## MEDICAL BOARD IN SESSION

Twenty Applications for License to Practice Are Being Examined

## VERY IMPORTANT HEARING

Game and Fish Warden Thomas P. Gable on an Official Trip.

Governor Mills today appointed Carlos L. Rivera of Las Vegas, San Miguel county, a notary public.

**Incorporation.**  
Incorporation papers were filed today in the office of Territorial Secretary Nathan Jaffa by the Thompson Porter Company of Las Cruces, capitalized at \$50,000, divided into 500 shares, but beginning business with capital of \$27,000. The incorporators and directors are Charles D. Thompson, 80 shares; Robert P. Porter, 189 shares, and Alice M. Porter, 1 share.

**Arrests by Mounted Police.**  
Mounted Policeman W. E. Dudley of Alamogordo, reported to headquarters today that he had arrested a man named Apodaca and another man for gun toting at Vaughn, Guadalupe county.

**Medical Board in Session.**  
The territorial board of medical examiners was in session today in the Hall of Representatives at the capitol. The following members were in attendance: J. F. Pearce of Albuquerque, vice-president; W. D. Radcliffe, of Belen, treasurer; Dr. J. A. Massie, of Santa Fe, secretary; W. E. Gaser, of Las Vegas, J. G. Moir, of Deming, and Fred F. Doepp, of Carlsbad. President T. B. Hart, of Raton, was expected this afternoon. About twenty applicants for license are being examined.

**Going After Quail.**  
Game and Fish Warden Thomas P. Gable has gone to San Marcial, Silver City and other points to make arrangements for the shipment of surplus quail to northern counties and also to look after other official business.

**Educational Meeting.**  
Superintendent of Public Instruction J. E. Clark and Professor H. R. Patingill today addressed the second annual meeting of the Quay County Teachers' Association which has been in session at Tucumcari yesterday.

**Important Water Hearings.**  
Before Territorial Engineer Vernon L. Sullivan this afternoon a most important hearing was begun regarding an equitable division of the irrigation waters of the Pecos from Las Vegas to Fort Sumner. A large number of parties interested in various projects on that river are in town.

**An Interesting Census Meeting.**  
Yesterday and today five of the Pueblo Indian census enumerators met with Census Supervisor Paul A. F. Walter, Superintendent Clifton J. Crandall, Special Agent Elmer W. Marsh and Census Clerk Clement Hightower and discussed their work. The enumerators here were Antonio Romero of Taos, Antonio Tapia of Tesuque, Cyrus Dixon of Cochiti, Jesus Baca of Jemez, and Eulogio Cata of San Juan. The visitors were a picturesque crowd for several of them were in native costume, but in intelligence and zeal ranked with any similar gathering that may have been held anywhere in the United States among white people.

## BURNS IS NOW AUSTRALIAN CHAMPION.

Lang Goes Down Before Him After Stubborn Battle—Decision is Unpopular.

Sydney, N. S. W., April 11.—Tommy Burns won from Bill Lang, the heavy weight championship of Australia in the twentieth round in their fight for the championship of Australia. The decision is not popular, for although Burns had the best of the first ten rounds, he weakened the latter half, while Lang rallied. The betting was three to one on Burns. In the 6th round Burns roughed Lang through the ropes and was hooted, but Lang rose and shook hands with the American as the bell rang. In the ninth, Burns punished the Australian severely but the latter fought back gamely. He made a splendid rally in the twelfth. The last eight rounds Lang fought cautiously while Burns was plainly weakened, and forced repeated clinches. McIntosh gave the fight to the American on points.

## CONFERENCE OF OPERATORS AND COAL MINERS.

Kansas City, Mo., April 11.—The union coal miners and mine owners of Missouri, Kansas, Oklahoma and Arkansas met in joint conference here today in an effort to settle the strike of 35,000 miners which began April 1st, over the wage question.

## DOCTOR HYDE IS ON TRIAL

Dramatic Scene in Court Room at Kansas City This Forenoon

## WILL ASK DEATH PENALTY

Defendant Expressed Himself Satisfied With Way Case Is Moving.

Kansas City, Mo., April 11.—Dr. B. C. Hyde appeared before Judge Latshaw in criminal court here today to answer the charge of murdering the late Colonel Thomas H. Swope, millionaire philanthropist and uncle of the physician's wife. Colonel Swope died October 3 last. The death certificate gave apoplexy as the cause of death. Dr. Hyde was in attendance. The state charges that the physician poisoned the millionaire by administering strychnine to him in capsule form. The motive of the alleged crime says the state was to obtain wealth. By the terms of the colonel's will, Mrs. Hyde was to obtain a share of her uncle's property, and some money. Other charge of murder and attempting murder are pending against Dr. Hyde, but will not enter into the present trial.

**A Dramatic Scene.**  
Kansas City, April 11.—Mrs. Hyde, was among the first in the court room, stared straight ahead, apparently oblivious of her mother's presence when Mrs. Swope came in. As Mrs. Swope sat down she peered steadily at the daughter. Suddenly, Dr. Hyde turned in his chair, and faced her. For just a moment, the two stared defiance at each other. Dr. Hyde was the first to move his eyes. He turned and smiled at his wife, who arose from her chair and took a seat directly beside her husband. Dr. Hyde is well pleased with the manner in which the case is moving. He expressed himself especially well satisfied with the condition of his wife, who is expecting the visit of the stork during the next four months. Prosecutor Conklin today for the first time announced his intention of asking for the death penalty in case a verdict of guilty is returned.

## HEAD-ON COLLISION OF TRAINS IN IOWA.

Cedar Rapids, April 11.—A passenger and freight train on the Rock Island road collided head-on at Harrison near here, this morning. Fifteen people were hurt, one fatally.

## UNCLE JOSEPH DEFIES DEMOCRATS

Will Remain Speaker Until March Fourth Next Is His Boast

## AUTOMOBILE HIRE CUT OFF

Senate Is Disposing of Railroad Bill Section by Section.

Washington, D. C., April 11.—The speaker today defied the insurgents to depose him from the speakership, declaring in a speech from the floor "that unless the Republicans who do not approve of the personality of their speaker have the courage to join the solid minority, I remain speaker until March 4th next."

**Railroad Bill Taken Up.**  
Washington, April 11.—The administration railroad bill was taken up in the Senate today. It will be read, debated and voted upon section by section until disposed of. Senator Dixon of Montana presented an amendment making it unlawful for the carriers to charge more for a short than a long haul. He said there never will be peace in the matter of railroad regulation so long as this discrimination by roads is disallowed.

**Will Not Pay Uncle Joe's Automobile.**  
Washington, April 11.—Uncle Sam will not pay for "Uncle Joe" Cannon's automobile after all. The Republican insurgents and Democrats being against the provision in the legislative bill for an appropriation of \$2500 for maintaining the speaker's automobile, resulted in the rejection of that clause by the House today by a vote of 111 to 132.

## NATIONAL TUBE COMPANY RESUMES.

Lorain, Ohio, April 11.—With the exception of the bolt mill which employs 800 men, every department of the National Tube Company resumed today, 4,100 men going to work.

## JUDGE JOHN R. M'FIE RE-APPOINTED FIFTH TIME

Recognition of Integrity and Ability of Learned and Experienced Jurist by President Taft and Attorney General Wickersham.

Washington, April 11.—The President today sent to the Senate the nomination of John R. McFie to be associate justice of the New Mexico supreme court. Judge McFie was endorsed by the Republican organization of New Mexico.

Judge John R. McFie was today appointed Associate Justice of the supreme court of New Mexico for his fifth term. No other New Mexican has ever thus been honored. Fortunately the honor comes to Judge McFie in just recognition of his ability and integrity, which are recognized alike by Republicans and Democrats of this Territory.

The story of Judge McFie's life is an interesting one; it is an inspiration to the young men of today, struggling for success in life. John and Elizabeth (Borland) McFie, the parents of Judge McFie, came to America in 1845 and located in Washington county, Illinois. The elder McFie taught school until a serious illness at the end of four years resulted in his death in 1862. Judge McFie was the seventh of eight children, three sons and five daughters.

He attended the public schools of Illinois and was given private instruction by his father until the breaking out of the Civil War, when he was seized with the desire to enter the army. He enlisted in every company that was organized where he lived, but being a mere boy of sixteen years, the father who had become an invalid, refused to grant permission for him to go to the front.

**Served in Civil War.**  
The father died in 1862 and in the following year Judge McFie enlisted in Company E, 30th Regiment of Illinois Volunteer Infantry, his mother giving her consent to his enlistment. The regiment being on a furlough, however, the youthful recruit was not mustered in until February, 1864, at Camp Butler, Illinois. He marched with Sherman to the sea, served to the close of the war and was mustered out in June, 1865, receiving an honorable discharge. After the war, the future judge became a clerk and afterwards became a partner in the business, but having a desire to study law, after a few years he sold out and studied under the Honorable J. Blackburn Jones. In 1870, Judge McFie was admitted to the bar of Illinois. He took an active part in the political struggles of the day as a Republican and his ability in that direction was recognized by his election to the 31st Illinois legislative assembly in which he seconded the nomination of General John A. Logan to the United States Senate. He was again elected to the 33d legislative assembly and voted for Selby M. Cullom for United States Senator.

