KEEPING VITAL STATISTICS

Probate Clerks to Record Only Those That Are Properly Certified

E. G. AUSTIN HAS RESIGNED

Differences at Normal University Explained by Dr. B. S. Gowen.

Territorial Engineer and Vernon L. Sullivan and Land Commissioner R. P. Ervin of the territorial good roads commission will leave tomorrow on an inspection trip of the Santa Fe-Albuquerque and Carrizozo-Roswell roads. They will go in Mr. Sullivan's automobile.

Recording Vital Statistics. The following important opinion by Assistant Attorney General Harry S. Clancy regarding the recording and indexing of vital statistics by probate clerks is of much importance:

Hon. C. C. Catron, Assistant District Attorney, Santa Fe, New Mexico.

Dear Sir: I am in receipt of your communication of the 11th inst. asking for the opinion of this office as to whether under Chapter 91 of the Laws of 1907 and Chapter 39 of the Laws of 1909, the probate clerk should register all births and deaths coming to his knowledge or taken from church records, or whether he is only required to register such births and deaths upon the receipt of the certificate of a physician, mid-wife, etc., mentioned in Sections 1 and 2 of the Act of 1907.

Sections 1 and 2 of Chapter 91 of the Laws of 1907 provide that every physician or mid-wife, or any person who shall attend a person in his or her last illness, shall furnish the clerk of the probate court a certificate of such fact. Sections 3 and 4 of the same act makes it the duty of the probate clerk to register and index all births and deaths "reported to him." In my opinion the words "reported to him" undoubtedly refer to the certificates mentioned in Sections 1 and 2, and that it is no part of the duty of the probate clerk to register any births or deaths occurring in his county unless furnished with such certificates. Chapter 39 of the Laws of 1909 is an amendment of Section 5 of Chapter 91 of the Laws of 1907, and reads in part as follows:

"It shall be the duty of the probate clerk to prepare a complete record of all births and deaths from the 21st day of April, A. D. 1907, within his county and record and index the said reports as herein provided."

The conclusion must be reached that the words "the said reports as herein provided," refer to the certificates mentioned in Sections 1 and 2 of the Laws of 1907, Chapter 39 of the Laws of 1909, having become a part of the Act of 1907.

My opinion therefore is, that the probate clerk is only required to record and index births and deaths occurring in his county upon a certificate executed by the persons mentioned in Sections 1 and 2 of Chapter 91 of the Laws of 1907, and further it is my opinion that the clerk is not authorized to register and index births and deaths, information of which he may have obtained from other sources.

Yours truly,

H. S. CLANCY, Assistant Attorney General.

Captain E. G. Austin Resigns.

At the meeting of the New Mexico cattle sanitary board at Albuquerque on Tuesday, Captain E. Goodwin Austin, secretary of the board for the past three years and for some years one of its members, presented his resignation, which was accepted by the board.

W. J. Linwood, of Raton, manager of the Iowa Land and Cattle Company and a member of the board, was elected secretary and took over the work of the office yesterday.

No reason is assigned for Captain Austin's resignation. He did not care to discuss it. The members of the board made no statement concerning the resignation while in session, but a member of the board said yesterday:

"We are sorry that Captain Austin is retiring. He has been a careful, conscientious official and has given close attention to his duties. Mr. Linwood, however, is an experienced man; is not only a skillful accountant, but a successful cattle man as well and fully acquainted with the work of the office and its needs."

No further changes will be made in the office force.

Dr. B. S. Gowen who has just resigned as president of the New Mexico Normal University at Las Vegas, was in consultation today with Governor Mills and Superintendent of Public Instruction J. E. Clark regarding the differences which led to his resignation.

FOUR NEW LAND OFFICES

Andrews Wants Them at Fort Summer, Socorro, Taos and Farmington

APPROPRIATION FOR A WELL

Pay for Drilling for Artesian Water South of Santa Fe.

Special to the New Mexican.

Washington, April 16.—Professor Newell says that the reclamation service has been patiently waiting on the department of justice since last June. As soon as placed in possession it will rush the work on the Engle project. The secretary of the interior will decide on a number of places to water stock and other details for the judgment of the court. Representative Smith and Burgess are now in conference with the attorney general. The President cannot see Burleson and Smith till next week.

Delegate Andrews introduced a bill appropriating \$1,000 for digging a well near Venus, Santa Fe county. The money is to be given the county commissioners for that purpose.

Delegate Andrews secured from the pension bureau a pension for Edwin D. Howell of Carlsbad, Company 1, 2 Minnesota Infantry, \$20 a month.

Cameron's bill to grant a section of land to Lowell Observatory passed the House.

Delegate Andrews is pushing the bill to create land offices at Fort Summer, Socorro, Farmington and Taos and is confident that they will pass.

BALLINGER-PINCHOT CONTROVERSY.

Washington, April 16.—E. C. Finney, assistant to the secretary of the interior, resumed the stand before the Ballinger-Pinchot investigation committee today. He was questioned further about the official acts of Mr. Ballinger and insisted that the secretary had acted in good faith in turning over the Cunningham claims to Assistant Secretary Pierce. Mr. Finney also replied to the criticism of Secretary Ballinger by the Director and Chief Engineer Davis of the reclamation service. It had been claimed that Secretary Ballinger modified the contract with the power company using the water from Lake Tahoe, California and Nevada so as to give the company better terms. Mr. Finney said every contract relating to Lake Tahoe water had been prepared by the reclamation service.

Delegate Cameron presented an order in the House, providing that on the first and third Mondays, after calling the unanimous consent calendar, to call private bills except claims, war claims and pensions. It was referred to the rules committee.

Delegate Cameron has recommended a postoffice for Desert Home, Maricopa county.

Cameron has endorsed Leslie S. Estes for postmaster at Planet, Yavapai county.

Cameron has secured a supply of fish from the government hatcheries for John G. Vankamp, T. A. Riordan and E. A. Sliker, all of Flagstaff, and H. D. Aitken, of Prescott.

ROOSEVELT IS OUT FOR BEVERIDGE.

Louisville, Ky., April 16.—The Courier-Journal prints a telegram from Washington declaring Roosevelt will make two or three speeches in Indiana for his friend Beveridge some time between the middle and the end of September, the first speech to be in Indianapolis.

These speeches will be made on his return from the national conservation congress, at which the correspondent says Roosevelt will defend Pinchot and his policies and go after Ballinger and those who have been making trouble for Pinchot.

The dispatch says Roosevelt, unless baited, will not attack Taft. He is only going to stand by his friends and policies. The correspondent gives the source of this information as a newspaper friend now traveling with Roosevelt in Europe.

RECEIVER IS APPOINTED FOR EL PASO ESTATE.

El Paso, Texas, April 16.—Judge Harper of the Thirty-fourth district court appointed C. W. Fassett receiver for the estate of the late Mrs. Fannie D. Porter, for a long time postmistress at this place. The heirs are Mrs. Annie P. Krause, widow of Major Krause, U. S. A.; John Pryor, of San Francisco, and Thomas D. Pryor, of Colorado, the estate pays in rentals \$1,200 per month and is to be held in trust until the death of the last of the heirs, when it is to be divided among their children.

ANTI MISSIONARY RIOTS REPORTED IN CHINA.

Amoy, China, April 16.—The United States cruiser Cleveland has been sent to Hankow because of anti-missionary riots in Changsha.

TEDDY HAS A GOOD TIME

But to His Regret Had to Decline Novel Hunting Expedition

FRANZ JOSEPH IS GRACIOUS

Excursion Today and Reception to Americans Tonight.

Vienna, April 16.—Mr. Roosevelt and Kermit made an automobile excursion today to the famous Kreuzenstein castle of Count Wilczek, 20 miles from Vienna. Emperor Francis Joseph this morning invited Mr. Roosevelt to accompany him on a capitalistic hunting expedition following a court dinner tonight. These birds are shot just before dawn and the emperor proposed that they go on a special train to Sommering in the eastern Alps. Mr. Roosevelt's engagement to receive the members of the American colony tonight compelled him to decline the gracious invitation.

