TWENTY-FIRST YEAR

CARLSBAD NEW MEXICO, FRIDAY, JANUARY, 24, 1913.

NUMBER 11

## THE GOVERNOR'S MESSAGE

ABLE STATE DOCUMENT FROM THE EXECUTIVE DEALS WITH MANY QUESTIONS OF PUBLIC INTEREST.

Governor McDonald read his message to the members of the state legislature in joint session in the hall of the house of representatives last Wednesday morning. The message is of too great length to be reproduced in these columns. It is, in part, as follows:

To the Senate and House of Representatives:

Good government, like good business, requires attention to and careful consideration of the revenues and expenditures relating to carrying on of the same in an honest, intelligent, economical manner for the general good of those who contribute to its maintenance.

Under our state constitution we are limited in our taxing power by the following: (Article VIII, Sec. 4)

"There shall be levied annually for state revenue, a tax not to exceed four mills on each dollar of the assessed valuation of the property of the state, except for the support of the educational, penal and charitable institutions of the state, payment of the state debt and interest thereon. For the first two years after this constitution goes into effect, the total annual tax levy for all state purposes, exclusive of necessary levies for the state debt, shall not exceed twelve mills; and thereafter it shall not exceed ten mills."

We may as well estimate on a basis of four mills for State Purposes and six mills for Institutions after 1913.

For the year 1912, the total assessed valuation of all state property was \$72,357,454.09.

The revenue that will be provided for the various purposes, based upon a probable 90 per cent collection of all taxes for the year 1912, will be as follows:

|                                 |              |
|---------------------------------|--------------|
| For Institutions..              | \$463,002.00 |
| For Interest and Sinking Fund.. | 123,904.00   |
| For State Purposes              | 195,635.00   |
| For Roads.....                  | 65,211.00    |
| For Schools.....                | 32,606.00    |

Total .....\$880,358.00

The other revenues of the state, available for appropriations, are as follows:

|                                   |              |
|-----------------------------------|--------------|
| From interest on State Deposits.. | \$ 14,000.00 |
| From Corporations and Insurance   | 60,000.00    |
| From Secretary of State .....     | 2,000.00     |
| From Bank Examinations .....      | 5,000.00     |
| From Pullman and Express compys.  | 2,000.00     |
| From Supreme Court fees.....      | 1,000.00     |

Total .....\$79,500.00

Total available for all appropriations.....\$959,858.00

The regular appropriations for the year beginning December 1st, 1912, are as follows:

|  |              |
|--|--------------|
| Educational institutions..   | \$201,465.21 |
| Penitentiary, Reform School, Insane Asylum and Miners' Hospital..... | 141,160.87   |
| Charitable institutions.....   | 32,000.00    |
| Interest .....   | 30,000.00    |
| Salaries and expenses of officers .....                              | 226,950.00   |
| Miscellaneous .....  | 32,710.00    |

Total .....\$664,286.08

From the above will readily be seen the situation as at present existing. Increased appropriations will probably be asked for, and in some instances will be necessary, for the proper conduct of the State's business in order to obtain the best results. If our revenues are not sufficient to meet such increased appropriations, we must either obtain more revenues or curtail our appropriations. Aside from direct taxes, there will probably be some increase from various ordinary sources as provided. The subject of taxation will be considered in another place.

Under our constitution, Art. IX, Sec. 7, we have power to borrow \$200,000.00 for "Casual Deficits," etc. We have already borrowed \$200,000.00 and reached the limit. No more can be borrowed in this manner.

Under Art. IX, Sec. 8, the legislature may authorize a bond issue for "some specific work or project," but such a loan shall not take effect until it shall have been approved by the votes of the people of the state. The recent vote on road bonds was instance of this kind. The interest in this was state-wide and it carried. The fate of

any proposed bond issue for a local purpose is not difficult to predict now.

Therefore, hereafter we shall have to rely on our regular levies on the property of the state for nearly all of the revenues for regular and special appropriations, unless the law-making power shall provide other methods of raising revenue as contemplated in Art. VIII, Sec. 2 of the state constitution.

I wish, particularly, to call your attention to the totals for appropriations and revenue. It would seem that the surplus revenue under the levy will be sufficient to have paid all of these so-called deficiencies during the year 1913.

(Here follows a financial statement of the state debt, receipts, disbursements and balances.)

I wish again to call attention to the fact that some of the counties of the state are probably failing to receive such interest as they are justly entitled to for the public funds in the hands of county treasurers, and again I recommend the enactment of a law that will enable the counties, with certainty, to receive reasonable interest on their own funds.

There is no doubt that conditions existing in our common schools are improving every year. Superintendent of Public Instruction, A. N. White has furnished me a complete and exhaustive report, covering all phases of our common schools, a copy of which will be furnished for your consideration. In this public document you will find much that ought to be interesting and instructive.

The common schools are so closely related to the welfare of our state, that careful thought should be given to them and liberal assistance extended where possible and practicable. According to reports at hand, there were, during 1911, about 100,000 children of school age and 1912 shows an increase of 1,600. In 1911 there were about 30,000 children of school age in districts where less than five months of school were taught. For the year 1912 there were only about 24,000. This is a good showing for the year. In 1913, it is confidently expected that there will be very few school districts that will not have the benefit of five months of school.

The governor devotes considerable space to the state educational institutions. The cost of maintaining the institutions is given in detail, but the cost per capita in these institutions is not given on account of the fact that the governor has not been able to secure a statement of the average attendance. The governor says:

Whether it is the fault of the management of these institutions or of the people of New Mexico, I am not prepared to say, but the fact is the results obtained are not commensurate in all cases with the money expended by the tax-payers of the state for their maintenance. A careful study of the reports showing the outlay for salaries and other expenses, and the number of pupils in attendance, leads one to believe that the expenses in these institutions are either greater than they ought to be in some cases, or that the interest in them does not justify very great expense for their limited usefulness.

There is no doubt in my mind that we should have better results. If we could amend Article XII, Section 13, of the Constitution, that one board would have the control and management of all of these educational institutions, the results would, undoubtedly, be more satisfactory. This Board should be under salary, though the salary need not be very large. We should then get better service from the regents and better results from the schools. We could prevent or avoid overlapping and duplicating work in the different schools and might possibly be able to get along with a less number of institutions, and accomplish better work than is now done by all.

I have attempted to keep in touch with these institutions by requiring copies of minutes of all meetings, and reports showing expenditures, attendance, residence of pupils, age, etc. While I have been able to obtain some of the information that I desire, I have never yet been able to get all of what I wanted from them. I have never been able to ascertain the AVERAGE ATTENDANCE for the school year. The total enrollment is given, but this does not give the desired information, as there might be a large number at one time during the year and very few at another, and I am inclined to think this is true at some of the schools. The governor favors a reasonable

appropriation for the bureau of immigration; a sum to aid in paying the expenses of such veterans as may be desired to attend the Gettysburg celebration next July and a sufficient amount to place a New Mexico tablet in the Washington monument. He urges the legislature to take action on the two proposed amendments to the constitution of the United States, one providing for an income tax and the other for the direct election of United States senators.

The conditions and needs of the state institutions, the miner's hospital, the insane asylum, the reform school and the penitentiary, are given attention at some length in the message and a number of recommendations and suggestions are made.

A revision of the statutes of New Mexico is again recommended to the legislature. The enactment of a law for the protection of depositors in state banks is urged. On the liquor question the governor says:

The time seems to me to have come when the public demands more strict regulation of the liquor traffic, with the privilege of deciding for themselves whether, within any given locality, which may be as prescribed by law, intoxicating liquors shall be permitted to sold or handled.

The question of the good or evil resulting from the liquor traffic seems to me to require very little discussion to determine what the proper course shall be. A law modeled something after the Nebraska law, providing for what is known as "daylight saloons," so arranged that the front shall be clear, enabling anyone to get an unobstructed view of the interior from the outside, also providing that no game whatsoever shall be permitted in any room where intoxicants are sold, ab-

efficiency or more class feeling than in taxation."

That statement emphasized and enlarged would fit present conditions in New Mexico. We have never had a definite tax system that has been capable of dealing with personal greed and prejudice, and local envy and discrimination.

Our tax law says that property shall be assessed at its cash value and the county assessors and county commissioners take an oath to enforce the law. Besides this, the assessor swears that "he will make diligent inquiry," during the time he is serving the people, to obtain all possible information relating to property in his county. Each taxpayer is expected to make a list of his property and swear to it, or be liable to an extra 25 per cent to be added to the value of his property. What do the officers in such cases?

The assessment of property of individuals and corporations vary from a very small per cent, in some cases, to nearly full valuation in others. The full measure taxpayers are usually new in this business, or are small property holders who are too honest to falsify to obtain such small benefit, or have property where it can all be seen by the assessor and is easily found. There is no doubt that the large property holder, as a rule, pays on a much smaller percentage of the real value of his property than the small owner who can readily be found and seen.

There does not seem to be so much objection to paying taxes as there is to paying an unequal share. This phase of human nature is so dominant that today, in New Mexico, we have conditions where a large number of tax payers are simply trying to keep from paying more than their neighbors, who are avoiding all they can. This has

## FOR A GREATER CARLSBAD

powers and duties relating to taxation fixed by the constitution, and I believe that our first step in reform must come through that board. In my first message I recommended that this Board "be given power to enquire into the assessment of property, in the various counties" and that provision be made for the removal from office of assessors who fail to perform their duties as required by law. I now again and more particularly recommend that the Board of Equalization be given power to charge individual and corporate assessments, and that an appropriation be made for the use of the Board, to employ competent men to go into the counties and obtain such information for the Board as may be necessary, to enable it to make a better and fairer assessment.

