LILLER RETURNS FROM THE EAST.

**Puts Ginger into Campaign: As-
serts there will be no Dearth
of Speakers: Predicts Dem-
ocratic Victory, and says
People in no Mood
to be Trifled
with.**

PROGRESSIVE REPUBLICANS DEMOCRATS IN DISGUISE.

William C. Liller, of Albuquerque, president of the National Democratic League of Clubs, which has headquarters at Indianapolis, Indiana, Washington, D. C. and New York City, and numbers Governors Woodrow Wilson of New Jersey, Judson Harmon of Ohio, Hoke Smith of Georgia, Shafroth of Colorado, Marshall of Indiana, Burke of North Dakota, Crothers of Maryland; ex-Governors Folk and Francis of Missouri, McCreary of Kentucky, Spriggs of Montana, Glenn of North Carolina, Higgins of Rhode Island, McCorkle of West Virginia; United States Senators Kern of Indiana, Newlands of Nevada and Culberson of Texas; Congressmen William Sulzer of New York, Lentz of Ohio, J. Hamilton Lewis of Illinois and other prominent democrats among its officers, has returned from an extended trip through the central and New England States in the interest of the League of Clubs.

While east Mr. Liller succeeded in interesting a number of prominent democrats of national reputation in the New Mexico elections, and brought with him the assurance that Champ Clark, ex-Governor Joseph W. Folk of Missouri, Congressman William Sulzer New York, former United States Senator Charles A. Towne, Senator Gore of Oklahoma and others would address the people of this state. Mr. Liller says there will be no dearth of speakers and that the people will have an opportunity to listen to some of the strongest men in the country.

He says that everywhere unusual interest has been manifested in the New Mexico elections, and the rank and file of the party, everywhere, is anxious to see the

democrats win.

It is Mr. Liller's intention to spend as much time as possible in the state, and he will open headquarters for the League in the city of Albuquerque, in addition to those already established at Indianapolis, Washington and New York.

Since his return unusual activity has been shown around the Democratic State Central Committee headquarters, and he has been in constant consultation with Chairman W. C. McDonald, O. N. Marron, H. B. Fergusson, Summers Burkhardt and other prominent state leaders.

In speaking of the campaign, President Liller said the prospects of the democrats electing their entire ticket were inspiring. He said he did not agree with those democrats who had some doubt of the party being able to elect its legislative ticket, because from information he has gathered from various reliable sources the party has excellent chances of winning, despite the fact that the state was districted to republican advantage. "No one thought the democrats would carry Maine last year, nevertheless elect their legislative ticket, but it was done. Little hope was entertained by the democrats of New York for the success of their legislative tickets, because the republicans had so gerrymandered the state that a democratic legislature seemed impossible; yet it was accomplished. Who would have thought that Ohio would elect a democratic legislature? But it did. The people are in no mood to be trifled with. The day of the political boss and machine politician is passing. The people are determined to rule and elect their own officials without the assistance of men actuated by selfish interests." He said the progressive republicans who are cooperating with the democrats in advocacy of good government and honest elections are simply democrats in disguise, and he predicted that thousands of progressive republicans would support the democratic standard bearers in preference to voting for a continuance of the existing political methods.

ADD TO OCCASION'S GAIETY

Queer Wedding Equipages That Have Figured in Ancient and Modern Times.

Uniqueness in wedding conveyances is a little difficult to attain, but probably a certain young lady in Surrey, the daughter of a well-known local butcher, came as near to its attainment as anybody we have heard of lately, says London Tit-Bits. The carriage in which the lady was taken to church was driven by a stalwart butcher, and two other knights of the cleaver stood behind as footmen. But this was by no means all, for the lady was escorted from her carriage to the church and down the aisle by a procession of butchers' boys, looking spic and span in white overalls and aprons.

A fire engine makes a very smart turnout at a wedding. There is nothing dull or commonplace about a fire engine. It is always bright and up to the mark, and ready for action. Evidently this line of thought occurred to a happy couple in Devonshire some time ago, for the five bridesmaids who were to support the bride at her nuptials rode to the church on the local fire engine, and it was one of the best attended weddings in the annals of the parish.

A circus equestrienne had a very unique wedding in a continental town some time ago. The man who drives the team of forty horses was the bridegroom, and he drove his own bride to church behind his forty steeds, the bride herself being seated, dressed in all her splendid robes, on the top of the triumphal car. Whether their married life has been as triumphant as their wedding procession history does not relate, but we may hope so.

Six artillery horses, driven by non-commissioned officers in uniform, formed a bridal team at a Brighton wedding and a very smart turnout it was. It was not so commodious, however, as the gayly decorated tram car, with white-gloved driver and conductor, which was the chosen vehicle at another lady's wedding in a Midland town. The bride, the bridegroom, their respective fathers and mothers, and all the relatives and guests rode in their best attire both inside and upon the outside of the car, and the whole made a very brave show indeed.

Several Good Tooth Washes.

Peroxide of hydrogen is a good antiseptic tooth mouth wash and it also helps to whiten yellow teeth. Diluted alcohol is also refreshing and powdered pumice stone used once in awhile is excellent for removing stains. An occasional cleansing of the teeth with salt is beneficial. The gums should also be rubbed. Teeth cannot be beautiful unless they are healthy, and they cannot be healthy unless they are well cared for. If you neglect them they revenge themselves by aching, becoming discolored or crumbling away. Brushing the teeth three times a day—after breakfast, lunch and after dinner—will preserve them.

Graft in France a Century Ago.

Pecuniary disinterestedness in a public man was very nearly a thing unknown. When Vergennes died, in 1787, Franklin, who knew him well, said that the taking away of so wise and good a man was a loss to mankind. He left a fortune of about 2,000,000 francs, of which the purchasing power would be little short of \$2,000,000 dollars today. Such wealth did not indicate dishonesty, though probably the larger part of it represented the direct or indirect gains of holding office.—J. P. Perkins: "France in the American Revolution."

HOT WEATHER GARDEN WORK

Pulling Up Weeds Whenever Found Will Save Considerable Labor Next Year—Care for Lilacs.

(By EBEN E. REXFORD.)
Weed, and weed and weed again. In brief, pull up every weed as soon as you see it. All the work of this kind done this season will save a great deal of labor next year, for every plant allowed to go to seed will most likely be perpetuated by a thousand seedlings.

