M'COLLAGH IS DEAD!

Tragic End of America's Best Editorial Paragrapher.

BIG CONTRIBUTIONS TO CUBA

Interesting Statistics and Facts Concerning the Progress of the Country During the Year Just Ending.

St. Louis, Dec. 31. The dead body of Joseph H. McCallagh, editor of the Cuban Democrat, was found at 6:30 this morning lying on the stone pavement beneath the window of his room in the residence of his sister in law Mrs. Kate Mannon, 325 West Pine street. It is supposed that he had thrown himself from the window early this morning. The skull was crushed and the body otherwise injured. The first dispatch extra has the following:

Dr. C. H. Hughes, his physician, said: "McCallagh was tired of living and killed himself. He gave no intimation of suicide during his illness. I saw him a little while last evening. He was a little sleep, and gave me to understand that he wanted to be left alone. His last words were: 'I am tired of living. I am tired of living. I am tired of living.'"

FREIGHT WRECK AT ALAMEDA

A Few Facts About Albuquerque's Model Postoffice. A Resume That Will Cause Other Towns to Think.

From Thursday's Extra. On last Monday afternoon, the wreck of a freight train at Alameda, a small town, east of the city in the Matanzas, has caused a great deal of interest in the city.

The wreck of the train, which was a freight train, was caused by a switch being left open. The train was carrying a large amount of freight, and the wreck caused a great deal of damage.

Fort Wingate, N. M., Dec. 25.—Joe Baker is a very happy man this morning. The other evening he was out for a quiet stroll, when he noticed a buck-board standing in front of the hospital as if in waiting for a passenger to take to the main. Of course Joe, eager for news, watched carefully for the victim who was soon to become the victim of his sympathy. When all of a sudden out came the "observer" with all his effects, and driven toward the hospital, he was met by Joe. Joe felt that he had more than the right of way and that there would be no one to interfere with his happiness in the future.

Mrs. May Wallace is seriously ill.

Lieut. Bean, who has been confined to bed for some time with La Grippe, is able to be about once more.

Acting Steward Butcher has been relieved from duty at this post and ordered to Fort Hays, N. M., where he will report to the commanding officer at that place for such duty as may be assigned him.

A new photograph gallery has been opened at the end of the main street. The proprietor, "Homer" Huer, has the best cameras that can be had, the most celebrated of which is one of his own make, which is noted for its great speed and simplicity. The instrument is pointed at the victim the outline is traced and by a few turns of a small crank a dozen beautiful photographs are turned out in three minutes. The camera is less than three inches in diameter, is as light as a feather and has its own pocket. No dark room or chemicals are necessary under this new process.

Dr. Luke, our veterinary surgeon, is very busy attending to the animals of the stockmen of one of the herds belonging to Mr. Schuster, supposed to have been poisoned at Holbrook, Arizona, a week or two ago.

The grand ball and Christmas tree, given under the auspices of Troop K, closed last evening with a grand success and will be remembered with pleasure by all who participated. The Christmas tree for the children was the principal event of the evening. Sadler, a girl who acted as Santa Claus, received great applause and many congratulations upon the successful manner in which she conducted her part of the ceremony. The balls were beautifully decorated with flags, cross-staters and evergreens. The figure representing a horse and mounted cavalryman on inspection, was the center of attraction. The Irish man and pig which figured so conspicuously in the dining room, was also the cause of much amusement. The tables were decorated with beautiful California flowers, and the bill of fare was excellent and was served in the very best of style.

The troop is to be congratulated upon their grand success in so great an undertaking, and we feel perfectly safe in saying that it was the grandest thing of the kind that ever occurred in Fort Wingate.

Col. Lawton, Inspector General of the Department of the Colorado, inspected the post last week.

Our recruits were received last week, Troop K, and six for Troop K.

Mr. Faulkner, K. who has been slightly under the weather for the last day or two, is rapidly recovering.

JOE JACKS, JR.,
Clerk of Supreme Court.

This means that the mandate of the United States supreme court affirming the judgment of the supreme court of New Mexico in this celebrated criminal case can not issue until January 19 at latest—New Mexican.

MINING AS A BUSINESS.

A Comparative Showing with Other Pursuits.

The following excellent and opportune entries are from Mr. Erasmus Wiman's Chances of Success.

"It is a fact which nobody can ignore that this continent is a treasure house in matter of gold, quite equal in value to the vast wealth got out of the mines in iron, in copper, in coal, and especially in silver."

