Peace reigns in the political circles of Grant county.

The Williams News is the best weekly paper in Arizona.

The A. P. A. is putting a big figure in Kansas City politics.

This is a republican year. Let the voters of Albuquerque keep it that way.

The republicans have managed the and school affairs in a creditable way.

The Pullman Palace car company should be forced to pay more taxes in New Mexico.

From a while McKinley had things all his own way, but the other boys seem to be having their things now.

The city republican primaries will be held this evening in the several wards. See our list of this paper.

A co-operation has been made by the Fair association and it is now for the September it will be strictly a question of work.

Another election school board can be secured by electing the two nominated at the primary meetings last Saturday night.

There will be no spring term in this city. The plan is to suspend every thing in that line at the term in September.

In the democratic relations are earnest in their demand for reforming things, they are invited to vote the republican ticket.

Efficient selections for numerous members of the school board could not be found from those nominated at the ward primaries Saturday evening.

The republican nominees for aldermen will all be elected, and they will continue the economical policy that has been practiced by the present administration.

Mexico as well as ourselves has a presidential election this year and it is not hard to find a candidate who is as good as a Republican will not be re-elected here.

New Mexico is no less big as New Mexico and Mr. Roosevelt will be re-elected that he will need a few votes from "our west" to secure the presidential nomination.

The assignment of L. A. B. Blum, at Salt Lake, is one of the heaviest failures that ever occurred in the southwest. It is thought the liabilities will reach \$200,000.

Grant county all travelers are to be taxed for taxation. There are several hundred Mexicans in use in the city and county and up to date they have escaped taxation.

It is always good politics, and especially in presidential years, for the republicans to hold themselves in line and keep the party organization up to the standard.

This thing that troubles the Spanish government now is not so much whether it can hold Cuba as whether it can hold Spain. There are signs of a break away everywhere.

This convention to nominate the democratic candidate for congressional delegate will probably be held in the city, and the chances are favorable that an Albuquerque man will be nominated.

This president has appointed Mr. Gallagher, of Idaho, to the office of Indian agent in Oregon, and now, says the San Francisco call, all the Oregonians who believe in the principle of local men for local offices will be rising up and advising Mr. Gallagher to let her go.

Deaf making has always been the policy of every democratic administration this city has held except that of Mayor Field. Deaf paying has been the policy of the present republican administration. We can't afford to return to the policy of extravagance at present.

As to Great Britain's alleged disposition to assist this country in securing the recognition of Cuban belligerency, there is a suspicion that Great Britain would recognize the belligerency of anything or anybody if a responsible nation like the United States would guarantee the bonds.

The republican primaries were held last Saturday evening for the selection of delegates to the city convention. In most of the wards candidates were nominated for aldermen and members of the school board. The parties selected are most excellent men and will be endorsed by the people at the polls.

SEVERAL THOUSANDS of dollars since he has been in office he has obtained \$125,112 in gold in exchange for silver dollars, and yet John Sherman says silver will not circulate and that as soon as it is paid out it goes right back into the treasury. These two great financiers and gold monopolists should get together.

The Ohio theater bill, which has passed one house of the legislature, provides that women shall not wear high hats but the amendment prohibiting men from taking drinks between the acts was disagreed to on the ground that the high hats are the cause of taking the drinks, and that removing the cause will remove the effect.

Who never heard of any democrats who ever wanted a non-partisan ticket as long as there was hope of electing a democratic ticket. It is only when they are in a hopeless minority that they talk about "rising above party" and the party they want to "rise above" is always the republican party. The non-partisan contrivance is geared to work only one way.

The people of Montfort, Iowa, met the other day and adopted resolutions directed to Gov. Drake, asking him to make his daughter, Miss Mary Lord Drake, to use water instead of wine in christening the battleship Iowa at Philadelphia today. The country press of the state has endorsed the idea. No use wasting a bottle of good wine in that way, when water will do as well.

POLITICAL.

In the senate the other day, Mr. Brice of Ohio and New York, at the instigation of our governor, whom he has evidently forgiven and taken to his bosom, denounced the provision in an appropriation bill for the meeting of our next legislature in May, 1907. Instead of in December, 1906, as "political." We suppose that this was intended to carry with it some implication of moral turpitude on the part of our delegate, Mr. Cannon, and a corresponding moral superiority on the part of Hamilton and Brice. But we were so filled by the excellence of the moral standards of William and Calvin, that we ignore Mr. Cannon and his friends and feel no shame in admitting that the provision in question is "political" in the proper sense of the word.

All of the republicans of New Mexico and a large portion of the democrats ward the change so that the present legislative session of Santa Fe can have nothing to do with the organization of the next legislature. In 1907 the republicans elected a clear majority of both houses and yet the secretary of the territory, a democrat and elected by other officials of like exalted moral natures, such as the governor, the surveyor general, the postmaster at Santa Fe, and others, indignantly changed that majority into a democratic legislature. No, indeed, with respect to democratic could be found to defend this action, and every intelligent democrat would, with alarm, be apprehended to bring his party into disrepute. Is it not a "political" act to prevent a republican, if this session, and we know it will be repeated if the same men are still in power when the next session assembles.

The public may have forgotten exactly what was done before, and we will not undertake here to recall a list of the more profitable of these crimes against the people.

After the election of the federal senate in 1904, the republicans of Santa Fe and after the passage of the election returns had been completed and the result certified by the board of canvassers and after the board had become final, the democrats, by the use of their influence, had secured the election of the board of canvassers, and after the board had become final, the democrats, by the use of their influence, had secured the election of the board of canvassers, and after the board had become final, the democrats, by the use of their influence, had secured the election of the board of canvassers.