I most urgently recommend that you provide for a temporary tax commission, with power to investigate the whole tax situation in New Mexico, and make report at the next session of the state legislature. An appropriation to pay all necessary expenses should be made, though first-class men can probably be persuaded to serve the state without pay, for the purpose named, under the extraordinary conditions existing in New Mexico today.

The governor dwells at length on stream gauging, irrigation, drainage and public highways under the head of "State Engineer." Road building is engaging much attention and convicts are being successfully worked on road construction.

Under the head of salaries of county officers the governor says:

An effort should be made immediately to get a bill that will be satisfactory, if possible to all concerned. On account of the delays, and your failure to present any bill at all until you were practically ready to adjourn, caused the salary bill to fail of becoming a law because of my disapproval, and there being no opportunity for further consideration by that legislature. This ought not to occur again. The county officers are entitled to their pay and at the present time this ought to be about the first thing to be considered. In my judgment there is no reasonable, equitable way of combining all county officers in the same classification. They should be paid like other people, according to the work that they have to do.

An increased appropriation is asked for the mounted police, a personal registration law is recommended, some changes are suggested in the publication law, the adoption of a state seal is urged and an additional judge is recommended for the fifth judicial district.

Concerning the report of the corporation commission, the governor says:

I call your attention to the several recommendations contained in the corporation commissioner's report. One of these, a change in the law which requires two publications of corporation papers, I have already mentioned. Another to which I call particular attention is that which recommends that the office of the insurance commissioner be abolished and the insurance department placed under the commission.

Many things have been suggested to me, but I may have already made too many recommendations. Now, I wish to emphasize the desirability of a thorough primary law, that will take the power of nomination as far away from the politician and bosses as possible. Reform in our election laws is of the utmost importance to the welfare of the voter.

This is a progressive age. He who lags may be lost. The initiative and referendum are being demanded from one end of the country to the other. You should propose amendments to the constitution improving the referendum provision, and providing for an initiative on a fair basis. The people of our state have decided that they will rule. Their will must eventually be controlling in the laws they desire.

You have sixty days within which to place on our statute books laws that may be beneficial to the state and her people. The interests of all the people are first to be considered, before party advantage, factional strife or personal ambition and jealousy.

The record to be made will endure long after your session ends. You will be judged by the results of your work, and I shall be glad if you merit from the people whom you represent, the full measure of "Well done, good and faithful servants."

Three mules for sale or trade for mares. Ned Shattuck, Queen, N. M. 17-Jan-4 Adv.

We must combine with a tireless effort for this and let the slogan be as follows:

As we have the proven evidence before us that much greater crops of cotton can be raised in the Pecos Valley, it must therefore be our aim to encourage the growing of it for a cotton mill. Texas cotton mills compare favorably with those of the other states. It behooves us not to lose sight of this, then that such an industry can be promoted in Carlsbad and will soon result in many families coming here to live that are wanted here so badly.

Mr. O. E. Dunlap, of Waxahachie, Texas, chairman of the committee on establishments of cotton mills strongly commends the establishment of these mills through the states and cities, where cotton is grown as evidence of what can be accomplished in this kind of an industry.

The Waxahachie mills began operation in April 1901 with a capital of \$100,000, since which time they have steadily increased their output until today they compare favorably with mills in North Carolina, and other eastern and northern states. Jamesville, Wisconsin has one of the best mills in America and the output is taken by some of the large wholesale dry goods firms in Chicago. The fires of Waxahachie mills have never cooled down and the number of spindles has increased from 5,000 to 10,000. The mill consumes annually 5000 bales of cotton which at the prices of cotton prevailing will cost \$275,000.

Little or no difficulty has been experienced in procuring and keeping mill operatives and the mill company erect and own its employees, dwellings and in our great sunshine state and in our city beautiful we certainly ought not to have any difficulty to retain them also, we can build the homes for them neat and comfortably and locate them on large grounds surrounding the mill. We have good water to supply employees with and good sewerage can be connected with our city sewer. A neat and comfortable church also can be erected by the company for the use of its employees if necessary to be done. Taken all together the mill will be a success I feel confident of this and its operatives will be prosperous and happy.

Mr. Dunlap thinks the success of Waxahachie mills can be duplicated elsewhere; why not then here in Carlsbad?

Next in line for an industry money must be raised for an alfalfa meal mill. This can be shipped in sacks to Galveston, Texas, thence by Mallory boat line to New York City. The freight to Galveston will be 30 cents per 100 pounds and by boat to New York 11 cents per pound, total freight 42 cents per one hundred pounds, also it can be shipped to New Orleans at reasonable low rates which will give the mill an outlet for its total output yearly at two great ocean points to ship by in the future, hence you can see this mill will have assured success if erected here.

A tank and trough factory one that can manufacture good qualities of this at all times will make Carlsbad famous for its products which all our farmers in the valley and cattle men in the Mountains will hail the coming of such an industry, as they will need this in the near future. Why not then erect this factory in the city beautiful.

Being aware that the Peoples Mercantile company here own a vacant large store that is not bringing them presently not enough interest money for the investment they made, can be utilized very nicely for a cotton hosiery mill, and manufacture in hosiery for men, women and children that are always so greatly in demand all over the entire world. This mill will have an assured success as its products can be advertised and sold by doing a mail order business and use the parcels post service for this and with other lines from their store can be connected which will greatly help to make Carlsbad famous for this product.

A woolen mill can be established here as we have the raw material for this, the sheep that are raised in the state of New Mexico and in our sister states.

The goats that are raised in this state, I am told, are sufficient to supply a tannery which might be erected on the river bank.

Kid leather is growing more scarce every day in the year, the demand is now greater than the supply, hence this industry can be made a grand and assured success.

As lumber is getting more scarce every year and prices are advancing continually and the same deteriorating (CONTINUED ON PAGE FOUR)

olutely forbidding the serving of drinks outside of the saloon proper. Anyone who is ashamed of being seen should not enter a saloon.

The daylight saloon is reasonable and for the best interest of any community where liquor is sold. Any man who has been around saloons very early in the morning and late at night, knows well the reasons why the hours provided for the sale of intoxicants should not begin too early or continue too late.

The games usually played in saloons for drinks and cigars never have and never will be of any benefit to anyone. They encourage idleness and cause a loss of both time and money to people who usually need the use of both to maintain the family which is dependent upon them. The serving of drinks outside of and in adjoining or connecting rooms to the saloons is perhaps the greatest evil of all. Here is where you find your wine rooms and the consequent ruin and degradation that follow in their wake.

Local option is only the right of the majority to determine what sort of an atmosphere they shall have in the community in which they live, and is in no manner subversive of the rights and liberties of, either those who confound the meaning of liberty with that of license, or those who are willing to be governed by the will of the majority.

Under the head of "Taxation" the governor says:

In a recent bulletin issued by the National Tax Association, this statement is found at the head of the first page:

"In no field of governmental activity is there more confusion, more in-

come to influence the administration of county affairs, and the officers of many counties are anxious to have their citizens profit to the full extent from tax dodging of every variety.

Instead of an assessment of \$400,000,000 and a tax levy of two mills for state, and an average of ten mills or less for county, we have an assessment of less than \$73,000,000, a levy of 13 1/2 mills for the state and three to four per cent in the counties. This does not include special levies on particular industries or district school tax levies. Then in incorporated towns the levies for city tax has to be added.

Is it any wonder that the would be investor hesitates about New Mexico when he faces such a situation? Of course, it can be explained that our methods are such as to mislead, and that he may be protected from unreasonable taxes. Naturally, an honest man will still hesitate, and a level-headed man will wonder whether he is to be the subject of special favor, or to be the target for unjust discrimination.

A fair valuation and a lower rate of taxation is what we must have, if we intend to make our state attractive to capitalists and homeseekers.

We must have better enforcement of the law, or some method must be provided by our law makers to compel officers to perform their duty, subject to severe penalties for failure.

There is a great deal of talk about taxation by people who are not well informed as to our actual condition, and who base their argument more on prejudice than facts. It will be well for all to examine carefully our state constitution and see for what it provides. The Board of Equalization has

[This matter must not be reprinted without special permission.]

If the turkey for the Thanksgiving feast came a bit high, remember the four little turkeys out of every five hatched die before they are six weeks old.

It is about time for the champion corn husker to put in an appearance. The best man on the job husked in the neighborhood of 250 bushels in ten hours last season. Will the high man this fall do as well?

A rule put in force some time ago by the Internal Revenue department rates all butter as unlawful, from the standpoint of its right to interstate shipping privileges, which contains more than 16 per cent of moisture.

The burning of barns by the spontaneous combustion of mows of alfalfa or clover hay comes as the result of putting the hay up too green before it is properly cured. This curing process should take place in the field while the hay is in rack.

The homemade candies in which sorghum or New Orleans molasses or white sugar are used are economical to make and satisfy the craving for youngsters have for sweets. Besides this the homemade article is all candy with no harmful adulterations.

The power corn shredder is no dis- tinguisher as between a husky stack of corn and a man's hand. Since this is so it is a pretty good idea for the fellow who prizes the use of his hands and fingers to keep them out of reach of the rapacious maws of the shredding machines.