"That the low grade ore business is attracting attention as a basis for manufacturing industry, is shown by the successful numerous mines in various parts of the country."

"The ability of such a mine as the small Alaska property to mine and sell at as low a rate as 80 cents a ton, shows what can be done in the shape of cost and product. If ore is secured through the country worth \$10 a ton, there is a possibility of profit in this line far more certain than in a majority of vocations."

"A manufacturing industry which will cost out of a ton of rock from \$4 to \$10 and yield out of a cost of 50 cents a ton, has a better chance for success than which a speculator would by a single boom, takes it into cloth to be peddled all over the country on long credit, and sold at an advance on the cost for less than he realized from the manufacture of it."

Optic says: Miss Marilla Hubbell, Fernina G. de Gallegos, Herman and Manuel Silva were visitors to Querque on Christmas day.

This is Your Opportunity.

A few John Red, Jr. of Great Falls, Mont., emphasize his statement. "It is a possibility for each of us to make a great deal of money for each of us."

ELY BROTHERS,
30 Warren St., New York City.

WATSON AND STAMM.

The Former Issues a Card and the Latter Begins to Agitate.

ALBUQUERQUE, N. M., Dec. 27. Editors Citizen.

Will you kindly give space to the enclosed article of Mr. Watson's. A policy similar to those ideas expressed by our vice-presidential candidate, will doubtless prevail in future people's party gatherings, and it is well, that even at this early date, honest reformers in all parties should begin to realize what the future position will be of the leading reform party of the United States.

Office seekers, and politicians as such, will cut but a sorry figure in the people's party hereafter. It is idle and most bordering on idiocy, to say, "stop talking politics and let the country resume normal conditions." There are no normal conditions to be resumed, and we only deceive ourselves at our future cost by listening to this piece of sophistry which was emanated from the same source that has caused our present deplorable condition.

M. P. STAMM.

Tom Watson in Chicago's Paper.

We have been asked a number of times, since the election, to suggest a line of action upon which the people's party can be reorganized.

Having no authority to speak for others, and not being connected in any official capacity with the party, we have hesitated to suggest.

Let us suggest that the National Executive committee be called together at the earliest possible moment.

2nd. We suggest that a resolution be adopted commending the policy of fusion with other political parties, and that the committee pledge itself to recognize none but popularists—Middle of the Road Popularists hereafter.

3rd. We suggest that a new chairman be chosen for the national committee. He should not be the holder of any office, nor a candidate for any. He should be a man who is a straight popularist, and who can give the nation the impression that he will, unbiassed by his own political interests and necessities as an office holder, or office seeker.

4th. We suggest that the committee stand by the old platform, without going backward or forward. It would be unwise to stick the plug in deeper; it would be unwise to try to make it run tighter. The wise thing is to stand pat, take the platform as it is. The country is familiar with it. The people have been educated up to it. A majority of the people favor the old platform, and which will inspire confidence, and which will harmonize all the reform elements. No better rallying point can be found than the St. Louis platform of the popularists, and we will be more at ease in detaching it than we can be in talking about silver.

5th. We suggest that we need no new party. Our St. Louis platform is all we need. We are educated upon every plank in the St. Louis platform, and the democrats, and many republicans are committed to it.

Why abandon such a strong position? If we stand pat upon the St. Louis platform, and pledge ourselves against fusion, what is to become of the Bryan democrat, if he does not join our party? Will he be the worst lost man that ever saw his road peter out into dim uncertainty amid the gathering gloom.

Had it not been for the deadly pitfall of fusion, popularists would have won the Bryan democracy to join us this year. It had nowhere else to go. Fusion saved it.

THE COCHITI DISTRICT.

Nines Being Worked and Assessments Going On.

From the Herald Weekly.

Jack Hoffman finished the Monte Christo assessment work today.

The assessment work on the Alameda group has been finished.

The daily shipments of ore from the Lone Star continue unceasingly.

Mike Gallagher has taken a contract to drift 100 tons in the lower level of the Washington mine running north.

The Good Hope continues to cross-cut the newly discovered lead in that mine, which is improving with every foot of work done.

The Crown Point is steadily working a force of men and taking out considerable quantities of ore. Last week a strike was made in the third level of that mine. The ore assays four ounces in gold and 90 in silver.