Under the act of congress the secretary has the exclusive control of the organization of the legislature, and this is the way he discharged his duty.

He put on the roll of the senate, Agapito Alvares, as member from the first district, and administered the oath of office to him, although the returns in his office showed that said Alvares had not been elected, and that his republican competitor, A. C. Alvares, had been duly elected.

He put on the roll of the senate, as a member from the eighth district, one George W. Miles, a democrat, and swore him in, although the regular certificate of election was held by J. A. Alvares, a republican, and the returns on file in the office of the secretary showed the fact that Alvares had been duly elected.

He refused to recognize or swear in Mateo Lujan, a republican, as a member of the house from Union county, although Lujan held the only regular certificate of election from the board of canvassers of that county, and the returns on file in the office of the secretary showed the fact of his election.

He refused to recognize or swear in George W. Cook, a republican, as a member of the house from Colfax county, although Cook held the certificate of election from the board of canvassers of that county, and the returns on file in the office of the secretary showed the fact of his election.

He refused to recognize or swear in A. E. Christy, a republican, as a member of the house from Grant and Santa Ana counties, although he had been elected by a large majority, and no one appeared to contest his seat. The secretary arrogating to himself the functions of the house itself, and adjudging Christy to be disqualified to hold the office to which he had been elected.

With all these lawless and dishonest acts of the secretary he could bring the number of democrats in the house up to twenty-one, just half of the total membership. As the republicans refused to participate, he organized the house with less than a quorum, and this house soon fixed the quorum matter by deciding a motion of a contest against Don J. Rankin, a republican from Bernalillo county, and seating his democratic competitor, although Rankin had over 700 majority.

The governor promptly recognized this Miller made legislature, and the defeat of the will of the people as expressed at the polls, was made complete.

Mr. Brice recently put our excellent governor on a sort of public pillory in Washington, and compelled him to make an unpleasant exhibition of himself, but if some one with similar opportunity could put Mr. Brice in such position, and force him to answer as to what was reprehensibly "political" in an attempt to prevent the recurrence of such crimes as his "political" friends at Santa Fe have committed, we are sure the spectacle would be even more humiliating.

CUBAN AFFAIRS.

Spain is beginning to use a little diplomacy in her dealings with Cuba. A

Washington correspondent says it is generally understood that the Spanish authorities will not interfere in the April elections in Cuba, and that the present representative in the cortes will be returned without opposition, at least two senators and eight deputies, all home rulers, and the others are more or less favorable to the reforms demanded by the people. It is understood that the policy of this ministry will be very liberal toward Cuba, and that the law which has been described will be amended so as to satisfy a large portion of the discontented. Canovas, the prime minister, has already announced his desire to make concessions, which, it is believed, will deprive the revolutionary leaders of much of the moral support and encouragement they would have received from the commercial and agricultural element, which has not taken an active part in the insurrection.

THE GREAT DROUGHT.

The great drought and heated spell from which Australia is now suffering is one of the most prolonged ever experienced by any country. It has already cut down the wheat crop by such an extent that the country, which ordinarily exports wheat, has been forced to buy a good deal of wheat and flour from the Pacific states of this country. The live stock industry has been seriously crippled by the drying up of pastures and streams, and the wool product this year is greatly below normal. Coming at a time when Australia is just beginning to recover from the disastrous panic which followed a period of over-speculation in land and industrial enterprises, and caused the temporary suspension of almost all the banks, this destructive drought may have disastrous effect on English investments in Australia and still further prolong the period of English doubt as to investments everywhere.

A SAMPLE.

The following item is taken from the Chicago Times Herald, and is a sample of the argument used by that paper in favor of the gold standard.

These few silver fellows, prosperous under present laws, but eager to perpetuate a business panic by enacting a one-dollar law, remind us of the shoat that used to escape the bait all off the range of his back, trying to crawl under the fence in order to get out of a rich pen into a mud wallow.

No wonder the silver eagle is killed every day, when the agents of Wall Street are so busy against it. Such ponderous arguments as this!

HOUSEHOLD.

Those democrats who so indignantly denounce the charge that their party is in two minds about the gold standard, may be interested to learn that the American laborer would be put on a level with the Chinese, we mentioned the following editorial expression by the Albuquerque Democrat.

"The best kind of reciprocity is a job, but his trade. And it is the only kind that will prevail."

THE MAYOR.

At the numerous request of the politicians of the city, and many members of the city, Mr. C. H. Haddley has consented to make the race for mayor. He has made a modest mayor, and deserves the votes of everybody who wishes to reward a public official for faithful service.

Mr. J. P. MORRIS, who says the condition of business in the United States will never be satisfactory as long as congress keeps on "stirring up things," if congress would leave the business of the country, and especially financial affairs, to Mr. Morgan and Mr. Cleveland, no doubt everything would be very satisfactory to them. When Mr. Morgan and Mr. Cleveland had everything fixed to make a few millions at the expense of the public treasury, it was really too bad for congress to interfere, and go to "stirring up things."

Don't drag the schools into party politics. The men nominated for school officers Saturday evening will be thoroughly non-partisan in their management of school affairs. If those who have been clamoring for a "non-partisan school board" mean what they have been saying they will vote for these gentlemen, and make their election unanimous.

This curfew law is becoming quite popular. The regulation has already been adopted by several states and a good many cities. It provides that all children found on the street after nine o'clock at night are to be arrested and locked up in the caboose till morning. The "kids" don't like it, but it saves lots of trouble. When a fond mamma wants to know "where is my wandering boy to-night," all she has to do is to telephone to police headquarters and get his number.

