## PROGRESSIVES AND REPUBLICANS.

It is a common philosophical axiom that union produces strength and therefore it is no necessary to demonstrate that it is applicable to each political matter. It is not time to discuss whether the republicans or progressives are in their program right or not. The question is if the opponents to Wilson's administration have unavoidable duty to throw such man from the national power in order to inaugurate an era of honor and worthiness for the country and improvement for the commonwealth.

Every republican and progressive is convinced that while democratic party has had the direction of government the nation has been offended abroad massacring its citizens and despoiling their property and that living conditions by degrees have increased from bad to worse, and every one too progressive and republican believe that there is no other mean to save nation from that evil to pull down the democratic administration.

To attain that it is urgent that republicans and progressives make an alone political body, an army of citizens open to work in every right sense in order to hold governorship, not only in New Mexico but in the whole country.

## Hughes Points the Way

The speech of the Republican candidate for President was a keynote speech, indeed. Not one person in the great audience at the Carnegie Hall meeting was in doubt for one moment as to just what he meant by everything he said.

His address was comprehensive, logical, clear and all sufficient for the occasion. There can be no dispute as to this. Plainly Mr. Hughes is a man who "knows what he wants when he wants it," and it is the opinion of political authorities who heard him and who have since read his remarks that he knows, also, how to get it.

It was incumbent upon the Republican candidate to confine the scope of his remarks to the limitations of the occasion, but his crushing analysis of the shortcomings of the present administration of the government is merely an earnest of what the tone and the contents of his speeches will be when he gets on the stump.

At Carnegie Hall Mr. Hughes adverted to every general question that is apt to be a serious issue in the campaign and in language that will be absolutely clear to every man or woman able to read he stated his opinions, his convictions and his purposes. On the stump he will argue those points in detail. As an orator he is eloquent, his personality attractive and his marshalling of facts so cohesive that he holds his audience to the end. He makes it easy for them to follow him and his points are not lost.

There was nothing equivocal, nothing apologetic in the Republican candidate's speech of acceptance. He called a spade a spade, and the unanimous opinion of those who heard him was that he shot to the center and rang the bell. The Republican campaign is now open, and those who will speak and write and work for the success of the Republican ticket can wish for no more adequate campaign document, no more satisfactory statement of issues than are found in the candidate's salutary.

## SOLUTION OF THE BORDER PROBLEM IS PROGRESSING.

Former announcement that a joint international commission seek a solution for border disputes between the United States and the Mexican de facto government probably will be made to-morrow. Acting Secretary Polk and Eliseo Arredondo, General Carranza's ambassador, virtually concluded their preliminary conferences today.

It is regarded as probable that additional diplomatic correspondence will be necessary. Mr. Arredondo assured Mr. Polk today that his government was willing that the commission should have a broad scope; but that it wished to see the immediate questions arising from the border situation disposed of first. State department officials agreed with that view.

President Wilson is expected to announce the American membership of the committee at once. It has been agreed by Mr. Polk and Mr. Arredondo that selection of the place of meeting will be left to the commissioners.

## RIFLE CLUBS AT STATE FAIR.

Albuquerque N. M., Aug 10.—One of the distinct features of the state fair will be the annual state rifle tournament, in which teams from rifle clubs all over the state compete for substantial prizes. The tournament was held for the first time last year and was arranged upon comparatively short notice, but this year much work was done on it early in the spring and the indications are that the number and quality of teams will be better than last year, although some excellent scores were made at that time by several organizations.

The tournament is open to all rifle clubs in the state.

## How the People of the East see President Wilson's Mexico Policy.

According to some politicians reached from the east the people of that region see the Wilson's Mexican policy as mess of blunders, going from bad to worse. They think it is time to pull down an administration which only has injured the American reputation. Mr. Wilson has been consistently wrong. At Veracruz he was wrong, wrong both in occupying and withdrawing; wrong in his policy toward Huerta; wrong in his attitude toward Villa and Carranza.

## ELECTRIC SPARKS.

During their summer vacations more of our inventors should discover substitutes for gasoline.

Secretary Lansing having gone on a vacation, it would be a graceful act for the Mexican crisis to do the same.

