TWENTIETH YEAR

CARLSBAD, NEW MEXICO, FRIDAY, DECEMBER, 29, 1911.

NUMBER 7

THE DEMONSTRATION TRAIN

Last Five Days of Special's Trip

Will be in the Pecos

Valley. To Arrive

Here Late Fri-

day Even-

ing.

Albuquerque, N. M., Dec. 28.

Below is given a complete copy of the streamer being gotten out by the Santa Fe railroad in English and Spanish advertising the New Mexico Agricultural Demonstration train to be run over all Santa Fe lines in New Mexico, starting January 11th, next. The streamers will be placed in all depots along the Santa Fe lines and may be had by all desiring them.

As has been previously stated, the train will be a complete agricultural college on wheels, and it will be well worth your while to study this schedule carefully, making note of the time the train will arrive at your station and to make a special effort to be present, bringing the children and all your friends:

(SANTA FE EMBLEM)

SANTA FE AGRICULTURAL DEMONSTRATION TRAIN

Starting January 11, 1912, the Atchison, Topeka and Santa Fe Railroad Company and the New Mexico Agricultural College and Experiment station will operate an Agricultural Demonstration train to all points on its lines in New Mexico.

This train is for the benefit of the farmers of New Mexico. It will carry complete agricultural, dairy and live stock equipment for the demonstration of lectures etc.

Ten agricultural experts of recognized ability will accompany the train, delivering lectures of direct interest and value to you.

The demonstration train will consist of six cars: Cars Nos. 1, 2 and 3 will carry dairy and beef cattle, hogs, poultry and dairy equipment with necessary provision for exhibition purposes. Car No. 4 will be a 70 foot baggage car containing complete exhibit equipment for demonstrating agricultural work, soils, etc. Car No. 5 will be a coach fitted out as a lecture room. Car No. 6 will be a company business car for use of the lecturers, for consultation purposes, etc.

We want you to get the fullest benefit of this demonstration train which is run by the Santa Fe system for the good of the farmers along its lines in New Mexico.

Arrange now to be at the station when the train arrives in your town. Every effort will be made to operate the train exactly as per the schedule given below. Lectures will begin immediately on arrival. Look at the date and hour of arrival at your station below and be there on time. Every courtesy will be extended to you. Come with your agricultural, fruit and live-stock problems. Be prepared to ask questions. Every question will have closest attention from men who can help you make more money out of your farm.

A special feature of this work will be the organization of Boys' and Girls' Industrial Clubs. See that your children and all the children in your community are present when the train arrives. They will receive information of permanent value to them, and to you.

Here is the schedule. Read it carefully and remember the date and hour of arrival. The schedule for this section of the

valley is as follows:

THURSDAY, JANUARY 25.

Lone Tree News.

Everybody well and happy.

We had all day Christmas service and a nice Christmas tree at night, Dec. 25. J. N. S. Webb and G. M. Holloway made talks appropriate for a Christmas service. The song service was good. All the school children did fine in carrying out the following program:

Song, "O Beautiful Bethlehem"

"A Voice for Santa Claus," by

Howard Holloway.

"Christmas Day," by Gale

Jennings.

"Love for Santa Claus," by

Ardie May Stokes.

"Throwing Kisses," by Edith

Webb.

Song, "Hear the Music of the

Bells."

"Willie's Christmas Wants,"

by Newcome Jennings.

"Tardy Santa Claus," by Florence

Watkins.

"The Dear Old Tree," by

Sylvia Stokes.

Song, "Ring! Ring! Ring!"

"Christmas," by James Stokes

"Outside," by Elva Stokes.

Song, "Ring Out Chiming

Bells."

"Snow Flakes," by Ray Wat-

kins.

Dialogue, by Blanch and New-

come Jennings.

"A Christmas Song," by G.

M. Holloway and grandchildren.

"The Shortest Way to Christ-

mas Land," by Chas. E. Jen-

nings.

"A Little Missionary," by

Janie Holloway.

"A Mere Man's Woes," by

Loyd Watkins.

"Sister and I Looking for

Santa Claus," by Newcome Jen-

nings.

"A Plea to Santa Claus," by

Blanch Jennings.

"Poor Santa Claus," by Ray-

mond Jennings.

"A Bit of History," by Ray

Watkins.

"A Letter to Santa Claus," by

John S. Holloway.

"A Christmas Story," by Greg-

ory Holloway.

Dialogue, "What we Know

About Santa Claus," by the

school.

Song, "Up on the Housetop."

Santa Claus 'phoned us at each

town from the North Pole to

Lone Tree, as he made his ad-

vance, and the children were

perfectly delighted when he ar-

rived with his many Christmas

presents and his more than usual

fun and wit; being in the best

humor we have ever saw him.

Everything went off better than

any one expected.

J. N. S. Webb reports a fine

quarterly conference meeting at

STATEHOOD IN A TANGLE

Judge McFie Refuses to Pass on the Clayton Precinct. Both

Sides Refer the Matter to Judge Roberts and

He May Pass on It.

Santa Fe, N. M., Dec. 27.—New Mexico's statehood hoodoo which has accompanied every statehood movement in the past sixty years, seems still at work. This forenoon when court met to dispose of the last matter in the way of sending the report of the official canvassing board to Washington so that President Taft might issue his statehood proclamation by New Years, Judge John R. McFie, for personal reasons, refused to pass on the dispute over the election officials who had refused to sign the Clayton precinct election returns. Counsel of both parties then agreed to take the matter up to Judge C. J. Roberts, but it was found that he is out of town and had even left the territory. However, a telegram reached him at Trinidad, Colorado, and it is hoped he will return here tomorrow to pass on the matter.

at Malaga for their generous

gifts.

Dinner and supper were served on the ground, and Lone Tree has the best cooks on earth.

A happy and prosperous new

year to the Current, staff and

many readers.

Lone back may come from over-
work, cold, settled in the muscles of the
back, or from disease. In the two
former cases the right remedy is Hall-
lard's Snow Liniment. It should be
rubbed in thoroughly over the affected
part, the relief will be prompt and sat-
isfactory. Price 25c, 50c and \$1.00 per
bottle. Sold by Eddy Drug Co.

To our many friends and customers we wish

A Happy New Year

We take this way in thanking one and all for the liberal patronage you have given us during the year just closing, and solicit a continuance of a share of your patronage for the New Year.

Eddy Drug Co.

Christmas on Rocky.

The Rocky Arroyo School gave the following program to a crowded house Christmas evening:

Song by school, "Shepherd's Watch
by Night."

Recitation, "Welcome," Minnie Kuy-

kendall.

Recitation, "The Railroad Crossing,"

by Fred Ares.

"The Baby's Stocking," by Coy

Delk.

"Matilda Gets the Best of Santa

Claus."

Dialogue, "Christmas in all Lands,"

Song, "Music in the Air," by the

school.

Recitation, "The First Christmas

Tree," by Edna Kuykendall.

Reading, "The Light in the Window"

by Mary Kuykendall.

Recitation, "Santa Claus Aviator"

by Edie Jones.

"A Word to Santa Claus" by Winnie

Kuykendall.

Dialogue, "A Letter to Santa Claus"

by Leonard Jones and Eva Fanning.

"The Night Behind Christmas," by

Ahner Kuykendall.

Recitation, "On the House Top" by

Calvin Ares.

"Christmas Song," by the girls.

Recitation, "Nobody's Child," by

Lida Kuykendall.

Reading, "Counting Days," Louie

Ares.

"The Star of Bethlehem," by Marvin

Delk.

"A Visit From Santa Claus," by

Lida Kuykendall.

Song, "The Christmas Bells are

Ringin'" by the school.

Mutton For Sale.

In quarters, halves or wholes. I will receive orders by phone for choice Angora goat mutton for quarters, halves or wholes. Quarters weigh about ten pounds.

FINAL RESULT OF ELECTION

CURRENT VERSE.