Make a practice of going over the garden beds and clipping away seed vessels. The plants will at once set about making good their loss and as flowers are the first step toward the formation of seed, they will soon produce a new crop of blossoms.

In this way make almost constant bloomers of kinds that won't bloom but once during the season if allowed to follow out their own inclinations.

Keep the ground about the lilac bushes mowed or hoed closely. If this is done the suckers about this plant of which so much complaint is made, will cause no more trouble than ordinary weeds. It is when they are allowed to grow for a season that the trouble begins. Therefore, keep them down from the start and you will have nothing to complain of. A place without the lilacs would be one that failed to live up to the privileges warranted. I consider the lilac one of our very best shrubs.

SURE TO DESTROY WEEDS

Ingenious Implements Arranged to Allow Injection of Liquid Around Roots of Plants.

A most ingenious implement for destroying weeds has been invented by a Washington man. A rod has a sharp metal point at one end and

a reservoir extending out from it just above this point, which is hollow and has an opening at the bottom. The reservoir has a discharge spout leading into the hollow point and a rubber bulb, by means of pressure on which the contents of the reservoir are discharged through the spout. This reservoir is filled with tobacco juice or some other liquid that will kill plant life. The gardener then inserts the point at the root of a weed and presses on the rubber bulb with his foot. An injection is thus squirted on the roots of the weed, which soon kills it. Compare this method with the laborious system of pulling weeds up, one by one, and tearing up the turf into the bargain—to say nothing of the wear and tear on the only back you'll ever have

DEVICE TO MEASURE FIELDS

Simple Contrivance Shown in Illustration Much Better Than Surveyor's Chain or Taperline.

The simple contrivance shown in the illustration for measuring fields is much better than a surveyor's chain or taperline, because it can be used by one person, says the Homestead. It is made of a small hub and spokes a little larger than lath. Make them of such size that one revolution measures exactly one rod. This is done by having each spoke thirty-two and

one-half inches long. The hub (b) is made of two circular pieces of board one inch thick and six inches in diameter bolted face to face together, and holding the spokes firmly in the grooves previously cut. There should be eight spaces between the points, as there are eight spokes, which at the end should be twenty-four and three-fourths inches apart. The points of the spokes must not be sharp, or they will sink into soft ground and the distance will not be

accurate. Paint one spoke a different color from the rest, so that it may be easily counted every time it comes around. Push the wheel ahead like a wheelbarrow. Measure the field lengthwise, then crosswise, multiply length in rods by breadth and divide the result by 160, which will give the number of acres the field contains.

BALE YOUR HAY THIS YEAR

Kept Compact, is Easy to Handle and Takes Up Comparatively Little Room—Always Clean.

Loose hay is so bulky that it takes up five or six times the barn space of baled hay. Loose hay quickly gathers dust—which causes coughing of stock and perhaps disease. The whole outside of a stack of loose hay is practically wasted by wind, rain, sun and the other elements. This often amounts to 20 per cent of the stack. Loose hay can not be shipped far, and the local dealer knows it. So he pays you his price, and you sell because you know that your loose hay must be sold near home.

Baled hay is compact—easy to handle—takes up comparatively little space, so can be stored until prices reach the top, when you can sell anywhere, distance does not matter much. Baled hay is always clean and fresh, loses none of its nutritive qualities, and there is no waste.

Remember that bees crawl up instead of down.

Extracted honey will candy much sooner than comb honey.

The drains should be properly laid out and carefully graded.

QUEER DISEASE IS IN UNITED STATES

Many Here Afflicted With Odd Ailment, Says Prof. Munyon.

GREWSOME CREATURES VERY COMMON, FINDS EXPERT.

Many people in the United States are afflicted with a queer disease, according to a statement yesterday by Professor James M. Munyon. He made the following remarkable and rather grewsome statement:

"Many persons who come and write to my headquarters at 53d and Jefferson Sts., Philadelphia, Pa., think they are suffering from a simple stomach trouble, when in reality they are the victims of an entirely different disease—that of tape worm. These tape worms are huge internal parasites, which locate in the upper bowel and consume a large percentage of the nutriment in undigested food. They sometimes grow to a length of forty to sixty feet. One may have a tape worm for years and never know the cause of his or her ill health.

"Persons who are suffering from one of these creatures become nervous, weak and irritable, and tire at the least exertion. The tape worms rob one of ambition and vitality and strength, but they are rarely fatal.

"The victim of this disease is apt to believe that he is suffering from chronic stomach trouble, and doctors for years without relief. This is not the fault of the physicians he consults, for there is no absolute diagnosis that will tell positively that one is not a victim of tape worm.

"The most common symptom of this trouble is an abnormal appetite. At times the person is ravenously hungry and cannot get enough to eat. At other times the very sight of food is loathsome. There is a gnawing, faint sensation at the pit of the stomach, and the victim has headaches, fits of dizziness and nausea. He cannot sleep at night and often thinks he is suffering from nervous prostration.

"I have a treatment which has had wonderful success in eliminating these great creatures from the system. In the course of its regular action in aiding digestion, and ridding the blood, kidneys and liver of impurities it has proven fatal to these great worms. If one has a tape worm, this treatment will, in nine cases out of ten, stupefy and pass it away, but if not, the treatment will rebuild the run-down person, who is probably suffering from stomach trouble and a general anaemic condition. My doctors report marvelous success here with this treatment. Fully a dozen persons have passed these worms, but they are naturally reticent about discussing them, and of course we cannot violate their confidence by giving their names to the public."

Letters addressed to Professor James M. Munyon, 53d and Jefferson Streets, Philadelphia, Pa., will receive as careful attention as though the patient called in person. Medical advice and consultation absolutely free. Not a penny to pay.

TRULY CHARMING HAT

MODEL ONE OF THE BEST STYLES OF THE SEASON.

Various Distinctive Points About It Are of Importance—Also Excellent Investment as a Matter of Economy.

This very fine model is one of this season's shapes having a moderately high sloping crown. A wide net top lace with dainty floral pattern, serves to face the brim. A cascade across the front is held by a long buckle made of a double row of small June roses in pink. The moss sole variety is the best choice for this purpose.