A friend who is in the grocery business and who has had considerable trouble with rats and mice of the mill since some weeks ago, and ordered three dozen of the same or gnatcatcher traps. He buried all of these one night and the next morning there were six teen rats dead in his store. Since then he has never seen a raty mouse or insect in his cellar.

A Pennsylvania roadside work- ing potato patch, during the past season, in the spring, the soil yielded a potato plant with a sprout of a tomato plant and also in the season yielded ripe potatoes from the upper portion of the fresh and gathered potatoes from the soil below. The growing potatoes were the two plants belonged to the same individual.

The winter Notts birds that have been in the market for some time and which look like two birds in their green velvet jackets should be bought and put away in a dark and cool place and allowed to ripen. When they have turned to a golden russet yellow and have become soft, they are not supposed to be in season and fine flavor by any pair that grows.

There may be some of the good wives who read this department who do not know that sticking a fork into baked potatoes and giving it a twist so as to make a small opening just as they are taken from the oven will keep them dry and meaty. This vent made with the fork permits the steam to escape thereby preventing it from condensing on the inside of the potato.

The Rock Island, Santa Fe and Frisco railroads operating in Kansas and Oklahoma make a business of killing bird dogs during the quail shooting season to forest out some cases of travelers containing the quail, which it is unlawful to ship from one state to another. It is said the dogs sometimes get a point on a shift case containing cold fried chicken, but they never skip one containing any of the dead game birds.

It is only when a strong and vigor- ous person is confined to bed with ill- ness or injury of one sort or another that he prizes at full value the very common blessing of unimpeded power of locomotion. The writer remembers a number of years ago, when laid up with typhoid fever, how he used to look from his bed to the school chil- dren as they passed his home and envy them in their ability to frisk and play at will.

If there are coveys of quail that are making their headquarters in the un- dergrowth in the nearby wood lots it would be a kindly service to these use- ful birds to scatter a little grain for them now and then with the idea of gradually coaxing them to the fence lots and yards, where it will be quite an easy matter to give them a lift through the severe winter weather. The bobwhite eats a greater variety of destructive insects than any bird that frequents the average farm, and it is simply the part of good farm management to afford it every pro- tection possible.

### The Sale.

COLONEL GRAND knew quite well that Mrs. Braddock, as the man's wife, could inter- pose legal objections to the transfer, but he was not really buying Tom's interest in the show; he was deliberately paying him to desert his wife and child. Braddock was not so grad- ually got by liquor that he could not ap- prehend that side of the transaction quite as fully as the other.

Down in his besotted soul there lurked the hope that some day, in the long run, through the wife whom he was selling so cheaply, he might succeed in obtaining the upper hand of Bob Grand and crush him as he was being crushed.

"It will be a week," said the colonel, before the ceremony can get here from Baltimore. I refuse to draw on, no matter in the regular way. This man, being evil, must come from an evil source. My dealers will send it from the police. Now, again, you under- stand that I can put you in the penitentiary if you go back on your word. You did take the boy's money out of the dressing tent. My men saw you."

"I'll knock off a couple of hundred if you'll tell me the name of that sucker."

"You need the two hundred more than I do, Brad," said Grand with a faint sarcasm and humility.

"Well, I'm a damn in the show business. I guess it's the best thing I can do to get out of it. You'll do the right thing by Mary and—" he swallowed hard, casting a half glance at the other out of his heavy eyes—"and the young'un. They'll get what's coming to them, Bob?"

"Certainly."

"I wouldn't sell out like this if— if Mary had acted decent by me," he said, trying to justify his action. He was congratulating himself that he had sold her out before she had the chance to sell him out.

"Of course," said Bob Grand.

"I am going to California," said Tom Braddock, for the third time during the interview.

"I've asked you not to mention that fact to me, Braddock. You are sup- posed to stay with the show as man- ager and overseer."

Ten minutes later, after two men had witnessed their signatures, the document was signed in Bob Grand's pocketbook.

The next morning Mary Braddock appeared before the master of Van Slye's circus and offered her interest for sale. He calmly announced that he could not afford to put any more money into the concern.

"I must sell out," she said. "All the money I have in the world is in this show."

"It could not be better invested," he said. She shrank from the look in his eyes.

"But I need it for Christine's edu- cation," she began.

"I will see to it that Christine is given the best of everything, Mary."

"I am asking no favors of you, Colo- nel Grand."

"It may interest you to know that I have purchased your husband's entire interest in this show," he said softly.

"He—he has sold out to you?" she murmured, going white to the lips.

"He could not do it. It is necessary to have my consent. I—I— Her brain was whirling.

"I understood that he was a per- fectly free agent. I can send him to the penitentiary if he has swindled me. If you and Christine care to take

that sort of stand against him, I have to do it. I should be sorry on the girl's account, but— well, I'm sure it won't come to that."

"He—he has sold me out?" she cried weakly.

Unable to speak another word to him, she turned and blindly made her way to the women's dressing room.

Late that night four or five persons slipped out of the hotel by the rear doors. At the mouth of the dark alley a hack was waiting. With the utmost caution this small, easily hidden group approached the rickety vehicle. Three women climbed in; their two male companions mounted the seat with the driver. Off through the star- light rattled the mysterious cab, chat- tering across the cobbled streets for many minutes until at last it drew up at the darkest end of the railway sta- tion platform.

A train thundered in. The station platform was quite deserted except for the few isolated revelers who had re- mained in town for the night perform- ance of Van Slye's circus. When the train pulled out a woman and two men stood beside the track, where tearful farewells had been uttered and good- byes spoken. Toward the east sped a tall woman and a slim, beautiful girl.

"Goodly, goodly!" sobbed the girl, who had been peering intently through the window of the car. The tall woman did not look forth, but sat with her eyes riveted on the seat ahead.

"Yes, it is goodly, my darling," she said in very low tones.

Back at the railway station, after the rear lights of the train had disappeared, the lone woman turned her tear stained face to the man whose arm was about her shoulder.

"Do you think we'll ever see them again, daddy?" she moaned.

"Yes," said the man huskily. "She said she'd let me know, one way or another, when it is safe to do so. Don't cry, Ruby. God will take care of 'em."

"I wish she'd said just where she's really bound for," muttered the other man, a tall, ungainly fellow. "She's mighty near dead broke, and I'm—I'm uneasy, Joey."

"She'll get on Casey, confound you!"

"If she'd only make up her mind to go back to her father," said the girl.

"That's just it. If she's going back to 'im it's best nobody knows yet—not even us. I've got their two letters for David, if he ever comes looking them up, as he said he would. Come on, let's get back to bed."

And so it was, many days afterward, that David Jenison came "looking them up," only to find that they were gone and that no one could tell him whether they had fled. It was significant that Colonel Bob Grand was not with the show; he had gone away in a great rage when the discovery of the flight became known to him. Tom Braddock, strangely sobered and bleached out by a tardy remorse, went about mechan- ically in the management of the show which he no longer owned.

Joey Grimaldi delivered two precious, carefully preserved missives into the hands of the distracted Virginian.

One letter said the writer would wait for him to the end of time, lov- ing him always with all her heart. The other, much longer, came to its con- clusion with these words, written by a wise, far-seeing woman whose heart was breaking:

"... And now, David, goodbye. We love you. Be content to let us go temporarily out of your life, if not from your thoughts or your heart. Al-

ways think of us with love and tenderness, my dear boy, as we shall never cease to think of you. You are young, Christine is young. You are not so wise now as you will be five years hence. I shall try to mold Christine into the kind of woman you could take as a wife to Jenison hall. In five years, God willing, the circus ring and its struggles will be so remotely removed from her that no one can find the trace of them. When five years have gone by, David, I shall let you know where we are to be found. You still care for her then, and she for you, no matter what the circumstances of either may be, no human power can keep you apart. You will come to her and say it all over again, and you will be happier because of this brief proba- tion. If you should find, through the mature workings of a man's heart, that you have grown to love another, then you will both see for yourselves that my present course is right. Do not attempt to find us. Your own fu- ture efforts, dear David, in that direc- tion might be the means of bringing other and unkind searchers to our place of refuge."

Snuggling down in a nest built of cer- tain westward hills in fair Virginia, near the head of a valley long noted for healing waters that spring, warm and cold, from subterranean niches into picturesque pools and steaming rivulets, lies the ancient village of Hollandsville, with its quaint, galleried facades; its f over gardens and its mill race; its ambient clouds and drowsy sunshine, and the ever delicious some- nance that overcomes the most po- tent vigor with an ease that mystifies. Beyond Hollandsville, less than half a league distant, against the mountain side, facing the great ridge opposite, stands a time honored, time perfected, hostelry, inside whose walls and upon whose galleries the flower and chivalry of Virginia have clustered for genera- tions.

Late in the spring of 1880, when the dogwood was repainting the hillside and wild flowers were weaving a new carpet of many hues for the feet of wandering lovers, the company of guests assembled at the springs—no yet numerically small—included no fewer than a dozen girls whose beauty was famed from one side of the south land to the other. Attendant upon these dainty American princesses there were again as many young men, rivals all for favors small.

A chill, moist wind of a certain even- ing blew down from the mist shrouded ridge, driving all guests to the glow of the fireplaces or to the seclusion of cosy nooks in shadowy halls, where staircases held secrets as tenderly in- visible as on the nights of a dim, forgotten past. About the great fire- place in the general lounging room a group of young people were discussing plans for a projected trip to the Natural bridge, quite a two-days' journey, by coach.