**Appointed Judge.**  
Judge and Mrs. McFie came to Las Cruces in 1884, where Judge McFie served as register of the United States land office until December 17, 1885. In January, 1886, he formed a law partnership with Judge Simon B. Newcomb, now deceased. This partnership was dissolved in March, 1889, when Judge McFie was appointed associate justice of the supreme court of New Mexico by President Harrison. He served four years, during which time only two of his decisions were reversed by a higher tribunal. He returned to his law practice, but was again appointed associate justice by President McKinley, in December, 1897, was re-appointed in December, 1901, by President Roosevelt and was again re-appointed by President Roosevelt.

**Married Life.**  
On his birthday anniversary, October 9, 1876, Judge McFie married Miss Mary Steele, a school teacher, daughter of Matthew Steele, one of the pioneer settlers of St. Louis, Missouri. Their married life is an ideal one and they find their greatest happiness in their home and children, although Mrs. McFie as well as the Judge, take a prominent part in the social life of the territorial capital and are leaders in many a public movement.

Ralph McFie, the eldest son of Judge and Mrs. McFie, though still young in years, is a veteran of the Spanish-American war, having fought with the Rough Riders on San Juan Hill and in other battles before Santiago de Cuba. He served as a trusted and important official of the Bureau of Public Lands of the Philippine islands, bidding fair to follow in the footsteps of his father and is now secretary of one of the Philippine provinces. Mrs. Maud Bloom, the oldest daughter, is a graduate of the New Mexico College of Agriculture and Mechanic Arts. She is a fine linguist and an educated musician.

The McFies had a pretty home in Las Cruces, but for the past fourteen years have been honored residents of Santa Fe, which wishes to retain them for many years to come.

**His Record.**  
Judge McFie's record on the bench is a remarkable one. During the many years of his service, his decisions have been reversed but a few times on appeal to the higher courts. His decisions have been very numerous and this record will compare very favorably with that of any judge in the United States.

Judge McFie is a natural lawyer of much legal experience, a hard worker and presides over the district courts with great suavity and courtesy, but also with much firmness and dignity. The endorsements, which he received for re-appointment, were practically unanimous and he was also strongly endorsed by the Territorial Republican organizations as well as by leading Republicans from every section. These facts and his re-appointment for a fifth term are absolute proofs of his eminent fitness for the high office, which he has filled so well and to which he has just been re-appointed by President Taft.

## ROOSEVELT CONSENTS TO SPEAK IN KANSAS.

Topeka, Kan., April 11.—Governor Stubbs today received a cablegram from Theodore Roosevelt, dated Porto Maurizio, accepting an invitation to deliver an address in August at the opening of the park on the site of the Battle of Posawottome, in August 1856, between the anti-slavery forces commanded by John Brown and the proslavery forces.

## TRUSTS GET ANOTHER INNING

American Tobacco and Standard Oil Cases Ordered Re-Argued

## WALL STREET MUCH PLEASED

Choice of Successor to Justice Brewer Complicated by New Turn.

Washington, April 11.—The supreme court of the United States today re-assigned for the argument cases of the United States against the American Tobacco Company and the Standard Oil Company. The argument of these cases is the direct result of the death of Justice Brewer, who died a few days after the Standard Oil cases were argued. As Justice Moody was unable to participate in the consideration of these cases on account of his sickness, only seven justices were left to give the decision. How the court was divided is as much of a mystery today as ever.

## Will Complicate Choice.

Washington, D. C., April 11.—Attorney General Wickersham was much surprised at the sudden turn in the fight against the corporation. Unless a motion to advance the cases is made they will not come up in the regular order of business for nearly a year. The choice of a successor to Justice Brewer may be made more difficult on account of today's complication, as he doubtless will participate in the consideration of these cases.

## Wall Street is Pleased.

New York, April 11.—Wall street was agreeably surprised at today's action of the United States supreme court in ordering a rearrangement of the American Tobacco and Standard Oil cases. The news was greeted with a sharp upturn of prices. Union Pacific led the advance, rising more than five points; Southern Pacific and American Smelting and Refining were active at advancing prices.

## NO RECONCILIATION OF CUDAHY WITH HIS WIFE.

Pasadena, Calif., April 11.—Michael Cudahy, father of Jack Cudahy, who recently hacked Jere Lillis, the Kansas City banker, stated last night that there had been no reconciliation between Jack Cudahy and his wife, and the published story that he had been in Kansas City trying to effect such reconciliation is not true.

## PLUNGED INTO THE FOREST

Conversation Between Roosevelt and Pinchot Was Earnest

## LONG HERALDED CONFERENCE

Meeting That May Prove to Be Historic One Takes Place in Italy.

Porto Maurizio, Italy, April 11.—Colonel Roosevelt's widely heralded meeting with Gifford Pinchot, the deposed chief forester of the United States department of agriculture took place on the veranda of Miss Carow's villa at nine o'clock this morning. But the real interview took place later in the seclusion of the forest that skirts the town at the north. Mr. Pinchot came direct from Copenhagen. He told the newspaper men that he would have nothing to say regarding his interview with "the chief." Mr. Roosevelt was busy with correspondence when his former chief forester arrived. The greetings were extremely cordial. After luncheon, Mr. Roosevelt, Mr. Pinchot, Mrs. Roosevelt and her sister Miss Carow, started out for a walk. They had not gone far when the two men fell into a swinging stride and finally plunged into the forest.

## Invited to the Palace.

Berlin, April 11.—Emperor William plans to return to Berlin in time to receive Mr. Roosevelt upon his arrival, but the former president has not yet accepted the invitation to go direct to the palace before visiting the American embassy as first planned.

## Seth Bullock Gets an Invitation.

Deadwood, April 11.—U. S. Marshal Seth Bullock of this city, for many years, the intimate friend of Theodore Roosevelt, today received by mail an invitation to join the former President in England. Mr. Bullock is reticent as to the contents of the letter, but admitted he is to meet Mr. Roosevelt in London about May 2d.

## \$ MARK IS NOT "ALMIGHTY"

Noted English Educator Says Our Money Doesn't Last Long

## ON THE TOUR OF THE WORLD

J. N. Fraser of Bombay, India, Talked to Roosevelt in Africa.

That the "almighty dollar" is a misnomer in America where he finds that the dollar of 100 cents does not go very far; that the American trains are too comfortable because the seats are too high; that the system of undressing in the Pullman cars requires a man to be something of a contortionist; that the failure to place the names of the stations on a big sign on a level with the car windows as is done in England causes the tourist untold inconvenience when trying to see where he is going or coming; and that American train conductors are apparently rude as a general rule; these were some of the observations made today by J. Nelson Fraser, graduate of Oxford University; head of a large English school in Bombay, India, and who has been touring the world in the interests of the Indian educational service and also for his own pleasure for the past two years.

Mr. Fraser is at the Claire hotel and has arrived in this country from the Pacific instead of the Atlantic as do most Englishmen.

Mr. Fraser had the pleasure of greeting Colonel Theodore Roosevelt in Africa in June and heard him deliver an address on the education of the colored man. Mr. Fraser was called to Africa to make a report on the education system. "Mr. Roosevelt looked the picture of health and as usual said something interesting," said Mr. Fraser in discussing his meeting with America's foremost private citizen. "He said: 'Gentlemen, if you are going to give the negro of Africa an education I hope that it will be an industrial one.'"

Mr. Fraser is a most interesting man and like most interesting people he is a keen observer. He has been living in India about fifteen years and yet he does not wear a turban nor does he use silk in his apparel. He says that in India it is not considered good form or good sense to take a sip of wine or any liquid with alcohol in it until after sundown as the sun is itself a powerful stimulant.

He declined to enter any church yesterday during a service unless he had time to stay throughout the service, for he said it is considered a sign of disrespect.

## Asks About Hat Bands.

When he saw the number of Stetsons around town, with the staunch leather bands tied around them he asked if that was not probably a return to the original use of a hat band, to tighten the headpiece so that it would stay on the head during windy weather. Mr. Fraser was much perplexed at seeing so many women dressed in black and said that the same is noticed in southern European countries and in Central and South America. In India on the contrary young women wear light colors, he observed.

Another question he asked and it caused much amusement to those who heard it was: "Does it rain every day in this country—that is in the far west?" Mr. Fraser said he encountered rain in Los Angeles, in the Grand Canon and in Santa Fe and a few other places he had visited. He carried with him a large umbrella which he said he had used to advantage.

## Admires Spanish Houses.

Mr. Fraser called yesterday to see Internal Revenue Collector Henry Bardshar at his home on Cathedral street and greatly admired the Spanish style of architecture. He also called at the educational institutions of the city and this afternoon visited the high school and had a lengthy talk with Superintendent J. A. Wood. Mr. Fraser showed a great desire to learn the methods in vogue here. He expressed to a reporter his admiration of the drinking fountain in the building, saying that if railroad trains could have one the glass and tin cups would not bother such states as Kansas where the anti-tuberculosis law is enforced, requiring individual cups.

## Admires Democracy.

Mr. Fraser admires the democracy he finds in America where he says he has discovered that while in Europe a cat may look at a king yet in America he may "extend his paw." One of the characteristics of Americans that has struck him forcibly is their eagerness to learn of the outside world. "When I tell a traveler in this country that I am from India he asks me a series of questions whether he has been in India or not. But in England or in Germany, if the person has not been in India all he says is 'Oh.'"

Yesterday Mr. Fraser had the pleas-

## THE DAILY ROUND UP.

### THE TREASURE-SEEKERS.

(John Kendrick Bangs, in "Success Magazine.")

One sought the East for gems and found, alas,  
Dire failure was his most unhappy pass.