This is a charming hat and both the shape and the lace will stand more than one season's wear. A good leg-horn hat and a fair quality of net lace make an excellent investment for those who buy good looking and economical millinery.

JULIA BOTTOMLEY.

WHITE FLOWERS ARE LIKED

Paris Has Set Its Seal of Approval on This Color for Forms of Ornamentation.

White flowers are perhaps the most important in the new favorites. In Paris there is a furore over the dead-white flowers that are of velvet or muslin. These are placed in white hats, that in their all-white glory are giving the new, fresh touches to the bright costumes worn at afternoon parties, receptions, etc.

Flowers formed of mousseline de sole are used to decorate sash ends. These are usually lily-shaped, with narrow pointed petals gathered into a yellow center of bright streamers.

Tiger lilies are giving the touch of brilliant orange to summer dresses. One large one will be used on the girde, a bunch of them will weight down a chiffon sash; a cluster will decorate a hat.

Hydrangeas in the shaded pinks and lavenders are mixed with white on large garden hats or formed into up-standing bunches at the side of white net lingerie hats.

The old-fashioned phlox, sweet wil-

liams, hollyhocks, candytuft, mignonne, heliotrope, with geraniums and nasturtiums, are very much in evidence. Indeed, the old-fashioned gardens are here again in our millinery world.

Lilacs in white and purple are here to form entire crowns on large hats. They also fashion the bunch at the side.

There seems to be no choice between the stiff flowers and the graceful ones. Any one will do, and no time limitation is placed on them, the new American beauties being just as popular as grandmother's favorites.

Picture Gown.

On every side one sees the revival of picture frocks that are most suitable for young girls and even for certain types of older women. That quaint old color known as forget-me-not blue is again in fashion and is used for such gowns as well as floral taffeta which has scattered bouquets over the surface or single flowers.

One gown made of the former fabric had a short skirt, was high-waisted and was draped with eyelet embroidered batiste in a strong ivory tone. Yards of fringed ruching made of the taffeta was used as trimming, and the drapery of the top of the tunic was held in at the left side of the waist with a bunch of forget-me-nots made of blue velvet.

Silk, in Serges and Taffetas.

For tailored suits that will also be used for a slightly dressy occasion nothing could be better than a silk serge. It is more difficult to handle in making up, but then the result is worth any extra trouble.

Striped and changeable effects also come in this line of goods.

Besides something new in serge, the new taffeta deserves mention. With the craze for soft, sweeping lines, taffeta proved too harsh a material. Now the chiffon taffeta has taken its place, possessing all the luster of the old material without its brittleness, and allowing itself to be draped into soft folds like chiffon.

Hair Stripe Lawn.

The woman of refined taste is enjoying this summer the lawns with a fine hair stripe, in black and white, or in any color with white. These lawns trimmed with the English eyelet work are charming, and, while any amount of the embroidery can be used, the amount can be regulated by the amount of money one can afford to spend. The band around the skirt is sufficient to make the frock look smart.

Novelty for Summer Wear.

White cotton marquisette, yellow wool, coarse linen lace and white porcelain beads, have been combined to produce a novel parasol with bag to match. The parasol of marquisette is bordered with the lace, fringed with loops of the wool, on each one of which is strung a white bead, and embroidered with a few large yellow wool flowers and a long yellow wool cord to carry it by.

Adjustable Collars.

Blouses with which it is desirable to have two styles of collar for different occasions can be arranged with a flat trimming round the neck. A high collar of net or silk as desired can have a sort of round peplum or shield attached to it. This can be slipped under the waist and secured with tiny fancy pins.

For Sheriff.

I hereby announce my candidacy for the nomination of Sheriff of Lincoln county, subject to the action of the democratic party.

ANDY S. MAYES.

I hereby announce myself a candidate for the office of Sheriff of Lincoln county, subject to the action of the democratic party.

L. F. AVENT.

For County Superintendent of Schools.

I hereby announce my candidacy for the office of Superintendent of Schools of Lincoln County subject to the action of the democratic party.

J. B. KOON. E.

For Assessor.

I make this means of announcing my candidacy for the office of Assessor of the county of Lincoln, New Mexico, and such announcement is made subject to the action of the democratic party expressed in its county convention.

WATT GILMORE.

THE SLATE FIXED.

An epoch-making junta took place at Santa Fe this week that prearranged the destinies of the republican party of New Mexico. The bosses were there, of course—what would a republican meeting in Santa Fe be without them? And the uncrowned king of Valencia county, he was there: no less conspicuous was the prince of the imperial family of San Miguel.

The imperial family of San Miguel was about to put one over the uncrowned king of Valencia, the easy boss, and relegate his man Friday (Bursum) to the rear. The easy boss was never in so much danger. If the prince of the imperial family walked off with the governorship the house of Romero would have the state grabbed and the easy boss would be without a job, and, in addition, he would lose his title without his headpiece.

But Don Solomon always preferred the smothering process to shooting—it's just as fatal to the victim, but the process makes less noise. So, following his gum-shoe methods, he side-tracked Secundino Romero, the imperial son of San Miguel, who had his eye on the governor's mansion, showed him how much good he could do the imperial family by going to congress, and

how much more preferable it was to the governorship. The allur-bait took: Sec. Romero goes to congress; Bursum goes to the governor's chair, while Otero, Jaffa, Hagerman and others go to the devil.

The easy boss won, and did so without being compelled to make the race himself for governor in order to forestall the imperial family of San Miguel. He is still the easy boss; he is still the uncrowned king of Valencia county; he is still gum-shoeing about, his fine Eye-talian hand in everything. The mailed fist was not in evidence—Sol doesn't believe in drastic measures—for, as said before, he prefers the smothering process.

For Sheriff.

In this issue of the News appears the announcement of L. F. Avent for the office of sheriff of Lincoln county. Mr. Avent announces his candidacy subject to will of the democratic party. Few men in the county are better known than this candidate for shrievalty honors. Coming to New Mexico sixteen years ago, and to Lincoln county four years later, and engaging in the stock business, he has acquired a large circle of friends who regard him highly; and, recognizing his peculiar fitness for the office to which he aspires, urged him to make the race for sheriff. For four years he was a member of the territorial mounted police, and in that capacity acquired a reputation for fearlessness, energy and well doing enjoyed by few of his associates. His acquaintance with the county, its people and the duties of the office for which he is a candidate are recognized by many, and if nominated and elected sheriff of Lincoln county; his past record is sufficient guarantee that he will fill the office to the satisfaction of the citizens of the county.

