MONSTER MEETINGS!

Opening of Christian Endeavor Convention at Boston.

League of American Wheelmen Meets at Asbury Park.

Denver Chinese Create a Riot, Calling Out the Police.

OTHER TELEGRAPHIC TOPICS.

Boston, Mass., June 10.—Three monster meetings, each attended by not less than ten thousand people, marked the formal opening of the Christian Endeavor convention, and the largest and most enthusiastic gathering of Christian young people ever held was inaugurated with a vim and vigor that leave no doubt regarding the success of this nineteenth century crusade. The three simultaneous meetings were called to order shortly before ten o'clock in the Mechanics' Building, Tent William and Tent Kuleavor, the two latter structures being located on the famous Boston Common, an unprecedented concession on the part of the city government. Governor Frederic T. Green had welcomed the audience in the Mechanics' Building on behalf of the state, and Rev. A. H. Plumb greeted the visitors on behalf of the local pastors. In Tent William these functions were performed by Mayor Edwin U. Curtis, of this city, and Rev. A. S. Gurnham; and in Tent Kuleavor by Lieutenant Governor Roger Wolcott, and Rev. M. D. Kneeland. Responses on behalf of the society were made by Rev. K. R. Dille, of San Francisco, and Rev. John Henry Barrows. The annual report of General Secretary John Willis Baker was presented at each of the three meetings.

Twenty-four denominational rallies were held this afternoon in as many churches the leaders being prominent members of the different denominations. Following is the list: African Methodist, led by Rev. R. Haywood Stitt, of Philadelphia; Baptist, Rev. H. C. Vowler, of Denver, Pa.; Canadian Presbyterian, Rev. W. R. Cruikshank, Montreal; Church of God, J. W. Mackey, Harrisburg, Pa.; Congregational, W. H. Strong, Detroit; Cumberland Presbyterian, Rev. R. W. Lewis, Meridian, Miss.; Disciples of Christ, Rev. Allan B. Philpott, Philadelphia; Free Baptist, Rev. O. H. Tracy, N. Y.; Friends, W. B. Bell, Milton, N. Y.; German Societies, Rev. G. Berner, Buffalo; Lutheran, Rev. W. S. Hinman, Columbia, Pa.; Methodist Episcopal, North, South and Canadian, Rev. Wallace McMillen, Philadelphia; Protestant Episcopal, of Canada and United States, Canon J. B. Richardson, London, Ont.; Reformed Church in America, Rev. Isaac W. Gowen; Reformed Church in the United States, Rev. Henry T. Spangler; Reformed Episcopal, Bishop Samuel Fallows, of Chicago; Reformed Presbyterian, Rev. S. McNaughton; Southern Presbyterian, Prof. James Lewis Howe, Lexington, Va.; United Brethren, Rev. H. L. Shupe, Dayton, O.; United Evangelical, Prof. Otto L. Jacoby, United Presbyterian, Rev. R. M. Russell, of Pittsburgh.

"Prayer and Praise" meetings will be held this evening in Mechanics' building and in both of the tents. The annual report of President Francis K. Clark will be presented and numerous speakers will address the Kuleavorers, among them Dwight L. L. Moody, Rev. T. De Witt Tinsmead and John G. Woodley.

Denver Chinese Rioters.

Denver, July 11.—Shortly before noon today policemen were sent in a hurry to the Chinese quarter in response to a riot call. About twenty Chinamen were doing battle with axes, knives, clubs and stones, but on the approach of the patrol wagon they sought hiding places. Sam Lung Wa, proprietor of an opium joint, was found with severe wounds on the head, which may cause his death. He had been struck with an axe by My Gow, his business rival, whose place was raided as he believed at the instigation of Sam Othors, rioters, were followers of these two leaders. My Gow has not yet been caught.

Publicly Accused.

Nogales, Arizona, July 11.—A courier from Opauros, Monteruma district, Sonora, brings the information that on the fourth, near that place, six men were publicly executed by the Mexican authorities for complicity in robberies.

A Murderer Acquitted.

Huntington, W. Va., July 11.—Charles Ringo, who has been on trial for the murder of Gibbs Finley, his stepson, was today acquitted. He will be tried at the

next court on the charge of murdering another of his stepchildren. Public sentiment is strong against Ringo, and if released it is thought a mob will string him up.

Bicycle Riders.
Asbury Park, N. J., July 11.—The races of the national meet of the League of American Wheelmen opened this morning with the conditions all in favor of making the occasion the most important gathering of bicyclists yet held. Five thousand wheelmen are present and the track is in perfect condition. The day's program is as follows:

First race, one mile, novice.—First prize, gold medal; second, silver medal.
Second race, two-mile handicap, class A.—First prize, diamond stud; second, roller top disk.
Third race, one-half mile open, class B.—First prize, diamond ring; second, diamond pin; third, diamond brooch.
Fourth race, one-half mile open, class A.—First prize, diamond ring; second, diamond case; third, revolving chair.
Fifth race, two-mile national championship.—First, second and third prizes, regulation L. A. W. gold, silver and bronze medals.
Sixth race, one mile open, with pace-makers, class B.—First prize, diamond stud; second, hammerless gun; third, Turkish chair.
Seventh race, one-mile tandem, class A.—First prize, shot-gun; second, tourist's traveling case.
Donald McKay, of Denver, won the first heat; K. W. Swanbrough, of Denver, second heat for the mile race for novices in the bicycle meet.

Want Peace.
Welch, W. Va., July 11.—Eleven strikers to-day laid down their guns and have resolved to have a peaceful settlement with the operators, if any.

GOING AND COMING.

Personal Paragraphs About Visitors and Home People.

From Thursday's Daily.
Phil Prager, the visiting commercial tourist, is in the city.
W. C. Blackwell left for Denver on last night's train.
Ivan Grunfeld came in last night from business trip to Grant's.

Miss Fannie Barrett and sister took a sleeper last night for Kagle, Neb.
Fred J. Otero went up to Las Vegas last night on a short business trip.
Hon. Trinidad Alarid, ex-territorial auditor, came down from the capital last night.
Mrs. Harry Strong and baby will summer in southern California. The baby is quite ill.

H. H. McChesney and wife are registered at Sturges' Kuronia hotel from Window.
J. N. Taylor was a passenger from here on the Atlantic express last night for St. Louis.

General Superintendent C. G. Wells returned home last night from Chicago in his special car No. 99.
Sheriff Max Luna and J. A. Lopez, of Los Lunas, are here to attend the Sandoval-Baca wedding to-night.

Joe G. Chavez, the energetic live stock agent of the Santa Fe, returned from the north on last night's train.
Brother Botolph, principal of St. Michael's college, Santa Fe, was in the city last night, returning north this morning.