The Chicago Tribune has discovered that the reason wheat now sells in the west for 19 or 20 cents a bushel instead of 25 cents to 35 cents as formerly, is because there has been a great reduction in freight rates between this country and Liverpool. This theory is hardly more absurd than the one of over production, but it is newer.

The territorial fair will be held in this city next September, and it will be equal to any exhibition ever held in the territory. The officers who are at the head of the association this year are careful business men, and the funds will not be squandered.

The irreligious editor of the Kansas City Star says: "The case of the Leavenworth man who expired just as he concluded a prayer is a warning which will not be disregarded in the city where this remarkable incident occurred."

EXAMINE the registration lists, and if your name is not thereon, see to it being registered next Saturday.

The republican party always stands for the interests of the people, in local as well as in national affairs.

This is a good year to vote the republican ticket.

PRESIDENT MYERS.

Chas. F. Myers Will Lead the Territorial Fair to Success.

W. S. STRICKLER THE NEW TREASURER.

The board of directors of the Territorial Fair, elected at a recent meeting of the members of the association, held an enthusiastic meeting yesterday afternoon, in pursuance of a call published in THE CITIZEN.

The meeting took place in room 7, Crowwell building, and was called to order by Wiley M. Weaver, there being present the following well known citizens:

Wiley M. Weaver, A. A. Trimble, Thos. Hughes, M. S. Otero, John Borradaile, W. S. Strickler, Chas. Maudsl, Alfred Grunsfeld, W. S. Burke, A. J. P. Moore, E. S. Stover, K. L. Washburn, Jesus Christen, Andrew Smith and W. A. Maxwell.

The first business was the election of a president for the ensuing year, and nominations being in order, Mr. Hughes placed before the meeting the name of Chas. F. Myers.

The nomination was heartily seconded by Mr. Maudsl, and there being no other names before the meeting, Mr. Myers was unanimously elected president of the territorial fair association.

Mr. Stover nominated W. S. Strickler for treasurer, which motion was seconded by Mr. Hughes, and the latter gentleman strengthened his motion by moving that the election of Mr. Strickler be made by acclamation.

The motion was carried, and the new treasurer is W. S. Strickler.

Mr. Smith suggested that the selection of a secretary be left to the executive committee, which suggestion prevailed, being placed in the form of a motion and carried.

It was then moved, seconded and carried unanimously that Wiley M. Weaver, the retiring president, be a member of the executive committee and also chairman of said committee.

The following names were then placed in nomination and voted for as the other members of the executive committee, the list being declared the successful members:

Thos. Hughes received 10 votes; W. A. Maxwell, 8; Alfred Grunsfeld, 6; E. S. Stover, 5; M. S. Otero, 4; J. Dixon, and K. L. Washburn, 3 each.

The first vote-shield Hughes, Maxwell, Grunsfeld and Stover elected, and on the drawing ballot Washburn was elected, thus with Mr. Weaver completing the executive committee.

There being no other business before the meeting, Mr. Myers moved for adjournment, subject to the call of the president.

The association retains the same room, where all meetings will be held in the future.

Leading Paper.

W. A. Nash, representing THE ALBUQUERQUE CITIZEN, was in the city last Wednesday, returning from a very successful business trip throughout the southern part of the territory. THE CITIZEN is without question the best daily newspaper published in New Mexico, and the people of the territory show their just appreciation of it with a large patronage which is continually increasing. Socrates Chaffman.

The following letter received this morning is self-explanatory:

THURSDAY, Colo., March 26, '06. Rev. A. W. Adkins, Albuquerque, N. M. Dear Sir: Yours of the 24th inst. at hand. Will say I am under much obligation to you for your kind letter, but I am unable to get the Bureau to consent for me to take Sam Jones to New Mexico at present. There was a hoop left through which I could not get out of, and they slipped before I could tie them, so I am out of course, some extra money and time, and your your time, but I hope some time in the future to get Sam in New Mexico, and I will surely give you the first chance. Truly yours,

A. S. BOWENSON.

Securing More Property.

For the past two or three days negotiations have been going on between Sofie Alexander and Perfecto Arriaga for the house and property on Tijeras avenue, known as the "City Hall." Yesterday trade was consummated whereby Mr. Alexander became the owner of the valuable property, he paying in exchange of property and cash about \$11,000. The transfer was made by Mariano Arriaga, brother of Perfecto Arriaga.

A Delightful Dance.

Last evening the ladies of the Park association gave the members of the "Little Tycoon" opera company a delightful dance at the Orchestration hall, and there were present quite a crowd of young people. Refreshments were served and dancing indulged in till midnight.

When the party broke up, and all expressed themselves as royally entertained by the Park ladies.

Death at Fort Wayne.

Dr. Wroth is in receipt of a letter from Fort Wayne, Ind., in which the information is conveyed that about three weeks ago Miss Frances Broward had died of consumption. The deceased was a patient of Dr. Wroth's, while she resided in this city, and the doctor, desiring to learn of her condition, and she neglecting a promise to write to him, wrote to a gentleman at Fort Wayne, asking about her, and the sad intelligence was returned of her death. The lady was in extremely bad health when she left here, and it is a surprise that the good Father, who directs the destinies of His earthly children, granted life to the invalid in her passage over such high altitudes as the Ghorietta and Raton mountains.

Las Vegas Normal School.

The contractors of the Las Vegas Normal school building having completed their work, the board of regents held a session this week and formally accepted the house. A large number of the citizens of Las Vegas, and several gentlemen from other parts of the territory, were present when the board went over the building for the purpose of making a

formal examination of the work, and it was agreed, without a dissenting voice, that as far as the house has been completed, it is the best part of building for the money expended on it, that has ever been put up in New Mexico. There was a disagreement between the board and the contractor as to the amount to be allowed for "extras," and the matter was referred to arbitration a protracted fight in the contract.

