the bottom and with a pair of arms extending above, joined at their tops to a wooden handle.

The lower end of the tube has two sharp tips projecting opposite each other. To core an apple or pear the fruit is placed on the table, stem up, and the cutter thrust down through the center. It is then pulled out again, bringing with it the center of the fruit with the seeds and the hard substances that are so unpleasant to encounter in baked or stewed fruit. The same operation will remove stones from fruits that are not easily split in two, as are peaches, and cleaned in that way.

## CARROTS GOOD FOR SYSTEM

Healthful Vegetable Can Be Served in a Number of Most Delicate Dishes.

The humble carrot has an especially good effect on the system at this time, and despite its strong taste it may be made into the most delicate dishes. Winter carrots are slightly boiled in three different waters to remove this rankness, but the new spring sort is dainty enough to require one water only. Spring carrots, which begin to appear in March, are delicious when boiled plainly and served with maitre d'hotel—clarified butter sauce. A dust of finely chopped fresh parsley on top gives them a new piquancy to those who tire of the carrot taste. Carrots served with cream are first boiled in plain water, and then drained and warmed anew in the sauce that has been preparing. To make this sauce dilute a little of the boiled water with two-thirds cream and thicken slightly with cornstarch; season with black pepper and salt and add a tablespoonful of butter. Carrot fritters are made with the cold boiled vegetable mashed up and mixed with bread crumbs and egg; enough cream to make a thickish batter is used and the fritters are fried in boiling oil. Oyster plant and parsnips are also delicious when served in fritter form, the various ingredients used giving the vegetables a most delicate taste.

### Chocolate Walnut Cakes.

One and a half tablespoonfuls of flour, a quarter of a teaspoonful of baking powder, one tablespoonful of grated chocolate, one and a half tablespoonfuls of sugar, half an ounce of coarsely chopped walnut nut meats, one and a half tablespoonfuls of butter, one egg, half a teaspoonful of vanilla extract. Cream the butter and sugar together, then beat in the egg, lightly stir in the flour, baking powder, grated chocolate and vanilla extract. Put in well buttered small cake tins and sprinkle the chopped walnut meats on the top.

## LOCATED HIM RIGHT AWAY

Possibly Display of Bill of Gorgeous Denomination May Have Had Some Effect.

A southerner who was visiting St. Louis wandered into the dining room of the hotel and, seeing a negro servant who had all the importance of an army officer standing near the door, asked him who the "head nigger" was around there. The negro stretched himself to his full height and pompously replied that "there ain't no niggers in St. Louis, sah. We is all gem'men of color."

"Well," said the southerner, drawing a \$100 bill from his pocket and fingering it, "I expect to be at the hotel for some time and want to make sure that I will be taken care of."

"Oh, sah," said the negro, whose eyes were popping from his head, "did you want to know who the head 'nigger waiter' is? That's me."—Allentown Call.

## THE TRUTH ABOUT BLUING.

### Talk No. 7.

Avoid liquid bluing. As a real Simon Pure farce liquid blue is about the biggest yet. Don't pay good money for water.

Buy RED CROSS BAG BLUE, the blue that's all blue. A large package only 5 cents. Washes more clothes than any blue on earth. Makes laundry happy. ASK YOUR GROCER.

### The Modern Trend.

"How is the water in the bath, Fido?"

"Please, my lady, it turned the baby fairly blue."

"Then don't put Fido in for an hour or so."

### ASK FOR ALLEN'S FOOT-EASE

The Antiseptic powder to shake into your shoes. Relieves Corns, Bunions, Ingrowing Nails, Swollen and Sweating Feet, Blisters and Callous spots. Sold everywhere, 25c. Don't accept any substitute. Sample FREE. Address Allen S. Olmsted, Le Roy, N.Y.

The devil is proud of the man who is mean to his wife.

# SEVEN YEARS OF MISERY

All Relieved by Lydia E. Pinkham's Vegetable Compound.

Sikeston, Mo. — "For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl."

—Mrs. DEMA BETHUNE, Sikeston, Mo.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It is more widely and successfully used than any other remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means had failed. Why don't you try it?