ANARCHISTS AFTER ROOSEVELT.

Geneva, Switzerland, April 16.—It was announced here today that an anarchist identified as a member of the American Black Hand was arrested on Wednesday at Chisso, Switzerland, near the Italian frontier, on the suspicion that he had designs on Mr. Roosevelt's life. The police think that the suspect who had in his possession several special dispatches from the United States was en route to Venice, where he expected to find the former president.

ANOTHER KANSAS CITY MAN GONE WRONG.

However He Is Dead and Therefore Cannot Answer to the Charge That He Was Short in His Accounts.

Kansas City, April 16.—That William J. Baehr, former city treasurer of Kansas City, who died recently, was short in his accounts \$63,480, was reported to the mayor yesterday by a firm of accountants. The report says the discrepancies found in the books date from April 20, 1908. From April 28, 1908, to April 19, 1909, a shortage of \$18,000 was carried. The report says that \$18,000 was replaced on the last named date to make the books balance for annual examination by the auditor.

Baehr, the books show, had used \$6,941 to pay his own tax bills. The report of the accounts says other embezzlements in the city treasurer's office knew of the shortage, although they did not profit by it. One of the exhibits in the investigation is Baehr's check for \$200 which had been returned from a bank marked "insufficient funds." The check, the report says, was carried on the books as cash.

SENATOR NELSON MAY RETIRE FROM SENATE.

Reports That He Will Give Up Work on Most of the Committees for the Remainder of His Term.

Warwick, R. I., April 16.—Senator Nelson W. Aldrich who is resting at his home at Warwick Neck said today that he did not care to affirm or deny the report that he would not be a candidate for re-election in 1911. He also refused to discuss the report that he would give up work on most of the Senate committees the remainder of his term.

RUSH TO ALASKA GOLD FIELDS

New Discoveries on Otter Creek Will Result in Mighty Stampede

\$25 PANS REPORTED COMMON

With Opening of Navigation Shifting of Population Will Begin.

Fairbanks, Alaska, April 16.—Reports from miners who have gone to the new Iditar gold fields have aroused great interest in the field, and the greatest stampede since the big rush to Fairbanks six years ago is assured. Reports say that forty paying claims have been located on Otter flats and twenty-five dollar pans are common. A big shift in the population of the interior of Alaska is certain to begin with the opening of navigation in May.

SPECTACULAR TRIP PLANNED

The Greatest Battleship Fleet World Ever Has Seen to Be Assembled

WILL CIRCUMNAVIGATE GLOBE

President Taft and Secretary of Navy Meyer Working Out Idea.

Chicago, April 16.—A special to the Tribune from Washington says that President Taft and Secretary of the Navy Meyer plan to send the greatest battleship fleet ever assembled around the world. The plans however will not culminate until 1912, when the fleet will begin its trip, which will overshadow that which sixteen battleships made at the close of the Roosevelt administration. If Congress allows the administration free hand there will be a fleet on the Pacific larger than the entire American fleet at the time of the Spanish-American war.

BIG LAND SYNDICATE IS ORGANIZED.

Gigantic Combination of Capital Incorporated in Arizona for Colonization.

San Antonio, Texas, April 16.—For the purpose of acquiring as much as possible if not all, of the public lands in Mexico, Brazil, Bolivia, Peru and other Latin American countries, a gigantic combination of capitalists has been effected under the laws of Arizona, to be known as the South American Exploitation and Colonization Company. According to the Mexico Daily Record, the concern is capitalized at \$30,000,000, gold, but there is no doubt that far greater resources are at its disposal.

It is the intention of the organizers of this huge project to operate through a number of subsidiary companies that in Mexico are being organized and in operation under the name of the Mexican National Land Scrip Company. Similar companies will be formed in every other country south of the Rio Grande.

There is no doubt that there is nothing in the history of mankind to parallel this stupendous undertaking, the great conquests of antiquity not excepted. Compared with it the greatest modern land deal, the acquisition of Rhodesia by the Chartered Company of England, fades into utter insignificance. The public lands in South America form still more than two-thirds of the entire area, being in Mexico, the best settled of them all, a little over one-fourth of the whole.

How the various governments will take to this enterprise is as yet not known, although, the necessary concessions are now being considered by some of them. That all or any of them would in consideration of a mere lagatelle—for such the present purchase price of the land when considered with its ultimate value is—part with their public domain is not thought possible except corruption figures largely in the matter. The ambition of the men behind this movement is boundless to say the least and their identity may be said to be unknown at this time. The men whose names appear in connection with the scheme seem to be merely agents of a vast combination of money, none of them having much reputation in American or Mexican finances.

The more prominent Americans identified with the syndicate are Frederick E. Kenaston and G. T. Propper of Minneapolis, Orlando A. Robertson, Edward T. Young, attorney general, of the state of Minnesota, and Joseph C. Wood of St. Paul.

That there is a great opportunity waiting for this combine cannot be denied. Mexico alone holds some 120,000,000 acres of public lands which could be acquired for about 25 cents an acre or even less. Most of this land is well timbered, has a fine soil, is rich in minerals and is for the greater part located in fine climates. Practically the same holds true in the case of the other Latin Americas.

While the alleged intention of the syndicate is to acquire these lands for colonization there can be no doubt that its real intention is to hold these lands as an investment and pocket the increment. It would be quite impossible to even settle a small fraction of the land to be acquired, because the resources behind this move, while they may be great would not be great enough to effect this. Settlement by Indians is out of the question for the reason that much of the land has been occupied by them for centuries without much good resulting therefrom and it is very doubtful whether enough white farmers could be found to even make an impression on the vast tracts. For these reasons the holding of the land would be exploited.

(Continued on Page Eight.)

RALLY WILL CLOSE TONIGHT

Hon. H. R. Pattengill to Talk on "The Yankee's Creed".

FINE ADDRESS LAST NIGHT

Institute Has Been Successful—Interesting Papers Read by Several Teachers.

The educational rally and inspiration institute which opened last night at the high school auditorium will close tonight at 8 o'clock when Hon. H. R. Pattengill will lecture on "The Yankee's Creed."

Professor Pattengill is a well known educator from Michigan and his talks throughout the country have awakened interest. He spoke several times to the children in the schools yesterday and the youngsters came home with graphic accounts of the things he had told them. Last night an interesting program was carried out. The auditorium was crowded, and many there were youngsters anxious to hear Mr. Pattengill. After music Mayor Sena delivered an address of welcome and to it Hon. J. E. Clark, the territorial superintendent of public instruction replied. Then there was more music after which Mr. Pattengill delivered his noted lecture entitled "Gumption with a Big G." While the lecture was generally conceded to be more for developed minds, the youngsters seemed to enjoy the anecdotes which the lecturer told with fine humor.

The first session of the teachers was held this morning. Mr. Pattengill gave two talks and Miss Lawhorn read a paper "Keeping Pupils in School." Miss McGibbon's pupils gave an interesting physical culture drill.

Afternoon Session.

This afternoon Miss Doane read a paper on "The Spirit of the Young Teacher," and Miss Sweet one on "Rural and City Schooling." Two more practical talks by Professor Pattengill made up the program.

The rally and institute have been productive of much good it is said and the inviting of Professor Pattengill here is considered a very happy thought on the part of the territorial superintendent, Mr. Clark. Mr. Pattengill is making a tour of the Territory and will go from here to Bernalillo and thence Albuquerque.

FIREMEN MEET TO "FIRE" FIREMEN.

Secretary A. M. Dettelbach and Treasurer E. P. Mackel of Local Association are "Released."

The board of control of the New Mexico Association of Volunteer Firemen, with the retiring president Bernard Ruppe in the chair held a meeting at the office of the Santa Fe Water and Light Company's offices this afternoon. Frank Owen was selected to be secretary of the board as successor of A. M. Dettelbach, who was removed from the office of secretary. Thomas P. Delgado was appointed treasurer also to succeed E. P. Mackel who was removed on the charge of being derelict in his duty.

