HUERTA A CANDIDATE

EXPECTS TO BE ELECTED HIMSELF IN THE ELECTIONS TO BE HELD NEXT SUNDAY.

This Government has Made the Formal Request that Gen. Huerta Shall Eliminate Himself.

Washington, D. C., Oct. 19.—President Huerta's denial of any intention of resigning adds another cause for serious apprehension in the threat it carries that Huerta will be a candidate for re-election after breaking with Gamba, to whom he originally promised his support.

The paragraph in which administration officials see cause for alarm is that in which Huerta says:

"Should the elections, which will be held as I have promised, indicate another for the presidency, I shall step aside."

Huerta Expects Election.

This declaration is held to carry with it the intimation that Huerta feels there is only the remotest possibility that any other than he will be successful at the election he has called for next Sunday. The administration cannot look upon this development without displeasure because Huerta's candidacy could not be construed in any other light than as a direct affront to this government, in view of the representations made by John Lind on behalf of President Wilson, in which the specific request was made that Huerta should not be a candidate at the forthcoming elections. Huerta's latest statement is not the only evidence that he is an active candidate for the presidency. John Lind, President Wilson's personal representative at Vera Cruz, declares that he has in his possession circulars urging the people to vote for Huerta for the office of president. Many of the circulars in the possession of Mr. Lind were distributed as far south as Campeche, while others were sent from the west coast. The wording of the circulars was identical, showing that they were sent out from authoritative sources, and that secrecy was intended was shown by the fact that they were signed "Committee," without any names accompanying them.

Responsible for Rumor.

One theory advanced in Washington is that Huerta was himself responsible for the rumor of his resignation in order that in a denial he could virtually place himself in the race for the presidency while at the same time veiling a threat for the benefit of those who oppose him.

The developments pointing to Huerta's break with Gamba and the Catholic party were held to be significant, as diplomatic circles believed he could not add another betrayal to his list and alienate the strong Catholic party in Mexico without losing holds.

Huerta's Statement Untrue.

According to Constitutional advisers the statement of Huerta that he has 8,000 men marching on Torreon to retake that place is not true. The federal forces are declared to be remaining inactive near Saltillo, as the generals fear a repetition of their experience of October 2, when almost 1,000 of General Aubert's column deserted in one day.

General Villa, the Constitutional chief who took Torreon has surrounded himself with mystery and the federalists are at a loss to know his purposes.

SULZER FOR ASSEMBLY.

Bill Sulzer Will Probably Accept the Progressive Nomination.

Albany, New York, Oct. 19.—Expectations tonight are that Wm. Sulzer will make the race for assemblyman from the Sixth district which is included in the congressional district he formerly represented.

Friends said that unless he changed his mind before tomorrow he would accept the Progressive nomination, which has been tentatively offered to him.

Sulzer's plans, according to his friends, are now to leave here tomorrow for New York, where he will hold a conference with Sixth district leaders. He is said to have reached this decision late tonight.

DISTRICT COURT

The adjourned session of the district court which convened Wednesday was quite a disappointment to many for the district attorney was unable to try any of the cases on the criminal docket which had been postponed to the date

set for the adjourned term. In consequence many witnesses and defendants made long trips to get here in time for court, only to find they must come again in January. Judge Richardson came down Wednesday and is busy on a lot of civil matters, which if disposed of will give more time at the regular term to clean up the criminal docket.

"DOWN IN DIXIE"

Splendid Audience Greets Amateur Performers at Peoples Theatre Monday Night.

Too much cannot be said in favor of the play "Down in Dixie," put on at the Peoples Theatre Monday night, under the management of Bryan Mudgett, assisted by members of Company "E" for the benefit of which the play was given, and a number of our most talented young ladies also assisted.

An appreciative audience filled the theatre, nearly all the desirable seats being sold, and that they received more than their money's worth is the expression heard on every hand.

Miss Susie Lucas, the "leading lady" as Miss Helen Trevino, was a decided favorite with the audience, as the hearty applause which greeted her proved beyond a doubt. Miss Lucas has been heard before in amateur theatricals and undoubtedly possesses histrionic ability. Perhaps her finest acting was, when in saying "farewell" to her lover, Colonel Wells, she pointed north saying: "Your way lies to the north." And then, with infinite pathos: "Mine to the South."

Miss Lucas was well supported by Miss Mona Heard, who played the part of "Molly Martin" in a way to win the hearty applause of the audience. The young lady seemed very much at home in her part and did not manifest any of the awkwardness or hesitation usually found in amateur performers.

Miss Belle Neeley made a fine appearance as Mrs. Dusenberry, a business woman. With her hair slightly powdered and dressed in the quaint garb of the early '60s she made an ideal Southern matron of the days "before the war". Miss Neeley was perfect in her part and her many friends in Carlsbad hope that this will not be the last time she will appear on the local stage.

Susannah, ("Jes a plain nigger") Miss Aline Grantham, was a difficult role, but well played and brought down the house. Not even "Moss Linkum's" pockmarked face had power to swerve her from her loyalty to her people.

Harvey Wells, (Ted Butler) received hearty applause in his leading role and acted the part of a colonel in the Northern army as few young men could do. One of the strongest scenes in the entire play was the prison scene, when Harvey, emaciated, ragged and worn, sick at heart, and almost discouraged, gave utterance to his patriotism and his belief in the final outcome and the supremacy of right and the triumph of "Old Glory". Mr. Butler played this part to perfection.

His rival, Major Bradley, (Clarence Fosmark) entered into the spirit of his part in such a manner as to win golden opinions for himself from the audience and a liberal round of applause.

George Washington Father of his Country, Bangs (Bryan Mudgett) more than fulfilled the high expectations of his many friends. He has a fine voice, a good physique and an unusual stage presence. To Mr. Mudgett is due much of the credit for the performance, he being coach, stage manager, director and a few other things besides. His frequent, "Hold that pose", invariably brought down the house.

Mr. Mudgett as a newspaper reporter was true to life and showed his loyalty to his first "job" by enthusiastically boosting the Current.

Doc Vawter, and "Punch" Miller furnished the comedy for the evening the former in the character of "Uncle Mosley, a faithful slave", and the latter as "Corporal Hooligan", a true blue vet.

Mr. Vawter was certainly a fine "blackface" and one seeing, and hearing him had a little trouble in remembering he was the society man instead of the old plantation darkey he represented. Will Miller made a good Irishman and altho' his brogue was

uncertain his acting was superb. Between the acts, Mr. Vawter, in his character of Uncle Mosley gave a monologue: "What's the use". He was recalled three times, which is proof positive of his popularity.

Another exuberantly funny thing was the duel in pantomime, between Will Miller and the aforesaid darkey.

Garvin Smith, as C. J. Dusenberry, a member of congress, was also highly praised and played his part in a most natural manner, and the same is true of Robert Toffelmire, as Billings and Monroe Christian, as a degenerate Yankee. Christian makes an ideal old man, and played his part well. Taken all in all, the play was by far the best amateur performance ever given in Carlsbad and compares favorably with many professional performances of much greater pretensions.

The members of the company each and all had their parts perfectly and there was a marked absence of that uncertainty that so often mars a performance of this sort.

The company has been urged to give the performance of the same play for the benefit of a local charity and should they consent to do so, a full house would no doubt greet them again. They expect to put the play on at some of the other Valley towns in the immediate future. The benefit netted Co. B something in the neighborhood of \$150.

TERRIBLE EXPLOSION AT DAWSON.

Over Two Hundred Miners Killed at Stag Canyon Mine in Dawson.

The mine from which much of the coal used here comes from at Dawson, this state, was the scene of a terrific explosion at three p. m. Wednesday of mine dust and over two hundred miners are supposed to have met death from the effects of gas generated from the dust though no fire was started.

1913=SCHOOL DAYS=1913

EVERYTHING FOR THE SCHOOL ROOM

BOOKS, WATER COLORS, TABLETS, SANITARY CUPS, PENCILS, PENS, INK, etc.

Our stock is very complete, and we would advise that you make your purchases early, before stock is broken. As school books are sold on a very close margin of profit we must have cash with all Book orders.

The Eddy Drug Store.

The following is a short report of the disaster as sent out by the Associated Press:

According to Mayor Kinney, of Dawson, no cause for the explosion has been learned, and it is believed it will not be known until the miners who are now entombed, half a mile from the entrance, have been rescued and tell their story of the explosion. So far, none of the men rescued had been able to approach the air shaft or any of the workings within the mine which would have proved a means of exit through another shaft, and the fact that none of the other entombed miners has been able to make his way out of the mine, leads to the belief that all have been cut off from every means of exit. The air supply within the mine is now the chief concern of the rescuers, who believe they will be able to reach the interior of the mine by tomorrow night at the latest. So far, all rescuing parties have had to enter the mine equipped with oxygen tanks, the air being so gaseous as to endanger life.

Trinidad, Colo., Oct. 23.—Twenty-two miners had been rescued alive, six bodies had been recovered, twenty-five more had been located and 256 are missing according to information from Dawson received here at 11 o'clock today. The news was given out by C. L. Turner who telephoned from a point near the wrecked mine, at Dawson. The 25 bodies are said to be within sixty feet of the mine entrance.

FOR SALE CHEAP—A lot of second hand furniture. Ohnemus-Weaver Co.

SULZER REMOVED FROM OFFICE BY COURT OF IMPEACHMENT

Is Not Barred From Holding Office in Future, However. Several Counts Against New York Governor Are Voted Out, but he is Convicted on Others

Albany, N. Y., Oct. 17.—William Sulzer no longer is governor of the state of New York. A few minutes before noon today the high court of impeachment, by a vote of 43 to 12, removed him from office. Senator Wende and Judge Cullen excused themselves from voting.

The proposition of disqualifying Sulzer from ever again holding a place of honor or trust in the state was voted down unanimously, with the exception that Judge Cullen again excused himself from recording his vote.

The governor received the news of his removal in silence at the executive mansion, where he had waited all morning to hear the result. He said he might make a statement later.

Prior to the vote on his disqualification and removal, the last four articles of the impeachment charges—five, six, seven and eight—were unanimously voted out.

Court was in session little more than an hour. It was officially adjourned at 12 o'clock.

Martin H. Glynn, of Albany, the acting governor, became governor, Robert F. Wagner, of New York, majority leader of the senate, became lieutenant governor.

No official notice of removal was given Sulzer. A record of the decision of the court was filed with the secretary of state, thus complying with all the legal requirements to remove the governor.

Article 6 charged that the governor committed larceny in speculating with his campaign contributions. Article 5 charged that he prevented a particular witness, Frederick L. Colwell, from attending the sessions of the Frawley

OUT HUNTING—KILLED

T. L. Lallance; Sacramento mission, W. L. Jenkins; Texico, T. I. Beck; Toyah Valley circuit, to be supplied.

Transfers to other conferences announced by the bishop follow:

H. M. Bruce, Pacific; J. W. Campbell and H. L. Wheeler, Arkansas; Seba Kirkpatrick, Central Texas; J. A. Ray and Robin Gould, Los Angeles; A. G. Shapiand, western North Carolina.