R. W. Dobson, junior member of the law firm of Childers & Dobson, who was in Las Vegas on professional business, returned home last night.

Mrs. John McLain, wife of one of the able mechanics at the Albuquerque foundry, has been quite ill since Monday night, and was somewhat better last evening.

Mrs. Beatrice A. Ortiz and Miss Carlota A. Alarid accompanied Trinidad Alarid down from Santa Fe last night to attend the Sandoval-Baca wedding this evening.

Dave Strachan returned last night from Santa Fe, where the remains of his deceased brother, Dr. W. T. Strachan, were followed to the grave yesterday by a large number of citizens.

A. K. Walker has been an anxious visitor to the depot for a couple of evenings. He is expecting the arrival of every train of his sisters, Mrs. U. J. Hoffman, of Ottawa, Ill., and Miss Ida Walker of Chicago, who have been attending the educational convention in Denver. They will visit with Mr. and Mrs. Walker a few days before returning home.

Wm. Burger, of Allentown, Penn., who is spending the summer here for his health, left yesterday morning for Camp Whitcomb, where he will remain some time. Mr. Burger, who came here in March, is improving in health rapidly.

His brother Clarence, who accompanied him here, will return to his Pennsylvania home Sunday morning. Clarence has made many friends while in the city, who regret his departure.

Michael O'Neill, a young steel engraver, tried to rescue them, and all four were drowned.

Will Lead to Controversy.

Paris, July 11.—The Figaro this morning publishes a statement from James B. Rustin, United States ambassador to France, in which he says: "The fact is now recalled to my memory that Secretary Vignaud introduced M. Rottier to me May 13, not as a journalist, but as a writer. According to my custom, I had a conversation with him, but I certainly did not authorize Rottier to publish it. He did not tell me he had such intention

WAR CORRESPONDENT!

Frank Woodward Treated Badly While in Cuba.

P. D. Armour Tells Why Meats Are on the Rise.

The National Educational Association Elects Officers.

MURDERER HAYWARD IN LOCK.

New York, July 11.—Frank Woodward, Cuban war correspondent, arrived to-day on the steamer Arisailu from Otilara, apparently none the worse for his trying experience in Cuba. Woodward, after many weeks of hardships, managed to reach Otilara. He proceeded instantly to the United States consular agency, where he met Jose Boda, United States consular agent, and an officer of the Spanish army. Boda, Woodward asserts, treated him discourteously, advising him to give himself up to Spanish authorities, which would mean imprisonment for a long period. He was compelled to seek the protection of the British flag aboard the tramp steamer Arisailu, and through the kindness of Captain Walker, managed to reach home alive. Boda, Woodward says, refused to recognize him as an American citizen and declined to communicate with Santiago de Cuba, where Woodward stated his papers had been filed with Consul Hyatt and declared all American reporters were paid by Cubans to write lies.

Scientific Expedition.
St. John, N. F., July 11.—The steamer Kite sailed to-day with the Greenland scientific expedition to relieve Lieutenant Peary.

Steady Main.
Arkansas City, Kansas, July 11.—After forty-eight hours' steady rain the Arkansas and Walnut rivers are rapidly rising.

FIRE AT WILLIAMS.

Two Business Blocks Entirely Destroyed.

GASOLINE STOVE THE CAUSE.

Special to Citizen.

Williams, A. T., July 11.—Fire broke out on Front street about 8 o'clock this morning, destroying two entire blocks of the business portion of the town. The wind was blowing strong from the south and the flames swept everything clean in their path.

Williams has no fire department and all attention was turned to saving stock and fixtures which were about all saved. The fire originated in the rear of a tailor shop from the explosion of a gasoline stove.

The total loss will reach between sixty and seventy thousand dollars. The following prominent business men were among those burned out, stock and fixtures being about all saved: J. B. Boyles, saloon; C. P. Smith, saloon; Jack Burrows, saloon; J. P. McNeil, saloon; M. Altman, dry goods and lodging house; Garcia's harness shop; W. F. Lamar, barber shop; city jail. Several parties were burned more or less seriously. No fatalities as yet reported.

North-Krout Meyers. of the firm of Lowenthal & Meyers, received the following dispatches this afternoon:
"All upset. Will write later. J. L. Burrows."
"Can you get me large tent 25 by 60 feet. If so, send at once. J. P. McNeil."

"Fire swept two full blocks. All saloons but ours, and hotel destroyed. Most liquors and furniture saved. L. F. Peters."

Doing Well.
Atlantic City, N. J., July 11.—Mayor Stoy reports this morning that all those injured by the collapse of the floor of the Casino, during the social session of the Kike last night, are doing well. Notably, he says, is likely to die. Fred Klahrth, of Camden, N. J., musician, who was seriously hurt, was taken home this morning.

Double Crime.
Butler, N. J., July 11.—Daniel Ackerman, a resident of Smith Mills, stabbed his wife and then himself with a pocket knife to-day. Mrs. Ackerman died in a few minutes. Ackerman is not expected to recover. Mrs. Ackerman left her husband for another man some time ago. This is supposed to have been the cause of the murder.

Havage Ex-Convict.
Watertown, N. Y., July 11.—John Hoch, ex-convict, shot and killed Minnie Ingersoll, aged 16, who rejected his attentions, and fatally wounded Nicholas Strife, an aged farm hand, who was with her. When cornered, Hoch shot himself in the head. He may recover.

Stay Granted.
Minneapolis, July 11.—The supreme court has granted a stay of execution in the case of Harry Hayward, under sentence of death for murder, until after the appeal can be heard at the October term.

Chicago Termin Market.
Chicago, July 11.—Wheat, July, 54; August, 60; Corn, July, 44; September, 48 1/2; Oats, July, 24; August, 23.

Silver and Lead.
New York, July 11.—Silver, 66 1/2. Lead, 33 1/2.

Mrs. Weidner's party did not start on their trip to the City of Mexico, as intended, on account of the washouts.

W. B. Childers left his family comfortably located at the Pecos and has returned to professional duties.

W. L. Trimble and Walt Codington expect to go to Chihuahui this afternoon or evening.

and if he had, I should have forbidden him, as would have been my duty, to divulge anything of our conversation. I did not use the language Rottier attributes to me."

Katafete discussing the affair, remarks:
"It would not require many incidents, especially in view of the effect which it produced in Spain, to lead to serious complications with the United States. The fault rests entirely with the United States, which, by carrying out the application of the Monroe doctrine, to abuse, and by unequally in their intervention to disturb European nations and injure in the end their most legitimate interests."

Growing Higher.
Colorado Springs, July 11.—It is believed that the work of the government surveying party now here will disclose an error in reckoning, made from the old Kansas Pacific survey, of the elevation of this locality, and that the altitude of Pike's peak will be proven to be 15,047 feet, a gain of over 100 feet.