Speaking of Dettelbach's case, Mr. Ruppe said to a reporter of the New Mexican: "You may quote me as saying that we have investigated the accounts of Dettelbach and have sworn out two warrants for his arrest and trial on the charge of embezzlement and forgery. He is charged with forging my name to thirty-seven vouchers. His case will be heard this afternoon in the court of Justice of the Peace Santos Ortiz. Treasurer Mackel was removed for cashing these forged orders when his duty was to notify me."

Turning to Mr. Delgado the new treasurer, Mr. Ruppe said: "Mr. Delgado you are treasurer. I ask you as a personal favor that if you do find it expedient to make off with the funds to have the courtesy to leave enough in the treasury to pay our traveling expenses." Mr. Delgado was asked to furnish bond of \$2,500.

At the meeting of the local firemen's association held last night Secretary Dettelbach was "dishonorably discharged" from the office of secretary.

MIDSHIPMAN EARL WILSON DIES FROM BROKEN NECK.

Annapolis, April 16.—Midshipman Earl Wilson, the navy foot ball player, whose neck was broken in a game last fall, died this morning. According to all surgical traditions, Wilson's injury should have resulted in almost immediate death.

Baseball. St. Louis, Mo., April 16.—Bulletin—Pittsburg and St. Louis game called off on account of rain.

BLIZZARD IN MIDDLE WEST

Thousands of Dollars of Damage by Frost in the Great Southwest

FRUIT NEARLY ALL KILLED

Mesilla and Lower Pecos Valleys Are Especially Hard Struck.

El Paso, Texas, April 16.—Cold weather has done thousands of dollars of damage in New Mexico, Arizona and Texas. Snow covers the Sacramento mountains in New Mexico, and the frost last night killed the fruit blossoms around Alamogordo and in the Mesilla valley. The fruit was also destroyed about Barstow, Pecos and other sections of the lower Pecos valley.

Blizzard in Missouri.

St. Joseph, Mo., April 16.—A driving snow rages here today. It was a freezing cold night and fruit and vegetables are greatly damaged.

Iowa Frozen Up.

Sioux City, April 16.—Thousands of fruit buds were blasted by killing frost in Sioux City and vicinity last night. Snow is falling today.

Smudge Pots Save Colorado Fruit.

Denver, April 16.—Reports this morning from the fruit raising district of the Grand valley, and from the Montrose and Paonia districts indicate little real damage done by last night's frost, and that the fruit crop of those districts, estimated this year to be worth \$8,000,000, has escaped harm. Thousands of smudge pots were kept burning all night.

At 9 o'clock last night, steam whistles and fire bells sounded a general frost alarm at Garand Junction and immediately a score of automobiles, laden with volunteers, left the city to aid the farmers of the surrounding territory in the work of smudging.

Terrific Tempest in the South.

Memphis, April 16.—With an average of five inches of rainfall as a result of a storm that yesterday and last night swept over Tennessee, Mississippi and Arkansas, the tempest broke over these states again last night with fury. Reports from Como, Marigold and Jonestown, Miss., indicate that many small houses were leveled to the ground at the latter place and one negro woman was killed. This is the only fatality reported. Telephone and telegraph wires in and around Memphis were laid flat.

Ninety Per Cent of Fruit Killed in Utah.

Salt Lake City, April 16.—Damage to fruit in Salt Lake valley from the frost of last night will aggregate \$100,000. The apricot crop has been almost entirely destroyed and peaches, pears, prunes and early apples suffered severely. The use of smudge pots saved several orchards. A half million dollars will hardly cover the damage to fruit in Utah county, according to information from Provo last night. Less than 10 per cent of the crop will be saved, in Davis county and the Ogden district the loss is estimated at 50 per cent. At Brigham City, in Cache county, there is no loss worth mentioning.

Storm Played Havoc in South.

Memphis, April 16.—Reports today from Mississippi, Arkansas and West Tennessee, tell of much damage from the storm which swept those sections last night. The only two fatalities reported, however, are at Scottsboro, Alabama, where the daughter of J. V. Brandon was killed by lightning and at Johnstown, Mississippi where a negro woman was crushed to death under a house.

Alabama Devastated.

Montgomery, Alabama, April 16.—The Grenola hotel, half a dozen stores and many residences were wrecked at Greenville, Ala., by the storm just before noon today. At Forest Home, twelve miles from Greenville, several houses were unroofed and a negro man and a woman were injured.

Snow at Magdalena.

Magdalena, April 16.—The rain of the past week gave way to a terrific wind and dust storm and yesterday it snowed. The weather is quite cold and if it continues so for any length of time will have a bad effect on this season's lamb crop.

Midwinter at Albuquerque.

Albuquerque, N. M., April 16.—Following a clear and frosty night which caused the fruit orchardists to sit up late and anxiously, yesterday morning dawned bright and sunny and it was believed that the phenomenally cold, wet weather of the past few days was at an end. The illusion was rudely dispelled about 12:30 or more when a seething blizzard swooped down out of the northwest and covered the ground for a few minutes with a white carpet, the snow driving before a strong wind so that it was almost impossible to face it. The

## THE DAILY ROUND UP.

### THE SPELL OF THE DESERT.

(By Maud Going, in the Great South-  
west.)

For you the whispering woods,  
Or the restless and changeable sea;  
But I have beheld the desert:  
Its spell has made thrall of me.  
Where fair tall lilies grow;  
For me unbounded spaces  
Where only the great winds sow

Why do I turn from the groves  
And the acres of rippling wheat  
From shimmer of flowing waters  
From gardens ordered and sweet,  
For the wide expanse where dust  
devils dance,  
And the four winds hurtle and cry  
Through the great space, in the great  
light,  
'Neath the awful dome of the sky?

Softly the leafy shadows  
Move on the dewy sward,  
Out in the shadowless spaces  
The sunshine smites like a sword,  
Till the light is level and golden  
And the four winds are furled,  
While mountains aglow like jewels  
Ring an utterly silent world.

For you the thousands of man-made  
lights  
That twinkle and flare and glow;  
For me the desert skies at night,  
With the blazing planets low  
Down-swinging in space like chancel  
lamps,  
While as a fine dust of light  
Beyond all counting, the little stars  
Are strewn through the depths of  
night.

Fair is the ferny woodland,  
And sweet is the flowery sward;  
But still as of old in the desert  
Is the trust of the soul with God.  
Vast is the shimmering splendor  
And awful the arch of the sky;  
But I know, in the silence, naught  
here shall endure  
Save only my God—and I.

**The Morning Reporter**—The Raton  
Reporter expects to blossom into the  
Daily Morning Reporter shortly. It is  
raising the necessary fund by popu-  
lar subscription asking the dear pub-  
lic to subscribe to the stock. It is a  
good way, for it divides any loss  
among so many and no one will be  
particularly broke should the new  
venture give up the inevitable strug-  
gle that must ensue.

**Left Him at a Dance**—Alfredo Mas-  
carenas has been granted a decree of  
divorce from his wife, Gregoria Mas-  
carenas, by Judge John R. McFie. The  
couple reside in Wagon Mound. In  
asking for the divorce Mascarenas  
stated that his wife left him on the  
night of their marriage during the  
process of a dance and reception  
which was given in their honor. He  
says she refused to return to him al-  
though he made an effort to persuade  
her to do so.

**Juan Branch in Trouble**—Juan  
Branch is wanted in Albuquerque as  
soon as he finishes a sixty days' sen-  
tence at Las Vegas. Juan is said to  
have obtained \$100 under false pre-  
tenses from Ex-Sheriff Thomas S.  
Hubbell. Says the Las Vegas Optic:  
"Branch, several months ago, was  
sentenced to the city jail. While in  
the bastille he grew petulant and tore  
up as much of the furniture as he  
could lay hands on. His sentence was  
lengthened to sixty days and he cut  
it short by running away. He went  
to Albuquerque. When he returned  
to Las Vegas a short time ago he  
was dressed in fashionable clothing,  
which is said to have been purchas-  
ed with Hubbell's money. Marshal  
Ben Coles saw him and put him in  
jail to finish his previous sentence.  
A few days ago Branch, probably  
hearing that he was wanted in Albu-  
querque, made an attempt to run  
away. He is now decorated with a  
ball and chain. He will be turned over  
to the Bernalillo county officers at any  
time they desire to receive him."