The Black Girl is pushing work in the new force of men and is showing up in proportion to the sanguine expectations of the lessee, who certainly have good reason to believe they have a good thing in the Black Girl, if high assays in gold and quantity indications go for anything.

Charles Paxton, who has just finished the assessment work on the New York, in Peralta canyon, and returned to Bland, informs us that the lead on the New York is improving, and a good deal of work is going on Peralta. He intends to resume work on the Ellen I. sometime after Christmas.

The assessment work was completed on the J. S. H. in Peralta canyon last Monday by Messrs. Conrad and Rubenack, who returned to camp on Tuesday and report everything progressing toward a boom in Peralta; when the necessary milling facilities are afforded to treat the enormous bodies of ore in that canyon.

Official Notes.

The following articles of incorporation were filed in the territorial secretary's office:

The Lindauer Mercantile Company—Incorporators, Sigmund Lindauer, Helene Lindauer, Deming, N. M., and Ben Meyers, of El Paso, Texas; objects, conducting a general mercantile establishment in the city of Deming; capital stock, \$10,000; directors, same as incorporators; principal office, Deming.

Rocky Mountain Fuel Company—Incorporators, Oliver L. Houghton, Francisco A. Manzanera, Joseph M. Cunningham, East Las Vegas, N. M.; objects, conducting a general fuel establishment and prospecting for coal; capital stock, \$1,500,000; directors, same as incorporators.

principal place of business, East Las Vegas.

Acting Gov. Miller appointed Wm. R. Payne, of 100 Washington street, Chicago, commissioner of deeds for New Mexico.

Albino O. Gallages, of Geneva, Union county, was appointed a notary public by Acting Gov. Miller.

A Christmas Present.

The appointment of Roadmaster R. J. Parker, of Topeka to the position of superintendent of the middle division of the Santa Fe, was in the nature of a Christmas present to that gentleman.

Mr. Parker had no intimation whatever of his appointment up to the time he received the official circular. It was one of the few instances, in the history of the Santa Fe road, if not the only one, where a man was not notified of his appointment some time previous to the issuance of the circular. The agreeable surprise to Mr. Parker was the plan of general Manager Frey says the Journal.

Electric Bitter.

Kielectric Bitter is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and protracted illness. No medicine will act more surely in counteracting and freeing the system from the malarial poison, headache, indigestion, constipation, dizziness, etc. Kielectric Bitter, 60c, and \$1 per bottle at W. Y. Watson's drug store.

MARRIED BY A SPIRITUALIST.

A Sensation at Oakland with Albuquerque to the Front.

An Oakland, Cal., special dispatch of several days ago, which was published in the Los Angeles Times, says:

A family circle of Oakland is disturbed over the whereabouts of Julius Hagan, who was supposed, until recently, to have been in Berkeley, but who has appeared in Albuquerque, N. M., although his girl wife was unaware that Hagan even contemplated such a trip. Aside from this, the relatives and immediate friends of the young man are at a loss to know where he has gone, and what he is doing there. It is said that Hagan will have to go through the ceremony of marriage all over again, on account of the alleged illegality of a wedding some months ago.

Mr. Hagan married Miss Edith Beebe of Oakland early in the year. She belongs to a well-to-do and respected family and is a woman of both culture and attainments. The young couple took up the idea of spiritualism some time ago, and when the day came for the nuptial knot to be tied, went before a spiritualist in Berkeley, and were married. The ceremony was a simple one, and the young couple, who were both of them, were married. The ceremony was a simple one, and the young couple, who were both of them, were married.

HOV. A. L. CHRISTY.

Death of This Popular Gentleman at Las Cruces on Christmas.

Las Cruces, N. M., December 27. Hon. Albert Lincoln Christy died at his residence in this city on Christmas day at 1:45 p.m., after a lingering illness lasting since about November 10th. About that date he was taken with what afterward proved to be an attack of typhoid fever and never recovered.

Mr. Christy came to New Mexico fifteen years ago, and located at Las Cruces, where for years he resided with his wife, the late Col. W. H. Hynes. For several years he was principal of the Las Cruces public school, afterwards chief clerk of the United States land office at Las Cruces and under the administration of Hon. John R. McNe as district judge. Mr. Christy held, for four years, the position of clerk of the court. He was a member of the legislative assembly, thirty-first session, and since retiring as clerk of the court has been in the active practice of law, making a success of the same.

Mr. Christy was 35 years of age and a native of Ohio. He had two children, his wife being a daughter of ex-conductor French, who for years held the passenger run between Albuquerque and El Paso.