Narrow Escape from Fire.

Mr. Marchetti came very near burning on this morning, but the "village doctor" made it be, remains on earth.

This morning he was burning some boxes when a blaze for some reason, shut up to the ceiling. It looked for a moment as though the doctor would not be able to cope with the flames, but he composed and is this afternoon telling his friends what a narrow escape he had from a serious conflagration. H. Scott Knight, foreman of the No. 1 hose company, was called in and rendered assistance.

THEY OBJECT.

Farmers South of the City Uphold their New Road.

The other day THE CITIZEN contained a complaint of Manuel R. Otero regarding the road south of the city and over which the farmers of the towns of Loma Prieta and Valenciana have to travel in reaching here. Mr. Otero stated that a new road was sandy and otherwise a "hard road to travel."

Many citizens and other farmers, residing south of the city, called at THE CITIZEN's office and stated that Mr. Otero is mistaken as to the road of which he complains.

With the exception of a few farmers' carts, says Mr. Otero, which is sandy, the new road is far better than the old river bottom road, and the heaviest wagon loaded with farm products of most character can be drawn over the new road without much difficulty. The farmers south of the city will resist any movement looking to the abandonment of the old road and the re-establishment of the old river bottom road.

Supreme Court Meetings.

In the supreme court of the territory of New Mexico.

Appearing to the chief justice and the associate justices of the supreme court of the territory of New Mexico that it is provided by the organic act of the territory of New Mexico that the time for the annual term of said supreme court may be fixed by the justices of said supreme court in vacation or at such other time as a majority of said justices may determine.

Whereas it further appears that on the fifth day of February, 1906, the justices of said supreme court by an order made a part of the records of said court, declared and determined that the term of said court beginning on the first Monday in July in each year, be and the same is abolished, and instead thereof there should be two terms in each year of said supreme court, beginning respectively on the last Monday in June of one year, and the first Monday in January of the next year; and

It further appearing that there is doubt as to the validity of said order because of its attempting to provide for two terms in each year instead of one, and further, because it is also claimed that the fixing of the said annual term is to be by act of the legislature and not by the justices, therefore,

We, the chief justice and associate justices of the supreme court of the territory of New Mexico, do hereby revoke and annul said order, and we further order, adjudge and determine that the annual term of the said supreme court of the territory of New Mexico shall begin to be held and be held on the last Monday of July in each and every year, as heretofore.

This March 25th, 1906.

THOMAS SMITH, Chief Justice, NICHOLAS C. COLLIER, H. B. HAMILL, GORDON D. BANTZ, NATHANIEL B. LAURENCE, Associate Justices.

Dr. Easterday's Lay Delegates.

At the meeting of the Presbytery, held at Socorro two days of last week, held on Saturday of this city, was elected a lay delegate.

Among those present were Rev. C. R. Meeks, of Las Cruces, colored minister, Rev. T. C. Beattie of Albuquerque, Rev. J. A. Menaul, of Albuquerque, Rev. J. A. Perez, of Pajarito, Rev. John Menaul, of Albuquerque, Rev. K. M. Fenton, of Socorro Springs, Rev. Moses Berthoff, of Laguna, Rev. C. Brice, of Las Cruces, and Judge McElroy, of Las Cruces, of this city.

Rev. M. Matheson, of this city, was elected commissioner to the general assembly of the Presbytery, and provided Dr. Easterday, of Albuquerque, was elected lay delegate.

Tuesday Rev. Beattie lectured at the Presbyterian church to a large congregation, on "Fetters Missions," and provided himself an eloquent exponent of the gospel.

The next meeting will be held at Las Cruces.

It is learned that the officials and bondholders of the Santa Fe and Atlantic & Pacific railways will start from Chicago in a few days on a tour over the entire system, and expect to reach Albuquerque about the middle of next week.

Special coach No. 36, of the Atlantic & Pacific, was sent north to Chicago "dead headed" night before last.

It is not true that Mr. Cleveland has issued an order to the effect that all monetary transactions with the United States government must hereafter be reckoned in pounds, shillings and pence, because the dollar is an American coin, and it is not proper for us to maintain it without the consent of Europe. The report was premature. Such an order has not yet been issued, but it will probably come soon after the gold standard is securely established. It is not proper for us to use the American dollar as a unit of value without an international agreement. It disturbs our trade relations with England.

The republicans expect to carry the election next Tuesday in every incorporated town in New Mexico.

Both political parties have nominated good men for aldermen and members of the school board.

The indications are that the city election next Tuesday will be a quiet, orderly one.

PERALTA-REAVIS SWINDLERS.

Andres Sandoval and Jose R. Valencia Arraigned for Alleged Conspiracy.

From the San Francisco Call.

Andres Sandoval and Jose R. Valencia, charged with conspiracy in connection with the Peralta Reavis land swindles in Arizona and New Mexico, were before United States Commissioner Hogeek yesterday for preliminary examination.

Matthew Reynolds represented the United States government as special counsel, and Messrs. Patton and Thurn appeared for the defense.

The defense asked to have the examination continued until July on the ground that Miguel, now in New Mexico, an important witness in the case, would be here by that time. As now is himself under indictment for conspiracy in connection with this great land swindle, the court thought it improbable that he would present himself a few months hence, and ordered the case to proceed.

The prosecution is very anxious to have Sandoval and Valencia returned to New Mexico for trial. The government is making a determined effort to convict all who were connected with the Peralta-Reavis land swindles, now before the courts for some years.