## THE RECALL FATAL.

The president made his bluff good by vetoing the Flood statehood resolution, which resolution in a measure, recognized the recall in the Arizona constitution. And while denying statehood to Arizona because of the recall—the recall of the judiciary being the sticking point—New Mexico also suffered. There is talk of an attempt to put the resolution through both houses over the president's veto, but it is not believed this can be accomplished in the senate; and the only thing left to do at this time is to secure the passage of a new resolution through congress that will meet the approval of the president. To do this, however, will require quick action, if present plans are carried out, as congress will probably adjourn the 22d.

The president's veto message is delivered wholly against the recall; and even in that the only feature he couldn't endure was the recall of the judiciary. The president evidently believes the judiciary is composed of men of superior clay, but his arguments are unconvincing to the average man. There has been, as everyone knows, as much injustice by the courts, in the name of law, and far more irreparable, than has ever been done by governors. But the president thinks a popular clamor might influence the decision of a judge. That may be true; but even so, would it be any worse than for the judge to be swayed by some other powerful, but less creditable, influence, not so discernible?

The recall doesn't bother us particularly, one way or another; but occasions do arise where the people would get better results if it were in operation. For, in a government like ours, all officials are public servants, and this applies no less to judges than to other officials. A judge does not rule by divine right. He owes something to the people who created his office, put him in it and pay his salary. And if he fails to perform properly the services required of him he should be subject to the same laws that apply to governors, legislators, sheriffs and justices of the peace.

The recall may be indefensible; it may be foreign to our system of government; it may produce

evil results—we are not prepared to say. But there is one thing, however, that is clear to us, and that is that wrong is perpetrated upon the people by the attempt to place the judiciary upon a pedestal, and point to the ermine as unsoiled and unsoilable. "To err is human," and judges are human, even though some would have us believe they approach divinity.

## Dry Weather.

The magnificent rains that were falling a month ago filled every breast with hope. Grass was never finer and crop prospects never better. The rains, however, suddenly ceased, and all vegetation will be cut short. Grass has dried up, although it will afford excellent pasture for the winter. Farm products on non-irrigated land that were so promising some time ago, are withering with the heat and drought. Rain now would likely aid some late vegetation, but corn, beans, hay, etc., are irreparably ruined. The bumper crop, that all anticipated, has been cut in half, and in many instances the production will be even less than half.

## Jicarilla Happenings.

Summer settles on us good and warm. The thermometer average for the past week was 96 in the shade—something unusual in the mountains.

William Littel arrived a few days ago to look after business here, and his brother left the same day on a visit to his home in Colorado.

C. C. Hedges has put a small force to work on the Doctor mining claim, which promises to equal the very best in camp.

The outlook at the Goldstain is good, with indications of a larger yield and a better grade of ore.

Max Guebarra has assumed the duties of postmaster, and moves the business to his store today. It is understood a Miss St. John of Carrizozo will be in charge.

Some one cut the dam at the Collier tank a few days ago, and allowed the water to escape.

Sam Fambrough is about to embark in the sheep business, and is preparing to dig for his stock a short distance from his cattle ranch.

Joe Ross went to White Oaks Monday, from which point he is hauling coal to the Littel company's works in this camp.

A. H. Norton has uncovered a rich vein of ore in the Good Luck tunnel. The vein is gradually getting wider, and may prove to be of great value soon. There are fine deposits of quartz near the surface, which he has traced and prospected for years hoping to be led to the load proper.

# School Days!

**GET READY FOR SCHOOL!** Do not give the children the excuse or reason to miss an hour of the new term at school by not providing them with proper equipment. Get them ready for the opening day of school before it is here.

## BOYS TWO-PIECE SUITS

\$2.50 to 7.00

These suits have won so excellent a reputation in the past seasons that it is enough to say that the standard of style-fit and workmanship is maintained even better in some particulars. These suits await your prompt inspections.

\$2.50 to 7.00

## BOYS, SHIRTS, HATS

AND UNDERWEAR

Our stock of boys furnishings is complete and filled with all the new stuff from the best manufacturers in the country.