The funeral occurred at 2:45 p.m. yesterday, under the auspices of A. Lee Lodge No. 3, A. F. and M., and was one of the largest and most impressive funerals ever held in Las Cruces.

Mr. Christy was the nominee on the republican ticket for the counties of Grant and Dona Ana, for congressional for the above counties and was defeated at the November election, owing to the unexpected large majority against him in Grant county. He carried his own county by nearly 200 majority and his precinct by 57 majority over his opponent A. B. Hall, both residing in the same precinct.

Mr. Christy's death is generally mourned by all classes of our citizens and his family have the profound sympathy of the entire community.

A FRIEND.

RATHER ROMANTIC.

One of the Promoters of the Electric Street Railway in a Happy Role.

George Crater, Jr., the young attorney of Denver, who was here a few days ago, in the interest of the proposed electric street railway and was introduced to many of our citizens by E. A. Pearson and H. D. Johnson, was also on his wedding trip, but he did not intimate such to Messrs. Pearson and Johnson. Two days after Mr. and Mrs. Crater left this city for San Francisco, the Denver Republican arrived and it contained a picture of Miss Esie Tittel, Mrs. Crater, Jr., and in commenting on the affair the Republican says:

Down at the Orpheum for the past two weeks a sprightly young actress, with a strong Colorado accent, has been playing leading roles. Full of ambition her mind soared to larger audiences and a larger salary. But to her surprise this audience contained her kismet. One of the frequent habitués of the Orpheum was George Crater, Jr., a young attorney, who is quite well known in this city.

Some time ago the California actress met the native Colorado attorney and they loved. As leading man and leading lady these two performed a love drama before a select audience and little was said in public of the success of the play. The first announcement of the marriage was made by the bride to her mother in San Francisco.

The marriage was a secret, and the father of the groom, George Crater, Sr., was not even aware of the wedding until his son and wife were ready to leave Denver for San Francisco, via Albuquerque.

In regard to her stage life, the Republican has this to say:

Miss Esie Tittel is one of those young actresses of whom have made a favorable impression in Pacific coast theatrical circles. So popular were they that Pan Francisco heard of them and some of the frequent habitués of the Orpheum were George Crater, Jr., a young attorney, who is quite well known in this city.

KILLING AT CERRILLOS.

Edward Langston Shot to Death By Felix Salinas.

Harry Lang Companion of Langston Was Slightly Wounded.

The Shooting Was the Outcome of a Drunken Quarrel.

SAINAS TAKEN TO JAIL.

Special to the Citizen.

Cerrillos, Dec. 26.—Edward Langston, who was a brakeman on the Waldo branch and brother to Conductor Jack Langston, was shot and killed here this morning at one o'clock by a Mexican named Felix Salinas, a Madrid coal miner.

Harry Lang was with Langston at the time and received a slight flesh wound in the left shoulder. The evidence brought out at the inquest, shows that Langston was drinking some and got into a row with a party of five Mexicans, two men and two women, some of whom were also drinking and one of whom he knocked down. He then went for Harry Lang who came and appeared to be acting as peacemaker. The two followed the Mexicans to their quarters where they came together and Salinas was consequently battered up by Langston. The first shot was fired by Salinas wounding Lang who got away. Langston fired one shot without effect and Salinas emptied his pistol, one ball striking Langston above the right eye, killing him instantly. The Mexicans left Langston on the bridge going to wards Madrid, but returned later and gave themselves up this morning. None were held except Salinas who will be taken to Santa Fe this afternoon toward the prison of the district court. The body has been embalmed and will be taken to Topeka to be buried where the parents of the deceased reside.

HOV. A. L. CHRISTY.

Death of This Popular Gentleman at Las Cruces on Christmas.

Las Cruces, N. M., December 27. Hon. Albert Lincoln Christy died at his residence in this city on Christmas day at 1:45 p.m., after a lingering illness lasting since about November 10th. About that date he was taken with what afterward proved to be an attack of typhoid fever and never recovered.

Mr. Christy came to New Mexico fifteen years ago, and located at Las Cruces, where for years he resided with his wife, the late Col. W. H. Hynes. For several years he was principal of the Las Cruces public school, afterwards chief clerk of the United States land office at Las Cruces and under the administration of Hon. John R. McNe as district judge. Mr. Christy held, for four years, the position of clerk of the court. He was a member of the legislative assembly, thirty-first session, and since retiring as clerk of the court has been in the active practice of law, making a success of the same.