Some of the 1917 model automobiles are just now appearing on the market and one wonders what occasioned the delay.

Japanese are now producing champion tennis players. Richmond Pearson Hobson, please note.

Some political party might disclose that the presidential triumph is going to be determined by the free vote, that is to say that the independent citizens, those who look for the real aggrandizement of the country and have no personal ambitions nor are worry for personal sympathies, will choose the man who may be able to hold in a wise and strong grip all the great interests of the people and will do the right in the actual national conditions.

There appear to be a shortage in the American crisis output. We have not had one for several days.

Perhaps vacations should come suddenly and as a surprise. The anticipated vacation as it draws night makes work doubly difficult.

Uncle Sam should not be grudge what the Mexican lesson in preparedness has cost him if it teaches him anything which is not yet certain.

Britons are good actors or they could never have asked Uncle Sam to class the unarmed Deutschland as a warship and kept their faces straight.

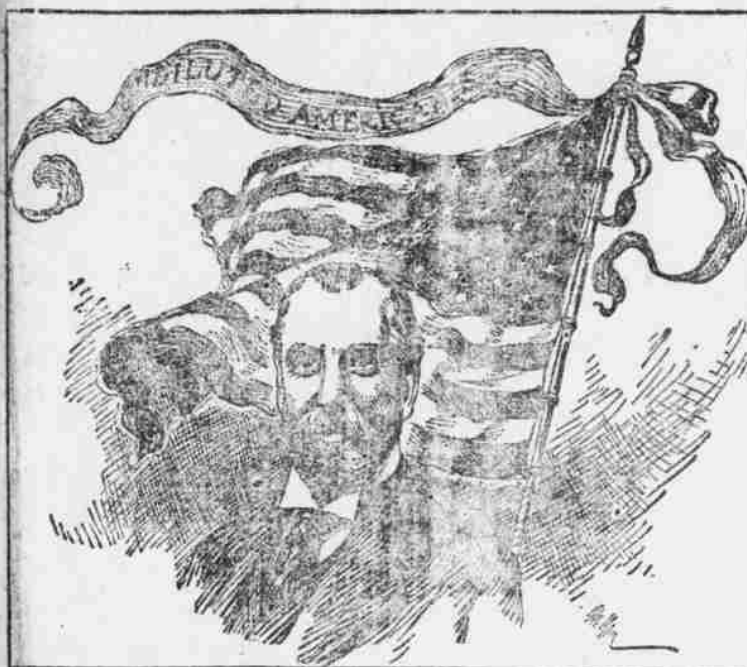

Unfortunately the only way to get "the boys out of the trenches" thus far discovered is to blow them out by shell fire or dig them out with bayonets.

Mexico is a most contradictory country, between the hirsute Carranza and the Mexican hairless dog. It ought to learn to calm down and strike averages.

Even in his most fanciful dreams about that Vice Presidency John M. Parker has not thought of asking Bryan to run for President.

"John Bull," we take it, is a pseudonym for Lloyd George.

Members of a submarine crew would see nothing startling in the word, "Everything under water."

## OF WHAT THE PRESIDENTIAL TRIUMPH DEPENDS

Carefully thinking we easily disclose that the presidential triumph is going to be determined by the free vote, that is to say that the independent citizens, those who look for the real aggrandizement of the country and have no personal ambitions nor are worry for personal sympathies, will choose the man who may be able to hold in a wise and strong grip all the great interests of the people and will do the right in the actual national conditions.

The blemishes of the democratic administration are clearly seen whatever may be the aspect in which it may be examined. The hesitating spirit of Mr. Wilson is noticed in every one of his acts as President; his ignorance of men is revealed in his sinking policy on Mexico going to and fro, sometimes trying to help Villa and others times showing his desire to aid Carranza.

The weakness of Wilson is undoubtedly regarding to the outrages committed by Germany. History shall be severe when it judges the facts of the present government. The world don't forgives us to have been so indifferent before the offenses perpetrated against american citizens and United States will always remember that peace was maintained at the price of honor.

No american citizen who preserves in his mind the heroism of our forefathers and keeps in his heart the efforts made by them to build up a worthy country with a honesty and face people will never forget that Wilson has not taken enough care for the national dignity.