The God of Peace.

Peace-plumed as the eagle he rides!
The man-bird wheels his easy flight;
New monarch of the new age, guides
The eager millions into light.
Long-waiting world hear thou his cry:
"Put battleship and rifle by!"
Builders of dreamthoughts, useless now;
Armed ranks that wait the nod to slay;
Just ye the cult of loom and plow.
The aeroplane is king today!
Long-suffering world hear thou his cry:
"Lay uniform and bugle by!"

No more shall patent shell and mine
Our tax-borne navies split and mow;
Nor trumpets spur the charging line—
The God of Peace has writ it so;
War-weary world, hear thou his cry:
"Put hate and all her furies by!"
The man-bird sweeps the conquered sky.
To horse turns the fast to slay;
The nation and their spears lay by.
Peace makes the heroes of today;
Hear thou the happy quillman pray:
"How blind we were but yesterday!"
—Percy Shaw, in Hamilton's Magazine.

The Girl on a Claim.

She is a shock in the open-air girl calls it
home.
And the winds of the prairie all murmur
the name.
She has driven her stakes and has fur-
rowed the loam.
And high is the head of the girl on the
claim.

She fears not the night, nor the storm in
its wrath—
She is proud of her day when the sun
sets like flame;
No prisonlike shop casts its shade o'er
her path—
There is hope in the face of the girl
on a claim.

She is winning, each day, toward the
coveted prize—
She is beating adversity's heartbreaking
game.
There is courage sublime shining out of
her eyes—
Hats off to the girl who has staked out
a claim!
—Denver Republican.

The Most Loved.

Far the most loved are they,
Of whom time speaks not with her clar-
ion voice
In regal halls—the shades o'erhanging their
way.
The vale, with its deep fountains, is their
child—
And gentle hearts rejoice
Around their steps! till silently they die
As a stream shrinks from summer's burn-
ing eye.

And the world knows not then,
Not then, nor ever, what pure thoughts
are dead!
Yet these are they, that on the souls of
men
Come back, when night her folding veil
hath spread,
The long remembered dead!
—Mrs. Hemans.

Night.

After the twilight glaze and falling dew,
There cometh o'er this earth the blessed
night.
Led on by Hesper and her glittering crew,
Until the sky is one vast plane of light,
And I am glad to see each star appear.
And all the garish sounds of day are
still—
The night's hushing orchestra I hear
"Till every sense is swept into and filled;
I live, to look into the ghostly space
That stretches between the stars and rest-
less souls—
At midnight, all alone, to turn and face
The void, and at the thought it holds—
Come now, dear night, and rest our tired
eyes,
And fill with stars of hope those quiet
sides.
—William Croxall Partridge, in the Met-
ropolitan Magazine.

A Prayer of Unselfishness.

Help me to do away with selfish thought,
Performing what I ought,
And thus to grow from hour to hour
In hidden power.

Help me to bear my hidden load,
Not hiding good as certain phrase
Nor need of empty praise from lips of
men
To strive again.

Grant me to hear the other's urgent cry,
My want cast by
Nor noticing Ambition's voice
Nor my own choice.

When others superseding, reach my goal,
In swift control
Grant me to give them wishes of good
joy
Without alloy.
—Charles C. Tillinghast, in the Watch-
man.

We'll See.

When we would beg for childish toys,
For names enchanting slights,
There always was a certain phrase
That made our hopes beat high,
She made no promise, gave no hint,
Yet we were filled with glee;
More than we dreamed would come to
pass.
When mother said: "We'll see."

So has it held through older years
As it was proved before;
So may it hold of other worlds
Beyond the mundane shore.
She gives no promise, makes no hint,
Yet bliss will surely be,
More than we dream may come to pass
For mother says: "We'll see."
—McLaurie Wilson, in the New York
Sun.

Sunlight and the Sea.

Sunlight and ships at sea,
Clouds still as stars,
Out beyond the vast to-be
Of earth's horizon-bars.
Take my hand and let us go
Where the winds may lead,
Earth and time are all we know;
Life is all we need.

Dawn-flush and flying foam,
Tides that beat and turn,
Now the vast beyond is home,
And there our alters burn,
Take my hand; our cottage heart
Is flaming in your eyes,
Earth shall be our garden-arth,
Our tent the summer skies.
—Lewis Worthington Smith, in the New
Magazine.

The Board Finishes its Labors.

Work of Canvassing Board

Satisfactory—8 to 8. Mc.

Fie's Decision as to

the Clayton Pre-

cinct Will not

Change Mat-

ters.

Santa Fe, N. M., Dec. 25.—The Canvassing board was not in session today, but expects to conclude their work tomorrow or not later than Wednesday at the latest. All hinges now on the decision of Judge McFie as to the legality of counting the unsigned returns from Clayton precinct, Union county. The judge is expected to deliver his decision Tuesday, and the board will likely reconvene immediately thereafter and take up the matter.

In the Clayton precinct approximately 571 votes were cast, 307 for the democrats and 264 for the republicans, or an average democratic majority of 43. It is not believed that a decision their way would affect the election of any of the candidates on the state ticket, but the fate of the candidates for district judge in the 8th district, several men on the Union county ticket and at least one member of the legislature hangs in the balance.

The decision to count the votes in the Reserve precinct in Socorro county, adds 23 to the vote of the democratic candidates and means the election of Abelino Romero, democratic candidate for the state senate and several candidates on the democratic ticket in Socorro county.

The net result of the action of the board today in deciding to count the votes in the disputed precincts resulted in an average gain 168 for the candidates on the democratic state and judicial ticket and an average of 94 for the republicans, thus increasing the democratic majority by 74. This insures the election of Hanna for the supreme court and White for superintendent of schools. In the event the Clayton precinct is counted it will add 307 to the democratic vote and 264 to that of the republicans.

The completion of the canvassing board's work shows that the parties divided equally on the state ticket; the republicans electing eight and the democrats eight of the sixteen candidates as follows:

Governor—W. C. McDonald, democrat.

Lieutenant Governor—E. C. De Baca, democrat.

Secretary of State—Antonio Lucero, democrat.

State Auditor—W. J. Sargent, republican.

State Treasurer—O. N. Marron, democrat.

Attorney General—F. W. Clancy, republican.

Commissioner of Public Lands—R. P. Ervien, republican.

State Superintendent of Public Instruction—Alvan N. White, democrat.

Justices of the Supreme Court—C. J. Roberts, republican; Frank W. Parker, republican; Richard H. Hanna, progressive.

Corporation Commissioners—Hugh Williams, republican; M. S. Groves, republican; G. H. Van Stone, progressive.

Congressmen—Geo. Curry, republican; H. B. Fergusson, democrat.

The Carlsbad Current

Carlsbad Printing Co., Publishers
Wm. H. Mullane, Pres.

SUBSCRIPTION \$1.50 per annum

Carlsbad, N. M., Friday, Dec. 29 1911

Carlsbad Current established November 15, 1906. New Mexico Sun established May 15, 1906. The two papers consolidated October 11, 1907.

Official Paper of Eddy County.

The Current wishes its readers one and all a Happy New Year, trusting that the coming year may be as good to them as the past, which can be said to have been exceptional in many ways. The ranges that for several years were bare are now covered with the best feed ever known. Cattle are up, the highest prices having been realized. Merchants in Carlsbad report the best holiday trade for years, many selling double the amount ever sold before. Taken all in all this town and county have passed a fairly prosperous year. While the farmers under the project have not done as well, nor have prices for their produce ruled as high, much has been learned as to what is best to produce and, with the creamery project well started, we may confidently expect a brighter future for the farmers the coming year, which the Current sincerely wishes.