One sought the pearls in waters of the Ind,  
And sank a victim of the seas and wind.

Another sought the gold that glitters free  
Upon the strand far in the Northern sea.

And on the beaches of that land of white  
His bones lie resting in the endless night.

A fourth plunged in the nearer fray  
To win

The gaudy raiment that the Trade-  
Elves spin.

And at the last found coffers full of dross—  
The gold was profit, but his soul was loss!

For me, in Fortune's strife, give me  
The part

Of him that delves deep in the Mines  
of Heart—

Not far afield, but here let me secure  
From them that love me treasures  
that endure.

Will Raise Chickens—Cleofes Ro-

mero, warden of the territorial peni-

tentiary, will devote his spare time

while in Santa Fe to raising poultry.

Yesterday he purchased of Pete Rich

several Buff Cochins and fine turkeys.

He had them shipped by express to

Santa Fe—Las Vegas Optic.

Elephant Butte Appraisers Make

Their Award—The United States will

pay the Victoria Land and Cattle Com-

pany \$199,097.25 for the land needed

for the Elephant Butte dam, if the

decision of the board of appraisers is

approved. The verdict gave the cat-

tle company \$199,097.25 for the land

sued for and also awarded \$1,380 for

other land to be taken up, but the

title to which is now in litigation.

Lovesick Man Commits Suicide—

Despondent because he was rejected

by the woman whom he loved, Louis

Gays, aged 21, committed suicide at

Globe, Ariz. He shot himself through

the head. He had been in low spirits

the past few days and then made a

remark that he would "get the man

who cut him out." It was first rumo-

red that Gays was murdered, as two

shots were heard from the vicinity

of the suicide, but an examination showed

self destruction. The side of the

head where the bullet entered was

badly powder burned.

Love's Dream Was Shattered—The

romance of Ralph S. Stubbs, nephew

of J. S. Stubbs, vice-president of the

Southern Pacific, general freight and

passenger agent of the Randolph lines

in Arizona, was rudely shattered

when a telegram was received by his

intended bride's grandmother in Tuc-

son, Ariz., saying: "Madge Martin

married Gladstone McElhiney Satur-

day without my knowledge. Mrs. Mar-

tin." Stubbs was to have gone to New

York with his father, who is presi-

dent of the Nevada University, and

his mother, and to have been married

to Miss Martin on the 28th of April.

Their engagement was announced the

first week in March.

Many Albuquerque Saloon Men In-

dicted—The last work of the Bernalil-

lo county grand jury before adjourn-

ing on Thursday night, was to return

**R&G**  
**CORSETS**

\$1.00 to \$5.00

## MINOR CITY TOPICS

Denver, Colo., April 11.—

The weather forecast is fair

tonight and warmer in north

portion. Tuesday fair in south

portion. Showers in north por-

tion.

Indians Defeated Town Team—The

Indians yesterday, in a thirteen inn-

ing game, defeated the local baseball

team at the ball grounds on the

south side.

Fire at Texico—Texico, Curry coun-

ty had another fire. The building oc-

cupied by W. T. Priest was burned to

the ground with its contents. The

insurance was \$1,000.

Cowboy Killed By Fall From Horse

—J. W. Allen, a cowpuncher for the

VXT outfit was found dead on the

range near Magdalena, Socorro coun-

ty, as the result of being thrown from

his horse.

Committed to Asylum—Inez Cerna

of Rancho de Atresco, was commit-

ted to the insane asylum at Las Ve-

gas Saturday by Judge Abbott at Al-

buquerque.

Missionary Society Meeting—The

Womans' Home Missionary Society of

St. John's M. E. church will hold their

regular social and devotional meeting

at the home of Mrs. J. F. Flick tomor-

row afternoon at 2:30 o'clock.

Want to Play Tennis—Now that the

rain has put the tennis courts in

shape for a good rolling and the

weather is fine many tennis enthus-

iasts are desirous of getting busy.

Several new residents in Santa Fe

wish to join the tennis club and a

lively season with the rackets is pre-

dicted.

Thunder and Showers Yesterday—

There was thunder and the edge of

a storm passed over Santa Fe yester-

day. But the day was generally clear

and pleasant. The maximum was 58

and the minimum 36 degrees with a

relative humidity of 69 per cent. The

precipitation for 24 hours was .04 of

an inch. The temperature at 6 o'clock

this morning was 37 degrees.

Identification "Bureau."—Postmas-

ter Burke has a clever arrangement in

the postoffice for identifying not only

misdirected letters but restoring to

their owners gloves, purses, handker-

chiefs and other articles often lost in

a postoffice where so many people

direct envelopes and write letters. He

## DANGER IN DELAY.

Kidney Diseases Are Too Dangerous for Santa Fe People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, diabetes and Bright's disease, follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Santa Fe.

Albino Ortega, College Street, Santa Fe, N. M., says: "I am very grateful for the benefit I have received from Doan's Kidney Pills. For several years I had trouble from my back and kidneys. It was hard for me to do work on account of pains across my loins and quick movement aggravated my trouble. My rest was disturbed by a too frequent desire to the kidney secretions and the passages were scanty and painful. Public statements given by local people who had used Doan's Kidney Pills with benefit, induced me to try them. I found relief right away and by the time I had used one box my back was free from pain. My kidneys are now in a normal condition and I feel decidedly better in every respect. I have great faith in the curative powers of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## SEVENTY THOUSAND QUESTION MARKS

Will Be Turned Loose Upon the People of the United States

### CENSUS BEGINS IN EARNEST

It Must Be Completed by May Fifteenth According to the Law.

Washington, D. C., April 11.—With the break of day on next Friday, the 15th instant, a host of 70,000 interrogators, men and women, white and colored, will be turned loose in pursuit of the people of the United States. On that day Uncle Sam will begin the numbering of his children in preparation for the 13th census. He estimates that he has a family of about 90,000,000 men, women and children, and he already has employed and will then put to work a body of enumerators considerably greater than the standing army.

The law provides that the enumeration shall begin on the 15th, but it is not so peremptory about the commencing time as about the closing time, and already intimations have been received that in some instances the work may be postponed until Saturday. This is due to the fact that the 15th falls on Friday, and among the 70,000 name takers there are some who are superstitious as to this day of the week.

The enumeration will cover all of the 45 states and two territories of the Union proper and also Hawaii and Porto Rico. Alaska, the Philippine Islands and Guam will not be included, as special arrangements are made for numbering the people of those dependencies.

Under the statute governing the work, the entire enumeration must be completed within a month, and in the cities the work is limited to fifteen days. It is expected that some of the returns from the cities will be received as early as the first week in June, but the exact population of the country will not be determined before sometime in September. The census officials will, however, know within a few thousand of the number long before the close of the summer months. They will be able to reach a substantially accurate conclusion by their pay rolls, but this will be more or less speculative, and the figures will not be given out.

Director E. Dana Durand, is counting upon a roll of not fewer than 90,000,000 names. This estimate is based upon calculations of his experts, and makes allowance for an increase according to the tendencies shown in the last three previous censuses. Between 1870 and 1880 the increase in the population was 30 per cent; between 1880 and 1890, 25 per cent; between 1890 and 1900, 21 per cent. If the decrease should continue at the same ratio there would be a falling off this year of the rate of gain to 17 per cent. The immigration figures for the past decade have been greater, however, than for any of the previous ten-year periods. Making allowance for this augmentation from outside it is calculated that the increase for the past ten years will be about 18 per cent, and as, in round numbers, the figure for 1900 was 76,000,000, it is now calculated that there prove to have been an addition of about 14,000,000 souls.

Much interest is felt as to the showing regarding the purely native increase. The enumerations between 1870 and 1900 show a startling tendency towards "race suicide," and it is Mr. Durand's fond hope that the reports of his 70,000 subordinates may be able to check this apparent decline. Man of figures that he is, he does not, however, permit his optimism to shade his facts, and until the actual returns show something better, he will hold to his ninety-million estimate.

There will be some innovations in

the next census, and they are expected to improve the reports. For instance, the country farmer is to be afforded an opportunity to consider in advance the statements he shall make as to the conditions prevailing with reference to his holdings, and the same advantage is to be given heads of families in cities as to the enumeration of their households. In both cases sheets are to be passed around before the official calls of the enumerators in the hope that both ruralist and urbanite will be more complete in their returns than otherwise they might be. There also is to be unusual care in the supervision of the work of the enumerators. In the cities supervisors will camp on the heels of the men with the pencils during the first day of their work and in the country districts the sheets themselves will be especially scrutinized.

The inquiry will comprise three principal branches: Population, Agriculture and Mining and Manufacturing. The questions will cover the acreage, the value and the product of farms, including an especial enumeration of animals, as it will the capital invested, the value of products, and the number of employees of mining and manufacturing plants.

The enumerators will want to know a good deal about you for the Population volumes. They not only will insist upon knowing your sex, but will expect you to reveal your age, and will ask you to tell whether you are white, black, mulatto, Chinese, Japanese or Indian; whether you are married or single, and if married how often; whether you are American or foreign born, and if the latter, that you give not only your nationality, but your race and mother-tongue. Then, if you are a woman, you are to tell how many children have been born to you; and, in any event, you are to tell all about your education, your parentage and your employment. All this information is to be for the general average and for the ear only of one of the enumerators. He is sworn not to reveal any of the awful truths.

