Pubmed's Single Citation Matcher and the MeSH Database Links Removed from HSLIC's Homepage

by Robyn Gleasner on October 5th, 2021 | [o Comments](#)

The links to Pubmed's Single Citation Matcher and the MeSH Database have been removed from beneath the Pubmed Search Box on HSLIC's homepage. After much discussion, we decided to remove these links because they were not easily connecting users with our resources. The "Find at UNM" button was not consistently appearing on articles or allowing access to the full text of articles. We have replaced the links to the Single Citation Matcher and MeSH Database with a link to [Pubmed](#). This link will connect users to our resources and should provide the "Find at UNM" button.

For those of you who enjoy using the Single Citation Matcher or the MeSH Database to do your research, these features can still be accessed from Pubmed's homepage.

For more information on how to connect these features with HSLIC's resources, please see our FAQ - [How Do I Access Full Text Articles from Pubmed's Single Citation Matcher or the MeSH Database?](#)

If you have any questions, please contact us at [Ask A Librarian](#).