Such styles and patterns that are most popular this season are only shown, and priced very reasonable.

## BOYS, SWEATERS.

All the new colors, and in many different weaves, priced at. 50c to \$3.00.

## BUSTER BROWN IS HERE TOO!

Now isn't this an awful sight  
To see these monkeys quarrel and fight  
About a thing they cannot use  
For monkeys never do wear shoes.  
But boys and girls who go to school  
To get their lessons and mind the rule,  
For style and wear—they always choose  
BUSTER BROWN BLUE RIBBON SHOES.

COPYRIGHT 1904 BY THE BROWN SHOE CO.

He is showing the swellest line of Misses, Girls and Boys Shoes that were ever in Carrizozo, button or lace all leathers, and he wants all the boys and girls to own a pair. Do you wear Buster Brown Shoes? If not come in to-day and get a souvenir, and look over the line.

For Boys

\$2.50 to \$3.50

For Girls

# ZIEGLER BROS.

"The House of Good Taste"

#### ADDITIONAL LOCAL.

Wednesday was pay day on the line, and many souls were made happy.

Fred Higgins, a member of the territorial mounted police, was in Carrizozo this week, looking after the disposition of some real estate.

The board of county commissioners will meet here Monday in special session. The board will take up some road reports and attend to other business coming up at this session.

W. C. McDonald returned Sunday from Roswell in a new automobile which he purchased while absent. The machine is a No. 21 four-cylinder Buick, and a handsome distance annihilator.

Mrs. Will Loughrey, assisted by Miss Myrtle Tinnon, entertained Friday night, in honor of the Misses Crist, of Duran. Music and games, followed by refreshments, made up a pleasant evening.

Alto is to have a barbecue today in which a number of surrounding communities will participate, and a large crowd is expected. The program for the day was published in last week's News.

Allen A. Lane and D. L. Jackson were down from White Oaks, Wednesday. Mr. Lane had just received a Velie four-cylinder car, and they were seeing to the unloading of it and making it ready for the road.

The Roswell Register-Tribune, while slightly mixed in its geography, has the historical facts down right in the following: Hon. A. H. Hudspeth, of Carrizozo, visited in the city several days last week on legal business. Mr. Hudspeth was one of the democratic members of the 37th or "Band Wagon" legislature, with a majority of seven to one against him, but managed to stir up more fun during that sixty-day session of reprisals than ever before happened in the ancient burg during such time limitations.

#### The Golden State Wrecked.

The Golden State Limited was wrecked Wednesday fifteen miles this side of El Paso. The engine, tender, baggage and express, chair car and pullman were derailed, but not overturned. The engineer had been given the slow-up signal by the section crew, but not in time to prevent the wreck. No one was injured.

Cuts and bruises may be healed in about one-third the time required by the usual treatment by applying Chamberlain's Liniment. It is an antiseptic and causes such injuries to heal without maturation. This liniment also relieves soreness of the muscles and rheumatic pains. For sale by all dealers.

Mother with twelve years old son, desires a position as housekeeper on a ranch or stock farm. Can furnish reference as to characters.

Address,

Mrs. Lovina Artman  
519 S. Glenn.  
Wichita, Kans.

### The Alamos Lose Both Games.

The Alamogordo base ball team accompanied by a number of fans arrived on No. 2 Saturday night to play two games of ball the following day. A dance was given that night, which was quite a pleasant affair, and the visiting team was given an automobile ride the next morning, going out to the Bar W ranch, plucking fruit and enjoying the delightful shade and the courteous hospitality of Mrs. W. C. McDonald.