The mere getting of the information will cost the government the pretty sum of \$5,500,000. Of this amount \$4,500,000 will be paid to enumerators, and the remaining million to supervisors. With a few exceptions the enumerators will be paid on the basis of the work done. In the country the remuneration will be from 20 to 30 cents for each farm reported, while the pay for names will range from 2 to 4 cents. The districts will average 1300 names, 1,000 in the country and 1,600 in the cities. In the southern states there will be two enumerators in each district, one white, and the other black. All told there will be about 1500 negro enumerators, but some of them will be employed in the northern states. In the south the negroes will be visited by enumerators of their own race, as will also the whites by their own people. There also will be about 500 women enumerators. In point of numbers New York will lead the list with 6,500 enumerators, while Nevada will close the procession with 86.

The results of the labors of this army of people will be published in 12 or 15 large volumes, which will come out from time to time for two or three years after the completion of the work in the field. All the tabulation as well as the general preparation of the matter for the printer will be done in Washington under Mr. Durand's supervision.

### NEW BRICK BLOCK IN WINDMILL CITY.

Large Consignment of Catalpa Trees Received at Deming—Party of Investors from Nebraska and Oregon.

Deming, N. M., April 11.—The two-story brick business building of H. Hordhaus & Sons on Silver avenue, is nearing completion. It is the intention of this firm to install in this building a Five-Ten and Twenty-five-Cent store. The brick building of A. M. Little is just completed and he is moving his business into it. Work is progressing rapidly on the new court house.

Mr. Dornbush has received a large consignment of catalpa trees and California privet hedge which he intends setting out on his place six miles

## WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Graniteville, Vt. — "I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter." — MRS. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

East of here, Mr. A. H. Donaldson is also planting catalpa trees. While in town he said that the trees he planted March 1 are doing well and have every appearance of thrift.

Mr. L. J. Carter of Silver City, has been spending a few days in Deming and vicinity, investigating the pumping proposition in this locality. He says it looks good to him.

Mr. Long, of the Long Lumber Company of El Paso, was in Deming Saturday.

A party of investors from Oregon and another party from Nebraska are here this week visiting the big pumping plants and investigating the farming conditions in the Mimbres valley, with a view of locating here.

Dr. Leonard Tabor, of Silver City, was in Deming Saturday.

### DR. DIAZ'S BIG AUTO SMASHED TO PIECES.

Gray Car Runs Into Telephone Pole But Driver is Uninjured—Slippery Roads are Blamed.

The big gray car owned by Dr. J. M. Diaz and the original cost of which was over \$3,000, was wrecked Saturday evening when it ran into a telephone pole in front of the house of Mayor Jose D. Sena. The pole is still standing, but the front of the auto is smashed to pieces. The driver, Meliton Vigil who was the only occupant of the car, was uninjured.

In discussing the accident Doctor Diaz said today that the driver was not at fault but that the accident was due to the absence of chains on the wheels and the slippery roads which allowed the machine to slide beyond control. It was going at good speed and when the crash came the only surprise is that the driver escaped alive, considering the rain of cut glass that fell on his lap.

The car is of the Franklin make and had run 88,000 miles. It was formerly rented out and was run to and from the station. The car was dragged to the owner's garage and it doubtful if it can be repaired without greater expense than is warranted.

The New Mexican Printing Company has on hand a large supply of pads and tablets suitable for school work, the desk, and also for lawyers and merchants; good everywhere. We will sell them at 5 cents in book form.

### New Mexico Military Institute

ROSWELL, NEW MEXICO.

"The West Point of the Southwest."

Army Officers Detailed by War Department Army Inspectors RANK SCHOOL IN CLASS "A."

Through Academic course, preparing young men for college or for business life. Great amount of open air work. Healthiest location of any Military School in the Union. Located on the beautiful Pecos Valley—the garden spot of the West—at an elevation of 3,700 feet above sea level, sunshine every day, but little rain or snow during session.

Eleven Officers and Instructors, all graduates from standard eastern colleges. Ten buildings, thoroughly furnished, heated, lighted and modern in all respects.

REGENTS—E. A. Cahoon, President; W. G. Hamilton, Vice President; J. Phelps White, Treasurer; W. M. Atkinson Secretary, and W. A. Finlay

For particulars and illustrated catalogue address.

## OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

### THE CENSUS.

Today the newspapers that are enjoying Associated Press service, which includes the New Mexican, are giving considerable space to an account of the census today and thus, virtually, notice is given to the 90,000,000 to 100,000,000 people of the United States to be ready for the census man during the next thirty days. In New Mexico, the press has prepared the reading public well and posters are up in the most out of the way places urging co-operation of every citizen in the great task of counting the population of the Territory. It is hoped that the census will show an increase in population for New Mexico from 60 to 75 per cent and a doubling of farm wealth, and if every enumerator does his duty, these estimated gains will undoubtedly be expected. The widespread interest in the work can be gauged from the following editorials in papers received yesterday. Says the Western Liberal at Lordsburg:

"A week from today the enumeration of the people in the forthcoming census commences. The postoffice is decorated with posters in English and Spanish, printed in black and in gaudy colors, telling the people that they should answer all the questions the census man asks, that there is a penalty for refusal to answer, and that the answers will never be disclosed so that a friend or enemy has any chance to know what is, in confidence, told the enumerator."

The El Paso Herald remarks: "The volunteer census just now being completed in El Paso is one of the best examples imaginable of the power of co-operative effort. The census has required the voluntary co-operation of seven hundred persons, for the most part business men having little time at their disposal. But by the very simple process of each individual giving a small portion of his time and effort to the common cause, it has been possible to list the names of tens of thousands of El Paso's citizens and to make up a roll by which the work of the United States census agents can be tested."

"Imagine the work of taking this voluntary census imposed upon a small group of men, what a large task it would be; yet through co-operation the work has been accomplished in a short time, with but little sacrifice on the part of any single individual. "The volunteer census is one of the wisest undertakings ever promoted by the Chamber of Commerce. It will give us a reliable basis of population estimates, and will enable us to test the work of the federal enumerators block by block so as to make sure nobody is omitted from the official enumeration."

"With a city of this size growing very rapidly, it is important that the census figure obtained only once in 10 years shall be as large as possible, because this figure stands for 10 years in all gazetteers, atlases, textbooks, timetables, and official and unofficial lists as indicating the actual rank of this city, among the centers of population. It is not solely a matter of pride, for many tangible benefits accrue to cities of a certain size, that are not accessible to smaller cities."

"Seldom has the Chamber of Commerce demonstrated its usefulness more positively and directly than through this volunteer census."

The great interest in the census at Roswell is manifest from the following:

"This city has taken up the plan of certifying to the enumeration of the number of inhabitants that actually dwell within its limits, and is going to use the same plans that El Paso and other large cities have adopted. This plan seems to be a very popular one, and will be a checking up of the number of inhabitants. This plan is that one person be selected by the citizens who live in each ward for that purpose. Of this committee, Mr. L. K. McGaffey is the chairman, and also will look after the checking up of the second ward. Sylvester Johnson will look after the third ward, John C. Davis of the fourth ward, and Abe Whiteman of the fifth ward. Should there be any dispute as to the real number of inhabitants in these wards, the matter could be looked into by these men who are chosen for that purpose."

Says the Carlsbad Argus: "Claude Wright, enumerator for the United States census, will commence his labors in town next week. Starting from the northwest corner of town he will work south following the streets east to the railroad. Certain questions must be answered under the law, and as a matter of town pride, everyone should be sure that

they have been counted. El Paso for instance, numbers of people have volunteered to go over the town after the census taker to act as a check should he miss any, and in that way provide fully that no one is missed accidentally. It behooves Carlsbad to put her best foot forward and be sure that every one is accounted for, although at this stage of the game, it is not considered good form to rob the grave yards or dig up old city directories to pad the lists."

To this the Albuquerque Morning Journal adds:

"On the 15th of April the census takers in New Mexico and throughout the nation will begin their house to house canvass in an endeavor to obtain specific information with regard to the population of this country, which has grown from slightly less than 4,000,000 in 1790 to more than 75,000,000 in 1900."

"The task of the census taker, under the most favorable circumstances, is not an easy one, and it is frequently made unnecessarily complicated by the refusal of imperfectly informed or obstinately suspicious persons to answer reasonable queries."

"It should be borne in mind that anything that is said to the enumerator is not to be communicated by him to anyone else under penalty of a fine of \$1,000. On the other hand, the pertinacious refusal to answer the questions of the itinerant inquisitor is also penalized by a heavy fine. The questions asked will seem to some persons irrelevant and impertinent. But the information is not wanted merely that it may be stored away to mold in official catacombs. The figures assembled are in a true sense vital statistics. The very facts which may seem of trivial consequence to the man or woman who communicates them assume significance and importance when assembled with similar data from other parts of the country by enabling deductions and general conclusions to be made."

"It is the duty of every good citizen to help to the extent of his ability to make the official statistical record of the United States in 1910 as complete and as accurate as possible. An exhaustive census is an index to a high degree of civilization, and the most backward countries are those in which the population is vaguely estimated in round numbers or not counted at all."