A tall, lean, freckled young man of twenty-three or four stood beside the fireplace, his elbow on the ancient mantel, his shapely legs crossed. There was a moody expression in his handsome face, which he suited in quiet enjoyment of the various con- versations that went on around him. Half a dozen girls chatted eagerly, excitedly, in response to certain argu- ments advanced by young man who had the expedition in mind. Arrange- ments were being discussed, approved or set aside with an arbitrariness that left no choice to the proposers. From time to time disputed questions were referred to the tall young man at the mantelpiece. He appeared to be a per- son of consequence in the eyes of all; his decision was accepted, even by the most arrogant of rebels. Not one of these fair girls looked into his dark, steady eyes without hope that the thought which lay deep in them was of her and of no other, and yet each was painfully certain that he thought of some one else, whether present or absent they could not conceive.

He gravely twisted the point of a small, dark mustache, then in vague among the fashionables, and proffered

A Tall, Lean Faced Young Man.

his suggestions with the quiet assur- ance that comes from a thorough ap- preciation of the deference due the man who is "real quality" in the southland, and yet without the faintest suggestion of superciliousness or con- ceit in his manner.

This man was born to it; it had come to him through the blood of unnum- bered ancestry. He was an aristocrat among aristocrats, as fair Virginia produced them. Norwithstanding he had arrived at the Springs no earlier than the forenoon of the day at hand, without knowledge of previous plans regarding the expedition, he was nevertheless established by common though unspoken consent as the man

# The Carlsbad Current

Carlsbad Printing Co., Publishers

Wm. H. Mulline, Editor and Manager

SUBSCRIPTIONS \$1.50 per annum.

Carlsbad, N. M. Friday, Jan. 24, 1913

Carlsbad Current established November 15, 1902. New Mexico Sun established May 12, 1906. The two papers consolidated October 11, 1907.

Official Paper of Town of Carlsbad.

Official Paper of Eddy County.

If there is one office in Eddy county that deserves good treatment at the hands of the legislature it is that of county clerk. This office is continually over run with business of all kinds from issuing marriage licenses and other licenses to recording and keeping accounts. It would seem that about four people is the least number necessary to run the office, but Chicago has 100 and all are busy. An office should have enough help to do the work properly.

## Statement of Commissioners.

County Commissioner C. W. Beeman, who returned last week, Thursday, from Santa Fe from a meeting of the commissioners and assessors of the state called together by the governor, on being interviewed by the Current said:

"There is no telling how much good these conferences of county commissioners and assessors will do. It shows to each other are doing. For instance, the county of Valencia raised its assessed valuations last year seventy per cent while the raise in Eddy county was only ten per cent. The meeting held last week in Santa Fe was attended by representatives from nearly all the counties and all seemed willing to get together on an equal basis so the state would receive only its just proportion of taxation from each of the counties."

The New Mexican in commenting on the meeting had the following to say: The joint meeting here of the state board of county commissioners and the joint board of county assessors ought to result in good to the state, as the desire seems to be to endeavor to meet the question of taxation fairly and get on a basis such as the state equalization board will approve.

That the meeting here was not to take up the question of salaries of county officers, but a matter of broader significance is an encouragement and shows an interest on the part of the board members that gives promise of better things for New Mexico.

The salary question is important, very important, and it is not alone the county officials who are interested. All citizens of New Mexico want to see a just and reasonable salary list adopted, but it is evident from the position taken at the joint board meeting that the bigger state interests are being considered first by those in attendance at the gathering here."

## Injuries to Trespassers on Railroad Property.

Trespassing on railroad property is shown by the reports of the Interstate Commerce Commission to be a decidedly dangerous past-time. Over 50 per cent of all the people killed on the railroads of this country last year were trespassers—men, women and children who had no business or right on railroad property.

Every day last year fourteen trespassers were killed—over 5000 during the year—an appalling truth. Contrary to a common suspicion, only 10 per cent of this number were tramps or hoboes; 70 per cent were reputable people who used railroad property as a thoroughfare, and in spite of warnings given them not to do so, and 20 per cent were children under 14 years of age.

Commenting on this, Mr. N. L. Howard, Superintendent of the C. B. & Q. railroad at Burlington, Iowa, recently published an open letter to parents, in which he said:

"Today somewhere in this country, two or three children have been killed playing around tracks and cars. So it was yesterday, so it will be tomorrow, and so it averages, day in and day out, through all the year.

The railroads and their employees are not callous to the sorrow caused in this way; on the contrary, they are doing all they can to avoid these, the saddest of all accidents. There is not a trainman or switchman in our yards who has not time and again admonished children against the danger of "flipping" cars, not one who does not dread the ever present possibility of having to lift some broken body from under the car wheels. All that we railroad men can do about it, however, is very little; children continue to come every day to our yards to play on the tracks, to hop on the cars, too often to meet with disaster, because it is impossible for us to keep an eye on every one of them or keep them all away. It is bad enough to run over grownup trespassers, but cannot something be done to stop killing children?

It seems to me something can be done. I feel that the parents of this country should be frankly told about the situation and their interest appeal-

ed to in the matter of keeping children away from railroad grounds except when they are legitimately called there.

I regret that now and then some people get an erroneous understanding that children are driven away from the tracks because they might pick up a few chunks of scattered coal or a few bits of kindling; but I do not think that idea is general. We want to save our coal, but much more do we want to save boys and girls from mutilation and death and to save the parents from sorrow. For this purpose I hope to obtain the co-operation of parents everywhere. Unless we get this, and especially unless parents do their duty in this important matter other boys and girls will pay the price of their parents' neglect.

This is not a mere appeal on the fact that the laws should be enforced. It is true that the law against trespassers should be upheld, but there should be public sentiment against trespassing by children stronger than any law. Are the legs and arms and even the lives of little children too high a price to be paid for what fun there may be in playing on the tracks or jumping on and off moving cars? Mothers and fathers, if you think so, that law will be enough; for the remedy is in your hands, and you alone can prevent the maiming and killing of these little ones by forbidding them from coming on the railroad tracks and especially from jumping on and off cars, and then see that they obey you."

## DISTRICT COURT NEWS

The case of the State v R. B. Knowles for killing an antelope which was on trial at the Current went to press last week resulted in the acquittal of Knowles, there being no evidence of any consequence that he unlawfully killed an antelope.

The grand jury returned several true bills, among them the following: W. C. Cotton, three counts, larceny of cattle on the J. A. L. range.

Will Beckham, three counts, larceny of cattle. Both the above gave bonds in the amount of \$2,000 each.

Fay Linell was arraigned for seduction, pleaded not guilty.

Jose Martinez was arraigned for larceny and after pleading guilty was given thirty days and costs and a \$500 fine.

Sam Akens was arraigned for larceny of swine and pleaded not guilty, and gave bond in the amount of \$500 to appear yesterday but on account of the murder case his case was continued from day to day.

Silvestre Griego's bond was declared forfeited in the amount of \$500.

Delfino Rodriguez Gomez was placed under \$500 bond for appearance as a witness in the Mexican murder case, she being the widow of the murdered man. License, however has issued for her marriage to another Mexican.

Romelo Esparso withdrew his former plea of not guilty and entered a plea of guilty to abduction of a female.

The case of the State v Briggs for contempt was dismissed.

In the case of the State v Stockton the jury found a verdict of not guilty on instructions of the court. This was a case of failure to keep hide.

The case of the State v T. M. Ancell for contempt, fined \$50 and costs and fine suspended on payment of costs.

The case of the State v Antonio Valencia the Mexican who killed Rodriguez in Lakewood is on trial, having occupied the attention of the court since Wednesday morning. The young lawyers, Messrs Guy Reed and Robert C. Dow, who were appointed by the court to defend the Mexican are putting up a noble fight for their man for his appearance, and much of the evidence, as well as the dying statement was against the defendant. The following, after much trouble and the exhausting of several special venires the following was chosen as the trial jury:

A. A. Masters.  
Dave Beckett.  
W. G. Force.  
R. A. Bishop.  
S. H. Daugherty.  
W. M. Coats.  
J. B. Crane.  
J. W. Blackwell.  
W. M. Matheson.  
Henry Tipton.  
J. J. Smith.

W. G. MacArthur of Monument, is in the city today.

O. H. Greene, of Knowle, is in town today.

Mrs. C. D. Church, is ill at her home today.

John Dunaway was arraigned and pleaded not guilty to abandonment of family.

W. K. McGonagill, and Miss Arie Moore of Lakewood, were granted license to wed yesterday. Both are of Lakewood.

Miss Grace Belle Arnold and Carl C. Aber were granted license to wed yesterday.

Fay Linell and Miss Lizzie Bay were married by Judge Neblett yesterday.

(CONTINUED FROM FIRST PAGE) in this warm climate very rapidly if not painted too; often, it behooves all the farmers in the Pecos Valley, cattlemen in the Mountains, and citizens of Carlsbad to build their homes with pressed cement bricks and blocks which are equally as low in price as lumber. Cements gets stronger every day. Where used for all kinds of building purposes in the future will be better than lumber for this deteriorates and gives your farm a degenerated appearance, hence will not enhance the value of the farm, therefore a fine pressed brick and block manufacturing company would do well here in Carlsbad.