An order issued by United States Bailey of the Santa Fe Times reads as follows: "Complaint is made that for some time past some of our trainmen have been in the habit of gambling in way cars in terminal stations, and this at times when they needed rest. I am directed to inform you that all card playing in way cars at night is forbidden, and employees found gambling in the way cars at any time will be dismissed from the service."

Good Selection.

Chas. F. Myers has been chosen president of the territorial fair association at Albuquerque. He is the junior member of the hardware firm of E. J. Post & Co., down town, and a member of the hardware firm of Wagner & Myers, Masonic temple, East Las Vegas.

WHO THEY ARE.

The New President and Treasurer of the Territorial Fair.

From the full and accurate listing of the board of directors of the territorial fair association held yesterday afternoon, and which are published in today's CITIZEN, it will be seen

(From Thursday's Daily.)

Mrs. Sol. Luna, wife of the collector of Valencia county, is here on a visit to her parents.

Sheriff Hubbell, who took five prisoners to the penitentiary at Santa Fe yesterday on today's noon flyer.

The Mutual Automatic Telephone company, pursuant to notice in THE CITIZEN started operations here yesterday.

A "carnival ball," after old Mexican style, will be given by Armijo and O'Hannon at the fair grounds ball on Saturday night, April 1.

James Dunn, chief engineer for the Santa Fe railway, headquarters at Topeka, passed through the city this morning for Santa Fe.

W. A. Innes, chief engineer for the Santa Fe, Prescott & Phoenix, passed through the city this morning on No. 1 for Prescott from Chicago.

The Optic says: Wallace Hessel, the old time builder and contractor, is up from Albuquerque on the special train this morning.

Joseph Price, the seaman, arrived at the city last night and will return home tomorrow morning. Mr. Price is the father-in-law of Simon Stern.

W. J. Thompson, assistant fire department agent for the Santa Fe railway, is leaving personally supervising the shipment of cattle over the above road.

C. H. Fowler, the cattle inspector for this district, came up from San Maria last night, where he inspected a train loaded with cattle headed for W. H. Slaughter.

There will be four marriages in the city inside of the next two weeks but THE CITIZEN has been requested to keep names out of print until the events transpire.

The Silver City Standard says: "Neil B. Field, one of the leading attorneys of Albuquerque, was before Judge Bailey in this city last Friday, on important legal business."

The "indoor advertising racket" which swindled half a dozen merchants, has made his escape good, and he is likely to follow his same swindling scheme in some other town.

Fabio Bica, of Valencia county, brought here by Sheriff Max Luna as a fit subject for the insane asylum at Las Vegas, was adjudged insane by the district court yesterday afternoon. The sheriff took him to the asylum last night.

The first regiment band in attendance with printed program on the Citizens, rendered an operatic concert at the corner of Third and Second streets last night. The band will give a dance at the Armory on Friday night, April 1.

M. S. Callahan, superintendent of Harvey's dining cars on the Santa Fe railway system, came in from the west this morning and remained with local manager, Fred Mauger, until the arrival of the No. 3, when he returned to California.

T. L. Heber and wife, registering from Prescott, Arizona, came in from the west this morning and are at Sturges' European. Mr. Heber is a well known soda water manufacturer of the southwest, and is on his way to California, where he will engage in business.

H. H. Greenleaf is training a four-year-old stepper, Madge, by name, and expects in short time to have one of the fastest trotters in the city. Madge was brought here when a colt from Colorado as a runner, but Mr. Greenleaf thinks she will prove a better trotter than a runner.

Henry Madison, the colored hack driver, saw smoke coming from an ash pile, at the Adobe residence on Third street, near Gold avenue, occupied by Mrs. C. P. Jones about 11:15 last night, and, notifying Assistant Chief Hye, sent in a fire alarm. The excitement was unnecessary, and a few buckets of water put out the fire.

"Felix Carr," a thoroughbred race horse, died at the fair grounds last night from lung fever. The horse belonged to R. Schreiber, the St. Louis, Mo. horse man, and with the gentleman's string of runners, who had wintered down in California, arrived here last Friday. The dead animal was stabled by Billie Johnston, Dan Wigman, and was valued at several thousand dollars.

W. B. Slaughter, the well known cattle raiser of the American Valley, came up to the metropolis yesterday afternoon, in charge of a train load of cattle from San Maria, which was sent north to Chicago and Kansas City markets. Mr. Slaughter stated that the cattle of south-west New Mexico went through the winter finely, and are now in good condition for the eastern markets.

W. L. Oliver, local agent for the Santa Fe railway land office, and Col. Richard J. Hinton, consulting engineer for the Financial Adjusting company of New York, visited E. R. Rito on the Atlantic & Pacific yesterday for the purpose of examining the lands thereabouts for reservoir sites. The report that the colored well will make to his company will be a very favorable one. He will probably go to Las Cruces tomorrow.

The human bones found on the Minibrow a few days ago are believed to be those of a book peddler who mysteriously disappeared there in 1888, says the Silver City Sentinel. People who are familiar with the circumstances surrounding the disappearance of the peddler claim that he was undoubtedly murdered by the Mexicans who afterwards exposed his bones for sale. The missing man was a stranger and the evidence of his death being purely circumstantial no special effort was made to ferret out his slayers.

# ARRESTED AT MONERO.

Five Men Implicated in Shooting Keys Apprehended.

On Thursday, March 19, Deputy Sheriff William L. Keys was shot at the Monero coal mine, long in controversy between J. H. Crist and Pascal Craig, in attempting to take possession of the property under an order of the district court, says the New Mexican. Percy Craig, Thomas S. Stowell, William Hamilton, Frank Reynolds and Apolonia Martinez were the persons implicated in the shooting and in resisting the decree of the court as to surrendering possession of the mine.