W. EDWARDS KILLING

Further Particulars About the Sad Ending of Well Known Eddy County Boy.

A letter from Jerome Edwards, to W. E. Thayer, gives the particulars of the death of Will Edwards as follows:

"The man who did the killing is Mr. Brice, a wealthy merchant, who says he mistook Will for some one else, who he thought was trying to rob his safe. Will was unarmed and in his shirt sleeves, and he had been around with Will and knew Will was unarmed. I was with Willie a short time before it happened and know he was not armed. When I got to him he was still warm. I cut the front of his two shirts open—they were soaked in blood—and I could see the ball had passed through and came out under the left breast. The man claims he shot three times, twice to scare him away, shooting through the wall, and then shot through the lock in the door and that shot hit Willie in the back.

We shipped the body to Flagstaff and gave it a nice burial. The only ones present were his wife, two boys, Marion and myself."

This is all that is known of the sad affair. The many friends of the family in this section deeply regret his untimely death.

SIRE AND SONS.

President Wilson is said to date on Charlotte russe, Vice President Marshall loves cherry pie, and Secretary Bryan is fond of cantaloupe.

Dr. Paul S. Reinsch, chosen as the new American minister to China, has been professor of political science at the University of Wisconsin since 1901. He was born in Milwaukee in 1860 and was educated in Berlin, Rome and Paris.

CARLSBAD, NEW MEXICO

Another Fatal Accident From Careless Handling of Fire Arms. Popular Government Official the Victim—Dr. Hammar, of Roswell.

Dr. Alfred G. Hammar, government etomologist stationed at Roswell was accidentally shot and killed while out hunting on the north side of the Capitan mountain last week Wednesday afternoon about 1 o'clock but the news did not reach Roswell until Friday evening, when Messrs Cyrus J. Leland, Gen. Davidson and Page E. Hudson arrived with the body. Hammar was shot through the bowels with a bullet from the gun of Mr. Leland, who was not aware of the presence of his companion in the vicinity where he fired to kill a deer. As the injured companion fell to the ground he gave a scream and Mr. Leland rushed to his side, only to find him breathing his last. He was unconscious when Mr. Leland reached him and he passed away without saying a word.

At the time the Messrs. Davidson and Hudson, the other two members of the hunting party, were at camp some miles distant and Mr. Leland, realizing that he could do nothing for his dead companion, started for the camp to secure assistance to get the body back. Upon returning to get the body, Mr. Leland was unable to locate it and despite a vigorous search they were compelled to return to the camp that night without the body. The next morning further assistance was secured and after some effort the body was located. It was packed to the camp and from there taken on horseback to their automobile, which they had left at the foot of the mountains. The start back to the city was then made and as stated, the three men arrived here at eight o'clock Friday night with the body of their dead companion.

Mr. Leland's Story.

Upon his arrival at Roswell Friday night Mr. Leland gave out the following story of the accident for publication:

"On Wednesday morning Dr. Hammar and I started for a hunt together up the mountain. We went into a canyon. Then we separated before we crossed over a ridge and he was about 200 yards north of me.

We could not see each other, as it was a brushy, bushy place, and I had crossed the ridge and started down the other side—from west to the east—our camp was directly north. It was then about 1 p. m., we had staggered back to camp. It was some five miles to camp.

"After I had started down the mountain and gotten down some fifty yards, he whistled—the whistle was our signal to find out just where each was located.

"I answered his whistle, then he whistled a second time, and I noted that he was further down the mountain going down. I was going down too.

"I had gone down some 200 yards from the first time he whistled and all of a sudden I heard something rustle in some brush from the direction I came.

"The impression I had gained from the last whistle he gave was that he was 200 yards north of me going down the mountain. As I looked back I saw two deer running through the brush and I shot. I heard him yell, and of course I ran to where the yell seemed to come from.

"About 150 yards I found him. He was dying when I got to him. He was unconscious, and never said a word, although it was evident he was not suffering.

"I stayed with him until I was sure I could do nothing—and his heart had quit beating. I then put my coat under his head for a pillow and his hat over his face to protect it from the sun and started back to camp. It was then about two o'clock.

"Only Ben Davidson and Mr. Hudson were at the camp when I got there. Mr. Norman had taken the horses to the pasture some two miles away from the camp at noon.

"We talked it over, and decided that Ben should get the horses and we would wait for him at the camp until he got back. We waited until 4 o'clock that afternoon.

"In the meantime we broke camp and got ready to start back to town. When he didn't get there at four p. m.

(CONTINUED ON LAST PAGE.)

Our Query and Reply Department

Is a man born in this country of French parents subject to the military laws of France—that is, is he subject to military duty in France if called upon the same as those born in France?

Any person born in the United States, irrespective of the nationality of his parents, may become an American citizen when he comes of age by signing his intention so to do before a notary public. In such case he is not liable to military duty in any foreign country. If, however, he has made no move to obtain American citizenship he is subject to the laws of the land of which his father is a native.

What has become of Zola, the French novelist?

He died in 1902 from accidental asphyxiation.

How many passengers was the New York subway built to carry, and how many does it carry?

It was built to carry 400,000 passengers daily, but it is now carrying in the vicinity of 1,000,000. In order to handle this enormous increase it has been found necessary to lengthen the station platforms, increase the number of cars on each train and during the rush hours fill the trains to their utmost capacity.

How many people enrolled in organizations have endorsed woman suffrage?

Roughly speaking, the organizations—state, national and international—which have endorsed equal suffrage aggregate a membership of over 25,000,000.

What is the reason that the inauguration of the president of the United States always falls on March 4?

As a matter of fact it does not. In 1789 congress decreed that the first president should be inaugurated as chief executive on the first Wednesday in March. The day fell on the 4th, and that date has been inauguration day ever since except when March 4 has fallen on a Sunday, when the ceremonies are held on the 14th. This occurred when President Rutherford B. Hayes was inaugurated.

What states have abolished capital punishment?

Rhode Island, Maine, Michigan, Kansas and Wisconsin. California, Iowa and New York soon rescinded it. In Utah a conditional prohibition may be enacted instead of outlawing.

What is the world's wonder? Is it man, the sea, the sky, the earth, the sun, the moon, the stars, the clouds, the wind, the rain, the snow, the ice, the fire, the lightning, the thunder, the earthquake, the volcano, the hurricane, the cyclone, the tornado, the comet, the meteor, the asteroid, the planet, the star, the galaxy, the universe?

It is the human mind. It is the only wonder that we know of. It is the only wonder that can create wonders. It is the only wonder that can conquer death. It is the only wonder that can create a new world. It is the only wonder that can create a new man. It is the only wonder that can create a new God. It is the only wonder that can create a new universe.

What is the exact number of cubic feet in one ton of coal?

A ton of hard coal contains on the average about thirty-five cubic feet. Of course these figures vary slightly according to the bulkiness of a particular size of coal, the egg coal, for instance, occupying more space than the pea coal.

Is it true that an iceboat actually sails faster than the wind?

It is paradoxical that a contrivance driven by the wind can go faster than the wind that drives it, but such is the case with the ice yacht. It sails faster than the wind when sailing at a sharp angle to it. The wind strikes the sails slantwise, and no matter how fast the boat goes its speed does not diminish the pressure on the sail. The only limit to the speed is the friction engendered by wind on the sail and on the runners. When, on the other course, the boat sails directly before the wind she is like a balloon and drifts along at about the speed of the wind itself.

Where did President Garfield die?

President Garfield died in the cottage of C. J. Franklin at Elberon, N. J., near Long Branch, where he was taken in the summer of 1881 following his shooting.

What is a good soldering flux for the amateur to use—i. e., something that will cause the solder to unite with the metal operated upon?

The professional plumber has several soldering fluxes that should work for the amateur. Of these hydrochloric acid with a little zinc added to form a chloride is used chiefly in soft soldering. Powdered rosin sprinkled on the surface of the metal serves as a good flux, and tallow is sometimes used for the same purpose. If you have copper to mend you should use either borax or sal ammoniac before applying the solder.

What is the meaning of the initiative as applied to politics?

By the initiative a proposed law may be submitted directly to the people on petition from a certain number of voters.

Must a president of the United States be born of American born parents or is it sufficient if his parents are naturalized Americans?

To be president one must have been born in the United States and be an American citizen. It does not matter whether his parents are American.

Was General A. E. Burnside of civil war fame ever governor of Rhode Island?

He was governor from 1861 to 1868 and United States senator from 1875 to 1881. He was born in Liberty, Ohio county, Ind.

Worn Out?

No doubt you are, if you suffer from any of the numerous ailments to which all women are subject. Headache, backache, sideache, nervousness, weak, tired feeling, are some of the symptoms, and you must rid yourself of them in order to feel well. Thousands of women, who have been benefited by this remedy, urge you to

TAKE

Cardui

The Woman's Tonic

Mrs. Sylvania Woods, of Clifton Mills, Ky., says: "Before taking Cardui, I was, at times, so weak I could hardly walk, and the pain in my back and head nearly killed me. After taking three bottles of Cardui, the pains disappeared. Now I feel as well as I ever did. Every suffering woman should try Cardui." Get a bottle today. E-68

THE ROAD.

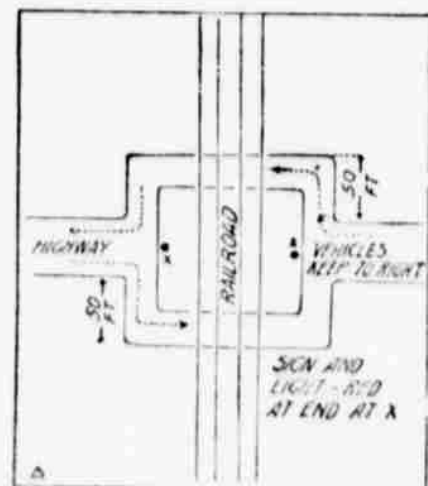

I found you an odd
Of the country road,
The lumpy road
And the bumpy road
That jolts the wagon and spills the
load;
Mud to the hubs when the rain
comes down,
Filled with ruts when the fields are
brown,
And the sun is hot and the air is
dry,
It's clogged with gravel and packed
with sand,
So built and graded and laid and
planned
That it takes a team
And sometimes two
To do the work one horse should do.
It racks the wagons with jolts and
jars,
It ruins horses and mortars,
Keeps back crops from the market
place,
Piles up debts on the farmer's place,
The old time road is a plain dis-
grace.
But the modern road is a different
thing,
A worthy theme for the bard to
sing,
For smoother weather,
For easier weather,
Smooth and dustless and good to
see,
And graded right, as a road should
be,
It's built and graded and laid and
planned,
A thing of beauty, a joy forever,
That lasts for ever, O O Examiner.