A brewery capacity of say 1000 barrels of beer can be built in connection with a fine ice plant, a bottling department for fine table beers and also a bottling department of Carlsbad spring water, all this four in one can be made a grand success. The out put of this can be sold all over the state and sister states also, and the ice can be sold to all families in Carlsbad as well as to our creamery now in operation. This plant would certainly reduce the price of ice much lower than we are paying now and we will need so much more of it in the future.

Last and all that can be made a success also is a wholesale liquor store styled under the name Carlsbad Springs Distilling company if established here there is room for it and a fine and profitable mail order business can be done here.

Let us come together mutually. It is for the interest of the entire Pecos Valley to make a collection of money to defray expenses to advertise these industries herein named and get the capital for this in the different channels that must be traced out where the money is it can be raised. I feel confident it can be found, hence let us get busy for a greater Carlsbad and its vicinity—the Pecos Valley.

With good wishes and success greater than in the past, I beg to remain Yours respectfully,

HENRY J. LANGE.

## Grand Jury Report.

January, A. D., 1913, Term: To the Honorable Colin Neblett, Presiding Judge of the District Court of the Fifth Judicial District, in and for the county of Eddy, State of New Mexico:

We, the members of the Grand Jury, impaneled for the January Term of the District Court, in and for the county of Eddy, State of New Mexico, hereby submit the following report: We have been in session five days, and have diligently investigated all matters coming before us, and during the course of our investigation have examined sixty-five witnesses, and returned into court fourteen True Bills and nine No Bills.

We have examined the books of the various county officers and are pleased to report that they are in good order, and as far as our limited time would allow us to examine them, are correct in all respects.

We wish to call attention to the plastering in the Treasurer's office, which is in bad condition and badly in need of repair.

We have examined the jail and find everything connected with it to be in first-class, sanitary condition. The prisoners are being well fed, and are receiving good care and attention.

We have examined the County School Superintendent, and the Superintendent of the City Schools, and find that they are doing their duty in every respect, and that the schools are being well conducted.

We wish to thank the various officers with whom we have come in contact for courtesies and attention extended.

Thus having finished our labors, we respectfully request that we be discharged.

THE GRAND JURY.

By A. G. SHELBY, Foreman.

Attest: R. L. HALLEY, Clerk.

## Notice.

## WALKED NINETY MILES ON WAGER; LOST SEVEN POUNDS.

Roswell Man With Cleveland Companion Enjoyed Stroll From Carlsbad to the Metropolis.

"No more ninety-mile walks for me," said Ashley Pond yesterday, as he limped down the street. "It's good enough exercise, and I did what I started out to do—reduce my avoirdupois—but—well, my feet weren't used to it, and I don't want any more just yet."

Mr. Pond, it might be explained, walked up from Carlsbad late last week, although he and his companion, George Jacobs, of Cleveland, Ohio, both had railroad tickets in their pockets. A wager may have had something to do with it, but Pond's friends who have seen him limping since his return, are wagering he will not attempt it soon again.

"Anyhow I lost seven pounds," boasts Pond, "and nobody loves a fat man, you know."—Roswell News.

Delfino Gomez Ridriguez and Lazario Flores were granted license to wed yesterday.

## Presbyterian Church.

Sunday, January 26th.

Sunday school 10 A. M. Topic, "Cain and Abel". Gen. 4: 1-15. R. M. Thorne Supt.

Subject, 11 A. M.: "Opportunity, Responsibility."

## FOR SALE.

"Snow White" Orpingtons. I am selling my surplus stock, while they last, as follows: Cockerels \$2.50, pullets \$1.50. Nothing reserved, first ordered first served.

GUY A. REED, Carlsbad, New Mexico.

Lame back may come from overwork, cold settled in the muscles of the back, or from disease. In the former cases the right remedy is Ballard's Snow Liniment. It should be rubbed in thoroughly over the affected part, the relief will be prompt and satisfactory. Price 25c., 50c. and \$1.00 per bottle. Sold by all druggists.

## The Subtle Porcupine.

"The porcupine has his good points, admitted the possum, 'but he is a full blatterer, you know.' 'Blatterer?' echoed the coon loudly. 'Yes. He is apt to send one away feeling awfully stuck up.'"

## Notice of Special Election.

Whereas, on the 13th day of January, the regular election of Justice of the Peace and constable of Precinct No. 2 was held, and Whereas, the result of said election was a tie in the Justice of the Peace office, notice is hereby given that a special election is called to be held at Malaga in Precinct No. 2, on Saturday, February 1st, 1913, for the purpose of electing a Justice of the Peace for said Precinct and C. R. Helm, G. R. Ford and J. L. Williams are hereby appointed as judges of said election.

C. W. BEEMAN, Chairman.

Attest: A. R. O'QUINN, Clerk.

Any little wound or abrasion of the flesh occurring in cold weather that is not promptly treated becomes a bad sore and is difficult to heal. Apply Ballard's Snow Liniment at once when such accidents happen. The wound heals promptly and soon does away with the annoyance of a bandage. Price 25c., 50c. and \$1.00 per bottle. Sold by all druggists. Adv.

Christian & Co., Insurance.

## Notice of Sale of School Bonds.

Notice is hereby given that the directors of School District No. 27 of Eddy county, New Mexico, have submitted to the voters of said district at a special election called for that purpose, the question of issuing bonds in the sum of \$1500.00 to build and furnish a school house in said district; that a majority of the electors voted in favor of said issue; and that said board of directors has issued the bonds of said district in the amount named and voted upon. Notice is further given that on the 18th day of February, 1913, pursuant to said election and the action of said directors, I, W. H. Merchant, as County Treasurer of said county, will sell to the highest bidder for cash at my office in Carlsbad, New Mexico, said bonds in the sum of Fifteen Hundred (\$1500.00) Dollars for not less than ninety cents on the dollar, to draw interest at the rate of 6 per cent annum, payable semi-annually said bonds to be in denominations of \$100.00 each, dated January 1, 1913, and due not less than twenty (20) years nor more than thirty (30) years

after date, and redeemable at the pleasure of said district at any time after ten (10) years; and that bids will be received on said bonds at said office until twelve o'clock, m., on first aforesaid date.

Bidders should deposit the sum of \$100.00 with said Treasurer to show good faith, which amount will be returned to all unsuccessful bidders.

Dated: Carlsbad, New Mexico, January 14, 1913.

W. H. MERCHANT,

Treasurer.

Sheriff's Sale. Notice of Sale of Attached Property under Order of the Court to Satisfy Judgement in Suit by Attachment. J. D. Walker, Plaintiff v W. E. Wright, Defendant.

NO. 1673

Notice is hereby given that on Thursday, February 6, 1913, at the hour of 2 o'clock P. M., I will offer for sale and sell at public vendue the following described property, to wit:

11 grown mares branded—on each leg, also X on left neck,—on left cheek of butt, half circle J on left shoulder; 1 black colt branded X on left neck,—on left cheek of butt; 7 colts branded inverted U on left jaw; one mule colt unbranded; which property is further described as: 2 bay mares, 2 brown mares, 1 dun mare, 1 sorrel mare, 1 bay filly, 8 horse colts and 1 mule colt.

This sale is made by virtue of an order and final decree issued in the above numbered and entitled cause on the 9th day of January, 1913. The action was a suit by attachment on a promissory note. The amount of the judgment on date of sale will be \$605.42, and in addition, court costs as shown by the docket of the Clerk of said Court on this date amounting to \$30.05, and to these amounts will be added the cost of this execution and the cost of keeping the property since attachment on December 7, 1912.

The place of sale is the Stockyards at Carlsbad, New Mexico, and the terms of sale are cash to the highest bidder.

S. D. Stennis Jr. is attorney for the plaintiff and his business address is Carlsbad New Mexico.

This 9th day of January, 1913.

M. C. STEWART, Sheriff of Eddy County, New Mexico.

10Jan4

## NOTICE FOR PUBLICATION.

# FIXING RATES UNDER PARCEL POST SYSTEM

Government Goes Into Business  
of Transmitting Merchandise  
Through the Mails.

## NEW LAW FULLY EXPLAINED

Country Divided Into Zones and  
Units for Purpose of Fixing Charges  
for Carriage—No Package Weigh-  
ing More Than Eleven Pounds Is  
Mailable—Anything Properly Wrap-  
ped Which Will Not Injure Other  
Mail May Be Sent.

By EDWARD B. CLARK.  
With the coming of the New Year the United States government will enter into a new field of enterprise—the transmittal of merchandise by what is known as the parcel post. For years there has been a demand for such a system of inexpensive transmittal of packages. The camps of favor and disfavor of the parcel post scheme have been about equally divided. Finally at the last session of congress a bill was passed which will put the plan into operation, but only it must be said in little more than an experimental way.

STATE OF NEW MEXICO.  
COUNTY OF EDDY  
Office of Treasurer and Collector  
To the delinquent taxpayers whose names appear in the foregoing list and to the unknown owners of property appearing as described therein:  
Take notice, that the undersigned Treasurer and ex-Officio Collector of taxes in and for the County of Eddy, State of New Mexico, after the expiration of thirty days from and after the last publication of this notice, will, on the 3rd Tuesday, in February, 1913, beginning at the hour of ten o'clock a. m. of said day will offer for sale at public auction in front of the County Court House door in the Town of Carlsbad in said County and Territory, the real estate and personal property described in said notice for the payment of taxes, penalties and costs thereon as set out in said notice.  
This notice is given and said property is sold in accordance with the provisions of Chapter 22 of the Acts of the Legislative Assembly of the State of New Mexico, for the year 1899, passed March 1st, 1899, and other laws of the State of New Mexico.  
Witness my hand this 31st day of January, A. D. 1912.  
W. H. MERCHANT,  
Treasurer and ex-Officio Collector of the County, New Mexico.

the government, and whether there is to be a profit or loss at the end of each year. If it is found that the plan is successful from the point of view of the people, which means the government also, the parcel post will be extended until finally it reaches the proportions which its proponents say they believe it is destined to assume.