### HOW'S THIS?

We offer One Hundred Dollars Re-  
ward for any case of Catarrh that can-  
not be cured by Hall's Catarrh Cure.  
F. J. CHENEY, & CO., Toledo, O.  
We, the undersigned, have known F.

Omstead, Le Roy, N. Y., Don't accept  
any substitute.

## MINOR CITY TOPICS

Denver, Colo., April 15.—  
Forecast for New Mexico:  
Fair tonight and not so cold  
with frost. Sunday fair with  
warmer weather.

**Baseball**—Santa Fe vs. St. Michael's  
College at College grounds, Sunday,  
2:30 p. m. Everybody who enjoys the  
national game, come out.

**Card of Thanks**—The manager of  
the Santa Fe ball club desires to ex-  
press his thanks to the patrons of the  
dance given at the Women's Board of  
Trade for the benefit of the ball  
team.

**Wants to Become Citizen**—Najeeb  
Malooof, a native of Turkey, has filed  
notice of his intention of becoming  
a citizen of the United States, with  
William H. Stapp, deputy clerk of the  
court for the fourth district. Malooof  
has lived in the United States for  
about twenty years, coming here with  
his parents when but a child.

**The Joys of the Census Taker**—  
"C. W. Hague, the taxidermist, will  
leave this evening for Catskill which  
will be his headquarters during the  
coming four weeks, while taking the  
census of the districts about Catskill  
and Vermejo Park. As he expressed  
it, he has resigned himself for a  
month to the mercies of agricultural  
schedules which require his acquain-  
tance with every chicken and goose-  
berry on his enumeration district."  
Raton Daily Reporter.

**Leo Kavanaugh Dead**—Leo Kava-  
naugh, a health seeker who came here  
some time ago from Washington, D.  
C. died yesterday at the age of 31  
years. He was unmarried. Mr. Kava-  
naugh came out here some time ago  
and remained a year, greatly improv-  
ing in health. He returned east but  
he found that the climate there did  
not agree with him. He came back  
to Santa Fe and for some weeks had  
been steadily growing worse. His  
father and two sisters, who have been  
here with him, survive him. They  
started for Washington at 4 o'clock  
this afternoon, accompanying the re-  
mains which will be interred there.

**18 Degrees Last Night**—If there are  
any orchards able to remember it,  
they could tell how the mercury drop-  
ped to 18 degrees last night while the  
smudge pots tried valiantly to come to  
their rescue. In other places where  
fruit usually thrives, the thermometer  
registered a much lower temperature  
and Jack Frost's icy hand laid low  
the young fruit. The weather yesterday  
was unusually cold and overcoats were  
everywhere seen. Snow flurries added  
to the winter picture and people won-  
dered if the calendars should not have  
announced December 15 instead of the  
middle of April. The maximum yester-  
day was 40 degrees and the mini-  
mum 22 degrees, while the relative  
humidity was 81 per cent. There was  
a trace of snow on the ground at 6  
p. m. yesterday and later it made a  
beautiful scene when the moon's soft  
rays touched the white canopy. The  
weather a year ago today was warm,  
the maximum being 71 degrees, there  
was 100 per cent of sunshine.

### One Conductor Who Was Cured

Mr. Wilford Adams is his name, and  
he writes about it—"Some time ago  
I was confined to my bed with chronic  
rheumatism. I used two bottles of  
Foley's Kidney Remedy with good ef-  
fect, and the third bottle put me on  
my feet and I resumed work as con-  
ductor on the Lexington, Ky., Street  
Railway. It gave me more relief than  
any medicine I had ever used, and it  
will do all you claim in case of rheu-  
matism." Foley's Kidney Remedy  
cures rheumatism by eliminating the  
uric acid from the blood. Sold by  
Stripling-Burrows Co.

sources and therefore free from adulteration of any kind.

**ZOOK'S PHARMACY**

## IT IS SERIOUS.

Some Santa Fe People Fail to Realize the Seriousness.

The constant aching of a bad back, The weariness, the tired feeling, The pains and aches of kidney ills Are serious—if neglected. Dangerous urinary troubles follow. A Santa Fe citizen shows you how to avoid them.

Mrs. Desideria J. de Quintana, College Street, Santa Fe, N. M., says: "Several years ago I used Doan's Kidney Pills, procured from Stripling, Burrows & Co.'s drug store and I was cured of a bad attack of kidney complaint. At that time a statement appeared in the local papers, telling of my experience and I now take pleasure in confirming all that was then said in favor of Doan's Kidney Pills. I had pains in my back that made it difficult for me to stoop and there were other troubles which plainly showed that my kidneys were at fault. Soon after I began taking Doan's Kidney Pills, an improvement was noticeable, and the contents of two boxes restored my kidneys to their normal condition also entirely removing the pain in my back. I am glad to say that during the time that has since passed, my cure has been permanent."

For sale by all dealer Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## TO AND FROM ROSWELL.

## ALL WOMEN HATE WAR

Mrs. Lucia Ames Mead Presents Cause of International Peace

## SUFFRAGISTS SHOULD BE ALERT

Addresses Delivered by Advocates of Women's Right at Washington Convention

Washington, April 16.—A long list of committee and state reports occupied much of the time of today's session of the National Woman's Suffrage convention.

## Will Appeal to Supreme Court.

Washington, April 16.—Mrs. Trimble-Woolsey, of Kentucky, whose grandfather and great uncle drafted jointly the first bill ever drawn on the American continent to secure to married women control of their property, declared before the convention that she intended to try to vote at the next election, and if restrained, to carry the question to the United States supreme court. Said she:

"It was not until after the adoption of the federal constitution that the states began to change the basis of representation from taxation to sex—a thing they had absolutely no right to do. But notwithstanding even the worst phase of the matter, the first constitutions of only three out of the thirteen original states used the word 'male' (Tennessee and Georgia coming in shortly afterwards) as a qualification for voting. Voters were only required to be freemen, twenty-one years old, which white women certainly were and freeholders, which women as owners of property certainly were, and to reside a certain length of time in the commonwealth. Thus, women are by right voters today in eleven of the eastern and southern states, as well as in the four Rocky Mountain states.

"Non usage has not forfeited this right to the ballot. Where duress or fraud have been perpetrated, ownership is not lost (women are prevented from the use of the ballot by duress and fraud) and the federal constitution besides strictly prohibits any state from taking away from any citizen a vested right.

"At the next election I intend to offer my vote and if it is refused, I shall take the case to the U. S. supreme court. Since women could vote as freeholders in the British colonies and as such under the first state constitution, I want to test as to whether this government protects the vested rights of women as well as its other class of citizens."

## International Peace.

Washington, April 16.—Mrs. Lucia Ames Mead, who will present the cause of international peace for the first time at the biennial meeting of women's clubs in Cincinnati in May, presented a report. During the last year Mrs. Mead had given addresses in six European countries and in six states. She said in part:

"While all women hate war, many are hoodwinked by the clamor of vested interests and the naval and military class into supporting the war system. When they read war scares they do not suspect, as Representative Tawney declares that these are due to the ship combine.

"Suffragists should be alert and informed of the greatest obstacle to their efforts. It is the increasing reliance on force at a time when substitutes for force have been provided, and in all consistency battleships should diminish.

"Given a republic that has never been attacked, that began every foreign war we ever had and has never lost but 15,000 men by foreign bullets, all told; given a country that has not an enemy and with whom probably no country would refuse to arbitrate, why should it be allowed to spend one-third of all its natural revenue on preparation for war?