It is not new advice that is given the chronic faultfinder when he is told to leave the place that he does not like, but the Rincon Valley Recorder puts it in such a forcible way that it is worth while repeating. It says:

"If there is one creature entitled to the contempt of a community it is the man who elects to live in a town and puts most of his time knocking it. A short time ago a sorehead of this description was industriously engaged in abusing the town he lived in to a visitor who was stopping over looking for a location. An old timer was listening unobserved to the trade. Finally he turned to them and looking squarely in the eyes of the knocker drawled: 'Say, mister, you ain't tied.' That is about the substance of the whole matter. If you don't like it you ain't tied. If you continue to live there it is on the face of it evident that it is to your interest to do so. That being the case you owe it to yourself—not to the town—to boost. The only result of your knocking is to make the listener suspicious either of your sincerity or your judgment, or of both. If you are telling the truth you exercise very poor judgment in continuing to live in the place."

New Mexico has another railroad. The Choctaw has been completed into Tucumcari and has elevated that place to a three railroad town, the same as Santa Fe, which with Deming and Lordsburg had a monopoly of the distinction of being the only "three railroad" towns in New Mexico. This gives New Mexico direct communication with Memphis and the South Atlantic states, an advantage that ought to be accompanied with many commercial gains.

The New Mexican's exchanges all speak highly of Judge E. C. Abbott and praise the appointing power for having selected the right man. The Deming Graphic, the Silver City Enterprise, the Roswell Register-Tribune and other newspapers have nice compliments for him and what is best of all, he deserves the praise and the expectation that he will make good.

### IT WILL MEAN BETTER HEALTH.

The old city council refused to listen to the petition of the board of trade, health authorities and citizens in general asking for the passage and enforcement of an anti-expectoration ordinance. One member of the city council remarked that it would have a bad effect upon his chances for reelection if he voted for such an ordinance. It is to be hoped that the new city council will not be quite so wobbly and will do its full duty in that respect.

Anti-spitting ordinances, laws and regulations in more than five-eighths of the cities and towns of the country are not enforced as they should be, alleges the National Association for the Study and Prevention of Tuberculosis in a bulletin issued today. While most of the larger cities of the United States have such laws on their books, in the great majority of cases they are ignored or overlooked.

The bulletin is preliminary to a more extensive study of the subject which will be presented at the next meeting of the National Association in Washington on May 2, by Robert J. Newton of St. Louis. It covers in detail the enforcement of the anti-spitting ordinances in 80 of the largest cities in the country. During the year 1909 in these 80 cities, 3,421 arrests were made for violation of the laws regarding spitting in public places. Over 2,900 convictions were secured and \$4,100.87 was collected in fines.

New York City had more arrests than any other city, having had 2,513, with 2,099 convictions and \$1,936.80 collected in fines. Baltimore comes next with 214 arrests and an equal number of convictions. Pittsburg is third in rank with St. Louis in fourth place. St. Louis, however, would have been in second place, if the sanitary police who enforce the law in that city had been at work in 1909. In 52 cities out of the 80 the law was either not enforced at all or very poorly enforced. Of the remaining 28 cities, less than one-half of them contributed more than three-fourths of the arrests for spitting and of the fines collected.

On account of the fact that National Tuberculosis Sunday will be observed on April 24, the National Association is calling the attention of clergymen in all parts of the country to the advisability of bringing before their congregations the necessity for better enforcement of the anti-spitting laws.

Andrew Carnegie, who about a week ago at Albuquerque, insisted that wealth was not taxed sufficiently by the state, appeared in a new role a few days later in addressing a technical class of the public schools of Pittsburg, Pa. He said among other things:

"Woman raises man to the highest standard."

"My mother and wife made me all I am."

"All depends upon the proper mating of man and woman."

"The ambition to become a millionaire is low."

"To be of service to your fellow-man is the greatest ideal."

"Honest parentage is the most valued heritage."

"Don't let money be your god."

"It is good to develop the body as well as the mind."

To this Mrs. Carnegie who was with him at Albuquerque, added:

"Pick for your wife the girl who takes care of her mother—the girl who is useful in the household and does not make the most show in the ball room. The highest work for woman is to help and encourage man."

The Margaret Morrison schools do more good than all the fight for woman's rights."

This advice does not cost anything but it is good nevertheless."

The Democratic Carlsbad Current has something good to say of a Republican district attorney and it is so unusual for a Democratic paper to give a Republican credit for anything that the comment is herewith reproduced:

"The many friends of Louis O. Fullen, in Carlsbad, are pleased to have him return to Carlsbad in the official capacity of district attorney for the fifth judicial district. 'He made good' while here and will doubtless fill the position to which he has recently been appointed the second time in a manner which will be a credit to himself, court, and the community represented."

The sending in of Judge John R. McFie's name for reappointment to the supreme bench of the Territory is gratifying to the great majority of the people of the Territory and of the first judicial district. He is a veteran on the bench, his record has been clean, his decisions have generally met with the approval of the higher courts and he has been a credit to the appointing powers as well as to the Territory. Judge McFie is a good citizen who has taken a live interest in matters that worked for the progress of this community and of the commonwealth.

Postmaster F. O. Blood has been reappointed for the third time as postmaster at East Las Vegas. He has made good evidently and the policy of the postoffice department to reappoint those postmasters who have given good service is exemplified in his case. Mr. Blood has been a staunch and active Republican, loyal to the organization, and has at the same time maintained a healthy interest in business and civic affairs.

Herewith are some bargains offered by the New Mexican Printing Company: Code of Civil Procedure of the Territory of New Mexico, 1897, sheep bound, \$1; paper bound, 75c. Missouri Code Pleadings, \$6; the two for \$10. Adapted to New Mexico Code, Laws of New Mexico, 1899, 1901 and 1903, English and Spanish pamphlets, 25c; full leather \$3. Sheriff's Flexible Cover Pocket Docket, single, \$1.25; two or more books, \$1 each. New Mexico Supreme Court Reports, Nos. 3 and 10 inclusive \$3.30 each. Compilation Mining Laws, 50c. Money's Digest of New Mexico Reports, full sheep, \$6.50; full list school blanks.

## The First National Bank OF SANTA FE.

The Oldest Banking Institution in New Mexico. Established in 1870

Capital Stock - \$150,000  
Surplus and Undivided Profit - 80,000

Transacts a general banking business in all its branches. Loans money on the most favorable terms on all kinds of personal and collateral security. Buys and sells bonds and stocks in all markets for its customers. Buys and sells domestic and foreign exchange and makes telegraphic transfer of money to all parts of the civilized world on as liberal terms as are given by any money transmitting agency public or private. Interest allowed on time deposits at the rate of three per cent per annum, on six months' or years' time. Liberal advances made on consignments of livestock and products. The bank executes all orders of its patrons in the banking line, and aims to extend to them as liberal treatment in all respects, as is consistent with safety and the principles of sound banking. Safety deposit boxes for rent. The patronage of the public is respectfully solicited.

## PERSONAL MENTION

Anthony Sandoval of Galisteo, is  
at the Coronado.

Mrs. L. A. Billows, of Boston, is  
here on business.

A. M. Bergere was a visitor in Albu-  
querque Saturday.

Dr. Thomas K. Terrell of Silver  
City, is here on business.

J. Grant, a sightseer from Oklaho-  
ma, is in the city.

Anthony Archuleta of Truchas, is at  
the Coronado hotel.

Edward Ehle left Santa Fe on Sat-  
urday for Albuquerque.

Manuel Archuleta of Truchas, is at  
the Coronado hotel.

Charles H. Barnard, of Evanston,  
Ill., is here on business.

C. S. Weber, a hardware salesman  
of St. Joseph, Mo., is at the Claire.

Mr. and Mrs. Fay G. Allen, tourists  
from Marysville, Mo., are in the city.

E. F. Shindel, a tourist from San  
Francisco, was at the Palace Satur-  
day.

Mrs. Charles F. Easley is reported  
out of danger today and is steadily  
improving.

Assistant Land Commissioner Ma-  
teo Lujan has returned from a visit  
to Las Vegas.

W. G. Turley the well known San  
Juan county engineer, is at the Pal-  
ace from Turley, N. M.

E. G. Garcia, representing a whole-  
sale drug house, was calling on phar-  
macists here Saturday.

Dr. W. D. Radcliffe of Belen, N. M.,  
treasurer of the territorial medical  
board, is in Santa Fe.

Attorney C. R. Easley is up from  
Estancia being called here by the ill-  
ness of his mother, Mrs. C. F. Easley.

"Col. Tom P. Gable, territorial fish  
and game warden, was in Albuquer-  
que Saturday, leaving later for the  
south."—Albuquerque Journal.

Dr. J. J. Walker of Jackson, Miss.,  
is here to take the examination of  
the territorial board of medical ex-  
aminers.

Dr. J. G. Moir is up from Deming,  
to attend the sessions of the terri-  
torial board of health of which he  
is a member.

Attorney A. A. Jones, of Las Vegas,  
former chairman of the Democratic  
central committee, is in the city on  
irrigation matters.

Dr. and Mrs. H. H. Keith of Topeka,  
are sightseers registered at Gregg's.  
Mr. and Mrs. T. D. Collins of Al-  
buquerque, are in the city.

J. L. Scott, a Denver hardware  
salesman, is calling on the trade here.  
H. C. Burger, selling barbers' sup-  
plies, is calling on the trade.

Dr. J. F. Pearce of Albuquerque,  
vice president of the board of health  
and medical examiners of the Terri-  
tory, is a visitor in the capital.

Antonio Gapia of Tesuque, census  
enumerator for Tesuque, San Ilde-  
fonso, Nambé and Pojoaque, is a vi-  
sitor in town on census matters.

Dr. Fred F. Doepf of Carlsbad, Ed-  
dy county, arrived this afternoon to  
attend the meeting of the Medical  
Board of which he is a member.