**Zone System Explained.**  
It is no exaggeration to say that thousands upon thousands of inquiries have been made of the postmaster general as to just what the parcel post will mean to the people. It was the law of congress establishing the system which made provision for a division of the country into zones and into 35,000 units which are to be used as centers in describing the circles which mark the boundaries of the zones. There has been no clear understanding, apparently, of this zone system, but really it is a very simple matter.

The accompanying map shows the country divided into zones from the unit in which Washington is situated, as the center. Accompanying the map is a table showing the rate of postage per pound for parcels from Washington to places within all the zones.  
Each unit contains an area thirty miles square. Now each unit is a center from which the zones are drawn and so every unit in the country no matter where it is situated will have zones drawn from it just exactly as Washington has them drawn from it. For instance, take Keokuk, Ia., which is in a unit in the fifth zone. From that will be drawn circles exactly as they are drawn from Washington and they will be numbered from Keokuk as number one, just as they are numbered from Washington as number one. Of course, however, Zone Six will have a different geographical position as related to Keokuk than it has as related to Washington, but as the radius of the circles

drawn from Keokuk is the same length as the radius of the circles drawn from Washington, Keokuk's Zone Six will be just as far from its center as Washington's Zone Six is.

**How Rates Are Fixed.**  
It can be seen from this readily enough that the postal rates from Washington to its particular zone will be the same as the postal rates from Keokuk to its particular zones. Each unit being about thirty miles square will of course contain in most cases a number of postoffices, but each office in the same unit is considered as being the center of the circles from which the zones are drawn. The rates of postage are fixed from the unit in which the sending postoffice is situated, but the price to every place in any zone is just the same. To illustrate, it will cost exactly the same amount to send a parcel from Washington to Erie, Pa., that it costs to send it to Atlanta, Ga., because Erie and Atlanta with reference to Washington are situated in the fourth zone. The rates therefore are fixed from the unit in which the postoffice is located, but they are the same from that office to any point in any one zone.

It will be seen by reference to the table of rates of postage that it will cost more per pound to send a package a long distance than it does to send it a short distance. The rate increases for a package weighing one pound at the rate of one cent for each zone. No package weighing more than 11 pounds can be sent under the new parcel post law. It should be said right here that on the long hauls the parcel post may not be able to compete with the express companies, but that on shorter hauls it can so compete. It was the expressed desire of the legislators and of the postoffice officials that the parcel post system should be made of particular use to persons having farm and factory products to transmit to customers. It is probable that producers must study the rates of postage and the convenience of transmittal and compare them with the cost and convenience under present methods before individually a man can determine whether he is to profit or not by the change. Then there is another thing to be considered, and which only can be known definitely when fuller regulations have been made to specify exactly what kind of things can be sent by parcel post. It can be said in a general way that anything can be sent which is properly wrapped and which will not injure other mail matter with which it may come in contact.

**Copy Foreign Countries.**  
It is probable that the government will adopt a means of transportation for certain kinds of its merchandise much like those which have been adopted in parcel post countries abroad. What the English call hampers, basket-like arrangements, probably will be adopted, and as these can be kept separate from the ordinary mail matter it is believed that the regulations as finally adopted will allow the sending of eggs, butter, dressed poultry, live poultry, honey, fruit, and other products of the country.

The 11-pound limit for a single package may work at first against any very extended use of the parcel post for some of the articles which have been named. Of course, more weight can be sent if it is sent in different parcels, but the cost in that case would be heavier because the increase per pound on a single package is not great up to 11 pounds, and probably it would increase at no greater rate if the government were to raise the limit of weight which is now fixed. To make it simpler, it will cost more to send two packages of 11 pounds than it would to send one package of 22 pounds if the government eventually should allow a heavier single package to be carried and should charge in proportion just what it does now for one package of 11 pounds weight.

Every postmaster in the United States will have a parcel post map like the one which is here reproduced except that the zone lines will be shown with the unit of his postoffice as a center. All that a postmaster will have to do when a parcel is presented for transportation is to find out in what zone the destination of the package lies. His table will show him instantly the rate per pound from the unit in which his postoffice lies to the zone of the package's destination, the price as has been explained before, to every postoffice in any one

zone being the same. The parcel post will take nothing but fourth-class matter. Printed matter is still in the third-class designation. Therefore books cannot be sent by the parcel post system. This the postoffice authorities seem to think is in a way unjust and may work a hardship. It may be that in the future the law will be changed so as to include all printed matter. It seems to be certain that an attempt will be made to bring about this change as speedily as possible.

**Must Bear Stamp.**  
Postmaster General Hitchcock has ordered that postmasters be advised that parcel post packages cannot be accepted for mailing unless they bear a distinctive parcel post stamp and have attached to them the return card of the sender. A series of distinctive stamps for this class of mail as required by the law creating the parcel post system. Consignments of these stamps will be ready for shipment to all postoffices in ample time for the establishment of the new system on New Year's day.

The postoffice department has given instruction to every postmaster in the country to enlighten his patrons as much as possible on the general subject of the parcel post and especially on the use of the special stamps and the necessary attachment of the return card. The law requires that all fourth-class matter mailed after January 1, 1913, without parcel post stamps attached shall be treated as "first-class postage" matter. Parcel post packages will be mailable only at postoffices, branch postoffices, letter and local mail stations, and such numbered stations as may be designated by the postmasters.

It has been announced by Postmaster General Hitchcock that nearly 70,000 scales will be required for use in the parcel post system which is to go into effect January 1st. He has accordingly authorized the issuance of bids for that number. Two hundred of the largest postoffices and their branches will be supplied with automatic springless scales. The next class of offices, numbering about 10,000, will be given high grade beam scales, while the four class offices, numbering about 55,000, will be furnished with the best spring balances obtainable, each having a capacity for twenty pounds. These scales will be used by postmasters to determine the amount of postage required on parcel post packages. The fact that many of the postoffices of the country are now furnished with scales of a limited capacity makes it necessary for the postmaster general to make this very large purchase of scales capable of taking care of the parcel post business. It is understood that this will be the largest single order ever placed for scales.

**Rate on Seeds Not Affected.**  
It should be said that the act of congress which puts a parcel post plan into operation does not in any way effect the postage rate on seeds, cuttings, bulbs, roots, scions and plants as fixed by section 482 of the postal laws and regulations.

The classification of articles mailable as well as the weight limit, the rates of postage, zone or zones and other conditions of mailability under the act of congress, if the postmaster general shall find on experience "that they or any of them are such as to prevent the shipment of articles desirable, or shall permanently render the cost of the service greater than the receipts of the revenue therefrom, he is hereby authorized, subject to the consent of the interstate commerce commission after investigation, to reform from time to time such classification, weight limit, rates, zone or zones or conditions, in order to promote the service to the public or to insure the receipt of revenue from such service adequate to pay the cost thereof."

Through many years different members of the house and senate have been interested in promoting parcel post legislation. Among the men most active in securing the legislation which soon is to go into effect as law are Senator Jonathan Bourne of Oregon, Representatives David J. Lewis of Maryland and William Sulzer of New York, who has just been elected governor of that state. To ascertain conditions surrounding the establishment of the parcel post system in places differing widely in size, climate and industries, Postmaster General Hitchcock recently sum-

moned to Washington, to confer with the special parcel post committee, the postmasters of five typical offices. They are William H. Davis, Pittsburg, Pa.; Daniel T. Gerow, Jacksonville, Fla.; M. H. Jester, Wilmington, Del.; E. M. C. Quimby, Suffolk, Va., and Henry N. Bradley, Charlestown, W. Va.

**Confer With Postmasters.**  
The postmasters of the five largest offices in the country have already appeared before the committee, so Pittsburg was represented as being a large first class office, though smaller than any of the greater five, and as being the center of a tremendous manufacturing area. The postmaster of Pittsburg reported that the board of trade of that city has a special parcel post committee, working toward bringing the consumer and producer nearer to each other by the new system. He also said that many of the merchants are planning to have their city deliveries made by parcel post.

Wilmington, Del., represented a large farming and manufacturing district, with its mail connections close with Philadelphia, one of the largest offices. Jacksonville is the largest office in Florida, and the outlet for all the mail of the state. It is peculiar in having a special increase of force in winter, the tourist season, and the postmaster said that it was expected that travelers would use the parcel post extensively in sending home five and ten-pound packages of fruit.

Suffolk, Va., and Charlestown, W. Va., are both very small second class offices, one in the tide-water district, with large truck interests; the other far inland in an orchard country, with diversified farm products. The postmasters of both offices reported great interest in the parcel post, and said that they had continual inquiries regarding its scope.

From these postmasters the committee was able to glean a great amount of valuable information, which, added to that gained from the recent hearings in Maryland, puts it in a position to plan the details of the service to the greatest advantage of the producing farmer.