The game scheduled for the forenoon was postponed, and both games were pulled off in the afternoon. An immense crowd of fans filled the grand stand, and the bleachers overflowed. The first game played by the visitors was with the Carrizozo team, the score resulting in six runs for Alamo and seven for Carrizozo, and Carrizozo not playing her half of the ninth inning. The game was a hard-fought contest throughout, and the crowd was kept guessing as to whom the victory would fall. Carrizozo was in the lead in the beginning, but in the sixth inning the visitors took the lead and fought stubbornly to retain it. The local boys had on their batting clothes, however, and nothing could stop them, and at the close of the game a cheer went up for another victory put over by the home aggregation. Bennett Dingwall took off the batting honors for the home team, sending a long drive over center field, bringing in those on bases, and making a home run himself. The batteries were: For Alamogordo, Fisher and King; for Carrizozo, Robertson and Dingwall. The battle at times was a slugging match, but the local boys seemed to be the boys with the big stick, and landed too many safe hits for the visitors.

The first game ended at four o'clock, and after a short intermission the White Oaks boys took the visitors for a turn. In this game Alamogordo had for its battery Pelphry and King, while White Oaks put Will Gallacher in the box and Van Schoyck behind the bat. It was agreed at the beginning of the game that only seven innings should be played. Therefore each team buckled down to business for the short route, and an excellent exhibition of baseball resulted.

White Oaks led off with a score, and before the game concluded added two more, the game ceasing with White Oaks three and Alamogordo one. The feature of this game was in Gallacher's pitching. The Alamo's were retired time and time again in one,

two, three order, and up the sixth inning failed to send a man over the plate that counts. They had succeeded in getting to second twice, and once a man reached third, but to get home seemed impossible. However, they finally sent one man safely home, and thus saved themselves from having the white wash brush applied.

Aside from a chapter of accidents, in which a number of players were injured, and the passage of two balls through the screen into the grand stand, one of which struck Miss Tamblen, causing much pain, the games were pleasant, free from bickerings, and interesting throughout. The Alamos, too, were good losers and genuine sports.

### To Play Capitan and Stanton.

The Carrizozo ball team will go to Capitan Saturday, play the Capitans that afternoon, go to Stanton that evening, take in the dance and show, and play the Stanton team the next day. Both Stanton and Capitan will give the Carrizozo team return games, as soon as dates can be assigned.

### School Opens September 11th.

The Carrizozo school board has decided to open the fall term the 2nd Monday in September, the date being the 11th. Five teachers have been employed, and if the attendance requires it the sixth will be selected. The five already chosen are: Chas. L. Schreck, principal; Mrs. Lorinda B. Spellman, Mrs. Nora Massie, Miss Lella Laws and Mrs. Wallace L. Gumm. Mr. Schreck will teach the high school, Mrs. Gumm the primary and the others the intermediate grades.

### Notice.

To My Friends and Fruit Growers of New Mexico.

When I came amongst you to solicit orders for nursery stock, and promised good, honest goods, the firms I represented failed to do so. There are good firms in Kansas as well as Oklahoma, but the firms I represented failed to fill the bill in some instances, and therefore I will hold myself responsible to my customers for all orders, and refill them this fall if unsatisfactory.

Address me at Nogal, N.M.

WALLER J. KELLER.

A big dance, a moving picture show, a supper and a general all-round good time is on the program at Fort Stanton for tomorrow evening for the entertainment of the Carrizozo base ball team and its friends. The following day (Sunday) the teams will meet in friendly rivalry on the Stanton grounds. A good game and a lively time is promised visitors.

# WELCH & TITSWORTH

CAPITAN, N. M.

## General Merchandise

Wholesale and Retail.

Our stock of general merchandise is the largest and the best assorted of any in LINCOLN COUNTY. We buy practically all of our heavy goods in carloads of first hands for spot cash. Our store and warehouses are all located on the railroad track. We get our goods in our store at the least possible cost. The volume of business we enjoy enables us to sell on a smaller margin than the average merchant is able to sell.

We are in a position to make advantageous prices on most of our goods and make special prices on quantities. We are giving some handsome premiums with cash purchases.

Prompt attention given to all mail orders and all inquiries are promptly answered.

We are anxious to get your trade.

Very truly yours,

# WELCH & TITSWORTH

Capitan, New Mexico.

### Her Father's Child.

The six-year-old daughter of a well-known evangelistic preacher was playing on the sidewalk one day when a shabbily dressed and downcast man approached her father's house.