For Assessor.

In its regular place will be found the announcement of Watt Gilmore for assessor, his candidacy being subject to the action of the democratic party. Mr. Gilmore grew to manhood in this county, coming here with his father's family a number of years ago. In addition to being a graduate of the A. & M. College, Las Cruces, he later took a business course, which well qualifies him for the office he now seeks. He is not only a competent man, but is energetic and honest, necessary qualifications for an assessor, and has numerous friends who would be glad to see him chosen to this position.

Amounting to Less than \$25.

And notice of sale for taxes, penalties and costs for 1911.

Territory of New Mexico,
County of Lincoln

In pursuance of the laws of the Territory of New Mexico, I, the undersigned Treasurer and Ex-Officio Collector of said Lincoln county, N. M., do hereby make, certify and publish the following list of delinquent taxes amounting to less than \$25.00 with penalties and costs thereon, which became delinquent on the 1st day of June, A. D., 1911, the same being hereinafter set forth and containing the names of all the owners of property on which taxes are delinquent, a description of the property on which the said taxes are due, the amount of taxes, penalties and costs due thereon and the amount of taxes due on personal property.

And notice is hereby given that I, the undersigned Treasurer and Ex-Officio Collector of said Lincoln county, will offer for sale and sell to the highest and best bidder for cash, the several pieces of property hereinafter described, both real and personal, for taxes, penalties and costs, due and delinquent, beginning on the 6th day of November, 1911, at the front of the building under construction at the town of Carrizozo as a courthouse; that I will continue said sale from day to day if necessary until all the property described in the following list is sold, or until the respective amounts due shall be paid; that the said sale will be held between the hours of ten o'clock in the forenoon and four o'clock in the afternoon of each day of such sale; and that if a purchaser fails to pay the amount of his bid before ten o'clock of the day succeeding the sale of the property to him, the property bid for by him will be re-offered for sale, he not being allowed to make further bid or bids on such property; and that I will issue and deliver to the purchaser or purchasers of property at said sale a certificate of purchase as provided by law.

Dr. T. W. WATSON
Treasurer and Ex-Officio Collector, Lincoln County, N. M.

Dr. Raniger was up from Os-
curo Monday.

Sheriff Stevens was up from
Lincoln Monday and Tuesday.

Mrs. C. I. Walker is visiting
for a few days in the Estancia
valley.

Probate Judge Lucero was here
Friday holding a special session
of probate court.

Lute Jennings was over from
Parsons Saturday. He returned
the following day.

W. E. Blanchard was in town
Monday, attending a special ses-
sion of the probate court.

Walter Land and wife passed
through this week, enroute from
Parsons to Palomas springs.

O. C. Davis was down from
Nogal Monday with a load of fine
peaches from the Moore orchard.

Anderson Harkey returned
Sunday from a four months pros-
pecting trip in the Mogollon
mountains.

W. M. Ferguson was down from
the Mesa a couple of days this
week. He reports the prevalence
of whooping cough in his neigh-
borhood.

Colonel William C. Liller, of
Albuquerque, president of the
National Democratic League of
Clubs, is the guest of State Chair-
man W. C. McDonald.

William G. Thornboro came
down from Parsons Friday. He
attended the republican county
convention at Capitan Wednes-
day, as a delegate from the Car-
rizozo precinct.

L. F. Avent, whose announce-
ment for sheriff will be found
elsewhere in this issue, was here
Saturday to Monday, transacting
some private business and looking
over political conditions.

G. W. Zink, a Roswell jeweler,
was brought here Monday to an-
swer the charge of killing deer
out of season. The hearing was
continued until October 23. A
bond of \$500 for his appearance
was approved.

W. C. McDonald returned Sat-
urday night from Albuquerque
and other territorial points, where
he has been the past two weeks.
He was accompanied home by
Col. William C. Liller, of Indian-
apolis, who is president of the
National Democratic League of
Clubs.

A game of baseball has been
arranged between Jim Woodland's
aggregation and the Browns.
It is scheduled for Saturday,
September 30.

J. H. McCutcheon was down
from Gallinas Tuesday. Jack
has concluded that under certain
conditions the "pick is mightier
than the pen." We trust he will
find mining more pleasant and
profitable than dishing out news
from the editorial sanctum.

Ben Bechtel, the courthouse
contractor, came in Sunday from
Slaton, Texas. He was in Lin-
coln Monday, and presented his
warrant for payment, but Treas-
urer Watson refused to honor the
warrant. Mr. Bechtel has re-
turned to stay.

T. B. Weatherby visited the
White Oaks a few days since to
look over the industrial possibili-
ties of that justly celebrated dis-
trict. He is enthusiastic over the
resources of the camp, and says
they exceeded his expectations.
He hopes to be able to interest
capital at that point.

John White and wife of the
Mesa, and T. A. Hagee, wife and
daughter, Miss Annie, of Little
Creek, passed through here Mon-
day on their way to Palomas hot
springs. They expect to be ab-
sent three weeks or more, bathing
in and drinking of the health-
giving waters of that famous
resort.

Hon. Thos. B. Catron was here
and in Lincoln this week. The
distinguished attorney did not
make the purpose of his visit pub-
lic, but it is supposed to have been
two-fold, viz.: To consult with
the people of Lincoln on the coun-
ty seat case and to build some
political fences around his own
preserves. He returned home
Tuesday.

Eleven o'clock Sunday—subject Christain Union. 7:30 A Call to the Unconverted. We never conscript anyone, but we do invite all to come to our services.

The Baptist young people will meet at the church Sabbath evening, at 6:30. Leader, Kittie Reily; topic, Love to God. The program will be as follows:

Song, prayer, song. The lesson, consisting of the reading of references on the subject. Paper, Our Bible, Miss Ruby Perry; song; roll call, by the secretary, Miss Mildred Peers; song; sword drill, conducted by Miss Minnie Daniels; A Short Bible Study, by Miss Spellman; song and dismissal.

All are cordially invited to be present, from the ages of four to one hundred and four.

PASTOR.