The Roswell News, generally very accurate in its statements, has it, in an editorial referring to the error of placing the initials of O. L. Owen as "Sol" Owen on the ballots in Luna and McKinley counties, "that the boards of county commissioners put his name on the tickets with an error". The learned editor of the News seems to think that the boards of county commissioners had authority to put the names on the ballots. The facts are the commissioners had no authority or anything to do with the ballots, which were printed under Sec. 18, of Chap. 105, of the 1909 Laws of New Mexico, which provides that the recorder shall have the ballots printed as certified up to him by the various political parties, and this is the law referred to by the constitution and under which the election was held, except as to canvassing the returns as also provided by the constitution. The way the mistake occurred was, probably, in the filing of the election proclamation; which came to Eddy county as "Sol" Owen, and to all the counties of the territory. Then, when the name was filed with the recorder, it was filed O. L. Owen. The recorder, undoubtedly, furnished the copy correct, but the tickets, very likely, had been put in type and, as no one had the least idea that the original name "Sol" Owen as furnished for the election proclamation was wrong, the tickets were printed "Sol Owen." Mr. Owen loses a good office simply by a blunder in either the sending of his name to the territorial secretary or by some one placing an S in front of the O. L., but the county commissioners had no hand in the matter, whatever.

It is a curious yet, nevertheless, interesting fact that not one of the stand pat republican newspapers that were telling the natives of New Mexico, during the campaign, what good friends the republican bosses were of the natives and how the democrats would disfranchise them if they came into power, have gone on record as advocating the election of a native to the senate of the United States. The democrats elected two natives on their state ticket. They elected as large a percentage of natives on their ticket as they did of others, but what did the republicans do? They defeated every native candidate on their state ticket. The republicans have a majority in the legislature on the face of the returns as far as canvassed and are supposed to be in a position to elect two senators. Will they elect a native as one of the senators or will they continue to ignore

the natives in the future as they have in the past? The silence of the republican press on this point would seem to indicate that it is a subject they do not care to discuss.—Santa Fe Eagle.

The New Mexican says that tariff agitation has cost the wool growers of the United States \$50,000,000 during the past year. Will the New Mexican inform an anxious public what caused the falling off in the number of sheep raisers in New Mexico during the ten years from 1900 to 1910 when the republicans were in control of all branches of the government and why the number of ewes in New Mexico decreased more than a million during that time. Was it on account of tariff agitation by the republicans or was it in the expectation that the democrats would tackle the tariff in 1911? If any of the republican newspapers of New Mexico have any explanation to offer on this point we will gladly print it. We want to know why the sheep and wool industry of New Mexico fell off to such an alarming extent under a high protective tariff and under a succession of republican administrations. We have been pinning for this information for months.—Santa Fe Eagle.

The Roswell Morning News will furnish its readers with the full morning Associated Press report after January 1st, and will be the first paper to give the morning service in the Pecos Valley.

Fine commercial printing guaranteed satisfactory in every respect at the Current.

POULTRY NOTES

All houses and nests should be clean.

England has one hen to the acre of territory.

Sell off the scrub chickens and have only one breed.

Collect all eggs from nest at least once a day, hot weather twice.

Make ready a corner in each pen, that can be used as a dusting box.

The surplus cockerels and pullets may be sold as brooders and a fancy realized.

Hens over two years of age are seldom good layers, therefore should not be held over.

Keep eggs in a cool, dry place, but not in a cellar, as they are there likely to become musty.

Care should be taken at all times never to permit moisture to come in contact with the eggs.

When the hens are started in laying, great care must be used in not allowing them out on stormy days.

Oats, bran and green food are the best stimulants to egg production. Corn is rather fattening for use at this season.

A chick that is stunted because of lack of good food at any period of growth never is profitable as a layer or a breeder.

A little fresh meat minced fine is necessary for the laying hens during the winter months. This should be given about twice a week.

An ideal bird for winter egg production is a pullet matured about November 1st, which is strong and vigorous and is of a good laying strain.

Two Losers.

"I lose money on every meal," complained the Landlady.

"So do I," asserted the Captious Boarder.

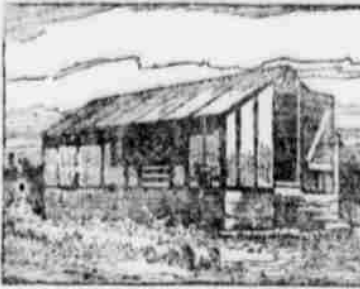

Whereupon they glared at each other for some moments.

COLONY HOUSES FOR POULTRY

Less Liability of Spread of Disease Where Flocks Can Be Kept Separate and Given Range.

There are many advantages in keeping fowls in small flocks. There is less liability to the spread of disease and they may be given free range. Although the colony house would cost more than a long building.

The Keyes Colony House.

There are no fences to put in and

Range Necessary.

While a few swine can be raised confined in limited quarters, if such quarters are kept clean, they will do better, will keep in better health and can be grown more cheaply if they have plenty of range for pasture. It is desirable to have the pasture fenced off into suitable areas so that the hogs can be shifted from one pasture to another, not only to provide fresh pasture, but also to afford opportunity to disinfect the pastures, either by plowing and seeding to a forage crop or by exposure to sun and weather. Nearly all cases of intestinal worms, which are rather common in swine, are contracted from infected ground, and swine can be kept free from these parasites by frequent changes of pasture.

When Lime is Needed.

Any land which, when sown to clover and timothy, produces in their stead chiefly red top and sorrel, will be benefited by the use of lime. Apply anywhere from 1,000 to 4,000 pounds or from fifteen to twenty bushels. The chief thing is to get finely-divided lime into the soil.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. Since cases of deafness are caused by catarrhs, which are nothing but an inflamed condition of the mucous surfaces, we will give you the famous Deafness Cure, which is not a cure, but an inflamed condition of the mucous surfaces, which is not a cure, but an inflamed condition of the mucous surfaces, which is not a cure, but an inflamed condition of the mucous surfaces.

Sold by Druggists. Take that Family Cure for deafness.

CARE OF POULTRY DROPPINGS

Only Way to Save Nitrogen is to Get Fresh Manure into Soil Immediately—Heats Rapidly.

(By H. B. SPECK.)

Some years ago Peruvian and other guanos were largely used by farmers. When pure these guanos consisted of the manure of sea birds. In the rainless regions of the west coast of South America vast numbers of sea birds go to certain islands to breed and roost. As it seldom or never rains there, the manure dries rapidly. Mixed with it are bodies of dead birds and fish, on which the birds feed. This material is dug up and crushed into a powder and makes a fine fertilizer.

Some farmers had an idea that hen manure is as valuable as this guano—because both are bird manure. This is not so. The value of manure depends on what the animal eats. These sea birds live largely on fish—food rich in nitrogen and phosphoric acid. Naturally their manure is richer than that of hens fed largely on grain.

Every one knows that ground fish or meat would prove a better fertilizer than corn meal. The same difference must be found in the manure made from feeding them.

Another difference is found in the fact that the guano is promptly dried and has no chance to heat and ferment, thus driving off its nitrogen. On the other hand, every one who keeps poultry knows how quickly hen manure gives off ammonia, for this is plainly evident in the smell. As hen manure is usually handled, probably half its nitrogen is lost in this way.

With other farm animals the solids and liquids are voided separately—and as all know the liquids contain most of the available plant food and are most likely to ferment and send off ammonia. In the hen the solids and liquids are voided together. Most of its nitrogen is in the form of uric acid, which decays rapidly and forms ammonia quickly. When it is left exposed so it will heat there is great loss.

Keep Yards Clean.

Keep the poultry yards cleaned up and allow nothing that has been left unclean by the fowls to accumulate and decompose.

WAYS TO SOLVE DUST PROBLEM

Roads Can Be Made Healthful Without Water.

ARTIFICIAL METHODS USED.

Solvay, Granulated Calcium Chloride and Dustoline Have Been Found to Absorb Moisture From Air and Keep Highways Dustless—Can Be Sprinkled on Roads by "Dry" Method.

