ALBUQUERQUE VS. BELEN, NEXT SUNDAY

Next Championship Game At Albuquerque

ON SUNDAY, Sept. 29th, at Hopwell field, in Albuquerque, the Belen players will again meet Albuquerque Sluggers for the championship of the state

The boys have played three games; the first game was won by Albuquerque, the second by Belen and the third was forfeited. Our boys being too good sports to claim the championship on a forfeited game have accepted Albuquerque's challenge for another game.

The Belen team would like to have as many rooters as possible accompany them over there Sunday. The team will leave here at 12:30 P. M.

Ready for business Continental Garage

And now it's the Continental Garage which has a real old fashioned kick coming and they are kicking too, because we failed to put them down on the "VICTORY" advertisement for the sale of Liberty Bonds.

The Continental Garage is an established business, with expert machinists and automobile men who can not only repair any part of an auto, but will actually build one if desired. Chas. N. Cunningham and Robert Ridnor, are truly patriotic and are very favorably known in business circles in Western New Mexico, as prompt, reliable men.

A Very Reliable Business House.

Gilbert & Sons, well and favorably known merchants of Belen, will move into their 2-story store building this week. They have been in business here for many years and by strict integrity in their dealing with all and promptness in business, they have built up a strong business. While fresh meats are the principal stock, fancy groceries, etc., can always be had at this house. The name Gilbert & Sons is synonymous with square dealing and when you buy from them you know you are getting value received.

LEND AS THEY HAVE GIVEN

By T. Q. MARTIN, Chairman Dallas County Registration Committee

It is unfortunate that the heart can be stirred in times like these by only the direst calamity.

If appeals to reason could reach the deepest emotions, our Government would have all the money it needs.

The torpedoing of one of our troop ships would bring it in a grim determined hurry, but at the same time it would be perilous for our future. The wrath of our country would be aroused to the fury of hell, and we might commit some overt act that would count against us at the peace table. To avoid such a possible tragedy, and consequent result, it is the duty of every citizen to furnish our Government with all the funds it needs without the asking, so as to eliminate the enormous expense of these bond drives and release for other war activities the splendid services of the hosts of men thus engaged.

I want to say a word to the hundred dollar a month man without dependence in an endeavor to bring him to a realization of his responsibility in this great war, which we will win; and what I say to him can be

applied, in the same ratio, to every man earning one hundred and twenty-five dollars, and upwards, per month. It costs our Government close around eighty dollars per month to maintain each brave man that is fighting for the liberty of the world. Based upon the cost of the most menial labor the soldier is, at least, a hundred dollar man. He, therefore, is not only giving up his home ties; is not only offering his life, but he is actually giving our Government, with no expectancy of return or hope of reward, twenty dollars every month, in order that you may have an opportunity of earning your one hundred dollars per month in perfect safety.

Are you giving twenty dollars per month to our Government to help win the war? No? Well, will you not lend our Government twenty dollars every month for the duration of the war at 4 1/2 per cent interest? Is it not the least you can do, and, honestly, is it not your duty to do the most you can?

After this war is won, probably before, there is going to be another Draft. A Draft Before the Board of Public Opinion, and all men are going to be classified. There will be a class for the miser and a class for the slacker, and—may God pity them, for their fellow-man will not.

Don't fail to see Gentry, his great animal show and circus tomorrow.

The Woman's Club dance at the Belen Theater Wednesday night was a very enjoyable affair.

H. R. Wetmore, the energetic manager of the Belen Auto Co., made a flying trip to Albuquerque Monday evening.

Belen turned out in full force to hear Ambassador Gerard, at Albuquerque Monday evening. He gave the audience some terrible truths of the wanton acts of the unrepentable Hun. Those present in Albuquerque were: Dr. Simmons, John Becker, J. H. Desnoes, Prof. and Mrs. J. H. Dowden, John Becker Jr., Mrs. John Becker Jr., Frank Fisher, Chas. Rankin, Prof. S. turnino Baca and others.

Returns From Eastern Visit.