"Women are conservative naturally. They should set their faces like a flint against the new, ambitious policy that would delude us into thinking our huge and costly navy is a national police. Police never fight each other; they take men to court. Navies fight each other and never aim to secure a judicial decision. An international police must replace rival navies. The American School Peace League will help the rising generation to see through the sophistries which are letting us permit our pockets to be picked, under the pretext that it is for national defense against real danger. Before the Third Hague conference in 1915, the women of the country shall wage a new campaign of education."

The annual meeting of the stockholders of the New Mexico Telephone Company will be held at its office, N. W. corner Plaza, Santa Fe, Thursday, April 21, 1910, 5 p. m.

Foley's Kidney Remedy will cure any case of kidney and bladder trouble not beyond the reach of medicine. No medicine can do more. Sold by Stripling-Burrows Co.

The New Mexican Printing Company has on hand a large supply of pads and tablets suitable for school work, the desk, and also for lawyers and merchants; good everywhere. We will sell them at 5 cents in book form.

## W. C. T. U. NOTES.

## AN OPEN LETTER TO CATHOLICS AND OTHERS.

(From the Colored Harvest.)  
Published in the Lake County Independent, Libertyville, Ill.  
Tampa, Fla.

To the Independent:

I am more delighted than I can express in words that the enterprising, intelligent, prosperous business men and farmers of Libertyville township have formed themselves into a working league to close the saloons. I want to be with them heart and soul in this work. The first thought that comes to my mind is, how can any intelligent man or woman in the United States of America, want a saloon in his township or state. What good do they do, and what harm do they not do? I am a Catholic. I became one when I was twenty-five years old, after much study and thought from a bigoted Puritan. It is to those of my faith that I would speak particularly, because I like them, and because they should be better than other people on account of the superior light and instructions they have to guide them. When I see fine young men of good parents whom I knew as babies in mothers' arms, coming down my road drunk, staggering, grinning and jeering, with countenances like idiots or demons, how do you think I feel? I am a humanitarian and love my fellowmen. Or may be it is an old man without a fortune now, staggering or driving along the street, or lying on his face by the roadside.

Say, Mr. Independent, how do you think I feel? I have a heart. Old and young, images of God, Catholics, my brother Catholics and brother men, made paupers and idiots and fiends by what? Where are the farms of some of them gone, and where are more of them going, and where are some of the men I have known? In their graves and in poor houses and insane asylums. I know some will tell you I have helped them, and more will tell you I have tried to help them and failed. I want to help them now, and it is my business by command of God to continue to try to help them till I die, and I shall try and am trying now. Brother Catholics, will you join me in suppressing the cause of all this misery and sin? Your church teaches you that getting drunk is a mortal sin. Never mind the saloon keeper. I am not talking of him. I am only talking of crime and sin and ruin of good men and boys and deprecating of property and increasing taxes. Will you not join me? How much more means would you have, and how much better men would you be, and how much more could you do for your wives, mothers, children and fathers if you had never spent a dime for drink? Figure it up. What has it done for you more than make a beast of you, and leave you poor and disgraced. I am striking straight from the shoulder. I know all about it. I have been a fool, drunk as you older ones know. I regret it as the black spot and great sin and lost opportunity of my life. No man who drinks is the man who he would be if he did not drink. Friends and brothers, join me in this effort to stop drinking and drunkenness.

Indulge me a little further, Mr. Independent; do you think that drinking saloon men can build up a town better than men who do not drink? I know all about this too. They can't do anything better, or so well. Do you think Kansas could grow ninety-nine million bushels of wheat and two hundred and thirty million bushels of corn the same year and become the first agricultural state in the union if she had not stopped manufacturing and selling drink, and her people stopped drinking intoxicating liquors? I opposed that law out there till I saw how it worked, and since have worked for its enforcement. That law has made me a lot of money without much labor or attention, and made thousands of men rich and happy. Kansas—she has fought this battle alone, and has been lied about by distillers, brewers and their agents and the power of their money for over thirty years. But "truth is mighty," and now see how the Anti-Saloon wave is spreading over the country. All the states want to be prosperous like Kansas, and their people want to be sower and happy like Kansas people. Do you want to make a ten thousand suburb out of Libertyville village, the finest site near Chicago? Then get in seven more saloons and line the streets with staggering drunkards and you will do it sure. Good, useful, successful men of means go to saloon towns? They like the examples and spectacles saloons make for their sons and daughters? They would like to pay the fixed charges saloons impose on their estates? Do you think you are saving money and building up a city and making the farm land more valuable by running and taxing saloons? I know that there are men in Libertyville who claim to be temperance church members, who vote for saloons for the purpose of avoiding taxes. They are worse fools than my Catholic brothers, and hypocrites besides. They increase taxes to pay for the police and poor house, and insane asylum and state prison and criminal court charges, and by voting that saloon tax, do not see that they increase their tax thereby. They are meaner than my Catholic brothers. Oh, I know all about this, too; I make money in Libertyville, and

## BEDRIDDEN WITH ECZEMA SIX WEEKS

Itching, Burning Eruption from Head to Foot—Doctor Gave Her Up Entirely—First Application of Cuticura Brought Relief and Sleep.

## CUTICURA REMEDIES EFFECT PERFECT CURE

"Four years ago I suffered severely with a terrible eczema, being a mass of sores from head to foot and for six weeks confined to my bed. During that time I suffered continual torture from itching and burning. After being given up by my doctor I was advised to try the Cuticura Remedies. After the first bath with Cuticura Soap and application of Cuticura Ointment I enjoyed the first good sleep during my entire illness. I also used Cuticura Resolvent and the treatment was continued for about three weeks. At the end of that time I was able to be about the house, entirely cured, and have felt no ill effects since. I would advise any person suffering from any form of skin trouble to try the Cuticura Remedies as I know what they did for me. Mrs. Edward Nanning, 1112 Salina St., Watertown, N. Y., April 11, 1909."

## Cuticura Soap

Soothing, Cooling, Refreshing for Tender Skins.

Because of its delicate, emollient, nutritive, antiseptic properties derived from Cuticura, united with the purest of saponaceous ingredients and most refreshing of flower odors, Cuticura Soap is unrivaled for cleansing, preserving and purifying the skin, scalp, hair and hands, for dispelling itching, irritation and inflammation and preventing clogging of the pores, the cause of many disgusting facial eruptions. All who delight in a clear skin, soft, white hands, a clear, wholesome scalp and lustrous hair, will find that Cuticura Soap realizes every expectation.

Cuticura Soap (25c), Cuticura Ointment (50c) and Cuticura Resolvent (50c) for in the form of Chocolate Coated Pills, 25c per box of 60 are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., 125 Columbus Ave., Boston, Mass.

32-page Cuticura Book, mailed free, giving description, treatment and cure of skin affections.

would make more if these saloons were not running, thereby increasing my taxes and depreciating my property, unlike it is in Kansas. Then how any man in Libertyville can be indifferent to the misery I have seen drink make in that little town. Shame, shame on a property owner who will see a man made a drunkard and take money from his needy family to have himself a little tax money, even if he could do it. If he has no feeling for the brother man and suffering family, does he not fear God who knows him? May God help him if I can't, to see things as they are. My friends in Libertyville township, now is the time to help your children and grandchildren if you don't care for yourselves, and to build up Libertyville village and its people, and increase the value of your farms and lower your taxes. Don't miss it by voting on the wrong side.

C. C. COPELAND.

Rheumatic poisons are quickly and surely driven out of the blood with Dr. Shoop's Rheumatic Remedy—liquid or tablet form. Dr. Shoop's booklet on Rheumatism plainly and interestingly tells just how this is done. Tell some sufferer of this book, or better still, write Dr. Shoop, Racine, Wis., for the book and free test samples. Send no money. Just join with Dr. Shoop and give some sufferer a pleasant surprise. Sold by Stripling-Burrows Co.

## PUMPING BY ELECTRICITY, IN LUNA COUNTY.

Water Will Cost Not Quite a Cent Per Thousand Gallons—Motor is Being Installed.

