Title: The Keyword: “Fifteen grants to support computing research for undergraduate women”

Office of Origin: Miscellaneous source

Description: An article from Google’s internal news website “The Keyword” concerning the rewarding of fifteen grants to undergraduate women, including a UNM student. The student’s award is marked half way down the page.

Date: 2018
Fifteen grants to support computing research for undergraduate women

Ayna Howard, Professor and Chair of the School of Interactive Computing at the Georgia Institute of Technology, received a grant to support women who work in computer science. The grant will help her support research projects and help them advance in their careers.

Howard has been a long-time advocate for women in computing and has been involved in several initiatives to encourage and support women in the field. She has also been a vocal advocate for diversity and inclusion in technology.

The grants will be used to support research projects that have the potential to advance women in computing. The grants will also be used to support mentoring and networking opportunities for women in the field.

Howard believes that these grants will help women in computing to advance their careers and make a significant contribution to the field.

The grant is one of several initiatives that Howard has been involved in to support women in computing. She has been a vocal advocate for diversity and inclusion in technology and has been involved in several initiatives to encourage and support women in the field.

Howard believes that these grants will help women in computing to advance their careers and make a significant contribution to the field.