## B. C. Hernandez is not a Candidate.

In despite of some assertions made a few days ago for a paper Mr. Hernandez will not be a candidate to the governorship of New Mexico. Mr. Hernandez has himself denied to run to any other office than Representative.

## Canning Fruits Without Sirup.

Can the product the same day is picked. Cull, stem, or seed, and clean the fruit by placing it in a strainer and pouring water over it until it is clean. Pack the product thoroughly in glass jars or tin cans until they are full; use the handle of a tablespoon, wooden ladle, or table knife for packing purposes. Pour over the fruit boiling water from a kettle, place rubbers and caps in position, partially seal if using glass jars, seal completely if using tin cans. Place the containers in a sterilizing vat, such as a wash boiler, with false bottom, or other receptacle improvised for the purpose. If using a hot water bath outfit, process for 30 minutes; count time after the water has reached the boiling point; the water must cover the highest jar in container. After sterilizing remove packs, seal glass jars, wrap in paper to prevent bleaching, and store in a dry, cool place.

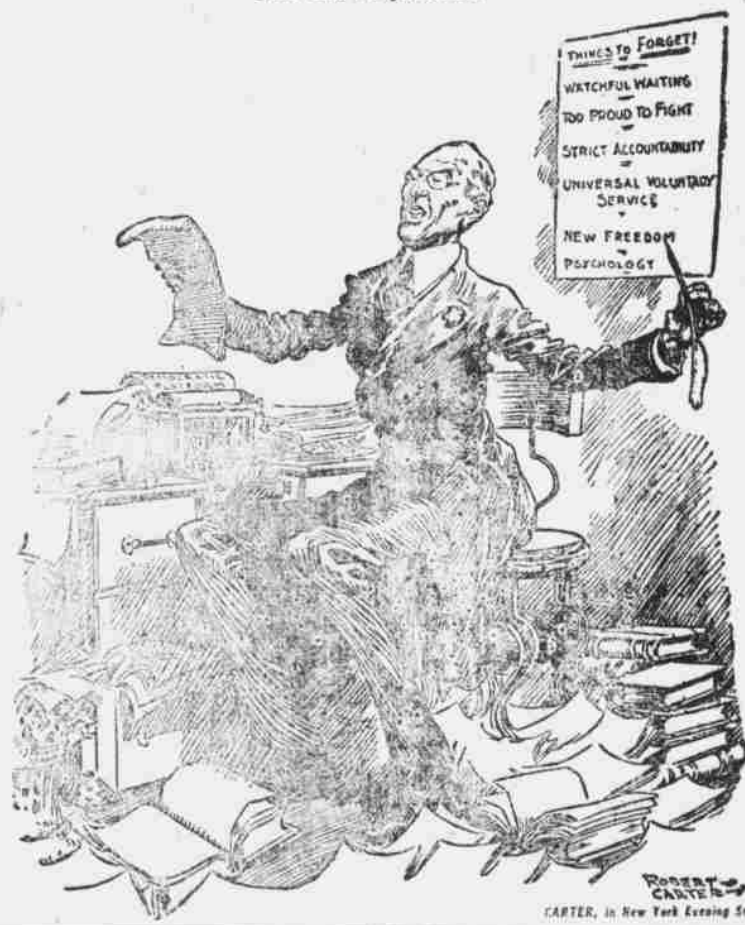

If you are canning in tin cans it will improve the product to plunge the cans quickly into (Continued on 4th. page.)

## Again to his Labors.

Mr. A. A. Sedillo, attorney at law in Albuquerque, after three weeks of vacation around Magdalena, N. M., has held again his Law Office and will undertake any legal business before any New Mexico Court.

We congratulate Lawyer Sedillo for returning to his interesting work and too congratulate the clients and friends of Mr. Sedillo because he is skilful and honesty man.