Eulogio Catta returned overland to  
San Juan today after a census con-  
ference. He will enumerate Santa  
Clara and San Juan pueblo grants.

Jack Gage Starke, an artist who has  
studied in many European countries,  
and who recently has been staying  
at Silver City, is at Gregg's hotel.

Jesus Baca of Jemez, who will enu-  
merate the pueblo grants of Jemez,  
Zia and Santa Ana for the Pueblos,  
was in conference with the census  
office today.

John S. Zimmerman, of Las Vegas,  
and formerly of this city, passed  
through Santa Fe Saturday. He is on  
his way to California where he will  
join his family.

Attorney H. L. Ortiz has moved his  
offices from Hanley's block to second  
floor of Frank Andrews store. He has  
two well lighted rooms and everything  
is neatly arranged.

Sheriff Geronimo Sanchez and A. E.  
Green and H. C. Brook of his office in  
Socorro county, who were registered  
Saturday at Gregg's hotel, have re-  
turned to their homes.

E. F. Gerald, advance man for "A  
Stubbish Cinderella Company" pass-  
ed through here Saturday and made  
arrangements for his company which  
will play here April 20.

O. D. Bryan, of Denver; D. A. J.  
Bacon, of New York City; W. Flo-  
rence of Denver, and N. A. Elliott, also  
of that city, are salesmen registered  
at the Palace hotel Saturday.

H. T. Clark, a wholesale grocer of  
Aurora, Ill., and his son F. C. Clark,  
are visitors in the city and are so  
impressed with its climate and oppor-  
tunities that they have decided to lo-  
cate.

Dr. W. E. Kaser of Las Vegas, a

member of the territorial medical  
board, in session here today, was  
called home this forenoon on urgent  
business but expects to return to-  
night.

Elmer Marsh, special agent of the  
census bureau for the Pueblo, Apache  
and Ute Indians in New Mexico and  
Colorado, left this morning on an  
official trip to San Felipe, Albuquer-  
que, Isleta, Laguna, Acoma, Cubero  
and San Rafael.

Antonio Romero of Taos, a Pueblo  
Indian, who is of much service to  
Uncle Sam, is spending a few days in  
town posting himself on his work as  
census enumerator. He reports that  
the season at Taos is quite late and  
that there has been considerable fall  
of snow and rain the past few days.

Samuel E. Day, special agent of the  
census bureau for the Navajo Indians,  
spent yesterday in Santa Fe in con-  
sultation with Census Supervisor  
Paul A. F. Walter. Special Agent  
Day has lived on the Navajo reserva-  
tion a quarter of a century and it is  
certain that he will take the best kind  
of census that circumstances will per-  
mit. He has sixteen enumerators un-  
der him, thirteen in Arizona and three  
in New Mexico.

Cyrus Dixon of Cochiti, who has  
charge of the Indian road gang on La  
Bajada hill was in town today in con-  
sultation with the census office for he  
will take the census of the Santo Do-  
mingo and Cochiti Pueblo grants. He  
is an Indian of great intelligence and  
force of character. He reports that  
splendid work is being done on the  
highway down La Bajada hill. The  
Indians have just returned from clean-  
ing ditches and preparing to put in  
crops.

**SANTA FE'S DRY FARMING  
EXPERT COMING HERE.**

Professor J. D. Tinsley Will Be in  
This City Thursday and Friday  
of This week.

James W. Norment today received  
the following letter:

Mr. James W. Norment,  
Santa Fe, N. M.

Dear Sir: I will come to Santa Fe  
Thursday the 14th, leaving Albuquer-  
que on No. 10. I shall be glad to meet  
you and any others who may be inter-  
ested in the subject of Dry Farming  
to talk over the subject with you and  
see if there is any assistance that I  
can render.

Will be there until Friday afternoon  
or evening. Will stop at the Palace  
hotel.

Yours,  
J. D. TINSLEY.

## IRRIGATION REVIEW OF SOUTHWEST

Meeting of Agents of Irrigation Investigations of Department

HELD RECENTLY AT EL PASO

Crying Need of New Mexico Is Economic Use of Water.

During the three days, April 2-4, 1910, a conference of southwestern agents of the irrigation investigations of the United States department of agriculture was held in El Paso, the purpose being to review irrigation conditions in Texas, New Mexico, Arizona and California, and to outline a policy for work during the present irrigation season. Those present at the conference were Dr. Samuel Fortier, chief of irrigation investigations, department of agriculture, Washington, D. C.; W. L. Rockwell, in charge of work in Texas, San Antonio; F. L. Bixby, in charge of work in New Mexico, Mesilla Park; C. E. Tait, in charge of work in Imperial Valley and Arizona, Phoenix; P. B. Fuller, in charge of power investigations, Phoenix; and Frank Adams, in charge of work in California, Berkeley.

The irrigation investigations of the department of agriculture have to do with all matters concerned with the agricultural features of irrigation, such as the duty of water, methods of preparing land and applying water, pumping water for irrigation, seepage and evaporation losses, canal cleaning and kindred subjects. The work has been in progress under authority of Congress during the past eleven years, and a vast amount of reliable information has been gathered and published for the benefit of the farmer of the country. In some of the western states, such as Utah, Idaho and California, the legislatures have made appropriations to assist in these investigations, the combined state and federal funds being expended under the immediate direction of Dr. Fortier. At present Utah provides \$5,000 per year, Idaho \$4,000 and California \$7,000, and in each case the department of agriculture provides funds equal to the state funds. The double appropriations have greatly extended the scope of the investigations and the consequent benefit to the farmer, and it is hoped that the western states and territories not now aiding in the work, such as Texas, New Mexico and Arizona, will do so during the coming year, thus insuring the expenditure in these valuable investigations of one dollar of federal money for every dollar appropriated by the states.

At the close of the conference, April 4th, the following general statement of conditions in the four states and territories represented was made:

### Texas.

As nearly as can be estimated, 400,000 acres were irrigated in Texas in 1909. This result is extremely gratifying when one considers the greater part has been accomplished in recent years and all by private enterprise.

The El Paso valley is one of the proven fruit and alfalfa sections of the state. The soil is silty loam, and is rich and strong. The elevation, about 3,700 feet, gives clearness and dryness to the atmosphere and a temperature between a maximum of 105 degrees in summer to five degrees below in winter, making the conditions almost ideal for the production of the standard deciduous fruits, especially the Bartlett pears. Many varieties of European grapes are especially thrifty and produce a fine quality of fruit. This district is eagerly looking forward to the completion of the Elephant Butte project of the reclamation service, at which time 45,000 acres of very fertile land will be provided with an abundance of water, the one thing necessary to make profitable the creation of many prosperous homes.

In the vicinity of Port Stockton, in Pecos county, are located the Comanche Creek Springs, which with economical use, will furnish water for the supply of 18,000 acres. Under these springs lie 30 or more thousand acres of very fertile land, and an irrigation system is now in course of construction to lead this water to the productive acres it can supply. Plans are also being made to increase this acreage by impounding storm water in

reservoirs, as by this means it is believed to be possible to add ten thousand acres to the irrigable area. The soils in this locality consist largely of chocolate loam and are very productive, the chief crops being the standard deciduous fruits, grapes, alfalfa and corn, all of which yield abundant harvest.

In the Toyah valley, Beeves county, are located the Toyah Springs, capable, under careful distribution and use, of furnishing necessary moisture to 20,000 acres of land. Irrigated farming has been practiced here for a number of years with large returns in alfalfa, vegetables and fruit. This valley, like those about El Paso and Port Stockton, have the soil, elevation and temperature conducive to the production of finely flavored fruits and vegetables.

In the Pecos valley at Barstow and Grand Falls in Ward the flow of the Pecos river is being utilized in the production of alfalfa and fruit. At Barstow, where drainage is made necessary by the excessive use of water in irrigation, drainage bonds have been sold, and during the past year the main channels of a drainage system have been completed, and the beneficial effects of this work, even at this early date, are most gratifying. The future of this locality is bright. At Del Rio, in Valverde county, the San Felipe Springs pour forth upwards of 50,000 gallons of water per minute, sufficient—under proper economical use—to supply the needed moisture, if planted to fruit and vegetables, to at least 20,000 acres. Only a portion of this water has thus far been utilized, and Johnson grass is the chief production. The small farmers are turning their attention to fruit and alfalfa growing, and the returns justify the change.

In Demmit county, about Cavino Springs, and Asherton, the water supply is derived from artesian wells. During the past year much water has been developed and settlement has been rapid. The production of Bermuda onions has been the chief industry in this locality, but, with the sandy and chocolate loam soils, which prevail, many varieties of fruits and vegetables may be grown with very satisfactory results.

The acreage under irrigation about Lando has not been greatly extended during the past two years. Two thousand acres were planted in Bermuda onions last fall, and a small acreage in cabbage. Water is here supplied by pumping from the Rio Grande at heights varying from 30 to 80 feet.

On the lower Rio Grande the development during the past two years has been most rapid. At the present time

sixteen pumping plants are in operation, with several more in course of construction, lifting water from the Rio Grande to a height of from ten to sixty feet and distributing it in earthen channels. The cost of construction of these various plants runs from \$100,000 to \$1,250,000. From 30,000 to 35,000 acres were under irrigation last year, with the area rapidly increasing. In this valley lies 500,000 acres of irrigable land and the present available water supply for not more than one-third that acreage.