Fatal Collision.
Buenos Ayres, July 11.—In a collision between two emigrant trains, at San Pablo, province of Corrientes, fifteen persons were killed and thirty injured.

Relief Expedition.
St. John, N. F., July 11.—The steamer Kite sailed to-day with the Greenland scientific expedition to relieve Lieutenant Peary.

Steady Main.
Arkansas City, Kansas, July 11.—After forty-eight hours' steady rain the Arkansas and Walnut rivers are rapidly rising.

FIRE AT WILLIAMS.

Two Business Blocks Entirely Destroyed.

GASOLINE STOVE THE CAUSE.

Special to Citizen.

Williams, A. T., July 11.—Fire broke out on Front street about 8 o'clock this morning, destroying two entire blocks of the business portion of the town. The wind was blowing strong from the south and the flames swept everything clean in their path.

Williams has no fire department and all attention was turned to saving stock and fixtures which were about all saved. The fire originated in the rear of a tailor shop from the explosion of a gasoline stove.

THEY ARE OPPOSED!

Austin, Texas, Ministers Opposed to the Corbett Fight.

Two Denver Girls Wrongly Accused of Kidnapping.

Oxford Defeated by Eton at the Henley Regatta.

BUENOS AYRES RAILROAD ACCIDENT.

Austin, Texas, July 11.—A delegation of the ministers of Austin have appealed to the governor to prevent the Corbett-Fitzsimmons fight at Dallas. The governor assured them that the provisions of the law were adequate and would see that the fight would not come off. The ministers say they want the laws made adequate to prevent the fight.

Henley Regatta.
Henley-on-Thames, July 11.—There was a larger crowd than usual assembled to-day to witness the final heat of the Henley regatta. When Eton college and the crew from St. John's college (Oxford) were sent away in the final heat for the ladies' challenge plate, at third stroke Eton's No. 2 caught a crab and lay at the bottom of the boat and for a moment was unable to rise.

The Oxford boat was couple of lengths ahead, when the Oxford oarsman, H. C. Sells, cried, "Kane all."

Oxford then returned to post and frantically, while the Eton rowed their oars in rowlocks in approval.

"Brave Oxford," was heard on all sides, and the cry, "No more Cornell," was heard from several boats.

The race was then started again and the Eton crew won as they liked by eight lengths.

The crew of the London rowing club (of A. S. Little, bow; H. W. Stout, Vivian Nickalls and Guy Nickalls, stroke), defeated the crew of the Thames rowing club to-day in a final heat for the Stewards' challenge cup, winning that trophy.

In the final heat for the grand challenge cup, the Trinity Hall (Cambridge) rowing club crew, which defeated Cornell yesterday, beat the new college (Oxford) crew, thus capturing the trophy representing the blue ribbon of aquatic. Trinity Hall won by one-third of a length in 7 minutes, 30 seconds.

The crew of the London rowing club (Vivian Nickalls and Guy Nickalls, stroke), won the "Nickalls' cup," or silver goblet, defeating the Thames rowing club, with Broughton and S. D. Mullinbury, stroke. The race was a splendid one.

In the fifth heat for the diamond sculls, Rupert Guinness, of the leader boat club, beat Guy Nickalls, of the London rowing club.

In the final heat for the Thames challenge cup, the crew of the Nereus boat club, of the Amsterdam (Holland) university, defeated the crew of the Molay rowing club.

Strange Kidnapping Case.
Denver, July 11.—When his wife was dying in Kalamazoo Springs, Mo., two years ago, E. S. Almut, a wealthy citizen of Rincon, N. M., gave her a solemn promise never to lay claim to their only child, a little girl of two years. Mrs. Almut and her husband did not live happily together, and she wished that her sisters, Fanny and Lillie Mitchell, now residing in this city, should bring up the baby. Ever since that time the Mitchell girls have remained true to their trust, but Almut broke the bargain by causing the arrest of Fanny and Lillie Mitchell, on warrants from Justice Carter's court, charging them with kidnapping the baby they have tenderly reared. They have concealed the baby.

THE OTHER SIDE.

Is Uncle Sam Really Skinning in Mail Service?

"Has this glorious democratic administration become so pious, that Uncle Sam has to skin in the delivery of a few letters to Congress? The letters are postage paid of the postoffice this morning. He was talking on the subject brought before the public by Postmaster Bradford in yesterday's Citizen, and particularly about that part of the letter which prohibits the wife of a member of a firm from getting her personal mail from the firm's box.

"Skinning" was a new one on the reporter, and he was obliged to look up the meaning of the word. Webster defines "skinning" as follows: "To give scant measure; to squeeze or pinch in order to effect a saving." So the word is not really as harsh as it sounded when applied to Uncle Sam's letter, and it is a little more in the nature of a rebuke.

"While the office was in republican hands," said the third member of the party, "there was no attempt to squeeze extra letters out of the people, and the democratic administration admitted that let a rental amounting to \$4,000, whereas now they are only \$200, it is said."

It must be remembered, however, that since the present splendid delivery system has been introduced by Major General Tilden, the democratic administration has had regular letters before never go near the postoffice now.

One of the gentlemen above referred to stated that he heard A. M. Whitcomb, Albuquerque's efficient ex-postmaster, speak on the subject of box rental this morning, and that he claimed the present order was the result of a very fine hairsplitting distinction. Uncle Sam is shaving close when he won't allow the wife of a member of a firm to get her mail in the firm's box.

Will Establish Church Farms.
Chicago, July 11.—At last night's session of the Western Society, Dr. John Rusk said that he was besieged by members of his church, who desired information regarding wise locations for farms. He considered the establishment of a bu-

san by the society would do good. It was decided to place the matter in the hands of a committee, appointed as follows: Col. Whyte, S. M. Evers, director agricultural college, Bozeman, Mont.; George Q. Cannon, president of the Mormon church, Salt Lake City; George R. Buckman, secretary of chamber of commerce, Colorado Springs; E. S. Williams, secretary of chamber of commerce, Los Angeles.

LEGAL MASSACRE!

The Execution of Robert Tribolet in Mexico.

To Become an Interesting International Affair.

HE WAS INNOCENT.

The execution, a week ago, of Robert Tribolet, near Fronteras, Sonora, for alleged participation in the Woodruff stage robbery, will be made an international affair, and will be made a test of the recently enacted Mexican law for the summary punishment of stage and train robbers.

A Tribolet, of Phoenix, Arizona, a brother of the victim of Mexican justice, has returned from Fronteras, where he went to investigate the circumstances of the execution and the evidence against his dead brother.