NOVEL SUGGESTION TO AVOID MANY ACCIDENTS

Plan Would Necessitate Slow Speed of Autos When Crossing Tracks.

In order to avoid accidents at rail road crossings, which have claimed such a large death toll in recent months, a novel suggestion has been put forth which it appears will at least lessen the danger of a collision between a train and passing carriages or automobiles.

If the highway crossings were divided and offset with sharp turns at the track, as per the sketch accompanying the crossing could not be made at high speed.

speed. Thus the driver would be forced to slow down to see a train and stop if he used his senses at all.

In many instances it is impossible to find a railroad crossing and avoid it. The crossing is often a blind spot and the driver is often forced to stop and wait for a train to pass. This is a dangerous situation and the proposed plan would avoid it.

Col. J. G. Smith of the National Highway Traffic Safety Council reports that the number of automobile accidents in New York state alone in 1914 up to Aug. 1 has been seventy as compared with fifty-two last year and seventy-two seriously injured as against fifty-eight in 1912. F. A. Brown of Detroit says in the current number of the Spectator that "more than 10 per cent of automobile accidents are due to carelessness."

NEW TUBERCULIN IS A REAL CURE

Plorkowski Turtle Culture Is Proved to Have Merit,

PHYSICIANS MAKE REPORT.

Drs. Beattie and Myers Give Convincing Evidence That Tuberculosis in Early Stages Yields to New Treatment, Which Takes From Six to Nine Months—No Toxic Effects.

In the current issue of the New York Medical Journal Drs. William J. Beattie and Edward E. Myers make a full report on the "Relative Value of Turtle Tuberculin in the Treatment of Tuberculosis."

Dr. Beattie on his arrival in this country a few months ago brought with him a quantity of tuberculin direct from Plorkowski, in Berlin. He thoroughly instructed Dr. Myers, a New York physician, in its use and left a quantity of the culture with him. Since that time the two have been working quietly, but separately, with the tuberculin, using extreme care to see that a premature report of what they were doing did not spoil their work.

Dr. Myers has now published the full statement of his results in conjunction with but entirely independent of the observations made by Dr. Beattie. Both physicians are certain that the Plorkowski culture has very definite and certain merit.

What Tuberculin Is.

According to the report, "Turtle tuberculin is a clear, port wine reddish brown liquid, containing the products of the tubercle bacillus of a certain species of turtle."

Recent investigations with turtle tuberculin in Plorkowski's laboratory, made by Dr. Beattie, have shown that tubercle bacilli when grown in the blood serum of turtles (cold blooded animals) change quite distinctly its bacteriological characteristics, particularly in lessening its virulence and at the same time increasing its power to form antibodies in the blood of tuberculous patients.

The report says: "Numerous experiments on animals and the treatment of a large number of cases have confirmed the absence of any toxic effects. Owing to the careful methods of preparation of this remedy there have hitherto been no instances of inflammation or abscess; there have only been slight irritations which subsided very satisfactorily."

"The most striking clinical results have been the rapid subsidence of fever, night sweats, pain in the chest and other pains. Very soon there is an increase in weight, appetite returns, and the feeling of fatigue disappears."

Not all cases of tuberculosis are suited to this treatment. Advanced cases and moribund types of the disease seldom show much improvement. The more suitable cases are at the beginning of lung, gland, throat and joint varieties.

About twelve hours after the injection the patient experiences a feeling of lassitude and hunger, the temperature rises from 99 degrees to 100 degrees Fahrenheit, the appetite diminishes, but at the end of twenty-four hours the patient feels as well as before the injection.

Improvement Often Rapid.

In gland cases improvement is noted about three weeks after the first injection. "The glands gradually become smaller, and where there is a fluid discharge, the secretion progressively diminishes, the swelling becomes smaller, and the lungs finally close up and the temperature gradually returns to normal. The patient gains weight, his appetite improves, and the feeling of lassitude disappears. The feeling of lassitude disappears, the feeling of lassitude disappears, the feeling of lassitude disappears."

Joint cases improve in about four weeks, and this is followed by an increase in motion, and a decrease of swelling and pain. The joint gradually returns to normal, the patient gains weight, his appetite improves, and the feeling of lassitude disappears. The feeling of lassitude disappears, the feeling of lassitude disappears, the feeling of lassitude disappears."

"The treatment of the disease continued until all the symptoms of the disease disappear, and the patient is able to lead a normal life. The duration of the treatment varies with the stage of the disease and the type of the case. The treatment is usually continued for six to nine months."

"The treatment of the disease is due to the direct action of the tuberculin and is not due to the action of the tuberculin on the immune system. The treatment is due to the direct action of the tuberculin and is not due to the action of the tuberculin on the immune system. The treatment is due to the direct action of the tuberculin and is not due to the action of the tuberculin on the immune system."

Probably Got Tired.

A peculiar ailment, has struck the potato crop in the vicinity of Menominee, Wis. The vines, which appeared exceptionally healthy, suddenly wilted and died. A careful examination failed to show cause. The crop of potatoes is small, most of the hills containing but three or four potatoes, but all of them are well developed and of exceptionally fine quality.

This Stable is located near Hotel Schlitz on Mermod Street east of Masonic Hall and Carlsbad Furn. Co. The best of horses that are guaranteed to stand a reasonable day's drive at all times and no others kept.

Fine Rigs Always on Hand.

We Have an Especially Fine Lot of Gentle Saddle Horses

CALUMET BAKING POWDER

The cook is happy, the other members of the family are happy—appetites sharpen, things brighten up generally. And Calumet Baking Powder is responsible for it all. For Calumet never fails. Its wonderful leavening qualities insure perfectly shortened, faultlessly raised bakes. Cannot be compared with other baking powders, which promise without performing. Even a beginner in cooking gets delightful results with this never-failing Calumet Baking Powder. Your grocer knows. Ask him.

RECEIVED HIGHEST AWARDS
World's Pure Food Exposition, Chicago, Ill.
Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

Calumet Baking Powder Co. Chicago

FOR SALE CHEAP

IF SOLD AT ONCE

- 1 Team of Mules, weight 2,100 pounds.
- 1 Buggy Horse, weight 1,650 pounds.
- 1 Mare and Colt.
- 2 Sets Tag Harness.
- 3 Fresnos.
- 2 Scrapers.
- 2 Road Ploughs.
- 1 Wagon.
- 4 Tents.
- 1 24x30 Fly Tent.
- 1 Saddle.

Owner: W. D. Mahoney

Worried children are unhappy, puny and sickly. They can't be otherwise while worms eat away their strength and vitality. A few doses of WHITE'S CREAM ERMIFUGE performs a marvelous transformation. Cheerfulness, strength and the rosy bloom of health speedily return. Price 25c per bottle. Sold by all druggists.

FOR SALE.—Team eight year old geldings, gentle and kind to work. Inquire of Jim Baker.

FOR SALE.—A horse and buggy. Will be sold together or separately. MRS. JOHN MERCHANT.

The "miracle" wheat, about which a good deal has been said in the papers a couple of years ago, is said by some who have been investigating the matter to have come originally from Egypt. It being taken from that country to Russia and thence to Alaska, whence it was brought to this country. One Oregon farmer who has been giving this wheat a test reports a yield of eighty-four bushels per acre, but he attributes this yield more largely to the character of the soil in which it was grown and the special care given it than any factor saving of the miracle. In this case the wheat was many headed and grew to a height of about five feet.

HARMONY HAIR BEAUTIFIER

It's just what its name implies — just make the hair glossy, and lustrous, and more beautiful — just to make it easier to dress, and more natural to fall easily and gracefully in the wavy lines and folds of the coiffure, just give that delightful fresh and cool effect, and leave a lingering, delicate, elusive perfume.

Harmony

A liquid shampoo to keep the hair clean, an instantaneous rich, foaming lather, perfect for the hair and scalp. It is washed off just as quickly as a few moments.

- It leaves no lumps or stickiness.
- Just a refreshing sense of cool, sweet.
- Just a dainty, pleasant and clean fragrance.

Both in odd-shaped ornamental bottles, with special Harmony Hair Beautifier. \$1.00; Harmony Hair Shampoo. \$1.00.

Both guaranteed to please you, or your money refunded.

Sold only by the more than 7000 Rexall Stores — The World's Largest Chain of Drug Stores — which are found in every city, town and village. Made in our own big Boston Laboratories, where a full line of DULCE and BOUQUET JEANICE Perfumes and Toilet Preparations are also made.

Sold in this community only at

[This matter must not be reprinted without special permission.]

Nine times out of ten the pupil who causes most trouble in a home is the one that runs wild at home—that is, has not been brought up to have a proper regard for parental authority and discipline.

Every farm should have the plan of rice this fall but only 1000 a good late fall and early spring rains will do the trick and a few more will be added in the spring and a harvest of 1000000 of wheat, corn, soybeans, etc. in need.

Onions, potatoes and other root crops keep best in cellars in which the temperature is a few degrees above the freezing point. Squashes and cucumbers, however, will keep longer if they are put where it is dry and rather warm, a condition which is usually found in the pantry.

For the northern portion of the corn belt, where it is nip and tuck to mature a crop between spring and fall frosts, it is an important point to select for seed ears those that are low growing and early maturing. This means that the succeeding crop will be of this general character.

Cowhorn turnips are not only valuable when placed under as a green manure, but they were down deep into the soil and tend to make it loose and friable. Furthermore, they make use of potash and phosphorus and, when grown in place cannot rot, said that their decay is useful to the soil.

In estimating the returns from any given prospective enterprise it is usual to opt for the highest estimate in two. In this case the actual results, and often exceed the more moderate expectations and satisfaction will be felt, while if the returns are considerably less than the higher estimate there is sure to be disappointment.

The president of an electric company who lives near Libertyville, Ill., had an exhibition this year at the Lake County fair a display of vegetables that he had grown with the aid of electrical currents, which were sent through the soil by wires strung at intervals. The vegetables that are produced in this extraordinary manner are remarkable in shape and flavor.

Some pretty good authorities have even held that the fact that an insect is not covered close to the tip when hatching is no reason for discarding it for seed purposes, their contention being that the plant started out to grow by a larger and more numerous set of roots than the soil and weather conditions permitted. This idea is not in accordance with the advice usually given as to sowing for seed uses only those that are filled with kernels to and over the tip, but there seems to be some reason in it nevertheless.

Her name was Mrs. Wilkins-Harding-Grant-McArthur-Stone.
For every little husband has
A hyphen all his own.

"All ointments are soothing, aren't they?"
 "Not all. Disappointments aren't."—
 Boston Transcript.

They sat upon the window sill.
We heard a sudden shout—
For he and she, 'twas plain to see,
Had had a falling out.
—Spokane Spokesman-Review.

"Well, Henry," said the fair maid, "did popper ask you if you could support me in the style to which I am accustomed?"

"No, dear," said Henry. "He merely informed me that he couldn't and gave me his blessing."—Judge.