At present the science of road building, at least of building what may be called general utility roads, is in an important phase of its development, says Good Roads of New York. The methods that were satisfactory so long as the vehicles passing over the roads were drawn by horses have been found inadequate for the construction of roads capable of withstanding the destructive effects of motor driven vehicles, and new methods are being evolved. Meanwhile the old roads must be adapted as well as possible to the present conditions.

Excepting smoothness of surface, perhaps nothing is more essential to the comfort and well being of those using a road or spending a portion of their time in its immediate vicinity than that it be free from dust.

Various means have been tried in the endeavor to solve the dust problem. In general they may be classed as prevention and suppression, the dividing line being by no means easily drawn, since suppression necessarily implies a measure of prevention. The prevention of the formation of dust is more or less a matter of construction, while suppression is the laying of the dust constantly forming on the surface of roads.

Since the majority of the roads of the country are earth, gravel or water bound macadam one of the chief phases of the dust problem is the laying of dust on these roads. It is generally conceded that water sprinkling, at least by the methods commonly employed, is not practicable for the ma-

TOP—ROAD TREATED WITH CHLORIDE. BOTTOM—ROAD TREATED WITH DUSTOLINE.

(Courtesy Good Roads.)

jeority of such roads on account of the frequent difficulty of obtaining water near at hand and the consequent excessive cost; therefore various artificial dust layers have been produced, many of them acting with water to produce the desired effect.

As compared with water sprinkling for dust laying, the use of the various artificial palliatives is generally considered the cheaper.

Calcium chloride is a highly hygroscopic and deliquescent salt. The commercial form, known under the trade name of Solvay granulated calcium chloride, is a byproduct of the manufacture of soda by the Solvay process. It contains about 75 per cent of calcium chloride and about 25 per cent of moisture. Its effectiveness as a dust layer depends very much upon its property of retaining moisture applied to the road surface and absorbing moisture from the atmosphere, thus greatly increasing the effect of water applied directly to the road, and also making available that existing in the air above it. It is applied by either of two methods, the "wet" or the "dry." By the first it is dissolved in water and applied from an ordinary sprinkling cart, a solution of from one pound to one and one-half pounds of the material to each gallon of water being used. The second method is especially applicable where water is not easily obtained, though it is often used elsewhere. By this method the dry material in its granular form is spread directly upon the road and allowed to dissolve by the absorption of moisture from the air.

Dustoline is a transparent liquid of a brown or plum color, practically without odor. It is shipped in barrels or in tank cars and is applied directly to the road without heating or mixing with water or other material. Ordinary water sprinkling carts may be used to apply it, or it may be sprinkled by hand with a garden watering pot. It acts as a dust layer by holding together the fine particles on the road surface in a moist condition, thereby keeping the road free from dust.

CLEANING WITH GASOLINE.

How to Use It in Washing Soiled Garments and Feathers.

To clean with gasoline the first thing to do is to obtain gasoline of a suitable grade. A simple experiment will determine this and make you independent of the advice of your dealer. Pour a little on a piece of white writing paper of good quality. If the gasoline leaves no trace of grease on the paper after evaporation you will be safe in using it; otherwise it is useless for your purpose.

Second, buy enough gasoline both to wash and rinse your garment. Two gallons are enough for a dress, provided you wash it in a proper receptacle, which retards evaporation by exposing a comparatively small surface to the air. Many women fail of success because they do not realize the necessity of rinsing the garment in plenty of clean gasoline. The gasoline that is left after a garment is washed can be allowed to settle and the clear gasoline at the top used again. It is not advisable, however, to use the same gasoline too often.

Now as to the method of procedure for garments in general. Soak the garment in gasoline. If it is much soiled twenty-four hours is not too long. Instead, your labor will be lightened and the garment saved much destructive rubbing. Be sure that the vessel in which you place the garment and gasoline has a tight cover. A wash boiler can be used. Cover the opening with two or more Turkish towels, and over these place the lid and weight it down all around.

Procure a small washboard and, putting it into the boiler, rub the garment vigorously, just as if using water. Before wetting the garment it is a good plan to locate all the spots that need particular attention by tacking around them with a thread of contrasting color. They are then easy to find when the garment is wet. The under parts of sleeves, the neckbands and the hems of skirts must receive special attention in the matter of rubbing. Do not expect the gasoline to do all the work, for it will disappoint you. Rinse the garment in clear gasoline and hang in the sunshine and air to dry. Finally press it with an iron of suitable temperature to remove the creases and also whatever color may remain. During the whole process up to the pressing keep your work out of doors.

There are a few special ways of using gasoline which it may be well to mention. White ostrich feathers can be cleaned by using gasoline and flour. Stir in enough flour to make a thin white paste. Thoroughly shake the feather in this. Dry by waving in the sunshine and air. The flour will shake out, leaving your feather white, soft and beautiful.

Chiffon rushings which are soiled, but not crushed, can be rejuvenated by shaking them in clear gasoline and then drying them in sunshine and air. Small articles, such as fancy neckwear in general, which must be treated gently, can be put into a fruit jar nearly filled with gasoline. Using a rubber ring, screw the top on tightly. Let the articles soak for some time and then shake them vigorously. Rinse in the same manner in clear gasoline. Dry in the sunshine and air.

Coat collars can often be cleaned by wetting a cloth in gasoline and then rubbing the soiled part. If the fabric will warrant it and is much soiled use an old toothbrush for this purpose instead of the cloth.

Neckties cannot always be cleaned by the simple rubbing process. If that is so try using a brush dipped in gasoline to scrub the soiled parts. Satin, of course, does not permit of this treatment. Grease spots can be removed by rubbing the spots with a good white soap after the article has been soaked in gasoline. Rub hard and rinse thoroughly.

Gasoline in which soap has been used cannot be used a second time.—Ethel Dressler in Chicago Tribune.

SENTENCE SERMONS.

"Apply the result of your reading to your everyday life.—David Pryde.

"Tis only noble to be good; Kind hearts are more than coronets, And simple faith than Norman blood.

—Tennyson.

Keep steadily before you the fact that all true success depends at least upon yourself.—Theodore Munger.

It is the work of a philosopher to be every day subduing his passions and laying aside his prejudices.—Addison.

It is very good for strength To know that some one needs you to be strong.

—Elizabeth Barrett Browning.

The Campaign Portrait.

I saw a picture of a man With lofty brow and saintly eyes That seemed this world of ours to scan In quest of some fair paradise Where all would heed the wisdom deep His lips, just parted, seemed to frame Yet vigilance that knew not sleep Into his rapt expression came.

A hero in whatever may come, Though passing desperate be the game, With courage fit for martyrdom And caution to avoid that same! In fascination still I gaze, For it depicts man's perfect state Whose vast attainments must amaze—The portrait of a candidate.

—Washington Star.

LOCAL HAPPENINGS

F. A. Berry, of Dayton, was in town Monday.

The Oddfellows will install officers next Tuesday night.

Miss Blossom Brown was in town, from Artesia, Friday.

Miss Lora Jones is in Roswell visiting friends and making new ones.

Eugene Roberts is spending the holidays with friends in Carlsbad.

C. W. Tucker, of Loving, was up in his new Buick Saturday. Roy Hepler accompanied him.

John Rusten, of Pearl, was in town Wednesday. John thinks of running for constable at Pearl.

John Vest and family came up from Barstow, Texas, to spend Christmas with relatives in Carlsbad.

Dr. Black came in from Queen on Thursday's mail back to buy a few necessities in his line.

Miss Faye Elder, of Artesia, left on the Wednesday auto for Nadine, where she will teach the coming term.

Will Welch, who was here from Seattle, Wash., to attend his mother's funeral, left for home last Saturday.

John Dunaway came down from Amarillo for Christmas. He has sold his cattle in the Panhandle, but still holds his land.

Allen Stewart was down from the New Mexico Military Institute this week to look over Christmas goods and see old friends.

Lee Middleton and wife, of Queen, are the happy recipients of a new twelve and a half pound baby boy who arrived Wednesday, Dec. 20.