Nothing, however, appears to be furnished by him, but is offered by another American citizen, cognate of all the facts in the case, from which it is apparent that Robert Tribolet was not a participant in the robbery, and that his only connection with it was established by the fact that one of the Woodruff robbers stole a horse bearing Tribolet's brand. This was absolutely every scrap of evidence against Tribolet. The man who rode the horse has not been found. He was undoubtedly one of the robbers, and the murderer of Moreno, that it has been shown that he had a right by a three-year contract, approved by the Mexican government, to ride that horse or to be in possession of any other animal of the Tribolet brand without attaching to the lower any responsibility for whatever improper use the horse might make of it.

The laws of Mexico with respect to malefactors have ever been summary and devoid of delay. A recently established law solely applicable to stage and train robbers gave rise to the creation of an army known as the "Carabones." They are pursuers of the alleged robbers, and upon capture become judge, jury and executioner. The fugitive or suspect under this law is practically convicted from the moment the pursuit begins. The date of his execution is fixed by the date of his capture and occurs within a few minutes after it.

The Tribolet case was as follows: Robert Tribolet had for many years been a wealthy rancher near the town of Fronteras, in Sonora, twenty miles south of Bisbee, Arizona, and eighty miles west of Nogales. He was an American citizen of good reputation that Collector Webb, of the port of Nogales, who arrived in the city yesterday morning, was cognate of the fact that agents for mining companies below Fronteras were accustomed to leave with him sums of money ranging from \$1,000 to \$15,000 for the payment of miners. He was, in fact, the principal man in the locality in whom they relied.

The Woodruff robbery occurred less than a month ago. Only two persons are known or even suspected of having participated in it. The identity of one robber is known, but he has not been captured. The fact, though, that he rode a horse of the Tribolet brand led the Carabones in the direction of Tribolet's ranch. Notwithstanding there were only two men engaged in the robbery, Tribolet, the mayor of Fronteras, Senor Escalante, and two other men visiting at Tribolet's ranch, were taken and executed in a few hours after capture. The guards and after the execution the men made a confession of participation in the robbery. As a matter of fact, friends and acquaintances of the doomed men were not permitted to see them, and only saw their mangled corpses after the execution was over. Residents of Fronteras, though terrified by the "Carabones," tremblingly admit that Tribolet and his companions were wholly innocent of the crime charged against them and that their execution was a cold-blooded murder. It was, indeed, conclusively shown that on the day of the Woodruff robbery Tribolet was engaged all day at work on his ranch. The animus of the "Carabones" against him is proved in the fact that for six months he had been having trouble with the local authorities over water for irrigation purposes.

NEW MEXICO PRISON.

Professor Blount Says the Crop Will Be Very Large.

Prof. A. R. Blount, formerly of the Agricultural college at Fort Collins, and who has been for the last five years on the teaching staff of the Agricultural college at Las Cruces, N. M., is in Denver, says the Republicans. He is a delegate to the N. E. A. and also to the National Agricultural association, which meets in this state August 10. Prof. Blount says that the outlook for the New Mexican fruit crop is very far this year. The peach crop is remarkably promising and yesterday he says two barrels of the fruit was shipped into Denver. Prof. Blount has severed his official connection with the Las Cruces institution.

Donations for the Little White.

The following donations have been sent to the Children's Home in the last two months:

Mrs. Parrish, strawberries and three case peaches; Woodmen of the World,

skate, oranges, food, etc.; The Mass, four window screens; A. Smiley, pair shoes; O. W. Strong, toilet bowl and pitcher; Mr. Hadley, vegetable dishes; Mr. Frank, half dozen glasses; Mrs. Ramsey, pack-aging cloth; Mrs. Wilson, sewing; Mrs. Van Slyke, pair shoes; Mrs. Dacy, clothing; Mrs. Jenkins, clothing; Mrs. Thos. Phelps, butter and milk; Mrs. A. G. Wells, hat, butter; Trotter & Bell, fruit; Mrs. Winslow, clothing; "Baby Bess," quilt; Mrs. Schuster, sack of flour.

Burns wool market is active and territorial wool is in demand.

No serious accident anywhere in New Mexico marred the festivities on the Fourth.

At Paso and the Motivity club are well come and wanted in the city Territorial Fair week.

The money lender is interested in making money money in order to keep up high rates of interest.

Is the fact of a \$40,000,000 treasury debt the government is preparing to build six more new gold mines.

Only a little over two months till the Territorial Fair begins. Active work is necessary every day till the exhibition opens.

Thanks is here even for Peru. The new liberal government has consented for the first time to let the people pass through the custom house.

As the cases in the United States court in California against railroad strikers for obstructing the mails have been dismissed.

The whole population of the United States could be concentrated in Texas without bringing up the density of her population to that of Massachusetts.

Next Saturday The Citizen will be a Socorro county paper, and a big edition will be printed for circulation, advertising the resources of that favored section of New Mexico.

This only paper in the territory controlled by the "lawyer politicians" is the New Mexican, which is owned and controlled by a ring of federal officials and lawyer politicians.

Then men are telling the people that free college of silver would ruin the country are the same who said that the repeal of the Sherman law would bring prosperity to the people.

Administration organs are very glad that the fact that the gold reserve is up to the republican mark, but they aren't saying a word about the fact that it is all borrowed money.

This next election in Kentucky does not take place in August, as in the years prior to 1892. Under the new constitution adopted in 1891 the annual state elections occur in November.

With the revival of business and returning prosperity, one by one the "boom" are coming to life. Work is about to be resumed on the making of an harbor at Aransas Pass, Texas.

It appears from statistics gathered by the railway trustee that the total new railway mileage constructed in the country during the first six months of the current year will be only 547 miles.

This great mining and industrial exposition at Denver has been abandoned, capitalists not exhibiting enough interest in the matter to contribute sufficient funds to insure the success of the exposition.

But it is now to be brought to decision whether the state of New York had any right to execute Dr. Buchanan. This would help the doctor, but it will give the lawyers a chance to get what is left of the estate.

This Christian kinderschool, who are to meet in Boston next week, will find in that city a spirit of puritanism mixed up with forms of sin and vice which are rank enough to make the Pilgrim Fathers turn over in their graves.

Not to be outdone by the Cuban insurgents who have been confidently awaiting the appearance of their ally, the yellow fever, the government forces propose to send out a train load of poisoned food for their enemies to capture.

This oldest Freemason to the world is William Salmon, of Penryn Court, North Wales. He is a member of the Royal College of Surgeons of England, having obtained his diploma April 7, 1809. He was born in March, 1790.

During the fiscal year ending June 30, the government borrowed about \$113,000,000 in gold, giving interest bearing loans therefore. Current receipts were less than current expenditures every month of the year excepting the last, for which month the alleged surplus was less than \$10,000,000.