Coming on their own special train of Pullman cars, endorsed by a discriminating public wherever they have appeared, receiving ovation upon ovation at their every stop, Lewis & Clark's Great Western Show is moving across the continent from east to west enroute to Hawaii and Australia on their tour around the world. To miss this gigantic dramatic organization is to overlook one of the very best plays ever offered for your amusement. The company never separates, never divides, but will positively appear here in a big tent, waterproof and large enough to seat two thousand and five hundred people. What would a show be without girls—Just like a bath without water, nothing to it. Engaged especially to actually portray the exacting characters of the western cow girl, Indian maiden and the other female representations appearing in Lewis & Clark's Great Western Show. The management has spared neither time nor expense to engage their ideal of what the part called for. If you want to see the handsomest wo-

man in America, don't miss the Cattle King, Thursday, Sept. 28.

FOR SALE—A fire-proof safe, 18x18 inside; also two pool tables, with fixtures.—JAS. P. WALKER, Carrizozo, N. M. 9-8-41

As usually treated a sprained ankle will disable man for three or four weeks, but by applying Chamberlain's Liniment freely as soon as the injury is received, and observing the directions with each bottle, a cure can be effected in from two to four days. For sale by all dealers.

We are to have the first real tent show of the season, Lewis & Clark Great Dramatic Company. They carry a big band and metropolitan orchestra, giving a concert on the main street at noon. If you are a music lover don't fail to be present at the concert. It is free as the air you breathe; given for your benefit. Manage your affairs to be down town when the band plays Thursday, September 28.

For bowel complaints in children always give Chamberlain's colic, cholera and diarrhoea remedy and castor oil. It is certain to effect a cure, and when reduced with water and sweetened is pleasant to take. No physician can prescribe a better remedy. For sale by all dealers.

Have just received a car of Imperial Flour. The best flour on the market at any price. Don't forget, we have the Imperial Flour, when you need the best money can buy.

Lyceum Entertainments.

A series of five entertainments are to be given in the Methodist church at Carrizozo, beginning with Oct. 9 and closing in February. Through the efforts of H. B. Dawson, A. J. Rolland and F. J. Sager, a contract was made with the J. S. White Lyceum Agency, Kansas City, Mo. The sum of \$200 had to be guaranteed to secure the course, and a sufficient number of Carrizozo people subscribed for season tickets to warrant the above-named gentlemen to guarantee the sum required. The entertainments are to be presented on the following dates:

L. E. Follonsbee, lecturer, subjects: Genius and Gumption, Puritan and Cavalier, Blundering People, Tom and Mary, Faces in the Mirror, and Brother Jonathan at Home and Abroad. Oct. 9th is the date set for the lecture to be given by Mr. Follonsbee, and what subject he will use is yet to be decided.

The next on the program is the Imperial Circuit Party, the date November 7th. This production is by a trio of accomplished lady musicians vocal and instrumental.

The third in the series is by Hallie Gassaway, and the date is December 12. It will consist of interpretive readings and illustrations from celebrated productions, "The Little Minister," by J. M. Barrie, furnishing one of the numbers.

The fourth will be a lecture by Homer T. Wilson, and the date on which he will appear is Jan. 10. Mr. Wilson has five subjects, one of which will be used on the occasion of his visit here, and they are: Sparks from the Anvil, America's Uncrowned Queen, The Man of Gallilee, The Sculptors of Life, and the Dynamo of Genius.

The fifth and last of the series will be presented by the Meistersingers Male Quartette, and their appearance is scheduled for the 20th of February. Single admission to these entertainments are \$2.00 for the five, or 50 cents for each one. Keep the above dates in mind. The series promises to be most entertaining and pleasing and offers our people an opportunity for entertainment seldom equaled in the southwest.

Mass Meeting.

A mass meeting has been called for Monday night, the place of convening to be the Exchange Bank building. The purpose of the meeting is to discuss an industrial proposition that will be presented to the meeting on that occasion, and to devise means to bring about its consummation. It is important that everybody attend this meeting, as it will deal with a matter of great interest to Lincoln county.

Republicans Hold Convention.

The republicans of this county assembled in convention at Capitau Wednesday. The purpose of the convention was to elect nine delegates to represent this county in the state and various district republican conventions. The following delegates were chosen:

W. S. Brady, John H. Canning, Geo. B. Barber, Manuel Jiros, Henry Lutz, W. E. Blanchard, Clement Hightower, T. M. DuBois and H. B. Hamilton. No instructions were given. It was decided to call the regular convention for the nomination of county officers October 16th, and Lincoln was selected as the place of meeting. Let the battle rage.

For County Clerk.

For the office of county clerk of Lincoln county, we present the name of W. E. Kimbrell, who announces his candidacy for this important office, in this issue. To the old-timers of this county, the candidate needs no introduction—he was born in Lincoln county—and his family has been prominent in the county since its organization. The applicant, himself, is no new man for the office of clerk. He was twice the candidate of his party for probate clerk, and both times he was victorious, the last time receiving a greater majority than any candidate on any ticket in the county for many years. This splendid endorsement was an appreciation

of his services for the previous two years, and his four years in the probate clerk's office give him an insight to the additional duties that will be required of a county clerk not possessed by many of his fellows.

Saturday was pay-day on the line. The disbursement was much smaller than the past months, as business on the line has been quite light. It is confidently predicted, however, that business will pick up soon, brought about by coal and cattle shipments.

The Bar W's loaded out eight cars of cattle Tuesday. They were sold to John H. Riley, of Colorado Springs, Colo., and he was here to receive them.

A Pleasure Trip.

Blitter (at servants' agency)—"Have you got a cook who will go to the country?"
Manager (calling out to girls in next room)—"Is there anyone here who would like to spend a day in the country?"—Life.

A series of nine striking Rocky Mountain views in colors, put up in convenient folder form, with descriptions of some of the wonder places of the West, has just been issued by the Denver & Rio Grande Railroad. It bears the title, "Panoramic Views," and is printed on good paper with stipple effect, which reproduces most effectively the original water color paintings from which the illustrations were made.

Hard to Please.

Old Mr. Batch—What are you worrying about?
Young Mr. Nubride—A little question that came up at home. My wife wants to know if I'd marry again in case of her death, and if I say "Certainly not" she'll think I'm longing for my freedom, and if I say "Sure thing," she'll think I have her successor picked out.