If we spoke nothing but the truth
And lying brought disgrace
I am afraid this world, in sooth,
Would be a quiet place.

—Exchange.

"Will you marry me?"
 "Oh, give me time to think. This is so sudden."
 "Well, don't take long. I have a taxicab waiting."—Pele Melo.

"Does Jinks live in an aristocratic section of the city?"

"Yes. There is not an hour during the day or night when the air is free from the odor of burning gasoline."—*Buffalo Express.*

A long whip never made a man a good driver.

A dirty milker is worse than a dirty cook. To wet the hands with the milk when milking is a dirty habit.

If we keep stock enough on our farms to consume our surplus hay, grain and straw, especially the straw, the fertility of our farms will not become exhausted as soon as it otherwise would.

The back yard goat is not likely to put the cow out of business. Nevertheless there is a place for the milk goat.

Nowadays a farmer may sell a pair of mules for enough to buy an automobile, but nine times out of ten he would do better to keep the mules.

Ewes intended for breeders should be carefully looked after when the cool weather starts in.
—Farm Journal

Precautions to Observe to Prevent Spoiling of Silage.

There is only one way to avoid all losses of silage on top. And that is to begin making silage as early as the season permits. One of the best is not desiccating, and it should be done to reduce the incidence of rotting silage to a minimum of all possible inconvenience. It seems that, even here, *metformin* should be used during the top three or four feet on inside. There is a strong tendency for the top to dry out at once in a very dry time. The application of water over the surface for several days after the silo is filled will tend to keep the silage wet on top. The formation of a thin layer of wet, slung, moist material forms the seal which effectively prevents the silage from rotting underneath.

After the silo has been filled and tramped for the last time the surface should not be disturbed by further tramping. This would tend to disturb the layer of moldy material and thus let air get down into the good silage underneath. If the tramping has been properly done the silage will not draw away from the wall. In many cases

The Jersey was the first name of any of the dairy breeds. The story is the best type of Jersey of today is an ideal one. Like excellent well up the front, full, rounded, level as such, with teats placed and firm, and it leaves nothing to be desired excepting some increase in milk and fat. The Jersey is the very embodiment of dairy conformation, and she stands tall to the top. The pure line of Jersey has shown a typical specimen of the breed.

The technology has been to inject treatment fluid in the middle. This results in the water system much more than the sides and the sludge draws out of from the wall, allowing air to pass down the side like of six feet. This always means a great deal of sludge being brought in. Wing of Ohio reports the use of half a barrel of salt-water over the surface as giving good results in reducing the amount of waste on top.

When a silo has been practically filled with an early crop or one that must be harvested early in order to save it the same method of sealing the surface should be used. When ready to refill later with Kaffir or other late crops the spoiled material on the surface should be removed. Three or four different crops may be placed in the silo in this manner.

Fast-Growing Pig.—Pigs that are kept growing every day of their lives produce the weight at least cost than those that are allowed to grow along slowly and then finally fattened for market, says the Orange Judd Farmer. The rapid growing pig produces a better quality of meat that meets the requirements of the present day consumers. The slow growing pig after being fattened for market is simply a rim of lean meat overlaid with fat which has cost heavily to produce. The rapid growing pig produces a large amount of lean meat intermingled with fat, which is produced cheaply in a short period of time. The rapid growing pig attains popular market weights in a shorter time and can be disposed of sooner so as to avoid many risks which may have to be met with the slow growing pigs, both in the possibility of a decline in prices and meeting with disease.

THE roses for Love's sweetheart,
And for her dear sake
Love, self denying,
All the thorns will take.
"Sweet be her dreaming
When my heart shall break!"

II.
H EAVEN for Love's sweetheart,
 For Love the lowly sod;
 Rose wreaths for her forehead,
 For Love the chastening rod;
 The darkness be his portion—
 Here be the light of God
 —Frank L. Stanton

Finlay-Pratt Hardware Co.

- Lowell

Time goes on, and the happy years
are dead,
And one by one the merry hearts
are fled.
Silent now is the wild and lonely
glen.
Where the bright, glad laugh will
echo ne'er again.
Only dreaming of days gone by in
my heart I hear
Loving voices of the past once
more
And the sound of the dear old mu-
sic
Soft and sweet, as in days of yore—
unidentified.

FILL this cup to me made up of love—
 A witness of her golden sex the youth-
 One faithful—
 For whom the better, comments and
 And the whole have given.
 A turn, no fact that this the all, 'the loss
 Of earth than heaven.

Her every tone is music's own, like those
of morning birds,
And something more than melody dwells
ever in her words
The cottage of her heart are they, and
from her lips each flows
As one may see the burthened bee forth
issue from the rose

Affections are as thoughts to her, the
measures of her hours
Her feelings have the fragrant, the
freshness of young flowers,
And lovely passions, changing oft, so fill
her she appears
The fringe of themselves by turns, the
idol of past years.

Of her bright face one glance will trace
a picture on the brain,
And of her voice in echoing hearts a
sound must long remain,
But memory such as mine of her so very
much endears
When death is nigh my latest sigh will
not be life's, but hers.

I fill this cup to one made up of loveliness alone,
A woman of her gentle sex the seeming paragon
Her health, and would on earth there stood some more of such a frame
That life might be all poetry and weariness a name.
— Edward Costa Pinkney.

Many farmers make the mistake of moving to town in their advanced years when they have accumulated a sufficient competence to guard them against the demands of the rainy day. Too often this move is accompanied by a radical change from much to practically no physical exercise, which has in many cases disastrous physical results. Added to this is the further fact that many such farmers, not realizing the cost of privileges which the town affords, are against any improvements which increase their taxes and as a result of this acquire a reputation of being fossils and tightwads because they do not like to see their taxes increase. On the farm there is usually something which the retired farmer will think needs doing, and in the doing of it he will be the better physically and in every other way.

The Carlsbad Current

Wm. H. Mullins, Editor and Manager

Carlsbad, N. M. Friday, Oct. 24, 1913.

Subscription \$1.50 per annum

Official Paper of Town of Carlsbad

OFFICIAL PAPER EDDY COUNTY

Subscribers in arrears for the Current are notified that the paper will be discontinued to their address unless payment is made within ten days after receipt of bill or notice that the paid time has expired.

Just one year ago today the Current installed a new linotype and at that time promised a better and larger paper for the coming year. How well the promise was kept we leave to our readers to judge. The subscription price has remained the same but the quantity and quality of the reading matter has been improved in about double that of the former Current. There is this we will promise for the coming year: The Current will be better in many ways but not larger and will endeavor to hold the subscription at the low rate of only \$1.50 even though beefsteak has more than doubled in price and all other commodities have increased so much that it is impossible to print a good paper at the old prices and barely linger, let alone live as should the overworked printers. However, no paper will be sent without payment in advance for it is difficult to live on the low price even when it is paid in advance.

Ladies Man While Away From Home.

The following extract from the New Mexican of the Masonic Grand lodge entertainment is of interest here in Carlsbad:

A. N. Pratt, of Carlsbad, then performed a difficult feat. A gray haired bachelor is he and yet he toasted "The Ladies." His sallies raised gales of laughter.

We always did think Pratt would be a ladies' man if he ever got away from home where he would not be afraid of exciting jealousy.

"Winter Cold Holds Half of Land."

is one of the headlines of a city daily paper. And this when the coldest thermometer at the reclamation office in Carlsbad has registered was last Sunday morning 37 above zero, or about six degrees above the freezing point. Vines and flowers are still growing green and fresh in the land of sunshine.

The repairs on the road north of town to connect the farms country with the county seat have of late been completed until the road from town for ten miles down the valley is as good as any road in the country. The county road board happens to be composed of men who travel the roads and have good ideas of the portions most necessary to work, but on account of lack of funds the work is necessarily not as fast as the members of the board would like to push it along. The board has paid many old debts and is at present free from debt and will be able to do more next season than during the past. People are inclined to expect too much from the board, but when it is recalled that the members serve for no compensation whatever and give much valuable time to the inspection and superintendence of road work and funds are limited there should be a degree of patience with the board and more of a disposition to assist than to criticize in this the most important and valuable work of the county.

FORTUNATE.

New Mexico is fortunate in having two such men as A. A. Jones and H. B. Fergusson in Washington. Both are in accord with the administration, and both are in positions where they can do much good for the state of New Mexico. Mr. Jones is first assistant secretary of the interior and, for some months past, has been acting secretary of the department which has charge of the survey, management and disposition of the public lands, the Indian geological survey, the reclamation service, the bureau of mines and other matters of vital and direct interest to New Mexico. The first assistant secretary of the interior, the position which Mr. Jones holds, has direct supervision over the general land office, the Indian office, the general land office, the bureau of education and the bureau of mines. The patent office and the other branches of the department of the interior are looked after by another assistant.

Of the most vital importance to New Mexico is the disposition of the public lands. Heretofore the conditions which obtain in New Mexico have not been understood in the department of the interior or, if they have been understood, no attempt has been made

to meet these conditions and the consequence has been that thousands of settlers who came to New Mexico and took up land have been obliged to abandon their claims and leave the state. Regulations were rigidly enforced and many entries were cancelled when settlers were doing their best to comply with the requirements. Mr. Jones, through his long residence in New Mexico, has acquired a thorough knowledge of conditions in the southwest and his attitude may readily be seen from the position which he has taken in the matter of granting government land to the states in the southwest for the construction, repair and maintenance of public roads.

Mr. Fergusson is also in a position to be of great service to the people of New Mexico. He is a member of the house committee on public lands, the most important of the house committees so far as the interests of New Mexico are concerned. As a member of that committee, he introduced the bill recommended by Mr. Jones for the granting of 250,000 acres of land to each of eight states in the Rocky mountain region for the construction, repair, and maintenance of public roads. This land should bring not less than a million dollars and if the value be measured by the price which lands belonging to the state, in the eastern part of New Mexico, recently brought at public auction, not less than five million dollars will be realized from the sale of lands which this bill proposes to grant.

It is unfortunate that New Mexico has no representative in the senate in accord with the administration. The Eagle called attention to the advantage to be gained by the election of a democrat to the senate of the United States early last winter, but partisanship prevented the election of a democrat, notwithstanding the fact that every interest of New Mexico, except partisan political interest, demanded the election of a man in accord with the policies of the administration. As it is, New Mexico is going to get more than it ever did under republican rule but it might have fared better with a democrat in the senate to look after the interests of New Mexico there.—Santa Fe Eagle.

The severe drought which has prevailed the past summer in many sections has been hard on the new seedling of alfalfa along with other crops. Because of this it will be a good idea to omit the last cutting that is often made, for the plants will need winter protection all the more because of lessened vigor and depth of root.

Not all mares are out of commission as producers of good colts when they reach the age of fourteen or sixteen years. A friend at whose farm the writer happened to call the other day pointed out a mare that was twenty-three years old which had by her side as handsome and vigorous a colt as one could desire. In fact, it was by all odds the best looking youngster on the place and was classy enough to take a prize at a county fair.