Mr. Christy was 35 years of age and a native of Ohio. He had two children, his wife being a daughter of ex-conductor French, who for years held the passenger run between Albuquerque and El Paso.

The funeral occurred at 2:45 p.m. yesterday, under the auspices of A. Lee Lodge No. 3, A. F. and M., and was one of the largest and most impressive funerals ever held in Las Cruces.

Mr. Christy was the nominee on the republican ticket for the counties of Grant and Dona Ana, for congressional for the above counties and was defeated at the November election, owing to the unexpected large majority against him in Grant county. He carried his own county by nearly 200 majority and his precinct by 57 majority over his opponent A. B. Hall, both residing in the same precinct.

Mr. Christy's death is generally mourned by all classes of our citizens and his family have the profound sympathy of the entire community.

A FRIEND.

RATHER ROMANTIC.

One of the Promoters of the Electric Street Railway in a Happy Role.

George Crater, Jr., the young attorney of Denver, who was here a few days ago, in the interest of the proposed electric street railway and was introduced to many of our citizens by E. A. Pearson and H. D. Johnson, was also on his wedding trip, but he did not intimate such to Messrs. Pearson and Johnson. Two days after Mr. and Mrs. Crater left this city for San Francisco, the Denver Republican arrived and it contained a picture of Miss Esie Tittel, Mrs. Crater, Jr., and in commenting on the affair the Republican says:

Down at the Orpheum for the past two weeks a sprightly young actress, with a strong Colorado accent, has been playing leading roles. Full of ambition her mind soared to larger audiences and a larger salary. But to her surprise this audience contained her kismet. One of the frequent habitués of the Orpheum was George Crater, Jr., a young attorney, who is quite well known in this city.

Some time ago the California actress met the native Colorado attorney and they loved. As leading man and leading lady these two performed a love drama before a select audience and little was said in public of the success of the play. The first announcement of the marriage was made by the bride to her mother in San Francisco.

The marriage was a secret, and the father of the groom, George Crater, Sr., was not even aware of the wedding until his son and wife were ready to leave Denver for San Francisco, via Albuquerque.

In regard to her stage life, the Republican has this to say:

Miss Esie Tittel is one of those young actresses of whom have made a favorable impression in Pacific coast theatrical circles. So popular were they that Pan Francisco heard of them and some of the frequent habitués of the Orpheum were George Crater, Jr., a young attorney, who is quite well known in this city.

things his own way. People soon learn that it is not dangerous. He may occasionally raise a little dust and annoy the children by the circumference of his boots, but no harm is done. Just let him kick—kick at the editor, kick at his lodge, kick at his order, at anything he desires to kick. Leave him alone in his glory. Do not try to restrain or punish him. Never be cruel to a dumb brute. F. E. H. Banner.

From Daily of Dec. 25. THE CASUAL SCHEDULE.

An interview with J. E. Saint, what he says on the subject.

THE CITIZEN representative called on J. E. Saint this morning to learn, if any thing new had transpired in the new canal scheme.

Mr. Saint said: "As long as I have lived in this town I have never known such an interest manifested in a new proposition so quickly. I have been besieged on every hand for further information."

"Have you organized a company?" asked the reporter.

"Yes," replied Mr. Saint, "the papers are filed and in a few days we will be ready for business."

"What is the purpose of the proposition?"

"Well, the plan is practically as outlined in my paper last Saturday night."

"You anticipate any difficulty in getting the \$200,000 subscribed by our local people?"

"No, I think not. The First National bank has already subscribed one-tenth of the amount asked, and a well known doctor said to put him down for \$20,000 that does not look like failure does it?"

"Suppose you get the \$200,000, what then?"

"Why, we will begin at once to get the best practical irrigation engineer possible, one whose plans and estimates will be complete, get right of way contracts made, and then we will begin to build."

"Have you any one in mind who will do the work?"

"Yes, and have a slight favor to ask. If we are successful in getting things in proper shape."

"What do you think of the other water presented to the city, the one on the street railroad and the other on the highway?"

"The citizens of yesterday gave a verdict on the highway water, and on the street water. They have shown their preference for the street water. We will follow their lead."

"The citizens of yesterday gave a verdict on the highway water, and on the street water. They have shown their preference for the street water. We will follow their lead."