Halting at the foot of the steps, he looked at her, and in a weary voice—the voice of an unsuccessful book agent—he asked if her father might be found in his study.

"He isn't home," said the little girl, drawing close to him, and gazing up into the tired face, "but he'll be home pretty soon. You go into the house, you poor, perishing soul, and mother'll look after you till he comes."—Youth's Companion.

### PITIFUL SIGHT WITH ECZEMA

"A few days after birth we noticed an inflamed spot on our baby's hip which soon began spreading until baby was completely covered even in his eyes, ears and scalp. For eight weeks he was bandaged from head to foot. He could not have a stitch of clothing on. Our regular physician pronounced it chronic eczema. He is a very able physician and ranks with the best in this locality, nevertheless, the disease began spreading until baby was completely covered. He was losing flesh so rapidly that we became alarmed and decided to try Cuticura Soap and Ointment.

"Not until I commenced using Cuticura Soap and Ointment could we tell what he looked like, as we dared not wash him, and I had been putting one application after another on him. On removing the scale from his head the hair came off, and left him entirely bald, but since we have been using Cuticura Soap and Ointment he has as much hair as ever. Four weeks after we began to use the Cuticura Soap and Ointment he was entirely cured. I don't believe anyone could have eczema worse than our baby.

"Before we used the Cuticura Remedies we could hardly look at him, he was such a pitiful sight. He would fuss until I would treat him, they seemed to relieve him so much. Cuticura Soap and Ointment stand by themselves and the result they quickly and surely bring is their own recommendation." (Signed) Mrs. T. B. Rosser, Mill Hall, Pa., Feb. 20, 1911.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. 29 K, Boston.

### Exactly.

Noting that another piece of valuable china had been broken. Senator Allen asked his housekeeper how the breakage occurred, and she hastily replied:

"It fell down and just broke itself."  
"Merely an automatic brake," quietly commented the senator.

Save Your Shoe Money—You Who Work in Mines, Quarries, and on Farms

Protect your shoes where the wear comes hardest—and they'll wear twice as long. Metallic Heels are lighter than leather and will outwear the shoes. Don't go without them. Your shoe dealer sells them ready fitted on work shoes. Or your cobbler can quickly attach them. If your dealer isn't supplied, write us. Your inquiry brings booklet.

UNITED SHOE MACHINERY CO.  
BOSTON, MASS.

### FURNITURE IN SUMMER

UPHOLSTERED PIECES SHOULD BE COVERED WITH SLIPS.

These May Be of Chintz or Gay Cretonne That Can Be Selected to Match the Wall-paper.

The housekeeper who in winter time rejoices in her beautifully furnished furniture in summer time flees from its stuffy presence and hies her to the store where linen abounds. Nothing can help more to cool the appearance of a room than crisp slippery linen furniture slips. Delightful results can be attained at only a small expense, for material costs but from twenty-five to seventy-five cents a yard. For hard service plain brown Holland linen or linen jute is most practical, but often the heart of the householder yearns for something more ornamental. Then come vast quantities of chintz and gay cretonnes from which she may choose. As she is wise she will of course, choose a material which will harmonize with her wall paper and floor covering. For this purpose a favorite is the material which has a white or deep ecru background, and patterns in old pinks, olive green and faded blues. This harmonizes with almost any room whether the wood work be white or mahogany. One attractive room with white wood work had slip covers made of an ivory white material, sprigged with a rather conventionalized flower in the popular mulberry shade.

As for the cutting and sewing of furniture covers, authorities say it is no longer permissible to pipe the seams with a plain color. Seams are hidden and the covers fit snugly now. All of which means that the housewife must be possessed of skilful scissors and cut her slips with phenomenal accuracy to make them fit well—else she must hire a professional to help her, which doubles the cost. However, if well made, these covers last several seasons.