When the American hired man kicks on his \$35 a month, board, washing, horse and buggy to take his best girl a riding, etc., he might be reminded of the fact that in the province of Shan-tung, China, the hired man's wages are \$3 a year. A day laborer receives 10 cents a day and the farm owner still less. The food used by the laboring man consists of sweet potatoes, beans, wheat products and vegetables, costing on the average about 25 cents a day.

As a result of the almost country-wide drought and the greatly reduced acreage planted to potatoes, following the overproduction of last season, the potato crop this year bids fair to be little more than half of what it was last year. For this reason it will be well to save the small potatoes at digging time, for there is likely to be a strong demand for them for seed next spring. Instead of going begging at 20 cents a bushel, as they did last spring, potatoes are more likely to be retelling at from \$1.50 to \$2 before another year rolls around.

GOT RID OF THE LOAFERS.

Down in Douglas county, Neb., west of Omaha, some of the farmers who kept cows were not getting the returns they thought they ought to, considering the work they put in, so they formed a cow testing association. The proprietors of twenty-one herds, including 435 cows, united in the formation of this association and hired a man to go from farm to farm to look after the work of testing the samples of milk. He also weighed the feed given each cow and recorded its cost. One day of each month was spent by the tester on the farm of each member of the association. When the year was over the results brought to light by this systematic testing opened the eyes of the members of the association. It was found that the best ten cows of the 435 earned a net profit during the year of \$1,032, while the poorest ten cows showed a profit of but \$57.32. Among the best ten cows the yearly profit ranged from \$123 for the best cow down to \$92.02 for the tenth best. In the batch of the poorest ten cows the returns varied from a profit of \$13.57 to an actual loss of \$13.73. Another instructive fact brought out was that the ten cows that gave the \$1,032 profit ate but little more food and got no better care in other respects than the ten cows that made the poorest showing. Before the first year was up with this association eighty-five silos were put up by the different members, they having discovered that milk can be produced by silage cheaper than in any other way. One of the mysteries of American farm management is that in so many sections patrons of creameries will shun along from year to year milking good, bad and indifferent cows and paying little or no attention to whether this or that cow is making \$10 or \$100 a year or whether, in fact, she is being kept at an actual loss. It would be well if creamery managers as well as those in charge of the dairy departments of the state agricultural colleges would impress upon the farmers in their territory the necessity of forming such cow testing associations and weeding out the loafers, as did the farmers in Douglas county, Neb.

ABOUT GOOD SEED CORN.

In probably every section of the corn belt there are this year those who have had the job of tending and who will pick little more than a half of the yield of corn that the land ought to have produced simply because of carelessness in securing the supply of seed ears last fall or carelessness in caring for them after they were gathered. There seems to be no getting around this fact in connection with the seed corn business—that if the supply of seed is gathered before Oct. 1, dried out thoroughly before cold weather comes on and is stored in a place where it will not gather dampness during the winter it is sure to show strong germination powers. There is no question about the fact stated. The bulk of the trouble that corn growers have with poor seed is due to trusting to luck and selecting the seed ears at husking time or storing them before they are properly dried or where they will gather moisture and have the germ weakened or killed by subsequent freezing. These are the A, B, and C of the seed corn question and ought not to be difficult for any one to understand.

ONE BIG LEAK.

Owners of cream separators should find the following facts presented by the Indiana state experiment station suggestive: "Some very exhaustive tests were carried on recently at the Purdue experiment station, showing that there are tremendous losses from the incorrect operation of cream separators. In these tests it was shown that incorrect separator speed will cost the dairyman who has twenty cows a large amount of money in a year. The average cow produces 3,500 pounds of milk, or 70,000 pounds for the herd. Run through a separator correctly operated, the butter fat would amount to 2,554 pounds, or 3,446 pounds of butter, which at 30 cents a pound amounts to \$1,033.80." If a separator is operated at the lower "guess" rate of speed, as shown in the Purdue tests, only 1,930 pounds of butter would have been produced. At the same rate per pound this would bring the dairyman only \$579.70, or a loss in a single year of \$524.10. This loss is sustained simply because of the need of a cream separator speed indicator—because the dairyman guesses at the speed of his separator.

APPEARANCES DECEITFUL.

The mere fact that the wheel of the windmill is revolving cannot always be taken as conclusive evidence that water is flowing out of the spout of the pump. The truth of this statement was realized the other day by a central state farmer who had some seven-acre cattle in a pasture some distance from the house, the water supply of which was furnished by a windmill. He noticed from day to day that the wheel was turning all right, but on going to the pasture later he found the water tank bare as a board and every animal dead from thirst. In some way the belt between the pump and the mill had become disconnected, a fact that would not be discovered except one were close at hand. Appearances are sometimes deceptive. A revolving wheel may not mean water in the tank.

COMPANY "B" OFFICIAL REPORT OF INSPECTION.

The original official report of the inspection of Company "B" by Lt. Col. Frederick Perkins, 20th Inf., U. S. Army, on the 10th day of April last, has been received by Capt. Dean from the Adjutant General's office for the information of the company officers and the company in general. Some extracts from the report will be of interest to the public in general, and especially those interested in the company, showing as it does the impression made by our local militia company when viewed by a regular army officer of wide experience and long service in the army.

It is recalled by the local officers that Col. Perkins made the most thorough and detailed inspection of the Company ever made by any inspecting officer, and that favorable comments are made by the Colonel after such a minute inspection is very gratifying to the officers and men of the Company.

Under the various sub headings in the printed form of the report, the comments of Col. Perkins are as follows:

Condition of Small Arms: Very good; Arms are thoroughly cleaned and well cared for.

Formation of Organization: Very clean throughout, arms, equipment and clothing.

Alignment and steadiness in rank: Very good;

The formation was prompt and orderly.

Efficiency of Organization: This company is well officered and manned;

The enlisted personnel is extremely good.

Remarks: Officers and men presented a clean and soldierly appearance at inspection and appeared to take much interest in their company. The equipments were complete throughout.

Drill: The company drilled in the street.

The drill in the school of the soldier and company was very good.

The property was very neatly and systematically arranged for inspection.

The general tone of the company throughout showed a good administration on the part of the company commander.

Comparative Comment: Considering attendance, drill, personnel, cleanliness and condition of arms, clothing and equipments at inspection, this company is rated as follows:

(a) General efficiency and company administration: First.

(b) Attendance: Third.

(c) Drill: Second.

NOTICE

Department of the Interior, United States Land Office, Roswell, New Mexico.

October, 15, 1913.

On September 8, 1913, the governor of New Mexico made application under the provisions of the act of August, 18, 1894 (28 Stats. 394) for the execution and completion of the public land surveys in the following townships and ranges:

All of Sections 1-4-5-8-9-10-11-12-13-14-15-17-18-19-24-25-30 in Twp. 21 S. Range 33 E.

All of Sections 1-3-4-5-6-7-8-9-10-11-12-14-15-17-18-19-25-27-30, and 33 in Twp. 21 S. R. 34 E.

All of Sections 3-4-5-6-7-18-19-30-33 and 34 in Twp. 22 S., Range 33 E.

All of Sections 3-11-14-23-26-31-33 and 34 in Twp. 22 S. R. 34 E.

All of Sections 1-12-13-14-24-25-27-28-31-33-34 and 35 in Township 22 S. R. 35 E.

All of Sections 12 and 13 in Twp. 23 S. R. 33 E.

All of Sections 19-26-30-33-34-35 in Twp. 23 S. R. 34 E.

All of Sections 4-9-21-28-31-33 in Twp. 23 S. R. 35 E.

Notice is hereby given in compliance with letter "E" dated Oct. 7, 1913, from the Commissioner of the General Land Office that the above described unsurveyed lands have been withdrawn and reserved from and after October 7, 1913, said withdrawal to continue until the expiration of sixty days from the date of filing in the local land office the official plats of the survey of said townships, during which time the state authorities may select any of the lands which are not included in any valid adverse claim. Withdrawal of lands from settlement under the act of August 18, 1894, does not apply to claims under the United States mineral laws.

T. C. TILLOTSON,

Register.

Mary Frances Joyce Entertains.

Saturday last at the J. F. Joyce residence on north Canal avenue a merry crowd of little people gathered to celebrate the birthday anniversary of Mary Frances, who, on that day reached the advanced age of six years.

The little folks were mostly members of Miss Groves' kindergarten and they had a delightful time with their little friend.

The birthday cake, with its six pink candles, one for each year, and one extra "to grow on" drew forth many admiring "ohs" and "ahs" from the astonished children. Chrysanthemums were used lavishly in decorating the pretty home and Mrs. Joyce served delicious cake and cream. She was assisted in serving by Miss Aline Grantham. Each guest brought a gift to their little honoree, who was made supremely happy by a present of a fine little pony from her father.

The invited kindergarten children were, Agnes Thorne, Dorothy Flowers, Katharine Dean, Wilhelmina Pearde, Dorothy Draper, Mildred Hutchinson, Katie Pope, Julia Clark, Hazel Hamilton, Bessie May Mitchell, Ione Weaver, Florence May, Florence Thayer, Helen Clark, Majorie Snow, Bobby Botts, Bobby Bell, Archer Woodwell, Brantly Hamblen, LaVerne Desre, Francis Horne, Preston Robb. A few special friends were: Erna Linn Grantham, Beatrice and Roy B. Burnett, Everett and Clarence Horne, Walter and Jane Dean, Adelle Bujak, Gertrude Lowenbruck.

A. J. Crawford, this week had the house north of the G. M. Cooke residence on Halagueno street moved to a vacant lot on north Alameda. A good foundation was put under the building and it makes an improvement in that part of the city.

Miss Breeding Entertains.

One of the very pleasant social affairs in Carlsbad, this week, was the party given by Miss Breeding, Wednesday night at her home on South Canon street. Buncos was the game of the evening, beautiful painted score cards being used. Miss Ferguson received the prize. Refreshments of fruit, salads, olives, wafers and coffee, with whipped cream were served. Beautiful white and yellow chrysanthemums were given to each guest as souvenirs and an embroidered lace paper doily was also given each guest as a reminder of one of the most pleasant affairs of the season.

The guests were Mesdames Daugherty Bowden, Swickard, Reeves, Walker, Weeks, J. J. Kircher, Hutchinson, Hunsick, Wheeler, Dean; Misses Ferguson, Carie and Jessie Vaughn, White, Geer, Florence and Mildred Nevinger, Grace and Ruth Daugherty, Evelyn Moore Kircher, and Janie and Katharine Dean.

The Sunday School teachers of the Presbyterian Sunday School met at the home of Mildred Nevinger last Tuesday night for their weekly study.

Wesley Class Erecting Building.