During the first six months of 1920 as compared with the first six months of 1919, the four western markets show a decrease of 441,000 cattle and 695,000 hogs and an increase of 227,000 sheep. In cattle the only increase is 78,000 at St. Louis. Chicago lost 319,000 cattle, Kansas City 42,000 and Omaha lost 167,000 head.

During the first six months of 1920 receipts at the St. Louis National Stock Yards show an increase of 27,284 cattle and 142,745 sheep, and a decrease of 97,970 hogs as compared with the first six months of 1919. Compared with corresponding period of 1919 cattle increased 26,507 head, hogs increased 105,482 head and sheep increased 62,081 head.

American customs are making great headway in the far east. Even in Formosa, as soon as the governing class came in contact with an institution of the occident they embraced it cheerfully. A bar-keeper, pugilist and all-around plug-ugly from San Francisco went to Formosa. As soon as the Formosans had a chance to see this exported specimen and see him knock down four men at once, they were charmed with him and made him minister of war.

"The growth of our export of manufactured goods is one of the most encouraging signs of the times, and we should continue to reach out for new foreign markets," exclaims the Atlanta Constitution. If the democratic party will pay a little more attention to the home market in their tariff tinkering it would be better for this country. The trouble is, the markets of the world are myths to be, while our own markets have been allowed to slip through our fingers.

TO THE SOUTH EAST AND NOT IN THE WEST

The Denver Republican which was a kind of N. W. demon on every occasion, suggests the building of a bridge of the Santa Fe to White Oaks and the Mogollon country in the following editorial paragraph.

It is probable that the Santa Fe road will be taken out of the hands of the receivers in the course of a few months. Then the problem of building extensions will come up. White Oaks is the best new market, most fertile and accessible, and there would be nothing in that to prevent the company from building certain branches in New Mexico and Arizona that are greatly needed. The Santa Fe has not been the factor in the development of the southwest which it should have been, and the reason is that it has been controlled by low brain trusts. It is a system of almost entirely of the kind which, which fail to touch the people, though reaching them, the great market of travel, would be developed if they had not been controlled. The Santa Fe should have built a line from White Oaks, long ago, and have the road to the north to the Mogollon country. The road at Silver City, helps, but the wagon road between Silver City and the Mogollon is the best of all. The Mogollon country is rich in minerals, and the Mogollon is the best of all. There are mentioned merely by way of illustration. There may be places that need a railroad even more than others. If the localities mentioned.

According to the American Guide the women of that Indian town threaten to boycott the soda fountain, keepers because they do not set out a free lunch. This would be a case of a soda fountain, soda water as a glass of beer, with which there is given a free lunch, and that there is no sense in making a soda fountain a discrimination. The new women of Arizona evidently overlook the fact that they have the same right as men to buy beer with a free lunch thrown in, and that the alleged discrimination against them is really nothing of the sort. However, if they boycott the soda fountain keepers the latter will probably capitulate.

Isabella, disposed of her jewels to further the discovery of a new world. Mrs. Stanford, pledged her jewels that the youth of the new world may be educated. This is not the property of the "new" woman of the "new" woman, but the genuine, unselfish and heroic act of the noble woman of all ages.

On the extreme democratic continent, business has greatly improved during the past few months. But you forget to note the somewhat important fact that the improvement began almost immediately after it was known that the next congress would have a strong republican majority.

The Citizens this week will have a representative in Socorro, another out at the Atlantic and Pacific road, and still another in the northern part of the territory, all sweeping up the Irrigation Congress and Territorial Fair. This paper will spend \$10,000 this year in advertising New Mexico's resources.

This price of thoughtful readers, as of all other kinds of horses, have fallen slightly in the last year or two and sales in New York of course have been fallen. It is the buyers responsible for all of the decline of the horse, and will there ever be a revival?

Gov. A. C. C. has made an official announcement. Due to the effect that Illinois will have a deficit of \$1,542,000 during the two years in which he has been governor. Dependence to be inseparable corollaries of the democratic administration.

What long John Wentworth was asked what cause more than any other, made Chicago the city it is, he replied: "The liberality of its citizens." Is that term really "long John"? Is that the story of Chicago's success as well as that of Chicago?

As Denver has given up her great exposition project, Albuquerque invites the enterprising spirit of the Queen City to join in making the Irrigation Congress and Territorial Fair a grander success than ever contemplated.

SATURDAY'S OPTIC contained a very mean reflection on some of the Albuquerque participants in the fair race races at Santa Fe. But the optic is execrable, Saturday issue was dated July 7. Two much Fourth of July.

This new constitution of Utah does away with grand juries except upon special call by the judges, and the special jury consists of eight men instead of twelve, and three-fourths of the panel can render a verdict.

Now that the people of Oklahoma have begun to settle, so they are to be assumed that civilization is about to come on its business wings. This is always the first stride toward reform in a new country.

The most complete write-up ever made of Socorro county will appear in next Saturday's edition of The Citizen. That county will make its finest exhibit yet at the Territorial Fair in September.

The gold mine may feel some of the people some of the time but it cannot feel all the people all the time.

Writ of Habeas Corpus. Veeder & Veeder and Long & Fort appeared before Judge Tim Smith, on behalf of Dr. W. D. Gentry, and petitioned for a writ of habeas corpus against the New Mexican board of health. The writ was issued and made returnable on July 6, when the case will come up for final hearing. It will then be decided whether or not Dr. Gentry is to have a physician's certificate in this territory. Optic.

The Fourth at Madrid. Madrid had a large crowd which celebrated the day in a very peaceful manner, but which got out of it all the fun there was to be had.

The principal events were slow and fast horse races, a 100 yard foot race, pigeon shooting from a trap, won by Clay Green, rifle shooting, 60 yards of hand, also won by Clay Green, after which the balance of the day and this morning at 1 o'clock was given up to dancing, with the

CELEBRATION AT SANTA FE.

Albuquerque Sends a Big Excursion to the Capital.

Special train of four coaches from Albuquerque and three from Las Vegas pulled into Santa Fe yesterday to take part in the biggest celebration ever seen in that time honored city. Even standing room was at a premium in the four coaches of gay celebrators that left here about 6 o'clock. The ride was a pleasant one and was highly enjoyed. The Capital City put on its best attire and there was evidence of patriotism and good fellowship everywhere. More beautiful weather could not be wished and the events of a long drawn out program were exciting and highly entertaining. No one regrets having gone and all speak of having had a delightful time. The Santa Fe band gave a concert in the plaza in the morning and the Albuquerque excursionists made sweet music, resound in the pretty enclosure in the afternoon.