### Chicken Fricassee.

Take one good sized chicken and cut in pieces ready to serve. Wash and wipe dry, roll in flour and fry in chicken fat or butter until a golden brown. Have a stew pan ready and as the chicken is fried put it in the stew pan, rinse the frying pan with enough boiling water to cover the chicken, then add one onion minced very fine, a tiny piece of garlic, one cup of strained tomatoes, dash of cayenne and black pepper and salt enough to suit taste. Set on back of stove and let simmer till done, stirring frequently so as not to burn.

Cake will not stick to their tins if placed on a damp cloth when removed from the oven.

In making crusts of any kind, do not melt the lard in the flour. Melting will injure the crust.

When making fruit pies, damp the edge with milk instead of water. It holds better, and the juice is not liable to boil over.

Before preparing vegetables or fruits that stain the fingers, a very good plan is to previously rub the thumb and fore-finger with a little grease, which will prevent the stains that are so unsightly and difficult to remove.

If gravy is too salty, put a pinch of brown sugar in it. This does not spoil the gravy in the least.

A spoonful of vinegar put into the water in which meat or fowls are boiled will make them tender.

### REMOVING PLANT FROM POT

Method Shown in Illustration Will Enable One to Re-pot Plants Without Injuring Roots.

A lady gardener once said to me: "I have no trouble in taking a plant out of a pot in which it has been growing for some time, as I simply take a table knife and cut around the inside of the pot, and the plant drops out when the pot is inverted." But That method cannot be approved, as the knife will ruin many of the roots, and so injure the plant that it will not recover its normal growth again for several weeks after shifting, says a writer in Park's Floral Magazine.

But it is not only in repotting that

Shifting a Plant.

we wish to take a plant from the pot. Often we wish to examine the roots or the soil or the drainage, and the easiest way to do it is to place the fingers over the soil, invert, and tap the edge against the ledge of the table. The manner of grasping the pot is shown in the illustration. Before doing this it is well to thoroughly water the plant, as this adds to the weight and acts as a lubricant in the separation of the roots and soil from the pot.

In re-potting it is well to observe these suggestions, as you will thus be enabled to remove your plants from the pots without injury, and promote their health, growth and bloom.

### MOISTURE IN ORCHARD SOIL

Water is of Prime Importance While Tree is Fruit Making—Chief Elements of Success.

(By WALTER B. LEUTZ.)

As water is the means of circulation of plants as well as of animals therefore it is of prime importance that water be present in the soil, in order that the plant food in the soil may be taken up by the trees.

Many orchards have sufficient available plant food, but lack water at that critical period while the tree is fruit making. If a soil lacks water some form of fertilizers are a positive detriment if they are present in abundance.

The chief elements of success in preparing an orchard soil for the best results may be summed up as:

Removing surplus water from the soil. The conservation of plenty of moisture. The judicious use of manure and cover crops. The use of potash and phosphoric acid in available forms. Cultivation to keep a mulch. Reducing the number of trees per acre. By withholding nitrogen, and increasing the amount of mineral matter. By the use of wind breaks. By mulching. By keeping the soil in the best physical condition possible. It is not wise to stick to the exclusive use of any one practice, but to employ various methods to maintain the fertility of the orchard soils.

### SET OUT STRAWBERRY PLANT

Several Methods in General Use, but Matted—Row System Seems Best—Keep Weeds Down.

There are several methods of planting in general use, which may be modified to suit the planter. The method which seems best adapted to ordinary conditions in the matted-row system. In the spring, when the land is in good condition to work, harrow smooth and mark out rows four feet apart and as long as possible. Then set the plants at 18 or 24-inch intervals in the rows, and cultivate often enough to keep the weeds out and the soil loose until September, when, if the plants are vigorous growers, the runners should be about six inches apart.

It is desirable to train the runners the long way to the rows, cutting out plants that crowd. In ordinary planting trowel or spade is used to set the plants. A spade is an easy implement to open the ground with. Strike it into the ground and work it back and forth, draw out the spade, spread the roots of the plant, and set it so the crown comes just to the surface of the ground. Firm the soil well about the roots of the plant. As soon as possible after setting the plants, cultivation should commence, and it should continue at frequent intervals till fall. Keep the weeds down and the top soil loose. If the runners get too thick, cut out part of them, leaving about six inches between them. Runners may be encouraged to root by putting an inch or two of soil over each one near the end.