The organized Bible class of the Methodist Sunday School, called the Wesley Class, has decided to build a suitable edifice for the Sunday School, having to hold its sessions outside of the church owing to lack of room. The building will cost in the neighborhood of \$400, and will be a two room structure 16 x 24 and will be finished in the in the best manner possible. It will be placed on the northeast corner of the lot now occupied by the one member of the church has signified his intention of paying half the cost of the building in honor of his mother, the oldest member of the class. The ladies hope to begin the erection of the building at once so it may be ready for occupancy before the cold weather sets in.

Methodist Conference Appointments. From the report of the Methodist conference in session last week at Albuquerque the following extracts are taken:

Rev. J. R. Goodloe reported the Carlsbad church had the largest Sunday school ever known in the town, the church building being too small to accommodate the crowd, more than fifty pupils being taught outside the building. The Woman's Missionary Society of that church has started a sinking fund for the purpose of building a new and larger church in the near future.

Rev. J. N. S. Webb reported a church debt lifted and church dedicated at Malaga. That gentleman completed the third year course of study and has been admitted to the fourth year.

In this connection the Current is pleased to announce the return of Rev. Goodloe for the ensuing year. Rev. Goodloe is popular among Methodists and non-Methodists as well and his return is pleasing to our citizens generally without regard to church affiliations. Rev. Messer, takes the place of Presiding Elder for this district, Rev. J. B. Cochran being transferred to another district.

Misses Nevinger Entertains.

The young people of the Presbyterian Sunday school met with the Misses Nevinger at their home on West Fox street Tuesday evening and organized a Bible class with the following officers: Miss Bessie Johnson, president; Miss Mildred Nevinger, vice president; Miss Jennie Linn, treasurer; Miss Fern Wallace, secretary; Rex Freeman, chairman of social committee; Norman Higbee, chairman of committee on constitution and by laws; Dr. Munger teacher; Prof Wilkins, assistant teacher.

The Misses Nevinger served hot chocolate and cake to the members who were: Misses Groves, Linn, Geer, Cowan, Fern Wallace, Boyd, and Messrs. Claude Nelson, Guy Orr; Rex Freeman Will Ed Carter; Arthur Linn; Dr. Munger, and Norman Higbee. The next meeting will be held at the home of Miss Wallace.

Judge G. A. Richardson came down from Roswell Wednesday to hold the adjourned session of court. Judge Richardson was accompanied by court stenographer Miss M. C. Woods.

C. F. Walter, who was partially disabled for twenty-eight days, during August was lucky enough to have an accident policy and has received his payments on same.

Chas. James and wife came in last Friday from a six months trip on the Pacific Coast and visit with Mrs. James' parents, A. J. Bryant and wife at Sawtelle, Cal. Charley will locate in El Paso where he expects to purchase rent property.

Mrs. Shannon, returned delegate from the federation meeting gave an enthusiastic report of her visit. Mrs. J. W. Lewis had "Topics of the day" which she presented in her usual skillful and pleasing manner. Mrs. Adams read a paper on "Religion and Social Service", which was well gotten up and much enjoyed by those present while Miss Effie Hart presented a paper on the rather broad subject of "Literature, Music and Art", which was a finished production and ranks with the best papers presented to the club.

Mesdames George and John Lucas expect to leave this evening for Nola, Louisiana, where their mother, Mrs. C. H. Slaughter, is very ill, a telegram to that effect being received here last night. The Slaughters were 10 time Pecos valley residents coming here in 1880, but have lived in Louisiana for some years. Telephone messages were sent to Mrs. Dan Lucas, mother sister, but it is not known whether she can get in from the ranch in time to accompany the other ladies on their trip.

The "Rook" club held its regular meeting at the home of Miss Willie Matheson, Tuesday night and report a pleasant evening at their favorite game and a full attendance of club members.

Mr. and Mrs. J. B. Rhea returned home the past week from their honeymoon trip. Mrs. Rhea was a Miss Jessieerry of Loving, New Mexico, and they were married some weeks ago, but the Times failed to receive any news concerning the happy event, but it is not yet too late to wish this happy couple much joy, happiness and prosperity, which the Times heartily joins their scores of friends in doing.—Pecos Times.

Cecil Jackson and wife, of Hutchinson, Kansas, arrived in the city Wednesday night and will visit with his brother, D. Jackson, of the Wells Fargo Express Co. They started yesterday for a hunt in the hills west of town.

Mrs. John Nymeyer and Mrs. Orre Nymeyer, of Loving, were in the city Wednesday doing their fall shopping.

Mrs. E. F. Kirkpatrick left Wednesday morning for the annual meeting of the Grand Chapter, Order of the Eastern Star at Santa Fe.

Bert Sands, on his recent trip to the Plains sold a six passenger car to Adam Zimmerman. The car is one of the latest model Chalmers.

The Home and School Association is holding its first social meeting for the year at the High School this afternoon at three o'clock.

E. P. Cowden, of Midland, a well known cattleman of that section, visited Carlsbad this week on business. Mr. Cowden is a relative of Mrs. T. E. Lavery.

Among many Plains people in attendance at the Masonic Grand Lodge at Santa Fe recently, were Messrs Joe Wilcox, G. T. Littlefield, Henry Russell, W. L. Sears and W. B. McCombs.

Regular services will be resumed at the Methodist church next Sunday, the pastor, Rev. J. Rush Goodloe, returning from conference at Albuquerque the middle of the week.

Mrs. Anne Moore, Miss Jewett and Miss Mary Walker were taken out in the Smith auto last Sunday by Mrs. Sam B. Smith, and spent the day on Rocky Arroyo.

S. J. Evans and wife and C. E. Sam and wife returned this week from a trip to Santa Fe where they attended the session of the Masonic Grand Lodge.

Chris Walter completed the building of a little house at the bat caves for Lynn Mudgett this week and leaves today for the TX ranch, at which place he has taken the contract for building a bunk house and also for enlarging the dwelling now on the ranch.

Gene Kindel, who has been employed at the C. C. Lewis ice factory the past season, left for the home of his father near Lovington, Wednesday. Gene is a quiet, studious young man and his many friends in this city are glad to learn of his intention to take up some special course of study in the near future.

Mrs. Margaret Pierce, who is teaching school this winter on Black river came to town Friday and returned to her school Tuesday morning. While here Mrs. Pierce purchased the old organ of the public schools for use in the district where she teaches. The return trip was made in the Paul Gray car.

Lum Daugherty, of Nadine, came in Tuesday, with Fred Nymeyer in the latter's car, who came in after his wife who has been here on a visit with her parents, Wm Leck and wife. They all left for home Wednesday.

Mr. and Mrs. Richard M. Thorne, who have spent the week in Santa Fe are expected to arrive at their home in Carlsbad, tomorrow night.

Mr. and Mrs. Paul Gray were registered as guests of the Bates last Saturday, coming from their ranch in their automobile.

C. H. Dishman has contracted to build a five room house in Lovington for Frank Nymeyer. The work will begin the first of next week.

Mrs. Ed Oliver of Lovington, en route to Santa Fe stopped Tuesday, and Tuesday night with Mrs. J. C. Bunch, who she has known since early childhood.

Little four year old Wardie, the daughter of Mr. and Mrs. J. B. Leck has been ill this week and confined to her bed but at this time seems to be slightly improving.

Henry Requemore, who is to put on the minstrel performance for the Carlsbad Volunteer Firemen's Band, will arrive in the city tomorrow night and begin work the first of next week.

Pedro Etcheverry, the Lovington sheep man was in last Monday. He is on crutches, from the effects of a fall from a roof, from the effects of which he received a very badly sprained ankle.

When the chest feels on fire and the throat burns you have indigestion, and you need HERBINE to get rid of the disagreeable feeling. It drives out badly digested food, strengthens the stomach and purifies the bowels. Price 50c. Sold by All Druggists.

In the recent "Baby Show" held at Artesia in connection with the Alfalfa Festival, Muriel, the little daughter of Mr. and Mrs. Guy Reed of this city was awarded second prize for babies under one year of age. The little one scored 96.57.

Tom Stokes is now sole proprietor of the Club Livery Stable, Mr. Llewellyn having retired, and now has no interest whatever in the business. Mr. Stokes will devote his entire time to the business and his friends and patrons will find him always "on the job".

The Homeseekers Excursion of southwest, a. a. l. u. b. D. u. m. k. e. o. r. s. Thursday night, was not as large as has been recently—only about fifteen persons coming in. They are being shown over the project today.

Apple picking and packing on the Thayer ranch in the Guadalupe was brought to a successful close last week, and the apples are now stored and for sale at the Tansill building. They are the finest ever grown in the Thayer orchards which is saying a good deal when the excellence of the fruit always grown there is considered. Upwards of 600 pounds of paper was required for the wrapping and approximately 100,000 wrappers were used.

Mrs. George Beckett entertained a party of her most intimate friends at her home in Carlsbad last night it being her birthday anniversary. The guests had a fine time with music and conversation, and yielding to the solicitations of her guests the business gave a rental. Mrs. Beckett served substantial refreshments and the guests all had a merry time and heartily wish for the lady "many pleasant returns of the day".

Dr. J. W. Jenkins, government stock inspector, came down from Roswell last Friday evening to inspect a car of horses, preparatory to their shipment by parties here.

It is reported that Rev. H. H. Burnett and son Abe, have traded the Hope Press to Mc Horse Bros. of Artesia.—Dayton Informer.

First Class Minstrel Show.

Carlsbad theater goers are promised a treat in the appearance in our city of Henry Roquemore, who will put on a first class minstrel show, the date set being November 4. The affair will be given for the Carlsbad band and a large house will no doubt greet this distinguished performer.

Mr. Roquemore was comedian for the Richard and Pringle Minstrels which showed here some time ago, and has a national reputation in his line. He is expected to arrive in Carlsbad tomorrow and further announcements may then be made.

The company to put on the performance will be organized from among Carlsbad's singers and actors. Needless to say, some fine talent is to be found here, and the success of the minstrels under Mr. Roquemore's leadership is already assured.

W. R. Fenton was in from the TX Wm. McBryde from the Lovington, and Jim Simpson from the sixteen miles east of Artesia, at the old Turkey Track headquarters, were old time cowmen who came in from their respective homes this week.

Mr. Knabe, who recently purchased land in the lower valley shipped a car load of baled alfalfa Wednesday from his farm to parties in Lubbock, Tex.

John Mc Collaum came in from the Guadalupe Tuesday to receive seven South African bucks for the Gist-Mc Collaum Angoras but was disappointed the bucks not having arrived. John waited over for a couple of days.

Doc Coates came in Sunday from his home near Eunice and joined his wife who has been a guest at the home of B. L. Walker west of town, Monday evening Mr. and Mrs. Coates left for Sweetwater Texas, where Mrs. Coates will make an extended visit.

Willard Bates and family were in from their ranch Monday. Mrs. Bell mother of Mrs. Bates, of Taylor county, Texas, accompanied them. Mrs. Bell has been visiting her sons in the mountains for some weeks.

