Learn to Use Proctorio in Your Course on Friday, Jan 11th

FROM 11:00 am TO 12:30 am

Facilitator: Joshua Martinez

Location: CTLB 110

As instructional strategies evolve, students increasingly seek the convenience of online equivalents to face-to-face learning. Likewise, instructors seek ways to maintain academic integrity in web-enhanced and online courses. UNM IT Academic Technologies strives to provide tools that allow you to extend the capability of the virtual classroom while continuing to meet accreditation standards. To that end, we are pleased to announce the general availability of a virtual proctoring tool, Proctorio, within UNM Learn beginning Summer 2018. Proctorio is a flexible virtual proctoring tool that students purchase through the UNM Bookstore as a course material via Inclusive Access. Whether you teach online, face-to-face, hybrid, or a combination of modes, Proctorio can help you regain precious instructional time and deter cheating. Join our upcoming workshop to learn more about Proctorio.

Course Design Institute Day 2 on Tuesday, Jan 8th

Course Design Institute Day 1 on Monday, Jan 7th

Learn to Use Proctorio in Your Course on Thursday, Dec 13th

Collaborative Two-Stage Exams: Turn your Exam into a Learning Experience on Monday, Dec 10th