Frank Kindle, formerly of Carlsbad, but now in the employ of Kipling at Roswell, was down this week visiting home folks and old acquaintances.

J. R. Holt has lately purchased a new, 1912 model, four door Buick car. It is a beauty and we know that Mr. Holt will take the best of care of it.

John and Bill Lusk were in town Christmas to have a good time with the rest of the boys. We are always glad to see them in and regret to see them leave.

Roy Duncan was down from Artesia to spend Christmas with home folks. Roy is attending Western College and is very much pleased with the work there.

Dr. Sellers and wife, of Knowles, departed on the Wednesday auto for home after spending Christmas with their parents. Mr. and Mrs. W. C. Sellers.

Miss Mary Runyan, of Artesia, is visiting Miss Ruth Stewart. Miss Runyan has been in Carlsbad before and has many friends who always give her a hearty welcome.

J. M. Pardue, one of the heavy property owners of Carlsbad, now located in El Paso in the real estate business, spent last week in town looking after his interests.

Mr. Rich was out hunting last Saturday and returned with a bag full of game. Its nice to hear of the other fellow's luck especially when we are lucky ourselves.

W. M. Hannah has been confined to his bed, during the recent cold spell, due to an attack of asthma. He is still sick, but much better. We hope to soon see him at his work.

Robert Ezell, who is attending Western College, at Artesia, was down to spend Christmas. He visited home folks at State Line, returning to Artesia Wednesday morning.

Mrs. R. E. Dick entertained a number of her friends, at cards, last Tuesday evening. The house was tastefully decorated with holly evergreens that gave her guests a feeling of contentment. Mrs. Finlay won the ladies' prize, a very beautiful cut glass nappy, and Dr. Ervien the gentleman's, a book—"The Texican." Those present were: Messrs. and Mesdames Braden, Halley, Rickman, Harvey, Dille, Webb, Parr, Hopkins, Mitchiner, Joyce, Finlay, Brantly, Merchant, Brown, Ervien, Eskridge and Dean; Messes Breeding, Redmond and Hedrick; and Mrs. Benson. After a very pleasant evening a two course luncheon was served and the party adjourned declaring it a most enjoyable evening.

Miss Grace Miller, Miss Gladys Jolley, Glenn Burnett and Robert Shraded departed Monday afternoon for Carlsbad, where they attended a Christmas dance Tuesday evening. They spent the day there and returned home on Wednesday morning's train. Mr. Burnett has been visiting Miss Jolley for the past few days and remained in Carlsbad, his home.—Roswell Record.

C. J. Walter, who has been doing work on the house at what is known as the old Camp place, twenty-five miles north, was in town the latter part of last week getting material and resting a little during the holidays. Will Fenton will take possession of the place as soon as it is sufficiently repaired.

J. R. James and family will leave shortly for Sawtelle, Cal. "Jack" has sold a one fourth interest in his cattle and ranch to his cousin, Elsworth, who will look after the business during the next year, when "Jack" expects to return either to remain or sell out entirely; the stay of a year in California being for the purpose of learning whether he would like the country or not.

Miss Gladys Jolley, who has been living in Roswell for some time, was down Monday night to attend the Christmas ball given by the Club. She brought her friend Miss Grace Miller, to enjoy one of the real good times Carlsbad's young people have. We hope Miss Miller was pleased with our little city and will soon return.

Christmas day the boys of the High School met a "pick-up" town team on the basketball field, and were the victors by the narrow margin of one point, the score being 18-19 in favor of the High School.

Rupert Ezell and R. A. Wright were up from State Line this week and report everything doing well down their way. They were a little late for Christmas but always glad to come to Carlsbad.

W. C. Brainard and Jesse Wheeler, who are in the employ of the Santa Fe railway, have been transferred to Clovis. They run north from there. Many of their friends here are sorry to learn this, as it will necessitate their absence from Carlsbad.

Mr. Cook, who will reside in the McShane residence, has two autos and will drive through from Oklahoma city. He is an old newspaper man and printer, and will be quite an addition to the project.

Geo. Bruce and Fred Rohmer came home for Christmas from Pyote, Texas, where Mr. Bruce has a contract to build a \$12,000 school house. Mr. Bruce spends most of his time at Pecos where he also has several contracts.

Earnest Harrison, who was taken to Las Vegas some time ago for treatment at the State Hospital, has returned and is looking better than ever. Earnest has many friends here who are glad to see him back.

Call at the Current office for all kinds of printing. Charges less than foreign traveling men. Patronize home.

Christmas at the Churches.

Christmas commenced Saturday with the churches of Carlsbad. The Presbyterian church had a fine tree for the children Saturday night and Sunday morning a special service in charge of Mrs. Fessenden.

Christmas morning at St. Edwards' Catholic church four masses were celebrated, one at six, seven, seven-thirty and a high mass at ten. The church was beautifully decorated with the images of the shepherds tending their flocks and a stable and manger. The sermon was by Father Florian.

A Christmas tree at the Episcopal church Saturday afternoon at three o'clock was a gem to behold.

At the Christian church the Christmas tree was dismantled Saturday evening, and a song service at five p. m. Sunday, when Mesdames Fessenden and Bunch sang a duet and Mrs. Fessenden a solo. The Baptists had no services.

Christmas night was made lively in social circles with a number of dances. The far famed dance hall at the Club rooms was made merry by the beautiful strains of music and the merry whirled of the dancers, while just across the hall another jolly crowd were passing away the evening until Santa Claus was well through with his work. Even the Spanish population recognized the chance and made most of their opportunity by waltzing away the time to the strains of the violin. May this be the most prosperous year Carlsbad has ever known and the worst it shall ever know.

Master Cyrus Jordan Jr. entertained five little friends Christmas eve with a dinner and tree. The covers were laid around the tree and the table was elaborately decorated with mistletoe, holly, hand painted place cards and red ribbon. After enjoying a four course dinner of turkey and Christmas goodies, the tree was dismantled and toys, fruits and candies given each child. They all expressed themselves as having had a delightful time.

B. F. Rose, who has so long been agent here, has been transferred to Roswell and is moving his family there. Many are his warm friends here that are sorry to see Mr. Rose leave, but glad to know he has a considerable better position there. He is succeeded by D. A. Yeager, for some time station agent at Willard on the cut off, formerly of southern Illinois.

Bits of News.

Bernardo Reyes is reported to have surrendered to Madero. Reyes was believed to have been at the head of a revolution in Mexico.

The storm of Christmas day broke all records for twenty years in Albuquerque and the next morning the mercury marked twenty below zero.

The orange crop was damaged by frost Christmas night in California around San Bernardino and Riverside, where twenty-six above zero is very cold.

MALAGA, N. M.

Call and See us and Examine Stock and Prices

Colorado Coal Constantly on Hand

We Carry A GENERAL LINE

Livingston-Balz.

Wednesday evening, at five o'clock, occurred the beautiful wedding of Miss Lucy Balz, of Malaga, to Mr. Marvin Livingston, of Carlsbad.

Only a few intimate friends and relatives were present.

The bride has been living at Malaga for the past year, having come to the Valley with her brother from Chicago.

The bridegroom is a well and favorably known young man of Carlsbad who has been here for many years.

The young couple left Thursday morning for Los Angeles, Cal., where they will spend their honeymoon, after which they will make their home in Carlsbad.

The Current joins their many friends in extending congratulations and wishing for them a long, happy and prosperous life.

Cream Shipping Station.

The farmers in the Otis neighborhood had a rousing creamery meeting Wednesday night and listened to a talk by Mr. McHenry, of the Roswell creamery, who offered to buy all the cream of this section on a basis of thirty cents per pound for butter fat. This offer pleased the owners of milk cows who will at once commence shipping cream to Roswell.

FOR SALE:—40 tons Alfalfa hay at \$10.00 per ton. Kafir corn fodder at \$3.99 per ton. V. C. Harlan. Vineyard Stock Farm.