DAINTIES THAT HAVE HIGH PLACE ACROSS THE WATER.

Roast Beef Marseillaise is a New Way to Serve the Roast—Perfection of a la Mode—Sweetbread Cutlets.

Roast Beef Marseillaise.—Have the ribs of a two rib roast removed and roast dressed up to retain the juices. Many persons prefer the bones left on, and while it is harder to cut this way, it makes a juicier bite. Put half a cup of olive oil into a pan and heat it. Then add the meat, well salted and peppered, cooking either rare or well done as preferred. The French way is well done.

Make a sauce as follows: Mince three onions and color in oil, simmering until tender. When slightly brown add two tablespoons of vinegar, a teaspoon of mustard, salt and pepper and a half pint of well flavored stock of bouillon. Boil for three minutes and pour over the roast, serving in a deep platter.

Beef a la Mode.—Have a juicy piece of top sirloin cut for this purpose and have it larded with salt pork. Brown in an iron pot, using butter and bacon mixed. When the meat is brown add a soup bouquet, two cloves of garlic and a large onion, whole; adding also a calf's foot, split in several pieces. This makes the gravy gelatinous. Add enough water to cover, then set on the back of the stove, simmering at the boiling point, but do not allow to bubble, as that extracts all the juice and makes the meat dry and unpalatable. It should be soft and full of juice. About half an hour before it is done add some small carrots. Some persons add potatoes, but beef a la mode, according to the French style, has no potatoes, these being cooked on the side. It is just as good cold, sliced with the gravy jellied, served on the platter. The gravy should be strained, eliminating the onions and any spices that may be floating loose.

Sweetbread Cutlets.—Wash, parboil, and simmer for 20 minutes one pair of sweetbreads, adding a slice of onion, one of lemon and a bay leaf, with a teaspoon of salt. Drain well and when cool remove the skin and membrane and cut in large slices. Make a sauce with four tablespoons of butter, six tablespoons of flour and one cup of milk, season well with salt, pepper and lemon juice. Cool this also and then put two slices of meat together with sauce, coating it well. Bread and fry like croquettes and serve with green peas or a creole sauce.

Creole Sauce.—Cut in pieces one small onion and two or three green peppers (after removing seeds), and fry slowly in butter. When tender add several tomatoes (also cut in pieces) and cook ten minutes longer. Season well and serve very hot.

Old Colonial Mint Cup.

Steep one bunch of mint in sufficient hot water to extract the flavor; remove from the fire and add the juice of six oranges and two lemons. Dissolve over hot water one-half ounce of pulverized gum arabic, which has soaked in one-half cupful of cold water for twenty minutes; add one cupful of sugar and cook until it spins a thread.

Pour this boiling hot upon the stiffly beaten whites of two eggs, beating until cold and smooth. Stir in the strained fruit and mint juices and dilute to the required strength with carbonated water. Garnish each portion with lemon peel and sprigs of mint.

Parker House Corn Cake.

Mix one cup flour, one cup Indian meal, one and one-half teaspoons cream of tartar, one teaspoon soda and a little salt together. Then mix one egg and one cup warm milk together, then pour in dry mixture. Beat well and bake.

NEW STRENGTH FOR BAD BACKS.

Those who suffer with backache, headache, dizziness and that constant, dull, tired feeling will find comfort in the advice of Mrs. C. S. Tyler, Cando, N. Dak., who says:

"My back became terribly sore and lame. I was tired and restless and would arise so exhausted I could scarcely dress. The kidney secretions were terribly annoying and my feet became so swollen I could not wear my shoes. Nothing helped me until I began using Doan's Kidney Pills. They gave me prompt relief and in a short time I was entirely cured."

Remember the name—Doan's. For sale by druggists and general storekeepers everywhere. Price 50c. Foster-Milburn Co., Buffalo, N. Y.

A Complication.

Bessie found getting well much more tiresome than being sick. She was becoming very impatient about staying indoors and eating soups.

When her aunt asked her how she felt she replied that she was much worse; that the doctor had found something else the matter with her. "Why, what is it?" asked her aunt. "I think the doctor said 'convalescence.'"

TO KEEP THE SKIN CLEAR

For more than a generation, Cuticura Soap and Cuticura Ointment have done more for pimples, blackheads and other unsightly conditions of the complexion, red, rough, chapped hands, dandruff, itching, scaly scalps, and dry, thin and falling hair than any other method. They do even more for skin-tortured and disfigured infants and children. Although Cuticura Soap and Ointment are sold by druggists and dealers throughout the world, a liberal sample of each, with 22-page book on the care of the skin and hair will be sent post-free, on application to "Cuticura," Dept. 22 L, Boston.

THE STANDARD OF QUALITY FOR OVER 30 YEARS

The workmanship which has made W.L. Douglas shoes famous the world over is maintained in every pair.

If I could take you into my large factories at Brockton, Mass., and show you how carefully W.L. Douglas shoes are made, you would then understand why they are warranted to hold their shape, fit better and wear longer than any other make for the price.

CAUTION The genuine have W. L. Douglas name and price stamped on bottom.

If you cannot obtain W. L. Douglas shoes in your town, write for catalog. Shoes sent direct from factory to wearer, all charges prepaid. W. L. DOUGLAS, 145 Spark St., Brockton, Mass.

THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's Vegetable Compound

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and am enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

Write to Mrs. Pinkham, at Lynn, Mass., for special advice. Your letter will be absolutely confidential, and the advice free.

INDIAN MAID PUT CURSE ON SWOPE MILLIONS?

KANSAS CITY, MO.—If it wasn't an Indian maiden's curse, in the name of goodness what was it that laid a withering blight on the house of Swope and made it a house of death, of misfortune, of tragedy?

In the east the name of Swope means not so much; in the west it has a ring such as the name of Astor or Goelet has in New York, for Col. Thomas H. Swope, either through calculating shrewdness or ignorant luck, sat himself down on cheap-bought acres upon which Kansas City was to rise.

The story of money-getting is always more real than romantic. People came and lifted Colonel Swope out of his cowhide boots and stood him in patent leathers; they touched his hard-grubbed two-bit piece and it became gold. There's a talisman in gravel as well as in other things.