TUESDAY Paul B. Dalies and Mrs. Dalies returned to Belen after a months visit in eastern cities.

Mr. Dalies is one of the managers of the mammoth department store of the John Becker Co. and the primary object of this visit was to purchase the fall and winter stock for his house, and at the same time combine a little pleasure.

Mr. and Mrs. Dalies visited Ripon, Wis., his childhood home and he very much enjoyed renewing old time acquaintances.

Chicago and New York were flooded with western buyers and it was almost impossible to secure certain lines because they were being operated to their full capacity on government orders.

The trip by steamer from Albany to New York down the Hudson was especially pleasant.

Pronounced patriotism was in evidence everywhere, and turn as you might, there were companies or regiments of soldiers marching.

In the hotels, in the stores, in street cars and in theatres; everybody is enthusiastically behind the government. At every theatre the evening's entertainment commenced by playing the Star Spangled Banner, and every person in the audience remained standing while the National Anthem was played.

U. S. Judge, Edward Meek, Speaks Plainly to His Fellow-Citizens

Though removed from the danger zone of war and carnage by continent and ocean, our hearts are there, for our own flesh and blood are there fighting in a Cause we hold dearer than life itself. All agree that the sacred right of self government is the issue. There is complete unanimity among the patriotic citizens of this country that the war must be won no matter how long or what the sacrifices it takes to win it. There is also a conviction that the war will not be won until the Allies are in position to dictate the terms of peace to Germany at Berlin.

The daily reports coming to us from the fighting front in France reveal the splendid morale of our soldiers, their hardy endurance and intrepid courage and an enthusiasm in action so true, so real, so genuine that it inspires and inspires their brother soldiers of the Allies. Have we not much cause to be proud of our own?

And this is the young manhood of our American civilization, reared in the days and ways of liberty and peace, suddenly summoned to war. These men are the rare product of one hundred and fifty years of Republican Democracy in this continent. And now, what is required of us civilians who remain at home? To live within the law; to observe the regulations imposed by constituted authority; to give loyal and whole souled support to our Government. We realize more

and more through these weeks and months of stress and strain that the Government of our fathers is founded upon the Mighty and Everlasting principles of liberty, Equality between man and man, and Justice alike to the high and low, the rich and poor. It is to preserve these our soldiers are fighting overseas. Our first great continuous and ever-present duty is to supply the sinews of war, the material funds, the money needed to prosecute the war to a successful issue—his most tremendous war in world history.

We are not called upon to give, to donate this money. We are called upon to loan it, to invest it in bonds to bear interest and the principal to be returned to us at a stipulated time.

Under these conditions, when called upon again by the United States to invest in Liberty Bonds, can we do less than loan to them for the prosecution of our war to the utmost sum of money we can reduce to our possession within the stipulated time, having first made provision for a simple and abstemious living and for the bare demands of trade or business. If we fail in this duty and of its performance in the stated measure, then we fail to do our level best in a material way for the great world cause, the cause for which our soldiers are ready to make the supreme sacrifice. Ready? Yes, willingly and gloriously ready.

OFF WITH YOUR HAT WHEN THE FLAG GOES BY

Our Boys "Over There".

DO YOU READ the papers? If so you must know that our boys "over there" are nobly sustaining our flag wherever it is unfurled, and the least we can do is to sustain them with the sinewes of war—dollars.

The whole world is in the throes of a titanic struggle and right must prevail.

The Hun, in his madness, seeks to subjugate the world and we must fight until he is driven from the map of the world.

There is no such a thing as a compromise between right and wrong and might does not make right.

The crimes committed by the Huns in the name of right are a dark blot on the history of the earth and it is necessary that we fight them to a finish.

And at this critical period if we cannot offer our lives we can loan our dollars. You should certainly get a Liberty Loan Bond on the 28th. Start the loan off actively. The boys "over there" are doing their part and we should sustain them with our dollars. Yes, sustain them enthusiastically. This is the best government on earth from every standpoint and the American people are the most loyal and true to their flag.