The Current job department is second to none in the territory and is now equipped to turn out work promptly, having the best of printers and one of the best equipments in New Mexico. A trial will convince you.

Christian & Co., Insurance.

Gas in the stomach comes from food which has fermented. Get rid of this badly digested food as quickly as possible if you would avoid a bilious attack. Herbine is the remedy you need. It cleanses and strengthens the stomach, liver and bowels, and restores energy and cheerfulness. Price 50c. Sold by Eddy Drug Co.

W. H. Grove and wife, of Lovington, have been in town on a visit with friends during the holidays. Mr. Grove is one of the big sheep men of the plains.

Wednesday night, Carlsbad lodge A. F. & A. M. installed the following officers: W. R. Hegler, W. M.; J. R. Harvey, S. W.; Chas. A. May, J. W.; W. A. Craig, Treas.; Victor L. Minter, Secy.; W. G. Brown, Tyler; and R. M. Thorne, Trustee three years. The installation was public and a literary and musical program was given.

The heaviest snow ever known to the oldest inhabitants of the Guadalupe still covers the ground from the top of the big hill west to Dog Canyon. Snow has fallen for ten days, since Dec. 10.

John Bolton received a telegram last week stating that the president had appointed him for four years more as postmaster, all of which is good news to John's many friends.

Master Wm. H. Mullane Jr. left on the Wednesday auto for his home in Knowles after a six weeks visit with his grandfather and wife, Mr. and Mrs. Wm. H. Mullane.

County Commissioner J. H. Graham came in last night from an extended visit among relatives in Oklahoma and Texas, having visited with a sister whom he had not seen for seventeen years.

Whooping in the lungs indicates that phlegm is obstructing the air passages Ballard's Horehound Syrup loosens the phlegm so that it can be coughed up and ejected. Price 25c, 50c and \$1.00 per bottle. Sold by Eddy Drug Co.

Christian & Co. Insurance.

Meister Singers' Male Quartet.

This well known organization is presented for the season 1911-12 with a new addition in the way of Organ Chimes. So great have these beautiful chimes impressed certain Catholic Dignitaries of Europe that a Papal decree has declared them standard and entirely suitable to be placed in any Catholic church. The result is, they are played in monasteries and churches all over Europe. Those carried by the Meister Singers are a 49 note set, the largest made. The singing of the quartet with the chimes will be an important feature of the entertainment.

As for the quartet, little need be said. They blend beautifully, all have trained voices and they have a remarkable range from Low C to High D. This entertainment will be given in the High School Auditorium at an early date. Watch for a definite announcement in a week or two.

Woodman Circle Meeting.

At the last meeting of the Woodman Circle the following officers were elected:

Nellie Vest, guardian; Nora Leck, adviser; Elizabeth Hewitt, attendant; Ella Justice, clerk; Mary Espy, banker; Beulah Little, chaplain; Belle Reed, inner sentinel; Walter Pendleton, outer sentinel; Laura Pendleton, Matt Ohnemus and Jake Kircher, managers.

Installation of officers next Monday night. Every member is requested to be present. Ella Justice, Clerk.

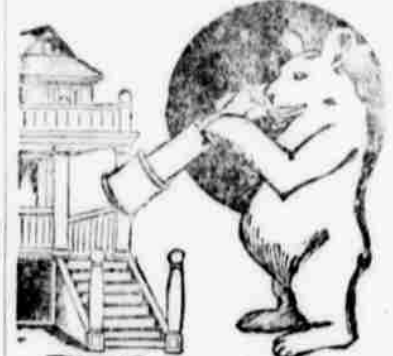

The Home and School Association meets at the High School building January 5, at 3:30 p. m. Every person interested in the work of the school is urged to attend.

School begins January 2nd, (Tuesday). Children, don't forget.

FOR SALE:—Pure Alfalfa Seed. Contains no Johnson grass or other noxious seeds. C. F. Dodge.

W. F. Cochran, at Malaga, keeps the following: Kentucky Comfort, Guggenheimer Rye, Cane Spring, Old Oscar Pepper, and Cream and Apple Brandy bottled in bond.

Baled hay—three bales for one dollar, rear of Current Office. Also fine threshed hay in the field.

LOUIS LANGE,

Christian & Co. Insurance.

For Sale:—600 boxes of fine juicy mountain grown apples from the famous Thayer Ranch. Carefully picked and packed. Get them now. See or address F. E. Downs Carlsbad, New Mexico.

FOR SALE:—200 tons choice baled native hay. \$12 per ton f. o. b. Toyah. Also 20 Sec. pasture for lease or will take stock by the month. G. C. SPARKS, Toyah, Texas.

Notice to Teachers.

The regular mid-winter teachers' examination will be held at the court house in Carlsbad, Friday and Saturday, January 12th and 13th, 1912.

All permits expire Jan. 15th, and can not be re-newed. Persons holding low grade certificates are urged to take this examination.

The examination will be free to those who attended the County Institute. Stationery, ink, etc., will be furnished free to applicants.

A. A. Kaiser, County Superintendent.

Left Over From Last Week.

Miss Jane Groves came home Tuesday night from school. Miss Jane is very much liked among the young people of Carlsbad and they gave her a very hearty welcome.

Monroe Christian is home again from school in Socorro. It seems almost like old days in Carlsbad to see so many faces that have been here so long, and may this be a time for old friendships to be renewed.

On the last Thursday before the Christmas holidays, Rev. Jasper T. Moses, of the Christian church, delivered another of the series of Community Lectures to the students of the High School. His subject was "The Christmas Offering That the School May Make the Community." This lecture was intensely interesting and very practical. The place of the school in the community and its connection with the Christmas spirit was discussed and ably illustrated by the speaker. Remember that these talks are a regular feature of the educational work of the community and that the public is cordially invited.

Pecos Water Users Directors Meet.

Last Saturday the directors of the Pecos Water User's Association met in regular session to order the annual election and attend to such other business as might properly come before the board.

The board listened to Mr. Hove on the necessity of advertising the project and, also, to a plan submitted by Secretary Etter, who outlined the following:

Fifty thousand pamphlets printed in three colors by the government, costing \$1,000; the government to use \$750,000 of Carlsbad Project funds, the railway to take \$500,000 worth, and real estate agents the balance. This plan was discussed and seemed to meet with some favor.

The annual election for directors was called for January 16th. Director J. Hise Meyers having resigned and J. A. Hartshorn's term having expired there will be two to elect in the Malaga district. The terms of I. S. Osborne, Carlsbad district, and J. W. Wallace, of La Huerta, having expired, directors will be elected from those districts.

FOR RENT:—January 1—Furnished room; modern conveniences. N. T. DAUGHERTY.

When in need of visiting cards either engraved or printed call at Current Office.

FOR SALE:—Good coach horse colt, coming 3, large for age. Good style and action. 5 or 6 colonies of bees. A few hens and pullets. Will book orders for thoroughbred Brown Leghorn eggs. W. G. FORCE, La Huerta.

Christian & Co. Insurance.

Sickly children need Whites Cream Vermifuge. It not only destroys worms, if there be any, but it acts as a strengthening tonic in the stomach and bowels. Price 25c per bottle. Sold by Eddy Drug Store.

Douglas pure sugar stick candy. Will not make the children sick. For sale at Corner Drug Store.

expiration of thirty days from and after the last publication of this notice, to-wit: On the 4th Monday in February, 1912, at ten o'clock in the forenoon, A. D. 1912, beginning at the hour of ten o'clock a. m. of said day will offer for sale at public auction in front of the County Court House door in the Town of Carlisbad in said County and Territory, the real estate and personal property of the said partnership, and the said partnership, and costs and charges due thereon as set out in said notice. This notice is given and said property will be sold in accordance with the provisions of Chapter 22 of the Acts of the Legislative Assembly of the Territory of New Mexico, for the year 1890, approved March 1st, 1890, and other laws of said Territory of New Mexico. Witness my hand this 29th day of December, A. D. 1911.