Judge Smith ordered the arrest of the men named for contempt of court, and warrants for their apprehension were placed in the hands of Sheriff Cunningham. The latter promptly went to Monero, arrested the five persons named, and secured possession of the property on a writ of replevin on March 25. He secured two Winchester rifles in the mine, and was informed that there were three more rifles in the mine, but having gained possession thereof, he left those to whom he turned the property over to investigate this story.

The five prisoners were turned over to Sheriff Cunningham to Sheriff Felix Carr, who of the Arizona county and their preliminary examination for shooting keys is in progress at Monrovia. District Attorney Crist is there with Mr. A. H. Remond, official court stenographer.

After the conclusion of this examination the prisoners will be brought to Santa Fe to answer the charge of contempt before Judge Laughlin.

Deputy Sheriff Hye, although shot through the left lung is alive and will probably recover.

An Old Soldier's Cure of Chronic Diarrhoea.

During the war, John L. Hase, of Mill Creek, Ill., contracted chronic diarrhoea, which, unattended, had very much impaired his health, greatly impaired his strength. He says: "The use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has always relieved me and two doses cured me so that I could at once go about my business. I always keep the Remedy at hand." For sale by W. A. Maxwell Co., Wholesale Druggists.

Spelling, a Fight.

Also—seventy-three years of years in the United States, there are apparently exhibited in every self-respecting citizen. A confident and unquenchable spirit seems to have recently gained abroad. It appears to take new all classes from the humblest to the highest. In Congress, the nation's statesmen breathe warlike sentiments in public organizations, members indulge in discussions, in private life, men are doing desperate deeds. Church and state, home and commerce, show alike the effects of this evil impulse. Denver Times.

Take Simmons Liver Regulator to prevent illness from the material poison which comes with the spring months. Simmons Liver Regulator is a mild laxative that cleans the system and purifies the blood. An excellent alternative and tonic for the spring. "I have been very much improved in health by taking Simmons Liver Regulator." M. Newport, Williamsburg, Ky.

New Stock Offers.

The Southern New Mexico stock association met in regular annual session at Lincoln and elected officers for the ensuing year as follows: A. M. Richardson, president; J. A. Tully, vice president; E. T. Gray, secretary and treasurer, executive committee: W. H. Goyse, Joe Wing, field, W. C. McDonald, James Edward Cree and W. J. Slam.

Dr. Williams' Sarsaparilla is prepared for cleansing the blood. It builds up and strengthens constitutions impaired by disease. Pillsbury & Walton, N.

Reputation Ricker.

The reputation city ticket of East Las Vegas is as follows: E. K. Okey, for mayor; J. K. Moore, city clerk; C. E. Perry, city treasurer; Arch H. Bell, alderman first ward; W. H. Barber, alderman second ward; S. K. Hine, alderman third ward; A. T. Rogers, alderman fourth ward; A. Reed, school trustee first ward; Wm. S. McLean, school trustee second ward; J. M. D. Howard, school trustee third ward; J. A. Carruth, school trustee fourth ward. It is a winning ticket from top to bottom, and will carry East Las Vegas by big majorities.

"Success is the reward of merit" not of assumption. Popular appreciation is what leads to the long run. For fifty years, people have been using Ayer's Sarsaparilla, and today it is the blood purifier most in favor with the public. Ayer's Sarsaparilla cures.

A Good Veteran.

Saturday's west-bound train had as a passenger Simon Madigan, known to nearly every resident in the valley, having lived here for many years. Within the past few years Simon has become totally blind, caused from exposure during the war, in which he was a member of the California volunteers and afterward of the regular army. Simon left this city for the soldiers' home at Santa Monica, Cal., where he will spend his remaining days. Rincon Weekly.

It may save you time and money to be informed that, when you need a blood purifier, in fact with the medical profession, it is the standard and as such, the only blood purifier admitted at the Chicago World's Fair.

Silver City Rose Boss.

There is a movement on foot to organize a rose team in Silver City for the purpose of competition in the firemen's tournament to be held in Albuquerque on the 10th of July. We have an abundance of swift young men here, all they need is being broken to the harness. Sentinel.

Hair-Remover renders the hair lustrous and silken, gives it an even color, and enables women to put it up in a great variety of styles.

On the Tongue System.

On today, April 1, the plan of rating Atchison, Topeka & Santa Fe engines by the number of cars will be abolished, and all freight engines will be rated on a tonnage basis. This is the purpose of a circular just issued by the general super.

Intendant's office, and means that in the future a freight train will consist, not of a stated number of cars, but of no many tons.

Rate sheets have been prepared showing the capacity of each class of engine in gross tons over each section of the road, and cards showing the gross weight will be attached to the side of loaded cars. After April 1 all freight trains on the Atchison system will be made up in accordance with the rate sheet.

Very Popular in Minnesota.

We have a good trade on Chamberlain's Cough Remedy, in fact as much of it as all of our other cough medicine combined, and we handle more than a dozen different kinds—Rai & Petersons, Druggists, Polaris, Minneapolis.

This remedy is popular because it can always be depended upon. Its promptness in curing bad colds, croup, and whooping cough, makes it a favorite everywhere. For sale by W. A. Maxwell Co., Wholesale Druggists.

A General Question.

Postmaster General Wilson says that in the present political crisis two classes must take action—the educated man and the business man. Now will Mr. Wilson tell us where he draws the educational line and where he gets authority for the proposition that this should be a government by or for any particular classes? He certainly didn't get it from Jefferson or Lincoln. Denver News.

SMALL HOLDING CLAIMS.

Important Instructions Issued by the General Land Office.