# CARLSBAD LOCAL ITEMS

## PICKED UP HERE, THERE AND EVERYWHERE BY OUR LOCAL HUSTLER.

Louis J. Orloff, of Buffalo, N.Y., was at the Palace this week.

John B. Crain, of Hope, was in Carlsbad this week on business.

Mrs. J. F. Flowers entertained a few friends to dinner Monday night.

H. L. Brown and wife of El Paso, Texas, were in the city this week.

W. F. Cochran, of Malaga, has recently opened a saloon in San Jose.

Miss Jim Penny is on the sick list this week with a bad attack of la grippe.

The Daisy club will meet with Miss Lucille McKneeley tomorrow afternoon.

A. L. Coad and Miss Irene Coad were up from Red Bluff the first of the week.

The little son of Bert Sands who was seriously ill the last of the week is recovering.

The P. E. O. Sisterhood will entertain the B. I. L's. tonight at the home of Mrs. T. E. Williams.

J. R. James and wife rejoice in the safe arrival of a fine boy at their home last Saturday, the 18th.

Born to Mr. and Mrs. Roy Farris, in Carlsbad, Friday, January 17, a girl baby. Weight six pounds.

C. W. Beeman, of Malaga, was up this week attending court and transacting business of various sorts.

Attorney Herman H. Mohr, of Roswell, came down Monday on business before the court now in session.

Bert Sands was in Loving the middle of the week going down in his car on business for the Chalmers people.

The dance at the club rooms last Friday was enjoyable and well attended, the Bunch orchestra furnishing the music.

Mrs. R. M. Smith returned Tuesday morning from a lengthy stay at the home of her parents in Jacksonville, Florida.

The shoe maker who has had his shop and residence in the Mullane building left Monday night for Houston, Texas.

John Moore and Gene Roberts spent Wednesday in Malaga setting new telephones and repairing lines for the P. U. company.

Mr. and Mrs. J. F. Flowers had as their guest a six o'clock dinner last evening Judge Neblett, who is a relative of Mrs. Flowers.

Fred Bucey, an old time printer, will have charge of the new garage and sales room of the Ford automobile company on Fox street.

F. I. Bates, of the "Third Degree" company which is billed to show here January 28 was registered at the Palace hotel Tuesday night.

The little son of Morris Farber and wife is quite ill with some intestinal trouble and has been taken to the Anderson sanatorium for treatment.

A. S. Hegler has been quite ill since last Saturday at his home in the Otis district. Mr. Hegler was taken with la grippe but has not recovered as he should.

Charley Merrifield, an old timer in Carlsbad, is figuring on putting in a canning factory at Hope which will probably be a good paying investment from the start.

Percy Alexander came in from the "D" ranch this week bringing with him Mr. Glover, foreman of the ranch, who comes to attend court. The trip was made in the Burnett car.

Captain Mitchiner's home in La Huerta was sold to Paul Ares, of Queen, last week. Mr. Ares will move to his new purchase the first of February. Terms \$5,000.00.

The Wm. Beverly spoken of in this paper last week is the foreman on the J. A. L. ranch, and not the Wm. Beverly formerly of La Huerta. Mr. Beverly came in with Jack and Gene Cowder as a witness in the cases of W. C. Cotton and Will Beckham who are charged with larceny of cattle from the J. A. L. range. Beckham and Cotton were billed and put up bonds in the amount of \$200.00 each.

J. T. Miller was a business visitor from Clovis the first of the week.

Rev. Mr. Goodloe will preach Sunday morning at 11 especially to the children. The other services at the Methodist church will be as usual. Special music. All are invited.

The room formerly occupied as a feed store by Matheson and Little has been fitted up for a sales room and garage, and will be used by a local salesman of the Ford automobile company.

Loy Penny and Fitzhugh Marshall are on the Plains this week, going out in the Marshall car last Friday. The former is working for the Ford people and Mr. Marshall is looking after insurance.

Mrs. George Sickles, of Socorro, who spent part of the holidays with her sister, Mrs. B. L. Walker, west of town, came in Saturday night again, called to return by illness in the family of her sister.

A "Pin" social is scheduled to take place tomorrow night at the Otis school house under the auspices of the Farmers Union social committee. Just what kind of a social that is, remains to be seen.

An informal dance was held at the Woodman hall last Saturday night, attended by about a dozen of Carlsbad's young society set. The crowd was chaperoned by Miss McKneeley and report a delightful time.

The regular mid-year examination of the pupils in the Grade building was held last week with very satisfactory results, and the last half of the school year starts in with every thing promising a good, successful term.

The cabinet of the Epworth League of the Methodist church held a business meeting at the home of Professor J. C. Bunch Monday night, and plans were made looking to an active campaign by that organization this winter.

F. C. Gard, living south of town, is very low at his home, his death seeming to be only a question of a few days. Mr. Gard has had between thirty and forty hemorrhages since the first of January and is in a much weakened condition.

John Cantrell this week sold to Woody Tullius one hundred head of stock cattle for June delivery. The price which is private is said by others to be about \$30.00 around. These cattle are in the hills west of town and are a neat bunch.

Scott Etter, secretary of Pecos Water Users Association and a member of the National Water Users Association, will go to El Paso next week sometime to meet with that body, he having received a wire to that effect the first of the present week.

Misses Ruth and Goldie Schrader, of Roswell, are visiting the family of John W. Price, coming down Wednesday with Mr. and Mrs. Warwick. Miss Gladys Jolley was also included in the party and is stopping at the home of her friend, Miss Jim Penny.

Mrs. Cole, formerly a resident of La Huerta, came in on a visit to the Hearu family last Friday and has also visited with the Merchant family, her home being in Waco, Texas, at present Mrs. Cole's father, Mr. Toby, built the Mitchiner home in La Huerta where they resided from 1899 to 1905.

Easter bonnets will blossom earlier this year than they have since 1856, and earlier than they will bloom for another century. The earliest date on which Easter Sunday can fall is Mar. 22nd, which has not happened since the year 1818. This year it will be March 23, the same date on which it fell in 1856 and 1845.

Robert and Marion Ezell moved the stable in which was kept the outlaw coach stallion yesterday. The stable like the horse has a history it having sheltered a horse for two years that none dared approach on account of vicious disposition. Mr. Ezell obtained \$3,000 purchase price back from the parties he purchased the animal from.

The meeting of the board of directors for the Pecos Water Users Association for the election of three directors was held Tuesday of this week. The vote was very light, every one seeming to be satisfied with the present efficient management. W. B. Wilson, T. O. Wyman and Dr. F. E. Doepf were re-elected. The judges of election were Henry Tipton, J. W. Lewis and G. P. Pardue, Clarence Walker and W. L. Ennefer acting as clerks. The meeting of the directors to elect officers will be held tomorrow, the 25.

**John W. Price Accidentally Shot.**  
County Assessor John W. Price, met with an accident last Saturday which came near proving fatal, the particulars of which are as follows:

Mr. Price in company with Ed Lamb who resides three miles east of Dayton, had been hunting, and had entered the car to start for home, Mr. Lamb started to the front of the auto to crank up and as he did so handed an automatic shot gun to Mr. Price. The latter gentleman pulled the gun over the side of the car when it was discharged, the load entering the right side of his face, tearing away the lower jaw, and inflicting a horrible looking wound.

The injured man was taken to Dayton and physicians summoned from Artesia who, in connection with Dr. Culpepper, of Dayton, dressed the wound.

Word was sent Mrs. Price and she, in company with her two small children, was taken up to Dayton in the Hearu car Saturday evening, and a nurse went up from here Sunday morning on the early train.

Sunday night Mr. Price was brought to Carlsbad and taken to the Eddy county hospital, where he is doing as well as could be expected, and unless something unforeseen occurs, will not be a great while recovering.

The accident is much deplored by the multitude of friends of Mr. Price and his worthy family.

**Married.**  
Monday evening, January 20, at the Presbyterian church in Carlsbad, by the pastor, Rev. A. A. Davis, Thomas W. Greene and Miss Bernice Garrett were united in marriage.

Both the contracting parties are from Lovington, where they are widely known and respected.

The groom being a young business man and the bride being the daughter of Mr. and Mrs. J. T. Garrett, esteemed citizens of that section of the country.

The trip to this city from Lovington was made by auto—two cars carrying the party.

In the party were Mr. and Mrs. Jim T. Garrett, parents of the bride, Mr. and Mrs. W. B. Robinson, of Artesia, Mrs. Robinson being a sister of the groom, Mrs. May Mackatee, of Dallas, another sister of Mr. Greene Harris Garrett, the bride's brother, and E. E. Wood, of Lovington.

At the close of the ceremony the newly weds with their friends partook of a sumptuous supper at the Legal Tender Cafe and afterwards had a fine wedding breakfast served at the Palace hotel, where they are stopping this week, the groom being unexpectedly summoned as a witness on a case now before the court.

They will later go to their home at Lovington whither the good wishes of all who know them accompany them and in which good wishes the Current joins.

**A Delightful Dance.**  
A very delightful dance was given last Friday night by Misses Christian and Benson to about fifty of their young friends.

Programs for twenty dances had been printed and most delightful music was furnished by Messrs. Benson and Woolley, at the piano and violin, respectively.

The little lads and lasses in their best "bibs and tucker" presented a beautiful appearance and greatly enjoyed the occasion.

Refreshments of sandwiches, olives, and punch brought the pleasant affair to a close.