If you ask a grizzled pioneer of the Sni Hills—river bluffs where Kansas City rises—to tell the story of the curse, he works back to it, noting the incidents on knotted fingers. And it runs this way:

Roll of Death and Disaster.

Logan O. Swope, only brother of the millionaire, died in Independence, Mo., in the prime of life.

Moss Hunton, confidential agent and adviser of Colonel Swope, died mysteriously two years ago.

Col. Thomas H. Swope, head of the house, alleged to have been poisoned with cyanide of potassium administered by Dr. Bennett Clark Hyde, died two weeks after Hunton's death.

Chrisman Swope, nephew, died of typhoid fever contracted from germs alleged to have been administered hypodermically by Dr. Hyde.

Lucy Lee Swope, niece, was barely saved from death by typhoid contracted, it is charged, while journeying from New York to Kansas City with Dr. Hyde. Hyde was accused of administering germs in drinking water on the train.

Thomas Swope, nephew, arm blown off by accidental discharge of shotgun while hunting.

Mrs. Margaret O. Swope, widow of Logan O. Swope and sister-in-law of Colonel Swope, now suffering from nervous prostration and general breakdown.

Dr. Bennett Clarke Hyde, husband of Frances Swope, niece of dead millionaire, indicted on eleven counts for the murder of Moss Hunton, Col. Thomas H. Swope and Chrisman Swope and for administering typhoid germs to Lucy Lee Swope and other members of the Swope family; once found guilty and sentenced to life imprisonment on the Colonel Swope indictment; in jail for one year; verdict reversed and case remanded for new trial; now out on \$50,000 bail.

Frances Swope, wife of Dr. Hyde, estranged from her family because she has stood steadfast for her husband and has spent much of her share of the Swope millions in trying to prove his innocence.

Son of Dr. and Mrs. Hyde and grandnephew of Colonel Swope died a few hours after birth while Hyde was in jail. The doctor was permitted to visit his wife during her sickness, but arrived some time after the child had died.

Foundation of Swope Fortunes.

Elmer Swope of Virginia, who claims to be a son of Col. Thomas H. Swope by a marriage contracted while the millionaire was in east in 1861,

is suing for the bulk of what is left of the Swope fortune. The case goes to trial in a few weeks.

In the fifties Tom Swope came to Kansas City, then a dot on the Missouri river known as Westport Landing. Reared on a farm in the east, he soon, for a few dollars, acquired one of his own in the new country. He bought with no eye to the future great city. He planned only for a farm, but he wanted a big one. Having laid out a homestead he began looking about for multiples of his original 160 acres. Ready money was scarce in that country to all save Swope. Waist-high prairie grass stretched for miles and no one knew the real value of the land. This gave Swope the opportunity he wanted. He bought on all sides until it was half an hour's gallop across his holdings.

Between his farm and a tract he had purchased lay many acres to which an Indian girl held title, which had descended to her from ancestors. Young Swope coveted this ground and finally secured it. Whether a few beads and blankets and gawdy shawls were the purchase price or whether the maid was induced by honeyed words spoken while the lovelight blinded her eyes to sign away her rights is not so important. They did business both ways half a century ago. Anyway, he got it, and a bargain is a bargain.

The Outraged Indian Maiden.

Thus, according to the story which is made authentic by many confirmatory nods of heads, Tom Swope made the one real mistake of his life. Redskins were as numerous as palefaces in the border country when he settled there, and it would have been to his advantage to have steered clear of any transaction which did not carry with it a puff of the pipe of peace.

By and by the girl set up the plea that she had been duped and asked that the land of her fathers be returned to her. But as he laughed she cursed him and all his house:

"May fortune smile upon him only to blight him and his. Hear the prayer of an Indian maid who has lost to this man the land of her fathers."

Swope's neighbors knew the anger of the girl. They knew of the curse. But if he ever heard it he never by any act betrayed the knowledge.

Millionaire Without Effort.

The years rolled by, the people came, they built a great city around the Swope farms. His pastures were cut into streets, his wheat fields into building lots. His homestead became a business center. A bank rose on the site of his cowshed. He became a millionaire almost without the turn of a hand.

Landless, farmless, the result of a city's growth, he seemed scarcely to know what to do with his vast fortune. Almost in sadness he walked the streets where once he had ploughed and sown and reaped. Wealth appeared to bring him no happiness. Always a hard working man, he found little joy in a life of idleness. Apparently he longed for the strenuous years of his youth. What few times he came downtown in his later years he found himself in a city of strangers. Old friends were gone; he made few new ones. His was a solitary figure that not many recognized.

Kindly of heart, he gave thousands away, but without much system or reason. He had too much money. It worried him. It was a burden. Thirteen hundred acres, lying along the Blue river and adjacent to Kansas City, he gave to the people for a park, which bears his name. He gave to charities and to all public funds. Yet he kept in the background and appeared to gain no happiness even from philanthropy.

He was a sombre man, gloomy, alone. The curse had begun to work.

His brother was dead, leaving a large family in a beautiful home on Pleasant street in Independence, nine miles as the crow flies and the trolley car runs from Kansas City.

Thither went Colonel Swope to live, and thither he took Moss Hunton, his friend and counsellor

It was in Independence that troubles began to crowd upon the generous old colonel. One day in turning the calendar he came to a summer month illuminated with the drawing of an Indian girl's head. The colonel looked at it from different angles and then tore it from its place.

Enter Dr. Hyde.

Dr. Bennett Clark Hyde, well-known physician of Kansas City, had wooed and won Frances Swope, niece of the millionaire, against the wishes of the girl's family. This estrangement was patched up and Hyde was the family physician of the Swopes when Hunton died suddenly and under circumstances later termed "suspicious and mysterious." A few weeks later Colonel Swope, apparently overcome by the death of his companion, passed away. And then Chrisman Swope, the nephew.

These three deaths, followed by an epidemic of typhoid that threatened to wipe out the entire Swope family, resulted in a rigid investigation. Dr. Hyde's name was dragged into the inquiry and he promptly sued the executors of the Swope estate for \$100,000 damages.

While the damage suit was pending and while small fortunes were going for attorneys' fees Hyde was indicted on the charge of poisoning Moss Hunton and Colonel Swope, Lucy Lee Swope and others with typhoid germs.

A Trial and Counter-Trial.