From word received in letters from Mrs. Guy E. Benson, the family contemplate returning to Carlsbad at an early date and will likely spend the winter here, even if they do not decide to again take up their residence in our midst. This family is one of the oldest and best known in Eddy county and their return will be hailed with pleasure by their many friends.

Mrs. John Neveger and little daughter, Thelma, left for their home on the Neveger ranch near Pearl, last Friday morning. Mr. and Mrs. S. L. Perry accompanied them for a week's stay at the ranch, expecting to return today.

Mr. and Mrs. Walter Smith, of Lovington, were in Carlsbad yesterday, en route to Roswell going overland. They expect to make their future home in that city.

Mr. and Mrs. F. A. Moore came in from San Pedro, Cal., last night and are at the Anderson Sanatorium. It will be remembered that Frank suffered a broken leg a couple of weeks ago while in San Pedro, and thought best to return to his home in Carlsbad. Frank and his wife have a host of friends in this city who are sorry to learn of his accident and extend best wishes for his speedy recovery.

Bates Brothers, ever on the lookout for improvements for their hotel, have this week installed the "Blond" door check—a device for closing doors and also for preventing door slamming. The necessity for such a device will be recognized when it is known that the front door of the Bates hotel opened upwards of 50 times in less than ten minutes, Thursday evening, by actual count. The door check was installed by the local agent.

J. F. Fullbright, of Webb, Oklahoma, who recently purchased the W. R. Heeler place south of town, has already shipped part of his stock to his new purchase and is, himself coming overland. The Heeler family expect to move to Carlsbad for the winter about the 1st of November. Mr. Fullbright taking possession at that time.

Miss Minnie Gist, is expected to arrive in Carlsbad, tomorrow. Miss Gist who is a sister of Aubrey Gist, formerly of Carlsbad, has been at Cloud, Co. for some time and comes from there here. Her home is in Gaines, Texas, and after a visit here, will leave for Texas points.

Mr. Knabe, of Lawrence, Kansas, who recently purchased 120 acres of land two miles south of town, is having the same seeded to alfalfa and will feed sheep on the place for the eastern markets. The gentleman will also invest still further in stock and ranch property in this vicinity.

Christian & Co., Insurance.

Dr. R. J. Boatman is one of our most public spirited citizens. He is having the street in front of his residence the full length of his lots and the fullwidth of the street filled with gyp and when rolled and settled this will become as hard as cement and almost as impervious to mud and water. The work is being done entirely at the doctor's expense, which proves him to be as stated a public spirited citizen, and one interested in the general appearance of the city.

Born:—To Mr. and Mrs. Will Russell, Sunday, the 19th a twelve pound girl baby. Mother and child doing nicely.

Victor L. Minter returned the first of the week from Santa Fe, whither he went on a vacation trip and will spend the remainder of his vacation at his home in Carlsbad.

While endeavoring to unload a pistol at her home in Hope last Friday Mrs. Jack Brownlee well known in this city, was accidentally shot, the ball making a bad flesh wound of four or five inches in front of her left hip. Mr. Brownlee who was in Abilene, Texas, was wired and returned Saturday. Mrs. Brownlee had recovered sufficiently to be taken to the home of her friends at Abilene, Texas, Wednesday.

Mr. and Mrs. Walter Wright and children came in Wednesday from the Guadalupe, where they have been engaged picking the crop of fine apples on the Thayer ranch. They also spent a few days hunting in that section.

Wm. Leck accompanied Willoughby Hegler to his ranch about fifty miles south-west in Texas, leaving this morning. They are taking Mr. Hegler's horses out to place them on the ranch on pasture. They will be gone the best part of a week.

W. H. Andrews and D. A. McPherson, the oil magnates, who are exploiting the Carlsbad oil prospects, came in last night from Santa Rosa, where they finished loading a big machine for use on their oil properties east of Carlsbad. Work will be commenced immediately on arrival of the machine and will be pushed with all possible speed.

Mrs. Lucius Anderson gave a tea last Wednesday afternoon at the Anderson Sanatorium, for the benefit of the Cemetery Association. This was the second of a series which she has planned for that purpose. The next will be given Wednesday, of next week and Mrs. Anderson urges every one to be present. The teas are very informal and all are made to feel at home. Everybody cordially invited.

Homer King, who is now living in San Angelo, Texas, this week sent his mother, Mrs. Carrie King, a barrel of fine pecans. Needless to say the nuts were much appreciated, they being extra fine and large.

The Epworth League social at the Methodist church last Friday night was a success. About sixty five young people attended. Games were played and refreshments served. Fifteen dollars was added to the treasury.

Mrs. W. H. Slaughter, who has been visiting with her sisters, the Mesdames Lucas and renewing old friendships in the city left for Del Rio, Texas last Tuesday evening where she will visit an aunt for some months.

B. L. Walker, left last week for Lubbock, Texas, in charge of 1,500 cattle which are being driven from the D ranch. He expects to be absent about six weeks or two months.

John Moore left Monday for Lakewood and has been there all the week, overhauling the telephone line, placing new poles where needed, restringing the wires and making various other repairs, which are necessary for the efficiency of the system. He will return tomorrow evening.

Mrs. R. S. Benson, returned from her trip to California, the latter part of last week. She was accompanied home by her brother, who has spent a couple of winters here and who will remain with his sister, the coming season.

Rev. J. N. S. Webb returned Monday from Albuquerque where he attended the annual conference, and he has resumed his duties as principal of the Spanish American school.

A son was born to Ben Wheeler and wife last Tuesday night at ten o'clock and he resembles his grand dad R. O. Ohnemus so much that he weighed thirteen pounds at birth.

Woman's World

First Ladies of the
For the Home

Nov. 20, 1914

Miss Ann Warren, lawyer and suffragist of New York city, has the distinction of being the first woman lawyer who has appeared in the original branch of the United States district court of the district of New York.

She went before United States Commissioner Stoughton recently as counsel for a Chinese who was charged with manufacturing opium.

Envy: That's Punishment.

No greater punishment than envy? That is what Ruth Helen Davis, translator of "The Daughter of Heaven," says. She has done some very clever work in French translation and has enjoyed every minute of it. Her theory is as follows:

"Envy is the burden of the rich. Lack of contrast is their stumbling block to enjoyment. I know no greater punishment than envy."

"Restlessness and the constant search for novelty is a cruel master. There is nothing enviable in this world but self development, self knowledge. Its beginning and ending is concentration."

"No one ever need be dull in this world. No one need be lastingly discontent. Just think of all the things in the world that are to be done and the different ways there are to do them."

"The simplest task can be made the beginning of a study. The most ordinary talent, if focused and concentrated, can be made a means to real achievement, which is only another name for joy and contentment."

"It is odd how blind many wealthy persons are to the fact that work is the greatest satisfier in the world. Happiness is cheap. Any one can have it who will concentrate. Self development, built on concentration, is the very finest game on earth."

"If those who are on the verge of something desperate would only step on a railroad train, for instance, and go to some strange place, no matter where, and follow up some work suited to their ability, however humble, there would be fewer suicides."

Riddles.

What is that which flies high, flies low, has no feet, and yet wears shoes?

What is an egg too lightly boiled like one boiled too much? Because it is hardly done.

What is that which has neither flesh nor bone, and yet has four fingers and a thumb? A glove.

What is the sun like a good loaf? Because it's light when it rises.

What is a butcher's apt like his stock? Because he carries his calves there.

What is the best way to keep water out of your house? Don't pay the water tax.

When does a man have to keep his word? When no one will take it.

Indian Laborer's Song.

In India when drawing water from the wells the man in charge of the operation invariably encourages the bullocks with a cheery song, as they are raising the heavy leather pail of water from the well, and if he was to remain silent the Indian bullock, who is a strong conservative, would certainly refuse to start. A song which the men sing when they are making mortar runs something like this: "Oh, bullock, what a work you are doing, a fine round and round making mortar for the masons! Oh, bullock, go faster, go faster!" The masons will cry out: "Oh, bullocks, for more mortar, more mortar. So go faster, go faster!"

An Anecdote.

A mouse being chased by a cat in Mr. Joe's brewery fell into a vat of beer. The cat springing to the edge of the vat and called: "Ah, Mrs. Mouse, you had better have let me eat you than to drown."

"Yes," replied the mouse, "if you will save me from this you may eat me."

The cat went to the edge of the vat and extended his paw, and the mouse landed and ran lustily into his hole.

"Come out," demanded the angry cat. "Redeem your promise and let me devour you."

"Oh, no," said the mouse, "when I made it I was in liquor."

Governors—And whom did the goddess Aurora marry?

Pundit—Borealis—Punch.

More man is a contrary Jack.

He always puts things on his back So he can have a front.

—Cincinnati Enquirer.

"I tell you, old man, there's always room at the top," said Jimmsonberry.

"I haven't a doubt of it," said Langgish. "But the worst of it is there's never any elevator to take you up."—Harper's Weekly.

The mermaid is a favored soul, She's clever and she's sweet; But if she cannot have her way She never stamps her feet.

—Yonkers Statesman.

"Yes," said the military expert; "we must abolish war."

"But how?"

"The only way I know of is for us to turn in and administer military discipline to any nation that disturbs the international peace."—Washington Star.

Said he, "It would be best each year To live within our income, dear." "Oh," she replied, "I do not doubt it; We surely cannot live without it."

BAD ROADS CAUSE HEAVY EXPENSE

Farmers and Merchants Are Equally the Losers.

RESULT OF INVESTIGATION.

Figures Obtained by Minneapolis Commission Show How Thousands of Dollars Could Be Saved Annually by Improving the Highways of a State. Farmer Loses \$170 For Each Acre.

The farmer and the business man as well as last come to realize the loss he suffers from bad roads, and the magnitude of the movement for better conditions is little appreciated by those whose interests have not brought them in contact with it. The cost of bad roads has long been known in a vague way, but recent scientific investigation has brought the matter home to the farmer and the business man in a tangible form. In those who suffer from them, says the Bureau of Highways.

One of the latest thorough investigations of the subject ever conducted, the results of which are used as a test wherever the effects of bad roads is presented, was made by the Minneapolis City and Commerce Association. While the conditions investigated were limited to the territory regularly in Minneapolis, they are representative of a greater or less degree of conditions existing elsewhere.

A committee of the association selected for investigation the farming district, 770 square miles in area, the roads of which is tributary to Minneapolis. From a thorough canvass of the conditions existing there it was found that the 100 farmers in the district had 200,000 tons of farm produce to market in 1911 and sold it for \$2,000,000. To do this they had to make 200,000 trips, the time spent in hauling equalling 800 years of eight hour days, and the distance covered eighty-eight times the circumference of the world.