Deming, N. M., April 16.—J. M. Williams just ordered for immediate installation a twenty-five horse power direct connected electric vertical motor to pump his big irrigating well five miles southwest of town. The power is to be furnished by the Deming Ice and Electric Company, who are to build the transmission wires and install the motor. Under this installation, the water will cost nearly a cent per thousand gallons. The Deming Ice and Electric Company now have the specifications for their new installation of four hundred horse power capacity which is to take care of the various irrigating wells in the vicinity of Deming. There is a general feeling among the farmers that this does away with the difficulty of getting their water on top of the ground which is encountered when the individual engine is the source of power. T. D. Smith of the Wagner Electric Company is here superintending the erection of the transmission wires and the installation of the motor.

## Watch for the Comet

The Red Dragon of the sky. Watch the children for spring coughs and colds. Careful mothers keep Foley's Honey and Tar in the house. It is the best and safest prevention and cure for croup where the need is urgent and immediate relief a vital necessity. Contains no opiates or harmful drugs. Refuse substitutes. Sold by Stripling-Burrows Co.

## OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## THE SANTA FE COURT HOUSE BONDS.

The New Mexican is in receipt of the report of Senator Beveridge on the statehood bill. Its forty closely printed pages offer much of interest, but nothing new on the question. The report is a defense of the Senate bill but throughout it is apparent that Senator Beveridge's enthusiasm for statehood is not a consuming desire. The New Mexican will refer only to his statements on the railroad and court house bonded indebtedness of Santa Fe county and particularly the latter, which indicate the oblique reasoning of the Senator who holds in the palm of his hand the destiny of more than half a million people. The report says:

"First, as to the payment of the bonds of Santa Fe and Grant counties, of New Mexico, for which alone the Senate bill provides: In 1870 the people were induced to vote extensive aid to the building of a railroad through said counties. Although the bonds thus voted were plainly invalid, they were nevertheless issued, bought by bona fide purchasers, and the railroad for which they were issued was constructed and has been in operation ever since.

"This railroad was of great benefit to other parts of the Territory as well as to these two counties, because at that time the Indians were very troublesome, and the government troops could be hurried to the scene of hostilities over this railroad at a saving of many days and sometimes weeks of time. So while the bonds were invalid legally, they were purchased in good faith, and the people received the consideration for them.

"For a very brief time the people of these counties paid the interest on these bonds; but when one suit, hereinafter referred to, was brought to test the validity of similar bonds issued by certain counties of Arizona, the people of the New Mexico counties refused to pay further interest on their bonds, and have not paid any interest on them since—not even after Congress, by special act, made said bonds valid. No reason was given for not paying the interest on these bonds—but authorities merely refused to levy taxes to pay them.

"Therefore the debt has grown until at the present time it is almost \$1,000,000. Full history of these bonds is given in the testimony of ex-Governor Prince, pages 9 to 13, inclusive, of the hearings before the committee on territories, the testimony of Charles A. Spiess, pages 13 to 25, inclusive; the statement of Bird S. Coler, pages 25 to 27, inclusive, and the statement of N. B. Laughlin, pages 28 to 35, inclusive.

"It is a curious circumstance somewhat connected with this, the refusal of the people to pay even interest on the above-named debt, that in 1884 Santa Fe county, New Mexico, issued bonds to build a court house.

"These bonds were bought by bona fide purchasers, and with the proceeds the court house was built and is being used to this day, and the validity of these court house bonds never has been questioned and can not be. Yet the people have refused to pay a cent of the interest on these bonds although they were admitted to be valid, and the people received full consideration therefor and are enjoying the proceeds thereof. Judge Laughlin, in his statement before your committee, when asked why the people refused to pay any interest on these, admittedly legal and valid bonds with the proceeds of which the court house was built, answered:

"I have no apology to make for them. They simply would not pay them; that is the truth, and the truth is what you want. (Pag 31, Statehood hearings before committee on territories.)"

As a matter of fact, the issue of the court house bonds was as illegal and as invalid as that of the railroad aid bonds. No one has admitted their legality. At first, only an issue of \$55,000 of court house warrants, they were converted into bonds and refunded with accumulated interest. The first issue was in contravention of the Springer act which limits the indebtedness that any county of the territories may assume to four per cent of the assessed valuation. The court house warrants as well as court house bonds were in excess of that limitation. Congress validated the railroad bonds but not the court house bonds, which were issued at a later date. Santa Fe county can interpose not only every defense it has made against the railroad bonds, but the holders of the court house bonds do not have the plea of a validation by Congress to back them. Santa Fe county, the New Mexican believes, has no intention of repudiating those bonds, excessive though they may be and illegal as they

were in their conception. If the railroad aid bonds are paid by Congress as they ought to be, for Congress saddled them on the county, then this county will be in a position to treat with its other creditors and will pay not only the absolutely legal indebtedness but also such indebtedness as it morally ought to meet. Thus far, however, it has been absolutely impossible to pay these debts. To compel their payment would have meant confiscation, not only of property which existed when the debt was created, but also of property that has come into existence since and had as little to do with the incurring of the debt as the man in the moon. But Senator Beveridge ought to remember, that if there is a defense to a demand for payment of interest on the railroad aid bonds there is certainly a much more forcible and valid defense to paying interest on the county court house bonds.

## LAS VEGAS AND THE CENSUS.

The Commercial Club of Las Vegas has decided to follow the example of the Albuquerque Commercial Club, the Roswell Club, the Carlsbad Club and other wide awake civic organizations in progressive towns and will take a census independent of but in co-operation with the government census. It is a good idea. At the same time, the Commercial Club of the Meadow City will seek to obtain the consent of the director of the census, to have all of Las Vegas appear in the returns as one community, a praiseworthy suggestion, that the census supervisor will take pleasure in recommending to the Washington authorities for adoption, but which the fears will not be granted. Santa Fe, Las Vegas, Albuquerque and other towns should have consolidated. Says the Las Vegas Optic:

"For determining quickly and accurately the population of Las Vegas and vicinity, the Commercial Club has decided to appoint a board of enumerators which will work in conjunction with the enumerators engaged in securing information for the United States census. Such action was decided upon at a meeting of the directors of the club last evening. It was deemed by the club of high importance to have the exact population known and its enumerators will endeavor not to allow a single resident to escape being recorded. The enumerators will also obtain some of the information desired by the government but will not utilize nearly the entire list of questions submitted to the people by the takers of the government census.

"It was also determined to recommend that the total population of the town, city and village of Las Vegas appear in the census returns under the head of Las Vegas. This will bring Las Vegas well into the first rank among the cities of the territory. In the census of 1900, when the returns were made separately, Las Vegas did not make nearly so good a showing as it will under the proposed plan. George A. Fleming, secretary of the club, has taken up the matter with the census supervisor and probably will secure his consent to such an arrangement."

Speaking on the subject of the census, the Albuquerque Journal says:

"The local force of enumerators is a sample of the good judgment displayed in their selection throughout the Territory. They are intelligent men who know the city thoroughly.

"Estimates are being made that the census in the city limits will be between 12,000 and 13,000. A good index to the increase is postoffice receipts and it is understood the latter have increased something like 170 per cent since the last decennial census which showed some 7,000 people in the corporate limits of Albuquerque. The local enumerators held an experience meeting last night in the Commercial Club building. Retiring Secretary W. F. Brogan is turning the census work over to his successor after giving it a good start and the new secretary, T. J. Naylor, is taking hold of the job vigorously. The enumerators at last night's meeting reported flattering success and little real trouble was encountered during the first day's work.

"That the figures will be detailed, needs only a glance at one of the forms carried by the enumerators. It gives a man brain fag just to look at one of them.

"The census of New Mexico this time bids fair to be the most accurate ever undertaken. The counting of the Indians will be unusually correct through the efforts of special agents Samuel E. Day for the Navajo reservation; Elmer Marsh for the Pueblos, Utes and Apaches, and George V.

Newton in charge of the census of mines and manufactures. The cost of this census in New Mexico. It is estimated will be about \$100,000.

"The press and public generally have been co-operating enthusiastically in the work. While there is always a percentage of error to be reckoned with, it will be reduced to a minimum this year."