Register Walker and Receiver Folgate of the United States land office at Santa Fe, have received definite instructions from the commissioner of the general land office hereafter to require small holding claimants to publish notices of their intention to submit proof of their occupation and possession of the land included in their claims under the same terms and restrictions as govern the publication of notices in homestead cases. The form of notice for publication is to conform as near as possible to the homestead form.

The instructions only apply to cases where proof is hereafter to be submitted and will not have a retroactive effect. Hence those who have already proved up are not concerned, but all other small holding claimants, including those who have received notice to produce their proof, must initiate their claims by advertising their intention for six weeks in some newspaper of general circulation to be designated by the register.

These instructions are important in that they will render impossible frauds upon the government and the people, and that might otherwise have been practiced.

Small holding claimants have been placed upon their claims in the Santa Fe land office, and the same number of claims have been received. In round numbers there are 1,200 small holding claims in this land office.

As a remedy for all forms of Headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most delicate habituated sick headache is cured by its influence. We urge all who are afflicted to procure a bottle and give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long test the use of this medicine. Try it once. Large bottles only fifty cents at Pillsbury & Walton's.

Double Wedding.

The CITIZEN has just printed the following marriage invitation:

"Your presence is requested at the marriage of Miss Linnie Bolton to Mr. Walter S. Campbell and Miss Viola Bolton to Mr. Frank S. Swartz, Tuesday evening, April 11, 1906, at 8 o'clock, church of the Holy Spirit, Gallup, N. M."

The prospective brides, Misses Linnie and Viola Bolton, are sisters of Mrs. J. J. Hogan, and years ago resided in this city. They have many warm friends in the metropolis, who join with THE CITIZEN in extending congratulations in advance.

Misses Campbell and Swartz are two well known and popular young gentlemen and few cases long test the use of this medicine. Try it once. Large bottles only fifty cents at Pillsbury & Walton's.

The base of Ayer's Hair Vigor is a refined and delicate fluid, which does not soil or become rancid by exposure to the air, and which is as perfect a substitute for the oil supplied by nature in youth and health, as modern chemistry can produce.

The Schubert Quintette Coming.

We take pleasure in announcing to the cultured tastes of Albuquerque "The Schubert Quintette" of Chicago, for April 14th, at Grant's opera house, under the auspices of the Presbyterian church. The Schuberts were organized in Boston in 1881 and since 1888 have made Chicago their headquarters. It has always been a quartette of male voices until last season, when a change was made through adding a celebrated harpiste to the company making it a quintette. A more noted musical organization of the west has been identified with the business life of Albuquerque also for many years, although the firm of Pillsbury & Walton was only known the past few years. THE CITIZEN wishes the remaining partner future success, and the best wishes of this paper accompany Mr. Pillsbury in any of his future undertakings.

Here From Needles.

James P. Booth, M. D., formerly editor and publisher of the Needles "Call," Eye, came in from the west last night and has a room at the Armijo. When Col. McIntire was interior revenue collector for the district composed of New Mexico and Arizona, Dr. Booth was the deputy collector for this district, with headquarters in the city of Needles. He is also, once upon a time, represented Bona Ana county in the upper house of the territorial council, where he made a record for himself as one of the best members of that body of territorial lawmakers. He is a courtly and distinguished orator, and the best wishes of this paper accompany Mr. Pillsbury in any of his future undertakings.

Change in Business.

By reference to notice published elsewhere in to-day's CITIZEN it will be seen that the "Dry Drug Store" firm of Pillsbury & Walton has been changed to Pillsbury & Walton continuing the business. Mr. Pillsbury has been in active business circles in this city for many years, and THE CITIZEN regrets to note his retirement. The business has been identified with the business life of Albuquerque also for many years, although the firm of Pillsbury & Walton was only known the past few years. THE CITIZEN wishes the remaining partner future success, and the best wishes of this paper accompany Mr. Pillsbury in any of his future undertakings.

Triple Link Appointments.

The following members of Triple Link, Rebekah Degree lodge, No. 19, I. O. O. F., have been appointed to sub-offices by the noble grand, Mrs. Sara Vann.

Mrs. E. J. Jones, right supporter to noble grand; Mrs. Elizabeth Pratt, left supporter; Mrs. Lillian Strong, right supporter to vice grand; Mrs. G. W. Whiting, left supporter; Mrs. Louise Gray, trouble guardian; F. W. Edgings, outside guardian; Mrs. Lizzie Bond, warden; Mrs. A. R. Lowe, chaplain.

The new lodge will meet every second and last Tuesday evening in each month.

It is not a miracle. It won't cure everything, but it will cure piles. That's what Dr. Williams' Witch Hazel Salve does, because it has done it in hundreds of cases. Pillsbury & Walton.

E. L. Stevens, who was clerk to J. M. Robins, formerly trainmaster for the Atlantic & Pacific, came in from the west last night, and accepted a position as stenographer in the office of H. C. Van Slyke, passenger and ticket agent.

James Bell, formerly of the firm of Trotter & Bell, will soon leave for Los Angeles, where he will be absent in a short time engage in business.

# WILL THE "FLYER" GO?

Rumor to the Effect that the "Flyer" Will be Taken Off.

The Las Vegas Optic, published at the home and headquarters of Division Superintendent Hurley, says:

It is again reported that the Atchison railway is to take off the "flyer" between Chicago and Los Angeles. The train is the most popular as well as the fastest overland express in the world, but it is claimed that it will be abandoned on May 1st. It is thought if the train is taken off, it will only be for the summer months, when California traffic is light.