Bad road conditions caused losses in time, profit and slow progress, due to the necessity of taking less direct routes, and partly because smaller loads had to be carried. Detailed investigation showed that the losses in time were as follows: Time to market for the shortest route, 800,000 hours; due to circuitous routes, 8,000,000 hours; due to extra manning, 10,000,000 hours; due to extra fuel, 10,000,000 hours; due to extra wear on machinery, 10,000,000 hours; due to extra wear on tires, 10,000,000 hours; due to extra wear on horses, 10,000,000 hours; due to extra wear on wagons, 10,000,000 hours; due to extra wear on harness, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; due to extra wear on outerwear, 10,000,000 hours; due to extra wear on shoes, 10,000,000 hours; due to extra wear on boots, 10,000,000 hours; due to extra wear on coats, 10,000,000 hours; due to extra wear on hats, 10,000,000 hours; due to extra wear on gloves, 10,000,000 hours; due to extra wear on socks, 10,000,000 hours; due to extra wear on underwear, 10,000,000 hours; Eyetooth—Well—um—I don't know about that.
Neverpay—Superstitious, eh? Well, make it \$12.—New York Weekly.

The KITCHEN CUPBOARD

DOING UP TOMATOES.

BECAUSE of the simple ways in which they may be put up tomatoes have always been the most popular of vegetables at the canning season. Ripe red tomatoes, small yellow tomatoes and green tomatoes may be done in widely varied ways.

An Uncooked Relish.

Tomato Relish.—Take one peck of ripe tomatoes chopped and then drained overnight in a bag, two cupfuls chopped celery, two cupfuls chopped onions, three chopped green peppers, one quart strong vinegar, two pounds brown sugar, three tablespoonfuls salt, two tablespoonfuls cinnamon and two ounces mustard seed. Stir all together and bottle and seal. No cooking is required.

Tomato Jam.—Take three pounds of tomatoes, one pound and a half of loaf sugar, two lemons sliced thin. Use tomatoes which are not quite ripe, wipe them with a cloth and take off the stems. Cut each tomato in four pieces and cook in a preserving pan with the sliced lemon till tender, then add the sugar, bring it to the boil and boil fast for forty-five minutes. If necessary a little water may be added with the sugar if the preserve is too thick.

A Convenient Method.

Golden Preserve.—Pour boiling water over tomatoes, then skin and weigh them. Take the same quantity of sugar and boil the sugar and a little water until it threads when dropped from a spoon, then pour the hot syrup over the tomatoes and allow to stand eight hours. When cold add thinly sliced lemon in the proportion of one lemon to four or five pounds of tomatoes and boil slowly until the tomatoes are transparent. Put in glasses and when cold cover with melted paraffin.

Mixed With Corn.

Tomatoes and Corn.—Take tomatoes which are not too ripe in the proportion of one-third corn sliced from the cob to two-thirds tomatoes. Scald, peel and all wash out all green or hard parts. Put all in a porcelain kettle. Let boil fifteen minutes and seal immediately in glass jars. You may after cutting off the corn cook it fifteen minutes. Add a little water and stir often, then prepare the tomatoes as above. Cook in separate kettles five minutes. Add them to the corn, mixing well until they boil up once, then put in jars immediately. Seal the jars and keep in the dark until needed.

The KITCHEN CUPBOARD

AUTUMN FRUIT DESSERTS.

THE late fruits are available for many tempting desserts. With cooler weather fruit, pastries and puddings are more acceptable, and quite a variety of these may be made with fruit.

Apple Meringue.—Stew four apples, add a tablespoonful of cornstarch, the yolks of two well beaten eggs, a cup of milk, a piece of butter as large as an egg, a little lemon rind, grated, and half a cupful of white sugar. Stir all well together. Line a pudding dish with puff paste and pour in the mixture. Beat the whites of the two eggs and add two spoonfuls of sugar. After it has baked add the meringue and return to the oven to brown.

Add Whipped Cream.

Pear Shortcake.—Make a biscuit dough and roll it until half an inch thick. Bake in buttered tins in a quick oven for twenty minutes. Cut up some stewed pears and sweeten them. Spread the hot shortcake with the fruit, making alternate layers of the cake and fruit. Top with whipped cream.

Fruit and Cake Pudding.—Take a stale sponge cake, cut it in slices and lay in the bottom of a baking dish. Then fill to the top of the dish with peaches or berries. Put cake on top in slices and make a meringue of two whites of eggs, beaten light, and then add two tablespoonfuls of sugar. Spread over the top and put into the oven for a few minutes to harden. Serve with cream and eat cold.

Flavored With Orange.

Rice and Rhubarb Pudding.—Put a layer of boiled rice sweetened to taste in a well buttered pudding dish, cover with a layer of chopped rhubarb and sprinkle thickly with sugar and small pieces of butter. Add another layer of rice, more rhubarb, sugar and butter and continue till the dish is full, having the last layer of rice. Sprinkle over with the juice of lemon and one orange and stew with sugar and small pieces of butter. Bake in a moderate oven.

Apple Pyramid.—Peel some small apples and place them in a snupecup, just covering them with water and adding the grated rind of an orange or a lemon, a very little cinnamon and sugar to taste. Cook gently till the apples are tender, but they must not break. Then lift them out carefully one at a time and arrange them on a dish in pyramids and keep them hot. Meanwhile reduce the liquor in which they were cooked to a thick syrup. Pour this over the apples and dust them well with sifted sugar, sprinkle freely with rum and set on fire just before sending to the table.

OUT HUNTING—KILLED

(CONTINUED FROM FIRST PAGE)

we thought we ought to make some effort to get the body, so we left a note at the camp and started out. About the time we got to the mountain, Ben came up with the horses and Joe Long, a nearby ranchman. Then Ben, Hudson, Long and myself hunted for the body until dark. We could not find it, so we decided to go back to the camp for the night, and if possible to get other help.

"Long went back to his ranch and got a hired hand and was at our camp early Thursday morning. Then we all went to look for the body. Mr. Long and Mr. Norman rode horseback and beat us to the top of the mountain. They were on top when we had just started up. I explained the movements of Dr. Hammar and myself thoroughly so they could pick up the trail. Mr. Long struck my trail over the mountain. He called to his hired hand who had walked up with Ben and myself to come up and follow my trail down. He would follow it up.

"In the meantime we had gotten to the top of the mountain. We were looking for Hammar's trail over the mountain. Mr. Long came to where he had struck my trail down the mountain and called to us that he had found the body.

"It was half a mile to the bottom of the mountain and it took four of us to carry the body down the slope, the flesh was so thick and rough. It took us fifty minutes to get to the bottom of the mountain. Then it was five miles to camp, the closest place to the wagon. We had a horse at the bottom of the mountain and the body was put on it to take to the camp immediately. Hudson had remained in the camp and when we got back everything was loaded and ready to leave for the Arroyo Seco ranch some eighteen miles, where we had left our auto on the way up. We got to the ranch about 2:30 Thursday afternoon reaching here at about 8 p. m.

"Davison, Hudson and myself returned while Mr. Norman followed, bringing the camp supplies. We took the body immediately to Dille's for care. I immediately notified the sheriff's office of the killing.

Mr. Hammar and his friends had left Roswell last Sunday for a hunting trip in the mountains. They pitched their tents on the north side of the Capitan. J. A. Norman, their guide preceded them a few days and had everything ready for them at the camp when they arrived.

Immediately upon their arrival in Roswell a jury was impaneled and an inquest held by Justice Bell.

The Roswell lodge of Elks, of which the deceased was a member held funeral services at 5 p. m. Friday. Next morning, Mrs. Hammar, a bride of two months, and her brother, R. C. Horner left for Parkersburg, W. Va., where burial will be made.

A Loss to the Community

The passing of Dr. Hammar will be recognized throughout the Pecos Valley as a distinct loss to the community. The young man was born in Sweden 33 years ago and at an early age he entered Cornell University and by resourcefulness he managed to work his way through the college. He took up etymology and soon became identified with the federal government study and research along this line. Two years ago he was sent to this valley and since that time he had become endeared to the people of the Pecos Valley, both socially and as a force for good in an intellectual way. Principally through his endeavors the

"Excelsior Boy Scouts" Have Swept the Country!

From Maine to California, in city and country alike, American boys have yelled themselves hoarse for these wonderful shoes—the greatest boy's shoes ever known. When a boy wants a thing he usually gets it. So that thousands of boys now wear "Excelsior Boy Scouts" Shoes.

"Boy Scouts" Camp Shoe
This is the shoe that swept the country like a tidal wave last year. The lightest, strongest boy's shoe ever made. Uppers and soles of genuine elk leather, tanned by our secret process. Soft as a glove and fits as snug. Reinforced sole—can't tear loose. Wears two times as long as ordinary shoes. Colors—Olive, Tan and Black.

"Excelsior Boy Scouts" Piker
A new shoe. Almost as popular, already, as the "Camp Shoe." Splendid for school and regular wear.

Soft as a glove and wears like iron. Black boarded calf. Full bellows tongue. Extra heavy oak soles.

Other Styles
"Excelsior Boy Scouts" Shoes are made in "Piker," "Parade," "Camp," "Punch," "Camp" and other styles. In bluchers, high-cut, button, etc. Select black, tan and gun-metal calf, and special oak leather.

No Boy Scouts' Shoes Genuine Without Swastika "Good Luck" Charm

"Good Luck" Charm—attach a corner of this advertisement—is attached to all genuine "Excelsior Boy Scouts" shoes. Refuse a shoe without a charm attached. Looks splendid. Don't get discolored. Splendid for prizes for boys' games, etc.

Made by THE EXCELSIOR SHOE CO., Portsmouth, Ohio. For Sale by T. C. HORNE, EXCLUSIVE AGENT FOR CARLSBAD.

apple growers of this section of the valley are this season harvesting a high-class crop of apples instead of an insect infected crop. His untimely death will be much regretted by the entire community.

Parents Still Living.

The parents of the deceased reside in Sweden and one of his sisters is a countess in that country. A brother resides in Los Angeles. In this city August 14th this year the deceased was united in marriage with Miss Marion Horner, a daughter of R. C. Horner of Parkersburg, W. Va. The couple had planned to leave Tuesday of next week for Parkersburg for a visit with the bride's relatives there and later in the winter to sail for Sweden, the birthplace of the deceased.—Roswell Record.

J. F. Beals, who has been in Texas along the line of the T. & P. railroad, purchasing cattle for P. Moody, the Kansas City stockman, arrived Saturday and left again Monday for the Plains country on a similar errand. The cattle recently purchased by him were shipped from Monahans to Kansas City.

PASTURE:—Plenty of grass and water. Close to town. ROHNEMUS.

R. Ohnemus, this week purchased 58 head of calves from G. M. Williams at \$20 around.

Fourteen loaves of Bread \$1.00 at MODEL MARKET.

Christian & Co., Insurance.

When your food does not digest well and you feel "blue" tired and discouraged, you should use a little HERBINE at bedtime. It opens the bowels, purifies the system and restores a fine feeling of health and energy. Price 50c. Sold by All Druggists.