## DELINQUENT TAX SALE COUNTY OF VALENCIA.

I, the undersigned Treasurer  
Ex-Officio Collector of taxes for  
the County of Valencia in the  
State of New Mexico, hereby  
give notice that I will, on the  
first day of October 1916, at the  
hour of ten o'clock in the fore-  
noon, at the Court House of said  
County, offer for sale, separately  
and in consecutive order, each  
parcel of property upon which  
any delinquent taxes are shown  
by the tax rolls for the year 1915,  
or so much thereof as may be  
necessary to realize the respective  
amounts due, which sale shall  
continue until no later than four  
o'clock in the afternoon, and from  
day to day at the same hours, un-  
til all of said property shall be  
sold or until the amounts due  
shall be paid or realized, but such  
sale shall not continue for more  
than thirty days.

Following herewith is a list of  
the persons whose taxes are de-  
linquent with the amount of  
taxes which are delinquent set  
opposite; said amounts being  
payable together with interest  
from the time they become de-  
linquent, and costs accrued  
thereon.

### Agricultural College.

New Mexico boys who plan to attend college during the coming year, and who are wondering just how they will get through school on a limited money allowance, will be interested to know that the New Mexico College of Agriculture and Mechanic Arts, through the assistance of the United States government, will be in a position to offer a decidedly attractive proposition in the way of financial help.

The bill which recently passed Congress, signed by the president, reorganizing the army of the United States, directs the War Department to provide uniforms and equipment to the

students in agriculture and mechanic arts colleges who will take military drill three times a week. This will mean a saving in clothing alone of about sixty dollars a year to the boys attending the New Mexico Agricultural College. While the War Department is overburdened with work just at present, and may be a bit slow in carrying out the provisions of the bill, it is believed the legislation will be in actual operation before Christmas.

Another important provision of the bill is that boys who will drill five times a week during their junior and senior years of the college course, will receive a salary of seven dollars a month in addition to their uniforms. Upon graduation, such boys may, upon application, be assigned by the president of the United States to a military camp for a period of six months at a salary of one hundred dollars a month.

The provisions of the bill make a very bright prospect for the boys attending the New Mexico Agricultural College, especially inviting to those who might otherwise have a difficult time raising money for their clothing and incidental expenses.

The military training to be acquired at the college, under the direction of a regular United States army officer, will be of great and lasting benefit to the students. Uncle Sam furnishes everything necessary to conduct the work successfully and systematically.

The outdoor drills are just the thing needed for the growing boy. The invigorating climate of southern New Mexico is ideal, permitting drills and maneuvers in the open air practically every day in the year.

The New Mexico Agricultural College has a wide variety of courses to offer prospective students. It is the home of agricultural development of the state. The courses in agricultural development of the state. The courses in agriculture over a wide range and are nothing if not practical and thorough. The engineering courses are exceptionally strong, taught by splendid teachers, in fine buildings, containing the most modern and most complete equipment of any engineering school in the southwest.

## The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearings—Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

**Silence of Operation**—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

**Decimal Tabulator**—A help in billing and tabulating. There is no extra charge for this convenience.

**Variable Line Spacer**—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

**Faster Ribbon Feed**—Insures new place of impact for each typeface.

**Choice of Carriage Return**—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

## We're Opposed To MAIL ORDER CONCERNS

### Because

They have never contributed a cent to furthering the interests of our town—

Every cent received by them from this community is a direct loss to our merchants—

In almost every case their prices can be had right here, which delay in receiving goods and the possibility of mistakes in filling orders.

### But—

The natural human trait is to buy where goods are cheapest. Local pride is usually secondary in the game of life as played today.

### Therefore

Mr. Merchant and Business Man, meet your competition with their own weapons—advertising.

### Advertise!

The local field is yours. All you need do is to avail yourself of the opportunities offered. An advertisement in this paper will carry your message into hundreds of homes in this community. It is the surest medium of killing your greatest competitor. A space this size won't cost much. Come and see or write us about it.