THE FIRST. The first event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE SECOND. The second event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRD. The third event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FOURTH. The fourth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FIFTH. The fifth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE SIXTH. The sixth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE SEVENTH. The seventh event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE EIGHTH. The eighth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE NINTH. The ninth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TENTH. The tenth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE ELEVENTH. The eleventh event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWELFTH. The twelfth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTEENTH. The thirteenth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FOURTEENTH. The fourteenth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FIFTEENTH. The fifteenth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE SIXTEENTH. The sixteenth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE SEVENTEENTH. The seventeenth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE EIGHTEENTH. The eighteenth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE NINETEENTH. The nineteenth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWENTIETH. The twentieth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWENTY-FIRST. The twenty-first event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWENTY-SECOND. The twenty-second event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWENTY-THIRD. The twenty-third event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWENTY-FOURTH. The twenty-fourth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWENTY-FIFTH. The twenty-fifth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWENTY-SIXTH. The twenty-sixth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWENTY-SEVENTH. The twenty-seventh event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWENTY-EIGHTH. The twenty-eighth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE TWENTY-NINTH. The twenty-ninth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTIETH. The thirtieth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTY-FIRST. The thirty-first event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTY-SECOND. The thirty-second event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTY-THIRD. The thirty-third event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTY-FOURTH. The thirty-fourth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTY-FIFTH. The thirty-fifth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTY-SIXTH. The thirty-sixth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTY-SEVENTH. The thirty-seventh event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTY-EIGHTH. The thirty-eighth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRTY-NINTH. The thirty-ninth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FORTIETH. The fortieth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FORTY-FIRST. The forty-first event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FORTY-SECOND. The forty-second event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FORTY-THIRD. The forty-third event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FORTY-FOURTH. The forty-fourth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FORTY-FIFTH. The forty-fifth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FORTY-SIXTH. The forty-sixth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FORTY-SEVENTH. The forty-seventh event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FORTY-EIGHTH. The forty-eighth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

CELEBRATION AT SANTA FE.

Albuquerque Sends a Big Excursion to the Capital.

Special train of four coaches from Albuquerque and three from Las Vegas pulled into Santa Fe yesterday to take part in the biggest celebration ever seen in that time honored city. Even standing room was at a premium in the four coaches of gay celebrators that left here about 6 o'clock. The ride was a pleasant one and was highly enjoyed. The Capital City put on its best attire and there was evidence of patriotism and good fellowship everywhere. More beautiful weather could not be wished and the events of a long drawn out program were exciting and highly entertaining. No one regrets having gone and all speak of having had a delightful time. The Santa Fe band gave a concert in the plaza in the morning and the Albuquerque excursionists made sweet music, resound in the pretty enclosure in the afternoon.

THE FIRST. The first event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE SECOND. The second event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE THIRD. The third event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FOURTH. The fourth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE FIFTH. The fifth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys followed and closed the run in 30 seconds. It was a fine Albuquerque turn and of the two to one were freely offered on out legs. They pulled across the clock mark easily in 24 seconds.

THE SIXTH. The sixth event on the program was the wet test in which the members of the three towns participated. The Las Vegas boys were the first to turn in. It was a pretty run and it was a pity that the boys, but failed in making it a successful one. The home remained on the feet, and the Santa Fe boys

PAINFUL ACCIDENT.

Two Car Repairers are Caught in a dangerous position. Shortly after 1 o'clock this afternoon Steve Nash and James Conroy were painfully hurt while repairing a car near the oil house in the Santa Fe yards. The men were beneath the car when it was set in motion by a bump from another car on the same track. It was feared that precaution had not been taken to hang out a danger flag. Mr. Nash had a big bruise on his head and Mr. Conroy a painful laceration of a forehead. The men were fortunate in escaping from their dangerous position without more serious injury. They went to the hospital to have their wounds dressed.

WOMEN CLAD IN WOOD

New Dresses by Victor Stik Can Be Produced in a Week. A process has been discovered by which a pattern of a dress may be made in a few days. The process is called "the wood process" and is a new method of making dresses. It is a process in which a pattern of a dress is made in a few days. The process is called "the wood process" and is a new method of making dresses. It is a process in which a pattern of a dress is made in a few days.

Some time ago in the process of making dresses, a pattern of a dress was made in a few days. The process is called "the wood process" and is a new method of making dresses. It is a process in which a pattern of a dress is made in a few days.

NEW MEXICO.

Brief Paragraphs Culled From the Territorial Press.

Page 1 of the Labeled, Gallup, left for California, where he will join Mrs. Page and remain for some weeks.

Mrs. W. A. Smith and children, of Gallup, left for Santa Fe the first of the week for a visit among old friends and relatives.

J. J. Aragon, of Colorado, has received orders to bring from 100 to 200 head of yearling steers to be delivered on the first at Magdalena.

The New Mexican says Santa Fe residents are doing a lively business in shipping out chickens and turkeys. They are marketed at Los Yegres, Corral, Albuquerque, San Marcos, and El Paso.

With Pecos, of Gallup, has returned from Kansas where he has been recuperating his stock of health. He is quite well again. The boys are glad to see him back, the girls, too, for that matter, says the Citizen.

George Richardson and Jas. Haglund, formerly of Gallup, are now in the employ of Richardson and Haglund, of Hinton, have dissolved partnership. Mr. Haglund will carry on the meat business at the same old stand.

Archibald Carr, clerk of the criminal court at St. James, and son, Melvin, arrived at Chicago. Mr. Carr left immediately for St. James, while the young man will remain a couple of months for the benefit of his health.

Dr. W. N. Macbeth, the Albuquerque dentist, has been doing a good deal of work since he came to Gallup, says the Citizen. He will remain until Tuesday on Wednesday morning next week, when he will go to Fort Wingate.

The Hildreth Advocate says: The county commissioners had a big time with the people whose taxes they raised at their previous meeting in June. There seems to be a chronic desire to escape paying taxes on the one side and determination to raise revenue on the other.

The Black Range says: The deplorable manner in which the stage company, doing business, or rather pretends to do business, between the place and King, is simply a flaming nuisance and a disgrace. The mail seldom arrives on time and is often from one to three or four hours late, and passengers who pay \$4 fare from King to Albuquerque frequently have to wait a considerable time at the station, notwithstanding the road is good.

A FAMOUS BAND.

Forty Native Hawaiians on their way to Denver. "We are the Hawaiian military band," said Capt. Lelehu, the leader, to a United States reporter at the depot last evening. They are forty in number and are all natives of the island of great political intrigue. In music they are short and stout, and swarthy in complexion. They have just completed a tour of the coast from San Francisco to San Diego, and had intended to give a concert at this city, but a telegram from the advance agent hurried them on to Denver where they expect large audiences during the remaining days of the big educational convention. Quite a number of Albuquerqueans crowded around the car to get a glimpse at the strange musicians.

"We would be glad to play for you," said the leader, "but our instruments are packed up and we have not time to play."