## FLIES INJURE THE CROPS.

Much has been written and printed of late about flies as a menace to human health. But not a word has been said about the damage they do to cultivated crops, which, in this country must amount to scores of millions of dollars annually, says the Technical World Magazine.

Nearly all diseases of plants are due to fungi usually microscopic. Of such character, for example, are the "smuts" of wheat and other grains, the "mildews," the "rusts," and all the long list of fruit "rots" of various kinds. These and ever so many other vegetable maladies are attributable to minute fungi which feed upon the plants.

The fungi in question are distributed in a number of ways, but commonly by flies—that is to say, by the Muscidae and Sarcophagidae, or, in other words, the house fly, and its relatives, and the carrion flies. Those insects feed on almost everything imaginable, and, constantly flitting from place to place, are the universal distributors of the "spores" (corresponding to seeds) of all kinds of fungi.

Flies are extremely fond of odors. Some that are horrible to us are most agreeable to them. They are attracted to the cane fields by the smell of fermenting sugar, and there feed on the sweet sap. Thus it comes about that spores of the fungi that cause the common diseases of the cane are found in the excreta of flies caught in the cane field. The "pineapple disease" is only one of a number which they are instrumental in distributing.

It must be remembered that low as is the eleven mill tax levy just made by the Territory, exactly one-half of it goes to the support of the territorial institutions including the penitentiary, the insane asylum, the deaf and dumb school, the three normal schools, the School of Mines, the Miners' Hospital, the Agricultural College, the Military Institute, the Reform school, etc., while only four mills are for territorial purposes. Where is there a state that on a fifteen to twenty per cent assessment valuation, with a liberal exemption for every poor property owner, that can get along on a four mill levy for all its current administrative expenses, salaries and incidentals? Surely, New Mexico is economically governed and twelve years of Republican financial management have placed it on a sound footing and have established its credit in all money centers.

Uncle Joe Cannon gives no new advice when he says that the best recipe for happiness and health is work, work, work with hands, feet and brain. Those deluded individuals who hope to find that trinity of good things, health, happiness and sound old age in chasing pleasure, or the Al-mighty dollar, or in idleness and luxury, are on the wrong track, a track that leads to nervous break downs, ill health, unhappiness. It is a pity that man has but one life to live on this earth for those on the wrong track do not believe Uncle Joe until they have reached their destination when most of them would like to live life over again to find out whether after all men like Cannon are not right when they maintain that unless man finds happiness in his work he will never find it anywhere else.

Raton is to have a morning daily. Two daily papers have gone up the flag in the Gate City the past twelve months. One of the other two will have to follow. It is fate; it is inevitable. A one newspaper town cannot support two dailies. There isn't a town in New Mexico that can support two dailies. Even Albuquerque does not and never has. It's all a matter of mathematics but nevertheless the men who are learning this by experience are increasing every year.

When the weather man makes a mistake as he did this year in New Mexico, giving us April weather in March and then correcting his error by letting March wind, snows and frosts loose upon the unhappy community in April, the fruit and garden interests are apt to suffer. According to telegraphic advices, the fruit crop in the Mesilla and lower Pecos valleys has been greatly damaged and wiped out and in the Santa Fe valley, it is only the later blossoming trees that will have a full crop.

The New Mexican wishes it could speak of Santa Fe as the Raton Reporter speaks of the people of the Gate City in the following editorial: "It is a pleasure to note how many of our citizens are busily employed at cleaning and beautifying their home places. 'Beautiful Raton,' in a large degree, is just a matter of everyone doing their utmost to improve their own immediate surroundings. It is delightful that so many of our good people have caught the idea."

The number of school districts in Quay county has in two years increased from fifty to one hundred. Ten years ago, the entire county was without a school house. New Mexico is certainly growing for Quay county will be very near the top of New Mexico counties in the census returns.

Help the census enumerator. Smile on him and be good to him. He is doing the nation's work and is doing it for comparatively little pay and less glory.

# Plays AND Players

"A Stubborn Cinderella," which will be the attraction at the Elks' theatre Wednesday night is a musical comedy a product of Chicago, where it holds the long run record. The production offers Homer B. Mason, who heads the cast, many opportunities to show his ability. Miss Carolyn Lilja has the role of a young woman whose life has been so protected that she is innocent of matters that are of common knowledge. Mr. Mason is seen as a lively young blade in a swift college town. Musically the piece is of high quality

with several rattling good songs and choruses. Miss Lilja as "Cinderella" is captivating, and Mr. Mason gets all that is possible out of the role of the rapid college youth. The chorus comprises forty beautiful girls who can sing, act and dance. It requires a special train of three baggage cars, one coach and two sleepers to transport this organization. The company's stage crew alone comprises eight skilled stage mechanics, electricians and property men.

The seat sale opened at Fischer's drug store this morning.

MISS CAROLYN LILJA.

Prima Donna Comedienne in "A Stubborn Cinderella" Which Will Be Presented at the Elks', Wednesday Night.

## MEXICO TO BE AT DRY FARMING CONGRESS.

Government is Working Out Plans for the Practical Education of Its Tillers of the Soil.

Spokane, Wash., April 16.—Mexico will be represented at the fifth session of the Dry Farming Congress and the International Dry Farming Exposition in Spokane the week of October 3, according to advices received by John T. Burns, secretary of the organization. Modern tillage has been taken up in various parts of the republic and the government is working out plans for the practical education of farmers in that important branch of agriculture.

The department of fomento has sent instructors on dry farming into various districts in the state of Oaxaca and a large acreage of the lands on the high slopes and away from the water courses will be brought under cultivation this year.

Dry farming as a practical system of agriculture was brought to the attention of the Mexican government by Senor Don Romulo Escobar, president of the Escobar School of Agriculture at Ciudad Juarez, former international vice president and corresponding secretary of the Dry Farming Congress. Dr. Escobar attended the third and fourth sessions of the congress and gave detailed reports of the conditions in the agricultural sections of Mexico. He called attention of his government to the work of the Dry Farming Congress and interested the officials of the Mexican department of agriculture in bringing dry farming methods before the Mexican farmers.

The Dry Farming Congress this year is represented in Mexico by Sr. Ing. Lauro Viadas, chief of the agricultural section, department of fomento, international vice president of the Dry Farming Congress and Sr. Ing. Federico Atristain, of the agricultural section, department of fomento, international corresponding secretary of the congress. Both are keenly interested in the work of the congress and favor sending delegates and an exhibit of Mexican dry farmed products to Spokane next October.

Dry farming methods have been tried in the states of Oaxaca, Chihuahua, Nuevo Leon, Coahuila and else-

where. One of the large ranches on which dry farming has been practiced with success is operated by the Greene copper interests at Cananea, in Sonora. Luis G. Guerra, a prominent ranchman in Nuevo Leon, recently wrote in a letter to Secretary Burns:

"Dry farming in the northern part of this state as well as a portion of northern Coahuila, will have a great impetus among the farmers this year and several large planters have planned to put the process to the test. A number of them tried it last year and obtained fairly good results. They are determined to test its merits this year on a much larger scale. On corn and beans, I got good results from the process last year, and I must say that had it not been for the use of the methods of preparing the soil and cultivation of the crops I would have raised practically nothing. I heartily endorse the methods of dry farming for this section, or, in fact, wherever irrigation cannot be obtained."

### The Sound Sleep of Good Health

The restorative power of sound sleep can not be over estimated and any ailment that prevents it is a menace to health. J. L. Southern, Eau Claire, Wis., says: "For a long time I have been unable to sleep soundly nights, because of pains across my back and soreness of my kidneys. My appetite was very poor and my general condition was much run down. I have been taking Foley's Kidney Pills but a short time and now sleep as sound as a rock. I eat and enjoy my meals, and my general condition is greatly improved. I can honestly recommend Foley's Kidney Pills as I know they have cured me." Sold by Stripling-Burrows Co.

### LETTER LIST.

Good results always follow the use of Foley's Kidney Pills. They give prompt relief in all cases of kidney and bladder disorders, are healing, strengthening and anti-septic. Try them. Sold by Stripling-Burrows Co.