The CITIZEN has inquired of local railroad men, and they state that such a rumor is in existence, but they are unable to verify the truthfulness of the report. Traffic, at present, is much heavier eastward than westward, and the Atchison, in California returning to their eastern homes, but one railroad, who has been giving the matter some thought, argues that if the "flyer" don't pay, it is not on account of passenger traffic but the heavy expense incurred in keeping up the contract made with the Harvey dining car scheme. "I believe that if the Santa Fe railway company would abandon the dining car on their flyers," said the railroad, "and pay strict attention to the convenience and accommodation of its passengers, that the fast runs between Chicago and Los Angeles would pay big money."

A General Question.

Postmaster General Wilson says that in the present political crisis two classes must take action—the educated man and the business man. Now will Mr. Wilson tell us where he draws the educational line and where he gets authority for the proposition that this should be a government by or for any particular classes? convention with their friend, Mrs. Hiram Bailey. Mrs. Davidson is the wife of Prof. Davidson, of the Agricultural college, and is on her way to her old Indiana home. Mrs. Hayes is the sister of Judge A. R. Fall, and was en route to Boston, Mass., to join her husband. Mr. Hayes was formerly a professor at the Agricultural college.

The New Lincoln sheriff. Emil Fritz has been chosen sheriff of Lincoln county by the commissioners of that county, vice George Seneca, removed. The Lincoln News, in speaking of the appointment, says:

There is no denying the fact that a wise selection has been made. Emil Fritz is an untired man in public affairs, but here in the county where he was raised, it is doubtful if there can be found a single respectable citizen who will question his integrity, nor one who will deny his worth as a man. None who can say he has ever deliberately harmed them, nor man who ever knew him to fail to respond when called upon in the interest of charity. In truth, the men in Lincoln county whose character taken as a whole, will bear comparison with that of Emil Fritz, are by no means legion.

Buy people have no time, and sensible people have no inclination to use a slow remedy. Buy Little Early. Little Early is promptly and gives permanent results. Pillsbury & Walton.

VOICE OF THE PEOPLE.

Below will be found an explanation of full of the reasons why the republicans of the city will place Mr. Baldrige in nomination for a second term as mayor of Albuquerque.

A few days ago the following petition, or request, was presented to him, accompanied by the signatures of over six hundred of the best people of the city, representing all political parties, property owners, and tax payers, interested in Albuquerque, and who desired to secure a continuance of the present clean and economical methods of city government.

"To the Hon. J. C. Baldrige, Mayor of the City of Albuquerque, New Mexico:

"We, the undersigned voters and tax payers of the city of Albuquerque, wish to tender you an expression of our gratitude for the clean, honest, and economical administration you have given this city in your capacity as mayor. You have preserved order, made necessary improvements, and also reduced the annual expenditures several thousand dollars. For these and many other reasons we have confidence in you, and desire to respectfully request and insist that you consent to serve another term as mayor. We believe that this certificate on your part is necessary at this period in the life of our city, and we have confidence enough in you to think that you will make it."

Contrary to his own wishes, and against his own interests, Mr. Baldrige yielded to the request of his fellow citizens, and consented to have his name go before the people at the coming election as a candidate for a second term, and as a result he will be placed in nomination by the republican city convention this evening, without a dissenting voice.

His election is regarded as a foregone conclusion, and he will be the first man ever twice elected mayor of Albuquerque.

It is just as easy to try One Minute Cough Cure as anything else. It's easier to cure a severe cold or cough with it. Let your next purchaser for a cough be One Minute Cough Cure. Better result, better cure, better try it. Pillsbury & Walton.

Up to the Pen.

Sheriff Tom Hubbell took to the penitentiary at Santa Fe last night the following prisoners:

Merejedo Prieto, three years; Jose Romero and Emilio Baca, horse stealing, one and a half years each; and the two Isleta Indians, who stole cattle from Wm. Farr's pasture, one year each.

H. S. Knight, deputy United States marshal, who was on the train en route to Santa Fe, acted as assistant to Sheriff Hubbell.

A little ill, then a little pill. The ill is gone, the pill has won. Dr. Williams' Little Early. Little pills that cure great ills. Pillsbury & Walton.

Improving the Road.

Within the next thirty days the Atchison, Topeka & Santa Fe railway will let several large grading contracts, the most extensive being the work of raising the track from Socorro to San Antonio, and between Socorro and Albuquerque.

The engineering department of the road has secured plans for fifteen truss and iron-girder bridges, and the contracts for the construction of these structures have just been awarded.

Take a dose of Dr. Williams' Little Early. These little pills are good for indigestion, good for indigestion, good for liver complaint, good for constipation. They are good. Pillsbury & Walton.

Military Records.

At a meeting of Carleton post, G. A. R., held last night, a committee was appointed, consisting of W. S. Fletcher, Geo. W. Knaebel and Henry M. Davis, to thoroughly revise for record the military history of the 175 members heretofore or now belonging to the post, and in this connection it may be stated that J. Felipe Hubbell, of Japartito, a son of a veteran, has today delivered to Adjutant General Knaebel forty-three discharges of soldiers who served in the Union army during the war of the rebellion.—New Mexican.

The Schuberts of Chicago.

There are few literary musical organizations in the United States with a history covering a period of fifteen years. Their record is indeed an enviable one, and one which they can point to with pride, having made their reputation solely on their merits. To make sure that this is the genuine Schubert Quintette, the Ladies Aid society of the Presbyterian church, who have engaged them for April 14th at Grant's opera house, sent two dispatches to Chicago, and received the following favorable reply:

"Musical rank of Schubert Quintette secured first-class in Chicago."

"LAWN & HEALY."

These should convince the most skeptical that the Schuberts are all that is claimed of them, and that there can be no question as to their merits. Reserved seats Wednesday, April 8, at Newcomer's, at 9 o'clock.

# NORMAL SCHOOL BUILDING.

The Amount the Arbitrators Settled Upon With the Contractor.