The captain and several of the band company spoke English sufficiently to make themselves understood. There is nothing unusual in their brass instruments, but they have also string and reed combinations of music. From Denver they will visit Chicago, New York and Boston and will return home in about two months.

WILD DEMONSTRATION.

The Impromptu Reception given to the Browns Last Evening. Albuquerque's colts, who are the middle hold of the great southwest, returned home last evening graced with victories on four distant battle fields. When the horses of ancient Rome returned from conquest the popular en masse rose up to do them honor. Last evening young and old scrambled for position on the platform to be among the foremost to welcome the victors home. While notified hostily from terra firma, they were awaiting with the enthusiasm of the air with deafening demonstrations. In fact, when the train came to a standstill and a small army of youths with torches and bugles joined their no less enthusiastic older brothers in pandemonium outcry, the passing strangers did not know what to make of it, and many of them hesitated before venturing out from the cars.

It was a hearty and sincere welcome, and another evidence of the spirit with which Albuquerque sustains her athletic representatives. The Browns had a festive time while away, and were cordially received and generously treated everywhere. They speak in high praise of the hospitality extended them in all the towns visited in northern Arizona. Nothing less than a brush with the Denver nine will now satisfy the young champions.

Following in the rear of the victors were Bert Vorles, second base; Fred Raymer, short stop; Tom Menefee, catcher; John Holland, center field; Harry McCue, third base; F. H. Herbert, pitcher; Antonio Ortiz, right field; Chase, Quier, left field; Chase, McDonald, first base; Fred Talliot, substitute. Col. M. F. McCue officiated as the competent manager, and James Vorles acted as official scorer.

Captain McDonald called at The Citizen office this morning, and from his beaming, pleasant countenance it was plain to be seen that Charlie and the other members of the Browns had a most excellent and splendid time on their trip, taking home ball scalps.

Three little gentlemen from school, Justo Jr., Pedro and Ricardo Arango, returned last evening from a visit to relatives in Bernalillo, and were met at the depot by an admiring father.

Mrs. Theodore Segal, of St. Louis, is visiting Mrs. Henry Loebe, her daughter.

William, 4; Brown, 7; Herbert and Menefee, battery. Fourth game at Flagstaff—Flagstaff, 3; Browns, 20; McDonald and Menefee, battery.

Tom Menefee did all the catching, and was more than any other player, owing to his catching ability, instrumental in setting records to the Browns' record.

Mr. McDonald stated that the boys were really entertained. The committee at Prescott having in charge the baseball tournament, proved honorable gentlemen toward them, and awaited them the purse, amounting to \$25. At Williams, a dinner was given in honor of our boys' last representatives after the first game.

While at Flagstaff, Mayor Hatcher turned over to them one key of that town, and courtesies were extended to them by half a dozen prominent citizens.

During the absence of the Browns W. J. McCreight has received a letter from Manager Davis, of the Santa Fe River club, the club's four tourney at Denver, asking for a series of games here commencing on July 15 and continuing for three afternoons. The Browns are requested to consider this proposition at once.

MARVELOUS RESULTS.

From a letter written by Rev. J. G. Ginderman, of Homestead, Mich., we are permitted to make this extract: "I have been thinking of recommending Dr. King's New Discovery, as the results were all most marvelous in the case of my wife. While I was pastor of the Baptist church at Kings Junction she was brought down with pneumonia, exceeding la grippe. Terrible paroxysms of coughing would not let her rest with little intermission, and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery, it was quick in its work and highly satisfactory in results. Trial bottles free at Dr. T. H. Burgess & Son's Drug Store. Regular size 50c and \$1.00."

ONE AT GALLUP.

Our Correspondent Visits the Prosperous Coal Town. Gallup, July 8. Evidence of hard times do not exist here. On every hand there are signs of bustling activity, combined with an irrepressible energy that is good for any eyes.

In every direction new, substantial and handsome buildings are being erected, composed of brick and stone, and their construction is being looked after by competent and practical men who fully know their business.

The Episcopal church and the new school house are well advanced, while the Catholic Coal company's edifice and other structures, notably that of Messrs. Kennedy & Ketchen, are nearing completion. The new named gentlemen are putting on the superintendency of Mr. Smith, who is the representative of the Brunswick & Co. Coal company, a lot of handsome houses that would favorably compare with anything in this city, but a telegram from the advance agent hurried them on to Denver where they expect large audiences during the remaining days of the big educational convention. Quite a number of Albuquerqueans crowded around the car to get a glimpse at the strange musicians.

"We would be glad to play for you," said the leader, "but our instruments are packed up and we have not time to play."

The captain and several of the band company spoke English sufficiently to make themselves understood. There is nothing unusual in their brass instruments, but they have also string and reed combinations of music. From Denver they will visit Chicago, New York and Boston and will return home in about two months.

WEDDED BY ELECTRICITY.

From Alpha to Omega the Affair Was Done by Electric Lighting. A wedding in one of the grandest cities, just before the entrance of the bride, the room burst into a flood of light from the numerous multi-colored electric lamps hidden among the decorations. The entrance of the bride couple was signified by the automatic ringing of electrical bells and playing of electrical musical instruments. The bride and groom, after the first course, the light faded, and then suddenly there glowed illumined by a swarm of electric lamps. Hidden among the masses of flowers, glowing from the hearts of jellies and from translucent vases it seemed as if the genial of the lower world were everywhere at work.

In this unusual entertainment it followed that the bride herself must not be left out. In her hair gleamed an unassuming star, and at the first toast, two servants ably uncoupled themselves altogether too suggestively from the bottle standing before the happy couple. Coffee was prepared in view of the company by an electric heater, and congratulatory speeches were applauded rapturously by an electric kettle-drum placed under the table. Upon the dispersion of the company the electric current set off a novel pyrotechnic display.

Home and Bartholomew.

It is a well-known fact, says the Mail, that horses can hear sounds that are not perceptible to the human ear. For days previous to the great earthquake in the Riviera the horses of that locality showed every symptom of fear, which continued without change of character, unless it was in the direction of greater terror. All the fury of the great earthquake broke forth. Not until a few seconds, however, before the earth began to tremble did human beings hear the subterranean rumblings. One writer from the scene says that in his opinion the horses knew that the quake was on the way from seventy-two to one hundred hours before their masters heard or felt the first jar.

A City Without Women.

Malinchichin, on the borders of Russia, has a population of one hundred people by men only. The Chinese women are not only forbidden to live in this territory, but even to pass the great wall of Kalkan and enter into Mongolia. All the Chinese of this border are exclusively traders.

Shackles of Arrian Slave.

The best slave in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, letter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or is pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dr. T. H. Burgess & Son, druggists.

Movement of Trains.

Big washouts in the vicinity of La Jota were reported by wire to the railroad authorities here last evening, and a crew of men was en route south to the scene of the overflow.