W. H. MERCHANT,
Treasurer and ex Officio Collector of
Eddy County, New Mexico.

ONE GOOD FATTENING RATION

Pennsylvania Station Makes Suggestion as to Feed Where Different Kinds of Flesh Is Desired.

The Pennsylvania station suggests the following grain rations for fattening poultry, as having been used with success:

Where a yellow flesh is wanted a ration should be made of cornmeal, five parts; ground oats, hulls removed, two parts; animal meal, one part mixed with sour milk. Where a white flesh is wanted the following rations are recommended: Corn meal, two parts; ground buckwheat, two parts; ground oats, two parts mixed with sour milk. Another: Barley meal, two parts; middlings, two parts; buckwheat, two parts; corn meal, one part, mixed with sour milk. Another: The refuse from shredded wheat and sour milk.

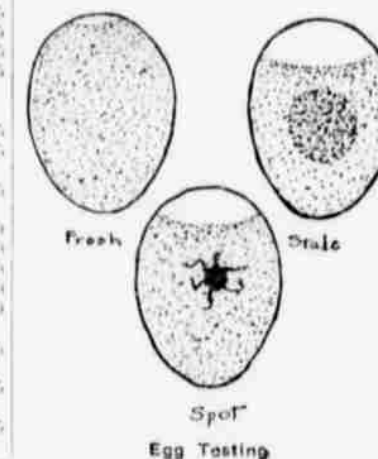

When birds are confined for fattening sour milk aids digestion and keeps the system from getting feverish. If no milk is available some form of animal or green food must be supplied to make the best gains. Should a chicken for any reason get off its food a good plan is to turn it out in the yard. It will usually recover in a short time. Water should be given once a day and grit twice a week. The rations should be fed rather soft, about like porridge. The food should never remain before them from one meal to another. Take it away twenty minutes after feeding.

CANDLING OUTFIT FOR EGGS

One Can Easily Arrange Satisfactory Apparatus Out of Piece of Tin and a Lamp.

(By BERT COHN.)

Any person can make a candlelight outfit easily and cheaply. A cylinder of tin large enough to fit over a kerosene lamp or lantern or a piece of ordinary stove pipe is sufficient. This should have a hole cut in it about the size of a silver dollar, cut so as to

stand opposite the flame of the lamp or lantern. The candling can be done in ordinary light, but better work can be done in a dark or semi-dark room. As a general rule if the egg shows clear, or in other words, if you can see through it, it is good. If it contains one or more dark spots, dark lines or dark rings, it is bad, and should be thrown away. If it is several days old, and has an air space at one end, it is not bad, but can be sold. The produce dealers receive eggs as seconds. If you cannot see through the eggs they are bad and should be thrown out. Some perfectly fresh eggs may show dark lines or rings. These are caused by unhealthy hens and the eggs are not good.

C. O. D.

The dyspeptic guest gazed longingly at the crisp, brown turkey, the mashed potatoes, celery, cranberries etc., and sighed, with a mournful intonation:

"I'll have to pay for this tomorrow I know."

The host took a thoughtful expression and remarked:

"I wish I'd known that. They made me pay for it yesterday."

Growing Reminiscent Now.
Teacher dear, in defining the word
"reminiscent" told the class:

"Reminiscent" means something that calls up memories of things and incidents that have gone before—something that brings a previous fact before us."

Yesterday she asked the class to define "reminiscent," when the little wise boy answered:
"Turkey."

"THE CASH STORE"

SAYS THE OWL

There are just as good fish stories as have ever been caught.

The worst thing about a theory is that it seldom pays dividends.

Too many men are measured by the size of their bank accounts.

The greatest drawback to a long life is that it necessitates old age.

Money talks, and that seems to be the best sort of campaign oratory.

If some men should ever rise in the world it would probably make them dizzy.

The love of money that is the root of all evil is really the love of other people's.

No man thoroughly believes in himself unless he has full confidence in his digestion.

The early bird gets the worm, but, on the other hand, the early worm merely gets eaten.

A girl generally keeps on the right side of a chaparral if she happens to be bent in that way.

Only a very rich man can afford to dress as though he didn't have one cent to rub against another.

The man who complains that he never has a chance is the one who allows some other fellow to grab it first.

THE GENTLE CYNIC

A man with a long head is worth two with long faces.

The noblest work of God is man, or, at least, some of him.

Eve fell, and it wasn't because she wore a hobble skirt, either.

You have to probe pretty deep to find the probity of some men.

Farmers' Educational and Co-Operative Union of America

Matters of Especial Moment to the Progressive Agriculturist

The honest breeder culls. Watch the elevator scales! Real co-operation means success. Where moisture permits, push the plow.

A hasty temper and a slow horse are ill-suited to each other. Don't expect to make a three-bagger every time you go to bat. Strange that "tainting the town red" makes one's friends blue! "An honest man is the noblest work of God"—and about the scarcest. Ignorance is not always bliss—particularly in the farming business. Some things come to those who wait, but opportunity is not among the comers.

Many a bad actor is a good actor, and that's how he manages to fool the public.

City folks are asking the farmers to produce more. Why? So they can buy for less. Is that a good bait? The political rally doesn't draw the farmer as it used to. He isn't taking the other man's opinion for granted now, but reads and draws his own conclusions.

Fifteen years ago the farmers were called close. Could you expect him to have been otherwise than close when 15 cents was the best he could get for his corn?

There is no complaint now of the farmer not spending his money. In fact, Wall Street rather laments that he is too free with it and all because he likes to ride in an auto the same as the Wall Street man.

WHAT FARMER REALLY NEEDS

Co-Operation in All Branches of Agricultural Industry to Secure His Just Rights.

I lately attended a meeting of a farmers' co-operative elevator company. This company is incorporated to buy grain and do a merchandising business as conditions may indicate. The question of handling lumber, tiles and machinery was taken up. In acting on these questions I was surprised to find so many farmers opposed to taking up such business, says a writer in the Farm, Stock and Home.

I once heard of a man who was kicked and knocked down, and after other abuse warned the ruffian to desist or he would get mad. Now the farmers have for years submitted to all kinds of extortion and misrepresentation from local dealers, besides having local dealers discourage them in their efforts to organize co-operative enterprises, and in many cases their co-operative efforts of every kind. Now when the question comes up to handle machinery and other needed things, they hesitate.

Farmers should go into business of all kinds that necessity prompts them to get into, be honest with each other, give their young educated sons a chance to use their education in touch with farm life. I am sick and tired of all this institute and farm school talk and expense. It is a travesty to the farmer's intelligence. We have for years and of necessity striven to raise more and better crops of all kinds, also striven to obtain the best seeds, but of what avail is it when we are literally robbed of our just returns through the present extravagant trade system. Change the whole form of instruction, to teaching us to co-operate instead of discouraging co-operating, then some good would come from money expended. I do not go on record against education upon all lines, but now the most important education the farmer needs is how to co-operate, to the point of eliminating all useless middlemen. As it is now, we are supporting an army of absolutely needless middlemen. Their competition is so great that they have combined on all lines to enable them to live, no matter how many enter into the business of standing between the farmer and his necessities.

The price of wheat locally I claim would have averaged one dollar or more per bushel, and flour sold at same price it has sold at for the past twenty years, had the unnecessary middleman been eliminated. Co-operation is the only possible way that the farmer can receive what he is entitled to receive for his products, or be able to purchase his necessities.

How long will it be before the farmer will awaken? How many more cuffs and kicks before he will give warning that he may possibly get mad? For one, I will admit I have long been ready to give warning that I am ready to get mad.