Hyde dropped his damage suit for the more important labor of saving himself from the gallows or the penitentiary. The dollars began to pour out. The executors employed the best legal talent in two states to assist the prosecution. Mrs. Margaret Swope turned loose many of her thousands in an effort to punish the man she thought had murdered her son and brother-in-law, even though that man was the husband of her daughter and the father of her expected grandchild. Frances Swope dug deep into her thousands to defend her husband.

The trial was long-drawn and bitter. The one-armed son, whose injury added but another to the list of tragic events, sat by his mother's side, flanked by the sisters who had been victims of the typhoid epidemic. At another table sat Dr. Hyde and his wife, the woman this time estranged forever from her mother, brother and sisters.

A conviction was the result, but the case went to the highest court, which promptly reversed the decision and remanded the case for new trial.

Now it must all be done over again; more thousands must be spent; there will be more bitterness; the gulf of estrangement will only be widened.

The grandson, whose baby hands and baby smile might have smoothed everything, lived but a few hours. His father was in jail, his mother practically alone, except for physicians and nurses. One more tragedy to write into the growing record.

And so the tragic story rounds itself out. The graybeards shake their heads and say Tom might better not have done it—meaning, of course, drive the sharp bargain with the red-skinned daughter of the prairies and thereafter give no heed to her pleading.

Back in the hills visitors have pointed out to them a few grass-covered mounds where the bones of the Indian lie. In one of these graves are the remains of the girl from whom Swope pieced out his acres and turned her first to grief and then to anger.

Believe it or not, as you may, it's better not to have a curse on your head, and an Indian's curse is as bad as any.—New York World.

An express on its way to Lyons, France, was stopped the other morning by a lunatic, who stood on the line waving a red flag. Subsequent investigation showed that the man had gone mad through reading about railway strikes and acts of wreckage by strikers

The Fly.

"Where one earth do these flies come from?" is a frequent and despairing question.

They may come down the chimneys, if the fireplaces have tipping dampers. These should be tightly closed in fly-time. An appreciable falling off in their number will be the result.

If the chimneys have not the tipping damper, a screen such as is used for a window can be fitted into the fireplace; or, easier still, a bundle of paper may be stuffed up the chimney.

Either method is successful, and no trouble is too great to get rid of these summer pests.

AT THE PARSONAGE.

Coffee Runs Riot No Longer.

"Wife and I had a serious time of it while we were coffee drinkers.

"She had gastritis, headaches, belching and would have periods of sickness, while I secured a daily headache that became chronic.

"We naturally sought relief by drugs without avail, for it is now plain enough that no drug will cure the diseases another drug (coffee) sets up, particularly, so long as the drug which causes the trouble is continued.

"Finally we thought we would try leaving off coffee and using Postum. I noticed that my headaches disappeared like magic, and my old 'trembly' nervousness left. One day wife said, 'Do you know my gastritis has gone?'

"One can hardly realize what Postum has done for us.

"Then we began to talk to others. Wife's father and mother were both coffee drinkers and sufferers. Their headaches left entirely a short time after they changed from coffee to Postum.

"I began to enquire among my parishioners and found to my astonishment that numbers of them use Postum in place of coffee. Many of the ministers who have visited our parsonage have become enthusiastic champions of Postum." Name given by Postum Co., Battle Creek, Mich.

Postal Savings for Carrizozo.

Postmaster W. M. Reily has received notice from the department that Carrizozo has been designated as a postal savings depository. The date was not given as to the actual time for opening the office here, nor are all the necessary blanks on hand, but these details will soon be supplied and the depository in operation.

Accounts may be opened and deposits made by any person of the age of 10 years or over, in his or her own name; but one person will not be permitted to make a deposit in the name of another. A depositor must be a patron of the office wherein the deposit is made.

Deposits may be made in the sums of \$1, \$2, \$5, \$10, \$20, \$50 and \$100, not more than \$100 to be deposited during any calendar month. Each deposit will bear interest from date of deposit, and a certificate will be issued bearing the name of the depositor, number of the account, amount, date of issue, etc.

Interest will be allowed on all deposits at the rate of 2 per cent per annum, computed on each saving certificate separately, and payable annually. No interest will be paid on deposits for a fraction of a year. All deposits are exempt from execution.

A depositor may withdraw at any time the whole or in part of his deposits, with interest payable, by surrendering his savings certificates, properly indorsed for the amount desired. The foregoing constitute the principal features of the plan, but individual depositors will be given all necessary instructions by the authorities.

Vaudeville! Vaudeville! Vaudeville!

and the very best of vaudeville, too—after the conclusion of the performance of the Cattle King Lewis & Clark have engaged for your delectation a superb coterie of celebrities. Each and every one selected for his or her merit as a fun producer. The ladies and gentlemen appearing in the concert are engaged for that purpose and take no part whatever in the dramatic event of the evening. Their principal number is a spectacular comic opera, extravaganza, elaborately staged and magnificently costumed, and presented on a scale of grandeur never before offered outside of a metropolitan city. Startling scenes, Bewildering Ballet, Grand Chorus of famous voices and a big show for a little price. Stay for the concert with Lewis & Clark's Great Western Show, Thursday, September 28.

On Local Resources.

I've prospected this immediate coal field for five months, from the Ruidoso, which has a 42-inch seam of clean coal, in which an opening has been driven in 90 feet on property owned by Paul Heerman, of El Paso. There are between two and three thousand acres of this land that would make a fine mining proposition; also a good quality of shale and limestone, to say nothing of timber and other natural resources. There is a fertile valley from Roswell up to this point (80 miles) that looks like a feasible railroad proposition, which would be the only means of marketing these products.

White Oaks, however, is the richest place in natural resources I've seen. The coal vein is larger, varying from 4 to 5 feet, free from bone or any foreign matter. It is the best domestic coal within twice the distance of the El Paso market. This is an area, the extent of which has never been proven, but from the cutting in the coal crop and judging from the formation, which has less dikes than any other part of this field, there is between five and six thousand acres accessible to an opening in the vicinity of the Old Abe mine. There is, practically, an inexhaustible shale and limestone deposit there, besides the gold mines which have been running for years on a paying basis.

All these natural resources are within ten or twelve miles of the railroad, and the construction of a line to that point would be exceptionally cheap. Coal, brick and cement are the staple commodities—they should be put on the market. All this matter needs is some "push."