These lands touched with water under intense cultivation bring large returns, and with the millions of money involved, with a fertile acreage far in excess of the supply, the call comes strongly for the utmost economy in its use. This economy in use lies along the lines of thorough preparation of the land for reception of the water, that it may be evenly distributed, early and thorough cultivation, that the moisture supplied may be held for the plants and not wasted by evaporation, and a well-located proportioned canal system so planned that at a later date an impervious lining may be applied at the minimum expense.

The past decade has witnessed the rapid development in the rice industry of Texas. The state now ranks second to Louisiana in the production of this cereal. In 1909, 291,000 acres of irrigated rice in southeastern Texas produced 9,894,000 bushels, representing returns to the producer of nearly \$8,000,000. There is some fear of over-production on the part of the growers, but the fact that the consumption of rice in the United States increased from 2.8 lbs. per capita in 1898 to 7.8 lbs. in 1908, is an indication of the increasing demand for the article of food. In order to insure the continuation of the success of this industry the present methods of cultivation and irrigation should be improved, more efficient pumping plants installed, a reasonable charge made for water on the part of canal companies, and a lowering of the price of rice to the consumer, by curtailing the profits of the middleman.

The irrigation investigation branch of the department is endeavoring to improve the present practice by having a practical rice grower travel from district to district and advise the grower. Practical bulletins are likewise being published on the irrigation of rice, and the most suitable equipment for pumping water.

### Arizona.

There has been nearly 300,000 acres of land irrigated in Arizona. A large part of this is in Salt River valley. The remainder lies in the valleys of the Gila, the Verde, the Little Colorado and other smaller streams. The variation of Arizona streams for high floods to dry channels has not only made the supply of water uncertain, but has endangered the stability of irrigation structures. To remedy these defects the federal government, through the reclamation service, has co-operated with the land owners in the Salt River valley, and the Yuma, on the Colorado, in the construction of storage works and more permanent structures.

The fact that the work of the reclamation service is limited to these two localities makes it necessary for the farmers in other parts of the territory to become self-reliant in the perfecting of their irrigation systems, and the irrigation investigations of the department are being looked to for assistance to them in their undertakings.

It is realized that many difficulties will be encountered in establishing new irrigation enterprises as well as in bringing about better methods under the old ones. The Carey Act offers a solution of the problem, and it is hoped that this act will be taken advantage of at the next session of the territorial legislature, now that Congress has extended the provisions to Arizona.

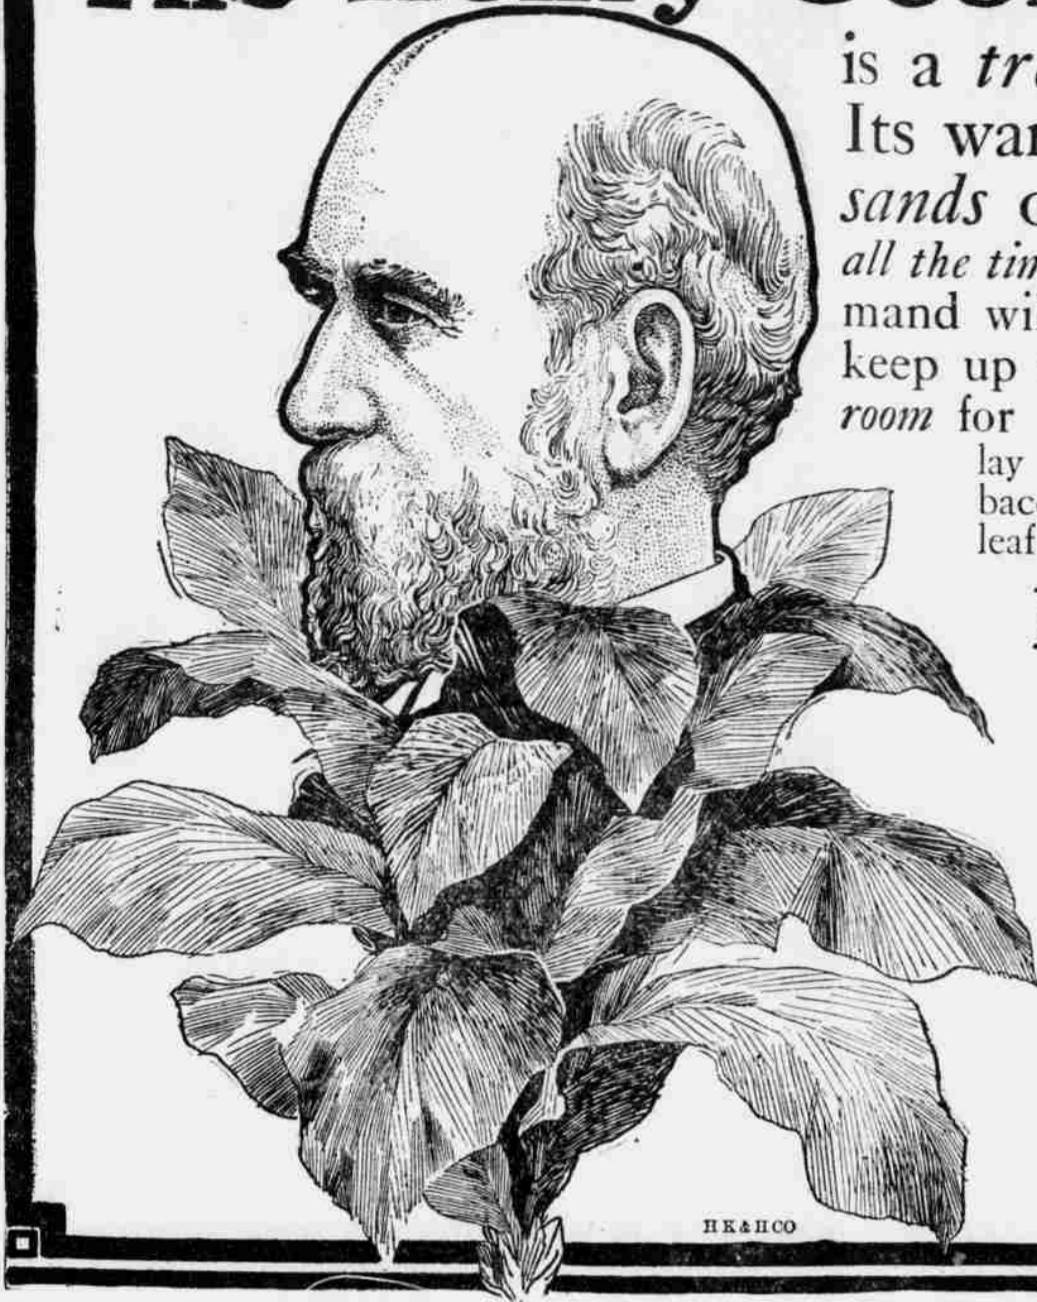

In many parts of the territory development must be by pumping, and the U. S. department of agriculture is being called on to advise the farmers preparing to provide water in this manner.

Another subject of great importance, as shown by the requests made of the department, is the proper amount of water to use in the irrigation of various crops, and the best methods of applying it. There is much careless use of water, and there is need of systematic studies that will bring about a more economic use and at the same time give even better results in the way of yields.

### New Mexico.

Although irrigation has been practiced within the Territory of New Mexico for many years by methods more or less crude, the time has come when the economic feature of irrigation should be considered. The knowledge of the proper use of water may be partially acquired by experience and careful judgment, but this method is slow and expensive. The crying need of New Mexico is practically the same as that of a newly irrigated section, in that many of the irrigators possess little knowledge of the economic use of water. Their present methods are wasteful, and what is needed more than anything else is personal work among the farmers, giving instructions as to the proper use of water. The Santa Fe railway is beginning work along their railway lines by keeping a specialist in the field, who devotes his entire time to giving practical instruction in the cultivation and growing of crops. The U. S. department of agriculture intends to carry on this kind of work along irrigation lines in a more thorough manner than ever before, pursuing the same course as it has followed in other sections of the arid west. By this procedure it is hoped that the available water supply will be made to serve the largest possible area of land. This work will be under the direction of the Washington office with a representative at the Agricultural College at New Mexico, and in co-operation with the experiment station of the same institution. In all the work the hearty co-operation of the farmers throughout the territory is urged that the benefits derived may be common to all.

# The Henry George Plant

is a tremendous factory. Its warehouses hold thousands of bales of tobacco all the time. We know that the demand will keep up as long as we keep up the quality so we provide room for all the good leaf we can lay hands on in the years when tobacco has the best flavor. But good leaf alone isn't enough for the

## Henry George 5c Cigar

It must be ripe as well; it must be aged until all the harshness is gone. That accounts for the constant mildness and fragrance. Good workmanship makes the Henry George burn evenly without rankness or charring; the wrapper is delicate and whole; the filler is long and so is the enjoyment. In every case in town and ahead in every case.

### DEMING AND LUNA COUNTY REPORT GOOD RAINS.

Deming, N. M., April 11.—From all accounts the rain last week covered practically all of Luna county. Mr. Taylor is in town from his farm near Hondale and reports a splendid rain in that vicinity. Joe Hitchens, who operates a number of mines in the Cook's Peak district says that a heavy rain fell there. A slow rain started just at nightfall in Deming and continued during the night. The weather is not yet settled, and there is every indication of more rain.

J. T. Donnelly and J. L. Hougland, both of Indianola, Neb., filed on land twelve miles south of Deming. C. A. Goddard of Legrande, Ore., and L. O. Danse of Laport, Ind., also filed in that neighborhood. Mr. Goddard and Mr. Danse will install pumping plants immediately.