Several cars of the line and railroad iron were taken along to build a "cut-off" until the main track will be repaired.

No. 2 express from the north, due here at 5:25 o'clock last evening, caught there this afternoon, and No. 1 left for the south this forenoon.

The railroad officials were afraid some accident might result in transferring passengers at the Rio Puerco in the dark hours of night and so it was determined last night to withhold both California trains until 6 o'clock this morning when a combination train was formed and sent out.

Train No. 1, which left here for the south this morning, returned there after noon, not being able to get around the washout as yet.

ARIZONA.

Condensed News of the Neighboring Territory. Mrs. William McDonald died at Williams the other day. The remains were shipped to Elkhorn, Wis. for burial.

A silver league club was organized at Nogman the other day. Kevin M. Charles was made permanent chairman.

J. C. Mulligan turned a kid of 157,000 back at his yard east of Flagstaff. At the time the kid was born he had just turned 800 pounds of fat.

HISTORY ON ITS BACK.

This turtle carries on many inscriptions as on a shield.

A turtle of the loghead variety, weighing seven hundred pounds, was caught on the beach at Grove City, Fla. recently.

It is a remarkable specimen, not only because of its great size but because of three inscriptions on its shell, which show that it is carrying the century mark and has been quite a traveler. The first inscription was dated "St. Augustine, Fla. 1821" and reads: "On Oct. 20, 1820, Spain ceded Florida to the United States. Hurray for Uncle Sam!"

The second inscription was made at Key West, Fla. April 30, 1861, and is as follows: "A schooner brings the news that Gen. Beauregard fired on Fort Sumter April 12, 1861. I shall stick to my state."

May you never get in the soup, but if you do, may I have a spoon to be present to help you.

When caught, the turtle had just let its nest and was looking for the water. It was released after the following inscription had been added: "Grove City, Fla. June 1, 1900. This century mark turtle, silver and a strong foreign policy."

The turtle made its nest for deep water.

HE QUESTIONED THE CAPTAIN. A New Yorker Visits Salt Water. "Times of an ocean steamer" said a traveler to a New York on writer, "we had a heated ship, having or something of that sort, so that the engines stopped for five or six hours. I had often read and heard about how the captain was the great man aboard ship, how about all things pertaining to the affairs of the ship he decided, and must not be approached by the passengers, and that it was a sort of violation of the unwritten rules of the sea for a passenger to ask the captain anything. And there may be some reason in all this. If one passenger might ask him forty might, and surely the commander of the ship might not to be unnecessarily disturbed by needless questions. We had been lying there three or four hours waiting. There was no danger whatever but it was a delay and an incident of interest, and of course, all the passengers talked about nothing else. The common information was that the delay was due to a holed bearing."

"I was standing on the upper deck by the railing, looking down at the captain, who was standing on the lower deck, and I saw him looking at the deck below. The captain came along the upper deck from the after part of the ship and went below by that companionway. He must pass within a foot of me and, under the circumstances, it did not seem like a violently unreasonable breach of salt water etiquette to ask him what was the matter, which I did."

A passenger who stood on the other side of the doorway looked at me with the amused smile of an older traveler. The captain said nothing; he simply passed on to all outward appearances quite unconscious of my question or even my presence."

Several cars of the line and railroad iron were taken along to build a "cut-off" until the main track will be repaired.

No. 2 express from the north, due here at 5:25 o'clock last evening, caught there this afternoon, and No. 1 left for the south this forenoon.

The railroad officials were afraid some accident might result in transferring passengers at the Rio Puerco in the dark hours of night and so it was determined last night to withhold both California trains until 6 o'clock this morning when a combination train was formed and sent out.

Train No. 1, which left here for the south this morning, returned there after noon, not being able to get around the washout as yet.

ARIZONA. Condensed News of the Neighboring Territory. Mrs. William McDonald died at Williams the other day. The remains were shipped to Elkhorn, Wis. for burial.

A silver league club was organized at Nogman the other day. Kevin M. Charles was made permanent chairman.

J. C. Mulligan turned a kid of 157,000 back at his yard east of Flagstaff. At the time the kid was born he had just turned 800 pounds of fat.

The turtle made its nest for deep water.

HE QUESTIONED THE CAPTAIN. A New Yorker Visits Salt Water. "Times of an ocean steamer" said a traveler to a New York on writer, "we had a heated ship, having or something of that sort, so that the engines stopped for five or six hours. I had often read and heard about how the captain was the great man aboard ship, how about all things pertaining to the affairs of the ship he decided, and must not be approached by the passengers, and that it was a sort of violation of the unwritten rules of the sea for a passenger to ask the captain anything. And there may be some reason in all this. If one passenger might ask him forty might, and surely the commander of the ship might not to be unnecessarily disturbed by needless questions. We had been lying there three or four hours waiting. There was no danger whatever but it was a delay and an incident of interest, and of course, all the passengers talked about nothing else. The common information was that the delay was due to a holed bearing."

"I was standing on the upper deck by the railing, looking down at the captain, who was standing on the lower deck, and I saw him looking at the deck below. The captain came along the upper deck from the after part of the ship and went below by that companionway. He must pass within a foot of me and, under the circumstances, it did not seem like a violently unreasonable breach of salt water etiquette to ask him what was the matter, which I did."

A passenger who stood on the other side of the doorway looked at me with the amused smile of an older traveler. The captain said nothing; he simply passed on to all outward appearances quite unconscious of my question or even my presence."

WEDDED BY ELECTRICITY. From Alpha to Omega the Affair Was Done by Electric Lighting. A wedding in one of the grandest cities, just before the entrance of the bride, the room burst into a flood of light from the numerous multi-colored electric lamps hidden among the decorations. The entrance of the bride couple was signified by the automatic ringing of electrical bells and playing of electrical musical instruments. The bride and groom, after the first course, the light faded, and then suddenly there glowed illumined by a swarm of electric lamps. Hidden among the masses of flowers, glowing from the hearts of jellies and from translucent vases it seemed as if the genial of the lower world were everywhere at work.

In this unusual entertainment it followed that the bride herself must not be left out. In her hair gleamed an unassuming star, and at the first toast, two servants ably uncoupled themselves altogether too suggestively from the bottle standing before the happy couple. Coffee was prepared in view of the company by an electric heater, and congratulatory speeches were applauded rapturously by an electric kettle-drum placed under the table. Upon the dispersion of the company the electric current set off a novel pyrotechnic display.

Home and Bartholomew. It is a well-known fact, says the Mail, that horses can hear sounds that are not perceptible to the human ear. For days previous to the great earthquake in the Riviera the horses of that locality showed every symptom of fear, which continued without change of character, unless it was in the direction of greater terror. All the fury of the great earthquake broke forth. Not until a few seconds