The old fashioned way of dosing a weak stomach or stimulating the Heart or Kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments—the weak inside or controlling nerves. It isn't so difficult says Dr. Shoop, to strengthen a weak Stomach, Heart, or Kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fail, then those organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days, and see! Improvement will promptly and surely follow. Sold by Stripling-Burrows Co.

## CHURCH ANNOUNCEMENTS

(Continued From Page Five.)

Mrs. E. C. Abbott entertained the Saturday Bridge Club at her home on Cerrillos street this afternoon. At an extra table the game of five hundred was played. Besides the members of the club the following guests took part: Mrs. Rolis, Mrs. Walter, Mrs. Mallison, Mrs. Nuding, Mrs. Davies and Mrs. Fischer.

Mrs. William J. Mills entertained a few friends at luncheon Wednesday at the executive mansion. The table decorations were in red and were most artistically arranged. Covers were laid for twelve. The guests were Mrs. A. Menett, of Las Vegas; and the following ladies from this city: Mrs. Jaffa, Mrs. McFie, Mrs. L. Bradford Prince, Mrs. Harroun, Mrs. Brooks, Mrs. Rapp, Mrs. Sloan, Mrs. Spitz, Mrs. Garrett and Mrs. Ervien.

**Minor City Topics.**

(Continued From Page Two.)

**NOTICE**—Typewriter ribbons 50c, satisfaction or your money back. Carbon paper as low, same guarantee. Stripling, Burrows & Company.

**The Ladies Aid**—The Ladies Aid Society of St. Johns M. E. church will have a called meeting at the home of Mrs. Windsor, Monday, April 18th, at 2:30 p. m.

**Salmon Grays Organized**—The Salmon Grays base ball team has been organized for the season of 1910 with W. H. Kerr, manager and George Parsons captain and F. Blandy, treasurer. The first game of the season will be played Sunday afternoon at the ball park with the Indians. Dr. Thomas McCarthy and James Lopez will likely pitch and George Parsons will catch.

**Do Not Miss the Lecture Tonight**—Professor Pattengill has taken the town by storm. His lecture tonight, which is free, should fill the high school auditorium. The High School Glee Club will sing. The drill this forenoon by the physical culture class under Miss McGibben, was a revelation and Professor Pattengill praised it highly. He will touch upon manual training in tonight's lecture.

**Valuable Addition to Public Library**—The Woman's Board of Trade has just placed in the reference room of the public library, eight volumes which will be of great interest to persons caring for archaeology. They are finely illustrated and are compiled by such noted authorities as Jesse Walter Fewes, Cosmos Mindeleff, Walter Hough, Washington Matthews, Garrick Mallery and Matilda Cox Stevenson.

**New Santa Fe Pamphlet**—Paul A. F. Walter for the publicity committee of the Board of Trade today finished

the manuscript for the new Santa Fe pamphlet and with a large number of photographs sent it to Colonel R. E. Twitchell at Las Vegas, through whose efforts the Santa Fe Railway Company has consented to publish a first edition of 25,000 of the pamphlet which will be the nicest thing of its kind that Santa Fe has ever had.

**They Ran Out of Oil**—Behold, there is sorrow today among early fruit raisers. It all came about by failure to put in a large supply of oil to feed the smudge pots. One owner of an orchard had worked many hours late at night and early in the morning and had put Jack Frost to rout until last night. Then it was found there was no more oil and today the orchards are not exactly a joy to behold. It is said, however, that some men in and near Santa Fe had lost their crops two or three seasons and have an ample supply of oil to fight King Frost. What luck they have had remains to be seen.

**Noted Educator Goes to Chicago**—J. Nelson Fraser, the Oxford graduate and head of the big English normal school in Bombay, India, left at 4 o'clock this afternoon for Chicago where he will spend several weeks before going to Harvard University. Mr. Fraser said before leaving, "I regret exceedingly to leave Santa Fe for I feel sure that in leaving this ancient and wonderful city I am leaving the romantic spot of America." Mr. Fraser said that this was the coldest weather he had encountered since he started over two years ago to tour the world, but he admitted that he had spent most of his time in tropical lands.

**BIG LAND SYNDICATE IS ORGANIZED.**

(Continued from Page One.)

tation in its strictest sense for the land instead of being held for gradual demand and for posterity at a nominal price or as free grants would be the object of private control and all which that condition implies.

Whether it will be possible to carry through this gigantic scheme is still an unsettled question for a great deal of opposition on the part of the same Latin-American statesmen will have to be met yet. The concession asked for in Mexico is as yet subject to the action of the Mexican congress and is liable to be defeated in the end. An act of that body dated December 18, 1909, may have been somewhat of an anticipatory move for it withdraws from the market all public lands until all surveys have been rectified by a competent commission.

**STATE WITNESS ILL WITH APPENDICITIS.**

Kansas City, April 16.—On account of Dr. G. T. Twyman, state witness, being stricken with appendicitis and

it being impossible to tell his exact condition today, the Hyde trial will be continued until Monday.

An operation was performed on Dr. Twyman today. He passed through the operation successfully. In the event of his death before Monday, the case will go to trial immediately. If the illness is lingering the state may ask the jury to be dismissed and the case continued indefinitely.

**BLIZZARD IN MIDDLE WEST.**

(Continued From Page One.)

startled population believed that April had reverted into February and people were just preparing to fire up the furnaces when the sun came out again the snow melted in about five minutes and it was again spring time. It was a sensational bunch of April weather while it lasted. Reports from Gallup say there was snow. The Sandia and Manzano mountains yesterday showed more snow than at any time since mid-winter.

BEARS NO ILL WILL.**

Chicago, Ill., April 16.—Campion Jack Johnson says he bears no ill will toward Jeffries and to show that he is in earnest he sent a telegram last night in which he wished Jeffries many happy returns of the day, it being Jim's 35th birthday. "I have only the highest regard for Jeffries as a gentleman and fighter," said Johnson. "If I beat Jeffries on July 4th, I will be the first one to help him to his corner, and if he beats me, I will be the first to congratulate him."

**Gloom Lifted From Camp.**  
Ben Lomond, Calif., April 16.—While James Jeffries was playing baseball in the training camp today, he received word that his wife had undergone a surgical operation at Oakland hospital, and the camp lost its air of gloom which had prevailed since Mrs. Jeffries left. It is expected that with this worry over the training of the big fighter will now proceed with better order.

# THE BIG STORE

**YOU'LL BE DISTINGUISHED FOR YOUR WELL-DRESSED APPEARANCE IN ANY COMPANY YOU'RE SEEN IN, IF WE PUT the clothes on you. We have the styles here that you want; they're such clothes as you don't find any where else in this town. They're made exclusively for us by HART SCHAFFNER & MARX**

and that's all the argument you ought to need. These are about the only clothes now that you can depend on to be strictly all-wool; and that's important to you to know if you consider it important to get value for your money.

We advise you to be sure of all-wool in your clothes; we're pretty certain if you once determine that you must have that quality, you'll come to us for your clothes.

**New Fabrics, Models, Patterns in Spring Overcoats & Suits**

This new season is a lively one in the variety of weaves and patterns we can offer you. Grays seem to lead; plain grays, checks, stripes; plaids, all sorts of mixtures; also many new browns and tans, and a big range of good blues in all patterns. You'll find something good to fit your taste and your ideas of style.

The Spring overcoats are also exceptionally interesting. We have many new models to choose from; some very smart new fabrics that will please you. **SUITS, \$20 to \$50 OVERCOATS \$16.50 to \$40.**

We ought to tell you something more about our new hats for Spring; some new blocks that make taste and head-fitting easier than ever.

In fine neckwear also the variety is almost bewildering; the only man who can't find neckwear to suit him in our stock is the man who doesn't wear a necktie at all.

Fine shirts, fine hosiery, gloves  
Spring and Summer underwear;  
we can supply any man with the  
things he wears, as fine as you  
want.

This store is the home of Hart  
Schaffner & Marx clothes.