Mr. T. J. Shea, of the Shea colony, 15 miles south of here, was in town last week.

### MEXICAN GOVERNMENT GRANTS LAND TO NEGROES.

San Antonio, Texas, April 11.—With the condition that the land be settled in a bona fide manner the Mexican government has offered to grant to negroes 30,000 acres of very fine agricultural land in the state of Tabasco. The men behind the movement control already 400,000 acres and their intention is to establish here the biggest negro colony to be found anywhere, Liberia excepted. Their intention is to people the tract with American negroes from the south.

Although Tabasco is in the tropics it is claimed that its climate resembles that of the southern states and especially the Gulf regions and no difficulty is anticipated in this respect. Bananas, pineapples, tobacco, corn, beans, coffee, rubber, citrus fruit and practically every other tropical crop could be raised by the colonists.

A committee composed of negroes and several white advisers passed through this city a few days ago for the purpose of looking over the property. It is said that several hundred colored families are ready to take up some of the land immediately.

### Notice For Publication.

Small Holding Claim No. 1418.  
Serial 012528.

Pecos Forest. Not Coal Land.  
Department of the Interior,  
United States Land Office,  
Santa Fe, N. M., March 5, 1910.

Notice is hereby given that the following-named claimant has filed notice of his intention to make final proof in support of his claim under sections 16 and 17 of the act of March 3, 1891, (26 Stats., 854), as amended by the act of February 21, 1893, (27 Stats., 470), and that said proof will be made before Register and Receiver at Santa Fe, New Mexico, on April 21, 1910, viz: Nicario Quintana, heir of Jose Quintana, of Rowe, N. M., for the W. 1-2 SW 1-4 Sec. 28, and the SE 1-4 NE 1-4 Sec. 29, T. 16 N., R. 13 E., N. M. P. M., of 120 acres.

He names the following witnesses to prove his actual continuous ad-

**NOTICE**—Typewriter ribbons 50c, satisfaction or your money back. Carbon paper as low, same guarantee. Stripling, Burrows & Company.**W. N. Townsend & Co.**—Attention is called to the change of advertisement of the well known firm of W. N. Townsend & Co., in today's issue.**Change of Ad**—Attention of the readers of the New Mexican is called to the change of advertisement of Stripling Burrows & Co., in this issue.**Board of Trade Meeting Tuesday**—The regular monthly meeting of the Santa Fe Board of Trade will be held on Tuesday evening of next week at the offices of the Santa Fe Water and Light Company.**Big Angora Goat Shipment**—Aubrey Gist, who is at Carlsbad from Fruitville, Mo., will ship out 1,500 angora goats tomorrow for Fruitville. There are 600 fine does and 1,000 wethers in the shipment. He leaves 1,000 more that will be cared for by the McSullom boys.**Colonel Hopewell Buys Cattle Interests**—Willard S. Hopewell, it is understood has acquired H. A. Ringer's interest in the Ladder brand cattle in Sierra county. The deal is said to be a large one, as this outfit has extensive herds in the county. Charles D. Nelson is general manager of the company and John P. Dines range foreman.**Dr. Gray Sells Residence**—W. R. Henderson, of Leavenworth, Kan., this week purchased the residence property of E. McQueen Gray at La Huerta, Carlsbad. Consideration \$10,000. Mr. Henderson is a capitalist and comes to Carlsbad simply to make his home and enjoy the mild balmy climate of the Pecos valley.**More Weddings Than Births and Deaths Together**—During the first quarter of the year 1910, which ended March 31, the births and deaths in San Miguel county as reported to Lorenzo Delgado, clerk of the probate court, were exactly equal in number. During the three months twenty-seven births were reported. The same number of deaths were recorded. During the same quarter fifty-five marriage licenses were issued.**Ran Away With Other Man's Family**—Accused of running away with Mrs. W. W. Green and her five girls, three of whom are triplets, 4-1-2 years old, C. J. Chromaster was arrested at Roswell Saturday. Chromaster has been running a store and post-office up in the Sacramento mountains. He sold out his store and started for Seattle, Wash. Green had been his clerk and he and his family came as far as Roswell with Chromaster.**Indian and East Indian Meet**—At the office of Census Supervisor Paul A. F. Walter two extremes in civilization were seen this morning when J. Nelson Fraser, Oxford University graduate and head of the English government's normal school in Bombay met a Pueblo Indian, descendant of the Aztecs and who is a census enumerator. In another way the difference was also striking, for one represented what we call East India and the other the India of America. One had on the garb of England, the great colonizer and civilizer; the other that of the colonized and now being civilized.**Twitchell is Boosting**—"Pueblo is planning to break all previous records with the irrigation congress meeting there next fall," said Dr. E. McQueen Gray, president of the University of New Mexico, who returned to Albuquerque last night from the Colorado city. Dr. Gray, who is in charge of the foreign end of the representation at the irrigation congress, and Col. R. E. Twitchell, another officer of the congress, were guests of honor at a banquet of some fifty leading business men of Pueblo and there was a general discussion of the plans of the next congress. "Colonel Twitchell made one of his well known New Mexico speeches, which was enthusiastically received," said Dr. Gray, "and we had a very pleasant time."**Railroad Chiefs to Gather**—There will be a gathering of chiefs of the Santa Fe railroad in Albuquerque during the present week according to advices received yesterday. From the west are coming President E. P. Ripley, Vice President George T. Nicholson, General Purchasing Agent W. E. Hodges and several other department chiefs, while from the east will come J. M. Kendrick, vice president and chief of operation, with a party of railroad men, including several who are prominently connected with the Pennsylvania system. The purpose of the visit from both east and west is one of inspection.**Prominent Raton Man Indicted**—A profound sensation has been created here by the indictment by the grand jury of H. W. Farmer and Henry Farr, both prominent citizens of Colfax county, for complicity in the famous Wells-Fargo express robbery at French, in May, 1908, when \$34,000 in coin and currency belonging to the Dawson Fuel Company was secured by masked bandits. The money was consigned in charge of the Wells-Fargo Company by the First National bank of Albuquerque to the Dawson Fuel Company, and was for use in paying off the men at the company's coal camp.**Indictments by Carlsbad Grand Jury**—The following true bills were returned by the grand jury at Carlsbad, Eddy county: Territory vs. Bill Brooklyn, three true bills were returned on the three counts respectively: Two on failure to return hides and one charging him with unlawfully killing meat cattle. Territory vs. Carlos

Garcia charged with larceny and receiving stolen property, three counts the same. Territory vs. Esteban Flores, two counts, unlawfully discharging a pistol and unlawfully carrying deadly weapon. Territory vs. J. C. Wilson, two counts, assault with deadly weapon. Territory vs. Sylvester Robles assault with deadly weapon. Territory vs. Tom and Carl Shipman, larceny and receiving stolen property. Territory vs. B. F. Burt and H. C. Differ, unlawfully dynamiting fish.

**SEVERAL PERSONS INJURED  
IN DUBUQUE HOTEL FIRE.**

Dubuque, Iowa, April 11.—Fire broke out early today at the Julian hotel while the two hundred guests were asleep. A panic followed and a number of persons were injured. The frantic guests scrambled for aid from the windows of the upper stories and many were rescued by firemen. Others dashed down the fire escapes and fell head first to the pavement when they reached the bottom.

**Many Miraculous Escapes.** Dubuque, Iowa, April 11.—The Julian was one of the most prominent hostilities of the state. Many spectacular rescues were made. How a number escaped is a mystery, for the fire quickly cut off all escape by the staircases, and a number of fear-crazed persons rushed madly through the flames.**GUILTY COUPLE SENTENCED  
FOR MANSLAUGHTER.**

Waukegan, Ill., April 11.—Dr. W. R. Miller was today found guilty of manslaughter for killing J. B. Saylor. Mrs. Saylor was also found guilty of manslaughter. John Grundin was acquitted. Dr. Miller was sentenced to 12 years in the penitentiary and Mrs. Saylor to three years.

**\$ MARK IS NOT ALMIGHTY.**

(Continued from Page One.)

ure, however, of meeting a resident here who had been in his city of Bombay. It was Dr. J. A. Massie who visited Bombay in 1895 and asked Mr. Fraser about the changes that had taken place since then.

**Defends English.** To the query why the Indian people, as Mrs. Hanna remarked in a recent interview on her visit to India, show signs of deep sorrow on their faces, Mr. Fraser said that it was not because of English rule. "The people of India have looked sorrowful for centuries and centuries," he said, "and long before the English ever made their acquaintance. It seems a characteristic of their race just as some people, like the Japanese, have the habit of smiling."

"In regard to the famine and desolation in India I can truthfully say

there is less there right now than in England, in proportion to the population."

Mr. Fraser will go from here to Kansas City, thence to Chicago where he will spend several weeks studying American civilization as portrayed in the Windy City. He will visit a number of universities including Harvard and will then continue his tour around the globe. He will go back to India via the Suez canal and will be home about Christmas time, having taken over thirty months to see the world.

Shortly before noon Mr. Fraser was presented to Governor Mills and New Mexico's chief executive cordially welcomed the traveler from the other side of the world. Mr. Fraser discussed with the governor educational matters and expressed a wish to see the normal school at Las Vegas, the governor's former home. "New Mexico may well feel proud of such a splendid man for governor," was Mr. Fraser's comment after he had left the governor's office.