### DRAINAGE FOR FLOWER POT

So Arranged That Staining of Woodwork of Porches by Dripping Water is Prevented.

The staining of woodwork on porches and posts caused by the dripping of water from flower pots can be prevented in the following manner:

Make a zinc or galvanized tray of suitable shape in which to set the pots, as shown in the illustration. Solder a tube for the overflow, or

Flower Pot Drain.

dripping, on one side of the tray. Have the tube long enough to clear the post or part of the porch where the flower pot is set. The tube may be placed to the rear so it cannot be seen from the street, if desired. Place some small pieces of wood beneath the tray to allow the passage of air, thus preventing moisture. The tray can be made in any shape to conform to the shape of the pots.

#### Blue Flowered Hydrangeas.

The application to the soil, when hydrangea hortensis is growing, of either alum, aluminum sulphate or iron sulphate have been found to induce the formation of blue flowers.

#### To Improve Potatoes.

Long Island experiment station reports that with wood ashes and well rotted manure used for three years, smooth, even and large potatoes were produced that had a fine flavor.

## Doctors Said He Would Die

### A Friend's Advice Saves Life

I wish to speak of the wonderful cure that I have received from your noted Swamp-Root, the great kidney and bladder cure. Last summer I was taken with severe pains in my back and sides. I could not breathe without difficulty and was nearly wild with the desire to urinate. Was compelled to do so every ten minutes with the passage of pure blood with the urine. I tried all the different doctors from far and near, but they said it was no use to doctor as I would die anyway. I was at the end of my rope and was so miserable with pain and the thought that I must die that words cannot tell how I felt. One day a friend told me of the wonderful help she had received from Dr. Kilmer's Swamp-Root. She gave me one of your pamphlets which I read and determined to try Swamp-Root. After taking half a bottle I felt better. Have now taken ten bottles and am well as I ever was, thanks to Swamp-Root. I wish to tell all suffering people that have kidney, liver or bladder trouble, that Dr. Kilmer's Swamp-Root is the best medicine on the market.

All persons doubting this statement can write to me and I will answer them directly,

Yours very truly,  
CLYDE F. CAMERER,  
Rosalia, Wash.

Subscribed and sworn to before me this 23rd day of July, 1909.

VERNE TOWNE, Notary Public.

Letter to  
Dr. Kilmer & Co.,  
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention this paper. For sale at all drug stores. Price fifty-cents and one-dollar.

#### Trying to Be Witty.

They were sitting in the parlor with the lights turned low. The hour was pretty late. He and she had talked about everything, from the weather to the latest shows. He yawned and she yawned, but he made no attempt to move toward home, and she was becoming weary.

At last she said: "I heard a noise outside just now. I wonder if it could be burglars?"

Of course he tried to be funny. "Maybe it was the night falling?" he said.

"O, I guess not," she exclaimed; "guess it was the day breaking." (Hasty exit of he.)

In general, pride is at the bottom of all great mistakes.—Curwen.

Mrs. Winslow's Soothing Syrup for Children, teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

Good men are scarce, and bad ones often have to make themselves so.

## Libby's

### Corned Beef

Everybody likes good corned beef.

Everybody likes Libby's because it is good and is ready for serving as soon as taken out of the tin.

Buy Libby's Next Time

Libby, McNeill & Libby

#### Then He Got His.

She—I consider, John, that sheep are the stupidest creatures living. He (absent-mindedly)—Yes, my lamb!

#### A Stock Anecdote.

"This sword came from the battlefield of Waterloo. An interesting anecdote goes with it."

"It is a fine anecdote," said the other man, after listening carefully. "I bought the same anecdote once with an old musket."

#### A Help to Patience.

A man who had to leave his office and was expecting a caller to pay him some money, left this notice on his door: "I have gone out for half an hour. Will be back soon. Have gone 20 minutes already."

#### The Urgent Need.

She (flattering with eyes and voice)—Arthur dear, I find that we still need a few things to make our little household more serviceable.