Co-operate; teach co-operating upon all lines or the future of the farmer is hopeless. I care not how hard he struggles. More weight is being added to his burdens every year, the last straw will be reached soon, and with it the desire for independent farm homes will disappear, then the nation with the most liberal form of government will prove a failure. Farmers, every hour spent in solving the problem of co-operation is of more real value to you in time and money, than weeks of work under present unjust conditions of distribution. Arise, awaken, co-operate upon all lines or all will soon be lost.

ORIGIN OF NAMES

Ruth is Hebrew and means Beauty.

James is of Hebrew origin, the Beguiler.

Harold, the Champion, is of Saxon origin.

Meredith is Celtic, the Roaring of the Sea.

Roxana is a Persian name, the Day Dawn.

Huldah, from the Hebrew, means a Weasel.

Constantine is Latin, signifying the Resolute.

Moses, a Hebrew name, means Drawn Out.

Eugenia and Eugenie are Greek, Well Born.

Agnes is of German origin, the Chaste One.

Bulletin on Grasses.

The Kansas experiment station at Manhattan has issued bulletin No. 175 on grasses. It contains much valuable information on many different varieties of grasses, their uses and production.

A FAMILY BULLETIN BOARD

Dr. Samuel Johnson gave us a quaint pair of phrases when he wrote that the death of Garriek, "eclipsed the gaiety of nations and impoverished the public stock of harmless pleasure." Yet there is needed a third that shall cover "diminishing a people's daily comfort," to follow the Johnsonian style.

There are so many little sins of omission or commission that give others discomfort or petty annoyance, writes Tudor Jenks in the Christian Endeavor World. I beg to offer a list that might well be posted on that "family bulletin board" that should hang in every front hallway:

Dispose of your own burnt matches, broken needles or bent pins.

Others like the brownest pancakes.

Reading extracts is often tiresome.

Throw all waste paper into the basket.

Good manners are a public benefaction.

Have pencils, pens and paper of your own.

Argument may offend even when it convinces.

Put your book back into place on the shelves.

The salespeople are not allowed to answer back.

When making a call remember you have a home.

Hang up towels, dusters, polishing cloths and mops.

Don't borrow stamps or ask friends for small change.

Though your affliction may be great, it is not universal.

A boy seldom whistles well enough to make it a treat.

Remember that trifles use up other's time as well as yours.

It is likely someone may be waiting for the telephone wire.

Your best friend does not always like your favorite book.

Many things new to you have long been familiar to others.

The rules of hygiene are not always a part of the Holy Scriptures.

Keep a dog if you must, but don't impose the animal on the whole neighborhood.

The whole neighborhood has an interest in the neatness of your home grounds.

People don't like to say, "Mind your own business," but they often think it unless we are careful.

THOUGHTS ON LOVE

Divine is love and scorneth worldly self, And can be bought with nothing but with self.

—Sir Walter Raleigh.

If a man should ask me to give a reason why I loved him, I find it could not otherwise be expressed than by making answer, Because it was he, because it was I. There is, beyond all that I am able to say, an inexplicable and fated power, I know not what, that brought about this union.—Montaigne.

True love is but a humble, low-born thing, And hath its food served up in earth-ware; It is a thing to walk with, hand in hand, Through the every-dayness of this workday world.

—Lowell.

I love thee as the good love heaven.

—Longfellow.

Love leads to present rapture then to pain; But all, through love, in time is healed again.

—Leland.

The pleasure of love is in loving. We are happier in the sentiment we feel than in what we arouse.—La Rochefoucauld.

But great loves to the last have pulses red; All great loves that have ever died dropped dead.

—Helen Hunt.

UNCLE EZRA DISCOVERS THAT:

"A skyscraper never raises much of a dust."

"The main trouble with loose change is that it's gen'ly too loose."

"The man who depen's on book farmin' gen'ly has more readin' matter than produce."

"When opportunity knocks at some folks' doors the latchstring 'pears to be on the inside."

"The child born with a silver spoon in its mouth don't begin life with the right kind of vittles."

"Makin' a mountain out of a molehill is all right pervidin' they's a big demand fur real estate."

GOOD QUALITIES OF CAPONS

Although industry is growing rapidly Supply Does Not Begin to Equal the Demand.

(By R. R. SLOCUM.) A capon is a male chicken bearing the same relation to a cockerel that a steer does to a bull, a barrow to a boar or a wether to a ram. As with other animals of this kind, the disposition of the capon differs materially from that of the cockerel. He no longer shows any disposition to fight, is much more quiet and is easy to keep within bounds. The true capon never crows. Along with this change in disposition there is a change in appearance. The comb and wattles cease growing, which causes the head to appear small. The hucker and saddle feathers develop beautifully. Indeed, these feathers and the undeveloped comb and wattles serve to identify the capon and in consequence should never be removed when the bird is dressed for the market.

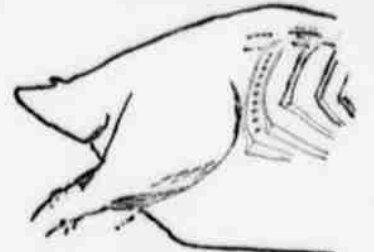

Diagram Showing Where Incision Should Be Made Between Last Two Ribs.

As a result of the more peaceful disposition, the capon continues to grow and his body develops more uniformly and to a somewhat greater size than is the case with the cockerel of the same age. For a time the cockerel and the capon make about equal development, but in a short time the capon outstrips the cockerel in growth.

As they do not fight nor worry one another, a large flock of capons may be kept together. Coupled with the better growth is the fact that the capon brings a better price per pound. Cockerels up to 5 months old usually bring from 12 to 18 cents a pound; if held longer than this they are classed as old cocks and do not bring more than 6 to 12 cents a pound.

There are two reasons, then, why it is better to caponize surplus cockerels than to raise them for market as such: (1) There is an increase in weight, and (2) the price per pound is materially increased.

Yet in many localities where especially fine poultry is raised, while capons usually sell for a somewhat better price the difference is not great. In fact, for the Boston market many capons are picked clean and sold as "South Shore roasters." Hence it will be seen that the profit in capons must depend to a great extent upon local conditions.

In selecting the breed best suited for caponizing, several factors must be taken into consideration. Large capons bring the best prices. Consequently the breed should be large. It does not pay to caponize small fowls. Yellow legs and skin, as in other classes of poultry, are most popular.

The Plymouth Rocks, Light Brahmas, Cochins, Indian Games, Langshans and Wyandottes are all recommended by different producers, as are also various crosses of these. The Brahmas and Cochins possess good size. By some the Brahmas are claimed to be difficult to operate upon; by others this is denied. The Plymouth Rocks and Wyandottes are somewhat smaller, but sell readily and possess the advantage of yellow skin and legs. The Langshan is large and is easily operated upon. The Indian Game is probably the most useful as a cross upon some one of the

other breeds, thereby improving the breast meat without materially reducing the size of the fowl. In Massachusetts the Brahma was formerly the most popular breed for this purpose, because of the demand for large birds for roasters. Later, crosses between the Light Brahma and the Barred or White Plymouth Rock became quite popular, while at present the pure Barred and White Plymouth Rocks are also considered suitable and are widely used.

Prevents Indigestion. Charcoal is very effective in preventing indigestion, which is a common ailment among poultry of all kinds and of all ages, and as is very well known by all who are in the business, indigestion is one of the fore-runners of poultry diseases.

Method of Securing Fowl; Also Spreader in Place.

THE LYHNE LAMP Prevents Eye Strain

The reflector on the Lyhne (pronounced "line") Electric Lamp magnifies and concentrates the light. It gives a much stronger, more useful and steady illumination than any other lamp.

The revolving, adjustable shade throws the light on the exact spot where you want it. It shields the eyes from every ray of light. There is no strain or glare.

The Lyhne Lamp can be focused at any distance or shaded at will. It is instantly adjustable to any angle—upwards, downwards, to the front, to the back or to either side.

It is portable and can be used wherever there is an electric light socket, either in office or home. Handsome and well-made. The latest and best lamp.

Look at it today.