Mr. and Mrs. H. D. Hill of Loving, complimented their son, Everett, and a number of his friends with a progressive card party Saturday evening at the hotel. At the close of eleven hotly contested games Miss Nymeyer was awarded a pair of silk hose, she having the largest number of games to her credit. Dr. Davis won the gentleman's prize, an evening tie of pearl grey. Mr. Foster Sory won the consolation prize, he having only scored two games. Dainty and delicious refreshments were served. At a late hour the guests departed, thanking Mr. and Mrs. Hill for a most enjoyable evening.

Tuesday night was the regular band benefit night at the Peoples theatre and while it was a cold night, the affair was fairly well patronized the proceeds being a little over \$25. Mr. Beers with his usual liberality toward the band, gave a fine cake which was raffled off and which brought into the band treasury the sum of \$8.00. The cake was won by Miss Grace Daugherty.

The informal reception held by the Womens Guild of Grace church, last week, Thursday, deserves more than passing notice. The hospitality of Grace church women is well known in Carlsbad and all who attended were made to feel welcome. We understand these socials are to be held more frequently in the future.

**For Sale.**  
Baled hay for sale at popular prices. Phone 438. LOUIS LANGE

**High School Debate.**  
One of the great events of the school year, at the high school, will be the interscholastic debate with Roswell high school, scheduled for the Auditorium Friday evening, February 7.

While debating has received some stress in the work of the high school course, therefore, there has been no previous efforts to match the debaters of the local school with those of other schools.

The question for debate as submitted by Roswell is "Resolved: That Boards of Arbitration with Compulsory Powers Should Settle all Disputes Between Employers and Employees". The local team will defend the negative.

The team chosen just before the holidays, consists of Joe Owen, Arthur O'Quinn and Robert Finlay, who have been working hard on the question. Whether they will be able to defeat the Roswell boys in view of the much greater size, of that school and its previous experience in inter-scholastic debating remains to be seen. That the Carlsbad team will put up a creditable argument however, is assured, and if the visitors carry home the victory it will be after a well contested forensic battle.

In view of the importance of this contest in the work of the High school it is to be hoped that a large audience will be present to greet the debaters. In addition to the debate there will be music.

A small admission fee will be charged to assist in defraying the expenses and the support of the patrons and friends of the school is necessary for the success and continuance of debating work in our local High school.

**Woman's Club Hold Meeting.**  
The regular monthly meeting of the Woman's club of Carlsbad, was held at the club house Tuesday afternoon, of this week. A good attendance was present.

The ladies have in course of preparation a unique entertainment which has been given in other places with great success. It is called "Tom Thumb's Wedding" and the cast is composed of sixty children, from four to nine years of age. The entertainment will be given February 4th, proximo.

Discussion was also indulged in regarding the Art exhibit which will be shown here later on. The proceeds of both the above named entertainments will be devoted to civic work, as indeed, all the funds of the club have been.

The club's annual party which was scheduled for February 4th, has been called off.

At the meeting Tuesday Mrs. Snow read an excellent paper on "Woman in the Home". Mrs. W. A. Poore's subject was "Woman in Business" which she treated in her usual masterly and comprehensive manner. Mrs. Moore gave "Woman in Temperance".

Mrs. W. H. Woodwell, chairman of the civic committee, spoke of her work. This lady was, more than any other, one person, responsible for the success of "Clean-up Day" last spring. She has ever been interested in work of that sort in Carlsbad and the club women and citizens generally much appreciate her work for a clean up-to-date Carlsbad.

At the bridge club party last Friday afternoon, Mrs. Mary R. Miller, hostess, four tables of players were present to join in the game. The prize, a trinket receiver, was awarded to Mr. Dille. Refreshments were served. But one more meeting of the club will be held before Lent; Mrs. Will Merchant being the hostess and next Friday, January 31, the date.

Elliott Hendricks has purchased the lot owned by the Christian church, corner of Canal and Mermod streets, and will erect a residence thereon. This is one of the most valuable lots in the city and a home such as Mr. Hendricks will build, will greatly enhance the value of other property in that neighborhood.

A. J. Muzzy came in Saturday night from Bristol, Conn., on his annual visit, he being president of the Public Utilities company. He is stopping at the Palace. Mrs. Muzzy is spending the winter in New York, and consequently did not accompany Mr. Muzzy as has been her custom heretofore.

Will Fenton returned last week from a visit to his sister south of Sweetwater, Texas. He had been home only a few days when he received a wire announcing the death of his sister who left a family of twelve children, the youngest of which is only 8 months of age.

Christian & Co., Insurance

Mr. and Mrs. Painter, owners of the Palace hotel in this city, spent yesterday at the home of their daughter, Mrs. Foster, in the Otis community. Mr. and Mrs. Painter held this beautiful weather quite a contrast to the weather of their state, Colorado.

Christian & Co., Insurance

## The Easy Laxative

In justice to yourself you should try Rexall Orderlies, — your money back if you don't like them. They are a candy confection that really do give easy relief from constipation.

Good health is largely dependent upon the bowels. When they become sluggish the waste material that is thrown off by the system accumulates. This condition generates poisons which circulate throughout the body, tending to create coated tongue, bad breath, headache, dull brain action, nervousness, biliousness and other annoyances.

Avoid harsh cathartics and physics. They give but temporary relief. They often aggravate the real trouble. They are particularly bad for children, delicate or aged persons.

### Rexall Orderlies

Come a tablet form, taste just like candy and are noted for their easy, soothing action upon the bowels. They don't purge, gripe, cause nausea, looseness, or the inconvenience attendant upon the use of purgatives. Their action is so pleasant that the taking of Rexall Orderlies almost becomes a desire instead of a duty.

Children like Rexall Orderlies. They are ideal for aged or delicate persons as well as for the most robust.

CAUTION: Please bear in mind that Rexall Remedies are not sold by all druggists. You can buy Rexall Orderlies only at The Rexall Stores. You can buy Rexall Orderlies in this community only at our store.

They act toward relieving constipation, and also to overcome its cause and to make unnecessary the frequent use of laxatives. They serve to tone and strengthen the nerves and muscles of the bowels and associated organs or glands.

### Make Us Prove It

We guarantee to refund every penny paid us for Rexall Orderlies if they do not give entire satisfaction. We ask no promises and we in no way obligate you. Your mere word is sufficient for us to promptly and cheerfully refund the money.

Doesn't that prove that Rexall Orderlies must be right? You must know we would not dare make such a promise unless we were positively certain that Rexall Orderlies will do all we claim for them. There is no money risk attached to a trial of Rexall Orderlies, and in justice to yourself, you should not hesitate to test them.

Rexall Orderlies come in convenient vest-pocket size tin boxes: 12 tablets, 10c. 36 tablets, 25c. 80 tablets, 50c.

## THE STAR PHARMACY

CARLSBAD The Rexall Store NEW MEXICO

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ailment especially designed for the particular ill for which it is recommended.

The Rexall Stores are America's Greatest Drug Stores

### Program for Home and School Association.

Program for Home and School association for Friday February 7th, 1913:

Reading.

Paper: "How shall the social side of the pupils life be promoted?"

From the school standpoint: Misses Smith and Baird.

From the home standpoint: Messdames Hare and Toffelmire.

### Card of Thanks.

I wish to express my thanks to the kind neighbors and friends who so kindly assisted me through the illness and death of my kind and loving husband.

MRS. J. T. ROWE.

As an encouragement for work in oratory in Carlsbad High school, W. C. Sellers, the well known jeweler, has offered to the High school debating club a twenty-five dollar prize, for excellence in forensic work. The nature of the contest for the prize has not been settled as yet, but it will be a spirited one, there is no doubt. The interest of Mr. Sellers in the work of the school and his generosity is deeply appreciated by the students and faculty of the High school.

Mrs. Edith Rule went up to Dayton Sunday morning in response to a telephone message from Dr. Culpepper, of that place. Mrs. Rule was wanted to assist in caring for John W. Price, who was so seriously injured by the accidental discharge of his gun, Saturday night.

The ladies of the Catholic church will hold their regular monthly market at the Purdy furniture store tomorrow afternoon. Everything good for your Sunday dinner will be on sale. Adv.

J. W. Gamel is in eastern cities having left last week, purchasing goods for the various Joyce-Pruit company's stores.

Christian & Co., Insurance.

A dry, hacking cough is hard on the lungs, often causing them to bleed. Ballard's Horehound Syrup is a healing balm that quickly repairs damage in the lungs and air passages. Price 25c., 50c. and \$1.00 per bottle. Sold by all druggists.

FOR RENT:—Either a four room or a two room house, furnished, or unfurnished, exceptionally cheap. One block west Methodist and Baptist churches. J. N. S. WEBB, Carlsbad.

Christian & Co., Insurance.

For Sale or Trade: Young Stallion.

Sired by Kentucky bred registered trotting horse with a record of 2:10. Well broken, very gentle, fine driver and very swift trotter and pacer. About fifteen hands high, dark bay, very handsome, also broken to saddle. 3 years old next spring. Will sell for cash, or trade for good draft horses or mules.—Address Box 87, Roswell, New Mexico.

E. W. ALSTON.

\$700.00 REWARD.

About a quart of strychnine was poured into the lead pipe at my wells in San Simon range which was detected by my herder in time to save all but a few sheep that were poisoned by drinking the water. I will pay the above reward (\$700.00) for evidence that will convict the perpetrator of the outrage.