He—What one thing, perhaps? She—Well, for instance, we need a new hat for me.

#### With Emphasis.

Mistress (hastily stick a finger into either ear)—Kittie, for Heaven's sake! What does that frightful noise and profanity in the kitchen mean?

Kittie—Oh, that's nothin', ma'am! It's only cook rejectin' a propos'l av marri' from the ashman!

#### "CAMPING IN THE ROCKIES."

The joys of outdoor life in the Rocky mountains are pictured and described in a new booklet issued by the Passenger Department, Denver and Rio Grande Railroad, entitled "Camping in the Rockies." The story is supplemented by some estimates, showing the cost of outing tours in Colorado, Utah and New Mexico, which includes railroad, hotel, carriage and other incidental expenses. Space is also devoted to camping conveniences, sites, supplies, suggestions, and seasons.

#### HOMESEEKERS' EXCURSION RATES TO TEXAS AND NEW MEXICO POINTS DURING 1911.

On the first and third Tuesdays of each month during the entire year The Colorado and Southern Railway will sell round trip homeseekers' excursion tickets to a great many points in New Mexico and Texas at greatly reduced rates. Final limit 25 days allowing liberal stop-over privileges. For detailed information, rates, etc., call on your nearest Colorado and Southern agent or address T. E. Fisher, General Passenger Agent, Denver, Colo.

## STOP PAYING RENT!

You can own your own home for what you are paying now in rent. This Company will lend you the money to buy or build a home or to lift that mortgage, and give you ten and one-half years to repay the loan at the rate of \$7.50 per month on each one thousand dollars borrowed, 5 per cent, simple interest. Did you ever stop to consider how much money you will waste for house rent in ten and one-half years? If not, figure this up—it will take you only a moment. You will find that it will be more than enough to buy you a home. We will gladly explain our plan to you. Do it now. It will cost you nothing to learn how to make your rents pay for a home.

## President Taft Vetoes Resolution.

(Continued from first page.)

"Other candidates are allowed to present themselves and have their names printed on the ballot, so that the recall is not based solely on the record of the acts of the judge, but also on the question whether some other and more popular candidate has been found to unseat him.

"Could there be a system more ingeniously devised to subject judges to momentary gusts of passion than this? We cannot be blind to the fact that often an intelligent and respectable electorate may be so roused over an issue that it will visit with condemnation the decision of a just judge, though exactly in accordance with the law governing the case, merely because it affects unfavorably their contest.

"Contraversies over elections, labor troubles, racial or religious issues, issues as to the construction or constitutionality of liquor laws, criminal trials of popular or unpopular defendants, the removal of county seats or suits by individuals to maintain their constitutional rights in some popular improvement—these and many other cases could be cited in which a majority of a district electorate would be tempted by hasty anger to recall a conscientious judge if the opportunity were open all the time.

### Lincoln Locals.

Dr. Block, one of the physicians who was located at Fort Stanton in the early days, made a short visit in Lincoln with his old time friends.

H. B. Hamilton and family came over from Carrizozo Wednesday. H. B. was looking after legal business here and at San Patricio, and Mrs. Hamilton and boys remained with friends in Lincoln.

W. S. Norman and George Sissneros left Saturday for Roswell to assist G. H. Copeland in handling about 700 cars of apples that he has bought in the Pecos valley.

Attorneys Hervey and O'Brien, of Roswell, and the two children of Mr. Hervey spent a few days in town this week. The party was on an extended outing, and left Friday morning for Pine Lodge in the Capitan.

Judge Dye, one of the legal fraternity in Roswell, is spending the week in town. The judge is taking a much needed rest and is enjoying the climate here immensely.

Miss Rosa Lutz is visiting friends in Carrizozo this week.

Gladys Riggle entertained a number of her little friends on Monday afternoon. This was her seventh birthday.

J. H. Moroney, of Okmulgee, Oklahoma, was in town on some mining business this week.

A marriage license has been issued to Melcor Chavez, age 29, and Andrellita Montoya, age 22, both of Richardson.

## NOTICE.