## WATER FOR COWS

All animals require plenty of  
good, pure water. This is es-  
pecially true of the milking cow,  
as water constitutes more than  
threefourths of the volume of  
milk. The supply, therefore,  
demands the dairyman's most  
careful attention. Stale or im-  
pure water is distasteful to the  
cow and she will not drink en-  
ough for maximum milk pro-  
duction. Such water may also  
carry disease germ which might  
make the milk unsafe for human  
consumption or be dangerous  
to the cow herself. During the  
winter, when cows are stabled  
the greater part of the time, and  
unless arrangements have been  
made to keep water before them  
all the time, they should be  
watered two or three times a  
day. If possible, the water should  
be 15 or 20 degrees above the  
freezing point, and should be  
supplied at practically the same  
temperature every day. When  
water well above freezing tem-  
perature is stored in tanks and  
piped direct to the cow, there is  
probably little occasion for facil-  
ities to warm it; but when it  
stands in a tank on which ice  
often forms, it usually pays well  
to warm it slightly. This can  
be done by a tank heater, by  
live steam, or by hot water from  
a boiler. If a boiler is used for  
running a separator or for heat-  
ing water to wash and sterilize  
utensils, steam from it can read-  
ily and cheaply be used to warm  
the water.—F. B. 743.

## NEW SCIENCE HALL AT THE STATE NORMAL

Plans are under way for the  
erection of a splendid new  
science hall at the State Nor-  
mal School at Silver City to  
meet the needs of a rapidly  
growing enrollment. The build-  
ing will be 50 feet by 80 feet,  
two stories high and of red pres-  
sed brick. It will be located on  
the north campus between the  
main building and Ritch hall.  
Four large rooms on the first  
floor will be used for class pur-  
poses and the upper story will  
provide a standard gymnasium  
and seating gallery. The build-  
ing now used for a gymnasium  
and seating gallery. The build-  
ing now used for a gymnasium  
will be converted into a boys'  
dormitory.

About twenty-five free homes  
have been found in Silver City  
for girl students at the State  
Normal. Many of the best stud-  
ent have availed themselves of  
this opportunity to work their  
way through school. Care is  
taken in the selection of these  
places and the welfare of the  
girls is carefully looked after.  
Everything promises a most  
prosperous opening for the win-  
ter session in September.

**"Cured"**

Mrs. Jay McGee, of Steph-  
enville, Texas, writes: "For  
nine (9) years, I suffered with  
womanly trouble. I had ter-  
rible headaches, and pains in  
my back, etc. It seemed as if  
I would die. I suffered so. At  
last, I decided to try Cardui,  
the woman's tonic, and it  
helped me right away. The  
full treatment not only helped  
me, but it cured me."

**TAKE  
Cardui  
The Woman's Tonic**

Cardui helps women in time  
of greatest need, because it  
contains ingredients which act  
specifically, yet gently, on the  
weakened womanly organs.  
So, if you feel discouraged,  
blue, out-of-sorts, unable to  
do your household work, on  
account of your condition, stop  
worrying and give Cardui a  
trial. It has helped thousands

lars Go Farthest**

**PURITAN  
UNDERMUSLINS**  
are made as you  
would make them  
for yourself

The fabrics and trimmings  
are dainty and durable.

They are cut full and  
well proportioned.

The seams and stitching  
are neatly and carefully  
done.

And, Puritan Undermus-  
lins keep pace with styles  
in outer apparel.

This is seen in the flaring  
skirt, the wide circular  
drawer, the wing sleeve  
corset cover and the envel-  
ope chemise.

Ask for Puritan Under-  
muslins.

### Oh, You Skinny!

Why stay thin as a rail? You don't have to! And you don't  
have to go through life with a chest that the tailor gives you; with  
arms of childish strength; with legs you can hardly stand on. And  
what about that stomach that flinches every time you try a square  
meal? Are you a pill-feeder?

DO YOU EXPECT HEALTH AND STRENGTH IN TABLOID FORM—  
THROUGH PILLS, POSITIONS AND OTHER EXPEDIENT PIFFLE? YOU  
CAN'T DO IT; IT CAN'T BE DONE.

The only way to be well is to build up your body—all of it  
—through nature's methods—not by pampering the stomach. It  
is not fate that is making you a failure: it's that poor, emaciated  
body of yours; your half-sickness shows plain in your face and the  
world loves healthy people. So be healthy—strong—vital. That's  
living. Don't think too long; send 4 cents in stamps to cover mail-  
ing of my book, "INTELLIGENCE IN PHYSICAL CULTURE,"  
written by the strongest physical culture instructor in the world.
